

ANCIENT TEARS BLOODLINE

Chapter 8 - SAFEZONE 1012 OUTPOST 2

Mr James then gave a tap on his Sci-fi watch, Which belongs to CLASS LME-1 (LME-Low Medium End), then in front of his desk Virtual Projection Screen with Advanced Tech Resolution (ATC) turns on, It gives you experience is like you are actually in that place and chatting casually with a group of friends,

In that projection shows four institutions of SAW SCALE VIPER ACADEMY (SSVA) is shown.

Mr James said "Since it's the era of warriors equipped with sci-fi technology, each institution strongly determines candidates based on overall strength, from their aptitude to basic physic, threat awareness level to facing life and death situations in the complex environment".

"Only by doing this warrior can face any situation and humanity can explore unmarked areas in our planet very quickly, with a lack of data of unmarked areas otherwise warriors would face unilateral slaughter of monsters,

So we need every individual with the unique potential shown with not only strength but intelligence and survival capabilities in harsh environments".

Hearing what Mr James said, Granny asked, "will you be able to get the slot for Zack? the seat in the academy is a cutthroat competition! Most of the slots were all pre-registered by those powerful and influential people for their sons and daughters".

Mr Ferral now interjected "There is Nepotism and Favoritism, You cannot expect a wealthy person's son or daughter to rot in the low-bottom institutions, with their connection and wealthy resources they can protect them! Without background, you cannot face them, I believe already A Grade and B Grade institutions occupy by them".

Mr James said. "Now it's the era of strong, strong who dictates, Strong who makes the rules, the only good thing is that there is a lot of superpower organization in our planet, there is no individual monopoly or individual rule! There is a Group of Ancestor who makes Decision! so there is check and balance".

Granny worried and said "Those guys fed their children with treasures of a different class, with those treasures, the Body constitution of children will

undergo tremendous changes with that qualification alone, they can get their slot in the A and B Grade institutions of the academy but Zack is different his constitution is strong because of his parents"

"We haven't tested his constitution! plus he did not consume any resources for his physical ability it will be hard for him to get a chance even in D grade institutions".

Mr James discussed sadly " I don't have family, now I adopted Zack based on my merit in the Army Federation, I got only a temporary slot for Zack in D Grade institution! When Zack will be tested with potential, he will be able to get a permanent seat in the D Grade institution".

*As for those C Grade institutions.

I don't have enough merits! But only if Zack shows better potential in the qualification test, He may even get a Slot for C Grade institutions under SSV Academy (SSV- SAW SCALE VIPER)".

"There are still two years until evaluation , In meantime, I will get some low-end treasures for Zack".
