

ANCIENT TEARS BLOODLINE

Chapter 9 - Discussion

A couple of weeks after awakening...

Zack is now sitting in his orphanage library, currently checking the visual platform to find any useful books in the library.

There is no book available containing information about combat power, I heard my friends discussing the attack of the Monster tribe, I want to know the strength of our people! Zack thought inwardly.

After the awakening of his brain's 7 regions, He becomes a lot mature in thoughts, no emotional fluctuate.

Zack said to himself: After becoming 10 years old you have to leave the orphanage according to rules, each year a lot of new children come into the orphanage, and old ones go out.

I heard after coming out of the orphanage there will be a potential test to become a warrior conducted by every organizations.

I need to soon figure out my situation, need to find information regarding how to level up my powers both body and mind (7th region of the brain)! I'm going to ask Granny.

Late at the dinner table in his room,

Zack asked Granny "Granny Park, I want to ask something, can you tell me? please!".

Granny said "Tell me".

"I want to know about the combat strength of warriors, you told me before that I will be joining an academy, so I decided to train harder". Zack asked seriously. Granny Park was taken back, I never expected him to be so serious, I kept many things from him intentionally.

So that he can handle rejection during the potential tests otherwise if I told him it would certainly add pressure on him, he already knows about elite forces considering his age it is not good to know too many things, I rather let James, He won't reveal too much, Granny Park thought inwardly.

Then she said. "Next week James is coming to see you, you can ask him directly".

Zack said. "It is good since Uncle James is coming, I will ask him directly. He also thought inwardly, by then I will ask him to demonstrate about ranking power level".

I heard about ranking power level is different from normal Knight warrior! Ranking warriors can display godly powers. He thought.

Soon after eating dinner, He fell asleep

He is been practicing hard doing body exercises, he is been scolded by granny not to train the fighting exercises without a teacher.
