

BloodLine 981

Chapter 981: 2nd Virtual duel win

From MC's Perspective:

Right after, the small break was over.

Another figure appeared in front of me.

The person is none other than Rosie, the Peak Stage SSS-ELITE Warrior.

She has a typical blue lightning, which is a common lightning Variant found among many warriors.

Rosie is standing opposite.

But her expression was not calm.

She has seen the previous duel.

She knows that Warrior of Ice and Fire Palace add strength.

So she was shocked by Iron's defeat.

[The duel starts at 1...2...3...]

When the countdown ended.

Swoosh!

I dashed forward without using the movement technique.

Rosie took her sword out to slash.

Thunder!

A blue lightning arc shot out from her sword.

Seeing that I coated the black sword with purple lightning.

In the blink of an eye, the sword blade flickered with a purple light.

When the blue lightning arc reached me.

Cut!

I raised the black sword and cut vertically.

When the purple lightning-imbued blade comes in contact with the Blue Lightning arc.

Ka##boom!

An explosion occurs.

The blue Lightning arc shatters into a multiple small lightning arc before striking the ground.

Simple purple lightning was able to neutralize the blue Lightning.

Rosie gritted her teeth.

Now she understands what's abnormal about Zack Lockwood.

"He is at Early Stage, but his Purple Lightning is extremely powerful, so much so that it destroyed my blue Lightning Arc," She said in her heart.

She is not going to give up yet.

So she continues to use her sword moves.

Follow new episodes on the "N0vel1st.c0m".

Outside,

"See, I told you.

Her Blue Lightning Arc was destroyed just like that," old man Daniel commented.

"How did he improve his purple lightning?" The old man's eyes flash with curiosity.

Then he shakes his head, knowing that such talented warriors have their secrets.

This duel was especially arranged by a Main Elder of the Thunderflame Faction.

He can see that Zack Lockwood has an important position.

So he doesn't want to mess with the Thunderflame Faction.

Behind him, Iron was convinced.

Because his level was at Mid-stage.

But Ronnie is at Peak Stage.

Her lightning attack was supposed to be powerful.

But it got obliterated by the opponent's purple lightning.

Despite Zack's current SSS-ELITE Early Rank.

He can fight across using purple lightning alone.

Meanwhile,

The whole Thunderflame Faction is watching the duel.

Everyone was surprised by the 1st duel's result.

Everyone has heard of newcomer Zack Lockwood's strength.

Because only talented and strong warriors were recruited to the Thunderflame Faction.

So no one doubted the Elders' vision.

Yet some warriors won't believe unless they see for themselves.

2nd The duel is fought by Zack Lockwood.

The 1st duel was when he defeated Ronnie, the Dark Variant Faction Warrior.

At that time, there weren't many people present.

Even only a few of them watched the videos.

Many believe that Ronnie was careless.

Some said that Zack Lockwood was stronger than Ronnie.

But this ongoing duel is giving a clear picture to everyone.

Especially inside the Ice and Fire Palace, the warriors training here were watching the duel as well.

Iron's defeat came as a shocker.

Everyone saw how the raging tornado flame was neutralized.

Then they witnessed the power of lightning.

Which had left Iron half beaten to death in Virtual Space.

Seeing that the same situation is taking place.

The warriors were silent.

They exchanged looks and comments from time to time.

"This Junior's purple lightning is strong.

With the elemental, he can bridge the gap between small stages," An experienced warrior said.

"Humph, Iron has completely lost the face of us.

He should have let someone register the name," A warrior said with a snort.

"Don't worry, everyone has an opportunity tomorrow.

Didn't everyone know it's a special task?

Zack Lockwood is undergoing some kind of special training."

"That's why the task was like this.

To make someone spar against Zack Lockwood daily," The experienced warrior said again.

Hearing that everyone nodded their head.

There is no point in arguing right now.

Since today's task was gone.

They have to let strong warriors fight against Zack Lockwood.

"Iron's flame poses no threat to him.

Who of us got the strongest flame in the SSS-ELITE Rank," A female warrior asked.

Hearing that, everyone was startled before understanding something.

Even though they are fire element warriors.

There are clear divisions among them.

Not everyone's flame is powerful.

"Many of them are on a mission outside.

We should decide among ourselves,".

The experienced warrior said.

On the other hand, the Black Flame Palace members are watching the duel with gloomy expressions.

Their member Rosie is being suppressed in every way.

Every time she uses her Blue Lightning.

Her lightning power got decimated by Zack's purple lightning.

The Black Flame Palace, like the Ice and Fire, has few members with other elements.

Rosie was one among them.

They felt if she studied in the Golden Lightning Palace.

Her strength would have increased.

Inside the blue virtual space,

Rosie is tired out.

She is sweating.

She has been using her moves continuously to try to hit Zack Lockwood.

Yet her efforts were successful.

“Have you moved?” I asked.

I have been defending and destroying her attack.

If I wanted, I could have ended the duel with a few moves.

But that would be a waste.

I’m getting used to virtual experience.

So I need a sparring partner.

Rosie has been good so far.

Her Blue Lightning was not bad.

But she doesn’t know I have purple lightning seed.

Rosie's eyes flash with a firm glint.

She then put her sword back into her storage ring.

Then she channels the blue lightning around her.

A blue lightning arc completely covered her body.

Boom!

The next second, she dashes towards Zack.

With a booming sound, she crossed the distance and appeared before Zack Lockwood.

My mouth curves into an arc.

Rosie's move seems to be a trump card.

"Lightning Wheel"

A purple lightning wheel materialized around me.

In that instant, she collides with the lightning wheel.

The wheel explodes, causing purple lightning to strike everywhere.

Rosie, who is covered with blue lightning, took the full brunt of the attack.

Boom!

The blue Lightning that covers her body shatters upon contact with the purple lightning.

The remaining purple lightning struck her body one after another.

Boom!

In the blink of an eye, purple lightning bombarded her body.

Argh!

A muffled grunt left her mouth.

Before her body could land on the ground.

Her body disappears.

“Death,” I said in my heart.

The purple lightning wheel destroyed her.

[Zack Lockwood is the winner]

[You got 5 minutes to prepare for the duel]

The voice sounded again.

Hearing that I thought of the purple lightning reserve.

[Dantian Lightning Reserve:72%]

Seeing that, I sighed inwardly.

I believe that the last duel won't be any different.

The Green Lightning is another Variant of the Lightning.

I don't know how destructive it is compared to Purple Lightning.

Outside,

Rosie removed her helmet and opened the pod chamber to step out.

She was mentally tired.

She lasted more time than Iron.

"How was the duel?" Iron asked in a sarcastic tone.

"Harumph," Rosie snorted.

"The duel was one-sided," She muttered to herself.

Iron heard her murmur.

"Don't worry.

Just look at the charts.

You won't feel bad anymore.

That guy's purple lightning power is truly monstrous," Iron said, pointing at the blue screen.

Rosie followed her gaze and noticed the details.

When she saw the destructive power recorded for each of their Lightning elements.

She squints her eyes.

When her gaze fell on Zack Lockwood's information.

"F@ck," She widened her mouth in disbelief.

"1124°C?" She uttered in surprise.

How can one control such a power at this stage?

"Shocked?" Iron asked.

Rosie nodded her head.

"I felt the same as well.

I guess he can be ranked among the Top 10 in the whole Star University.

When it comes to the SSS-ELITE Rank," Iron said with a smile.

"The boy is right.

One can control such power at this stage.

But it requires special treasures," Old man Daniel said.

"I thought so as well," Rosie muttered.

Because only powerful treasure can improve one's elemental power.

Inside the Dark Variant Faction,

"Ha...Ha...Ha...", Ronnie let out a joyful laugh.

Now he confirmed that Zack Lockwood's purple lightning element is indeed abnormally powerful at the same stage.

"He must have used treasures to improve the lightning element," He thought.

But such special treasures are rare.

Then he thinks about the Thunderflame Faction.

His eyes flash with a coldness.

The Dark Variant Faction is equally strong to the Thunderflame Faction.

Yet the Dark Variant Faction hadn't given him any treasures to improve his dark lightning element.

Despite the dark lightning element being rare among the lightning variants.

"I should contact the elders," Ronnie said to himself.

He was sure that it was impossible to defeat Zack Lockwood at the current stage.

Unless someone with monstrous elemental power meets him.

He doesn't know if others are hiding such elemental powers.

Chapter 982: 3rd Virtual duel win

From MC's Perspective:

Shortly afterwards,

Russel appears in front of me.

He was someone from the Lightning Wolf Palace.

So I'm expecting him to be stronger than the other 2 warriors.

Russel's expression was solemn.

He has seen the previous 2 duels.

He won't make a laughing stock out of himself.

Instead of facing the purple lightning head-on.

He has decided to come up with a different strategy.

[Count down 1...2...3...]

When the countdown number ended.

Russel took out the dagger and held it in his hand.

In the next second, he uses movement techniques to reach Zack Lockwood in a short time.

A green arc exploded underneath his feet.

Boom!

His figure is moving in a blur.

People can only see the green arc moving at a fast speed.

He kept his dagger forward to stab while moving.

On the other hand, I held the black sword in my right hand.

I wonder whether he has watched the previous duels.

Coming at me directly is nothing but a dead move.

In the blink of an eye, he appears in front of me.

When I thought of using the "Lightning Wheel" technique.

Russel jumps up high in the sky.

While doing that he imbued green lightning to the dagger.

Seeing the scene unfolding before my eyes.

My mouth curves into an arc.

“Lightning Phantom”

I used the movement technique.

The next second, purple arcs covered both of my legs.

Before Russel could move his dagger towards me.

Boom!

I exploded at a high speed.

Follow new episodes on the "N0vel1st.c0m".

I moved away from the spot right before a green-lighting dagger flashed before my eyes.

Swoosh!

After creating a gap, I looked at him again.

Russel is smarter than the other 2 warriors.

He knows what to do.

“Looks like I won’t be able to end him by using a simple sword move,” I said to myself.

Then I put the black sword back in my storage ring.

I’m ready to use hand-to-hand combat right now.

Russel raised his eyebrows in surprise.

He thought Zack would use another Sword Move.

But he shows bare hands right now.

But he won’t fall for the tricks.

Swoosh!

He again rushes forward to attack.

His dagger is imbued with green lightning, like a venomous green snake ready to pounce on its enemies.

In the blink of an eye, he closes the gap again.

Russel’s eyes flash with a cunning glint.

This time he won’t miss it.

At the same time, he is wary of Zack Lockwood's next move.

On the other hand, I noticed he got closer to me.

"Lightning Drop"

I used the lightning technique.

A purple lightning ball forms in my right arm.

The purple ball holds a destructive power.

The next second, I shot a purple ball near Russel's feet.

This all happened within seconds.

Russel's pupil shrinks.

He has already made up his mind to not get hit by the purple lightning strike.

When he tries to move away.

The purple lightning ball has touched the blue space ground.

Boom!

The Lightning ball explodes in front of Russel's eyes.

Just as he thought he had avoided the direct hit.

The explosion caused the purple ball to shatter.

As a result, many small lightning arcs start to strike here and there.

A few of them come in the direction of Russel.

"F@#k," A foul sound left his mouth.

He immediately covers his forearms by using green lightning.

The green lightning appears to be thinner than the purple lightning.

When the small purple lightning arcs struck the forearms.

Boom!

An explosion occurs again.

The sheer impact force sent his body back flying.

Russel felt both of his arms were on fire.

Like he has placed his hands on flames.

He is experiencing deep pain.

He smashes on the ground before he stabilizes himself a few seconds later.

Then he saw the green lightning was completely gone.

Burnt marks can be seen on both of his arms.

“This?” He widened his eyes in disbelief.

He got injured by small purple arcs to this extent.

He then saw Zack Lockwood preparing for the next attack.

“Sh!t,” He cursed.

Then he stands on the ground.

On the other hand, I saw the aftermath of the attack.

Russel seems to be slightly injured.

But this was not enough.

I have already exposed some of the lightning moves.

I don’t want to use other moves further.

“Lightning Phantom”

I then used the movement technique.

A blue arc covered my legs.

I moved forward at the breakneck speed.

Boom!

A loud booming sound can be heard.

Russel tightened his grip on the dagger.

He is ready to face head-on.

But he couldn't help but think of that weird wheel lightning move.

If one collides with the wheel, move.

The damage would be destructive.

Then he thought of something before putting back his dagger into the storage ring.

He understood the meaning behind fighting by using bare hands.

It's restricting his fighting moves in one way.

Swoosh!

A green lightning bolt covers his whole body in the blink of an eye.

On the other hand, I noticed that Russel is trying to make the same move.

But I'm confident in my purple lightning power.

In the blink of an eye, I appeared before him.

I simply covered the right fist by using the purple lightning power.

Punch!

I raised my fist to attack.

Seeing that Russel did the same.

When both of our fists come in contact.

The purple lightning arcs, coupled with the brute force of mine, easily overpowered him.

Boom!

A loud noise sounded.

Russel was pushed backwards.

Before he could think of something else.

I rushed forward to attack.

This time I covered the fist with more purple lightning.

Boom!

One after another, a rain of punches landed on Russel.

So much so that he wasn't able to use the green lightning.

As time passed, he started to get serious injuries.

A few minutes later,

"Lightning Wheel"

Out of nowhere, I used the lightning wheel technique.

In front of Russel's unbelievable eyes.

A purple lightning wheel appears.

The wheel radiates with frightening power.

Before he could take it back.

I collided with the Lightning Wheel with his body.

Boom!

A loud explosion occurs.

The purple lightning directly struck the body of Russel.

The power was greater than before.

A small purple lightning arc nothing compared it to the Lightning Wheel.

Argh!

A muffled grunt sounded as the experience of pain was real.

Russel's body was bloodied.

His forearms were broken.

The center of the chest was cut open.

The injuries were gruesome.

Russel's vitality was slipping away very fast.

Unlike others, he keeps fighting after getting hurt.

Swoosh!

On the other hand, I appeared before him in the blink of an eye and punched at his head.

Pfff!

The head was smashed.

The vitality was dropped to zero in the blink of an eye.

When the endpoint was reached.

Russel's body disappears.

[Zack Lockwood is the winner of the 3rd duel]

The Mechanical voice sounded.

Before I could think of anything further.

I felt my consciousness go black.

When I opened my eyes.

I realized I was wearing a helmet.

I removed it and opened the pod chamber to step out.

When I stepped out.

I saw Russel stepping out from his chamber as well.

But he looked extremely tired, and his pain was real.

"Zack Lockwood, you have shocked everyone!"

"Your purple lightning holds destructive power," Iron said with a smile.

Hearing that I turned towards him.

I replied, "I'm just lucky."

"What Lucky?

Look at the charts.

Your purple lightning is different from others," Rosie said from the side.

Hearing that, I turned to look at a wide blue holographic screen above the table.

When I saw my profile information including the destructive power of lightning.

I squinted my eyes.

"They are recording my data.

Don't tell me they have found out my other two elements," I said in my heart.

Then I realized it was impossible.

I have shown only one element in front of others.

The data must be collected from that.

"Young man, you are something.

Come to the Virtual Training Lab often to improve yourself.

Otherwise, people will catch up to you,” Old man Daniel said.

Russel’s eyes were glued to the blue screen as well.

When he saw Zack’s information.

He was convinced.

Now he knows why small purple arcs managed to injure him.

A hint of fear appeared in his eyes.

“Fortunately, I didn’t fight against him in real life,” He said in his heart.

But when he thinks about the credit points.

His worries disappeared.

“Alright, guys.

Thank you for fighting against me.

See you again,” I said before turning around to leave.

Hearing that, the other three warriors were stunned.

“Wait, I’m coming with you,” Rosie said all of a sudden.

Iron and Russel looked at each other.

“We are joining as well,” Iron said.

In the blink of an eye, three of them left the lab.

Sigh!

Old man Daniel let out a deep sigh.

He then turns towards his staff.

He said, “Don’t forget to record each and every detail.

So that we can create a virtual avatar.

I guess others will be wanting to fight against it.”

Chapter 983: Overwhelming response

From MC’s Perspective:

After returning to my residence, I went to bed to sleep.

I didn’t notice earlier.

But I’m mentally fatigued.

Meanwhile,

Elder Austin showed a bright smile on his face.

Even without looking at Virtual Training Lab reports.

He can tell that Zack Lockwood has overpowered everyone by using the Purple Lightning.

“Purple lightning has evolved after its fusion with purple lightning seed, no warriors in the same realm can defeat Zack unless they got a similar Treasure,” He said to himself.

A quick glint flashes in his eyes.

He knows there are such warriors similar to Zack.

They are the personal disciples of Main Elders in the top 10 Factions.

He even suspects Dark Variant Faction’s top warriors have some treasures with them.

They may not be growth type elemental seeds.

It could be others.

Austin can be relaxed when it comes to one fact.

Because those warriors are in the ranks of Black Warrior and above.

So none of them can pose a threat to Zack Lockwood.

Right now, there is going to be a different headache tomorrow onwards.

Zack has fought in Virtual Space.

His profile has already been created.

Next, many warriors will register to fight against the Virtual Avatar.

He doesn't know which Faction would show interest first.

He sighs while shifting his mind to other topics.

Inside the Healing Palace, Master Ann is happy as well.

Her disciple Zack had completed the first task.

From tomorrow onwards, the competition will increase.

She knows that there is a Virtual Avatar.

But Virtual Avatar only has information which Zack had revealed so far.

She knows that Virtual Avatar doesn't have information on Zack's other elements.

So Zack had no choice other than to fight again tomorrow.

She wants Zack to gain more combat experience and get to know other rival faction members.

Follow new episodes on the "N0vel1st.c0m".

In this way, he could avoid getting plotted.

If someone challenges a real duel.

This Virtual Duel experience will help him.

After thinking about it, she resumed her work.

The ThunderFlame Faction members are shocked and surprised.

A 3 well known Monster Hunting Squad Members failed against a newcomer.

It was something hard to digest.

The members of Black Flame Palace, Ice and Fire Palace and Lightning Wolf Palace were especially embarrassed.

Most of their members considered it a face loss for them.

So they have decided to go to Task Hall early to register for the duel.

Meanwhile,

The ripples of Zack Lockwood's duels not only reached the Thunderflame Faction and Dark Variant Faction.

The other faction members in the Top 10 felt it as well.

Everyone became thrilled to fight against the Virtual Avatar.

Especially Ronnie, the Dark Variant Faction member already sent a request to the Main Elders after the end of the last duel.

Similarly, other SSS-ELITE Rank Warriors in the Dark Variant Faction sent a request to the Main Elders.

In the blink of an eye, the Main Elders of the Dark Variant Faction have received more than hundred requests.

It's like almost all the SSS-ELITE Rank Warriors have decided to fight against the Zack Lockwood avatar.

There a scheming warriors in both kind of the Bloodline Factions.

Some of them want the Virtual Avatar of Zack Lockwood as a whetting stone for their growth.

They too sent a request to their Main Elders.

Blazing Fire, Dew Water, Storm Wind, Mountain Earth,

Dazzling Gold and Cutting Silver.

The Remaining Top 10 Faction's Main Elders received a request from the interested warriors.

In a few hours, the Star University's Main Elders have learnt about a fresher named Zack Lockwood in the Thunderflame Faction.

Many of the Main Elders have agreed to their members' requests.

But the sheer amount of requests is huge.

It's impossible for Virtual Training Lab to allow everyone.

There are only a few pod chambers.

So the Virtual Training Lab Supervisor, old Man Daniel would only decide based on first come first served.

Those Main Elders who agreed to the members request first would receive the preference.

Inside the Virtual Training Lab, Old man Daniel is looking at the screen.

He is getting updates regarding the faction members' requests.

[Member: Ronnie Seth, SSS-ELITE Rank Peak Stage, Dark Lightning.

[Faction: Dark Variant.

[Approved by: Martha Norton, Main Elder, Dark Variant Faction]

After looking at the 1st name of the warrior who is going to fight against the Virtual Avatar of Zack Lockwood.

The old man Daniel's mouth twitched.

Who doesn't know the Thunderflame Faction and Dark Variant Faction are odd against each other.

He can see that the Dark Variant Faction wants their warriors to defeat even the Virtual Avatar of the members of the rival faction.

He then goes through the namelist.

He realizes that every famous member in the top 10 factions has applied.

Even the Medium sized and Small Sized Faction Elders were given their approval as well.

He can totally understand the ideas of these Medium and Small Sized Factions.

If their Warriors can defeat someone from the Top 10 Factions.

Then their popularity will rise.

Right now, the whole of Star University is aware of the name “Zack Lockwood”

It took him more than one hour to go through all the lists.

The staff working inside were terrified.

Usually, this was not the case.

The Main Elders won’t give approval to their members just like that.

They were well aware of the situation inside the Virtual Training Lab.

Despite knowing that everyone gazes approval.

Which shows that Main Elders of these Factions want to use this opportunity to get a name for their faction.

It can be taken as competition between the Faction.

The Competition is not necessarily restricted to the actual duels, strength of the faction, strength of Main Elders and their Faction Leaders.

This Virtual Lab Training can be taken as competition.

This was not a rare situation.

Old man Daniel has seen this before.

Whenever famous warriors or amazing newcomers appear.

This situation takes place.

Most of the time, the warrior would succumb to the pressure and continuous challenges.

He hopes that this would not be the case with Zack Lockwood.

Which is why he was surprised.

When he heard that Thunderflame Faction Main Elders approved of this Virtual Training.

Not everyone can take up this challenge.

“We have a lot of work in our hands.

We are getting requests to arrange a virtual duel for warriors.

Zack Lockwood’s Task will again start at noon.

So we can arrange 5 virtual duels for others in the morning,” Old man Daniel gave orders to the staff.

The staff responded positively.

Usually, the Virtual Training Lab would be empty.

Not very often everyone comes to train here.

So the staff are quite excited as well.

They are looking forward to seeing which one of the SSS-ELITE Warriors is powerful in the Star University.

...

Dark Shadow University:

A few hours later,

The Warriors in the University have a similar Virtual Training Facility.

But unlike the Star University, everyone can participate in the Virtual Duels without getting permission from the Elders.

It’s because the number of warriors in each Hall is less compared to Star University and others.

They recruit the warriors based on the talent and their murderous nature.

Their top inheritances are related to killing and Dark Attributes.

So their requirements for the common elements are less.

So the Management was able to provide a virtual training facility for everyone.

They can use the facility as if they were playing a video game.

Some of the warriors who were most into the Virtual Training heard of news from the Star University.

They became curious.

It is not a secret that Star University's Virtual Training Environment is low compared to other Universities.

All other universities give equal importance to real duels and Virtual Duels.

Whereas in the Star University, the warriors prefer real Duels than virtual duels.

Except for some rare cases which are happening right now.

These Shadow University Warriors are paying attention to this new development.

...

The following day,

Ronnie Seth woke up earlier than he usually does.

A few hours later,

Before the Virtual Training Lab Staff could arrive.

He was already there waiting in front of the main entrance.

Just as the staff started coming.

The SSS-ELITE Rank Warriors from other factions started coming as well.

The numbers grow as time passes.

At one point, a big crowd gathered in front of the gate.

Ronnie showed a helpless smile.

He knows most of them have come here for fun.

He doubts whether others registered as well.

But he has no idea that Most of the Main Elders in the Star University have given approval.

It's just the Old man Daniel has sent a notification to first 5 warriors including Ronnie for today's duel.

Others yet to receive such a notification.

Many of the Warriors standing in front of the gate have recognised Ronnie Seth.

Their pupil shrinks.

They know Ronnie is one of the top warriors in the Dark Variant Faction.

They have heard the news about his previous defeat at the hands of Zack Lockwood.

Now they can understand why he was here before anyone else.

Chapter 984: Ronnie Seth's trick

Virtual Training Lab:

"We can start the duel someone go and ask Ronnie Seth to come here," The old man said.

Hearing that a male staff member went outside to bring Ronnie.

Old man Daniel's eyes flickered.

He is looking forward to today's duel.

After long time, they were all going to be busy.

He don't know whether Zack Lockwood would show some new moves today.

It can help him to update Zack's avatar data.

When he returned with Ronnie Seth.

The old man simply nodded to him and gestured to Ronnie to enter the pod chamber.

Ronnie saw the pod chamber.

This is not his first time.

So he is familiar with the operations.

He entered the pod chamber and closed the top cover before wearing the helmet.

Seeing that old man Daniel nodded his head and asked his staff to turn on the wide blue screen.

A wide blue screen appears displaying the virtual space scene.

Shortly afterwards,

The Virtual Avatar of Ronnie Seth appears.

Then the staff sets the Avatar of Zack Lockwood as the opponent.

The Avatar's information was collected based on Yesterday's duel.

Inside the Virtual Space, Ronnie was excited.

When the Virtual Avatar of Zack Lockwood appears.

He begins to prepare himself.

The Virtual Avatar's appearance is close to the Real look.

But everything is artificial.

Even the blood and injuries are artificial.

When the countdown ended.

Boom!

Ronnie shot the arc of black Lightning at Avatar.

He wants to test the avatar.

Like a snake, the black Lightning arc immediately reaches the Avatar.

The next second, the Avatar of Zack Lockwood brings up a black sword to block.

Follow new episodes on the "N0vel1st.c0m".

The Black Sword was coated with purple lightning.

When the black Lightning touched the blade.

The lightning energy was shattered by the purple lightning.

This all happened within seconds.

Seeing that Ronnie's eyes flickered.

He is finally able to get that feeling when he faces Zack Lockwood for the first time.

The purple lightning was not ordinary lightning.

Then he starts to increase the attacks.

One after another, black lightning arcs were shot at the avatar.

Outside,

Old man Daniel is watching the duel.

He knows that Ronnie Seth was known for a rare dark attribute lightning element.

So he had hope.

But when Zack Lockwood's avatar destroyed the black lightning by using the simple purple lightning energy.

He realizes that Ronnie is still a step behind in defeating Zack's avatar.

The purple lightning of Zack's avatar is dominant and destructive.

The staff are all working to collect the data.

They understand Ronnie might be forced to show his trump card.

If the trump cards or any progress from previous data shown by Ronnie.

Then it will be used to update his Avatar's profile.

Meanwhile,

The warriors waiting outside were paying attention to the duel as well.

They didn't expect Ronnie to face the same situation.

Some of them have heard about his defeat at the hands of Zack Lockwood.

But the majority of them don't know.

So the current situation baffles them.

They continued to watch the duel.

Not only then, the members of the Dark Variant Faction were surprised as well.

They didn't expect the first person to fight today would be their faction member.

The next second, they understood the reason behind this.

Many were indirectly discussing Ronnie's defeat at the hands of Zack Lockwood.

Many of them accused Ronnie Seth of his carelessness.

This time everyone can see that for himself.

Whether Ronnie was careless or the opponent Zack Lockwood was strong.

Though he is fighting against the Avatar of Zack Lockwood.

As long as he defeats it, it would show there is not much difference between them.

Inside the virtual space, Ronnie was tired of throwing lightning bolts towards the avatar.

He knows that purple lightning is abnormal.

“The only way to defeat the avatar is to overwhelm it or catch it off guard,” He said in his heart.

He had his trump card as well.

He doesn’t want to use it here.

He came here to test the Avatar to see how much the gap between them.

But that doesn’t mean he came unprepared.

He still has tricks left to do.

Swoosh!

A Black Lightning bolt starts moving towards the Avatar.

Ronnie used the movement technique to give the fastest strike.

When he got closer to the avatar.

He immediately used a powerful move.

“Lightning hand”

A huge hand covered with dark lightning presses the avatar from above.

The Giant hand bringing the power of Black Lightning can turn anyone into ashes.

Ronnie's avatar looks at Zack to see what he's going to do.

The attack is coming from above.

He used this move after careful consideration.

In yesterday's duel, he noticed Zack Lockwood moved away from the spot when facing the attack from above.

So he came up with the move.

The avatar of Zack Lockwood immediately uses the "Lightning Wheel"

A purple lightning wheel appears around the avatar.

Seeing that Ronnie smirked.

"At the end of the day, it's still the virtual avatar," He said to himself.

But his smile disappears the next second.

The Avatar of Zack Lockwood leaps backwards when facing the attack from above.

So that the lightning wheel can touch the lightning hand first.

In the blink of an eye, both attacks come in contact with each other.

Boom!

An explosion occurs

The Avatar of Zack Lockwood was forced to retreat because of the impact force.

When Ronnie saw the aftermath his eyes flickered.

The purple lightning has managed to fend off the attack in the end.

Yet some black lightning bolts managed to touch it.

So the Avatar has received superficial injuries on the body.

“Humph,” Ronnie snorted.

He doubts whether Zack Lockwood leaps backwards in real life when facing this type of attack.

Swoosh!

Then he again uses the same attack.

He has decided to use this attack only.

Because in this way he can exploit the weakness.

He doesn't think other attacks will work.

Because of the abnormal purple lightning, his black Lightning fell short in front of it.

As time passes, one after another, a black lightning hand strikes the target continuously.

So much so that Ronnie was not ready to give a small time for the Avatar to retaliate.

Every time he uses the black lightning hand, he consumes the essence at a faster rate.

It's even more visible because it's virtual.

He can see the data.

Similarly, the Avatar is consuming the virtual purple essence at a faster rate.

Because the output of the purple lightning wheel is huge.

So, every time, it consumes a huge essence.

Outside,

"Ha...Ha...Ha..." Old man Daniel let out a small laugh.

"Good" "Goo, looks like he has done some research," He said to himself.

He can see that Zack's Avatar was at a disadvantage when using the lightning wheel against the black lightning hand.

However, the avatar managed to block the attack every time.

It also receives the Backlash from the recoil.

The impact force causes small injuries every time.

Some black lightning bolts managed to strike the avatar every time.

Seeing that Ronnie is not giving any time for Avatar to breathe.

His eyes flickered.

“Don’t tell me that brat has figured out the abnormal power of purple lightning,” He asked himself.

Then he thought of something.

Ronnie was the first one to apply.

So it can be said that he came prepared.

So it should not be a secret that he noticed something off about the purple lightning.

Old man Ronnie has also heard about the duel between him and Zack Lockwood.

“Good, if there are more warriors like him.

Then I can request the dean of the University to increase the number of pod chambers,” He said in his heart.

If the dean of Star University wants it, it's possible.

But he knows that the dean of the University and some faction leaders are old school.

They don't take virtual Training seriously.

As long as he can show the reports of their progress.

Then he can convince them.

Suddenly, the image of Zack Lockwood comes to his mind.

"I will need the help of this kid," He mused in his heart.

...

From MC's Perspective:

I woke up from my sleep.

Looking at the time, I realized it was late today.

But I don't care.

Because I only have duels at noon.

So I had free time in between.

For a second, I remained silent on the bed.

If I go outside before noon.

Everyone's eyes will be on me.

So I have decided to practice inside my small training room.

However, the world's energy won't be the same as that in the Golden Lightning Palace's essence chamber.

I think it's okay for the time being.

There is another option.

I can visit the Healing Palace.

But I don't want to disturb her.

After making up my mind, I got out of bed.

30 minutes later,

After completing the morning routine, I entered the training room to cultivate.

Chapter 985: Unexpected development

Virtual Training Lab:

A 20 minutes later,

Ronnie Seth manages to exhaust the Avatar of Zack Lockwood by continuously using the Black Lightning Hand.

When the Avatar exhausted the purple essence completely.

The data turns zero, indicating the complete depletion of the purple essence reserve.

The next second, the avatar of Zack Lockwood disappears.

[Winner: Ronnie Seth!]

A mechanical voice sounded.

“Ha...Ha...Ha...,” Ronnie let out a joyful laugh.

Outside,

Old man Daniel showed appreciation.

He thought no one could defeat the Avatar of Zack Lockwood because of the abnormal power of purple lightning.

But Ronnie has managed to find out the weakness and exploited it successfully in the end.

Ronnie Seth steps outside after opening the cover.

His face is lit with joy.

“Kid, don’t stop here after this win.

I guess that Zack hadn't shown his full power yet.

With his other techniques, the purple lightning power could be even more dangerous."

"So, practice well," Daniel said.

"Thank you, elder, for the advice.

I'll remember it," After saying that he decides to leave.

When he left the room.

Old man Daniel turned to his staff and said, "Update his profile.

And add the data of his Black Lightning Hand to his avatar."

"Since he has won against the Avatar of Zack Lockwood.

Others will be interested in fighting against him as well," He added.

A few minutes later,

He asked the staff to bring the next warrior.

...

From MC's Perspective:

Time passed in the blink of an eye,

All the morning duels were over.

Old Man Daniel asked the crowd gathered outside to leave.

He knows that Zack Lockwood will come again at noon.

He doesn't want these students to create any ruckus.

It didn't take any long for the warriors gathered at the Virtual Training Lab to leave.

Their Faction Elders wanted everyone to come back and not create problems at the lab.

Noon,

I left the residence and started walking towards the Virtual Training Lab.

My eyes flash with expectation.

Follow new episodes on the "N0vel1st.c0m".

Yesterday, I fought against some talented warriors.

However, I overpowered them by using the purple lightning.

They did pose a challenging fight.

So I wonder who will be coming today.

If my guess is right, people from the Main Elders faction will be more interested.

They don't want the limelight to be stolen by someone from the Main Elders Faction.

A few minutes later,

I arrived at the Virtual Training Lab Building.

Seeing the whole place was empty and calm like yesterday.

I raised my eyebrows in surprise.

I have expected warriors to come here.

To think no one has come.

Weren't they aware of yesterday's duel?

I didn't even check the online post.

Right now, the task is important.

So, pushing away these thoughts, I walked inside the building.

The same staff greeted me.

After nodding at her, I walked towards the room.

When I got there.

I noticed there were 3 Warriors already waiting for me.

All three of them were males.

They were a bit older than me.

“Zack Lockwood, you are here on time,” Old man Daniel said with a smile.

Then he looked at three Thunderflame warriors and said, “They have come before you.

We were just talking.

And I found out they have done good research on your duels.”

“Oh is it,” I pretended to be surprised.

“Hi, I’m Kevin.

6th Monster Hunting Squad Member, Golden Lightning Palace.”

“I’m Colter, 6th Monster Hunting Squad Member, Golden Lightning Palace.”

“And I’m Nash here.

Same as them,” A third handsome-looking warrior said.

“Hi, I’m Zack Lockwood.

Golden Lightning Palace.

Currently, the 6th member of the 20th Monster Hunting Squad,” I replied, but internally I was surprised.

I’m expecting warriors from other palaces to challenge me.

But I didn’t expect there to be warriors in my palace who were unconvinced.

Maybe because I didn’t have interaction with the Monster Hunting Squads.

“Okay, we can start the virtual duel.

Three of you are Peak Stage, SSS-ELITE Rank Warriors.

So who is going first,” Old Man Daniel asked, Clapping his hands.

He was more thrilled to collect data from Zack Lockwood.

He is hoping that three people will force Zack to use other techniques.

“I’m going first,” Kevin, a brown-haired warrior, said.

“Okay, all of you should enter the pod chamber first,” the Old man replied.

Hearing that the three warriors entered the pod chamber one by one.

I was the last one to enter.

But before I could open the cover.

Old man Daniel touched my shoulder.

“Do your best kid.

Someone defeated your Avatar in the morning duels.

I hope you can show a few more moves to make your avatar strong,” Daniel said with a smile.

“Someone defeats my avatar?” I uttered in surprise.

This time my shock was real.

How could someone defeat the Avatar?

The purple lightning was abnormal.

It shouldn't be possible.

“I like the expression you made now,” Old man Daniel chuckles.

He said, “His name is Ronnie Seth from the Dark Variant Faction.

He has exploited your weakness in using the Lightning Wheel technique.”

“Every time, you use technique.

The recoil effect was strong.

You didn't have time to stabilize.

He had perfect lightning to counter it," He added.

A quick gleam flashes in my eyes.

"Can I watch those videos?" I asked.

"I'll show after you finish fighting with these three," Daniel replied.

I nodded before entering the pod chamber.

Then I closed the top cover and wore the helmet.

"It's him," I uttered.

I knew he was not ordinary.

To think he was not depressed after getting defeated at my hands.

And he even defeated my Avatar.

I can't wait to see how he has achieved it.

After pushing down these thoughts, I focused my attention on the current situation.

A few seconds later,

My consciousness entered the blue space.

Then I found myself in the body of Avatar.

With a thought, the data of the purple reserve appeared.

Seeing that it was 100%, I dismissed it.

Opposite, the Avatar of Kevin appeared.

His expression was solemn.

[Countdown starts 1...2..3...]

When the countdown ended.

Kevin used blue-colored lightning.

A blue chain shot towards me.

The speed was so fast.

I had to pay attention to it.

When it got closer to me.

I sidestepped to avoid the attack.

Kevin showed no reaction after missing the attack.

Rather, he released a few more blue chains from his both hands.

Boom!

The next second, multiple lightning chains shot in my direction.

Seeing that I took the black sword out and swung it casually.

The blade comes in contact with the Blue Lightning chains.

Upon contact, I felt the power of blue lightning run through the sword.

Swoosh!

The next second, I leapt backwards before slowly covering the black blade with the purple lightning coat.

Kevin didn't change the pattern.

He continues with the attack.

Seeing that my eyes flickered.

"Why do I feel he is not here for a day?

Instead, he is here to probe me?" I thought.

Then I used the black sword to strike the blue lightning chains.

Upon coming in contact with the Blue Lightning chain, the purple lightning immediately shatters the chains.

Boom!

It caused a huge explosion.

But it was virtual.

I immediately moved towards other blue lightning chains to destroy them one by one.

In the blink of an eye, all the blue Lightning chains were gone.

I held the black sword and looked at him.

Kevin's eyes showed anger.

He couldn't believe that his infamous attack technique was destroyed just like that.

Swoosh!

In the next second, he uses the movement technique.

A blue lightning bolt covers both of his legs.

At the same time, he covered his right arm with the Blue Lightning.

On the other hand, I did the same with my right arm.

A huge purple lightning bolt covered my right arm.

Outside,

“What is he doing?” Daniel asked himself.

He noticed something wrong with a warrior named Kavin.

“Zack is also a member of Golden Lightning Palace.

Don’t tell me it’s the work of Elder Austin,” He thought.

...

Golden Lightning Palace:

Inside the Golden Lightning Palace, Austin is watching the virtual duel.

Looking at the clashes, his eyes flash with a glint.

He has given a task to Kevin and others to test the limit of his strength.

Even though it’s the task given by Elder Ann.

He thinks it’s necessary to put pressure on Zack Lockwood.

Yesterday’s duel result was unsatisfactory to him.

His disciple Zack had defeated everyone easily.

If not for the purple lightning, the duel could have been difficult.

...

Meanwhile,

Ronnie Seth was at his residence.

He once again logged in to watch the virtual duel.

After defeating the avatar of Zack Lockwood in the morning, he was greeted with a warm welcome by his members.

He even got a call from one of the main elders who congratulated him.

But despite all of this he was not satisfied with the result, deep down in his heart.

So while watching the duel, he is hoping to see the depth of Zack Lockwood's strength.

But he observed the behavior of Kevin more.

"Interesting," he muttered to himself.

Chapter 986: A weak trio

From MC's Perspective:

Kevin threw a punch at me, but I effortlessly dodged his blue lightning fist and landed a solid hit to his abdomen.

The speed of the exchange was intense, and he didn't expect me to evade his attack.

Argh!

Kevin let out a muffled grunt as he rolled backwards.

My punch packed a powerful punch, delivering a hard blow that he felt.

Seeing that he was trying to get up.

I don't want to give him any more chances.

I rush towards him.

When I got close to him.

I immediately executed the "Lightning Wheel" technique.

Ka#boom!

A purple lightning wheel appears around me.

Then I immediately collided with his body.

When the purple lightning wheel touched him.

Boom!

The next second, an explosion occurs.

The purple lightning bolts struck his body, paralyzing and causing injury.

Argh!

Another heart-wrenching cry escaped from Kevin's mouth.

His avatar was deeply hurt.

After a few more attacks, the avatar will be gone.

On the other hand, I appeared before his eyes and began to throw a punch at him.

Fist of mine filled with purple lightning.

Boom!

I continued to strike Kevin's Avatar.

The Avatar is getting weakened by every second.

Not long after, the Avatar of Kevin was destroyed, it disappears.

[Winner is Zack Lockwood]

A mechanical voice sounded, and then I retreated to my previous position.

Outside,

Kevin opens the cover of the pod chamber to step outside.

His expression was ugly.

Follow new episodes on the "N0vel1st.c0m".

He has failed to complete the task given by Main Elder Austin.

At first, he thought the task was going to be easy.

But only after coming here, he realized that he was weak against a newcomer.

On top of it, the purple lightning destroyed his avatar with ease.

“What are you doing?” Old Man Daniel asked.

Hearing that Kevin recollected his thoughts.

“It’s nothing,” He replied before leaving the facility with embarrassment.

He doesn’t know what to say when he meets Main Elder Austin.

He can only hope the other 2 can complete the task.

Old Man Daniel watched the whole scene.

After watching Kevin leave the premises, he furrowed his eyebrows.

“Don’t tell me he didn’t watch yesterday’s duel,” Daniel thought.

Because the first duel went easily.

Zack Lockwood didn’t even find it hard to defeat Kevin.

Inside the blue space, I waited for the 2nd Avatar to appear.

Shortly afterwards,

The Avatar of Coltor appears.

I stood cross armed, looking at him.

All three of them belong to the same Monster Hunting Squad.

I doubt whether he would do anything different.

Time passed,

After a few minutes, Coltor’s expression turned bad, similar to that of Kevin.

He, too, underestimated Zack Lockwood.

He couldn’t handle the power of purple lightning.

About a couple of minutes later, he met with the same end as Kevin.

[Winner is Zack Lockwood]

A mechanical voice sounded again, confirming the victory.

The Avatar of Coltore disappears.

Seeing that I sighed inwardly.

I expected a difficult challenge today.

But out of nowhere, three idiots came to challenge me.

It appears that they hadn't done any research on me.

I guess they found the task randomly and decided to come here and try.

Outside,

"Another failure," old man Daniel commented.

"What is Elder Austin doing?" he asked in his heart.

He thinks if Elder Austin had known.

He wouldn't have let these 2 come here.

Coltore steps out of the pod chamber.

He, too, was disappointed by his performance.

When he first saw Kevin's duel.

He thought Zack's strength was similar to him

However, he found something wrong with the power of lightning.

But during the duel, he realizes the real power of the purple lightning.

Without any technique to channel, a simple purple lightning bolt is enough to cause injury to others.

Colton too, didn't stay any longer.

He immediately left the place.

Old Man Daniel glances at the last pod and shakes his head.

He doesn't think the last one would be any different.

Inside the blue space, the Avatar of Nash appears.

His previous 2 squad members were defeated just like that.

Unlike the other 2, he has observed the details.

He was very sure that he couldn't take on Zack Lockwood's purple lightning directly.

So he drew the sword and started charging towards Zack.

On the other hand, I held the black sword in my hand.

Seeing someone using a sword, I decided to fight him by using sword moves as well.

When he got closer.

He made a vertical cut.

I sidestepped to avoid the attack.

At the same time, I stabbed him.

Nash quickly brought his sword downwards to block the attack.

Clang!

A metallic collision noise sounded.

I swung the sword before Nash could block it.

The tip of the blade manages to pierce through his right arm.

Thud!

A drop of blood dropped on the ground.

Nash uses his blue lightning movement technique to retreat backwards.

“Lightning Phantom”

Seeing that I immediately used the movement technique and started charging towards him to attack.

In the blink of an eye, 2 lightning bolts can be seen going one against each other.

As the 2 of them started using their Lightning power, their swords moved against each other.

Boom!

During each collision, blue and purple arcs spread across the blue space.

As time passes, Nash is slowly losing ground.

Each time, he consumes more essence to make his lightning attack more powerful.

Yet, he found Zack Lockwood steady, calm and relaxed.

Now he can understand the frustration felt by 2 squad members.

The task was given to them to test the limit of Zack Lockwood.

But after coming here, they were the ones being tested.

On the other hand, I found the sword clashing more joyful.

Unlike the other 2, Nash is being practical.

He found out soon that he couldn't go against my purple lightning directly.

So he is using sword moves to test me.

Still, he is losing fast.

About 20 minutes later,

Nash has exhausted his essence reserve.

Because of it, he was eliminated.

His avatar disappears the next moment.

[Winner is Zack Lockwood]

The Mechanical voice sounded.

Then I found my consciousness went back.

When I opened my eyes.

I have returned to the pod chamber.

I removed the helmet and opened the top cover to step out.

At the same time, Nash stepped out as well.

His face was not good-looking.

He looks exhausted.

Seeing that I know what happened.

He fought until he exhausted his essence reserve.

“Okay, you are not bad,” Old Man Daniel’s voice sounded all of a sudden.

He is speaking to Nash.

I stood cross armed and started observing him.

Feeling my gaze, he turned towards me.

“Thank you elders.

But I did nothing,” He replied to the old man before he started approaching me.

“Zack Lockwood, you are strong.

Elder Austin was right.

It’s just all three of us underestimated you.

If we had known your strength, we would have asked someone stronger to accept the task,” Nash revealed the truth.

Hearing that, I asked, “Did he send you?”

“Yes, Elder Austin asked us to test your strength and push you to the limit.

But it turns out the opposite; you have pushed us instead.”

“I have to say your purple lightning is powerful.

I can say you can walk freely among even General Rank and Commander Rank Warriors,” Nash said with a smile.

“I have a long way to go.

But I thank you guys for coming ” I replied.

“Don’t be quick to thank me.

I’m going to report it to the elders.

He will arrange a strong team tomorrow,” After saying that Nash decides to leave.

He nodded to both of us before leaving.

When he left the place.

Old Man Daniel shakes his head before saying, “I knew something was off with them.

But I didn’t expect them to come to test you.

It’s a total waste of time.”

“We didn’t get any useful data today,” He sighed.

“Don’t worry, elder.

I guess tomorrow will be different,” I said to him.

Old Man sighs before recalling something.

“Hey, kid.

You asked me earlier to watch Ronnie Seth’s duel against your Avatar.

Let me show you,” After saying that he played the video on the blue screen.

Hearing that, my expression turned serious, and my gaze fell on the blue screen.

Where I saw Ronnie Seth using black lightning against me.

At first, there weren’t any differences.

But as the duel progressed, I started to use the “Lightning Wheel” technique.

Then I saw him carefully avoiding direct contact with the lightning wheel.

At the same time, a black lightning hand appears from above and quickly presses down on the lightning wheel.

The new move by Ronnie Seth caught my attention.

The purple lightning easily destroyed the black lightning hand.

But Ronnie was able to retreat to a safe distance in time.

“He executed to attack at the right time.

And his attack turns out to be a rare wide range attack technique,” I said in my heart.

When the duel was over.

I got the full picture of it.

Ronnie’s technique happens to counter the lightning wheel technique.

And the lightning wheel consumes more essence.

In the end, my avatar was exhausted and defeated.

Chapter 987: Lightning Cage Technique (Practice)

From MC’s Perspective:

“Did you understand?” Old Man Daniel asked.

“Yes, I’ll improve my skills further,” I replied, relaxed.

Then I decided to leave.

After bidding bye to him, I left the lab.

Shortly afterwards,

I returned to the Thunderflame Faction.

Instead of going to the residence, I started walking towards the Golden Lightning Palace.

There are many things on my mind.

First, I want to train in the new lightning technique.

Then I decided to improve the Lightning Wheel technique as well.

I had to make sure that the recoil effect was not that strong.

While walking, I noticed the presence of other warriors around me.

Some of them are taking a glance at me.

But none of them showed interest in talking.

Shaking my head, I stride towards the location.

When I arrived at the Golden Lightning Palace.

The main door opened automatically.

My eyes flickered.

Then I entered inside.

To my surprise, I found the many warriors going about their business inside.

They must be training in the courtyard.

These people are Monster Hunting Squads under the Golden Lightning Palace.

I reached the residence.

Before I could knock on the door.

Creak!

The door opened.

“Come in,” Master Austin’s voice sounded from inside.

Hearing that I walked inside.

My gaze immediately fell on three people who were talking to Master Austin.

They are none other than Kevin, Colt and Nash.

“Zack, you have overwhelmed three of them,” Austin said with a smile.

Follow new episodes on the "N0vel1st.c0m".

“Come on, take the seat,” he added.

I nodded to him and sat on the sofa.

I found three of their gazes on me.

They were surprised to see me here.

“Okay, you guys can leave.

You have failed in your task.

I hope next time you won’t be this miserable fighting against Zack,” Austin said to them.

Three of them stood up and apologized before leaving the room.

When they left the place.

Austin sighed inwardly.

He then said, “I have asked them to test you before the duel.

I think you have already found out.”

“Yes,” I replied, relaxed.

Not being angry about this.

“It’s a pity they weren’t strong.

I can confirm that you have few rivals in the same rank.

The purple lightning seed is showing a greater effect than I thought.

It shows you have greater compatibility with the lightning seed," Austin said.

"Master, what about other factions?" I asked.

The ThunderFlame Faction has members who have lightning, fire, ice and healing elements.

If I don't have rivals here, then there is a possibility that other factions have strong members.

Austin leaned back and stretched himself.

He couldn't help but reveal a small smile.

They were all keeping Zack safe from going outside or participating in the Outer Hall Activities.

But the Virtual Duels of Zack have revealed the truth.

If they don't allow Zack to go outside, it might hinder his growth.

"Zack, I'm sure there are geniuses like you in other factions.

I'm not sure about some of them.

As many of the warriors like to hide their strength."

"But if you go to Outer Hall to attend the lectures or to meet other Faction members, you can find the answer," Austin said with a smile.

Click!

Something clicked in my mind.

“Is he asking me to go outside?” I asked in my heart.

Seeing that Zack is confused.

Austin said, “Zack, hereafter you can participate in the Outer Hall Activities.

We won’t stop you.

I’ll talk to Elder Ann.

No one can pose a threat to you in the Outer Hall.”

“So you can safely walk sideways in the Outer Hall,” he added.

“Master, thank you,” I replied, my eyes filled with surprise.

After joining Star University, I didn’t have the opportunity to look around the university.

Especially as an Outer Hall Student, I have yet to visit all other facilities.

“Okay, you can go now,” Austin said.

Then I thanked him before leaving his residence.

After coming out, I went to the fighting platform.

There I saw the members training individually.

Some of them are engaged in duels.

My appearance caused commotion.

“Zack Lockwood, what is he doing here?”

“I heard he had a duel this afternoon.”

“Maybe he came here to train.”

“Don’t forget he is a member of the Golden Lightning Palace as well.”

“Yeah, he is our member as well.

But where are all the idiots from the 20th Monster Hunting Squads.”

“They were not here.”

“Was he that strong as per news?”

“Will someone challenge him?”

As I walked through the members, I could hear their murmurs.

If I train in the open field, then everyone will stare at me.

Then I reached the next courtyard.

Where the essence chamber facility is located.

There are members here as well.

After nodding at them, I went inside.

I selected one of the rooms before going inside.

The door behind me shut automatically.

I walked to the control panel and turned it on.

Boom!

The next second, the world energy starts coming in.

I sat in the middle of the platform and closed my eyes to cultivate the lightning essence.

Outside,

The crowd watched Zack Lockwood going inside the essence chamber facility.

Instead of becoming quiet, the voices started increasing.

“Hey, can someone challenge him?”

“I doubt whether he can defeat all SSS-ELITE Rank Warriors.”

"I heard from Color.

It turns out Zack Lockwood's purple lightning can even hurt General Rank Warriors."

"What?" "Impossible!"

The warriors discuss among themselves.

But none of them dared to challenge Zack Lockwood.

It's just that most of them are weaker than the 6th Monster Hunting Squad.

Kevin, Colt and Nash were members of the 6th Squad.

Even the 6th Squad members were defeated.

So they were all hesitating.

The top 5 Squads members were all Black Mark Warriors, Silver Mark and Gold Mark Warriors.

They, too, understand that not many strong people are available in the SSS-ELITE Rank.

Even some of the old members in the SSS-ELITE Rank don't have a powerful lightning element.

Time passed in the blink of an eye,

The results of the 2nd-day Virtual Training Lab have reached the ears of everyone.

Compared to the first day, the second day was worse.

Other medium and small Faction Members wanted Old Man Daniel to select their members to fight against the Virtual Avatar of Zack Lockwood.

Old Man Daniel decided to carefully select the members for the next day's morning duels.

He wants to select warriors similar to Ronnie Seth who can use their brains to come up with solutions.

Nighttime,

I walked out of the essence chamber.

Seeing that the warriors training outside were gone.

I have decided to start practising the Lightning Cage Technique.

I went to the fighting platform in the next courtyard.

Standing on the platform, I started executing the technique.

I began channelling the purple essence according to the routes mentioned in the Lightning Cage Technique.

This technique requires both hands to discharge the purple lightning.

“Lightning Cage”

After circulation, powerful purple lightning bolts shot from both of my palms.

These purple lightning bolts then combined to form a cage-like structure.

But before the cage structures could take form.

It collapses the next second with a thunderous sound.

Seeing that my expression turned dark.

Then I realized my mistake.

I thought a one-time release was enough to form the cage structure.

But it looks like I have to supply the cage with continuous lightning.

Then I have to maintain the circulation after each release of lightning bolts from my palm.

After figuring it out, I tried the method.

On the other hand, Austin is watching the whole thing from a distance.

Seeing that Zack was able to get started in the Ancient technique this quick.

He was shocked inside.

He thought Zack would take at least half a month.

Then he sighed inwardly.

He thinks as long as Zack can break through in rank.

It won't be long before Zack can reach the level of his eldest disciple.

"Talking about the eldest disciple.

It's time for them to come as well," He said in his heart.

Looking at Zack, his eyes flash with a complex glint.

He had allowed Zack to visit the Outer Hall anytime.

But he knows that the Faction fight is going to intensify.

It all depends on the Faction Leader.

The Zero Squad members are fighting against the Zero Squad members of the Dark Variant Faction.

The fighting was happening secretly.

Till today there is no clear winner.

He hopes the duels won't escalate to the levels of Faction Leaders.

If such a situation arises, then the Main Elders have to fight as well.

Swoosh!

He then disappears from the spot.

Time passed in the blink of an eye,

When it was midnight, I ended the training and left the Golden Lightning Palace.

The Lightning Cage Technique is hard to execute.

I feel it's similar to the Black Lightning Hand Technique of Ronnie.

It requires a continuous supply of purple essence.

But if I succeed in performing the technique.

Then, I can have a good group attack technique in my arsenal.

Chapter 988: Cole (Bloodline Warrior)

From MC's Perspective:

The following day,

I woke up earlier.

After getting out of bed, I began the morning routine.

Then I entered the Training Room to cultivate about 20 minutes later.

Meanwhile,

The Warriors in the Black Flame Faction and Ice and Fire Palace were discussing something.

Everyone is looking forward to today's duel.

Yesterday, the Warriors from the Golden Lightning Palace fought Zack Lockwood in a virtual duel.

But it ended up in disappointment.

This time the members from these 2 palaces were the first in line to fight against Zack this afternoon in the virtual duel.

The 3 warriors are strong warriors who can fight across ranks.

They had done it before by defeating several Commander Rank Warriors from time to time.

It shows that their elements and techniques are strong.

They have more combat experience than the newcomer.

So the warriors are excited for them.

They don't want all the limelight to be taken by the Golden Lightning Palace.

...

Healing Palace:

Ann is in her room.

Last night, she discussed with Elder Austin about Zack's future.

Austin had permitted Zack.

Now onwards, Zack can go around and do activities in the Outer Hall.

Though she was unwilling at first.

But after hearing Austin's statement.

She was convinced.

The faction fight is going on.

It might not be a suitable time for Zack to appear in the Outer Hall.

That's why she wanted him to get started in the Ancient Healing Technique.

As long as Zack gets improvement in the technique.

His veins and inner organs would get healing properties.

Yet the Virtual Duel has shown that Zack had few opponents in the same rank.

So she agreed with Austin's words as well.

Even if something terrible happens, they both can protect him.

Follow new episodes on the "NOvel1st.c0m".

It's just Zack is below the Black Mark Rank.

As long as he gets to Black Mark Rank and above.

He would become self-sufficient to protect himself.

...

Virtual Training Lab:

9 am.

The warriors who are going to participate in the virtual duel against Zack Lockwood's avatar have come.

Surprisingly, the 3 warriors are from the Bloodline Factions.

When the other faction warriors heard about it they were all surprised.

It's because the bloodline warriors rarely show interest in this virtual program.

So the appearance of these people has caused curiosity.

Even the old man Daniel was surprised after seeing their Main Elders' message.

So he accepted their request.

He wants to know whether the Bloodline Warriors can pull off a trick similar to Ronnie Seth.

The First Bloodline Warrior to fight a duel was a woman named Cole.

She belongs to a bloodline faction whose members have non-human or ancient beast or plant-type Bloodlines.

Cole entered the pod chamber.

She closed the top cover before wearing the helmet.

Then her mind went blank before she found herself in the Virtual body.

Right after her Virtual Body's appearance.

The Avatar of Zack Lockwood appears opposite to her.

Her eyes flickered.

The Bloodline Warriors have their pride.

That they are better than the awakened elemental warriors.

After watching Zack Lockwood's Virtual Duel.

She became interested as well.

Many sent requests to their Main elder.

Yet she was the one selected because she hadn't lost in a duel against other faction warriors.

And she wants to maintain the record here as well.

Even though the duel is Virtual.

It can't be compared to a live duel.

Yet she wants to win it as well.

Otherwise, she can't face her fellow faction members.

[Countdown starts 1...2...3...]

By the time the countdown has started.

She recovered her thoughts and looked at the Avatar.

When the countdown came to an end.

She uses her bloodline power.

She is at Peak Stage SSS-ELITE Rank.

Her Bloodline belongs to the ancient feline.

She was not sure about the exact name of the feline bloodline.

Her family told her that it would be revealed when she became Black Mark Rank Warrior.

As the bloodline power activates, Pink colour energy comes from her Bloodline.

It immediately strengthens her organs and senses.

Swoosh!

The next second, she exploded at a great speed.

She dashes towards the Avatar.

In two steps, she appears in front of the Avatar.

People could only see a blur appearing for two seconds.

Then they saw her appearing in front of the Avatar the next second.

The Avatar immediately reacted by executing the “Lightning Wheel” technique.

Cole’s eyes flickered when her senses warned of her danger.

Having a feline bloodline.

Her senses were usually stronger when perceiving danger.

Swoosh!

Then she retreats backwards.

At the same time, a purple lightning wheel appears around the avatar.

If she hadn’t moved away in time, then she would have come in contact with the purple lightning wheel.

She could feel immense danger coming from the wheel filled with purple lightning.

“No wonder, all those who collided with the technique ended up miserable,” She said to herself.

Swoosh!

In the next second, the avatar rushes towards her by using the “Lightning Phantom” movement technique.

A purple bolt appears as the avatar leaves the trails.

Cole retreats backwards.

She covers a distance in one or two steps.

People who are watching from outside could see a purple lightning bolt chasing the passing blur image.

Outside,

Old Man Daniel is watching the duel on the blue screen along with others.

Seeing that she burst out with great speed and her response time.

The old man has identified her bloodline type without taking a look at her profile.

His eyes flickered.

“This kid has better chances than Ronnie,” He thought.

Because Ronnie won by using his trump card.

The rest of his techniques failed against the abnormal purple lightning.

But Cole has her bloodline power.

Which is boosting her strength in all aspects.

As long as she avoids getting hit by the purple lightning.

The chances of her winning are high.

The other 2 Bloodline warriors who are next in line to fight were watching the duel as well.

Inside the blue space, the Avatar stopped chasing after a few minutes later.

Because the purple essence is dropping at a faster rate.

The purple lightning wheel consumes huge purple essence at a faster rate.

The Avatar can't afford to use this technique multiple times.

Old Man Daniel and his staff have done some work on the avatar last night.

They updated the database of Avatar.

Hereafter, the Avatar won't fall for the same trick twice.

So, after running around for a few minutes, It dismissed the lightning wheel technique.

Cole's eyes turned cold.

She thought she succeeded in fooling the avatar.

But it turns out the opposite in the end.

Before she could think of her next move.

The Avatar drew the virtual black sword to attack.

The black sword charged with the purple lightning in the blink of an eye.

"It's the beam attack," Cole recognised the attack.

Then she moves away from the spot to avoid the beam attack.

Boom!

A purple beam shot from the sword.

The beam's projectile speed was so far.

It caught up to her original speed.

Yet she was a step ahead by moving away from the previous spot.

By the time the beam was discharged, she had moved away on time.

The purple beam then hits the space before striking the barrier.

Boom!

Everything was virtual.

Yet the effects of impacts are closer to real.

At the same time, Cole finds the right opportunity.

She rushes towards the Avatar at great speed again.

Her Bloodline doesn't have elemental power.

She can only defeat her opponent in close combat.

The Avatar once again charges the sword to attack.

The black sword's blade flickered with a purple light again.

By the time the attack was complete, she was standing before the avatar.

Cole uses her Bloodline to strengthen her muscles.

She attacks the avatar by punching at the abdomen.

This all happened within seconds.

Even the Avatar failed to react to her feline Bloodline's speed.

Boom!

The punch landed a heavy hit.

The Avatar retreated several steps backwards.

Which is incompatible with Zack Lockwood's real strength.

The Avatar doesn't have data on Zack Lockwood's physical prowess.

It didn't have data on the other 2 elements.

Otherwise, Cole could have received a recoil effect.

Cole's eyes lit.

She appears before the avatar and draws a punch at it continuously.

Boom!

One after another, a punch landed on the abdomen of the Avatar.

Cole is not giving any reaction time to Avatar.

She is afraid of the "lightning wheel" technique.

She knows that even if she gives a couple of seconds.

The avatar might use the wheel technique again.

So she is running her Bloodline Power to land punches continuously.

Outside,

The staff all widened their eyes in surprise.

She was the first one to make the Avatar this embarrassed.

Even Ronnie didn't fight with ease.

Ronnie Seth's Virtual Duel against Zack Lockwood's avatar appears like a life-or-death duel.

Ronnie fought on being at the edge all the time.

But here Cole is using her bloodline to strengthen herself.

Which improves all her aspects including the reaction and response time.

Old Man Daniel's eyes flickered.

He noticed something.

Chapter 989: Avatar's defeat

Virtual Training Lab:

Cole's fierce attack makes the Avatar hard to retaliate.

Just as she thought she was going to land further attacks.

The Avatar of Zack Lockwood retreats backwards.

It decisively gave up the blocking and moved backwards to create a distance.

Yet it was too late.

There are numerous injuries on Avatar.

Which shows that Cole's physical prowess is strong.

The Avatar then raises its hand to perform the "Lightning Finger Technique"

Cole's eyes flickered.

She has seen the stack before.

So she sprints forward at full speed.

Boom!

A purple beam shot from the finger.

Cole easily evaded the attack by sidestepping.

Then she continues her speed to reach the avatar.

On the other hand, the Avatar is going backwards while releasing the finger attack at her.

As time went on, the Avatar continued to drain more purple essence.

For Cole, this situation is advantageous to her.

As long as she can make the avatar use lighting techniques.

She can make the avatar lose in the end.

1 hour later,

The Avatar completely exhausted the purple essence.

It has tried every method against Cole.

But she was clever enough to use her bloodline power against the Avatar of Zack Lockwood.

[Cole Spencer is the winner]

The Mechanical voice sounded.

The Avatar disappears.

She then found herself back in the pod chamber.

She opened the top cover to step out.

Everyone looked at her in bewilderment.

“Cole Spencer, you did well,” Old Man Daniel said to her.

“Thank you, elder,” Cole replied.

Then she left the training room.

Follow new episodes on the "N0vel1st.c0m".

She has achieved her purpose.

So she thinks there is no point in staying.

She also knows that Avatar doesn't have complete updates.

Because Zack Lockwood had shown only a few lightning techniques.

Even Average warriors have more than 3 elemental techniques, including the attack and defense techniques.

Like others, she also suspects that Zack Lockwood didn't use his full strength in the Virtual Duel.

So she decides to come back later.

When she was gone.

Old Man Daniel orders the staff to update her Avatar.

He thinks that Zack Lockwood would be more interested in fighting her.

“She has completely outplayed Zack’s avatar,” He muttered.

And he knows that there is more to the bloodline powers.

There are stages in bloodline powers.

What she had used was the basic stage.

Which gives enchantments to her stats.

So he thinks if Zack defeats her Avatar.

Then she might return to challenge again.

Inside the blue space, the next bloodline warrior appears.

He is Kian Ward.

He has an Ancient unknown Ape Bloodline.

He is a Peak Stage SSS-ELITE Rank Warrior as well.

Cole’s duel has given him ideas.

He saw how Zack’s avatar was completely overwhelmed by her strength and speed.

Kian doesn’t have that level of speed if he used his bloodline power.

But when it comes to pure strength.

He is even stronger than Cole.

At the same time, Zack Lockwood's avatar appears again.

[Countdown starts from 1...2...3...]

Kian's eyes flickered.

He knows Avatar couldn't withstand the brute attack in the previous duel.

So he is going to use the same strategy as well.

When the countdown ended.

The Avatar of Zack Lockwood used the "Lightning Finger Technique"

Boom!

A purple lightning beam shot from the finger.

It didn't stop to see.

Rather, the Avatar continued to fire the lightning beam from the finger.

"Sh!t," Kian cursed under his breath.

Then he hurriedly moved away from the spot to avoid the attacks.

At the same time, he activates his bloodline power.

Boom!

The first Lightning beam strikes the empty spot.

But Kian finds it hard to block the successive lightning beams.

His Bloodline Power gives him more strength than speed.

So, his speed is not comparable to Cole's.

Because of it, the purple lightning beam manages to touch him.

He was less than milliseconds away from evading the attack completely.

Argh!

A muffled grunt left his mouth.

The abnormal power of the purple lightning immediately torched his skin, the contact part.

For the first time, he had felt something painful like this.

Thinking about how Cole avoided getting struck by the lightning power.

Kian broke into a cold sweat.

Then he saw how Avatar kept firing the purple lightning beam.

His eyes flash with madness.

The Bloodline Power in his body becomes activated.

The bloodline power of the ape increases his stats.

The data cables connect to the pod chamber, sensing the power of the bloodline.

Outside,

The pod chamber of Kian Ward starts to shake.

This situation immediately alarmed the staff and the Old Man Daniel.

“This guy is trying to use the second stage of the bloodline,” the old man muttered.

“Immediately turn on the cooling function of the 2nd pod chamber,” he ordered the staff.

In the next second, cool energy starts to fill the 2nd pod chamber.

Kian Ward’s body relaxed after getting the energy.

Seeing that the pod chamber stopped shaking, the old man sighed in relief.

“This kid doesn’t want to hide his strength at all.

He is directly using the second stage of the Bloodline Power.

I hope he has not reached the 3rd stage," The old man thought.

But Kian Ward's consciousness inside the blue space didn't know about this.

He immediately rushes towards the Avatar while avoiding the purple lightning beam.

Some of them struck Kian's body.

But he ignored it all and appeared in front of Zack Lockwood's avatar.

Then used his fist to smash the Avatar hard.

Just like the previous duel, the avatar tried to use the "Lightning Wheel " technique.

Yet the fist of the bloodline warrior struck its body.

Boom!

The brutal hit caused the avatar to stumble backwards.

Seeing Kian rushed to continue his attack.

He has got inspiration from Cole's duel.

So he is using the same strategy.

Unlike Cole, he just experienced the power of the purple lightning.

It's unimaginable.

The pain sensation feels real.

So it made his heart shudder.

He is going to make the Avatar unable to use the purple lightning power.

Boom!

The Bloodline Power of Ape boosted his strength.

So, every fist attack of his caused serious injury.

In the case of a virtual avatar, it's serious damage.

As time passes, it's losing more stats points.

If the stats points touch the bottom, then the avatar becomes useless to fight back.

It's similar to essence reserve data hitting the bottom.

Outside,

Old Man Daniel shakes his head by saying, "As expected the bloodline warriors are strong.

Even some of the above-average bloodline warriors are performing this well."

"He couldn't help but imagine the absolute top in the SSS-ELITE Rank.

He knows that there young heirs of the Bloodline families who distaste to come here.”

...

From MC's Perspective:

After ending the cultivation, I walked out of the training room.

Then I went to take a shower.

About 20 minutes later,

I stepped out of the bath and changed into comfortable clothes.

I couldn't help but think of the Virtual Duels.

I know Ronnie Seth had defeated the avatar.

I want to know who is fighting today.

So I sat on the sofa comfortably before turning on the circular digital device.

A blue screen pops up.

Then I started to access the Virtual Training Lab in my account.

The link was accessed and the site opened the next second.

Then I saw various options before clicking the ongoing virtual duels.

[1.

Avatar Cole Spencer vs Avatar Zack Lockwood]

[Winner: Cold Spencer]

Seeing the result of the first virtual duel, my eyes widened in surprise.

I can understand the reason behind Ronnie Seth's win.

His black lightning was rare and had corrosive properties.

And he has good attack lightning techniques as well.

But what's with this female warrior?

Then I clicked the video to play.

Then I saw the Avatar of a female warrior named Cole Spencer.

Time passed,

After watching the video, my expression was dignified.

I think I had underestimated the warriors at Star University.

More than thousands of warriors were studying here.

Almost most of them are natives of this Tier-4 Region.

So their resources are high.

Even the cultivation method and elemental techniques they practice are superior.

After gaining a few victories after defeating a couple of warriors, I almost forgot about this truth.

Sigh!

A deep sigh escapes from my mouth.

She is a bloodline warrior.

And the bloodline warriors here are a lot more talented and stronger than those in the inner post region.

I noticed that Avatar was slow in response to her attacks.

And the Avatar fought based on my duel data.

Even though I hadn't used my full strength in this Duel.

The Avatar still has the power of an abnormal purple lightning element.

Even with this power, the avatar was defeated by others.

Which shows I should constantly improve myself.

Suddenly, the pictures of the secret land come to mind where I had killed those Ant monsters and their queen.

I had especially used the dark liquid opportunity there.

I should enter similar secret lands in future to improve myself.

Chapter 990: Betty Jones

Virtual Training Lab:

About 20 minutes later,

Kian Ward manages to exhaust the Avatar just like Cole Spencer.

The Avatar once again suffered defeat at the hands of the Bloodline Warrior.

The injuries were so high that it wasn't able to move anymore.

The next second, the avatar disappears from the place.

[Kian Ward is the winner!]

The Mechanical voice sounded again.

Hearing that Kian let out a deep sigh.

He was tired as well.

The continuous usage of the 2nd stage of the bloodline power has exhausted him.

On top of it, his avatar has suffered injuries from the purple lightning.

But he was happy that he was able to win in the end.

The next second, he finds his mind going blank.

When he opened his eyes.

He finds himself inside the pod chamber.

He then opened the cover to step out.

Then he found the gaze of the old man towards him.

His mouth twitches.

He sees that the old man is angry for some reason.

“You dare to use the 2nd stage of the bloodline power in the Virtual Duel.

Don’t you know it could damage the pod chamber because of your body transformation,” The old man Daniel said.

Click!

In Kian Ward’s mind, something clicked.

He realised the seriousness.

His bloodline power comes from the Ancient Ape, which is known for Physical Transformation.

So his body must have transformed under the 2nd stage of the bloodline power.

The next second, he apologizes to the old man.

There is no need for him to use 2nd stage bloodline power here.

It could have damaged the pod chamber.

But he didn't have any other choice.

If not for the 2nd stage of the bloodline power, he wouldn't have defeated Zack Lockwood's Avatar.

"Alright, you can go next," Old Man Daniel ignored him and looked at the person next to him.

Follow new episodes on the "N0vel1st.c0m".

The last person was the female bloodline warrior.

Unlike the previous two, her bloodline comes from her Human Ancestor who once rose above the ranks of Red Mark Warrior.

Her Ancestor got a powerful inheritance.

After rising above the ranks of the Red Mark.

He was able to pass down the bloodline to the next generations.

The female warrior nodded to the old man before entering the pod chamber.

Her name is Betty Jones.

The Jones Family is one of the most powerful bloodline families in the Tier-4 region.

Unlike the other two who belong to the 1st Bloodline Faction, she comes from the 2nd Bloodline Faction.

Kian Ward furrowed his eyebrows.

Though they are bloodline warriors.

He and Cole Spencer were completely different.

Their bloodline power comes from the Ancient Beast.

Because of that, they got a powerful boost and were able to defeat Zack Lockwood's Avatar.

Now he was quite curious.

He wants to see what Betty Jones is going to do.

So he decides to stay and watch despite being mentally tired.

Old Man Daniel didn't say anything.

He turns to look at the blue screen.

Inside the blue space, the Avatar of Betty Jones appeared.

Her expression was calm, unlike the previous two Beast Bloodline Warriors.

Betty has carefully observed both of their duels and knows what to do and what not.

She has decided to exploit the weakness as well.

Compared to the other two warriors.

She has a better chance of doing it because of her bloodline power.

The next second, the avatar of Zack Lockwood appears.

Seeing that Betty Jones became ready.

[The Countdown starts from 1...2...3...]

When the countdown ended.

The Avatar of Zack Lockwood rushes towards her by using the “Lightning Phantom” Technique.

Suddenly, Betty runs her bloodline.

A blue film was to cover her skin.

In the blink of an eye, her whole body was enveloped with a blue layer before the Avatar could reach her.

Just as everyone thought, she was going to avoid the confrontation.

She took the initiative to attack.

She raises her right fist to punch.

But a blue layer can be seen above her skin.

Which can be seen in her fist.

The Avatar raises the right hand in response.

It draws a punch covered with purple lightning power at her.

Outside,

“This?” Kian Ward uttered in surprise.

Even he dared not do this.

He knows the power of purple lightning.

“Is she mad?” He blurted out.

“Humph, do you think the human ancestor bloodline warriors are the same as you?” Old man Daniel asked in a displeased tone.

Kian Ward shut his mouth.

He doesn't want to anger him.

But he thinks she is crazy in his heart.

His expression freezes for the next second.

On the blue screen, Betty Jones blocked the fist of the Avatar by using her fist.

Not only that, Betty is now forcing the Avatar to retreat.

"What's going on?" He muttered to himself.

But his words were heard by the old man Daniel.

"Unlike you, her bloodline power comes from the special energy awakened from the blood.

The blue layer is the special energy passed down by her Ancestor."

"It can be called a Blue Protective Layer.

Though it's the first stage of bloodline power.

It has blocked the power of the purple lightning."

"Her Ancestors must be very strong," the old man commented.

Gulp!

Kian Ward gulped his saliva.

Hereafter, he won't underestimate anymore.

He knows the horror of the purple lightning.

Inside the blue space, the Avatar retreats backwards decisively.

After creating enough gap between the two, the avatar draws the black sword to attack.

"Sword Divide"

It executes the Sword attack.

The black sword is charged with purple essence within seconds.

After aiming at her, the Avatar discharges the attack.

Like other bloodline warriors, her reaction time was faster as well.

She was able to avoid the attack easily.

But the avatar continues to fire the lightning sword beam at her.

Boom!

Betty Jones easily evaded the incoming attacks as time passed.

After some time, the avatar stopped firing.

It has the previous data.

Where it exhausted the purple reserve by wasting attacks.

So, it decidedly stopped firing after a few attempts.

Betty Jones's eyes flickered.

She noticed the Avatar didn't waste time like the previous duel.

It realised the mistake quickly.

Then she thought of something.

"People outside might have updated the avatar.

Then I have to take the initiative to injure the avatar," She thought.

The next second, she uses the movement technique.

The movement technique has no attribute.

But it strengthens her legs.

She then explodes with great speed and rushes towards the Avatar.

The Avatar's eyes flickered.

It decides to use the “Lightning Wheel” technique at the right moment.

Betty Jones appears in front of the Avatar in the blink of an eye.

A purple lightning wheel appears in front of her.

Seeing this, she decisively collides with the lightning wheel.

g gha The Avatar is caught off guard.

It didn’t expect the opponent to collide.

It hasn’t happened before.

Ka#boom!

The purple lightning wheel explodes the next moment.

The Avatar receives the recoil effect.

This time it was hit hard as it was caught off guard.

On the other hand, the blue layers covering Betty’s body flickered a little.

But it hadn’t been damaged.

So she remained unscathed.

Seeing that Avatar retreated backwards.

She takes this opportunity to attack.

Swoosh!

She appeared before the avatar and started drawing punches at the Avatar.

Outside,

Everyone was shocked including the staff and the Old Man Daniel.

“Unbelievable,” Kian Ward uttered in disbelief.

Old Man Daniel is smiling.

What could be better than this?

He wanted everyone to defeat the Avatar of Zack Lockwood.

So that he can store the data and update it later.

Kian Ward doesn't know what to say.

At this moment, Betty Jones seems a lot more powerful than Cole Spencer and him.

What's more, he knows there are more powerful warriors in their two factions who don't like to compete here.

...

From MC's Perspective:

My eyes never left the blue screen.

I don't know what's going on here.

Not only but two warriors managed to defeat the avatar.

Now the third one seems even more dangerous.

She is directly colling with the purple lightning wheel.

After the fusion with the purple lightning seed, the power of the lightning was off the charts.

To think she could offset the power just like that.

I don't know what to say.

A sense of urgency rose in my heart.

I immediately stood up, turned off the digital device, and started getting ready.

A few minutes later,

I changed to fresh clothes and left the residence.

Then I arrived at the Golden Lightning Palace shortly afterwards.

The entrance was already open.

When I walked inside.

I found the other warriors who were going about their business.

I ignored them and went to the residence of Master Austin.

I reached the door.

Before I could knock on the door.

Master Austin opened the door from inside.

Austin smiled and said, "Looks like you have been watching today's duel."

"Yes," I replied.

Then he greeted me inside.
