

Bodyguard 10291

Chapter 10291

he'd heard before that the sea god seemed to favor lin yi a lot, sending down oracles and even clones for him, but he'd had his reservations about this.

At least, from what he knew, this wasn't realistic. Even if the sea god liked Lin Yi, he wouldn't do anything for an ant. It was just a coincidence.

but now, he began to waver.

after all, the timing of the divine message was too subtle, and even the content was targeted. it felt like the sea god was watching this scene. to some extent, he had become lin yi's bodyguard!

If he hadn't seen it with his own eyes, Bai Ze wouldn't have believed that the sea god actually had such a human side.

at the thought of the hidden meaning behind this, even bai ze, who thought that he had seen all kinds of big waves, could not help but shudder.

lin yi brushed past him and said, "are you really not going to move?"

“.....”

Bai Ze's expression instantly became interesting.

if he didn't do anything and let lin yi and the others go, he would offend the high priest, zhang xi sheng. it would be useless to explain after that. people at this level only cared about benefits, nothing else.

but if they moved, that would be directly disobeying the lord seagod's divine decree, and the consequences would be even more serious!

ever since lin yi's rise, more and more people began to realize that the high priest's position as the number one representative of the sea god was no longer safe. all the statements he made recently showed that he was indeed standing against lin yi.

standing against lin yi was the same as standing against the sea god. to a certain extent, it was going against the sea god's will!

However, with his personal prestige, the high priest was able to temporarily suppress the internal discussions and cracks, forcibly stabilizing the situation.

but if it was bai ze, it was impossible.

In the current situation, if he dared to disobey the sea god's Oracle, the guards of the temple would not only rebel on the spot, but there would also be a large-scale internal strife!

even if bai ze had been in the position of commander for decades, it was far from the point where he could completely manage the guards of the divine hall as his own private army.

The sea god was still the number one target of loyalty for most of the temple guards.

one step, two steps, three steps.

Bai Ze's face darkened as he watched Lin Yi's back get further and further away.

He had seen the performance of the divine Hall's guards. If he were to take action at this time, he might be deserted by his own people. He did not dare to take such a risk.

Plus, with his current situation, even if he could gather the temple guards, he was no match for Lin Yi's personal guards.

once the war started, the undefeatable golden body of the temple guards would probably be destroyed by lin yi's guards.

but he couldn't just let lin yi go see the high priest!

"lord lin, please wait."

bai ze finally spoke, and the atmosphere became tense, especially those who had begun to waver, and their faces showed tension.

"What can I do for you, commander Bai?" Lin Yi turned around.

bai ze glanced at the audience and said in a deep voice, "i'm flattered. i heard that lord lin had received a letter of challenge from the abyssal queen and the nameless scholar.

Although my strength is limited and I can only withstand a few moves, I still have some understanding.

Since the letter of challenge has come, I believe that Lord Lin will have a battle with them sooner or later. Why don't you let me do my part to leave a little impression on Lord Lin?"

everyone was in an uproar.

Lin Yi couldn't help but applaud Bai Ze's quick-witted thinking. No wonder he could hold the position of commander for so long!

however, this also made lin yi understand why bai ze couldn't pass the threshold with his deep foundation.

there was no other reason. this person was overly cautious, but he was too overcautious.

If they didn't even have the courage to fight to the death, how could they climb to the top of the sea?

"I'll leave it to you then, commander Bai," Lin Yi turned around slowly.

"please," he said.

Bai Ze was relieved. He was really afraid that Lin Yi wouldn't agree. If that happened, there was nothing he could do. After all, he didn't dare to defy the sea God's order.

but since lin yi agreed, it was easy.

He'd already made it clear-attacking Lin Yi was just a friendly reminder. At least in name, this was a competition, not a public disobeying of the sea god's orders.

as for whether there would be any unexpected casualties in the process, it was not his fault.

After all, fists and legs had no eyes. Even the lowest-level civilian cultivators would die if they exchanged blows. At his level, the power of his movements was too great. It was normal for him to lose his life if he couldn't hold back.

of course, bai ze was still a little afraid of the oracle just now.

he didn't have the guts to kill lin yi right away, but he did have the guts to hurt lin yi, or even seriously injure him until he was never able to recover.

Lin Yi suddenly asked when Bai Ze was trying to figure out how badly he should have hurt Lin Yi."How many moves did commander Bai exchange with those two?"

Bai Ze was stunned for a moment, and then subconsciously replied, " "Six moves,"

back when he had fought with the queen of the abyss and the nameless scholar, he had been defeated in the sixth move. if high priest zhang xisheng had not been present, he would have been dead.

However, this was decades ago. His strength at that time was not the same as it was now. If it was now, Bai Ze admitted that even if he was still no match, he would not be able to withstand only six moves.

At the very least, he could last up to sixty moves, or even a hundred moves!

after all, there was only a thin line between his quasi-ceiling and the other ceiling-level powerhouses. even if the odds were slim, he would not be defeated so quickly.

"i'll give you five then," lin yi nodded.

Everyone was speechless.

bai ze was stunned for a long time before he reacted. he couldn't help but laugh. "Does Lord Lin mean that you want to take me down within five moves?"

Everyone's eyes fell on Lin Yi, waiting for his answer.

lin yi's reputation was like the sun in the sky now, especially after the two letters of challenge appeared at the ascension ceremony. there were more and more discussions about whether his strength had reached the ceiling of the new sea region, and the corresponding voices were getting louder and louder.

however, this was ultimately just a discussion in the streets.

In fact, in the evaluation of the various authoritative intelligence agencies, Lin Yi's strength was still at the top of the line. At best, he could only be regarded as one of the top existences in this level.

Whether or not he could beat Bai Ze, who was an old-school top-tier player, was still an unknown.

After all, even if he had a record of 1.3 seconds, his persuasiveness in this aspect was limited.

Chapter 10292

to everyone's understanding, even if lin yi's strength was heaven-defying, he would only be able to take down commander bai ze after a tough battle.

It was definitely a big joke to take down Bai Ze in five moves.

Saying it out loud would only bring humiliation upon himself.

lin yi, however, nodded seriously. "That's right. Be careful, commander Bai."

"Be careful of your mother!"

bai ze broke through lin fan's defense on the spot and sneered. " since you're so confident, lord lin, i won't hold back anymore. i'll go all out. after all, this is the greatest respect for you.

If I overdid it in any way, I hope you can bear with it, Lord Lin.

After all, I don't want to be defeated within five moves and become the laughingstock of the entire sea realm."

his words were filled with mockery and sarcasm.

lin yi waved his hand nonchalantly, looking down on them."as you wish."

"alright!"

with bai ze's approval, everyone present immediately retreated in tacit understanding, including wei yu 'er and the guards unit. they all retreated five miles away.

This distance was still dangerous for ordinary cultivators. However, everyone present was at least in the Supreme realm, and they could take care of each other. The aftershocks of the battle at this distance were not a big problem.

under everyone's gaze, bai ze suddenly inserted his hands into the ground. immediately, the entire seabed began to shake violently from his feet.

In less than a breath's time, countless sea rocks had gathered behind Bai Ze, forming a human silhouette over a thousand meters tall. Its arms were like pillars supporting the sky as it slowly lowered its head to look at Lin Yi's position.

A sense of oppression came.

the crowd watching the battle from afar retreated several miles in unison.

Even the old subordinates who had seen Bai Ze fight before could not help but swallow their saliva when they saw this scene again. After all, it was not as simple as a giant made of sea stones. The key was the rule power attached to it.

" didn't the great commander use the rule power of the ocean? "

A newly arrived Master of the Temple guards asked.

Although the sea god's Palace did not force everyone to cultivate the laws of the sea, it was undeniable that the laws of the sea were the mainstream in the sea god's Palace.

this was especially true for the few iconic combat powers at the front, who were all based on the rules of the sea.

"who told you that the power of the ocean's rules must be attacked by currents? one power has thousands of uses. don't you know that?"

" the rules of the ocean are not the rules of the sea currents. as long as it's within the coverage of the ocean, it's the home field of the rules of the ocean, and the sea stones are naturally the same! "

" the great commander is the expert who has the most in-depth knowledge of sea stones in the entire sea region. he's also the most orthodox top-notch expert when it comes to using them. little brat, you should learn from him! "

the giant's palm was already headed for lin yi.

this slap did not seem to be fast. any supreme realm expert present would be able to escape easily.

but in reality, lin yi's feet were already deep in the sea bed, his feet locked in place by the rocks coming from all directions.

At the same time, there were countless sea currents circling the surface of his body, like chains, sealing off all of his space to Dodge.

he could only take it head-on!

boom! boom!

Under the huge shock, even with the combined strength of the temple guards and Lin Yi's personal guards, they couldn't help but retreat a little.

Most of them had never seen such a powerful shockwave in their lives, and they were all dumbfounded.

"You can still hold on like this?"

In their eyes, Lin Yi was either dead or heavily injured. It was a joke to say that he could defeat the commander in five moves.

Lin Yi's calm voice sounded. "Commander Bai, is this considered a greeting?"

As he spoke, ten ancient swords with powerful auras suddenly shot out from the chaos and attacked the arm of the sea stone giant.

In less than a second, the several-hundred-meter-long arm of sea stone collapsed and shattered, turning into debris on the ground.

on the other hand, lin yi, who had just taken a hit, was completely unscathed.

"lord lin, don't be anxious. this is just the beginning. take it slow."

Bai Ze's eyelids twitched.

he didn't expect that he'd be able to cause lin yi any substantial damage. if things were that simple, he wouldn't have been forced to this point.

however, lin yi's ease was beyond his expectations.

Especially when the stone giant's full-powered palm couldn't even break Lin Yi's defense. It was unbelievable.

"The second move."

just as he was thinking about what move he should use next, the absolute-kill sword formation formed by the ten famous swords had already attacked in front of him. then, there was a crazy strangulation that made everyone's heart jump.

Bai Ze's reaction could not be said to be slow. It was covered in layers of stone armor at the first moment.

"sea stone gu!"

His trusted aide proudly explained to his other comrades, " "Do you know what the Grand Marshal relied on to become famous when he rose to power? It was all thanks to this sea stone Gu.

don't think that it's just an ordinary layer of sea rocks. under the blessing of the commander's rule power, its hardness can be said to be the hardest in the entire sea area!

Back then, countless experts were helpless against it, and even the second and third-tier top-class forces were unable to break through it. It was publicly acknowledged as the most powerful defense that was almost impossible to break through!"

the commentary made many people fascinated.

However, when they saw the scene in front of them, these people suddenly fell silent.

in front of the super meat grinder formed by the ten famous ancient swords, the sea stone armor that bai ze was so proud of could not withstand it at all and was instantly ground to pieces!

Under Bai Ze's control, the sea stone armour had a strong regenerative ability, and it could repair itself at a faster speed almost the moment it was destroyed.

after all, as long as there was enough power of the laws of the ocean, there would be endless sea rocks under one's feet. therefore, at least in theory, the sea stone armor was indeed an almost unbreakable defense.

"if lord lin wants to play like this, i can play with you for a year!"

Bai Ze once again showed an expression of wisdom.

it was just a one-sided beating, but he didn't care-as long as he could delay lin yi, he could keep it up.

anyway, at his current level, this level of rule power consumption could be achieved without end. not to mention a year, even ten years would not be a problem. he could just treat it as another form of closed-door cultivation.

As soon as he said that, Lin Yi started counting again."the third move."

The ten famous swords changed their formation instantly, turning from a crazy meat grinder into a long snake. With the Xuanyuan sword as the leader, they built up momentum with each other and bombarded Bai Ze's chest one after another.

Chapter 10293

"not good!"

Bai Ze's face suddenly changed.

He was shocked to find that the speed of his sea stone armor's rebirth was gradually unable to keep up with the attack speed of the ten great swords. If this continued, his heart would be completely pierced by the last sword!

He would die.

Bai Ze hurriedly changed his move. As he retreated, hai Shi leaned forward and blocked in front of him, barely blocking the last sword of the ten famous swords at the last moment.

the price he paid for this was that the brain of the sea rock giant was directly pierced through by the sword, and he himself also suffered a heavy backlash.

"As expected of the master of the four Seas, you're really something!"

Bai Ze wasn't an easy target. He wanted to play it safe, but after suffering such a loss, his killing intent was triggered. He clenched his fist in the air and Lin Yi was instantly surrounded by sea rocks from all directions.

Under the power of the rules, the rocks merged into one, sealing Lin Yi within.

name, gravel.

"this is the move! back then, the commander used this move to seal off a top-notch combat power, and he's still in prison!"

The newcomers were shocked.

it was well known that those who had reached the top level, even if they were only third-tier top level combat strength, would not die so easily, let alone those who were publicly acknowledged as first-tier top combat strength.

In recent decades, Bai Ze's ban on that person was an extremely rare case. He had relied on this strong record to secure his position as the commander.

However, this record paled in comparison to Lin Yi's one second three.

But now, Bai Ze's trusted fans were in high spirits.

"No matter how much Lin Yi brags, he'll have to see the truth in his hands-so what if it's 1.3 seconds? in front of a true killing move, isn't it still vulnerable?"

" don't be like that. he's the sovereign of the four seas, after all. it's normal for his fame to be greater than his strength. it's just that he's encountered our commander today. once his boastful underwear is taken off, it'll be difficult for him to put it back on. "

Lin Yi's personal guards frowned as they listened to the mockery from Bai Ze's trusted aides.

however, they had received special training. a war of words of this level did not really affect their mentality. they just felt that it was a little noisy.

at this moment, wei yu 'er, who had been silent, suddenly raised her sword and a huge sword qi directly swept over the heads of all the divine hall guards.

it was so low that it almost stuck to everyone's scalp, and many people lost more than half of their hair on the spot.

in an instant, the entire place was silent.

not to mention the temple guards, even bai ze, who was in the middle of the battlefield, could not help but cast a surprised glance.

Although Wei Yu 'er's sword attack had not reached the point where it could truly threaten him, it was enough to attract his attention.

After all, it was not just a simple sweep of the sword. It cut the hair of the guards of divine Hall of different heights while ensuring that they were not really hurt. The degree and control, especially the fine control of the sword Qi, were definitely at the level of a Grandmaster.

"I didn't expect you to be so loyal to your master."

the red-robed woman was also surprised.

from her previous observations, although wei yu 'er was submissive to lin yi, her attitude towards lin yi was actually very cold. the two of them were more like partners working for benefits, and there was basically no personal relationship between them.

Normally, even if all of Lin Yi's personal guards were to get angry, Wei Yu 'er would never be the one to get angry.

in the end, such a scene appeared.

"i just find them noisy," wei yu 'er replied coldly.

"Ha?"

The red-robed woman was stunned for a moment, and then she couldn't help but laugh."With your personality, you would never have used this sword even if you found it noisy. Don't tell me you don't even have the patience to endure this little noise?

Hehe, your strength is barely passable, but it's a pity that your looks are really lacking. A man like him will definitely not have a place for you in his eyes.

Ugly girl, if you keep staring at him, I'm afraid you're going to be alone for the rest of your life."

Wei Yu 'er looked at her and said, " "Idiot,"

"you should know who the idiot is."

The woman in red was in a good mood. She had been holding back her anger towards Wei Yu 'er. However, after this unexpected discovery, she suddenly felt that although she was ugly, she did not seem to be as hateful as before.

As the two of them spoke, the situation on the field changed drastically again.

"the fourth move."

With Lin Yi's calm voice, the giant stone that sealed him exploded, shocking the crowd.

Bai Ze could not hide the shock in his eyes.

He wasn't so arrogant as to think that he could kill Lin Yi with one move-if Lin Yi was that weak, he wouldn't even be able to get past ao Sifang, let alone become the master of the four Seas.

however, it was beyond his expectations that the stone could not even withstand a single blow from lin yi!

bai ze's heart sank at the thought of lin yi's big words.

there was only one last move left. strictly speaking, both sides had only completed the initial probing stage and had a rough outline of each other's true strength. it was far from the time to determine the final winner.

as for the next move to determine life and death, that was even more impossible.

However, Bai Ze still instinctively felt an inexplicable chill due to his many years of combat intuition.

I can't wait any longer!

bai ze decisively chose to strike first. with a thought, the enormous ocean rule power spread out in an instant, and countless gravel immediately rose.

The rocks didn't seal Lin Yi like before, but they were sharp Spears that locked onto Lin Yi from all directions.

the densely packed and terrifying number made everyone's scalps tingle.

"there must be at least hundreds of thousands of them, right?"

"It's not just that, it's already in the millions,"

similar questions and answers were repeated in the crowd.

Many people who had no concept of the quasi-ceiling before suddenly had a real understanding.

it was no exaggeration to say that if bai ze's move locked on to them, although they would not be completely annihilated, the result would be heavy casualties, and it was not impossible for more than half of them to die!

and this was only the quasi-ceiling combat power. if it were the real ceiling of the sea realm, the deterrent force would at least be multiplied, even dozens of times.

Just thinking about that scene was enough to make one's hair stand on end.

everyone was waiting for lin yi's reaction, waiting to see how he would react.

The scene of him taking on the attacks of the sea stone giants with his physical body had indeed left a deep impression, but the lethality of this formation was obviously not the same.

Chapter 10294

if he still dares to use his physical body to take it head on, he'll definitely be pierced into a sieve!

similar thoughts appeared in the minds of all the guards, but lin yi's guards remained unmoved.

it wasn't that they didn't know how terrifying bai ze's move was, but they'd gotten used to it after following lin yi for a few months.

No matter how dangerous the situation was, Lin Yi always turned it into a blessing.

This point was deeply rooted in the guards unit.

Lin Yi opened his mouth at the last moment, "the fifth move."

Everyone was shocked.

Even at this time, he still didn't forget to show off? did this guy have a deep obsessive-compulsive disorder of acting tough?

however, the temple guards didn't expect lin yi to be turned into a hornet's nest. they only saw lin yi's figure flash and then appear in front of bai ze.

The distance between them was less than two steps.

Lin Yi put his fingers together and pointed at Bai Ze's forehead, "you've lost,"

The scene instantly fell silent.

The temple guards who were watching the battle from a distance were all confused.

You haven't even touched the great commander's body, so where did you get the confidence to say that?

Only Bai Ze, who was the person involved, narrowed his eyes. Although he managed to keep a calm expression on his face, his slightly trembling body betrayed his true feelings at the moment.

in the eyes of others, lin yi only extended two fingers to face them. other than looking a little chuunibyou, there was no real threat at all.

However, he could sense that these two fingers represented a unique sword in the world. Even with his level and strength, everything he did now would be in vain.

All the moves that he was proud of flashed past one by one, but in the end, Bai Ze could only desperately find that no matter which move he used, he could not escape the same end.

Death.

There was no way he could avoid or receive this sword!

"Sword sacrifice to the Suan ni."

bai ze's throat trembled. when he said these two words, his mind unconsciously recalled the scene of seeing the sword at that time, and the depths of his soul was still instinctively trembling.

The master of that sword was the previous Sword Saint, ye Qiyuan.

after observing the sword, he immediately gave up on the idea of chasing the ceiling of the sea realm because he knew that he would never be able to reach that level in his life.

Unless, the sea god sent a miracle specifically for him.

he didn't think that he'd be able to experience it for himself today, and in the hands of someone he'd never looked down on before!

"As expected of commander Bai," Lin Yi was surprised.

out of all the moves he had seen before, none of them could surpass the sword sacrifice. this could be said to be the most powerful sword move he had seen in his entire cultivation life, and also the most powerful killing move.

Since Bai Ze was able to recognize it under such circumstances, it showed that his understanding of the sword sacrifice was far above that of the ordinary bystanders. Even if he was not the first person to bear the brunt of the attack, he must have been a person who had participated in it to a high degree.

The fact that he was able to live until now was a proof of his strength!

after all, once sword ritual was used, even if a few top tier combat power came, they would die as they pleased. the fierce battle record of 1.3 seconds was displayed there. this was not something that anyone could watch from the sidelines as it could easily kill!

But Lin Yi's praise didn't make Bai Ze happy at all.

in fact, when the news of lin yi killing three combat strength's in one strike came, he reacted immediately. lin yi must have mastered the ultimate sword move, sword sacrifice!

This was not strange in itself.

The sword sacrifice was the same as the rules of the sword-it was the symbol of a Sword saint's strength. Since Lin Yi had taken over the sword Saint position, it was only natural for him to master the sword sacrifice from an outsider's point of view.

however, bai ze knew that the sword sacrifice was a heaven-defying forbidden move. no matter how high the talent and foundation, it was not easy to master.

In the past, the fastest sword Saint had spent more than three years after taking over the position of Sword Saint before he could barely grasp the sword sacrifice, and it would take more than ten years of hard practice to turn it into battle.

how long had it been with lin yi?

Bai Ze studied the battle report of the North Sea Imperial City. With his experience, it wasn't hard for him to see that the core of Lin Yi's sword sacrifice was the hundred steps accumulation.

if it wasn't for the hundred steps, lin yi wouldn't have been able to use the skill in a real fight.

Even so, he was already stunning enough and could be said to be the best Sword Saint in history, but at least in Bai Ze's eyes, Lin Yi was no longer a real threat to his life.

he wouldn't give lin yi any chance to build up his momentum!

He'd been trying to control the rhythm of the attack and defense the whole time, and from the process, Lin Yi did fall into his rhythm.

even though it looked like a back and forth exchange, bai ze was very clear that lin yi had fallen into a disadvantage because he had completely lost the chance to accumulate power.

In the end, Lin Yi still sent out his sword.

Looking at the sword sacrifice in front of him, Bai Ze couldn't help but Mutter, " "How did you do it?"

Lin Yi thought about it and replied with a serious face,"there's no other, only your hands are familiar."

"....."

If it wasn't for the fact that his life was in Lin Yi's hands, Bai Ze would've cursed out loud.

in order to perform the sword sacrifice in a real battle, which sword saint of this generation had not painstakingly honed millions or even tens of millions of swords?

How many days has it been since Lin Yi got the position?

Even if he practiced a thousand sword strikes every day, he would still be far from being able to do it. Moreover, a terrifying forbidden technique like sword sacrifice definitely didn't just consume a huge amount of energy, it also consumed a terrifying amount of mental energy.

A person's energy, even at the Supreme realm, was not limitless.

A thousand swords a day was enough to exhaust 99% of Supreme realm experts. No matter how talented one was in this aspect, it was the same!

He didn't know that Lin Yi wasn't lying at all.

Lin Yi's daily practice wasn't just a thousand, it wasn't even ten thousand-it was a hundred thousand!

However, when he practiced his swordsmanship, he did not consume his own energy, but the will of the New World!

A hard currency like the world's will was extremely precious. Even if an ordinary person was lucky enough to obtain it, it would definitely be extremely rare and regarded as a life-saving trump card.

who would be so stupid as to use such a precious thing as a consumable to practice their swordsmanship?

however, from lin yi's perspective, using the world will for something like this was the most cost-effective. after all, the effect was really obvious, and it wasn't an exaggeration to say that he'd advance by leaps and bounds in a day.

was it a bad deal to use a part of the world's will, which would be derived as the new world evolved, in exchange for a short-term actual battle sword sacrifice?

at least for now, it didn't seem like he was losing anything.

Chapter 10295

"Commander Bai is a smart man. I don't think I need to say anything more, right?"

lin yi slowly pulled back his fingers, and the terrifying pressure from the sword ritual gradually dissipated. bai ze, who was covered in cold sweat, finally survived.

"you really trust me that much?"

Bai Ze came back to his senses and could not help but look puzzled.

he was a commander after all, one of the most dangerous people in the entire sea area, and lin yi just let him go like that?

If it was someone else, even if they didn't kill him directly to avoid future trouble, they would at least leave him with some injuries or set up some means of control. It was impossible to let him go so easily.

"i'm not worried about you, i'm worried about myself," lin yi said.

the others didn't understand, but bai ze immediately understood, and the fear in the depths of his eyes deepened.

What Lin Yi meant was that he could use the sword again at any time!

It didn't require hundred steps to accumulate power, and it didn't even require any formal actions to accumulate power. It could be used in actual combat with just a thought.

"Lord Lin, I admit defeat."

in front of everyone in the distance, bai ze lowered his noble head.

with his status, he was naturally unwilling, but the sword sacrifice was enough to break all his pride.

since lin yi could use the sword sacrifice at any time, even if he couldn't kill him instantly, he could at least heavily injure him.

he couldn't afford to gamble, and he didn't dare to gamble.

" that's good. you've done your best. he can't blame you. "

Lin Yi chuckled and walked past him.

there were flaws everywhere in his actions, and he was totally defenseless.

bai ze's eyes flickered, but in the end, it turned into a bitter smile.

all of these seemed to be flaws, but in fact, there were traps everywhere.

if he really fell for it, he wouldn't even know how he died in the blink of an eye!

"he's so shrewd. no wonder he can escape from danger time and time again. why are there always such monsters in the sea realm? sigh."

The high priest's generation's five great ceiling was already an insurmountable peak to him, and now there was an even more monstrous Lin Yi.

bai ze couldn't help but feel helpless. since he had yu, why would he have liang?

however, at the same time that he put down the airs of a commander, he also felt a lot more relaxed.

Just as Lin Yi said, he'd done his part at this point, and the high priest couldn't blame him even if he wanted to.

After all, he couldn't really throw his life in, right?

He had a tacit understanding with the high priest, but not to this extent.

As for what happened next, that was up to the high priest.

whether or not he could suppress lin yi, or if he'd be flipped over by lin yi, this was already beyond bai ze's predictions.

before this, he had naturally bet on the high priest, but now he was not so sure.

the sword offering was too heaven-defying. even someone as powerful as the high priest might not be able to take it.

"Keep up!"

The Python gave the order, and everyone from Lin Yi's personal guard immediately followed after Lin Yi.

Looking at everyone's back, the thousands of temple guards fell into silence.

no one had expected such an outcome.

commander bai ze was supposed to be the strongest member of the temple's guards, but he'd been the first to surrender to lin yi. this scene completely overturned the views of his trusted followers.

at this moment, bai ze's figure seemed particularly lonely.

In front of the priest Hall.

the priest division was on high alert, waiting for lin yi's group as if they were facing a great enemy.

the strength of the high and low priests was uneven, and they were not as well-trained as the guards of the divine hall, but they had the advantage in numbers. at this moment, the pressure they gave people when they gathered was not inferior, or even better!

but when they saw lin yi and the others coming in front of them unscathed, they were all shocked.

No matter how useless the guards of the divine Hall were, they couldn't have failed to even leave a little injury, right?

was bai ze so bold that he dared to defect to the enemy directly?

"Stop! No one is allowed to enter without the high priest's summons!"

A high priest stood up and blocked Lin Yi with one hand.

Lin Yi didn't even look at him as he walked past him.

"Impudent!"

The high priest was furious.

Although his reputation was not as great as commander Bai Ze's, he was still one of the top five powerful figures in the priest faculty. His influence in many matters of the sea god Hall was even above commander Bai Ze!

if it was before, lin yi wouldn't even be worthy of his attention as the sea king.

Lin Yi may be the ruler of the four Seas, but in his eyes, he was barely on the same level as her.

fame alone was useless, the key was strength.

And then, as he wished, he saw what true strength was.

Lin Yi didn't even need to do anything, Wei Yu 'er was enough.

a flash of sword light swept across. the high priestess looked at her right arm in horror, and it was empty.

by the time he finally reacted and was about to explode with pain, wei yu 'er had already turned her sword around.

A sword slit the throat.

Looking at the corpse of the high priest that was slowly falling to the ground, all the priests at the back were speechless. They looked at Wei Yu 'er as if they were looking at a monster.

If it was Lin Yi himself, the impact wouldn't be this big.

After all, Lin Yi was a famous person-at his level, it wasn't hard to understand why he'd be able to perform outrageously.

but wei yu 'er?

most of them didn't even recognize her, thinking that she was one of lin yi's swordsmen, a maidservant!

an insignificant person like this had just killed one of the top five priests in the internal ranking. if it was lin yi, what would happen?

Wei Yu 'er swept her cold gaze across the crowd and repeated the sea god's divine decree.

"Don't move!"

at the same time, lin yi walked towards the priest hall.

the group of high and low priests in front of him were originally aggressive and overbearing, relying on their numbers.

however, with the high priest as an example, everyone's mind suddenly cleared up.

facing lin yi's invisible yet almost solid aura, the high and low priests looked at each other and chose to back down.

Some young priests couldn't take it anymore and were about to explode when they saw Lin Yi walking straight in.

However, Wei Yu 'er's cold eyes swept over him. He did not even need anyone to stop him. He immediately retreated.

"You do have a bit of courage, but it's a pity that there's not much."

The woman in red had a mocking expression on her face. even a newborn calf that should have been young and full of vigor is so useless. No wonder the priest faculty is declining day by day. It is getting worse and worse with each year.

the high and low priests wanted to refute, but they choked for a long time, unable to say anything.

Chapter 10296

the former priest system was indeed at the peak of its power. not only did it suppress the wayfarer system to the point that it had no sense of existence, but even the proud royal families of the four seas had to send people over regularly to express their goodwill.

at that time, almost everyone in the sea area unanimously agreed that if anyone could accomplish the great cause of unifying the sea area, it would be the priest system led by the high priest zhang xisheng.

however, no one knew when it started, but the priest system went downhill.

the wayfarer systems were treated as equals, and the four seas 'royal families no longer paid tributes. even commander bai ze was no longer so obedient.

And now, he'd fallen to the point where he'd been slapped in the face by this new junior.

this was the true meaning of 'the river flows thirty years to the east, and thirty years to the west'.

however, even though the high and low priests were depressed, they did not collapse because of this.

because the high priest was still here!

Wei Yu 'er and the guards unit followed behind Lin Yi, surrounded by a large number of priests, and arrived at the entrance of the priest Hall.

Then, he was blocked by an invisible force.

not only the guards unit, even wei yu 'er could not move an inch in the face of this power.

"hehe, i thought that your strength could really advance so quickly. you've revealed your true colors just like that?"

The red-clothed woman sneered on the surface, but she secretly heaved a sigh of relief.

she was also under a lot of pressure from wei yu 'er. although she looked down on her from the bottom of her heart, her body still gave a strong warning that if this continued, she would be surpassed by wei yu' er in no time.

At this moment, he could take the opportunity to strike at the other party's arrogance and suppress the other party's rising momentum!

However, when it was her turn, the woman in red suddenly found that she was also rejected at the door.

This was a little awkward.

"It's not a good habit to speak too early, especially as a maidservant, you have to change."

Lin Yi looked at her with a half-smile.

The red-robed lady did not dare to refute him. She thought to herself, 'if you have the ability, why don't you go in and take a look? aren't you still blocked outside the door?'

she was the same as all the other priests-she was sure that lin yi's strength couldn't beat the high priest, zhang xisheng!

even if lin yi's performance of defeating commander bai ze in five moves was indeed shocking, bai ze was still bai ze. there was still a qualitative difference between him and the real ceiling of the sea.

not to mention, the high priest was not an ordinary ceiling, but the publicly acknowledged leader of the ceiling!

It wasn't just her-everyone was waiting for Lin Yi's reaction.

to be more precise, they were all waiting to see lin yi make a fool of himself!

He had been acting all high and mighty all the way here, as if he was trying to seize power. In the end, he couldn't even enter the door here. That would really make him an idiot if he couldn't show off.

If news of what happened today got out, all of Lin Yi's hard-earned reputation would be cut in half!

after all, people respected you because they felt that you could eventually reach the top and change the entire era.

However, if one could not shake the status of the high priest, who was an old ceiling, no matter how loud one's reputation as the sovereign of the four Seas was, at best, one would only be a strengthened version of the royal family of the four Seas.

Everyone was guessing what they should do to express their mockery when Lin Yi suddenly moved.

he didn't make any extra movements, he just walked forward.

The result was unexpected. The invisible force that could block any top-tier battle-power directly bypassed him like a stream of water.

“.....”

everyone looked at this scene with a dumbfounded expression, and two words appeared in their minds at the same time.

Well-behaved.

The invisible power that should've represented the high priest's status, the mysterious power that could shut all the Masters in the sea out of the door, was now extremely obedient in front of Lin Yi.

it didn't block lin yi's path, but circled around him instead.

everyone could feel that she was even pushing lin yi in to please him.

this development was beyond everyone's expectations.

"No, the high priest must have let him go. Otherwise, even if he could have entered, he wouldn't have been able to do so so so easily!"

Someone quickly came to a conclusion.

Many people agreed with him. This was the only conclusion they could accept.

however, as if it was responding to them, the power that was as gentle as a little sheep at lin yi's side became violent the moment it left lin yi.

Previously, it had only covered the interior of the hall. Now, it suddenly surged out madly and directly crushed a large area on the spot.

the luckier ones were only sent flying a hundred meters away.

Those who were not so lucky would be pressed to the ground at the least, or their bones and internal organs would be shattered, and they would be on the verge of death.

Lin Yi, on the other hand, wasn't affected at all. He was still walking leisurely.

the high priest's voice came from the depths of the hall.

he's indeed worthy of being a Supreme figure who has the potential to reach the top. This old man's underhanded little trick is showing off his slight skill in front of an expert.

"if the high priest's skills aren't on the table, then i'm afraid no one else can," lin yi replied faintly.

as he spoke, his footsteps became more and more determined.

the people outside couldn't see it, but in reality, the wind was already raging.

Lin Yi, who seemed to be calm and collected, was actually under more pressure than anyone could imagine. Even when he was fighting with commander Bai Ze, it wasn't as dangerous as it was now.

if it wasn't for the fact that he'd broken through to golden class mid-phase a few days ago, he probably wouldn't be able to continue on this path.

but now, they could still move forward.

a moment later, lin yi was deep in the hall.

in the main seat, which represented the core power of the sea goddess hall, high priest zhang xisheng was waiting for his arrival.

but what surprised lin yi was that the high priest's current state was that of an old man.

if one were to only rely on his aura to sense, the person sitting in front was not the strongest person in the sea realm at all. instead, he was clearly a skeleton that had almost entered the grave.

How was this possible?

lin yi squinted his eyes and looked at the man again.

If it weren't for the high priest's appearance and all the details, Lin Yi wouldn't have been able to connect him to Zhang xisheng.

Lin Yi suddenly had a strange feeling-the high priest in front of him was the same person as the one before, but there was a huge difference.

"don't be surprised, i'm already a dying man."

the high priest's words surprised lin yi.

his first reaction was that it was a cover-up!

But Lin Yi quickly ruled out that possibility. After all, the death Qi couldn't be faked-it was a sign of a dying person.

Don't forget that Lin Yi was an illusionist himself, and he was a Grandmaster at disguising his aura. Even the high priest wouldn't be able to fool him like this!

Chapter 10297

Lin Yi's eyes twitched as he pondered."you exchanged your life with cruel malevolence?"

"You're indeed extremely smart."

The shock in the high priest's eyes disappeared.

He'd been planning this all along, but Lin Yi's discovery of the truth so quickly still surprised him.

"Even a kid can figure that out," Lin Yi shook his head, "it's not smart at all."

"If there really is such a child, he must be an extremely smart child."

The high priest looked at him deeply. as the saying goes, when a man is about to die, his words are also kind. You must have many doubts. I can also give you answers.

"I'm surprised, high priest," Lin Yi raised a brow.

"there's nothing to be surprised about. it would be a pity if some things were to follow this old man into the grave."

the high priest's sitting posture unconsciously collapsed a lot. it seemed that even maintaining a normal posture was already very difficult.

"If that's the case, then tell me about the person behind you," Lin Yi said after some thought.

"My back is covered with a Kasaya."

the high priest was silent for a moment before slowly saying, " I think you've already guessed it. He's the former master of the sea, the evil god.

"the evil god was the master of the sea?" lin yi was surprised.

he was not surprised by the evil god. he had already guessed from all kinds of clues, especially zhang shichang and his gang. they were able to enter the huanghai region by relying on the curse of the evil god.

The fall of the sea god could be hidden from others, but it could not be hidden from the high priest in front of him, let alone the evil god!

Lin Yi could feel that there was a giant hand controlling everything in the sea.

&Nbsp; but he had a premonition that everything he did was within the evil God's plan and had never exceeded it.

however, the information revealed by zhang xisheng's words still made him gain some insight.

the sea area wasn't what it is now. Its original owner wasn't the sea god. It was called the evil sea. Zhang xisheng nodded.

"evil god sea?"

lin yi understood instantly.

Before this, he had always thought that the sea god's fall was purely due to an evil God's scheme behind the scenes, polluting the foundation of the divine persona, which ultimately led to the sea god's death halfway.

But thinking about it carefully, this was related to the foundation of a divine persona, which was the sea god's lifeblood. How could it be so easily contaminated by others?

&Nbsp; normally, even evil gods wouldn't be able to do that.

unless the divine spark didn't belong to the sea god, but to the heretic god.

In that case, it would be much easier for the evil god, as the original owner, to corrupt the foundation of the divine persona.

lin yi recalled the sea that was getting more and more turbulent, and an idea came to him. "he wants to turn the sea into the evil sea again?"

He didn't know what the evil sea looked like, but it wasn't hard to guess that it was the foundation of the evil God's Godhead.

the day the sea returned to the evil sea would be the day the evil god would become the lord of the sea again!

"That's right, that's his goal."

The high priest looked at Lin Yi with a hint of relief in his eyes. although everything you did before was your own decision, it was all within the evil God's calculations.

the sea is very close to turning back into the evil sea. it's only one step away."

Lin Yi blinked, his eyes narrowing."why are you telling me this? Aren't you from the evil god?"

the high priest laughed bitterly. " i was indeed chosen by the evil god as the first batch of disseminators, but now my value has been exhausted. he will not waste any more divine power on me. so, even though i am about to die, i can still regain some consciousness. "

the words sounded sincere, but lin yi wouldn't believe them easily.

although they had never fought against each other on the surface, there had been a lot of scheming behind their backs.

One careless move and the whole game would be lost.

the danger was no less than a life and death battle.

Even Lin Yi had to admit that although the enemy didn't show himself, it was like a huge mountain was pressing down on his head, making it hard for him to breathe.

but now, he had suddenly turned white and said that he had been controlled by an evil god.

who would believe that?

"perhaps you won't believe it, but i've always been the lord seagod's most loyal believer, always have been."

the high priest sighed helplessly.

"then why are you still bewitched by the evil god?"

lin yi frowned-the words were contradictory.

But when he thought about it, since the sea god had chosen him to be the high priest, this in itself was the best proof of loyalty.

" that's why the evil god is so evil. "

"in truth, when i was working for him, my loyalty to lord seagod never changed. i even naively thought that everything i did was for lord seagod's good."

"....."

lin yi was starting to believe her.

at the high priest's level, it was almost impossible to change his faith, even if it was a real god.

only this kind of deep level of guidance could imperceptibly influence them and make them unconsciously go astray.

In the end, it was a brainwashing saying.

I have good intentions.

"i don't think there's any point in telling me all this now," lin yi shook his head.

"i'm telling you this to make you believe what i'm going to say next."

as the high priest spoke, his aura suddenly began to leak out wildly.

Anyone else would've been on their guard, but Lin Yi only frowned.

he knew that this wasn't the other party deliberately causing trouble, but that he really couldn't control his own aura.

the already weak aura gradually showed signs of bursting.

This was clearly dispersing cultivation.

once the cultivation ended, the person would also die. no matter how strong an expert was, they could not escape this law.

"What do you want to tell me?" Lin Yi asked in a deep voice.

the high priest stood up from his seat with difficulty and walked to lin yi.

the sea is about to fall into chaos. It's already unavoidable from the moment you became the sovereign of the four Seas.

once the sea area is in chaos and the evil Qi grows, with the evil God's help, it will only be a matter of time before the sea area returns to the evil sea.

when that time comes, the return of the evil gods will be a foregone conclusion. No one can change that!

His words were enough to make anyone's heart jump.

lin yi, however, didn't show much emotion. he only frowned and asked, "why is the sea region in such chaos?"

He was the master of the four Seas, and he had already bound the fate of the four Seas to him. He was the one who had the most say on whether the sea area would be in chaos in the future.

on this point, no one could do anything, not even the evil gods.

Chapter 10298

Even if someone really did make some small moves behind the scenes, there might be some small chaos, but if it was a big chaos that affected the entire sea area, it would have to go through him.

the four words "ruler of the four seas" was definitely not as simple as a title.

at a critical moment, he could even mobilize the fate energy of the four seas to suppress them!

the high priest seemed to have seen through his thoughts and shook his head slightly.

"in theory, the fate energy of the four seas is indeed enough to suppress the chaos, but even if you are the sovereign of the four seas, the amount of fate energy you can truly mobilize is still limited."

"you can suppress one or two battles, but how do you suppress ten or a hundred?"

moreover, once too much luck is consumed, it will inevitably lead to a backlash.

" this is an open scheme laid out by the evil god. you can't avoid it no matter how you try. you can only choose to accept it. "

To sum it up, the sea was bound to be in chaos, and Lin Yi couldn't stop it.

"If I can't stop it, then isn't it a waste of your time telling me all this?" Lin Yi said, deep in thought.

it's impossible to guard against it, " the high priest said. the only choice left for you is to take the initiative and get rid of the human body that the evil god left in the sea. Only then can you truly stop the evil god from returning!

"the evil god's human body?"

Lin Yi couldn't help but be surprised.

according to jiang xiaoshang, although the gods were high and mighty, and the experts of the mortal world were like ants in their eyes, this did not mean that they could do whatever they wanted.

On the contrary, the gods were severely restricted in the area of projecting power.

As long as the restrictions were slightly relaxed, ordinary cultivators would not be able to resist their mighty power at all.

For example, in the sea, it was impossible for the feudal lords to be divided. They had long since surrendered and trembled at the sea god's feet.

And it was precisely because of such strict restrictions that if the gods wanted to control the human world, they had to find their own spokesperson. This was how the priests and the Wayfarers of the gods came about.

But now, an evil God's human body had actually appeared?

&Nbsp; " the reason why evil gods are called evil gods is because they are an extremely unique existence among the gods, " the high priest said seriously. anything related to them can not be judged with common sense.

"You've seen his human form?"

this was a serious matter, and even lin yi's face turned serious.

"i've met him once. it was also because of that time that i unknowingly became his puppet,"

the high priest's face was filled with fear, and he added, " "what i saw back then was only his corpse."

This time, Lin Yi was really surprised.

other things aside, he had absolute recognition of the other party's strength.

Even if he wasn't the undisputed number one in the entire sea realm in many people's imagination, he was definitely a Supreme existence standing at the top of the pyramid. A mere corpse could actually control him to this extent?

If it came back to life, what would it be like?

While he was still in shock, the high priest suddenly changed the topic, "The Lord seagod fell at your hands, right?"

"Not bad."

lin yi nodded honestly.

although this matter could be said to be the greatest secret of the sea realm, it was impossible to hide it from these people who stood at the top.

cruel malevolence couldn't be hidden from him, let alone the high priest.

but if it was really as he said, that he had always been the most loyal believer of the sea god, at this point, he was afraid that he would have to completely shed all pretense of cordiality.

of course, lin yi had the confidence to admit it to his face.

with his current strength, even if the high priest was at his peak, he might still be able to fight against him, not to mention that the other party's breath had slipped to the point of near death, and his strength had dropped to the freezing point.

Even if he was a cornered beast, or even if he recovered his full strength in a short time, it would be difficult for him to pose a real fatal threat.

"As expected, the future generations are fearsome."

The high priest looked at Lin Yi deeply before shaking his head with a bitter smile.

"If I'd woken up earlier, I would've definitely killed you to avenge the Lord seagod, but unfortunately, I woke up too late."

it sounded like she was intentionally showing weakness, but lin yi didn't care.

after all, he was an expert in playing the pig to eat the tiger. naturally, he would not make such a low-level mistake as underestimating the enemy.

in the face of a figure of the high priest's level, even if he was on the verge of death, he couldn't let his guard down.

" in the end, the evil god is the root cause of lord seagod's fall, and i am the biggest accomplice. even if i blame it on you, it's just self-deception, " the high priest said dejectedly.

Lin Yi couldn't help but raise his opinion of him.

It was rare for a dying person to have such self-awareness.

"where's the evil god's mortal body?" lin yi asked.

"The 18th level of hell."

The high priest revealed an old story, " "Do you know why there are eighteen levels of hell? it's something Lord seagod specially created to suppress the evil God's human body."

"so life crystals are related to the evil gods too?" lin yi squinted.

This guess was a little off, but it wasn't too sudden.

After all, even a child would know that life crystals came from the 18 levels of hell.

of course, the mainstream theory was that the eighteen levels of hell were simply a passageway. all the life crystals came from the land connected to the other end of the passageway, and the life crystals were a unique product of that land.

The high priest could not help but be shocked by his thoughts again. He nodded and said, the life crystals are the evil God's handiwork.

"What about the local specialty?"

" it's just made up to appease the people. the eighteen levels of hell are the eighteen levels of hell. it's not a passage at all. at the end of it is a coffin, and the human body of the evil god is lying in it. "

the high priest paused and added, " there's another name at the end of that road, hell Street.

Lin Yi said.

he immediately understood why he had suddenly received those two letters of challenge. the abyss queen and the nameless scholar were both in hell street!

In other words, the two of them who had not shown their faces for decades were now bound to the evil god.

of course, there was another possibility.

they didn't become the evil god's puppets. the reason why they were guarding hell street was to suppress the evil god's human body.

However, since the high priest Zhang xisheng had fallen, the possibility of them remaining independent was very low.

"So, I have to accept the challenge?"

Lin Yi couldn't help but have a headache.

one evil god's human body was already scary enough, and now it was equipped with two sea ceiling helper. this kind of lineup could scare a lot of people to death just by reporting their names.

The high priest looked at him. if you don't want to submit to the evil god in the near future, you can only accept the battle. You must win.

Chapter 10299

"you really think highly of me,"

Lin Yi was speechless-even if he was confident enough to take on his opponent at his peak, he still didn't have the confidence to do so in this situation.

the key point was that this thing didn't leave him any room for retreat. now that things had come to this, he had no place to hide even if he wanted to.

"they all say that the next generation is called lin yi."

hehe. the high priest suddenly laughed. if a person wants to support an era, wouldn't he lose face if he doesn't do something earth-shattering? "

"....."

"why do they want to make life crystals?" lin yi asked. if he wants the sea to be in chaos, he can just stop it. "

without the life crystals, the sea area would be in chaos.

According to normal logic, that style was clearly more in line with the interests of the evil gods.

"do you know why the marine human tribe can't live without life crystals?" the high priest asked.

"Because of some kind of evolution flaw?" Lin Yi asked after some thought.

The high priest was stunned for a moment. It was obvious that this was the first time he had heard this term. However, after thinking for a while, he understood the meaning.

" that's right. you can think of it that way. the weakness of the mermen was left behind from the era of the evil sea. the evil god was the one who caused it. "

"Then why did he offer them?" Lin Yi asked, confused.

if it were other gods, saying that they were doing something good for the common people of the world, although it was not very reliable, it was still somewhat credible.

But an evil god?

Even if he used his toes to think, he knew it was impossible.

"He must provide the life crystals."

The high priest's next sentence completely overturned Lin Yi's understanding of the world.

if there comes a day when the supply of life crystals is completely cut off, the day of the evil God's return will be far away. It might even completely lose the possibility of returning to the sea.

"what do you mean?" lin yi asked, confused.

the high priest smiled. " because the merfolk tribe can't leave the life crystal. it's a lie from the beginning to the end. it's an ultimate lie that has been carefully set up since the era of the evil sea and has existed for tens of thousands of years! "

"....."

lin yi was stunned. he shook his head, " the sea people will die if they lose the life crystal for too long. this is something that the entire sea realm knows. there have been countless cases of this happening. how can it be a scam? "

That was the result of countless human lives, a bloody fact. No matter how you think about it, it couldn't be associated with the word 'scam', right?

although the strength of the commoners was low, no one could ignore their wisdom when it came to matters that concerned their lives.

small figures had their own shrewdness.

This was something that even the high and mighty gods could not easily manipulate. After all, the most unfathomable thing in the world was the human heart.

" all the tragedies you've seen weren't because of the lack of life crystals. it was because of the evil god's curse. "

the life Crystal can't control the life and death of the Marine human tribe. It only has one effect, and that is to cause hallucinations.

every time the Marine human tribe uses it, they'll be hypnotized by it. They'll fall into the illusion that they'll die once they leave the life Crystal, and they can't extricate themselves.

" once the supply of life crystals is cut off, you'll see that everyone is in pain in the beginning, but as long as you walk out of the illusion, the truth will naturally come out. "

" after all, the power of the evil god's curse is limited. it can only focus on cursing a few groups, but it can't curse all the marine humans! "

lin yi's eyes were wide open.

what was a big move? this was the real deal!

when other people heard this, they might still have a stomach full of doubts, but he saw through it with just a little bit and had already deduced the entire context.

the life crystal was a hand that the heretic god had specially set up to make a comeback.

if it wasn't for the ten-thousand-year-old scam of the life crystal, even if the evil god left behind a human body in a coffin, his influence in the sea would quickly disappear.

and once they lost their influence, they would not have any new believers.

Then, he would have to bid farewell to the sea realm.

now, however, not only could he continuously stir up the sea realm's storms with the life crystals, but he could also create a mysterious place like hell street and control the entire sea realm's situation from behind the scenes!

when the time was right, they could even complete the preparation and stage a comeback!

lin yi pondered for a moment and shook his head,"This is still an undefeatable plot."

He believed that, but what about the others?

Even if he went out and spread this super scam to the entire sea area, so what?

When it came to life and death, no one would be willing to step forward and risk their lives. Even if some people were forced to step forward, it was useless if there were few people.

After all, with the existence of the evil God's curse, if the number of people could not reach a sufficient scale, the few outstanding ones would definitely be killed by the curse.

At that time, not only would they not be able to expose the scam, but it would also intensify the panic!

As for making everyone stand out and disregard their own lives, not even a true God could do that, let alone Lin Yi.

"There's still a way," the high priest looked at him.

"....."

"You're crazy too," Lin Yi's face changed.

The high priest was calm and composed. if you don't go crazy, you won't live. There are some things that have to be done by someone. Since others can't do it, then let me do it.

at this moment, lin yi's heart was filled with respect.

No matter what position they were in, he still sincerely admired people who were truly willing to give everything.

lin yi was silent for a moment. seeing that the man's aura was almost gone, he finally asked, "what else do you have to explain?"

he had thought that since the other party had given him such a huge favor, he would definitely make some reasonable requests.

For example, he asked him to take care of his old subordinates in the priest faculty.

There were many experts in the priest school, and even without the high priest as the backbone, they were still a force that could not be underestimated.

as long as they didn't do anything stupid, lin yi wouldn't do anything to them.

however, when he thought of what the other party was going to do next, the situation of the revered priests outside would definitely become extremely difficult in the future.

The high priest's breath gradually weakened, and he left his last words in an inaudible voice.

"be careful of cruel malevolence."

After he finished speaking, his head drooped down. He had already breathed his last and his primordial spirit had also been destroyed.

lin yi stood in front of him for a long time before he nodded and left.

Today's encounter had completely exceeded all of his expectations. The information he had obtained from the other party's mouth had subverted many of his previous perceptions.

He needed some time to digest.

"they're here! They're here!"

seeing lin yi walk out of the priest hall unscathed, the priests and priestesses surrounding the entrance were all stunned.

sensing that the force that was blocking them had disappeared, some of the high priests rushed in impatiently. what followed was a cry of shock.

Chapter 10300

After the exclamation, everyone fell silent.

not only the priests, even commander bai ze, who had rushed over to see the results, was stunned when he saw the high priest's body.

when he came out of the priest hall, he looked at lin yi with deep respect.

"how did you, qianqian, do it?"

bai ze could not help but ask.

Losing to Lin Yi in five moves was still acceptable to him, but now even the High Priestess died in Lin Yi's hands without a sound. It was hard for him to understand.

It wasn't just him. If this news spread, the entire sea region would probably go crazy.

Lin Yi's return to the Poseidon shrine as the ruler of the four Seas meant that everyone was waiting for the collision of Mars and earth.

In the end, there was no sound from the beginning to the end, and it ended just like that.

Who would believe that Lin Yi was the one who had the last laugh?

"he killed himself, do you believe that?" lin yi said.

"....."

Bai Ze's face suddenly changed into a ghostly expression, and then he silently said, " "You forced him to?"

lin yi was speechless.

forcing the number one expert of the sea realm to commit suicide ... this seemed to be much more difficult than killing him silently.

this matter seemed to be a little difficult to explain.

after all, even ants had to live. who would believe that a person at the high priest's level could commit suicide in front of their enemy?

lin yi didn't bother explaining.

Even if others forcibly counted the high priest's death as his battle achievement, it would not have much of an impact on him.

Even if the high priest wanted to take revenge, it was impossible for him to pose any real threat to him.

On the contrary, with this non-existent and shocking battle record, he could greatly intimidate the evildoers from all sides and stabilize the four Seas!

just as the entire seagod hall was immersed in shock and digesting this unbelievable scene, news came. all the large warehouses that stored life crystals had been destroyed, and none of them had survived.

The life Crystal had been forcefully cleared to zero.

As soon as this news came out, everyone in the sea god temple was collectively shocked, which actually overshadowed the news of the high priest's death.

They knew all too well what life crystals meant to the sea realm.

The high priest's death was a small part of the world, but without the life crystals, it was like the whole world had fallen!

It must be noted that among all the high and low priests present, except for a few powerful high priests, more than 90% of them could not do without life crystals.

This was a major matter that directly concerned their personal life and death!

Hou Mohe looked at Lin Yi with a strange expression after gathering all the information he could get.

Lin Yi waved his hand. just say it. It's too big a thing to hide.

"Yes."

"According to the intelligence reports, the one who attacked the warehouses was the high priest, Zhang xisheng," hou Maha cleared his throat and said.

"bullshit! The high priest is inside. How did he attack your warehouse?"

the group of priests immediately flew into a rage.

Not to mention other things, at least within their priest faculty, the high priest's prestige was still extremely high, and no one was allowed to profane it.

" you can't go out and cause trouble when you're inside, " the woman in red sneered. " can't a clone do that? "

everyone was left speechless.

Hou Maha nodded. it was indeed the high priest's avatar that self-destructed. This was not only seen by our internal members, but many people also saw it. The high priest did not seem to want to hide his whereabouts.

Everyone was speechless.

all the priests suddenly felt as if they had lost their parents.

It was impossible to joke about such a big matter. Since the news was so certain, it was probably the truth.

But in this way, not only was the high priest dead, but he had also left them with such a big pot that was against humanity. Even if the high priest branch had accumulated a great reputation in the past, it could not withstand such destruction!

Once this news spread, it was easy to imagine the reaction of all the parties in the sea area. They would definitely burst into unprecedented anger!

The high priest was dead, but they were still alive.

at that time, there was no need to think about it, the priest faculty from top to bottom would be the scapegoats.

Being pointed at by a thousand people was already a light punishment. If it was not handled properly, he might be skinned alive by the angry crowd!

bang! bang!

The low-ranked priests who had a slightly weaker mental capacity fainted on the spot, and not just one or two.

lin yi looked at them. from the moment the high priest made his decision, these people were destined to be sacrifices.

however, as an outsider, he didn't have any other thoughts except to look on coldly.

no one wanted to become a sacrifice, but they had to pay back what they had done.

Since he had previously relied on the high priest's influence, now that he had been pulled into the pit, there was really nothing to say.

"tell all the warzone leaders to be on standby," lin yi ordered. "all combat forces are to assemble and enter a level one alert state!"

"yes!"

hou moshe immediately left.

It hadn't been long since Lin Yi ascended the throne, but he'd already started reforming the four Seas "system. The moment the Ascension ceremony was completed, it was already in shape.

He didn't have the core organizations under his control, but the military leaders, big and small, had all submitted to him.

Of course, its reliability was questionable.

however, after the news of the high priest's death came out, this group of military leaders probably did not dare to sway casually anymore.

they didn't even know if the high priest really died in lin yi's hands, and even if they did, they wouldn't dare to touch lin yi's whiskers.

after all, it would be easy for someone who could defeat commander bai ze in five moves to kill them.

watching lin yi leave with his people, the remaining people from the sea god hall looked at each other, not knowing what to do. in the end, they all turned to bai ze.

bai ze was speechless.

Although he was one of the three big shots of the sea God's temple, his sense of existence and influence were far from comparable to the high priest and cruel malevolence.

Even if he opened his mouth to speak, few people outside would listen except for the temple guards.

this was the first time he had ever been in such a situation.

Unfortunately, he did not have any thoughts about it now.

"Don't look at me, I have nothing to say."

bai ze suddenly turned around and left without saying a word, as if he was afraid of being entangled by the crowd.

When the rest of the people present saw this, their eyes flickered and they shrank their necks.

some of them simply followed suit and began to slip away silently.
