

Bodyguard 1781

### **Chapter 1781: borrowing money**

The old ancestor of house Yu knew about this, but he also knew that house Yu didn't have a smart person. They only collected these things for the master behind the scenes.

The you family's old man's words shocked everyone present. It seemed that the hidden you family's current strength was only on the surface. No one knew how many masters and cards they had in their family!

"I think we should just let our old friend from the Zhao family snatch the Qi gathering pill?" After the old master of the you family finished speaking, he spoke again.

"You ... Don't you slander us! How could house Zhao steal the Qi gathering pill from house Yu?" Zhao Yu's father was shocked and quickly denied.

"..." The old master of the you family was suddenly speechless."I say, old friend from house Zhao, aren't you a little too excited? I'm not saying that you really took the Qi gathering pill from house Yu-it's just that you're the only one who'd just broken into Sky Class among all the hidden houses, so it'd be the most logical thing to say if you took the pill-you used the pill to break into Sky Class, and that's why you fell out with house Yu ..."

"So that's it ..." Old man Zhao let out a breath of relief and cursed in his heart. Old man, you guessed it right, I broke through because I stole the Qi gathering pill from house Yu! However, this act could cover up some of the truth. Even though they would become the target of public criticism, no one would believe that he really took the Qi gathering pill from house Yu! However, old master Zhao wasn't stupid. He pondered for a moment and said,""My in-laws and I put on such a dangerous show for everyone. In the end, everyone will benefit. Aren't we a bit at a loss?"

"Hahaha!" The you family's old master seemed to have known that the Zhao family's old master would ask this question, so he smiled and said,""Don't worry, we aren't ungrateful. Your two families stood up for us, so we won't mistreat you secretly. This time, the you family will offer a generous pill as a thank you gift!"

"We don't have pills, but we do have some money ..." Old master Tang said.

"Us too ..." Old man Pi and the others also expressed their willingness to give out some benefits in secret.

So, the matter was temporarily settled!

These few days, house Yu pretended to receive a secret from their daughter, Yu Xiaojin, that the Qi gathering pill was taken away by house Zhao. House Yu also asked Yu Huoxing to cooperate and make up for his mistake by falsely accusing house Zhao. This way, the conflict between the two houses would escalate to an irreconcilable level, and they could summon the great elder ...

During Lin Yi's isolated practicing, something happened in Songshan.

Chu pengzhan looked at the numbers on the computer screen. Even someone like him who had seen the world couldn't remain calm! Wasn't this speed of making money too fast? Chu pengzhan had been in charge of pengzhan industries for so many years, but he had never made so much money before!

He'd heard of people who could earn a lot of money in minutes before, but he'd just laughed it off. But now, pengzhan finally understood that such people did exist, and he was one of them!

The futures market sure was profitable. Chu pengzhan picked up his phone excitedly and called an Mingyue.

"Pengzhan bro, why are you calling again? Didn't we just talk? I've sent the current profits to your e-mail, see if you've received it." An Mingyue asked.

"I received it, of course I received it. Brother Mingyue, I only called you because I received it. These futures contracts ... Don't they earn money a little too quickly?" Pengzhan was very happy-the money he'd made during this time was almost the company's annual profits!

"Haha, that's what the futures market is like. Plus, with Jianwen's friend here, of course we'll be able to earn more." An Mingyue smiled.

"I really have to thank brother Mingyue. With such a good way to make money, you didn't forget your old neighbor!" Pengzhan said gratefully.

"Pengzhan bro, you don't have to thank me. The more money you have, the more you earn from futures. If you didn't invest so much money into it, I wouldn't be able to make so much money if I did it myself ..." An Mingyue said nonchalantly, "Besides, it's just in passing. One sheep is like leading, two sheep are like driving. Haha, it's just a simple matter!"

"Brother Mingyue, if that's the case, I won't be pretentious. I won't say thank you anymore. Let's talk about serious business. What do you think about me increasing the investment now?" Chu pengzhan looked at the numbers on the computer screen. It was hard for him not to be moved by the profits.

"Additional investment?" An Mingyue "froze" for a moment, then said, "Pengzhan bro, does pengzhan industries still have funds? Futures are just for fun. Industry is more important!"

"Mingyue bro, I'll be honest with you. Since the futures market is so good now, I want to make a big profit. Pengzhan industries has reached a bottleneck, and without enough capital, it's hard to achieve big development. So, I want to use my business as collateral and borrow some money to go big!" Pengzhan said.

"This ... Is a little risky, right?" "Pengzhan bro, as an old neighbor, I'm telling you that futures are risky. It's not the guaranteed profit you think it is!" Mingyue said. It's normal for others to suffer losses when you profit, so why don't you stop when you're done?"

As an Mingyue said this, she was praying in her heart that Chu pengzhan wouldn't really give up because of her. If he did, then they would be done for. All their plans would be for nothing and they would have to pay a huge sum of money!

"Haha, as the saying goes, wealth comes from danger. I want to take a gamble!" Pengzhan said.

“Brother pengzhan, will you consider it?” An Mingyue sighed. “The risk of this kind of investment is too high. It’s okay for occasional fun, but for the long term ...”

“Brother Mingyue, I’ve already decided. This time, I’m going to make a big one!” “I hope you don’t try to persuade me anymore, but support me with all your might!” Pengzhan said.

“Sigh, alright, since you’ve already decided, I won’t say anything more ...” An Mingyue sighed again, helplessly saying, “How big do you want to make it?”

“Brother Mingyue, can you lend me some money?” “Since your an family doesn’t want to run their business anymore, why don’t you support me?” pengzhan said after some hesitation.

“Brother pengzhan, lending you money ... Actually, with our relationship, it’s not a problem for me to lend you money, but you should know that I don’t have the final say in the an family. My big brother an mingri and my father are all watching ...” An Mingyue said, troubled. “If I were to take out a sum of money to lend you, they would definitely not agree!” (To be continued.)

### **Chapter 1782: acting**

“Brother Mingyue, don’t worry, I won’t lend you money for nothing. How about this, I’ll use all of pengzhan industries” assets as collateral, and you can give me how much money you can give me, how about it?” Pengzhan himself didn’t know why he would say something like that, but he took it for granted. There was nothing wrong with it.

“I see ...” An Mingyue muttered to herself, then said, “I can discuss it with my family, but brother pengzhan, I advise you to be careful. After all ... If, and I’m saying if, you lose the money, should I take this business or not? If I want it, I’ll feel uneasy and feel sorry for you. If I don’t want it, my family definitely won’t be able to get through it, so ...”

“Brother Mingyue, since you’re going to be a mortgage, the property will naturally be yours if the money is gone. What’s there to hesitate about?” Chu pengzhan interrupted an Mingyue impatiently, “There’s no need to say anymore, it’s decided. Brother Mingyue, why are you still so wishy-washy?”

“Ah, okay, I’ll discuss it with big brother, and then give you a definite answer ...” An Mingyue said.

In fact, an Mingyue and an mingri were indeed in charge of the an family business, and the biggest shareholder was their father, old master an. But this time, an Mingyue was completely trying to trick Chu pengzhan, so the so-called discussion was just to trick Chu pengzhan!

Of course, this money also belonged to the an family’s business. The reason why an Mingyue did this was to make a good impression in front of the old man, so that an Jianwen could be prepared to take over as the head of the an family in the future!

However, an Mingyue still dialed her brother an mingri’s number after hanging up the phone. She pretended to discuss with an mingri on the phone.

An Mingyue’s phone calls were all recorded. She did that to put on an act. Her son liked Chu Mengyao, so after the an family took over house Chu’s business, she needed some “evidence” to prove that the an

family was innocent. The recording of an Mingyue's phone call with Chu pengzhan, as well as her brother's talk about the mortgage loan, became the best evidence!

If Mengyao was suspicious, he'd just play the recording and prove the an family's innocence. This had nothing to do with the an family at all, it was Chu pengzhan himself who did it in the heat of the moment, and he'd tried to stop it a few times to no avail. It wasn't him who'd set them up.

An mingri wasn't in a rush to reply to Chu pengzhan after the scene. He turned to an Jianwen and asked,"Jianwen, we've made Chu pengzhan go bankrupt this time. He won't commit suicide, will he?"

"So what if I commit suicide?" Jianwen said nonchalantly.

"If you commit suicide, then our an family will be indirectly guilty. What happened between you and Yaoyao ..." An Mingyue said worriedly.

"Hehe, Chu pengzhan's dead, and Chu Mengyao will have no one to rely on. It's easier for me to win her heart now, but if Chu pengzhan doesn't die, I'm worried that he'll do something!" "Although the hypnotist from the firewolves is very powerful, Chu pengzhan probably won't realize that there's something fishy going on, but it's better to be safe than sorry. I'll be more at ease if he's dead!" Jianwen said.

"I see. I'm relieved to hear that. I can do whatever I want now ..." An Mingyue nodded. She picked up her phone and dialed Chu pengzhan's number.

At the same time, in an abandoned underground factory in Songshan, a young man with a cold face sat. His face was filled with anger, unwillingness, regret and regret!

"De bro, that an Jianwen is just a little stupid and bold. He's brave enough to do anything, and that's why he got the firewolves" support. On the other hand, someone like you, who's smart and cautious, isn't doing as well as him in the firewolves. It's so unfair!" This man was the top counselor of brother de. His name was Cao Zhuge, which meant that he was better than Zhuge Liang.

And this brother de was an Jiande, an Jianwen's cousin! He was the one in charge of the illegal kidney trafficking business in Songshan, and he'd been doing it for many years without making any mistakes, but Jianwen's arrival cut off this path of earning money. He had to admit that Jianwen's earnings in that month were more than what he'd earned in years, but it was still a one-time deal, and he couldn't do it again in the future.

An Jiande felt a little disgruntled when he saw that his reckless brother had been recognized by the firewolves. In terms of strategy and intelligence, he wasn't inferior to an Jianwen, and he was a lot more mature than an Jianwen. However, he didn't earn as much money as an Jianwen, which was why he didn't get the firewolves "attention!

Looking at the helpers around him, the strongest one was a golden class master, while Jianwen had a Mystic class master, a professor, and a powerful hypnotist. Jiande wasn't willing to give up, and after weighing the pros and cons, he decided to do something different-he wanted to make money!

Of course, Jianwen had done all the illegal things that could be done in Songshan, and that was what pissed Jiande off the most. He didn't want to go to other cities, however, since Songshan was his old base. He was familiar with all the places and had the terrain advantage.

And so, after an Jiande considered a variety of other professions, he set his eyes on the thief industry, because he was surprised to find that the original thief gangs in Songshan city seemed to have disappeared without a trace! After all, an Jiande had been doing illegal organ trafficking business here for a few years, and he knew the people in the underworld. So when he found out that the thief organization had disappeared, he decided to take over and set up a thief organization to start stealing!

After all, the only thing that Jianwen didn't do was steal. Of course, if he did a good job, the profit would be quite high! An Jiande was just testing the waters, so he didn't do anything big. He just recruited some people and trained some orphans to steal from supermarkets and train stations. If everything went well, he would also add some more skilled door locks and steal some company property.

Of course, the sudden appearance of this group of people in Songshan city would definitely attract the attention of people with ulterior motives-it'd be hard to handle if something went wrong. So to cover it up, an Jiande especially asked his golden class Masters to build a stage with the orphans and put on a performance in the night market Street. They'd claim it to be a circus, so they wouldn't have to worry about being investigated. (To be continued.)

### **Chapter 1783: property in hand**

He believed that if this business was done well, it would be a good source of income, but what pissed him off was that he had just arrived in Songshan city and his men were caught red-handed for stealing in the supermarket, which made him very angry!

As the saying goes,"every horse makes mistakes, every man makes mistakes." It was inevitable for people in this line of work to make mistakes, but the main problem was that he had just started and he already made a mistake. How could an Jiande tolerate it? If he had been caught by the police, it would have been fine, but it was a few nosy young people who had exposed him. This made an Jiande even more annoyed!

Those who blocked his plan would definitely be retaliated against!

"Brother de, we've found out the identity of those nosy people!" Cao Zhuge received the report from his men and quickly said to an Jiande.

"Oh? Who did this?" An Jiande quickly asked.

"We don't have any news on the Land Rover, but according to our investigation, the Audi S5 is often in and out of the sea view Bay Villa area. Our people went there and found out that the owner's name is Chu Mengyao, the daughter of pengzhan industries" Chairman, Chu pengzhan!" "As for the others," Cao Zhuge said,"they must be with her. We don't need to find out. We already have a target!"

"Damn it, does pengzhan industries" daughter think She's All That? I'll find a few brothers and burn down her house. I'll let her know the consequences of interfering with my plan! Burn them to death!" An Jiande was actually a ruthless man, killing and setting fires were common to him.

"But de bro, according to our investigation, Chu Mengyao went on a trip and there's no one at home. Even if we set fire, it wouldn't be able to burn them. For rich people like them, it's not a big deal to burn down a house, right?" Cao Zhuge said.

"You went on a trip?" "Then what do we do?" an Jiande asked.

“Why don’t we ... Wait for them to come back?” Cao Zhuge was in a difficult position as well. After all, they couldn’t get information as fast as the local forces. There was a time difference between them and the local forces, so naturally, they let Chu Mengyao go.

“Wait for them to come back? It’s going to be too late!” An Jiande was very upset, he felt like he couldn’t use his power.

#### **Chapter 1784: Ready to go**

Of course, Lin Yi, Mengyao, and the others in the West Star Mountain village didn’t know about this ...

Lin Yi had just followed the instructions on the body refining recipe and made the medicine. After taking one portion of the medicine, he jumped into a basin of light black medicine on the ground. Instantly, Lin Yi felt a bone-piercing cold on his skin, making him shiver uncontrollably!

Lin Yi didn’t think that the liquid would have such an effect-there wasn’t anything as cooling as Mentholum, but it was so cold when mixed together that he almost jumped out of the water!

Fortunately, Lin Yi knew that this was a necessary stage before he could reach the second stage of the art of Dragon mastery. He could only grit his teeth and endure it! If he accidentally spilled the pot of medicinal liquid that he had worked so hard to prepare, it would be difficult to prepare the same pot of medicinal liquid again!

There were many herbs here that old Lin didn’t grow in his garden, and they were rare. After using them this time, the rest couldn’t be picked anymore-they had to be kept as seeds, so if he wanted to make another pot of liquid, he’d have to wait until next year. Lin Yi didn’t dare to be careless.

The liquid Lin Yi took seemed to have a cold effect as well-not only did it not drive away the cold, but it made Lin Yi feel that the cold was getting stronger and stronger. Lin Yi couldn’t take it anymore and wanted to use the art of Dragon mastery to resist it!

However, Lin Yi’s mind was still very clear. He knew that when this medicine was used to refine his body, he couldn’t use his Qi to resist it. Otherwise, the refining would fail and the desired effect wouldn’t be achieved. So, Lin Yi had no choice but to silently endure the cold!

It was a good thing that Lin Yi didn’t feel much better when he was soaked in the medicine by old Lin when he was young. He gritted his teeth and persevered. It was more painful now, but it was still bearable. He thought of Feng Xiaoxiao. Feng Xiaoxiao’s “last” days were extremely cold every day, and she got through it. Was he worse than her?

So Lin Yi clenched his teeth, closed his eyes, and sat quietly in the basin, waiting for the time to come. According to the body refinement recipe, he had to soak for twenty-four hours before the body refinement could be completed, and Lin Yi didn’t dare to waste a single second!

It was a good thing that the body refinement this time was shorter, not as long as the initial Foundation Stage. Back then, old Lin had Lin Yi soak in the liquid almost every day, but of course, the pain was different.

Time passed, second by second, and in the blink of an eye, half a day had passed. Lin Yi was surprised to find that the color of the body tempering liquid in the basin had become lighter and lighter, and as time passed, it was getting lighter and lighter!

Lin Yi was quite surprised at this phenomenon-when he was at the Foundation Stage, the amount of liquid he soaked in didn't change much. Could it be that his body absorbed all the liquid this time?

In the blink of an eye, twelve hours had passed. What made Lin Yi even more shocked was that the body refinement liquid in the basin had turned transparent. In other words, he had completely absorbed the body refinement liquid!

However, it had only been twelve hours. It wasn't the twenty-four-hour limit yet, so even if the liquid was completely absorbed, Lin Yi still sat in the basin without moving, afraid of making any mistakes.

However, Lin Yi's body no longer felt the cold from before. It was replaced by a normal feeling. It was as if the water was just clean water used for bathing, nothing special!

But even so, Lin Yi didn't leave the basin.

As expected, what happened next proved that Lin Yi's decision was correct. As time passed, the water in the basin changed color again, from the initial transparent color to a light yellow-brown, and then the color became darker and darker ...

In the end, the entire basin of water had turned into the color of ink, much to Lin Yi's surprise! At this point, Lin Yi finally understood the theory behind the medicine. He felt lucky that he didn't leave the basin in twelve hours. If he did, he would have failed!

The liquid was probably absorbed into his body in the last twelve hours, and that was why Lin Yi felt so cold! The next twelve hours should be the detoxification period, and the liquid carried all the impurities out of his body, so Lin Yi didn't feel cold anymore. He even felt very comfortable, as if he was much fresher!

This was probably similar to the effect brought about by the stone door on the second floor of the cave. The stone door completed the tempering of the energy and true Qi in the body, while this medicinal liquid completed the tempering of the body's own physique. The two had the same effect, but neither could be missing!

Finally, the 24-hour mark was up, and the entire basin of water had already turned into the color of black ink. It even had a fishy smell, which was obviously the impurities discharged from his body!

When the time was up, Lin Yi jumped out of the basin and quickly used the clean water to wipe his body!

After finishing everything, Lin Yi put on his clothes and walked out of his room with the basin.

As Lin Yi expected, he saw old Lin's figure in the yard! He was still sitting on the chair as usual, guarding Lin Yi's room quietly. Seeing that Lin Yi had walked out of the room successfully, old Lin smiled tiredly, "Did you succeed, Yi?"

"I've succeeded!" Lin Yi put the basin on the ground, "It's all black water ..."

“What do you want me to see? Still not pouring it out? It’s so smelly!” Old Lin waved his hand and quickly stood up.”Alright, the preliminary work is done. It’s time for me to rest. If you want to sleep, then sleep. If you want to continue cultivating, then cultivate!”

After that, old Lin turned around and walked back to his room without looking back!

Lin Yi smiled bitterly and poured the water away before returning to his room. It was midnight, and Tang Yun and the others were resting. Lin Yi didn’t want to disturb them.

Plus, since Lin Yi had completed his body refinement, he couldn’t wait to start on the second stage of the art of Dragon mastery. He’d been looking forward to it for a long time-once he finished the second stage, he’d be able to open the third stone door!

After cleaning up, Lin Yi sat down cross-legged on the bed once more ...

### **Chapter 1785: Start cultivating**

He carefully took out the second stage of the art of Dragon mastery and studied it in his heart. He kept the original since he wouldn’t carry something so important with him. He kept the wooden box with the first box under his bed.

“The second stage of the art of Dragon mastery, the brilliant white Crane ...” In fact, Lin Yi had already recited the second stage of the art of Dragon mastery thousands of times in his heart. He had memorized it by heart. He only took it out this time because he was afraid that something would go wrong.

However, internal cultivation was not like memorizing words. Once you understood the meaning of the cultivation method, you basically didn’t need to look at the mantra every time you cultivated.

This time, Lin Yi was smart. He didn’t practice it himself like he did when he first got the art of Dragon mastery. He entered the Jade space in an instant. It was the fastest to practice here.

“Lin brat, it looks like you’ve completed your body tempering?” Elder Jiao couldn’t see what Lin Yi was doing outside, but he could tell from the changes in Lin Yi’s body.

Only when Lin Yi established a connection with the Jade space would elder Jiao be able to sense what was going on outside. Otherwise, how awkward would it be if a soul was watching Lin Yi and Tang Yun dating?

“I’m done!” “I’m ready to start the second stage of the art of Dragon mastery!” Lin Yi nodded seriously.

“Aren’t you going to rest for a few days before cultivating?” Elder Jiao couldn’t help but shake his head when he saw how worried Lin Yi was,”It seems that these ten years still haven’t smoothed out your heart!”

“Calm your heart?” Lin Yi couldn’t help but smile bitterly at the words,”I didn’t know about the Jade space before, but it was only this year that I completed the first stage of the art of Dragon mastery and entered the second stage. It’s been ten years, and I’ve only just succeeded. How can I not be anxious? What should have been done in five years, I’ve spent ten years, which means I’ve been in the cave five years too late. My cultivation method and strength are already out of touch. I didn’t get a martial skill in

the cave, but I got a supplementary cultivation method that seems to lay the foundation for the cultivation of martial skills. How can I not be anxious?"

Elder Jiao blinked at Lin Yi's explanation and shook his head helplessly, "You're right. But then again, being diligent is a good thing. As long as you do it step by step, it's fine. On the contrary, haste makes waste!"

"I understand!" "Don't worry, elder Jiao, I'll be training in the Jade space with you by my side, I'll be fine!" Lin Yi assured.

Elder Jiao nodded after hearing Lin Yi's words. Lin Yi was right-the art of Dragon mastery was a different way of training compared to other levels of strength. The art of Dragon mastery didn't require frequent breakthroughs-there was only one barrier for each level, unlike the outside world where there were multiple barriers for each stage. So, training the art of Dragon mastery didn't require Lin Yi to take the risk of compressing his Qi to break through. He could only slowly accumulate it, and it wouldn't be a big problem.

Seeing that elder Jiao didn't say anything else, Lin Yi didn't say anything either. He followed the second stage of the art of Dragon mastery and started circulating it in his body. All of a sudden, the energy in the Jade space seemed to be gathered by a huge invisible net, then quickly rushed to Lin Yi's side. The speed of the gathering was even faster than when Lin Yi broke through. This situation made Lin Yi's eyes flash with shock. He didn't expect that the second stage of the art of Dragon mastery would have such a great effect!

Of course, Lin Yi didn't stop training just because of the weird phenomenon-elder Jiao was sitting far away, not showing any special expression. This meant that the phenomenon was normal, otherwise he would've started talking already.

In the next moment, Lin Yi felt as if all the acupuncture points in his body suddenly opened up, and the energy that was gathered in the Jade space quickly rushed into Lin Yi's body through his acupuncture points! However, what surprised Lin Yi was that after the energy entered his acupuncture point, it didn't seem to be absorbed by his meridians, but directly entered his body!

This feeling was similar to the Foundation Stage ten years ago when he had just started cultivating the art of Dragon mastery. At that time, his meridians couldn't store any true Qi when he first started cultivating. After the true Qi entered his body, it was used to forge his body.

However, this was the initial process that every spiritual practitioner went through. Lin Yi did some research and knew that this phenomenon was called Foundation. Only with a good foundation could the meridians accumulate energy!

However, a second time like this was something he had never heard of before! Because Lin Yi had already completed the Foundation Stage a long time ago, this art of Dragon mastery was giving him another chance at Foundation Stage!

Lin Yi could understand why it was faster-it was different from the outside world, after all. There wasn't much Qi in the outside world, so it couldn't bring about this sudden energy accumulation effect. The energy in the Jade space, however, was endless, so naturally, it was faster to build a foundation!

“Before you started cultivating the second stage of the art of Dragon mastery, you had already tempered your body. Therefore, you have to enter the foundation establishment stage a second time. This is a normal phenomenon. Don’t worry, and don’t try to resist!” Elder Jiao’s voice rang out slowly, and Lin Yi’s heart relaxed!

After Lin Yi relaxed, his training speed suddenly increased! What Lin Yi didn’t know was that training had a lot to do with one’s state of mind. The heart’s devil during training was like that, but Lin Yi didn’t have any obsessions or burdens in his heart, so the heart’s Devil’s influence was negligible.

Of course, in the space of the jade pendant, a moment of relaxation could change the speed of cultivation. In fact, it was also a kind of release of a knot in the heart.

Lin Yi’s body trembled as he felt the endless Qi in the Jade space pouring into his body like a tide. His body was like a bottomless pit!

Since there was no problem, Lin Yi calmed down and continued to work hard on the second stage of the art of Dragon mastery. The speed of absorbing the Qi was already very fast, and with Lin Yi’s cooperation, it was like adding wings to a Tiger. The Qi rushed into Lin Yi’s body even more violently ...

### **Chapter 1786: A problem**

With Lin Yi as the center, more and more pure energy started to gather in the Jade space, waiting to enter Lin Yi’s body ...

He did have this feeling ten years ago, but it was a slow process. It took him two years just to reach the Foundation Stage, and that was because the Qi in the outside world was too little.

But now, Lin Yi could feel that he only needed a day to complete the second stage of Foundation, or maybe even less ...

Gradually, Lin Yi could feel the changes in his body. His muscles seemed to be getting tighter, his bones getting tougher, and his meridians getting tougher and thicker ...

It was a very enjoyable feeling, and Lin Yi just immersed himself in it ...

In the blink of an eye, half a day had passed, and the Qi around Lin Yi wasn’t as thick as before—it was getting thinner and thinner, and the speed at which Lin Yi’s body absorbed Qi had slowed down.

However, the comfortable feeling from before was slowly disappearing. In its place was a burning sensation. At first, Lin Yi didn’t pay much attention to it and thought that it was a necessary step in the foundation.

But as the burning sensation grew stronger, Lin Yi’s body started to flush unnaturally, and he could even smell his clothes burning!

Lin Yi’s body was getting hotter and hotter, and in an instant, it was boiling hot. Lin Yi’s clothes turned to ashes, and white smoke was coming out of his forehead, as if water vapor had evaporated ...

Elder Jiao’s face changed as he opened his eyes in disbelief. He looked at Lin Yi and called out, “Lin brat, stop! There’s a problem!”

What? Was there a problem? Lin Yi froze, and the speed at which he circulated the art of Dragon mastery changed as well. It was his first time cultivating the second stage of the art of Dragon mastery, and the sudden interruption caused him to make a mistake. His meridians deviated from their original course as well, and not only did he not stop, but the Qi He inhaled started flowing in reverse. Lin Yi's body turned completely red, like a burnt coal ...

Elder Jiao regretted it as well when he saw Lin Yi. It was a taboo to be disturbed during cultivation, especially for someone like Lin Yi who was cultivating the second stage of the art of Dragon mastery for the first time. He wasn't very proficient in it to begin with, and if he was really disturbed and his cultivation went berserk, the consequences would be unimaginable!

But it was too late to regret now, because from elder Jiao's point of view, Lin Yi had already entered Qi deviation!

Lin Yi's practicing had gone wrong before, and in elder Jiao's memory, there was no such thing. In other words, after Lin Yi took in Qi and completed his Foundation, he shouldn't be burning in the fire like this, but Lin Yi did it.

That was why elder Jiao called for him to stop, but not only did he fail to save Lin Yi, he even made him go crazy faster ...

Elder Jiao's words became the last thing Lin Yi heard in the last moment. After that, Lin Yi's body suddenly tilted and fell to the ground, not moving anymore. The art of Dragon mastery was still circulating in his body, absorbing the pure energy from the Jade. It made Lin Yi's body like a piece of Red Charcoal, still burning ...

Elder Jiao looked at Lin Yi's condition, his face full of regret and regret. He regretted that he warned Lin Yi-he wouldn't have gone into Qi deviation so quickly otherwise. But, from another perspective, if she didn't warn Lin Yi, wouldn't he still suffer from Qi deviation?

At that thought, elder Jiao felt less guilty. He was just worried about Lin Yi's safety and didn't know how to save him.

After all, this was the first time Lin Yi had fainted in the Jade space! Because in the past, no matter how serious Lin Yi's injuries were, as long as he wasn't dead, he could enter the Jade space to heal. But Qi deviation was different from being injured-Qi deviation caused Lin Yi to faint in the Jade space, and this made elder Jiao worried, but he didn't know where to start!

He was just an apparition without any actual ability. The ability to speak and some memories were all set up by the person who made the jade pendant. As for things that were not set up, he could not possibly do it.

At a time like this, elder Jiao really didn't know what to do. He only hoped that the people around Lin Yi could find him as soon as possible and think of a way to wake him up!

Knowing that there was no point in panicking, elder Jiao calmed down and started thinking. What did Lin Yi do wrong? why did he suddenly go berserk? According to elder Jiao's current memories, Lin Yi shouldn't be able to do something like this, but it wasn't a coincidence ... Something was wrong ...

Elder Jiao frowned deeply at that thought.

Another day passed in the blink of an eye, and old Lin looked at Lin Yi's tightly shut door, suspicious. "Tang Yin, have you guys seen Lin Yi? He hasn't come out yet?"

"No... His room door was closed the whole day." Tang Yin nodded, very sure of herself. It was raining today, so the three of them didn't go out. Old Lin, on the other hand, went out to treat a patient and didn't come back until evening.

"Something's not right ..." Old Lin frowned. He knew Lin Yi's habits. When he was training, he would come out once a day to eat something. He'd never stay in his room for two days!

Even on the first day Lin Yi received the first stage of the art of Dragon mastery, he wasn't so obsessed that he'd stay at home all day. That was why old Lin felt that something was off.

"Could it be ... That there's a problem?" Tang Yun's face changed, and Mengyao and Yushu looked at old Lin nervously.

"When he was in Songshan, did anything happen to him?" Old Lin asked after a moment of thought.

"Other than when I'm healing ... I don't think I'd stay in my room for so long ..." Chu Mengyao hesitated and shook her head. (To be continued.)

#### **Chapter 1787: weird Shu**

Even when Lin Yi was in a rush to break through to Earth Class, he'd always stay at home to train. He'd come out every day to talk to the girls and eat something, but he'd never stay in his room for two days like this!

He wouldn't go out unless he was injured and couldn't come out.

Old Lin's face turned even more serious after hearing Mengyao's words. Something must be wrong if things were so unpredictable. Did Lin Yi run into some trouble?

"So ... Lin Yi might've run into some trouble ..." Old Lin wasn't sure, but he was worried, "I'll go and take a look ..."

"We want to go too ..." Tang Yun said subconsciously.

"Alright, then follow behind me and don't make any noise. If he's really lost track of time in his cultivation, then we won't disturb him." Old Lin reminded.

Tang Yun and the others nodded.

Old Lin tiptoed to Lin Yi's room and pushed the door open.

Lin Yi never locked his door when he was practicing at home, and there weren't any outsiders here, so he wasn't afraid of people disturbing him.

At first, old Lin had wanted to be careful not to make any noise when he pushed the door open, but when he saw what was inside, he was shocked. He quickly pushed the door open and rushed in, exclaiming, "What's wrong, Yi?"

Lin Yi was lying on the ground, his whole body red. His clothes and the wooden bed had long turned to ashes, and Lin Yi was lying in the middle of the ashes!

Tang Yun, Mengyao, and Shu heard old Lin's cry and rushed into the house as well, but when they saw that Lin Yi was naked, their faces reddened. It was just a red, but they couldn't care less about being embarrassed anymore, because Lin Yi's body was as red as a cooked crab. And that wasn't all, when they got close to Lin Yi, they felt like they were on fire!

"Grandpa Lin, what's wrong with Lin Yi?" Tang Yin asked, not caring about her shyness.

Lin Dongfang's brows were furrowed as well-he didn't know what had happened either, and why Lin Yi had become like this.

"I'm not sure, but there must be a problem!" Old Lin said seriously. This clearly wasn't training-training didn't mean lying on the ground and not moving. Something must've gone wrong!

With that, old Lin reached out his hand and touched Lin Yi's body. Even with his vajra body, he was still burned by Lin Yi. Fortunately, he wasn't injured, but if it were someone else, they'd probably be scalded.

Old Lin quickly pulled his hand back after touching it, his face growing more serious. "Has Lil' Yi ever been in a similar situation before?"

"Well ... Not really ..." Tang Yun shook her head after recalling.

"But ... He didn't, but I think Shu did ..." Chu Mengyao suddenly remembered the time when Shu suddenly had a fever not long ago. It was similar to Lin Yi's situation now, her whole body was red as if she was cooked, and it was frighteningly hot!

The only difference was that Shu was conscious back then, but Lin Yi was unconscious now.

"Oh? Are you talking about the time you were poisoned by the fire poison?" Old Lin remembered that Lin Yi had called him before and told him about Shu.

"En, that's right. It was the time when he was poisoned by the fire poison, but the situation was a little different." Mengyao nodded. "Shu's fever came out of nowhere. She said it's been a problem since she was young. But Lin Yi's ... It's probably a problem after he started cultivating!"

Old Lin nodded approvingly. It seemed that Chu Mengyao was quite smart to see the difference in an instant.

"How did you solve Shu's condition before?" Old Lin asked.

"I took some kind of medicine to suppress it ..." Yushu said, "But shield bro's different ....."

Yushu knew that her body was different from Lin Yi's, so she quickly explained to Grandpa Lin so he wouldn't go down the wrong path.

"It's true ... It should be different ..." Old Lin tested Lin Yi's breathing again, risking the danger of being burned. He calmed down after making sure that Lin Yi's breathing was normal, "Maybe something went wrong during cultivation. You guys stay here first, I'll go make a call ..."

Old Lin took a deep breath. He hadn't contacted that person all these years, but this time, for Lin Yi, he had to! Because the situation Lin Yi was in right now was way beyond his ability to solve!

"Alright!" Tang Yin agreed without hesitation. It was embarrassing, but Lin Yi's life was at stake. She didn't care about anything else. Plus, she was already Lin Yi's girlfriend, and while they weren't that close yet, she'd just take it as an experience-she wouldn't be too surprised or embarrassed in the future.

Yushu, on the other hand, frowned as she reached out her hand curiously, touching Lin Yi's body ...

"Shu, be careful, don't touch anything!" Mengyao jumped-this heat ... If it were on a normal person, wouldn't they burn to death? Lin Dongfang had his own secret technique, and while he didn't look like he was injured, he was still gritting his teeth from the heat. How could Shu compare to that?

However, Chu Mengyao's words were still a step too late. Chen Yushu's hand had already touched Lin Yi's shoulder, making Chu Mengyao and Tang Yun's face turn pale!

The moment Yushu's hand touched Lin Yi's body, a "Chi la" sound was heard. Yushu had just come in from the outside, and it was drizzling, so there was some moisture on her hand. It was as if all the moisture was evaporated in an instant-it was terrifying.

However, just as Tang Yun and Chu Mengyao were worried about Chen Yushu, something strange happened!

Chen Yushu acted as if she couldn't feel the heat from Lin Yi's body at all. Her expression didn't change at all. In the next moment, the red color on Lin Yi's body seemed to weaken a lot, but Chen Yushu's body suddenly became red. The hand that she touched Lin Yi's shoulder was like a conductor, transferring Lin Yi's heat into her body!

"It's so hot!" After that, Yushu's entire body turned red, but it wasn't to the point where her clothes were on fire ...

### **Chapter 1788: old friend**

However, Lin Yi's body color had returned to normal. It was still hot, but it was much stronger than before.

It was as if Lin Yi's heat had been taken away by Yushu!

Mengyao and Tang Yun were dumbfounded by this miraculous phenomenon. What kind of martial arts was Yushu using? Why did it seem like a special ability?

"Shu, you're ... Fine?" Mengyao asked subconsciously.

"It's so hot, but I can take it!" "I think I'll share some of the heat with shield bro, he'll feel better that way ..." Yushu said.

"This is really amazing!" Tang Yun looked at Chen Yushu's blushing face and was surprised. Chen Yushu didn't seem to be afraid of the heat? But that wasn't right either. She was the person who was most afraid of heat. Whenever it was summer, she would complain about the heat and ask him to help her dissipate her heat!

To be more precise, Shu was the most heat resistant person! Although she was afraid of heat, heat was not dangerous to her. If it were anyone else, they would have died long ago!

This was similar to Feng Xiaoxiao from before. Although Feng Xiaoxiao was the person who was most afraid of the cold, she was also the most resistant to the cold. She was frozen in an ice coffin and nothing happened to her. Normal people wouldn't be able to withstand it, right?

Just as they were studying Yushu's miraculous phenomenon, old Lin returned to his room and quickly took out a small wooden box from under his bed. If Lin Yi was there, he would be surprised to see that this small wooden box was exactly the same as the one he got from the cave!

Old Lin quickly opened the box, but there were no martial arts manuals or God-defying weapons in it, only an exquisitely made communicator! Old Lin didn't hesitate either, pressing the button on the communicator.

Old Lin didn't know if he'd get a response, but he had to do it now-things were going way out of his expectations! He was a miracle doctor himself, and after seeing Lin Yi's condition, he could immediately tell that the strange phenomenon in Lin Yi's body wasn't an illness, nor was it some fire poison, but a strange phenomenon caused by cultivation!

But old Lin didn't know anything about the art of Dragon mastery, and he'd never cultivated it before, so the only thing he could do was contact that person ...

Hopefully, the communicator was still working, and he could contact that person ... Otherwise, Lin Yi would be in real danger!

Luckily, there didn't seem to be anything wrong with the communicator. After old Lin pressed the button on the communicator, the indicator light flickered a few times, as if it was connected to something ...

After a while, the call went through and a deep voice came through. "Mr. Lin? Are you in trouble?"

"It's Lil 'Yi. After Lil' Yi opened the stone door to the second level of the cave, he started to practice the second stage of the art of Dragon mastery, but after practicing it, his body became extremely hot ..." Old Lin quickly explained Lin Yi's situation.

"Something's not right? How was that possible? How did this happen?" The person on the other end of the communication device was obviously stunned and felt that it was a little unbelievable.

"Right, aren't you a Divine fortune-teller? Why didn't you calculate the problem this time?" Old Lin asked.

"What happened to Yi ... It's not something I can predict ..." The person on the other end of the communicator smiled bitterly, "I made a mistake when I tried to predict his situation the last time. We can't use common sense to predict his situation ..."

"What do we do now?" Old Lin asked.

"I'll be right there, wait for me!" The person on the other end of the communication device said.

"Can you get away? No problem?" Old Lin asked.

I stayed here and didn't follow master to that place back then ... Because ..."The person on the other end of the communication device paused for a moment. "Let's not talk about this, I'll be right there!"

"Alright, I'll wait for you." Old Lin let out a breath of relief. With this person here, the problem might be solved.

After the call was done, old Lin quickly returned to Lin Yi's room and saw the miraculous scene!

"Shu, you're ..." Old Lin looked at Yushu, stunned."You ... You can actually conduct heat?"

"Yeah, I think shield bro can relax a little this way ... Otherwise, I'm afraid he'll die from the heat ..."  
Chen Yushu felt that she could share some of Lin Yi's heat and it wouldn't make Lin Yi's problem worse.

"Alright!" Old Lin was surprised, but he still nodded. Since Shu had such a special body, he'd let her share some of the heat with Lin Yi for now. Old Lin didn't say it out loud, but he was getting more and more curious about Yushu!

Lin Yi did mention that Shu's body seemed to be poisoned by fire, but according to old Lin's observations, she was perfectly fine. Only now did old Lin realize that he was wrong!

Plus, this wasn't some fire poison-how could someone with fire poison share the heat? If he was in such a hot environment, he would have long died from the fire poison. How could he still be fine?

But as strange as it was, old Lin wasn't in the mood to think about Yushu right now. Lin Yi's problem was the main point-the guy had agreed to come, but the West Star Village was far away, and old Lin was burning with anxiety ...

"Yawn ..." Chen Yushu yawned. She was a little sleepy. It was late at night and she was still sitting beside Lin Yi. She touched Lin Yi's shoulder and didn't dare to move away. On Lin Yi's body, old Lin also covered him with a thin blanket. Because Chen Yushu helped him share a large part of the heat, the thin blanket didn't burn.

"Shu, if you're tired, you can rest ..." Old Lin looked at how tired she was, and couldn't bear to let her continue. After all, he could see that while her life wasn't in danger, it was a very painful task.

"No, I can't. What if shield bro burns it if I go to sleep?" Chen Yushu shook her head.

"How about this ... Shu, why don't you hug Lin Yi to sleep, isn't that fine?" Tang Yun said after some hesitation. Although this decision made her a little uncomfortable, for Lin Yi's safety, she could only let Shu have it!

Even Tang Yin herself had never slept so intimately with Lin Yi before, but Lin Yi's condition was urgent. If Shu left and something really happened to Lin Yi, she'd regret it. (To be continued.)

### **Chapter 1789: shock**

"This ... Isn't very good, is it?" Mengyao didn't think it was appropriate for Shu to hug Lin Yi to sleep. If they really did sleep together, it would be hard to say what would happen between Lin Yi and Shu. Shu's identity as the second wife would be confirmed.

“Okay, okay, just keep it a secret, don’t tell shield bro!” Yushu, on the other hand, fell beside Lin Yi, hugged him, and fell asleep ...

She was too tired, and she had to share the heat with Lin Yi. She couldn’t let her guard down at all, but now that she had Lin Yi in her arms, she felt much more at ease. She could rest without any worries ...

Tang Yun and Chu Mengyao looked at each other helplessly. Tang Yun was helplessly because the benefits that were supposed to be hers were taken away by someone else, while Chu Mengyao was helplessly because Shu seemed to be falling deeper and deeper ... As for Tang Yun, although she didn’t reject her, she didn’t make any clear promises either. Chu Mengyao was thinking more ... What should she do about Shu’s future?

“Everyone should rest ... The friend I’m looking for might only arrive tomorrow. He might be able to solve this problem ...” Although old Lin said this, there was still a trace of worry in his eyes. Even that person said that he didn’t predict Lin Yi’s disaster, and he also said that this situation wasn’t likely to happen ... It seemed that things were beyond his imagination ...

However, the only thing they could do now was to wait ...

The night passed, and old Lin woke up early the next morning. Tang Yin and Mengyao were up as well-it was obvious that no one had a good night’s sleep, and they were all worried about Lin Yi.

“Good Morning, Grandpa Lin ...” Chu Mengyao and Tang Yun greeted old Lin.

“Good morning to you guys too ...” Old Lin looked at the dark circles under Tang Yun and Chu Mengyao’s eyes and couldn’t help but shake his head, “You two didn’t sleep well, did you?”

“How can I sleep well at this time?” Tang Yun and Chu Mengyao both said, “We’re all worried about Lin Yi ...”

Old Lin nodded, and the three of them walked into Lin Yi’s room to see Yushu sleeping soundly on top of him. They were speechless-the one who had the best sleep tonight was probably Yushu, right?

“It seems like Shu is the one who slept the best ...” Mengyao said helplessly, “Forget it, let’s not disturb her. She’s tired enough. Let them rest first. We’ll wake them up when the reinforcements Grandpa Lin mentioned arrive.”

Old Lin agreed. “Yeah, it’s good to see that they’re fine. Now ... We can only wait for my friend to come!”

Although Tang Yun and Chu Mengyao didn’t go back into the house to disturb Lin Yi and Chen Yushu, they didn’t have the mood to do anything else. Old Lin was lying on the couch in the courtyard waiting for the arrival of the person, while Tang Yun and Chu Mengyao sat quietly to the side. No one was in the mood to talk.

In the blink of an eye, the morning had passed. Just as Tang Yun and Chu Mengyao were feeling anxious, they saw a figure running towards them at full speed. This situation gave Tang Yun and Chu Mengyao a big shock!

Old Lin’s eyes flashed with excitement, and he shot up from his chair. The figure was getting closer and closer, and the moment old Lin stood up, he was at the entrance of the yard!

Chu Mengyao and Tang Yun looked at each other in shock. The speed of the shadow was unbelievably fast. When they first saw the shadow, it was only a blurry image 300 to 400 meters away. However, when old Lin stood up, it was already in front of them!

However, this person was dressed like a Taoist, giving off the feeling of a celestial being. Tang Yun and Chu Mengyao admired him greatly. Just from his speed, this person was definitely not a simple person!

“Old friend, you’ve finally come!” Old Lin sighed in relief, a relaxed smile on his face. “I didn’t expect you to be so fast, thank you!”

“Mister Lin, before master left, he told me to ...” The Taoist priest paused for a moment and said, “Plus, you’re master’s friend, no need to be so polite. Why don’t you take a look at Lin Yi’s condition first?”

“Alright!” Old Lin didn’t say much. He knew who this person was, so he couldn’t do anything about his politeness.

However, if Lin Yi wasn’t unconscious, he would be extremely surprised to see this Taoist. This was the guy who called himself “kongwen” and chased after Lin Yi’s car!

The guy’s actions scared Lin Yi—he didn’t think anyone could run faster than a car. Even an Earth Class like Lin Yi wouldn’t be able to say that he was that fast, but kongwen didn’t seem to be using his full strength at all.

Kongwen followed old Lin into Lin Yi’s room and saw that Lin Yi was indeed hugging a girl to sleep. His face turned weird. “This ...”

Mengyao was a little embarrassed as well—Lin Yi and Shu were hugging each other too tightly, and it might cause a misunderstanding. She quickly walked up and patted Shu, “Shu, get up ... Hiss!”

When Chu Mengyao’s hand touched Shu’s body, she suddenly pulled back! Shu’s body was frighteningly hot, just like the last time her illness acted up. Chu Mengyao’s carelessness caused a few blisters to appear on her hand ...

Kongwen finally realized what was wrong. He shook his head and said, “I’m sorry, I misunderstood earlier. But from the looks of it, it was the two of them who caused the problem. Both of them are burning up?”

However, what happened next shattered kongwen’s suspicions. Before Mengyao could explain, Yushu woke up with a push and a shout. She opened her eyes and got up from the ground. “What’s wrong? what’s wrong?”

Yushu, on the other hand, was unconscious, and her body naturally left Lin Yi’s side. Lin Yi’s body temperature rose to its peak in that instant, and the blanket covering him turned into ashes!

Kongwen looked at Yushu in surprise. “She’s sharing the heat with Yi?”

“It’s like this, it’s very magical!” Old Lin nodded and took out a bottle of medicine from the medical kit in Lin Yi’s room. He gave it to Mengyao. “The burn will be fine after you apply it.”

**Chapter 1790: powerless**

“Oh ... Thank you!” Chu Mengyao took the bottle and suddenly realized that Lin Yi had nothing on him. She was shocked and didn’t care about her shyness,””Shu, why did you let go?”

“Ah? Oh!” Chen Yushu woke up immediately and quickly put her hand on Lin Yi’s body. Lin Yi’s body color also became lighter, but Chen Yushu’s skin turned from white to red.

“Shu, Grandpa Lin’s people are here. Please cooperate with him and let him check on Lin Yi to see what’s wrong!” Tang Yun said to Yushu.

“Oh, okay.” Yushu nodded, her eyes darting up and down Lin Yi’s body as she regretted her decision-did she fall asleep yesterday? Sigh, it’d be great if something happened between shield bro and her-then she’d be his real wife, Shu, and Tang Yin and Xiaoxiao wouldn’t be able to compare to her anymore ...

However, he was so tired yesterday that he fell asleep as soon as he fell down. Naturally, nothing could have happened.

“Shu, What are you looking at?” Mengyao chided Yushu after seeing what she was doing.

“Oh ... No...” Yushu naturally wouldn’t admit it.

“I’ve already seen it, and you’re still not going to admit it?” Mengyao glared at her.

“Then you’ve already seen it, so why can’t I?” Chen Yushu asked.

“I ...” Chu Mengyao was speechless. She thought to herself,”I saw it unintentionally, you saw it on purpose. How is that the same?” Besides, her eyes weren’t looking at his private parts ... Mengyao couldn’t help but get curious at that thought, though, and her eyes naturally drifted over to Lin Yi ...

“Oh! Yaoyao sis was lecherous and wanted to see it too, but I caught her red-handed!” Chen Yushu replied.

Chu Mengyao was about to explode. She wanted to tear Chen Yushu’s mouth but she suddenly remembered the temperature of Chen Yushu’s body and stopped. She shook her head helplessly and hmped, “Don’t talk nonsense, I didn’t!”

“Alright, it’s fine if you’ve seen him-let this Grandpa take a look at Lin Yi’s condition first, shall we?” Tang Yin didn’t know whether to laugh or cry at Mengyao and Yushu-she didn’t even say anything when Lin Yi was being looked at, and yet they were getting mad at each other.

Kongwen was already in front of Lin Yi when Tang Yun was talking. He touched Lin Yi’s meridians and frowned,””Eh?”

“How is it?” Old Lin quickly asked.

“Little girl, take your hand away. Let me take a look!” Kongwen said to Yushu.

“I’ll take it away ... He’ll be very hot ... Don’t burn it!” Yushu warned, but still let go.

Lin Yi’s body reddened again the moment Yushu’s hand left, but kongwen didn’t seem to mind at all. His hand was still on Lin Yi’s meridians, and his expression didn’t change at all, as if he couldn’t feel Lin Yi’s body heat at all ...

Chu Mengyao and Tang Yun were surprised, but old Lin didn't seem surprised at all, as if it was only natural.

"Something must have gone wrong with his cultivation and he went into Qi deviation!" After a while, kongwen said,""The true Qi in my body is in a mess, but there's nothing wrong with my meridians. This is a sign of Qi deviation."

"Qi deviation?" Old Lin had thought about this before, but he still felt weird when kongwen said it himself."How could he have gone mad? The art of Dragon mastery ... Wasn't left behind by that person ... How did it go wrong?"

"I'm not sure about the reason yet, but I'm sure that the art of Dragon mastery itself is fine. " "The problem must be something else!" Kongwen said confidently.

"That's ..." Old Lin asked hesitantly.

"I'm not sure yet. " Kongwen turned to Yushu."Little girl, your body seems to be a little special?"

"Oh, I don't know, but I'm very heat-resistant ..." Yushu said.

Kongwen's lips curled into a faint smile as he looked at Yushu."You should lower his temperature first. He won't have any other problems for now, but if you let him stay for too long, there might be side effects. So, lowering his temperature is the best way to relieve the pain. We'll talk about it after I find out the cause!"

"Oh ... Okay ..." Yushu felt a sense of fear when kongwen looked at her. It was as if he could see through her! It'd been years since she'd had this feeling. Lin Yi might see through her disguises sometimes, but it was the first time he'd seen through her inner world ...

Could it be that he had noticed something? Did he know my secret?

But seeing that kongwen only told her to cool Lin Yi down and nothing else, she let out a breath of relief.

"Mister Lin, can you tell me the whole process of Lin Yi's return in detail?" Kongwen turned to old Lin.

"Alright!" Old Lin didn't dare to hesitate. He took a moment to organize his words and started from the moment Lin Yi returned home, telling kongwen how Lin Yi got the second stage of the art of Dragon mastery and started to train.

Of course, old Lin didn't tell him anything about the cave because Tang Yun and the others were there, but kongwen knew anyway.

"I know the reason ..." Kongwen interrupted old Lin,""The body tempering prescription can't be replaced. Although the resting fruit can be replaced with other medicinal herbs that can focus and calm the mind, if the quantity is not accurate, it will go wrong! Yi's current condition is caused by him not being able to suppress the second stage of his Qi. His Qi is of the Yang type, and once he goes berserk, his body will heat up to a terrifying degree!"

"So that's the reason ..." Instantly, old Lin's face turned into one of regret,""If I had known that there would be a problem, I wouldn't have let him use other medicine to replace the resting fruit ..."

“That’s the reason!” Kongwen nodded and said, “but ...”

“How can I resolve this?” Old Lin was regretful, but what he cared about the most right now was how to cure Lin Yi’s Qi deviation.

“I didn’t finish my sentence ... I mean, even though I know the reason, I can’t do anything ...” Kongwen looked helpless. “I ... I haven’t reached that level yet ... If master or Yi’s master is here, they should be able to do something!” (To be continued.)
