

Bodyguard 3641

Chapter 3641 Three Questions

However, just because he had lightly brushed it off this time, it didn't mean that the matter was over. He was going to settle the score after this!

Lu bianren laughed bitterly and stepped to the side. If Zhao Hongbo were to reprimand him sternly at this time, nothing would happen later. After all, scolding his own child in front of outsiders was actually protecting his own child.

However, the fourth elder had not said anything at this moment. He only wanted to say it in the future. So, when he returned to the GreenCloud Pavilion, he might have to deal with him properly. Perhaps, it wouldn't be long before he couldn't even be the third Pavilion master of the welcome Pavilion in name!

Not only was Lu bianren aware of this, but Pavilion master Hu Yunfeng and vice Pavilion Master Feng Song also revealed smug smiles. This was a trap they had set up together, and this was the effect they wanted!

After this interlude, the public guidance day came to an end. Everyone thought that they could leave now, but Lin Yi stood up and walked to the three elders, "Elder Zhao, I have yet to ask my three questions. I wonder if the promise you made earlier still holds?"

Everyone froze, their eyes on Lin Yi, curious and curious.

This Lin Yi might be the most useless newbie in the GreenCloud Pavilion, but because of all the things that happened before, especially his conflict with lingchong Xu, he had a huge reputation among the newbies. Even Kang Zhaoming, who was lingchong's direct follower, couldn't compare to him.

And it was said that this guy wasn't weak, being able to defeat a Sky Class full master in one move. This kind of strength was no less than those old men in the mysterious Pavilion-if he asked, there would be a lot of reference value.

Zhao Hongbo glanced at Lin Yi, naturally not going to deny it. He nodded, "Of course it counts. You can ask me now."

Lin Yi looked around. Normally, the newbies of the three pavilions would ask their own questions, but all the newbies were here-even Xu Yuanzheng and the other big bosses were here. Normal people who weren't as brave would have their legs shaking and stammered in this situation.

But Lin Yi didn't care at all. He asked, "I'm a newcomer from the secular world. May I ask if we can treat the unconscious inheritors after we go to the high class Island? how do we do it?"

Lin Yi had asked the guy this question before, but the guy was just a small manager at the bottom of the hierarchy. He didn't know much about this kind of thing, and he couldn't tell Lin Yi how to save an inheritor either. Lin Yi could only rely on his own speculation.

But these high and mighty elders knew what the poor guy didn't know-their strength and status determined that they had access to information that normal people would never have access to. Lin Yi wanted to use this opportunity to get to the bottom of this.

This was also the reason why he had to reserve the right to ask questions.

Zhao Hongbo couldn't help but stare blankly at these words, his expression somewhat surprised. Because for 99% of newcomers, this kind of rare opportunity would inevitably ask some crucial questions about the cultivation process, and absolutely not any trivial matters. In the eyes of ordinary people, this was simply a waste of God's gift!

However, there was no rule that Lin Yi had to ask questions related to practicing during the public guidance day, and since Lingchong had spoken to him before, Zhao Hongbo was happy that Lin Yi was wasting the opportunity. After all, they were in front of everyone. Even if he wanted to target Lin Yi, he couldn't say something like that irresponsibly. Otherwise, he'd leave someone with a fatal weakness.

"The reason why those inheritors fell unconscious was because their consciousness was damaged during the teleportation process, and they became vegetative people without intelligence. As for how to treat them, as far as I know, there's only one person who's done this before, and that's the divine pill Doctor Zhang Liju. Many years ago, he'd treated his wives, Grandmaster Bing and Grandmaster Xue." Zhao Hongbo replied.

Although he was a radical who strongly advocated for the banning of the Masters of the secular world, he admired a legendary figure like Zhang Liju as much as everyone else, but that didn't stop him from persisting.

After all, Zhang Liju was one of the rare exceptions—most of the practitioners from the common world were weak and had bad personalities. They only wasted resources without making any contributions, and were a pest that didn't benefit Sky Class Island at all.

As expected, he had to find Zhang Liju! Zhao Hongbo's answer confirmed Lin Yi's previous guess, and he couldn't help but let out a breath. No matter what, since there was a successful treatment before, there was hope!

"Then how can I meet master Zhang Liju?" Lin Yi continued.

"It's said that master Zhang Liju lives in Nakajima, and as long as you become an inner disciple of one of the three pavilions, you'll have the chance to go to Nakajima for missions. But Masters like master Zhang Liju have always been elusive, and even if you go to Nakajima, the chances of you meeting him are almost zero. But there's another chance, and that's to join the five elements sect, which was founded by master Zhang Liju, during the Nakajima competition. That might increase the chances. "

Zhao Hongbo explained in detail, and seeing that Lin Yi was about to ask more, he interrupted with a half-smile, "Alright, this is the third question. Is this enough?"

It's over? The newbies were all in an uproar-they were hoping to hear something useful, but Lin Yi didn't even ask them a single question about practicing. All three questions were just gossip that didn't benefit them at all.

Even Lin Yi himself was stunned.

After all, this was the guidance day. In order to help the newcomers of their Pavilion, the elders would usually do their best to answer the questions of the newcomers. They would even make an exception and ask a few more questions without being stingy. However, this Zhao Hongbo was different. He had broken the same question into three. It was truly rare for the fourth elder of the GreenCloud Pavilion to be so stingy.

"This guy is an idiot! This was such a great opportunity, yet he asked such a stupid question! He's really hopeless!"

Xu lingchong, Meng jueguang, and the others couldn't help but laugh. They were thinking of ways to stop Zhao Hongbo from answering Lin Yi's questions, but he still did so for the sake of his image. They didn't expect Lin Yi to ask such a stupid question, wasting the opportunity.

With such a pitiful IQ, why would they need to spend so much effort to trick this kind of person? to think that they had racked their brains, now that they thought about it, it was simply unnecessary!

Chapter 3642 Senior Brother Ku's Backer

"This Lin Yi was a love-struck idiot back in the common world, always getting together with those inheritors. I didn't think he'd still be thinking about them even after coming to Sky Class Island. This is a hero's grave, wasting such a great opportunity!" Zhaoming said with a laugh. Tsk, tsk, even I feel that it's a pity when I see it. Wahahaha!"

Pinliang started laughing as well, but he wasn't laughing at Lin Yi-he was laughing at Zhaoming and his gang. He was the idiot here, laughing at Lin Yi's boss-his boss "practitioning talent was unprecedented, coming all the way from the bottom of the common world! That's funny!

Although he'd been tricked by Zhao Hongbo so discreetly, it was a good thing that he'd gotten most of the information he needed. He'd achieved his goal, but he still put on a dejected look on his face, "That's already three questions? I thought this was just one!"

"Hey, you can't even tell one from three, I think you're the two in the middle!" Kang Zhaoming was even more pleased with himself. It was great to be able to see his rival Lin Yi suffer.

Everyone around him burst into laughter, pointing at Lin Yi and laughing at him.

Seeing this scene, Xu Yuan, who was standing in the middle, frowned. He didn't stop the crowd from laughing, but looked at Lin Yi, "This disciple isn't good, he's too stupid! Instead of asking about cultivation, he asked about useless gossip. This was completely contrary to the original intention of the guidance day! Since he doesn't do his job properly, then don't give him so many cultivation resources in the future. Give them to the more promising disciples!"

Everyone looked at Lin Yi with even more gloating eyes, while Lu bianren and the miserable senior brother were all worried for Lin Yi.

Xu Yuan was a big Shot of the elder Council. His casual comment here was like a golden mouth and Jade, no different from an imperial edict. Lin Yi's days in the welcome Pavilion would be even harder now!

Sure enough, Hu Yunfeng nodded in agreement. "Third elder's criticism is right. This disciple also thinks that some newcomers don't strive for progress and should give this part of the cultivation resources to others. This way, it can better encourage newcomers and make contributions to our North Island sect."

"Hmm, that's a good idea." Xu Yuan nods his head approvingly.

Meng jueguang, who was in the crowd, was overjoyed at the words-it made it even more legitimate for him to mess with Lin Yi in the future! This was doing things according to elder Xu Yuanzheng's wishes, who would dare to say no?

Lin Yi, on the other hand, didn't care much about the resources the pavilion was giving him because he had the Jade space, but he still had to act pitiful and helpless on the surface.

After all, no matter how arrogant a newbie was, they couldn't help but feel despair in front of Xu Yuanzheng's words. If he, Lin Yi, didn't move at all, then it would be very easy for people to be suspicious.

The more pitiful Lin Yi's performance was, the prouder Xu lingchong and the others were. With Xu Yuanzheng's final fatal comment, Today's Plan could be said to have been a perfect success. From now on, the entire Welcome Pavilion would be Lin Yi's enemy. This idiot was going to suffer!

After Lin Yi's incident, the public guidance day finally came to an end. Hu Yunfeng and the others saw the three elders off, while the other newbies left, chatting and laughing. Naturally, the topic of conversation couldn't leave the unlucky Lin Yi who became the last focus.

"Junior Brother Lin, you ... Sigh ..." Lu bianren, the miserable senior brother, Xiao ran, and Qiao hongcai surrounded Lin Yi, all of them looking worried and hesitant.

No matter how much they wanted to help Lin Yi, they couldn't do anything. After all, the other party was a big Shot in the Council of Elders. A few low-level minions like him could be easily crushed with a casual word from the other party. They had no power to resist at all.

Seeing that most of the people had left, Lin Yi put away his fake helpless expression and smiled faintly, "You don't have to worry about me," ye mo said. "Even if they target me, they'll at most deduct my cultivation resources. People like Pavilion master Hu Yun Feng can't just challenge me to a battle. As for the cultivation resources, I have my own ways to make up for it. So, there's nothing to worry about."

Everyone looked at each other-Lin Yi himself was acting as if nothing had happened, so if the people around him were still so worried, they'd be acting like a eunuch who's worried about an Emperor.

"Hehe, Junior Brother Lin is indeed an open-minded person. In comparison, although I think I have a good state of mind, I'm still inferior to you, Junior Brother Lin. I'm really ashamed!" Lu bianren said with a smile.

Only then did everyone realize that Lin Yi wasn't the only one in an awkward situation. From a certain perspective, Lu bianren's situation was even more dangerous than Lin Yi 's! After all, no matter how difficult Lin Yi's situation was, he would at least have a chance to defend himself. Lu bianren, on the other hand, might not even have this chance!

"Senior brother Lu, you should be fine, right? after all, elder Zhao didn't say anything just now, right?" The senior brother couldn't help but say.

Although Lu bianren had long been a mere figurehead by Hu Yunfeng and the others, he was still the third Pavilion master and a pillar of support for them. Even if he didn't have much power in his hands and might not be of much help, he could at least provide some experience and advice for them.

Lu bianren shook his head helplessly and said,""If it was any other elder, perhaps they would have a little bit of luck, but the other party is elder Zhao. With his relationship with our backer, do you think he will let me go? If that person of ours was still in the GreenCloud Pavilion, there would be a slight possibility that he could protect me. Unfortunately, he has already gone to the outer island to carry out a mission, and there is no news of him!"

That backer? Lin Yi's heart skipped a beat. It wasn't strange for Lu bianren and the poor Shixiong to have a backer in the pavilion, but from what Lu bianren said, could it be that their backer was strong enough to fight against the fourth elder of the pavilion?

In that case, even if he wasn't an elder, he should at least be a very powerful fellow. Moreover, birds of a feather flock together. To be able to get the approval of Lu bianren and the miserable senior brother, his character should be pretty good. If there was a chance in the future, he would like to get to know her.

Chapter 3643 An Unexpected Visitor

The miserable senior brother let out a long sigh. The source of their current embarrassing situation was not that they did not have any backing, but that their backing had gone out, and there was no news of him!

Seeing him so dejected, Lu bianren smiled and comforted him, "Actually, it's not a big deal. Even if elder Zhao wants to target me, he'll at most remove me from the position of the welcome new pavilion's third Pavilion master. After all, our master is only temporarily out on a mission and won't be returning forever. Besides, for the current me, a change of environment might lead to a different world. This might not be a bad thing!"

Since even Lu bianren himself had said so, the poor guy and Lin Yi naturally couldn't say anything more and nodded.

Lu bianren paused. "Actually, if I'm transferred, I'm not worried about Junior Brother Lin. Although it's the first time Junior Brother Xiao and Junior Brother Qiao have met, I can see that they're both steady and down-to-earth people, so I'm not worried either. The only person I'm worried about is actually you, Junior Brother ku!"

"Me? Worried about me?" The miserable senior brother said in surprise. He admitted that he couldn't beat Lin Yi in terms of ability and mentality, but he shouldn't be too far off from Xiao ran and Qiao hongcai. After all, he was an early Foundation Stage steward!

Lu bianren shook his head and said earnestly, "If I'm transferred away and another person is transferred from our GreenCloud Pavilion to become the third Pavilion master, that's fine. However, if Meng jueguang's side wants to fight for this position, what will you do?"

"This ..." The miserable senior brother suddenly didn't know what to say.

Meng jueguang was only a manager, but he was already targeting people like them, especially Lin Yi. Wouldn't it be worse if he became the third Pavilion master? Would he still be able to survive then?

"Junior Brother ku, you have a gentle and magnanimous personality. This is what I admire about you the most, but at times, this is also your greatest weakness." "If things really come to that," Lu bianren said seriously, "even if it's for the sake of these junior brothers here, you have to stand up and compete with Meng jueguang. Even if you lose in the end, you can't let him look down on you. At least, you can't let him do whatever he wants without restraint!"

If he didn't hear Lu bianren's words, he would've backed off without a doubt if he was in that situation. But now, he understood that if he backed off, Lin Yi and the others behind him would be doomed too!

"I know. Don't worry, senior brother Lu. I'll take good care of my junior brothers." The miserable senior brother nodded heavily.

"Alright!" Lu bianren patted the guy's shoulder and turned to Lin Yi, "Junior Brother Lin, you may be in an awkward situation, but I'm not worried. When master Zhang Liju first came to the North of Sky Class Island, he was also surrounded by enemies and was in a difficult situation. However, these enemies eventually became the divine Alchemist and the Holy doctor, so I'm looking forward to your performance."

"Then please wait and see, senior brother Lu." Lin Yi smiled, confident.

After that, Lu bianren uncharacteristically continued to ramble on and on to the group. He already had a feeling that his days in the welcome Pavilion weren't long, and if he could give them some pointers now, it might give them a bit more confidence when they faced people like Meng jueguang in the future. This was the only thing he could do right now.

After saying goodbye to Lu bianren and the miserable senior brother, Lin Yi and the other two returned to their caves. Xiao ran and Qiao hongcai said goodbye to Lin Yi and went back to their respective caves to cultivate.

The two of them had just won fifteen pieces of spiritual Jade from Meng jueguang yesterday, and today, they had also listened to Zhao Hongbo's guidance. At this time, their enthusiasm for cultivation was high. If they took advantage of this momentum and worked hard for a few months, they might be able to successfully build their Foundation.

Speaking from his conscience, although Zhao Hongbo was a little lacking in tolerance, he was still the fourth elder of the GreenCloud Pavilion. Whether it was in terms of strength or knowledge, he was a top-notch existence among all the cultivators on the North Island. Listening to his lesson was really better than studying for ten years.

The bitter-faced senior brother and Xiao ran both felt sorry for Lin Yi for missing out on the chance to listen to other people's questions and answers. So, on the way back, they repeated almost all of Zhao Hongbo's advice to the new disciples of the GreenCloud Pavilion.

Lin Yi learned something from listening, but he didn't feel enlightened. After all, these newbies were all under Sky Class, and the questions they asked were mostly related to how to break through to the Foundation Stage. Lin Yi himself was already in the early phase of the Foundation Stage, and these pointers weren't of much use to him. He could only learn from the theories and experience for future practice.

Lin Yi was about to enter his own cave after Xiao ran and Lin Yi left when he was stopped by someone. It was li Zhengming.

Why is this guy looking for me?

Lin Yi was surprised. Li Zhengming was a strange person. He was the first person to join Meng jueguang's side other than Meng Tong, so he should be a Lackey. However, from his previous behavior, it seemed that he wasn't a Lackey at all. Instead, he was very low-key. There were many times when people didn't even remember him. This was confusing.

"Lin Yi bro, I have something I need to talk to you about, is that okay?" Lee Zheng Min's expression was uncertain, and he seemed to be in a dilemma.

"What is it?" Lin Yi stopped in his tracks. He remembered that li Zhengming didn't really offend him in any way. Even if li Zhengming took over his previous mine last time, it must have been under Meng jueguang's orders. In the end, li Zhengming helped him a lot. There was nothing to hate about it.

"Can we talk inside your cave?" Lee Zheng Ming hesitated for a moment.

"That's fine. " Lin Yi agreed without hesitation. A cave was a very private space for practitioners, and the things stored inside might expose some secrets. Lin Yi's things were all piled up in the Jade space, so he didn't have to worry about that.

After the two of them entered the cave, Lee Zheng Ming said, "I actually have a presumptuous request this time. I hope to exchange a few pieces of spiritual Jade with you."

"In exchange for spirit Jade?" Lin Yi was surprised, but he was happy inside.

With his previous experience, Lin Yi instantly knew that the mastermind behind this was Meng jueguang again, and that this was another trap set up for him-a trap where he exchanged useless Jade for good Jade!

Chapter 3644 Good At Acting

He didn't need to think too much about this. Other than Meng jueguang and Meng Tong, who else would come to him for a spiritual Jade exchange?

Of course, to Lin Yi, the more scammers like this, the better. He couldn't wait for Meng jueguang and the others to come and scam him. It would be best if they could scam him for a hundred Kuai each, then he wouldn't have to worry about how to earn spiritual Jade anymore.

Lin Yi's guess was spot on-the mastermind behind this was indeed Meng jueguang!

The source of this incident was when Meng Tong was bragging to the other newbies a few days ago. He accidentally let the news slip that Lin Yi had been cheated of good Jade by them. As a result, Lin Yi became a laughingstock, and the newbies subconsciously turned their attention to him.

He could exchange a few worthless pieces of jade for a good piece of Jade that was full of spiritual energy from this guy. With such a living Bodhisattva living beside him, wouldn't he be punished by the heavens if he didn't pay a visit and get some benefits?

Originally, all the newbies only had one piece of spiritual Jade given out by the welcoming Pavilion. Lin Yi's piece had already been scammed away by Meng jueguang, and he didn't have anything else to gain from it. So even if the newbies had this idea, they could only hold it in.

But it was different now. Xiao ran and Qiao hongcai had just won fifteen pieces of spiritual Jade from Meng jueguang yesterday. According to normal logic, the two lackeys "spiritual Jade would naturally end up in Lin Yi's hands. So overnight, all the new disciples of the GreenCloud Pavilion were stirred up again.

Everyone wanted to use their own useless Jade to exchange for Lin Yi's good Jade.

However, Lin Yi wasn't a real idiot. If he couldn't think of a good reason, these newbies wouldn't know how to start no matter how eager they were.

Although Lin Yi wasn't very smart and was tricked by Meng jueguang and Meng Tong with the Jade, he was still someone who could defeat Meng Tong in one move. These new people didn't think they could mess with this fiend.

If she had lied to him without thinking it through, the consequences would be hard to say if she was exposed. She might even be beaten half to death!

However, this was clearly a good piece of fresh meat in front of them, but they couldn't eat it. The rookies were in a state of extreme distress. In the end, they couldn't hold it in any longer and finally asked Meng jueguang, the eldest senior in charge, for help.

When there was one, there would be a second. In the end, it was all the other new disciples of the GreenCloud Pavilion who ran to Meng Jue Guang to express their loyalty. And this scene happened right after the end of today's guidance day, right when Lu bianren was giving Lin Yi and the others some tips.

Regarding this, Meng jueguang was naturally overjoyed. He had been looking forward to this scene for a long time. Of course, he couldn't disappoint the newcomers who asked for help. Not only did he provide a few pieces of useless Jade for each of them, but he also very carefully thought of a reason for them to come.

Naturally, other than Meng Tong, Lee Zheng Ming, the first person to join him, became the best person to test the feasibility of this plan, and that was why Lee Zheng Ming came to his door.

"How do you want to exchange it for spirit Jade? Aren't spirit jades the same? what's there to change?"
Lin Yi pretended to be surprised.

Although he didn't know what was going on behind the scenes, he had more or less guessed it. Now that he was in urgent need of spirit Jade, since the other party had taken the initiative to send the Jade to his door, he naturally had no reason to reject it. However, he still had to cooperate with the act, or else he would be suspected.

Lee Zheng Ming pondered for a moment and asked, ""The fifteen pieces of spiritual Jade that senior brother Meng lost to you yesterday are in your hands, right?"

"Is there a problem?" Lin Yi didn't answer directly, but asked back.

Li Zhengming thought that Lin Yi had accepted his request, so he organized his thoughts and said, "It's like this, the bag of spiritual Jade that senior brother Meng gave you is a public fund temporarily deposited in his hands. In a moment of desperation, he accidentally mixed it up. It's not that he can't use his own spiritual Jade as collateral, but brother Lin Yi, you know that there are different grades of good Jade. The problem is that this public fund is top quality Jade, and senior brother Meng won't be able to find that many top quality Jade to pay for it in a short time ..."

Li Zhengming glanced at Lin Yi, and continued after seeing that he wasn't moved, "Once the higher-ups find any discrepancies in the quality of the accounts, senior brother Meng will be punished. As a new disciple, I can't just stand by and do nothing, so ..."

Meng jueguang had naturally come up with this excuse himself, and it sounded very reasonable at first glance, leaving no obvious loopholes.

Moreover, this high-grade Jade was real, but it was Meng jueguang 's!

"So you want me to exchange these spiritual jades for them and use them to please senior brother Meng?" Lin Yi replied.

"That's right, so I wonder if brother Lin Yi would be willing to part with it?" Li Zhengming nodded.

Lin Yi couldn't help but smile, putting on a gloating face. "I can understand what you're saying, but from the beginning to the end, it was senior brother Meng's own business. He made a mistake and naturally had to be punished. What does it have to do with me? Besides, you yourself said that this is a high-quality Jade. Do you think I'm an idiot to use it to exchange for an ordinary Jade?"

"Uh ... You misunderstand me, Lin Yi bro. I know it's a bit too much for you, but I won't let you lose out. I'll trade two pieces of good Jade for one of yours, how's that?" Li Zhengming knew that Lin Yi wouldn't agree so easily, so he offered a tempting price.

"This ..." Lin Yi pretended to be moved, but still shook his head, "Although your two pieces of ordinary Jade and my piece of high-quality Jade are about the same in value, I still don't have many benefits. Don't forget that senior brother Meng has targeted me several times before. Since there are no obvious benefits, why should I help him? Why don't you give me a good reason?"

Lee Zheng Ming hesitated for a moment before he gritted his teeth and said, "Alright then, three spiritual jades for one. You should be happy now, right, brother Lin Yi? even if one of your high-quality jades is equivalent to two normal good jades, three for one, you've definitely made a profit!"

Hehe, this guy was also a master of acting!

Lin Yi couldn't help but chuckle to himself. He thought for a while and finally nodded, "Alright, deal."

In terms of value, a good piece of Jade was equivalent to a thousand pieces of useless Jade. Putting aside all the other factors, three for one was a huge loss to Lin Yi. After all, the last time Meng jueguang "scammed" him, it was at least twenty five for one!

Chapter 3645 A Strange Reminder

But this time was different. Last time, Meng jueguang's excuse was that he wanted to exchange the little spirit Jade for someone else's jade carving, so Lin Yi could use the excuse that it was a rare item to raise the price without any restraint. The other party was willing to cooperate in order to "scam" him, so there was nothing to say.

However, the deal with li Zhengming this time didn't have such a reason. It was a normal exchange of spirit Jade. After all, from a normal person's point of view, exchanging one high quality Jade for three normal quality Jade wasn't a loss for Lin Yi. If he asked for more, people would suspect that Lin Yi had already found out that these were useless Jade!

As for discovering that these ordinary good jades were useless after the transaction, that was another matter.

Taking ten thousand steps back, it wasn't realistic to offer a price of tens of Kuai for one Kuai to a newbie like li Zhengming. Even if Lin Yi knew that it was too little, he could only accept it this time.

He would give these people some benefits first, and then more people would send Jade to his door. A small stream of water would flow for a long time, and only by casting a long line could he catch a big fish! After all, to Lin Yi, as long as he had the Jade space in his hands, any piece of useless Jade was good Jade. Twenty five for one, three for one, it was a good deal.

After this deal, Lin Yi could already foresee that the "idiot Halo" around him would only get stronger and stronger. Once this was known by everyone, people would come to him one after another to exchange for spirit Jade and take advantage of him!

They didn't know that under the cover of this "idiot Halo," Lin Yi was happily making a fortune!

Lin Yi blinked as he saw li Zhengming take out the six spirit jades. "You want to exchange for two pieces?"

"Not bad. You can check it carefully." Lee Zheng Min said with a deeper meaning in his words.

Lin Yi couldn't help but feel a little strange. If he didn't want to cooperate, li Zhengming's words would've revealed two very obvious flaws.

First, as a newbie, everyone else only had one spiritual Jade each. Wasn't he afraid that Lin Yi would get suspicious if he took out six?

Second, if it was someone else in li Zhengming's position, the best thing to do was to take the spirit Jade and leave immediately after Lin Yi agreed to the deal. Who would remind Lin Yi to check it carefully? wasn't he afraid that Lin Yi would really do it in front of him and find out that these were all useless Jade?

He clearly didn't look like such a stupid person, yet he still revealed such an obvious flaw. This guy was really a weirdo!

Lin Yi found it strange, but he didn't mind. After all, he wanted the six pieces of useless Jade. If he really wanted to check them according to the other party's words, then the act wouldn't be able to continue. He immediately exchanged the spiritual jades with li Zhengming's hands, and with a look of surprise and

joy, he was afraid that li Zhengming would go back on his words. He kept the six pieces of useless Jade and said, "Let's do this. "

Li Zhengming looked at Lin Yi in surprise, but didn't say anything. After greeting him, he kept the spirit Jade and left.

Coming out of Lin Yi's cave, li Zhengming didn't go back to his own cave but went to the cave next door, cave fifteen. At this time, not only was Meng Tong the owner of the cave, but Meng jueguang was also here to know Lin Yi's reaction as soon as possible.

Seeing Lee Zhengming come in, Meng Tong immediately asked, "Did you get the spiritual Jade? Let me see!"

Lee Zhengming glanced at Meng jueguang, who was standing beside him. Although Meng jueguang did not say anything, the urgency in his eyes clearly showed that Meng jueguang was most concerned about this issue at the moment.

The two of them were so focused on collecting the spiritual Jade that they did not care if they were beaten up or not! At that moment, Lee Zheng Ming suddenly felt a chill in his heart.

In fact, when Meng jueguang first suggested this idea, the one who was supposed to test Lin Yi wasn't him, but Meng Tong.

However, Meng Tong found an excuse to reject it and instead gave this test mission to li Zhengming. Although it was a good opportunity to take advantage of Lin Yi in name, li Zhengming knew that Meng Tong was afraid of getting beaten up, so he pushed li Zhengming out as a sacrifice!

Sky Class Masters weren't real idiots, and according to Meng jueguang, Lin Yi had already collected two piles of Jade. Any normal person would've realized by now that something like this couldn't happen three times-it wasn't realistic for someone like Lin Yi to step into the same pit three times.

Meng jueguang's excuse seemed reasonable, but there was a very important premise, and that was that Lin Yi didn't find the Jade he took before. To be honest, Lin Yi had to be a complete idiot!

Any normal person would know that the possibility of success was actually very small. The reason why they still wanted to do this kind of test was just a fluke mentality driven by profit.

If the test failed, Lin Yi would lose his temper almost 100%, and the person sent to test him would end up in a miserable state. He'd be lucky if he was beaten half to death, but he might even lose his life!

Moreover, even if he was beaten to death, according to the rules of the North Island, he would have died in vain! This was because the heaven rank North Island prohibited useless Jade from being sold as good Jade in the market. If you broke the rules first, then you'd be beaten to death. You deserved it.

Even Meng Tong, who was not very smart, could think of this, so how could Lee Zhengming not think of it? however, since Meng Tong had pushed him out and Meng jueguang had also agreed, he had no choice but to do it no matter how reluctant he was. After all, he was the younger brother.

But even if he was his little brother, he didn't even care about his safety after testing him out and directly reached out to ask for spiritual Jade from him. He really didn't treat him as a human! Lee Zhengming could not help but feel a little dazed in his heart. With such a backer, was there still a need to continue relying on him?

"Say something! Did he manage to get the spiritual Jade? What are you doing here, dumbfounded? did Lin Yi beat you up?" Meng jueguang frowned when he saw that Lee Zhengming did not answer.

"Oh, I did it! Lin Yi's an unexpected idiot-he didn't even check and just exchanged six pieces of useless Jade for two good ones, and he even looked like he got a huge bargain!" Lee Zheng Ming quickly replied after he came back to his senses. He took out the two spiritual jades and tried to explain himself, ""I'm just too happy, I'm so happy that I forgot about home!"

"Oh! Hahaha!" Meng jueguang and Lin Yi were overjoyed when they saw the spiritual jades. They took them and examined them carefully, afraid that they were two of the useless jades they gave Lin Yi!

Chapter 3646 Road To Becoming A Nouveau Riche

Using six pieces of jade to get back two pieces of jade from Lin Yi, this was a big joke!

However, Meng jueguang quickly came to a conclusion. The spiritual energy in these two pieces of spiritual Jade was exceptionally rich, and they were indeed high-quality Jade!

"It looks like that guy's just like what Kang Zhaoming and Zhong pinliang said-he never uses spiritual Jade for cultivation! He doesn't even know that we're using useless Jade to scam him, and he's probably so proud of himself that he's become a rich guy-what an idiot!"

Meng Jue Guang laughed smugly, then looked at Lee Zheng Ming, "You've done a good job. I'll reward you with one of these spiritual jades, and give the other to Meng Tong!"

Li Zhengming's heart sank. According to the agreement, whoever brought the wasted Jade to Lin Yi would get all the spirit Jade they got in exchange for it, but Meng jueguang cut it in half with a single sentence. This favoritism was unreasonable!

However, he had to lower his head when he was under someone else's roof. Li Zhengming knew that if he wanted to continue staying here, he needed a strong backing. As for now, there were only two choices for the GreenCloud Pavilion newbies-one was Meng jueguang, and the other was Lin Yi, or Lu bianren and the others.

Li Zhengming had thought that Lin Yi was hiding something, but after the test, especially after he hinted at him, Lin Yi didn't react at all. He just stupidly accepted a bunch of useless jades! This really surprised li Zhengming. He felt that this guy was unreliable!

Moreover, Lu bianren was the biggest backer of Lin Yi's group. He seemed to be very powerful, and as the third Pavilion master, he should at least have a place in the welcoming new pavilion. However, it was not the case. Although this group of people seemed powerful, they were actually not very reliable.

In comparison, although Meng jueguang's performance had disappointed him, he was still considered a big tree in front of the new disciples of the GreenCloud Pavilion. Only by leaning against a big tree could he have some shade and gradually realize the obsession in his heart.

"Thank you, senior brother Meng." Even though Lee Zheng Ming was unhappy, he still had to put on an act of being flattered.

Meng Tong, on the other hand, had obtained a piece of high-quality Jade for no reason. He muttered unwillingly, "Since ninth older brother has said so, then I will give you a discount, it was originally mine! I just gave you a good opportunity to test me, so you got a big advantage for no reason. You must be very happy, right? Wahahahaha!"

Lee Zheng Ming rolled his eyes speechlessly. 'You hide when you see trouble and take advantage when you see an opportunity. How can you be so shameless!' When he had sent this guy to test the waters, he had dodged very quickly. He didn't expect that he would be acting like a big-tailed Wolf now!

If it wasn't for Meng jueguang's face, if it wasn't for the fact that he had to hide his strength as a Sky Class full master, Lee Zhengming would have given this bastard a good beating. But now, he could only choose to endure.

"Alright, Meng Tong, don't be too happy. Everyone will get one, and so will the others!" Meng jueguang did not notice or care about what was going on in Lee Zhengming's mind at the moment, but Meng Tong's silly chuckling made him a little unhappy. He frowned and ordered, "You two can tell the others about the success of the test tomorrow. Since that idiot Lin Yi hasn't noticed it yet, he probably won't be able to react in the future. Arrange for them to go to Lin Yi one by one to exchange for spirit jades. Since they've already joined me, I naturally have to give them some benefits. I want Lin Yi to give back all fifteen pieces of good Jade!"

"Alright!" Meng Tong replied excitedly. To be able to see Lin Yi get scammed again and again was a very satisfying thing.

Li Zhengming chimed in from the side. Since Lin Yi couldn't even see through such an obvious hint, then he'd just let things be. He couldn't just raise Meng jueguang's suspicion over someone who had nothing to do with him, could he? he wouldn't do something so stupid!

The next few days, Lin Yi went to the tenth Kuangqu in the day and returned to the cave at night to cultivate. But the difference was that there would always be someone waiting for him at the entrance.

They were all newbies of the GreenCloud Pavilion, and they were all waiting for Lin Yi for the same reason as li Zhengming-to exchange spirit jades with Lin Yi.

Lin Yi was happy to see this happen-if someone came to him for spirit Jade, he'd trade with them. With li Zhengming as a precedent, the exchange rate was always three to one. In just a few days, including the two he gave to li Zhengming, Lin Yi had a total of fifteen spiritual jades, making a net profit of thirty.

But after that, even though Lin Yi's "idiot Halo" had spread far and wide through the newbies "mouth, and even the newbies of the other two pavilions had heard of it, not a single one of them came to him for spirit jades.

It wasn't that they had a conscience, but they all knew that Lin Yi didn't have any good jades left. If they went to him again, they'd only get a bunch of useless jades from him no matter how hard they tried to come up with an excuse. These "smart people" would naturally not do such a stupid thing.

Lin Yi looked at the thirty extra pieces of spiritual Jade in his Jade space. He was happy, but at the same time regretful. If he wanted those "smart people" to continue giving him useless Jade, he had to let them know that he had good Jade.

However, this required a legitimate reason, just like how Meng Jue had handed over fifteen pieces of good Jade this time. Otherwise, even if Lin Yi did, he wouldn't be able to explain the source. However, this kind of opportunity didn't come by so easily, and he had to wait patiently.

After counting, Lin Yi now had over eighty pieces of spiritual Jade on hand. It was quite a lot for normal people, but for Lin Yi who wanted to save up a thousand pieces of spiritual Jade before the inner street opening day next month, it was still a drop in the bucket.

Fortunately, the poor guy still had three to four hundred pieces of jade, and Lin Yi had at least four hundred spirit Jade now. This made up for half of the gap, and he still had plenty of time. Otherwise, Lin Yi would have to take the risk.

As he counted the spirit Jade, Lin Yi couldn't help but be curious. What was the use of the star inkstone that was priced at a thousand spirit Jade? it didn't look like much, but if it could even disturb the damn thing in the Jade space, it was definitely not a normal item. There had to be something strange about it!

Chapter 3647 An Ambitious Person

Although Lin Yi still didn't know the exact details of this thing, his intuition told him that this thing must have a big background. Something that even he was interested in, naturally, was not small.

As the saying goes, treasures have spirits. Every treasure of heaven and earth is waiting for its fated person. This is an opportunity that belongs to everyone!

Although Lin Yi still hadn't found out the true use of the star inkstone from that damn thing, the telepathic connection he had with it was real. He could clearly feel the connection between him and the star inkstone, and it was clear that there would be an unexpected surprise waiting for him once he got his hands on it!

But just as Lin Yi was looking forward to the star inkstone, a hundred miles away in the residence of an inner sect disciple, there was someone even more obsessed with the stone than him. He couldn't even sleep or rest during the day.

If Lin Yi was here, he would be shocked and alert. This man was Yu Zhe, the rising Sky Pavilion inner sect disciple he met at the Hong Chamber of Commerce.

Compared to the other inner sect disciples of the rising Sky Pavilion, Yu Zhe could barely be considered a second generation cultivator, but his background was far from as deep as a young master like Xu lingchong. In the soaring Pavilion, if one didn't have a powerful background, then one had to have great strength. Otherwise, one would be wantonly bullied by others and never be able to stand out.

Therefore, Yu Zhe had always been very attentive. In addition to his daily cultivation, the place he went most often was the library Pavilion.

As long as they paid a symbolic fee of a tiny bit of spirit Jade, they would be able to read tens of thousands of ancient classics every month. This was a treatment that only inner sect disciples of the rising Sky Pavilion could enjoy!

As for the inner sect disciples of the other two pavilions, if they wanted to enter the library Pavilion, the price they had to pay was not just a little bit of spirit Jade. The price they had to pay for just a casual trip in was absolutely painful.

There was no other reason other than the fact that the library Pavilion was built on the territory managed by the rising Sky Pavilion.

As an inner sect disciple of the rising Sky Pavilion who didn't have a strong background, Yu Zhe knew that if he wanted to stand out, he couldn't just rely on his hard work. He had to have some kind of unexpected fortuitous encounter, and the opportunity of the fortuitous encounter was often hidden in these ancient books.

In order to get closer to these ancient books, Yu Zhe, as an inner sect disciple of the high and mighty rising Sky Pavilion, even took the initiative to apply to be a small manager of the library Pavilion. After

three whole years, he had become familiar with the ancient books and classics in the library Pavilion, and he had memorized them by heart.

In addition to the library, the other place Yu Zhe often went to was the market. Naturally, there was nothing to see on the outer and middle streets, but the mysterious and high-end inner streets often had some unexpected treasures, some treasures that many people could not understand but contained profound meanings.

However, the inner street wasn't a place that anyone could enter easily. Although Yu Zhe was an inner sect disciple of the rising Sky Pavilion, his background wasn't particularly deep, and his strength wasn't particularly strong. He also hadn't obtained any dazzling results in the competition between the three pavilions, so he had never been able to obtain the recognition of the inner street.

The only chance he had to enter the inner street was during the monthly opening day.

Opportunities were always given to those who were prepared. After Yu Zhe's untiring efforts, he finally found what he had been dreaming of on the inner street opening day a few days ago. It was an opportunity that could help people reach the peak, although it was neglected by everyone.

Those were the star inkstones recorded in the ancient books!

Every time he thought of the black stone, Yu Zhe couldn't help but feel excited. This was a treasure that even the Hong Chamber of Commerce had misjudged! Although the price of 1000 spiritual jades was not considered low, if it was really as the ancient books said, its true value was far more than 1000 spiritual jades. It could be more than ten times or even a hundred times more!

It was a pity that Yu Zhe didn't have 1000 spirit jades on hand at the time. Although he was an inner sect disciple of the rising Sky Pavilion, and his monthly salary was far higher than the disciples of the other two pavilions, it was still unrealistic to expect to earn 1000 spirit jades with this little salary.

Moreover, he had been staying in the library Pavilion as a steward for the past three years and had not gone out to do any high-return missions. Therefore, he was not as well-off as the other inner disciples of the rising Sky Pavilion.

But fortunately, Yu Zhe had already told someone that he would borrow a thousand spirit Jade before the inner Street's opening day next month. Although the interest rate was extremely high, as long as he successfully bought the star inkstone, the return it brought would be at least ten times or even a hundred times!

As long as he waited for less than a month, he would be able to buy the star inkstone recorded in the ancient books. Yu Zhe's surging emotions at this moment could be imagined. This was a treasure that could change his life!

Yu Zhe wasn't worried that someone would buy the star inkstone before him, because the star inkstone was far more rare than any other treasure. This could be seen from the fact that even the Hong clan's treasure appraiser didn't recognize its true value. It was only out of the intuition of an appraiser that this item was not ordinary, so it was only symbolically priced at 1000 spiritual Jade.

Apart from Yu Zhe himself, who had read ancient books for this purpose, no one else would know the use of this star inkstone, let alone spend a thousand spirit Jade to buy this strange stone. Therefore, Yu Zhe was determined to get it.

Suddenly, an unfamiliar figure flashed through Yu Zhe's mind. It was the day he found the star inkstone, the grassroots rogue cultivator that he had never met before, standing beside him. From the looks of it,

he seemed to be interested in the star inkstone. Could it be that guy also knew the value of the star inkstone?

As soon as this thought appeared, Yu Zhe laughed at himself. Not to mention that grassroots rogue cultivators did not have the opportunity to come into contact with any ancient classics, the possibility of him recognizing the star inkstone was almost zero. Moreover, even if he recognized it, so what? could he possibly gather a thousand spirit Jade to buy it before him?

However, even though he was mocking himself, he could not afford to lose this star inkstone. No matter how absurd the idea was, he had to nip the risk in the bud.

It was better to be safe than sorry. He decided to wait there the night before the opening of the inner street next month and buy the star inkstone as soon as possible. This way, even if that grassroots rogue cultivator also took a fancy to the star inkstone and managed to collect a thousand spirit Jade, he would only be able to look at it and sigh.

This is an opportunity and fortune that belongs to me alone. No one can take it away from me! With its help, I will walk on the path to the peak!

At the same time, Lin Yi didn't know that his competitor had already made all the preparations!

Chapter 3648 Asking For Help

In fact, he hadn't even thought about how to earn the remaining spiritual jades. As the news of him being scammed of good jades by many newbies with useless jades spread, the first one to come to his door was not the newbies from the other pavilions who were also eager to make a move, but the miserable senior brother.

Lin Yi was a little surprised at his poor Shixiong's visit, but he was still quite happy. The reason was very simple. The miserable senior brother had sent over the 300 to 400 pieces of jade that he had previously mentioned. It was a big sack.

Looking at the sack full of useless jades, Lin Yi was naturally overjoyed. He estimated that there were at least three hundred and fifty pieces of useless jades in it, and with the eighty pieces he already had, he had a total of four hundred and thirty pieces of spiritual jades. It would be strange if Lin Yi wasn't overjoyed at this result!

Lin Yi's happiness naturally made the bitter-looking guy happy as well, but he couldn't help but ask after some hesitation, "Junior Brother Lin, there's a rumor that even the newbies from the other two pavilions have heard of it. They said that you were exchanged for 15 pieces of high-grade Jade with waste Jade. What's going on?"

Lin Yi's exchange for good Jade by Meng jueguang was already known to the bitter senior brother, and he thought that Lin Yi was just being tricked by accident. He didn't think that this would happen in just a few days, and the rumors were as real as they could be!

Even if Lin Yi was as "stupid" as the rumors said, where did he get these fifteen pieces of jade from?

Everyone else thought that these were the fifteen pieces of jade that Meng jueguang lost in the bet, but the poor senior brother knew that these pieces of jade were all in Xiao ran and Qiao hongcai's hands. Lin Yi didn't want a single piece!

And if he counted the spiritual Jade he'd lost to Meng jueguang, as a newbie, Lin Yi shouldn't have a single good piece of Jade on him right now! But the rumors didn't sound fake at all-if it was just a rumor, it might have happened in the middle of the town, but these were all Sky Class Masters, and they couldn't possibly not know how to differentiate between the two!

"This ... Is actually a little secret of mine. Senior brother ku, after you hear it, you have to keep it a secret for me." Lin Yi knew that the guy would ask him this question, and he'd prepared an excuse for it. Of course, he wouldn't mention the Jade space.

"Don't worry, Junior Brother Lin. I'll definitely keep it a secret. But if it's not convenient, you don't have to tell me. " The guy said. He was just concerned about Lin Yi's situation, not that he wanted to know what Lin Yi's Secret was.

Lin Yi shook his head with a smile, "it's nothing. You know that I'm a refiner, brother ku. I've recently realized that if I use this useless Jade as a supplementary material, it can increase my success rate. So I made some more pills and sold them in the market. That's how I got the good Jade that they exchanged for."

"I see." The miserable senior brother suddenly understood, but then he asked, ""But Junior Brother Lin, since you've used the pills to exchange for these good jades, why don't you keep them for your own use? could it be that you'd be more profitable if you used them to help with your pill refining?"

"That's true. That's why I'm happy to pretend to be an idiot in their eyes and secretly make a fortune. " Lin Yi chuckled.

This time, even the miserable senior brother was amused. ""I was wondering why you would suffer such a big loss with your wisdom, Junior Brother Lin. So that's what happened! I was so worried about you!"

The poor guy wasn't lying-he'd been really worried about Lin Yi before coming here. Lin Yi was touched, but his eyes lit up. He turned around, avoided the guy's eyes, and took out thirty pieces of spiritual Jade. He put them in a bag and handed it to the poor guy.

The miserable senior brother was stunned. He waved his hand and said, ""Junior Brother Lin, what do you mean by this? Could it be that you think that I, your senior martial brother, am the same as the others, looking for you to exchange waste Jade for good Jade?"

Lin Yi quickly explained when he saw that the poor guy was getting angry."Senior brother ku, you're thinking too much. If we follow the exchange rate of three to one like the others, my thirty pieces of good Jade can't be exchanged for all your useless Jade. I'm just sorry that I've caused you to worry about me, so I'm just expressing my sincerity."

"But ... Junior Brother Lin, you need these jades more than I do!" Although the miserable senior brother was a little moved, he still insisted on not accepting it. Speaking of which, he had never seen so many pieces of good Jade in his years as the manager. Thirty pieces of good Jade were enough to last him for a long time.

"Hehe, senior brother ku, you don't have to worry about me. Don't forget that I can still earn it back by refining medicinal pills, especially since you've provided me with so many useless jades. It's enough for me to refine many medicinal pills! So, just accept these spiritual jades without any hesitation. Do we need to be so serious between us? That's too disappointing!" "Both Xiao ran and Qiao hongcai accepted it, but you didn't," Lin Yi said with a smile, "are you not treating me as your own?"

Lin Yi's words made it hard for Shixiong to refuse. He said guiltily, ""Then ... Alright, I'll be shameless and take advantage of Junior Brother Lin this time. I'll remember this favor in my heart."

If this had been before, he might have insisted on not accepting it, but now that he had been entrusted with this task by Lu bianren, he urgently needed to increase his strength in order to fight against Meng jueguang in the future. Naturally, the more spirit jades, the better.

"Senior brother ku, you're being too serious. Helping you is the same as helping myself, right?" Lin Yi said, waving his hand.

In fact, if it wasn't for the fact that he had to save up spirit Jade to buy star inkstones, he could have given more. However, after giving 30 pieces, he was left with less than 500 pieces. If he gave more, he might not have enough when the time came.

The guy nodded gratefully and put the Jade away carefully. He thought for a bit and reminded Lin Yi, "Junior Brother Lin, I'm sure you've heard of the saying, a man's possession of a jade ring will cause a crime. Although others know that you can concoct pills, and it doesn't matter if it gets out, but if your success rate is very high, it will eventually cause trouble. So it's better to be more careful in the future."

"Brother ku, don't worry. I know what to do." Lin Yi replied.

The poor guy was about to leave, but he hesitated for a long time before he did. In the end, he turned to Lin Yi and said, "Junior Brother Lin, since you're an Alchemist and your success rate is not low, I wonder if you can help me refine a pill called the foundation breakthrough pill?"

Chapter 3649 Pill Hall

"A Foundation breakthrough pill?" Lin Yi was taken aback-this was the first time he'd heard of this pill, but the name itself told him that it'd help a Foundation Stage practitioner break through. "I've never seen this before, but if you have the pill recipe, I can give it a try. "

"I have the pill recipe here." The poor guy immediately took out a recipe and gave it to Lin Yi.

Lin Yi took the recipe and looked at it carefully. He realized that this Foundation breakthrough pill was a level four pill just like the heaven's path golden pill, and its effects were just as he predicted. It had the same effect as the heaven's path golden pill!

However, even though they were both useful for Foundation establishment experts, there was still a slight difference between the two.

Although the foundation breaking pill could be used to help a Foundation Stage expert break through the barrier, it could be used to break through the barrier between the early stage of Foundation Stage and the peak of the early stage of Foundation Stage, or the barrier between the peak of the early stage of Foundation Stage and the middle stage of Foundation Stage. As long as it was taken, it could help with the breakthrough.

However, there was a prerequisite for this pill to take effect. That was, the person who took it must have touched the cultivation barrier. If this condition was not met, no matter how many times this pill was taken, it would have no effect.

In addition, taking this Foundation breaking pill didn't guarantee a breakthrough. If it was from the early Foundation Stage to the peak of the early Foundation Stage, it would be better, but if it was from the late Foundation Stage to the peak of the late Foundation Stage, it would depend on the quality of the pill. If the quality wasn't good and the aptitude of the person taking it wasn't good, it wouldn't be easy to break through.

In comparison, the heaven's path golden pill, also known as the foundation-breaking golden pill, could also be used to break through barriers. It could also be used as an experience pill when one had not touched the cultivation barrier. Its value was far above that of the foundation-breaking pill.

To give a simple example, Lin Yi had entered the early Foundation Stage for a while now, but it hadn't been too long since he entered it. He hadn't touched the barrier to the peak of the early Foundation Stage yet, either. If he took the foundation-breaking pill now, it would be completely useless, but if he used one to touch the barrier and the other to break the barrier, he'd be able to reach the peak of the early Foundation Stage immediately!

Therefore, even though they were both fourth-grade pills, there was still a difference between the two types of pills!

But it seemed a little too extravagant-the ingredients weren't as complicated as the Golden pill, and Lin Yi could mix them to achieve the best effect.

From the looks of it, the prescription for the foundation building barrier-breaking pill had come at the right time. Furthermore, since it was a grade four pill, Han Jing Jing could use the Shennong medicinal cauldron that she had modified to refine it. It was enough to guarantee the success rate!

With that thought, Lin Yi nodded, "Senior brother ku, I'm confident that I can give this pill a try, but I'll need some time to gather the ingredients."

Although the ingredients required for this pill were not as complicated as the foundation establishment golden pill, it was still a fourth-grade pill. It would take some time to gather all the ingredients.

The senior brother's eyes lit up and he said, ""I have the herbs here, and I've prepared three portions of them. However, I've stored them in my cave abode. If you can refine them, I'll go back and get them for you!"

With that, the guy left the cave without waiting for Lin Yi's reply-he couldn't wait to get the herbs.

Lin Yi didn't know whether to laugh or cry. He'd known this guy for so long, and the impression he'd given him was that of a wutunshui who couldn't even get anything out of him. He'd never seen him so anxious before.

In fact, it was no wonder that the miserable senior brother was so excited. He was already an expert of the early Foundation Stage many years ago, and now he had been stuck at the barrier between the early Foundation Stage and the peak of the early Foundation Stage for more than half a year. No matter how hard he cultivated, there were no signs of it loosening.

If it was according to his original personality, he would not be as anxious as he was now. He could continue to slowly cultivate and look for an opportunity to break through.

But that was then and this was now. Lu bianren's situation was precarious, and once he was transferred out of the pavilion, even if it was for the sake of Lin Yi's fellow disciples who were loyal to him, he would have to stand up and carry the pillar. And with only the strength of an early Foundation Stage, it was clear that he couldn't compete with Meng jueguang.

The most direct and effective way to break through this barrier in a short period of time was the foundation breakthrough pill. If he was at the late Foundation Stage and wanted to break through to the peak of the late Foundation Stage, a Foundation breaking pill might not be effective. But for him at the early Foundation Stage, it was almost a hundred percent success!

For any cultivator, the most delightful thing in the world was always the breakthrough of strength. The miserable senior brother was naturally no exception.

After a short while, the guy came back with a basket full of herbs on his back. He was so fast that Lin Yi was dumbfounded. This guy could be this fast too!

Lin Yi even wondered if he had the lightning storm boots and butterfly microstep now!

"Junior Brother Lin, come and check if these herbs are enough. If not, I'll think of a way to get more." The miserable senior brother said while gasping for breath.

Lin Yi nodded and counted the ingredients according to the recipe. It was just as the bitter senior said- there were three sets of ingredients here, which meant that if he could make all of them successfully, he could make three Foundation-breaking pills! Even if the probability of failure was taken into account, the most pessimistic estimation was that at least one of them could be successfully refined with so many materials!

"These herbs should be enough." Lin Yi looked at the guy, confused. "Senior brother ku, you probably didn't know that I was an Alchemist before, so why are you preparing so many herbs? are you going to help someone else refine them?"

Logically speaking, if the poor senior brother was not an Alchemist himself, he would at most gather spirit Jade to buy the foundation building barrier-breaking pill from the market. He would not put in so much effort to gather so many medicinal herbs. After all, no matter how many medicinal herbs were piled up, they would not become medicinal pills. He would still need someone to help him refine them.

"That's right. I was planning to apply for it from the pill Hall, but the price is too high. I can't gather the money in a short time. Since you can refine it, it's great." Said the miserable senior brother, rejoicing.

"Pill Hall?" Lin Yi blinked.

Although these newcomers had been in the welcoming new pavilion for a while, they still did not have a general understanding of the power structure of the three great pavilions and the independent halls on the North Island. After all, the welcoming new pavilion did not teach them about this matter. Under normal circumstances, they would only gradually come into contact with it after they had successfully entered the three great pavilions in the Foundation Stage. Of course, the Ling Jade Hall was an exception.

Chapter 3650 Preparing To Refine Pills!

"Yes, the hall of pills is one of the independent departments outside of the three pavilions, just like the spirit Jade Hall and the welcoming new pavilion. Almost all of the alchemists in the North Island are gathered there, and they are responsible for refining pills for the disciples of the three pavilions." The miserable senior brother paused and added, "It's said that the treatment there is much better than other places. Junior Brother Lin, since you're an Alchemist, maybe you can join in the future. That was the only place that the three great pavilions could not interfere with, and it was managed by the pill Pavilion of the central island! It was founded by master Zhang Liju, and even now, he was the head of the pill house! Of course, many alchemists have also been bribed by the three pavilions in private, but it's only in a cooperative relationship. Even if Xu lingchong wants to mess with you, it's basically very difficult. Without any benefits, it's very difficult for those alchemists to work hard for him!"

"Oh? So if I join the hall of pills, I'll be able to see master Zhang Liju at the pill house?" Lin Yi's heart moved.

"How is that possible? Although they were under the management of the pill house, the pill Masters were all born and raised in the North Island. Only the head of the pill house could go to the pill house to collect the materials and collect the harvest. However, it would only take a few days, and they would have to come back after that. How could they see master Zhang Liju? Do you think it's that easy to see?" The miserable senior brother shook his head.

"Is that so ... We'll talk about this when the time comes." Lin Yi shook his head noncommittally.

Although he could make pills, he mainly relied on the Shennong medicine cauldron that Han Jing Jing had modified. He was not a pure Alchemist. Moreover, his main task now was to go to Middle Island to find Zhang Liju. If he joined the hall of alchemy, it would be difficult to get a mission to Middle Island unless he was promoted to Pavilion master.

Even if he was the pavilion master, he'd have to come back quickly-there wasn't much point in that. Plus, Lin Yi didn't want his secret to be discovered-it'd bring him endless trouble if anyone found out!

Lin Yi tossed the thought aside and asked,"Senior brother ku, you just said that you have to pay a huge price to find the pill Hall to refine pills?"

"Of course, it's not easy for those people from the pill Hall to refine pills!" The miserable senior brother said with lingering fear,"according to the rules of the pill Hall, we need to provide two sets of materials to refine any kind of pill. We also have to turn in a considerable amount of spiritual Jade. If it's an unpopular pill, we have to find a way to provide the pill formula." The foundation-breaking pill I need right now isn't an unpopular pill, but in addition to providing two sets of ingredients, I'll have to pay an additional 200 spirit jade pieces. Junior Brother Lin, do you think this price is too high?"

"Another two hundred spiritual jades? This price is indeed a little exaggerated!" Lin Yi knew that being an Alchemist was a lucrative business, but it was still too much for him.

The total value of the two sets of medicinal herbs was only about a dozen pieces of spiritual Jade. As long as they put in more effort, they could still be collected, and this was still within the acceptable

range of ordinary cultivators. However, the extra two hundred pieces of spiritual Jade were too exaggerated. For a low-level steward like the poor senior brother, it would take him at least ten years to save up so many spiritual jade pieces!

"It's worth it to pay such a huge price if they can guarantee the success rate. After all, the price of a Foundation-breaking pill in the market is 400 spiritual jades. If this price can be exchanged for a Foundation-breaking pill, it's still a profit."

The miserable senior brother smiled bitterly and continued, ""But the problem is that the pill Hall doesn't guarantee the success rate at all! If these two sets of materials can be used to make two pills, then you can only get one! If you only succeed in refining one, then consider it a blessing from your ancestors, and this one will also be given to you! However, if you fail in all of them, then all the medicinal herbs we collected and the two hundred spiritual jades we turned in will be for nothing. Not a single cent will be returned to you!"

"Doesn't that make this a huge gamble? This pill Hall is really black-hearted!" Lin Yi couldn't help but suck in a cold breath.

Spending 400 spiritual jades, one could directly buy a foundation building barrier-breaking pill in the market. If one went to the pill Hall to refine it, they would be provided with two sets of medicinal herbs and 200 spiritual jades. In this way, there was a certain chance of obtaining a foundation building barrier-breaking pill. Of course, there was also the possibility of losing all their capital.

For an ordinary cultivator like the poor senior brother, this was simply a gamble that involved his entire life!

According to what Lin Yi knew, for most of the alchemists, the higher the grade of the pill, the lower the success rate. In other words, for a fourth-grade pill like the foundation breaking pill, the chances of failure were far higher than the chances of success!

If the miserable senior brother really gritted his teeth and saved two hundred spiritual jades to go to the pill Hall, there was at least a sixty percent chance that he would lose everything!

Of course, the success rate would be higher if there were two sets of materials, but it would also be a huge risk!

This was also the reason why he was so excited and impatient earlier. After all, if he asked Lin Yi to help him make elixirs, even if the success rate was lower than the other alchemists in the pill Hall, it didn't matter. After all, he just needed to provide the ingredients. Compared to the high price of two hundred spiritual Jade, this loss was negligible.

The spiritual Jade Lin Yi gave him was enough to buy five more sets of materials. What was there to worry about?

"Junior Brother Lin, I'll leave the pill refining to you, but you don't have to feel too much pressure. It's great to be able to refine the pill, but it doesn't matter if you fail. Collecting these ingredients doesn't take much effort." The senior brother said sincerely.

"Don't worry, brother ku, I'm confident." Lin Yi nodded.

Seeing Lin Yi's expression, the bitter-faced senior brother felt that his Junior Brother Lin was a little too overconfident, but he didn't want to hurt his confidence. "Then when do you plan to refine the pill? I'll think of a way to apply for a few days of leave from the spirit Jade Hall."

Even a layman like the guy knew that making elixirs was extremely taxing on the mind and body, especially for high-tier elixirs. It could take days to make one, and if Lin Yi went to Kuangqu every day and didn't rest up, something might go wrong during the process.

Failure was considered a light consequence, but Lin Yi himself might get hurt. After all, it wasn't just one or two refiners that died from exploding furnaces-the risk was obvious.

"I'll make some preparations and start tonight. We'll see how it goes tomorrow morning. Senior brother ku, if you don't see me come out, please help me apply for a day off. " Lin Yi smiled. He'd be able to get the results in one night, but he'd never made the breakthrough Foundation pill before, after all. He didn't know the details, so he didn't dare make any promises.
