

Bodyguard 7041

Chapter 7041 A Man-Made Satellite?

After a short while, Han Jing Jing stopped. Her delicate brows furrowed slightly as she muttered, ""The scan didn't find anything wrong, and there's no malfunction. Why is this happening?"

"Master, what can I do for you? I'm ready to go through fire and water for master and boss Lin Yi!"

Wang Ba came over with a flattering smile on his face.

He didn't dare to talk to Lin Yi, and han Jingjing was fully focused on her work just now. He was panicking and seized the opportunity to come and make his presence known.

It'd be great if she could get sent out-she'd be in trouble if she triggered Lin Yi's killing intent again.

"That's good. You can go outside and patrol around to see if there are any traces of outsiders approaching. Be careful not to be discovered."

Han Jing waved her hand casually and sent Wang Ba out.

"Sure!" Wangba replied happily, leaving the place at full speed after a quick glance at Lin Yi.

F * ck! Lin Yi, you little B * stard, don't be so smug-I'm not scared of you, I'm just bored, so I'm going out for a walk ...

Lin Yi, naturally, didn't know about the weird thoughts in Wangba's mind. He was still a quiet, handsome man on the side, thinking about how to arrange things for han Jingjing and Nakajima!

After sending Wang Ba away, han Jingjing lowered her head and continued to operate. Various Windows kept popping up on the display screen, and the data and images kept changing.

He still didn't find anything ...

Han Jingjing stopped, her small face revealing a distressed expression. ""I haven't found anything. Don't tell me that Ding Yi has eyes of a thousand miles and ears of the wind?"

"Hehe ... That's really possible!"

Lin Yi chimed in, trying to find joy in the midst of suffering. He suddenly thought of something. "Wait a minute ... I remember that one time when I raised my head to speak, ding one immediately knew ... Of course, it's a joke to have a clairvoyant's eyes and a clairaudient's ears, but could he be hiding in the sky and secretly watching me?"

"Hahaha, Lin Yi bro, are you saying that ding Yifei is watching you from the sky? It's so fun ..."

Han Jingjing had initially treated it as a joke, but she was immediately stunned. ""The sky ... Is it like this?"

As she spoke, han Jingjing's fingers began to move quickly on the keyboard again, and the data stream rolled on the display screen again.

"Eh? Lin Yi bro, look here!"

After a while, Han Jing Jing suddenly cried out, signaling Lin Yi to look at the screen.

Lin Yi lifted his head, his eyes blank and confused ... It was so complicated ... What was Jingjing showing him? Well, actually, the higher-ups didn't understand anything ...

"Lin Yi bro, look, someone's launched a satellite in the sky above Sky Class Island!"

Han Jing Jing didn't care if Lin Yi understood or not, "Is it the center? I didn't expect them to already have such strength!"

As she spoke, han Jingjing started to operate again. She quickly heaved a sigh of relief and said, ""Alright, Jing Jing has already blocked the satellite's detection!"

Lin Yi's lips twitched. He didn't see anything, but the satellite ... Where was it?

However, it didn't matter if he couldn't see it. It was fine as long as han Jingjing told him what to do.

"Jing Jing, do you think this is the satellite in the center? And then, D1 is monitoring my whereabouts through a satellite?"

Lin Yi made a guess, and this might explain why Ding Yihui knew so much. "Does that mean Ding Yi is from central?"

Lin Yi denied the possibility immediately. "No, if Ding Yi was from central, this place would have been destroyed long ago! Furthermore, it doesn't seem to be Central's style when it comes to dealing with the hidden death sect incident. "

But if Ding Yi wasn't a member of central, how did he know so much about central? Also through the satellite? Where did the satellite come from?

On Sky Class Island, other than the center, who else had the ability to launch a satellite? Even han Jingjing did not do this!

"Lin Yi bro, this is a bit weird-could there be another force similar to central? Or maybe it's just a branch from the center, and Ding Yi is someone from there!"

Han Jingjing did not quite understand either and could only make wild guesses." "It seems that the force that Ding Yi represents has no ill intentions toward us. However, we can't be careless. Perhaps this is just a trap to lure us into!"

"That makes sense! Anyway, I'll be careful. Let's wait and see how the teleportation formation works!"

Lin Yi didn't understand, and although he was a little scared, he put it aside, "After I leave, you have to be careful, especially that ten-thousand-year turtle. You can't let your guard down."

"Don't worry, Lin Yi bro, I'll be careful!"

Han Jingjing held Lin Yi's hand gently, "Lin Yi bro, you have to be careful too, don't take the risk. Even if we can't get to the valley, we can still think of other ways!"

"Yes, I understand. I'll go back to Nakajima in a while and ask Okita state to take care of Nakajima's Affairs. If there's a need for help, you can go to him!"

Lin Yi started making arrangements for his funeral-he was worried that he'd be back at some point if he went straight to the valley. "If the middle Island is unreliable, you can also go to the North Island to ask for help. Shangguan Tianhua's strength is unfathomable. If you go and ask for help, he should help you."

"Don't worry, Lin Yi bro, Jing Jing can take care of herself!"

Han Jingjing interrupted Lin Yi's words because she felt that Lin Yi's tone was not very auspicious. It was like he was arranging his funeral, "I'll be waiting for you to come back, Lin Yi bro!"

Lin Yi smiled and nodded, not saying anything else.

The two said their goodbyes, and Jingjing gave Lin Yi a few more newly developed particle bombs. They hadn't tested their effects yet, but Lin Yi wasn't afraid of not being able to carry them, so he put them away. He'd just take it as data collection for Jingjing later.

After leaving the island base, Lin Yi rushed to the middle Island, ready to meet with ao Tian Zhou before heading to the North Island. He might be heading directly to the blue sky Valley.

He wondered if he could successfully reconstruct his physical body in the Azure sky Valley. You're thinking too much. The first thing you should be thinking about is whether or not you can repair the damaged teleportation array!

As soon as he reached Nakajima, he was stopped by a young man before he could even go to the AO Tian state.

"Master Lin! I'm the lightning bird under President Huang of the mystic Sea Academy Alliance, and I'm here to deliver the news. "

The young man called himself the lightning bird, bowing respectfully to Lin Yi.

Lin Yi blinked. He knew about the lightning bird-it was an extremely rare flying spirit beast, and its speed was unrivaled among its peers. It was normal for it to travel a thousand miles in an instant.

'This lightning bird in front of me is obviously a transformed one. Huang Yuntian's subordinates are indeed capable!'

Chapter 7042 Xue Peng's Movements

"Nice to meet you! I wonder if brother Huang has any news for you?"

Lin Yi cupped his hands in return, trying to guess what it was.

He could only hope that it was not ning Xuefei or Huang xiaotao who was in trouble.

"President Huang ordered us to monitor Xue Peng of the Feiyang college. If there's any movement, we have to report it immediately. This time, we found something, so President Huang ordered me to find Master Lin immediately."

The lightning Eagle lowered its head slightly and said as if it was reporting to its superior,""Xue Peng used the excuse of training and left Feiyang college alone. He secretly went to the thousand cloud mountains around Feiyang college and disappeared near a mountain range. President Huang speculated that it might be a secret base of central!"

Lin Yi frowned-this was unexpected news!

He had asked Huang Yuntian to take note of Xue Peng's side as an idle chess piece. He might have gained something, but he didn't expect that he would gain something so quickly!

Although Ding Yi said that Wang Xinyan and the people from the blissful Valley were probably not in the mystic division Sea area anymore, and had gone to some backup transit point, he wasn't sure. Maybe the place Xue Peng went to had news of Wang Xinyan and the people from the blissful Valley?

"Master Lin, President Huang wanted to ask if there's a need for you to go back and take a look. Or should we just send our men to surround the entire thousand Cloud Mountain domain and dig them out? Or should we just bide our time and wait for the situation to change?"

The lightning bird explained slowly. It was obvious that Huang Yuntian had thought about it, but this was Lin Yi's request. It wasn't appropriate for him to make a decision.

Of course, if Xue Peng was always under Huang Yuntian's surveillance, he wouldn't have sent people to look for Lin Yi.

"If that's really the central base, I really need to go back and take a look!"

Lin Yi pondered for a while. He still felt that he might be able to find Wang Xinyan and the people from the blissful Valley this time. He looked up at the sky and mumbled, "It seems that the trip to the North Island will be delayed for a while. This can be considered as me helping you verify the authenticity of the news!"

The last sentence was meant for Ding Yi-Lin Yi believed that Ding Yi would hear what he said, and it'd save him a lot of trouble!

Ding Yi said he wouldn't wait for Lin Yi for too long, but Lin Yi didn't think he'd really ignore him just like that.

He was a businessman, and he had to continue doing business. If he didn't do it this time, how could he do business next time?

Besides, Lin Yi already knew about the Half Moon Lake in the North Island. If Ding Yi really didn't want to keep him company, he'd just have to spend more time looking for the teleportation formation.

"If Master Lin has decided to return to the mystic class Sea area, then we have to make a move now. If we delay any longer, there might be some unforeseen circumstances!"

The lightning bird was still as respectful as ever. After speaking, it showed its true form and invited Lin Yi to board.

Lin Yi looked in the direction of Nakajima's house. In the end, he decided not to go to the otainzhou. He'd find another chance when he came back.

The lightning bird carried Lin Yi and shot into the sky. It was as fast as lightning, covering a thousand miles in an instant. It wasn't any slower than Lin Yi's Thunder escape technique.

Lin Yi's lightning escape couldn't be used continuously, but the lightning Vulture didn't have this problem. Hence, Lin Yi's speed over long distances wasn't as fast as the lightning Vulture.

Lin Yi himself took a few days to get back to the Middle Island from the mystic class sea, but the lightning bird only took half a day to bring him back. The difference was obvious.

Thousand Cloud Mountain!

Huang Yuntian came to wait for Lin Yi himself, or perhaps he was waiting for Lin Yi's message to decide on the next course of action.

Seeing Lin Yi return, Huang Yuntian immediately went up to him with a serious face, "Lil bro Lin, I didn't expect you to come back personally. Actually, if you have any thoughts, just let me handle it!"

"Brother Huang, I've already helped you a lot by catching Xue Peng's tail. This matter concerns Central's base, so I must come and take a look with my own eyes. I don't dare to trouble you too much!"

Lin Yi cupped his fists and greeted Huang Yuntian. He then asked, "Did we lose Xue Peng's trail after reaching the thousand Cloud Mountain region?"

"More or less. We estimate that Xue Peng is in the mountain range of the thousand Cloud Mountain region. However, the range is a little large, spanning thousands of miles. The other party also has concealment techniques. To find him is like looking for a needle in a haystack!"

Huang Yuntian sighed softly. The task that Lin Yi had entrusted him with wasn't completed perfectly. He was a master, but he couldn't even handle a small student like Xue Peng. It was quite embarrassing.

"Don't worry, brother Huang. I have some experience in finding people!"

Lin Yi pretended to be mysterious and waited for Huang Yuntian to look over before raising his hand and smiling, "Well, in fact, I have some small tricks on Xue Peng as a foreshadowing. If it is far away, it is useless. If it is close, it should not be a problem to determine his position."

"So that's how it is. Brother Lin has indeed thought of Zhou Xiang and made arrangements! You guys should learn from him. You can't even keep up with a person, you're really a disgrace to this Lord!"

Huang Yuntian's last sentence was directed at his own men. There were fifteen people present, including the lightning bird. Each of them had an extraordinary aura. They were at least earth formation stage. They were definitely the elites of Huang Yuntian's forces.

Everyone replied in unison, putting on a guilty look. Lin Yi only smiled.

The so-called little trick was actually the little spirit beasts that he had arranged to monitor Xue Peng. With the concealment ability of these little things, even if they got close to Xue Peng's body, they might not be discovered.

If it wasn't for the distance, Lin Yi wouldn't be able to control the spirit beast, or Huang Yuntian wouldn't even have to do anything.

"Brother Huang, I've sensed something. Xue Peng should be in this direction. Let's go and take a look!"

Lin Yi successfully made contact with the spirit beast, but he couldn't get much information for now. He could only vaguely sense the direction.

"Good! Let's head over immediately. I want to see where that kid is hiding!"

Huang Yuntian waved his hand and led his fifteen men to follow Lin Yi, flying into a mountain range.

After a while, Lin Yi found the spirit beast that was following Xue Peng and followed it to a mountain.

Huang Yuntian was naturally able to discover the little spirit beast's existence, so he was very surprised, ""Lil bro Lin, where did you get this little thing? He's a natural scout!"

Although the little spirit beast's strength wasn't bad, Huang Yuntian didn't put it in his eyes. What he was interested in was its ability to hide its tracks. With his strength of the heaven breaking stage, if he didn't pay attention, he might have overlooked the existence of the little spirit beast. This showed how powerful this little guy was.

Chapter 7043 Forcibly Dismantling A Divine Artifact

"Hehe ... Actually, this little thing doesn't belong to me. I borrowed it from someone else. It's a long story. I'll tell you more about it when I have the chance!"

Lin Yi didn't mind telling Huang Yuntian about the big Frog, but now wasn't the time to talk.

Before he could finish, Lin Yi's spirit sense had already covered the entire mountain and kept penetrating inside. However, he soon found that his spirit sense was blocked!

"There's something that can defend against divine sense scanning! It's really cleverly done!"

Lin Yi's expression was serious-he was sure that this was one of the most important bases in central."The rocks outside are normal. No one will find anything unusual if they use their divine sense to scan it, but they will be blocked if they want to go in!"

"As expected! No wonder I didn't notice anything wrong here!"

Huang Yuntian tried it out as well, and his face revealed a trace of joy,""No matter what, we've finally found the right place. Brother Lin, let's send people to surround this place and then slowly deal with them, okay?"

"Brother Huang, the center has the ability to set up their own teleportation formation. It's meaningless to surround them. As long as we alert them, I'm afraid we'll find nothing!"

Lin Yi shook his head, wondering if this base was a backup transfer station.

Then, he remembered that Ding Yi had said that the backup transit station wasn't in the mystic division Sea area. In that case, it couldn't be the so-called backup transit station. He could only hope that Wang Xinyan and the people of the blissful Valley were here!

"That makes sense! What do you think we should do, lil bro Lin? I'll listen to your arrangements!"

Huang Yuntian gave up his leadership and was willing to be Lin Yi's assistant. This attitude made his subordinates around him quite surprised.

They respected Lin Yi, but that didn't mean that they respected him completely. Now that they saw Huang Yuntian, their hearts became serious.

"Brother Huang, take some people and hide first. I'll go find the entrance. It'll be best if we can sneak in quietly!"

Lin Yi thought about it for a bit before making a decision. "Brother Huang, you know my current state. It's very suitable for this."

Huang Yuntian knew that Lin Yi was mocking himself, but there was one thing he was right about. A primordial spirit was the most suitable for infiltration.

"Alright, be careful, lil bro Lin. If you need help, just send a signal!"

"Understood!" Huang Yuntian nodded his head in agreement. Then, he waved his hand to signal for his subordinates to scatter and hide. He himself also found a place to hide.

Lin Yi, on the other hand, transformed into his spirit form and flew around the mountain, but he didn't find anything. It was obvious that central placed great importance on hiding the entrance.

The main thing was that his spirit sense was weakened, and Lin Yi could only use his eyes to search. It wasn't easy to find the entrance.

In the end, Lin Yi decided not to look for the entrance anymore and sent his spirit into the mountain, trying to get into the base.

The reason why he didn't do that just now was that he considered that the obstruction of his divine sense was too perfect. His primordial spirit might be damaged if it forced its way in. But now that he had no other way, he could only try.

Unfortunately, his attempt ended in failure. Lin Yi's spirit couldn't penetrate it.

From this, it could be seen that this base was definitely one of the most important locations in the central region. Compared to the one in the dark night Mountain region, the importance it placed on it was completely different.

Lin Yi circled around the area and found nothing, so he returned to his original spot. Huang Yuntian saw this and leaned over, whispering, ""How is it, lil bro Lin? Is there no way to enter?"

"Ha ... Central has invested a lot in the defense of this base! It's really difficult to enter without the right door!"

Lin Yi's lips curled into a mysterious smile as he took out a few metal balls, holding them in both hands."I can also test out the bi 'an particle bomb that I've been quietly researching!"

"Forcefully dismantling a divine artifact? Particle bomb? Are these the balls? What's the use of it?"

Huang Yuntian scratched his head and looked at the ball in Lin Yi's hand curiously. He didn't feel any danger from it, so he didn't know what this thing could do.

"Lil bro Lin, aren't you afraid of alerting the enemy by using this thing? Didn't you say that there's a teleportation formation in the center? what if we alarm them and they teleport away?"

"We're trying a last resort! It's all for nothing if we can't get in anyway!"

Lin Yi smiled and raised both his hands. The particle bomb in his hands flew towards different parts of the mountain. He didn't waste his time running around the mountain. He already knew where to place the bomb to maximize its power.

He'd been using super alchemy bombs all this time, and he was considered an expert at it. This wasn't a normal bomb, but the principle was the same.

"Big brother Huang, get ready to watch this little brother perform a magic trick for you! No matter if it's a success or a failure, you should at least give them a round of applause!"

Lin Yi said casually as the bombs reached their target.

There was no earth-shattering explosion, nor was there any spectacular lighting effects. It just dissipated silently ... Dissipated ... Dissipated!

The moment the particle disintegrating bomb exploded, all the cliffs and iron walls started to melt rapidly.

In the blink of an eye, the entire mountain peak disappeared without a trace, not even leaving a speck of dust!

Forcibly dismantling a divine artifact, his reputation was well-deserved!

After the mountain peak disappeared, a group of people appeared where the mountain peak was originally at. All of them were in a state of confusion, not knowing what had happened at all.

Lin Yi took a look and found Xue Peng's traces. The kid was also shocked and dumbfounded, probably thinking that the base had a new function.

"Amazing! It's too magical!"

Huang Yuntian started clapping, his face full of surprise. He said it was to coordinate with Lin Yi, but he was probably really shocked.

Lin Yi was surprised as well-he didn't think that Jingjing's particle disintegrating bomb would be this useful!

It was a mountain!

If he used the particle disintegrating bomb in a fleet battle, wouldn't the enemy's fleet be wiped out?

"Rats, your rat holes are all gone. Are you going to surrender or resist?"

Lin Yi flew over to the group of idiots who still didn't react and looked down at them. "Those who want to surrender, kneel down and put your hands on your head. Those who want to resist, attack!"

He did find Xue Peng, but he didn't see Wang Xinyan or anyone from the blissful Valley. Lin Yi was quite disappointed-did they really leave the mystic class Sea area?

Chapter 7044 I Don't Know

To be honest, Lin Yi was quite angry right now. He came here with hope, but he left disappointed.

"Men kneel on the left, women kneel on the right, and those who are neither men nor women kneel in the middle! Ha ... No one moved. It seemed that they were all people with a backbone! Since that's the case, I'll fulfill your wish!"

Lin Yi raised his hands and threw out the two super alchemy fire bombs that had already formed in his palms.

The outer part of the mountain was gone, but the facilities inside were still there. Lin Yi scanned with his spirit sense and found that most of the facilities were used to study the genetic Medicine, so he chose to destroy them immediately!

Amidst the loud rumbling, the violent airflow easily tore apart countless pieces of equipment. There were also some central personnel who tried to resist or escape but could not escape.

Lin Yi couldn't be blamed for his sudden urge to kill-he'd just been too depressed recently, and he couldn't help but vent it out.

"Ahhhhhhhhhhhhh! Lin Yi! You can't kill me! I'm a student of the Feiyang school, we're from the same school!"

Xue Peng reacted and screamed as he ran, trying to escape from Lin Yi's attack range!

Lin Yi didn't target Xue Peng specifically, so he managed to escape the first wave of the Super alchemy bombs.

There were quite a few people like Xue Peng who managed to survive, or rather, the majority of them. They didn't die in Lin Yi's hands, but they still couldn't escape death!

Huang Yuntian commanded his 15 elite experts to surround and kill them. They were like melons and vegetables being chopped off as they harvested the rolling heads!

In the blink of an eye, most of the equipment in the center had been destroyed, and most of the personnel had also been killed, leaving only a few, including Xue Peng.

Xue Peng's survival was all thanks to Lin Yi's words!

No matter what, the two had that kind of relationship, so Huang Yuntian and his men purposely left Xue Peng's life for Lin Yi to deal with.

As for the remaining few, it wasn't that they couldn't be killed, but they had left their tongues on purpose.

Huang Yuntian was planning to give it to Lin Yi so that he could get some information about central from them, especially about Wang Xinyan and the people from bliss Valley!

"Stop!"

A loud shout came from far away. When Lin Yi and Huang Yuntian turned around, they saw a figure appear in the field. It was the man with the grey bamboo hat.

"Lin Yi, what do you mean? Why do you want to attack and destroy our base? are you trying to tear up the peace agreement between us?"

The man in the grey hat looked at the base that was in a mess and looked like a ruin. His body could not help but tremble slightly!

"Lin Yi, if you want to start a war, central is always ready to fight. You have to understand that we're not afraid of you!"

"Ha ... This is your central base? I'm sorry, I didn't know! You didn't put up a sign outside to say "central base" or something!"

Lin Yi shrugged, acting like he didn't care. "If you insist on saying that it's my fault, then tear up the peace agreement and start a war ... Well, if you want to fight, then let's fight! I, Lin Yi, won't be afraid of you guys!"

"Good, good, good! Lin Yi, you're really tough-if you want a full-on war, then so be it! I don't believe I can't deal with you, Lin Yi!"

The man in the grey bamboo hat was so angry that he laughed, and the aura on his body exploded. "Let's fight now, let me see how strong you are!"

"You want to fight? This Lord will accompany you, I'm afraid you won't dare to make a move!"

Huang Yuntian moved in front of Lin Yi. He was clear about Lin Yi's yuan spirit body state and naturally wouldn't let Lin Yi take the risk.

Moreover, with Huang Yuntian's heaven-breaking strength, he really didn't put the man with the grey bamboo hat in his eyes. Even if the man with the grey bamboo hat's strength was unfathomable, he might not be inferior to him!

"Brother Huang, don't worry!"

Lin Yi tugged at Huang Yuntian's sleeve and turned to the man with the grey hat. "You saw it. If we want to fight, we have the advantage in numbers. It's not impossible to kill you. But I have to make things clear first. You should understand what I just said, right?"

"Do you think that by saying that you don't know, you'll be able to erase the fact that you attacked our central base?" the man with the grey hat snorted.

Looking at the ruins, the man with the grey hat felt his heart bleeding ...

This base was completely different from the abandoned ones. This was the most important base in the mystic division Sea area, and there was still a lot of experimental data and data inside, but now it was all destroyed!

So the man really wanted to kill Lin Yi, even if it would cause serious consequences!

"You can think whatever you want. You just need to know that I'm not afraid of your central. I'm telling you so much just to make one thing clear. This time, I'm here to kill my sworn enemy in the Academy, the cricket Xue Peng!"

Lin Yi pointed at the confused Xue Peng. "Speaking of which, does this kid's appearance here prove that he's the one you sent to Feiyang college to deal with me? You've been scheming so much that you won't even let go of a place like the Academy. I really want to know, what does the peace agreement mean to you?"

The man in the grey bamboo hat was speechless. After a moment of silence, he said, ""No, I don't know this Xue Peng. Look at his clothes, you should know he's not one of us!"

The people in the base were dressed in the same uniform, while Xue Peng was wearing the uniform of Feiyang college. There was no comparison at all.

"Are you kidding me? You can even use this as an excuse?"

Lin Yi hmped in disdain as he looked at the man. "Forget it, the truth has already been revealed. Do you want to fight or what? just draw the line!"

"What do you mean by clear? I'm telling you, Lin Yi, this guy has nothing to do with us. Maybe he's just a test subject!"

No one knew what the man in the grey hat was thinking, but he refused to admit that Xue Peng was the one in the center. "You know that I like to study some strange things, such as the sun-swallowing rat. This kid probably has some strange things, so it's possible that my subordinates took him here for research."

"No matter what, you destroyed my base. Don't you have anything to apologize for?"

"Is that so? then I'm really sorry. I've blown it all up, so it's fine if I apologize to you. Next time, tell me earlier and I'll definitely leave some for you!"

Lin Yi shrugged nonchalantly, almost pissing the man off. It was fine if you weren't sincere, but next time?

If there's a next time, I will definitely kill you!

"That's right, this Xue Peng is my sworn enemy. Since he has nothing to do with you, as my ally, help me kill him!"

Lin Yi's lips curled up into an evil smile. "How is it? My ally, are you not willing to help me with such a small matter?"

Chapter 7045 The Main Base Is Destroyed

The man almost died from anger-Lin Yi's move was too cruel!

However, on second thought, it was not a big deal to kill Xue Peng. After all, he was only an outer member, not even an outer member. He only got to know central because of his uncle.

Plus, Lin Yi was able to find this base because of Xue Peng! Without this bastard, the base would not have been exposed!

Such a small fry should not be given the chance to enter the base!

The more he thought about it, the angrier the man in the grey hat became. The long dam of a thousand li collapsed at the hands of an ant nest!

It was just a small mistake, but it made Central Pay such a big price. What was the use of keeping Xue Peng?

"Hahaha, that's right. As allies, of course I can help you with such a small matter!"

The man in the grey hat gritted his teeth, but he still had to put on a heroic smile on the surface. With a wave of his hand, he injected a stream of true Qi into Xue Peng's body!

Xue Peng's body trembled. Unfortunately, he didn't even have the chance to speak before he fell to the ground with a look of fear and confusion.

Lin Yi frowned. He didn't think that the man would kill his follower so easily!

It seemed like he really did kill him ... Lin Yi wasn't interested in checking him out. After all, he didn't care about him anymore, and it didn't really matter if he was Dead or Alive.

"I've dealt with your enemy for you. Now, can you return the people under my command?"

The man in the grey hat exuded a cold aura-he was asking for a captive, but Lin Yi felt like he could explode at any moment.

"We're all allies, so of course I should return it to you!"

Lin Yi felt that it was a pity. He wanted to get more confessions, but he should've just let Huang Yuntian and the others kill him.

However, releasing them wasn't without its benefits. When Lin Yi waved his hand and sent them over to the grey bamboo hats, he secretly made a spirit sense mark on everyone.

It was a little difficult to apply it directly to the primordial spirit, so he could only apply it to the few of them. However, this was enough.

If he could find a spare transfer station from these people, it would be a pleasant surprise!

"Lin Yi, you don't have to use these little tricks in front of me, do you?"

The man with the grey bamboo hat suddenly opened his mouth and said in a cold voice, "Do you think it's meaningful to play such tricks on them?"

Lin Yi blinked-the spirit mark was seen through?

The man with the grey bamboo hat was indeed powerful, but was his primordial spirit so powerful that he could even see through the spiritual awareness mark that he had upgraded and improved?

"Ha ... What are you talking about? Why don't I understand? What little tricks? can't you be more specific?"

Lin Yi wasn't going to admit that he'd used his spirit sense on them, so he pretended that he didn't know anything, "We're all allies. Is it really meaningful to say such irresponsible words?"

The man in the grey hat paused. He wasn't sure, but he had a feeling that Lin Yi might have done something. He was only certain because he was trying to trick Lin Yi.

If Lin Yi admitted it out of guilt, it would be an unexpected gain, but Lin Yi didn't move, and the man's plan fell through!

"It's fine if you don't admit it. Anyway, everyone knows it in their hearts. You win this time. But you have to understand that sometimes, suffering a loss is a blessing!"

The man with the grey bamboo hat sneered twice and said a few words in a mystified manner. He immediately left with the few lucky survivors. He also wrapped all the corpses on the ground with his true Qi and took them away.

Lin Yi didn't bother with him-they were all from central, after all, and it was normal for him to take care of the man. He just didn't know if he'd use it for some weird purpose.

After everyone had left, Huang Yuntian whispered,""Lil bro Lin, did you get that little thing of yours to follow them?"

"I can't keep up with him. The man with the grey bamboo hat is too strong. The little spirit beast can't track him, and he's easy to find."

Lin Yi shook his head helplessly,"The difference in strength is too great. It's impossible to make up for it."

As for the spirit mark, Lin Yi didn't say much about it. If the man in the grey hat really did notice it, then the spirit mark wouldn't be of much use.

As expected, after an hour, Lin Yi's connection to the spirit sense mark completely disappeared. He didn't know if those people entered a new base and had the protection of the spirit sense shield or if something happened.

The man in the grey hat had indeed entered a small stronghold in the center, or rather, a communication station, and was talking to miss Ling.

"...That's what happened. Lin Yi destroyed the base at the mystic division sea, and even the entire mountain disappeared. We don't know what skills or technology he used. "

The man in the grey bamboo hat spoke very respectfully, showing that his status was inferior to miss Ling 's. "It's a good thing that some of the people and equipment in the mystic division Sea Base have been moved to the backup transit station, so we didn't get wiped out!"

"What are the specific losses?"

Miss Ling's voice was cold, and it was impossible to hear her emotions."The most important thing is the results of the previous research!"

"This ... This part was still under research, so it couldn't be transferred to the backup transfer station in time, so it was completely destroyed!"

The man with the grey hat gnashed his teeth in hatred, feeling as if his heart was still bleeding."The researchers, the research data, and the existing research results were almost all destroyed. The remaining researchers were unable to piece together the entire research process ..."

There would be a general person-in-charge in the Center's research projects. The research projects would then be divided into several small groups to study. Finally, the reports would be collected and integrated by the general person-in-charge.

It was like how everyone in an assembly line was responsible for one process and the final assembly. In fact, no one could understand the entire content of the research.

As for the person in charge, he was only in charge of combining the results into the final product. He didn't interfere with the research process, and because of that, Lin Yi's explosion almost destroyed the Research Center.

"Are you saying that our previous research was all in vain?"

Miss Ling snorted coldly and finally showed some emotion. "What are you guys doing? Don't you know how to back up the data in advance?"

"Miss Ling ... There's a backup of the data, but it's still saved with the research team. In order to avoid leaking secrets, they didn't send it to the backup transfer station!"

The man with the grey hat was depressed. Who would've thought that Lin Yi would destroy the entire base like that?

"We can only start the research from scratch. However, we have already succeeded once and have a general direction. I think we might be able to recover the research data quickly!"

He was just comforting himself. For example, if he said it today and repeated it tomorrow, the general meaning might be similar, but the words used to express it might be completely different.

Even a simple sentence would be like this, let alone such a complicated research.

Chapter 7046 A Goddess In The GreenCloud Pavilion

"We can only do this! The mystic division Sea area was our most successful project so far, I hope you can learn from this and recover as soon as possible!"

Miss Ling's tone returned to its usual coldness. "If you need any manpower or equipment, prepare a report and send it over."

"Yes! Miss Ling!"

The man with the gray bamboo hat lowered his hands and agreed. "Should we change our plans regarding Lin Yi? His current state doesn't seem to be very good, so it's time to deal with him!"

"Calm down! Your heart is in a mess!"

Miss Ling berated him ruthlessly in a low voice, ""If they could, they would've killed him long ago, why wait until now? Besides, since he's not in a good state, he might be finished. Why do you want to get involved and get into trouble for no reason?"

"You're right, miss Ling. I was too impulsive!"

The man with the grey hat was speechless and could only admit his mistake. "Then let's maintain the original state ..."

Lin Yi didn't know that central was discussing how to deal with him. He was on the back of the lightning bird, heading to the North Island at full speed.

Returning to the mystic division Sea area to deal with the central base was originally estimated to take at least a few days, but he didn't expect it to be solved so quickly.

If he went back to the North Island now, Ding Yi might still be at Half Moon Lake. Lin Yi didn't even care about Nakajima, and went straight to the North Island to find Ding Yi.

After reaching the North Island, Lin Yi scanned with his spirit sense and didn't find any traces of Ding Yi at the Half Moon Lake. He couldn't help but feel a little disappointed. That guy really didn't wait any longer. Could he have left the North Island already?

Since Ding Yi didn't wait for him, Lin Yi didn't rush to go to Banyue Lake. He came to the North Island, and he had to visit Shangguan Tianhua first and tell him about Shangguan LAN 'er.

And so, after saying goodbye to the lightning bird, Lin Yi went straight to the ascending Pavilion to find Shangguan Tianhua.

The guard recognized Lin Yi and brought him to Shangguan Tianhua without reporting to him.

"Lin Yi's back? Hurry and come in!"

Shangguan Tianhua laughed heartily and called Lin Yi into his study room, but he quickly realized that something was wrong. "What's wrong with you? Why did you end up like this?"

Lin Yi's heart shivered-Shangguan Tianhua wasn't a simple person, after all, seeing through his Yuan spirit form with one look.

Lin Yi explained his situation with a smile after the greetings.

"That's it, but it's not a big problem. I already have a clue to reconstruct my body. As long as I can find the Azure sky Valley, I'll naturally be able to return to normal. "

Lin Yi spoke so casually, as if he was talking about someone else's life. Shangguan Tianhua nodded to himself at Lin Yi's nonchalant attitude.

An ordinary person would not be able to remain so calm when they encountered such a situation. Extraordinary people indeed had their extraordinary points!

"It turns out that so many things have happened to you. However, misfortune may be a blessing in disguise. You might be able to gain something from this misfortune. As the saying goes, when the

heavens are about to give a man a great task, he must first suffer his mind, exhaust his muscles and bones, and mess up his actions ..."

Shangguan Tianhua nodded, offering a few words of comfort and encouragement before continuing, "If there's anything you need my help with, feel free to come and find me!"

"Thank you, Pavilion master!"

Lin Yi cupped his fists and bowed in thanks. Shangguan Tianhua was his elder after all, and it wasn't easy to reject his good intentions. "Speaking of which, LAN 'er has made rapid progress recently. She has already entered the beginning stage and has a solid foundation. Coupled with her outstanding talent, her future potential is limitless."

"LAN 'er, are you obedient? So many things have happened to you, and you still have to take care of her. It's really hard on you!"

Shangguan Tianhua smiled kindly. When he mentioned his precious granddaughter, he could not help but turn into an ordinary old man. "'On the path of cultivation, the most important thing is a solid foundation. It's best if she can improve step by step. When I have time, I'll go and visit her."

"LAN 'er is very obedient. She's also become more hardworking and serious in her cultivation. Now, she's one of the top geniuses among her peers in Feiyang college!"

Lin Yi wasn't exaggerating-the Murong siblings were the only ones who could be compared to Shangguan LAN 'er, and no one else was worthy of being her opponent.

Of course, ning Xuefei did not count ...

Shangguan Tianhua was in a good mood when he heard about LAN 'er's news, and he continued to talk about her.

Lin Yi saw that it was getting late, and decided that he should go visit his friends and brothers on the island.

After leaving the pavilion, Lin Yi was considering if he should go to the Qingyun Pavilion first or to find the king of junk when he saw a few young men and women chatting on the side of the road.

"Our newcomers this year are all pretty good. I didn't expect the competition to be so fierce ..."

"That's right, that's right. We're really lucky to be able to enter the rising Sky Pavilion ... But it seems like it would be better if we could enter the GreenCloud Pavilion ..."

"Shush ... Do you want to die? After entering the ascending heaven Pavilion, you actually still want to go to the GreenCloud Pavilion? What's so good about the GreenCloud Pavilion? He's just a genius who appeared by chance. How can he be as strong as the rising Sky Pavilion?"

"There's a goddess in the GreenCloud Pavilion ..."

"The rising Sky Pavilion is the strongest in the North Island. Don't you see that all the experts are from the rising Sky Pavilion?"

"The GreenCloud Pavilion has a goddess!"

"The rising Sky Pavilion ..."

"There's a goddess in the GreenCloud Pavilion!!"

Lin Yi couldn't help but smile as he listened to the argument. He didn't care about goddesses, he'd seen his fair share of them ...

However, seeing these new students reminded him of the time when he first came to the North Island.

The ups and downs in the welcoming new pavilion, the collection of abandoned spiritual jades in the spiritual jade mine, the exchange of abandoned spiritual jades with others, and so on ...

At that time, one or two pieces of spiritual Jade were already precious resources, but now?

Spiritual jades were useless. If they were to be used, they would be replaced by spiritual crystals.

It was as if a lifetime had passed!

It hadn't been a few years, but Lin Yi felt like he'd been here for decades!

Perhaps it was because his primordial spirit body was unstable, so he felt a little more emotional?

With that in mind, Lin Yi laughed at himself and shook his head, not paying any more attention to the new students.

He was just about to leave to find his old friends when dingyi appeared in front of him.

"Damn ... You're really unpredictable. I thought you'd already left the North Island!"

Lin Yi smiled and nodded in greeting.

Lin Yi was already used to Ding Yi's style of walking and talking.

"I did indeed leave the North Island, but I came back!"

Dingyi put on his signature friendly smile and cupped his hands. "Young hero Lin, that teleportation array is a bit unstable. If you were busy, I wouldn't have bothered with it. But since you've come back, I have to take you to see it."

Chapter 7047 Newcomer King, Lin Mengyao

"The formation is unstable? What happened?"

Lin Yi's heart skipped a beat-this formation was crucial to whether or not he could enter the valley, and he couldn't afford to make any mistakes. "How bad is the situation?"

"I'm to blame for this. It's a damaged teleportation array. If it had remained still, it wouldn't have been in a worse state. However, in order to confirm it, I tried to activate it ... After I failed, there was no problem at first. However, as time passed, the teleportation array became unstable and showed signs of collapse."

Ding Yi admitted his mistake. ""Young hero Lin, we can only hope that your array Dao is useful and can stabilize and even repair the damage to this array!"

"Uh ... I can't guarantee that I'll be able to repair the array. No matter what, I'll have to take a look first!"

Lin Yi scratched his head. He wasn't sure if this thing had the ability to fix this broken formation, especially one that was breaking down!

"Since that's the case, let's not delay any further. Young hero Lin, follow me down to the Half Moon Lake to take a look!"

Dingyi felt the urgency of the situation as well-he didn't waste any more time and gestured for Lin Yi to come with him.

Lin Yi nodded. He knew where the Half Moon Lake was, of course. He quickly flew over.

The two left a little early, so Lin Yi didn't hear what the newbies were discussing.

"Have you heard? The new goddess, Lin Mengyao, who has been confirmed to be going to the GreenCloud Pavilion, is going to challenge the manager, Senior Sister Murong Zhen ..."

"I've heard, I've heard. This is big news, how can I not know? I was just about to say that I'll definitely go and support my goddess Lin later. Are you guys coming?"

"That's natural! Go together, go together! To be honest, Senior Sister Murong was too overbearing, and not many people liked her. This time, goddess Lin Mengyao challenged Senior Sister Murong, which was simply satisfying! We can't miss this!"

"That's right, that's right. Lin Mengyao is gentle and beautiful, and she's very popular. I'm afraid that everyone will support her in this challenge. At least, I'm her supporter ... Senior Sister Murong should learn her lesson!"

"Are you iron-headed? What kind of truth is this! If people hear that we're unlucky, we'll be unlucky too!"

The discussion suddenly stopped. The newcomers looked around guiltily and only relaxed when they found that there was no one nearby.

After saying a few more words like "hurry up and reserve a seat so that you can get a closer look at goddess Lin's graceful bearing ...", The few of them quickly left the rising Sky Pavilion with their arms around each other.

In the entire North Island, this might be a small matter, but to Lin Yi, it could be a huge one. Unfortunately, he didn't know about it.

In Lin Yi's eyes, the most important thing right now was the teleportation formation!

It didn't take long for the two to arrive at Banyue Lake. The environment was still the same, at least from Lin Yi's perspective. It didn't change much from the North Island.

"Where is the teleportation formation?"

Lin Yi kept his thoughts to himself and looked around, but didn't find any signs of a formation.

"Calm down, young hero Lin. Please follow me!"

Ding yixiao raised his hands, and a powerful wave of genuine Qi gushed out of his palms, easily splitting the lake in half, revealing a passage formed by the waves."The teleportation array is at the bottom of the lake. We'll be able to see it once we get down."

Lin Yi raised an eyebrow. His spirit sense didn't find anything strange at the bottom of the lake, but Ding Yi was right. The teleportation formation probably had a barrier that blocked spirit sense.

"Please, young hero Lin!"

Dingyi maintained the passage with ease and asked Lin Yi to go first.

"Please, Chairman ding!"

Lin Yi said a few words of courtesy before walking into the passage. With their strength, they didn't need to make such a big noise-they could just jump in and split the water.

Why did Ding Yi go through so much trouble to show off his true Qi?

Lin Yi's feet didn't slow down at all as he guessed. In the blink of an eye, he passed through the tunnel and arrived at the bottom of the lake.

Lin Yi realized that there was a mysterious space at the bottom of the lake, cutting off all the water.

In other words, there was a semi-circular arched barrier at the bottom of the lake, which divided the space into a waterless space.

"Young hero Lin, the teleportation array is inside. Let's go in!"

As Ding Yi spoke, he pressed his hand on the barrier. Genuine Qi surged slowly, and a door slowly opened on the curved surface, allowing the two of them to enter and exit smoothly.

Lin Yi nodded and went through first, with dingyi following behind.

Lin Yi was in disbelief as he looked at the space under the barrier. Everything here was made of steel, and some of them were technological products. It was obvious that they weren't from the Sky Class Island.

The center?

Lin Yi immediately thought of his old rival-could this be one of Central's Secret bases?

However, the scale was a little too small! Besides the teleportation formation, there was nothing of value.

Lin Yi couldn't care less about the other stuff at the mention of the teleportation formation.

On one of the metal platforms, there were complicated and profound array patterns carved on it, but there were also some electronic circuits running through it. There was also a faint flow of spirit Qi inside. It was obvious that the energy source of this teleportation array was spirit Qi.

"Senior ghost, take a look at this formation ..."

Lin Yi was speechless-he was pretty much sure that this was Central's doing!

However, the teleportation formation before him was different from the metal disc he had obtained earlier!

Although there was a lot less technology involved, it still existed. If one had to say, perhaps the one in front of him was the 1.0 version of the technology formation, and the one he had obtained before was the 2.0 version ... Of course, it could also be the 1.01 version, and so on. This was impossible to find out.

"What's there to see? You also know that it's a technological formation. This old man doesn't have much research into it!"

The ghastly thing said in a bad mood and didn't want to say anything more.

In fact, after the metal disc had been repaired, the damn thing had studied it in the Jade space. Unfortunately, he couldn't find a way to enter it. Technology was indeed a bit difficult for this old man.

"Senior ghost, don't you have any ideas?"

Lin Yi frowned-the flow of Qi in the formation was a little messed up, and the already damaged patterns were starting to spark as more and more patterns slowly disappeared.

The instability of the formation mentioned by Ding Yi did exist, and it was uncertain how long it would take for it to completely collapse.

"It's not like there's no way. Get Han Jing Jing here immediately. Perhaps only she can fix this formation!"

The ghastly thing snorted and said casually, ""However, we have to be fast. I think this technological array can't last much longer!"

Chapter 7048 Sending A Message To Wang Ba

Lin Yi could tell that without the ghost telling him. He was in a difficult position-if he went to Nakagama now to find Han Jing Jing, he didn't know if he'd make it in time.

If the formation had completely collapsed by the time they returned, wouldn't it be a waste of effort?

After thinking for a while, Lin Yi suddenly had an idea. The spirit sense mark he left in Wangba's essence spirit could be used now!

Far away in the base, Wang Ba was thinking of a way to kill Lin Yi out of boredom when he felt the spirit mark in his spirit start to move.

F * ck! What was going on?

Could it be that Lin Yi, the little bastard, knew what he was thinking? So you want to kill me to get rid of future trouble?

No, wait, if Lin Yi could really read my mind ...

Boss Lin Yi ... I'm sorry!

If you have any instructions, just say it. This little one will definitely climb a mountain of swords and go into a pot of boiling oil without hesitation!

Wangba's mind was spinning as he carefully chose his words, afraid that Lin Yi would know what he was thinking.

However, he soon realized that Lin Yi's spirit sense mark wasn't meant to kill him, but to attract his attention.

Are you trying to scare me?

Wangba calmed himself down and started calling himself "I" in his mind again, trying to see if Lin Yi could read his mind.

After waiting for a while, the spiritual awareness mark was still restless and did not show any further performance, so Wang Ba was relieved!

Lin Yi, you little bastard, you've got nothing better to do than to scare me!

Wangba gritted his teeth as he cursed at Lin Yi in his heart. He was also afraid that he'd miscalculated ... That Lin Yi would kill him right away if he knew what he was thinking.

Wait a minute!

Wangba suddenly felt that something was wrong. Lin Yi wasn't that free, was he? What's the point of scaring me when you're full?

Did something happen?

It had to be said that a ten thousand year turtle that could survive for so long was definitely not low in intelligence. Otherwise, it would not have been able to design a trap like the creation battle technique.

He thought about it for a bit, and understood what Lin Yi meant. Was he asking for his help?

"Master ... Boss Lin Yi seems to be in trouble ..."

Wang Ba found Han Jingjing and said respectfully, ""The consciousness mark he left in my primordial spirit has been beating rhythmically, as if he wants me to go and find him."

To be honest, Wang Ba didn't want to bother with Lin Yi's signal and just act like he didn't feel it, but he was afraid that Lin Yi would explode the spirit sense mark out of anger.

Helplessly, he decided to cooperate and at least let Han Jingjing know.

"Eh? Did Lin Yi bro activate the spirit mark in your spirit? Tell me, how does it beat?"

Han Jingjing's face was extremely serious-anything that concerned Lin Yi was a big deal!

Perhaps the pattern of the pulse was a way to transmit information? For example, Morse code.

As Han Jingjing thought of this, she was already prepared to record it.

"Yes, sir!" Ba Wang answered, and then began to imitate the beating of the spiritual awareness mark with his mouth.

Some were fast, some were slow, some were long, and some were short. There was a certain pattern to it.

Han Jingjing did not know how to decipher the password, but the computer could easily complete the conversion. Therefore, when Wang Ba was done, she had already cracked the meaning of the password. Han Jingjing, come to the Half Moon Lake to help!

Han Jing Jing did not know the exact location of Half Moon Lake, so she asked Wang Ba for confirmation, ""Can you feel Lin Yi bro's position?"

"Uh, I can roughly sense the direction. If I'm not wrong, it should be in the direction of the North Island!"

Ba Wang thought for a while and said honestly, ""Boss Lin Yi seems to be trying his best to get me his position, he probably wants me to help him!"

"The northern island? That's right! We'll head to the North Island immediately!"

Han Jing Jing knew that Lin Yi was indeed going to the North Island. She compared the two and confirmed it immediately.

Wangba agreed, but his heart was filled with evil thoughts-it'd be best if Lin Yi was in some sort of life-and-death situation and died!

That way, the spirit mark might be removed by itself ... And han Jingjing would see Lin Yi dead, and lose her guard, allowing me to take over her body!

Wahahahaha! It was perfect!

Wang Ba was touched by the scene he described, and he subconsciously showed a proud smile.

"Wangba, what are you laughing at? Hurry up and leave!"

Han Jing Jing's mouth twitched. She didn't know why her primordial soul puppet was in a daze again. After calling out to her, she walked out of the mountain and took out the flying saucer before entering.

Wang Ba was slightly shocked and followed after her guiltily. He did not know if his performance just now had aroused han Jingjing's suspicion ... It seemed like he had to be more careful!

The flying saucer shot up into the sky from the island and flew at full speed toward the northern part of the island.

After han Jingjing's modifications, the flying saucer's speed had also been greatly increased. As long as nothing unexpected happened along the way, it shouldn't take too long to reach the North Island.

At the bottom of Half Moon Lake, Lin Yi felt his spirit sense mark moving quickly towards the North Island. He let out a breath of relief-as expected, Han Jing Jing understood what he meant.

The ten-thousand-year turtle was still useful in times of need, after all-it seemed like not killing him was the right decision ... Of course, it was Han Jing Jing's decision-Lin Yi had been determined to kill Wangba!

"Young hero Lin, can you fix this teleportation array?"

Ding Yi didn't know that Lin Yi had already talked to the ghost in such a short time. He'd also informed Wangba and han Jingjing to come over. He saw Lin Yi wandering in front of the formation for a while and came over to ask.

"I can't do anything for now, let's wait a little longer!"

Lin Yi didn't even raise his head as he continued to walk around the teleportation formation."This kind of technological array is more complicated and requires more time to study."

If it wasn't for han Jingjing, Lin Yi would probably have to turn around and leave. It was useless to try more when it came to things he didn't understand.

Furthermore, the teleportation formation was already extremely unstable and was on the verge of collapse.

"It's what I should do. But in terms of time, I don't think the formation can be delayed for too long. If young hero Lin has an idea, you should try it as soon as possible."

Dingyi shrugged and said casually. Suddenly, his face twitched slightly and he smiled. "Forget it. This kind of complicated thing needs to be studied carefully. Young hero Lin, take it as if I didn't say anything. Continue your research!"

Lin Yi raised his head and gave Ding Yi a suspicious look before looking back down at the teleportation formation without saying anything.

Chapter 7049 Not Surprised At All

He was thinking that the teleportation array on the ground should be a low-level technology array. He wondered if the metal disc in his hand could be used to replace the technology array on the ground.

If he could, how should he proceed?

With a direction like this, Lin Yi would be able to have a clear goal in his research. However, it was a world of difference, and he couldn't understand it no matter how much he looked at it. It seemed that he could only test the feasibility of this idea when Han Jing came over.

After a while, the teleportation formation became more and more unstable, and there were small sparks jumping out everywhere. Lin Yi was worried-he didn't know if Han Jingjing could make it in time!

At this time, he thought about his trip to the mystic class Sea area. Although he had the speed of the lightning bird, he had still been delayed for more than a day. If he had come to the North Island yesterday, perhaps there would not have been such an urgent situation.

Although he had destroyed an important base in the center of the mystic division Sea area, it didn't seem worth it to lose the teleportation array to the blue sky secluded valley!

"By the way, Chairman Ding, why do you think that this teleportation array is the passage to the Azure sky Valley? Such an obvious technological formation should be the teleportation formation in the center. "

Lin Yi suddenly thought of this problem. Could the formation at the center really lead to the valley?

Wouldn't it be more reliable to go to the backup transit station? However, if he could really go to the backup transfer station, it didn't seem like a bad thing!

"In fact, there is a legend that there is a crack leading to the blue sky Valley near the Half Moon Lake. But because it is too small, it is impassable. And because it is too small, it usually does not affect the surrounding environment."

Dingyi scratched his chin and tried to organize his words before explaining."It is because of this rumor that I came to Half Moon Lake. I didn't expect to find this transportation array by accident."

"Lin shaoxia, you're right. This technological teleportation formation is obviously Central's work. It doesn't seem to have the possibility of leading to the Azure sky Valley. However, combined with the rumors about the rift, the result doesn't seem that hard to guess."

"So, everything is just your guess?"

Lin Yi raised an eyebrow as he pondered if Ding Yi's words were reliable.

Thinking about it carefully, the man with the gray bamboo hat was transported through the rift in the abandoned land, and there was also a Rift in the Azure sky Valley here. Therefore, there was a high chance that a technological array would appear here, leading to the Azure sky Valley.

However, the teleportation device used by the man with the gray bamboo hat was very simple ... Could it be that it was a technological formation from version 3.0?

After thinking for a while, Ding Yi said, ""If young hero Lin wants to say that this is just a guess, then it's fine. If you think it's not reliable, then it's fine to give up on the array here."

Ding Yi shrugged his shoulders indifferently, indicating that he did not mind.

Lin Yi's lips twitched. Ding Yi could ignore it, but Lin Yi couldn't. Even if there was only a one in ten million chance, he had to try fixing the formation first.

Moreover, this guess was well-founded and had a high chance of being the truth. Of course, he couldn't give it up!

The two chatted for a bit, and Lin Yi felt the spirit mark in Wangba's spirit coming to the North Island, "Chairman ding, let's go up first. I have a friend here to help."

"Good, it's good to have someone to help. I also hope that the business can be completed smoothly!"

Ding Yi smiled and opened the curved barrier, forming a water channel again. He left the bottom of the lake with Lin Yi and waited on the shore.

As soon as the two of them landed on the shore, a small and exquisite flying saucer appeared above them.

A hatch opened at the bottom of the disc, and Han Jing Jing and Wang Ba landed slowly in the light beam. They stood in front of the two.

"Lin Yi bro, and Chairman ding, we meet again!"

Han Jingjing smiled sweetly as she steadied herself and greeted the two, "Lin Yi bro, are you in trouble?"

Ding Yi greeted Han Jing Jing and Wang Ba with a fist salute. He did not seem to be curious about the flying saucer at all.

"There are some things that I need Jing Jing's help with. Wangba, you did well this time! Very smart!"

Lin Yi nodded, not forgetting to compliment Wangba. "I was worried that you wouldn't understand the situation. It seems like I've underestimated you!"

"Boss Lin Yi, you're joking. I'm not smart at all, I just did more things because of my loyalty to boss Lin Yi and master! It was all thanks to boss Lin Yi and master's education! I have nothing to do with it!"

Wang Ba quickly put on a smile and shook his head humbly.

Lin Yi, you little bastard, are you trying to confuse me so that I'll get carried away and you'll find a chance to kill me?

I'm so smart, how could I fall for a little bastard's trick? You're right about one thing, you little bastard, you've underestimated me. One day, I'll kill you!

Wangba mumbled to himself, but kept a low profile on the surface. Lin Yi didn't have time to care about what he was thinking, and pulled Han Jing Jing's hand into the tunnel.

"Jing Jing, there's a broken technological array here, but it's not very stable. It's on the verge of collapse at any time. That's why I called you here through Wang Ba. I wanted to see if you could fix this technological array!"

Lin Yi explained quietly as they walked, "You know that the array this time might lead to the Azure sky Valley ..."

Wang BA's ears pricked up. As an old bastard who had lived for countless years, how could he not have heard of the Azure sky Valley?

Especially as a primordial spirit, Wang Ba also dreamed of recovering his physical body at all times, and the Azure sky Valley was his first choice!

It was just that the legend of the opening of the portal every 700 years had been going on for so long, but Wang Ba had never found the passage to the Azure sky Valley even once. He could only put it on hold. He did not expect to hear this news today.

The blue sky Valley!

Was Lin Yi, the little bastard, going to the valley to look for the purple mist evil Lotus?

Rebuilding my body ... I can't just let Lin Yi go like this-it'd be great if I could go and take the purple mist evil Lotus!

Once the body was reconstructed, whether it was the primordial spirit control hub or the spiritual awareness mark, the effect would be greatly reduced, and it was possible that it would lose its effect.

While Wang Ba was calculating the possibility of snatching the purple mist sinful Lotus, Han Jing Jing had already nodded with a serious expression.

"Jing Jing understands. Don't worry, Lin Yi bro, I won't let the formation be destroyed! Let's go faster!"

In fact, han Jingjing did not need to walk fast. The bottom of the lake was not far to begin with. In just a few words, they had almost reached the bottom of the lake.

After Ding Yi opened the barrier and brought them in, Han Jing Jing immediately ran up to the metal platform and began to study the technological teleportation array on the ground.

Chapter 7050 Successful Repair!

"Wang Ba, come here. I need you to work with me on the formation!"

Han Jing Jing did not even raise her head and immediately ordered Wang Ba to help.

"Al, master, don't worry. Leave it to me!"

"Yes!" Wang Ba agreed and ran over. Since he had the intention to snatch the purple mist sinful Lotus, his subjective initiative was completely different.

Hmph, once I'm done fixing the formation, I'll teleport to the valley First and destroy the portal there, Lin Yi, you little bastard!

Wang Ba didn't even think about the spirit mark in his spirit-could Lin Yi kill him with a single thought?

Han Jing Jing carefully examined the technological side of the teleportation formation, while Wang Ba was in charge of the traditional side.

He often worked for han Jingjing and had developed a lot of chemistry with her. Unconsciously, he had become a qualified assistant to han Jingjing.

It was no wonder that han Jingjing would give Wang Ba another chance, as she was not willing to kill Wang Ba just like that.

After a short while, Han Jing stood up straight and let out a long breath."Fortunately, the principle is similar to the previous one, and I can understand the slight differences. If I repair it, there won't be a big problem. I just lack some parts."

As she had rushed over in a hurry and did not know what it was about, han Jingjing naturally would not be prepared.

Fortunately, there were tools on the flying saucer. Otherwise, it would have been awkward. He might not have enough time to go back to the island base to get the tools.

"Jing Jing, can we use the metal disc as a replacement?"

Lin Yi had thought about this before, and now was the perfect time to bring it up. "If it can directly replace this formation, there's no need to repair it."

Han Jing Jing thought carefully for a while, then shook her head and said, ""Lin Yi bro, I'm afraid we can't. These two teleportation formations have some similarities, but they're fundamentally different. If we forcefully switch them, we'll cause the teleportation target to be irredeemable!"

Lin Yi paused and shook his head with a bitter smile. If the teleportation went wrong and he didn't reach the destination, he might really be dead!

"However, I can still consider removing some parts from the metal disc as a replacement!"

Han Jingjing stretched out her index finger and tapped it on her delicate chin a few times. Then, she snapped her fingers and said, ""Yes, that's it! Lin Yi bro, take out that metal disc, we need to hurry!"

"No problem!"

Lin Yi was overjoyed-this really was the end of the road!

As long as he could repair the teleportation formation in front of him, it did not matter if he dismantled all the metal discs. After all, han Jingjing had already repaired it once, and she could repair it again later.

After the metal disc was taken out, Han Jing Jing's slender body began to move quickly. She scuttled around the metal disc, dismantling Small Parts one by one, and then carefully replaced them with the teleportation formation on the ground.

Wang Ba was also being led around by han Jingjing. Sometimes, han Jingjing had to confirm with Wang Ba again and again if she did not understand something.

Lin Yi's formation skills were pretty good now, but he still wasn't as good as Wang Ba 'S. He wanted to help, but he couldn' t.

It wouldn't be a problem if the thing came out, but with Wangba's help, there wasn't much point in sending it out. Lin Yi decided to just watch from the side.

The two of them busied around, and the results were smooth. There were fewer and fewer broken places on the teleportation array on the ground, and the occasional sparks were also much less, and gradually there were almost no more.

In addition, the spiritual energy contained in the formation was also slowly becoming smooth, no longer as chaotic as before. The time when the formation collapsed had long disappeared, and everything was developing in a good direction.

"Lin shaoxia, miss han is really amazing! This kind of technological array doesn't seem to be difficult at all in her hands!"

Dingyi was bored, so he started chatting with Lin Yi. "With such a good helper, it will be much easier to deal with central. You must protect her well."

"Of course, thank you for your reminder, Chairman ding."

Lin Yi turned to look at Ding Yi, trying to guess what he meant.

Fortunately, he had already confirmed that Ding Yi was not one of Central's people. Otherwise, his words would have sounded like a threat to han Jingjing.

"It was just a casual remark, I don't deserve your thanks, young hero Lin!"

Ding Yi seemed to be unaware of it. He smiled and waved his hand, continuing, ""Miss han is a true genius. Perhaps we'll have the opportunity to work together in the future. Yes, some of my customers will definitely have needs in this area. When the time comes, young hero Lin, please don't refuse my request to work with you."

"Sure, sure. We'll talk about the price when the time comes."

Lin Yi's lips curled up into a meaningful smile. This profiteer! If there really was such a day, he should at least earn some back!

However, on second thought, how could a profiteer like Ding Yi do a losing business? No matter how high the price was, as long as he was willing to trade, it meant that there was definitely a profit ... Forget it, it was better not to care about these business matters.

As the two of them chatted, they paid close attention to the progress of the teleportation formation's repair. With the cooperation of Han Jing Jing and Wang Ba, the repair work was actually quite fast. It would only take a while before it was completed.

Wang Ba was focused on heading to the Azure sky Valley, so he did his best to cooperate with Han Jingjing and did not play any tricks.

Otherwise, it would be hard to say whether the teleportation array could be repaired smoothly.

After another ten minutes or so, the entire teleportation array lit up with a layer of faint light. It had finally been completely repaired!

Han Jingjing straightened her body and dusted her hands. She finally heaved a sigh of relief!

"Lin Yi bro, I've finished repairing the teleportation formation."

Han Jingjing revealed an innocent smile, like a child who had done something amazing and was asking for credit from his family. She looked extremely cute.

"That's great! Jing Jing, you're indeed a genius among geniuses. I'm afraid that no one else can do this besides you!"

Lin Yi complimented her with a smile, and Jingjing's eyes curved into crescents as she smiled. She felt that all her hard work was worth it.

Wang Ba pouted and mumbled unhappily, ""I'm the one who played the decisive role, okay ..."

"What did you just say?"

Lin Yi's eyes shot over, and Wangba jumped.

F * ck! Why did he say what he was thinking? Have you been suffering from dementia recently? 'I've been a hero for a lifetime, why is it getting worse and worse?'

"Boss Lin Yi, I was just saying that master is indeed a genius, playing a decisive role in the repair process. I was just helping out, and it doesn't make a difference whether I'm here or not!"

Wangba smiled apologetically-he couldn't alert Lin Yi at this point, he'd have to wait for the teleportation rights to be taken over!
