

Bottleneck 181

Chapter 181: Slaying Foundation Establishment, Zhou Kang Disappears

What is despair?

At this moment, Fu Liantao and his partner were experiencing that feeling. Full of hope only to end in despair, it was a great rise and fall.

They didn't expect the person hiding in the shadows to be Pei Shiping. In front of a Foundation Establishment Stage cultivator, even if they were cultivators at the ninth level of Qi Condensation, they only had one outcome – a dead-end.

Thus, in the next moment, without saying a word, the two of them made a tacit move. Wang Kuo had not yet reacted, and just felt a gust of wind beside him, followed by two thumping sounds of people falling to the ground.

It was Fu Liantao and Ban Zhihe.

A moment ago, when the two of them tried to destroy the Foundation Establishment Pill materials, they didn't even consider Wang Kuo's safety. However, even as cultivators at the ninth level of Qi Condensation, they couldn't destroy the materials in front of Pei Shiping.

Only now did Wang Kuo react, thinking he was a goner just moments ago, and then he heard Pei Shiping's voice.

“Daoist Wang, don't panic. Leave everything to me.”

The foundation of the Pei Family was still too shallow. Although they claimed to be the number one family among the Loose Cultivators in the Market, there was no depth to their power. Therefore, Pei Shiping naturally needed to win over an Alchemist like Wang Kuo.

As for Liang Sheng, he hadn't yet decided how to deal with him, but deep in his heart, a vague idea was already forming.

After all, although Liang Sheng appeared to only be at the Qi Cultivation Fivefold level, his backing was the Hua Tian Sect, so Pei Shiping was not able to make a final decision. Since that was the case, he no longer pondered on it and turned his gaze to Fu Liantao and his partner on the ground.

In any case, the situation of the two was simple and clear – a dead-end. He would deal with them first.

Regardless of whether it was because of the destruction of the black market or the ten Foundation Establishment Pill materials that they have not yet used today, Pei Shiping had a reason to kill them.

Now, Pei Shiping didn't make any big moves, just a slight fluctuation in his Qi, and Wang Kuo couldn't move anymore, watching helplessly as Pei Shiping approached Fu Liantao and his partner.

Damn it!

Wang Kuo regretted it deeply from the bottom of his heart. In the first place, he shouldn't have accepted Fu Liantao and his partner's request to refine the pills. Thinking about it, he couldn't help but glare resentfully at Liang Sheng.

Liang Sheng sensed this with his sharp intuition and was suddenly confused. What was going on? Why was Wang Kuo suddenly targeting him!?

The reason behind Wang Kuo's thoughts was simple: if it wasn't for Chen Sheng mentioning the nonsense about refining high-level elixirs to feed his alchemy skills, he wouldn't have attracted the current trouble.

However, he could not be bothered about Liang Sheng at this moment, because in the next moment, Pei Shiping opened his mouth, looking coldly at Fu Liantao and his partner. His words made Wang Kuo's face turn pale.

“Why did you bully and exploit others in the black market, leaving no room for negotiation? Do you not know that my Pei Family relies on the stable supply of Cultivation resources provided by the black market? By doing this, the black market will not be able to regain the trust of other Daoist friends in a short period of time.”

Fu Liantao looked at Pei Shiping and suddenly burst into a hearty laugh: “I’m about to die, what does it have to do with your Pei Family? If you had remembered our old friendship, wouldn’t we have had a share in the auction of the Foundation Establishment Pills by the Three Sects and Six Orders?

And without the two of us, would you have succeeded in your foundation building? You were the one who showed no mercy first, and now you pretend to be a good person right here?”

The reaction from Ban Zhihe was even simpler – he directly spat out a mouthful of phlegm. Unfortunately, with Pei Shiping’s Foundation Establishment Spiritual Power surrounding his whole body, the phlegm had no chance of landing on him.

Pei Shiping remained calm and composed in the face of this, “Well, today I will personally see you old friends off on your journey, as a way to settle our past. Otherwise, if I were to hand you over to those swindlers in the black market, I would not be able to bear it.”

Hypocrite!

At this moment, these three words appeared in everyone’s mind. And just then, Fu Liantao and his partner’s Qi suddenly erupted, “Daoist Ban, let’s take action.”

Suddenly, the two cultivators at the ninth level of Qi Condensation, their Qi erupted completely, showing the power of cultivators at the ninth level of Qi cultivation. Almost in an instant, several talismans were shot towards Pei Shiping.

And in Fu Liantao and his partner’s hands, magical weapons had already appeared. With an explosion of all their spiritual power, the two moved with agility, executing ruthless moves, and cooperating seamlessly. Their attacks occasionally produced deafening explosions, turning the surrounding mountain stones into ashes, showcasing their astonishing power.

At this time, Pei Shiping maintained his steadiness and composure, moving with grace, unhurried, as if the opponents he once had to treat with caution were no longer worth mentioning.

Pei Shiping didn't even use his magical weapon, directly activating the Foundation Establishment Spiritual Power throughout his body, demonstrating his incredible power in every move he made.

Although Fu Liantao and his partner were both battle-hardened masters and executed ruthless moves, they couldn't get close to Pei Shiping's body with any of their attacks.

After just a few rounds of intense battle, Fu Liantao and his partner began to show signs of fatigue. It was evident how astonishing their earlier outbursts were. At this point, their offensive weakened, while Pei Shiping's became even more relentless.

Later, taking advantage of the gap when the two were replenishing their spiritual power, Pei Shiping broke through their defenses. In an instant, the majestic power belonging to the foundation building cultivators landed on Fu Liantao and his partner.

In the end, Fu Liantao and his partner were slain by Pei Shiping. In an instant, blood splattered, their bodies broke apart, heads scattered, and flesh and bones flew, dying and disappearing.

Pei Shiping remained expressionless in the face of this situation, as if killing two cultivators at the ninth level of Qi Condensation meant nothing to him.

Wang Kuo shivered at the side. If he were the one facing Fu Liantao and his partner, he probably would have been killed before he could even make a move..

Chapter 182: Eliminating Foundation Establishment, Zhou Kang's Disappearance

Such powerful individuals had no ability to resist against Pei Shiping and could only describe Foundation Establishment Stage Cultivators as terrifying as this!

He was now under Pei Shiping's pressure and unable to speak, just filled with fear because he had just heard Pei Shiping unscrupulously mentioning the black market.

This also meant that he probably wouldn't survive, after all, dead men tell no tales, and in an instant, Wang Kuo's heart was filled with despair.

At that moment, he suddenly realized that he had regained the ability to act, but before he could understand what was going on, he heard Pei Shiping's voice.

"I don't know if Daoist Wang is willing to become a guest alchemist for my Pei family and refine pills for us after this?"

Upon hearing this, Wang Kuo could hardly believe it, looking at Pei Shiping with a stunned expression. He could see the smile on Pei Shiping's face, and felt that this was a sudden stroke of luck.

"Wang Kuo swears by the Heavenly Dao that I will never disclose anything that happened today and will become an alchemist for the Pei family, giving my all even unto death."

Pei Shiping looked extremely satisfied, after all, those who recognized the situation were the best. However, when facing Liang Sheng, his heart felt a headache.

Simply because Liang Sheng had already become the guest elder of the shop, and Pei Shiping could not recruit him anymore. When Wang Kuo saw his troubled expression, he vaguely guessed the reason.

He couldn't help but look at Liang Sheng with resentment. "Elder Dong, this man cannot be spared. If the news of the black market reaches the Three Sects and Six Orders, I'm afraid..."

Pei Shiping nodded his head after hearing this. When he mentioned the black market earlier, he had more or less made up his mind, and Wang Kuo's words now only pushed him further.

"Daoist Chen, I'm really sorry, but you can only blame your own bad luck..."

But before he could finish speaking, he saw fireworks everywhere.

What's going on!?

Suddenly, hundreds of talismans appeared before his eyes, and before he could react, dozens of magical weapons burst towards him in an instant.

Then, with a loud explosion, the magical weapons self-destructed. Even as a Foundation Establishment Realm cultivator, he couldn't react in time and had to endure the attack, getting slightly injured in the process.

Who would waste talismans and magical weapons like that?

Unheard of!

At that moment, without giving Pei Shiping any time to react, Liang Sheng threw dozens of Miasma Pills and Bone Corroding Pills in succession. Under his urging, they all turned into a cloud of mist, surrounding Pei Shiping.

At this point, Pei Shiping couldn't help but curse internally. Just what kind of background did Chen Sheng have to possess so many malicious means?

However, it wasn't over yet. In the next moment, his pupils shrank as Liang Sheng suddenly used Array Flags, trapping Pei Shiping in an illusion array.

Array Master!

Finally, Liang Sheng didn't take out anything else. However, he had already approached Pei Shiping, revealing his true cultivation level. With the eruption of his Foundation Establishment Spiritual power, he instantly shattered Pei Shiping's defenses.

"Foundation Establishment Stage..."

Pei Shiping's face was filled with disbelief because he hadn't expected his opponent to be a Foundation Establishment Stage Cultivator, leaving him completely unguarded.

In a life-and-death struggle between cultivators of the same realm, one being careless and the other highly intentional, life and death truly hung in the balance.

Too careless!

Only this thought remained in Pei Shiping's mind. Even in a fair battle, he might not have a guaranteed victory. He wondered how the other party had devised so many underhanded tactics.

In the next moment, Pei Shiping couldn't believe that Liang Sheng would be so cautious. He didn't even have time to make a move when his head, filled with unwillingness, was sent flying.

Foundation Establishment Loose Cultivator Pei Shiping was dead!

At that moment, Wang Kuo was dumbfounded. It seemed like a long time had passed, but in reality, it all happened within a breath's time, Pei Shiping was dead.

He looked at Liang Sheng with disbelief in his eyes, only one thought in his mind: How could this be possible?

In the next moment, before he could react, and just as he was about to kneel and beg for mercy, his consciousness plunged into darkness.

Why would he provoke this man? If he had chosen to believe him from the beginning, would he still have a way out?

He had made the wrong choice in the end!

There was no time for Liang Sheng to bother with Wang Kuo's thoughts. After collecting the items from the several people, he immediately covered the entire area with dozens of fireball spells.

After ensuring that all traces were burned, he quickly concealed his body and returned to the market. Fortunately, Fu Liantao and his partner were far away, otherwise the commotion here would have been detected by Foundation Establishment Cultivator Yao Mu.

One could only say that it was fortunate, but Liang Sheng had learned his lesson once again. He needed to prepare even more means, such as having more poisons that could instantly kill Qi Cultivators.

Although these methods couldn't instantly kill Foundation Establishment Cultivators, they could buy enough time for him to use the Nail-Head Seven Arrows Technique.

In the market.

Liang Sheng had safely returned to his Cave Mansion and layered it with three Concealment Formations, using Mid-Grade Spirit Stones as a foundation. Only then did he breathe a sigh of relief.

Unless a Golden Core Daoist came, no one could see through the Concealment Array covering his Cave Mansion.

Now, it was time to see the gains from this adventure.

Initially, he stored the ten sets of Foundation Establishment Pill materials, although they were indeed precious, they were of little use to Liang Sheng, so he threw them into his storage bag for the time being..

Chapter 183: Slaying Foundation Establishment, Zhou Kangs Disappearance

Wang Kuo also possessed a Storage Bag. After all, he was an alchemist with Qi Cultivation Eighth Level, so it wasn't strange for him to have one.

Liang Sheng looked through it and found a fair amount of Spiritual Grass. After sorting them out, there wasn't much left in the Storage Bag.

There were only about a hundred Low-grade Spirit Stones, and several Mid-Grade Spirit Stones, which seemed rather shabby. However, Liang Sheng wasn't surprised because he knew how much alchemists consumed.

The most important thing Wang Kuo left behind was the Cultivation Spiritual Pills, which satisfied Liang Sheng after putting them in order.

As for the jade slips and pill formulas, Liang Sheng only glanced at them briefly. He didn't have any big gains, as he had seen them all almost before.

Next up were Fu Liantao and his partners Storage Bags. Liang Sheng didn't have high hopes since the two men were probably close to bankruptcy after refining Foundation Establishment Pills.

As expected, the items inside Fu Liantao and his partners Storage Bags were almost as Liang Sheng had guessed. They were relatively empty, leaving the two of them extremely impoverished in their pursuit of Foundation Establishment.

In the end, they were left penniless for the sake of Foundation Establishment, but at least Liang Sheng managed to get two Two-Pattern Magical Devices from them; it was a small gain.

Not at a loss.

Last but not least was Pei Shiping's Storage Bag. Liang Sheng took a deep breath, and a delighted smile spread across his face. It was indeed a big win, as expected from the head of a family.

He had consumed many magical weapons, talismans, Spiritual Pills, and Arrays in order to deal with Pei Shiping. If these items hadn't been personally crafted by Liang Sheng himself, he likely would've exhausted a Foundation Establishment Stage Cultivator's entire fortune.

Pei Shiping was indeed the Number One Loose Cultivator!

Seeing over a hundred Mid-Grade Spirit Stones in the Storage Bag, Liang Sheng was overjoyed. These Spirit Stones could nearly compensate for all his losses.

As for other Low-grade spirit stones and materials stored in the bag, such as rare Spiritual Grass, refining materials, talismans, magical weapons, and Spiritual Pills, they were staggering in terms of quantity.eastern fantasy

Could this be the foundation of the entire Pei Family?

This time, Liang Sheng was right again. This was indeed most of the Pei Family's wealth, as it would be safer for Pei Shiping to carry it than to keep it anywhere else.

After all, he was a Foundation Establishment Stage Cultivator!

Among the spirit stones, what surprised Liang Sheng the most was that Pei Shiping also had a secret technique, the Puppetry Technique.

Liang Sheng couldn't help breaking out in a cold sweat after reading it. If Pei Shiping had a puppet, then Liang Sheng would've had to expose more of his trump cards in order to kill him.

Of course, the materials required for the Puppetry Technique were unique and collecting them all intact wasn't easy. It was evident from the materials Pei Shiping had prepared that he hadn't completed the collection.

Whether he could collect them all in the future, Liang Sheng could only shake his head after considering the market situation. For now, it wasn't something he had to worry about.

Besides these items, Liang Sheng's biggest gain was actually the jade slips of Pei Shiping, Fu Liantao and his partner, which recorded their cultivation experiences over the years.

It turned out that none of the three were good people. After all, who among decent people would keep a diary?

After reading the content of the jade slips, Liang Sheng had a general understanding of the world outside the Market. The regions of the Three Sects and Six Orders were much larger than he had imagined.

Just like the Market where he was, within the territory of the Three Sects and Six Orders, there were still a total of thirty-five markets. Even though Pei Shiping and the others controlled the black market, they had only visited at most five markets.

From this, one could see how powerful the Three Sects and Six Orders truly were. Not to mention the resources they could provide internally, the thirty-six Markets alone would undoubtedly provide massive amounts of resources on a daily basis.

So Liang Sheng still needed to be extremely cautious and not become complacent. There were still some areas where he was lacking in today's performance.

For example, the Vajra Talismans he had crafted were relatively weak compared to the Foundation Establishment Realm. Even if he stacked one thousand layers of them, they would likely only block a Foundation Establishment cultivator's attack for an instant.

As for his other attack talismans, he needed to upgrade them urgently, as well as the elixirs. It seemed like he had become complacent over the past few years.

He wasn't in a hurry about the Recipe for the Golden Yuan Pill since there was still a long way to go to reach the Foundation Establishment Late Stage. He could first prepare some life-saving items for himself.

That way, if he encountered such a dangerous situation again, he could ensure it wouldn't turn out the same as this time and have more confidence.

After all, Pei Shiping was able to lament being in the Foundation Establishment Realm even as he died. The next time a similar situation arose, Liang Sheng had to kill his opponent instantly without any hesitation.

After some self-reflection, Liang Sheng happily tidied up all the items. He still didn't have the Recipe for Golden Yuan Pill, otherwise, under such conditions, he could perhaps exchange it for a large number of Elixir Refinement Spiritual Grass.

Afterwards, Liang Sheng resumed his normal routine and went to the Hua Tian Sects store with a facade of being a Qi Cultivation Fivefold Cultivator with exceptional talent in Pill Refining.

However, during this time he needed to do one more thing. As time went on, the Pei Family might become a problem since they probably already knew about him being kidnapped by Fu Liantao and his partner.

As such, he needed to wrap up this situation, but he still had time to plan how to eliminate the entire Pei Family without anyone noticing.

As for the Pei Family, everything was still operating as usual, and no one knew that their Foundation Establishment Ancestor had died.

Before, Pei Shiliang had followed Pei Shipings instructions; if everything didn't go smoothly, it might take quite a while for the Ancestor to return.

So it never crossed Pei Shiliangs mind that anything could happen to Pei Shiping. After all, he was a Foundation Establishment Ancestor who had extended his lifespan by 500 years.. How could anything go wrong?

Chapter 184: Slaying Foundation Establishment, Zhou Kang Disappears

So, a peaceful month had passed, and Pei Shiliang finally began to feel uneasy, sensing that something was wrong.

As for Liang Sheng, he kept to his routine, occasionally visiting the spiritual field and using high-quality Qi Cultivation Pills to appease Huang Yifan and his brothers into working hard on their farming.

In his spare time, Liang Sheng naturally cultivated, drew talismans, refined pills, and practiced symbol charms, living a life of utmost tranquility

Until one night, when the entire Pei Family was wiped out, shocking the entire Market!

Market, Hua Tian Sects store.

Liang Sheng had once again flawlessly completed his task, refining a batch of high-quality Qi Cultivation Pills. Yang Zhaoyu was naturally very pleased with this, as it was a very profitable business.

At this time, watching Liang Sheng, who was still diligently working, Yang Zhaoyu couldn't help but feel even more satisfied. However, at this moment, a panicked Outer Sect disciple rushed in.

He whispered a few words to Yang Zhaoyu, immediately making his face change and his heart fill with shock.

The Pei Family had been wiped out?

Wasn't Pei Shiping at the Pei Family's residence?

At this moment, Yang Zhaoyu didn't care about anything else. Whether the Pei Family was wiped out or not was not important; what mattered was Pei Shiping.

If he had also died, then the situation would be completely different, as it concerned a Foundation Establishment Stage Cultivator, and no matter what, it was not a trivial matter.

The managers from the other three sects and six orders had the same reaction as Yang Zhaoyu at this time, and they all naturally appeared at the Administration Office.

Yao Mu also appeared before them at this moment. As the only Foundation Establishment cultivator stationed at the Hundred-Year Market, he was now the most serious of them all.

This was because he was the only Foundation Establishment cultivator stationed in the Market by the Three Sects and Six Orders, yet he had no sense of the Pei Family's extermination.

It was clear just how extraordinary the people behind the scenes were, as such a situation had never occurred in the Market before.

Yao Mu quickly reached a unanimous agreement with the managers of the Three Sects and Six Orders, and then they all hurriedly left to cooperate in the investigation.

Although Liang Sheng seemed indifferent to this situation on the surface, he couldn't help but calculate in his heart if there were any loopholes in his plans.

After confirming several times that there were no omissions, he completely relaxed and continued to refine pills in the store. However, the other Alchemists in the store were occasionally having their furnaces explode.

This was because they were not calm at the moment. The sudden annihilation of Pei Shiping's family, which concerned a Foundation Establishment Loose Cultivator, was a major event that they could not ignore.

This involved a Foundation Establishment Stage Cultivator, after all!

Therefore, they couldn't help but admire Liang Sheng for being so composed. No wonder he was known as the Pill Maniac amongst the Loose Cultivation Alchemists in the Market.

He could remain undisturbed even amidst such a major event, which probably had a lot to do with the depths of his alchemy skills.

In addition to Liang Sheng, there was one other person who remained calm in the store, and that was naturally Zhou Kang. His natural talent for Seeking Fortune and Avoiding Evil told him that this matter would not affect him at all.

Since that was the case, why should he worry? This matter wouldnt affect him, and besides, it wasnt his concern to begin with.

However, precisely because of this, he became even more interested in Liang Sheng, who, unlike him, did not possess the ability to Seek Fortune and Avoid Evil.

Completely absorbed in refining pills, he was utterly oblivious to the outside world. This level of focus couldnt help but make Zhou admire him even more.

Fortunately, it wasnt long before Yang Zhaoyu returned to the store. However, his face was even more unsightly now.

He didnt hide anything from Zhou Kang, and soon Zhou found out what had happened to the Pei Family and why Yang Zhaoyus face looked so bad.

Poison Master!

An Alchemist that refines poison pills!

The Pei Family was destroyed by poisoning!

With a terrifying Poison Master like this in the Market, how could Yang Zhaoyu not be worried? Therefore, all the stores Alchemists, including Liang Sheng, were summoned by Yang Zhaoyu.

Everyone, have any of you ever heard of a Spiritual Pill capable of killing Qi Cultivation Cultivators instantly? This pill is colorless and tasteless, and after infecting a cultivator for a month, it suddenly erupts, causing instant death.

The Alchemists looked at one another, as they were all Sect alchemists who refined pills for cultivation purposes and had never researched poison pills before.eastern fantasy

On the other hand, it was Liang Sheng who spoke up slowly, Manager, I happen to know of a poison pill that can instantly kill Qi Cultivators. However, I don't know of any pills that suddenly erupt after a month.

Liang Sheng volunteered this information, but it only made Yang Zhaoyu's face even more unsightly. Even Liang Sheng didn't know, which meant the situation was even more complicated than he had thought.

However, Yang Zhaoyu calmed down and continued to ask Liang Sheng, Daoist Chen, what kind of cultivation level is needed to refine the poison pill you mentioned?

At least the Qi Cultivation 8th Layer State is required. I initially came across this pill formula from other Daoist friends in the Market.

I actually tried refining this pill myself, as I'm obsessed with elixirs, but unfortunately, I ended up failing in the end.

But I've compared the difficulty of refining this poison pill with that of other mid-to-high-level Spiritual Pills and concluded that it requires at least the Qi Cultivation 8th Layer State to potentially succeed in refining.

Upon hearing this, Yang Zhaoyu nodded slightly, and the other Alchemists did not raise any objections at this time, as they had long stopped doubting Liang Sheng's words.

In their hearts, they had already formed a consensus: if Chen Sheng's cultivation aptitude was a little better, he would undoubtedly be an Alchemy Master.

Alright, thank you, Daoist Chen, for clearing up my confusion. You all may continue with your work, as I have some matters to attend to. I won't disturb you further..

Chapter 185: Slaying Foundation Establishment, Zhou Kang Disappears

Yang Zhaoyu hurriedly left the shop, he still needed to meet with other managers from various Sects. If this matter wasn't investigated thoroughly, they would likely have sleepless nights filled with anxiety.

Because Foundation Establishment Stage Cultivators were already the strongest battle force in the market, now that the Pei Family has been wiped out, trouble could arise if Pei Shiping were still alive. Thus, they have to be prepared.

However, if Pei Shiping were also dead, the situation would be even more terrifying. After all, even Foundation Establishment stage Cultivators could die, it was reasonable to think that these Qi Cultivators couldn't possibly withstand the same threat.

At this moment, the managers of the Three Sects and Six Orders once again convened. After exchanging ideas, they all supported Yang Zhaoyu's theory.

The perpetrator must at least be an alchemist at the Qi Cultivation 8th Layer state, or rather, a Poison Master of the same level.

If this person was not thoroughly investigated, or if the threat to the market was not eliminated, it is likely that everyone would live in perpetual fear.

At this moment, Yao Mu was in charge of integrating the resources of the Three Sects and Six Orders to carry out an investigation in the market and hoped to uncover the truth as quickly as possible.

If they confirmed that their abilities were insufficient, they would probably have to report the situation to their Sects and request assistance as soon as possible.

However, unless absolutely necessary, neither Yao Mu nor the managers of the Three Sects and Six Orders wanted to disturb their Sects.

Requesting assistance would mean admitting their incompetence!

In the time following this, Loose Cultivators within the market hardly dared to go out- after all, the entire Pei Family was annihilated, who amongst them could guarantee their own safety?

Under the vigorous investigation by the combined forces of the Three Sects and Six Orders' shop, they quickly gathered almost all the information, but no one knew precisely what had transpired.

Now they only knew that Pei Shiping was not at the Pei Family residence before, but now no one knew his whereabouts. Yao Mu took the initiative to personally investigate, and finally made progress.

They only found out that some time ago, there were indeed alchemists who left the market, among which was Wang Kuo, a Qi Cultivation 8th Layer state cultivator.

After grasping this clue, they followed this lead and discovered that Fu Liantao and his partner had made contact with Wang Kuo in another market.

The relationship between Fu Liantao and his partner and Pei Shiping was naturally known to them. Their discovery led Yao Mu and others to focus on these alchemists who had left the market, especially Wang Kuo.

Fu Liantao and his partner travelled to several markets and surprisingly gathered several kinds of Spirit Grass for the Foundation Establishment Pill. Unfortunately, after this discovery, they didn't find any new leads.

Upon finding out about Fu Liantao and his partner, they quickly discovered the traces left behind by Pei Shiping outside the market.

Yao Mu and others compared the information countless times and finally came to a conclusion, a month ago, it seemed like Pei Shiping was tracking someone.

It was very likely that Fu Liantao and his partner were the ones Pei Shiping tracked, however, the rest of the clues abruptly ceased. Yao Mu couldn't find any other relevant information, no matter how hard he tried.

Actually, the traces left by Pei Shiping were naturally Zhong Liangsheng's doing. With Pei Shiping's storage bag, it was extraordinarily straightforward for him to fake Pei Shiping's tracks.

And the so-called poison pills of the Pei Family, were initially just poison pills diluted a hundred times. A month before the poisoning, Liang Sheng stealthily switched them to poison pills that could kill instantly.

Meanwhile, Liang Sheng, with his superior skills, mixed in some Spiritual Grass that didn't affect the efficacy of the medicine and, coupled with the clues he purposely left, misled the Three Sects and Six Orders in the wrong direction.

Who could think that Liang Sheng, a Foundation Establishment Stage cultivator, disguised as an alchemist at the Qi Cultivation Fivefold, and set such a trap?

Because there couldn't be further investigation, Yao Mu and managers from the Three Sects and Six Orders could only surreptitiously investigate. However, no incidents occurred for the three months that followed.

They only slightly let their guards down at this point, guessing that the Poison Master who exterminated the Pei Family, most likely had left the market.

However, during this time, sales of Array Technique Flags in the market suddenly exploded, many Loose Cultivators felt unsafe and started adding more defences to their cave dwellings.

Array masters stationed in the shops of the Three Sects and Six Orders were kept busy during this period. But Yang Zhaoyu and others were inexplicably delighted.

After all, it was a boost to their performance!

Though the Loose Cultivators were frightened in recent times, they still needed to acquire cultivation resources, so they began to cautiously venture out in the past two months.

Since nothing unusual happened in these two months, the orderliness in the market gradually returned to how it was before.

Liang Sheng was not worried about his plan from the beginning. He maintained an average mindset and, after getting familiar with the Alchemist in the shop, gradually began to indirectly inquire about the Golden Yuan Pill.

Unfortunately, no alchemist in the shop knew the pill formula for the Golden Yuan Pill. After all, the Golden Core Realm is too far away from them, so why would they care about Golden Yuan Pill?

And it's not as if everyone is like Chen Sheng, who Linag Sheng was impersonating, who came up with the theory of making Medium-High-grade Elixirs to boost his own skills. Why would you torment yourself needlessly?

However, Liang Sheng did have some gains during this period, he had got more detailed information about the Three Sects and Six Orders.

For example, amongst the Three Sects and Six Orders, Hua Tian Sect was specialized in refining weapons, and the Refining Equipment Peak Elder had even consecutively refined Spirit Tools.

Of course, the Three Sects and Six Orders also had Sects that were good at refining pills, the most impressive of these was the Dan Ding Sect, which was famous for its Production of Alchemists.

However, the market where Liang Sheng was currently at was closer to the territories controlled by the Hua Tian Sect and the Upper Green Sect. In addition, this market's income was moderately low compared to other markets, so the Dan Ding Sect's alchemists stationed here were very few..

Chapter 186: Slaying Foundation Establishment, Zhou Kang Disappears

Liang Sheng paid close attention to the news from the Three Sects and Six Orders every day, but at this time, he was not in a hurry. After all, the information he had received was only just fragmented words from the alchemists, with no complete source of information.

So even if Liang Sheng had a rough outline of the plan for the next stage in his heart, he would not take risks unless he was 100% sure.

He was just a small Foundation Establishment Stage cultivator, and it was only in this market where he could guarantee his own safety. If he was not 100% sure of his safety, taking hasty actions would be simply foolish.

Time was the most useless thing for him, so he was not in a hurry, nor would he ever be. Time was on his side.

As a result, in the following time, Liang Sheng continued to play the role of a guest alchemist in the same way as before.

Meanwhile, the news of the destruction of the Pei family slowly died down as time passed, and the investigation results of the Three Sects and Six Orders quietly “spread” out.

After most Loose Cultivators received these “secret insiders”, their guesses were simple and clear. They all believed that might be Wang Kuo, under Fu Liantao and his partner’s instructions, who refined poison pills and plotted against the Pei family.

After all, the grudge between Fu Liantao and Pei Shiping was well known to many people. Some Loose Cultivators even felt a little relieved, thinking that one must not go too far, or there would always be a time to pay the price.

As for Pei Shiping, he had not appeared all this time, and no one knew where he was now. Perhaps he was chasing after Fu Liantao and his partner.

But all these had nothing to do with the Loose Cultivators in the market. Occasionally used as casual conversation, no one cared anymore. There were so many things happening in the market every day, and everyone was desperately seeking resources, so who would keep remembering them?

Moreover, the Loose Cultivators in the market actually became more energetic because of the extermination of the Pei family. After all, without the powerful Foundation Establishment Stage cultivator families above their heads, the Loose Cultivators were back on the same starting line.

After the matter completely subsided, Liang Sheng secretly returned to the Spiritual Field Cave Mansion once again. However, as soon as he appeared in front of Huang Yifan and his brothers this time, Huang Yifan directly knelt in front of him, full of gratitude.

Huang Yifan had finally broken through the bottleneck of the Eighth Layer of Qi Cultivation Realm and entered a new realm!

Liang Sheng didn't say much while looking at him, but instead had a vague idea in his heart. But how should he execute this plan, he still needed to think it through carefully.

At this moment, the spiritual plants in the spiritual field matured once more and grew vigorously, which showed that Huang Yifan and his brothers had been very responsible.

However, after harvesting the True Yuan spiritual grass this time, the True Yuan spiritual grass stored by Liang Sheng was completely sufficient for use, and he finally changed to other spiritual plant seeds.

At this point, Huang Yifan and his brothers did not ask what kind of spiritual plant seeds these were. They just followed Liang Sheng's instructions and diligently continued to complete their tasks.

They knew that following this master was advantageous to themselves and their brothers. They didn't have to live a life of battling through blood and blades anymore. With enough Qi Refining Pills, reaching the Ninth Layer of Qi Cultivation might not be a dream in the near future.

If they knew that the spiritual plants they were planting this time were the herbs for making Spiritual Pills that could instantly kill Qi Cultivators, they would probably be frightened.

However, ignorance is bliss. Once again, after replenishing the Gathering Spirit Array and the surrounding defensive array in the spiritual field, Liang Sheng left the spiritual field and returned to the market.

After that, Liang Sheng continued his peaceful life, and in a blink of an eye, thirty years passed. He had originally thought that he could continue using "Chen Sheng's" identity until his "natural end of life", but an accident occurred.

This year was the time for the Sect Rotation. Since the Upper Green Sect and Hua Tian Sect clashed last time, the Upper Green Sect was originally planned to send people to the station for this round.

However, according to the previous negotiation results between the two parties, no one knew what agreement the Upper Green Sect and Hua Tian Sect had reached. Their quota was replaced by Hua Tian Sect this time.

And at this time, Zhou Kang just happened to be returning to the sect. As early as twenty years ago, he had successfully entered the Ninth Layer of Qi Cultivation Realm.

As a result, after ten years of cultivation, Zhou Kang felt that he had reached the perfect stage and was ready to try to break through the Foundation Establishment Realm.

Therefore, without any hesitation, he contacted Foundation Establishment Stage cultivator and a Zhou family member, and soon received news that he could return to the sect.

However, before this, Zhou Kang had to return to the secular world. Hua Tian Sect asked him to bring along the Great Zhou family members to join the Sect.

At this time, only a little over fifty years had passed since the second group of Zhou family disciples joined the Sect. Among the second batch of disciples, five of them had already reached the Qi Cultivation Seventh Level, and even one had reached the Qi Cultivation Eighth Layer. This made the sect value even more the talent of the Great Zhou family members.

In addition, the first group of Zhou family disciples who joined Hua Tian Sect had gradually established themselves within the Sect. With their good reputation and peaceful attitude, no one had any complaints against them.

Furthermore, the Refining Equipment Peak Elder, having succeeded in refining a Spirit Tool, proposed to accept Zhou family members into the Sect earlier than expected. Under these circumstances, no one would object.

Everyone thought the matter would be extremely simple, as Zhou Kang, with Qi Cultivation Ninth Layer, stepped into the secular world, how could there be any danger?

Yet, unexpectedly, an accident did happen.

Zhou Kang had disappeared!

Chapter 187: Stealing from the Shangqing Sect, Yang Sheng excels in both Array Formation and Weapon Refining!

Market.

Although thirty years had passed, Liang Sheng's cultivation level had not changed much. He could only sigh that despite there being no bottleneck in his cultivation, his progress was genuinely pitiful.

Name: Liang Sheng

Age: 597

Talent: Innocent Foolishness (Top grade)

Techniques: Upper Pure Immortal Scripture (10th Layer), Twenty Life-Nurturing Techniques (19th Layer), Nail-Head Seven Arrows Technique (Curse)

Realm: Early Foundation Establishment Stage

Lifespan: 21134 eastern fantasy

Originally, Liang Sheng wanted to find a chance to die peacefully, but surprisingly, Zhou Kang suddenly disappeared in the secular world, directly arousing his vigilance.

If it had been someone else, he would not have cared so much. After all, people disappeared in the market every day, which was the fate of ordinary Loose Cultivators.

But Zhou Kang was different. His prowess in the Ninth Layer of Qi Cultivation had already made him invincible in the secular world. Moreover, his bloodlines ability to seek fortune and avoid evil meant it was highly unlikely for him to face danger in the secular world.

Unless the person who attacked him far exceeded his cultivation level, which meant that the attacker was at least at the Foundation Establishment Stage.

Yang Zhaoyu, the manager of Hua Tian Sects store, didnt pay much attention to this situation at first, thinking that Zhou Kang had returned to his secular family and would stay there for a few days.

But after a month had passed, Yang Zhaoyu began to feel something was wrong. Even if one was attached to the secular world, they wouldnt stay that long at the expense of their chance to establish a foundation.

So, Yang Zhaoyu sent people to look for Zhou Kang in the secular world, only to discover that he had mysteriously disappeared, leaving no trace.

As soon as this news came out, it made Yang Zhaoyu break out in a cold sweat, because he knew very well how important Zhou Family was to the Grand Elder of Refining Device Peak in their sect.

Without any hesitation, Yang Zhaoyu reported to the sect immediately. However, after a few days, he still had not received any response from the sect.

This made him uneasy because the sects attitude towards this matter would determine his future. Their apparent apathy made him restless.

But soon, he was no longer flustered, as the Foundation Establishment Stage Cultivator stationed in the market by the sect finally arrived.

The moment he saw the other partys true face, he understood why the sect had not replied to him.

Zhou Mo!

This was the first disciple of the Zhou Family to successfully establish a foundation, and he had already entered the middle stage of Foundation Establishment by now.

No wonder the sect hadn't responded to him because Zhou Mo represented the sect's attitude, showing that they were taking Zhou Kang's disappearance quite seriously.

Zhou Mo arrived in the Market with a dark expression, feeling bad about the situation with a sense of gloom in his heart.

However, even so, he was still very friendly to the people in the sect's store and did not show his bad mood, avoiding causing unnecessary trouble to others.

Even for Liang Sheng, a Fifth Layer Qi Cultivation Alchemist, Zhou Mo's attitude was still friendly, and there was no sign of any neglect.

Seeing this, Liang Sheng couldn't help but sigh in admiration. The Zhou Family disciples were indeed extraordinary, and their temperament was truly breathtaking.

He wondered why the Zhou Family Bloodline was so outstanding that almost everyone from the family left no room for criticism. Liang Sheng involuntarily fell into memories, thinking about those people and events.

However, Zhou Mo's arrival made Liang Sheng even more determined to speed up his peaceful death plan, because Zhou Mo didn't immediately set off to investigate Zhou Kang's disappearance in the secular world.

What did this mean?

It meant that he also sensed danger and didn't have confidence in his heart, so he stayed in the market to observe the situation first.

If even Zhou Mo at the Foundation Establishment Middle Stage felt uneasy, then it was a perfect time for Liang Sheng to flee.

Fortunately, Liang Sheng had already revealed signs of his impending death a few years ago, so now when he initiated his death plan, it wouldn't seem too abrupt.

When Liang Sheng asked to resign from Yang Zhaoyu, the latter's eyes were somewhat complicated. Still, he didn't try to retain him too much, just offering some standard persuasion before letting Liang Sheng leave smoothly.

On the contrary, when Zhou Mo heard that Liang Sheng was retiring and wanted to return to his roots, he even personally escorted Liang Sheng out of the store.

Such a temperament could hardly be criticized.

Usually, the Hua Tian Sect's store would send someone to escort Liang Sheng back to his hometown as a sign of respect for the Guest Elder.

However, due to Zhou Kang's disappearance, Yang Zhaoyu had no time to attend to Liang Sheng. Liang Sheng was also happy to see this situation; why would he seek trouble for himself?

Nevertheless, Zhou Mo considered the situation more comprehensively and gave Liang Sheng a jade tag representing the identity of an ordinary guest elder of the Hua Tian Sect before he left the market, fulfilling their sect's friendship.

Most Loose Cultivators would give face to the jade tag, so Liang Sheng should not encounter anyone trying to cause trouble when returning home.

On the same day, Liang Sheng bid farewell to the Marketplace Alchemists one by one. They all had to know about Chen Sheng's impending peaceful death.

Then, on a quiet night, Liang Sheng left the market in a low-key manner. However, this time, he did not conceal his departure. Of course, he had to let the market know that he had left.

At this time, the Hua Tian Sects store was investigating Zhou Kangs disappearance, and the sect didnt care about Liang Sheng. Although he had the jade tag, Liang Sheng thought some imprudent Loose Cultivators would follow him. Surprisingly, no one followed him at all.

He thought about it, and then he understood the situation.. It was because he was known as a Pill Maniac!

Chapter 188: Stealing from the Shangqing Sect, Outstanding Yang Sheng in Array and Refining Weapons!

Pill Maniac had invested all his resources in honing his alchemy skills and had nothing valuable apart from his exceptional skills. Liang Shengs identity really had nothing else to it.

Since that was the case, it was hardly worth the effort to offend the Hua Tian Sect and do such a thing right under their watch while stationed at the market, let alone risk their wrath.

Cultivators are indeed a greedy lot, willing to take risks, but they must be sure their gains are worth it. Evidently, the identity of Chen Sheng doesnt fall into this category.

With that in mind, Liang Sheng eased his worries and quickly walked several hundred miles outside the market before turning ten or so directions and stealthily returned to the Spiritual Field Cave Mansion.

That night, Liang Sheng invited Huang Yifan and his brothers to drink wine. The three of them were overwhelmed by the favor, unaware that Liang Sheng was bidding farewell to Chen Sheng¹¹ at that moment.

Chen Shengs identity has benefited Liang Sheng greatly, at least giving him a much deeper understanding of the Three Sects and Six Orders compared to his past.

At this moment, Liang Sheng didnt entertain the idea of hiding in the secular world for some time. Even Zhou Mo was so cautious in dealing with the secular world, it only goes to show deep the waters are.

These days, Liang Sheng had been hiding in the cave mansion, quietly cultivating. Huang Yifan and his brothers were surprised, but they soon stopped paying attention and continued their hard work, as their master had given them more Qi Refining Pills.

It was finally time for Liang Sheng to make use of top-grade materials left by Pei Shiping and others, and begin trying to refine magical weapons.

Of course, at first, he used ordinary materials he had collected. After all, he needed to practice before he could master it, and only then would he think about officially refining weapons.

Huang Yifan and his brothers were unaware that Liang Sheng was hiding in the cave mansion refining weapons, as the concealment formation had already isolated their senses.

On the contrary, because Liang Sheng didn't go out) they became even more cautious in irrigating the spiritual field, and ten days passed in a blink of an eye.

Liang Sheng had secretly gone out once during this time, but after that, he felt more and more uneasy about the market situation, not daring to investigate carelessly.

After all, the Hua Tian Sect had actually sent two Foundation Establishment Stage cultivators, which made him feel even more perturbed about the secular situation. Why else would it have come to this?

Once the Hua Tian Sect's reinforcements arrived, Zhou Mo finally began taking action, leading the two Foundation Establishment cultivators to investigate why Zhou Kang had disappeared in the secular world.

As for Liang Sheng, he was like a ten thousand-year-old turtle, hiding in the Spiritual Field Cave Mansion, reluctant to go out, and extremely cautious, not even interested in watching the excitement.

At the moment, his only thought was to stick to the principle of not actively courting trouble, wait for the storm to pass, and then carry out his next plan.

Secular World.

After Zhou Mo and the others had emerged from the Thick Fog Mountain Cave, they did not linger at the Xigu Pass for a moment, instead, they hurried directly to the Capital.

Although they were extremely cautious all the way, no accidents occurred. It was only when they saw the current Imperial Clan that they realized what had actually happened in the secular world during this time.

For more than fifty years, people from the Cultivation World had been guiding Zhou family's young members into the Cultivation World, and the other party was indeed a cultivator. The young members of the Zhou family had never felt any danger, so, naturally, they wouldn't doubt the origins of the other party. Instead, they were overjoyed by the Zhou family's favored status in the Cultivation World.

The other party's every visit was cautious, coming almost every ten years, and by now, they had taken away over a hundred young members of the Great Zhou Royal Family.

When Zhou Mo heard this, his face turned gloomy. He had almost concluded that Zhou Kang's disappearance was likely due to this event.

Because he waited for the secular situation to be safe before setting out again, Zhou Mo missed the opportunity to see the other party for himself.

But who was the other party, and why did they do it?

The other two cultivators looked helplessly at Zhou Mo's expression, as they too did not expect this situation. And the sect would never give up on it after learning of the matter.

At this point, the current Great Zhou Emperor also found it hard to believe. The cultivators were not members of the Hua Tian Sect?

At that time, the whole royal family had no sense of crisis, indicating that the other party had no ill-intentions. So, what was going on? eastern fantasy

Zhou Mo tried to calm himself down at that time. He would only neglect what's important if he got too anxious. Once his emotions had settled, he began asking about Zhou Kang's situation.

But the answer from the Great Zhou Royal Family made Zhou Mo increasingly uneasy because they had never seen Zhou Kang.

In other words, it was possible that Zhou Kang had been intercepted by the other party the moment he entered the secular world, and his fate was still unknown.

Only Foundation Establishment disciples and above in the Hua Tian Sect were eligible to leave a soul lifeplate in the sect, so they had no way to determine Zhou Kang's current status.

After learning about the situation, Zhou Mo urged the royal family to be calm and not hand over people unless the Hua Tian Sect or Zhou family disciples came looking for them. And they should try to delay for as long as possible.

It would be best to send someone to strike the Nine Ding at Mount Kunwu to inform the Cultivation World. After that, Zhou Mo led the other two Foundation Establishment cultivators to investigate the entire Great Zhou Mortal World.

Later, they discovered that the secular situation was even worse than they had imagined. In addition to the Great Zhou Royal Family members being sent, other Zhou family members were also accepted as disciples by so-called hermits. After that, they traveled the world and were heard from no more.

As their investigation deepened, Zhou Mo frowned more heavily. This matter was even more complicated than they had thought. However, it seemed that the people behind it had no ill intentions towards the Zhou Family.

But why did Zhou Kang disappear? What secrets were hidden beneath? For a short while, Zhou Mo's investigation came to a standstill.

Chapter 189: Stealing from the Upper Green Sect, Yang Sheng excels in both Array Formation and Weapon Refining!

However, as time passed, they finally made a new discovery, which was actually an accidental one. They had to thank the cautious nature of the members of the Zhou family for finding this clue.

Zhou Mo imagined that if the opponents entered the Cultivation World, they would definitely go through the channel of Xigu Pass. In the channel, they found a personal item belonging to a Zhou family member.

This must be a clue left behind by the Zhou family member when they sensed something was wrong, and based on this clue, they traced the origin of the other party.

After that, they immediately left the secular world and hurried back to the Immortal Cultivation Market, because these clues pointed to a sect.

Upper Green Sect!

Unexpectedly, it was the people of Upper Green Sect who led the descendants of the Great Zhou mortal world into the Cultivation World. Neither Zhou Mo nor the others had expected the Upper Green Sect to resort to such means in secret.

However, they frequently traveled between the secular world and the Cultivation World through the Xigu Pass Channel, and there were not few numbers of Great Zhou family members. If so, how could Yao Mu, who was stationed in the market at the time, not notice it?

The more they thought about it, the more they felt shocked, as if the situation inside was extremely complicated. So when they returned to the Immortal Cultivation Market, they didn't say much, as if they hadn't found any clues in the Secular world.

Of course, his actions naturally caught the attention of some people. At this time, the manager of Upper Green Sect's shop also breathed a sigh of relief, but when he turned his head, he couldn't help but let out a bitter smile. He was simply too nervous.

Previously, the Sect's actions were so meticulous that they had eradicated all traces. How could their opponents find any evidence?

if it wasn't for Zhou Kang's sudden appearance in the secular world, disrupting the sect's plans, perhaps this matter would have been done in a much more covert way.

In the following days, Zhou Mo didn't make any moves and the two Foundation Establishment Stage Cultivators who had come to support him also returned to their sect. Seeing this, the Upper Green Sect people gradually felt at ease.

However, three days later, Zhou Mo suddenly led people to blockade the Upper Green Sect's shop. This move caused the entire market to shudder involuntarily.

After all, the infighting among the Three Sects and Six Orders was not a good thing for those Loose Cultivators who relied on the market for their survival.

Isn't the reason they were willing to stay in the market precisely because of the Three Sects and Six Orders offering security and protection within the market?

As for the outside of the market, everything depends on their luck. But now that this sudden situation has occurred within the market, what can these Loose Cultivators do?

Under these circumstances, the news came out that night, as Zhou Mo of Hua Tian Sect was openly dealing with Upper Green Sect at this moment without the intention of hiding anything.

In that case, Liang Sheng naturally received the news, and as a result, he became even more cautious about going out. He even spent two more mid-grade spirit stones to strengthen the defense measures outside the Spiritual Field Cave Mansion.

Liang Sheng felt somewhat helpless at this moment, but it wasn't his fault either. After all, who could have expected Upper Green Sect to be so cunning, seemingly appeasing on the surface, secretly launching such underhanded tactics behind.

Since the Great Zhou young members could be easily used, they chose not to confront Hua Tian Sect directly but instead secretly take away the Great Zhou young members to strengthen their own power.

Thinking of this, Liang Sheng became even more careful and cautious. As expected, these old monsters in the Cultivation World were ruthless when they were scheming, he had overestimated the bottom line of these sects after all.

However, in his heart, he still hoped that this matter wouldn't get out of hand, for it would make it difficult for him to carry out his plans.

He was now powerless to fight against a sect, but even though he wished for both sides in the Hua Tian Sect conflict to end their problems, he knew this was most likely his own wishful thinking.

What followed was far more complicated than he had imagined, because Yao Mu was also implicated in the matter.

Who was Yao Mu?

He had the Sky Solar Sect behind him.

For a moment, the atmosphere in the shops of the Three Sects and Six Orders in the market became somewhat inexplicable. The Loose Cultivators living at the bottom of the market had the best ability to read the faces of those above, and they all hid in the market, not daring to go out.

As for some Loose Cultivators with strength, they chose to flee as soon as the news came out, not daring to linger in the market.

A storm was coming!

Liang Sheng left.

After Zhou Mo took action to blockade the Upper Green Sect's shop, Liang Sheng made a resolute decision to leave the market and went to the market under the jurisdiction of the Dan Ding Sect.

That market of the Dan Ding Sect was extremely special compared to the current one, and it was especially suitable for Liang Sheng to stay there for a long time to search for the pill formula of Golden Yuan Pill.

Before leaving, Liang Sheng properly dispersed Huang Yifan and his brothers, and had them swear a Heavenly Dao Oath in front of him, promising not to talk about any information related to him.

Although Liang Sheng always appeared as an old man with a young face every time he met Huang Yifan and his brothers, he still didn't want to leave any trace.

There were too many accidents in the world, and the fewer cause and effect ties the better. Who knew what circumstances could arise on the path of cultivation?

As for not getting rid of Huang Yifan and his brothers, the reason was simple: they had never wronged him in all these years.

During the time they guarded and cultivated the spiritual fields, they had always been diligent, so Liang Sheng naturally wouldn't act recklessly.

One could prioritize safety, but there always had to be a bottom line.

However, when Huang Yifan and his brothers heard Liang Sheng's request, their first reaction was not to leave him but to continue to follow him. Yet how could Liang Sheng possibly agree to their request?

Having one more person by his side meant one more cause and effect relation, and he would be out of his mind to do so..

Chapter 190: Stealing from the Upper Green Sect, Yang Sheng excels in both Array Formation and Weapon Refining!

After Liang Sheng watched them swear, he told them the method of entering and exiting the spiritual fields defensive array. From now on, everything here would no longer have anything to do with him.

As for the Cave Mansion in the spiritual field, he left it to them, hinting that they should not wander around casually for the time being. Whether they listened or not was their business and had nothing to do with him.

After finishing all these things, Liang Sheng drifted away. Huang Yifan looked at the direction he left, feeling reluctant to part. Over the years, they had nothing to worry about except farming, and they even saw the threshold of the Qi Cultivation Ninth Layer.

The master could be considered their greatest fortune in all these years. After a long time, Huang Yifan finally tidied up his mood and carefully entered the Cave Mansion according to the method Liang Sheng had explained.

After entering the Cave Mansion, he found a Jade Bottle. At first, he did not care about it. But when he saw the words on the Jade Bottle, the three brothers were stunned on the spot.

After a long time, Huang Yifan said hoarsely, "From now on, even if we die, we cannot reveal any information about the master."

The other two immediately nodded, feeling endless emotion in their hearts. The master truly was the benefactor of the three brothers and the greatest fortune in Cultivation.

Because there were only three words on the Jade Bottle: Foundation Establishment Pill.

What they didn't know was that Liang Sheng hadn't gone far at this moment, he secretly folded back and saw this situation before he could completely let go-

Huang Yifan and his brothers were ultimately kind people. It was also worth his arrangement that he didn't misjudge them.

If the three had any other thoughts... Heh... Liang Sheng didn't think further. After all, the three brothers weren't having any other thoughts, right?

As for the turbulence in the market at this moment, Liang Sheng didn't want to look at it again. No matter what, the market was no longer safe at this time.

At the moment when Zhou Mo chose to bring the supporting forces of Hua Tian Sect and fully reveal their swords against Upper Green Sect, it meant that this matter could no longer be trivial.

In any case, he would never return to the area of Upper Green Sect and Hua Tian Sect until this matter settled.

Better safe than sorry.

Many Cultivators died on the road of Cultivation just because of collateral damage. By that time, they could only regret it.

Market.

Liang Sheng didn't know that on the third day after he left, a big upheaval occurred in the market. This time, Hua Tian Sect took action without any reservations.

Previously, Upper Green Sect's shop was just sealed off. However, under the incredulous eyes of the Loose Cultivators in the market, the Upper Green Sect's shops were directly razed to the ground by the people Zhou Mo sent.

Did Hua Tian Sect want to fight against Upper Green Sect to the death? Or why else would they do this?

Not only that, but even the shops of Sky Solar Sect were sealed off by Zhou Mo. However, the Sky Solar Sect's shops were not razed to the ground, and the people inside the shop were not detained. They were just not allowed to leave the market.

Zhou Mo and several Foundation Establishment Senior Brothers who came to support joined hands to encircle the entire market with an array, not allowing anyone to enter or exit.

This made many Loose Cultivators who came later and had wishful thinking regret not having left with the previous group of departing Loose Cultivators.

But now they could only pray that the Three Sects and Six Orders would peacefully negotiate to resolve this matter. Otherwise, they really couldn't see the future of this market.

Zhou Mo dared to be so decisive because the Hua Tian Sect had reached a unified consensus on the matter. For more than two hundred years, the Great Zhou Royal Family had proven their value.

Not to mention that they provided a large amount of dynasty luck that could help the Sect refine magical weapons and Spirit Tools. Their bloodline alone was incredibly magical.

This family's fortune was profound, making everyone in Hua Tian Sect sigh. It was as if they were an essential puzzle piece for the rise of Hua Tian Sect.

Under such circumstances, the Upper Green Sect actually resorted to underhanded tactics, entering the Secular World, and kidnapping the younger generations of the Great Zhou Royal Family. This was simply intolerable.

After all, the master of this secular land was Hua Tian Sect, and it had nothing to do with Upper Green Sect.

At this time, the young members of the Zhou family also hated Upper Green Sect, as Zhou Kang's whereabouts were still unknown.

As for the young members of the Zhou family who had been taken away, based on their secret inquiries, they found that they were now in the Upper Green Sect and had become disciples of the Upper Green Sect.

However, they couldn't find any news about Zhou Kang. It could only be said that Zhou Kang's life or death was uncertain, and the situation seemed a bit bad.

The reason why Hua Tian Sect took such a hardline stance this time was also because Sky Solar Sect was unexpectedly involved.

The upper echelons of Hua Tian Sect didn't expect that their sect would show signs of rising and would alert other sects.

Otherwise, how could Upper Green Sect have reached the secular world so smoothly, impersonating Hua Tian Sect to take away the younger generations of the Great Zhou Family through the Xigu Pass Channel?

There must have been some reasons for Sky Solar Sect's Yao Mu being involved, so they now needed to show this attitude.

Otherwise, the future troubles targeting the younger generations of the Great Zhou Royal Family might be even more prominent. Hua Tian Sect not only had to take action this time, but also had to resolve the matter once and for all.

The uproar in the market this time made the other sects of the Three Sects and Six Orders aware. At this time, the Sky Solar Sect was also somewhat stunned.

They secretly helped Upper Green Sect, naturally, because they didn't want to see Hua Tian Sect dominating everything. But who could have thought that the bloodline of the Great Zhou Royal Family was so magical that it would make Hua Tian Sect so much more powerful?

In their hearts, they had some regrets.. If they had known earlier, should they have kidnapped some younger generations of the Great Zhou Royal Family as well?
