Chapter 491: The Last Dance of the Church of All Beings, Liang Sheng Plucks Chestnuts from the Fire

Kaiyuan Child felt that the timing still wasn't right, so he asked Feng Yuan to wait a bit longer. Having cultivated for so long, Feng Yuan naturally understood the principle of not being pushy, so he sat to one side and waited for the right moment.

"Feng Yuan, your master didn't just send you to watch how I handle the chaos in the Longevity Immortal City, but to find an opportunity to help you cross the Fate Calamity."

The Longevity Immortal City.

The Church of All Beings' base.

At this moment, the majority of high-level cultivators who chose to cooperate with the Church of All Beings were gathered there, for the opportunity they awaited for one hundred years had finally arrived, as conveyed by Lingkun's message.

Lingkun sat at the head of the table, his face grave.

"Daoist Friends, the Immortal City's Heaven and Earth are under ban, causing the interruption of spiritual energy. Now, thanks to everyone's selfless support, our preliminary plan has finally been completed."

No one was paying attention to what Lingkun was saying at the moment. Instead, they were all looking intently at the several hundred Array Flags in front of Lingkun. The aura each emitted was mystic and compelling, causing even these skilled cultivators to feel a hint of fear.

They were all somewhat excited at heart, but as high-level cultivators, they knew the time wasn't right yet, so they suppressed their inner excitement.

They had chosen to cooperate with Lingkun before because the Church of All Beings assured them they could restore the spiritual energy, allowing them to go back to their cultivation status.

Of course, the steps ahead were still risky, but compared to the potential to restore their cultivation, they were willing to gamble.

“Daoist Lingkun, since the Array Flags for the Big Array are ready, what exactly is this second plan you speak of? You and us swore a Heavenly Dao Oath that we would share the same fate. So, tell us directly what we have to do next.”

There is no such thing as a free lunch in this world. They had been cultivating for so long and had this insight, if there wasn't something that the Church of All Beings needed them to do, they wouldn't have gathered them all together at this time.

Most of the remaining neutral high-level cultivators in the city are now here, except for the occasional non-cooperative ones, like the mysterious Liang Sheng.

“Everyone, indeed, I have come to ask a favor of you. There used to be rumors in the Immortal City that the Zhen Yuan Dog Thief disappeared because of a plan by our Church of All Beings.

Now, I can tell you that these rumors are true, and the Longevity Immortal City is now under ban, the East Victory Immortal Dynasty has not yet reacted much to date, because the Zhen Yuan Dog Thief is still alive.

And because they are taking into account the life and death of the Zhen Yuan Dog Thief, they're in this present dilemma.

But thinking about it now, it was our Church of All Beings who failed to consider all aspects, leading to today's ban on the Heaven and Earth in the Immortal City.

Since it was our Church of All Beings who made the mistake, we will definitely not shirk our responsibility. Just like I promised everyone before, I will enable you to have an environment with spiritual energy again.

Now it's time for our Church of All Beings to deliver on our promise. And this time, I hope that everyone here will collaborate with us to activate the Big Array.

After we accomplish this, the Immortal City will certainly regain its spiritual energy. For this plan, we've paid a heavy price over the past many years, eliminating all the residual forces of the City Lord Mansion.

Each of you was originally a neutral cultivator, and I am very fortunate to have had the opportunity to work with you. I can swear now on the Heavenly Dao that once we succeed, each of you will regain your cultivation status.

Moreover, the conditions that we previously discussed with everyone will remain unchanged. After the spiritual energy is restored, you will receive a hundredfold return on your contributions.

If I break this oath, may my spirit be destroyed. Now I hope everyone will set aside past differences and help our Church of All Beings."

Upon hearing this, everyone felt their blood boiling. Over the past hundred years, they had almost brought out all their family's resources, because they believed in the Church of All Beings and were willing to gamble. They also swore the Heavenly Dao Oath, pledging to share the same fate from this point forward.

Anyway, there was no longer any spiritual energy in the Immortal City. At most, they could only last a few hundred more years, and in the end they would still face destruction. So, they might as well gamble.

"Good, we all trust you, Daoist Lingkun. So, what exactly do we have to do for the next part of the plan?" they asked.

At this moment, Lingkun didn't reply directly, "Everyone, please be patient. This still needs a little more time. These are the hand seals that each of you needs to master for your arrays.

Everyone should rest and recover first. Believe in me, believe in our Church of All Beings. We won't keep you waiting for too long."

Having already waited for a hundred years, they naturally wouldn't mind waiting a bit longer. So, under Lingkun's pacification, all of them started to practice the hand seals for their respective Arrays and restore their optimal states.

Seeing this, Lingkun felt relieved. He left and entered the secret chamber, where he secretly invoiced the several Late-stage Nascent Soul True Monarchs in the Church.

"Everyone, this is the Sect Order of our Church of All Beings. You bear the most important mission on your shoulders. You need to lead a group of elite disciples and retreat to the predetermined location at the edge of the Immortal City.

We do not know the outcome of this plan. You all are the Church of All Being's last seeds. Unless the best possible outcome occurs, do not show yourselves at any cost.

We can only hope that this plan runs smoothly, but no matter what, your role in this is pivotal. I'm sorry you have to shoulder such a burden."

"Leader Lingkun, don't worry. No matter what happens in the end, we believe that the victory will be ours. Also, don't worry. As long as we are here, the Church of All Beings will continue to exist. We pledge to protect it until our last breath."

"Go on then."

The several Late-stage Nascent Soul True Monarchs nodded, then went to the secret passage where there were already several hundred elite disciples of the Church of All Beings.

This was the final hope of the Church of All Beings in case anything went wrong with their plan. Feeling their departure, Lingkun calmed his mind down, took a long breath, and then, without any hesitation, went to the ruins of the City Lord Mansion and brought out the mountain stone from the backyard.

Chapter 492: The Last Dance of the Church of All Beings, Liang Sheng Plucks Chestnuts from the Fire

When everything was in place, and the neutral high-level cultivators had mastered their hand seals, they brought along the Church of All Beings' high-level cultivators and neutral cultivators to a place not far from Liang Sheng's residence.

After that, Lingkun began leading people with Array Flags to set up a big array centered around this location, spanning a hundred miles around.

Lingkun's heart was slightly stirred. No matter the outcome of this plan, whether it was successful or failed, the Church of All Beings would have no formidable cultivators left except for the previously reserved seed.

At this moment, Liang Sheng had naturally taken everything into his sight, but he was not in a hurry. Although his Seeking Fortune and Avoiding Evil strategy indicated some slight danger, in the end, it might be a sign of great fortune!

With this assurance, he was very calm. However, before the big battle, in case of any accidents, he secretly met with Jin Quanxiu and his group, asking them to take the Zhou Family members away immediately.

As for the destination of their relocation, Liang Sheng also made arrangements. It was not far from where the Church of All Beings' seeds were secretly hidden.

Liang Sheng even provided cover, so nobody noticed the low-key relocation of the Zhou Family a hundred miles away.

Afterwards, Liang Sheng stayed at his residence with Huang Yifan, calmly watching Lingkun's actions. At this moment, there were still some things he couldn't figure out in his heart.

He couldn't understand what the Church of All Beings was going to do next, but the anticipation of great fortune made him somewhat excited, especially when he saw the mountain stone Lingkun brought, which trapped Zhen Yuan and connected to the Spiritual Vein Branch Vein.

Thinking of the special aura he had sensed from Lingkun's array before, Liang Sheng couldn't help but feel a little expectant.

Once everything was ready, Lingkun didn't hesitate at all. He even specially distributed top-grade spirit stones to all the high-level cultivators so they could confidently control an Array Flag each.

All the Church members with Nascent Soul cultivation level and above, as well as the neutral cultivators who had taken the Heavenly Dao oath, felt reassured. Would the Church of All Beings let all their high-level cultivators die?

How could that be possible?

When all the preparations were completed, Lingkun stood at the center and confirmed that there were no issues, and without any hesitation, he activated the Array Flags with his hand seals.

At the same time, everyone else began pouring their spiritual power into their respective Array Flags, and in an instant, a giant light curtain centered around Lingkun appeared.

Liang Sheng couldn't help but squint at this moment, as he found himself subtly locked onto by Lingkun, who was still worried about him.

However, they had chosen the wrong person to worry about. Liang Sheng didn't feel any danger, but his eyes lit up when he saw the Mountain Stone in Lingkun's hands.

At this moment, the Immortal City was filled with fluctuating auras, and the aura from the Spiritual Vein Branch Vein within the Mountain Stone was leaking out. Kai Yuanzi from Outer Space couldn't help but change his expression.

He didn't expect the opportunity to come so suddenly. Remembering Ling Xiaozi's instructions, he had no hesitation and immediately spoke up.

"Fellow Daoist Feng Yuan, the opportunity has come, you can take advantage and enter the Immortal City now!"

As he spoke, Kai Yuanzi controlled the Sealing Array to create an opening for Feng Yuan, who quickly entered without hesitation.

At this moment, Lingkun, who was controlling the array, changed his expression and looked towards Outer Space, not expecting the other party to be so decisive. However, he wasn't overly nervous.

If that was the case, everyone, just come in! They were here to die anyway, and they had been prepared to make sacrifices. If one more high-level cultivator could be buried with them, he would be more than happy.

With that thought, Lingkun moved his hand seals, and the next moment, the Array Flag in his hand changed aura, and the light curtain surged once more.

Feng Yuan, who had just entered Longevity Immortal City, hadn't even had time to react before being enveloped by the Array Light Curtain, while Liang Sheng, who had been previously covered by the light curtain and had the foreboding feelings from his Seeking Fortune and Avoiding Evil strategy, saw a few vague scenes in Heaven's Secret Calculation. His eyes couldn't help but flash a brilliant light.

If this was the case, then he would snatch victory from the jaws of defeat!

Chapter 493: Liang Sheng only sought the spiritual vein opportunities, but accidentally killed Zhen Yuan with just one punch!

Longevity Immortal City.

As Lingkun began to activate the Big Array, the aura between heaven and earth in the Immortal City immediately surged, and everyone, regardless of their cultivation level, felt an extremely oppressive breath descending from the sky.

At this moment, those who were launching the Big Array with Lingkun also felt an increasing suction force in the Array Flags they were holding.

Their mana within their bodies, like a floodgate opening, was crazily pouring into the Array Flags, causing their hearts to be suddenly shocked.

However, they had been warned by Lingkun before that activating the Big Array would require a massive amount of energy, which was why they needed top-grade spirit stones to support them in lasting a little longer.

So, they thought that it was normal for a Big Array related to the recovery of the cultivation environment's spiritual energy to have such might, and they forced themselves to endure the anxiety, continuing to input their mana into the Array Flags, hoping that the Big Array could successfully form.

At least for now, they still had the supply of top-grade spirit stones, but looking around, it was clearly visible that those church members belonging to the Church of All Beings Sect could only grit their teeth and persist relying solely on their own cultivation level.

As their own side had already been given preferential treatment and they were now tied to the same rope as the Church of All Beings, they could only be careful and keep sending mana into the Array Flags.

Not far from the center of the array, Liang Sheng sensed that Jin Quanfeng had followed his instructions, taking the Zhou Family members away to safety, so he hesitated no more and directly put Huang Yifan into his Storage Ring.

No matter how one looked at it, Huang Yifan was essentially already dead, having turned into a puppet. In the current situation, he couldn't help but might even hold them back, so it was safest to put him away.

As Lingkun and the others spared no cost in accelerating the Array's formation, the atmosphere in the Immortal City became even stranger.

Those high-level cultivators cooperating with the Church of All Beings felt more and more exhausted, as the energy required by the Array Flags in their hands was too dreadful.

Even though they were Nascent Soul Masters and even Divinity Transformation Experts and had top-grade spirit stones to replenish their spiritual power, they were still finding it harder to hold on as time passed.

Subconsciously, they wanted to slow down the flow of their mana into the Array Flags, but by the time they tried to do so, they realized they couldn't stop at all, and their faces changed drastically.

Terrible.

However, by the time they realized this problem, it was already too late. The Array was now gradually taking shape, and they found themselves completely absorbed by the Array Flags, unable to break free.

“Lingkun!”

Someone immediately called out, hoping that Lingkun could control the Big Array and help them break free from the Array Flags. At this point, they still thought that the problem was due to the Array’s might being too great and Lingkun making a minor mistake in operating it.

After all, Lingkun had sworn an Heavenly Dao oath previously, and since not only they but also many members of the Church of All Beings holding the Array Flags were affected, they were not too worried.

However, after hearing their cries, Lingkun remained unmoved, only giving them a cold glance before continuing to calmly perform the hand seals and secret techniques for the Array.

Realizing that something was wrong, the cultivators began to panic as their mana was depleted. At this point, they finally understood that they had been completely fooled by Lingkun and the Church of All Beings.

“Lingkun, you had sworn by the Heavenly Dao before. How dare you do this?”

Trying to remind Lingkun of the Heavenly Dao oath, someone called out. However, Lingkun remained focused on setting up the Big Array, completely ignoring the plea.

Understanding the true situation, a cultivator shouted in alarm, realizing that they had been ensnared in Lingkun’s treacherous plot. They had only paid attention to the fact he had sworn with his life, and not taken it seriously.

“This is the Church of All Beings we’re talking about! These madmen never cared about their own lives, so it’s likely that they’ve been plotting against us from the very start!”

So ruthless?

Hearing those words, all the cooperating cultivators couldn't help but look at the Church of All Beings' high-level practitioners who were also controlling the Array Flags. They saw those practitioners had already become emaciated, resembling dried corpses.

This was a clear sign that all their blood and essence had been completely drained, yet they still wore smiles on their faces.

Crazy!

They were all insane in the Church of All Beings!

How could they have been so foolish to cooperate with them?

However, it was now too late for them. As the Big Array gradually took shape, they couldn't break free from the suction of the Array Flags, no matter how hard they tried, feeling an overwhelming sense of despair.

"Lingkun, you despicable villain, may you die a terrible death!"

"I curse your Church of All Beings to be eternally condemned, completely suppressed by the Immortal Dynasties, never to reincarnate for eternity!"

At this moment, the curses that the cultivators uttered were more venomous than the last, but their voices also grew weaker and weaker.

As they were gradually drained by the Array Flags, Lingkun sensed that the Big Array was about to solidify, and couldn't help but breathe a sigh of relief in his heart.

As for the cultivators holding Array Flags, whether they were the cooperating cultivators or the Church of All Beings practitioners, very few were still alive.

Nevertheless, Lingkun didn't have much emotional turmoil in his heart because all the sacrifices they made were meaningful.

Originally, this was the backup plan arranged by Xu Jintian of the Church of All Beings Sect secretly after dealing with Zhen Yuan.

If the Immortal City fell into turmoil, they would seize the chance to force the East Victory Immortal Dynasty into the most difficult position, leaving them no choice but to marginalize the Immortal City, allowing it to silently wait for an opportunity to rise again.

Chapter 494: Liang Sheng only sought the opportunity of the Spiritual Vein, but accidentally killed Zhen Yuan with just one punch!

Of course, after implementing this supplementary plan, besides the high-level cultivators of the Church of All Beings, there can't be any other great powers in the Immortal City.

This time Lingkun chose to set up a big array in this location to target Liang Sheng, who he couldn't see through, after the successful assembly of the array.

At this moment, he had already taken control of the city's field of view through the array, and naturally, he could see Liang Sheng, with the corners of his mouth slightly raised involuntarily.

My apologies to the Nameless Predecessor.

Previously, the Thousand Miles of Barren Land Visualization Divine Method was of great help to the strength of the Church of All Beings, but now, for the sake of peace in the Immortal City for the next ten million years, all high-level cultivators in the city must die, including the master of the Drought Visualization Divine Method!

As long as the higher beings are gone, the situation where everyone becomes like a dragon will become easier to achieve. Longevity Immortal City doesn't allow the existence of a powerful cultivator like Liang Sheng.

The Immortal City had already been sealed off by Kai Yuanzi's heaven-defying methods, but at this moment, as Lingkun set up the array, a unique aura appeared.

Liang Sheng squinted his eyes, feeling a familiar sensation, which was extremely similar to the mysterious aura produced by the practice of Primordial Mysterious Technique within his body.

Wilderness!

Before Liang Sheng could figure out what was going on, he saw Lingkun use the City Lord Mansion mountain stone, which was connected with the Mustard Seed Sumi technique, as a node, allowing the eerie wilderness-like aura of the array to gradually merge into it.

As for the aura that spread out afterward, Liang Sheng couldn't understand it even more, as it was the spiritual vein aura he had felt when he entered the Immortal Dynasty sub-vein before.

So, the desolate aura, the spiritual vein aura, plus the mysterious aura condensed by Xu Jintian's heaven-defying methods to seal Zhenyuan's Tribulation, were actually entangled together, causing some dissonant nodes to appear in the space of the Immortal City.

Liang Sheng finally understood why Lingkun was so confident that the Immortal City could restore its spiritual environment, and he didn't have to worry about the East Victory Immortal Dynasty's revenge. It turns out that he kidnapped the spiritual veins of the Immortal Dynasty together.

Good means!

It's just that too many people died. At this moment, except for a few high-level cultivators who were left behind to preserve the seed of the Church of All Beings, almost everyone else died.

But this was also a good thing for Liang Sheng. No wonder whether it was under the auspices of Seeking Fortune and Avoiding Evil, or in its extreme form, it was like this.

His safety was completely guaranteed. By the time the Immortal City was completely enveloped in chaotic aura, Lingkun also looked directly at Liang Sheng.

At this moment, within the Longevity Immortal City, there was no room for out-of-body great powers who were not under control. If it had been just Lingkun's array, it would not have affected the out-of-body great powers.

But who would have thought that this array was actually mixed with Xu Jintian's previous sealing techniques and Zhen Yuan City Lord's Tribulation as a medium, and the Immortal Dynasty's spiritual veins were the odd point, causing the Yin and Yang to converge, so even the out-of-body great powers might not be able to escape.

However, if it weren't for such means, how could Lingkun of the Church of All Beings dare to say that there would still be a clear cultivation environment in the Immortal City?

By the time Liang Sheng felt the suction force, he instinctively wanted to break free, but feeling the aura of the spiritual vein and the Spiritual Tide, combined with the auspicious ability to avoid evil, he immediately resisted the impulse and no longer resisted, letting it happen naturally and being absorbed into the Mustard Seed Sumi Mountain Stone.

Seeing this, Lingkun couldn't help but raise the corners of his mouth and then immediately strike while the iron was hot, using the mountain stone as the Yin-yang convergence point to start resisting Kai Yuanzi's sealing array from outer space.

Do you dare to take the Immortal Dynasty's spiritual veins as a bet?

Kai Yuanzi naturally didn't dare, so the sealing array that he had set up with the help of Lingxiaozi immediately showed loopholes.

However, this also allowed Feng Yuan to enter the Immortal City. Feng Yuan, having heard Kai Yuanzi's reminder, didn't hesitate and directly entered Longevity Immortal City in an instant.

Although Feng Yuan didn't know what would happen next, his master had instructed him to come here and listen to Kai Yuanzi's orders.

But after Feng Yuan entered the Immortal City, Kai Yuanzi's face changed, and he didn't know how to deal with the current situation in Longevity Immortal City.

Damn Church of All Beings, they really had a connection with the Seeking Truth lineage. The fact that the desolate aura had tainted the Immortal Dynasty's spiritual veins made him feel like he was between a rock and a hard place.

This was no longer just a matter of Zhenyuan's Tribulation; compared to the Immortal Dynasty's spiritual veins, everything else was trivial.

The Immortal Dynasty's spiritual veins must not be chaotic; this was the most fundamental requirement of the Immortal Dynasty. Moreover, looking at the chaotic aura in the Immortal City now, he felt a sense of unease in his heart.

The Church of All Beings' plan might not stop at this, and indeed, Lingkun was also caught off guard by what happened at this moment.

It turns out that Feng Yuan suddenly appeared from outer space, catching Lingkun off guard. Fortunately, Lingkun had always been focused and the Immortal Dynasty's spiritual veins were still connected to the outside world, so he absorbed Feng Yuan into the mountain stone in an instant.

However, now that things had reached this point, Lingkun no longer hesitated and rushed to continue his plan to restore the spiritual qi in the Immortal City in case of any accidents.

Burst!

In an instant, all the Array Flags arranged by the Church of All Beings in the Longevity Immortal City simultaneously emitted huge energy fluctuations.

Those cultivators who held the battle flags, whether they were practitioners of the Church of All Beings or collaborating high-level cultivators, were completely devoured by the flags.

Afterward, with the unique power combined with the mysterious aura of the spiritual vein and spiritual tide, it rushed straight up to the sky. Kai Yuanzi in outer space was startled, and then he hurriedly retreated.

However, the sealing array under his control was shattered at this moment. The first thing that came was the force mixed with the desolate aura and the spiritual tide of the spiritual veins, which directly broke through the sealing array.

Chapter 495: Liang Sheng only sought the opportunity of the Spiritual Vein, but accidentally killed Zhen Yuan with just one punch!

Within Longevity Immortal City, before the Immortal City cultivators could react, a gust of wind appeared within the city, and a dense spiritual energy suddenly erupted in every corner.

Originally shivering Immortal City cultivators were caught off guard by the sudden appearance of spiritual energy, which left them momentarily stupefied, followed by a chorus of joyous exclamations.

Kai Yuanzi from Outer Space had a dark expression, and at this moment the Sealing Array was shattered, but he dared not enter Longevity Immortal City at all.

Firstly, entering might expose them to the desolate aura, which would be absolutely unacceptable for Immortal Dynasty cultivators.

Secondly, it was because Lingkun was cunning and managed to form a barrier by combining the aura of spiritual vein spirit tide, wilderness, and fate calamity in outer space.

In simple terms, Longevity Immortal City had now taken the Immortal Dynasty's spiritual vein hostage, so how could Kai Yuanzi take action without absolute confidence?

However, the cultivators inside the immortal city were already overjoyed and didn't care much, as long as there was spiritual energy appearing.

A terrible disgrace.

Kai Yuanzi was filled with grief and indignation, and also worried about Zhen Yuan and Feng Yuan's safety; he didn't hesitate any longer and directly informed Ling Xiaozi in the East Victory Immortal Dynasty Capital City of the current situation.

After Ling Xiaozi read the communication, he calculated and his face darkened

– they really couldn't act recklessly with Longevity Immortal City at the moment.

Because doing so now would trigger a disturbance in the Immortal Dynasty's luck, unless they stripped the spiritual vein branch vein, but stripping the spiritual vein was not something that could be done in an instant.

Previously, Chunyangzi hadn't left and had been waiting for news from his disciple Feng Yuan, so at this moment Ling Xiaozi didn't hide anything and directly relayed the content of the communication to him.

By now, Feng Yuan had already entered Longevity Immortal City, and Chunyangzi couldn't help but look upset; how could they be so unlucky?

However, given the current situation, they could only wait and see and wait for the final result; they could only say that the Church of All Beings had calculated well, taking the spiritual veins as a hostage, making them too hesitant to act rashly for the time being.

Wait a bit longer and see.

Spiritual vein branch vein.

Liang Sheng couldn't help but feel overwhelmed with emotions, never expecting that he would have the chance to enter the spiritual vein branch vein again.

Glancing at the somewhat familiar scene before him, Liang Sheng didn't linger and looked directly at the spiritual vein.

Above it, there was an extra light screen containing City Master Zhen Yuan, who was in a deep sleep and motionless, unaware of what was happening around him.

Besides that, there was nothing different from the spiritual vein branch vein before; of course, the aura on the light screen that confined Zhen Yuan was profound and mysterious.

As for Xu Jintian, the Left and Right Envoys, they had long vanished, and just at that moment, Liang Sheng's expression changed, and without any hesitation, he directly entered the spiritual vein.

Whether or not Zhen Yuan still had his own consciousness at this moment, it was actually no longer important for Liang Sheng, because obtaining the Heaven and Earth Spine was the only goal for Liang Sheng at this moment.

Liang Sheng did not pay attention to City Master Zhen Yuan for a simple reason: at this moment, City Master Zhen Yuan was no longer a match for Liang Sheng.

If something unexpected happened, he would just directly explode and kill the other party with a single punch; not to mention, there were natural scapegoats outside.

As long as he concealed his aura, he would probably end up blaming everything on the Church of All Beings and not have to worry about anything.

At this moment, Lingkun had a serious expression on his face because Feng Yuan's sudden appearance had disrupted his plans.

It seemed that he needed to quickly draw on the city's earth veins before entering the spiritual vein, ensuring that no other unforeseen events occurred, so the sooner the better.

With this in mind, Lingkun sat cross-legged, starting to connect the aura of the earth veins with the big array, and the mountain stone within the Mustard Seed Sumi emanated an obscure and mysterious aura.

Inside the mountain stone.

As soon as Feng Yuan entered, he saw City Master Zhen Yuan who had been sealed at a great price by Xu Jintian on top of the spiritual vein, and the looming aura of fate calamity surrounding him, his face changed.

At this time, he recalled the look in his master Chunyangzi's eyes when he left Lingge and suddenly had a moment of enlightenment.

Perhaps his Master also wanted him to pass the Fate Calamity as soon as possible; if so, Feng Yuan's eyes flashed with determination, and he already had a plan in mind.

Of course, the weakest Human Tribulation would be the best for Fate Calamity!

Chapter 496: Feng Yuan falls into a difficult situation. Liang Sheng accidentally reveals himself and kills Zhen Yuan!

Longevity Immortal City.

Inside the Mountain Stone Sumeru Mustard Seed.

Spiritual Vein Branch Vein.

This time, Liang Sheng directly sank into the spiritual vein, with an experience almost the same as last time. After operating the Primordial Mysterious Technique, the Heaven and Earth Spine instantly filled his Upper, Middle, and Lower Dantian.

But this time, he was not kicked out of the spiritual vein because Lingkun in the outside world had activated the Heaven Defying Array, forcibly connecting the sub-vein of the Immortal Dynasty Spiritual Veins with the earth veins of the Immortal City.

This also led to the fact that although the spiritual vein branch vein had a reaction at this moment, it was unable to bounce Liang Sheng out. Liang Sheng immediately guessed the approximate reason and his eyes couldn't help but brighten.

Since this was the case, it was a heaven-sent opportunity. How could he miss it? One must know that he was not only able to store Heaven and Earth Spine in his Upper, Middle, and Lower Dantian.

His entire body, whether it be meridians or bone marrow, can store the Heaven and Earth Spine. So he directly sank deeper into the spiritual vein, touching the bottom, and wholeheartedly absorbed the Heaven and Earth Spine.

This might be the only opportunity in his life to absorb Heaven and Earth Spine so recklessly.

At the same time, Feng Yuan had also entered the spiritual vein branch vein and arrived at the place where Zhen Yuan was sealed. As he watched the means used by Xu Jintian to suppress Zhen Yuan with the Fate Calamity of the City Lord of Zhen Yuan City as a medium using the spiritual veins, he was more and more amazed.

The person who made the move was so ingenious in his planning that it was breathtaking.

Fate Calamity...

Feng Yuan couldn't help but feel troubled in his heart. Only those who have passed the Fate Calamity in the Soul Emergence Great Ability can be considered as having achieved in cultivation.

Only in this way can there be a real chance to seek immortality and ask for guidance, because once the Fate Calamity has passed, even if a cultivator's lifespan is exhausted, and there is no more breakthrough opportunity, they can still use special means to reincarnate and resume cultivation.

They could even spend some special costs, store their cultivation level in this life, and slowly release it in the next life. Of course, how much can be absorbed and transformed in the next life depends on their fortune.

Therefore, cultivators who have passed the Fate Calamity are also called those who have obtained the Immortal Fate Dao Fruit, having another chance on the path of cultivation.

That's why Kaiyuan Child has been more respected over the years, despite having fewer opportunities than Feng Yuan.

Because he had an extra life's opportunity to cultivate compared to Feng Yuan, the difference between a Soul Emergence Great Ability going through the Fate Calamity or not was like heaven and earth.

Zhen Yuan was now sealed, and the aura of the tribulation seemed to be surrounding him. Moreover, his cultivation level was only in the initial stage of Soul Emergence, far inferior to Feng Yuan, but at this moment, Feng Yuan actually felt some envy.

Because the higher the cultivation level, the more difficult it is to pass the Fate Calamity. Previously, after the Spiritual Vein Spirit Tide Grand Competition, if he closed-door cultivated, he would definitely be able to break through and step up his cultivation realm.

However, he didn't dare, and he was advised by Pure Yang to wait a little longer. Otherwise, once he makes a breakthrough to the late Soul Emergence Stage, it would be life-threatening when passing the Fate Calamity.

If that is the case...

Thinking about this, Feng Yuan's gaze became resolute, and he closely stared at the way the spirit element flowed on the array that trapped Zhen Yuan.

Now he still had a chance. Generally, those who pass the Fate Calamity would not seek help from outsiders. First, it is possible that the existence of external forces would make the Fate Calamity far more dangerous.

Second, having someone help would cause them to be contaminated with the tribulation aura, which would harm themselves and not benefit others. That's why people say that Fate Calamity should not be aided.

However, Feng Yuan's current situation was that he wished the sooner his Fate Calamity arrived, the better. Perhaps Zhen Yuan also hoped that someone would help him escape the danger of sealing.

So Feng Yuan concentrated on watching Zhen Yuan, trying to catch the gap in the array and achieve his goal.

But as time passed, Feng Yuan couldn't help but feel helpless, because he could not find any flaws in this confinement, and he had no way to start.

At this moment, the aura in the spiritual vein branch vein suddenly fluctuated, as if the spiritual vein was seething with anger.

What's going on?

Before Feng Yuan could react, his eyes immediately lit up.

Hmm?

How could he be so lucky?

It turned out that Xu Jintian's arrangement of such a heaven-defying sealing method was to utilize the spiritual veins, which was supposed to be flawless. However, there was now a thief lurking beneath the spiritual veins, madly stealing Heaven and Earth Spine.

Such an incident had never happened since the establishment of the Immortal Dynasty. How could Xu Jintian have expected that there would be a freak like Liang Sheng who could devour the Heaven and Earth Spine of the spiritual vein without limit?

As a result, under this coincidence, Feng Yuan finally found an opportunity and caught the loophole in Xu Jintian's arrangement.

Afterward, Feng Yuan didn't waste any time and directly made a move. The moment the gap in the sealing appeared, he quickly entered the Sealing Light Curtain where Zhen Yuan was trapped.

Feng Yuan completed the body-switching maneuver in less than a breath after entering the seal, and pushed City Lord Zhen Yuan out.

And after Zhen Yuan City Lord was freed from the seal, the whole sealing array, which was originally mediated by his tribulation aura, suddenly backlashed with the change in aura.

At this moment, Feng Yuan was the only one left in the sealed space, so all the accumulated auras surged towards him.

Feng Yuan saw this and not only was he not frightened, but rather delighted, as this was Zhen Yuan's previous aura of tribulation.

He wasn't sure if his plan had gone smoothly, but he hoped that Zhen Yuan's tribulation aura could provoke his Fate Calamity.

It would be best if it were a human tribulation.

Because for the Heaven and Earth calamities, even he had little confidence. However, he didn't think too long, as the tribulation aura gradually became more intense, his whole person became increasingly hazy, and then he directly fell into a deep sleep.

As for Zhen Yuan, who had been thrown out and successfully escaped the seal, as the seal on his body was removed, his consciousness gradually returned.

After a while, he suddenly opened his eyes and woke up. But at this moment, his memory was still at the moment when Xu Jintian sealed him, so when he opened his eyes, he was furious.

Chapter 497: Feng Yuan falls into a difficult situation. Liang Sheng accidentally reveals himself and kills Zhen Yuan!

So before he could see his own situation clearly, he let out an angry roar directly.

"Church of All Beings, how dare you deceive me!?"

Who would have thought that the most trusted servant by his side would actually be someone from the Church of All Beings, and that he would be schemed by them? It was simply a great disgrace.

However, is this the Human Tribulation?

City Lord Zhen Yuan could not help but shudder as he thought of this. He knew that Xu Jintian had followed him for nearly ten thousand years. He couldn't even see the problem with the other party, which could only be said to be a prearranged arrangement for the Human Tribulation.

At this moment, the Tribulation erupted in an instant, and he could not escape it at all.

At this time, City Lord Zhen Yuan gradually regained his calm. He recalled that he seemed to have been pushed out by someone earlier. Thinking of this, his eyes changed involuntarily.

Someone just intervened in his Fate Calamity, wouldn't that double it? Didn't the other party fear death?

Thinking of this, he looked up at the place where he had been sealed by the light curtain earlier, and immediately found the unconscious Feng Yuan, somewhat surprised.

How could it be him?

City Lord Zhen Yuan never thought it would be Feng Yuan who saved him, knowing that his Master Ling Xiaozi and Chunyangzi were not easy to deal with. Why would Feng Yuan do such a crazy thing?

Did the other party want to cross the Destiny Tribulation as soon as possible? What kind of weird preference is this?

Zhen Yuan couldn't figure it out, but all he could think of now was to get out of the Spiritual Vein as soon as possible, see the specific situation of Immortal City, and seek help from Ling Xiaozi, discussing how to survive his Destiny Tribulation at this moment.

His Tribulation Aura hasn't disappeared yet, so he's still worried about what terrifying experiences he might have next.

This is the Fate Calamity!

Moreover, Feng Yuan's intervention this time, though it allowed him to break free from the sealing, the next Destiny Tribulation would definitely be more dangerous, and naturally, it would be better to be prepared early.

But just as he was about to leave the Spiritual Vein, Lingkun's face changed drastically outside the Mountain Stone Sumeru Mustard Seed.

Because of the methods Xu Jintian had set up, he had already taken control, otherwise how could he possibly connect the Spiritual Vein with Immortal City and break through Kaiyuan Child's sealing method?

But now the aura of the sealed Zhen Yuan City Master inside the Spiritual Vein had changed drastically, and he immediately knew that the method of sealing Zhen Yuan might have encountered an accident.

Immediately, he had no time to continue controlling the Big Array and completely stripped off all the sealing methods arranged by Kaiyuan Child, preparing to enter the Spiritual Vein directly.

It was better to deal with the Zhen Yuan Dog Thief first, who was the most important target for Immortal City to strike at, and moreover, since the foundation of the Sealing Array set up by Kaiyuan Child had been destroyed, the other party would have to consider whether the leakage of the Spiritual Vein would become more serious if they wanted to re-seal the array.

Now that he had opened a gap, he could either let Spiritual Energy from Outer Space pour in, or Kaiyuan Child could do nothing at all, or sacrifice the Immortal Dynasty's Spiritual Veins and supplement Immortal City.

Kaiyuan Child might not dare to damage the Spiritual Vein, because only the Immortal Dynasty had the right to dispose of it. With this thought, Lingkun had no more hesitation.

Before leaving, he glanced in a certain direction where the seeds of the Church of All Beings still existed. His current duty was to ensure that there were no more “Higher Beings” in Immortal City.

Zhen Yuan had to die!

After that, they saw Lingkun’s hand seal change, and the whole person immediately entered the Spiritual Vein. As soon as he entered the Spiritual Vein, he immediately came face to face with Zhen Yuan.

As the two looked at each other, Lingkun couldn’t help but feel annoyed. The Zhen Yuan Dog Thief had actually woken up, and Liang Sheng, who had been sent in earlier, had disappeared without a trace.

As for the Feng Yuan he didn’t recognize, he was now unconscious in the sealing in place of Zhen Yuan City Master. But in an instant, Lingkun had a rough guess about what had just happened.

That mysterious out-of-body great power, Liang Sheng, should be dead by now, and the mysterious person in the seal should have saved the Zhen Yuan Dog Thief at the expense of himself.

Things were really bad right now, but fortunately, everything was still under control, because now all he needed to do was to deal with the Zhen Yuan Dog Thief.

So in the nick of time, Lingkun didn’t have time to think and directly used the might of the Heaven and Earth Sealing Array to kill City Lord Zhen Yuan.

This was the best opportunity to get rid of Zhen Yuan. As the saying goes, “time is of the essence.” The entire Realm was instantaneously brought to Zhen Yuan’s location with the Main Array Flag.

Self-destruction!

However, although Zhen Yuan had just woken up, he had already faced this situation several times before. The people from the Church of All Beings were all fucking crazy.

So at the first moment of Lingkun's attack, he immediately responded subconsciously, but at the first moment, his face changed drastically, knowing that he might not be able to hold on.

Indeed, he was thrown out by the explosion's power, but the subconscious defense just now had bought him some time to save himself.

Lingkun used the Spiritual Veins to hold the entire Immortal City hostage, so he could take down an out-of-body great power with him, but Zhen Yuan was different from other out-of-body great powers.

Because he was the Lord of Longevity Immortal City!

Although the Church of All Beings had controlled Immortal City for hundreds of years, the true master of Immortal City's destiny was still Zhen Yuan.

Earth Veins!

Spiritual Veins!

Wilderness!

Fate Calamity!

The major components of Lingkun's arrangement against the heavens were these four. Three-quarters of them were related to Zhen Yuan.

So at the moment of death and destruction, he had a flash of insight, and with his last breath, he used his great mana to mobilize his Immortal City Lord's destiny and then control the branch of Spiritual Vein.

It was seen that, just like the torrential flood of the Yellow River, the Spiritual Vein instantly turned into a celestial river, which actually blocked Lingkun's self-destruction power.

Luckily, Lingkun was already completely dead after the self-destruction, so he didn't see Zhen Yuan City Master miraculously counteract a large part of the self-destruction power.

Chapter 498: Feng Yuan falls into a difficult situation. Liang Sheng accidentally reveals himself and kills Zhen Yuan!

At this moment, although the City Lord Zhen Yuan was blocking most of the attacks with the spiritual vein, he was still impacted by the remaining power of the self-destruction and fell directly into the spiritual vein.

At this time, Zhen Yuan's whole body was bleeding from his orifices, and his appearance was terrifying to the extreme. As for his internal organs and his sea of consciousness, they were all severely damaged.

But at least he managed to survive. He even felt that the aura of human tribulation he was experiencing had now mostly vanished.

A blessing in disguise!

Zhen Yuan City Lord couldn't help but howl and laugh, echoing throughout the entire spiritual vein space. Who could have thought that, by a stroke of luck, he would have survived his greatest crisis.

At this time, there wasn't much tribulation aura left on his body. He guessed there might still be remnants of the Church of All Beings left within the Immortal City, so he couldn't afford to let his guard down.

However, as long as he could recover from his injuries, everything would be fine. But in the next moment, he felt as if someone was choking his throat, and his laughter abruptly stopped.

Because a figure appeared before him. Seeing this person, City Lord Zhen Yuan was utterly baffled.

How could there be someone else under the sub-vein of Longevity Immortal City's spiritual veins? What's going on? How come he didn't sense anything?

At this moment, Liang Sheng was also feeling helpless, as City Lord Zhen Yuan's sudden plummet into the spiritual vein had placed him right in front of himself.

Because this accident happened so suddenly, and Liang Sheng was absorbing the Heaven and Earth Spine just before it, he didn't react in time.

At this time, the two stared at each other, and it was City Lord Zhen Yuan who instinctively spoke first, "Who are you? How dare you enter the spiritual vein of my Immortal City?"

At this moment, an idea flashed across Liang Sheng's mind. He had been coveting Zhen Yuan City Lord's Mustard Seed Mastery, and now wasn't it right in front of him?

With this thought, Liang Sheng did not hesitate any longer and immediately took action. Zhen Yuan, who was unable to fight on an equal level as Liang Sheng, was not his opponent.

Moreover, since he was already severely injured, City Lord Zhen Yuan didn't even have time to resist before being suppressed by Liang Sheng.

In the face of absolute power, no amount of techniques would work; there was no time to react. This was the cruel battle between the greatest cultivators!

The strong always prevail!

A thought suddenly flashed through the City Lord Zhen Yuan's mind: how could there be such a powerful existence in Longevity Immortal City? Who on earth was this person?

At this moment, the tribulation aura on his body erupted completely. He couldn't help but think that perhaps this was the real human tribulation!

After that, his consciousness sank into boundless darkness.

After suppressing Zhen Yuan City Lord, Liang Sheng didn't immediately kill him. Instead, he found the location of the Primordial Spirit body of the Soul Emergence power, ensuring there were no chances for counterattacks.

A Soul Emergence power indeed had a second Primordial Spirit body!

Thanks to the collection of the City Lord Mansion, Liang Sheng was extremely familiar with it, allowing him to prevent any flaws in his own moves.

After thoroughly suppressing City Lord Zhen Yuan, the next steps were familiar to Liang Sheng.

Soul Control Technique!

Soul Search.

Following that, a huge amount of memories rushed into Liang Sheng's sea of consciousness instantly, but his sea of consciousness was vast and boundless. As the memories of City Lord Zhen Yuan flooded in, the stars in the sky of his sea of consciousness shone brilliantly.

Liang Sheng barely showed any unusual reactions, and fully absorbed all of Zhen Yuan City Lord's memories. Liang Sheng had long coveted the Mustard Seed Mastery, and now it was finally within his grasp!

In Liang Sheng's memory, it felt like ages had passed, but in fact, it was only an instant. The next moment, Liang Sheng regained consciousness.

Without any hesitation, his power erupted, and City Lord Zhen Yuan died instantly. No one knew that a Soul Emergence cultivator would die so miserably.

Afterwards, without even glancing at the sealed Feng Yuan, Liang Sheng hid his own aura. In addition, due to Lingkun's self-destruction, Liang Sheng's presence had not been detected at all at this time.

After confirming that there were no errors, his figure changed, and he disappeared into the spiritual vein only to appear in the Immortal City, then disappeared again without a trace.

The Heaven and Earth Spine within him made him feel a little swollen and uncomfortable. So, it was time to go into seclusion for cultivation.

It's time for another breakthrough.

East Victory Immortal Dynasty.

Sitting on his cushion, Ling Xiaozi's face suddenly changed. In his hand appeared the Life Token of City Lord Zhen Yuan.

Crack!

It broke!

Chapter 499: Breakthrough Soul Emergence Realm, 90,000 Life-spans Primordial Divine Power – Law of Cause and Effect!

East Victory Immortal Dynasty.

The capital city, Lingge.

At this moment, Ling Xiaozi was silent, even Chunyangzi next to him didn't know how to comfort him. For them, at their level of cultivation, every disciple who can still stay by their side means a lot.

Especially those disciples who have reached the Soul Emergence Realm, each one has been with them for at least ten thousand years, so the depth of their connection needs no explanation.

At this moment, Chunyangzi was even somewhat relieved, thankfully his disciple Fengyuan did not encounter any disaster on his journey.

The mood was somewhat tense now. Ling Xiaozi settled his heart after a while, but he could not help but sigh.

The Fate Calamity, even the smallest Human Tribulation, had led to the fall of Zhen Yuan. The Seeking Truth Lineage of the Church of All Beings now naturally had another act of bloody debt.

The Seeking Truth Lineage, which was already rejected by Heaven and Earth, why does it still appear like a clown from time to time and make people disgusted?

They should be dead!

But this is related to historical issues. Even Ling Xiaozi was not very clear about the truth of the ancient times, he could only sigh helplessly.

“Daoist Friend Ling Xiaozi, calm your anger. Since this has happened, we should discuss how to proceed next. We must not act rashly. After all, the Longevity Immortal City is connected to the Immortal Dynasty’s Luck and Spiritual Veins, so it’s not a good idea to take direct force.”

At this time, Chunyangzi naturally advised Ling Xiaozi in terms of the overall situation, let alone his disciple is still in Immortal City.

Speaking bluntly, the one who died now is only City Lord Zhen Yuan, which has nothing to do with him, Chunyangzi.

Upon hearing this, Ling Xiaozi took a deep breath, nodded, indicating that he would not act on impulse.

However, when he looked towards the Longevity Immortal City, his face was still sullen. Chunyangzi felt some apprehension and continued to dissuade him.

“Daoist Friend Lingxiao, no matter what, my disciple Feng Yuan voluntarily entered the tribulation this time. Regardless of the results, he was entrusted with the cause and effect of your Zhen Yuan.

I just wonder if the final results of this trip are successful. If my unworthy disciple gains something from it, I will definitely pay a sufficient bargain as compensation and will not disappoint you.”

Ling Xiaozi shook his head directly at Chunyangzi after hearing this, indicating that he didn’t care. This matter had nothing to do with Feng Yuan. As for Chunyangzi’s uncertain promise, he remained unmoved. In their eyes, it was absolutely worthless.

“Daoist Friend Chunyang, don’t worry, I won’t do anything rashly. Nevertheless, I still hope that you will join me in petitioning the Immortal Dynasty to sever the spiritual vein tributaries of the Longevity Immortal City.

In this way, we can go to the Longevity Immortal City to see what exactly happened at that time.

As for the rebel Church of All Beings, as long as the Immortal City cuts off the connection to the spiritual veins, won’t they be at our disposal by then?”

At this moment, Chunyangzi naturally would not refuse. After all, if he wanted to completely sever the tributaries of the spiritual veins and properly manage the Luck of the Immortal Dynasty, this process would take hundreds of years.

By that time, regardless of the outcome, the fate of his disciples Feng Yuan had already been sealed, and whether the Immortal Dynasty’s spiritual veins were connected or not would not have much impact.

So why wouldn’t he cooperate? Therefore, Ling Xiaozi and Chunyangzi disappeared from the Great Hall the next moment and went directly to the Immortal Dynasty to ask for orders.

Kaiyuan Child, who was far outside the Immortal City, had no idea about the fall of Zhen Yuan, but he soon received the order from Ling Xiaozi to recall Lingge.

The reason for Ling Xiaozi's consideration was simple. Since Zhen Yuan had fallen, there was no meaning in Kaiyuanzi staying there.

Ling Xiaozi was actually afraid that Kaiyuanzi, in his agitation, would take unilateral action. So, in the following days, the Longevity Immortal City became extremely peaceful.

The seeds of the Church of All Beings that had been hidden, because Lingkun couldn't give instructions in time and entered the Intermediate Eruption Veins, naturally did not dare to come out and continue to hide and hibernate.

And the Zhou family, who were hiding not far away, though they didn't have a hint of the upcoming disaster, decided to listen to Jin Quanxiu's advice and stay hidden for the time being, safety first.

As for the situation in the whole Immortal City, even if someone wanted to take the opportunity to cause chaos, they would not have a reason to do so, because the resources of the Immortal City had been disposed of by the Church of All Beings.

The Immortal City is now empty. Initially, there was some chaos. After all, the sudden disappearance of the Church of All Beings would cause some people to take risks to get benefits.

However, after a period of chaos, they didn't get anything. Moreover, at this time, the Immortal City resumed the circulation of spiritual energy. Although it wasn't as rich as before, at least there was hope, so gradually, no one caused any more trouble.

It would be better to seize the time and cultivate all kinds of cultivational resources while the Spiritual Energy is reviving.

So, all cultivators began to occupy their own territories with an unspoken agreement. They planted their spiritual fields. For a while, the Longevity Immortal City was in a situation of prosperity.

While the Immortal City was gradually calming down, no one knew that Liang Sheng had appeared in the Yaoxiang Pavilion deep under the ground.

After many years of Liang Sheng's maintenance, there was no place safer than here in the Longevity Immortal City.

Even so, Liang Sheng was still careful. After inspecting and confirming there were no loopholes, he sat down on the cushion and immersed himself in cultivation.

At this moment, every crevice in his body was filled with the Spine of Heaven and Earth. If it weren't for his strong mental control, he would have been unable to resist the hit by the Spine of Heaven and Earth and started to operate his cultivation method, the Primordial Mysterious Technique, to refine them.

Boom!

The Spine of Heaven and Earth inside him was instantly released without restraint, like a volcano erupting. The Primordial Mysterious Technique immediately started to operate wildly, like a greedy beast, cruelly devouring the power of the Spine of Heaven and Earth.

Chapter 500: Breakthrough Soul Emergence Realm, 90,000 Life-spans Primordial Divine Power – Law of Cause and Effect!

For hundreds of years, Liang Sheng's cultivation progress had been quiet and uneventful. However, at this moment, it was undergoing a rapid transformation thanks to the Heaven and Earth Spine.

Completely engrossed in controlling the power within his body, he tried his best to let his cultivation burst forth without making a sound, quietly advancing.

However, as the Primordial Mysterious Technique circulated in his Zhou Tian faster and faster, even though he had the Talent of Innocent Foolishness that slowed his cultivation, under the premise of no bottleneck in his practice, the Heaven and Earth Spine's transformation was crazy.

His cultivation realm was constantly and steadily advancing, time passed in his cultivation, and Liang Sheng did not care about any changes in the outside world.

When there was no trace of the Heaven and Earth Spine left in his body's veins and bone marrow, his realm had successfully broken through, equivalent to the Divinity Transformation Late Stage.

But his cultivation progress did not stop. The Heaven and Earth Spine stored in his upper, middle, and lower Dantians was still being absorbed and transformed by the Primordial Mysterious Technique.

As the power within his body grew stronger and stronger, the stars in Zhou Tian within his sea of consciousness became even more dazzling.

It was as if he could see the stars in the sky even during the day. His physical acupoints and the stars in Zhou Tian within his sea of consciousness reflected each other.

At this moment, every acupoint was exuberant with life, cheering for joy. As time passed, the stars in his sea of consciousness's Zhou Tian seemed to gradually condense into a galaxy.

Then they condensed into the heavens and the earth, as if thousands of galaxies exploded, and then shrank dramatically to become a singularity.

It seemed like an ordinary small ball, but at this moment, it contained countless stars. The Grand Solar Golden Crow, as if attracted by something, landed on the singularity with its three feet.

Boom!

There was another earth-shattering sound. At this moment, Liang Sheng's physical body's Zhou Tian acupoints were even more resplendent with golden light, and the consumption of the Heaven and Earth Spine inside his body became even swifter.

Liang Sheng's inner power was seen gathering in all of his acupoints, and then his entire physical body gradually united as one, leaving no acupoints behind.

This was the real Primordial Unity — his physical body and Primordial Spirit were now completely integrated, uniformly progressing with only one channel connecting his sea of consciousness to his body.

At this moment, the divine sense in the center of his brow seemed to no longer be an illusion, but actually a tangible existence within his body, containing a terrifying power within.

If Liang Sheng didn't control it and unleashed it with all his might at this moment, the entire Immortal City would cease to exist in an instant, and the aftermath would even extend further.

However, this power was bound and condensed by Liang Sheng's Primordial Unity body, divine sense, and sea of consciousness. At this moment, Liang Sheng suddenly had a sense of enlightenment.

The body is the earth, the Primordial Spirit is the heavens, and gathering the heaven and earth into one is the ultimate realm of Refining Spirit from Qi.

Qi as the divine sense.

This was the manifestation of ancient techniques. Just like when he was at the Nascent Soul Realm, his physical body and Primordial Spirit were together, completely different from the modern cultivation methods.

Suddenly, Liang Sheng had a sense of realization. Perhaps the Soul Emergence Realm of modern cultivation methods was actually a shortcut that simplified the last step of Qi Refining and Spirit Transformation.

The modern cultivation methods allowed only the Primordial Spirit to emerge from the body by connecting the body's acupoints with the sea of consciousness, thus achieving unity and reaching the initial stage of the Soul Emergence Realm.

But since it's a shortcut, there must be defects, and this is the origin of the Fate Calamity faced by cultivators in the Soul Emergence Realm.

The acupoint channel can only allow his Primordial Spirit to enter his sea of consciousness, but cannot successfully connect the body and the heart spirit, which is the cause and effect that needs the Fate Calamity to complete.

After a cultivator passes the Fate Calamity, the Primordial Spirit can freely enter and exit the body, and this is the key to the so-called reincarnation and cultivation of the Fate Calamity survivor.

So that's how it is.

Liang Sheng had gained insight into the concept of Fate Calamity, but he was not affected by it under the ancient techniques.

At this moment, his Primordial Spirit and physical body had already achieved unity. The physical body's acupoints merged with the stars of Zhou Tian in the singularity, and they had already become a combination of virtual and real, merging into one, achieving the true One Qi.

Ancient techniques truly used Heaven and Earth as a furnace to forge oneself. Cultivation's inhalation and exhalation were more like a connecting Qi between heaven and earth.

This was the true Soul Emergence Realm, without any fear of Fate Calamity!

However, between Heaven and Earth, under ancient techniques, cultivators are completely supported. This is the fundamental difference between ancient techniques and modern techniques.

This had already become two completely different paths. No wonder the so-called World Rejection has happened, but Liang Sheng still had some doubts. Even if the ancient techniques were to blame, there was no need for the Great Heavenly Change and the complete abandonment of ancient techniques. What happened back then?

After ancient times, the person who proposed the modern cultivation methods was simply a peerless genius. Without the Talent of Innocent Foolishness, Liang Sheng would not be able to practice these ancient techniques.

After all, the essence of ancient techniques, which used Heaven and Earth as the melting pot for cultivation, had been rejected by Heaven and Earth. How could ordinary people possibly succeed?

In the next moment, Liang Sheng no longer thought about these things. Anyway, at this moment, he had already reached the final stage of Refining Spirit from Qi.

The final stage of Refining Spirit from Qi is equivalent to the Soul Emergence Realm in modern practice methods, and there is no so-called Fate Calamity to worry about.

Liang Sheng couldn't help but smile. The Fate Calamity was just the price modern cultivators had to pay for taking shortcuts; what did it have to do with him?

In the next moment, the only channel connecting his sea of consciousness to his physical body was completely connected, and he was faintly resonating with them.

Then, as his spirit floated, he felt as if his entire consciousness had descended upon these ancient stars and looked down upon the entire Heaven and Earth.

However, in the next moment, Liang Sheng withdrew his spiritual sense and dared not to do anything recklessly, because just in that moment, he didn't know how many terrifying powerful cultivators had looked up at the starry sky.
