

Bottleneck 501

Chapter 501: Breakthrough Soul Emergence Realm, 90,000 Life-spans Primordial Divine Power – Law of Cause and Effect!

In an instant, they perceived the anomalies in the heavenly stars, probing the abnormalities in the world with their immense divine senses.

Fortunately, Liang Sheng promptly regained his senses, disengaging from the state of sensing the Heaven and Earth just in time, narrowly avoiding the crisis of being discovered by these powerful beings.

From now on, he must learn his lesson and never be so conspicuous again. At most, he should quietly respond to a single star to probe the Heaven and Earth.

So, this was the origin of the saying that true cultivation achievements only come with real practice. Without reaching the Soul Emergence Realm, one would be a complete novice, unable to cultivate.

After entering the Soul Emergence Realm, Liang Sheng didn't know about others, but he could sense the Heaven and Earth, treating the Heaven and Earth as countless acupoints and slowly increasing his own strength.

All the stars in the sky were within his reach.

What a thrill.

After breaking through, Liang Sheng subconsciously changed his techniques, fully operating the Ascending Immortality Scripture within his body.

This time, he didn't waste much time either. He directly broke through two layers of the Ascending Immortality Scripture, simulating the aura of the Soul Emergence Realm under the modern cultivation method without any issue.

And at this moment, his Attribute Panel had changed once again.

Name: Liang Sheng

Age: 1687

Talent: Innocent Foolishness (Top-grade)

Techniques: Primordial Mysterious Technique (Fourth Layer), Leaving Dust Facing Scripture (Twenty-First Layer), Twenty Health Maintenance Techniques (Twenty-Sixth Layer), Nail-Head Seven Arrows Technique (Curse), Grand Solar Golden Crow Contemplation Method (Divine Ability)

Realm: Qi Refining to Divinity Transformation (Initial stage of Soul Emergence)

Lifespan: 91039

By breaking through the Soul Emergence Realm, he added twenty thousand years to his life, and for the first time, his lifespan surpassed ninety thousand years. His previous speculation had also come true.

After breaking through ninety thousand years of life, his innate divine ability had changed!

At thirty thousand years, Seeking Fortune and Avoiding Evil; at sixty thousand years, Heaven's Secret Calculation; at ninety thousand years, it was the Law of Cause and Effect. The abilities of Seeking Fortune and Avoiding Evil and Heaven's Secret Calculation had combined to form a new innate divine ability under ninety thousand years of lifespan: the Law of Cause and Effect.

An illusory book!

The Law of Cause and Effect could determine cause and effect. Since it had already determined the cause and effect, it could naturally see the past and future consequences from the illusory book of the Law of Cause and Effect.

This was simply a powerful weapon!

Especially since it could detect the lifespan of enemies with high cultivation levels. If their lifespans were short, the Nail-Head Seven Arrows Technique would be most effective, just like during the beast tide, which could determine victory in one move.

Of course, even without considering the curse technique, Liang Sheng's ability to probe with the Law of Cause and Effect in real-time, along with the Attribute Panel Concealment, would probably allow him to escape from enemies he couldn't defeat.

After all, being able to track opponents through the Law of Cause and Effect in real-time, it would be almost impossible for the opponent to find him.

This was simply the greatest stroke of fortune he obtained from cultivating ancient techniques. However, if he wanted to see more clearly and specifically, he had to pay the price of his own life. The specific amount of life depended on the cause and effect, and this was the cost of cause and effect.

At this moment, Liang Sheng didn't think about it anymore. Instead, he continued to absorb the memories of City Lord Zhen Yuan, and then couldn't help but sigh. Throughout his life, Zhen Yuan was the epitome of a talented child.

Foundation Establishment in fifty years, Golden Core in three hundred years, Nascent Soul in a thousand years, Divinity Transformation in three thousand years, and Soul Emergence in six thousand years.

Although by now, it had already been over ten thousand years and he had not yet reached the middle stage of Soul Emergence, it was mainly because he was worried about the Fate Calamity and did not dare to recklessly break through.

Therefore, one could only say that the path of cultivation was full of obstacles. Even the most gifted child would face various challenges depending on their own fate and opportunities.

Even more so now that Zhen Yuan City Lord had perished from both body, spirit, and soul, completely erased from the world, which was a brutal reminder of how one misstep in the path of cultivation could lead to total failure.

But what did Zhen Yuan City Lord do wrong?

It was merely due to the cause and effect of the Church of All Beings that, by a coincidence, led him to lose his life at his own hands.

Now, with the Law of Cause and Effect innate divine ability, he must learn his lesson in the future, trying his best to minimize creating cause and effect relationships, and even if they are formed, he must correct them in a timely manner.

With all these thoughts weighing in his heart, Liang Sheng looked back at the depths of City Lord Zhen Yuan's memories, as that was his ultimate goal.

Among the lineage of Ling Xiaozi was one of the top divine abilities—

Mustard Seed Sumi!

Chapter 502: Achieving Mustard Seed Sumi, New Methods of East Victory Immortal Dynasty

Longevity Immortal City.

Under Yaoxiang Pavilion.

At this moment, Liang Sheng finally obtained the Mustard Seed Mastery he had been longing for, which literally means Containing the World in a Mustard Seed, capable of holding Heaven and Earth.

Of course, this requires cultivating to a profound realm to achieve such a feat, just like City Master Zhen Yuan, who is far from being able to do so.

He is just at the entry level of the Mustard Seed Mustard Seed, not even close to achieving a small success. However, even so, City Master Zhen Yuan managed to use this divine ability to accommodate the entrance of a spiritual vein branch in a mountain stone.

After a while, Liang Sheng opened his eyes, the corners of his mouth involuntarily curling upwards. At this moment, he had completely mastered the cultivation secret technique of the Mustard Seed Mastery.

Next, all he needs to do is practice it regularly, waiting to naturally master it. Who makes him possess the Talent of Innocent Foolishness, where there is no bottleneck for all laws in the world?

Feeling the unparalleled power within his body at this moment, Liang Sheng couldn't help but feel complacent. Who in the world has achieved the Soul Emergence Realm with less than two thousand years of lifespan like him?

It's hard to find another person like him in the world!

Liang Sheng was somewhat overjoyed, and his heart was not without a sense of crisis. However, under the Seeking Fortune and Avoiding Evil, there was still a faint sense of unease.

Hmm?

Although there is no life-threatening crisis at this time, Liang Sheng is not in a hurry. After all, his Law of Cause and Effect and Heavenly Fate Divine Ability, which he obtained from breaking through 90,000 years of life, will not be like before, only knowing the outcome without knowing why.

On the illusory surface of the Law of Cause and Effect, Liang Sheng took this palpitation as the source of cause and effect. Soon, several scenes appeared, which were not as vague as the previous Heavenly Secrets Calculation.

After seeing the cause and effect clearly, Liang Sheng couldn't help but frown.

The cause of this discomfort was actually himself?

It turns out that Liang Sheng absorbed too much of the Heaven and Earth Spine from the spiritual vein branch this time, almost depleting the Heaven and Earth Spine of the Immortal Dynasty's spiritual vein in the Longevity Immortal City.

This naturally attracted the attention of the East Victory Immortal Dynasty, and coupled with the heaven and earth anomalies triggered by Liang Sheng's breakthrough, the situation became more complicated.

This kind of situation has happened before. The Immortal Dynasty's upper echelons didn't know what they were associating with, and their reaction was a bit unusual.

Ling Xiaozi and Chunyangzi's request to sever the connection between the Immortal City and its spiritual vein branches would normally take at least a few hundred years to complete safely.

But now, due to the abnormality in the Longevity Immortal City's spiritual vein branch, all that was needed was to deal with the impact of the Earth Veins of the Longevity Immortal City on the Immortal Dynasty's luck, and the connection could be severed smoothly.

In the tacit understanding of the high-level Immortal Dynasty, the request of Ling Xiaozi and Chunyangzi was indeed approved, but there were also changes and the command was now in the hands of higher-level individuals, no longer under their control.

However, seeing the illusory scenes under the Law of Cause and Effect, Liang Sheng didn't rush, but breathed a sigh of relief. Although due to the cumulative accidents, the Immortal Dynasty's handling of the Immortal City would probably take at least a hundred years to show any signs.

Since that is the case, why should he worry? It's not like his battle strength is now, which is almost no weaker than that of great might like Ling Xiaozi.

Even if the Immortal Dynasty makes a move in a hundred years, by then, his Mustard Seed Mastery should have already been successfully cultivated.

At that time, he only needs to use the Mustard Seed Mastery to carry a teleportation array with him, and as long as there is any inadequacy, he can teleport away instantly.

His safety is guaranteed.

Now, Liang Sheng, who is equivalent to the Soul Emergence Realm and possesses battle strength beyond his realm, is no longer the weak little follower without strength guarantee. His hesitation has become much less.

Although there is still a long way to go before he becomes an immortal being who never dies, he has at least gained the embryonic form of the Dao Protection Method.

Of course, with Liang Sheng's character, despite having some security in his strength, he is still cautious in his actions. In fact, he even secretly went to the Immortal City's spiritual vein branches once because of his caution.

Seeing the already sealed Feng Yuan, he decided to imitate City Master Zhen Yuan's aura for safety and added a few more layers of sealing array to it.

Having City Master Zhen Yuan's complete memory, it was easy for him to impersonate Zhen Yuan, so Feng Yuan would be well-kept here, preferably without regaining consciousness until death!

After finishing these, Liang Sheng returned to his prepared backup residence, released Huang Yifan again, and of course, also changed the appearance of the puppet's body.

Being cautious in everything, nothing can go wrong.

Therefore, his appearance did not cause any disturbance in the Immortal City, and the city's recovery of spiritual energy was the result of the Church of All Beings calculating the lives of all the Nascent Soul Realm cultivators in the city.

Ordinary cultivators in the city didn't know what had happened, and at this moment their hearts were full of joy and energy as they welcomed the recovery of spiritual energy.

After Liang Sheng's return, he secretly contacted Jin Quanxiu, and the Zhou Family quietly returned to the Zhou Family Mansion without causing any waves.

As for the hidden fire seeds of the Church of All Beings, even if they were protected by Nascent Soul Masters, they still chose to stay in their original places and hibernate because Lingkun had not given any instructions in the end.

Previously, when the Church of All Beings formulated this plan, they had already anticipated this situation. Whether the Immortal City's spiritual energy was restored or not, without receiving a clear command, they would not appear openly.

Because they are the last fire seeds of the Church of All Beings, they must be extremely cautious. After that, Longevity Immortal City calmed down.

East Victory Immortal Dynasty, Capital City Soul Song.

At this moment, Ling Xiaozi's face had returned to normal. Originally, when he and Chunyangzi submitted the request to sever the spiritual veins of the Longevity Immortal City, they didn't expect it to pass so quickly.

But after they submitted the request, the heavens and stars shone, and the starry sky changed, which was rarely seen in ancient times, causing many great powers to be astonished and even remembered some unpleasant memories.

Chapter 503: Achieving Mustard Seed Sumi, New Methods of East Victory Immortal Dynasty

Furthermore, based on the anomalies of Heaven and Earth reflected in the initial position, it was precisely in the area where Longevity Immortal City was located. Thus, the upper echelons intended to investigate any issues in the entire area and conveniently approved Ling Xiaozi's submission.

At this moment, Ling Xiaozi's Mansion.

Kaiyuan Child is standing right behind Ling Xiaozi, looking rather upset, as he is already aware of the news of his junior brother Zhen Yuan's demise and cannot help but feel a little frustrated.

Despite all of his efforts, he still couldn't go against fate. One could only say that everything was destined, and Zhen Yuanzi was doomed.

As for Chunyangzi, who was standing beside him, he did not even dare to return to his own mansion now, fearing that Ling Xiaozi might do something unusual if he were stimulated, which could affect his disciple Feng Yuan.

There is no abnormality in Feng Yuan's life token, and even faint hints of a celestial calamity's aura are wrapping around it. How could he possibly let Ling Xiaozi harbor thoughts of revenge at this moment?

It doesn't matter if Ling Xiaozi seeks revenge, but if it involves his disciple Feng Yuan, that would be a big deal. Therefore, he doesn't dare to leave Ling Xiaozi's side, just in case.

"Let's wait a little longer. The Immortal Dynasty still needs some time to handle the spiritual energy and fortune of the Longevity Immortal City. We must remain calm, and we mustn't act recklessly, lest we interfere with the Immortal Dynasty's grand plan and incur punishment."

Ling Xiaozi nods, indicating to Chunyangzi that he could rest assured, and he absolutely wouldn't act impulsively. He wasn't as impulsive as Chunyangzi imagined.

With their friend gone, the best way for them to pay tribute to Zhen Yuan is to live well and have the opportunity to investigate the truth.

Time slowly passes as they wait, and in the blink of an eye, fifty years pass. The Earth Veins of the Immortal City have not been completely cut off, but the Immortal Dynasty can take some action.

Regarding the previous anomalies, let the low-level cultivators investigate. If it is indeed as they suspect, it might be an opportunity.

The news quickly circulates among the upper echelons, and the Capital City Lingge is gradually stirring up waves. Ling Xiaozi and the others are also somewhat taken aback.

Things have become uncontrollable...

Longevity Immortal City.

At this moment, Liang Sheng lazily stretches in the courtyard, looking at the sunset and the golden evening glow filling the sky.

Waking up naturally from sleep, his cultivation techniques automatically operate, and in the evening, he heads to the Yaoxiang Pavilion for relaxation. Life is good.

As soon as he wakes up, Huang Yifan nearby immediately serves him a refreshing soup, with practiced efficiency.

“Master, what would you like for dinner?”

“The fresh mountain goat meat we had a few days ago was good. Use it again tonight.”

Hearing this, Huang Yifan’s face lights up with a smile; he is willing to serve as a puppet just to accompany his master. Making his master happy is his greatest wish.

“Master, please wait a moment. I will go to the East Suburb Beast Forest and see if I can find some mountain goats. It may take some time.”

With the recovery of the spiritual energy in the Longevity Immortal City and the near-eradication of high-level cultivators, the number of demonic beasts in the surrounding suburbs has gradually increased.

With cultivators venturing out in search of opportunities, it can be quite dangerous if they are not in groups. However, danger also represents opportunities.

After all, mountain goats are nothing more than easy prey for someone with Huang Yifan’s strength.

Liang Sheng watches Huang Yifan leave, then lies back down on the recliner. Laziness can sometimes be a form of happiness.

At this moment, Liang Sheng's Mustard Seed Mastery has reached the entry level and is even nearing the small success realm. In fact, in just fifty years, if Zhen Yuan Spring knew of it, he would probably have died of shame.

After all, he had cultivated for ten thousand years and had only barely reached the entry level, far from the small success realm. Now Liang Sheng turns over to find a more comfortable position, briefly revealing what is within his sleeve.

Inside are countless spiritual fields using Mustard Seed Sumi folding power, but without any spiritual grass planted.

Once Liang Sheng reaches the small success realm with his Mustard Seed Mastery, he will be able to transplant living things, but for now, he has only placed spiritual fields.

He calls this technique, "Sleeve Universe," naturally after the legend from his past life. Coupled with City Master Zhen Yuan sharing a name with the legendary figure, it occurred to Liang Sheng naturally.

In fact, the most important part of the Sleeve Universe is not the prepared spiritual field but the Teleportation Array, allowing for an instant escape in times of crisis.

In no time, Huang Yifan returns with a cleaned mountain goat corpse and heads straight into the kitchen.

Liang Sheng continues to lie back on the recliner, with his internal Zhou Tian's stars condensed into a resonance. As night gradually falls, they seem to respond faintly to the outer space, like breathing.

However, Liang Sheng dares not absorb the essence of the stars with all his might, as the turbulence caused by his previous breakthrough was too great. He doesn't dare to be reckless for the time being.

At this moment, the sound of fighting faintly comes from outside the gate but is quickly suppressed. Liang Sheng doesn't react to it.

Fifty years after the revival of the spiritual energy in Longevity Immortal City, new forces have emerged, creating a new landscape.

The Green Mountain Sect is the most recently risen force near Liang Sheng's mansion, with its leader being a Golden Core Daoist, which can be considered a local powerhouse.

During the Zhen Yuan era of Longevity Immortal City, they would have been a middle-class force, far from wielding the influence they do now.

The rise of the Green Mountain Sect has its reasons, mainly due to the upheaval in Longevity Immortal City, and the reshuffling of all forces.

At the beginning, everyone was on guard and concentrating on cultivation, trying to restore the environment for cultivation, and accumulating cultivation resources.

Zhou Family was no exception.

Chapter 504: Achieving Mustard Seed Sumi, New Methods of East Victory Immortal Dynasty

However, as time passed, the cultivators who had progressed gradually rose to prominence. In areas with competition, strife was inevitable, and where there was strife, factions would form.

In order to pass down its heritage, the Zhou Family naturally needed cultivation resources, so conflicts would naturally arise when collecting resources from others.

Logically speaking, the Zhou Family, with Jin Quanxiu at its helm, should not have faced any crises. In fact, this was the case – in these fifty years, the Zhou Family had already become a powerful force in their own right.

However, the Zhou Family had always been cautious, and with Liang Sheng secretly guiding Jin Quanyu, who knew that there would be big changes in Immortal City, the Zhou Family's actions were never evident.

Green Mountain Sect was the white glove of the Zhou Family. No one knew that the extremely powerful Green Mountain Sect in this area was actually a means for the Zhou Family to hide their true intentions.

The fighting just now was merely the squabble between various forces. The Green Mountain Sect was well-versed in dealing with such matters, so the situation was quickly suppressed.

Liang Sheng already had roast mountain goat on his table. Seeing the golden, juicy roasted goat meat, he couldn't help but feel a great appetite.

Then, Liang Sheng showed a satisfied expression, while Huang Yifan smiled happily beside him. To make his master feel this way was his greatest happiness.

But at this moment, Huang Yifan frowned slightly, and in his eyes, a cold murderous intent emerged. Who would dare to cause trouble at this time?

At this time, Liang Sheng did not show any response and continued to immerse himself in the delicious food. For such matters, Huang Yifan would naturally handle them well.

Outside Liang Sheng's Mansion.

At this moment, two shadows were hiding in the darkness of the night, slowly moving, and there was a hint of excitement in their eyes.

Their harvest this time was far beyond their imagination. Who could have thought that the Green Mountain Sect had such a secret? It was as if they had uncovered layers of hidden truths.

It was like finding multiple layers of a hidden shell game. Who would have thought that they would accidentally discover that the Green Mountain Sect had a backer and that there was an even more terrifying backer behind that one?

Perhaps thinking of the massive benefits they could gain from this information, they couldn't help but let their lips curl up slightly.

Thanks to their fortuitous encounter with the concealment technique they obtained from the city lord's residue, they were able to transform themselves into shadows, sneak into the Green Mountain Sect territory, and uncover this secret.

Now that they had confirmed the location of the ultimate mastermind, they only wanted to hurry back and report to their leader.

At this moment, however, they suddenly found themselves unable to move, and a figure appeared before their eyes, staring at them intently.

The man who appeared was none other than Huang Yifan, who was now looking at the two crouching at the corner of Liang Sheng's Mansion wall with disgust.

How dare they provoke their master? The fact that the master hadn't reacted just now didn't mean he didn't care – he simply believed Huang Yifan could handle it, hoping that his appetite wouldn't be even slightly affected because of this.

The next moment, before the two of them could react, Huang Yifan put his hand on their heads and directly initiated the Soul Control technique.

Huang Yifan was not Liang Sheng, and his mastery of the Soul Control Technique was far inferior, requiring physical contact to trigger the Soul Search function.

The next moment, under Huang Yifan's gaze, the two people were reduced to ashes, and Huang Yifan couldn't help but sigh.

It seemed he needed to remind Jin Quanxiu and the others not to involve his master in their actions in the future. Such mistakes couldn't be repeated.

When he returned to Liang Sheng's side, he discovered that Liang Sheng was looking up at the sky, his face somewhat strange.

Was the East Victory Immortal Dynasty really acting this way?

Liang Sheng could only marvel at the depth of the Immortal Dynasty, which was completely unexpected.

Chapter 505: Immortal Dynasty's Golden Core Descends, Liang Sheng Strategizes

East Victory Immortal Dynasty.

Capital City Soul Song.

At this time, Ling Xiaozi summoned Kaiyuan Child back from Longevity Immortal City, as Zhen Yuan had already perished, and his presence there was no longer of any use.

Although there was some regret after their return from the court of the Immortal Dynasty, the result was not too bad.

Afterward, he directly ordered Kaiyuan Child, "Kaiyuan, go find a few capable Golden Core cultivators among the disciples in our sect. Remember, they must be capable and all must be elite disciples."

"Yes, Master."

At this time, Kaiyuan Child did not ask why. He simply followed his Master's instructions, thinking that his Master wouldn't harm him.'

However, before Kaiyuan Child left, Chunyangzi suddenly said, "Daoist friend Ling Xiaozi, I can give you all the quota from my sect, as long as you promise me one thing."

Ling Xiaozi glanced at him, and he guessed what Chunyangzi wanted to say. In fact, it was a win-win situation.

“What are your terms for exchange?”

Chunyangzi did not beat around the bush and replied, “I have no conditions. This is my compensation to make up for the cause and effect of my disciple Feng Yuan’s actions in Longevity Immortal City.”

As expected, upon confirming his suspicions, he pretended to think for a moment before agreeing directly.

“Alright, Kaiyuan, find a few more elite disciples to come over.”

Kaiyuan Child immediately left, and Chunyangzi let out a sigh of relief. For those who could survive the Fate Calamity, reducing any cause and effect might change the balance.

Chunyangzi quickly expressed his gratitude to Lingxuzi. This time, sending low-level cultivators to the Immortal City was to compete for the city’s destiny. Of course, in the end, it would only achieve the same status as City Master Zhen Yuan.

Though it was a great fortune that could increase the luck of their own sect, Feng Yuan’s returns were becoming increasingly apparent.

Since that was the case, choosing between the intangible position of Lord of Longevity Immortal City and something more tangible was an easy choice to make. There was no need for further discussion.

It was just a matter of betting on the present or the future. Different positions and ideas create different outcomes.

At this time, Ling Xiaozi wasn’t too angry about the decision of the Immortal Dynasty, as living people still needed to look forward.

In the face of the future of his sect's legacy, his disciple Zhen Yuan's death would ultimately be outweighed by gains and losses and be abandoned as inconsequential.

That was because he was already dead, and the dead wouldn't have much value in front of the living, no matter how they were in life.

The two fell silent for a while, and soon Kaiyuan Child returned with a few elite Golden Core disciples.

Afterward, he stood behind his Master without saying a word. Ling Xiaozi then briefly explained the situation.

The Golden Core disciples' eyes lit up upon hearing the news. This was an incredible opportunity, and they even wanted to thank the Church of All Beings. If not for their interference, how could they, mere Golden Core cultivators, have a chance to fight for the Longevity Immortal City?

Kaiyuan Child now understood what was going on, and although his face was expressionless, he sighed in his heart.

Naturally, he understood why Master Ling Xiaozi acted this way, but he found it hard to accept. After all, a junior brother and senior brother shouldn't die so senselessly.

With that in mind, he immediately pleaded with Ling Xiaozi, "Master, let me lead the team and take these disciples to Longevity Immortal City this time, as I am the most familiar with the situation there."

Upon hearing this, Ling Xiaozi stared deeply at him. The Immortal Dynasty's intentions were clear; they did not allow high-level cultivators to enter Longevity Immortal City, so as not to affect the city's destiny and disrupt their plans.

Since Kaiyuan Child couldn't enter personally, his intentions were obvious, but Ling Xiaozi couldn't oppose him now, lest he irritate his big apprentice.

He could only hope that Kaiyuan Child would control his emotions and not act impulsively. “Alright, but no matter what you plan to do, don’t disrupt the Immortal Dynasty’s plans and don’t do anything foolish.”

“Don’t worry, Master. I understand.”

Under the watchful eyes of Chunyangzi and Ling Xiaozi, Kaiyuan Child left with the Golden Core disciples. Only then did Chunyangzi reassure Ling Xiaozi.

“Daoist friend, rest assured. Kaiyuan Child has always known when to advance and retreat. He won’t act recklessly. Even if he does take action, I’m afraid it will be after this plan is settled.”

“We can only hope so.”

Longevity Immortal City.

Huang Yifan had previously killed two intruders, not caring much about it. He blamed their misfortune for choosing the wrong people to investigate and disturb.

However, at this moment, a stream of light flashed from outer space, followed by a number of Golden Core Daoists who concealed their Qi and descended from the sky to the Immortal City.

Only Liang Sheng noticed this, as others knew nothing about it, and the opening in the sky only lasted for an instant.

Yet, Liang Sheng sensed the Qi of Kaiyuan Child, who had previously visited the Immortal City. Although the latter did not enter the city, he was accompanied by other cultivators, presumably to send the Golden Core cultivators into the Immortal City. However, none of them had reached the Soul Emergence Realm.

From their expressions, it was clear they felt that having someone of Kaiyuan Child’s level was overkill for the task.

Then, the others guarded outside, and Kaiyuan Child closed his eyes and began to meditate. At this point, Kaiyuan Child was no match for Liang Sheng, who was invincible in the Soul Emergence Realm.

This was the terrifying aspect of Liang Sheng's ability to fight across realms. Not to mention Kaiyuan Child, even if Ling Xiaozi himself had come, Liang Sheng would have had the power to escape at this time.

Chapter 506: Immortal Dynasty's Golden Core Descends, Liang Sheng Strategizes

Can't I just escape if I can't beat them?

However, Liang Sheng has always been cautious in his life and would not take this lightly just because a Golden Core Realm cultivator has arrived in the Immortal City.

So, he still uses his life's divine ability, the Law of Cause and Effect, and afterward, Liang Sheng sees several scenes in the Illusionary Book.

He quickly learned the cause and effect of these Golden Core cultivators coming to Immortal City. After all, there was a huge gap between their cultivation levels and his, so this investigation was a piece of cake.

If Liang Sheng wanted to investigate Ling Xiaozi behind Kaiyuan Child, or directly investigate the East Victory Immortal Dynasty, it would probably cost him a lot of lifespan, and he would not get a clear view.

But now, he is only calculating Golden Core cultivators, and there is no difficulty. And in his heart, Seeking Fortune and Avoiding Evil remains undisturbed.

This shows that the actions of the Immortal Dynasty pose no threat to him at this moment. Since this is the case, Liang Sheng is not in a hurry, and he will see how these foreign Golden Core cultivators will act.

Su Wu, a Golden Core Realm cultivator, is an elite disciple of Ling Xiaozi's lineage. With just over 400 years of life span, he is already at the mid-stage Golden Core cultivator, a truly gifted child.

Since he knows the reason for coming to Immortal City, he has been very excited. Who could have imagined that such an opportunity was right before his eyes?

So, this time, he must seize the opportunity. Anyone who hinders him will be his enemy, and he will show no mercy.

However, this time, he cannot simply rely on brute force. After all, the purpose of the Immortal Dynasty is very clear. It is to peacefully and completely quell the chaos in Longevity Immortal City by sending Golden Core cultivators here. Otherwise, any great might from the Immortal Dynasty could easily dismantle Longevity Immortal City with direct violence. Why would they let these little minions come and seize the opportunity?

Therefore, Su Wu did not take action immediately after arriving in Immortal City. Instead, he found an inn and settled down in a low-key manner.

The current situation in Longevity Immortal City is completely unfamiliar to him. If he acts hastily, his efforts will not be effective.

So, sharpening the knife does not delay the work of chopping wood. This matter cannot be rushed, and the Immortal Dynasty is not in a hurry either. Since they decided to implement this plan, letting Golden Core cultivators come to Immortal City, they are prepared for a protracted battle.

At this time, Su Wu also noticed other fellow practitioners. Although there were six people from Ling Xiaozi's lineage, it seemed like a lot, but when compared to his own power, it was just like that.

Others naturally noticed him too, but they didn't greet each other and went about their business.

Of course, most cultivators were like Su Wu, not acting rashly. Su Wu couldn't help but sigh. After all, they were all elite disciples. How many foolish people could reach their current position?

Su Wu was very patient this time. Others began to take action a half month later, but he waited a whole month.

By now, he had almost figured out the current situation in Longevity Immortal City. Unexpectedly, the first culprit of the problem in Longevity Immortal City, the rebellious Church of All Beings, seemed to have disappeared from the city. In the past month, he had no clues at all.

It seems that although these rebels have made Longevity Immortal City what it is now, they have also suffered a backlash and are probably lost.

Otherwise, with the current situation where there are almost no Nascent Soul Masters in Longevity Immortal City, it would be too simple for the remaining Church of All Beings to gain control if they still had strength.

However, because the Church of All Beings has disappeared, the remnants of the City Lord Mansion's power are also nonexistent. At this time, Longevity Immortal City has become even more like a wilderness state.

Contenders competing for power.

The first word that comes to Su Wu's mind is this. Of course, by "contender," he mostly meant ordinary Golden Core cultivators and nothing more.

There were even many people who couldn't reach the Golden Core Realm but still controlled some territories, which made Su Wu breathe a sigh of relief.

It seems that he doesn't need to worry too much about these local forces. Instead, he should be more careful with his companions who came to Immortal City with the Dynasty this time.

By now, Su Wu has roughly devised a plan. If he wants to stand out and seize the opportunities in Immortal City, the first step is to naturally join a local force.

However, Su Wu's target at this time was set on a middle-power force in West City. The surface strength of this force seems to be only medium, and there are even stronger forces with larger territories above it.

The reason Su Wu chose it was simple: other forces, more or less, have their own factions. Although not exactly fighting one another, there were obvious signs of it.

But the Green Mountain Sect he set his sights on was different. Under his investigation, this force was extremely low-key, but it had excellent discipline and organization.

For a force to achieve this level, there is only one reason, and that is, this force wants more, so it chooses to hibernate.

They are low-key at the moment, only biding their time. Once such power bursts out, the strength will be astonishing.

Su Wu is now waiting for a chance to demonstrate his allegiance. He is not too worried about whether he can join Green Mountain Sect, but is just waiting for an opportunity. There is no need to rush.

As Su Wu was plotting for Green Mountain Sect, many Golden Core Realm cultivators suddenly joined other forces in Longevity Immortal City.

Thus the overall strength of the major forces greatly increased. However, as a result, friction between the various groups becomes increasingly chaotic.

But the purpose of the Golden Core cultivators sent by the Immortal Dynasty was just that—the more chaos, the better—so they could fish in troubled waters. Why else would they bother?

Green Mountain Sect.

Chapter 507: Immortal Dynasty's Golden Core Descends, Liang Sheng Strategizes

At this moment, Sect Leader Zhou Fang had a headache, as he didn't know where so many Golden Core Daoists had suddenly appeared from, stirring up ripples in Immortal City, which had gradually calmed down after fifty years of friction.

Fortunately, in this situation, Zhou Fang felt no unease in his heart, and as there were no instructions from the Zhou Family Master, he decided to wait and see how things would develop.

After all, the Green Mountain Sect was different from other Immortal City forces, as long as the Zhou family's territory remained unchaotic, he could turn a blind eye to it.

But if someone really dared to come and cause trouble, they would naturally be met with a thunderous backlash. Even if they managed to survive that, what then?

When the time came for the guest elder to take action, no matter how strong their influence or how many Golden Core Daoists they had, the result would be the same.

Perhaps they would never know what had happened until the moment of their death. It must be said that the Zhou family's way of handling matters was to prefer acting in the dark and never showing off.

If it wasn't for this, with the strength of the Zhou family at this time, there would be no opponent within Longevity Immortal City. After all, at this moment, Nascent Soul Masters were already the top battle strength on the surface of Immortal City.

As he mulled this over, a disciple of the Green Mountain Sect hastily ran in.

"Sect Leader, Furious Tiger Hall has killed all of our Lingtian guardian disciples in the West Suburb Spirit Fields and declared that they now control the territory,"

"Hmm?"

Zhou Fang frowned upon hearing this, not expecting things to go so badly so quickly.

It seemed that Furious Tiger Hall had also recruited quite a few Golden Core Daoists who had suddenly appeared, which was why they were so arrogant.

Previously, the other party had probed the Green Mountain Sect, but the end result was nothing more than a crushing defeat. He didn't expect them to suddenly launch an attack today.

It seemed that they thought he was vulnerable because he hadn't shown his strength. With that in mind, Zhou Fang first sent a message to the Zhou Family Master, after explaining the situation, he led the core members of the Green Mountain Sect quickly towards the West Suburb.

No matter what happened, the Green Mountain Sect had to report to the Zhou Family Master, as this was a rule the Zhou family had set long ago.

Only a few of the upper echelons in the Green Mountain Sect were aware of the subordinate relationship between them and the Zhou family, while the other disciples thought they were only part of the Green Mountain Sect.

However, when Zhou Fang arrived with his people at the West Suburb Spirit Fields, he saw a stranger, a Golden Core Daoist, release a secret technique from his hand, causing the people of Furious Tiger Hall to collapse on the ground.

Noticing this Zhou Fang couldn't help but look at the stranger with a suspicious gaze. It was often said that a stranger bearing great gifts must have ulterior motives in mind.

But immediately after, the stranger saw him and suddenly knelt down on one knee, expressing his willingness to submit to the Green Mountain Sect and even swore by the Heavenly Dao.

"I'm Su Wu and I swear by the Heavenly Dao that I have no connection with any forces in Immortal City, nor any suspicion of being a spy for other forces. Due to the instability in Immortal City, I would like to join Green Mountain Sect."

Zhou Fang was surprised when the stranger swore so directly by the Heavenly Dao, and couldn't help but wonder if the low-profile Green Mountain Sect had actually gained someone's trust?

But considering the situation inside Green Mountain Sect, he still decided to reject the Golden Core Daoist, Su Wu.

It was because the Zhou family didn't want people with unclear backgrounds.

But at that moment, he suddenly received a communication from the Zhou Family Master. After reading the content, he looked at Su Wu with even more uncertainty.

Could it be that Su Wu had some hidden background? But the next moment he came to his senses, and his expression returned to normal.

The reason behind it would be asked later from the Family Master. As for now, he would follow the Family Master's opinion and accept Su Wu.

"Brother Su Wu, I'm grateful for your high regard. From now on, the Green Mountain Sect has gained another great general. If you don't mind, would you like to temporarily guard this spiritual field?"

"My humble desires are fulfilled, I do not dare to ask for more."

With Su Wu's reply, the atmosphere suddenly turned harmonious, and as for the slain disciples of Furious Tiger Hall, a single Fireball Technique made them disappear without a trace.

Upon investigating the situation, Furious Tiger Hall had no further reaction. Having gained another Golden Core Daoist, they would naturally not act rashly.

Zhou Family.

At this time, the Zhou Family Master was also somewhat confused, for he had suddenly received a transmission from Jin Quanxiu, before hearing from Zhou Fang.

The message informed Zhou Fang to accept Su Wu and not to inquire about the reason.

While he was still puzzled, Zhou Fang's communication followed quickly, making him sigh in his heart. It was truly impressive how the Guest Elder had already anticipated this scenario, the Zhou family was indeed fortunate to have such a pillar of support.

Little did he know, Jin Quanxiu was also equally puzzled at this time, and not much different from them. It was because he too had received instructions from Liang Sheng.

However, there must have been a reason for the senior's arrangement. As he didn't know of Liang Sheng's existence, he was now smirking slightly.

This Su Wu was rather interesting, a smart person who could see through the unusual foundation of Green Mountain Sect. This alone would make him go further than others.

Since the Immortal Dynasty wanted to control Immortal City, he might as well find a smart person, create a connection through cause and effect, and then support Su Wu to become the City Lord of Immortal City.

In this way, with the law of cause and effect supporting each other, the final beneficiary of Longevity Immortal City would be out of the control of the Immortal Dynasty.

Liang Sheng couldn't help but shake his head at this thought. He actually didn't want to play such tricks. He only wanted stability.

But he didn't have much of a choice.

However, Liang Sheng's expression remained calm, and all his calculations ultimately boiled down to one's own strength.

Chapter 508: No One Can Steal Longevity Immortal City, All Remaining Evils of Sentient Beings Sect Must Die!

Longevity Immortal City.

Su Wu had never thought that a powerful force could be so incredibly patient and concealed. He knew from the beginning that the Green Mountain Sect acted low-key, but he never imagined it would be this low-key.

By now, a month had passed since he joined the Green Mountain Sect. At first, he didn't have any tasks, and thought it was because the sect didn't trust him.

After all, he had just joined the Green Mountain Sect, so it was understandable that many of the sect's actions were carried out secretly without his knowledge.

As a result, Su Wu wasn't really in a hurry. After all, time would reveal a person's true character. Soon enough, the Green Mountain Sect would understand that he had no ulterior motives and only wanted the best for the sect.

However, it wasn't until a year later that he realized how wrong he was. It wasn't that the Green Mountain Sect was secretly up to no good; rather, they seemed utterly desireless and indifferent.

How could he compete with others if they continued to be so passive? One misstep would lead to continuous failure!

Now, Su Wu didn't have any other options given that the other forces within the Immortal City had been almost "infiltrated" by their Immortal Dynasty guests, each with its own master. It was impossible for him to switch, and likewise impossible for anyone else to join the Green Mountain Sect.

The Immortal Dynasty had its own rules for this opportunistic competition. Once each competitor had chosen their own competitive plan, the contest would proceed fairly.

Only if someone voluntarily gave up their opportunity and chose to assist others instead could they join the same force.

This rule was indeed somewhat difficult to understand, but it was a lesson from history. Behind each unintelligible rule, there would be an unintelligible story.

Now, Su Wu could only rejoice in the fact that the Green Mountain Sect's strength far exceeded his expectations. Even if the Green Mountain Sect did nothing, it would inevitably be drawn into the swirling chaos of the Immortal City.

Even if the Green Mountain Sect did not strive actively, others would not let them off. In that case, they would either swallow their pride or be forced to resist.

He decided to wait for now and not be too impatient. He must not be concerned about temporary gains and losses. The one who laughed last would be the true winner.

Time slowly passed as he lay hidden, and in the blink of an eye, twenty years had gone by.

Unbeknownst to him, he had become the Vice Sect Leader of the Green Mountain Sect. Even Su Wu found it somewhat incredible.

It turned out that the Green Mountain Sect didn't distrust him; in fact, they trusted him immensely. At this point, many of the sect's "secrets" were known to him.

Even the secret of the great power supporting the Green Mountain Sect from behind the scenes was not hidden from him. Although Su Wu didn't know exactly who this great and mysterious "Ancestor" was.

But Sect Leader Zhou Fang had hinted to him that the Green Mountain Sect was not without its foundation, and the only reason he wasn't told everything at the moment was simply that he was not yet the sect leader.

Wasn't this a clear indication that Su Wu was the successor to the sect leader? Why would they trust him so much? Su Wu felt a little guilty, as he had harbored malicious thoughts against them before.

Zhou Fang had also hinted that the power behind the Green Mountain Sect was actually far stronger than any of them could imagine, but they chose to remain low-key and not attract attention.

These hints naturally excited Su Wu even more, reassuring him that he had made the right choice. It seemed that he had been blessed with luck and destiny from the very beginning.

Under these circumstances, he naturally became motivated and began to cooperate more actively with the Green Mountain Sect, as he also believed Zhou Fang had not deceived him.

In fact, over the past twenty years, some forces in the Immortal City had attempted to absorb the Green Mountain Sect after their own strength had expanded.

However, no matter who their opponents were or how strong they were, in the end, they all failed miserably. They even had to apologize and make amends to save face and maintain peace between the two parties.

But there were also those who were blinded and underestimated the Green Mountain Sect. In the end, their forces quietly collapsed, and they disappeared from the Longevity Immortal City.

Among these forces were Golden Core Daoists who had come with Su Wu for the trial. After they failed against the Green Mountain Sect, they were filled with regret.

Because their failed offensive meant they had lost their chance in the competition, and all they could feel in their hearts was depression and helplessness.

They could only blame themselves for not recognizing the true face of Mount Lu. After their failure in the competition, their gaze towards Su Wu was somewhat complicated.

Such luck indeed.

But they didn't know that the Green Mountain Sect held Su Wu in such high regard for a special reason, a reason even the upper echelons of the Green Mountain Sect did not understand.

At this time, the relationship between the Green Mountain Sect and the Zhou Family was kept secret from everyone. Even Zhou Fang had received orders to gradually cut contact with the Zhou Family over these twenty years.

The internal situation of the Green Mountain Sect was almost completely open to Su Wu, thanks to Guest Elder Jin Quanxiu's instructions to the Zhou Family from behind the scenes.

Of course, the ultimate mastermind behind all of this was Liang Sheng. Under the Law of Cause and Effect Divine Ability, he had already completed the most advantageous plan for himself.

Liang Sheng intended to groom Su Wu to be the master of the Immortal City, so that he could use this cause and effect relationship to live a comfortable life in the days to come.

He had no intention of sabotaging the Immortal Dynasty's plans. With Su Wu controlling the Longevity Immortal City's Luck, the Immortal Dynasty was sure to be reassured, as their own luck would remain unaffected – it was a perfect plan.

For Liang Sheng, this was also the best plan for him to stay in the Immortal City peacefully. The current layout was simply flawless.

After these twenty years, the Longevity Immortal City was no longer as chaotic as before and was slowly regaining its former prosperity.

Chapter 509: No One Can Steal Longevity Immortal City, All Remaining Evils of Sentient Beings Sect Must Die!

As for the major forces that sprung up like bamboo shoots after a rain in Immortal City following the revival of spiritual energy, under the planning of the cultivators who had experienced Immortal City, only a few forces remained in the world through their own means of merger and suppression, and the situation in Immortal City gradually became clear.

Now, the opponents that Su Wu needed to pay attention to were actually just three or four, and he became more and more confident in the Green Mountain Sect.

Slowly, there was no need to hurry, as long as there were no accidents, he would probably be the one to own this blessing and opportunity in Longevity Immortal City.

At this time, Ling Xiaozi from the Immortal Dynasty was also in a good mood. After all, Longevity Immortal City was originally Zhen Yuan's territory. How could he be happy if it was occupied by other people?

Now that Kaiyuan Child has sent a message back, stating that Su Wu has become one of the most likely successors to Longevity Immortal City, he is naturally satisfied in his heart.

By this time, outside the Longevity Immortal City, there are not many Nascent Soul Masters still guarding by Kaiyuan Child's side.

After all, the cultivators they sent have already failed, so there's no need for them to stay here any longer.

But who will end up as the winner is still unknown.

Everything must wait.

And it has been another thirty years.

In these thirty years, a lot has happened. Liang Sheng, in order to ensure that his plans are foolproof, has been constantly making plans and adjustments as the situation in Immortal City changes.

In these thirty years, the four remaining major forces in Immortal City, including Green Mountain Sect, have been acting more cautiously, and no one dares to act recklessly.

After Liang Sheng discovered this situation, he also began to adjust his plans in a timely manner, it seems that his previous planning was still somewhat conservative.

Su Wu's speed of ascending to power needs to be accelerated even further. In this way, if his planning can succeed, he could almost be carefree in Immortal City and cultivate safely, single-mindedly pursuing the path of immortality.

After receiving all the memories of City Master Zhen Yuan, Liang Sheng believes that there should be no one in the world who knows Longevity Immortal City better than him.

Under such circumstances, how could Liang Sheng be willing to move to other unfamiliar places and start again? Or to live in fear again?

So, throughout these thirty years, Su Wu naturally received more and more attention from the Green Mountain Sect. After all, he was a Golden Core Daoist, and his cultivation level had improved a bit in these fifty years.

Sect Leader Zhou Fang felt even more ashamed of himself and personally had Su Wu swear that as long as he promised not to betray the Green Mountain Sect, he would give him the position of Sect Leader.

Zhou Fang was no match for Su Wu anymore. His position as Sect Leader at the moment was somewhat undeserving.

Upon hearing this, Su Wu felt a surge of pleasant surprise in his heart and soon swore on the Heavenly Dao oath in front of Zhou Fang that he would never betray the Green Mountain Sect.

It was not a lie, because as a cultivator, Su Wu is now becoming the Sect Leader of Green Mountain Sect, which is his fortune. How could he possibly harm his roots?

Once he truly controlled Longevity Immortal City in the future, the Green Mountain Sect would become his confidant, his left arm and right arm, so why would he need to betray the Green Mountain Sect?

So, from the time of arriving at Longevity Immortal City to now, it took him only fifty years to become the Sect Leader of Green Mountain Sect, and now one of the leaders of the few remaining major forces of Longevity Immortal City.

At this point, he had already far surpassed other competitors. Although others were now among the several major forces, none of them held a position like him as Sect Leader.

After Su Wu succeeded as Sect Leader, Zhou Fang brought him to a hidden place where he finally met the real power behind the Green Mountain Sect – the Nascent Soul Ancestor.

There was actually a Nascent Soul Master behind the Green Mountain Sect, and the heavens were truly blessing them!

“Greetings, Ancestor.”

Su Wu at this moment respectfully greeted the Nascent Soul Master in front of him but didn't know that his actual identity was simply a puppet.

This was, of course, Liang Sheng's doing.

Originally, people in the Green Mountain Sect other than the upper echelons didn't know about the relationship between the Green Mountain Sect and the Zhou family. However, now that the Immortal Dynasty is involved, Liang Sheng naturally had to remove the Zhou family's name.

In order to let Su Wu trust and be confident in eliminating other opponents, it's best to have a mysterious Nascent Soul Ancestor appear.

This is the puppet Huang Yifan had possessed before. After Liang Sheng's breakthrough into the Soul Emergence Realm, he didn't lack materials anymore, and had already helped Huang Yifan get a new Divinity Transformation Puppet body.

This eliminated Nascent Soul Puppet also served a purpose: to become the secret Ancestor of the Green Mountain Sect.

After Su Wu paid his respects, he hadn't even had time to look at the appearance of the Nascent Soul Ancestor when he heard an excited voice speak.

"Sure enough, heaven is blessing our Green Mountain Sect! The great revival opportunity prepared and prophesied by our Green Mountain Sect's ancestral forefathers has indeed arrived."

At this moment Su Wu still did not understand what was going on, only to see the Ancestor's kind face waving him over. "Come, come over here and let me have a good look at you."

Su Wu was somewhat puzzled at this moment, but at this time he could not refuse to go, after all, this was a Nascent Soul Ancestor.

However, the more excited the other party seemed, the more confused and fearful Su Wu felt.

Why such reverence?

By the time Su Wu arrived nervously in front of the Nascent Soul Ancestor, the latter directly grabbed his left arm with one hand and then welled up with tears. What in the world was going on?

In this moment, Su Wu was completely dumbfounded. To make a Nascent Soul Master so emotional, there must be some secret. Was what he said just now true? Is he really some kind of great opportunity for the revival of the Green Mountain Sect?

However, Su Wu knew his own origins. He came from the Immortal Dynasty, not from Longevity Immortal City, so he became even more nervous when he saw the Ancestor's actions.</p>

Chapter 510: No One Can Steal Longevity Immortal City, All Remaining Evils of Sentient Beings Sect Must Die!

If this Nascent Soul Master discovered that he was not the person he was looking for, under the power of his Nascent Soul strength, where could he escape?

What should he do?

Su Wu's thoughts were racing like mad, but just when he was at a loss, the Nascent Soul Master seemed to know what he was thinking. He patted Su Wu's arm, smiled, and said, "Don't be afraid, we are actually on the same side." "Same side?"

Su Wu wanted to cry but couldn't; it seemed the other party truly made a mistake. He didn't belong to Longevity Immortal City; how did the situation suddenly turn out like this?

Regardless of Su Wu's thoughts, the Green Mountain Sect's ancestor continued to speak. "I know you come from outside the Immortal City, from the Immortal Dynasty. In fact, our Green Mountain Sect has the same origin as the City Lord Mansion, so we are all on the same side.

The rebellion of the Church of All Beings still exists, so our Green Mountain Sect remains low-key and discreet. Now that I have finally found you, I can do justice to our ancestors."

“Huh?”

Su Wu was completely stunned; what is going on?

The other party continued talking to himself, “Before his death, City Master Zhen Yuan tried his best to inflict heavy losses on the Church of All Beings, forcing them to hibernate and not dare to show themselves.”

Before his fall, the City Master integrated the remaining forces and turned them into the current Green Mountain Sect. He even left a prophecy before his demise.

It could be that he saw the future at the last moment of his Fate Calamity, and he said that the Church of All Beings needed time to recover its strength, but the Immortal City would eventually have the Master of Destiny return.”

At this point, his voice paused, staring intently at Su Wu, then said word by word, “And that person is you. Heaven has blessed our Green Mountain Sect, and in my lifetime, I have finally found you.”

As he spoke, a seemingly insignificant mountain stone appeared in his hand, solemnly handed it to Su Wu, and whispered, “This is the legacy that City Master Zhen Yuan left us before he passed away. I have studied it for many years but still can’t understand it.

Since you are the Master of Destiny that the City Master needs, it should be under your control. From now on, everything in the Green Mountain Sect, including me, will follow your orders.”

Su Wu was somewhat dizzy from this great gift. Could he really be the Master of Destiny? With the Green Mountain Sect “ancestor” present, who could compete with him?

This is the declining Longevity Immortal City where Golden Core Daoists are already top cultivators. Overwhelmed with excitement, Su Wu’s face flushed red even though he had reached the Golden Core Realm.

Meanwhile, Liang Sheng in the distance was also slightly smiling. The plan was going smoothly, and the Zhou Family had completely withdrawn and no longer had any connection with the Green Mountain Sect.

The mountain stone that Liang Sheng gave to Su Wu as a puppet contained the entrance to the Immortal Dynasty Spiritual Vein Branch Vein, where Feng Yuan was sealed.

After all, he had absorbed Zhen Yuan's memories and learned the Mustard Seed Sumi technique, so he made some subtle changes to the original mountain stone without anyone noticing any issues.

Although the mountain stone was placed on Su Wu, Liang Sheng had the real control and could enter it at any time when the spiritual vein was opened.

Obtaining the mountain stone was just a superficial authority. Of course, Su Wu might not know what the mountain stone represented, but he could communicate with Kaiyuan Child, who would naturally understand what was going on.

But in fact, the mountain stone was just the first gift Liang Sheng gave to Su Wu. He had another gift for him.

It was a clue about the hidden dark vein of the Church of All Beings on the outskirts.

Originally, Liang Sheng didn't intend to expose the remnants of the Church of All Beings, but when Lingkun was in crisis, he allowed the Zhou Family to hide near the dark vein, which inadvertently alerted the dark vein to the Zhou Family's anomalies.

For the past fifty years, the Church of All Beings had been probing several times. Jin Quanxiu knew nothing about it because Liang Sheng had secretly stopped their attempts.

However, the Church of All Beings persisted, and under these circumstances, it also affected Liang Sheng's planning for the future of Longevity Immortal City. He immediately made his final decision.

If the Church of All Beings wanted to bring about their destruction, this matter must be resolved quickly. Also, Liang Sheng's plan could give Su Wu a boost, allowing him to quickly surpass all competitors and take an absolute advantage.

When Su Wu saw the scroll given to him by the Green Mountain Sect "ancestor," he didn't pay much attention to it at first, but after reading it, he suddenly looked up.

Remnants of the All Living Beings Sect?

He knew that Kaiyuan Child had been extremely resentful towards the remnants of the All Living Beings Sect, and he had no further doubts about the "ancestor" and his connection to the City Lord Mansion.

Unexpectedly, there are still a few Nascent Soul Masters among the remnants of the Church of All Beings. No wonder the "ancestor" didn't dare to act. The "ancestor" smiled faintly at this point.

"Alright, I know you must have your arrangements. Since you are the Master of Destiny of my City Lord Mansion lineage, no matter what orders you have in the future, I will follow them."

After finishing speaking, he didn't say anything further. Su Wu didn't disturb him anymore, hurriedly left, and returned to his room, still excited.

He really had a deep and profound blessing.

Then, without hesitation, he immediately relayed the circumstances of the mountain stone and scroll to Kaiyuan Child, who was in outer space. Upon reading the contents, Kaiyuan Child suddenly opened his eyes wide.

Zhen Yuan's junior brother had made such arrangements before his death? Kaiyuan Child couldn't help but have tearful eyes. Zhen Yuan's junior brother didn't want Longevity Immortal City to fall into the hands of others!

Thinking of this, Kaiyuan Child could no longer control his emotions and shed tears. Zhen Yuan junior brother, rest assured, I will never disappoint your painstaking efforts.

Longevity Immortal City, no one can take it away!

Remnants of the Church of All Beings, go to hell!
