

Bottleneck 731

Chapter 731: All World Talents Gather, Talent Road Winner Takes All!

Beast Swamp.

At the same time where Zi Zai independent cultivator saw the Immortal Dynasty's Chosen from all worlds gathering and rushing towards the Longevity Immortal City, he silently cheered on his disciple in his heart.

But at this time, Liang Sheng remained passive. His face was still steady, eyes closed in cultivation, with no hint of impatience in his heart.

Even though a constant flow of mixed spiritual energy was entering Liang Sheng's body, he didn't know if it was because the resources needed afterward he reached the Refining the God and Reversing the Void Realm increased, or if the progress bar to break through the next realm had just got longer. After absorbing a large amount of spiritual energy, he still couldn't touch the bottleneck of the next minor realm.

However, even so, this didn't mean Liang Sheng hadn't made any progress. His realm hadn't improved, but his battle strength was steadily advancing, which showed a great leap forward.

Because of this, feeling that his strength was growing stronger and stronger, he remained as solid as Mount Tai even while sensing the changes in the Heavenly Secrets and the gathering of talents.

Because he was very confident in his next plan, but he would need a little more time to start the next phase of the plan.

At least, he still needed to devour most of the opportunity left by the person who set up the Floating Arena Platform. After temporary saturation, he would go out to carry out the next step of the plan.

By that time, no matter if Liang Sheng had made a breakthrough or not, he would no longer continue to cultivate.

At that time would be time to kill!

Thinking of this, the corner of Liang Sheng's mouth couldn't help but raise slightly. I wonder if the talents that had come to the outside world were ready to take a hit?

But because he was slightly emotional, the Primordial Mysterious Technique running in his body suddenly trembled. He quickly calmed his emotions and sank his mind entirely into cultivation without caring about anything else.

He was indeed affected by the Heavenly Secrets just now, but Liang Sheng quickly adjusted, not taking it too seriously.

Because if even he was so, what about the other cultivators? They must be even more impatient, and this was his opportunity to fish in troubled waters.

The All World Talents who were rushing to Longevity Immortal City, no matter how powerful they were, Liang Sheng believed they would ultimately become stepping stones for him to embark on the path of longevity.

His thoughts weren't mere daydreams, just because the Heavenly Secrets now were such, as long as they wanted to seize the opportunity of the Immortal Dynasty Competition, they must set foot on Talent Road.

Even if it's dangerous, they have to come. They have been prepared by their elders for the possibility of completely vanishing as losers.

This is Destiny's like a knife. No matter how invincible their battle strength is, as long as they can't escape the calculations of Heaven and Earth, they are fishes on the chopping board, being butchered by destiny at will.

After Liang Sheng calmed down, he warned himself in his heart that he still needed to be cautious and wait again. When he is at the peak of his strength for a short time, that would be the time for him to strike.

By then, to welcome these All World Talents, he would also prepare a significant gift. None of them could escape.

...

Beast Swamp.

Sky Island Arena.

At this moment in the arena, Zhou Shen was somewhat out of breath. But deep in his eyes, he remained extremely calm.

He did put in some effort in dealing with that Demon Clan Demon Emperor just now, but for him, it was just a little bit of trouble.

Even if the other party showed their true form and used the Demon Clan's inherent Divine Abilities, faced with his invincible strength, they were just losers under his hand.

And on the Sky Island Arena, there was only one result for the loser, death!

Looking at the corpse of the Demon Emperor that was falling straight to the ground, Zhou Shen remained extremely calm in his heart. For his later plans, any sacrifice now is worth it.

Now, the not yet grown himself must always remember that he is a human. The Demon Clan that stands in his way must die.

Now, as the Blood and Flesh Essence of the Demon Emperor's corpse on the ground was slowly absorbed by Beast Swamp again, Zhou Shen on the arena was once again enveloped in rich Spiritual Energy.

He ran his internal Techniques, with only one thought in his mind. As long as he kept winning, he would become stronger and stronger.

At this moment, Zhou Shen was deeply relieved, feeling that the timing of his awakening was entirely Heaven's will.

Because during the Immortal Dynasty Golden Era, as long as he planned properly, he would definitely be the biggest winner.

Zhou Shen, who was bathed in Spiritual Energy, didn't care about the outside world's turmoil at this moment. Out of sight, out of mind.

Now, with the arena battles becoming more intense and more and more cultivators (Demon Clan) dying, this situation couldn't stop the enthusiasm of other Human Clan cultivators.

Since they appeared in Beast Swamp, they were already mentally prepared for everything. At this time, they who considered themselves talents, how could they retreat?

Thinking of this, Zhou Shen, who was transforming Spiritual Energy into his Cultivation level growth, became increasingly excited. His opponents in the future would undoubtedly continue to appear.

As for this result, he only has one thought. No matter who his next enemy is, they all have the same result.

That is to die with hatred.

And the final winner of the Golden Era will ultimately be himself. No one can break his plan.

So the following arena was just as he expected. Zhou Shen first cultivated, then fought with a new Demon Emperor Strong on the arena, and then cultivated again and then fought on the arena, over and over again without stopping.

Because Zhou Shen's opponents were all Demon Emperor Strong from the Demon Clan, seeing that the Demon Emperors got somewhat fearful and uneasy after seeing Zhou Shen, only then did Hu Fei and

other Demon Emperor Ancestors stepped forward to stop the Demon Emperors from fighting Zhou Shen.

Chapter 732: All World Talents Gather, Talent Road Winner Takes All!

It's obviously a loss-making deal.

But Hu Fei stepped out at this moment because he had considered the current situation of the Demon Clan. The loss of so many Demon Emperor Strong had already reached their limit of toleration.

They could no longer let the subordinate Demon Emperor soldiers die in vain. After all, this also has some positive effects.

At least at this moment, human cultivators should not think that "Zhou Shen" would have any connection with the Demon Clan, right?

And as Hu Fei and the others had expected, the human cultivators didn't suspect Zhou Shen. Otherwise, how could he have directly killed?

If such a "Zhou Shen" is a Demon Clan, what else in the world can be trusted?

At this time, human cultivators saw that there was no more Demon Emperor challenging "Zhou Shen" on the arena, so a Soul Emergence Strongman couldn't help but become eager to try.

Feng Yuan had been paying attention to "Zhou Shen's" movements, so when he saw that the eager party was a foreign Immortal Dynasty strongman, he immediately had an idea.

It was good to have someone else test the waters.

Thinking about this, Feng Yuan directly provoked the other party, hinting that they were afraid to fight Zhou Shen, making them abandon their concerns and seal the arena for a duel.

Feng Yuan very much wanted to personally kill Zhou Shen, but now that he is a Refinement Void Dao Monarch, if he wanted to personally deal with Zhou Shen, the latter would have to be in the same realm as him.

It's not impossible. As long as "Zhou Shen" keeps winning and relying on the Floating Island Platform winner's opportunity, he might be able to break through successfully.

"What, are you scared?"

Seeing that the Soul Emergence gifted child hadn't made up his mind, Kaiyuan Child couldn't help but assist again. Feng Yuan had spoken earlier, and they already had tacit understanding.

Upon hearing the provocative words from Feng Yuan and Kaiyuan Child, the foreign Immortal Dynasty's Soul Emergence Great Might naturally couldn't show weakness. After all, he had already prepared for death before coming to Beast Swamp.

If he couldn't pass this hurdle, what else could he talk about Talent Road?

So in the next moment, he rushed into the sky, directly arriving at the arena in front of Zhou Shen. Upon seeing him, Zhou Shen's heart couldn't help but feel happy.

"I finally met a human cultivator!"

At this moment, Zhou Shen had also killed some Demon Emperors and felt somewhat soft-handed, really feeling distressed because they were supposed to be his own subordinates' power.

Of course, he would feel hurt, but now there were finally human cultivators on stage who wanted to fight him to the death.

Since this was the case, he would definitely go all-out. The least he could do was make the following duel last at least twice as long as his battle with the Demon Emperors.

After all, he had to give the humans some hope. Otherwise, if he scared everyone away at the beginning, how could he continue fishing?

How about if human cultivators were too afraid to take action on the arena?

As his mind raced thousands of times, the opposing heavenly arrogant monk had already steadied his mind. After he made a move against Zhou Shen, he was first surprised, and then delighted.

The seeming invincible opponent in the arena against the Demon Emperors appeared to be not much stronger than himself, at least not as outrageous as he had imagined in terms of battle strength.

With this thought, he couldn't help but feel more confident. As long as he was cautious, it wouldn't be impossible for him to win.

In the following duel, "Zhou Shen" and the foreign Immortal Dynasty's Soul Emergence Great Might cultivator fought back and forth on the arena.

This made the cultivators below feel somewhat unbelievable.

Just now, when "Zhou Shen" killed the Demon Emperor strongman, it was all swift and domineering. Why was he so weak now?

Could it be that the opponent was already exhausted?

With this thought in mind, all the Soul Emergence cultivators couldn't help but feel a little excited. It's not impossible that, although there was spiritual power cultivation behind the arena winner, Zhou Shen's continuous high-intensity battles would definitely exhaust his spirit.

Therefore, some smart Soul Emergence Great Might cultivators couldn't help but regret at this moment, thinking that they should have been more decisive earlier. Otherwise, they might have been the ones fighting.

They missed their chance and could only hope that there would still be an opportunity to fight against “Zhou Shen” for life or death.

But on the other side, Demon Emperor Ancestor Hu Fei and the others did not feel any regret, instead, they were full of appreciation.

If “Zhou Shen” were indeed the body snatched by their Ancestor, he must be fishing right now.

As for how big a fish he could catch, it would depend on “Zhou Shen’s” performance. They also understood why he had to show weakness.

After all, this was a “same race” competition. If the gap between the two sides was too large, some human cultivators might shrink away.

Only by showing weakness to the enemy could the confidence of the human cultivators be better given and the “Demon Ancestor” could better manipulate others.

With this thought, Hu Fei felt some remorse.

Had he known this earlier, he should have stopped his subordinates from taking action sooner, so as to reduce casualties.

As various forces were watching “Zhou Shen’s” situation with different thoughts, a strong surge of Qi suddenly came from outside the sky.

Upon sensing the strong surge, Hu Fei and the other Demon Emperor Ancestors looked up and saw a trail of light appearing amidst the outer space between the heavens.

When they understood what was going on, their faces couldn’t help but change because it was a gathering of completed heavenly arrogant monks and numerous young Refining Void Realm heavenly talented great cultivators.

In addition to Hu Fei and the others, the atmosphere became even more solemn with the arrival of these foreign heavenly talents.

After these people entered Beast Swamp and sensed the atmosphere of the Floating Island Platform here, they directly headed in this direction.

This sudden development naturally made Hu Fei and other Demon Emperor Ancestors somewhat nervous. These were human cultivators, and there was a saying in the human clan: if someone is not my race, their heart will be different.

Chapter 733: All World Talents Gather, Talent Road Winner Takes All!

However, on the other hand, the faces of the two human clans' Feng Yuan were equally ugly, because with this, their home-court advantage in the East Victory Immortal Dynasty had also vanished.

The more Refining Void Realm Dao Monarchs could enter from the outside world, the harder it would be for them to muddy the waters, and Feng Yuan couldn't help but feel some hatred in his heart.

Why didn't Zhou Shen break through to the Refining Void Realm earlier? This way, he could have taken revenge earlier.

At this thought, he couldn't help but exchange glances with Kaiyuan Child and, upon receiving the latter's support, made a decision in his heart.

Once the opportunity came, he would have no hesitation.

Talented?

Only those who survive can continue to seize the opportunities of the talented!

With the arrival of the Refining Void Dao Monarchs from outer space, they quickly found the previously arriving Immortal Dynasty's chosen talents, who were still standing on another empty spot without moving.

Although they were the best among the talents of all worlds, they didn't overestimate themselves and prepared to observe the situation further.

At this moment, over the floating arena, Zhou Shen didn't use his full strength but was waiting with divided attention. When he saw the arrival of the strong man from outer space, he frowned.

He was not unhappy about the arrival of the talents from the outside world, which would add nutrients to his road to victory. However, he didn't want them to come at this time because it would only increase the variables.

He only wanted to ride the momentum of the "Golden Era" and rule under heaven, fulfilling his grand ambition to subvert the Cultivation World's pattern.

By that time, when he held the reins of Heaven and Earth, it would be the day to restore the glory of the Demon Clan. By then, he would never repeat the mistakes of the Demon Clan's predecessors.

With this thought, Zhou Shen decided not to waste any more time, and directly created an opening, disrupted his opponent's rhythm, seized their weakness, and suddenly unleashed a deadly strike to behead them.

Zhou Shen won again!

All the cultivators couldn't help but sigh as they saw this, but the Out-of-Body cultivators at the same realm didn't panic at all, and were even eager to try.

Because of the strength Zhou Shen had previously demonstrated against the Demon Emperor, they were no match for him. However, after fighting the human cultivators in turn, they thought they wouldn't be without any chance at all.

Zhou Shen's purpose had been achieved, and indeed, the human cultivators were now blinded by greed in their hearts, losing even basic judgment.

But this was good news for him.

Under this delightful mood, Zhou Shen closed his eyes again and sat in meditation, enjoying the influx of spiritual energy as a victor.

At this time, the foreign Heavenly Arrogant Monks had also learned the rules of the Sky Island Arena but couldn't help but frown upon them.

Even with such chances, who could know when these Out-of-Body mighty ones would break through the Refining Void Realm? It was a waste of resources for the Floating Arena to provide such opportunities to cultivators below the Refining Void Realm.

This East Victory Immortal Dynasty indeed wasn't a good place to be. At this thought, the foreign talents scoffed coldly, for after all, it was the East Victory Immortal Dynasty that had been involved in the "Overturning Heaven" scandal.

With this in mind, a few of their leaders gathered together and began discussing tactics secretly. They couldn't waste any more time and should climb on the arena as soon as possible.

They were so proactive because they already considered the Floating Island Arena opportunity to be in the bag.

In this Golden Era, every single opportunity must not be missed, because the Talent Road struggle was so cruel, and a slight difference might lead to vast consequences.

So, after a brief discussion, these foreign Void Refining Geniuses made their final decision and then called over all the previously arrived talents below the Refining Void Realm.

"From now on, you'll do as follows..."

With these instructions given by the talents, the foreign Out-of-Body mighty cultivators couldn't help but frown.

However, looking at the threatening eyes of the Refining Void Realm Dao Monarchs, they reluctantly agreed to their suggestions after considering it for a short while.

After all, even talents had their rankings, and they didn't have much say in front of the Refining Void Realm talents.

Next, they just had to do their best; they were going to climb on the arena anyway. The only difference was that after becoming the winner...

They would have to hand over the opportunities, and this was the helplessness of being less skilled!

The Talent Road was where the winners took all!

Chapter 734: Liang Sheng's Breakthrough Extends Life, Deep Resentment for the Missed Opportunity of Refinement Void

Beast Swamp.

As the talents of the All World arrived one after another, the previously stable situation in the Beast Swamp underwent subtle changes once again.

Feng Yuan and other East Victory Immortal Dynasty's Chosen, as well as Seeking-Truth Lineage Cultivators, and even the demon clan not far away, all temporarily stopped watching the arena battles and quietly observed the movements of the foreign talents.

They could clearly see that the foreign talents summoned the cultivators to the side, surely there was a new arrangement, but they did not know the specifics.

However, no matter what these foreign talents were going to do next, as long as it did not involve them personally, they would not rashly offend them.

Now is not a situation of one or two forces opposing each other. If they do not make adequate preparations, it is very likely that whoever makes the first move will become the target of all arrows.

After the commands were given to the All World talents, one after another, outstanding cultivators below the Refining Void realm stood up and directly entered the arena to fight against the newly victorious cultivator.

Seeing this, Feng Yuan and the others finally understood what the other party wanted to do. With a sigh in their hearts, they squinted their eyes involuntarily.

In fact, they had thought about this behavior before but did not implement it because of their concerns in their hearts.

The other party's idea is very simple: they want their subordinates to quickly seize the arena, and then they will give up their positions, so the Void Refining Realm Dao Monarchs can immediately enter the battle.

These foreign talents have such terrifying execution ability, but are they not afraid that their subordinates will rebel?

This is a Talent Opportunity!

If the All World talents know about Feng Yuan and their thoughts, they would sneer at them immediately, disdainful in their hearts. These East Victory Immortal Dynasty cultivators really lack courage.

Since they have embarked on the path of cultivation, strength comes first. If you have no strength, you have no choice but to follow the arrangement. If you were stronger than me, I would also have to obey your orders.

The survival of the fittest is the first rule of this Cultivation World.

Thinking about the arena battles for so long, the East Victory Immortal Dynasty's Primordial Monarchs have not yet entered the battle, feeling that the cultivators of the East Victory Immortal Dynasty have already been wasted.

Feeling the contemptuous look of the All World talents, the two people Feng Yuan didn't get angry but quietly observed everything happening in front of them.

However, they still have doubts in their hearts. Can there be such an easy loophole in the Floating Arena above?

Soon, the Floating Arena gave an answer, but the result made Feng Yuan couldn't help but raise the corners of his mouth slightly.

After the All World talents' subordinates won the arena battles, they immediately tried to leave the Floating Arena but found that it was impossible to leave.

"Hm?"

This situation also made the All World Talents' Void Refining Realm Dao Monarchs frown. They had never sensed such a heavenly secret before.

As expected, it was absolutely impossible to exploit loopholes.

Thinking of this, they couldn't help but complain about the East Victory Immortal Dynasty's Dao Monarchs for not fighting in the arena as soon as possible.

Looking at their subordinates being forced to absorb the winner's spiritual energy on the arena, their faces became extremely ugly.

However, no matter what, they can't make a move right now. In order to obtain the Floating Arena winner's opportunity, they can only wait for now.

They hope that Soul Emergence cultivators on stage can break through to the Refining Void Realm as soon as possible. After all, every victory in the arena brings at least the equivalent of a thousand years of cultivation. It's not impossible for a breakthrough to happen.

Moreover, now is the Immortal Dynasty Golden Era Grand Competition, the spiritual energy of arena winners must be extraordinary, otherwise, they cannot increase the probability of overcoming bottlenecks. What's the use of it?

But if someone is really stuck at the bottleneck and can't break through, then there's only one reason: this person can't be called talented.

How could a talent not succeed in breaking through?

Soon after the All World Talents arrived at the Beast Swamp, they could only wait temporarily after understanding the situation of the Floating Arena.

Let these supporting characters live a little longer.

...

A thousand miles away from the Floating Arena.

Liang Sheng had opened his eyes from his cultivation, and at this moment, his entire person had undergone earth-shaking changes, his eyes gentle as jade, like a vast ocean.

If it weren't for the data panel's concealment attribute, he would have exhaled Qi during his cultivation, oppressing the entire Beast Swamp.

When Liang Sheng woke up, his face was full of joy because at the moment he finished his cultivation, thunderous roars echoed in the Illusion Realm, and then spiritual energy appeared in the realm.

Actual Heavenly and Earthly Aura that can be absorbed for cultivation.

After seeing the spiritual energy birthed in the Illusion Realm, Liang Sheng immediately entered the realm with his physical body, and he could indeed absorb and cultivate it.

However, as for the source of spiritual energy, Liang Sheng didn't know the reason, he only knew it seemed to come out of nowhere.

Since he couldn't figure it out, Liang Sheng did not think about it for the time being. Besides the changes in the Illusion Realm, his own cultivation level had also made progress.

Now, when he thought of Emperor Dongsheng in his mind, he no longer had any sense of crisis. That is to say, Emperor Dongsheng was no more than an ant in front of him now.

His battle strength finally went up another level. After Liang Sheng carefully and cautiously changed his cultivation techniques to promotion, the data panel also finally changed.

Name: Liang Sheng

Age: 2652

Talent: Innocent Foolishness (Top grade)

Techniques: Primordial Mysterious Technique (Fifth Layer), Ascending Immortality Scripture (Fortieth Layer), Twenty Health Maintenance Techniques (Twenty-Nine Levels), Nail-Head Seven Arrows Technique (Curse), Great Freedom Heavenly Method (Minor Achievement), Grand Solar Golden Crow Illusory Realm (Domain)

Chapter 735: Liang Sheng's Breakthrough Prolongs Life, Refinement Void Opportunity Filled with Resentment

Realm: Refining the God and Reversing the Void (Middle Stage)

Lifespan: 364,074

Among the techniques, after the Grand Solar Golden Crow Void Realm, an additional domain character appeared, which made Liang Sheng can't help but speculate.

Moreover, his cultivation realm has directly become the middle stage, no longer comparable to the modern cultivation realm, this situation also made Liang Sheng think for a while, and then no longer entangled.

As for the Ascending Immortality Scripture he had just switched to cultivating, it had directly broken through from the thirty-third layer to the fortieth layer, which was terrifying.

His lifespan has directly increased by one hundred thousand years, which is certainly a surprise, but Liang Sheng didn't care too much about it.

It's because after breaking through the realm, it directly increased 150,000 years of life, but he cared more about the Health Cultivation Method.

It's difficult to improve the realm, and now only with the help of the Immortal Dynasty Competition can it be so smooth, which made Liang Sheng want to rely on improving his realm to increase his lifespan, not a long-term plan.

He had a feeling before that his Health Cultivation Method would soon break through to the next realm, and once it did, there would be a significant change, but he didn't know how much lifespan it would increase directly.

If it weren't for this situation, otherwise, after this realm improvement, his Health Cultivation Method would be easily broken through with the counter-complement.

Even so, he was not in a hurry. At this time, he lightly clenched his fists, carefully feeling the power within his body, and felt that with a single punch, the entire East Victory Immortal Dynasty would be reduced to ashes.

At this moment, he had never felt as secure as he did now, and more importantly, even when he thought of his master, Carefree Hermit, he no longer felt powerless.

The odds of victory were seven to three.

He had three, and Carefree Hermit had seven!

If he added other means, such as setting up an array, or holding a top-grade spiritual tool, the result would remain the same, with the odds of victory still at seven to three.

As expected, as the realm became more profound, external means were just means after all, and they couldn't affect the overall situation.

As for using the Nail-Head Seven Arrows Technique against Carefree Hermit, Liang Sheng just smiled and didn't think much about it. After all, to test the assassination method, one would have to ask Carefree Hermit how much lifespan loss, isn't this a direct choice of self-destruction?

Only at the moment of life and death would it be possible to use the Nail-Head Seven Arrows Technique, so there's no need to think too much about it.

After understanding his current situation, Liang Sheng directly moved his mind, then hid his entire aura, turning back into the Soul Emergence Realm Completion, and the entire person's otherworldly temperament was gone.

Even if his strength was unrivaled in Beast Swamp, he still had to be cautious, and safety always came first.

In this way, not only can he deceive everyone, but he can also make other powerful beings pay less attention to him. As long as others don't know his real strength, his next plan will have a lot of room to manipulate.

After the accident of "Zhou Shen" appeared, Liang Sheng had a deeper understanding of the Heavenly Secrets, and for his safety, he had no choice but to do so.

Now that he had gained most of the benefits of the Floating Arena in advance, it also allowed Liang Sheng to choose to explore the densely packed stone coffins in the Beast Swamp.

Of course, if he had a choice, he would be afraid to touch this bad luck for the time being because he feared that other accidents might happen.

Of course, there are gains and losses in everything. Since he had gained benefits in advance, I'm afraid the benefits won't be too great in the next competition.

As Liang Sheng's realm broke through, the scenes under his Law of Cause and Effect changed again. It can be summed up in four words—

Advantage is mine!

This made Liang Sheng even more confident, and he felt the unparalleled power within his body, something he had never experienced before.

Now that his strength had reached the point where he could begin to investigate the secrets of the stone coffin, he carefully combed through his plans for the next step, making sure there were no omissions, and then directly got up and headed towards the Floating Arena.

At this moment, what he needed to do was to show up and surprise everyone.

This time, he would make his move!

He just didn't know what kind of expression "Zhou Shen" would have when he saw his sudden appearance.

...

At the Floating Arena.

“Zhou Shen” at this moment once again defeated his opponent and kicked him off the Floating Arena, enjoying the influx of spiritual energy.

As he successively defeated more than a dozen human cultivators, in the influx of spiritual energy in the Floating Arena, his realm also steadily advanced.

At this moment, he was already touching the threshold of the Illusion Realm, so he had a new sense of Heavenly Secrets. If he could be the first to break through the Illusion Realm on the Floating Arena, the chances he would get next would be a surprise.

Thinking of this, even he couldn't help but feel a little excited, after all, at this moment he was just an “Out-of-body Realm Cultivator.”

However, even if his progress was astonishing, he would probably need to defeat two or three more Human Clan cultivators to successfully break through to the next realm and become a Refinement Void Dao Monarch.

As for whether he would attract the attention of the heavenly geniuses of the Replenishment Void Realm below after breaking through the Illusion Realm, he didn't care at all.

Because as long as he broke through, he would be willing to accept challenges from all Refinement Void Dao Lords, and there was no uneasiness in his heart.

Only because he was confident that he was unrivaled among those at the same level, and he could even fight across levels. No matter who it was, he could defeat them with a single slash.

It was precisely this kind of confidence that belonged exclusively to him that made him want to return to the world after tens of millions of years.

After carefully considering his plans for the next step, “Zhou Shen” closed his eyes and immersed himself in the cultivation state filled with the immense spiritual energy flowing into his body.

As Zhou Shen cultivated, the Refinement Void Realm's heavenly geniuses below sensed the fluctuations in his aura and couldn't help but have complicated expressions.

Especially Feng Yuan and Kaiyuan Child, who no longer concealed their killing intent. They were probably the ones who wanted "Zhou Shen" to break through the most.

Chapter 736: Liang Sheng's Breakthrough Extends Life, Deep Resentment for the Missed Opportunity of Refinement Void

They wanted the other party to understand who the real gifted child was, and only by killing each other would they be able to rid themselves of the inner demon of their heart.

Therefore, Zhou Shen drew the attention of most Void Refinement Dao Monarchs at that moment. A Soul Emergence Great Might, fresh from cultivation, prepared to face the next challenger. Standing before him, however, was Liang Sheng, who had quietly infiltrated the crowd.

This was actually what Liang Sheng planned to do next. He was about to personally experience the Floating Arena Battle.

Simply put, the Floating Arena was his construct, detached from the Heavenly Dao Formation. No one understood what this arrangement truly entailed better than him.

For this reason, after Liang Sheng's breakthrough, his first priority was to cut off Zhou Shen's chance of gaining fortune from the Floating Arena.

He was now in the "Soul Emergence Realm". The Floating Arena was his construct, and thus, no surprises would arise. He would become the first entity on the stage to make a breakthrough in the Refining Void Realm.

It had to be him. Otherwise, would he not be making a wedding dress for "Zhou Shen"? Although this was the original plan, this "Zhou Shen" was different from the previous ones.

One could say it was simply the will of heaven.

When Liang Sheng appeared on the arena, everyone else did not pay him much heed, except for the cultivators of the Seeking-Truth Lineage, and Feng Yuan and Kaiyuan Child.

After all, below the Floating Arena, any accidental strike could potentially involve a Soul Emergence Realm cultivator. What significance did Liang Sheng's sudden appearance hold?

However, Feng Yuan held a deep hatred for Liang Sheng and was already wary of him. How could he possibly ignore his existence!

If it weren't for his adversary's assistance to "Zhou Shen" in the Longevity Immortal City, how could he have been completely defeated and utterly humiliated?

Excellent. The list of people he had to kill today just got longer. At this point, Feng Yuan hadn't any intentions of concealing his killing intent, which made many others follow his gaze to the arena where Liang Sheng was.

The victorious Soul Emergence Great Might, still oblivious of Liang Sheng's features, suddenly felt his consciousness engulfed in darkness, and his life-force obliterated instantly.

As the other party hadn't crossed the Fate Calamity, he didn't have the chance to revive his undying True Spirit and could be said to be completely fallen.

At this point, Liang Sheng's performance naturally attracted the attention of the spectators below. No wonder the Immortal Dynasty's Chosen showed such concern. He was indeed not weak.

In one move, a fellow Soul Emergence Great Might was obliterated. The spectators were naturally inquisitive, given that Liang Sheng appeared out of the blue and they had no knowledge of his background. In comparison with Zhou Shen's continuous victories, Liang Sheng's accomplishments were even more spectacular.

But Liang Sheng simply ignored the thoughts of the Void Refinement Dao Monarchs below. Instead, he sat cross-legged, and an enormous surge of spiritual power rushed into his body.

Once the Ascending Immortality Scripture within Liang Sheng had circulated through one Grand Circulation, his aura instantly deepened into an obscure darkness, spontaneously drawing everyone's gaze towards him.

The Void Refinement Realm Dao Monarchs were all too familiar with this situation because this was what happened when they breakthrough.

After so much fighting on the Floating Arena, the first Void Refining Realm Dao Monarch was about to be born. However, it was not who everyone had expected – Zhou Shen.

However, the surprise brought by Liang Sheng on the Floating Arena was far from over. As he broke through, another surge of spiritual energy, even more vast than before, flowed directly into his body.

Even for the Void Refinement Dao Monarchs, the sight of such a massive surge of spiritual power caused their eyes to turn red. They wondered why they let these ants get on the stage, as this opportunity should have been theirs.

Despite their annoyance, they managed to regain their composure quickly. After all, this wasn't necessarily a bad thing. At least, with their opponent breaking into the Refining Void Realm, they could finally join the battle on the arena.

However, apart from the annoyed Void Refinement Dao Monarchs, the one who was exceedingly envious of the chance to breakthrough to the Refining Void Realm was Zhou Shen on the other side.

He had just awakened from his cultivation and before he got a chance to feel the progression of his cultivation level, he witnessed a scene that he could not accept at all.

The opportunity to break through the Void Refining Realm was snatched away by someone else, and it was Elder Liang whom he had been looking for unsuccessfully!

Damn it, that opportunity should have been mine!

In an instant, “Zhou Shen” was filled with a chilling killing intent!

Chapter 737: Today, Suitable for Widespread Killing!

Beast Swamp.

Floating Arena.

At this moment, “Zhou Shen” has bloodshot eyes, and it doesn’t hide his murderous intent at all because the psychological gap is too significant.

One can say that ever since the Demon Ancestor possessed Zhou Shen, everything has progressed smoothly until the very final moment, where a significant setback was encountered.

The thought of the opportunity that should have been his, almost reaching his mouth, was abruptly taken by Liang Sheng. This felt similar to the resentment of having his wife stolen, how could this not result in hatred within “Zhou Shen”?

However, even though “Zhou Shen,” who was previously the focus of the cultivators’ attention, is filled with murderous intent at this point, he is ignored.

After all, no matter how courageous he appeared before, the cultivator who broke through to the Refining Void Realm on the Floating Arena is Liang Sheng.

However, Liang Sheng at this moment seems to be deeply immersed in cultivation, making a tremendous effort to digest the immense spiritual power that flowed into his body just now.

But the truth is not the case. With his current strength, even if the spiritual power was twice as abundant now, it would not affect him in any way.

So, he closed his eyes to cultivate but he was multitasking, watching the situation of everyone and when he saw the resentful expression on “Zhou Shen’s” face, he felt particularly happy.

After all, Zhou Shen, to Liang Sheng, was someone who occupies a certain weight in his life, and now being possessed by the “Demon Ancestor,” is a kind of cause and effect.

The murderous intent in “Zhou Shen” at this moment indicated that the other party had completely fallen into his calculation.

However, even so, Liang Sheng did not let down his guard. The other party is the Demon Ancestor, regardless of the methods he used, he is an old monster that has existed in the world for ten of millions of years.

To deal with such a monster, no matter how careful one is, it is not excessive. Of course, Liang Sheng isn’t in a hurry at this point. After he seized the opportunity to break through the Refining Void Realm on the arena this time, he could slightly slow down the pace.

It is better to let “Zhou Shen” also break through the Refining Void Realm. Only then would it be more interesting, otherwise, it would be a one-man show, how would he be able to carry on?

He planned this not just to exude power on the spot but because to achieve total victory, he must do so.

After breaking through the middle-stage of refining the God and reversing the Void Realm, as inferred under the rule of Cause and Effect, to achieve the best results, Liang Sheng needs to prolong the time as much as possible.

While Liang Sheng is prolonging time by sitting meditation and cultivation, “Zhou Shen” finally meets his next opponent. It was a complete success realm heavenly genius. The intensity of his aura was rare in the soul emergence realm.

He appears somewhat surprised. There were more monks than meat, but this time he was the one who won this jackpot and successfully entered the ring.

The reason why he was eager to confront the previously invincible “Zhou Shen” was because he was stimulated by Liang Sheng’s substantial opportunity.

No one expected that there would be an unexpected gain by breaking through the Refining Void Realm, if only they had entered the arena earlier, would this opportunity be theirs?

There is no answer to this question because it is now a foregone conclusion that Liang Sheng will break through. They can only get on the arena as much as possible to achieve victory and narrow the gap.

However, when the perfection Soul Emergence Realm cultivator saw the bloodthirsty and terrifying eyes of “Zhou Shen,” he was shocked.

What is happening?

Even when facing the Dao Lord of the Refining Void realm, he did not show such coldness before, could it be that the other party is stronger than the Dao Lord of the Refining Void?

How is this possible?

As he was frightened, in the next moment, he had a definite answer, the other party’s strength was indeed comparable to the Dao Lord of the Refining Void.

Because with just one move, he was killed instantly by Zhou Shen. “Zhou Shen” didn’t even want to pretend at this moment and directly killed his opponent.

If he hadn’t been pretending to be inadequate and sparing his competitors earlier on, where would there be such a prolonged time? He probably could have broken through to the Refining Void Realm a long time ago.

If it weren’t for this predicament, how could he lose the opportunity of breaking through the Refining Void Realm? Considering the situation, it was his miscalculation that led to this.

Hatred in my heart!

The more he thought, the angrier he became. Even though he killed his opponent with a single move, his gaze was still directed at Liang Sheng, who was meditating with his eyes closed.

This mysterious Elder Liang with the Cauldron Body indeed has some strength, which took people by surprise.

However, at this moment, even though he still harbored resentment, his state had relaxed slightly as he vented his murderous intent.

At this point, he forced himself not to look at Liang Sheng anymore. He then sat cross-legged, beginning to accept the spiritual energy reward from this round of victory on the arena.

This time, however, “Zhou Shen’s” victory on the arena was destined to be extraordinary because “Zhou Shen” had also broken through!

He followed closely behind Liang Sheng as the next Dao Lord of the Refining Void Realm among human cultivators, which caused the talented cultivators waiting below to cheer.

There are already two Refining Void Dao Lords on the arena at this moment, which means they don’t have to just watch on the sidelines and can now take action personally.

As for whether their opponents are Zhou Shen and Liang Sheng, they didn’t pay it any mind. After all, both of them had just broken through to the Refining Void Realm, how could their strength compare to a veteran Refining Void Dao Lord like them?

The gap in the Refining Void First Layer is vast. Unless there are a few exceptions, it results in instant defeat.

However, if some people are eager to try, there will be some who hesitate. There are always two sides to everything. Even Feng Yuan and Kaiyuan Child have suddenly calmed down at this moment.

The inflamed heavenly geniuses around them are just too much. This reminds them of their past selves, who were also just as confident back then, weren’t they?

But the result is already evident, and one doesn't need to mention it again. At this moment, Longevity Immortal City still belongs to the East Victory Immortal Dynasty, but the City Lord has already changed.

Chapter 738: Today, Suitable for Widespread Killing!

Feeling that something was wrong, Feng Yuan and the other acted with great understanding, simultaneously retreating a step, choosing to let someone else test the waters first.

For some reason, even though they knew that Liang Sheng and Zhou Shen had just made a breakthrough, they couldn't help but recall the previous crushing defeat in the Longevity Immortal City.

It was only when they calmed down that they couldn't help but shudder, as they realized they had been overlooking the great power hidden behind the scenes of the Longevity Immortal City's previous victory.

They didn't know whether their caution was luck or foresight, but their brief hesitation in the midst of the intense atmosphere made them wary, allowing rationality to return.

As befitting the Golden Age Chosen Path, even they fell into the trap unknowingly and almost plunged into crisis.

Thus, they and the Kaiyuan Child moved slower than others, and in their newfound calmness, they noticed that the Seeking-Truth Lineage Cultivators and the Demon Clan had remained motionless for quite some time.

Did they also have concerns?

Not concerning Feng Yuan and the others' cautiousness, after Zhou Shen successfully broke through the Refining Void Realm, no other opportunities came his way.

At this moment, seeing Liang Sheng still in the midst of cultivation, Zhou Shen couldn't help but smile bitterly, feeling more and more wronged.

Since Liang Sheng had already broken through to the Refining Void Realm, at this point, he should not still be cultivating without waking. This indicated that his breakthrough blessing was incredibly profound.

This should have been his own chance!

Just as Zhou Shen was inwardly lamenting, the long-prepared Refinement Void Dao Monarch Chosen ones suddenly surged into the arena the moment the barrier disappeared.

The first Refinement Void Dao Monarch to reach the arena couldn't hide their disbelief and excitement.

On the other hand, the slightly slower Refinement Void Dao Monarchs couldn't help but sigh collectively, as being just one step behind had granted their opponent the advantage.

Victory meant gaining an opportunity, which meant that the victor would become stronger.

However, at this moment, those who made the first move were mostly weaker cultivators in the Refinement Void Triple Level. The stronger ones did not compete together.

They wanted to understand the bottom line of the other Chosen ones clearly. Having reached their level, they had already established great self-confidence.

More importantly, they did not believe that simply winning one round would make those weaker cultivators experience a transformation.

They were talented individuals with a proud nature, but they were not blindly arrogant. By knowing oneself and the enemy, they could achieve hundreds of victories.

Just let the weaker ones gloat for a moment.

At this moment, Zhou Shen also took a deep breath. Although he had just broken through to the Refining Void Realm on the surface, he was confident that even if he faced cultivators in the Refinement Void Triple Level, they would not be his match.

Not only was he unrivaled at the same level, but he could also challenge those of higher levels. This was his real strength, and he had nothing to fear.

However, he would not expose all of his trump cards at once now, even though he had confidence that he would surely be the last one standing.

The Human Clan, having become the protagonist of Heaven and Earth, had persisted for so many years due to their unique traits.

These Chosen cultivators were the best of the Human Clan, so it would not be excessive to treat them cautiously. Zhou Shen's actions could be considered average for now, but as a Dao Lord of the Refinement Void Realm, how could he be simple?

When he made his moves, they seemed ordinary but were packed with astonishing power, and Zhou Shen's opponents changed expression as soon as they touched hands with him.

Such power didn't resemble someone who had just made a breakthrough, but rather the power of an established Refinement Void Dao Lord.

After probing Zhou Shen's true strength, the Refinement Void Dao Monarch became more cautious, focusing his mind and dealing with his moves with extreme care.

This newcomer Refinement Void Dao Monarch was much stronger than he had imagined. If he wasn't careful, he feared that he might fail.

At the same time, their battle was naturally the center of everyone's attention, as Liang Sheng was still sitting in meditation, and they were the only Refinement Void Dao Monarchs fighting.

As time passed, the other Refinement Void Dao Monarchs below the platform reviewed Zhou Shen more and more highly. He had such extraordinary strength that he could be called talented.

Generally, those who had just broken through to become Refinement Void Dao Monarchs wouldn't possess such power, being able to go toe-to-toe with an established Refinement Void Dao Monarch. Zhou Shen even started to gradually gain the upper hand as he grew familiar with his opponent's strength.

But as he watched Zhou Shen's impressive adaptation, the Refinement Void Dao Monarch couldn't help but be amazed. Thankfully, he had not died earlier.

Who would have expected Zhou Shen, who had just made a breakthrough, to be so powerful and adaptable in combat?

At this moment, other than a slight lack of familiarity at the beginning, Zhou Shen showed no flaws and grew at an astonishing rate as the battle continued.

Finally, as Zhou Shen gradually adapted to his opponent's attacks, he actively closed in and unleashed his full strength.

This was the situation everyone saw, but only Zhou Shen knew that he was simply allowing them to adapt to his talents early.

At this moment, the challenger Refinement Void Dao Monarch momentarily succumbed to Zhou Shen's momentum, making a fatal mistake and being immediately subdued by Zhou Shen.

"Gai Ye lost!"

This Refinement Void Dao Monarch was previously called Gai Ye.

But just as they learned his name, the moment of his fall arrived, with Zhou Shen showing no mercy.

After seizing the opportunity of the enemy's mistake, what followed was a storm of attacks, each move filled with overwhelming killing intent.

Not only was he aiming to kill the opponent, Zhou Shen was also venting his emotions. A true strong person could not be swayed by emotions.

Chapter 739: Today, Suitable for Widespread Killing!

He already sensed that his previous emotions towards Liang Sheng were not right, and for his long planning since ancient times, his emotions could not be swayed by such a trivial matter.

Boom!

Only hearing a resounding explosion, Gai Ye directly fell to the ground, his eyes wide open and refused to accept death. After his fall, his corpse was silently absorbed by the Beast Swamp's ground.

Everyone did not look at Gai Ye's fate but instead looked at the panting Zhou Shen on the arena, shocked beyond words.

This person is so powerful!

At this moment, the Demon Clan Demon Emperors Ancestors were both surprised and delighted, as their belief in "Zhou Shen's" identity grew stronger and stronger.

This was their ancestor. This human cultivator must have been possessed. Otherwise, the current situation couldn't be explained.

On the other side, Feng Yuan and the other person couldn't help but widen their eyes. Although they were stronger than Gai, it didn't affect their evaluation of "Zhou Shen."

A gifted child like him was truly terrifying.

The current situation already proved that Zhou Shen and they were at the same level – so what should they do next?

Feng Yuan involuntarily felt a crisis, which was also the sentiment of most ordinary Refining Void Tao Monarchs.

Just as they were in bewilderment, an abrupt change took place on the Floating Arena. It wasn't "Zhou Shen" but Liang Sheng who had awakened at this moment, the first to break through the Refining Void Dao Monarch.

However, "Zhou Shen" did not see this scene because a tremendous spiritual power was descending onto the arena, and "Zhou Shen" was already using his full power to cultivate and transform it into his strength.

Compared to the Soul Emergence Stage Final Victory, the chance to obtain Spiritual Power in the Void Refining Stage was at least a hundred times greater, wasn't it?

No wonder this was the Golden Era. As long as you were strong enough, you could continue to grow stronger. This was the best time for the gifted child.

Liang Sheng opened his eyes, glanced at the blood and flesh essence-absorbed Gai Ye, and a hint of secret laughter flashed through his eyes.

The plan was proceeding as he had previously deduced. The next step was his time to perform. The task he had to do was simple – just kill, kill, and kill!

He would keep killing until the Beast Swamp absorbed its fill, beginning his next plan. As he thought of this, the cultivators on the ground felt a chill in their hearts at the same time.

Because the Heavenly Secrets had changed again.

Feeling this change in Heavenly Secrets, the cultivators currently on the arena were stunned before their power surged explosively once more.

Heavenly Secrets revealed that a Void Refining Dao Monarch had broken through, so they had to quickly kill their opponents and seize the opportunity.

If they didn't, the opportunity would be heavily tilted toward the Void Refining Dao Monarchs!

Naturally, everyone could see the changes in the arena, and they quickly understood what was happening. The Refining Void Dao Monarchs couldn't help but turn their gazes towards Liang Sheng.

The struggle for opportunities began at this moment, although the upcoming slaughter would be even more brutal.

As the intense battles continued on the arena, corpses began to fall from the sky in an instant. Countless cultivators' blood and flesh essence were directly devoured by Beast Swamp.

The barrier's light on the Floating Arena grew brighter and brighter. All the winners were doing their best to absorb the opportunities in the limited time given. Unconsciously, everyone felt an increasing sense of urgency in their hearts.

No one dared to stop. Cultivators below the Refining Void Stage couldn't enter the platform anymore, as those on the ground were unable to join.

Cautiously probing the barrier, a platform winner found himself randomly assigned to another floating platform above.

This situation made all the Floating Island Platform winners understand that the platforms were giving them, the cultivators below the Refining Void Stage, the last opportunity.

As for the cultivators below the Void Refining Dao Monarch realm on the ground, they had already been eliminated – at least from the Floating Island Platform's opportunities.

So then, all the cultivators on the Floating Island Platforms fought each other vigorously, once more accelerating the tempo. The fights grew more and more bloody, and there was only one result for this to end.

There would be only one winner left on the Floating Arena, and this winner would definitely break through the Refining Void Realm. This was the ultimate outcome of the change in Heavenly Secrets.

Upon understanding the situation, all cultivators below the Refining Void Dao Monarch turned pale, knowing they had lost the initiative.

At this time, the other Refining Void Dao Monarchs simultaneously looked towards Liang Sheng on another Floating Arena.

Liang Sheng stood firmly on the platform, unwavering.

Today was the day to unleash great killing!

Chapter 740: One Strike Kill, Another One Strike Kill, These Two Demonic Monsters!

Beast Swamp.

Floating Island Platform.

At this moment, even though the killing intent was pervasive, it was only surging currents under the surface, and for a while, the Floating Island Platform seemed deserted.

This result was because “Zhou Shen” had shown outstanding performance earlier, which made even the average Void Refining Dao Monarchs a bit wary of Liang Sheng.

However, the quiet was only a temporary phenomenon. In order to seize the initiative on the Talent Road, these talented cultivators would not let go of this opportunity.

Moreover, the All World Talents who had arrived at Beast Swamp had already mentally prepared themselves. Even if they died this time, they would only blame their lack of skill and not others.

Under the Heavenly Secrets, the Talented Monks were designed by Heaven and Earth, but they enjoyed it all the same. The Golden Era was an age of the winner taking it all.

At this time, Liang Sheng was not in a hurry. A cultivator's life was all about striving – striving for opportunities, fortune, and the creation of all things for their own benefit.

Now, in the Golden Era, with great opportunities right in front of them, who could possibly let it go without trying to seize them?

At this moment, what the Heavenly Arrogant Monks thought in their hearts had nothing to do with Liang Sheng. After all, under the Heavenly Secrets, no one could escape. Thinking of this, he secretly glanced at the surface of the Beast Swamp.

The surface of the Beast Swamp was already stained with blood. As for Gai Ye, who was killed and fell by Zhou Shen earlier, only a trace of indestructible True Spirit remained to reincarnate and start cultivation anew.

As for his cultivation in this life, it all vanished into nothingness, becoming nutrients for a hidden place in Beast Swamp. As Liang Sheng sighed, a Void Refining Daoist Talent could not resist the temptation and finally ascended the platform.

After all, desire outweighed caution, but everyone wanted to give it a try. No matter what, in their hearts, Liang Sheng had only just made a breakthrough and was in the early stages of being a Void Refining Daoist.

Seeing someone finally taking action, all the Void Refining Dao Monarchs below the platform tensed their nerves. After all, with "Zhou Shen's" previous performance, they couldn't help but pay close attention.

But the results were not as they had imagined, or rather, worse than they had imagined.

It turned out that the Void Refining Dao Monarchs only needed three moves to be directly dealt with by Liang Sheng, their lives and Dao vanishing.

This caused all Human Clan cultivators and the Demon Clan to turn pale in unison. How could someone who had just entered the Void Refining Realm have such battle strength?

This was simply incredible.

Generally speaking, a Void Refining Daoist who had just made a breakthrough could slay Out-of-Body Great Might as easily as slaughtering chicken or dogs. However, when facing an established Void Refining Daoist, although it wasn't necessarily a sure loss, it was improbable at the very least to bring down the opponent like cutting through dried weeds.

But now, first it was Zhou Shen, followed by Liang Sheng, with outcomes even more outrageous than each other's. Even if they were all talented Refining Void Dao Monarchs from different realms, they couldn't help but discuss quietly at this moment.

Could it be that breaking through on this platform would result in a different, more extraordinary battle strength?

Although this conclusion seemed absurd, it could not be explained otherwise, as if there were no other possibilities.

However, Liang Sheng on the platform above did not care about these things. He did not even look at the wary gaze of those Talents, but instead secretly glanced at the northeast direction.

Nevertheless, he did not make any unusual moves. When the platform descended with the spiritual power for the winner, he directly sat down and cultivated, not wasting even a single moment.

If they were to act, they would naturally put on a complete show.

Just as Liang Sheng entered the cultivation state, "Zhou Shen" happened to wake up from his previous cultivation, but seeing the empty platform in front of him, he couldn't help but be stunned.

He originally thought there would be a fierce battle ahead, but he didn't expect that the Talented Monks would actually be able to control their patience and not act recklessly.

He even intentionally waited for a while, but still, no opponent appeared, making him frown.

Could something have happened?

But the situation didn't seem like that either.

He couldn't help but look at Liang Sheng, only to find that the latter was still cultivating. The more he thought about it, the more angry he became.

How abundant were the benefits of the first Void Refining Daoist breakthrough on the Floating Island Platform? Why hadn't the mysterious Liang Sheng awakened yet?

However, he soon noticed that something seemed to be wrong. The expressions of the Void Refining Dao Monarchs below the Floating Island Platform were solemn, and the direction of their cautious eyes was not towards him.

What they were wary of was actually Liang Sheng!

In an instant, he understood what was going on. It seemed that while he was digesting the benefits of the winner's chance, this mysterious Elder Liang must have killed a Void Refining Daoist?

How could this be possible!?

When Zhou Shen thought about this, he finally calmed down and began to seriously regard the highly respected Elder Liang within the Cauldron body.

If the opponent really had such strength, he might have met the most threatening competitor.

With the opponent's monstrously demonic display, their foundation was probably no less than his own!

Not only was "Zhou Shen" looking unhappy, but both Feng Yuan and Kaiyuan Child were also extremely upset. After all, the strength Liang Sheng and "Zhou Shen" had previously displayed made them feel extremely wary.

These two demonic monsters!

It seemed that their revenge would not be as easy as they thought, especially as they calmed down and thought back to how it seemed like they hadn't probed Zhou Shen's depth.

As for Liang Sheng's strength now, Feng Yuan and Kaiyuan Child found they temporarily dared not confront him, while Zhou Shen...

Their hearts sank; they didn't even have the confidence to deal with Zhou Shen now, and this situation made them feel extremely bitter.

They didn't know whether "Zhou Shen" had not given his full strength before, and whether he could fight like Liang Sheng, effortlessly killing his opponents.

They had no answers to this question. When they thought about this, they resumed their composure and wanted someone else to test it out first.
