

Bottleneck 791

Chapter 791: Struggling for Fate in Stone Coffin Space, Demon Ancestor's Plot Spanning Across Ancient and Modern Times!

Stone Coffin Space.

When the proud young geniuses were being calculated by Liang Sheng to sit down and absorb the Ancient Desolate Springs, Liang Sheng also unknowingly escaped the stone coffin's confinement and hid in secret again.

The suppression power above the stone coffin is not small, but Liang Sheng applied the Mustard Seed Technique, which easily broke the confinement power of the stone coffin,

and then Liang Sheng used the hidden technique again, quietly and silently, arriving at the top of another stone coffin.

At this moment, he could wholeheartedly study the stone coffin. Initially, when he saw the strange stone coffin in Beast Swamp, he was full of fear.

Fear between life and death!

But now, he no longer had that feeling, but instead was full of curiosity, wanting to know the secrets contained within.

At this moment, he looked at a nail cap at the top corner of the coffin lid. This was the closest point to the next stone coffin, besides breaking it with brute force.

At this time, he lifted his head again, looking at all the other stone coffins, his eyes couldn't help but squint, just as he expected, this place was actually a large array connected by the stone coffins as its focal points.

Under the Talent of Innocent Foolishness, Liang Sheng had already surpassed the Array Master Realm. With his full attention and divine perception, he could see the clues in the arrangement of the stone coffins, despite their ingenious design.

Of course, he hasn't completely penetrated the essence of this array, but he already knows more than half of it and can take some measures.

In view of this, Liang Sheng looked up again at another stone coffin connected to this one, a smile in the corner of his mouth, this time he could safely go to other stone coffins to absorb the Ancient Desolate Springs.

Because "Zhou Shen" is indeed not here!

More precisely, "Zhou Shen" had also entered a stone coffin boundary space. He probably did not expect Liang Sheng to appear here so soon.

Liang Sheng didn't know that if he had arrived a quarter of an hour earlier, he might have seen "Zhou Shen", but unfortunately the two had perfectly missed each other, and "Zhou Shen" had already entered the stone coffin space where Hu Fei was.

However, for Liang Sheng, this was also a good thing. At this point, he had just come into contact with the Stone Coffin Space and did not know the plans of heaven and earth. Avoiding "Zhou Shen" could also reduce a lot of troubles.

With that thought in mind, Liang Sheng looked at the Ancient Desolate Springs beneath each stone coffin with determined eyes, with greed flashing in them.

He wondered if he would make another breakthrough this time?

Of course, he would not absorb all the Ancient Desolate Springs under each stone coffin, as too much of a good thing is bad. Under extreme greed, there would be great disaster.

Just like it was said before, this Stone Coffin Space condensed a great array, and the array was naturally extraordinary. It should not be easily destroyed.

Since he couldn't see through it, he didn't know what other special means there might be, so it was best not to leave any room for retreat.

However, if he only absorbs the Ancient Desolate Springs to a critical point and stops, there should be no problem.

With this in mind, Liang Sheng's mouth corners curled up slightly again, and he couldn't help but wonder what "Zhou Shen" would look like at that time?

No matter how "Zhou Shen" had become the Demon Ancestor's Body and planned for countless years, what could he do if he ended up doing everything for Liang Sheng's sake in the end?

Perhaps the Demon Ancestor back then, with all his calculations and preparations, never expected that Liang Sheng would be the only variable in the plan.

Next, they would have to see what other means "Zhou Shen" had!

...

Stone Coffin Space Barrier where Hu Fei is.

At this moment, "Zhou Shen" was also standing in the midst of Blood Mountains, but unlike the human geniuses, his expression was extremely calm.

He had no hesitation in his heart. He was indifferent to the blood rain falling from the sky from time to time, and when the blood rain was about to drip onto him, it seemed to be disturbed by an inexplicable force and drifted to the side by itself.

This was, after all, “Zhou Shen’s” last trump card, and he naturally had some special means. Otherwise, why would he have appeared from the ancient times until today?

Since the rise of the human race in ancient times, the demon clan has been heading towards annihilation. In such a predicament, the Four Great Demon Ancestors reached the end of their days and, for the future of the demon clan, used their supreme magical powers to deduce a path to survival.

Eventually, out of the Four Great Demon Ancestors, three fell, and only the Demon Ancestor who seized “Zhou Shen” managed to escape by faking his death.

No, to be accurate, all Four Great Demon Ancestors had died, but the three who died before had ultimately not gained nothing. At the last moment of their lives, they had arranged a future for the Demon Clan.

At that time, the rise of the human race was unstoppable, and no matter how the demon race struggled, they could only retreat from the stage of history with disappointment.

“Zhou Shen” thought about this, his expression somewhat dark. In that situation, what could he do if he didn’t die? Otherwise, with the strength of those old human beings, they couldn’t have failed to notice that he was faking his death.

So at that time, he died completely, which led to the present. The Demon Clan could have a glimmer of hope, and he was on the right path.

At this moment, “Zhou Shen” seemed to have thought of something, his expression becoming even more placid. Just then, he suddenly looked up at the sky, a glint in his eyes.

He then looked in another direction, as if piercing through layers of fog. The Holy Land Destiny Son and Heavenly Fortune Son suddenly felt alarmed but ultimately found nothing upon closer inspection.

The sudden feeling of uneasiness earlier left them unsure about what had happened, but this was not the time to be lost in thought.

Seeing the probing look of the unfettered cultivator next to them, the Destiny Twins continued their experimentation without saying anything.

The depth of the Zhou Family Bloodline is unfathomable. If they hadn't already known some of its secrets, it would not have been impossible for them to be deceived by oversights.

Chapter 792: The Struggle for Luck in the Stone Coffin Space, Demon Ancestor's Schemes Spanning Across Ancient and Modern Times!

Just as Master Heavenly Fate was exploring the Zhou Family Bloodline, "Zhou Shen" also withdrew his gaze. The direction he was just looking at was where the Holy Land was located.

This should be the means secretly arranged by those immortal humans to maintain the survival and continuity of the Human Clan.

However, the entire Zhou Family had already been captured, and "Zhou Shen" had made preparations as well. After all, the younger generation in the Human Clan's Holy Land was not stupid.

But they wanted to use the Zhou Family to find their weaknesses or to deduce his entire plan from the Zhou Family, which was impossible.

If they could deduce his plan so easily, it would be understating him, understating the deterrence represented by the Demon Ancestor back then, and also understating their own Human Clan ancestors.

It should be known that since the Human Clan began to rise, they have been old adversaries. In order to deceive the Human Clan sages, he had to truly die once.

At that time, he completely cut off the foundation of the Demon Clan without leaving any clues. However, his old adversaries were also amazing, as they had foresight and left the Immortal Dynasty Beast Marsh.

Of course, looking at the results now, this seemingly unwise move has actually become a means to help himself, but in fact, it is also a certain restraint.

The existence of the Beast Marsh, like the means he left in the Human Clan, such as the Zhou Family descendants, was a clever move he made for his resurrection.

Back then, he used the bloodline of the Four Great Demon Ancestors as the foundation, purified it, completely eliminated the aura of the demon clan, and with this trace of bloodline, combined with the bloodline of his old human adversaries' descendants, he created a human bloodline that no one could detect any association with the demon clan.

The task of the Zhou Family Bloodline was not to show up in the Human Clan, seize the authority of the Human Clan, but to ensure that their bloodline was passed down and not cut off.

At that time, the Demon Ancestor paid the price of his life to find a glimmer of hope for the demon clan, but no one knew when it would succeed.

In order for the Demon Clan to reappear in the world, he naturally had to ensure that the "Zhou Family" bloodline, which could bear the power of his resurrection, was passed down.

If Liang Sheng knew about this, he would probably immediately understand the origin of the Zhou Family's ability to seek good fortune and avoid disaster.

It's no wonder that the Demon Ancestor deliberately created a bloodline mixed with the human sacred ancestor, making such a miraculous innate bloodline ability not surprising.

Now it seems that the plan of the Demon Ancestor has been a complete success. Otherwise, how could he successfully seize "Zhou Shen" and return?

Thinking of this, "Zhou Shen" also felt an extraordinary amount of emotion. He didn't know how many years had passed since the era of the Four Great Demon Ancestors.

He looked at the familiar blood-red space in front of him, and it took a while for him to calm his emotions and stop reminiscing about the past.

Now that the big competition of the Immortal Dynasty was underway, “Zhou Shen” originally intended to slowly invade the human luck as a member of the Human Clan, but unexpectedly discovered that Heaven and Earth treated everyone equally.

If it weren’t for this, how could this place become a trial ground for talented people? Although the fortune of Heaven and Earth has not yet turned, this is already the only opportunity they can grasp.

That’s why “Zhou Shen” has decided to play his last card this time. Only by quickly regaining his peak strength can he secure the fortune of the demon clan as soon as possible.

If they miss this opportunity, the protagonist of Heaven and Earth in the future will still be the Human Clan, and they might be more stable and unshakable.

“Zhou Shen” looked at Hu Fei, who had lost his direction in the Stone Coffin Barrier, and gently tapped his finger. Afterward, the external world trembled. The real Ancient Desolate Springs beneath the stone coffin began to flow backward.

This is also the reason why “Zhou Shen” let Hu Fei and other members of the demon clan enter the Stone Coffin Barrier at this time, just like the talented people of the Human Clan.

Since the return of the Demon Ancestor is the trump card for the rise of the Demon Clan, the Stone Coffin Space naturally has many wonderful uses. The most basic function is to increase the strength of the Demon Clan.

When the Four Great Demon Ancestors fell, their remains were left unsearched. Even the Human Clan sages did not know their whereabouts, becoming an eternal mystery.

Now there is an answer. While the Human Clan sages left the Holy Land inheritance, the Demon Clan actually also had the Stone Coffin Space. It’s just that no one knew that the Four Great Demon Ancestors were so ruthless and determined to bet their lives on the future.

Speaking of this, Hu Fei and other members of the Demon Clan also have outstanding talents. After all, the resources of the Beast Marsh in this era are scarce. Even though the Demon Ancestor arranged the odds for them, they still have to say they are innate talents.

The underground demon world of the Beast Marsh represents another means arranged by the Demon Ancestor. It's just that now is not the time to expose it. In the third stage of the Talent Road, the success of the Demon Clan is imperative!

Thinking of this, "Zhou Shen" finally stopped wasting time, and under his control, the Ancient Desolate Springs passed through the barrier and fell on Hu Fei.

After Hu Fei immersed himself in cultivation, "Zhou Shen" immediately went to the next location of the Demon Ancestor of the Demon Emperor and made the same arrangements.

After "Zhou Shen" had arranged all the Demon Ancestors of the Demon Emperors and some elite members, he finally let out a sigh of relief.

This matter has come to an end for now, and he can now free up time to look at other talented people of the Human Clan. It's not that he doesn't want to take action against them personally, but the Heavenly Secrets don't allow it.

When Heavenly Secrets decided that the Stone Coffin Space would become the third stage of Talent Road, it naturally controlled "Zhou Shen", the Demon Clan ancestor.

Otherwise, how could the Human Clan's talents come here? They would just be lambs waiting to be slaughtered. That's why the talents of the Human Clan can still safely live within the barrier.

This was "Zhou Shen"'s own arrangement. If it were completely according to what Heaven had indicated, the Human Clan should have appeared directly in the real Stone Coffin Space, not within the barrier.</p>

Chapter 793: Struggling for Fate in Stone Coffin Space, Demon Ancestor's Plot Spanning Across Ancient and Modern Times!

This was just "Zhou Shen" trying to buy some time, first letting the Demon Clan youngsters grow stronger and more confident.

At this time, “Zhou Shen” let out a breath. Ever since he entered the Stone Coffin Space, he had been bearing the pressure of heaven and earth.

It wasn’t until this moment that he could no longer hold on, and with a wave of his hand, the entire Stone Coffin Space vibrated, and the great formation was completely activated.

In the next instant, each stone coffin barrier suddenly experienced an earth-shattering collapse, and disturbances shook heaven and earth. Gifted disciples and the resting Demon Clan quickly stopped in their tracks and cautiously guarded against danger.

But in the next moment, the sky cracked open, and a deep energy came from beyond the heavens. After the barriers shattered, they were finally connected to the real Stone Coffin World.

Feng Yuan couldn’t help but think of the Kaiyuan Child at this time. Right now, it was strikingly similar to the Mustard Seed Technique, and upon thinking of this, he had a sudden realization.

So this was an illusory space. No wonder he hadn’t encountered any Gifted individuals of the Human Clan or Demon Clan for so long.

Once he understood the situation, Feng Yuan didn’t hesitate and immediately soared up, heading towards the outside of the barrier.

It wasn’t just Feng Yuan; other Immortal Dynasty gifted individuals also realized what was going on and rushed out of the barrier one after another, just like the Demon Clan that hadn’t been scheduled for cultivation.

Feng Yuan appeared in the real Stone Coffin Space, looked down at the stone coffin under his feet, and his expression became somewhat gloomy. They had been deceived by “Zhou Shen” all along.

They should have appeared here from the beginning, especially when they saw the Ancient Desolate Springs beneath the stone coffin. They were even more annoyed at wasting so much time.

Fortunately, they had reacted at this point, so it wasn't too late. Just as the Gifted individuals of the Human Clan were about to absorb the Ancient Desolate Springs, a sneering laughter suddenly sounded.

Looking up, who could it be if not "Zhou Shen"?

After laughing out loud, he didn't care about the reactions of the Gifted Human Clan. With a flick of his finger, the stone coffins under their feet suddenly shook.

However, they were the Gifted individuals of the Human Clan, most of whom had already cultivated to the Refining Void Realm. Naturally, they managed to remain steady without any slip-ups.

But even so, their faces turned extremely ugly as just a moment of shaking made the Ancient Desolate Springs disappear.

It was undoubtedly "Zhou Shen" who had tampered with them. There was no doubt about it, but "Zhou Shen" didn't care. He wasn't defying fate, so he could still make some moves.

The Ancient Desolate Springs were actually still there, but the Gifted individuals of the Human Clan needed to break the restrictions themselves. If they couldn't, they could only say that they weren't worthy of being called Gifted.

At this moment, a sudden roar appeared in the Stone Coffin Space, followed by a series of consecutive roars, one after another, like toppling dominoes.

It was Hu Fei and the other Demon Clan members waking up one after another. At this point, their cultivation had improved considerably, surpassing the Fourth Heaven of Void Refining.

With gratitude in their eyes, Hu Fei and the others looked at "Zhou Shen". If not for the arrival of the Demon Ancestor, they would likely have become cannon fodder in the great battle of the Immortal Dynasty.

"Ancestor! Heaven bless our Demon Clan!"

Hu Fei couldn't help but kneel on the ground, tears streaming down his face. The other Demon Clan members felt the mighty power within their bodies and naturally followed suit, kneeling down.

At this moment, "Zhou Shen" didn't say a word. He was completely satisfied with Hu Fei and the other Demon Clan descendants. With their current strength, they could completely follow the rules of Heaven and Earth in the upcoming arrangements.

While the Stone Coffin Space seemed to be the foundation of the Demon Clan, sharing it with the Human Clan seemed like a loss for the Demon Clan, but from another perspective, it was a great joy for the Demon Clan.

The Human Clan and the Demon Ancestor leaving the Stone Coffin Space formed a causality that allowed "Zhou Shen"'s hidden plan to play out, once again providing a perfect answer.

At this moment, even "Zhou Shen" couldn't help feeling that Heaven and Earth had finally changed their minds and once again favored the Demon Clan.

But just then, another roar suddenly sounded. "Zhou Shen" didn't pay attention at first, but in the next instant, he turned his head sharply.

That's because the roarer was not someone from the Demon Clan, but a Gifted individual of the Human Clan. How could they possibly absorb the Ancient Desolate Springs?

At this moment, a figure flashed through "Zhou Shen"'s mind, and he couldn't help grinding his teeth and cursing with hatred, wanting to eat the flesh and drink the blood of that person.

Liang Sheng!

It must be him!!!

Chapter 794: Demon Ancestor's Cunning Plot, the Holy Land Must Take Action

Stone Coffin Space.

This is surely Liang Sheng up to his tricks again!

This was Zhou Shen's immediate intuition, as apart from him, no other variables could possibly emerge.

Yet at this moment, the next move of the Human Heavenly Talent who had just burst the boundary made Zhou Shen's face change once again.

"How dare you mess around, die!"

In the next moment, Zhou Shen made his move. However, his target wasn't the Heavenly Talent but rather the stone coffin below him.

Previously, those who entered the Refinement Void Triple Level three years before the start of the Golden Era were forbidden from making moves against the Heavenly Talent Monks, as indicated by the Tianji.

Zhou Shen was also a Heavenly Talent originally. But now that he had been possessed by the Demon Ancestor, naturally, he was also under this rule.

However, Zhou Shen had no choice but to make his move now. Who could have imagined that someone was stirring things under his watchful eyes?

Liang Sheng!

You, a mere mortal, have ruined my plans!

Apart from the mysterious Elder Liang, who else could continue to embarrass Zhou Shen one after another?

Ever since the Demon Ancestor possessed Zhou Shen, each step of his plan was carried out nervously according to a predetermined path.

But despite all the planning, things always went wrong in the end and never reached the best effect.

Many reasons caused this, but every time there was a problem, Liang Sheng's figure was always there. He was like a sticky bubblegum that couldn't be shaken off.

Now that he finally arrived at the Stone Coffin Space, he was still playing into the hands of his opponent. A human Heavenly Talent was even given a head start, obtaining the Ancient Spring Water.

So this time, Zhou Shen had made up his mind to find Liang Sheng as soon as possible to avoid endless trouble.

After all, if Liang Sheng could appear in the Stone Coffin Space and even enable a Human Heavenly Talent to obtain the Ancient Desolate Springs, it indicated that he had already broken through the array eyes.

Under the Dao of Celestial Secrets, Zhou Shen couldn't directly move against the Heavenly Talent. Therefore, he targeted the stone coffin under the Heavenly Talent's feet. The Heavenly Talent would naturally try to evade it.

However, when he moved, Zhou Shen was still a bit apprehensive. As he was afraid that if he could not stop Liang Sheng's behaviour, unexpected events would occur, which would even affect all his subsequent plans.

Liang Sheng!

This man might be my disaster after my rebirth!

Zhou Shen looked at the stone coffin where the Human Heavenly Talent was. The Human Heavenly Talent, who had already broken through earlier, was a little thrilled. After all, who could have thought breaking through one level would be so easy?

He couldn't help but exclaim that the path of Heavenly Talent deserved its reputation!

I could break through so easily, which proves that I am the Heavenly Talent!

However, before he could even look closely at the Human Heavenly Talents and Demons appearing densely on the stone coffins, he felt an intense force coming his way.

Especially when he saw Zhou Shen's eyes fixed on him, he couldn't help but be horrified. Before he could figure out what was going on, he instinctively moved aside.

Then he felt a tingle on his scalp, as a shockwave appeared next to him. Then, as if having an epiphany, he opened his mouth wide.

"Fellow Daoists, please look at the top of your coffins, at about eight out of ten nails. That's where the life of the coffin is, also where the Ancient Desolate Springs is obtained."

Then he continued to prevent any doubts, "Zhou Shen had previously guided the Beast Swamp Demon Clan to the top of the coffins. Just follow my method to break the coffin's bindings and get the Ancient Desolate Springs.

I am a living example now, having successfully obtained the Ancient Desolate Springs. What are you fellow Daoists hesitating for?

We can indeed lose, but we can't lose to the demon race. This is an internal competition of the human race, what does it have to do with the demon race?

So that's why I am willing to share this secret. I hope you fellow Daoists trust me this once, considering my status as a human."

Just as the Human Heavenly Talent finished speaking, Zhou Shen finally reacted. Blinded by rage, he shouted, "You despicable human, you're going to die!"

Under Zhou Shen's furious blow, the Blood-colored Coffin rattled again, as if something was about to break out from it.

Luckily, Zhou Shen soon calmed down. The Human Heavenly Talent had already dodged the shockwave of the coffin, so it was useless now.

Also, it wasn't the time for him to make a move. Thinking of this, his eyes turned icy cold. He watched as the Human Heavenly Talents started to move one by one on the numerous stone coffins, finding the gate of life.

At this moment, Zhou Shen's face was frosty.

"Liang Sheng, no more hiding. I know you set all of this up. Come out and fight me fair and square!"

But there was no response.

Zhou Shen felt bitter. He was restrained by Celestial Secrets, unable to act against the Human Heavenly Talents. Having to watch as they obtained the Ancient Spring Water, he closed his eyes in frustration.

At this point, it's better out of sight, out of mind. He searched the entire Stone Coffin Space with his mind, aiming to find Liang Sheng.

However, after a few breaths, apart from seeing the Human Heavenly Talents breaking open the coffins with delight and obtaining the springs below, there were no signs of Liang Sheng.

Damn, this Elder Liang is incredibly cunning. It wasn't an accident that he made the City Lord of Longevity Immortal City return in defeat with just his Nascent Soul.

At this moment, Zhou Shen couldn't help but curse in his heart. Liang Sheng had already become a significant concern. Before he woke up, he never thought such a situation would occur.

However, if he put himself in Liang Sheng's shoes, he would probably do the same, secretly planning everything in the shadows.

Chapter 795: Demon Ancestor's Cunning Plot, the Holy Land Must Take Action

At this time, he took a deep breath, forcing himself to calm down and consider how to solve the current problem.

However, since Liang Sheng had already unlocked the Ancient Coffin Spring, why didn't he personally obtain the opportunities here?

This was a genuine ancient spring water that could greatly increase the cultivation of human cultivators. Why could the other party resist the temptation?

Just like before, in order to better integrate into the Human Clan and carry out his plan, he did not hesitate to kill the Demon Clan members.

However, Zhou Shen did not know that at this time, Liang Sheng was also feeling uneasy in secret, not that he did not want to obtain the opportunities of the stone coffin.

He initially planned to take all the Ancient Coffin Spring Source while Zhou Shen had not yet appeared. However, the moment he had this idea, a sense of imminent danger immediately enveloped his heart.

There was a problem here!

Of course, there wouldn't be any problems with the opportunities at the source of the Ancient Coffin Spring; otherwise, the big competition in the immortal dynasty would become a joke. The unease stemmed from after absorbing the Ancient Coffin Spring Source.

Liang Sheng speculated that if he absorbed the Ancient Coffin Spring Source now, he might be involved in some peculiar cause and effect, which would be detrimental to his plans later.

Since that was the case, despite the regret in his heart, Liang Sheng naturally had to suppress his greed. The increasingly frustrated look of Zhou Shen made him feel even more fortunate to restrain his greed.

Before the situation was clear, he would not take the initiative to appear, simply because there were other problems with the Stone Coffin Space!

Zhou Shen, as a reincarnated Demon Ancestor, was facing the current situation. Watching the Human Clan absorb the Ancient Coffin Spring Source, he was unable to prevent them, so he let them be.

His performance naturally fell into Liang Sheng's eyes, making Liang Sheng feel even more uneasy and continued to study the secret of the Stone Coffin Space in secret.

Although Zhou Shen had lost his composure earlier, he was now extremely calm. In secret, Liang Sheng could already confirm that the other party was brewing a conspiracy.

Seeing that Liang Sheng did not show up, Zhou Shen directly soared into the sky. Under the confinement, he could still move freely and rise into the air, showing that the Stone Coffin Space was under Zhou Shen's control, or at least he had gained some authority.

Seeing Zhou Shen suddenly make a move, the human geniuses paused their actions, then immediately accelerated their speed, trying even harder to absorb the Ancient Coffin Spring Source.

As long as they had more strength, they would have more safety. At this time, in the Stone Coffin Space, although the Demon Clan had a geographical advantage, the protagonists of the world were still the Human Clan, and they could still contend.

Of course, with excitement in their hearts, they still felt uneasy; at times, a sense of unease surged, but their hands did not stop absorbing the Ancient Coffin Spring Source.

Zhou Shen's divine consciousness had already covered the entire Stone Coffin Space, but at this moment, he still personally walked to every corner, trying to see if he could find any clues to Liang Sheng.

Meanwhile, Zhou Shen's preoccupied behavior that paid no attention to others gradually put the human geniuses at ease.

At least, Zhou Shen did not seem to be as uncontrollable in the Stone Coffin Space as they had imagined.

Moreover, Zhou Shen was obviously looking for Liang Sheng. Liang Sheng had always been mysterious, and now he even made Zhou Shen suffer consecutively, which greatly discounted the invincible image of Zhou Shen, the Demon Ancestor.

As time went by, Zhou Shen's expression became even more calm because he had already confirmed his efforts were in vain.

He knew that if Liang Sheng did not want to come out, he would not be able to find him. At this time, he came to the conclusion that it would be better not to waste time.

Since the other party was a variable, they must have their special abilities. He could only temporarily give up, but this did not mean that Liang Sheng had the upper hand.

Because as long as his plan was successfully completed, Liang Sheng, a mere variable, would actually have no impact on the result.

However, it was a pity!

With this in mind, Zhou Shen no longer harbored any hope of finding Liang Sheng and returned to the central stone coffin.

At this time, Hu Fei and other Demon Tribe Warriors had all awakened. Under the previous act of defiance by Zhou Shen, the strength of these Demon Tribe Warriors had made a tremendous improvement.

Hu Fei felt the surging power within him at this moment. If he had such power when the Human Clan first arrived at the Beast Swamp, he could have made sure they never returned.

At this moment, he heard a secret transmission in his ear. It was Zhou Shen's personal command to him. After hearing it, Hu Fei's face was filled with fanaticism, and he obeyed the order without hesitation.

"Kill!"

The conflict between the Human Clan's geniuses and the Demon Clan came so suddenly, and the confinement on the stone coffin instantly disappeared.

The Demon Clan instantly broke through the stone coffin's limitations and charged forward with ferocious faces clearly visible. Some of the Human Clan geniuses were still in cultivation, on the verge of breaking through, but had to interrupt their practice due to the danger posed by the Demon Clan's attack.

Damn!

Just when they were about to make further progress, they were interrupted by the Demon Clan. Blocking others from improving their cultivation could be likened to killing their parents, not to mention that the ones who made a move were the Demon Clan.

This was a deep-rooted hatred between life and death.

It was already a life-and-death competition between the two races, and now, with the hatred in their hearts, they fought fiercely against the Demon Clan in an instant.

This was a life-and-death battle!

Neither side held back; from the very beginning, they went all-out. This was already a Bloody Coffin Space, and at this moment, it became even more terrifying, filled with murderous intent!

Go to hell!

At this time, some human geniuses were killed instantly, while some demons were killed violently by human geniuses. In any case, everyone faced life and death.

Chapter 796: Demon Ancestor's Cunning Plot, the Holy Land Must Take Action

Regardless of whether they were Human Heavenly Talents or Demon Clan's Experts, their bodies instantly turned into mummies upon fall, their flesh and blood essence completely devoured by the Stone Coffin.

The Stone Coffin became more and more blood-red, extremely eerie.

Liang Sheng silently hid on the side, observing the current situation of the Stone Coffin. He couldn't help but think back to when they were at Beast Swamp when the surface devoured flesh and blood essence, allowing the Stone Coffin to appear.

That was also the first time Liang Sheng felt great terror between life and death, so that should be where the secret hidden by the Stone Coffin lies.

Hu Fei had already successively killed three Human Heavenly Talents at this time. He couldn't help letting out a long howl, and the sight of this made other Demon Emperor Ancestors just as wild.

Their battle was unstoppable, naturally boosting the morale of the demon race, but luckily Zhou Shen hadn't made a move at this time, so the Human Heavenly Talents could still hold on.

Even when the Human Heavenly Talents gradually woke up from their cultivation and started their counterattacks, both sides were evenly matched.

However, the evenly matched scenario was even more bloody and brutal, and unknowingly, almost half of the Human Heavenly Talents and demons had rested here forever.

Both the human race and the demon race suffered heavy losses!

Under the crimson soak of the space in the Stone Coffin, it became more weirdly blood-red. Liang Sheng suddenly paused because he felt as though he had heard a heartbeat.

But when he concentrated to listen again, there was no sound at all. It seemed like it was just an illusion, so there must be a problem!

At this time, the entire battlefield seemed even more ghastly in Liang Sheng's eyes.

...

Holy land.

Surprisingly, Zi Zai independent cultivator wasn't cursing anymore, instead, he was helping both Master Heavenly Fate and Master Heavenly Luck.

Master Heavenly Fate and Master Heavenly Luck were currently studying the Zhou Family Bloodline, and the more they studied, the more amazed they became.

Or rather, a hint of fear was spreading in their hearts.

Is the Zhou Family really a human race bloodline?

Yes!

Is he considered a demon race?

No.

But in the Zhou Family Bloodline, there is the foundation of the demon race, and they can also cultivate the demon race's method. The Zhou family children are actually a hybrid of human and demon bloodlines.

Of course, to fully unravel the secrets in their bloodline, a key is naturally needed, and Master Heavenly Fate and Master Heavenly Luck know absolutely nothing about the clues to the key.

But they can feel that the existence of Zhou Family Bloodline between heaven and earth is definitely a conspiracy of the demon race.

The situation of the Zhou Family is like the demon race is actually devouring the human race bloodline, trying to give birth to the perfect form of the demon race.

To be precise, this Zhou Family Bloodline is like an experimental subject in the hands of the Demon Ancestor, although it is far from perfect, but it has already achieved results.

If they were to guess based on this, the Demon Ancestor resurrected and possessed Zhou Shen in the Path of the Heavenly Talent. The reason might not be that simple.

At this moment, they suddenly had a flash of insight, and then they looked in shock towards the direction of the Stone Coffin space. The aura there was surging, and the aura of the human race and demon race was completely erupting.

Could it be...?

If the Demon Ancestor had planned to fuse the human Heavenly Talents with the demon bloodline beforehand, by the end of the Path of the Heavenly Talent, would it really allow the Demon Ancestor to succeed in his plan; to successfully take over someone else's nest?

Thinking of this, they increasingly felt that the truth of the Demon Ancestor's resurrection was exactly so. In other words, this Grand Competition of the Celestial Dynasty of the Golden Age had deviated from its course from the moment Zhou Shen was possessed.

Heaven and earth did not prevent the Demon Ancestor before because this was merely the fusion of the two races' bloodlines. In the eyes of heaven and earth, there is no difference between the pure-blood human race and the fusion-blood human race, no wonder heaven and earth allowed the demon race to join the Grand Competition of the Celestial Dynasty.

Under these circumstances...

Wait!

Thinking of this, Master Heavenly Fate and Master Heavenly Luck suddenly looked at each other. After the ancient cultivation period, there had been great chaos in the human race, and some strange situations recorded at that time seemed to find explanations.

But at that time, the Demon Ancestor had already fallen and there was no resurrection like now, so how could he possibly control the human race's decision-making?

The more Master Heavenly Fate and Master Heavenly Luck thought about it, the more terrified they became, and in the end, they finally suppressed these thoughts because they couldn't be chaotic.

However, since this is the case, they had made up their minds that they absolutely could not let the Demon Ancestor's plan proceed smoothly.

They must take action!

Chapter 797: Meeting of the Demon Ancestor in the Stone Coffin Sacred Place, Liang Sheng Steps in to Show Heroes!

Stone Coffin Space.

The slaughter between the Human Heavenly Talents and the Demon Clan continued, and so did death. The entire space seemed to be filled with nothing but the thickening color of blood besides the sounds of the battle.

Zhou Shen was now suspended in midair, not making another move. All he needed now was to maintain control of the overall situation.

Moreover, the current situation was moving toward the best possible trajectory. Even though the plan was progressing smoothly, he did not let his guard down.

He was still closely watching the battlefield, not missing any details. As long as Liang Sheng did not appear, he could not afford to be careless.

However, as time went on, his complexion became more and more rosy. The current situation was much better than he had expected.

It's almost there!

It should be said that the Human Heavenly Talents were truly fortunate, as their luck reached its peak. Any one of them was far superior to countless ordinary cultivators.

Since the Stone Coffin Space was the third stage of the Heavenly Talents' path, naturally, there wouldn't be no rewards for the victors. It was just a chaotic battle for now.

However, because of that, the strong grew even stronger. Even though it seemed that many Human Heavenly Talents had fallen, the top ones among them became even stronger after killing their opponents.

If it were not for Zhou Shen's earlier intervention and various arrangements, the situation for the Demon Clan could have been much worse.

If the pace of the previous Immortal Court competition had continued, no one would know how strong these Human Heavenly Talents would become in the future.

Not to mention, many of the Immortal Court Emperors had emerged from the Immortal Court competition to establish their great reputations.

Unfortunately, in what could be called the strongest Golden Era, the end of these Human Heavenly Talents could only be here. There would be no other great achievements for them.

Because Zhou Shen would never allow them to leave alive. This was the Stone Coffin Space. As long as heaven and earth did not interfere, he had the confidence to achieve the best effect for his plan.

However, when looking at these Human Heavenly Talents, his eyes were extremely gentle. After all, they could contribute to the resurgence of the Demon Clan.

Of course, in Zhou Shen's view, it was their honor. After all, they could be regarded as having made a great contribution to the rise of the Demon Clan.

In any case, the current situation was a good result of the Demon Ancestor's planning back then. The groundwork that they had laid was now beginning to germinate.

Zhou Shen's eyes seemed distant as if he had fallen into some long-lost memories, with the corner of his mouth involuntarily curling up slightly.

At this moment, on the battlefield, as the Human Heavenly Talents fell, the Demon Clan also suffered heavy losses. At first glance, it could not be said who was losing more.

But Zhou Shen was not concerned about this situation at all. The Beast Swamp Demon Clan could die. They were like wild grass; when the spring breeze blew, life would burst forth once again.

At this time, Zhou Shen snapped back from his memories, looked at the situation on the Stone Coffin Space battlefield, and saw the thickening color of blood in the space. His excitement grew stronger.

Under these circumstances, even if Zhou Shen was still wary of Liang Sheng's hiding place, he had to temporarily ignore Liang Sheng's threat and start his next step.

Through Zhou Shen's divine sense scanning, the Demon Clan had suffered far more casualties than the Human Heavenly Talents. Naturally, there were reasons for this.

Actually, if it weren't for the fact that the Stone Coffin Space provided some benefits to the Demon Clan, and Zhou Shen had used his incredible means to enhance their strength earlier, they would've already been defeated.

Seeing that the time was ripe, Zhou Shen didn't waste any, forming a Spell Seal with his hands. In the Stone Coffin Space, the sound of wailing and sobbing could be heard, like grievances from ancient times, making people unconsciously indulge in it.

After that, countless blood-colored cobwebs appeared in the Stone Coffin Space. With each stone coffin as a node, they began to connect in a complex pattern.

The Demon Clan and the Human Heavenly Talents were still engaged in a fierce battle, and their peripheral vision naturally caught sight of this situation. However, they could only turn a blind eye to it, not caring about it at all.

The blood and flesh essence that had fallen from the fallen Human and Demon Clans began to be transmitted and circulated through the blood-colored threads. Afterward, the entire space slowly erupted with wisps of a strange aura.

Seeing this, the smile on Zhou Shen's face involuntarily grew. His most crucial first step had been taken completely.

The plan was progressing smoothly, and the threat from Liang Sheng seemed to have faded. As his plan continued to unfold, even if the Human Heavenly Talents grew stronger, they would no longer pose any threat to him.

His results now were much better compared to his previous estimations. The plan spanning countless eras came to fruition in an unexpectedly pleasant surprise. Zhou Shen could only thank heaven and earth for giving him this opportunity once again.

However, this showed that the Human Clan had dominated the luck of heaven and earth for many years, but their luck had now run out. The day had come for the rise of the Demon Clan.

At this moment, Zhou Shen suddenly looked up at the sky, his face becoming solemn involuntarily. This was not because he had found Liang Sheng's whereabouts, but because new trouble had arrived outside the Stone Coffin Space.

This situation was also within Zhou Shen's expectations. If the Human Sacred Land remained indifferent to the commotion he had caused, then they deserved to be destroyed.

However, he did not pay much attention to the countermeasures laid out by the Human Sacred Land, his old rival. Now that they had finally detected the anomaly, it was already too late.

Perhaps they could only be anxious now. After all, under the Tianji of the Golden Era, how could they take action?

Would they not fear the Wrath of Heavenly Thunder? It might be manageable under normal circumstances, but now that the Demon Clan had joined in, they had to consider the cost.

Chapter 798: Meeting of the Demon Ancestor in the Stone Coffin Sacred Place, Liang Sheng Steps in to Show Heroes!

If not for this, how frustrating it would have been for him to see the Human Heavenly Talents breaking through in advance and obtaining the Ancient Desolate Springs.

He was still somewhat worried that the first step of his plan would not go smoothly, but fortunately, Liang Sheng, whom he had always been wary of, did not interfere, allowing him to complete his final layout.

Returning to the matter at hand, the three figures that appeared outside the Stone Coffin Space were Master Heavenly Fate, Master Heavenly Luck, and the Zi Zai independent cultivator.

After discovering the secret of the Zhou Family Bloodline, they could no longer remain composed, and came to the Stone Coffin Space at the earliest time.

They were extremely afraid that the Demon Clan was, as they had guessed, inheriting the Human Bloodline, meaning there would be no more humans in the world after this.

If such a result really occurred, it would be their sin, and would be unworthy of all the remarkable achievements made by the human predecessors.

When they arrived at the Beast Swamp, they saw numerous stone coffins in the sky, without being able to see the actual situation inside the Stone Coffin Space.

Previously, the Stone Coffin Space had briefly appeared in the Beast Swamp during the competition of the Human Heavenly Talents, but they didn't pay too much attention to it at that time.

Now in retrospect, they had been careless, thus being a step behind now. Had they known what they know now, they would have acted decisively and destroyed the Stone Coffin Space without hesitation.

Yet, who would've thought that the Demon Clan would be so cunning? At this moment, the Zi Zai independent cultivator secretly glanced at Liang Sheng's lifeline token and let out a sigh of relief, as his apprentice was safe for the time being.

Thinking of this, he turned to look at the anxious Master Heavenly Fate and Master Heavenly Luck, hurriedly spoke up. He'd never seen them so impatient before, they hardly had the demeanor of banished immortals now.

"Don't worry, my apprentice is currently safe, which shows that the situation hasn't reached its worst yet.

However, we can't let our guard down, as circumstances can change at any time. At present, it is only us who can act. Anyone else would be of no help."

Hearing this, Master Heavenly Fate and Master Heavenly Luck both nodded their heads. If not for this, they would not have left the Human Sacred Land and come here in person.

Seeing the two of them calming down and being able to communicate, the Zi Zai independent cultivator continued to ask:

"What should we do next? Do we need to forcibly enter this Stone Coffin Space, and once we get in, should we hold back or give our all?"

Master Heavenly Fate replied directly, "We should give our all. Holding back is simply a sign of cowardice. If we take a step back now, it's feared that there will be no future for the human race."

"Fine, let's follow this plan!"

The Zi Zai independent cultivator had no objections at this point. After all, this decision was in line with Master Heavenly Fate's character, which is to control his own destiny.

If he didn't act himself and left the future to fate, that would be something Master Heavenly Luck might do.

Thinking of this, the Zi Zai independent cultivator couldn't help but glance at Master Heavenly Luck, wondering what his decision would be, as he suspected that Master Heavenly Luck might have a different opinion.

After all, the secrets of heaven were clear, and there was no sign of the destruction of the human race yet. All of their previous actions were based on their speculation of the Demon Clan's conspiracy, hence this expedition.

Surprisingly, Master Heavenly Luck also agreed with Master Heavenly Fate's viewpoint at this moment. This left the Zi Zai independent cultivator somewhat dumbfounded, but he quickly realized that the situation was probably even more serious than he had anticipated.

However, there's no going back now, since they had already made a decision, the Zi Zai independent cultivator consciously took action.

In terms of breaking spatial constraints, if the Free Gate was the second best at it, no one would dare to claim they were first! After all, how could those who are free be easily confined? This is part of the reason why the Zi Zai independent cultivator, while inferior to Master Heavenly Fate and Master Heavenly Luck, could still be considered their equal.

Just as the Zi Zai independent cultivator broke through the spatial restraints, "Zhou Shen" managed to regain his composure.

Even if the Human Sacred Land had already reacted, they would still need time to break the restraints, which would by no means hinder his plans.

He looked down at the Human Heavenly Talents who were still fighting fiercely. Although they had become stronger due to the continuous killing, in “Zhou Shen”’s eyes, they were nothing more than fodder for his plan.

Their efforts were in vain; all they could do was struggle in their death throes!

The Stone Coffin Blood Net had already been formed. He had gotten past the hardest times and was not worried about unexpected occurrences anymore. At this point, he could take his time, there was no need to take any more risks.

With this in his mind, his concern about Liang Sheng hiding in ambush was greatly reduced. He even started to take an interest in the battle on the battlefield.

Countless Demon Tribe Warriors had been killed or injured, but it didn’t matter. After all, the future of the Demon Clan was still dependent on the human bloodline!

The thrill of taking away all of the humans’ luck made “Zhou Shen”’s face flush. He wondered if the humans also felt the same in the past.

The human predecessors had emulated the Demon Clan’s methods, advancing step by step, and finally replaced the Demon Clan as the protagonist of this world.

Since then, the Demon Clan had begun to decline. After countless epochs, they had finally waited for this chance to rise again.

Thinking of this, “Zhou Shen” couldn’t help but clench his fists. He couldn’t lose, and absolutely must not lose.

Kill! Kill! Kill!

The more brutal the battle on the field, the closer “Zhou Shen”’s plan was to completion. But just around this time, a cracking sound suddenly echoed. Though it was not loud, it still made “Zhou Shen” immediately look up at the sky.

Because the seal of the Stone Coffin Space was broken!

How is this possible?

How could it be so fast?

“Zhou Shen” was clear about how strong the restraining force of the Stone Coffin Space was. Thinking of this, he couldn’t help but perk up a bit, but he didn’t get overly nervous.

Chapter 799: Meeting of the Demon Ancestor in the Stone Coffin Sacred Place, Liang Sheng Steps in to Show Heroes!

After all, this situation was within his expectations, it just made him aware that the human holy land indeed had some methods.

But the situation was not as “Zhou Shen” thought. Although the Zi Zai independent cultivator could break the spatial restrictions, it would still take some time.

If things progressed under normal circumstances, the Zi Zai independent cultivator might not even have succeeded in breaking the spatial restrictions by the time the dust had settled in the battlefield within the Stone Coffin Space.

But there were variables in this.

It was precisely because “Zhou Shen” had already identified Liang Sheng as a variable that Liang Sheng naturally could not disappoint “Zhou Shen”.

So, Liang Sheng took action!

Under the no bottleneck state of his Talent of Innocent Foolishness, his formation attainments had long surpassed everything, making him the first person in history.

Since he was able to see the Coffin Array Eye and snatch the Life Gate before, which greatly helped the Human Heavenly Talents obtain the Ancient Desolate Springs' cultivation, he naturally saw the crisis after the Blood Network appeared as well.

Although he couldn't completely understand the layout of the Stone Coffin Space now, destruction was always easier than creation and construction in any case.

Outside the space, it was very difficult for the Zi Zai independent cultivator to destroy the confinement of the Stone Coffin Space, but Liang Sheng easily did some tricks inside the space.

So, under the unintentional cooperation of the master and apprentice Zi Zai independent cultivator and Liang Sheng, the situation of breaking the spatial restrictions occurred.

"Zhou Shen" did not show much change in his facial expression, as the Zi Zai independent cultivator and Master Heavenly Fate had entered the Stone Coffin Space the moment the restriction was broken.

At this moment, they looked at the Blood Network connecting to the stone coffin with extremely serious expressions, as if everything they had deduced and prepared for had become a reality.

Such a ferocious appetite of the Demon clan, Master Heavenly Fate naturally could not remain indifferent to the events. However, at this moment, "Zhou Shen's" cold sneer suddenly came forth.

And then "Zhou Shen's" voice rang out.

"Why bother yourselves with it? If you dare take action, aren't you afraid of the Heavenly Secrets reversing? You should know that I didn't dare to make a move on the Human Heavenly Talents just now, otherwise, how could they have survived until now?"

By the same token, if you dare act now, I would be absolutely impressed. Let's see if you dare to risk it all.

Of course, if you make a move, I originally intended to spare you some dignity, but now it is impossible. I can only say, why did you have to walk into this trap and slap your own face?"

"If that's the case, let's risk it all. Let's see you make your move."

At this moment, "Zhou Shen" appeared fearless, while Master Heavenly Fate and the others remained silent. However, they were indeed considering what to do next.

"Zhou Shen's" words were not unreasonable. If Heavenly Secrets reversed, even if they could stop the demon clan's plan, the human race would be abhorred by the heavens and earth, and it was unknown how many more variables would arise.

It's just like the Seeking Truth Lineage in the past at East Victory Immortal Dynasty. How powerful was the Seeking Truth Lineage back then, but in the end, they still ended up hiding in different places, like a rat crossing the street.

Unless...

My fate is mine to control, not the heavens!

Unfortunately, after countless epochs have passed and with the title Master Heavenly Fate inherited by countless people, this great goal has not been realized yet.

Master Heavenly Fate couldn't help but feel caught between a rock and a hard place!

Seeing this, "Zhou Shen" couldn't help but smirk, as everything seemed under control. However, at this moment, a voice suddenly appeared.

"So, would there be any problem if I make a move?"

At the next moment, Liang Sheng appeared directly in front of the four people, and the Zi Zai independent cultivator couldn't help but smile with satisfaction. His disciple's entrance into the fray had indeed brought them honor and face.

Worthy of being my disciple and a member of the Free Gate!

Seeing Liang Sheng suddenly appear, "Zhou Shen's" face darkened. Although the opponent's strength was powerful, it indeed belonged to the category of Human Heavenly Talents.

That is to say, Liang Sheng can indeed make a move without causing any reaction from the heavens and earth, but his attitude seemed too arrogant.

Are you really so sure you can beat me?

Such an underestimation of the plot to revive the demon ancestor!

Chapter 800: The Mysterious Demon Clan, the Human Clan's Catastrophe

Stone Coffin Space.

Zhou Shen couldn't help but be left speechless!

You must know that this is the Stone Coffin Space, not the previously encountered Trial Space of Talent's Road. I hold the home field advantage here, so why does Liang Sheng still have so much confidence at this time, even actively challenging me?

But if he's seeking death, then I'll go along with it!

At this moment, anger filled his heart, and thus Zhou Shen's first reaction unexpectedly became rash, even wanting to teach Liang Sheng a lesson right away.

However, before he even lifted a finger, the Zi Zai independent cultivator burst into a hearty laugh, directly summoning Liang Sheng to his side.

The Zi Zai independent cultivator carefully sized up Liang Sheng and found that there were no injuries on his disciple. He nodded in satisfaction.

My disciple's achievements in the Talent Summit are remarkable. He has grown to be almost as strong as a cultivator of the Seven-fold Realm of the Void, and his real power appears to be even stronger.

Is there anyone among the Immortal Dynasty's Chosen who can rival him? He truly is the extraordinary talent of my Unrestricted Sect's single lineage tradition and showcases the glory of our sect.

"Master."

Seeing the Zi Zai independent cultivator, Liang Sheng naturally greeted him respectfully. Master Heavenly Fate and Master Heavenly Luck had noticed Liang Sheng earlier, but this was their first personal encounter.

What an exceptional cultivator! The Zi Zai independent cultivator has indeed taken on a good disciple. But with a personality like the Zi Zai independent cultivator's, I wonder if he will lead Liang Sheng astray?

Master Heavenly Fate and the others made a silent comment to themselves, although they could not express these thoughts openly now, as with a formidable enemy at hand, they could not indulge in any behaviour that might affect their unity.

At this moment, the Zi Zai independent cultivator displayed a slightly proud expression. He was just about to speak when he heard a sarcastic laugh from the opposite side. Zhou Shen simply couldn't bear it any longer.

The other side clearly knew that the Heavenly Dao was no longer within the Human Clan. But they were still drastically underestimating me, acting as if they didn't even see me and chatting away to their hearts' content.

If this was the situation before, Zhou Shen would not bother about it. But upon seeing Liang Sheng, his heart was filled with furious rage, and he was unconsciously affected by it.

The sound of the battlefield still continued below. Even after the arrival of Master Heavenly Fate and the others, the Human Clan talents did not recognize them. After all, Master Heavenly Fate was a great power of the Holy Land, who would actually have met them before?

At this time, since Zhou Shen had already spoken up, the attention of Master Heavenly Fate and the others was immediately drawn back to him.

Although Zhou Shen realized then that he shouldn't lower himself to Liang Sheng's level, what was done was done and there was no use regretting it.

At this time, Liang Sheng did not take the lead; instead, he stood directly behind the Zi Zai independent cultivator, maintaining his modest attitude as a disciple and indicating that he would follow his Master's direction in everything.

The Zi Zai independent cultivator also kept quiet, handing over the stage to Master Heavenly Fate and the others. As the leaders of the Holy Land, they naturally needed to make the decision about what to do next.

Over the years, although the Zi Zai independent cultivator had always been disagreeable with Master Heavenly Fate and the others, and always taunting them rudely, the fact of the matter was that they were stronger than him.

All this time, Master Heavenly Fate and Master Heavenly Luck hadn't made any moves, but suddenly they acted, directing their effort straight at Zhou Shen.

Zhou Shen had been prepared long before this so he remained calm when he saw them acting. His strength now was not comparable to that of Master Heavenly Fate and Master Heavenly Luck.

However, Zhou Shen still wanted to test them to see just how big the gap was between them and himself. After all, as far as he was concerned at this point, whether he lived or died in this body seized from someone else didn't matter.

Because even if he died, it wouldn't impact the overall situation. From the moment the Blood Line of the Stone Coffin had formed, the situation of the current Human Clan had become irreversible.

Moreover, since the Heavenly Dao hasn't shown any signs right now, it meant that the plan was advancing smoothly. Zhou Shen didn't feel any psychological pressure.

But while he was waiting for Master Heavenly Fate and the others to attack him, they turned out to only be bluffing and veered off toward another direction.

From the start, Master Heavenly Fate and the others had seen the current situation for what it was. Killing Zhou Shen didn't have much meaning; they could instead try to stop the formation of this bloody Stone Coffin.

From their perspective, the Human Clan is the Human Clan and the Demon Clan is the Demon Clan. Even when the Human Clan rose to power back in the day, they never considered taking the path of the Demon Clan's bloodline.

The ancestors of the Human Clan merely wanted to derive Techniques by imitating the Demon Clan, but if Zhou Shen's plan succeeds now, the Human Clan would be completely overtaken by the Demon Clan, and it would no longer remain true to its essence.

They absolutely would not allow such a situation to occur, so their so-called attack just now was merely to distract Zhou Shen. The very next moment, they drew their blades, directly aiming at the Blood Line of the Stone Coffin.

Master Heavenly Fate and the other's powers were exceptionally strong. Once they acted, the wind and clouds shifted instantly, and the noises of the battlefield abruptly ceased.

Everyone, whether they were from the Demon Clan or the Human Clan's talents, were overpowered by an indomitable aura, involuntarily lifting their heads to look in the direction of Master Heavenly Fate and the others.

Who is this person? How can they be so powerful?

If I were to face such a powerful attack, I would be completely eradicated and ceased to exist in an instant, with absolutely no other possibility.

Who is the other party?

But their questions were bound to remain unanswered. At this time, Zhou Shen had also reacted, realising that he had been played by Master Heavenly Fate and the others, making his heart surge with anger.

The other side had just disregarded him, treating him like an insignificant pawn, believing that if he were lost, it would not matter much, so they didn't care.

This was just like a slap in the face, hitting him hard.
