

Chapter 268 A Man’s Matter Does Not Need To Be Solved By A Woman

Hearing Roman’s words, Spencer sneered, "Do you really think Ryan is as stupid as you? This document says the transaction was done on the name of Monor Group. It's impossible for him to destroy his own company. He sent this document here to give you a warning, so that you can exercise restraint."

Ryan knew that this was a cover-up. Instead of waiting for Roman to make a move, he might as well make the first move. In fact, he was reminding Roman that he had something on Roman that he could use at any time.

Roman slammed the table angrily. "That son of bitch! I don't believe that I can't find anything on Ryan."

Roman thought about it carefully. Although Ryan was useless in the eyes of outsiders in these years, he had always been cautious when doing things. He had never fallen into someone else's hands.

"Let's put the evidence aside for now. You should see how to solve the company's problem." Spencer sighed and said.

This time, Roman gave twice the price to the client. It could not be changed anymore. If the cooperation in the future were to follow this price, the company would definitely be in deficit.

"Got it." Roman said and something flashed through his mind suddenly. “Wait!”

"What is it?" Spencer, who was about to leave, turned around and frowned.

Why was this man so shocked?

"Do you know how Elena gave birth to the child?"

Roman suddenly remembered that when he went to Ryan's house last time, Ryan told him about Elena’s kidnapping. Ryan was furious at that time. And he also had not seen Elena in these days.

If this matter was revealed to the public... the husband and wife would be ashamed.

Roman was in a good mood when he thought of this.

Hearing this, Spencer's face suddenly turned cold. "The matter between men must be settled in the way of men. You should not involve women in it."

Spencer knew very well what happened to Elena. He also knew that Elena had suffered from the stimulation of having the child in the wild and had just gotten better.

If Roman spread this matter out, Elena’s reputation would be tarnished. At that time, she would definitely not be able to take it and go crazy again.

"Think about it. If this matter is spread, this will definitely affect Elena’s image. After all people will not care about the facts, but think that something bad might happened to her when she was kidnapped. If we exaggerate the matter and control the public opinion, it will be a huge blow to Elena.”

“When that happens, Ryan will definitely put all of his energy into Elena and will have no time to take care of the company’s matter. At that time, we can take the opportunity to make a move."

When he said that, Roman’s eyes were shining with cunning light. He had already thought of Ryan's failure.

Hearing this, Spencer went forward and angrily grabbed Roman's clothes. "Roman Monor, you better give up this idea. Don’t you dare use Elena as a shield to achieve your goal. Otherwise, just like how I can help you to set up the company, I can make you a beggar also."

"Don't you want to defeat Ryan?" Roman frowned when he saw Spencer’s angry look.

Roman could feel that Spencer hated Ryan more than he did. Otherwise, he would not have asked Spencer to cooperate with him to suppress Ryan.

But why was Spencer was so furious when he mentioned Elena?

Spencer sneered, "Even if I want to defeat Ryan, I will use the proper method instead of using a woman's reputation to suppress him. I am not that of a scoundrel to use a woman’s dignity to achieve my own selfish motives."

Spencer had also investigated the kidnapping. If no one had helped Elena at that time, she and two children would have died long ago.

It was already fortunate that Elena was able to survive the kidnapping. If Roman exaggerated the matter and reported it to the public, it would be a huge blow to Elena.

Seeing Spencer so opposed, Roman also softened his attitude. "With Ryan's ability, it is not difficult for him to suppress this matter. I do not want to hurt Elena either."

"Roman, you better control your thoughts. I still say the same thing. A man's matter does not need to be solved by a woman. Don’t think about involving Elena in this mud." Spencer warned Roman not to act rashly.

If Roman spread the news of Elena being kidnapped and having children outside, it would affect Elena and those innocent babies.

Seeing Spencer so protective of Elena, Roman frowned.

Spencer and Elena were not related by blood. Why would he be so worried about Elena's reputation?

Spencer himself said that he and Ryan were sworn enemies. But it was hard not to doubt Spencer’s concern for Elena just now.

Spencer... Elena... Ryan... What’s the relation between these three?
