

Chapter 305 A Shameful Incident

Elena was still thinking about these things when Ryan’s voice came from the living room. "Okay, understood. I'll be right there soon."

Elena and the maid looked back and saw Ryan walking quickly towards the kitchen.

Ryan stood at the door of the kitchen and looked at Elena who was still busy. He slowly spoke. “Elena, there is an emergency at the company that needs me to deal with. You should rest at home."

Elena did not answer Ryan. The atmosphere filled with a strange silence.

The maid did not want the two of them to be embarrassed, so she took the initiative to speak on behalf of Elena, "Mr. Monor, don't worry. I will take care of the Madam."

After hearing the maid's words, Ryan felt relieved and left.

When the sound of the footsteps faded, Elena turned around and looked at the door of the kitchen. Her eyes dimmed.

. . .

In the Monor Group.

When Ryan came to the CEO's office, Finn and Xavier were already waiting for him inside.

Xavier saw Ryan and ran over anxiously. "Mr. Monor, she's inside."

Ryan's face was cold. He opened the door of the lounge and saw Amber lying inside, with a blank expression. Her clothes were untidy and her well-maintained face devoid any color.

There were many bruises and wounds on their exposed arms and legs.

Ryan took a glance and closed the door. He frowned and asked, "What happened?"

"When Finn and I came to the company early this morning, we didn't expect to see Miss Amber, who had fainted at the parking lot of the company. All the surveillance cameras around have been destroyed. There is no way to investigate." Fortunately, Xavier and Finn went early. If others found out, Amber's reputation would be ruined.

"Any other discoveries?" Ryan asked.

"Well, according to her condition, Miss Amber might be. . ." Xavier did not continue. To a woman, this was a shameful incident.

"Mr. Monor, I think there is something wrong with this matter. " Finn, who was silent, suddenly said.

"Speak." Ryan's face darkened.

"I think this is a premeditated plan. If Miss Amber was drunk and had such an accident, then why did those people throw her at the parking lot of our company? Furthermore, they destroyed our company’s surveillance video. Why would they do so?"

From the moment, they discovered Amber till now, Finn felt that it was not as simple as it seemed to be. If it was just an ordinary person doing that kind of thing to Amber, they would not have thought of such a thorough way to get out of the situation.

"Someone is trying to frame her." Ryan said with a cold expression.

Finn nodded and said, "If someone finds Amber at the entrance of our company, who does Mr. Monor think is responsible for?"

Ryan's eyes were full of coldness. "The Thomas family and the Langford family will have their wedding in a few days. If something happens to Amber at this time, both Langford family and Thomas family will naturally shift all their attention to me."

Ryan originally thought that he could live a peaceful life without taking the initiative to attack, but he didn't expect that others wouldn't want him to live a good life.

"Finn, you go and investigate this matter carefully. Do not let go of any clues!" Finn’s computer skill was outstanding. Even thought the surveillance were destroyed, Finn could handle this matter.

"Yes. " After saying that, Finn walked out.

Ryan realized that some things were no longer under his control. There must be a greater conspiracy behind this.

"Pa!" The sound of broken glasses came from the lounge. Ryan heard it and immediately got up to open the door.

As soon as the door was opened, he saw Amber was holding a broken piece of glass and was going to cut her wrist with it.

Ryan quickly rushed over and knocked down the glass pieces in Amber's hand. He said sternly, "What are you doing?"

"How can I still have the face to live in this state? I might as well die! Let me die!" Amber shouted with a broken expression. That incident of the past had already left a shadow on Amber. Now that history was repeating itself, how could she still have the face to live?

Ryan gave Xavier a look. Xavier quickly picked up the broken glass pieces from the ground.

Ryan stood opposite Amber. He said with a straight face. "Don't forget that you still have a child. If something happens to you, will the Thomas family let your son go?"

"But what can I do? What did I do wrong? Why did the heavens punish me like this?" Amber squatted on the ground and bawled loudly. Any woman who experienced this kind of thing would go crazy.

"I have already sent someone to investigate. I will give you an explanation. Rest well. I will help you hide the truth from the Langford family." Ryan knew that this incident had dealt a huge blow to Amber. He could only minimize the impact of the incident.

"Hiding it? Heh. . . I never wanted to marry that William, so why should I be afraid that they would find out?"

Amber was still crying. She didn't care about the reputation of the Thomas family or the Langford family. She only cared about Ryan the most.

But even at this moment, even after such a big thing happened to her, Ryan was still so distant to her. This made Amber even crazier.

"You can leave now! I want to be alone!" Amber curled up on the bed and didn't want to talk anymore.

Ryan gave her a look and sighed inwardly. He then lifted his foot and walked out.

Amber looked at his retracting back from the corner of her eyes and her lips twitched violently. Her nailed dug deep into her palms.

At this moment, she needed comfort. She needed a warm embrace to lay on and cry. But Ryan did not even look at her the second time before he left.

He wasn’t like this in the past!
