

Chapter 306 I Want You To Take Responsibility For Me

Ryan walked out and got someone to prepare some clean clothes and food. He sent them to the room.

In the afternoon, Finn rushed back in a hurry and handed the USB to Ryan. "Mr. Monor, the investigation is clear. "

Ryan inserted the USB into the computer and saw a video on the computer. Two men came in a SUV and dragged Amber inside the vehicle. Then they raped Amber and threw her in the parking lot of the Monor Group. The video was not good to see.

Finn opened his mouth as if he wanted to tell something. But then he hesitated, wondering if he should tell Ryan what he had heard.

Ryan saw that Finn's expression was not right and asked, "If there is anything, tell me."

"Their goal is not actually Miss Amber Thomas, but... Madam." Finn said after hesitating a long time.

"What?" Hearing this, Ryan instantly stood up, "Explain each and every details of the incident!"

"Although our company's surveillance video is broken, the monitoring system is still intact. It can be seen that they mistakenly thought Miss Thomas as your wife, so they did that kind of thing. They wanted to film the video and use it to threaten you. But they did not expect that they found the wrong person, so they hurriedly removed the surveillance video and escaped."

As soon as Finn finished speaking, the lounge's door opened with a bang.

Amber rushed out of the room and pulled Finn's collar. "What did you say? Is it because of Elena that I became like this?"

Her face which was covered with brushes twitched horribly and the hatred in her eyes could not be concealed at all.

Finn was speechless. He did not expect Amber to still be here.

Ryan's face was cold. "Don't be so agitated. The matter has not been investigated clearly."

"Shouldn't I be agitated? Isn't this clear enough? I am suffering for Elena. Elena is your wife. Why should I bear such pain for her?" Amber's emotions were agitated because the stimulation she received made her no longer look like a lady from a prestigious family.

She was on the verge of collapsing.

"I will give you an explanation for this matter." Ryan said gravely.

In the past, he had indeed done many things, which had upset some people. But he had never thought that those people would come after Elena now.

God forbid, if this matter happened to Elena. . .

She might have killed herself by the time he found out.

A chill ran down his spine, as he did not dare to think any further.

He had never thought that his past actions would affect the future life of his wife and children.

Ryan who was lost in thought came back to his senses by Amber's shrill yell.

"Explanation! You want to give me an explanation? What right do you have to give me an explanation? Ryan Monor, you clearly know my feelings for you, you clearly know how much I care about you but you refuse to let me stay even a thousand miles away from you! Do you think you are not responsible for what happened yesterday? I came here yesterday because I want a little help from you. But you rushed after that woman ignoring my situation. After that you did not even answer my phone! And now this thing happened with me!"

"This clearly should have happened to Elena! They were targeting your wife! But I became the prey of those predators! Why should I endure this? Why should I bear the shame in the place of Elena? Elena is the only reason why I am in this state today!"

Amber's eyes were mixed with hatred. She hated that she could not tear Elena into pieces at this very moment!

Let alone Ryan, even Xavier and Finn who were standing at the side could not help but show their dissatisfaction at Amber's words.

How was this their Madam's fault? Their Madam would not even think about this type of horrible thing, even in her dreams.

Amber was saying as if it was Elena who arranged those bastards to do this kind of thing.

Ryan looked at Amber and his expression turned colder. He understood that it was a hard thing for any woman and Amber was greatly stimulated emotionally, but that did not mean that she could say anything she wanted about Elena.

And from Amber's words, it was clearly evident was she was blaming Elena for all her misery.

"Amber, I can understand your feelings at this moment, but that did not mean that you can blame Elena as you wish. It's not her fault! I will give you an explanation. If you have any questions, just tell me." At this moment, Ryan could only calm Amber down first.

Ryan did not want to get involved in these things anymore, but this matter involved Elena. Furthermore, it happened in the premises of the Monor Group. So even if he wanted, he could not let go of this matter.

Ryan's words their neither lenient nor hostile. It was as if he was announcing an official statement.

Amber saw that even after such a big thing happened to her, Ryan was still protecting Elena, totally ignoring her pain and agony.

Seeing his distant attitude, her heart sank into the abyss.

The pain and anger in her heart gradually turned into hatred and resentment.

She swore in her heart: Elena, I must make you pay for this!

After a while. Amber wiped away her tears and looked at Ryan. She was not as agitated as before. She slowly spoke.

"I don't have any request. I want you to take responsibility for me."
