

The Immortal Cultivation Game Has Come True

#Chapter 511: 367: Devouring Heaven Fruit!_1 - Read The Immortal Cultivation Game Has Come True Chapter 511: 367: Devouring Heaven Fruit!_1

Chapter 511: Chapter 367: Devouring Heaven Fruit!_1

This is tough!

Xuanqing frowned.

While he had clarified the origin of the Fiery Shadow Ancestor and discovered there was indeed a higher-level world beyond the universe,

he was at a loss for how to handle the current situation.

“Hehe-Hehehe!”

Perhaps the gulf in their powers reached the face of Xuanqing.

The Fiery Shadow Ancestor immediately perked up, instantly sweeping away his previous air of defeat. After a few wild laughs, he taunted:

“I am one with the Sun World, unless you can extinguish this sun, you... are powerless against me!”

Upon hearing these words,

Xuanqing snickered.

The next moment,

“Devouring Heaven and Earth!”

With the operation of the Swallow Heaven Saint Art, a Heavenly Eye appeared on Xuanqing’s forehead. The projection of the Swallowing Sky Tree took on an illusory shadow, overlaying his physical body.

In an instant!

Xuanqing seemed to transform into a Swallowing Sky Tree the size of a regular planet, imposing and imposing, intimidating to behold.

And yet,

Compared to the entire sun, it was still futile. If we talk about size alone, a single sun is about one million and three hundred thousand times the size of Water Blue Star.

“Let’s try if it can be devoured and refined!”

Thought Xuanqing.

Of course,

he didn’t harbor high hopes.

The size and mass of a planet represent the strength of that planet’s Origin Power.

A star as enormous as the sun, with such high mass, its Origin Power must be incredibly fierce. Refining or absorbing it would be extremely difficult.

However... to know for sure would require attempting it.

“Hahaha- it’s futile, while your Ancient God Clan possesses the power to create and absorb, this is a star-level planet.”

The Fiery Shadow Ancestor’s face was filled with disdain, laughing maniacally as if mocking a nemesis who had bitten off more than they could chew.

Worthy of mention is,

His use of words such as ‘star’ and ‘sun’ points out that these terms are also used in the Endless Chaos World.

When you reach this level of cultivation, the names of things lose their meanings.

As explained earlier, at this level, as long as you keep the content you want to express in your mind, simply saying ‘blah blah’ allows listeners to understand what you mean, automatically translating into the corresponding names.

This phenomenon... can be tentatively termed... Language Rules!

This moment,

Facing the mockery of the Fiery Shadow Ancestor,

Xuanqing remained emotionless, merely running his cultivation techniques silently, and then shouted calmly:

“Absorb!”

Soon after,

The Swallowing Sky Tree, as large as a planet, blossomed with countless illusory vines, each functioning like the gaping maw of the mythical Taotie, plunging into the sun’s massive star.

Hiss-

Difficult!

Incredibly difficult!

As difficult as trying to urinate with a problem in your urinary tract. As difficult as trying to squeeze out the last droplet of water from a tap that’s been tightly closed. With great difficulty, a sliver of Origin was absorbed from the sun.

Xuanqing’s heart sank.

As expected.

As he anticipated, the sun’s Origin matter was too condensed. With his current level of cultivation, it could be absorbed, but the speed was as slow as a snail’s pace.

If it continued at this rate, wanting to refine all the Origin of the sun would probably take a very, very long time. By then, everything would have changed, and it would be too late.

“It seems... if you want to refine a star, you need to refine the Origin of more planets first, and elevate your cultivation level.”

Xuanqing thought to himself.

Seeing this,

The Fiery Shadow Ancestor continued to ramble on, perhaps because he had long been imprisoned on the sun and was so chatty, even when facing an enemy.

However,

Xuanqing didn’t pay heed to the Fiery Shadow Ancestor.

He had made up his mind, since he currently couldn’t refine this star-level sun, then he would first refine the Origin of other planet-level sources, raise his cultivation level to Quasi-Saint Perfection, and then try refining and devouring the sun.

Anyway... the sun won't grow legs and run away.

As for the Fiery Shadow Ancestor imprisoned on this sun, he had been there for so many years, and the seal on him was placed by the Ancient God Clan, there shouldn't be any problems. For the time being, there was no need to worry.

“Hehe!”

Before leaving,

Xuanqing snickered, taking one last deep look at the immobilized Fiery Shadow Ancestor.

The next moment,

His figure turned into a stream of light, flying towards the surface of the sun. Once he'd left the sun to a certain range where space was no longer solid...

Whoosh-

The Space Rule operated, his physical body transformed into countless stars, scattering around the sun. The next time he appeared, he was already back on Water Blue Star.

Water Blue Star!

On top of the Qingping Holy Mountain.

Two months had passed and there was still no change. It was a sacred place in the hearts of all humans on the Water Blue Star, the residence of the Heavenly God Primordial Lord.

Ommm-

The space slightly trembled, a figure in a Taoist robe, holding a Duster imbued with Chaos Power appeared. It was Xuanqing who had traversed from near the sun.

“Phew-”

Xuanqing opened his eyes, looking at the familiar scenery around him. The irritation caused by the Fiery Shadow Ancestor's business, somewhat alleviated.

Now,

He could only temporarily let go of the Fiery Shadow Ancestor.

As long as he breaks through his cultivation, he will immediately refine the entire sun. And then, this Fiery Shadow Ancestor who had merged with the sun... well, he would be at Xuanqing's mercy.

Perhaps... he could even become an additional 'servant' for his manipulation!

With this thought in his mind,

The corners of Xuanqing's mouth curled into a smile once more.

Chapter 512: Chapter 367: Devouring Heaven Fruit!_2

"Well, let's not worry about the Fiery Shadow Ancestor for now. Let's take a look at how much incense fire was left on Water Blue Star in these two months, then go to devour the remaining two stars in the Solar System."

Shaking his head, he cast aside the thoughts concerning the Fiery Shadow Ancestor.

The next moment.

"Incense fire... gather!" Xuanqing muttered softly.

Instantly.

The overwhelming power of incense fire, as if subjected to space rules, directly traveled to Qingping Holy Mountain.

"Recharge!"

As with previous times, his God Soul emerged from his body, wrapped around the incense fire, not before silently invoking the word recharge in his heart.

[Ding... 28850 hundred million ingots!]

With a notification sound echoing in his mind, his balance of incense fire increased by over twenty-eight trillion.

"Sixty days have passed, and the total is over twenty-eight thousand eight hundred billion. In other words...this incense fire income has increased to... four hundred and eighty billion per day!"

Xuanqing whispered softly.

Compared to the daily income of four hundred and seventy billion two months ago, it has only increased by a billion ingots.

Indeed.

Given the population volume of Water Blue Star currently, after reaching 400 billion, the growth rate of incense fire income became very slow.

Under these circumstances, to continue maintaining a high rate of increase, there can only be a breakthrough in the population limit.

“There should be more in a few years.”

Xuanqing gazed into the dark, deep space.

A portion of the incense fire he absorbed this time was transmitted from Mars.

Combined with the previous reports from his subordinates, the Water Blue Star Federation has begun interstellar migration...

It seems that this interstellar migration has begun, and the first target of migration is likely to be Mars.

He believes.

As long as there is no shortage of food and land, and the Federation continues to encourage birth rates, it won't be long... before the population of Water Blue Star doubles.

Now it's slow.

Because these birth incentives apply only to people of East Asian descent, and those with mixed ancestry of East Asian and white or red entrepreneurs.

If a black or indigenous person marries a white person, mixed-race or black person, they cannot enjoy the benefits of childbearing.

The reason for this.

Naturally because Xuanqing, this Great Lord, is not willing to see the beautiful conditions he has created being enjoyed by these 'foreign tribes'.

Therefore.

Currently, in the Water Blue Star Federation, the men of the former Great Yan Kingdom, now the Great Yan District, are definitely at the top of the entire marriage market.

Women from all regions take pride in marrying men from the Great Yan District, because in addition to the benefits of childbearing, there are many other benefits in the Great Yan District.

If they really can't find men from Great Yan District, they can settle for East Asians, at least they can enjoy the childbearing benefits.

Of course.

This is a somewhat far-fetched.

The scene returns to Qingping Holy Mountain.

This moment.

After Xuanqing finished absorbing the incense fire, he thought silently,

“Open the Character Panel!”

[Name]: Xuanqing

[Physique]: Chaos Morality Holy Body.

[Grade]: Master of the Primordial Beginning

[Cultivation]: Devouring Sky Tree (0%)

[Cultivation Method]: Heaven Devouring Saintly Art

[Divine Ability]: One Dust Suppressing Heaven (Perfect), Devouring Heaven and Earth (Perfect)

[Ingot]: 54 trillion+10^{2.9}=11.2 trillion!

In the Character Panel.

There is not much change elsewhere, the progress of the Devouring Sky Tree in the Cultivation column is still zero percent.

And the Incense Fire column, counting what was left before, amounted to a total of 111 trillion.

Looking at his own Character Panel.

“According to previous consumption, if I want to quickly devour and refine a planet, it costs fifteen trillion ingots.”

“With this calculation, with the residual incense fire I currently have, I can refine the origin power of seven planets!”

“I wonder, by devouring and refining a planet, how many Devouring Heaven Fruits can be condensed!”

Xuanqing pondered.

It’s worth mentioning that.

In the ‘Heaven Devouring Saintly Art’, when the Devouring Sky Tree reaches maturity, an additional step is added to its cultivation method.

Firstly, the uptake of the World Origin remains unchanged.

However, after absorbing the World Origins, it was not directly devoured, but refined into a ‘Devouring Heaven Fruit’.

At last!

Consuming the Devouring Heaven Fruit lays the foundation for the final step: Body Transformation into a World.

After absorbing a sufficient number of ‘Devouring Heaven Fruits’, one’s Physical Body and God Soul will acquire the characteristics of a ‘World’. The cultivation realm attained then could parallel the Quasi-Saint Perfection of the Primordial Worlds.

If the final step of ‘Body Transformation’ into a world is successful, one would leapfrog past quasi-saint, reaching the carp’s leap to becoming a dragon in the cultivation world, achieving... Hunyuan Daluo!

This!

This is the greatness of the Swallow Heaven Saint Art.

Such a cultivation methodology far exceeds those who absorb the ‘Hongmeng Purple Qi’, and rely on the grace of Heavenly Path of the Primordial World to barely become a saint.

Only in this way can it be rightly said that you have ‘become a saint through force’, a true Hunyuan Daluo.

Cultivators who absorb the Hongmeng Purple Qi can be referred to as saints of the Primordial World, but once away from the Primordial World, they become nobodies, just slightly stronger than a ‘quasi-Saint Perfection’ at most.

“Let’s go to Neptune first!”

Whoosh-

With a gentle wave of the whisk in Xuanqing’s hands, his physical body turned into twinkling stardust, disappearing from the Qingping Holy Mountain, and in the blink of an eye, reappeared on a far-away planet.

Neptune.

A boundless expanse of ice crystals, appearing incredibly beautiful.

This is a classic gaseous planet. Although it looks enormous on the surface and differs in the amount of planetary matter, the amount of origins it contains is approximately the same as other planets in the Solar System.

Whoosh-

Due to the lack of atmosphere, various cosmic rays streak across the surface of Neptune.

What’s more terrifying is,

The temperature on this planet remains at minus 200 degrees Celsius all year round. Although it is still some way from absolute zero, it is deadly for creatures.

Of course,

Xuanqing is unconcerned about these.

At this moment, after arriving on Neptune, he did not directly land on the planet, but stopped when he was one ‘sphere’ away from Neptune.

“Devouring Heaven and Earth!”

Accompanied by a low shout.

At the next moment,

The Heavenly Eye on Xuanqing’s forehead opened, and the Swallowing Sky Tree within formed an illusory shadow that enveloped him from the inside out.

Huge-

Incredibly huge.

At this moment, Xuanqing, covered by the Swallowing Sky Tree, was like a terrifying World Tree. Considering its size...Although it was not as large as Neptune, it was just about the size of the usual solid planet.

Then,

This Swallowing Sky Tree, as big as a planet, stretched out countless illusory vines, like an octopus, entangling the entirety of Neptune.

This terrifying scene,

If anyone were to see it, they would undoubtedly drop dead from fright on the spot!

“Comfortable!”

At the core of the massive Swallowing Sky Tree,

Xuanqing sat with legs crossed, a relaxed expression on his face.

In comparison to the constipated absorption speed back on the Sun...

At this moment, it felt like...he had been a constipated old man for many years, and suddenly, he was cured. With nothing blocking him, it felt extremely comfortable.

More importantly,

After breaking through in his cultivation, the speed of absorbing origins was, compared to before, at least a hundred times faster.

However,

Even with an acceleration of hundred times, he still felt unsatisfied.

“Use a 100-year time acceleration!”

[Warm Tip: Using time acceleration on a mature Swallowing Sky Tree will increase consumption by a hundred times!]

???

Hearing the prompt in his mind,

Xuanqing’s mouth twitched slightly.

He had just thought that with this absorption speed of origins, using similar two years of time acceleration would allow him to absorb even more origins.

Doing the math, consuming one planet for extraction and refinement would, from a side view, be considered as reducing the cost.

But the appearance of this prompt has undoubtedly shattered his illusion.

Although his mature Swallowing Sky Tree has stronger absorption power, the price to pay for using time acceleration has also increased.

Oh- So before breaking through, to refine one planet it needed 15 trillion, and even after breaking through, refining one planet still needed 15 trillion.

Then this breakthrough... wasn't it useless

Chapter 513: Chapter 368: Laying the Foundation for Body Transformation World!_1

However!

There is no room for bargaining with this thing, literally no wiggle room. Even if the fees are exorbitant, they have to be grudgingly accepted.

“Confirm use!” Xuanqing said calmly.

The next moment.

[Ding... -1000 Billion Yuanbao!]

Buzzing-

Accompanied by the sound of the quantifier deducting the Yuanbao.

In an instant, an incredibly terrifying absorption ability came from the Swallow Sky Tree, like a dragon sucking water, crazily absorbing the Origin Power of Neptune.

As such, the planetary matter of Neptune was also decreasing rapidly, causing a chain reaction, and amazingly, it gradually deviated from its original orbit. “Back to me!”

Xuanqing shouted subtly, controlling the illusory roots of the Swallowing Sky Tree, forcibly pulling Neptune back to its original orbit.

Afterwards.

He then closed his eyes and quietly savored this delicious feast.

How fast is the absorption speed of a mature Swallowing Sky Tree, or a Swallowing Sky Tree that is exhibiting Devouring Heaven and Earth, plus the use of time acceleration?

If the speed of absorbing the original power by the seedling stage of the Swallowing Sky Tree is likened to a small water canal...

Then... this mature Swallowing Sky Tree, under the blessing of Devouring Heaven and Earth and time acceleration... it's like a river.

A small stream, an uninterrupted river, is many times stronger than a small canal.

After a while.

The effect of a 100-year time acceleration ended.

“Phew-”

“Refreshing!”

Xuanqing opened his eyes.

The Origin Power brought by this short 100-year time acceleration made his physical body and God Soul incredibly comfortable, as if soaking in the warmth of the womb.

“Let's replenish the missing matter first!”

With a thought.

[Ding... -50 Billion!]

He exchanged 50 billion planetary matter from the store, then controlled the large root hairs of the Swallowing Sky Tree just like a plaster, instantly replenishing it.

After all the operations.

1% of Neptune's origin has been absorbed by him. He just needs to repeat this operation a hundred times, and he can swallow and refine the entire planet's origin.

However.

Xuanqing still felt it was a bit slow.

He felt the bearing capacity of his body and made a rough calculation of the limit of accepting time acceleration.

With my current body, I should be able to bear a maximum of three hundred years of time acceleration, but that would be... very painful!”

“So... one 200 years time acceleration at a time!” Xuanqing murmured softly.

For him, the mysterious creature on the sun is no longer a threat, and for the time being there is no other danger. There's no need to rush to improve his cultivation.

After all.

He's not like those protagonists in fantasy novels who are chased and killed by numerous people, living in constant danger and constantly facing a crisis of death.

Speaking of which.

Ever since he began his cultivation, he has basically had no major ups and downs, everything has been going with the flow, and even breakthroughs have happened in due course.

In fact... this kind of mentality is the correct one. That so-called 'crazy pursuit of power' mentality is quite unhealthy and should not be adopted, most likely leading to death, not mastery of the Great Dao.

"Use 200 Years Time Acceleration."

[Ding... -2000 Billion Yuanbao!]

Just like that.

Repeating the cycle over and over again.

Suddenly, several days had passed.

Finally.

The Origin of Neptune has been completely refined by the Swallow Sky Tree, becoming one with it.

"Phew-"

Xuanqing took a deep breath, dispelled the huge illusory shadow of Devouring Heaven and Earth, and returned to his human state.

With a thought.

His Heavenly Eye opened on his forehead.

But this time inside, it wasn't the Swallow Sky Tree spinning, but a golden fruit lying quietly inside, shaped like a gourd.

"Devouring Heaven Fruit!"

Xuanqing took out the Devouring Heaven Fruit from his Heavenly Eye, and carefully examined it.

This is a golden fruit that looks like a gourd, but emits an immensely powerful world power.

An entire Neptune, all its Origin Power, was condensed to produce this small fruit.

In other words, this 'Devouring Heaven Fruit' is equivalent to the total Origin Power of a planet-level creature.

"I wonder if this Devouring Heaven Fruit... can be uploaded to the mall!"

Looking at the gourd-shaped golden fruit in his hand...

Xuanqing secretly thought in his heart.

Then.

"Upload to the game mall!"

[Product Uploading.....o.oi°/o...o.02°/o....o.03°/o....]

The speed isn't very fast, but the progress bar is slowly increasing. Given this speed, it will take at least a year and a half to complete the upload successfully. "Forget it, let's swallow Neptune first and integrate all the planets of the solar system into my Swallowing Sky Tree."

Xuanqing shook his head, directly interrupted the upload.

He planned to take care of Pluto, the last of the nine major planets in the solar system that he hadn't yet refined...

Then enter the Game World, using the time ratio of the Game World to upload the Devouring Heaven Fruit.

In that case, even if a year has passed in the Game World, it would only be a little over a month in the Real World.

After that.

Xuanqing stood up, swung the whisk in his hand, and his whole person disappeared from Neptune. When he appeared again, he had already arrived at Pluto.

Pluto!

This is a planet that can barely make it into the category of the nine major planets. In some periods, it was even close to being demoted to a dwarf planet.

Chapter 514: Chapter 368: Laying the Foundation for Body Transformation World!_2

No matter what the data of this planet was, it held no meaning for Xuanqing.

So.

Arriving in the vast starry sky about a planet's distance from Pluto, he immediately activated his cultivation techniques and cast his life's superior divine power:

“Devouring Heaven and Earth!”

Like a terrifying Swallowing Sky Tree the size of a large planet, countless illusory hands extended, enveloping the entire Pluto.

“Use 200 Years Time Acceleration.”

There was not the slightest delay.

Xuanqing took action without any hesitation, devouring and refining the origin power of Pluto.

After waiting for the time acceleration effect to end, he first adjusted the orbit of Pluto, and then replenished the planetary matter with ease.

With a mature Swallowing Sky Tree and a 200-year time acceleration boost.

Three Days.

Just on the third day, all the origin power of Pluto was absorbed by the Swallowing Sky Tree, condensed into a ‘Devouring Heaven Fruit’, quietly suspended in the Heavenly Eye at his brow.

Just like that.

Adding Neptune from earlier, he now had two Devouring Heaven Fruits.

“First return to Water Blue Star, then enter the game!”

Xuanqing murmured.

Then.

His figure disappeared from this planet.

Water Blue Star.

After returning to Qingping Sacred Mountain, Xuanqing went straight into the inner courtyard of the Taoist temple, crossed his legs, and with the two Devouring Heaven Fruits, entered the game world.

” Enter the Game World!”

Black Wind Sacred Mountain.

Inside the Great Hall of Taichu Dao Court.

Xuanqing opened his eyes and woke up from the game world.

“Eh?”

Initially.

His plan was to enter the game and without summoning his subordinates, upload the Devouring Heaven Fruit back to the real world and continue searching for other planetary systems to refine.

However, just as he returned to Taichu Dao Court, he sensed three unfamiliar yet powerful presences in the reception room of Taichu Dao Court.

But.

Xuanqing didn't think too much about it because apart from those three powerful unfamiliar presences, Gentleman Bai She and Fu, Lu, and Shou Three Immortals were also on the side.

Under such circumstances, it was clear that it was not an outside invasion, but rather someone was paying a visit to him, the Master of Taichu Dao Court.

Sure enough.

The next moment.

He received a message from the Fortune Star Immortal, saying that the 'Primordial Three Emperors' had come to pay him a visit and expressed their intention to join the Taichu Dao Court.

“The Three Emperors?”

Xuanqing paused, a hint of interest rising in his heart.

It was unexpected that his Taichu Dao Court had attracted these three ancient prehistoric divine creatures.

Then.

He, as a mountain god, entered the reception room of the Dao Court.

Reception Hall.

“Dao Brother Fuxi, Dao Master is out!”

The Fortune Star Immortal stood up, first saluted Fuxi, then got up to welcome their Dao Master.

Lu and Shou Two Immortals on the side, as well as Gentleman Bai She, also stood up one after another.

Seeing this.

The Three Emperors, who would soon become under someone else’s command, naturally did not dare to slack off and, like the people of Taichu Dojo, stood up to welcome him.

The very next moment.

They saw a young Taoist priest clad in a Taoist robe, emitting no aura from his body but holding a duster in his hand, that was radiating a powerful world power, slowly walked in.

“Greetings, Sir!”

“Greetings, Dao Master!”

Gentleman Bai She, Fu Lu Shou, and others, all clasped their hands in a saluting gesture, respectfully greeting Xuanqing.

Emperor Fuxi also saluted, casting furtive glances up and down at this legendary Dao Master, then also gave a greeting, saying:

“Greetings, Dao Master!”

“Hmm.”

Xuanqing, wearing a smile, gave a slight nod, then waved to everyone, saying gently, “No need for formalities, please, everyone, take a seat!”

Everyone took their seats.

Gentleman Bai She dismissed the child who served the tea and personally poured tea himself for Sir, then added a little more for the Three Emperors and Fu Lu Shou.

“I’ve long heard of the three great gods of ancient times; Emperor Fuxi, the Elder Brother of Sages, Emperor Shennong, the prehistoric saint, and my own kind, Human Emperor Xuanyuan!”

“Meeting today, it is indeed extraordinary-”

Xuanqing took a small sip of tea and made polite conversation.

Especially at the end, when he looked at Emperor Xuanyuan, he nodded with a smile, signaling benevolence. After all, this Emperor’s contribution to the Human Race was very significant.

The Three Emperors eyed each other.

Fuxi hurriedly saluted and humbly replied, “Dao Master overpraises. We have known about Dao Master for many days now, and we are greatly moved, it is indeed admirable.”

After all, it was the first meeting.

After some chat.

Xuanqing asked, “I don’t know what brings you all to my Black Wind?”

“We had been living in seclusion in the Fire Cloud Cave. However, upon sensing the shift in the Human Fate Center, we learned it was Dao Master’s Black Wind Country.”

“After probing, we believe Black Wind Country is the future of the Human Race and decided to join the Taichu Dojo to assist Black Wind’s Human Race!” Emperor Fuxi said seriously.

He made no ceremony of these words, but truly believed so in his heart.

Especially when he saw the tight coordination between the divine and human Tao of the Taichu Dojo, the method of ruling gods with humans, and humans with gods, it could be described as perfect.

This moment.

After hearing Fuxi’s words.

Xuanqing slightly nodded his head, immediately stood up, a smile on his face, "In the Primordial Chaos, you were all renowned."

"To join my Taichu Dojo, is Taichu's fortune. Taichu will treat all of you with the respect due to 'elders'...welcome...welcome...."

Upon hearing this.

The Three Emperors smiled at each other, feeling very pleased.

It seems... although we have not been active in the Primordial Land for a long time, the Primordial Land still circulates our legend-

Of course.

These words coming from the mouth of Taichu Dao Master made them so happy. If someone insignificant had said this, they would not have been so emotional.

On the side.

Gentleman Bai She saw his sir's words and immediately followed, "Hahaha, junior Qingxu, meeting Elder Fuxi, Elder Shennong, Elder Xuanyuan!"

"Please, please. Upon our entrance into the Dojo, we look forward to guidance from Elder Qingxu!"

Fuxi also courteously said.

He would not underestimate Daoist Qingxu before him, ever since the first sight of him, he sensed that the bloodline of this person was not ordinary. During their chat... he sensed that he had the 'Destiny Golden Dragon Body'. Having the 'Destiny Golden Dragon Body' in this world of Primordial Chaos, which values 'foundation' and 'bloodline', is obviously very powerful.

Their respect towards Taichu Dao Master was also for this reason. They felt that Taichu Dao Master was very generous to his subordinates, and this is worth following.

Afterwards.

Xuanqing asked Gentleman Bai She and Fu Lu Shou Three Immortals to take good care of the Three Emperors. He also introduced Yang Ying, the current Human Emperor, to Emperor Xuanyuan for mutual learning and discussion on Tao.

After handling these matters.

He returned to the main hall of the Taichu Dojo and sat cross-legged on the cushion to continue what he was doing before.

Dealing with the Devouring Heaven Fruit!

“First, consume one Devouring Heaven Fruit and see how much it would increase my cultivation progress!”

In the main hall.

Xuanqing sat alone, cross-legged, with his palms open. He retrieved a gourdshaped, golden fruit from his game backpack.

The next moment!

Gulp-

He threw his head back and swallowed it.

The golden Devouring Heaven Fruit melted as soon as it entered his mouth. It turned into a beam of light, spreading throughout his physical body.

In an instant!

An indescribable special sensation surged in his mind. Under the effect of Devouring Heaven Fruit... he felt like he had experienced the Chaos Initial Opening, the birth of the world.

After a moment.

“Huff-”

Xuanqing opened his eyes.

After digesting and refining the Devouring Heaven Fruit, he felt he understood the ‘world’ even more than before.

More importantly.

He felt the connection between himself and the Swallowing Sky Tree has become tighter, even creating a sense of integration.

“So... at this stage, it is about using the power of the Devouring Heaven Fruit to make oneself more compatible with the world and lay the foundation for transforming the body into the world!”

Xuanqing's eyes shone!

Chapter 515: Chapter 369: Insanely Devouring the Planet! —1

In other words.

Once he has absorbed enough Devouring Heaven Fruit, enough to withstand Body Transformation World, it is time for him to transform into Hunyuan Daluo!

“Let's see how much the percentage has increased!

Xuanqing muttered softly.

Although he could feel that after absorbing this Devouring Heaven Fruit, his control over 'world power' had improved, he didn't exactly know by how much.

It was not as intuitive as opening the Character Panel!

“Open the Character Panel!”

[Name]: Xuanqing

[Physique]: Chaos Morality Holy Body.

[Grade]: Master of the Primordial Beginning

[Cultivation]: Swallowing Sky Tree (0.1%)

[Cultivation Method]: Heaven Devouring Saintly Art

[Divine Ability]: One Dust Suppressing Heaven (Perfect), Devouring Heaven and Earth (Perfect)

[Ingot]: 8i trillion

???

Looking at his Character Panel.

Xuanqing was dumbfounded.

The power of origin condensed by a whole large planet only increased the cultivation progress of the Swallowing Sky Tree by.. 0.1%?

That is, to reach a level that can withstand Body Transformation World, a whopping thousand Devouring Heaven Fruits are needed.

And a Devouring Heaven Fruit requires a planet, and regular satellites don't work, it has to be something of the level of the Nine Major Planets!

Suddenly!

“Sigh-”

Xuanqing couldn't help but gasp.

Going from the seedling stage to the mature stage of the Swallowing Sky Tree required only five large planets.

But the quantity of resources required for this realm took a leap from five large planets, straight up to... a thousand large planets!

It's a lot-

“To quickly refine a planet, it needs 15 trillion gold coins, ten is 150 trillion, a hundred... a thousand is 15 thousand trillion!”

Xuanqing's pupils slightly shrank.

He felt.

At this moment, the unit of trillions can no longer be used to measure the cultivation needed.

He had to use... trillions!

1 trillion=10,000 trillion!

That is to say, the amount of ingots needed to push the cultivation progress to 100% and prepare for Body Transformation World is...

15,000 trillion!!

“No, only 10 trillion gold coins are needed.”

Xuanqing shook his head.

In the Solar System, the reason why he needs 15 trillion to refine a large planet is because he wants to keep the Solar System in balance, so he needs to fill the gap in planet material caused by the absorption of origin.

But now, advancing requires a full thousand planets, and there are definitely not enough in the Solar System, it will have to be in a more distant Star Domain.

In this way, he doesn't need to consider the lack of planetary material, no matter if the trajectory of their operation is chaotic or not.

So... he only needs to pay the cost of using Time acceleration!

"Tsktsk-"

Xuanqing shook his head with a gloomy expression.

He was not too disappointed. After all, compared to the cultivators in the Primordial World, he already had a huge advantage. What was there to be dissatisfied with?

After experimenting with the effects of one Devouring Heaven Fruit.

Next.

It's time to upload the Devouring Heaven Fruit, see how many ingots are needed to exchange for it, and see whether it is more cost-effective to devour planets in the real world universe or to directly buy Devouring Heaven Fruit from the store.

"Upload Devouring Heaven Fruit!" Xuanqing murmured in his heart.

[Product uploading...0.01%/0....0.02%/0....0.04%/0-]

Accompanied by a crisp reminder, the progress bar slowly rises. If it continues at this rate, it should take about two years to completely upload!

Just like that.

Time is slowly passing.

In a blink of an eye- two years have passed!

[Ding- Congratulations, upload successful, store increment: Devouring Heaven Fruit (15)]

Accompanied by the sound of the quantifier in his mind, it means that the Devouring Heaven Fruit has been successfully uploaded, but the price...

Fifteen trillion gold coins!

This is the first time a product with 'Trillion' as a unit has appeared in the Game Mall.

"Fifteen trillion, that's 1.5 quadrillion. Calculated down, it's equivalent to the „ consumption of using Time acceleration and filling up the planetary material?"

Xuanqing frowned slightly.

When he was refining the planets of the solar system, he absorbed the origin and then used gold coins to exchange for planetary material, because the solar system is his home.

He didn't want the loss of planets in the solar system due to the absorption of the origin, so he spent nearly half of the gold coins to make up for the material loss caused by the extraction of the source.

But now.

For him now, even if he wants to absorb the source of a planet, it won't be possible in the solar system, not even near the solar system.

in this case, he wouldn't care if the loss of planetary material caused by the absorption of the origin will happen.

In such a way.

To devour a large planet and refine it into a Devouring Heaven Fruit, it is only the consumption of using the Time acceleration.

"It's better to refine the planet directly."

After some thought.

Xuanqing shook his head and came up with a conclusion in his heart.

With his current mature stage Swallowing Sky Tree, it takes only two or three days to devour a large planet.

Just wanting to save these two or three days, would have to bear the cost of 'five trillion', it's somewhat extravagant, he can't afford such a waste yet.

Moreover.

The benefit of refining planets in the real world universe is not just the harvest of Devouring Heaven Fruit.

The planet being refined will become a part of the 'Swallowing Sky Tree', constantly providing the power of the origin, and during battle, it can also provide the power of an additional world.

For example:

If Xuanqing is battling someone right now, he could instantly mobilize the world power of the entire nine major planets of the Solar System.

Chapter 516: Chapter 369: Insanely Devouring the Planet! _2

Of course.

The two newly refined planets, Pluto and Neptune, didn't have much world power to begin with.

“Cultivation is like rowing against the current, if you don't advance, you'll retreat. I'll go back to the real world first to refine planets, aiming to condense the World Physical Body as soon as possible!”

Xuanqing made up his mind, thinking in his heart.

Next.

Before quitting the game, he used his God Soul to check Black Wind Country again and found that with the help of the Three Emperors, this country had become even more stable.

In this way, he completely set his mind at rest.

“Quit game!”

...

...

Real world.

In the Dayan area, Qingping Holy Mountain.

Hum~

Xuanqing opened his eyes, regaining consciousness.

He stood up, his deep vision staring at the distant starry sky. As the whisk in his hand gently moved, he disappeared completely.

.....

.....

An unknown star domain.

Because there were no stars, this domain was pitch black and lonely, with temperatures regularly below 200 degrees Celsius.

A few sparse planets, relying on each other's gravitation, were entwining each other in this dark and silent starry space.

However.

The appearance of a figure broke the tranquility of this star domain.

A young man in a Taoist robe, holding a whisk containing the power of the world, suddenly appeared in the starry sky.

This man was none other than Xuanqing, who had travelled through space from Water Blue Star.

"Four large planets, able to condense four Devouring Heaven Fruits... Very good!"

A satisfied look flashed in Xuanqing's eyes.

He had been shuttling around for a while, and finally found four planets in this desolate star domain.

Though the universe is massive and filled with countless planets and stars, in reality, the vast majority of space in the universe is empty. Only a small portion of it contains planets.

"Devouring Heaven and Earth!"

Accompanied by a low shout.

Xuanqing's Heavenly Eye opened on his forehead, radiating a dazzling light as if it could illuminate the entire cosmic starry sky. His body became as gigantic as a large planet.

Just the shocking size alone, if seen by other creatures, might scare them to death right away.

Next.

Xuanqing, akin to a planet-sized tree with lush branches and leaves, casually approached one of the planets where innumerable shadowy vines extended deeply into it.

From a distance.

The countless huge virtual tree roots's tendrils, planet-sized body, along with the crown of densely packed branches and leaves, gave a semblance of a giant octopus.

“Absorb!”

Xuanqing closed his eyes, showing an expression of pleasure.

Even though most of these origin powers would eventually flow into the Swallowing Sky Tree and transform into Swallowing Sky Fruits, during this process, a small part would flow into his body, nourishing his physical body.

“Use 100 years time acceleration.”

[Beep... -1 trillion treasure coins!]

With the subtraction of the treasure coins, those huge tendrils squirmed relentlessly, enveloping the entire planet, like leaves on a fertilized crop, absorbing the planet's origin more fiercely.

At a visible speed.

The planet's size slowly shrank due to its origin power being absorbed, which in turn gradually reduced the materials constituting its existence.

Soon.

The 100-year acceleration effect ended.

This time.

Xuanqing didn't plan to purchase planet material to replenish the now smaller planet in front of him. Frankly, given how remote this star domain was from the solar system, he couldn't care less even if the planet shrank or if he destroyed it.

Just after a short rest.

“Absorb!” With another low shout from Xuanqing, he controlled the huge virtual roots to continually extract the original power from this planet.

“Use 100 years time acceleration.”

[Beep... -1 trillion treasure coins!]

...

Just like that.

After continuously repeating the cycle nine times, and counting the first round, a total of ten accelerations finally drained the last bit of origin power from this planet!

Compared to the beginning.

The size of the entire planet had at least halved, barely qualifying as a large planet, at most just a supersized satellite.

At the same time.

In Xuanqing's hand, he now held a fruit. It was golden and gourd-shaped, radiating a rich world power.

Devouring Heaven Fruit!

The original power of a large planet could condense into one Devouring Heaven Fruit. Consuming it could reconstruct the body and soul, laying a solid foundation for the later Body Transformation World.

He did not choose to take it immediately, but put it in the game backpack, intending to save up more and then refine and devour it all at once.

“Retrieve!”

Xuanqing disengaged from the form of the ‘Swallowing Sky Tree’ and returned to his human appearance. Yet his gaze was directed towards the remaining three planets in this star domain.

....

Twelve days later.

With the last origin of the last planet being completely absorbed by the Swallowing Sky Tree, his game backpack had accumulated five Swallowing Sky Fruits.

This moment.

Looking at the deserted, quiet star domain.

Xuanqing felt a strong sense of familiarity in his heart, as if a fish had returned to water.

The reason for that.

It's because... not only is the origin of the planets that have been devoured and refined being swallowed up, but the bodies of the planets will also become a part of the ‘Swallowing Sky Tree’.

In other words.

This universe with four planets has become Xuanqing's private territory. In this territory, he can exert even greater power.

"First, I'll go back and refine the five Swallowing Sky Fruits in my backpack, then I'll search for the next star domain!"

Thinking so in his heart.

Xuanqing waved the whisk in his hand and disappeared from this star domain.

....

....

Returning to Qingping Holy Mountain Dojo on Water Blue Star.

Xuanqing sat cross-legged.

With a flit of his palm, a fruit shaped like a golden gourd appeared in his hand, it was the Swallowing Sky Fruit condensed by the Swallowing Sky Tree.

Gulp~

He threw his head back and swallowed it.

In an instant, the Swallowing Sky Fruit transformed into a streak of light, with the enormous world power contained within erupting out.

"Refining!"

Xuanqing didn't dare to be careless and devoted himself to operate the Swallow Heaven Saint Art to refine the Swallowing Sky Fruit. This stuff was much more domineering than the Chaos Pill.

Moments later.

The world power of this Swallowing Sky Fruit was completely digested, transformed into a foundation... laying a solid foundation for him to enter the realm of Body Transformation World later on.

Without any hesitation.

He took out another Swallowing Sky Fruit from the game backpack and swallowed it.

....

Several days later.

“Hu~”

Xuanqing opened his eyes, a flash of brilliance shining in them.

Perhaps because he had just swallowed five Swallowing Sky Fruits, at this moment, his body emitted a strong world power.

With a thought.

“Open Character Panel!”

[Name]: Xuanqing

[Physique]: Chaos Virtue Holy Body.

[Grade]: Master of the Primordial Beginning

[Cultivation]: Swallowing Sky Tree (0.6%)

[Cultivation Method]: Swallow Heaven Saint Art

[Divine Ability]: One Dust Suppressing Heaven (Perfect), Devouring Heaven and Earth (Perfect)

[Treasure]: 41 trillion

Looking at the character panel.

On the panel, under the cultivation section, after swallowing the five Swallowing Sky Fruits in his backpack, it increased from 0.1% to 0.6%.

And from the original 810 million treasure coins, after absorbing the four planets of the unfamiliar star domain, only 41 trillion were left.

“41 trillion, can only refine and swallow 4 large planets.”

“I wonder how much incense fire the Great Yan Federation has accumulated for me during this time!”

Xuanqing murmured softly.

Devouring Neptune and Pluto took six days.

Later, he entered the game and uploaded Swallowing Sky Fruits to the Game Store, which took two years. According to the time ratio of ten to one, 72 days had passed in the real world.

Afterwards, it took several days to find the dark star domain and another twelve days to refine the four stars in that star domain.

Adding them up.

Ninety days had passed on Water Blue Star. Judging from the previous income of incense fire, some should have been accumulated by now.

Thinking so.

“Swallow Heaven Saint Art!” Xuanqing operated his Cultivation Method, stimulating the whole world inside the Swallowing Sky Tree to gather all the incense fire it controlled.

Hmmm~

The enormous power of incense instantly gathered on Qingping Mountain.

The next moment.

The God Soul emerged from the body, enveloping it.

“Recharge!”

Chapter 517: Chapter 370: In the Blink of an Eye 32 Years, Incense Coalesces into a Long River?_1

“Recharge.”

[Beep...+ 4.5 trillion ingots!]

Listening to the prompt from the quantifier in his mind, he silently made a calculation.

“4.5 trillion in ninety days, that means 50 billion a day!” Xuanqing murmured softly.

Compared to the 480 billion from a few months ago, it has increased by 20 billion, not a significant increase, obviously to increase it significantly, they still have to wait for the first wave of population growth.

“Check the remaining number of ingots!” Xuanqing muttered silently.

[Your current remaining ingots: 45.5 trillion]

To refine a large planet into a Devouring Heaven Fruit, it costs 10 trillion, which means the number of ingots he has left can still support the swallowing and refining of four planets.

“A drop in the ocean~”

Xuanqing shook his head helplessly.

The progress of his Swallowing Sky Tree cultivation, is only 0.6 percent. Even if he swallowed and refined four planets and took the Devouring Heaven Fruit, it would only increase to 1 percent.

That is to say.

He is 990 Devouring Heaven Fruits short of the perfection of the Swallowing Sky Tree realm, which, converted into ingot consumption, is a staggering 990 trillion!

990 trillion!!

With the current income of 50 billion per day, it would take twenty days to reach one trillion, two hundred days to reach ten trillion, and 18.5 trillion a year.

Fifty-three years!

It will take a full fifty-three years to accumulate enough ingots for a breakthrough.

Of course.

The calculation shouldn't be like this, after all, his incense fire income is not stagnant at a fixed 50 billion, but is constantly increasing.

Not to mention anything else, after a decade or so, the population of the Water Blue Star will at least have doubled, and the number of people able to contribute incense fire will also at least have doubled.

“Decades, this is probably the longest time I have spent breaking through a minor realm.”

Xuanqing shook his head.

...

Tsk tsk~

I have to say.

The goal of a person with a cheat is different.

If Xuanqing's thoughts were known to the creatures of the Primordial World, they would absolutely twitch at the corners of their mouths, totally speechless.

Good guy~

In our Primordial World, if we don't have a good foundation, it would take us several hundred years just to achieve an Immortal Body.

Later cultivation takes thousands of years to calculate, and even then, after thousands of years, we may not be able to make a breakthrough.

But what about Xuanqing?

We won't even talk about a hundred percent breakthrough, he has already cultivated to the Late Semi-holy Stage which is the ceiling, and it only takes a mere few decades to continue to make breakthroughs.

"Forget it, these mere tens of billions, if they go out, the progress of cultivation they can increase is very limited."

"Might as well accumulate over a period of time, wait until enough incense fire is accumulated before consuming and refining the planets!"

Thinking it over.

Xuanqing made a decision in his heart.

He plans to spend the next time in the thirty-six Heavenly Layers of Fairyland, according to the time ratio of one day in heaven and one year on earth.

Even if it takes decades, in the Thirty-six Heavens of Fairyland, it's just a matter of decades, maybe... it's over when he takes a nap.

"Go to Fairyland!"

Xuanqing murmured softly, waving his whisk and disappearing on the spot.

....

...

Fairyland.

It is filled with the aura of Qi.

As the saying goes, when one person gains the Dao, even the chicken and the dog ascend to heaven.

Perhaps it's because the territory that Xuanqing has refined is getting bigger and bigger, making this 'Heavenly Path' increasingly strong.

In the Golden Palace of Clouds.

Cang Qingyu is holding a Ginseng Fruit, staring at the 'television' in front of him unblinkingly.

The content on the television seems to be portraying a future city world under a technological background, but in this content, there is no protagonist, only... the multitude of living beings!

Suddenly!

"Huh... Sir has gone to Douluo Palace?"

Cang Qingyu paused slightly, then put down the fruit in his hand and shut off the 'Haotian Mirror' used to monitor the Three Realms.

Afterwards, he straightened his clothes and left the Golden Palace of Clouds, pressing the elevator to the Thirty-six Heavens.

Since sir has arrived, as his page, he should naturally take the initiative to pay his respects.

...

Arriving at the Thirty-six Heavens.

Upon entering, what caught his eye was a Pill Furnace emanating an imposing aura, which was the Chaos Eight Diagrams Furnace used to suppress Fairyland.

Next to the Eight Diagrams Furnace was a young Taoist priest sitting cross-legged with a whisk in his hand.

Seeing this.

Cang Qingyu walked forward with a slight bow and paid his respects respectfully, saying, "Disciple Qingyu, pays respects to Sir."

"Hmm!"

Xuanqing opened his eyes, first nodded slightly, and then casually asked:

“Qingyu, after all this time, have you become proficient in the control of Fairyland’s authority?”

“Sir, the disciple has fully mastered the control of Fairyland.” Cang Qingyu replied.

Hearing this.

Xuanqing nodded his head in satisfaction, “That’s good, go down. I will be cultivating closed-door here for a couple of tens of days. If there is anything else, come find me!”

Closed-door cultivation for a couple of tens of days?

Cang Qingyu was shocked. One day in heaven is equivalent to one year on earth. If sir is planning to stay in Fairyland for a couple of tens of days, wouldn’t that be a couple of tens of years in the Lower Realm?

However.

Although he was curious, as a page, he naturally did not dare to ask too much. He could only nod his head in agreement, and then slowly leave the Thirty-six Heavens.

“Disciple... takes leave!”

.....

After the young page, Cang Qingyu left, in the Thirty-six Heavens, only Xuanqing remained.

“Just have to wait patiently!”

Xuanqing murmured softly.

Then.

He closed his eyes again and fell into a deep sleep.

...

This one sleep!

It took more than a month.

On the thirty-second day.

Chapter 518: Chapter 370: In the blink of an eye, 32 years, incense condenses into a long river?_2

It seemed as if he had felt something.

Xuanqing awakened from his deep slumber, sensing that Water Blue Star had accumulated enough power of incense fire for him to break through.

At his realm, there would be no illusion or misperception. Hence, this feeling signified that there was indeed enough power for his breakthrough.

“I should go back and check!”

The next moment.

Xuanqing’s figure disappeared from the Thirty-six Heavens.

...

...

Water Blue Star.

The 35th year of the Federation New Calendar, September 1st!

Today is a special day, marking thirty-five years since the establishment of the Great Yan Federation. Every year, September 1st is a nationwide celebration.

According to the legal stipulations, September 1st of each year is ‘Federation Celebration Day.’ Except for special posts, the entire Federation will celebrate with a ‘seven-day’ holiday.

Even those who occupy the cannot-leave posts will receive ‘five times’ their usual salary as compensation during these seven days.

At this moment.

Moonlight City on Water Blue Star is extraordinarily lively.

As the location of the first teleportation array in the interstellar era and the establishment of the Great Yan Federation, this annual Federation celebration is held here.

On the high platform.

Yang Ying, dressed in an extravagant ceremonial outfit, gazes at the media reporters, dignitaries, representatives of the public, and cultivators below.

Even though she tries her best to suppress the 'emperor-level' aura on her, the aura that unintentionally radiates from her still makes people feel overwhelmed, as if staring up at a high mountain.

“Ladies and Gentlemen, on the 35th anniversary of the Federation’s establishment, the entire Federation has been peaceful and prosperous under the blessing of the Main God Taichu.”

“Today is the annual Federation Celebration Day again, and the first thing we’re going to do is to pay tribute to the Main God!”

Yang Ying looks devout, her eyes seem to shimmer with crystal light.

Nowadays, the residents of the Great Yan Federation do not worship heaven or the earth, their sole reverence is for the Main God Taichu.

The reason for this is that both the Lord of Heavenly Path, Cang Qingyu, and the Lord of Earthly Path, Huai Qingyun, are merely first-order attendants of the Main God Taichu.

It is worth mentioning.

Religions like Shimen, God Church, A3 God Sect... etc., over these thirty-odd years of development, have become niche churches with a very small number of believers.

Within the entire Federation... 99.9 percent of the population wholeheartedly believe in the Main God Taichu.

Even those with no talent for cultivation, ordinary people who have no hope in their lifetime, habitually burn incense in prayer for the Main God Taichu every day. Over time, even those who do not actually believe will become nominal followers.

They turned their gaze towards Moonlight City.

“Sacrifice to the Main God!”

Accompanied by Yang Ying’s clear shout.

The next moment.

The workforce, who had been prepared in advance, initiated the sacrifice to the Main God ceremony.

Those who were hammering stakes did so, those who were chanting scriptures did so, and those who were drawing diagrams illustrated the immense contributions of the Main God Taichu through the burnt words.

Seeing this.

Elder Jingde and Elder Qianqing exchanged a glance, then each began to activate their 'Emperor Authority,' manipulating the natural laws of Water Blue Star.

In an instant.

The wind rushes, and auspicious signs are everywhere.

Drip, drip~ tap, tap...

Rain started to fall from the sky, moistening all things silently, and wetting the guests attending the celebration in Moonlight City.

"The reward of good and evil, like shadows following their subjects, with the Heaven and Earth Main God Taichu..."

"The reward of good and evil...."

...

Suddenly.

All the people on the scene pinched their fingers in a specific pattern, murmuring words in their mouths, they were reciting the Taishang Ganying Pian.

This is the holy scripture that the Main God Taichu taught to all beings when he first appeared on Qingping Holy Mountain. Over time... it is almost recited every Federation Celebration Day.

For a moment.

The entire Moonlight City, except for the divine sound of the scriptures, could hear no other sounds, making it immensely solemn and sacred.

Just when everyone thought that this year's Federation Celebration would proceed smoothly like the previous thirty odd years.

...

An unexpected situation occurred!!

The high peak in the east, reaching up to the sky, radiated enormous waves. The tremors were so strong that even ordinary people without mana could feel the shock.

"Look at Qingping Holy Mountain quickly!"

Someone shouted unknowingly, immediately attracting everyone's attention.

Everyone turned their gaze to the east, towards that holy land in the hearts of the people of the Great Yan Federation, towards the residence of the great Main God who led all beings into the interstellar era and towards a life of happiness and well-being.

Light!

An incomparably dazzling golden light!

The entire Qingping Holy Mountain seemed to be coated in a layer of golden radiance.

Under normal circumstances, this brilliance, brighter than the sun, would sting the eyes of all living beings.

However.

When everyone looked at the radiance on Qingping Holy Mountain, they found themselves unable to move their gazes, wanting to stare at it forever.

Warm and comfortable... as if returning to their mother's womb, submerged in the primordial spiritual water.

In an instant.

There was only one thought in everyone's mind...

The Main God Taichu has arrived!

After decades, the legendary Main God Taichu has descended onto the Water Blue Star once again, right when the Federation was celebrating its grand festival.

In such a way.

Everyone went mad.

They shaped their fingers into mudras, raising them high above their heads, murmuring the name of the Main God Taichu under their breath, their eyes brimming with deep gratitude.

Even though decades have passed.

Everyone still remembers the contributions of the Taichu Main God to the human race. Everyone knows who is responsible for the life they are living today.

Thud~

Thud~

Compared to the ordinary people's mudra salute, the cultivators were even more solemn. They not only raised their fist seals but also knelt on the ground, shouting out in unison:

"Disciple pays respect to Main God Taichu!"

"Disciple pays respect to Main God Taichu!"

"Disciple pays respect to Main God Taichu!"

...

Besides the ordinary people, the cultivators were even more fanatical.

On the Water Blue Star, there is only one cultivation technique, that is, The Law of Divine Cosmic Contemplation, a technique where the more devout the faith, the more spiritual energy of Heaven and Earth one can draw.

In other words!

The most devout may not be the highest in cultivation. However, the higher the cultivation, the more devout their faith must be.

...

On the high platform.

A light flowed in Yang Ying's eyes.

When she saw the commotion on Qingping Holy Mountain, she couldn't contain her joy.

Thirty-five years have passed, but her face remained unmarked by time.

Indeed, because she held the emperor's authority, and managed the affairs of the Federation's humanity year-round, she had developed an indescribable bearing, making her look like an empress, emanating an untouchable nobility.

However, looking at Qingping Holy Mountain, this empress displayed the behavior of a young girl, as if she was back to the time when she was a journalist, absolutely stunned, mouth agape at the miracles wrought by a Daoist priest.

Not just her.

Alongside her, Elder Jingde and Elder Qianqing both showed reminiscing expressions.

Perhaps.

To cultivators, thirty-five years may be a mere snap of the fingers.

But for them, thirty-five years is a very long time, long enough for them to miss their palace lord dearly.

And now... their backbone has finally come out.

...

...

Never mind the scene in Moonlight City.

The scene returns to Qingping Holy Mountain.

At this moment.

Xuanqing looked around at the thick, liquefying river of faith power—the power of incense fire, and couldn't help but be amazed.

Thirty-two years!

A full thirty-two years of accumulated incense power is now all gathered on Qingping Mountain.

And what was seen just now in Moonlight City was caused by the massive amount of incense power gathered on Qingping Mountain. Even the formation couldn't contain it, resulting in ripples of residual waves coming out.

"I never thought that in merely thirty years, the Great Yan Federation would have developed to this extent!"

A slight anticipation arose in Xuanqing's heart.

Then.

With a thought.

His divine soul left his body, enveloping the liquefied river of faith power, and murmured quietly:

"Recharge!"

Chapter 519: Chapter 371: In the Future, I (as a Taoist) will Lead You to Transcend the Universe! _1

“Recharge!”

In a blink.

All the incense fires disappeared, making the once-thick incense fire seem like an illusion.

Meanwhile.

A cue from the quantifier echoed in his mind.

[Beep...+9990.1 Trillion Gold coins!]

As expected.

Xuanqing felt surprised yet somewhat enlightened.

Because he had got an inkling when he was at the Douluo Palace.

However.

Even when he actually obtained so many gold coins, it still felt shocking, because... this was close to ten thousand trillions.

Shortly after.

With a flicker of thought.

“Open Character Panel!”

[Name]:Xuanqing

[Physique]:Chaos Virtue Holy Body.

[Grade]:Master of the Primordial Beginning

[Cultivation]:Swallowing Sky Tree (0.6%)

[Cultivation Method]:Heaven Devouring Saintly Art

[Divine Ability]:One Dust Suppressing Heaven (Perfect), Devouring Heaven and Earth (Perfect)

[Treasure coins]:9941 trillion

He then turned his vision to the character panel.

At this moment.

His cultivation progress was already '0.6%', and now he has a remaining 9941 trillion, which if all was used to speed up devouring the planet, could perfect his practice.

"Thirty-two years' time, which is just over ten thousand days, working it out... the daily income is over eight hundred billion."

Xuanqing licked his lips and couldn't help but murmur to himself.

Although he knew that after the population explosion, the incense fire income would experience explosive growth, but this increase... is truly terrifying.

From the original five hundred billion a day, it directly changes to eight hundred billion, sixteen times as much, it's unimaginable!

....

Just as Xuanqing was amazed at his income.

Four figures arrived outside Qingping Mountain.

"We are here to report to the Palace Lord!"

"Disciple Qingyun, seeking an audience with Sir!"

...

Outside Qingping Holy Mountain, the voices of Yang Ying, Elder Jingde, Elder Qianqing, and Huai Qingyun echoed.

"Enter!"

The resounding voice reverberated around.

The followers were overjoyed.

After more than thirty years, hearing their master's/ Sir's voice again gave them an indescribable sense of security deep in their hearts.

...

Upon entering the observation.

They could see their leader with a smile on his face, sitting cross-legged on the futon.

“It’s been thirty-two years, are you all well?”

Xuanqing spoke with a smile, then signaled the followers to come and sit on the futons beside him.

Everyone took their seats.

“Master, we are all well, although you had closed-door cultivation in the Fairyland for decades, but we know that you... have always been watching over Water Blue Star!” Yang Ying spoke with a gentle smile.

Beside her.

Huai Qingyun also spoke: “Yes, everything is fine, we just missed you, Sir.”

Thinking back.

He was in this room, diligently carving the jade talisman. Although life was monotonous, his heart was filled with fulfillment.

Feeling nostalgic, he couldn’t help reminiscing about the past.

...

Seeing this.

Xuanqing couldn’t help but chuckle.

Thirty-two years had passed, and this child... has grown up a lot.

“Alright, Yang Ying, tell me how is Water Blue Star progressing now?” Xuanqing asked curiously.

Honestly.

In thirty-two years, from the original 50 billion incense fire per day, it has developed to 8 trillion incense fire per day today, can achieve such extreme growth, he is very curious about the development of Water Blue Star.

“Cough, cough~”

Yang Ying cleared her throat, and said solemnly, “Master, the biggest breakthrough in Water Blue Star today is the advance of population and education!”

“It’s been fifty-five years since the establishment of the Great Yan Federation. From the initial total global population of 7.5 billion... it has grown to two hundred and thirty-one billion...”

Two hundred and thirty billion?

Hearing this number, Xuanqing couldn’t help but be stunned.

Wow~

Indeed.

Once life, health, and psychological health are all taken care of, humans are very capable of breeding.

It’s only been fifty-five years, and it’s increased from 70 billion to 230 billion, more than triple the growth!

Although surprised, continued to listen.

Yang Ying continued, “The development of the population mainly relies on the development of Mars, the combination of technology and cultivation...”

“At present, the cultivators of the entire Great Yan Federation have perfectly integrated into daily life and established a good mutual dependence with the common people.”

...

“Breakthrough in education mainly lies in ‘Practitioner Training’. From starting in the second grade of elementary school, the new ‘Visualization’ course was added. Those with cultivation talents will be assigned to cultivation classes for special...”

“So far, among the population of more than 20 billion, the ratio of cultivators accounts for 1%, and thanks to the popularization of the ‘Visualization’ course, this 1% consists of teenagers, accounting for as much as 70%.”

“However, the development of biological genetics is still at a standstill, and the potion to improve cultivation talent is still under development...”

...

With Yang Ying’s narration.

The entire development of Water Blue Star gradually unfolded.

Xuanqing's face showed understanding.

No wonder why he could make over eight hundred billion incense fire ingots every day, it turns out... in addition to the growth of the population, the increase in the number of cultivators is also very important.

You must know.

The amount of faith power that creatures can produce every day is limited.

A healthy adult human can produce about five points of incense fire at most in one devout prayer if they are faithful.

Chapter 520: Chapter 371: In the Future, I (as a Taoist) will Lead You to Transcend the Universe! _2

Even with a population of over two hundred billion, if every person burned incense once a day, it would only amount to one hundred billion.

The reason why the number could reach 'eight hundred billion' is due to the practitioners, who make up one percent of the two hundred billion population.

The amount of incense burned by a living being is not only determined by the sincerity of their faith but also by the strength of their own soul.

Out of a total population of over two hundred and thirty billion, cultivators make up one percent, which means... the Great Yan Federation in the Real World has more than two hundred million cultivators.

More than two hundred million... cultivators!

What is this concept?

If this number were put into the context of the Primordial era, even the East Sheng Divine Continent, which probably has the highest number of cultivators, would not have as many.

The current total population of the Black Wind Country is just over two hundred million.

Yet, in the Real World's Great Yan Federation, the number of cultivators alone exceeds two hundred million.

"All the Cultivators of the Water Blue Star practice The Law of Divine Cosmic Contemplation. Besides cultivating mana, the most important thing is to polish the soul!"

“No wonder they say that, with a mere two hundred billion population, they can generate eight trillion incense burnings daily!”

Xuanqing’s heart was filled with emotion.

Who would have thought... that the seed casually sown at the beginning has now grown into such a massive entity.

“Well done, Elder Yang Ying, I’m very pleased with your work. Tell me... what reward do you want?”

As soon as these words were spoken.

Yang Ying’s heart was sweetened. For her, receiving approval from her palace lord was better than any reward.

However.

She also knew that the success of the Great Yan Federation of the Water Blue Star was not solely due to her. Elder Jingde and Elder Qianqing... have also contributed significantly.

“Palace lord, the significant increase in population and the increase in the proportion of Cultivationers are primarily due to Elder Qianqing’s research and development in cultivation teaching!”

“Moreover, it is due to... Elder Jingde’s improvements to the Array Disk for absorbing Spiritual Qi and the establishment of legislation for cultivators, which maintains social peace and provides a stable rear.”

Having finished speaking about Elder Qianqing and Elder Jingde, she didn’t leave out Huai Qingyun beside her.

Yang Ying patted Huai Qingyun’s head, then softly said, “Our Emperor Qingyun also greatly contributed.”

“The reason we have over two hundred billion people is all thanks to him controlling the Samsara passage and continuously adding new souls of the recently born.”

...

“Don’t touch my head, Elder Yang Ying~” Huai Qingyun swatted away her hand in protest.

Sigh~

This woman, honestly, even in human years she would be over eighty years old. She still likes to touch my head; it's totally speechless~

Of course, apart from the fact that Huai Qingyun didn't like Yang Ying's small movements, he was extremely happy in his heart. He appreciated that she did not claim all the credit for herself just because the palace lord praised her.

On one side.

Elder Jingde and Elder Qianqing shared a smile, and they were also very satisfied with Yang Ying's statement.

...

"Hahaha~fine, you are all the merits of the Taiji Hall and I!"

Xuanqing laughed heartily.

Then.

He turned his gaze back to Huai Qingyun and joked, "Qingyun, you grew up under the care of Elder Yang Ying. You can't forget your roots just because you are now the lord of vital pathways. Understand?"

"Ah..?"

Huai Qingyun twitched the corner of his mouth, but he didn't dare to retort to his master, so he could only roll his eyes at Yang Ying, who was giggling on the side.

A light-hearted joke added a touch of warmth to the initially solemn and sacred Qingping Holy Mountain.

...

Looking at his harmonious and united followers,

Xuanqing was pondering in his heart about what kind of reward to give them.

He has never been a stingy person. His subordinates had developed the Water Blue Star so well, enabling him to gain over eight hundred billion Ingots daily. Naturally, he should reward them handsomely.

After thinking for a moment,

Xuanqing's mind was set.

“Listening to Elder Yang Ying just now, each of you has greatly contributed to the development of the Great Yan Federation. I should reward you handsomely.”

While speaking,

He motioned with his mind,

“Purchase three hundred and twenty-four Chaos Pills!”

[Ding... -3.2E Ingots!]

Following that.

Xuanqing flipped his hand, and four jade bottles appeared in his grasp, each containing eighty-one Chaos Pills.

Exactly.

What he intended to reward was to upgrade the bloodlines of all his subordinates to the ‘Chaos Body’!

In fact, if he wanted to, he could achieve not only a ‘Chaos Body’ but even a ‘Chaos Merit Holy Body’.

However, in the real world, there is no need for a Merit Holy Body. Because the three ways of Heaven, Earth, and Human were all created by him, there is naturally no need to worry about karma and the like.

In such a situation, a Chaos Body is enough!

..

At this moment.

When everyone saw the palace lord holding the jade bottle in his hand, they couldn’t help being a bit puzzled. Then they heard him say:

“This is a Chaos Pill. Taking it can condense a Chaos Body, constantly absorbing Chaotic Qi from the Endless Chaos to strengthen the physical body and enhance the foundation of the bloodline.”

Xuanqing pointed to the jade bottle in his palm and briefly explained.

Then.

He also explained what the 'Endless Chaotic World' was, and briefly mentioned the origin of the mysterious creatures on the sun.

After hearing this.

Everyone's mouths widened in shock, their eyes filled with astonishment.

They had not expected... That beyond this vast universe, there stands an even more colossal world, named Endless Chaos.

And the creatures of this Endless Chaotic World are so formidable that any creature that comes here can merge with the sun, becoming immortal.

It was terrifying!

While being deeply shocked.

Everyone couldn't help but gaze at the jade bottle in their palace lord's hand, their eyes filled with burning anticipation.

Especially when they heard the words...

"By the way, I have a Chaos Body!" Xuanqing added with a slight smile.

"Hiss~"

Gasps of cold breath emanated from their mouths.

No wonder!

No wonder their palace lord was so powerful. It turns out he had a 'Chaos Body' all along.

The even more unbelievable fact is that the palace lord now intends to give them this treasure that can condense a 'Chaos Body'.

Elder Jingde, the steadiest among them, was the first to snap back to reality.

"We thank the palace lord for this gift, and we pledge our loyalty, even if it means walking through fire and water!"

With slightly reddened eyes, Elder Jingde made a large salute, bowing to the palace lord.

Maybe.

When he had just pledged his allegiance to Xuanqing, because of his age, he was a bit hesitant in some ways.

But as time went by, especially after gaining cultivation and seeing Xuanqing's greatness, he became completely submissive.

Now.

When Xuanqing generously grants such a precious treasure, how can one not be moved?

To go through fire and water... is no longer just a saying, but the most genuine thought in Elder Jingde's heart at this moment.

The same goes for Elder Jingde.

Yang Ying and others have also reacted, kneeling down to express their gratitude.

"We.....we thank the palace lord!"

"Sir!"

Huai Qingyun, the most emotional of all, couldn't control his body and rushed into his master's arms.

Upon seeing this.

"Hahaha~ Well, it's just a mere Chaos Body, it's nothing!" Xuanqing stroked Huai Qingyun's head and laughed heartily.

To buy a Chaos Pill, it costs just 990,000!

You heard right.

It's 990,000 ingots, not even a million. The 81 Chaos Pills required to achieve a Chaos Body only cost a little over eighty million.

What is the concept of eighty million?

With his current daily income of eight hundred billion.

It only takes one day... to make ten thousand people have a Chaos Body.

"The Chaos Body is just the beginning. As long as you work hard, I will lead you to transcend the universe one day!"

Holding little Qingyun in his arms, Xuanqing gazed into the deep space of the universe. His eyes seemed to penetrate the starry sky, looking towards the vast Endless Chaos!
