

Ceo's Mysterious Fiancee by Piper Dunlap

Chapter 188

Chapter 188 She Is Skillful

As soon as Paige heard this, she immediately got up and walked out of the office. While walking, she asked, "What happened?"

"It should be that something stimulated her."

Stimulate?

Paige immediately guessed something and asked, "Did the Tate family go to the hospital?"

"A nurse said that before Madam Tate relapsed, she saw a family of three coming out of the ward."

In other words, Cassie was likely to have relapsed because of the Tate family.

Paige thought, if that's the case, I will never forgive the Tate family!

Then, Paige rushed to the Farwen Hospital. Cassie's physical condition was getting worse.

In addition to Colin, there were also two directors and a nurse in the ward. They were discussing how to treat Cassie.

"Whether doing the operation or not is up to you." Colin looked at Paige and said so.

Cassie's current physical condition couldn't withstand the torment of the operation. However, if she didn't accept the operation, she would definitely ***!

Paige put her fingers on Cassie's wrist and said to Colin, "Give me my special medical tools."

It was not necessary to have surgery yet.

Colin took the special medical tools and gave them to Paige.

Paige picked out a few special medical tools with one hand. Then, she attached them to Cassie's body one by one.

The new nurse at the side was scared and wondered, who is she? How dare she do this in front of the two directors

and Dr. Williamson?

The nurse couldn't help but look at Colin. "Dr. Williamson, what is she..."

"Don't distract her!" Colin knew that Paige must know how to treat Cassie. Paige had used more than a dozen special medical tools. After a while, Cassie spat out a ***of blood.

"Grandma, can you hear me?" Paige bent over and asked softly.

The nurse at the side witnessed this magic scene. She suddenly remembered that when she came to Farwen Hospital for her internship a few days ago, she heard from the other nurses that there was a high school girl with great medical skills. That girl also had performed surgery with Colin to save people....

The nurse wondered, is she the little girl in front of us now?

She is so skillful at such a young age. That's amazing.....

Cassie heard a familiar voice and weakly opened her eyes. She subconsciously wanted to grab Paige's hand.

Paige hurriedly held Cassie's hand and asked in a low voice, "Grandma, how do you feel?"

"Paige, I'm sorry..." Cassie was very emotional at that moment. "I couldn't even keep the things you gave me...'

What did this mean?

"The thing..." Cassie coughed a few times, and her eyes were full of tears. "The thing is gone..."

Paige realized that Cassie was stimulated by this matter. Then, Paige hurriedly comforted Cassie, "It doesn't matter. They are just worldly possessions. If you like it, I can buy more for you."

"No. No..." Cassie's voice carried a trace of sadness. "Don't buy any more of them. It should have been taken away by

them...'

Cassie thought that even if Paige bought new ones, those people would still take them away from her!

Paige comforted Cassie softly, "Don't get angry or sad. You are too weak. Now, close your eyes and have a good sleep. After you wake up again, your thing will come back."

Cassie knew that Paige had the ability to get the thing back. Paige had been specially trained. Not to mention dealing with ordinary people, even dealing with killers was not a problem for Paige....

But Cassie didn't want to trouble Paige, so she said, "No. Don't go to them..."

As Cassie spoke, she suddenly spat out another ***of blood, which frightened the nurse. The nurse subconsciously covered her ***.

After all, she had just finished her internship. Seeing such a **scene was still very terrifying to her.

But Paige seemed to be used to this kind of scene. She gently wiped the blood off the corner of Cassie's ***with a tissue. Then, she patted Cassie's chest gently.

"Please calm down."

With Paige's help, Cassie became better. However, Cassie still felt sad because of her loss.

Cassie thought that Paige must have spent a lot on finding and making that gem flower.

Also, even though that new phone didn't look like a famous brand, Cassie knew that the applications on the phone were easy to use. Thus, it would definitely not be cheap.

Moreover, that bracelet was made of top-quality jade. It should be designed by Paige personally, and Cassie liked it very much...

However, they were all taken away by those people!

Cassie had been bored and lonely in the ward for the past few days. Because of the company of those small things, Cassie didn't feel that lonely.

"Don't be sad. I will definitely let them return those things to you."

Paige comforted Cassie softly. Seeing that Cassie gradually calmed down, and the data on the instrument returned to normal, Colin left with the two directors and the nurse.

The two directors were amazed by Paige's medical skills. This was not the first time they had seen Paige save the patient.

"If we have such a talent in the hospital, our hospital's position in the country will definitely be the top."

"I agree with you. The new can always overthrow the old. She is so young, but her medical skills have already surpassed ours!"

"It seems that the person who took Madam Tate's things was her own son. He is really a **! How could he do that?" The nurse followed behind Colin, clenching her fists and saying so angrily.

"He is much worse than a **," Colin said casually. "Remember to inform me next time they come."

Just now, when Colin saw the anxiety and concern in Paige's eyes, he seemed to feel hurt in his heart.

Colin did not want to see Paige's worried face again.

"No problem." The nurse followed Colin's steps. She asked curiously, "Dr. Williamson, is that girl your girlfriend? I think that you two are a good match! Is she the legendary high school student who saved Mr. Stowe? How can she have such exquisite medical skills at such a young age? Did she get those skills from her family?"

The nurse kept asking nosily on the way.

Colin recalled what she saw the last time he was in the hospital. He remembered that cold and handsome man. Colin had to admit that it seemed like that person and Paige were even more suited for each other...

Colin's medical skills had never surpassed Paige's over the past half year.

Just like today, Colin thought that he had to conduct an operation to save Cassie. But Paige only used a few special medical tools and successfully saved Cassie.

Colin thought that the distance between Paige and him seemed to be very great.

"Dr. Williamson, don't you have to spend some time with your girlfriend? Why do you work overtime every day?" The nurse kept asking Colin questions.

No one knew that Colin worked overtime every day to improve his medical skills. He wanted to get closer to Paige. After Cassie fell asleep, Paige gently covered her with a quilt.

Cassie was still holding a thin bracelet in her hand. It was the first gift that Paige gave Cassie after Paige earned

money.

Probably because this bracelet was too thin, and Lindsey felt that it was not worth much, Lindsey did not take it away. Paige heard that when Cassie woke up, Lindsey and the others were already in Cassie's ward. After a while, Lindsey and the others left. And when Cassie reached to touch the bottom of her pillow, she couldn't find anything!

Cassie's ward was a VIP ward, and there were surveillance cameras outside the ward. It was impossible for thieves to get in and rummage through the things under Cassie's head and then leave openly.

No other relatives or friends knew that Cassie was in this hospital. Other than Paige, the people who usually came to visit Cassie were the people of the Tate family.

Thus, the thing must have been taken by the Tate family.
