

Legendary Armament Canon

Legendary Armament Canon - Chapter 1216 - 1216 The Myriad Worlds Communication Token Is Popular (2) -

1216 The Myriad Worlds Communication Token Is Popular (2)

Several days later, the Chu emperor cut an enemy in half with his sword. His body flickered with light, and his aura soared. He was full of surprise.

“Is this the power of the Myriad Worlds Communication Token?” The Chu emperor reached out and touched the Myriad Worlds Communication Token hanging from his waist, his eyes full of cherishment.

He had personally led the expedition. After he used this Myriad Worlds Communication Token, his strength had directly erupted by ten times. He was much stronger than the Great Wei soldiers who had used their mystic technique.

The more he understood this Myriad Worlds Communication Token, the more the Chu emperor liked it.

He really loved this Myriad Worlds Communication Token.

Not only could this Myriad Worlds Communication Token transmit sound from tens of thousands of kilometers away, but it even had various other unbelievable functions.

This strength-increasing ability allowed him to unleash almost ten times his strength at any time. Its effect was simply beyond his imagination.

If everyone in Great Chu had a Myriad Worlds Communication Token, he wouldn't be afraid of Great Liang.

He could even personally lead the elites of Great Chu to flatten Great Liang!

The Chu emperor was in high spirits, and his frustration of almost becoming the ruler of a fallen nation was gone.

Of course, he could only think about defeating Great Liang.

Great Wei and the Huaxia Pavilion had only supported them with two hundred Myriad Worlds Communication Tokens. If they wanted more, they would have to buy them with money.

The Chu emperor didn't think there was anything wrong with this.

It was already extremely benevolent of them to give two hundred of such a magical thing for free.

One should know to be content!

When no one was willing to help Great Chu, it was Great Wei and the Huaxia Pavilion who generously helped.

The Chu emperor only felt gratitude toward them and would definitely not have any complaints against them.

He had already asked the civil and military officials to gather resources and buy more Myriad Worlds Communication Tokens.

The strength of the Great Liang army indeed surpassed Great Chu's, but as long as they had Myriad Worlds Communication Token, Great Chu could catch up to this difference.

They might even be able to counterattack.

Now, the Chu emperor was full of confidence!

...

The Chu emperor was in high spirits, while the other nations fell into confusion.

Great Chu, which the Great Liang army had been beating into the ground, suddenly regained its glory?

From the beginning of this war, no one could understand.

First, Great Liang had sent out troops for no reason. Then the strength of the Great Liang army far exceeded everyone's imagination.

Not only that, but Great Chu, which had already clearly shown signs of defeat, suddenly became much stronger and turned the tables!

The world was changing so quickly that they couldn't understand it.

The scouts of the various nations appeared on the land of Great Chu.

The territory of Great Liang was like a ghost's domain. It was impossible to enter or leave, but Great Chu was not that dangerous.

Now, all the nations wanted to find out the reasons for the obvious change in Great Chu.

With Great Wei deliberately helping to encourage it, the Myriad Worlds Communication Token was quickly placed on the desk of the emperors of the various nations.

Anyone who came into contact with the Myriad Worlds Communication Token would be extremely shocked by its function.

There had never been such an auxiliary connate divine weapon in this world. This was an earth-shattering creation.

For a time, countless orders flew into the Huaxia Pavilion like snowflakes.

Some rich people paid the fees before even seeing the item. Since the Myriad Worlds Communication Token doesn't cost money, we'll pay a year's fee in advance...

The people from the Huaxia Pavilion once again experienced what it felt like to count money until their hands cramped.

Although the cost of building Myriad Worlds Communication Tokens was not high, there were too many orders, and it brought quite a bit of pressure to the Huaxia Pavilion.

Shi Songtao once again realized Zhou Shu's foresight.

In the beginning, Zhou Shu had taught him the method of making the Myriad Worlds Communication Token and then asked him to teach it to all the forgers of the Huaxia Pavilion.

If not for this, Zhou Shu wouldn't have been able to forge so many Myriad Worlds Communication Tokens alone, even if he exhausted himself.

Moreover, it was unrealistic for him to do such low-tech production work.

Now, all the forgers in the Huaxia Pavilion had already put down their other work and devoted themselves to forging Myriad Worlds Communication Tokens.

Even so, Myriad Worlds Communication Tokens were still in short supply!

Shi Songtao had even temporarily borrowed all of Great Xia's Forging Apprentices in order to meet the supply needs of the Myriad Worlds Communication Tokens.

Forging Myriad Worlds Communication Tokens became the top priority of the Huaxia Pavilion and the Xu Ling Grotto-Heaven.

Even Yin Wuyou put aside everything else and began to coordinate resources specifically for this matter.

On the other hand, Zhou Shu, who had started this matter, seemed to be calm in the middle of a storm. He became the most idle person in the entire Xu Ling Grotto-Heaven.

Apart from continuing to forge connate divine weapons, Zhou Shu was constantly perfecting the functions of the Myriad Worlds Communication Ball.

The more functions the Myriad Worlds Communication Ball had, the sharper it would be when harvesting leeks.

This Myriad Worlds Communication Ball was a stroke of genius by Zhou Shu. He had forged it to comprehensively increase the strength of humans and even demonic beasts.

From the looks of it, the effect wasn't bad. At least the Ten Nations were more energetic than before. With competition, they had the motivation to become stronger.

Not only did the Myriad Worlds Communication Ball provide competition, but it also provided the possibility for martial artists to improve. Using the Myriad Worlds Communication Ball, they had a chance to learn the profundity of the Martial Dao.

Although they had to pay some fees, using money to learn the Martial Dao was something they had never dreamed of in the past.

To be able to learn the Martial Dao, not to mention spending some money, even if they went bankrupt, countless martial artists were willing.

Now, they only needed to spend some money on a Myriad Worlds Communication Token to learn the Martial Dao. No martial artist could resist this temptation.

In fact, there were already martial artists who had bought a Myriad Worlds Communication Token at the expense of going bankrupt!

The Myriad Worlds Communication Token became popular too quickly. It was so fast that the Huaxia Pavilion's branches had yet to be established. This situation made Shi Songtao happy and worried. Even in his dreams, he was thinking about finding suitable candidates to build branches!

1217 Invincible For Too Long (1)

"What did you say? Great Chu hasn't been conquered yet?"

In Great Liang's imperial palace, a strange shade of red flashed across Cao Chenyang's face.

His aura fluctuated for a moment before stabilizing.

The minister of war's eyelids twitched violently, and his heart almost jumped out of his throat.

This new Liang emperor was temperamental and could eat people at the drop of a hat. He was really afraid that he would be eaten if he said anything wrong.

As the saying goes, accompanying a ruler was like accompanying a tiger. Only now did the minister of war of Great Liang truly realize the meaning of this sentence.

"Your Majesty, it's not that the soldiers don't want to fight, but Great Chu's strength suddenly increased. We really have no choice," the minister of war said bitterly.

It was unrealistic for Great Liang to attack Great Chu. If the new Liang emperor hadn't insisted, Great Liang wouldn't have mobilized troops so easily.

It wasn't surprising for Great Liang to be suffering setbacks now.

“Great Chu’s strength suddenly increased? Didn’t I already teach you a mystic technique to increase your strength? You can’t even deal with a mere Great Chu. You’re really useless!” Cao Chenyang said angrily.

The minister of war felt bitter. That’s right, Your Majesty, you did teach us a mystic technique, and that mystic technique is indeed useful. In the beginning, the Great Liang army was indeed unstoppable.

But Great Chu isn’t useless. They can also think of a way to counterattack.

“Your Majesty, I’ve already sent people to investigate. The reason why Great Chu’s strength increased so quickly is because of this.” The minister of war reluctantly took out a palm-sized metal token.

“What is this?” Cao Chenyang frowned.

“This is called the Myriad Worlds Communication Token.” The minister of war felt his heart bleed. “I paid a huge price to obtain this.”

While handing the Myriad Worlds Communication Token to Cao Chenyang, he explained, “The Myriad Worlds Communication Token can transmit sound from tens of thousands of kilometers away and also replenish the spiritual essence consumed by martial artists. Most importantly, it can stimulate the potential of martial artists and allow them to erupt with powerful strength for a certain period of time.”

He looked at his Myriad Worlds Communication Token with bated breath. If not for the fact that he was worried about his life, he really couldn’t bear to give this token to Cao Chenyang.

After giving this to Cao Chenyang, he would definitely not get it back.

But he had to give it to him.

Alas... The minister of war sighed in his heart. After giving this Myriad Worlds Communication Token away, he didn’t know if he could get another one.

This Myriad Worlds Communication Token was too popular. It was hard to come by.

“The soldiers of Great Chu rely on this to increase their strength? Is this thing more effective than the mystic technique I taught you?” Cao Chenyang sized

up the Myriad Worlds Communication Token. This thing looks like a crude token. How can it compare to my mystic technique?

“Yes.” The gaze of the minister of war had never left the Myriad Worlds Communication Token. He really wanted to snatch it back.

“How do I use this thing? Where did it come from?” Cao Chenyang asked casually.

“You just need to inject spiritual essence. It’s very easy to use,” the minister of war explained. “This is a divine weapon produced by the Huaxia Pavilion. It doesn’t cost money, but if you want to use the functions attached to it, you have to pay the Huaxia Pavilion. But it’s still very worth it. The Huaxia Pavilion’s fees aren’t high...”

The minister of war was an important official of Great Liang. He didn’t care about some mere fees.

“The Huaxia Pavilion?” Cao Chenyang snorted coldly, and a cold glint flashed across his eyes. “Zhou Shu’s Huaxia Pavilion?”

The minister of war shivered and said weakly, “Yes.”

He remembered that this emperor seemed to have a good relationship with King Zhou and the others in the past.

Why did he react in this manner?

But the minister of war was a smart person. He immediately realized that this emperor and King Zhou had probably turned against each other.

“Hmph! As expected, he’s the one behind this!” Cao Chenyang said coldly. “This bastard keeps ruining my plans. Sooner or later, I’ll definitely devour him!”

Although he was cursing Zhou Shu, his interest was also aroused by the Myriad Worlds Communication Token in his hand.

Although he was very unhappy with Zhou Shu, even he had to admit that Zhou Shu was an extremely powerful opponent.

Even he couldn’t ignore Zhou Shu’s ability.

The things this bastard made were definitely not bad.

Cao Chenyang followed the instruction of the minister of war and injected a stream of spiritual essence into the Myriad Worlds Communication Token.

Buzz—

A faint white light appeared on the token.

A crisp mechanical voice said, "Welcome back."

Cao Chenyang was shocked and almost crushed the Myriad Worlds Communication Token.

But he quickly reacted and coughed. "Leave. I'll study this thing."

He chased the minister of war out.

The minister of war cursed in his heart. There was no hope of getting his Myriad Worlds Communication Token back.

Sigh, I can only think of a way to get another one.

He had become accustomed to the existence of the Myriad Worlds Communication Token. Now that it was suddenly gone, he felt uncomfortable all over.

Listening to Cao Chenyang's surprised sighs coming from the room behind him, the minister of war couldn't help quickening his pace.

"Damn it. How did that bastard Zhou Shu think of this?" Cao Chenyang's voice echoed in the room. "This can actually allow people to discuss the Martial Dao. What nonsense Martial Dao theory is this? Let me teach you!"

Cao Chenyang left large paragraphs of text on the Myriad World Communication Token and sent them out.

On the Myriad World Communication Token, there was already a forum for Martial Dao exchanges, and some good teachers had already posted a lot of information on it.

1218 Invincible For Too Long (2)

In the Xu Ling Grotto-Heaven, Zhou Shu's eyes suddenly lit up as he raised his head. He's here! Cao Chenyang has finally joined!

In the Myriad Worlds Communication Ball, all users would leave traces.

The moment Cao Chenyang posted, Zhou Shu had already sensed his presence.

Following the karma thread of the Myriad Worlds Communication Ball, Zhou Shu instantly locked onto Cao Chenyang's location. Cao Chenyang was indeed in the capital of Great Liang.

Now, he was certain that Cao Chenyang was the one behind Great Liang's sudden attack on Great Chu.

The mystic technique Great Liang had mastered to increase their strength also came from Cao Chenyang!

Zhou Shu was still unsure of what trap he had set up in Great Liang for the time being.

But he wasn't in a hurry now. Since Cao Chenyang had already joined the Myriad Worlds Communication Ball, his secrets would be known by Zhou Shu sooner or later!

Zhou Shu began to check the information left by Cao Chenyang in the Myriad Worlds Communication Ball.

...

"Haha!" In Great Liang's imperial palace, Cao Chenyang's laughter echoed in the room. "A mere unknown martial artist dares to argue with me? Are you convinced now? Just a few words from me can broaden your horizons."

He was feeling smug.

In reality, he wouldn't even look at such an inconsequential martial artist, let alone give pointers.

But on this Myriad Worlds Communication Token, Cao Chenyang's interest increased greatly.

He actually spent the entire afternoon arguing with this martial artist.

In the end, he won the debate.

Cao Chenyang played with the Myriad Worlds Communication Token for a long time before putting it away reluctantly.

This is a good thing. When my main body swallows this world, I'll make one too, Cao Chenyang thought. It's quite fun to tease those little martial artists when I'm bored.

Damn it. That bastard Zhou Shu, I wonder how he thinks!

He's a talent. If he's willing to submit to me, it's not impossible to spare his life.

But even if I want to subdue him, I have to let him recognize my strength.

Cao Chenyang snorted coldly and looked at Great Liang's capital. This Myriad Worlds Communication Token can indeed increase the strength of martial artists. But it might not be more powerful compared to my mystic technique. I'll let you see how strong I am!

Let's treat the war between Great Liang and Great Chu as an attempt. Let's see if you can help Great Chu win or if I can let Great Liang win!

Cao Chenyang's fighting spirit was also stimulated by Zhou Shu's Myriad Worlds Communication Token.

In the past, he had always defeated his enemies easily. This time, he wanted to use another method to play with Zhou Shu.

This Myriad Worlds Communication Token can increase the strength of martial artists?

My mystic techniques can also increase the strength of martial artists!

You help Great Chu, and I control Great Liang.

Let the soldiers of the two nations be pawns. Let's see if your Myriad Worlds Communication Token is stronger or my mystic technique is stronger!

Boundless light lit up on Cao Chenyang's body, and balls of starlight flew in all directions.

Cao Chenyang had been possessed by the enemy from beyond the heavens, so he had all kinds of mysterious divine powers.

This divine ability to impart techniques through dreams was also his forte.

...

At the border between Great Liang and Great Chu, both armies were fighting intensely.

The Chu emperor was personally leading the expedition. Now, hundreds of people in the Great Chu army already had a Myriad Worlds Communication Token.

These people became the sharp blades of the Great Chu army. When they fought on the battlefield, they played a huge role.

On the other side, the strength of Great Liang's army increased again.

The Chu emperor was a little depressed now. He had spent a tremendous sum of money to buy millions of Myriad Worlds Communication Tokens. Taking advantage of the increase in the strength of the Great Chu army, he wanted to completely defeat the Great Liang army.

Just as they were about to succeed, Great Liang's army's strength increased greatly!

In the end, both sides fell into a stalemate again.

For many days, both sides collided many times, and both sides won and lost.

"Both sides are evenly matched. The opposing army is deployed as follows... The military strength of the right side is as follows..."

The Chu emperor was in the military camp and typing on the Myriad Worlds Communication Token.

This was also a function of the Myriad Worlds Communication Token he had recently discovered.

If there was a problem, he could post a question on the Myriad Worlds Communication Token.

Then someone would answer. Although he didn't know who answered, many of the answers gave the Chu emperor inspiration.

He even suspected that there were great generals from other nations secretly answering his questions.

Just by paying some consultation fees, he could get the great generals of other nations to give him advice. Was there anything more cost-effective in the world?

This was equivalent to having a think tank, a think tank that didn't require salaries.

The consultation fee was almost negligible!

Ding dong!

A moment later, a crisp sound came from his Myriad Worlds Communication Token.

The Chu emperor quickly took out his Myriad Worlds Communication Token. He reached out and tapped it, and a sentence popped up.

God of War: "Both parties are evenly matched. If you want to defeat the other party quickly, you only need to do this..."

The person who called himself God of War gave him a set of strategies to arrange troops.

The Chu emperor slapped his thigh in praise! "Wonderful! An expert! Now, I want to see how Great Liang can deal with my Great Chu!"

Neither Great Chu nor Great Liang had any famous generals.

But Great Chu now had the Myriad Worlds Communication Token and an entire think tank. The Chu emperor's confidence increased greatly.

Great Chu would definitely win this war!

What the Chu emperor didn't know was that the commander of the Great Liang army also held a Myriad Worlds Communication Token and posted a question on the forum.

“An army wants to attack me. I want to know how to deal with them. It’s quite urgent. I’m waiting on standby...”

...

The Xu Ling Grotto-Heaven, Huaxia Pavilion, forging room...

Zhou Shu’s expression was a little strange. The Myriad Worlds Communication Ball floated in front of him, and sections of light seemed to flow through it.

These were all information from the various Myriad Worlds Communication Tokens.

The Myriad Worlds Communication Ball was a server. All the information on the Myriad Worlds Communication Token could only be exchanged through the Myriad Worlds Communication Ball.

This meant that Zhou Shu could see everything.

He naturally saw the problems raised by the Chu emperor and the Great Liang general.

What made his expression strange was that the fellow who called himself God of War was actually Cao Chenyang!

Cao Chenyang was self-taught and had created several aliases. It was either God of War or some other god.

He actually helped Great Chu come up with a plan, and it was a true plan. He wasn’t trying to harm Great Chu.

Did this fellow really not know that the person asking the question was the Chu emperor?

What was even more interesting was that the one who answered the Chu emperor’s question was Cao Chenyang, and the one who answered the Great Liang general’s question was Sun Gongping!

Sun Gongping knew nothing about the art of war.

Zhou Shu wondered if the Great Liang general would take his nonsense seriously!

I didn't expect Cao Chenyang to be an internet addict. In just a few days, he actually replied to all the posts on the Myriad Worlds Communication Ball.

Originally, I thought it would take him some time to reveal his secrets. I didn't expect this guy to be so unguarded. It's impossible for him not to know that I made the Myriad Worlds Communication Ball.

Or maybe it's because he's been invincible for too long, so he doesn't take anyone seriously at all.

Perhaps I can really use him to do something...

1219 The Best Way to Destroy the Enemy Is To Turn Them Into One's Own (1)

Hundreds of people gathered at the entrance of the Xu Ling Grotto-Heaven. In the distance, there were even rows of tents.

Although there were many people, these people consciously maintained a safe distance from the entrance of the Xu Ling Grotto-Heaven.

Moreover, there were so many people, but they didn't cause much of a commotion.

These people were not here to cause trouble for the Xu Ling Grotto-Heaven.

They were here to buy Myriad Worlds Communication Tokens!

To be able to come to the Xu Ling Grotto-Heaven in the Endless Sea, these people were at least at the Earth Immortal realm.

If this was in the Ten Nations, it would definitely be chaotic.

But outside the Xu Ling Grotto-Heaven, they could only line up obediently.

The Myriad Worlds Communication Token was too popular. They had no choice but to go to the Xu Ling Grotto-Heaven to try their luck and see if they could obtain one.

"Someone from the Huaxia Pavilion is out!" someone shouted.

Then hundreds of people surged forward and surrounded the person who had walked out of the Xu Ling Grotto-Heaven.

The man was shocked and shouted warily, “Who are you?! What are you trying to do?! I’m warning you. Don’t act rashly. This is the Xu Ling Grotto-Heaven!”

Although he was nervous, he wasn’t afraid.

After all, they were at the entrance of the Xu Ling Grotto-Heaven. He didn’t believe that anyone would dare to do anything to him here.

He was a forger of the Huaxia Pavilion and a subordinate of King Zhou!

Everyone squeezed out an obsequious smile.

“Brother, don’t be nervous. We have no ill intentions.”

“We’re not bad people. We just want to ask if you have any Myriad Worlds Communication Tokens. We’ll pay a high price to buy them!”

“You want Myriad Worlds Communication Tokens?” The person who had just walked out of the Xu Ling Grotto-Heaven was stunned.

“Yes.” Everyone nodded.

“Brother, do you have any? Price is not a problem!” These people were extremely rich.

“I do, but I can’t give any to you,” the forger of the Huaxia Pavilion said.

Then he said mysteriously, “If you want Myriad Worlds Communication Tokens, I can show you a way.”

“What way?” Everyone’s eyes lit up.

The forger lowered his voice and said, “You can go to Great Chu. Let me tell you. Out of humanitarianism, our Huaxia Pavilion is supporting Great Chu with a batch of Myriad Worlds Communication Tokens. Now, Great Chu is in need of manpower. With your cultivation, as long as you lend a helping hand, will you have to worry about the Chu emperor not giving you a Myriad Worlds Communication Token.”

Everyone looked thoughtful. After a moment, they nodded.

After pondering for a moment, they cupped their hands at the Huaxia Pavilion forger. "We understand. Thank you for your reminder, brother. This is a small gift. Please accept it!"

These people left some gifts for the forger before turning around and flying away.

The forger held a pile of gifts and turned to look helplessly.

Shi Songtao, the deputy pavilion master of the Huaxia Pavilion, walked out of Xu Ling Grotto-Heaven and said to the forger, "Since they gave them to you, just accept them."

Then he waved his hand. "Go send this batch of Myriad Worlds Communication Tokens to Great Chu."

After the forger left, he turned around and returned to the Xu Ling Grotto-Heaven. He went straight to Zhou Shu's forging room. "Your Highness, we have directed people to Great Chu according to your instructions."

Shi Songtao said respectfully, "But Your Highness, I don't understand. Isn't it good to use the Myriad Worlds Communication Tokens to keep people in Great Wei? If we want to help Great Chu, Great Wei can just send troops."

Shi Songtao couldn't understand this. Whoever had more Myriad Worlds Communication Tokens now could attract more people.

If the Myriad Worlds Communication Tokens were all given to Great Chu, wouldn't all the talents go to Great Chu?

"If Great Wei sends troops, won't all the casualties be Great Wei's?" Zhou Shu said. "Besides, do you think there's any difference whether these people are in Great Wei or Great Chu?"

Zhou Shu's expression was calm, but Shi Songtao's heart suddenly skipped a beat.

He thought of a possibility. With His Highness's strength, he will be able to unify the human race sooner or later. At that time, no matter which nation it is, they will all be His Highness's citizens.

I am only focusing on one nation, but His Highness's gaze is on the entire world.

As expected, His Highness is His Highness after all. Shi Songtao sighed. "The strength between Great Chu and Great Liang is similar. Now that Great Chu has our support, victory will probably be won in a flash. The Chu emperor should really thank Your Highness."

Although Zhou Shu didn't personally take action, if not for the Huaxia Pavilion's connate divine weapons and Myriad Worlds Communication Tokens, Great Chu would probably have perished.

Shi Songtao felt that Zhou Shu was accomplishing things with more and more ease.

If it was in the past, he would probably have had to take action personally to resolve the crisis of Great Chu.

But now, he didn't make a move from the beginning, and he didn't even dispatch a single soldier, yet he managed to help Great Chu turn the tables just by sending some things to them.

The key was that Great Chu had sent back heavenly treasures that were far more valuable than those things.

Most importantly, a group of users of the Myriad Worlds Communication Tokens had appeared in Great Chu. In the future, they would continue to pay the Huaxia Pavilion.

Shi Songtao was already looking forward to what it would be like when everyone in the world had a Myriad World Communication Token.

The Huaxia Pavilion would only need to count money every day...

1220 The Best Way to Destroy the Enemy Is To Turn Them Into One's Own (2)

"I'm not doing this to make them thank me," Zhou Shu said indifferently.

"Deputy Pavilion Master, get someone to secretly send another batch of Myriad Worlds Communication Tokens to Great Liang..."

"Huh?!" Shi Songtao said in surprise. "Your Highness, Great Liang..."

Isn't Great Liang controlled by the enemy from beyond the heavens?

Aren't we helping Great Chu defeat Great Liang?

It wasn't easy to finally see the possibility of Great Chu surpassing Great Liang. If they gave Great Liang Myriad Worlds Communication Tokens, wouldn't Great Liang's strength increase?

"Do as I say. I have my own plans," Zhou Shu said calmly.

Although Shi Songtao was puzzled, he still did as he was told.

After Shi Songtao left, Zhou Shu placed his consciousness on the Myriad Worlds Communication Ball.

With this Myriad Worlds Communication Ball, even if he didn't leave his residence, he knew everything that happened in the world like the back of his hand.

He had asked Shi Songtao to give Great Liang the Myriad Worlds Communication Tokens because he didn't want Great Liang to fail so quickly.

If Great Liang failed, Cao Chenyang would definitely be forced to take action. At that time, should Zhou Shu fight or not?

In the past, Zhou Shu would definitely have wanted to destroy Cao Chenyang immediately.

But now, he changed his mind.

Destroying an enemy might not necessarily be physical. It was also possible to destroy an enemy mentally.

Cao Chenyang had made several aliases and was more active than anyone on the Myriad Worlds Communication Ball.

One moment, he transformed into the God of War to guide the Chu emperor in the war, and the next moment, he transformed into the Peerless Martial God to guide some martial artists in the Martial Dao.

Zhou Shu even felt that he couldn't care less about the war between Great Chu and Great Liang now.

Zhou Shu wanted the war between Great Chu and Great Liang to last longer, so the difficulty had to increase. This way, Cao Chenyang would be more interested in giving pointers to the Chu emperor on the Myriad Worlds Communication Token.

The longer it took, the greater the possibility of Cao Chenyang becoming addicted to the Myriad Worlds Communication Token.

Most importantly, Zhou Shu realized that Cao Chenyang was quite a good teacher. He guided martial artists in the Martial Dao, and many Martial Dao theories came from another world.

This also gave Zhou Shu a chance to see the Martial Dao of the outside world.

In addition, Cao Chenyang's obsession with the Myriad Worlds Communication Token allowed Zhou Shu to see the possibility of instigating him to defect!

Cao Chenyang was now occupied by a wisp of the enemy's soul. Or rather, he was now equivalent to a clone of the enemy.

If Zhou Shu could instigate him to defect, it would definitely have a miraculous effect when dealing with the enemy from beyond the heavens in the future.

...

"Zhou Shu, it's been a few days since we last met, and you've caused another huge commotion," Ji Lutian said speechlessly as he walked into Zhou Shu's forging room.

He said helplessly, "Along the way, I've seen people fighting to buy something called the Myriad Worlds Communication Token. In the end, I found out that you were the one who created this item!"

He had only gone to the battlefield opened by Cang Hao for a few days. When he returned, he felt that the entire world had become unfamiliar to him.

"It's just a small thing," Zhou Shu said casually. "Did you manage to obtain any news on your side?"

“Small thing?” Ji Lutian didn’t answer. Instead, he continued, “That Myriad Worlds Communication Token isn’t a small thing. Zhou Shu, you’re playing a big game of chess.”

Ji Lutian wasn’t an ordinary person. As soon as he came into contact with the Myriad Worlds Communication Token, he realized the greatness of its effect.

Zhou Shu shook his head. “I don’t have time to play chess. It’s just something I casually made. You’ve lived for too long and like to think too much.”

Ji Lutian said solemnly, “Alright, I’ve misunderstood you. But to be honest, if this Myriad Worlds Communication Token is used well, it’s enough to change the situation of this world in the future.”

“I don’t know if it can change the situation of the world, but I know that we still have a great enemy.” Zhou Shu pointed at the sky. “You said I’m playing a game of chess. I’m doing this to deal with him.

“Tell me quickly. What’s the situation on the battlefield opened by Cang Hao? What do you think if my Myriad Worlds Communication Token is sent to the enemy in the outside world?”

Zhou Shu rubbed his chin and pondered.

If the enemy from beyond the heavens also used his Myriad Worlds Communication Token, then the enemy would no longer have any secrets.

Ji Lutian returned to the topic at hand. “The situation on the battlefield is quite stable. Cang Hao knows his limits. Every hundred years, he will send a group of enemies over.

“If you want to send the Myriad Worlds Communication Tokens to the outside world, we have to think of a way to contact Cang Hao.

“In the current situation, Cang Hao can send people over, but no one can go over to the other side.”

Ji Lutian described the situation of the battlefield that Cang Hao had opened.

On that battlefield, there was Wang Xuanyi, Diao Moye, Shi Changsheng, and some lesser-known Grotto-Heaven Masters. Of course, there were also the enemy from beyond the heavens.

According to Ji Lutian's description, this place was purer than the Ten Nations Martial Arts Tournament battlefield back then. It was a hell on earth full of killing.

Apart from killing, there was only killing. One could either kill the enemy or be killed by the enemy. There was no second possibility.

It was impossible to stay there leisurely.

"The idea of sending enemies over to train is not too realistic. Those below the Grotto-Heaven realm can't survive there at all," Ji Lutian said seriously.

"I guess Cang Hao's original intention was to let the Grotto-Heaven realm experts of the human race seek an opportunity to break through.

"After all, according to our speculation, there should be experts above Grotto-Heaven Masters outside the world."

Ji Lutian's expression was solemn. Not to mention anything else, the strength of the existence that wanted to devour their world was unimaginable.

"Zhou Shu, tell me the truth. Does the Myriad Worlds Communication Token have other uses? If we send them to the enemy, will it help our situation?" Ji Lutian asked gravely.

"It will definitely help." Zhou Shu nodded and pointed at the Myriad Worlds Communication Ball in front of him. "Let me put it this way. All the karma of the Myriad Worlds Communication Tokens is on this Myriad Worlds Communication Ball. As long as there's a Myriad Worlds Communication Token, I can directly teleport to wherever it is.

"In addition, I can control any situation near the tokens through it. I can also see all the information transmitted via the tokens."

"In other words, everyone who uses the Myriad Worlds Communication Token will not be able to hide anything from you?" Ji Lutian felt a chill run down his spine.

When he returned, he had seen people use Myriad Worlds Communication Tokens. He had thought that he would ask Zhou Shu for one when he returned. After all, the functions of the token were very interesting.

But when he thought about how if he used it, he would have no privacy or secrets in front of Zhou Shu, he felt a chill run down his spine.

This wasn't because he had any secrets but because no one wanted their privacy to be known.

"In theory, yes. But I can't keep an eye on everyone, and there's no need." Zhou Shu glanced at Ji Lutian. "I'm not that perverted. I won't deliberately probe into anyone's privacy."

Although Zhou Shu had said so, Ji Lutian made up his mind that he would try his best not to use the Myriad Worlds Communication Token in the future. Even if he used it, he had to control the scope of usage!

Ji Lutian said solemnly, "In that case, if we deliver Myriad Worlds Communication Tokens to the enemy from beyond the heavens, doesn't that mean that the enemy will become our spy?"
