## Chapter 11: Tang Yin Wake Up

After he came out of the divine primordial ark, Tang Xiao went to buy a bouquet of white roses. Xiao Ai naturally knew that white roses were Tang Yin's favorite flowers, as Old Tang Xiao always prepared them every time he visited his big sister's grave.

Thereafter, they went straight to the hospital because Tang Yin was still being treated there after seven years, and Tang Xiao placed the white rose on the bedside table.

Even though she was in a coma, Tang Yin's oval face was still stunningly beautiful because Tang Yuan and Zhao Qing continued to take care of her and tidy up her appearance. She has large almond-shaped eyes, a small nose, and softly defined lips. Her hair was long, dark, and straight, past her shoulders. It has a natural silky texture with a soft shine, styled to frame her face.

Tang Yin has a slim and well-proportioned figure. Her waistline was perfectly defined, with a slight hourglass silhouette. Her arms were slender, and her legs were long, adding to her overall tall and graceful appearance. Her fitted t-shirt highlights her slightly larger breasts than the average woman, making them more noticeable.

"Hehe, your big sister is a sleeping beauty, Master." Xiao Ai said as she paid attention to Tang Yin's face.

Tang Xiao nodded and sat on the side of the bed, and he kissed Tang Yin's forehead for a moment before caressing her head. "Big Sis, I have always missed you for the past seven years, but many things have changed in my life now, and you have also become more beautiful than before. Since you've been asleep for so long, I'll take you away to wake you up, and we'll be together like before."

**\*Crack\***

Suddenly, the door to the patient's room was opened from the outside, and a young woman wearing a nurse's outfit stood there, as her eyes did not move from Tang Xiao's face.

The nurse's face wasn't pretty, and she looked a bit tomboyish with her black hair tied in a ponytail. However, her body was quite tempting for men, especially her massive breasts, and her red lips were quite sensual.

Tang Xiao paid attention to the nurse, and he could feel that there was something unusual about her, but he didn't know what made him feel that way. "Are you the one taking care of Big Sis Yin, Miss Nurse?"

"Yes." The nurse immediately returned to her senses and walked to the other side of Tang Yin, but her eyes kept glancing at Tang Xiao. "Who are you? Are you one of her family members? Why have I never seen you before? Anyway, my name is Qin Qin, and Miss Tang Yuan asked me to take care of her niece, so I've been taking care of her for the past seven years."

"Thank you; you have taken care of her very well, Nurse Qin." Qin Qin's heart fluttered when she saw his smile. "I am Tang Xiao, and—"

"Huh?" Qin Qin was surprised to hear that. "Are you really Tang Xiao? Shouldn't you be in prison?"

"Yes." Tang Xiao nodded to her. "I was previously in prison for seven years, so I couldn't visit Big Sis Yin for so long. However, I was released from prison today, so I came straight here to visit her."

"I see." Qin Qin then checked Tang Yin's condition. "Your big sister has been sleeping in this pitiful manner for the past seven years, and doctor Ling said that she was completely healthy, but she still showed no signs of waking up."

Unlike Tang Xiao, Xiao Ai certainly knows the reason behind Tang Yin being unconscious for seven years, which happened because Old Tang Xiao sealed her consciousness.

After finishing her examination of Tang Yin's condition, Qin Qin immediately spoke to Tang Xiao. "Since you haven't seen her for so long, you can accompany your big sister to talk, and your presence might bring about a change in her condition."

"Thank you, Nurse Qin." Qin Qin nodded at him before quickly leaving the room, and then Tang Xiao turned to Xiao Ai. "Can you do anything to wake her up?"

"I can wake her up, but I still need your help to do it, Master."

"All right." Tang Xiao then removed some of the medical equipment attached to Tang Yin's body before carrying her. "Let's go back to the ark, Xiao Ai. I can't wait to talk and joke with her again, like before. Don't forget to remove all CCTV footage that shows our presence."

.

.

.

When they arrived at the laboratory, Tang Xiao placed Tang Yin in one of the glass capsules, and Xiao Ai moved to the screen to prepare the process to wake her up.

"Can I use non-cultivator women for cultivation?" Tang Xiao asked Xiao Ai as he kept looking at his big sister.

[Why do you ask that, Master? Are you thinking about using a non-cultivator woman to increase your cultivation?]

Tang Xiao nodded to her. "Actually, I just thought about that, but I don't know if it's possible, as I don't know anything about cultivation yet."

[Basically, all living creatures have qi in their bodies, so you can use them to help your cultivation, but their yin qi is miniscule because they are not cultivators. However, your cultivation is still at rock bottom now, and their yin qi is enough for the current you.]

Tang Xiao smiled in satisfaction after listening to Xiao Ai's explanation. 'Ouyang, Ran, Meng, Yao, and Yang Families! I'm back! Your nightmares will soon arrive, as I will settle accounts with you guys soon.'

While he waited for Xiao Ai to prepare everything, Tang Xiao decided to learn the transformation technique first because he needed it to fight his enemies.

Fortunately, Xiao Ai had increased Tang Xiao's brain capacity when she reconstructed his body, so his ability to learn new things was far above that of a normal person.

After he completely mastered it, Tang Xiao tried using the transformation technique to transform into his enemies. He also tried to transform into inanimate objects, which was very satisfying to him.

Suddenly, Xiao Ai said to Tang Xiao. [Master, lie down in the other capsule, and I will send your consciousness to meet your big sister's consciousness so you can talk to her first. However, you can't stay there for too long, and you only have ten minutes.]

Since he missed his big sister so much, Tang Xiao hurriedly lay down in it, and Xiao Ai sent his consciousness to find Tang Yin.

.

.

.

"Ugh! How long have I been dead?" Tang Yin wondered to herself as she sat by the small pond. "Does Xiao'er always miss me? Has he gotten a girlfriend and gotten married now? Ugh! I deeply miss him, but it is no longer possible to see him, and all I can do is pray for his happiness. Everything is those bastards' fault! I hate them so much! If they hadn't tried to violate me, I wouldn't have jumped from the third floor of that building, and I would still be living happily with him now."

"Did you miss me that much, Big Sis?"

Tang Yin was startled after hearing that, but she immediately shook her head. "Impossible! I must have missed Xiao'er too much, and I must have hallucinated hearing his voice. Moreover, I'm already dead, and I don't want him to accompany me in this strange place."

However, Tang Yin was shocked by Tang Xiao, who suddenly hugged her from behind. She turned to him with an expression full of shock, but tears dripped from the corners of her eyes.

"How are you, Big Sis?" Tang Xiao asked with a gentle smile.

Tang Yin's mouth kept opening and closing, and she stretched out her hand to hold Tang Xiao's face. "Xiao'er? Is it really you? Are you dead like me now?"

"Haha." Instead, Tang Xiao laughed and hugged Tang Yin tighter. "We've been apart for so long, and I missed you a lot. I'm glad that I finally got to meet you again, Big Sis."

"I missed you too, Xiao'er." Tang Yin said that as she sobbed, and she hugged the little brother she had wanted to meet for so long. "How did you die? Did those people kill you like they killed our parents?"

Hearing that, Tang Xiao released his embrace of Tang Yin and wiped her tears. "Big Sis, I'm not dead, and neither are you."

"Huh?" Tang Yin stared at him with her eyes constantly blinking.

"You know that I couldn't possibly lie to you, right?" Tang Xiao then lifted Tang Yin to her feet before hugging her again. "In fact, your body is completely healthy, but the injury to your head is too severe, and you are here because you are in a coma."

"Is that true? Are we really not dead?" Tang Yin still found it hard to believe her little brother's words, especially since she had been there alone for so many years.

"Yes, we are still alive." Tang Xiao replied with a nod. "I came here on purpose to wake you up, and we will be together again like in the past."

Hearing that, Tang Yin immediately looked up at Tang Xiao. "How could you wake me up?"

"I don't have much time, Big Sis. I'll take you out of this place first, and you'll know everything after you wake up." Tang Yin was shocked again because Tang Xiao suddenly took her flying, and she hugged his waist tightly because she was afraid of falling from a height. "After this, we will talk a lot, especially since seven years have passed since you fell into a coma."

"Seven years?" Tang Yin was utterly shocked to hear that.

Tang Xiao nodded to her. "A lot of things have changed over the past seven years, especially about me, and I'll tell you everything later."

"All right."

Gradually, their bodies faded, and they finally disappeared from that place.

.  
. .  
.

After he regained consciousness, Tang Xiao jumped down from the capsule and rushed to Tang Yin's side. However, she still hasn't woken up, causing him to panic. "What happened, Xiao Ai? Why is she still not awake?"

[Master, your big sister has been asleep for seven years, but she will wake up soon. You only need to wait a little longer, so you don't need to panic like that.]

Tang Xiao turned to Xiao Ai. "But—"

"Xiao'er?"

## **Chapter 12: Cultivation Level**

Tang Xiao looked at his big sister, and a relieved smile spread across his face. He opened the cover of the glass capsule and rubbed Tang Yin's cheek. "You finally woke up from your deep slumber, sleeping beauty."

"Hehe." Tang Yin giggled when she heard that. She stretched out both hands to touch Tang Xiao's face. "That strange place just now was too dark, so I couldn't see your face clearly, but I can see you clearly now. You are different from the man I remember, and

your face looks more mature and handsome now. Even your body is sturdy like a bodybuilder's, so I almost couldn't recognize you."

"Huh?" Tang Xiao was confused by that. "Am I really different from your memories, Big Sis?"

"Yes." Tang Yin nodded to him.

Tang Xiao immediately looked at his hands and body with astonishment, especially since he hadn't paid attention to his body before. He then turned to Xiao Ai, who had returned to her artificial body. "What actually happened to me?"

"Huh?" Tang Yin was surprised to hear that, but she was even more surprised to see Xiao Ai walking toward them. "Is she your daughter, Xiao'er?"

"Cough... Cough..." Tang Xiao choked after hearing that, and he turned to Tang Yin. "Big sis—"

"Haha." Xiao Ai laughed out loud at Tang Yin's question, and she jokingly replied with a sweet smile on her face. "Nice to meet you, Auntie. I am indeed his daughter, and my name is Xiao Ai."

In fact, Xiao Ai's answer was not wrong because she was created by Old Tang Xiao, which means she can be considered his daughter.

Tang Xiao facepalmed after hearing that, but he was also amused by it. After all, Xiao Ai is an AI, but she can joke like a human.

"Big Sis, Xiao Ai is not my daughter, and she is the AI who controls this place." Tang Xiao then asked her again. "Did you do something to my body while I was unconscious?"

"Master, you fell from such a high cliff, remember? When we found you, your body was in terrible shape, so I had to reconstruct it and rearrange your DNA; otherwise, it wouldn't be strong enough to accept the previous things. Moreover, you are a cultivator now, so your body is also evolving, and it will continue to evolve as your cultivation increases." Xiao Ai explained as she showed Tang Xiao the image of the camera in the room.

Tang Xiao was stunned at his new appearance, and he almost couldn't recognize himself. "Can you help my big sis become a cultivator like me?"

"Hehe, you don't need to ask, Master. I already helped your big sister absorb qi after I sent your consciousness to her, and she is a cultivator like you now."

"Wait a minute!" Tang Yin interrupted them directly. What do you mean when you say that Xiao Ai is an AI, Xiao'er? What does she mean when she says that we are cultivators?"

"Since you haven't moved for seven years, I'll carry you first." Tang Yin nodded and let Tang Xiao carry her, and she hugged his neck. However, her expression changed to one of shock and awe as she looked around the room. "This place is a laboratory inside the primordial divine ark, and Xiao Ai is indeed an AI. Currently, she is using her artificial body, which means she is an android."

Hearing that, Tang Yin looked at Tang Xiao with her mouth wide open, as everything was too bizarre for her. Even though she had been asleep for seven years, she certainly remembered about AI and androids, but she had only known about such things in movies.

"Haha." Tang Xiao couldn't help but laugh at his big sister's adorable expression. "At first, I was as shocked as you, but everything you see in this place is real. The previous owner of this place was Xiao Ai's old master, and he was a powerful cultivator who came from the future. However, he left this world forever to save me, and he bequeathed everything to me, so I am her master and owner of this place now."

Tang Yin found it increasingly difficult to digest all that, but everything in the room was clear evidence of his explanation. Despite this, she was sure that her world would not be able to build all that in the span of seven years. "Did Xiao Ai and her old master really come from the future?"

"Yes, they come from the future." Tang Xiao then took Tang Yin to leave the laboratory, and Xiao Ai followed behind them. "Honestly, I haven't seen the entire area inside this ark myself. This place is truly vast, but I want to take you to the residential area first, and we will explore other places together later."

"Master, the residential area is quite far from this laboratory, so you guys will go there using special transportation." After Xiao Ai said that, a flying car landed in front of them, shocking them. "Hehe, you can get there by taking this car, Master. To access it, simply touch the panel in front of you. Oh, I forgot something; this is a bracelet for your big sister, and its function is the same as your ring. This way, she can freely go in and out of this place."

After he put the bracelet on his big sister's wrist, Tang Xiao took Tang Yin to the car, and it started on its own as soon as he touched the home button.

As for Xiao Ai, she went back into the laboratory and checked Tang Yin's latest data, especially after she became a cultivator. "I didn't expect that she would awaken the darkness element, and it would be very dangerous for her, especially since there are too many other cultivators who hate darkness cultivators. Sigh! They just reunited; I don't want to ruin their happy reunion, and I will tell this to my master later."

Before long, they arrived at the residential area, and Tang Xiao took Tang Yin to the largest futuristic house in that place. However, they were stunned when they entered because the interior was spacious, and there was a lot of sophisticated equipment inside, including a jacuzzi that could accommodate five to six people.

"Everything in this ark is simply unbelievable, Xiao'er." Tang Yin said as she looked at every corner of the room.

"I agree with you." Tang Xiao carried Tang Yin to the bed and laid her there, and he lay down by her side while hugging her. "I'm truly glad that we can be together again, Big Sis."

"I'm also happy to be with you again, Xiao'er." Tang Yin then turned to him. "What happened to you in the past seven years? How did you fall off a cliff?"

Tang Xiao recounted everything that happened, starting from the day she fell into a coma. Tang Yin listened to him seriously, but her expression changed repeatedly, and tears flowed out of her eyes because her little brother had suffered so much for the past seven years.

"Xiao'er, I—"

"Shh." Tang Xiao placed his index finger on Tang Yin's lips. "Even if that incident didn't happen to you, I'm sure that they would still do that to me. Actually, my life in prison wasn't bad, and I didn't get into any significant trouble, so you don't have to feel sorry for me."

Tang Yin hugged him tighter. "Back then, Teacher Yu was kind to us, but I didn't expect that she was a wolf in sheep's clothing, and she even had the heart to do such a thing to you. As for Ouyang Qing, I think her actions were because of me because she was always jealous of me, and she was dissatisfied because those men failed to violate me, so she shifted her target to you."

"I thought so too." Tang Xiao responded by nodding. "Even though I almost died before, it was a blessing in disguise for us, and our lives have changed now. Moreover, we have many advantages now, and we will use everything in our possession to take revenge on those people."

"They have destroyed our family and ruined our future, so I will not let you take revenge on those people yourself, and we will take revenge on them together." Tang Xiao

nodded with a smile after hearing that. "Anyway, you haven't explained to me about cultivators, and I don't know anything about it."

"Haha." Tang Xiao laughed at that. "Actually, I don't know anything about cultivation either, Big Sis. After Xiao Ai helped me become a cultivator, I immediately went to see you, so I haven't had time to learn about it."

Xiao Ai suddenly spoke to them. [Master, you can access all the information about cultivation and the like in my system, and I have prepared everything in as much detail as possible. This way, you two can understand everything more easily.]

'Oh?' Tang Xiao was taken back for a moment after, but he immediately looked up all the information. He studied them while he explained things to Tang Yin, including the method to absorb qi from the air.

As for cultivation stages, they are still in the seven mortal realms, which are divided into Beginner Level, Foundation Level, Xiantian Level, King Level, Emperor Level, Tyrant Level, and Saint Level. Besides, each major realm is divided into four minor levels, starting with lower, middle, upper, and peak.

Tang Yin nodded repeatedly. "I think cultivation isn't that difficult, but the amount of qi we need to break through to the next stage will be higher than before, so we really have to focus on that."

"Yes." Tang Xiao nodded in agreement with his big sister. "Actually, there is one fastest path to improve our cultivation, and it is the dual cultivation path."

"What is a dual cultivation path?" Tang Yin asked in confusion.

Tang Xiao felt awkward answering Tang Yin's question, but he told her anyway. "The dual cultivation path is cultivation through sex, Big Sis. Dual cultivators cultivate using the yang qi and yin qi of their partners, and their cultivation can improve faster than ordinary cultivators."

### **Chapter 13: Violet-Gold Blood**

Tang Yin was stunned for a moment before her face turned red, and her heart pounded. 'Is Xiao'er considering the possibility of dual cultivating with me?'

"What's wrong with you? Do you feel sick?" Tang Xiao asked with a serious face.

"No, I'm fine." Tang Yin shook her head slightly. "By the way, you should find a girlfriend and teach her to be a cultivator like us, AND you can dual-cultivate with her later. After you get a girlfriend, I'll look for a boyfriend, and I'll dual cultivate with him."

Tang Xiao's expression became stiff after he heard that, confusing Tang Yin.

"Why are you reacting like this? Don't you want to find a girlfriend? Otherwise, you wouldn't be able to take the path of dual cultivation, right?" Tang Yin asked in confusion.

Tang Xiao inwardly sighed and silently hugged Tang Yin, but his expression looked complicated, and his forehead was constantly frowning.

Tang Yin looked up at him. "Did I say something wrong?"

"You didn't say anything wrong; it's just that I feel strange in my heart." Tang Xiao's answer confused her further. "Actually, there are three women I like, but two of them betrayed me."

"Huh?" Tang Yin could instantly guess the identity of one of the women. "Do you love Teacher Yu?"

"Yes." Tang Xiao shamelessly admitted it. "I did love Yu Xiaoling back then, but she was the third woman I loved."

Who is the second woman?" Tang Yin put on a curious look.

"Do you remember Jessica?" Tang Yin was taken back for a moment before nodding to Tang Xiao. "Back then, she was my classmate in early middle school, and our relationship was actually good. She was a smart girl, and we often discussed lessons. Unfortunately, she liked another guy, and he was one of the teachers at our school."

"Oh? How do you know about that? Who was her boyfriend at the time?"

"Haha." Tang Xiao laughed softly before telling her. "Back then, she wrote a love letter on a piece of paper for the teacher, but she kept it in one of her books, and I accidentally found out about it because she lent me the book."

"So, you changed your mind about Jessica after you found out about that, right?" Tang Xiao nodded to Tang Yin. "Then, you started to get close to Teacher Yu, and you fell in love with her because of her attention and consideration for you, right?"

"Yes." Tang Xiao replied with a wry smile. "Unfortunately, Yu Xiaoling and Jessica chose to join Ouyang Qing to frame me that day, and I will never forgive them for their betrayal."

Tang Yin sighed while rubbing his cheeks. "Then, who was the first woman you loved? Do I know her too?"

"Yes." Even so, Tang Xiao became hesitant to tell her about the identity of his first love.

"Why are you hesitating?" Tang Yin asked again before urging him. "Quickly! Tell me the identity of the woman who made you fall in love for the first time."

"Her name is Tang Yin." Tang Yin's eyes widened in shock and speechlessly looked at him, causing him to sigh. "I'm sorry, but I've loved you since we were little, especially after our parents died. I never showed my feelings towards you, and I kept everything in my heart."

"Do you really love me?" Tang Yin asked again to make sure she didn't hear anything wrong.

Tang Xiao looked at her eyes with a serious look and gave her a determined nod. "Yes, I love you."

"Help me take off my clothes and take me to the jacuzzi." Tang Yin's request surprised him.

"But—"

"I heard that the jacuzzi has a beneficial effect on relieving stress and muscle tension, and I want to try it." Tang Yin interrupted him directly. "Moreover, I haven't moved my body in years, so you have to help me now."

"Are you sure?" After Tang Yin nodded, Tang Xiao started to take off his big sister's clothes, but he did so awkwardly. 'This is so awkward! I often saw her naked in the past because we always bathed together, but we were still children at that time. Unlike back then, we're both over 20 years old now.'

Minutes later, Tang Yin was naked, and Tang Xiao took her into the jacuzzi. He helped her sit in it and turned on the hot water, but she suddenly asked for something else. "Take off your clothes and accompany me to soak, just like in the past."

"Huh?" Tang Xiao's eyes repeatedly blinked.

"Hurry!" Seeing his big sister's sharp gaze, Tang Xiao immediately took off his clothes. Tang Yin's eyes moved up and down as she looked at his sturdy body from top to bottom, but her heart thumped when she saw his lower body. 'Ugh! I often saw it when we were small, but it has grown substantially after many years have passed.'

Thereafter, Tang Xiao went straight into the jacuzzi and soaked beside his big sister, while Tang Yin rested her head on his broad shoulders.

Tang Yin suddenly sighed before speaking to him. "Frankly speaking, your confession shocked me. After I recalled everything, I realized that you always treated me much better than you treated yourself. However, I always thought that you treated me that

way because we were siblings, and we were orphans, so I was never aware of your feelings for me."

"Big Sis—"

"Listen to me first." Tang Xiao just nodded to Tang Yin, who immediately spoke again. "To be honest, your confession made me happy, and my heart was pounding with joy. Before I fell into a coma, I had never been close to any man, and I rejected several men who confessed their love to me. You may not know about it, but I rejected them because I loved someone, and I still love him now. Unfortunately, I could never be his girlfriend, let alone his wife. After all, he is my little brother, so I buried those feelings deep inside my heart."

Tang Yin then looked at her little brother with a sweet smile, but Tang Xiao was completely stunned to the point that he couldn't say a word, as his heart was filled with various feelings after hearing her confession.

"I didn't lie to you, Xiao'er." Tang Yin said this while cupping his cheeks. "Our parents died when we were little, and our aunts were busy with their work. Even our grandpa rarely lived with us before I fell into a coma. Since you were the only man beside me, and you treated me too well, these feelings grew without my realizing it. Since then, I have loved you as a man, and I rejected those men for you, so I was truly happy to hear your confession just now."

After a while, Tang Xiao returned to his senses and pressed both of her palms against his cheeks. "Do you really love me, Big Sis?"

"Do I need to lie about my feelings?"

"Hahaha." Tang Xiao laughed loudly and pulled her onto his lap. "Your confession is the happiest thing in my life because my first love also loves me."

"I feel the same way about you." Tang Yin then hugged Tang Xiao's neck. "You are my first love, and I am truly happy to hear that you love me because my feelings are not one-sided. However, I'm not ready to take a step forward in our relationship, and I want to think it over carefully first. Moreover, we still have our grandpa, Aunt Yuan, and Aunt Qing, and I'm afraid that they will be disappointed in us."

Tang Xiao nodded in understanding. "For now, I want to enjoy our reunion, as we haven't seen each other for seven years. Moreover, I'm sure Xiao Ai has ways to help us in our cultivation, so I'll ask her after this."

"Yeah." Tang Yin snuggled against his chest, and she closed her eyes with a sweet smile on her pretty face.

***\*Tap... Tap...\****

They turned to Xiao Ai, who had just walked in. "I've been listening to your conversation, and I have something to tell you two."

"What do you want to tell us, Xiao Ai?" Tang Yin asked.

Xiao Ai approached them and sat down by the jacuzzi. "According to the laws of this world, you two are indeed siblings. However, my master has changed completely after I reconstructed his body and rearranged his DNA, and his blood is no longer human blood but celestial blood. Even though you two were siblings at first, you are no longer related by blood. If the two of you get married and have children, your children will no longer be children of blood relations."

"Is that true?" Tang Yin asked in disbelief.

Xiao Ai smiled at that. "Mistress, you have seen all the equipment inside this ark, and they all came from the far future. If it weren't for all the equipment here, my master would have died after he fell into the ravine. Even if he managed to survive, he would have been a cripple for the rest of his life. Therefore, you don't need to doubt my words, right? Moreover, I have two easy ways to prove it, and you will believe me afterward."

"How to prove your words?"

"First, we can do DNA tests for both of you, and I dare to guarantee the results will be different." Xiao Ai then handed a small knife to Tang Xiao. "Second, you can cut your finger a little, and she can see your blood directly."

Tang Xiao himself was curious about the celestial bloodline. He accepted the knife and slightly cut his thumb, which shocked him and Tang Yin when they saw violet-gold blood dripping from the cut.

"Huh? How can his blood be this color?" Then, Tang Yin sucked Tang Xiao's thumb to stop the wound, but she felt a strange sensation from his blood.

## **Chapter 14: Calamity Of Darkness**

"Mistress, his blood turned violet-gold due to his celestial bloodline, so you two don't need to worry about your future offspring, and they will be completely healthy like other children." Xiao Ai then handed a device to Tang Xiao. "Master, this is my mistress's status after she became a cultivator, and it is quite dangerous for her."

"Hmm?" Tang Xiao and Tang Yin immediately read it.

"Darkness veins and darkness elements?" Tang Xiao was shocked after reading that.

Tang Yin asked her. "What do you mean by this being dangerous for me?"

"Darkness is associated with evil, and they regard them as heretics, so other cultivators hate darkness cultivators so much."

Tang Xiao frowned after hearing that. "Does that mean they will kill her if they find out about her darkness element?"

"Yes, Master. I don't know for sure about the lower realms, but the cultivators in the upper realms continue to hunt down the darkness cultivators, so you always protect her."

"You are right." Tang Xiao replied with a nod of approval. "I will always protect her, and I will kill anyone who dares to hurt her."

"No! I don't want to be like that, Xiao'er." Tang Yin refuted their words. "I'm a cultivator; I don't want to be a burden to you because you have to constantly protect me. I will train and cultivate hard, and I will protect myself."

After all, Old Tang Xiao's big sister was already dead when he created her, so Xiao Ai didn't have any information about Tang Yin's character, and she smiled with satisfaction after hearing her words.

"You're wrong about that." Tang Xiao then cupped Tang Yin's cheeks. "You are the most important person in my life, and you will never be a burden to me. I won't let anything bad happen to you again like in the past, and I will protect you even if you become strong in the future."

"Xiao'er." Tang Yin called out softly with teary eyes. "I'm happy to hear your words, but I still want to fight by your side, and we will protect each other."

Tang Xiao smiled at that. "Yes, we will fight together to destroy our old enemies, and we will protect each other from future enemies."

"Master, you should give the Calamity Darkness Technique to my mistress, and it is the best darkness element technique obtained by the old master." Xiao Ai then walked away. "I will wait for you two in the main control room."

Tang Xiao immediately searched for the Calamity Darkness Technique in the database. "Hmm?"

[Calamity Darkness Technique: An esoteric cultivation method that harnesses the destructive nature and fuses it with the darkness. The user gathers their qi and refines it into dense streams of darkness that corrode, crush, and extinguish everything they touch. At its peak, the technique transforms the cultivator into a living source of endless darkness. Their qi spreads as boundless darkness that devours light, elemental attacks, and even the space itself. To face the technique is to face pure, inescapable destruction.]

'What an overpowered technique!' Tang Xiao immediately shared the technique with Tang Yin. "You can learn it later, and it will be very suitable for your darkness element."

Tang Yin nodded at him. "I will learn the technique seriously, and I will use it to help you fight our enemies."

"Let's go to the main control room again." Tang Xiao took Tang Yin out of the jacuzzi and dried her body, and he took her out after they finished getting dressed.

.

.

.

Tang Yin's jaw dropped as soon as they arrived at the main control room. Although she had seen so much modern equipment and technology inside the ark, all the equipment in this room looked far more advanced than in the other areas. "I still find it difficult to believe that all this came from the future, but this ark and all the technology within it will be useful for us to take revenge on them."

"That's true." Tang Xiao nodded in agreement.

Tang Yin then asked Xiao Ai. "Can you help me master all the technology in this place?"

"Oh? Do you really want to learn all the technology in this ark, Mistress?" Xiao Ai asked in surprise.

"In the past, my body was too weak to practice martial arts or anything similar, which is why I lacked experience in fighting. For now, I will assist Xiao'er in the background while strengthening myself, and I will fight alongside him in the future." Xiao Ai was thrilled that Tang Yin had such thoughts. "By the way, could you stop addressing me as a mistress?"

"I can't do that, as it is hard-wired into my main chip that I should address you as one." Actually, Xiao Ai lied about that, and she wanted to do it because Old Tang Xiao didn't have a wife or family, so she wanted to call Tang Yin that.

Tang Yin let out a soft sigh while shaking her head. "Forget it! You can call me whatever you want, but now, I need your help to master everything."

"Master, let her sit in that chair." Tang Xiao immediately did so, and Xiao Ai stood in front of the big monitor. Soon, a helmet with many wires covered Tang Yin's head, and she reminded her. "Mistress, this will probably take some time, and I will transfer all the things related to this ark to you gradually; otherwise, they will overload your brain."

"Got it." Soon, many things popped out in Tang Yin's mind, and she felt like she had mastered all of them without bothering to study hard.

"Do I need to do it too, Xiao Ai?" Tang Xiao asked.

"You don't need to, Master." Xiao Ai shook her head in response. "Everything is already available on my main chip, and you can access everything whenever you want. On the other hand, my mistress doesn't have my chip, so she has to go through this process to master everything, and she will be second in command."

"I see." Tang Xiao nodded in understanding, and he began to read various information available in Xiao Ai's main chip, especially about other worlds, which were divided into four: lower realm, middle realm, upper realm, and highest realm. "Hey, can we use this ark to explore the universe?"

"Yes, you can do it. However, I do not recommend you go to other worlds in the near future, as those worlds are filled with powerful cultivators, and many of them are extremely cruel. This world is indeed in the lower realms, but the Qi here is far more than enough for the current you and mistress to strengthen yourselves."

Naturally, Tang Xiao was well aware of his abilities, so he wouldn't be foolish enough to venture into other worlds while his cultivation was still at the starting point. He then opened the status panel inside the ark.

"Oh?" Tang Xiao was taken aback for a moment before nodding. "I can use the training ground to practice, and I'm sure there will be lots of sophisticated equipment that can help my training."

"Hehe." Xiao Ai giggled. "My old master created many things to help his training, but the most useful is the gravity device, and you can adjust the gravity there to be a hundred times heavier than your planet."

"Huh? Are you kidding me? Isn't a hundred times heavier gravity too heavy?" Tang Xiao asked in shock.

"Master, a hundred times heavier gravity is indeed too heavy for an ordinary human, but you are a cultivator, remember? You will become stronger as your cultivation improves, and you will get used to such a heavy gravity." Tang Xiao nodded in understanding to Xiao Ai, who immediately warned him. "However, your weight limit is ten times heavier for now because your cultivation is still in the seven mortal realms, or your body won't be able to withstand the heavy gravitational pressure. Once your cultivation improves, you will be able to gradually increase the weight according to your physical strength."

"You're right, I have to take everything one step at a time, or it will backfire on me." Xiao Ai smiled at Tang Xiao's words. "Your old master keeps all the valuable items in the treasure vault, right? We will go there after this, and I want to look for a weapon and armor that are suitable for us. By the way, did you two grow plants and raise animals on the farm before?"

"Yes." Xiao Ai then displays the image from the camera in the farm area. "As you can see, there are many different plants there, and my old master got them from various realms. In addition, there are many beasts of various races, but he only breeds tame ones."

"I see." Tang Xiao nodded with a satisfied smile and began to devise several plans to begin his revenge.

Before long, Tang Yin had finished learning everything, and Xiao Ai took the two of them to the treasury vault.

Tang Xiao and Tang Yin were amazed as soon as they arrived at the treasury vault, especially since the room was filled with treasures, which were neatly grouped based on their type and size.

Not only weapons, but there are also lots of armor, shields, and so on inside. Moreover, they have also been divided between modern and cultivator equipment, so they can search and choose whatever equipment they want more easily.

## Chapter 15: Ocean Heart Rings

"Master, you and Mistress can choose what you both want, but for the time being, both of you can't choose equipment in the cultivator's section, mainly because their grades are too high. Your cultivation is still insufficient, or you will die from qi depletion." Xiao Ai explained it as she led them inside. "Oh, there's one thing that you can choose from in the cultivator's section, the storage ring."

Tang Xiao's eyes lit up when Xiao Ai mentioned the storage ring, especially since it would be very useful for them to carry and store their belongings.

Arriving at the storage ring collection place, Tang Xiao and Tang Yin's eyes fell on a pair of light blue rings, and their hearts unknowingly beat at the same rhythm. Therefore, they took the pair of rings according to the size of their ring fingers, and both of them rubbed them with a strange feeling.

Xiao Ai smiled as soon as they chose the ring, and she explained it to them. "The names of the rings are ocean hearts, both made by a dwarf and a fairy. According to legend, only lovers who have an extraordinary bond can wear them, which means they are a couple destined for each other, but no one has been able to wear them."

Tang Xiao and Tang Yin exchanged glances, nodded to each other, and placed the rings on each other's fingers, which attached seamlessly.

***\*Badump... Badump...\****

"Eh!?" Tang Xiao and Tang Yin looked at each other in shock, and they stretched out their hands to touch each other's heart area.

***\*Badump... Badump...\****

Suddenly, the two rings shone brightly, dazzling them, and the sound of their heartbeats grew louder; even their hearts continued to beat in sync.

"I can feel your heartbeat in mine, Xiao'er." Tang Yin said it with awe, as her other hand held Tang Xiao's hand in the area of her heart.

Tang Xiao also held Tang Yin's hand, which was still pressed against his chest. "Me too; I can feel your heartbeat on mine too, Big Sis."

'I knew it!' Xiao Ai inwardly exclaimed in joy after seeing the two rings react to them, especially since the two rings never found their owner for thousands of years. But now, both rings actually recognize Tang Xiao and Tang Yin, which means that they have an extraordinary bond, and they are also a destined couple for each other. 'Is this the outcome you expect when you save her, old master? No wonder you never wanted to get married; it turned out that your destined partner was your big sister, but she died

back then. With this, the future has changed because she is still alive, and they will become husband and wife in the future.'

Soon, the bright light dimmed, and they smiled happily, feeling each other's heartbeat.

"Hehe." Tang Yin giggled and hugged Tang Xiao tighter. "I love you so much, Xiao'er."

"I love you too, big sis."

Tang Xiao then carried Tang Yin to look for suitable weapons for them. "What are your plans next?"

"Hmm?" Tang Xiao thought for a moment. "While you were learning everything earlier, I checked some things about the Ouyang family. Since I have the transformation technique, I plan to apply to be their chauffeur, and I will destroy them from within, starting with Ouyang Qing."

"Do you intend to kidnap them?"

"Not really." Tang Xiao nodded and explained some of the plans he had previously devised, but his explanation left Tang Yin dumbfounded.

"Haha!" Tang Yin laughed out loud and hit his chest lightly. "You are evil, you know? However, I will fully support you, and you can infiltrate the Ouyang family as soon as possible. As for Yu Xiaoling, you don't need to go there to meet her, but Xiao Ai and I will go there to take care of the traitorous fox."

"Oh? What do you want to do to Yu Xiaoling?" Tang Xiao suspiciously asked her.

"Haha." Tang Yin shook her head and stuck out her tongue. "Just leave her to me, and you'll know later."

"All right, you can take care of Yu Xiaoling, and I will infiltrate the Ouyang family."

"You haven't investigated the Ouyang family too deeply, right?" Tang Xiao responded with a nod, and Tang Yin immediately warned him. "When I learned all that, I also dug deeper into information about them. They are more terrifying than we imagined, and there are many people who support them from behind, so you have to be cautious."

"There are many other people supporting the Ouyang family from behind, huh?" Tang Xiao was surprised to hear that.

Tang Yin nodded slightly and explained it to him again. "I discovered many secrets about the Ouyang family, but they are just subordinates to other families, and the families above them are powerful. Therefore, I'm sure that they will not stand still if

something happens to them, and we must divide their attention so that we can carry out our revenge more smoothly."

Tang Xiao sighed inwardly, as he hadn't checked things that far, and he only wanted to take revenge on the Ouyang family. However, the situation was more complicated than he expected, and he had to be more careful if the families behind them were indeed powerful.

"All right, you don't need to be this serious." Tang Yin said it with a smile. "You can work on our revenge outside, and I will support you from within this ark. Besides, I have also thought of a plan, but Xiao Ai and I still have to prepare a few things before starting it."

"What is your plan?"

"I want to set up a company, but I need capital and some people who can help me. However, you don't need to worry; I can take care of everything, and I will also ask Aunt Qing for help." Tang Yin then explained about the business she wanted to set up and her other plans, which made Tang Xiao truly amazed by her thoroughness, especially since she had previously been in a coma for seven years.

Tang Xiao immediately agreed to her plans. "You don't need to think about capital, and you can ask Xiao Ai to steal from Ran Linfeng's account because three-quarters of their assets belong to our parents, so you don't need to hold back against them."

"I'll take care of that, and our first target is the Ran family." Tang Yin suddenly remembered something. "What are your plans for Aunt Yixuan?"

Tang Xiao's face darkened after he heard the name, and his eyes became cold. "Even though Zhao Yixuan is our mother's little sister, she betrayed her, and I will never forgive her. Besides, I will not spare those two bitches, and I will make them experience the same things our mother went through that night."

"I agree with you; I will never forgive Aunt Yixuan either." Tang Xiao felt relieved that Tang Yin had the same thoughts about their aunt. "However, it would be preferable if we attacked them individually rather than all at once, or else they would be alert to our actions."

"Yes, I've thought about that too." Tang Xiao then told her. "Before I go to the Ouyang family, I will go to prison first."

"Why do you want to go to prison?"

"That fatty Du Zhong is Ouyang Hong's henchman, and he let his subordinates infiltrate the prison to kill me, so I have to make calculations with him."

"I see." Tang Yin nodded in understanding. "Xiao'er, we've been here for too long, and I'm afraid that Aunt Yuan will come to the hospital to visit me."

"You're right, so—" However, Tang Xiao suddenly heard someone calling out to him.

{Help!}

"Who?"

Tang Xiao's sudden shout startled them. "What's the matter, Xiao'er? Why did you suddenly shout?"

Tang Xiao looked around the room for the source of the voice as he informed them. "I heard a woman calling me in my mind, but I couldn't understand her words, as I had never heard her language before."

"A woman?" Tang Yin and Xiao Ai asked at the same time.

However, Xiao Ai felt confused by that because she had lived inside the ark for so long and had complete control over it, but she had never encountered any strange occurrences.

{Help me!}

"Master—"

Tang Xiao waved his hand to stop Xiao Ai. "The woman called me again, but I can understand her words now, and she asked me for help."

{Help me!}

"Where are you?" Tang Xiao shouted as he circled around the area, but he still couldn't find the woman. "Do you know anything about this, Xiao Ai?"

"I don't know, Master. It's also my first time experiencing such a strange occurrence, and Old Master has never experienced it before either." Xiao Ai felt increasingly strange about that because the old and young Tang Xiao were basically the same person, but their experiences were different. 'Could this be due to changes that occurred in the past?'

Suddenly, a red light flashed from a piece of equipment, and Tang Xiao turned his head towards the light. His eyes were fixed on a necklace with a red stone hanging on the wall some distance away from them, and it continuously gave off a red glow. "What is that necklace, Xiao Ai?"

Xiao Ai searched her database for information about the necklace for a while. "Master, some of the treasures in this place were already here before my old master discovered it, and that necklace seems to be one of them, so there is no record of it in my database."

## Chapter 16: Hun

Tang Xiao brought his big sister closer to the necklace, but Tang Yin stopped him just as he was about to take it. "Are you sure you want to take it? Xiao Ai doesn't have any data about this necklace, so I think it might be dangerous."

"I know, but the woman's voice keeps bugging me. I'm curious about her, and I want to know the reason she called me." Tang Xiao sat Tang Yin on the floor before taking the necklace, but the red stone on it suddenly shot out and stuck to his forehead.

They were shocked to see that, but their shock didn't stop there because the red stone entered Tang Xiao's forehead, leaving a scarlet flame mark on his forehead. Besides, the red necklace also disappeared into his hand, which created a strange mark on the back of his right palm.

"What-Ugh!" The pain in his body knocked Tang Xiao to the ground before he could ask, and a scarlet flame emerged from his forehead before engulfing his body. "Argh!"

"Xiao'er! What happened to him, Xiao Ai?" Tang Yin frantically asked as Tang Xiao looked in so much pain.

Xiao Ai grabbed Tang Yin's hand when she was about to touch Tang Xiao while she reminded her. "Don't touch my master for now, Mistress. This flame is no ordinary flame, and it will harm you."

Hearing Xiao Ai's words made Tang Yin increasingly panicked; she couldn't bear to see Tang Xiao in such agony as he continued to groan in pain. "What can we do now to help him?"

"Mistress, even though my master looked like he was in a lot of pain, I didn't detect any oddities on his body. Apparently, the flame is trying to fuse with his body, so we can't do anything to help him, and all we can do now is wait." After all, Xiao Ai's main chip is in Tang Xiao's brain, and she can detect if something abnormal is happening to him, but she doesn't detect anything in his body.

Even though nothing bad happened to Tang Xiao, Tang Yin continued to wait anxiously, and his constant groans of pain made her heart ache.

An hour later, the scarlet flame covering Tang Xiao's body disappeared, and he gasped for breath. "Hah... Hah..."

Fortunately, Tang Xiao was mentally strong; even though he was in constant pain, he did not faint. After the process was complete, some strange memories appeared in his mind, and he could see a world with a civilization that was far more advanced than Earth.

Additionally, Tang Xiao learned that the woman who had previously called him was the ruler of that world, and he also discovered her name. Unfortunately, not all of the memories were good, and he saw the destruction of the planet in them, including the woman's death.

Tang Yin immediately hugged him as she cried, but she was relieved that nothing happened to her little brother. Tang Xiao inwardly sighed before hugging her. "I'm fine now, so you don't have to cry anymore."

"Hun!" Tang Xiao called out softly.

Soon, a mature woman with waist-length red hair appeared in front of them, startling them. However, they didn't sense any malicious intentions from her, so they lowered their guard a little. The woman was exceptionally beautiful, and her red hair sparkled like a flame. Her body was clad in a tight and sexy red dress, making her large breasts stand out very much, and her hourglass curves were perfectly defined before their eyes.

However, they were shocked when the woman opened her eyes, as she had no pupils and there was only flame inside. "Thank you for helping me, Master. I will die if you don't take my necklace, and my soul will disappear forever."

Tang Xiao sat on the floor, caught his breath, and asked her. "Who exactly are you, Hun? From the memories that flashed through my mind, you should be the ruler of that destroyed planet, right?"

Both women also looked at Hun curiously, especially Xiao Ai, because she didn't recognize the materials needed to make the necklace, and she suspected that they were long-lost.

"I was indeed the ruler of that planet, and my planet name was Atropos, but everything has been destroyed now, and I am the only one left of my kin." Hun answered with a sorrowful expression, and she told them exactly what happened to her planet and about how she could be inside the red stone. Besides, she also taught Tang Xiao how to use her necklace, which is called Atropos Glory.

Tang Xiao sighed heavily after he heard that, and he then observed the strange symbol on the back of his palm. "Does this mean you're a ghost now?"

"You can say that, but I am different from ordinary humans, and I can reshape my body in the future. Unfortunately, the process is not simple and takes a long time, so I can only rely on you for now, Master."

Tang Xiao felt strange about being Hun's master, but he had no other choice because the two objects had merged with his body, and she could only live inside the red stone. "Is it true that I can transform your necklace into various weapons?"

"You can use it as I just taught you, Master."

"All right." Tang Xiao summoned the necklace out, and it immediately turned into a sword, which made him overjoyed. After that, he imagined several other types of weapons, and the necklace continued to change based on his imagination. "Awesome!"

Not only was he pleased with the necklace, but Tang Yin also looked excited. "Xiao'er, this necklace is truly amazing, and it really suits you, especially since you have often practiced using various weapons in the past."

"You're right, Big Sis." Tang Xiao then stood up while carrying Tang Yin in his arms. "Do you want to choose your weapon first?"

Tang Yin shook her head at him. "I want to choose my weapon, but we have to get out quickly, or Aunt Yuan will panic because she can't find me."

"Master, I will rest inside the sun stone, and I will see you again later." Hun said to him.

"All right." After that, Tang Xiao took Tang Yin out of the primordial divine ark, but he didn't take her into the patient's room directly. He was afraid that there were other people waiting for them there, and their appearance would shock them.

.

.

.

As they expected, Tang Yuan was already in the ward, and her expression was panicked when she found her niece missing, so she called the nurse who was responsible for looking after her.

Tang Yuan was shocked after Qin Qin told her that the last person to visit Tang Yin was Tang Xiao, as she was previously told by Du Zhong that he fell into the ravine, and he is still trying to find his body. But now, a man claiming to be her nephew took her niece away for hours, and they still haven't returned.

Tang Yuan then took out her cell phone and showed Qin Qin a photo of Tang Xiao.  
"Was it really him who visited her before?"

"Yes, he is indeed the one who took Tang Yin away." Qin Qin replied with a nod after she took a close look at Tang Xiao's photo.

'Is Xiao'er really still alive? Why didn't he contact me if he was still alive? Where did he take Yin'er away?' Tang Yuan became puzzled in her heart. "Do you really not know where he took her to?"

"No." Qin Qin shook her head. "I went to check on some other patients after I checked Tang Yin's condition, and Tang Xiao also didn't tell me that he was taking her away."

Tang Yuan nodded in understanding. "In that case, I—"

**\*Crack\***

"Sorry to worry you, Aunt Yuan." Tang Xiao said as he pushed Tang Yin's wheelchair, shocking Tang Yuan and Qin Qin.

"We're back, Aunt Yuan." Tang Yin also said it with a sweet smile.

Tang Yuan and Qin Qin were dumbfounded to see them, especially after they heard Tang Yin's voice, and they even rubbed their eyes to make sure they didn't see wrongly. After all, she was still in a coma a few hours ago, but she suddenly woke up.

After she returned to her senses, Tang Yuan ran to their side and hugged both of them, and tears of joy dripped from her eyes. "Xiao'er, I thought I had lost you; I'm grateful to see you alive now, and I'm also grateful that you've recovered, Yin'er."

Both of them smiled at seeing their aunt like that, and they hugged Tang Yuan back. "Aunt Yuan, I thought I would die before, but luck was still on my side, and I managed to survive the ravine."

Hearing that, Tang Yuan released them from her embrace, and she rubbed their cheeks while her eyes continued to shed tears. "What about Yin'er? How could she wake up suddenly?"

"Aunt Yuan, please get me out of the hospital first, and we will talk later." Tang Yuan nodded in agreement with Tang Yin, and she hurried off to take care of everything to bring her home. "Nurse Qin, thank you for taking care of me for the past seven years."

"No." Qin Qin shook her head at Tang Yin. "I'm a nurse, and it's my job to care for the sick, so you don't need to thank me."

Tang Yin smiled faintly at that. "Please give me your number, Nurse Qin. I will contact you later to discuss something."

## **Chapter 17: Earth-II**

After she took care of everything, and the doctor also confirmed that Tang Yin was completely healthy, Tang Yuan took them back to their parents' house.

Tang Xiao and Tang Yin looked sad when they arrived there, as they remembered their parents, and Tang Yuan embraced them. "For seven years, I have always asked people to clean this house, and you two can live in it again if you like."

"We do plan to stay here again, Aunt Yuan."

"That's good." Tang Yuan then pushed Tang Yin's wheelchair into the living room. "We have to talk now, and you two have to explain everything to me, especially you, Xiao'er."

Tang Xiao smiled wryly when he heard that because he felt confused about how to explain everything to his aunt, but Xiao Ai suddenly told him. [Master, Tang Yuan is a cultivator, and she is quite strong.]

'Huh?' Tang Xiao was shocked to hear that. 'Show her status, Xiao Ai.'

'I didn't expect that Aunt Yuan was a cultivator! Does this mean my grandfather is also a cultivator?' Tang Xiao was in complete shock after learning the truth. 'Does that mean there are many other cultivators in this world, Xiao Ai?'

[Since your aunt was a cultivator, I thought your grandfather was also a cultivator, Master. There are many other cultivators on this planet; it's just that they live separately from ordinary people. If I remember correctly, my old master called that place Earth-II, and they lived there.] However, Xiao Ai herself didn't have much information about that place because the Old Tang Xiao was already in the upper realm when he created her.

'Earth-II?' Tang Xiao raised his eyebrows. 'Do you mean the Earth-II is like a dimensional pocket of this earth?'

[Yes, Master. In order to go to Earth-II, you have to pass through a special portal, and there are several portals spread across this world, so you can use one of them to go there.]

'Can you find the location of those portals? What about ordinary people?'

[I've saved the data of several nearby portals, and you can go there whenever you want, Master. As for ordinary people, my old master called them martial artists. Even though they are not cultivators, some of them are strong enough defeat some beginner cultivators.]

'I know, my martial master is strong.' Tang Xiao said with a smile, thinking about Tantai Lingyan, who has trained him in martial arts since he was five years old. 'I think I should go to Earth-II.'

[Master, I don't recommend you go to Earth-II anytime soon because your cultivation is still at rock bottom, and you should go there after you reach Xiantian Realm.]

Tang Xiao smiled when he heard that. 'I know you are saying that for my own good, but you are mistaken, Xiao Ai. Those who were born in Earth-II or other cultivation worlds have been used to living in a harsh environment since their childhood. As for me? I was born in this modern world full of technology, and I used to depend on it. If I don't start to

get used to the harsh environment early on, then how am I supposed to deal with them in the future?'

Xiao Ai pondered for a while because the old Tang Xiao also liked to go out and do dangerous things, but he was cautious whenever he acted.

'Relax; I will be careful, Xiao Ai. I don't want to throw my life away just like that, and I still have a lot of goals in the future. Besides, I will prepare myself first before I go to that place, and I will meet my master to train with her again.'

'The master is still the master; neither the young master nor the old, they are exactly the same.' Xiao Ai then warned him. [You must be very careful, and your safety is the number one priority, Master.]

"Xiao'er? Why are you just standing there?" Tang Yuan then patted the empty side next to her. "Sit here and tell me everything."

Tang Xiao immediately sat beside Tang Yuan and told her many things, starting with the arrival of those people into the prison, and he also told her the appearance of the man with the white tiger tattoo. However, he didn't tell his aunt about Xiao Ai, her old master, and the primordial divine ark because everything was too unbelievable.

Tang Yuan was furious after she listened to Tang Xiao's explanation. "I didn't expect that Ouyang Qing was so vicious, and she was much more vicious than her father. She had framed you so that you were imprisoned for seven years, but she was still not satisfied with that, and she still wanted to kill you."

"Aunt Yuan, those men who tried to violate me also came from those families, and one of them was Ouyang Ming." Tang Yuan turned to Tang Yin as she nodded in understanding, as she herself had long suspected that they were the culprits, but she couldn't do anything to put them in prison. "By the way, we already have some plans to take revenge on them, but we won't do it anytime soon, and we will prepare everything more neatly before starting our revenge."

"Hmm? What are you two planning?" Tang Yuan asked with a frown, as she knew the strength of their enemies well, so she didn't want them to make any rash moves against them.

Tang Yin smiled at her reaction. "Hehe, you don't need to react like this, Aunt Yuan. For now, our plans are still in outline, so we will finalize everything first, and we will tell you later."

Tang Yin's answer made Tang Yuan frown even more, as she didn't like them playing secrets with her, but she then sighed softly. "I don't know what you two are planning, but I hope you two don't do anything dangerous."

"Don't worry, we won't do anything dangerous." Tang Xiao and Tang Yin answered seriously.

\*Ring\*

Suddenly, Tang Yuan's cell phone rang, and she read the incoming message before getting up from her seat. "I have to meet one of my clients, so I have to go now. You two must tell me when your plans are final, and I will help you take revenge on them. Do you understand?"

"Yes." After their aunt left, Tang Xiao pulled Tang Yin onto his lap. "Anyway, Aunt Yuan is also a cultivator like us, but she doesn't seem to realize that we are already one."

"Is that true? Does that mean our grandfather is also a cultivator?" Tang Yin asked in disbelief.

Tang Xiao nodded to her. "I think so."

Tang Yin thought for a moment before speaking again. "If they are cultivators, why did they never teach our parents to become ones? Why did they hide it from us?"

"I don't know, but we can ask our grandfather about it when he visits us later." Tang Xiao then asked his big sister for her opinion. "Do you think we should tell Aunt Yuan about Xiao Ai and the ark?"

"Yes." Tang Yin unhesitatingly agreed with that. "Aunt Yuan loves us very much, and she took good care of us after our parents died, so we have to tell her the truth."

Tang Xiao then picked up Tang Yin and took her into the ark again, but he left his big sister with Xiao Ai, and he himself went to the training ground to learn some things first.

.  
. .  
.

Upon their arrival at the treasury vault, Tang Yin chose several weapons for herself, and one of them was the three-section staff, which is often called the San Jie Gun. In addition, she also took two special handguns, which she immediately put in her storage ring.

Unlike Tang Xiao, who mastered many martial arts and weapons, Tang Yin was more focused on Wushu, and her favourite weapon was the San Jie Gun. As for her marksmanship, Tang Ye taught her how to use guns when she was seven years old, and she continued to hone it after their parents died.

Xiao Ai suddenly handed Tang Yin a light dress and shoes. "Mistress, this is the speed boot, and it will make you move very fast, but you have to familiarize yourself with the speed first. As for the light dress, it is made from silk produced by metal silkworms. Even though it is only Epic Grade, it is enough to protect you for now, and no modern weapons can harm you."

"That's good." Tang Yin then put on the light dress and shoes, but she felt like she wasn't wearing anything, especially since both of them were very light. "By the way, I will learn the calamity of darkness first, and we will go to Hong Kong after."

"Yes, Mistress."

.  
. .  
.

A few hours later, as they had previously planned, Tang Xiao went straight to prison after they left the ark, and Xiao Ai accompanied Tang Yin to Hong Kong.

Tang Xiao was already standing not far from the prison, and he rushed there after he used his transformation technique to transform into Ouyang Hong, and he could enter the prison easily because of that.

Before long, Tang Xiao had arrived in front of Du Zhong's room, and he used his true eyes to peek inside, but he was making love with He Yu. "Tsk! This damn pig! You can have fun now, but you will meet King Yama soon."

## **Chapter 18: First Blood**

***\*Bam\****

The two people were shocked when the door to the room was kicked open from outside, but they were even more shocked when Tang Xiao, in the form of Ouyang Hong, came in.

Du Zhong hurriedly got out of bed and got dressed. "Boss, why did you come without telling me first?"

On the other hand, He Yu looked at Tang Xiao with a flirtatious smile, but she trembled when she saw his cold gaze. 'Damn it! Why did this old man suddenly become so scary?'

Tang Xiao didn't respond to them and used his true eyes to search for the CCTVs in the room, and he destroyed them after he found them.

"Boss, what- Ugh! Before Du Zhong could finish his inquiry, Tang Xiao moved in front of him, strangled his neck, and used the red dagger to cut off his dick, eliciting an agonizing scream. "Argh!"

He Yu was truly horrified to see Tang Xiao's vile actions, and she vomited on the bed after he kicked Du Zhong's dick at her. 'Fuck! Has this old man gone mad? Isn't he his subordinate?'

He Yu immediately took her cell phone to call for help, but Tang Xiao saw that and changed his red dagger into a gun, and he shot her directly.

**"Swoosh"**

**\*Boom\***

"Argh!" He Yu screamed in pain as her right palm exploded along with her cell phone, causing blood to flow profusely from her right wrist, and she became even more horrified toward Tang Xiao.

That shocked Tang Xiao, and he didn't expect that combining Atropos Glory with his fire element would result in such an explosive force. He immediately turned it into a dagger again and pressed it against Du Zhong's neck, causing his neck to bleed. "Tell me the hiding location of the man with the white tiger tattoo and his subordinates."

"You... you are not my boss." Du Zhong stammered as he endured the excruciating pain in his lower body, and his eyes became increasingly blurry as blood continued to flow out. "Who... who are you?"

Tang Xiao gave a faint smirk before cancelling his transformation technique, which caused Du Zhong and He Yu to tremble in fear. "Are you surprised to see me still alive, fatty?"

"Tang... Tang Xiao!" Du Zhong exclaimed in horror as his face turned deathly pale. "How... how did you manage to save yourself from that ravine?"

"I don't want to waste time answering your useless questions." Tang Xiao then pressed his dagger harder against Du Zhong's neck. "If you want to live, you better give me their hiding location, or I will dismember your body before killing you."

Du Zhong raised his hand and pointed at his desk. "My cell phone! Their names and how to contact them are all there."

Tang Xiao threw him on the bed, hitting He Yu, who was still groaning in pain, causing both of them to be in even more pain. Then he took Du Zhong's cell phone and read the stored messages, and he turned to him. "Bai Huang?"

"Yes... yes, he's the man with the white tiger tattoo." Du Zhong replied in fear.

"I've finally found you." Tang Xiao muttered with satisfaction, and he transformed his dagger into a gun again before pointing it at them.

"What... what are you going to do? I... I already told you their identities, so please spare us." Du Zhong pleaded with a trembling voice.

Tang Xiao shook his head. "Your mistake was collaborating with Ouyang Qing to kill me, and I will never spare my enemies, so you can lament your actions in front of King Yama."

**\*Swoosh... Swoosh\***

Without hesitation, Tang Xiao shot them right in the chest with fire bullets, causing their bodies to explode into small pieces. Their blood splashed into every corner of the room, but he protected his body with qi.

"Two are dead, and I'll take care of those guys soon." Tang Xiao transformed into Ouyang Hong again and left the prison directly, and he went straight into the ark to practice while waiting for Tang Yin and Xiao Ai to return.

.

.

.

The two women had arrived in front of a large house, and Xiao Ai asked Tang Yin. "What exactly are you going to do with this woman, Mistress?"

"What do you think I will do to her, Xiao Ai?" Tang Yin asked back with a faint smirk. "Yu Xiaoling conspired with Ouyang Qing to frame Xiao'er and make him suffer in prison for seven years, and he would have died at the bottom of that ravine if not for the rescue of you and your old master. Therefore, I must give her equal retribution for her crimes, right?"

"Are you really going to spread that video to the public?"

"Yes." Tang Yin nodded to Xiao Ai. "However, it was just my first revenge for Xiao'er's suffering, and I will make Yu Xiaoling suffer for the rest of her life. Anyway, let's go in, and I can't wait to see her expression."

'Could this be because my mistress awakened the darkness element? I feel that she is much crueler than the old master, and her character is also quite twisted.' Xiao Ai muttered as she pushed Tang Yin's wheelchair to the door of the house before pressing the bell.

**\*Crack\***

Instantly, Yu Xiaoling froze as soon as she saw them, and she wanted to go back in while closing the door, but Tang Yin blocked it with her hand. "What's the matter, Teacher Yu? Why do you want to hide from me?"

"How... how did you manage to find me?" Yu Xiaoling asked back stammeringly, but she was also shocked to see that Tang Yin had recovered, as she remembered for sure that she had been in a coma for the past seven years.

Tang Yin smiled faintly and returned the question. "How about we talk inside, Teacher Yu? After all, we haven't seen each other for seven years, right?"

'What happened? How can she be this strong?' Yu Xiaoling wondered in her heart because she couldn't push the door, especially since Tang Yin kept blocking it firmly. In the end, she sighed in resignation and invited them in. "Let's talk inside."

"That's good."

Xiao Ai then pushed Tang Yin's wheelchair to follow her into the living room, and Yu Xiaoling sat directly in front of them while asking. "Since when have you recovered? Why do you want to see me?"

Before she answered Yu Xiaoling's question, Tang Yin first whispered to Xiao Ai, who immediately carried out her orders. "I woke up from my coma not long ago, so my body is still stiff, and I can't move freely yet. As for the reason I came here, I think you should already know about it, right?"

"What do you mean?" Yu Xiaoling asked with a frown.

"Don't need to pretend to be ignorant in front of me, and you surely still remember your betrayal of my little brother seven years ago, right?" Yu Xiaoling froze after hearing that, and Xiao Ai whispered to Tang Yin, making her smile widen. "Turn on your TV, and you'll be surprised to see the news that the television stations are broadcasting."

Yu Xiaoling looked at Tang Yin in confusion, but she had a bad feeling after seeing her strange smile, so she immediately turned on the TV. Her face turned deathly pale, and her expression was filled with horror as she kept changing TV channels. They were broadcasting the same news, which was the news of her husband's affair, and they even broadcast the video of his affair without any blurring. "How... how did you get that video? Why... why did you do this to me?"

"Do you still need to ask me why, Yu Xiaoling?" Tang Yin asked her back with an angry look. "Back then, Xiao'er trusted you wholeheartedly, but you betrayed him by giving him a sleeping pill, and he had to experience the same thing that our mother experienced in the past. Besides, he was a smart and accomplished child, but your actions destroyed his future."

"But, I—"

"For your information, Xiao'er almost died in prison two days ago, and it happened because Ouyang Qing sent her father's subordinate to kill him. Fortunately, the goddess of luck was still by his side, and she sent two saviors to save him, so he managed to escape death." Yu Xiaoling was completely shocked after hearing that, and Tang Yin spoke to her again. "I know that you did that because that bitch threatened you, but I will never forgive anyone who dares to hurt my little brother, so I decided to spread that video to the public."

"Why... why are you so cruel?" Yu Xiaoling asked in a loud voice as she got up from her seat, and tears were already flowing freely from her eyes.

"As for your husband and daughter, I couldn't care less about their fate, and you were the one who brought destruction to them." Tang Yin then stretched her hand forward and used her technique, and Yu Xiaoling's body was instantly enveloped by a darkness aura, causing her to panic and struggle to escape. "Your efforts are useless because you will not be able to escape from me, and this is only the beginning of your endless suffering."

"Ugh! Let me go!" Yu Xiaoling shouted hysterically. "Please! Let me go, Tang Yin! I have to accompany my husband and daughter to get through this problem."

Tang Yin shook her head at Yu Xiaoling. "Forget your husband and daughter because you will never see them again, and they will think you are dead after this."

"No! Please! Don't do this to me!"

Tang Yin ignored Yu Xiaoling's screams and used one of her darkness techniques, causing her to lose consciousness. "Xiao Ai, remove all the evidence in this house, and we will take her into the ark."

"Yes, Mistress."

## **Chapter 19: Demon Tang Yin**

After they arrived at the laboratory, Xiao Ai stripped Yu Xiaoling naked and placed her in one of the capsules before she moved to the monitor in the north.

[What do you want to do to Yu Xiaoling, Mistress? Do you want me to change her memories? This way, she will completely submit to you, and you can order her to do whatever you want.]

"It wouldn't be fun if you altered her memories, so I don't want that." Tang Yin rejected Xiao Ai's idea by shaking her head. "Xiao'er has suffered for the past few years, so I want her to experience the same suffering as him, and I will make her submit to us of her own accord. Even so, I want you to implant your sub-chip into her brain, and that will make it easier for us to control her."

[Okay, then, I will implant my sub-chip into her brain. Do you have any other ideas for her?]

"Hmm?" Tang Yin observed the unconscious Yu Xiaoling deep in thought. "I think her punishment is still not enough to pay for her betrayal, so I thought about doing some things to her. You can reconstruct Xiao'er's body and rearrange her DNA, so you should be able to change her appearance, right?"

Xiao Ai was momentarily taken aback by her question. [Are you considering turning her into a new individual?]

"Yes." Tang Yin nodded at her. "If her face is changed, others won't be able to recognize her anymore, and I can use her to do some things in the outside world."

[With all the technology in this place, such a thing is too easy for me, Mistress. If you really want that, I will alter Yu Xiaoling's appearance after I implant my sub-chip into her brain.]

"Do it, Xiao Ai."

[Right away.] After that, several medical instruments moved over Yu Xiaoling, and Xiao Ai began to perform minor surgery on her before implanting the chip into her brain.

Tang Yin first read some things about Ouyang Qing. "Wen Tian, huh?"

[I've checked a lot about past events, and Wen Tian was the man who confessed to you back then, right, Mistress?]

"Yes." Tang Yin nodded slightly. "Wen Tian confessed to me three times, but I rejected all three. However, I didn't expect that his feelings for me would make Ouyang Qing jealous of me, and he asked Ouyang Ming to do something to me, which ended with me jumping from the third floor."

[Ouyang Qing is truly vicious toward you, Mistress. Do you want to do something to her?]

"It's more appropriate for Xiao'er to punish Ouyang Qing, so I'll hand her over to him." Tang Yin then read some other information about the woman, including the contents of her smartphone. "Haha! Foolish woman! She knew Wen Tian never liked her, but she insisted on wanting him as her boyfriend. In the end, she used dirty tricks by asking Ouyang Hong to pressure his father, forcing him to agree to be her boyfriend."

[Do you want to help Wen Tian escape from Ouyang Qing, Mistress?]

"Wen Tian has nothing to do with me, so we don't need to waste time helping him." Tang Yin checked the other things again. "Xiao Ai, I want you to copy all the contents of Ouyang Qing's smartphone, but you don't need to delete all the files."

[It's done, Mistress.]

"That's good." Tang Yin checked several things about Jessica Lie, but she couldn't find anything unusual apart from her past story with her husband, who was her former teacher. She then checked all the records about Ling Yan, but she also couldn't find anything unusual to use against her. "I still can't understand why she decided to collaborate with Ouyang Qing to frame Xiao'er at that time. As far as I remember, they were junior high school friends, and they were on good terms."

[I'm confused by that myself, Mistress. I've investigated Lin Yan in detail, but I haven't found anything that caused a dispute between her and my master.]

"No matter what, Lin Yan has participated in framing Xiao'er. Therefore, she is our enemy now, and I will think of something to destroy her." Tang Yin was shocked when she read all the information about Luo Qinglin. "Have you copied all the contents of Qinglin's smartphone, Xiao Ai?"

[I did it at the same time as Ouyang Qing's just now, and you can look for them in my database, Mistress.]

Tang Yin immediately checked it and found a lot of videos, all of which were sex tapes of her having sex with dozens of different men. "I've known for a long time that she is a cheap and immoral woman, but her secret is beyond my expectations, and she is no different from a prostitute in a brothel."

[She even did that to my master when he was unconscious that time.]

Tang Yin's expression turned furious upon hearing that, and a black aura involuntarily released from her body. "Since she's a cheap slut, I shouldn't hold back from teaching her a harsh lesson. Xiao Ai, upload all her videos to those websites and let all the men out there enjoy her naked body."

[Hahaha!] Xiao Ai laughed out loud upon hearing that. [Mistress, I didn't expect you to be so evil, but I like it. I will do it now, and her videos will spread abroad.]

Tang Yin smirked at that, and she continued checking the data of other people, especially those who were involved in her accident seven years ago and the murder of her parents. "I can't attack Ouyang Hong and Ouyang Ming now, so I will start with the Ran Family. Zhao Yuxian, you are my mother's little sister, but you betrayed her and my father, and you witnessed the incident that night. Since you are that heartless, I will also be heartless towards you and your family. Moreover, your son conspired with those bastards to do such a cruel thing to me seven years ago, so don't blame me for taking action against you, and I will destroy your family until nothing remains."

Xiao Ai was speechless as she listened to Tang Yin's words. 'Will my mistress be any more cruel than this in the future?'

Sometime later, Xiao Ai had finished carrying out her mistress's orders on Yu Xiaoling, and Tang Yin asked her to send the woman to the prison before returning to the residence area.

.  
. .  
.

Tang Yin had arrived at the residence area and waited for Tang Xiao; she studied the calamity of darkness technique again because she had not yet mastered the technique, as there were ten sub-techniques within it.

"Darkness transformation, huh?" Tang Yin muttered to herself before starting to study the method of use. Since Xiao Ai had increased her brain capacity, just like Tang Xiao, she had no difficulty learning that sub-technique.

After she completely mastered the sub-technique, Tang Yin immediately tried to activate it, and her body gradually underwent an unusual change.

Tang Yin's black hair became blacker, and her white skin was also turning black. Two black horns appeared on top of her head, and her ears became pointed like an elf's ears. Additionally, her hands and legs turned into claws, and two black wings appeared on her back.

Soon, a light black cloth like armor covered Tang Yin's body, and she immediately opened her eyes. Her black eyes had already turned red, which made her appearance completely like that of a female demon.

Tang Yin flapped her black wings and flew towards the mirror, but she was shocked for a moment after seeing her reflection. She tried to touch her horns and wings to ensure their authenticity, and a strange smile appeared on her face after she was sure that they were real.

"I didn't expect that I would turn into a demon after using the darkness transformation, but if I think about it again, all the sub-techniques in the calamity of darkness technique are indeed related to demons. Tang Yin then learned several other sub-techniques of the calamity of darkness technique, but she was disappointed because she still couldn't learn them all due to her low cultivation, and she could only learn two other sub-techniques. "Unfortunately, I can't use all of them with my current cultivation, so I have to cultivate harder to increase my cultivation."

After that, Tang Yin returned to her human form and went back to bed. She took off her clothes before lying in there, waiting for Tang Xiao to come back.

.  
. .  
.

Meanwhile, a big commotion broke out in the prison after one officer went into Du Zhong's room, especially after he saw so much blood in the room. He also found many small pieces of human bodies, so he contacted higher-ups to report the incident.

Not long after, several police arrived at the place, and they checked every CCTV in the prison. However, the results of their investigation shocked them because the last person who entered and exited the room was a man of high status.

*\*Tap... Tap...\**

A young woman with a delicate face and long black hair walked leisurely toward the room, and she was wearing a white t-shirt combined with a long navy blazer. For the bottom, she wore tight navy jeans combined with white sports shoes. Her almond-shaped eyes are large, framed by long, soft lashes. Her lips are naturally full without lipstick. Her figure is balanced and proportional, neither too tall nor too short. Her chest is modestly full and well-proportioned, accentuated subtly by her off-shoulder white outfit, without being overly revealing. Her waist is slender and smoothly defined, emphasized by the fitted design of her clothing.

Although the woman's attitude was relaxed, her expression looked serious, and all the policemen who saw her arrival greeted her with respect.

"Chief Sun Xiang!" Another young policewoman called out as she saluted her.

**Chapter 20: Sun Xiang - Xiao Meng**

"Ouch!" Sun Xiang flicked the policewoman's forehead, causing her to pout her lips while rubbing her forehead. "Why did you do that?"

"I told you many times to be casual with me, Xiao Meng." Sun Xiang responded with a headshake. "We are old friends, and we've been together since we were kids, remember?"

Xiao Meng's face is no less beautiful than Sun Xiang's, with a smooth, fair oval face, but her expression is too childish. Straight, dark hair cut just below the jawline, with soft layers framing the cheeks. She has slightly arched brows, medium-large brown eyes, a delicate nose, and a subtle pinkish lip color. Her figure is tall and slim, yet shapely. Her fitted black-colored button-up shirt is tucked neatly into a dark high-waisted skirt accentuated with her noticeably full yet naturally proportioned breasts and elegant curves.

"Even though we are old friends, you are still my boss, remember?" Xiao Meng complained with a pout. "Anyway, I feel strange about this case because the last person who met them was Ouyang Hong, but I'm sure that he couldn't have done such a thing."

"You're right." Sun Xiang then examined the room seriously. "Do you feel anything familiar?"

Xiao Meng nodded to her. "I feel residual qi in this room, so I'm sure that their killer was a cultivator, or else their bodies wouldn't have been destroyed like this."

"That's right." Sun Xiang then closed her eyes and stretched her hand forward, but her expression looked shocked. "The culprit used the fire element to kill them, but I think the person was a beginner cultivator because the qi residue in this place is too weak."

"I think so too." Xiao Meng replied as she nodded repeatedly. "What do you think was that person's motive for killing them?"

"I don't know." Sun Xiang then squatted on the floor and checked some other things. "We both know that Ouyang Hong often uses vicious means to eliminate his opponents, and Du Zhong is one of his lackeys. Therefore, I think that the perpetrator is probably one of their victims."

Xiao Meng suddenly remembered something. "Speaking of Ouyang Hong, he committed such vicious acts against Tang Ye and Zhao Jing. However, Tang Huang could only accept their deaths, primarily because that man was protecting him. Even after they died, he and his family didn't stop and continued to harm their children. In the end, Tang Yin fell into a coma for seven years, and Tang Xiao was imprisoned here for that time too."

"Isn't Tang Xiao supposed to be free today?" Sun Xiang asked, her mind occupied with various thoughts.

"Yes." Xiao Meng suddenly remembered something and informed her of another matter. "By the way, I heard from someone that Tang Xiao fell into the bottom of the ravine two days ago, and they haven't found his body until now."

"Is that true?" Sun Xiang asked as she turned to Xiao Meng.

Xiao Meng responded by nodding. "I got this information from Big Sis Feng Yao, and she heard about it from Tang Xiao's aunt, so the news should be true. However, it appeared that Ouyang Hong intentionally concealed the news of his death, resulting in our lack of information, while Tang Yuan seemed to have decided to manage this situation on her own."

Sun Xiang sighed heavily and stood up. "Did Tantai Lingyan do anything about the death of her disciple?"

"No, Tantai Lingyan seems to still be on Earth-II, so she probably doesn't know about this news yet, or else she must be furious by now." Sun Xiang agreed with that statement, and then Xiao Meng asked her a question. "Are you able to find the killer by relying on the Qi residue in this place? After all, your senses are very sensitive to qi, so I think you should be able to do it."

Sun Xiang shook her head slightly. "I can track down the owner of this qi, but our country is too big, remember? Furthermore, there are too many cultivators in this city, so I'm not sure if I can find the culprit quickly."

"Sigh, you're right." Xiao Meng then turned toward the exit. "In my opinion, Ouyang Hong will not remain silent about this matter, and he might do even crazier things after this incident."

"Forget it." Sun Xiang then put her arm around Xiao Meng's shoulder. "Even our families can't do anything to Ouyang Hong, so we shouldn't waste our minds and time on him. We will take our time with this case, and I'm sure that we will find the culprit one day."

"How about we go to the usual place to eat?" Xiao Meng said this while rubbing her stomach.

"Haha." Sun Xiang laughed at seeing her like that. "Let's go; I'm hungry now."

.

.

.

Meanwhile, Tang Xiao trained hard at the training ground, focusing particularly on mastering the four movement techniques for several hours. At first, he wanted to try the gravity feature, but he gave up his intention because his body was not ready.

Tang Xiao only stopped training after he learned the Celestial Body Technique, and he mastered the initial stage, increasing his combat power and body strength by ten percent. Since it was already evening, he decided to return to the residence area to meet Tang Yin and rest.

Tang Xiao was stunned when he arrived at the bedside, and his eyes blinked repeatedly. With not a single thread covering her body, not even a blanket to cover herself, Tang Yin was fast asleep.

'I've seen her naked before, but I just realized that she's really mature and sexy now.'

Tang Xiao took a deep breath and climbed into bed. He lay on her side and hugged her, covering them with a blanket.

Feeling the warmth of his body, Tang Yin snuggled closer to Tang Xiao's chest. "Have you finished your training?"

"I've trained enough today, and my body isn't strong enough to train continuously. Therefore, I decided to stop and come here, but I'll train again tomorrow." Tang Xiao then asked her. "What have you done to Yu Xiaoling?"

"Hehe." Tang Yin softly giggled before explaining to Tang Xiao the actions she and Xiao Ai had taken toward Yu Xiaoling, which left him dumbfounded for a while. "As I told you before, I wanted to set up a company, and I needed help to take care of it. I did that to her so no one would recognize her, and I could carry out my other plans."

"What about the capital to set up your company?"

"Xiao Ai has already arranged everything for me, and she stole some money from Ran Linfeng's account."

Tang Xiao was satisfied with their speed of action. "How about you show me your demon form now?"

"Huh? How did you know about that?" Tang Yin looked up at him.

"Haha! I gave you that technique, remember?" Tang Yin pursed her lips, which made Tang Xiao itch to pinch her cheeks. "I've read about the calamity of darkness technique while I was waiting for you two to come back, so I know the effects of each sub-technique in that technique. I'm interested in that technique, but unfortunately, I don't have darkness Qi, so I can't learn it."

"Help me sit down first." Tang Xiao took Tang Yin to sit on the bed, but her face reddened because she was still naked. Despite this, she didn't try to cover her body; instead, she grabbed his hand and placed it on her breasts. "Do you like it?"

"I do." Tang Xiao nodded slightly.

"Hehe." Tang Yin giggled and activated the darkness transformation, causing him to be stunned. "Why are you looking at me like this? Does my demon form scare you?"

"Of course not." Tang Xiao then rubbed her two black horns, causing her to moan softly. "Your demon form is entirely different from your human form, and I wouldn't recognize you if I didn't see it in person."

"Which is the prettiest between my human form and my demon form?" Tang Yin asked as she put her arms around his neck.

"Both are pretty." Tang Yin smiled at Tang Xiao's answer. "When you are in your human form, you are a kind and gentle girl, but your demon form is the complete opposite. You look cruel and evil in this form, and your red eyes look intimidating, but I like both of your forms."

Tang Yin nodded in agreement. "To be honest, when I first saw my demon form, I was shocked and a little scared of myself. However, I feel that my demon form suits me very well, and I will use it to take revenge on those people."

"As far as I remember, Jessica and Lin Yan are afraid of ghosts, and they would probably have a heart attack if you appeared in front of them in this form." Tang Xiao said this as he rubbed her wings, making her moan softly again. "Are your horns and wings sensitive?"

"I felt they were sensitive when I touched them before, and your touch made me moan." Tang Yin then shared additional information. "At first, Xiao Ai wanted to alter Yu Xiaoling's memories, but I forbade her to do that, and I wanted her to submit to us of her own accord. By the way, let's meet her."

"I don't like it if Yu Xiaoling submits to us because of that, as it would make everything uninteresting, and I want her to feel endless suffering for her betrayal." Tang Xiao helped Tang Yin get dressed before carrying her. "Don't you want to return to your human form? I'm afraid she will die of fright after she sees your demon form."

"No need." Tang Yin refused by shaking her head. "I want her to know that her actions are related to many things, and I want to use my demon form to instill fear in her heart. Moreover, she is a strong woman; I'm sure she won't die just because she sees me like this."

"All right, let's meet her now." Tang Xiao directly took her away.
