

Celestial 'War God' Return #Chapter 21: Meet Yu Xiaoling - Read Celestial 'War God' Return Chapter 21: Meet Yu Xiaoling

Chapter 21: Meet Yu Xiaoling

Yu Xiaoling had woken up and was curled up on the floor with her head between her legs, her naked body shaking in fear while her cries echoed throughout the prison.

Yu Xiaoling's expression was depressed, as she remembered her previous meeting with Tang Yin at her house. However, she found herself in a strange place when she opened her eyes, and no one came to her, even though she continued to scream at the top of her lungs. Furthermore, she was naked and there was nothing to cover her in the room, which made her freezing.

"Please save me, husband. Bad people kidnapped and held me captive in this strange place." Yu Xiaoling hugged her legs tighter.

Swish

Hearing the door open, Yu Xiaoling immediately looked at the door, but she was frightened when she saw Tang Yin's demon form, and her body trembled even more intensely, so she lowered her face again.

"Please release me from this place; I want to return to my husband and daughter's side." Yu Xiaoling begged them while sobbing.

Tang Xiao took Tang Yin to the bed, sat her down, and spoke to Yu Xiaoling. "We haven't seen each other for seven years, right, teacher Yu? The last time we met was when you invited me to your house because you wanted to cheer me up, but you didn't do that. Instead, you put sleeping pills in my food and drink, and you handed me over to Ouyang Qing that night."

While keeping her lowered, Yu Xiaoling replied to him while continuing to sob. "Please, free me from this place, Tang Xiao. I know I have wronged you, but I have no other choice. Ouyang Qing threatened me, and I did that for the sake of my husband and daughter."

"I know you did it because of Ouyang Qing's threats, but why should I care about your husband and daughter?" Tang Xiao then lifted Yu Xiaoling to her feet and grabbed her neck directly, causing her to have difficulty breathing. "That night, you broke my feelings and trust in you, and I had to feel the cold of the prison floor for seven years. Moreover, my big sister already told you that I almost died two days ago, right? Fortunately, I met my savior, and he saved me from the ravine; otherwise, I would be dead now, and he gave me the opportunity to take revenge on my enemies, including you."

"Please... forgive me... Tang Xiao..." Yu Xiaoling said it with difficulty as she held his hand.

"Forgive you? Do you think you deserve to be forgiven?" Tang Xiao asked with a sneer. "Do you know what I regret most in my life? Back then, I fell in love with you, even though you already had a husband, which happened because you were always kind and caring to me. Even though I know that my feelings will never be reciprocated, I don't regret my feelings, and I feel happy enough to be close to you."

Hearing that, Yu Xiaoling looked at Tang Xiao with an utterly shocked expression, as she had never realized her student's feelings for her.

"Are you surprised? However, that story belongs to the past, and those feelings have now vanished." Tang Xiao withdrew his hand from Yu Xiaoling's neck. "I only have hatred toward you now, but I will show you a little mercy because of our past relationship, and I will not treat you more cruelly than this. However, you should forget about your freedom and family because I will never release you from this place, and you will be our servant for the rest of your life."

"No!" Yu Xiaoling screamed and grabbed his hand. "Please! Let me go, Tang Xiao! I don't want to stay here! I want to meet my husband and daughter!"

"You can forget about your wish, Yu Xiaoling."

Yu Xiaoling immediately turned to Tang Yin, even though she was still frightened by her demon form. However, a screen suddenly came out of the wall and displayed a CCTV image of her house, and she could hear her husband and daughter talking.

Yu Xiaoling's body trembled strongly. "What... what did they say? Why... why did they think that I was dead?"

"Hahahaha." Tang Yin evilly laughed. "I asked Xiao Ai to do a few things about you, and you have no place to return. As you can hear from their conversation, you are already dead in the outside world."

"What?" Yu Xiaoling shouted as she stared at Tang Yin with wide eyes.

"Xiao'er, give this mirror to her." Tang Xiao immediately took the mirror in Tang Yin's hand and handed it to Yu Xiaoling. "Look at your face."

Yu Xiaoling had a bad feeling because of that, and she hurriedly grabbed the mirror before seeing her reflection there. Her eyes widened in shock as she rubbed and pinched her face, discovering her face was completely changed and real. "How... How..."

Tang Yin immediately explained everything to her. "I asked Xiao Ai to perform plastic surgery on you, and your new face was the result. Additionally, I asked her to delete various things related to you, and she also gave you a new identity, so you are a new person. Even if you return to your husband and daughter now, they will only see you as a stranger, and you will never be able to prove your true identity to them."

"What?" Yu Xiaoling shouted as she stared at Tang Yin with wide eyes.

"You may not believe my words, but I told you the truth." Tang Yin then asked Xiao Ai to display all the areas inside the ark. "As you can see, this place is separated from the outside world, and there are so many technologies that are much more advanced than our earth. Moreover, you can see this prison for yourself. Have you ever seen a prison like this in our world? Therefore, you don't need to doubt my words anymore, right?"

Bam

Yu Xiaoling slumped on the floor as she continued to look at all the images appearing on the screen, and she could see that the various technologies appearing there were indeed much more advanced than their world. "Why... why did you do such a cruel thing to me? Why... why did you separate me from my husband and daughter?"

"Heh! Isn't this the consequence of your past actions?" Tang Yin responded with a sneer. "If only you hadn't cooperated with Ouyang Qing to frame Xiao'er, then you would never have experienced this kind of thing, and you would still be able to live happily with your family. But alas, regrets always come last, right? Your face has changed, and you're dead to them now. Therefore, you have no other choice but to spend the rest of your life in this place as our servant, and you will live as a new person. However, you don't need to worry because we won't treat you worse than this, and several other people will join you soon."

Hearing that, Yu Xiaoling laid face down on the floor, burying her face in her hands. She continued to let out heart-wrenching cries, but Tang Xiao and Tang Yin couldn't care less about her feelings.

Tang Yin then asked. "Don't you want to sleep with her, Xiao'er? You need strength, and the best way for you is to become a dual cultivator. Even though she isn't a cultivator yet, her body still has Qi, so you can use her body to increase your cultivation."

"I want to take revenge on my enemies, but I'm not that kind of man, okay? She may have betrayed me, but I won't force her to do such a thing, and she will eventually submit to us." Tang Yin nodded in understanding at Tang Xiao, who then asked her a question. "Do you really want me to become a dual cultivator?"

"Yes." Tang Yin answered with a nod. "Previously, I tried to investigate more deeply about the identity of the people behind the Ouyang family, and I discovered someone

else besides those hidden families. There was a powerful person who was always protecting them, but I couldn't find any detailed information about that person. Besides, the government seemed to be terrified of that person, so Ouyang Hong could act as he pleased. From that point, I concluded that the person must be a powerful cultivator; otherwise, our grandpa would not have remained silent about our parents' deaths. That's why I want you to become a dual cultivator, so you will become stronger faster, and we will also be able to take revenge on them faster."

"You're right." Tang Xiao replied with a nod of approval. "Our grandpa is not a coward, and he can't possibly be afraid of Ouyang Hong, so I think your guess is correct. However, I want to know the identity of that person, and Aunt Yuan or my master might be able to give me the answer."

"Yes." Tang Yin then said to him. "Aunt Lingyan is close to our grandpa, and I think she is also a cultivator like us, so she and Aunt Yuan definitely know that person's identity."

Tang Xiao sighed softly. "Tomorrow morning, I will go to the Ouyang family to apply to be their chauffeur, and I will go to see my master after."

"All right, you can do that, and I'll see Aunt Yuan tomorrow." Tang Yin stole a glance at Yu Xiaolong before extending her hand to Tang Xiao. "Please take me back to our room, Xiao'er."

.

.

.

A while later, the two of them had returned to their room in the living area, and Tang Yin returned to her human form before Tang Xiao laid her down on the bed. "Accompany me to sleep, Xiao'er. We were separated for seven years, and I'm afraid of losing you again."

"You don't have to be afraid, okay?" Tang Xiao took off his clothes, leaving only his short pants. She immediately lay next to Tang Yin and hugged her. "We are together now, and we will never be apart again."

"Yeah." Tang Yin snuggled closer to his chest and closed her eyes. "I'm glad we're together again."

"Me too."

Chapter 22: A Chauffeur

The next morning, Tang Xiao was already dressed neatly, and Tang Yin helped him tidy up his appearance. "Are you going to use your transformation technique to go to Ouyang House?"

"Yes." Tang Xiao nodded and transformed himself into someone else, making Tang Yin smile in amusement at his other appearance. "I will use the name Feng Xiao with this appearance, so they won't possibly recognize me. Even if Yi An tries to investigate my identity, she will never know that it's fake, and I will take advantage of this opportunity to destroy them from within."

"That's good." Tang Yin suddenly remembered something before asking him again. "Do you think Ouyang Hong and his family are cultivators like us? If they are cultivators, I'm afraid that they will recognize your disguise."

Tang Xiao shook his head. "If they were cultivators, they would not have depended on that person to suppress the government, and they should have been capable of doing it themselves. Even so, I will act with caution when I arrive there, and if they see through my disguise, I will immediately flee inside."

"Alright, you should go now, and I will check on Yu Xiaoling before I go to see our aunts." After he disappeared, Tang Yin went straight to the prison.

.
. .
.

When she arrived, Tang Yin saw Yu Xiaoling sitting pensively on the bed. Her face looked haggard and pale, and her eyes were swollen from crying all night long. "Come with me."

"Hmm?" Yu Xiaoling looked up and asked Tang Yin. "Can you get me some clothes? I'm not comfortable walking around naked like this."

Hearing that, Tang Yin took out a maid outfit that Xiao Ai had prepared beforehand from her storage ring, and she gave it to Yu Xiaoling. "You can wear it now, but you have to take it off if Xiao'er is with us."

Yu Xiaoling neither accepted nor refuted; instead, she got dressed and followed Tang Yin, who then took her in a flying car to another area, leaving her both shocked and amazed. 'What the hell is this place? How can they have so many kinds of advanced technology? Even this flying car is too advanced for our world, and those scientists will fight over everything if they see this place.'

.

"I have prepared some of the materials you asked for, Mistress." Xiao Ai informed Tang Yin as she arranged several dishes on the dining table. "If you like, we can start making some product samples today, so you can start your company soon."

"That's excellent! However, Aunt Yuan will come to Tang House soon, so I have to go out to meet her first." Tang Yin moved her wheelchair to the head of the table. "Have you done what I asked regarding Ran Linfeng?"

Xiao Ai nodded to her. "I've tracked Ran Linfeng's wealth, and I transferred all the wealth he got from your parents to your fake account. Perhaps he is feeling confused about his current situation, particularly since his wealth has disappeared for more than three quarters."

Tang Yin was completely satisfied after hearing that. "Will he be able to find out about the disappearance of his wealth?"

"I've erased all evidence of the money transfer, and no one will be able to know about it, Mistress."

"Sit and eat with me." Tang Yin said this to Yu Xiaoling, who kept looking at Xiao Ai curiously. "You don't need to look at her like that, Xiaoling. She is our family, but she is an AI with an artificial body."

Yu Xiaoling was utterly shocked by Tang Yin's words, and she sat in an empty chair. Her eyes kept looking at Xiao Ai from top to bottom, as she was no different from an ordinary little girl. "Is she really an artificial human?"

"Why would I lie to you?" Tang Yin asked back while sipping black coffee from her cup. "Xiao Ai is the AI that runs this place, and her old master built it, but Xiao'er is the current owner of this place."

"I will go to the factory first to prepare everything, Mistress. My old master hasn't used all the equipment there for a long time, so I have to double-check everything first."

After Xiao Ai left them, Tang Yin spoke to Yu Xiaoling again. "That's why you shouldn't have doubted my words yesterday; you are already dead in the outside world, and all records about you have been erased by Xiao Ai, so you can never return to your family again."

Hearing that, Yu Xiaoling looked at Tang Yin as she clenched her fists tightly. "Why are you doing all this to me? I know that I was wrong for helping Ouyang Qing frame Tang Xiao, but your actions were too cruel for me."

"Really?" Tang Yin squinted her eyes at Yu Xiaoling. "What do you think would have happened if they didn't save Xiao'er? He would have died and rotted in that ravine, so you should be grateful that I didn't kill your husband and daughter in my revenge, or do you want them to die in exchange for your freedom?"

"No!" Yu Xiaoling shouted with a trembling voice. "Please! I beg you! Don't hurt them, especially my daughter!"

"In that case, you should forget about them, and you should also learn to accept your fate to become our servant." Yu Xiaoling felt frustrated and helpless after hearing that, and Tang Yin spoke to her again. "Do you know what Xiao'er experienced after you handed him over to Ouyang Qing that night? You might not know about this matter, but Luo Qinlin was infatuated with him, and he repeatedly rejected her because her character was too extreme. Therefore, you can guess what she did to him that night, right?"

"You mean?" Tang Yin nodded at her, which made Yu Xiaoling feel even more regretful for her actions, especially since she herself knew everything that had happened to their parents in the past. "Sorry, I didn't know about that, and I never knew that Tang Xiao had to experience such a thing."

"Isn't your regret too late?" Yu Xiaoling could only lower her head in regret after hearing Tang Yin's mocking tone. "Even though all that happened to us in the past, I am grateful to you. Your actions back then have brought significant changes to our lives, but they have also brought negative changes to the lives of many people. Xiao'er and I will destroy our enemies with the power and technology within our grasp, and you are the cause of their destruction because it all started with your betrayal."

Tears of regret flowed freely from Yu Xiaoling's eyes after hearing all that; her heart was filled with regret and fear as she realized that Tang Yin was not joking with her words.

After that, Tang Yin didn't say anything else to Yu Xiaoling, and they ate together in silence.

After everything was done, Tang Yin took Yu Xiaoling to go to the small factory, as she needed other people's help to handle some things.

.

.

.

Tang Xiao had arrived at the Ouyang family house and followed a security guard to the main building, and he used his true eyes to look around the house. 'Ouyang Hong is

really arrogant, and he only installed some CCTVs. But his is excellent, and I will be able to move around more freely.'

After the security guard reported to the owner of the house, Tang Xiao casually walked into the main building, and the two women were waiting for him in the living room.

One of them was a middle-aged woman around 45 years old; her face looked mature and calm, and her chest-length light brown hair looked smooth but slightly wavy. Her wide black eyes looked serious while reading the newspaper in her hand, and her heart-shaped lips were coated with glossy pink lipstick. Her appearance was quite graceful and attractive in her black sleeveless dress, which allowed Tang Xiao to clearly see her smooth skin plus her fairly deep cleavage, particularly since her breasts were quite big, and they didn't look saggy in the slightest.

Meanwhile, a woman in her late twenties was standing behind him, and she seemed busy taking care of various things on her cellphone. Her eyes repeatedly glanced at Tang Xiao, or rather the chunk under his trousers. Her face is not pretty, and she looks naughty with short black hair, but her slim figure is quite sensuous, accentuated by her breasts protruding beneath her T-shirt. She looks tomboyish in a tight beige t-shirt combined with mini jeans.

After he greeted them, Tang Xiao handed his application letter to the woman, who was none other than Ouyang Hong's wife, Yi An.

Wasting no time, Yi An read his personal information while nodding a few times. "Why are you looking for a job in this city, Feng Xiao? Isn't your hometown closer to Huizhou?"

"Mrs. Yi, I've worked there before, and the salary was pretty good. I need more money to support my family, so I want to try my luck in this city." Tang Xiao lied with a straight face; even Yi An seemed unsuspecting.

Yi An just nodded and continued reading Tang Xiao's personal data before asking him several other questions. The interview lasted about fifteen minutes, and she made her decision once she was satisfied with his answers. "Can you start working today? I need my personal chauffeur for today, and I will pay you 15,000 yuan. You must stay here because I often have urgent business, so you must be ready when I need you."

'15,000 yuan? She's quite generous, huh? I think I'll only earn about six to seven thousand.' Even so, Tang Xiao didn't focus on his salary because he applied to be Yi An's chauffeur not for financial gain, but to seek revenge on them. "I have no problem with that, Mrs. Yi."

"Good." Yi An then stood up and spoke to her personal assistant. "Su Rou, I want you to take Feng Xiao to his room and give him the chauffeur's uniform, and we will go directly to meet someone."

"Yes, madam." Su Rou then turned to Tang Xiao with a strange smile, and she led him away to another area outside the main building. "Follow me."

'Why is this woman smiling strangely like that?' Tang Xiao wondered inwardly as he followed Su Rou.

- To Be Continued -

Chapter 23: Tell Tang Yuan

After they arrived in the bedroom, Su Rou pressed Tang Xiao against the wall, and her hand moved to rub his dick. "As expected! Your dick is big! Do you already have a wife, Feng Xiao?"

'This woman is truly shameless.' Tang Xiao inwardly cursed. "Miss Su, I have a wife, so please don't be like this."

"Is that so?" Su Rou inquired with a flirtatious grin as she slowly caressed his dick. "Is your wife able to satisfy you? Shall we have some fun before we leave?"

Tang Xiao raised his eyebrows slightly as a blue screen appeared before his eyes, displaying a lot of information about Su Rou. "Miss Su, please forgive me, but I don't like your attitude, especially when you talk about my wife."

"Why you—"

Tang Xiao pushed Su Rou backwards, making her expression turn furious. "My wife is much better than you, so you should shut your mouth and not say anything about her. If you continue to act like this, I will report you to Mrs. Yi."

"Heh!" Su Rou sneered. "Do you think that would be good for you? She is my foster mother, and I've helped her a lot since I was young. Even if you report my behavior to her, she won't respond to you because she's familiar with my character, and she'll fire you instead."

"Is that so?" Su Rou frowned at Tang Xiao's smirk. "She may know your character by heart, but she certainly doesn't know about your behavior out there, right? What do you think will happen if she finds out that you are having an affair with Liang Xinyue's husband, Pan Tianrui?"

Su Rou was completely shocked to hear that. "How... how did you know about that?"

"Haha." Tang Xiao chuckled. "Do you want me to reveal all your secrets? For example, your secret relationship with her husband."

Su Rou staggered backwards after Tang Xiao mentioned her relationship with Ouyang Hong. "You—"

"Do you think I'm bragging?" Tang Xiao took out his smartphone that Xiao Ai prepared for him and showed Su Rou two videos, both of which were her sex tape with Ouyang Hong and Pan Tianrui. "What do you think will happen if I send these two videos to her?"

"How... how did you get them?" Su Rou's voice was filled with fear.

Tang Xiao put away his smartphone and approached Su Rou. He lifted her chin and stared at her with a cold gaze. "I don't need anything from a prostitute like you, and I just want you not to bother me while I work here. If you keep bothering me, I will send the two videos to Mrs. Yi. Additionally, I will reveal your other secrets to the public, and many people will definitely come straight to you. I am not a good person, so you need to consider everything carefully."

"You—"

Ring

Su Rou's smartphone suddenly rang, so she picked it up and read the incoming message. "we should go now."

"Heh." Tang Xiao snorted and followed Su Rou straight away while thinking about some things. 'Since she is Yi An's adopted daughter, and she also trusts her so much, I will use her to smooth out my plans against the Ouyang Family.'

.
. .
.

'What happened to Su Rou? Why does she look so upset?' Yi An wondered about the situation before glancing at Tang Xiao. 'Did something happen between them before? I've asked her to stop her habit of flirting with men, but she never listened to my words. Feng Xiao appeared to have rejected her previously, which caused her to become upset like this.'

Tang Xiao smiled faintly upon noticing Yi An's glance at him through the rearview mirror, and then he glanced at Su Rou, who was still frightened due to the two videos in his hand. 'Heh! Don't blame me for that because you're the one who started it.'

"Are you thinking about something, Su Rou?"

"Eh?" Su Rou turned to Yi An. "What do you mean, Mrs. Yi?"

Yi An stared at her for a few moments. "Nothing."

'Sigh! She must think I'm trying to seduce this bastard!' Su Yao spoke inwardly, glancing at Tang Xiao. Her heart pounded as soon as their eyes met in the rearview mirror, causing her to hold her breath and bite her finger. 'Shit! How did he get those two videos? I saved them on my laptop, and no one has ever used it but me.'

.
. .
.

Tang Yin had returned to Tang House, and she was chatting with her paternal aunt, Tang Yuan. "So, Xiao'er has infiltrated Ouyang House, huh? Why is he acting so recklessly? What if Ouyang Hong and his family recognize him?"

"He works there as Yi An's chauffeur now." Tang Yuan frowned in response, but Tang Yin hurriedly spoke to her again. "Aunt Yuan, I know you're worried about us, but please trust us, okay? Xiao'er can take care of himself, so you don't need to worry about him."

"Yeah." Tang Yuan agreed with that. "Xiao'er is a martial arts master, and not many people can fight him as long as they fight one-on-one, but the situation will be different if people gang up on him like when he was still in prison."

Tang Yin smiled and took Tang Yuan's hand. "Don't you feel anything different from me?"

"Hmm?" Tang Yuan's expression instantly changed when she noticed her niece's transformation; she suddenly stood up and shouted. "Yin'er! How is this possible? Since when did you become a cultivator?"

"Hahaha." Tang Yin laughed heartily at Tang Yuan's shocked expression. "Xiao'er and I were already cultivators before we met you yesterday, but you were too excited, and you didn't notice our changes."

"What exactly happened to you guys? How did you two become cultivators suddenly?" Tang Yuan asked with a confused look as she sat back down beside her niece.

Tang Yin immediately told her aunt the truth about what happened. "Long story short, someone rescued Xiao'er from the bottom of the ravine, and that person healed his injuries, preventing anyone from finding his body there. After he fully recovered, his savior taught him to become a cultivator. After that, he picked me up in the hospital, woke me up, and taught me to become a cultivator too."

"Who exactly is that person?" Tang Yuan asked with a serious tone.

"I don't know." Tang Yin answered by shaking her head. "Xiao'er himself doesn't know the identity of his savior because that person had already left this world when he woke up, and he sacrificed himself for him."

Tang Yuan frowned after hearing that, as most cultivators were selfish and conceited, and very few of them were willing to do such a thing for the sake of others; thus, she felt suspicious that he had other intentions toward her niece and nephew.

Seeing her aunt's expression like that, Tang Yin contacted Xiao Ai before speaking to Tang Yuan again. "I will introduce you to someone, and her master is Xiao'er's savior, but he is her current master."

"Oh?" Before Tang Yuan could ask her niece, Xiao Ai had already appeared in front of them, but she frowned after noticing something unusual about her. "You're not human, right? You do resemble humans, but I can't feel any life energy from you, so I'm sure that my guess isn't wrong."

"Yes, I am not human. I am an Ai, and my body is the creation of my old master."

Xiao Ai's answer left Tang Yuan so stunned that she was speechless; she turned to her niece with a questioning look, but Tang Yin simply smiled and led her directly into the Primordial Divine Ark.

.

.

.

Tang Yuan was even more shocked after they arrived inside, and her expression was completely ridiculous, causing Tang Yin and Xiao Ai to burst out laughing. "Hahaha! I expected that you would react like this, Aunt Yuan. I myself also had the same reaction as you when Xiao'er brought me to this place for the first time, but this place is real, and everything that is available inside here is a creation of his savior."

A flying car suddenly landed in front of them, and Xiao Ai took them around the entire area of the ark, causing Tang Yuan to become increasingly shocked and amazed at the same time. "Unbelievable! I feel like I'm in a sci-fi movie! How could Xiao'er's savior create such an advanced place and technology?"

"My old master didn't create this place, but he discovered it by chance." Tang Yuan turned to Xiao Ai. "He was a powerful cultivator, and all the facilities in this place were his creations. However, he was not from this era; instead, he came from the future,

which is why all the technology available here is much more advanced than what exists in the current era."

"Are you kidding me?" Tang Yuan exclaimed with a ridiculous look, and she found it hard to believe that someone has the ability to travel through time.

Since she felt dizzy explaining everything to her paternal aunt, Tang Yin asked Xiao Ai to take them directly to the laboratory so Tang Yuan could see for herself, and she also wanted to help her improve her body strength.

After all, Tang Yuan had taken care of them so well after their parents died, and she loved them very much, so Tang Yin couldn't possibly leave her aunt behind.

When they arrived there, Tang Yin asked her aunt to strip naked and lie down in one of the capsules. Even though she still had difficulty digesting all the facts in front of her, Tang Yuan still followed her niece's wishes, and Xiao Ai explained to her about the process she would go through soon.

"Have you and Xiao'er gone through this process before, Yin'er?"

Tang Yin nodded to her. "We've been through the process before, but the one Xiao'er goes through is much more complicated, and your body will become much stronger than before after you go through it."

"All right."

Thereafter, Xiao Ai directly gave Tang Yuan anesthesia and began the process of strengthening her body.

Meanwhile, Tang Yin walked toward another monitor and watched the CCTV from a house, which was none other than the house of one of her maternal aunts, and an unusual smile spread across her face.

- To Be Continued -

Chapter 24: Ran Family

"What happened to you, husband? Why is your expression so serious?" Zhao Yixuan was already in her mid-forties, and her oval face was devoid of make-up; her face looked younger than women of her age, and an aura of maturity emanated from her.

Zhao Yuxian's wavy and long light-brown hair is let loose behind her back; her wide eyes look attractive with black pupils; and her heart-shaped lips look sensual. Despite her status as a mother, her body is still well maintained, and her red dress accentuates large breasts, which have yet to sag; even her buttocks still look supple.

With an ugly look, Ran Linfeng handed several reports to Zhao Yixuan, and he also explained everything to her. "Read them first."

Zhao Yixuan read every word on the pages carefully, but her expression was completely shocked after she read everything. "How could this happen? How could our wealth disappear so much overnight? Have you asked the bank or others about this matter?"

"I've asked them, but they found no trace of the transfer from our account to someone else's account, and everything seemed to have disappeared just like that." Zhou Yixuan turned to Ran Linfeng with a frown. "The bank would investigate this matter, but they couldn't possibly do it in a short time. The number of their customers was too large, and they had to examine their database one by one."

Zhao Yixuan was naturally aware of the problem, but they couldn't do anything other than wait for the results of the investigation from the bank.

Ran Linfeng then spoke to her again. "We will face serious problems soon because we have to pay various loans, and our current money won't be enough to pay them. Sooner or later, the debt collectors will come after us, so we have to think of a way to settle this matter as quickly as possible."

"Hmm?" Zhao Yixuan thought for a moment. "Have you asked Ouyang Hong to help us solve this problem?"

"Not yet." Ran Linfeng shook his head before explaining. "Ouyang Hong is abroad now, and he is busy with several company officials there; therefore, I can't disturb him for now."

Zhao Yixuan nodded in understanding before taking her smartphone to contact several people, but no one was willing to help her, causing her to sigh in disappointment.

"How is the result?" Ran Linfeng asked with hope.

Zhao Yixuan sighed heavily and shook his head. "I contacted Xiang Ning and Yao Wenhua, but they wouldn't help us. Actually, I thought about contacting Meng Xin, but she needed Yao Wei's approval. He's too stingy, so I'm sure he won't help us."

"That's true." Ran Linfeng then leaned back in his chair. "Meng Xin is Yao Wei's second wife, but she controls everything, so she doesn't have the authority to make decisions."

"Meng Xin was a good woman, but she had to suffer after marrying Yao Wei, and he told her that he didn't want to have children with her." Ran Linfeng nodded in agreement with that, as he already knew about it, and Zhao Yixuan spoke to him again. "Yao Shao

persistently harassed and mistreated her, yet he turned a blind eye to his son's behavior towards her."

"Forget it; that is their private matter, and we don't need to interfere with their lives." Ran Linfeng then asked her. "Where are Qingfeng and our daughters?"

"Qingfeng is hanging out with Ouyang Ming and the others as usual." Zhao Yixuan then looked for a photo on her smartphone before showing it to her husband. "I miss Xue and Yue so much, but they are enjoying their vacation now, and they will be back next week."

After he saw that, Ran Linfeng immediately got up and walked out. "I will go see Yang Kang now, and I hope he is willing to help me solve our problems."

After her husband left, Zhao Yixuan called someone to ask about something. The person's response surprised her, prompting her to end the call and exhale in relief. "I'm glad that Tang Yin has woken up from her coma, and she's been discharged from the hospital. Unfortunately, she's been in a coma for seven years, and she'll have a difficult time adapting to everything again, but I hope she'll be fine."

.

.

.

After dropping Yi An off at an office building, Tang Xiao drove straight to the parking area. However, Su Rou didn't join her, and she decided to follow him there.

"What do you want from me? Why don't you go with her?" Tang Xiao questioned her after parking the car.

Su Rou turned to him with a pleading expression. "I don't know how you got my videos with them, but I hope you don't send them to Mrs. Yi, especially my videos with Ouyang Hong. If you send them to her, she will kick me out of Yi House, and she will send me to women's prison."

"Haha." Tang Xiao laughed and lifted her chin. "Weren't you previously confident that she wouldn't do anything to you? Why are you so afraid now? Are you so afraid of falling into poverty like me? Since you dare to do such things behind her, you must be prepared to bear the consequences, right?"

"No!" Su Rou grabbed his hand, and tears began to flow from her eyes. "Please... I'm begging you... please... don't hand over those two videos to her... I... I'll do anything for you as long as you keep my secret from her."

"If you're considering using your body to bribe me, you should forget it. I'm not interested in a woman who belongs to the streets like you." Tang Xiao pulled his hand from her grip. "I will give you a chance, and I will not hand over those two videos or your other videos to her as long as you can help me with some things. If you betray me and report this matter to other people, I will share your videos not only with her but also with the public. I'm sure all the men will enjoy watching your body, and your videos will ruin the lives of all the men who had sex with you."

Ru Rou's face turned deathly pale after hearing that, and her tears flowed even harder. "Please... tell me... what... what should I do for you so that you don't spread my videos?"

"First, I want you to monitor Yi An and report all her activities to me, including the people she meets every day." Ru Rou was shocked by Tang Xiao's request, but she immediately nodded her head firmly. "Second, I want you to help me with Ouyang Qing, but you don't need to do it openly."

Su Rou felt confused by that. "What... what should I do about Ouyang Qing?"

"Ouyang Qing and Wen Tian's relationship has never been good, right?" Su Rou nodded to Tang Xiao. "Since you've had relationships with many senior men like Ouyang Hong, I'm sure you won't have any trouble seducing her boyfriend, right?"

"I... I once tried to seduce Wen Tian, but he blatantly rejected me. He threatened to report me to Ouyang Qing, so I never did it again." Tang Xiao was surprised to hear that, and Su Rou immediately explained it to him. "In fact, he never loved her, and he became her boyfriend because Ouyang Hong threatened his father. Instead, he loved Tang Yin, but she rejected him a few times, which made Ouyang Qing jealous. She even asked her brother to do something to that woman, and she decided to commit suicide by jumping from the third floor."

Even though he already knew all that, Tang Xiao was still furious after Su Rou said all that. He quickly calmed himself down and spoke to her again. "You don't need to seduce Wen Tian to sleep with you; instead, you can do something else, like kissing him in front of Ouyang Qing. However, you must act naturally and pretend not to see her, which will make her feel frustrated and heartbroken. Can you do that?"

"Actually, I did that before, and Ouyang Qing was furious with me. However, Mrs. Yi protected me because she needed me so badly, forcing her to give in." Tang Xiao nodded slightly at Su Rou, who then asked him. "What exactly do you want from her? Why do you want to break her heart?"

"You don't need to ask much about my goals." Tang Xiao wandered out of the car. "You should go to Mrs. Yi now and report everything to me later. If you succeed in helping me with my plan, I will make your life better, and I won't bother you again at that time."

Su Rou was curious about why Tang Xiao wanted to do all that to Yi An and Ouyang Qing, but she decided not to ask him further questions because she was afraid that he might spread her videos publicly. She hurriedly wiped her tears and rearranged her makeup before leaving the car, leaving him behind.

Tang Xiao exhaled softly and leaned back against the car seat, thinking about some things. 'Xiao Ai, what are you and Big Sis doing now? What about Yu Xiaoling?'

[My mistress is monitoring the Ran family, and she seems to have a plan for them. As for Yu Xiaoling, I've taught her how to operate all the devices in the small factory, and she's making some sample products now.] Before Tang Xiao could interrupt her, Xiao Ai hurriedly continued. [Master, my mistress brought your paternal aunt into the ark, and she is undergoing the process of strengthening her body.]

Tang Xiao was naturally happy if Tang Yuan could become stronger, and she could help them take revenge on their enemies. 'Sigh, I have to meet my master to confirm whether she is also a cultivator like us or not, and I will take her into the ark if it is true. This way, we will have more allies to fight them.'

Chapter 25: Tang Yin - Tang Yuan

Since Yi An has had a long meeting, Tang Xiao decides to look for some techniques in Xiao Ai's database, particularly sex techniques. He has never had a girlfriend in the past, and he also previously spent seven years in prison, so his experience with sex is almost nonexistent.

Although he hadn't decided to become a dual cultivator, Tang Xiao felt the need to learn about sex, especially with his almost nonexistent experience.

However, Xiao Ai suddenly sent three things into his mind, startling him. [Haha! The sex textbook is suitable for an inexperienced man like you, Master.]

"Cough... Cough..." Tang Xiao choked when he heard that. "I know I'm an inexperienced man, but you don't need to say it out loud, right?"

[Hahaha.] Xiao Ai laughed out loud. [Master, there's a lot of sex knowledge in that book, such as sensitive parts of a woman's body, how to have sex properly, sex styles, and much more.]

"Alright, I'll read it first, and you have to help my big sis with her plans." Tang Xiao then read the sex textbook in his mind. "Being a cultivator is convenient, and I don't need to carry around such a thing; otherwise, people will laugh at me if I read such a book in public."

One technique Xiao Ai had just imparted caught Tang Xiao's interest. "Pleasure touch?"

[The pleasure touch technique has three levels: normal, intermediate, and advanced. Furthermore, he could apply it across his entire body, not just his fingers. Even so, the effect depends on the sensitivity of each woman's body, as some women have low sensitivity.]

"This technique is pretty good! I can see sensitive spots on a woman's body using my true eyes, and I can use this to stimulate them even more." Tang Xiao swiftly learned the pleasure touch technique, and he read several other techniques afterwards. "Heart-Seizing Technique? Isn't this a kind of charm technique? Why did you give this technique to me, Xiao Ai?"

[What else? You've never had a girlfriend, and you're inexperienced with women. Therefore, I gave that technique to you, and you can use it to seduce any mortal woman. However, this technique will not necessarily work on female cultivators, especially those with high mental strength and soul power.]

Xiao Ai's answer made Tang Xiao speechless, and he immediately read the technique.

[The Heart-Seizing Technique directly targets the heart and soul of its victim. With a single glance, whisper, or touch, the user can invade the opponent's emotional core. The target's heart wavers, flooding with uncontrollable yearning and confusion, the victim sinking deeper into corruption with every interaction.]

"Hmm?" Tang Xiao thought while rubbing his chin, but he eventually decided to learn the technique, even though he didn't have the mind to use it yet.

After successfully mastering the Heart-Seizing technique and the third technique, Tang Xiao began manual cultivation. Even though the Everflowing Qi Method enabled his body to absorb Qi continuously, including during sleep, he still needed to cultivate manually to accelerate his progress.

.
. .
.

Above the flying car, Tang Yuan was lost in thought; having been a cultivator for a long time, she could feel the significant changes in her body after Xiao Ai had strengthened it.

Tang Yin smiled at her paternal aunt's reaction. "How do you feel, Aunt Yuan?"

"I feel great." Tang Yuan then raised her hands and clenched her fists. "The previous process doesn't have a direct impact on my cultivation, but I can feel that my body has become several times stronger than before, and my raw strength should also increase significantly. Unfortunately, this isn't enough to fight that man, and I still need to increase my strength to face him."

Tang Yin's expression turned serious after she heard that, and she naturally knew about the man Tang Yuan was referring to. "Aunt Yuan, who exactly is that man? Why is he protecting the Ouyang family?"

Tang Yuan sighed heavily before telling her niece. "Long Yin is the strongest cultivator on earth, and his cultivation has already reached the Peak Tyrant level, so no one can fight against him."

"Long Yin is truly powerful, huh?" Tang Yin was truly shocked that his cultivation had almost reached the highest level. "Are my grandpa and Aunt Lingyan also cultivators like us? Can't they fight against him by joining forces?"

"They won't be able to win against Long Yin." Tang Yuan replied while shaking her head. "Your grandfather's cultivation is at the Peak Emperor level, and Big Sis Lingyan's cultivation is at the Upper Emperor level. Since you have only been a cultivator for a day, and no one has guided you, you still don't know the difference in strength of each level."

"I know that there are 7 cultivation levels, but I still don't know their differences, so please explain it to me."

Tang Yuan then told her. "From beginner to foundation level, the difference between each level is not that big, about 10%. Once you break through to the Xiantian level, you will be two times stronger than foundation cultivators, especially after you form your cultivation soul, and each minor level will increase your strength by 20%. You will become even stronger once you reach the King level, and each minor level will increase your strength by 30%. As for the Emperor Realm, each minor level will increase your strength by 40%."

"Then, what about the strength of the Tyrant and Saint Realms?"

Tang Yuan let out a soft breath before answering her. "The Tyrant level is the turning point of cultivation, and cultivators at that level will be two times stronger than the Emperor level, and each minor level will boost your strength by 50%. Thus, your grandfather and Big Sis Lingyan won't be able to win against him, as the difference between the Tyrant and Emperor levels is too high. No cultivator has reached the Saint Realm before, so no one knows the strength of cultivators at that stage. Even Long Yin had not been successful in doing so, and he had repeatedly failed to break through. He almost died once, but the Ouyang Family's ancestor saved him when he had failed for the first time."

"Does that mean the ancestor of the Ouyang family was a cultivator?"

"In the past, the ancestor of the Ouyang family was a cultivator, and he was an expert healer, but he did not live long because he died of incurable disease and old age." Tang Yin looked at Tang Yuan in surprise because she believed that cultivators should not experience such things, but she was mistaken. "Although cultivators can use various methods to heal injuries, we remain susceptible to disease, so there is no need for surprises. After his death, his family never produced any more cultivators, so they live here now. Regardless, our life span will increase as our cultivation increases, but it will reach its limit if we fail to advance to the next stage."

Xiao Ai immediately spoke to Tang Yin. "Mistress, you don't need to worry about any disease, and all the medical technology in this place can cure everything, including cancer."

"En." Tang Yin certainly didn't doubt Xiao Ai's words, as she herself had learned everything available in the ark.

Tang Yuan suddenly took out a book and handed it to Tang Yin, surprising her. "Do you really love Xiao'er as a man, Yin'er?"

"I—" Tang Yin felt confused about how to answer her aunt.

Tang Yuan released a soft sigh and patted her head. "After you fell into a coma seven years ago, I intended to clean your room. I accidentally dropped this diary, and the painting on the cover made me curious. Therefore, I decided to read it, and I was shocked to read that you only wrote about Xiao'er in this book, including your feelings for him. I tried to remember your relationship with him, and I realized you both have real feelings for each other."

"We love each other, Aunt." Tang Yin chose to admit the truth. "Honestly, I never knew Xiao'er's feelings for me, and I never told him about my feelings for him either. We discovered each other's feelings only yesterday, but we haven't considered taking our relationship to that level yet. We were afraid that you, Aunt Qing, and our grandpa would be disappointed with us."

Tang Yuan nodded slightly. "Naturally, we would be disappointed if the two of you were in such a relationship, so I hope you two are willing to suppress your feelings."

"Aunt—"

"Here." Xiao Ai immediately handed the device to Tang Yuan. "You can read its contents, which are the results of the DNA test between the three of you."

Tang Yuan turned to her in confusion. "Why did you do a DNA test on the three of us? Their father is my big brother, and I witnessed both of their births."

"Try reading it first." Xiao Ai urged her.

"Alright." Tang Yuan began to read the DNA test results between the three of them, but his hands began to tremble, and his eyes widened in shock. "What the hell is this? Why does this test say that Xiao'er is not my nephew? I saw with my own eyes when my sister-in-law gave birth to him, so the results of this test are completely wrong."

"There's nothing wrong with the results." Tang Yuan frowned at Xiao Ai. "My master almost died before, and my old master intended to pass on some things to him. However, his body was a mortal body, and he would not survive if he received all of my old master's inheritance with his current body. Therefore, I reconstructed his body, and I also rearranged his DNA to strengthen him. The current him is still your nephew physically, but he is also not your nephew."

Tang Yin then spoke to her aunt. "Aunt, Xiao'er's blood has also changed now, and his blood is no longer red like ours but violet-gold."

- To Be Continued -

Chapter 26: Explain To Tang Yuan

"Violet-gold? How could Xiao'er's blood turn violet-gold?" Tang Yuan asked in disbelief.

Xiao Ai changed the display on the device in Tang Yuan's hand, showing the bloodline transfer process from the old Tang Xiao to the current Tang Xiao. "The Celestial bloodline belongs to the Ancient Celestial Clan, and my late master obtained it from an ancient ruin belonging to that clan. Before getting their bloodline, he had already awakened the Celestial Physique first, and the bloodline made him complete."

"So, your late master became part of the Celestial Clan afterwards, right?"

"You can say it like that." Xiao Ai then displays Tang Xiao's data. "My current master also awakened the Celestial Physique, and he inherited the Celestial Bloodline from my late master. As you can see, he is no longer classified as an ordinary human; instead, he belongs to a celestial race, which is considered superior to ordinary humans. Physically, he is still your nephew, but he is no longer the same."

"Did Xiao'er really awaken the Celestial Physique like your late master?" Tang Yuan found it hard to believe.

'My late master and my current master are the same person, you know?' Xiao Ai kept her thoughts to herself. "My master not only awakened the Celestial Physique, but he also awakened the War God Physique."

Tang Yuan had a headache trying to digest all the information. "What is the Celestial Physique?"

"The Celestial Physique is the supreme constitution born from the fusion of mortal flesh and heavenly essence. Those who possess it are considered the favored sons and daughters of the heavens, and their talents in cultivation are several levels above others. Their bodies are naturally refined, making them ten times stronger than ordinary humans. Their Qi circulation is extremely smooth, and they can break through without encountering bottlenecks. Their meridians expand with each breakthrough, capable of accommodating a large amount of pure Qi without collapsing. Their lifespans are ten times longer than ordinary humans."

Tang Yuan fell into a daze after hearing all that, and he thought that the Celestial Physique was too overpowered. "Then, what about the War God Physique?"

"Haha." Xiao Ai giggled before explaining. "The War God Physique is the embodiment of unyielding battle will and peerless martial dominance. Those who are born with it are destined to tread the path of conquest, feared as natural-born warlords who excel in endless combat. Their physique becomes as strong as steel, and their muscles carry boundless strength. Even without cultivation, their strength is equivalent to that of an ancient war god. Their presence alone could instill fear, suppress, and mentally destroy their enemies. In battle, their aura manifested as a phantom war god behind them."

Tang Yuan took a deep breath. "How strong is Xiao'er's physical strength compared to ordinary humans?"

"His strength is unmeasurable, and his physical strength will continue to increase as his cultivation improves." Xiao Ai thought for a moment, calculating a few things. "Given my master's current level of cultivation, he can easily defeat Xiantian-level cultivators in a physical strength contest. If he fights an ordinary human, his opponent will die in one blow, and his opponent's body will be destroyed if he does not control his strength."

"Insane!" Tang Yuan let out a soft cry. "Xiao'er became that strong after he became a cultivator! If he successfully reaches Long Yin's level, he will be unrivaled on earth!"

Xiao Ai shook her head. "Aunt Yuan, this Earth is just a small planet in the lower realms, and to be unrivaled here is a trivial matter for my master."

"Lower realms?" Xiao Ai displays some information on the device, asking Tang Yuan to read it herself. "Lower, Middle, Upper, and Supreme Realms."

"Yes." Xiao Ai nodded at her. "My late master began his cultivation journey from the lower realms, and he built his strength step by step. He had great luck, including when he discovered this Primordial Divine Ark. The results did not betray his hard work, and he ultimately succeeded in reaching the pinnacle of the cultivation world. All cultivators respected him, both opponents and friends, and he became the guardian of this universe."

Not only was Tang Yuan shocked after listening to Xiao Ai, but Tang Yin was no less shocked by it. "If your master was the guardian of this universe and has reached the pinnacle of the cultivation world, why did he decide to return to the past? Why did he choose to sacrifice himself for Xiao'er?"

"Aunt Yuan, I can't explain too much for now." Tang Yin and Tang Yuan frowned at Xiao Ai. "However, I can tell you two that a terrifying creature will appear in this universe one day in the future, and it is extremely powerful."

Tang Yin then spoke. "If you put it that way, it means your late master decided to go back in time to change history, right?"

"More or less."

"Why did he choose Xiao'er?"

"My late master knew that my master had the Celestial Physique, and he chose him as his successor." Xiao Ai then took the device from Tang Yuan. "Let's not discuss this further because all the information I give you will affect the past. If the past changes too much, we won't be able to predict what will happen in the future."

Tang Yin immediately remembered something. "Xiao Ai, your late master saved me after I jumped off the building, right?"

"Yes." Xiao Ai admitted it.

"Did you two arrive here before my parents died?"

Xiao Ai chose to lie to Tang Yin. "Mistress, your parents were already dead when we arrived in this era."

"I see." Tang Yin sighed softly.

Tang Yuan rubbed her head directly. "Yin'er, your parents died a long time ago, remember? Just like you, I still feel sad about their deaths, but we can't change that. For now, all we can do is keep moving forward and work hard to become strong, and together, we will avenge their deaths. All of Xiao'er's advantages combined with all the technology in this ark, I'm sure we will succeed in getting rid of them all, and your parents will be able to rest in peace in the afterlife."

"I know, Aunt Yuan." A glimmer of hatred and cruelty flashed across Tang Yin's eyes. "No matter our enemies, Xiao'er and I will destroy them all. Zhao Yuxian and Ran Linfeng are traitors who handed over my parents to those bastards because of their greed, so we will start our revenge action starting with them."

Tang Yuan nodded in agreement. "My big brother has helped them a lot, and my sister-in-law has always treated them well. Unfortunately, greed blinded their eyes and conscience, and they chose to betray them because of their greed."

"Let's go somewhere else."

.

.

.

Soon, they arrived at the small factory, but Tang Yuan was a little surprised by Yu Xiaolong's presence there. However, she couldn't recognize the female teacher because Xiao Ai had changed her face.

Tang Yin immediately explained to her aunt about Yu Xiaoling, which shocked Tang Yuan. She had heard news of her death yesterday, but it turned out she was still alive inside the ark.

Tang Yuan did not feel sorry for Yu Xiaoling because she had betrayed her nephew's trust in her, and Tang Xiao had to spend seven years in the cold of prison. Additionally, he almost died in the ravine, and he would have truly died if Xiao Ai and her late master had not saved him.

Despite this, Tang Yuan also thanked Yu Xiaoling because her actions in the past had brought significant changes to their lives, especially Tang Yin and Tang Xiao. Back then, she didn't have the confidence to take revenge for the death of her big brother and sister-in-law, but now she believes that they can do it.

Yu Xiaoling was also surprised by Tang Yuan's arrival, but she said nothing and kept her face down.

Tang Yin explained her plans for the product samples to her aunt, and Tang Yuan fully supported them. "I don't know about business, so I can't help you with that. Instead, you should go see Zhao Qing, and she will be able to help you handle everything. So, where do you get the capital to set up your business?"

"Haha." Tang Yin laughed softly as she pointed at Xiao Ai. "She is too overpowered, and she has connected her system to all the systems in this world. Therefore, I asked her to transfer three-quarters of Ran Linfeng's wealth to my account."

"Hmm?" Tang Yuan frowned after hearing that. "Won't it be a problem if the bank tracks her actions?"

"Aunt Yuan, the systems in this world are too outdated; therefore, no one will be able to track my actions." Xiao Ai answered her.

Tang Yuan massaged her head after she heard that, as she still felt that Xiao Ai's presence and all that technology were too absurd, but all the evidence was already before her eyes. "Even so, everything isn't perfect, right?"

"Yes." Xiao Ai nodded to her. "In fact, all the technology inside the ark would be useless if they lived in a world without it, but it doesn't matter, and I can still do many things to help them."

Tang Yin herself had also realized that they couldn't continue to depend on Xiao Ai and all that technology forever, so she had already designed several other plans for them. However, she couldn't do anything anytime soon because their cultivation was still low, and she could only do it one step at a time.

After they looked around all the areas inside the ark, Xiao Ai brought them out, except for Yu Xiaoling. She and Tang Yin went straight to see Zhao Qing, and Tang Yuan went to see the client.

- To Be Continued -

Chapter 27: Tang Yin - Zhao Qing

A middle-aged woman with short, light-brown hair in her early forties is having a serious conversation with someone on her cell phone, but her expression shows that she is restless, and she repeatedly bites her lip. Big glasses cover her slanted black eyes, and pink lipstick covers her soft lips, giving her face a beautiful yet serious appearance. Despite her short stature and being slightly chubby, she presents an alluring appearance in a white shirt paired with long jeans. Her DD-cup breasts appear flawlessly round, but her most alluring feature is her long and smooth neck.

"Sigh!" The woman sighed in exasperation after ending their conversation before leaning back in her chair, and she stared up at the ceiling while muttering. "What should I do now? Those people are pressuring this company continuously; even our sales have been steadily declining since my brother-in-law and big sister died, and this company will go bankrupt soon."

The woman then closed her eyes and massaged her head, especially as her problems were too complicated, and she even had difficulty sleeping peacefully every night.

****Knock... Knock...****

"Come in." The woman said this as she continued to massage her head.

Soon, two people entered the room. "What are you thinking about, Aunt Qing? Are you facing a serious problem?"

"Yin'er?" Zhao Qing asked as she suddenly stood up, and she ran to her niece before grabbing Tang Yin's shoulders. "Is it really you? How did you recover so suddenly?"

"Ha ha." Tang Yin laughed softly and hugged her maternal aunt. "It's really me, Aunt Qing."

"I'm glad you've recovered, Yin'er." Zhao Qing said that while hugging her niece back, joyful tears flowed from the corners of her eyes, but she suddenly thought of her nephew. "But... Xiao'er..."

"Aunt Qin, you don't need to worry about Xiao'er, okay? Just like me, Xiao'er has returned safely without the slightest injury." Tang Yin said with a broad smile.

Hearing that, Zhao Qing released Tang Yin from her arms. "Really? Is it true that Xiao'er has returned safely? Why didn't Tang Yuan tell me about the two of you?"

"Aunt Yuan is busy with her clients, so she probably hasn't had time to tell you." Tang Yin then took Zhao Qing to sit beside her on the sofa. "As for Xiao'er, he's currently infiltrating the Ouyang family house by working as Yi An's chauffeur, so he hasn't come to see you yet."

Zhao Qing's expression turned furious after she heard that. "Is Xiao'er insane? Why did he infiltrate those bastard houses by himself? What if something bad happened to him? I was truly sad and depressed after Tang Yuan told me that he fell into that ravine, and it must be a miracle that he was able to survive, but he's actually entered the lion's den now."

Tang Yin sighed in her heart, but she could understand Zhao Qing's worry. She tried to reassure her. "Xiao'er has changed now, and he has become much stronger to protect himself, so you really don't need to worry about him like this."

"But—"

"Trust me, he will be fine at the Ouyang house." Tang Yin then changed their conversation. "Anyway, I want to sell this company, Aunt Qing."

Zhao Qing fell silent for a long time upon hearing that, but her eyes focused on her niece as she continued to blink. Tang Yin waved her hand in front of her face, bringing her back to her senses. "What the hell did you say just now? Why did you want to sell this company? This is your father's last legacy, remember? I won't let you sell this company, and I will try harder to save it from bankruptcy."

"I've been asleep for seven years, but I know this company is dying, Aunt Qing. No matter how hard you try to save it, it's only a matter of time before it goes bankrupt because those people keep pressuring this company." Tang Yin then took three bottles from her bag and placed them in front of her aunt, prompting Zhao Qing to take one and examine it. "Honestly, I feel bad about selling this company, but I think my choice is the best solution for us. After that, I'll start all over again by establishing a new company, and these three products will be my company's mainstay. Therefore, I hope you can understand my decision, and I want you to help me with my company."

The three items are beauty products that Tang Yin created using technology in the primordial divine ark, and since they are from another realm, their qualities are far superior to those of similar items on earth.

Although the materials used were almost no different from those on earth, the manufacture was somewhat more complicated. However, the much more modern equipment in the ark made the manufacturing process much easier, and she also had Xiao Ai, who always helped her wholeheartedly.

Before answering Tang Yin, Zhao Qing first checked the three products one by one, and her eyes kept shaking every time she looked at them. Before long, she looked at her niece with an unusual expression and suspiciously asked. "Where do you get these products?"

Zhao Qing was naturally suspicious because Tang Yin's condition had been very bad in the past seven years, but she suddenly came back with three products that she thought were of super quality, and she also seemed to know the company's problems clearly.

"You don't need to be suspicious of me like this, Aunt Qing. At least I'm back and healthy, and I'm much better than seven years ago." Tang Yin sighed helplessly, seeing her maternal aunt's expression. However, Zhao Qing was always like that since she and Tang Xiao were little, so she wasn't too surprised by his attitude. "By the way, I got these three products from my friend, and he will provide them for me. Besides, we won't sell them to anyone else, and we will sell them exclusively to my company."

"Your friend?" Zhao Ying became increasingly suspicious because Tang Yin didn't have many friends before she fell into a coma, and the last seven years were not a short time. She then turned towards Xiao Ai, who was leisurely sitting beside her niece. "Who is this little girl?"

"Hehe, I forgot to introduce her to you." Tang Yin chuckled while rubbing the little girl's head. "Her name is Xiao Ai, and she is my friend's younger sister. Although she is still small now, she is a genius, and these three products are her creations, so let her explain their benefits to you."

Zhao Qing was stunned by Tang Yin's answer, and she looked at Xiao Ai, who was smiling sweetly at her, but she found it hard to believe that a little girl around ten years old like her could create such products.

"Aunt Qing, these three products are my own creations." Xiao Ai then explained to Zhao Qing the ingredients and benefits of the three products.

Zhao Qing was even more dumbfounded after listening to Xiao Ai's explanation, as she explained everything smoothly and confidently like an adult who had a lot of experience. 'Are the little kids these days as smart as her?'

Xiao Ai felt helpless in her heart because of Zhao Qing's reaction. "Aunt Qing, I dare to guarantee that these products will sell well on the market, and I will also add several other products later, but we will start with these three first."

Zhao Qing nodded in understanding and did not doubt Xiao Ai's words, as she could see the qualities of the three. However, her heart felt heavy about selling the company that her big sister and brother-in-law had worked so diligently to build. "What exactly are your plans with your new company, Yin'er?"

"Aunt Qing, those people will not stop pressuring us if we continue to use this company. Therefore, I want to set up a new company with a different name and operate in a different field, and I will use it to destroy them." Zhao Qing understood that, but she still had many doubts about her niece's plans. She didn't interrupt Tang Yin and let her continue her explanation. "For now, we just need to set up a small company so those people won't be suspicious of us. That's why I want to buy two buildings, one for our office and one for a retail store to sell these products. Since online commerce is more popular now, I will open an online shop to market them."

Zhao Qing agreed with her niece, as setting up a large company and a shop directly would not be profitable for them, and online commerce was much more popular recently. "Then?"

"For starters, we need at least five people, and both of us will be directly involved in the company. Three people will help us manage the online store, and two other people will take care of packaging and shipping." In fact, Tang Yin also had several other plans, but she didn't want to rush them all, or things would become messy. "Apart from that, we also need someone to be an ambassador for our products, and that person must be a woman because our products are beauty products."

"Since the two of us will handle everything directly, five people should be sufficient to launch our new business in the online market. We will look for workers in our retail stores through advertisements, and we will select them later." Zhao Qing searched through her memory for someone who would be the most suitable ambassador for their product. "As for the woman who will be our star, I think I already have an idea, but I need to contact her and discuss this with her first."

Tang Yin nodded at her. "I'll leave that person to you, but I only want to recruit female employees, and they have to be pretty and lively."

"Hmm?" Zhao Qing frowned after hearing that. "Why do they have to be women?"

"Have you forgotten what happened to me back then, Aunt Qing? Even though I've forgotten about it, I'm still being uncomfortable around strange men; therefore, I only want some female employees to help us. Xiao Ai will take care of the company's website and other things later, so you don't have to think about them." Tang Yin handed Zhao Qing an ATM card. "There's five hundred million yuan in it, so you can use it to buy two buildings, and the rest will be our initial capital."

"Five hundred million yuan? How did you earn that much money?" Zhao Qing asked with wide eyes, and Tang Yin's feat made her even more suspicious. Moreover, she felt that her niece had become completely different from seven years ago, and her character was much more mature than women of her age, plus she had even planned everything out in great detail.

Tang Yin felt confused about telling Zhao Qing that she ordered Xiao Ai to rob the Ran family of their wealth because she was different from Tang Yuan, and she was sure that her maternal aunt would find it difficult to believe her words, especially regarding all the technology and the primordial divine ark. "Aunt Qing, I will explain everything to you later, and we must start my plan immediately, as I can't wait to destroy those bastards who killed my parents and destroyed our family."

"Okay, I'll carry out all your plans immediately," Zhao Ying replied, nodding in agreement. "However, I won't sell this company because it's your parents' inheritance."

Tang Yin let out a heavy sigh and lifted Xiao Ai to her feet. "In that case, I will wait for news from you, Aunt Qing."

Chapter 28: The Women Who Framed Him

The sun was almost setting when they returned to Ouyang House, but Tang Xiao's expression turned sinister as he drove the car into the house. His eyes kept glancing at the three women who were chatting on the garden bench.

They were three of the five women who framed him in the past, which cost him seven years in prison. 'Ouyang Qing, Jessica Lie, and Luo Qinglin! I've finally met you guys! You should be prepared to suffer retribution for your past actions.'

After he dropped Yi An and Su Rou off in front of the main building, Tang Xiao parked the car in the garage before walking towards his room. As he walked through the

garden, his expression grew increasingly angry because the three women were talking about him and Tang Yin.

"Hey, Qing! Is it true that Tang Xiao died in prison?" Luo Qinglin curiously asked.

Unlike Luo Qinlin, Jessica Lie was struggling with guilt over their actions from seven years ago. "Tell us, Qing. Is it true that Tang Xiao is dead now?"

"I heard the news from the warden that Tang Xiao was beaten by several prisoners, and he fell into a ravine as a result of their fight." Ouyang Qing answered in a nonchalant tone, as she was thrilled about the news, but she did not tell them the truth. "That place was deep and dark, so there was no way he could survive, and such a place was suitable for trash like him to die."

"You're right! Trash like him deserves to die in that place." Luo Qinlin suddenly laughed after she remembered the events of that night. "Hahaha! At least, I already had fun with him once, so I won't regret his death."

Hearing their conversation, Jessica Lie clenched her fists tightly, and her heart ached after hearing of Tang Xiao's death. 'I'm sorry; I didn't expect that you would die in a place like that.'

"Haha! You were completely crazy that night, Qinlin!" Ouyang Qing spoke as she laughed heartily. "If I think about it again, Tang Xiao will regret it in the afterlife if he finds out that you have done such a thing to him."

Luo Qinlin shrugged indifferently. "Whatever, Tang Xiao is dead, so we don't need to talk about him anymore."

"By the way, I heard that Tang Yin has woken up from her coma, and she has been discharged from the hospital." The two women looked at Ouyang Qing in surprise, but her expression became ugly. "Since she managed to survive, I have to think of another way to get rid of her as quickly as possible. Otherwise, Wen Tian will find out about this matter and go to see her, and I don't want them to meet again."

Jessica Lie and Luo Qinlin remained silent about the situation, knowing that Ouyang Qing was infatuated with Wen Tian, but he consistently rejected her due to his feelings for Tang Yin.

Unfortunately, Tang Yin was never willing to accept Wen Tian, and Ouyang Qing asked Ouyang Ming to do something bad to her. As a result, she jumped from the third floor and fell into a coma for seven years.

Tang Xiao's anger boiled after he listened to their conversation, and he hurriedly returned to his room. 'That bitch! You can feel happy now, but my revenge on you will come soon, and I will make you experience hell on earth!'

The three women turned to Tang Xiao, who had left in a hurry, and then Luo Qinlin asked a question. "Who is he, Qing? Why is a man as handsome as him wearing a chauffeur's outfit? Does he work for your mother?"

However, Jessica Lie reacted differently to them, thinking deeply while muttering to herself. 'Who is that man? I'm pretty sure I've never seen him before, but why do I feel familiar with him?'

Ouyang Qing raised an eyebrow before telling them. "He's my mother's new personal chauffeur, who just started work today."

"He's really handsome! Please introduce me to him!" Luo Qinlin spoke as her eyes were glued to Tang Xiao, who kept walking away. Ouyang Qing suddenly smacked her head. "Ouch! Why did you do that?"

"Are your tastes in men that low, Qinlin? I admit that he's handsome, but he's just a chauffeur." Ouyang Qing did not deny that she was also attracted by Tang Xiao's handsome face, but she would never lower herself to have a relationship with a chauffeur.

Luo Qinlin rubbed her head. "Hehe! Even though he's a chauffeur, I would never refuse to sleep with a man as handsome as him."

"What's his name, Qing?"

"You're interested in him too?" Jessica shook her head at Ouyang Qing. "His name is Feng Xiao, and he comes from the countryside."

"Feng Xiao?" For some reason, Jessica was curious about Tang Xiao and stared at the room that he had entered. 'I'll wait for Qing and Qinlin to go to sleep first, and I'll go see him later, or my feelings won't be able to calm down.'

Ring

Luo Qinlin took out her smartphone and read the incoming message, but her expression turned ugly after reading it. She quickly checked a few things before standing up. "I have urgent business, so I have to go now."

"What's wrong with her?" Jessica asked in wonder.

"She's surely looking for one of her boyfriends to have fun." Ouyang Qing then stood up. "Let's go to my room."

"Okay."

After he arrived at his room, Tang Xiao locked the door and entered the ark to meet Tang Yin. He hurriedly returned to their room in the residence area, finding her naked and waiting for him.

Tang Xiao quickly removed his clothes and led Tang Yin to the bathroom, where she helped him in cleaning his body while recounting her previous conversation with their Zhao Qing. "What do you think if I bring Aunt Qing here? She has cultivation veins, so she can become a cultivator like us, and I will ask Xiao Ai to strengthen her body."

"Yes, bring Aunt Qing here, but you have to explain everything to her first; otherwise, she will have difficulty accepting everything." Tang Xiao unhesitatingly agreed. "Just like Aunt Yuan, she has always been kind to us, and she always comforted us when our parents died. Therefore, I want her to become a cultivator, and those people won't be able to harm her."

"I will go see Aunt Qing again tomorrow and bring her here." Tang Yin leaned forward, pressing her breasts against his back. "Xiao'er, Aunt Yuan has read my old diary, and she already knows about our feelings."

Tang Xiao turned his head back. "What does she think about that?"

"She forbade us from having such a relationship, and she said she would be disappointed in us if that happened." Tang Yin's answer didn't surprise Tang Xiao because he knew Tang Yuan's character quite well, and she also worked as a lawyer. "Xiao Ai helped me explain your changes to her, but she didn't say anything and went to see her clients."

"I see." Tang Xiao then grabbed her hands and rubbed them. "The future is still long, so we don't need to rush."

"Yeah." Tang Yin then asked him. "Why don't you accept Su Rou?"

Tang Xiao shook his head slightly. "She's a woman belonging to the streets, so I don't want a relationship with her. However, I will use her to keep a close eye on Yi An, and I'll ask her to do something about Ouyang Qing."

"What are your plans for Ouyang Qing?" Tang Xiao told Tang Yin a few things. "Haha! I like your plan, and I will fully support you. By the way, I have confirmed to Aunt Yuan that our grandfather and Aunt Lingyan are cultivators like us. Their cultivation is at the Peak Emperor level and the Upper Emperor level, respectively."

Tang Xiao was truly shocked after learning about it. "They're both that strong, yet they can't defeat that mysterious person."

"His name is Long Yin, and he owes a debt of gratitude to an ancestor of the Ouyang Family. In return, he vowed to protect the family, and he is much more powerful than our grandfather and Aunt Lingyan." Tang Yin then told Tang Xiao about the man's cultivation level and the differences in strength between each cultivation stage based on Tang Yuan's previous explanation, but he already knew about it because it was all available in Xiao Ai's database. "Since our enemy is the strongest cultivator on earth, we must increase our strength as quickly as possible."

"Let's finish our bath first." Tang Yin nodded at Tang Xiao. "After this, I'm going to the training ground to try out that gravity device. I want to train in a slightly heavier gravity so I can increase my speed."

"Haha." Tang Yin laughed softly. "Since we were little, you've been a training maniac, and it's all because of Aunt Lingyan. Alright then, you can train at the training ground, and I'll go to the factory to prepare some things."

.

.

.

When he arrived at the training ground, Xiao Ai was already waiting there to help him train, but Hun suddenly appeared. "Do you feel better now?"

"Yes, Master." Hun then explained it to Tang Xiao. "Since the Sun Stone has been fused with you, I will also get qi when you cultivate, and your qi makes my condition improve a little, but I can't stay out for too long."

Tang Xiao rubbed his forehead. "How long will it take for you to reshape your body?"

"I don't know for sure, Master. After all, your cultivation is still low, so your qi can't help me too much right now, and I might need tens or hundreds of years before I can reshape my body." Tang Xiao let out a heavy breath, but Hun grabbed his hand. "Master, I don't want my condition to burden you, so you don't need to think about it, okay? Moreover, I almost disappeared before, but I was able to survive because of you, so it's not a problem for me to wait for the right time."

"I know." Tang Xiao then asked her. "How could you touch me? I thought you were a ghost, and ghosts shouldn't be able to touch humans, right?"

"Pft! Hahaha!" Xiao Ai laughed out loud after hearing that.

Hun smiled in amusement. "Master, I may look like a ghost, but I'm different from them."

"Sigh." Tang Xiao sighed with a shake of his head. "I've only been a cultivator for a few days, and I still don't know much about the real world of cultivation, so I have to learn everything gradually. Anyway, go to the side with Xiao Ai, and I'll start my training."

"Master, I will double the gravity in this place, so you must get ready." Xiao Ai hurried to the side and activated the device after receiving a signal from Tang Xiao, which caused him to fall to the floor. "I've been looking for data about Atropos, and I found out about the destruction of your realm, Hun."

"Hmm?" Hun turned to Xiao Ai. "What do you know about it?"

- To Be Continued -

Chapter 29: Meet Jessica

"At that time, those people were looking for the sun stone, right? You and your people were expert smiths and craftsmen, and the stone strengthened the distinctive scarlet flame in your body."

"You're right, those people are after the sun stone." Hun then recounted everything to Xiao Ai with a sorrowful expression. "I don't know the origins of those cultivators, but they suddenly attacked my realm. Additionally, the beast tribes assisted them, with many dragon riders attacking us at that time. We had so much advanced equipment, but our basic strength was weaker than theirs, so we were powerless to repel them."

Xiao Ai wasn't surprised by that; no matter how advanced the equipment they had, they would never win against those powerful cultivators. "Those beast tribes and dragon riders came from the Thousand Beast Realm. Those cultivators came from the supreme realm called the Celestial Paradise, and the one who led them was called the Flame Emperor. He was one of the best alchemists in the universe, so he was after the sunstones to fulfill his ambition of becoming the best."

"Thousand beast realm, the Celestial Paradise, and the Flame Emperor, huh?" Hun muttered to himself in a voice filled with hatred.

Xiao Ai thought for some time before telling Hun something. "I won't go into too much detail, but Atropos is still intact, and your people are still alive."

"Huh?" Hun suddenly turned to Xiao Ai. "What do you mean by that?"

"You will know the truth someday, but I hope you don't say anything to our master about Atropos, at least for now." Xiao Ai didn't want to hide the truth from Tang Xiao, but she believed that if he learned too much about the future, it could lead to serious consequences. After all, the old Tang Xiao's actions had already changed the past

significantly, and she wanted to avoid making things worse. Therefore, she had to be careful when speaking and acting so as not to disturb the order of the universe even more.

Hun, who was once the queen of a realm, could naturally understand what Xiao Ai meant. She didn't inquire further, but deep in her heart, she wanted to prove that the kingdom and its people still existed.

After that, they watched Tang Xiao practice while talking about light things. Hun was quite impressed by his tenacity and seriousness. Even though it was difficult for him to move in double the gravity, he continued to struggle hard to adapt to it, and his expression showed no desire to give up.

After struggling for a few hours, Tang Xiao started to adapt to double the gravity, but he still couldn't adapt completely. He was quite satisfied with his training and decided to rest first, and he would continue later.

"How do you feel, Master?" Xiao Ai and Hun approached Tang Xiao.

"Haha." Tang Xiao laughed before answering her. "I feel great, and I might be able to adapt to double gravity after I train here for another two to three days."

Xiao Ai agreed with that, as she always monitored Tang Xiao's condition through her main chip in her brain. "Once you perfectly adapt to double gravity, your speed will far surpass that of ordinary humans. None of them will be able to see your movements, let alone touch you."

Tang Xiao had never considered ordinary humans because he was already capable of defeating them. "Unfortunately, this is still not enough to face strong cultivators, especially if I want to fight Long Yin in the future. I will continue to improve myself, but I won't do everything in a hurry; otherwise, everything will backfire on me, and I will suffer the consequences myself."

"That's right, Master." Hun joined in speaking to Tang Xiao. "A city can't be built in a day, and neither can your strength. You must take one step at a time, and you must strengthen your basic foundation so that your foundation won't be unstable."

"Yes." Tang Xiao then ordered Xiao Ai to do something. "Yu Xiaoling has wronged me in the past, and I will never forgive her, but her daughter is innocent. Since she is already dead in her eyes, I want you to prepare some things for her so that her future will not be ruined by our actions."

"I will follow your wishes, Master." Xiao Ai immediately left and Hun returned to the Sun Stone.

After cleaning himself up, Tang Xiao returned to their room in the living area, but Tang Yin was already fast asleep. He decided to leave her to rest and returned to the Ouyang House.

.
. .
.

It was already midnight when he came out of the ark, and Tang Xiao decided to rest, but someone suddenly knocked on his bedroom door.

****Knock... Knock...****

'Hmm? Who would come here at this late hour?' Tang Xiao used his true eyes, but his expression was a little surprised to see the woman standing in front of the door. 'I thought it was Su Rou, but I didn't expect it to be Jessica Lie. Why did he come here? I don't need to care about that, right? Since she came to me by herself, I had to think of something about her.'

Tang Xiao opened the door, pretending to be surprised. "Why have you come here at this time of night, Miss? Do you need my help with something?"

"Can I speak with you for a moment, Feng Xiao?" Tang Xiao pretended to be surprised again, but Jessica hastily spoke. "Don't get me wrong, I just wanted to confirm something because I felt something familiar from you."

'Could it be that she recognized my disguise? That's impossible, right? She's not a cultivator, so there's no way she can see through my disguise.' Tang Xiao nodded to her. "Please come in, miss."

Jessica immediately entered the room, but she was shocked because Tang Xiao closed the door. She subconsciously took a few steps back and distanced herself from him. "Why did you close the door?"

"Miss, you certainly don't want other people to see you with a chauffeur like me at midnight like this, right?" Tang Xiao sat on the side of the bed. "So, what do you want to talk to me about, Miss?"

Jessica was relieved by that and sat down in an empty chair. "Have we met before? I feel like I've seen you before, and I feel familiar with you. However, I remember for sure that I have never seen your face before."

"Miss, I came from the countryside, so we shouldn't have met before." Tang Xiao felt strange about Jessica's attitude.

Jessica didn't speak a word and observed Tang Xiao for anything familiar about her, but her heart jolted when she looked into his eyes. 'His eyes... his eyes really resemble Tang Xiao's eyes.'

"Miss? Why are you so silent? Why are you looking at me like that? Is there something wrong with my face?" Tang Xiao asked her again.

"There's nothing wrong with your face." Jessica shook her head. "It's just that I feel like your eyes resemble an old friend of mine."

"Eh? Are my eyes really similar to your old friend's?" In his heart, Tang Xiao was surprised by this.

"Yes." Jessica answered with a nod. "His name is Tang Xiao, and we were good friends when we were in middle school, but it's a shame I heard he passed away."

'She feels familiar with me just because of my eyes?' Tang Xiao muttered in surprise, but he remembered that Jessica did often look into his eyes in the past. "I think you must be mistaken, Miss. As far as I know—"

"No." Jessica then stood up and walked in front of Tang Xiao. She reached his face and looked into his eyes, surprising him a little. "When we were in junior high, I often looked into his eyes. I really liked his eyes because they were clear, so I was familiar with them, and yours truly resemble his."

'She liked my eyes since long ago?' Tang Xiao grabbed Jessica's hands, startling her. She wanted to pull her hands back, but he held them tightly and pressed them against his face. "If you feel my eyes are similar to your deceased friend, you can look at them to relieve your longing, Miss."

Jessica unconsciously shed tears as she looked into Tang Xiao's eyes because her guilt still haunted her, even though seven years had passed. Additionally, he was dead in her eyes, compounding her guilt.

Tang Xiao raised his eyebrows for a moment before wiping Jessica's tears. "Why are you crying, Miss? Did your deceased friend mean a lot to you? Did you like him in the past?"

Jessica didn't answer Tang Xiao's questions, and her gaze was solely focused on his eyes. Her eyes seemed to tremble, and her tears endlessly flowed out of the corners of her eyes.

'Why is she acting like this now?' Tang Xiao inwardly wondered and tried to sit Jessica onto his lap, but to his surprise, she didn't refuse and kept staring at his eyes instead. "Miss."

Seeing Jessica continue to remain silent, Tang Xiao tried to take advantage of her sadness. He hugged her waist and kissed her lips immediately, shocking her.

Jessica pressed her palms against Tang Xiao's chest and tried to push him back, but he hugged her tighter and inserted his tongue into her mouth.

'Ugh! What is he doing? Why did he suddenly kiss me?' Jessica struggled to break free, but Tang Xiao was no longer an ordinary human. Therefore, her strength was useless against him, rendering her helpless.

'Heh! Let's see what you will do after today.' Jessica jumped away as soon as Tang Xiao broke their kiss and loosened his embrace. "Miss, I—"

Without saying anything, Jessica fled from the room while wiping her lips and tears.

"Haha." Tang Xiao immediately closed the door before lying down on his bed. "I'm waiting for you to come to me again, Jess. I can do something to you now, but it won't be fun, and I'll slowly destroy your feelings."

- To Be Continued -

Chapter 30: Another Enemy

Jessica had returned to Ouyang Qing's room and was lying beside her, but her thoughts and feelings couldn't calm down. Tang Xiao's eyes kept appearing in her mind, making her happy, uneasy, and doubtful.

Jessica was happy to find someone with such eyes, but Tang Xiao's eyes also made her uneasy because he was dead. She doubted that two people could have the same eyes, but she was certain that his eyes and Feng Xiao's were exactly alike.

When Jessica recalled her kiss with Tang Xiao, her heart thumped, and she rubbed her lips bewilderedly. For some reason, she felt a sense of joy from their kiss, and she wanted to kiss him again. However, she was no longer a single woman but another man's wife, and they already had a son.

'Why did he kiss me like that? He even inserted his tongue into my mouth! However, I'm sure he has never kissed a woman before, as his kissing was too awkward, like that of an amateur.' Jessica closed her eyes to sleep, but Tang Xiao's face and their kiss kept appearing in her mind, which was due to the effect of his Heart-Seizing Technique and aura. She tried to get them out of her mind, but they kept coming back. 'Ugh! Why do I keep thinking about him and our kiss? If my husband finds out I kissed and thought about another man, he will be heartbroken, so I have to get them out of my mind.'

.

.

In the morning, Tang Xiao received a call from Yi An and hurried to the main house to meet her. He found himself having breakfast with Ouyang Qing, Jessica, and Su Rou.

Jessica's heart was pounding when she saw Tang Xiao, and last night's events increasingly filled her mind, especially their kiss. She was eager to talk to him, but she was afraid that last night's incident would happen again, forcing her to hold herself back.

Tang Xiao gave a faint smirk when he noticed Jessica's glance at him, but Su Rou informed him that Yi An did not have a scheduled outing.

Since Yi An wouldn't be going out on business, Tang Xiao asked for permission to go out, as he wanted to take Tang Yin for a walk after she was in a coma for seven years.

.

.

.

After Yi An agreed, Tang Xiao immediately left the Ouyang House, and he took Tang Yin out of the ark after he was far enough away from the house.

After all, the two of them had been cut off from the outside world for seven years, and Tang Xiao took Tang Yin to go to the hawker area to enjoy various kinds of food.

However, Tang Xiao did not use his true form or Feng Xiao's form; instead, he used another disguise, making Tang Yin laugh all the time.

"How did you feel when you kissed Jessica last night? Did you enjoy kissing her?" Tang Yin teasingly asked.

"Haha." Tang Xiao awkwardly laughed at that. "I accidentally met Jessica at Ouyang House, but I didn't have any plans against her yet. However, I didn't expect her to approach me directly, which made me think of something immediately."

Tang Xiao explained to Tang Yin about the situation between him and Jessica last night, especially her attitude after she saw his eyes. "I didn't expect her to be so attentive to your eyes and that she could still recognize them, even though you two haven't seen each other for years."

"Yes." Tang Xiao nodded at her. "I myself was surprised and confused by her behavior at first, and she even cried like that last night."

"So, what do you plan to do with Jessica? Are you going to take shortcuts like I did with Yu Xiaoling before?"

Tang Xiao thought for a moment before shaking his head. "At first, I thought about using the same method on Jessica, but her reaction last night made me change my mind. I will use a gentle method on her, and I will crush her feelings first. After that, I will bring her to the ark, and Xiao Ai can implant her sub-chip into her brain, just like Yu Xiaolong."

"I see." Tang Yin nodded in understanding. "I previously checked on Luo Qinlin, and she panicked because her sex tapes had spread widely. She had to pay someone handsomely to delete them, but I asked Xiao Ai to stop that person."

"Honestly, I don't care much about Luo Qinlin because she is just a prostitute, and I will crush her when the time comes." Tang Xiao remembered the other woman. "As for Lin Yan, she's overseas right now, so I can't do anything to her for now, but I'll act immediately after she returns to this country."

"Alright, you can handle them yourself." Tang Yin then informed him of another matter. "Aunt Yuan previously entered the ark, and she told me that our grandpa has almost finished his seclusion, and he will be coming to this city in a few days."

"That's good!" Tang Xiao smiled, remembering their grandfather. "The last time I met our grandfather was when he visited me in prison seven years ago, and he deliberately locked himself in seclusion to increase his strength to face Long Yin. Even so, I'm sure that he won't be able to face him by himself, so we have to become stronger as soon as possible, and we will fight him together."

"No." Tang Xiao answered by shaking his head. "My master seems to still be on Earth-II now, or else she must have been panicking to look for me, so I will meet her when she returns later."

"Haha." Tang Yin laughed softly and pulled Tang Xiao away to another area. "Aunt Lingyan loves you very much, and she has always treated you like her son, so she would definitely panic if she knew you fell into that ravine."

"You're right, she—" Tang Xiao hadn't finished speaking, but they suddenly heard someone speaking to them, more precisely to Tang Yin.

"Aiyo! I didn't expect this bitch to be awake now."

Tang Xiao and Tang Yin turned toward the owner of the voice, and they saw a slightly chubby man standing there with a smug smile on his face, and he was accompanied by two muscular bodyguards.

Seeing him, Tang Yin squeezed Tang Xiao's hand, and he naturally recognized the man's identity. "It's okay; you're not afraid of him, right?"

"No." Tang Yin answered by shaking her head. "However, we shouldn't take any action against Yao Shao here because there are many CCTVs nearby."

"Isn't that a trivial matter?" Tang Xiao immediately ordered Xiao Ai. 'Turn off all CCTVs around here, and delete all recordings showing the presence of me and Big Sis from their database.'

[It's done, Master.]

After that, Tang Xiao let go of Tang Yin's hand and walked in front of Yao Shao. "What did you call my wife just now?"

Yao Shao was taken back for a moment after hearing that, and he felt confused about their relationship. After all, Tang Yin had been in a coma for seven years, but he then grinned and challenged Tang Xiao. "Are you deaf? I called your wife a bitch!"

Tang Xiao's face darkened, and his fists were tightly clenched. "I dare you to say it one more time."

"Haha! Look at him! His expression scares me!" Yao Shao laughed as he spoke to his bodyguards. He then pointed his finger at Tang Xiao's chest. "What can you do to me? My father will destroy your family if you dare touch me, and you don't want that to happen, right? Seven years ago, we failed to have fun with her because she jumped off that building. Since she's woken up from her coma, I want to have some fun with her today, and I'm going to thoroughly enjoy her body."

Bam

Without further ado, Tang Xiao punched Yao Shao's head with his qi-covered fist, which caused him to fall to the ground, and blood flowed from his nose and mouth. "Fuck! Attack him!"

"Yes, young master!"

The two bodyguards moved to attack Tang Xiao, but he used gale steps to swiftly move behind them. He directly knocked them unconscious by hitting the nape of their neck quite hard, shocking Yao Shao.

"You... you..." Yao Shao stuttered as he crawled backwards, but Tang Xiao immediately moved in front of him again and stomped his right foot directly on his chest, causing him to vomit a mouthful of blood. "Gah!"

Tang Xiao narrowed his eyes and spoke to him. "Seven years ago, you and your friends wanted to violate my wife, and you guys forced her to take the decision to commit suicide. Fortunately, God still protected her, and she can recover now. As for Yao Wei, I am not afraid of him at all, and he will soon pay for all his past sins."

"You-Ugh!" Tang Xiao immediately kicked Yao Shao's head, which caused him to fall unconscious after hitting the ground hard. Since there was no passerby, he sent the three men into the ark.

Tang Yin moved next to Tang Xiao and asked him. "What are you going to do about them?"

"I think you shouldn't see me doing anything to them." Tang Yin frowned at his answer, but Tang Xiao immediately led her into the ark.

.
. .
.

"All right, you can go do something else, and I will take them to the prison." Tang Xiao said as he placed Yao Shao and his two bodyguards on the flying car, and he immediately took them away, leaving Tang Yin clueless.

Tang Yin sighed softly and went straight to the small factory to meet Yu Xiaoling, and she wanted to ensure that the production went smoothly.

When he arrived at the prison, Tang Xiao stripped them naked before chaining them up, and he then took water from the sink before dousing it on them to wake them up.

****Splash****

"Ugh!" The three groaned softly before opening their eyes, and they felt dizzy in their heads after Tang Xiao beat them up earlier, but they went into shock once they found themselves naked and chained.

****Clang... Clang...****

Yao Shao glared at Tang Xiao, who was standing in front of them, with a vicious smirk. "What did you do to me? Let me go quickly! Otherwise, you'll regret it for the rest of your life."

"You're such an idiot, huh?" Tang Xiao responded with a sneer. "Take a look around first; you don't even realize your current situation."
