

Celestial 'War God' Return #Chapter 231: End Of The Auction - Read Celestial 'War God' Return Chapter 231: End Of The Auction

Chapter 231: End Of The Auction

'What are the benefits of the fruit, Xiao Ai?'

[Master, the fruit will help you break through a stage after you consume it, but you can only eat it once in your lifetime. Since your cultivation is about to break through to the Upper Xiantian Level, you must break through first.]

Tang Xiao's clone raised an eyebrow. 'Won't it be a loss if I eat that fruit at this level? Reaching the Peak Xiantian Level may take a long time, but it won't be as long as reaching the Tyrant Level. Moreover, I can only eat it once in my lifetime, so it's not worth eating it in my current cultivation.'

[The problem is that the fruit won't be able to wait for you that long, Master. Look at the fruit; it's not as fresh as the first time the person picked it. It will rot in a few days, so you can't wait for your cultivation to break through to that level.]

Tang Xiao's clone frowned and observed the fruit in Xuan Xi's hand. He could see that the red color had changed on some parts of its skin, indicating that it had begun to rot. 'Can you still clone the fruit in that condition?'

[I can, Master. However, they must eat the fruits immediately after I clone them, or they will rot more quickly.]

'I see.' Tang Xiao's clone turned to Feng Shen. "Senior Feng, I want you to bid on that fruit right now, and we must get it at all costs."

Feng Shen turned to him. "Are you sure you want to waste that many gold coins on a fruit with unclear benefits?"

"Senior Feng, I won't bid on anything worthless, okay?" Tang Xiao's clone pointed at the fruit. "That fruit has extraordinary effects, but I can't explain them to you now, and you can see for yourself later."

Feng Shen nodded and walked straight to the balcony. "Five hundred million and fifty million gold coins for the fruit."

Instantly, the attention of all the cultivators present at the auction house was drawn to Feng Shen because the effects of the fruit were not yet clear, and the price was too high even for first-grade clans.

Unlike them, Yan Huoling and Feng Xiaofang were familiar with Feng Shen's character. He wouldn't take the risk of buying a fruit with unclear effects, making them realize he was bidding for Tang Xiao's clone. However, they wondered about his purpose in bidding on the fruit, and they wondered if he knew its benefits enough to be willing to spend so many gold coins.

"Six hundred million gold coins for the fruit." Feng Shen and all the other participants looked at Huang Xiaotian, but he responded with a shrug. "You don't have to look at me like that, okay? I'm sure Old Feng knows the fruit's effects, or he wouldn't have dared to bid on it."

'This bastard!' Feng Shen cursed in his heart as those people looked at him. "I have no information about the fruit's name, let alone its benefits. However, I've never seen a fruit with such a powerful aura before, and it might have a beneficial effect on our cultivation, so I'm going to gamble big this time to get it."

Huang Xiaotian snorted at that and glanced inside Feng Shen's VIP room, and somehow, he guessed that it was Tang Xiao's clone who asked him to bid for the fruit.

'What are you doing, brother?' Huang Xianyu asked him via voice transmission and frowned. 'We don't have clear information about the benefits of that fruit, so you don't need to waste our gold coins just to buy something that's unclear.'

Huang Xiaotian looked at her. 'I'm sure that brat was the one who asked Old Feng to bid for this fruit, and he probably knows its effects. Since he dared to bid so high for this fruit, I will play along with him, and I want to see how much financial strength he can afford to bid for it.'

'Hmm?' Huang Xianyu looked inside Feng Shen's VIP room. 'Are you sure that kid asked Old Feng to bid for this fruit? Don't tell me that he was also the one who asked her to bid on the items before.'

'Yes.' Huang Xiaotian nodded at her. 'I couldn't hear their conversation, but I've been paying attention to that brat's movements. I think he's the one who asked Old Feng to bid for all those items, including the Seven Color Glazed Berry that you really want.'

Huang Xianyu frowned at that. 'Are you sure about that?'

'One hundred percent!' Huang Xiaotian seriously nodded.

Huang Xianyu nodded slightly, and she didn't say anything else, but she continued to pay attention to Tang Xiao's clone using her senses. 'Where did he get that many gold coins? Although I don't know the Tang Clan's financial situation, they shouldn't have that much money.'

"Six hundred million and fifty million gold coins for the fruit." This time, everyone's gaze shifted to Xue Jing's VIP room, and they never expected that she would follow Feng Shen and Huang Xiaotian's madness. "Since Old Feng is confident that the fruit has good effects on our cultivation, I decided to join them and gamble to get it."

"Haha." Wang Jishan laughed at that. "Since you're joining in on this madness, I'll join you three! Seven hundred million gold coins for the fruit."

"Seven hundred million and fifty million gold coins for the fruit." Liu Xun also decided to join them. "I'll join in your madness, and we'll see the effects later after one of us gets the fruit."

Among the first-grade clans, only the Feng Clan did not join in to bid for the Ascension Fruit. Since Feng Shen had already bid for the fruit for Tang Xiao's clone, Yan Huoling and Feng Xiaofang decided not to interfere.

"Eight hundred million and fifty million gold coins for the fruit!" They all turned to Xie Jun and frowned. "What? You guys can bid on the fruit, so why can't I? Are you guys afraid to compete with me? If you're afraid to compete with me, then get lost!"

They chose not to respond to Xie Jun, making him snort at them.

"One billion gold coins for the fruit." Once again, all the cultivators in the auction house looked at Feng Shen, and their gazes were filled with utter shock. One billion gold coins was simply unreasonable for a fruit, even though the previous price was only slightly lower. "Hey! You guys don't need to look at me like that, and you should increase your bid for that fruit."

Huang Xiaotian wanted to increase his bid for the Ascension Fruit, but Huang Xianyu hurriedly stopped him, so he chose to give up.

Liu Xun also wanted to increase his bid, but Liu Xing said that one billion gold coins was already unreasonable for an unknown fruit, let alone any higher.

Wang Jishan contacted Wang Fuxi first to discuss it, but she forbade him from bidding higher, so he also decided to give up.

Xie Jun glared at Feng Shen, but he suddenly received a voice transmission from Xue Shun, forbidding him from bidding any higher. His leader asked him to let the fruit fall to him, and they would snatch it after the auction was over. 'Haha! That old man does have unmatched speed, but we already have a solution to slow him down, and all the auction items he bought will fall into our hands.'

After waiting for some time and no other cultivators bidding for the Ascension Fruit, Xuan Xi immediately announced that Feng Shen was the winner.

A young girl flew in carrying the Ascension Fruit and handed it to Feng Shen, who paid the full price of one billion gold coins.

After receiving the fruit, Feng Shen sighed softly and returned to the room. However, he didn't have an opportunity to say anything because Tang Xiao's clone grabbed his shoulder and carried him out of the auction house through the void, shocking all the cultivators present.

"That kid has the space element!" Huang Xiaotian and all the cultivators screamed in shock as they flew to Feng Shen's VIP room to check.

Unfortunately, they had guessed wrongly about the element used by Tang Xiao's clone, mainly because no cultivator on Earth II had the void element before.

The people from the Feng and Zhang Clans didn't join them, and they hurriedly left the auction house while everyone was busy searching for the two. Despite this, they were curious about how Tang Xiao's clone could possess the space element, even though he already possessed the wind and fire elements, which meant he possessed three elements.

Xue Jing and Xue Lan did not join the cultivators, and the two women left the auction house. They wanted to speak with Tang Xiao's clone, but the situation did not permit it, and they hoped to meet him another time.

Xie Jun's expression was also not good after Feng Shen and Tang Xiao's clone disappeared, but he did not join those cultivators, and he left the auction house to join the people from his clan.

Xue Shun ordered all members of the Xie Clan to scatter in different directions, hunting down Feng Shen and Tang Xiao's clone.

"Are we going to do anything to the others?" Xie Jun asked.

"We have to find that brat as soon as possible." Xie Shun ordered the clans related to their Xie Clan to hunt down Tang Xiao's clone. "Let's go."

Chapter 232: People Conversations

Old Xuan and Xuan Xi felt relieved after the cultivators left, but they were still curious about Tang Xiao's clone's true identity. "Father, didn't you speak with Senior Feng before the auction started? Who exactly is that young man?"

"I don't know his real name, and he introduced himself as Wu Ming." Xuan Xi turned to her father with a frown. "That's right, Wu Ming means 'no name'! I'm sure his face isn't

his real face either, and he's using a disguise technique to hide his true identity. However, Old Feng and the Zhang Clan seem to really like him, and they probably know his real identity. Are you interested in him?"

"Haha." Xuan Xi laughed at his question. "Father, that young man is indeed handsome, and he possesses the rare space element. However, I'm not interested in a young man like him, and I will look for a man who is more mature than him in the future. By the way, we got a lot of profit from the auction this time, especially from the sale of the Origin Elemental Flower, the Seven-Color Glazed Berry, and the Ascension Fruit."

"I'll go meet those three people right now, and I'll hand over the proceeds from the sale of the three items to them since they don't want to appear here." Old Xuan walked away. "By the way, you should send people to the Huang Clan to hand over the proceeds from the sale of the five Nine-Revolution Golden Pills to Huang Xiaotian."

"Yes, Father." Xuan Xi went straight back to the inner room and called someone to meet her.

.

.

.

Atop their flying artifact, Huang Xiaotian and Huang Xianyu stood side by side. "Who do you think the young man with Old Feng is, Brother?"

Huang Xiaotian shook his head slightly. "That brat used a disguise technique, and I couldn't see through his disguise with my abilities, so I couldn't discern his true face. His closeness to Old Feng was unusual, and he was willing to do anything for him, including meddling in your affairs with Yan Huoling. Moreover, the Zhang Clan seemed to be close to him, but I couldn't guess the extent of their relationship with him."

"Shall we go to the Zhang Clan?"

"You know that won't be of any use, right, Sister?" Huang Xianyu inwardly sighed. "I know you want to get the Seven-Color Glazed Berry, but I'm sure the Zhang Clan won't tell us anything about that young man's identity, so you should forget about that fruit and focus on other things."

"Alright." Huang Xianyu walked away and entered the room because the journey back to the Huang Clan was quite time-consuming.

Huang Xiaotian remained standing there, thinking about Tang Xiao's clone. "Who exactly is that brat? Which clan does he belong to? Why hasn't anyone heard of him before today's auction?"

.

.

.

On the Liu Clan's flying artifact, Liu Xun and Liu Xing were talking in a room, and the topic of their conversation was naturally Tang Xiao's clone.

Liu Xun and Liu Xing were convinced that Feng Shen bid for the Origin Elemental Flower, the Seven Color Glazed Berry, and the Ascension Fruit for Tang Xiao's clone because he couldn't possibly have that many gold coins.

"Who do you think that young man's real identity is, Big Brother?"

Liu Xun turned to his wife, Lian Yunqi. "Can you see through that young man's disguise, wife?"

"I might be able to do that, but I need time to find out his identity." Lian Yunqi replied with a nod. "However, no one expected that he would possess the rare space element, and we all ignored him because we underestimated him."

"Yes." Liu Xun nodded in agreement. "Everyone, including us, underestimates that young man because his cultivation is still low in the Middle Xiantian Realm. If we knew his abilities from the start, we wouldn't underestimate him, and we might be able to invite him to our clan to establish a good relationship with him."

"Brother-in-law, we might be able to meet that young man in the near future." Liu Xun, Liu Ming, and Lian Yunqi turned to Qiu Hongmei. "I heard from my father-in-law that he met Senior Feng and that young man at the Ming Clan's battle arena a few days ago, and he told me that the young man's name was Wu Ming."

"Wu Ming?"

"Yes." Qiu Hongmei nodded at them. "Wu Ming managed to defeat Zhao Zheng easily, which caused my father-in-law to lose a bet with Senior Feng of one million gold coins. Since then, he has never been defeated, but he has not appeared to fight in several days."

Liu Xun thought for a moment. "After we arrive at our clan, I will go to the battle arena to meet Ming Qianru, and I will ask her about Wu Ming."

"I'll join you, Brother."

"Alright."

.

.

.

"Husband." Wang Jishan turned to his wife, Liu Yixian. "I got information about that young man from my cousin, and he said his name was Wu Ming."

"Wu Ming means 'no name', right?"

Liu Yixian nodded to their two sons. "My cousin said that Wu Ming became the reigning champion of the Ming Clan's battle arena after he defeated Zhao Zheng, but he didn't show up for several days after that, and he chose to attend the auction with Old Feng."

"I'll contact my sister first." Wang Jishan contacted Wang Fuxi and told her about Tang Xiao's clone, and she ordered him to go to the Ming Clan's battle arena to look for him. "As expected, my sister asked us to search for that young man at that place, and she will come back here after we manage to find him and invite him to our clan. Possessor of the space element is very rare, so I'm not surprised if my sister wants to have a good relationship with him."

"Does that mean we're going there now, Father?" Wang Dong'er asked him.

Wang Yun'er also spoke. "I've long wanted to fight those rogue cultivators in that battle arena, and this is the perfect opportunity to try it out."

"We'll go straight to that city." Wang Jishan looked at his second son. "You know you can't do that, right? If your aunt finds out you fought with those rogue cultivators, she will definitely be angry with you, and she will lock you up for several months."

Wang Yun'er smiled bitterly when he heard that. "Okay, I won't go to the battle arena, let alone fight with those rogue cultivators."

"Fortunately, Long Yin and the Long Clan didn't appear in the auction this time, so they don't know about that young man." Wang Jishan agreed with his wife and sighed softly. "If they offered him to join them, he would definitely be interested in it, and our Wang clan would fall further behind them."

"You're right, wife." Wang Jishan immediately stood up from his seat. "I will change our destination now."

.

.

"Do you think that kid made the right decision by using his space element in front of all those cultivators, Husband?"

"Hahaha." Feng Xiaofang laughed at Yan Huoling's question. "Do you think that kid is stupid, wife? He came to the auction house using a disguise technique, remember? I'm sure no one knows his true identity, and he'll be fine out there. Moreover, Brother Shen is by his side, and no cultivator can match his speed, so I'm sure he can keep him safe."

Yan Huoling's face turned furious after her husband mentioned Feng Shen, and she was still angry with him because he interfered in her affairs with Huang Xianyu. However, she immediately calmed herself down because she remembered that he did that on Tang Xiao's clone's wishes, and the fruit was in his hands now. "Speaking of that kid, our daughter seems interested in him, husband."

"Is that true?" Yan Huoling told Feng Xiaofang about the matter when Feng Yao had brought her to see Tang Xiao's clone inside the volcano some time ago, especially about her daughter's expression when she looked at him. "Does our daughter like him because he resembles his father? I know our daughter liked the late Tang Ye in the past, but that kid is not his father. If she likes him because he resembles his father, that would be very unfair to him."

Yan Huoling nodded in agreement with her husband. "Our daughter loved the late Tang Ye since they were little, and she decided to live in the outside world because of him. His death left a heavy burden in her heart because she couldn't do anything to save him from those criminals; even if she wanted to move to save him, Wang Fuxi would definitely stop her."

"Sigh." Feng Xiaofang looked towards the sky. "Actually, Wang Fuxi has gone too far regarding that matter, Wife. Even though the late Tang Ye wasn't a cultivator, he was still a descendant of a cultivator, and he was the only descendant of the main Tang Clan. I initially thought the Tang Clan would be finished with his death and the problems that befell his children, but the result was different from what I thought because they managed to survive and become cultivators."

"Yes." Yan Huoling nodded slightly. "Tang Xiao and Tang Yin's cultivation is still low, but I'm sure they will continue to improve, and the Tang Clan will continue to exist with them. I don't know what kind of future they will face, but I hope they will be fine."

"I also hope they will be fine."

- To Be Continued -

Chapter 233: Prepare For Breakthrough

"Big Sis, those people will likely be hunting that young man after today's incident."

Xue Jing nodded to Xue Lan. "His biggest mistake was using his space element in front of so many cultivators, and his actions aroused the envy of some people. Xie Shun and his Xie Clan had already moved to capture him, and he ordered all the clans that had direct connections with them, such as the Xiao, Jiang, and Song Clans, to hunt him down."

"Tch!" Xue Lan gritted her teeth. "Those three clans are idiotic! The Xie Clan is a heretic clan, and the other clans are trying to get rid of them. Since they cooperate with that clan, the other clans will destroy them in the future."

"If destroying the Xie Clan was that easy, they wouldn't have been able to survive these thousands of years, and they would have been destroyed long ago." Xue Jing looked up at the sky. "The Xie Clan still has a cultivator at my and Long Yin's levels, and they still have a few cultivators with cultivation one minor level below us, so it will never be easy to destroy them."

"Yeah." Xue Lan released a soft sigh. "Unfortunately, we can't talk to that young man, and we can't ask him to give us the snow leopard beast."

Xue Jing shook her head slightly. "I have a feeling that we will meet him someday, so we just have to wait until the time comes."

.

.

.

Atop three other flying artifacts that were slowly cruising through the air, the patriarchs of the three other clans were gathered together. They were Xiao Luo of the Xiao Clan, Jiang Bai of the Jiang Clan, and Song Han of the Song Clan.

"Xie Shun ordered us to search and capture that brat." Jiang Bai spoke.

Xiao Luo asked. "How are we going to capture that brat if he is under the protection of Feng Shen? That old man got the nickname 'wind god' not without reason because he is a master of the wind element, and none of us can match his speed. Moreover, that brat possesses the rare space element, making it impossible for us to predict his current location."

"Is there anything we can do?" Song Han spoke, shaking his head. "We've already decided to follow the Xie Clan, so we have to follow Xie Shun's orders. Otherwise, he'll send his men to destroy our three clans if we disobey his orders, and they'll definitely kill

our families. Although we don't know that brat's destination, we have no other choice but to send members of our three clans to look for them."

Xiao Luo and Jiang Bai let out a soft sigh, and they contacted the members of their three clans to search for Tang Xiao's clone and Feng Shen all over Earth II.

Jiang Bai turned to Xiao Luo. "What about Xiao Hua? Did she manage to capture that little brat from the Tang Clan?"

"Xiao Hua should have only arrived at my granddaughter's house three days ago, and she's probably still waiting for an opportunity to capture that little brat, especially since Tang Huang and Tantai Lingyan are there to protect him." Jiang Bai nodded understandingly to Xiao Luo. "For now, we just need to be patient and wait for news from her. We'll attack the Tang Clan after she manages to capture him. You two better get back on your flying artifacts, or people will be suspicious of us."

Jiang Bai and Song Han said nothing more and hurriedly returned to their flying artifacts. Meanwhile, Xiao Luo sent a voice transmission to Xiao Hua, asking her to speed up the capture of Tang Xiao. "Who exactly is that brat with Feng Shen? I'm sure I've never heard his name or seen his face in the Feng Clan, so he should be an outsider with no direct connection to the clan."

.
. .
.

Zhang Fei stood side by side with Chen Xinyan on their flying artifact. "What do you think about Tang Xiao's situation after today, Husband?"

"Ha ha ha." Unlike his wife, Zhang Fei wasn't worried about Tang Xiao at all because he possessed extraordinary disguise techniques and the rare space element, which made him confident that those people wouldn't be able to find him. "I know you're worried about him because of Xiang'er, but I'm sure he'll be fine, Wife. Moreover, Old Feng is by his side, and no cultivator can match his speed, including Long Yin."

Chen Xinyan exhaled softly. "Have you contacted Old Sun and told him about this matter?"

"Yes." Zhang Fei hugged his wife's waist and led her away. "Old Sun was shocked to hear about Tang Xiao and Xiang'er's relationship, and he's looking forward to his arrival at the Sun Clan to speak with him. However, I'm still worried about our daughter, and Xingcai might not approve of their relationship, especially since he already has two wives."

Chen Xinyan could only shake her head as she remembered our daughter. "Xingcai is still young, but she chose to live alone after her husband died, so I doubt if she is willing to accept Tang Xiao as her son-in-law."

"Let's wait and see, Wife."

.
. .
.

"Hahaha!" Feng Shen laughed loudly after Tang Xiao's clone brought him out of the void, but he immediately grabbed his shoulder. "You're really crazy, you know? Not only do you possess the fire and wind elements, but you also possess the rare space element. Initially, I didn't understand the source of your confidence in escaping from those people, but it turns out the outcome exceeded my expectations because you have the space element."

'Senior Feng, the element I just used wasn't the space element but the void element, you know?' Although he has a close relationship with Feng Shen now, Tang Xiao's clone has no intention of telling him the truth and letting him think that way. "Those cultivators might come after us after this, but I'm not too worried about them because I'm wearing a disguise technique. On the other hand, you're not wearing a disguise technique, and they'll target you because we're coming and going together."

"Hahaha!" Feng Shen laughed casually hearing that. "You don't need to worry about me because they will never succeed in finding my trail, let alone capturing me. However, I can no longer accompany you in training because they will search for me all over Earth II, especially the Xie Clan. Therefore, I am forced to leave you to train alone, but I believe you can protect yourself with your fighting skills and space element."

Tang Xiao's clone nodded in understanding. "You don't need to worry about me, Senior Feng. I will face my enemies if I can fight them, and I will flee if I encounter enemies far stronger than me."

"If you still want to fight in the Ming Clan's battle arena, you can go to that city again. However, you should not use your current identity because some clans should already know your identity as Wu Ming, such as the Liu and Wang Clans." Feng Shen took out the Origin Elemental Flower, the Seven-Color Glazed Berry, the Purple Yang Flower, and the Ascension Fruit from his storage ring. He handed the four items and the storage ring to Tang Xiao's clone. "These—"

"Senior Feng, you can keep the storage ring and the gold coins inside for yourself." Tang Xiao's clone accepted the four items and stored them in his storage ring. "Don't worry, I still have plenty of gold coins on hand."

Feng Shen hesitated for a moment before storing the storage ring again. "Alright, I'll accept it. I can't accompany you in training anymore, so you should take better care of yourself, and you should flee immediately if you encounter stronger cultivators."

"Thank you for accompanying me and showing me many new things, Senior Feng." Feng Shen just nodded and disappeared from that place, and Tang Xiao's clone first waited until he was far away. "His speed lives up to his nickname, the wind god."

After he confirmed that Feng Shen had disappeared, Tang Xiao's clone entered the Primordial Divine Ark and went to meet Xiao Ai in the factory area. He handed over the four items he bought at the auction house to her to clone so the people close to him could also use them.

Thereafter, Tang Xiao's clone went to the living area and entered one of the rooms, where he would try to break through to the Upper Xiantian Realm.

Since she was confident that her master would successfully break through to that stage without any obstacles, Xiao Ai cloned the Ascension Fruit first. This way, Tang Xiao's clone could immediately break through to the Peak Xiantian Realm afterward, and he would become even more powerful.

Xiao Ai also asked Tang Yin, Xing Xing, Tang Huang, Mu Qingge, Tantai Lingyan, Tang Yuan, Zhao Qing, Mu Yan, Mu Lin, Jessica, Zhao Yixuan, and Yu Xiaoling to enter the Primordial Divine Ark. The Ascension Fruit couldn't last long after being cloned, so they had to consume it immediately to improve their cultivation. She also prepared another Ascension Fruit to give to Feng Yao according to Tang Xiao's clone's previous request.

.

.

.

In the hotel room, Tang Xiao was already sitting cross-legged on a sofa after making sure Yi An was sound asleep. He was also preparing for his breakthrough, and he thought that it would be easier if he and his clone did it at the same time. "The Upper and Peak Xiantian Level, here I come."

To Be Continued -

Chapter 234: Upper And Peak Xiantian Realm

After receiving news from Xiao Ai, the group entered the Celestial Primordial Ark. Chu Lingxi was shocked when Xing Xing brought her inside, but she briefly explained to her mother that the place belonged to Tang Xiao.

Xiao Ai forbade Xing Xing from talking too much and asked her to take Chu Lingxi to the residence area to break through, especially since the clones of the Ascension Fruit were short-lived and needed to be used immediately.

After listening to Xiao Ai's explanation, Tang Yin, Xing Xing, Chu Lingxi, Tang Huang, Mu Qingge, Tantai Lingyan, Zhao Qing, Mu Yan, Mu Lin, Jessica, Zhao Yixuan, and Yu Xiaoling rushed to the residential area, where they attempted to break through to the next stage.

After distributing the fruits, Xiao Ai brought the original Ascension Fruit to Tang Xiao's clone, and she detected that her master would soon break through to the Upper Xiantian Realm.

Xiao Ai smiled in satisfaction because Tang Xiao's clone could break through two stages at once, but she had forbidden him from cultivating after he broke through. Breaking through once already caused his foundation to become unstable, and breaking through twice in a row would cause it to become even more unstable, so it was too risky for him.

Unlike them, Tang Yuan decided to take two Ascension Fruits, and she went straight to Feng Yao's apartment to hand one over to her.

Feng Yao herself had heard that Tang Xiao had bought an Ascension Fruit at the auction, but she was confused as to how he could have so many that he could give two to her and Tang Yuan.

Feng Yao asked her best friend, but Tang Yuan still didn't want to explain anything to her without Tang Xiao's permission. After that, the two women practiced their cultivation together in preparation for their breakthroughs.

.

.

.

Wang Fuxi, who was watching Shen Tianhu, suddenly noticed a commotion inside his cell. She frowned as the prison guards suddenly discovered the man was no longer breathing, and they immediately called paramedics to check his condition. Unfortunately, it was too late, and he had already died from the poison administered by Yang Mi earlier.

Wang Fuxi didn't immediately sneak into the prison; she waited for the prison guards to move Shen Tianhu's body elsewhere, as her appearance there would only cause a commotion.

After the prison guards placed Shen Tianhu's corpse in the morgue, Wang Fuxi immediately sneaked into the prison to examine his corpse. She carefully examined his corpse using her qi, but she found no poison in his body, as it was undetectable by anyone, even for a cultivator as powerful as her.

"What exactly happened to him? Why did he suddenly die after his wife visited him?" After she examined Shen Tianhu's corpse and found nothing, Wang Fuxi decided to leave the prison and go to the Shen House.

Wang Fuxi was shocked once more when she arrived at the Shen House and discovered Yang Mi in her bedroom, motionless. She decided to go inside and check on her, but she also found her dead.

Wang Fuxi carefully examined Yang Mi's corpse, but she found nothing inside, just as she had with Shen Tianhu's. "Could Tang Xiao have killed them? How did he do it? I'm watching her husband 24 hours a day, so he shouldn't have been able to deceive my senses."

Wang Fuxi tried to look for Shen Xiang in his bedroom, but she couldn't find him anywhere because Tang Yin had already killed him. She was truly annoyed by the situation because she had been watching them for several days, but she couldn't prevent Tang Xiao from killing them, and the three of them ended up dead.

Although she didn't see Tang Xiao kill them, Wang Fuxi still believed that he killed the Shen family. She took the phone and called the hospital to pick up Yang Mi's corpse, mainly because she couldn't let it rot in the room.

After that, Wang Fuxi left the Shen House and checked other places, but she couldn't find Tang Yuan in her apartment.

Wang Fuxi immediately checked Feng Yao's house because she was Tang Yuan's best friend, and she found the two of them cultivating in the living room. She was truly surprised to feel the fluctuation of qi within their bodies, as they were about to break through soon. Since they were in the process of their breakthrough, she didn't disturb them and waited for them to finish.

Since Shen Tianhu and Yang Mi were dead, Wang Fuxi decided to leave their house area. She went elsewhere while wondering about how Tang Xiao killed them, even though she was watching the prison with her senses.

.

.

.

Meanwhile, Ouyang Qing chose to spend time at Lin Yan's house because she was too lazy to go back to the Ouyang House, especially after she found out about her father and big brother's relationship with Su Rou.

Ouyang Qing was shocked after she learned that Lin Yan's husband was going to divorce her and take their son away, but her best friend didn't explain to her that her husband divorced her because of her relationship with Tang Xiao.

Lin Yan was familiar with Ouyang Qing's character, and her best friend would be furious if she knew about her relationship with Tang Xiao, so she chose not to tell her.

Lin Yan brought out a drink with a not-too-high alcohol content, and the two women drank together while discussing various things, especially regarding Su Rou's relationship with Ouyang Hong and Ouyang Ming.

.
. .
.

At the Ouyang House, Ouyang Hong finally woke up from his sleep after sleeping all day, but he was shocked to find himself sleeping naked in his son's room.

Ouyang Hong was even more shocked when he found Su Ro and Ouyang Ming sleeping naked, embracing each other. He tried to remember everything, but he couldn't remember anything from before, including their threesome, because Tang Yin's parasitic soul had previously controlled him.

"Shit! What exactly happened to me?" Ouyang Hong immediately got out of bed, got dressed, and headed back to the master bedroom. He couldn't find Yi An there, and he tried to contact her, but her smartphone was turned off. "Did she know about our previous activities?"

Ouyang Hong chose to ignore Yi An for now because he couldn't remember many things, including about his threesome with Su Rou and Ouyang Ming. However, his body was still exhausted, and he eventually fell asleep again, unaware of the changes that would occur to his situation soon.

.
. .
.

While Tang Xiao was in the process of his breakthrough, Yi An suddenly woke up from her sleep. She panicked when she couldn't find him by her side, but she calmed down again after seeing him meditating on the sofa.

"What is he doing? Why is he meditating like that?" Yi An was curious about Tang Xiao's activities, so she got out of bed to approach him.

However, a massive shockwave suddenly released from Tang Xiao's body and spread throughout the room after he broke through to the Upper Xiantian Level, causing Yi An to nearly fall to the floor. She managed to stop herself from falling by holding on to the head of the bed, but she was really shocked by it.

"What the hell is that?" Yi An looked at Tang Xiao, wondering what was happening in her heart. He kept his eyes closed because his clone had consumed the Ascension Fruit, which caused the unstable qi in his body to fluctuate again.

The qi fluctuations within Tang Xiao's body became greater than before, making his expression serious. He was sweating profusely due to the increased qi fluctuations, which further confused Yi An about his condition.

Seeing Tang Xiao sweating profusely, Yi An hurriedly took the tissues from the table and sat next to him. While wondering in her heart about his activities, she carefully wiped the sweat from his forehead and face. "What are you doing, Xiao'er? Why are you like this?"

Unlike when he broke through to the Upper Xiantian Level, Tang Xiao took a long time to break through to the Peak Xiantian Level. The process was so long that Yi An fell asleep beside him, her head on his shoulder.

As the morning sun began to illuminate the room, a shockwave released from Tang Xiao's body again after he successfully broke through to the Peak Xiantian Level, which jolted Yi An from her sleep.

Yi An was almost thrown off the sofa because of this, but she hurriedly hugged Tang Xiao's body tightly, which confused her even more.

After the qi fluctuations within his body stopped, Tang Xiao breathed a sigh of relief and opened his eyes. He looked at Yi An, who was staring at him in a daze.

Before Yi An could ask him, Tang Xiao pinned her down on the sofa and kissed her. She didn't refuse his kiss, but she wrapped her arms around the back of his neck and kissed him back.

They didn't kiss for long because Tang Xiao suddenly separated their lips, and he picked her up and carried her to the bathroom. "What were you doing earlier, Xiao'er? Why did I feel a strong wind coming from your body twice?"

'Sigh.' Tang Xiao inwardly sighed. "Yi'er, I don't know how to explain the details to you, but I'm not an ordinary human, and people like me call ourselves cultivators."

"Cultivators?" Yi An looked at Tang Xiao in confusion. "Are you saying you're cultivators like in the movies?"

- To Be Continued -

Chapter 235: Yi An's Decision

Tang Xiao and Yi An were naked in the bathtub while waiting for the water to fill it.

Tang Xiao hugged Yi An, who was leaning against his chest, from behind. "Real cultivators are different from those in the movies, Yi'er. Not everyone can become a cultivator, and they must have cultivation veins to become one. You can't meet them here because they live in a separate place from ordinary people, and that place is only accessible to cultivators."

"Can I become a cultivator like you?"

"Unfortunately, you were born without cultivation veins, so you can't become a cultivator like me." Yi An looked disappointed after hearing that because she was afraid that Tang Xiao would leave her. "Yi'er, you don't have to be afraid that I'll leave you, okay? Even though you're not a cultivator, I will always accompany you by your side and protect you."

Yi An didn't say anything and returned her gaze forward, but she felt fear in her heart that Tang Xiao would become bored with her and leave her. "Is there anything you can do to make me become a cultivator?"

"Actually, there is a way to help you cultivate like me, but it's difficult to find cultivation veins that are compatible with your body." Tang Xiao hugged Yi An even tighter. "The problem is that cultivation veins aren't easily obtained, and we have to extract them from the bodies of other cultivators, which means killing them."

Yi An was shocked to hear that, and she didn't want Tang Xiao to kill others just to extract their cultivation veins. "Xiao'er, I—"

"You don't have to say anything, okay?" Tang Xiao stopped her by covering her mouth. "I've thought about this matter for a long time, and I am already planning to help you find cultivation veins in the future. Moreover, the situation among cultivators is different from that of ordinary people, and there are too many evil cultivators in that place. Killing and being killed is common among cultivators, and righteous cultivators often kill evil ones."

Yi An pulled his hand down and asked a question. "Does that mean you've killed other cultivators?"

"I once killed a cultivator." Yi An turned to Tang Xiao in shock. "That person was evil, and he was trying to kill me. If I didn't kill him, he would kill me, so I killed him first to protect myself."

"Are there many evil cultivators there? Are they all targeting you?" Yi An asked worriedly.

Tang Xiao nodded before explaining. "There are countless evil cultivators there, especially people from the Xie Clan. All the righteous cultivators have been hunting down members of that clan for a long time, but they're as stubborn as cockroaches, and those people have never been able to eliminate them. The cultivator I killed back then was a member of that clan, so I had no qualms about killing him; otherwise, I would have died in his hands."

"Have you ever killed ordinary people before?"

"No." Tang Xiao was forced to lie because Yi An still didn't know his true identity. "Even though I had the strength to kill them, I couldn't do it because there was a powerful female cultivator protecting them. She would kill any cultivators who dared to attack ordinary people, and she was too powerful because she was the second strongest cultivator in that place."

"What is the name of that female cultivator?"

"Wang Fuxi." Tang Xiao used his qi to turn off the faucet because the bathtub was already full of water. "That woman is indeed a strong cultivator, but many of her family members can't cultivate, and they live in the outside world. She not only protects her family members, but she also protects other ordinary people."

Yi An thought for a moment. "Is that woman related to Wang Xiaogang's family?"

"Haha." Tang Xiao laughed at that and kissed her. "You know there are so many Wang families in our country, right? Honestly, I don't know that woman that well, and there are too many Wang families here, so I don't know which one she's related to."

"Well, you're right about that." Yi An asked another question. "Is Xing'er also a cultivator like you?"

"Xing'er was originally an ordinary person, and I taught her to become a cultivator after we were together." Tang Xiao immediately diverted their conversation. "So, what are your plans after you find much evidence of your husband's affairs with so many women? Are you going to divorce him?"

"Will you protect me and my Yi Family from my husband, Xiao'er?"

"I will." Tang Xiao answered in a firm voice. "I won't let your husband harm you or your family, so you don't need to worry about their safety. Once you've made up your mind, I'll take you away from the Ouyang House, and we can find a house to live in together."

Even though she already knew that Tang Xiao was a cultivator, Yi An was still hesitant to make the decision to divorce Ouyang Hong, mainly because she was afraid that he would order his subordinates to do bad things to her family. She had long wanted to divorce her husband even before she found ample evidence of his affair, especially since he had often treated her badly in the past. However, she never dared to make the decision because she was afraid her family would be in danger if she decided to divorce him, but she couldn't take it anymore after finding all the evidence of his affair, and the latest was his affair with her personal assistant.

Yi An took a deep breath and turned to hug Tang Xiao. "Promise me that you will protect me and my family from my husband."

"I promise," Tang Xiao answered without hesitation and hugged her. "Even though I can't kill your husband because of Wang Fuxi, I can protect you and your family from him, so you don't have to worry about that."

Yi An nodded slightly and raised her head. "After this, the two of us will go straight to my lawyer's office, and I will ask him to process my divorce from my husband. After that, we will return to the Ouyang house to collect my personal belongings, and I will bring my daughter to live with me."

"Alright." Initially, Tang Xiao wanted to have sex with Yi An, but he changed his mind, and they immediately finished their shower before leaving the hotel.

.
. .
.

After completing their breakthrough, Tang Huang, Tang Yin, Mu Qingge, and Tantai Lingyan immediately exited the ark to continue their journey to the Sun Clan.

Before they exited, Tang Yin asked Xiao Ai to send Yu Xiaoling, Jessica, and Zhao Yuxian out of the ark. Zhao Qing went out at the same time as them, mainly because she had to go to the late Tang Ye's company to take care of some things.

After that, Yu Xiaoling and Jessica went to Tianmei to take care of the company, and Zhao Yuxian decided to join them since her twin daughters would be away for a few days.

Mu Ling decided to leave the ark and return to the Mu House, but Mu Yan chose to stay inside to stabilize her newly broken-through cultivation.

Tang Xiao's clone had also left the ark and returned to Earth II, and he immediately changed his disguise so that people wouldn't recognize him. He didn't go to the Ming Clan's battle arena, and he trained in the forest by himself.

.
. .
.

Meanwhile, Xing Xing didn't immediately leave the ark, and she accompanied Chu Lingxi while explaining many things to her mother, especially about Tang Xiao's relationship with Tang Yin and all the other women.

Initially, Chu Lingxi was shocked to hear about Tang Xiao and Tang Yin's relationship, but Xiao Ai helped Xing Xing explain it to her mother.

Xiao Ai pointed out several things to Chu Lingxi, especially the fact that Tang Xiao was no longer human but a member of the Celestial Race. She proved this by showing that his blood was no longer red like that of ordinary humans, but it had become violet-gold like that of the Celestial Race.

Xiao Ai also showed Chu Ling several videos of her healing and modifying Tang Xiao's body, especially since his body was in a dire condition after he was shot and fell into the deep ravine, which made him and Tang Yin no longer related.

Even though she still felt strange about it all, Chu Lingxi chose to accept all of Xiao Ai's explanations because she had already shown a lot of evidence about Tang Xiao's changes. After that, Xing Xing took her mother out of the ark because they were still in another city, and they would return to their city today.

.
. .
.

They had arrived at the lawyer's office, and Yi An met her lawyer and asked him to take care of her divorce from Ouyang Hong as soon as possible. She handed over many videos of her husband's affair to her lawyer, including his sex video with Gong Qingyan.

The lawyer was shocked when he saw Ouyang Hong's sex video with Gong Qingyan, and he recognized the woman's identity. He did not provide any comments about the videos, and he immediately agreed to Yi An's request to arrange her divorce.

After Yi An's business there was finished, Tang Xiao brought her back to the Ouyang House. They arrived at the same time as Ouyang Qing, who had just returned from Lin Yan's house. "Qing'er, I've decided to divorce your father."

- To Be Continued -

Chapter 236: Packing

Ouyang Qing was surprised by her mother's decision to divorce Ouyang Hong, but she was also pleased that her mother finally had the courage to make that decision. She didn't ask anything and hurriedly followed her mother into the house, where they ran into Ouyang Ming and Su Rou.

Tang Xiao did not follow them, and he returned to his room in the driver's area to pack his personal belongings. Moreover, he had already asked Tang Yin to control Ouyang Hong, so he didn't need to worry about the two women. As for Su Rou, he handed over everything to Yi An because she had more rights to handle her personal assistant. 'Xiao Ai, I don't need that woman anymore, so you can start spreading all her sex videos to the public, especially to the wives of the men who had affairs with her.'

[Yes, Master]

Unlike Ouyang Ming, whose thoughts were only occupied by the female assistant, Su Rou looked confused by Yi An's expression when she looked at her.

Yi An unhesitatingly approached her personal assistant and landed a loud, crisp slap on Su Rou's cheek.

Slap

"Ahh!" Su Rou screamed in pain and fell to the floor.

"Mother, why—"

"Shut up, Ming'er!" Ouyang Ming hurriedly shut his mouth, but Su Rou was truly shocked when Yi An showed her a picture of her sleeping with him and Ouyang Hong. "You're fired! Pack your things and leave!"

"Madam—"

"Leave!" Yi An furiously shouted. "I don't need your explanation because this picture makes it clear to me that you slept with my husband and son! If you don't leave now, I will hand you over to the police."

Su Rou gritted her teeth, but she didn't say anything or defend herself, especially since Yi An already held evidence that she slept with Ouyang Ming and Ouyang Hong. She immediately stood up and ran to her room to pack her things.

Ouyang Ming wanted to follow Su Rou, but his courage was crushed when his mother glared at him, and her gaze was filled with disappointment because he and his father had slept with her personal assistant.

Yi An said nothing to her son and turned to her daughter. "Pack your things and we'll leave this house."

"Alright." Ouyang Qing hurriedly ran to her room, and Yi An also went to her room to pack their things.

After his mother left, Ouyang Ming followed Su Rou to her room because he didn't want to be separated from her, mainly because of the effects of the Love Sickness Potion.

.
. .
.

When she arrived in front of the bedroom, Yi An felt hesitant about going inside. She was afraid that Ouyang Hong would stop her from leaving and that he would lock her up at home, but she remembered Tang Xiao, and she believed that he would protect her.

Yi An took a few deep breaths before entering the bedroom, but she found her husband sleeping soundly. She was relieved that she wouldn't have to deal with him, and she grabbed a few suitcases before carefully starting to pack her personal belongings.

As she packed her personal belongings, Yi An repeatedly stole glances at her husband because she was afraid that Ouyang Hong would suddenly wake up, and he would do something to her if he saw her packing her things. 'Phew! I hope he won't wake up before I'm done, and I'll leave the house right after.'

.
. .
.

"Su Rou."

Su Rou, who was furiously packing her belongings, turned to Ouyang Ming. "You shouldn't have come here, or your mother will be even angrier with me. If you want to have sex with me, you can meet me at your father's apartment, and we'll do it there. You should get out and leave me alone now, or your mother will see you here."

"Alright." Ouyang Ming was afraid of his mother so he left the room and returned to his own, thinking of a way for him to stay together with So Rou.

.
. .
.

In her room, Ouyang Qing was busy packing her personal belongings, but she felt heavy about leaving the room she had lived in for years. Moreover, her mother hadn't explained their next destination, and she didn't know whether they would be staying in a hotel or somewhere else.

Ouyang Qing didn't want her parents to separate, let alone divorce. However, she knew that their relationship was beyond repair after Yi An witnessed her father's affair with Su Rou, and even worse, their threesome with Ouyang Ming.

Even though her father was much wealthier and always followed her every wish, Ouyang Qing chose to follow her mother out of the house because she loved her more than her father. As for her brother, she didn't like him but didn't hate him either, but she didn't like his relationship with Su Rou.

Ouyang Qing exhaled softly. "I don't know what will happen next, but I have to follow my mother and accompany her through this situation."

.
. .
.

About two hours later, the two women had finished packing their personal belongings, dragging several suitcases out of their bedroom.

Yi An first checked Su Rou's whereabouts, but her personal assistant was no longer in her room, and she couldn't find her in the house. After she confirmed that her personal assistant was gone, she checked on her son, finding Ouyang Ming sitting dazed on his bed.

Even though she loved Ouyang Ming, Yi An didn't say anything to her son. She was disappointed in him because he followed in his father's footsteps by sleeping with Su Rou, and she immediately left his room.

After Yi An and Ouyang Qing were ready, Tang Xiao took them away from the Ouyang House. "Where are we going now?"

"How about we go to the villa, Mother?" Yi An turned to Ouyang Qing. "As I recall, the villa is named after you, and the surrounding scenery is beautiful and calming. I think it's the perfect place to relax, and we'll spend some time together there."

"Alright." Yi An turned to Tang Xiao and told him the location of the villa, which was far outside the city and located on a mountainside.

Tang Xiao nodded slightly. "Do you two want to buy lots of supplies first? Although there are several security guards in the villa, it hasn't been occupied for a long time, so I'm sure there are no food supplies there."

"We'll stop by the supermarket to buy some necessities, and we'll go to the villa afterward."

"Okay." Xiao Ai suddenly informed Tang Xiao that Xue Bai had woken up, but he asked her to take care of the female snow leopard first, and he would enter the ark after his business with the two women was finished.

.

.

.

Xue Bai, who had just woken up, felt confused by the situation in the room. She had never seen such a modern bedroom before, and she could also feel that her body was much healthier than when she was in her previous place.

Xue Bai hurriedly got out of bed and walked to the side of the jacuzzi, dipping one front paw into it.

Swoosh

Xue Bai was startled by the sound of the door opening, and she hurriedly pulled her front paw out of the jacuzzi. She turned toward the door and looked at Xiao Ai, but she couldn't sense any signs of life from her body.

Xiao Ai approached the snow leopard and offered her a large piece of meat, but Xiao Bai sniffed it briefly and moved away from her. "We both have the same master, and

this place belongs to our master, so you don't need to be afraid of me. Besides, I've restored your condition, and I've also strengthened your body. From now on, your body will become healthier and stronger, and you will no longer experience situations like those in the past. Unfortunately, your cultivation is still at the Upper Foundation Level, so you can't transform into a human yet."

Growl

Xiao Bai's face and her white fur turned red from embarrassment, especially after her stomach growled from hunger. Xiao Ai laughed seeing the snow leopard so shy, but she immediately put the meat on the floor. "If you're hungry, you can finish this meat. I still have other things to do, so I'll leave you alone for now, and you can enjoy this meat."

After Xiao Ai left, Xiao Bai approached the meat and sniffed its aroma. She smelled an unusual aroma from the meat, and the scent made her even hungrier. She took a small bite of the meat to taste it, and her eyes sparkled with delight. In the end, she ate the meat with gusto because she had never eaten such delicious food before, especially after she was captured by a beast hunter.

In a matter of minutes, Xiao Bai had finished all the meat, making her burp loudly. She looked towards the bedroom door as it opened by itself, and she saw Mu Yan walking in with a big smile, making her instinctively walk backwards because she didn't know her.

"Xiao Bai!"

Mu Yan's shout startled her, and she wanted to run away. However, her cultivation was still too low, so she had no chance to escape.

"Roar!" Xiao Bai struggled to break free as Mu Yan hugged her.

"Hehe." Mu Yan giggled and didn't let go of Xiao Bai. "You don't have to be afraid of me, okay? You are Big Brother Xiao's contracted beast, and he is my mother's future husband, so we're family now."

- To Be Continued -

Chapter 237: Tang Xiao - Xiao Ai

Even though Mu Yan had said that, Xiao Bai still felt fear towards her. She wanted to escape from her grasp, but she couldn't because her cultivation was higher than hers.

Seeing Xiao Bai continue to struggle, Mu Yan pressed their foreheads together. "I heard from Xiao Ai that the beast trader treated you badly, but you don't need to be afraid of me because I won't hurt you like that person. Instead, I will treat you like my sister, so you can rest easy now, and you don't need to run away from me."

"Roar." Xiao Bai roared softly after hearing Mu Yan's words, and she became calmer in her arms. She was hesitant at first, but then she stuck her tongue out and licked her face. "Roar."

Mu Yan smiled to herself because Xiao Bai was finally willing to accept her, and she rubbed her head to calm her down even more. "Are you not afraid of me now?"

"Roar." Xiao Bai roared softly and shook her head.

"Such a smart snow leopard!" Mu Yan then glanced at her two small wings. "I didn't expect you to be a winged snow leopard, Xiao Bai. I once heard from my grandfather that your breed is much rarer than the wingless snow leopard, but it seems the trader didn't know that and sold you so cheaply. Fortunately, my big brother went to that place and bought you, so you will be fine in the future because no outsiders can enter this place except his family."

Xiao Bai surveyed the room before letting out a roar at her. "Roar."

"We're inside the Primordial Divine Ark now, and my big brother is the owner. This place is very vast and cut off from the outside world, so outsiders won't be able to enter here without his permission." Mu Yan then released the snow leopard and stood up. "Since you're in good health, I'll show you the other areas, and you won't be lost if you wander around alone in the future."

Xiao Bai nodded and walked beside Mu Yan, leaving Tang Xiao's room.

They didn't use the flying car to go to other areas; instead, they went on foot while Mu Yan told Xiao Bai many things, especially about the identities of the people by Tang Xiao's side.

Xiao Bai looked confused as she looked at the inner area of the Primordial Divine Ark, mainly because the interior was entirely different from the ancient Earth II.

Mu Yan brought Xiao Bai to look at other areas inside the Primordial Divine Ark while explaining many things to her, but she left the hot spring area for last.

When they arrived at the Farm area, Xiao Bai was drooling after she saw many beasts there, and she wanted to eat one of them. However, she held herself back because she had not gotten Tang Xiao's permission to eat them, and she followed Mu Yan to another area.

Xiao Bai was not interested in other areas, and she was only interested in the Farm Area because there were so many beasts there.

After she showed Xiao Bai all the areas inside the Primordial Divine Ark, Mu Yan took the snow leopard to the hot spring area.

Upon their arrival, Xiao Bai appeared frightened by the steam rising from the hot spring. Mu Yan informed her that the area was for relaxation, and the hot water in the pool was beneficial for their bodies.

After she took off her dress, Mu Yan led the frightened Xiao Bai into the hot spring. However, the snow leopard was still scared, and she didn't dare to go inside. "You don't have to be afraid, okay? Look at me, nothing happened to me, right?"

Xiao Bai felt doubtful about it, and she tried to stick one of her front paws into the hot spring. After she didn't feel excessive heat from inside the pool, she immediately jumped into it and joined Mu Yan, but she had difficulty swimming.

"Haha." Mu Yan laughed after seeing Xiao Bai struggling, but she hurriedly supported her so she wouldn't drown. "How do you feel? This hot spring makes you comfortable, right?"

"Roar." Even though she was initially afraid, Xiao Bai began to enjoy herself in the hot spring, and Mu Yan taught her to swim.

.
. .
.

Meanwhile, Su Rou arrived at Ouyang Hong's apartment, but she was furious that Yi An had fired her and kicked her out of the Ouyang House. She tried to contact Tang Xiao for help, but her calls only went to his mailbox.

"Where is he now? Why is his number connected to the mailbox? Is he with that old bitch?" Su Rou threw her smartphone and lay on the bed, thinking of another way to return to the Ouyang House. If she were kicked out of the house, her dream of replacing Yi An as Ouyang Hong's wife would be dashed. "Tch! Since that old bitch dared to kick me out of that house, I'll tell her husband that she's having an affair with her chauffeur. If I can't get her husband's wealth, I'll make her suffer, and her husband will punish her if he finds out about her affair."

Su Rou picked up her smartphone again and tried to call Ouyang Hong, but he didn't answer her call because he was under the control of Tang Yin's parasitic soul. She tried to call Ouyang Ming to ask about his father, but her call also couldn't go through because Xiao Ai had taken over his number.

Su Rou grew increasingly annoyed because she couldn't contact Ouyang Hong and Ouyang Ming. "What two useless men! I'm in this situation, yet they're ignoring me!"

Su Rou sighed softly and closed her eyes to calm her mind, but she still hadn't realized that her life would change completely after today, especially since Xiao Ai had already started spreading her sex videos with several men.

.

.

.

After a long journey, Tang Xiao and the two women finally arrived at the villa. He helped them carry their suitcases to their rooms, and Yi An asked him to choose a suitable room for him.

Ouyang Qing was surprised by his mother's decision to let Tang Xiao stay in the main building, especially since she hadn't yet known about Yi An's relationship with him. However, she was happy to have him stay in the main building, and she wouldn't have to go to the driver's room to spend time with him.

After he took the two women's suitcases to their respective rooms, Tang Xiao left them to rest first after the long journey. He went to the second floor and chose a bedroom with a balcony facing the back area, which was a flower garden. "What about the Origin Elemental Flower, Xiao Ai?"

[I've finished cloning the Origin Elemental Flower, so you can use the original to enhance your element, Master.]

"Yi An and Ouyang Qing are still awake, so let my clone use the flower." Tang Xiao walked out onto the balcony and took in the view outside. "Have you taken care of Yi An's divorce?"

[I've already taken care of everything, Master. Once my mistress arrives at the Sun Clan, I'll have her take control of Ouyang Hong, and we'll transfer most of his wealth to Yi An, including some of his companies. This way, the Ouyang Family will fall into poverty, and Su Rou will not get anything from him.]

Tang Xiao nodded in satisfaction with that. "Even though some of Ouyang Hong's wealth belonged to my late father, I will let Yi An have it. The Yi Family will rise in class after that, and they won't have to fear him anymore. Unfortunately, I can't kill him for now, so I'll let him live until I can defeat Long Yin."

[What are your plans for Ouyang Qing, Master? I know that she is the main mastermind behind you spending seven years in prison, but I'm sure Yi An will be sad if you kill her two children, and she probably won't be able to accept the fact that you are their killer.]

"I haven't made a decision about Ouyang Qing yet, and I'm still waiting for some things before I take action against her." Tang Xiao actually didn't want to forgive that woman because he didn't have a good relationship with her in the past, and she was the main mastermind who made him spend so many years in prison. However, he knew that Yi An loved her daughter very much, and she would be miserable if he killed her. "I think I will forgive her for her mother's sake, but this is not a final decision yet, and I will wait for the right time to take care of her."

[Master, I know that you hate Ouyang Qing, but I advise you not to kill her. Even if I can fix Yi An's mental state afterward, your relationship with her will never be the same, and she will most likely hate you for the rest of her life unless we alter her memories.]

Tang Xiao had also realized the problem, and his relationship with Yi An put him in a dilemma to kill Ouyang Qing. As for Ouyang Ming, he would hand her over to Tang Yin because he tried to violate her seven years ago, so she had more right to kill him.

Xiao Ai spoke to him again. [Master, I think you should spare Ouyang Qing, and you can control her through my sub-chip inside her brain.]

- To Be Continued -

Chapter 238: Tang Xiao - Yi An - Ouyang Qing

"Feng Xiao." Tang Xiao turned to Ouyang Qing, who had already changed clothes, wearing a white tank top and mini pants. "What are you doing here?"

Tang Xiao pulled her to stand with her back to him and hugged her from behind. "The atmosphere in this villa is peaceful, and the surrounding views are beautiful, especially this flower garden."

"Hehe." Ouyang Qing laughed and pointed ahead. "This flower garden is my mother's property because she loves flowers; she bought the land behind this villa without my father's knowledge and planted many flowers there."

"Are you trying to seduce me, Qing'er?"

"Do you need to ask that?" Ouyang Qing responded with feigned annoyance. "I want to have sex with you because you were gone all day yesterday, so we couldn't do it. Unfortunately, my mother is with us now, and she seems to still be sad because of my father's affair with Su Rou."

'This girl only thinks about sex every time she sees me.' Tang Xiao slipped his hands into Ouyang Qing's tank top, grabbed her braless breasts, and kneaded them. "Did you like my massage on them?"

"Mhmm..." Ouyang Qing moaned softly as she leaned into Tang Xiao's chest, and she grabbed his hands, guiding him to knead her breasts harder. "Mhmm... I always enjoy it when you massage my breasts like this, and I like it even more when you play with my nipples."

"Like this?"

"Mhmm... yeah..." Ouyang Qing looked back, but Tang Xiao directly sealed her lips and inserted his tongue into her mouth. She closed her eyes and then responded to him by extending her tongue, linking their tongues together. "Mhmm..."

Tang Xiao gave Ouyang Qing a deep, passionate, and hot kiss. His hands did not stop massaging her big breasts. He used his fingers to rub her already hardened nipples, making her slowly drift into sexual passion.

"Mhmm..." As their kiss grew more heated, Tang Xiao's right hand moved to Ouyang Qing's lower body. "Mhmm..."

Tang Xiao unbuttoned Ouyang Qing's mini pants and inserted his hand inside, but he discovered that she was not wearing any underwear, and his fingers slipped between her inner thighs to caress her pussy.

"Ahh..." Ouyang Qing moaned as Tang Xiao separated their lips, and she reached both hands back to hug his neck. She pressed her legs together and rubbed them against his hand, which was between them. "Mhmm... Feng Xiao... Ahh... We can't do this, or my mother will find out about our relationship."

Tang Xiao nibbled her ear and whispered to her. "Do you miss my dick, Qing'er?"

Upon hearing that, Ouyang Qing lowered her right hand from Tang Xiao's neck and rubbed his dick through his trousers, feeling her heart pound when she discovered it was already erect.

"Mhmm... your dick is already erect..." Ouyang Qing put her hand into his trousers, pushed aside his boxers, and caressed his dick. "Mhmm... I want your dick inside me now, but I'm afraid my mother will find out about our relationship."

'Your mother also enjoys my dick, you know?' Tang Xiao didn't tell Ouyang Qing about that because he felt it wasn't the right time to reveal everything, even though he wanted to have a threesome with the mother and daughter. He licked her ears and nibbled her earlobe, making her even more aroused.

"Ahh..." Ouyang Qing screamed as Tang Xiao's finger bent into her pussy, rubbing her clitoris, which was hidden between her labia. She wanted to stop him by closing her legs, but her legs went weak from the rush of sexual pleasure coursing through her body. "Ahh... Feng Xiao... Ahh... I will orgasm if you rub my clitoris this intensely."

Tang Xiao smirked slightly when he heard that, and he used the pleasure touch technique on Ouyang Qing's clitoris, causing her body to jerk strongly.

"Ahh... No... Ahh... I'm cumming!" Ouyang Qing's left hand hugged Tang Xiao's neck tightly, her right hand squeezed his dick, and she convulsed strongly due to the effects of her orgasm. As she enjoyed her orgasm, she felt his dick throb several times, followed by a gush of his cum that drenched her hand. "Mhmm... You ejaculated a lot in my hand."

After they finished their orgasms, Ouyang Qing pulled her hand out of Tang Xiao's trousers and looked at his cum sticking to her hand. She licked it slowly and enjoyed his cum, even though it was tasteless.

"Look at this." Ouyang Qing looked at Tang Xiao's hand, which was wet with her pleasure fluids. "I haven't fucked you yet, but you've had this many orgasms, Qing'er."

Ouyang Qing was also surprised to see her pleasure fluids on Tang Xiao's hand, but she did feel that her orgasm just now was much stronger than usual. She grabbed his hand and licked her pleasure fluids, taking turns licking his cum on her hand. "I feel weird licking my pleasure fluids, and it tastes really fishy."

"Haha." Tang Xiao laughed at that. "Even though your pleasure fluids taste fishy, I like the taste."

"Feng Xiao."

Yi An's voice startled Ouyang Qing, and she hurriedly licked Tang Xiao's cum off her hand before straightening her mini pants. She had fallen completely in love with him, but she wasn't ready for her mother to find out about their relationship, and she was afraid her mother would be disappointed that she was in a relationship with a chauffeur.

Tang Xiao didn't panic like Ouyang Qing, and he used his qi to remove her pleasure fluids from his hands.

When she heard Yi An's footsteps approaching, Ouyang Qing broke free from Tang Xiao's embrace and looked at her mother, who had just arrived. "Why are you in Feng Xiao's room, Qing'er?"

"I was bored in my room, so I came here to talk to him." Ouyang Qing asked her mother. "Why don't you rest in your room, Mom?"

"I want to sleep, but my heart is filled with worry. I looked for you in your room, but I couldn't find you there, and I thought you were here." Yi An walked towards them, stood by her daughter's side, and folded her arms on the balcony wall. "I've asked my lawyer to handle my divorce from your father, but I'm afraid that he will be angry with me, and he will do bad things to my Yi family."

Ouyang Qing put her arm around her mother's shoulder. "Have you told your family to be careful of my father?"

"Yeah." Yi An nodded at her. "I've told them about my decision to divorce your father, and they were really shocked after learning about it. Although they were surprised by my sudden decision, they were also happy because I finally had the courage to divorce him."

Ouyang Qing hugged her mother and spoke to her. "They should know that you were never happy with your marriage to my father, so I'm not surprised that they were happy after hearing your decision to divorce him. Have you told them your reasons for divorcing my father?"

"Yes." Yi An sighed heavily. "I already told them about your father's affair with Su Rou, but they were even more shocked after I told them that Ming'er was also involved with her."

"Honestly, I was confused by my brother's decision to have a relationship with that cheap whore, as he had never liked her in the past; however, he suddenly started a relationship with her and even had sex with both her and my father at the same time." Yi An agreed with Ouyang Qing because she remembered for sure that Ouyang Ming never liked Su Rou in the past, and he repeatedly asked her to sack her personal assistant, but they suddenly had that kind of relationship. "What are your next plans after you divorce my father, Mom?"

Tang Xiao did not interrupt the conversation between Yi An and Ouyang Qing; Instead, he listened to them while secretly laughing. 'Haha! Ouyang Ming is crazy about that slut because of my potion, you know?'

"I don't know." Yi An still didn't have any plans for the future because her decision to divorce her husband was too sudden, so she hadn't thought about her next steps after their divorce. She glanced at Tang Xiao, but he pretended not to notice and looked at the flowers in front of them. "Perhaps, I'll rest while waiting for my divorce from your father to be finalized, and I'll think about my future while waiting."

Ouyang Qing nodded slightly. "I think it's the best choice for you now, Mom. You haven't had time to rest all these years because you've been busy helping my father take care of everything, so I think it's time for you to rest for a while and calm yourself down."

"Sigh." Yi An sighed again. "I've wanted to divorce your father for years, but I never had the courage to do it. However, things have changed now, and I've found the courage to divorce him."

"What about my brother?" Just like Ouyang Qing, Tang Xiao was also curious about Yi An's decision regarding Ouyang Ming, especially since they had never discussed this matter before.

"Hmm?" Yi An thought as he looked at the flowers in front of them. "Although Ming'er is my son, his character is much more similar to your father's, so I'm not sure if he wants to stay with us. For now, I want to wait for my divorce from your father to be finalized, and I'll talk to your big brother after everything is settled."

- To Be Continued -

Chapter 239: Tang Yuan - Feng Yao

Since Yi An was still thinking about her divorce from her father, Ouyang Qing hurriedly pulled her out of Tang Xiao's room to go for a walk. They invited him to join them, but he declined, so the two of them went together.

After they left, Tang Xiao immediately entered the Primordial Divine Ark, but he hurriedly exited after taking one of the Origin Elemental Flower. At first, he wanted his clone to swallow it, but he was busy fighting beasts in the forest on Earth II, so he had to swallow it himself.

Tang Xiao sat cross-legged on the bed, and he hurriedly ate the Origin Elemental Flower. He felt a slight change in his body, and he felt that it was gradually warming up. However, Xiao Ai told him that the effect wouldn't be instantaneous and that he would have to wait some time for the fruit to take effect. Thereafter, he closed his eyes and began to cultivate, waiting for it to take effect.

Hun suddenly came out of the Sun Stone, sat beside Tang Xiao, and watched him in silence. She didn't disturb him; instead, she thought about some things in her mind, hoping that his fire element would increase by several levels, as it would help speed up her recovery.

.
. .
.

Wang Fuxi's sudden arrival startled Feng Yao and Tang Yuan, who were discussing some matters in the apartment. "Why did you suddenly come here again, Big Sis?"

"Did something happen, Big Sis?" Feng Yao also asked her.

"Where exactly is Tang Xiao hiding?" Feng Yao and Tang Yuan exchanged glances for a moment before returning their gazes to Wang Fuxi. "Shen Tianhu and Yang Mi are dead, and I can't find their son either. I'm sure he killed the three of them, but I can't sense his presence, and I don't know how he killed them either."

Tang Yuan was shocked in her heart after hearing that, mainly because Tang Xiao had not said anything to her about his actions. Moreover, Wang Fuxi had been keeping an eye on the Shen Family for some time, but he was so reckless as to kill them.

Feng Yao was also shocked to hear that, but she immediately spoke to Wang Fuxi. "Big Sis, I know you want to protect those mortals, but you don't know the cause of their deaths, and they may have died from other causes. Furthermore, you didn't see Tang Xiao kill them, so your accusations against him are baseless. In my profession as a lawyer and in our lives as cultivators, we cannot accuse others of committing crimes without evidence and witnesses. If you accuse him of crimes without them, he can also accuse you of deliberately killing them to tarnish his name."

"Are you—"

"No." Feng Yao interrupted Wang Fuxi while shaking her head. "I'm not accusing you of killing them to slander Tang Xiao, but you don't have any witnesses or evidence that he killed them, and you can't confirm the cause of their deaths either. Moreover, you've been keeping an eye on the Shen Family for the past few days, and you're much stronger than him, so he wouldn't be able to kill them under your watch."

Tang Yuan chimed in. "Big Sis, I have always admired you, but I am disappointed in you because you accused my nephew of killing the Shen Family without any witnesses or evidence. If you believe my nephew killed them, then you must be able to prove it with solid evidence; otherwise, you are no different from cultivators who have always acted as they please to suppress others with their power."

Wang Fuxi narrowed her eyes at Tang Yuan and Feng Yao, as she was sure that they knew Tang Xiao's whereabouts, and she was sure they knew how he killed the Shen Family members.

'Sigh! Xiao'er brings trouble!' Tang Yuan then spoke to Wang Fuxi again. "Big Sis, if you insist on accusing my nephew of killing the Shen Family without any evidence, then I choose to resign from my position starting today, and you can find someone else to replace me."

"Me too." Feng Yao also spoke. "Tang Xiao did kill the other families, but that doesn't mean he killed the Shen Family. However, you insist on accusing him of killing them without any evidence, and your attitude is contrary to my work as a lawyer. Since we are no longer on the same page, I also have to resign from my position, and you can replace me with someone else."

For a while, Wang Fuxi stared at Feng Yao and Tang Yuan without saying anything, and she disappeared from the apartment a moment later, making both of them sigh to themselves.

'When did Tang Xiao kill members of the Shen Family? How could he kill them under Wang Fuxi's watch?'

Tang Yuan could only shake her head. 'Xiao'er never told me anything about his plans, so I didn't know about his decision to kill them. This matter is becoming more and more serious, and Wang Fuxi will do whatever it takes to capture him, especially after this incident'

'Yes.' Feng Yao tried to contact Feng Shen, but she was shocked to hear from her uncle about Tang Xiao's actions at the auction yesterday. She found it difficult to believe, and she contacted her parents to confirm the truth, but their answer was the same as his. 'Does Tang Xiao really have the space element?'

'Eh?' Tang Yuan was surprised by her best friend's question, but Feng Yao explained the incident at yesterday's auction based on her uncle and her parents' story. 'You're right, Xiao'er does possess that kind of element. Actually, his element isn't a space element but a void element.'

'The void element?' Feng Yao was puzzled, as she had never heard of a cultivator possessing such an element before.

'I've never heard of the void element myself, but based on Xiao'er's explanation, it's a much higher level than the space element.' Tang Yuan picked up the glass in front of her and showed it to Feng Yao. 'Consider this glass to be Earth, and the hole inside is the space we currently live in. As for the void, it is the space outside this glass, and it has no end. Not even cultivators with the space element can reach that place, so Wang Fuxi will never be able to sense his presence, let alone find him.'

'Does that mean the void element is the same as outer space?'

'No.' Tang Yuan answered with a shake of her head. 'The outer space is the surface of the glass, and it protects us so we can live inside it. The void is beyond outer space, and Xiao'er said there is nothing but darkness inside that place.'

Feng Yao thought deeply as she looked at the glass in Tang Yuan's hand. 'Earth is the area inside the glass, the surface of the glass is the space that protects us, and the void is the empty space outside the glass.'

'Yes.' Tang Yuan nodded at her. 'Honestly, I still can't understand the clear distinction between the space and void elements because I don't possess either element, but Xiao'er explained it to me so I could understand it more easily.'

In fact, Tang Yuan heard about all that not from Tang Xiao but from Xiao Ai, mainly because her nephew was too busy with his own affairs. However, she was forced to tell Feng Yao that because her best friend still didn't know about the Primordial Divine Ark and other matters, she couldn't tell her everything without her nephew's permission.

Feng Yao herself had long realized that Tang Xiao had many secrets that he couldn't reveal to anyone, and she had also heard some things about his actions at the auction house before, including his gold coin stockpile. After all, she was very familiar with the Tang Clan, and she knew for sure that the clan wasn't a wealthy clan, so he couldn't possibly buy some auction items at such high prices.

Feng Yao released a soft sigh. 'I've been a cultivator for so long, but I've never even heard of the void element, and Xiao'er is probably the only cultivator who possesses it.'

'Unfortunately, you still don't know that Earth is just one planet in the lower realm, and there are countless planets in our universe.' Naturally, Tang Yuan didn't tell Feng Yao that, and she waited for the right time to tell her the truth, but everything depended on Tang Xiao. 'The problem now is what Wang Fuxi will do next, and I'm afraid she will choose to become Xiao'er's enemy. Although he is currently much weaker than her, I have no doubt that he will eventually surpass her. If she chooses to become his enemy today, I'm afraid a major battle will break out between them in the future, and she might end up tragically like those families.'

'If Wang Fuxi ends up tragically like those families, then it is her fault, and she must bear the consequences because she chose to be Xiao'er's enemy.' Tang Yuan looked at Feng Yao strangely. 'All this time, I have always respected her as my senior and leader, but I have also never agreed with her ideology of protecting mortals. Whether mortals or cultivators, they must accept the consequences of their actions, and he has the right to punish them because they killed his parents. Moreover, mortal law is too corrupt and cannot punish them, so I will always support him in killing them.'

Chapter 240: The Sun Clan

Tantai Lingyan was already in front of a fairly luxurious ancient building, with two standing guards on either side of the gate. "The Sun Clan! It's been a while since I last came to this clan."

"Welcome, Senior Tantai." The two guards greeted her.

Tantai Lingyan nodded slightly and walked into the clan. "Hmm? I'll see Old Sun later after Old Huang and the others arrive, and I should go see Zhang Xingcai to discuss Xiao'er's relationship with her daughter first."

Tantai Lingyan suppressed her aura as much as possible and went to the southern area of the Sun Clan's residence, where Zhang Xingcai's room was located.

When she arrived at the area, Tantai Lingyan saw Zhang Xingcai playing the guzheng in front of her. She could tell from her expression that she was enjoying the song she was playing, and her slender fingers were effortlessly plucking the strings of the instrument.

Zhang Xingcai has a mature face, with a gentle but serious look. Her black eyes looked calm, and her body was relaxed when she played her guzheng. She has straight brows, a small nose, and gently full lips. She gives off a serene yet powerful aura.

Her figure was feminine and slender but a bit curvy, with a narrow waist, standard but full breasts, long arms, and long legs. Her long, dark hair fell down her back, and the top was decorated with a pearl hairpin. She wore a simple, form-fitting black dress with turquoise accents, accentuating her breasts and waist. The bottom of the dress featured a high slit that revealed her legs, giving her a mix of elegance and subtle sensuality.

After a few minutes, Zhang Xingcai finished her song, greeted by Tantai Lingyan's applause. "I haven't seen you in a while, but you're as skilled as ever at playing your instrument, Xingcai."

"Hmm?" Zhang Xingcai turned to her. "I didn't expect that your cultivation had already broken through to the Lower Tyrant Level now, Lingyan. Furthermore, your cultivation hasn't stabilized yet, which means you broke through to this stage not too long ago."

"Hahaha." Tantai Lingyan laughed, making her large breasts jiggle around. "For the past few years, I have been busy with my cultivation, and I only broke through to this stage last night."

"Congratulations." Zhang Xingcai then asked another question. "What brings you to our clan after so many years?"

Tantai Lingyan hurriedly sat down in front of her. "I came here to see Old Sun on important business, but I decided to see you first because I wanted to discuss the relationship between my two disciples with you."

"Hmm?" Zhang Xingcai momentarily raised an eyebrow. "Tang Xiao is not a cultivator, right? How does he know my daughter? How could my daughter be in a relationship with him?"

"Xiao'er did not cultivate in the past because his late parents forbade him from becoming a cultivator like us, but he has become one due to some unexpected factors." Zhang Xingcai was surprised by this revelation, but Tantai Lingyan quickly explained to her the entire story of how Tang Xiao became a cultivator. "He likes Xiang'er, and he wants her as his wife, but—"

"But what?"

Tantai Lingyan sighed softly and chose not to keep Tang Xiao's status a secret from her. "Xiao'er already has two wives, Xingcai."

"Hmm?" Zhang Xingcai furrowed her forehead after hearing that. "Lingyan, you know—"

"I understand your feelings, but Xiang'er isn't you, and she's different from you." Zhang Xingcai didn't refute Tantai Lingyan. "Xiang'er knows Xiao'er's status, and she's met both of his wives many times. The most important thing is that they like each other, and they've kissed several times."

Zhang Xingcai was stunned to hear this, as she never expected her daughter to do such a thing with a man who already had two wives. She knew her daughter's character, and she believed that Sun Xiang would never do something like that with Tang Xiao after finding out he had two wives. "Are you trying to lie to me? I know my daughter's character, and she would never do something like that with a man with two wives."

"Haish! Why would I lie to you about this matter?" Tantai Lingyan grabbed her hand. "Xingcai, I know you want my daughter to find a husband who is only loyal to her, like your late husband. Xiao'er does have two wives, but the relationship between the two is excellent, and they live together."

Zhang Xingcai shook her head and pulled her hand back. "Tang Xiao is indeed the son of the late Tang Ye, but I will never allow my daughter to become his third wife. Even if he divorces his other two wives, I will never agree to their relationship."

"But—"

"My decision is final, and I will never allow my daughter to become his wife, even though he is the son of the late Tang Ye."

Tantai Lingyan had already guessed from the start that Zhang Xingcai would not agree to Sun Xiang marrying Tang Xiao if she knew he already had two wives, but she didn't want to lie to her, especially when it came to matters of love. "Xingcai, you—"

"Mother!" Tantai Lingyan and Zhang Xingcai turned to Sun Xiang, who was running towards them at high speed. "Eh? Big Sis Lingyan, where are the others? Did Tang Xiao come here with you guys?"

Tantai Lingyan shook her head. "I went to this clan before Old Huang, Mu Qingge, and Tang Yin, so I arrived before them. They're on their way here, and they'll arrive tomorrow morning. As for Xiao'er, he didn't join us, and he's staying in the outside world."

"Huh?" Sun Xiang looked at her in confusion. "If Tang Xiao stayed in the outside world, why didn't he answer my calls before? I looked for him because I wanted to ask about Xiao Meng, but he ignored my calls."

"He—"

"Xiang'er." Sun Xian turned to Zhang Xingcai, but she had a bad feeling when she saw her mother's serious look. "Are you really in a relationship with Xiao'er? Have you really kissed him too many times?"

Tantai Lingyan turned her face to the side when Sun Xiang turned to her, making her curse inwardly. "Mother, I have kissed Tang Xiao several times, but I—"

"You already know that he has two wives, right?" Sun Xiang sighed inwardly and nodded to Zhang Xingcai. "If you already knew that, why did you let him kiss you so many times?"

'Haish! You've caused me big trouble, Big Sis Lingyan! My mother must be furious with me, and she will never let me return to the outside world because of this matter.' Sun Xiang struggled to find the right words to explain the truth to Zhang Xingcai.

Zhang Xingcai narrowed her eyes because her daughter remained silent. "Tell me the truth, are you really in love with Xiao'er?"

"Mother, I—"

"What's going on here? Why are you so angry with Xiang'er, Xingcai?" Tantai Lingyan and Zhang Xingcai hurriedly stood up and saluted Sun Qian, who had just arrived. "Oh? Lingyan? When did you arrive at my clan? Why didn't I notice your arrival? Hmm? Your cultivation has already broken through to the Lower Tyrant Level, huh?"

Tantai Lingyan answered him. "Old Sun, I just arrived a while ago, and I came straight here to see Xingcai. As for my cultivation, I only broke through last night, so it's still unstable."

"Congratulations on your breakthrough, Lingyan." Sun Xiang immediately ran behind her grandfather without daring to look at her mother, confusing Sun Qian. "What happened to you, Xiang'er? Why are you afraid of your mother?"

"Father, Xiang'er fell in love with Tang Xiao, but he already has two wives." Zhang Xingcai answered him.

'Tch! I haven't fallen in love with Tang Xiao, Mother! He kissed me several times by force, and he didn't even discuss it with me first when he asked Big Sis Lingyan to come here to talk to you.' Sun Xiang only dared to grumble in her heart.

Sun Quan was quite surprised to hear that, and he turned to Sun Xiang, who was hiding behind him. He pulled her forward, turned her to face him, and lifted her chin. "Did you really fall in love with the late Tang Ye's son, Xiang'er?"

"Grandpa." Sun Xiang called softly. "Actually, Tang Xiao forcibly kissed me several times, and it started when Xiao Meng and I tried to capture him because he had killed several mortals."

"Oh?" Sun Qian turned to Tantai Lingyan. "Did you teach Tang Xiao to become a cultivator?"

"Old Sun, I didn't teach him to be a cultivator, and he was already one when I visited him in the outside world."

"Hmm? Who taught him to cultivate?"

"I don't know anything about his master." Tantai Lingyan explained to Sun Qian just like Tang Xiao and Tang Yin had explained to her before, which caused him to raise his eyebrows. "Xiao'er has only been cultivating for a month, but his cultivation just broke through to Peak Xiantian Level."

"Eh?" Sun Xiang was surprised to hear that. "Has Tang Xiao really reached that stage now, Big Sis Lingyan? As I recall, his cultivation was still at the Middle Xiantian Realm when I met him a few days ago, so how could his cultivation have broken through two stages in such a short time?"

"Haha." Tantai Lingyan laughed at her question. "If you want to know how Xiao'er managed to break through two stages at once, you'll have to go and ask him yourself, Xiang'er."
