Chapter 251: Four Women Talks

After a lengthy discussion, Sun Qian, Tang Huang, and Tantai Lingyan decided to head to the Feng Clan to meet Feng Xiaofang and Yan Huoling.

Meanwhile, Zhang Xingcai took Mu Qingge with him, and Sun Xiang took Tang Yin for a stroll around the city, as she had never been to Earth II before.

Zhang Xingcai and Mu Qingge walked side by side in another area. "Are you sure you want to marry Tang Xiao in the future, Qingge?"

Mu Qingge looked at Zhang Xingcai with a smile. "Xingcai, you've never met Tang Xiao, so you don't know his character yet, but I can tell you that he's a gentle man."

"Then, what about his status as the son of the late Tang Ye?"

"Although Tang Xiao is the late Brother Ye's son, they are two different people, so our relationship isn't a big deal." Zhang Xingcai looked at Mu Qingge in confusion.

"Moreover, I never had a romantic relationship with his late father, and we were just childhood friends. I do have feelings for Xiao'er, and he also has feelings for me. However, our feelings aren't that deep yet, and we're deepening them while getting to know each other."

Zhang Xingcai nodded in understanding before letting out a soft sigh. "I don't like Tang Xiao."

"Why?"

"Tang Xiao seduced my daughter, and he forcefully kissed her several times, causing her to develop feelings for him." Mu Qingge wasn't surprised by Zhang Xingcai's answer because she was a loyal woman, and she hadn't considered remarrying after her husband died several years ago. "I hope he's willing to leave my daughter because I don't want her to have a relationship with a man who practices polygamy, and I want my daughter to get a man who only loves her to death like her late father."

Mu Qingge nodded slightly. "I understand your hopes for your daughter, but you should also understand her feelings. Xiang'er already has feelings for Tang Xiao, and her feelings for him are quite deep, so you'll only make her sad if you try to separate her from him."

"But—"

"Xingcai, I understand you don't like polygamous relationships, but your daughter isn't you. Moreover, your daughter is an adult now, and she should be able to choose what's best for her future." Zhang Xingcai frowned at that, but then Mu Qingge asked her. "What if you don't decide this matter rashly? What if you wait for Tang Xiao to visit you and talk to you about their relationship? You are Xiang'er's mother, but you can't expect her to be like you, and you have to give her the freedom to choose what's best for her future."

Zhang Xingcai pondered her best friend's words seriously. She didn't want her daughter to have a husband with multiple wives, but she also knew her daughter's character, and she didn't want to disappoint or sadden her. "Do you know when Tang Xiao will visit our clan?"

"He's actually on Earth II, but he's training in the southern region." Zhang Xingcai was confused by Mu Qingge's answer because everyone said that Tang Xiao was in the outside world, but she said that he was training on Earth II. "I won't disclose this information to anyone, but we've been best friends since childhood, so I'll tell you the truth. Xiao'er's real body is in the outside world, but his clone is here, and he attended an auction at the Xuan Clan's auction house two days ago. If you don't believe me, you can ask Uncle Zhang and Aunt Chen about this matter because they met his clone and Senior Feng Shen there."

After hearing this, Zhang Xingcai contacted her parents, Zhang Fei and Chen Xinyan, to inquire about the truth of Mu Qingge's words. Her father didn't answer her because he was busy with other matters, but her mother confirmed it and told her about some of Tang Xiao's clone's actions at the auction house.

Chen Xinyan also told Zhang Xingcai that all the clans were looking for the whereabouts of Tang Xiao's clone because he bought many valuable items at the auction, including the Ascension Fruit.

After listening to everything, Zhang Xingcai turned to Mu Qingge again. "Did Tang Xiao give you the Ascension Fruit? At first, I was confused by your cultivation because you were still at Peak King Level when we last met, but you've already broken through to Lower Emperor Level, even though you should still need several years to reach that stage."

"No." Mu Qingge was forced to lie to Zhang Xingcai because she couldn't possibly tell her that Xiao Ai helped Tang Xiao to clone the Ascension Fruit. "Xiao'er ate the fruit for himself, and his cultivation has already reached the Peak Xiantian Level. As for my cultivation, I cultivate using his Yang Qi, and it is several times stronger than other men's, including cultivators several levels above him."

Zhang Xingcai remembered everything she saw about Tang Xiao in Tantai Lingyan's memories, especially about his violet-gold blood. Although he didn't have information

about his blood, it was not ordinary blood, and no cultivator possessed it. "Did he also cultivate recently?"

"Yes." Mu Qingge nodded at her. "Tang Xiao and Tang Yin cultivated on the same day, but his cultivation was higher than hers because he cultivated using the four women's Yin Qi."

"Four women?"

"Mine, Tang Yin, Xing Xing, and Sister Lingyan." Zhang Xingcai's eyes widened in shock as soon as Mu Qingge said the last woman's name. "Sister Lingyan is not his wife, and she gave her yin qi to him because she already considered him her son. She trained him since he was five years old, and they have a closeness that no one else can understand, so she did that to help him become stronger."

Zhang Xingcai knew that Tantai Lingyan was close to the Tang Clan and that her relationship with them extended beyond their family ties, so she was not surprised that she was willing to help Tang Xiao to such an extent. "Will you be staying here for a while?"

"Yes." Mu Qingge nodded at her. "However, I'll leave after Uncle Huang and Sister Lingyan return, and I won't be back here for a long time because I want to focus on my training."

"I see." After that, the two women talked about several other things.

.

.

.

Tang Yin enjoyed walking around the city accompanied by Sun Xiang. She bought many snacks there because they weren't available in the outside world, and she thoroughly enjoyed them.

"Do you want some?" Tang Yin handed Sun Xiang some food.

"I've lived in this city since I was little, and I'm used to all the snacks here, so you can enjoy them yourself." Sun Xiang then asked her. "Where is Tang Xiao now? Does he really live in the outside world?"

"Xiao'er still has some unfinished business in the outside world, so he didn't join us in going here, but—"

"But what?"

"Hehe." Tang Yin giggled. "Impatient, huh? Xiao'er does live in the outside world, but his clone trains in the southern region."

"Huh?" Sun Xiang looked at her in surprise. "Does Tang Xiao really have a clone technique?"

Tang Yin nodded at her. "Xiao'er does have a clone technique, which he inherited from his master. Otherwise, he wouldn't be able to cultivate so quickly and reach your level in just over a month, right?"

"I see." Sun Xian finally understood a little about Tang Xiao's cultivation speed. "I didn't expect him to inherit so many interesting things from his master, so it's no wonder his cultivation has improved so rapidly, and his cultivation speed makes me envious."

"Haha." Tang Yin embraced her shoulders. "Have you thought about your relationship with Xiao'er? Are you willing to be his wife?"

"Not yet." Sun Xiang shook her head as she sighed. "I admit that I started to have feelings for Tang Xiao, especially after he stole my first kiss and kissed me several times. However, I won't accept him that easily, and he has to convince me to accept him first. Moreover, my mother will never agree to me being in a relationship with him, so his other task is to convince my mother to accept him. If he succeeds in convincing me and my mother, I might accept him in the future."

Tang Yin nodded in understanding. "How about I ask Xiao'er to bring his clone here and meet your mother?"

"You don't have to do that." Sun Xiang refused with a shake of her head. "Tang Xiao will have to face Wang Fuxi and Long Yin in the future, and they are the two strongest cultivators on Earth II. Moreover, they still have people from their two clans, and they will attack him if he tries to trouble them. Therefore, he needs high strength to fight them, and he must train hard to improve himself."

"You're right," Tang Yin replied with a soft sigh. "For now, only the Ouyang Family remains, but Xiao'er can't kill Ouyang Hong because of Long Yin's presence behind him. Once he manages to defeat that man, he will destroy that murderer and rapist. As for Wang Fuxi, she was one of the causes of our parents' deaths, and they would never have died if she had allowed Aunt Yuan and Aunt Yao to save them."

"What does Tang Xiao want to do with Wang Fuxi?" Sun Xian curiously asked.

"Xiao'er met with Wang Fuxi last night, but he still has no plans for her, and his focus is on Long Yin."

Chapter 252: Sun Yue Ask For A Spar

After they finished strolling around the city, Sun Xiang brought Tang Yin back to the Sun Clan. "Do you want to train with me?"

"I think that's a great idea," Tang Yin immediately agreed. "I haven't been able to train since the journey to this clan took several days, and my cultivation just broke down last night, so I wanted to stretch my muscles."

Sun Xiang laughed at that. "Grandpa Huang took the wrong portal, so it took you several days to get here. If you had gone through my portal, you would have arrived two days sooner."

Tang Yin could only sigh after hearing that because she herself had never been to Earth II before, and Xiao Ai had never been there either, so she had no data about the nearest portals.

Then, Sun Xiang led Tang Yin to the training ground to train, but they found Sun Yue and Sun Yang training there.

Sun Yang only glanced at them briefly, but he immediately ignored them and trained with the members of the Sun Clan.

"Does your cousin always act like that with other women?"

Sun Xiang nodded and then explained the situation to Tang Yin. "You don't know Hao Xingchen, and she's the most possessive woman I've ever known. She loves my cousin wholeheartedly, and he loves her too. However, she gets jealous easily when my cousin is close to other women, so he avoids them to prevent her jealousy, or she'll attack them."

"I see." Tang Yin nodded in understanding. "Some women are like Hao Xingchen, but she might end up in big trouble in the future if she doesn't try to control her jealousy."

Sun Xiang released a helpless sigh. "Everyone had reminded Hao Xingchen to control her jealousy, but she never listened to them or tried to control her jealousy. Actually, I once had a problem with her because she didn't know that we were cousins, and she attacked me first, so I retaliated and beat her up."

"Hehe." Tang Yin chuckled. "I never thought that you could fight, especially with a character like yours."

Sun Xiang snorted before refuting. "Of course I can fight, but I'm not interested in pointless fights. I—"

"Tang Yin." Tang Yin and Sun Xiang turned to Sun Yue, who was walking towards them. "Did you come here to train? How about you spar with me?"

"Sure." Tang Yin readily agreed. "However, I'm still inexperienced, so you'll have to be gentle with me."

"Haha." Sun Yue laughed and pulled Tang Yin to another area, with Sun Xiang following behind them. "Don't worry, I won't bully you, and I'll limit my strength."

Tang Yin simply smiled upon hearing that, and they began their spar upon arriving. However, Sun Yue and Sun Xiang were shocked by her speed, as it was far too fast for a cultivator of her level, especially with her unstable cultivation base.

Watching their spar from a distance, Sun Yang was equally shocked when he saw Tang Yin disappear from his sight. He tried to use his senses to detect her whereabouts, but her movements were too fast for him to follow her.

Since becoming a cultivator, Tang Yin had focused on practicing with the gravity device in the ark and had perfectly adapted to level three, which allowed her speed to surpass that of cultivators at the Xiantian Level like Sun Yang and Sun Yue.

When Tang Yin suddenly moved behind her, it startled Sun Yue, prompting her to quickly jump away before it was too late. A light punch landed directly on her stomach, causing her to stagger a few steps back.

"How can your speed be that fast in just over a month?" Sun Yue asked when Tang Yin reappeared in front of her.

"Training, of course." Tang Yin moved again to attack Sun Yue, who immediately parried her attack and countered. "I have many people helping me catch up with cultivators at my level, including Big Sis Lingyan."

"I see." Sun Yun smiled. "If that's the case, I don't need to hold myself back, right?"

"Okay."

Tang Yin and Sun Yue disappeared, causing those present to stop their training and watch the two women.

Sun Yang also stopped his training, and his eyes tried to follow the two women's movements. However, he could only see Sun Yue's movements but not Tang Yin's, which confused him.

Just like her cousin, Sun Xiang also had difficulty seeing Tang Yin's movements, but she could see that Sun Yue was being pushed back by her attacks. "How did she train her speed? She is a darkness cultivator, but her speed is much faster than a wind cultivator like Yue."

Sun Yue herself was completely shocked by Tang Yin's speed, and she could barely dodge her attacks, even though she had used her wind element to increase her speed. "Unbelievable! She's only been cultivating for a little over a month, but her speed is already faster than mine! If she cultivates for a few more years, I won't be able to keep up with her speed anymore."

.

.

.

Meanwhile, Tang Xiao and the two women arrived in town, but Yi An asked him to take them to the Yi House because she wanted to talk to her family about her divorce proceedings with Ouyang Hong.

After they arrived at the Yi House, Tang Xiao left the two women there and went to meet Xing Xing at the apartment, as she had just returned from out of town.

Ouyang Qing didn't like it, but she couldn't stop Tang Xiao because he was Xing Xing's legal husband, and she was just his mistress. Moreover, she was in her mother's family's house, and she couldn't possibly do anything with him.

.

.

.

A few minutes later, Tang Xiao arrived at the apartment, where Chu Lingxi was waiting for him. Even though Xing Xing and Xiao Ai had already explained everything to her about his relationship with Tang Yin, she still wanted to hear it from him.

Tang Xiao slashed his finger slightly and showed his violet-gold blood to Chu Lingxi, and he also explained to his mother-in-law about his feelings for his big sister that had been hidden for a long time, but they finally became a couple after they became cultivators.

Even though she had seen all the evidence of Tang Xiao's change from Xiao Ai, Chu Lingxi still harbored disappointment in his relationship with Tang Yin, especially because she was his big sister.

After all, Chu Lingxi was an ordinary person at first, and she had only been a cultivator for two days, so she still found it difficult to accept Tang Xiao's relationship with Tang Yin.

Chu Lingxi ultimately chose to forget about it because Xing Xing was Tang Xiao's wife, and she didn't want to make her daughter sad because of that matter.

After he talked with Chu Lingxi for some time, Tang Xiao took Xing Xing out for a walk.

.
. .
.

"Phew!" Xing Xing sighed. "I can finally feel relieved because my mother has accepted your relationship with Big Sis Yin, husband."

Tang Xiao turned to her. "What if my mother-in-law can't accept my relationship with Yin'er?"

"I don't know." Xing Xing replied with a shake of her head. "After Xiao Ai explained everything to my mother yesterday, she said that she could accept your relationship with Big Sis Yin. However, she didn't say a word after I brought her out of the ark, so I worried she wouldn't accept your relationship with her."

"Are you afraid that my mother-in-law will ask you to leave me?"

Xing Xing nodded at him. "If my mother really asked me to leave you because of your relationship with Big Sis Yin, I still wouldn't leave you because you are my husband, and I will continue to stay by your side. If that happened, she would be angry with me, and she would probably blame me forever. Fortunately, she is willing to accept your relationship with her, so I don't have to worry about everything anymore."

"I'm sorry; I've put you in an uncomfortable position." Tang Xiao hugged her and kissed her. "Since your mother has accepted my relationship with Yin'er, everything will be fine in the future."

Xing Xing nodded and leaned against him. "What about Yi An and Ouyang Qing?"

"They're living in the Yi House now, and Yi An has already decided to divorce Ouyang Hong." Xing Xing was happy to hear that because Yi An had suffered too much in the last few years, and she would be able to find new happiness after she divorced her husband. "In a few days, she and Ouyang Qing will go on vacation, and they won't be back until the divorce is finalized."

"What about Lin Yan? Are you really going to kill her after her husband divorces her?"

Tang Xiao let out a soft sigh. "That woman is still wandering around this city, and I don't know when she'll return to her place. If I kill Lin Yan, she will make a move and attack me, so I haven't decided on that yet."

"Husband." Tang Xiao looked at Xing Xing. "What if you don't kill Lin Yan? I know she framed you seven years ago, but she's actually not that bad. Moreover, she's different from Luo Qinlin, so I hope you're willing to spare her and let her go."

"Let me think about this matter first, okay?" After that, Tang Xiao took Xing Xing to a quiet place before bringing her into the ark, mainly because he wanted to check on Xue Bai.

Chapter 253: Make A Contract

When he and Xing Xing arrived at the residential area, they found Xue Bai lying beside Mu Yan with her eyes closed. Tang Xiao could feel that her body hadn't stopped absorbing qi, which meant Xiao Ai had taught her the Everflowing Qi Method.

Tang Xiao himself had no problem with it, and he had already shared the technique with everyone close to him. This way, they could cultivate at any time, even while they slept.

Xue Bai's ears twitched when she smelled Tang Xiao's scent, and she hurriedly stopped cultivating and opened her eyes. She jumped down from the bed, walked over to him, and rubbed her head against his leg.

Tang Xiao squatted in front of her, rubbing her head. "Please forgive me, Xue Bai. I had some problems outside, so I was only able to see you today."

"Roar." Xue Bai roared softly as she shook her head, especially since Xiao Ai had already explained everything to her. She looked at Xing Xing, who was squatting beside Tang Xiao. "Roar."

"Xing'er is my wife, and she will never hurt you."

Xue Bai stared at Xing Xing for a while before bringing her head toward her, bowing to her. After all, she was Tang Xiao's wife, and he was her master, so she was also her master.

Xing Xing was delighted to see Xue Bai like that, and she reached out her hand, rubbing the winged snow leopard's head. "Nice to meet you and welcome to the family, Xue Bai. From now on, you're part of our family, and you can call me Xing Xing."

"Roar." Xue Bai roared at Xing Xing again as she wagged her tail, indicating that she liked her.

"Hehe." Xing Xing giggled at the sight and then looked at Tang Xiao. "Can you find me a suitable female beast to accompany me, husband?"

Tang Xiao nodded at her. "What kind of beast do you want?"

"Hmm?" Xing Xing tapped her chin as she thought. "I don't want a fierce beast, and I want a cute one. I believe that you already know my taste, so you can find a beast that you think is suitable to be my partner."

"My clone is training in the forest right now, so I'm going to look for suitable beasts for you and Yin'er, and I'll bring them here once I find them." Tang Xiao looked at Xue Bai, who was staring at him with anticipation. "Do you want to form a contract with me now?"

Xue Bai nodded at Tang Xiao and brought her head closer to his. However, he had never formed a contract with a beast before, so he searched for information about it in Xiao Ai's data first, and he pressed their foreheads together after he found it.

Tang Xiao and Xue Bai closed their eyes, and they focused their minds on each other. A while later, a white light appeared between their foreheads, and it gradually became brighter, dazzling the room for some time.

After a few minutes, the white light disappeared by itself. Tang Xiao and Xue Bai immediately opened their eyes and looked at each other, as they felt an unusual feeling from each other.

Tang Xiao separated their foreheads and rubbed her head. "From now on, you are my contract beast, Xue Bai. We will strive hard to become strong, and we will protect each other from those evil cultivators."

"Master."

Tang Xiao was stunned when Xue Bai called him, and he asked Xing Xing to make sure he didn't hear wrongly. "Did you hear that, Xing'er?"

"Hmm?" Xing Xing looked at him in confusion. "What do you mean by that, Husband? I didn't hear anything except Xue Bai's low roar."

[Master, Xue Bai can't speak directly yet, and you can understand her words because of the contract between you. When her cultivation reaches the Emperor Level, she can transform into a human, and everyone can understand her words even when she's in her beast form.]

"I see." Tang Xiao rubbed Xue Bai's head. "Apparently, I can understand her words because of the contract between us, so you can't hear her yet, Xing'er. When her cultivation reaches the Emperor Level, she can transform into a human, and you can understand her words even when she's in her beast form."

"Really? Will I also be able to understand Xue Bai's words in the future?"

"Yes." Tang Xiao nodded at her. "According to Xiao Ai, beasts cultivate slower than us humans, so it will take her a long time to reach that stage. However, it should not be a problem because Xue Bai can cultivate using my qi and the Celestial Yin-Yang Arts, so I am confident her cultivation will reach that stage faster."

After Tang Xiao said that, Xue Bai's snow-white fur flushed red. After all, she was already 18 years old, and she fully understood what he meant.

"Hehe! Xue Bai blushed until her fur turned red, husband." Xing Xing laughed teasingly.

Xue Bai lowered her head in shame, but Tang Xiao touched her forehead and imparted the Celestial Yin-Yang Arts into her mind, making her blush even more with shame.

"Master."

"You can learn that technique first, and I will give you my yang qi later." Xue Bai nodded to Tang Xiao and jumped back into the bed, curled up by Mu Yan's side and studied the technique. "Let's go to our room, Xing'er."

Xing Xing was excited about it because she went out with her mother three days ago, and she couldn't spend time with Tang Xiao, so she really wanted to spend time with him now.

Xue Bai watched Tang Xiao and Xing Xing walk out of the room, and her eyes trembled as her fur grew redder, imagining things.

.

.

.

Tang Xiao was already lying on the bed, with Xing Xing curled up and cuddled in his arms. He listened to her recount her activities as she accompanied her mother to her relative's house. "Initially, I thought about teaching them about cultivation since they're my mother's closest family, but Xiao Ai told me that they don't have cultivation veins like Aunt Yi and Ouyang Qing."

"Being a cultivator can make us live longer, but that's not always a good thing." After being a cultivator for some time, Xing Xing could already understand the situation. "Furthermore, your family already enjoys a comfortable life, and if they decide to become cultivators like us, it will disrupt their lives. Besides, their lives will not be peaceful because that woman will continue to monitor them, and she will probably kill them if they misuse their power like me."

Xing Xing raised her head and looked at him. "What's your next plan, husband? Almost all your old enemies are dead, so only Ouyang Hong and Ouyang Ming are left. However, you can't do anything to them yet because they're under Long Yin's protection, and your life will be in danger if you fight him with your current strength."

"You're right about that." Tang Xiao let out a soft sigh. "Since Yi An and Ouyang Qing are going on vacation, and they won't be back until the divorce proceedings are finalized, I plan to go to Earth II to train."

"Isn't your clone on Earth II now? So, why are you going there too?" Xing Xing asked in confusion.

"Hahaha." Tang Xiao cupped her cheeks. "Aren't two better than one? If my clone and I train on Earth II, then my progress will be even faster. When I reach Long Yin and Wang Fuxi's level, I'll challenge them to a fight, and I'll defeat them then."

"What are your plans for Long Yin and Wang Fuxi in the future?"

Tang Xiao didn't answer Xing Xing right away, but she could see the hatred in his eyes. "Initially, I hadn't given this much thought, especially since my strength was still significantly weaker than theirs. In the past, Long Yin prevented my grandfather and master from saving my parents, and Wang Fuxi stopped Aunt Yun and Feng Yao. They caused my mother to go through a terrible experience that day, and my father was forced to witness their depraved actions against her. After they were satisfied, they killed my parents, so I will never forgive those two people."

"Then?"

"Xing'er, I know that you've never liked me killing people, but Long Yin and Wang Fuxi were the cause of my parents' deaths, and I watched what happened that night with my own eyes." Tang Xiao's gaze turned cold as he recalled the events of that night seven years ago. "I can't do anything to them now because they are the two strongest cultivators on Earth II, but I will reach their level in the future. At that time, they will experience what I experienced seven years ago, and I will kill the people closest to them in front of their eyes so that they understand my suffering. I will show them hell by crippling their cultivation, and they will spend the rest of their lives as mortals."

Xing Xing didn't say anything, as she could see the seriousness in Tang Xiao's expression, but she had no intention of stopping him. If she did, she was afraid that the past trauma would haunt him for the rest of his life, and he might become even more ruthless in the future. "Husband, please promise me that you won't seek trouble with Long Yin and Wang Fuxi until you are truly ready, because Big Sis Yin and I will be very sad if you die."

"I promise."

Chapter 254: With Xing Xing*

Xing Xing shifted away from Tang Xiao's body and put on a flirtatious, seductive smile. She grabbed the hairpin holding her brunette hair, tossed it, and let it fall loosely down her shoulders.

Xing Xing stared at Tang Xiao as her fingers moved across her chest, and she slowly unbuttoned her shirt one by one while teasing him by sticking her tongue out and licking her lips.

Tang Xiao smiled in amusement as he watched Xing Xing act like that. She usually acted shy whenever they were together, but she suddenly acted flirtatiously. He wanted to tease her back, but he restrained himself from doing that because he didn't want her to feel embarrassed.

Xing Xing had taken off her blue long-sleeved shirt and thrown it on the floor. Then, she reached for the bra hook behind her back and took off her bra, making Tang Xiao gulp at the sight of her naked upper body. "Do you like my body, husband?"

"I like your naked body so much, Xing'er." Tang Xiao stretched out his hand and stroked the skin of her arms, and he really liked her tan skin, making her look different from Tang Yin or Mu Qingge, who had smooth white skin. "Even though I've seen you naked over and over again, I never get tired of looking at you and caressing your skin."

Xing Xing smiled as she grabbed both of Tang Xiao's hands, placing them on her breasts and guiding him to squeeze them. "Are they good, husband?"

"Even though your breasts aren't big, they're soft and supple, and I really enjoy squeezing them." Xing Xing pulled Tang Xiao to sit down on the bed, took off his shirt, and groped his naked chest. "Did you miss me?"

"I missed you so much, and I want to have fun with you." Tang Xiao immediately stood up after Xing Xing signaled him, and she began to remove her husband's trousers. She held his flaccid dick, brought it to her mouth, and began licking it. "Do you like it, husband?"

Tang Xiao rubbed her hair. "I've always liked your service, Xing'er."

Xing Xing smiled upon hearing that and continued to lick Tang Xiao's dick. Her soft and tender tongue moved nimbly on his shaft, and she used her saliva to wet the skin. Her tongue danced up and down his shaft, and she occasionally licked his testicles and sucked them in her mouth, making his cock slowly start to wake up from its slumber.

A few minutes later, Tang Xiao's dick was standing straight in front of Xing Xing's face. Her hands squeezed it gently, feeling its hardness. She didn't insert it straight into her

mouth; instead, her tongue swirled around the head of his dick, licking and wetting every inch.

"Ugh..." Tang Xiao moaned in pleasure as Xing Xing swirled her tongue around the head of his dick, and her warm saliva made him eager to feel her suction. Despite this, he didn't rush her to do it, and he enjoyed her tongue play, sometimes slow and sometimes fast. "Xing'er, you're getting better at doing this, and the licks of your tongue arouse me."

Xing Xing looked up at Tang Xiao without saying anything, and she devoured the head of his dick straight away. She didn't rush to take it too deep into her mouth; Instead, she sucked on his glans, and her tongue kept moving around it while licking it.

"Ugh." Tang Xiao experienced a sensation as the warmth of Xing Xing's mouth enveloped the head of his dick. He thoroughly enjoyed it because her actions provided him with a unique sensation, causing his erection to become harder the more aroused he became.

Tang Xiao's eyes kept opening and closing as he enjoyed his wife's play with the head of his dick, and his mouth repeatedly released moans of pleasure. He grew increasingly impatient and wanted to fuck Xing Xing's mouth, but he quickly controlled his lust to prevent himself from doing so.

Once again, Xing Xing looked up to see the expression of her husband, who was enjoying her sucking and licking the head of his dick. She could see that her husband couldn't wait to fuck her, but he tried his best to restrain himself.

Xing Xing decided to take her husband's dick deeper until half of it was in her mouth. Her head bobbed up and down as she sucked on the shaft. Her tongue continued to move nimbly on the head of his dick, giving him even more sexual pleasure.

Tang Xiao was fully enjoying Xing Xing's action of sucking and licking his dick, as evidenced by his increasingly loud moans. He held both sides of her head and enjoyed her blowjob, but he didn't take control and let her do as she pleased.

Tang Xiao felt his dick getting hotter inside Xing Xing's mouth, enveloped by her warm saliva. As time went on, her head bobbed faster, and her sucking on his dick became stronger, producing smacking sounds mixed with his moans.

"Ugh...!" Tang Xiao moaned louder as his wife took his entire dick into her mouth, and she sucked it even harder than before. He also felt a different sensation when she used her lightning element in her mouth, giving him an electric shock that further burned his lust. "Ugh... Your sucking technique is getting more and more pleasurable."

Tang Xiao could have used his technique to delay his ejaculation, but he chose not to. He held Xing Xing's head, prevented her from moving, and shot a large amount of his cum into her mouth.

Xing Xing had no problem with it because Tang Xiao's yang qi was very beneficial for her cultivation, and she was eager to make love to her husband. She enjoyed the strong flow of his cum as it went down her throat. Her hands moved quickly on his shaft because she wanted to milk more of his cum, which was beneficial for her body.

After a few minutes, Tang Xiao stopped ejaculating, and Xing Xing released his dick from her mouth. She lay down in the middle of the bed as she took off her long jeans. She lifted her legs to the side, supported them with both hands, and showed off her pussy, which was covered in neat pubic hair. "Husband, my pussy is waiting for your dick."

"Hahaha." Tang Xiao laughed seeing her like that, and he immediately took off his trousers before pressing her under him. He moved her pubic hair to the side, and he rubbed her pussy, feeling the wetness. "You're really wet, Xing'er."

"Mhmm..." Xing Xing moaned softly as her husband's finger rubbed her wet pussy, and her red cheeks grew even redder as she grew more aroused. Even though she was a cultivator, her entire body was incredibly sensitive, especially her pussy. "Mhmm... Husband..."

Xing Xing's pink lips were shy but irresistible. Her breasts weren't as large as Tang Yin's, but they still tempted him to devour them, especially her erect nipples. Her hips were a bit meaty, but they made perfect love handles.

Tang Xiao knew that Xing Xing wanted his dick inside her, but he didn't like rushed sex, and he preferred slow sex. He lowered her left leg, lay down beside her, and wiped the remaining cum from her mouth. He kissed her lips as he moved his finger on her pussy in slow motion.

"Ahh..." Xing Xing knew her husband's preferences when it came to sex, so she didn't complain to him. She closed her eyes, wrapped her arms around his neck, and returned his kiss. "Mhmm..."

Tang Xiao stopped rubbing her pussy and moved his hand to her right breast. He kissed his wife deeper and more passionately, and his hand began to knead her breast, which was not too big but firm and full.

"Mhmm..." Xing Xing began to moan as her husband kneaded her right breast, and sexual pleasure coursed through her body rapidly. He placed her hardened nipple between two fingers and pinched it, with his fingertips rubbing the tips of her nipples. She hugged his neck with her right hand and moved her left hand over his, guiding him to play with her left breast. "Mhmm..."

Slowly but surely, their kisses became hotter and deeper. Xing Xing pulled Tang Xiao to move on top of her, wrapped her legs around his waist, and rubbed her pussy against his hard dick.

Tang Xiao naturally knew his beloved wife's desires, so he moved his lower body in rhythm with hers, causing his dick to rub her wet pussy more intensely. She kept wriggling beneath him as the sexual pleasure within her body grew stronger, making her even more aroused and eager to insert her husband's cock into her body.

After a long kiss, Tang Xiao separated their lips and brought his face closer to Xing Xing's neck. He slowly licked her neck with his tongue and gently sucked on her skin. "Mhmm... husband..."

Tang Xiao didn't linger on Xing Xing's neck, and he slowly moved down, licking every area he passed with his tongue. He stopped in front of her breasts and stared at them, making her heart beat fast imagining his next action.

"Ahh... Ahh..." Xing Xing moaned louder as Tang Xiao's tongue swept over her hardened nipples, causing waves of pleasure to flow into her body. Her eyes were half-lidded, and her gaze was filled with lust. She moaned, and her body writhed as her husband began teasing her nipples by sucking and licking them gently. "Ahh... Husband..."

Chapter 255: Feng Shen Meet Three People

Even though she had had sex with Tang Xiao repeatedly since she became his wife, Xing Xing still enjoyed his tongue and mouth playing on her breasts and nipples, mainly because they were sensitive.

"Mhmm..." Xing Xing stroked the back of Tang Xiao's head, and her long, slender fingers slipped between his hair, occasionally tugging at it while enjoying the pleasure flowing into her body through her breasts. "Ahh..."

One of Xing Xing's hands moved nimbly across her husband's back, feeling the firmness of Tang Xiao's body. She liked the bulging muscles on her husband's back, and he had become so different from his past self. Her legs were loosely wrapped around his waist, and their lower bodies moved in rhythm, rubbing their genitals against each other.

Hearing Xing Xing's loud, seductive moans intensified Tang Xiao's desire to further ignite her lust. He kneaded both of her breasts like dough, sometimes gently, sometimes with pressure. He sucked on her right nipple, sometimes quite hard, while constantly circling and licking it with his tongue.

Tang Xiao's fingers teased Xing Xing's left nipple by rubbing, pinching gently and pressing lightly. His mouth and tongue play, along with the endless rubbing of their genitals, intensely turned her on.

However, Tang Xiao still had no intention of inserting his dick into Xing Xing's pussy, which was becoming increasingly wet as her sexual fluids continuously flowed out, soaking the bed beneath her.

After playing with Xing Xing's right breast for some time, Tang Xiao moved on and played with her left breast. He did not linger long on her left breast, and he began to descend, his tongue tracing each contour of her smooth, tan skin.

Xing Xing knew what Tang Xiao wanted to do, and she had been waiting for it from the start. She removed both legs from his waist, bent them to the sides, and spread them to either side.

Tang Xiao didn't immediately move to Xing Xing's lower body, but he first played with the area around her stomach, which is one of her sensitive areas. His tongue moved swiftly there, and his saliva warmed her stomach, causing her to continue writhing and moaning.

Tang Xiao was actually impatient and wanted to have sex with Xing Xing, but he was not that kind of man, and he preferred to satisfy her first before eating the main course.

After playing with Xing Xing's abdomen and navel, Tang Xiao moved down to her lower body and lifted it slightly higher.

"Ahh..." Xing Xing moaned in delight as Tang Xiao's tongue swept over her wet pussy, sending a powerful jolt through her entire body. She spasmed a few times from the pleasure, her body rising and falling on the bed as his tongue moved wildly over her soaked pussy, driving her insane. "Ahh... Husband..."

Xing Xing reached down with both hands and held Tang Xiao's head, but she made no attempt to stop him and enjoyed his tongue play on her pussy. He opened her labia with both thumbs and inserted his tongue inside, licking every side while tasting the love juices that continued to flow out.

"Ahh... Husband... I like... Ahh... you licking my pussy."

Tang Xiao lifted Xing Xing's lower body higher, which made it easier for him to play with her pussy. He teased the small, sensitive lump between her labia with his tongue.

"Ahh..." Xing Xing's clitoris was the most sensitive of all her body parts, and the licking of Tang Xiao's tongue on it made her lust even more intense. Her body couldn't stop contracting from the pleasure that continued to flow through her, and she continued to

writhe wildly, making the bed produce cracking sounds. "Ahh... Husband... Ahh... Insert your tongue inside and fuck my pussy with it."

Tang Xiao was no longer surprised to hear Xing Xing's babbling because she went wild whenever she was highly aroused, but he didn't follow her requests. He kept licking her clitoris more intensely, making her love juices flow even more.

Xing Xing used her cultivation to hold back her orgasm because she didn't want to orgasm too early, and she still wanted to enjoy Tang Xiao's tongue play on her pussy. She felt another sensation when her husband inserted his tongue into her body, and he licked her inner walls.

"Ahh... Your tongue... Mhmm... I like it... Ahh... but I like your dick more."

Tang Xiao moved his tongue inside Xing Xing's body and licked her inner walls, but then he moved it in and out to give her a tongue fucking, making her go crazy with sexual pleasure.

"Ahh..." Xing Xing couldn't wait to have Tang Xiao's dick inside her body, and she wanted to feel the pleasure of it pounding as it filled her body. She no longer held back her orgasm and used her cultivation to force out her love juices, causing a significant amount to spurt from her pussy. "Ahh... I'm cumming, Husband."

Xing Xing's high libido didn't surprise Tang Xiao, so he didn't have a problem with her decision. He licked up his wife's love juices, which were flowing increasingly freely from her pussy.

After she finished her orgasm, Xing Xing immediately pulled Tang Xiao up to lie on the bed. She hurriedly mounted his lower body, held his dick, and inserted it all at once into her pussy.

"Ahh... I love your dick so much, Husband." Xing Xing pulled Tang Xiao's hands, placed them on her breasts, and led him to squeeze them. She moved her body up and down at high speed, making his dick penetrate her pussy repeatedly until her deepest walls. "Ahh... Husband... Ahh... Your dick is really hard... Mhmm... It rubs all over my inside."

"Such a naughty and lewd Xing'er." Tang Xiao massaged Xing Xing's breasts and enjoyed the grip of her inner walls on his dick. He felt his wife being naughty by using her lightning element to electrocute his dick, which made his erection even harder.

Tang Xiao didn't stop Xing Xing from doing this because he himself possessed the lightning element, and her actions only made him even more aroused. He rubbed his wife's breasts and moved his lower body in rhythm with her movements, making his dick move faster as it pounded her pussy.

After being in that position for a few minutes, Xing Xing experienced her second orgasm because of the intense movement of Tang Xiao's dick inside her. Although he was still far from orgasm, he forcefully released his cum inside her.

While they were enjoying their orgasms, Tang Xiao carried Xing Xing to the jacuzzi. Their movements made her lust, which had just subsided a little, overflow again.

Tang Xiao sat in the jacuzzi, with Xing Xing sitting on his lap, as they moved their lower bodies at the same time to continue their sexual activities.

The hot water in the jacuzzi increased their intimacy, and Tang Xiao moved his hips wildly, making his dick move rapidly inside Xing Xing's pussy.

The sound of their lower bodies clapping blended perfectly with the sound of splashing water inside the jacuzzi, combined with Xing Xing's moans getting louder due to the rapid movement of Tang Xiao's dick inside her pussy.

Meanwhile, Sun Qian, Tantai Lingyan, and Tang Huang, who were flying toward the Feng Clan in the southern region, were surprised by Feng Shen's sudden appearance. "Are the three of you planning to go to my clan?"

"How did you know about that, Old Feng?" Unlike Sun Qian, Tantai Lingyan and Tang Huang immediately guessed that Tang Xiao's clone had asked Feng Shen to pick them up, as the trip to the Feng Clan would take them several days.

"Haha." Feng Shen laughed before explaining. "I happened to be in this area, and someone told me about you three. Since I was on my way back to my clan, I decided to meet you first."

"Who is that person, Old Feng?"

"Why don't you ask both of them?"

Sun Qian turned to Tantai Lingyan and Tang Huang, who were pointed at by Feng Shen, making both of them laugh bitterly. "Old Sun, Xiao'er is the person Old Feng is referring to."

"Tang Xiao? Is he really on Earth II?"

"Yes." Tantai Lingyan nodded at him. "Xiao'er has been on Earth II for over two weeks now, and he trained in the Lotus Marsh with Old Feng. In addition, he also fought in the Ming Clan's battle area for a few days before going to Mingwu City to attend the Xuan Clan's auction, where he met with Old Zhang and Old Chen."

Sun Qian raised an eyebrow. "Then?"

"Tang Xiao is training in the southeast forest." Sun Qian turned to Feng Shen again. "By the way, the situation is tense right now, so we shouldn't go see him, or we'll attract trouble for him."

"What do you mean by that, Old Feng?"

"Haish." Feng Shen sighed softly. "Tang Xiao bought many items at the auction, but there's one item that brought him great trouble, and—"

"The Ascension Fruit."

"Yes." Feng Shen nodded to Tang Huang. "Because of that fruit, people from all clans are searching for his location now, including the Xie Clan. By the way, you guys don't need to worry about that kid; I'm sure those people won't be able to find him because his transformation technique is truly perfect, and I've never seen such a perfect technique before."

Sun Qian looked at Tang Huang and Tantai Lingyan again. "Didn't you two tell me that Tang Xiao lives in the outside world?"

Chapter 256: Head For The Feng Clan

"He—"

"Let's talk while we fly." Feng Shen looked away. "Those heretics, including Xue Shun and Xie Jun, are running around looking for me and that kid. We should head to my clan now, and we'll be there by tomorrow night if we use my speed."

After Tang Huang and the other two agreed, Feng Shen enveloped them in his aura and flew them away from that location.

"What exactly happened? How could Tang Xiao be on Earth II?" Sun Qian asked them again.

"Old Sun, Xiao'er actually lives in the outside world, but he sent his clone here to train." Tang Huang's answer shocked Sun Qian.

Feng Shen immediately added. "That kid's clone is no ordinary one because his strength is the same as his real body, and he can also use all his abilities, including the space element."

"What? Does Xiao'er really have the space element?"

Tang Huang and Tantai Lingyan laughed in their hearts because Sun Qian and Feng Shen mistook Tang Xiao's void element for the space element, but they did not intend to tell the two the truth. "Old Sun, Old Feng didn't lie to you. Xiao'er does possess the space element; otherwise, they wouldn't have managed to escape from those people after the auction ended."

"Honestly, I'm still shocked by that, Old Sun." Sun Qian looked at Feng Shen. "That kid was aware that his decision to buy the Ascension Fruit would bring trouble for us, so he immediately took me away from the auction house after I obtained the fruit. I parted ways with him two days ago, and I've been monitoring those people's movements for the past two days."

Sun Qian frowned at that. "Which clans are looking for Xiao'er?"

"People from the Wang and Liu Clans were waiting for that kid in Lingshan City, especially since he was the reigning champion in the Ming Clan's battle arena. Xue Jing and Xue Lan also wanted to look for him because he bought a winged snow leopard beast from those people, but they decided to return to their clans because they couldn't find him." Sun Qian was shocked to hear that Tang Xiao bought such a beast because it was rare. "Besides them, Xiao Luo of the Xiao Clan, Jiang Bai of the Jiang Clan, and Song Han of the Song Clan were also looking for him. Naturally, they moved under Xue Shun's orders because they were followers of the Xie Clan, so we shouldn't go looking for him, or those people would discover his location."

"How did you know those three clans are vassals of the Xie Clan, Old Feng?"

Feng Shen let out a soft sigh. "Like you, my Feng Clan has been suspicious of them for a long time, but we didn't act because there was no evidence, and the Xie Clan still has an ancestor as powerful as Long Yin and Wang Fuxi. That kid has already killed Xie Ao and Jiang Sheng, and he has already captured two people from the Xiao Clan, so the evidence is solid now."

"I see." Sun Qian nodded in understanding. "I've heard all that from Old Tang and the others, so we decided to go to the Feng Clan to discuss this matter."

Feng Shen shook his head before speaking. "Even though we have all the evidence, we cannot take action against the Xie Clan because our small numbers would make us vulnerable to their retaliation."

"At least, we can devise a plan to block their plans, and Feng Xiaofang can talk to the other clans after they hear the evidence."

"Yes." Feng Shen agreed with Sun Qian. "In the past, we had no evidence whatsoever of the other clans' involvement with the Xie Clan, so they didn't make a move against them. Since we have so much evidence now, they might be thinking of a plan to eliminate them. If the results are different from our expectations, we'll have to find another way to get rid of those clans without having to deal directly with the Xie Clan."

"If that happens, we'll start with the Xiao Clan." Sun Qian and Feng Shen looked at Tang Huang. "Xiao Hua is Xiao Luo's confidant, and Xiao Meng is his granddaughter, so we'll use the two of them to destroy the Xiao Clan from within. This way, the Xie Clan won't be aware of our actions, and we won't have to deal with them because of that clan."

Feng Shen agreed with that. "However, we won't move now because those people are still busy looking for that kid, and they likely won't be returning to their clans anytime soon. Moreover, that kid is improving his abilities, so we should let him do so first before we launch our plans against those clans."

"Yes." Sun Qian, Tang Huang, and Tantai Lingyan agree with Feng Shen.

"I'll increase my speed now, so we'll arrive at my Feng Clan on schedule." The three of them sighed inwardly before nodding to Feng Shen, who immediately increased his speed, making them feel nauseous.

Meanwhile, the three women were soaking in the hot spring after they finished their training, and they were enjoying themselves because the hot water inside helped relieve their fatigue.

"Are you really marrying your little brother, Yin'er?" Sun Yue, who was sitting next to Tang Yin, asked.

Tang Yin nodded at her. "Xiao'er and I have loved each other since we were little, but we never thought about getting into a relationship in the past. However, he changed after he almost died in prison, and his master completely transformed him, making us no longer blood related. Since we became two different people, we decided to accept each other's feelings of affection, and we became husband and wife from then on."

"How could that happen? How could his master change his body?"

"I won't explain it in detail, but Xiao'er's body was almost destroyed when he fell from the high cliff behind the prison." Sun Yue and Sun Xiang were curious about that, but Tang Yin had no intention of telling them about the ark, Xiao Ai, and a few others. "His master used a special method to restore his body, and he passed on some things to him, which made us no longer have blood ties."

"The world of cultivation is truly full of mysteries, and I don't understand how his master could do all that to him." Sun Yue leaned against the side of the hot spring. "Even though you two are no longer blood-related, don't you two find your relationship strange?"

"Haha." Tang Yin laughed softly. "Others might find our relationship strange, but it's not strange to us, and we truly enjoy it."

Sun Xiang turned to Tang Yin. "Even if you don't find it strange, you two will never be able to legally marry under the laws of our country."

"If they can't marry according to the laws of the outside world, they can marry using Earth II customs, cousin." Sun Yue said.

Sun Xiang did not refute Sun Yue, but Tang Xiao and Tang Yin were people from the outside world, and she was sure they wanted to get married officially using the laws that apply there.

"Look at this." Sun Xiang was shocked when Tang Yin took out his marriage certificate with Tang Xia, and she immediately snatched it before reading it. "You don't need to doubt its authenticity, Xiang. Our marriage has been officially registered in our country, so we are legally husband and wife. We should not concern ourselves with the opinions of others, as they do not know anything about our relationship."

"Is that genuine, cousin?"

"Yes." Sun Xiang returned the marriage certificate to Tang Yin. "How can you register your marriage with Tang Xiao?"

Tang Yin smiled as she kept her marriage certificate. "We have our own way of doing it, but I won't tell you now, and you will know everything when you accept Xiao'er as your husband."

"Oh?" Sun Yue looked at her cousin. "Did you fall in love with her husband, cousin?"

"Not really." Sun Xian denied it with a shake of his head. "Tang Xiao forcefully kissed me several times, but I haven't fallen in love with him yet. Moreover, he already has two wives, and Aunt Qingge is his prospective third wife, so I don't know if I will ever fall in love with him."

Sun Yue was truly surprised to hear that Mu Qingge was Tang Xiao's future third wife. "How did your husband win Aunt Qingge's heart, Yin'er?"

"Actually, Aunt Qingge accepted Xiao'er as her future husband because of Mu Yan, but they won't be a couple anytime soon." Su Yue naturally knew Mu Yan, but she was confused about how she could convince her mother to become Tang Xiao's third wife. "For now, they are still building their relationship, and the process is going smoothly. When they are truly close and she has fallen in love with him, they will get married then."

Sum Yue nodded in understanding. "I don't know how Tang Xiao managed to convince Aunt Qingge to accept him, but I think it's a good thing because she's suffered a lot in the past. Many people insulted her because she gave birth to Mu Yan without a husband, but she never listened to them and enjoyed her life as a mother. I hope he will make her happy in the future, so she will be able to feel what it feels like to be wanted and loved."

"Sister Qingge will be happy to be Xiao'er's wife."

Chapter 257: Bring Xue Bai To Train

"Did you wait for me on purpose, Aunt Yuan?"

"Yes." Tang Yuan pulled her nephew to sit beside her. "How was your meeting with Wang Fuxi? Did that woman recognize your identity?"

Tang Xiao shook his head at her. "Wang Fuxi didn't recognize me, and Xiao Ai informed me that she's still closely monitoring Ouyang Hong. She seems afraid that I'll kill him, so she's monitoring him closely."

"After all, the Ouyang Family is under Long Yin's protection, and the situation will become chaotic if you kill Ouyang Hong." Tang Xiao nodded in understanding to Tang Yuan. "By the way, Feng Yao and I have already decided to stop following Wang Fuxi, and we have already withdrawn from her group, so we can't give you information about her movements anymore."

Tang Xiao smiled when he heard that. "Honestly, you don't need to think about Wang Fuxi, Aunt Yuan. That woman may be the second strongest cultivator on Earth II, but she will never be able to find me, let alone attack me. Moreover, all my enemies are dead except Ouyang Hong. I don't need to deal with him now because he is busy with the divorce lawsuit filed by Yi An, and the people behind him also don't dare to help him, especially after Xiao Ai threatened Huang Xiaoming. As for the other families, I've ordered her to monitor them, but they still haven't shown any signs of moving, even though those people are dead."

"What will you do if the four cardinal families and the Huang Family make a move?"

"I will crush them straight away." Tang Yin didn't doubt Tang Xiao because he had Xiao Ai, who was always ready to carry out his orders. "Do you still have business in the outside world, Aunt Yuan?"

"All my work is done now, and I won't be taking on any new cases anytime soon."

"Now that we have concluded our affairs in the outside world, it's time for us to concentrate on our lives as cultivators." Tang Yuan looked at Tang Xiao in confusion. "Aunt Yuan, Earth is just a small planet in the lower realm, and there are many more planets out there in the middle and upper realms. I would rather not waste my time on this planet, and I want to leave soon to explore those planets. I will bring you guys with me in the future, but our strength will not be enough to face the cultivators from the higher realms, as many of them are much stronger than Long Yin. Therefore, we must focus on our cultivation and fighting abilities, and the best way is to spend time on Earth II."

"Why does it have to be on Earth II? Why don't we increase our strength and abilities here? After all, there is much more useful equipment here, especially the gravity feature."

"Haish!" Tang Xiao exhaled as he shook his head. "Aunt Yuan, we can use all the facilities in the ark to improve ourselves, but we can't just train and cultivate here, and we need stronger opponents to further refine ourselves. We are cultivators, and we can only forge ourselves through actual combat. Since we still live on Earth, Earth II is the best training ground for us to hone our fighting skills before we head to the higher realms. If we rely solely on personal training, we will never truly improve, and we will be overwhelmed when facing cultivators in the higher realms."

"You're right." Tang Yuan sighed softly. "I've lived in the outside world for too long, and I've grown accustomed to the life of an ordinary person. If I were to fight cultivators from Earth II at my current level, I'd probably lose to them because I've slacked off in my training. If you take me to the higher realms with my current abilities, I'm not confident that I can face the cultivators there, especially since they are already used to situations harsher than on Earth."

"That's why it's time for you to leave the job of a mortal to focus on your life as a cultivator." Tang Xiao looked far away while thinking. "Just like you, I still have to improve my abilities as a cultivator, especially my fighting abilities. Even though I have been practicing martial arts since I was five years old, I am sure that my ability to defend myself is still far from that of experienced cultivators on Earth II, let alone in the higher realms. Since I can't do anything against Ouyang Hong for now, and Yi An is going on vacation to calm herself down, I decided to go to Earth II, and I will focus on improving myself there."

"Didn't you already send your clone there? So, why would your real body also go there?"

Tang Xiao turned to his aunt. "Aren't two better than one? My clone will continue to train on Earth II, and I'll use a different name to fight in the Ming Clan's battle arena again. The people fighting there are indeed rogue cultivators, but some of them have excellent fighting skills, like Zhao Zheng. I will use them as stepping stones to hone my fighting abilities, and I also intend to surpass my master's record."

"Big Sis Lingyan's record is 1,000 consecutive wins, so it'll take you a long time to surpass it."

"We still have plenty of time for that, don't we?" Tang Xiao asked his aunt with a smile. "My master's record is indeed impressive, but I'm confident I'll manage to break it in the future. Additionally, I will also train in the forest to fight beasts that are much stronger than me, so I'm sure my fighting skills will improve greatly, and I'll be even more prepared to advance to the higher realms. When our cultivation reaches the Peak Stage of the Tyrant Level, I will take all of you to the higher realms because we will never be able to break through to the Saint Level with the quality and quantity of Qi on Earth."

"Eh?" Tang Yuan was surprised to hear that. "Will we really never be able to break through to the Saint Level if we stay on Earth?"

Tang Xiao shook his head at her. "Xiao Ai's old master is a cultivator of the supreme realm, which is higher than the upper realm. She has a lot of data from her old master's past adventures, and she told me that we will never be able to break through to the Saint Level as long as we stay on Earth, so we have no other choice but to go to the higher realms to achieve it."

"I see." Tang Yuan nodded in understanding. "No wonder Long Yin never managed to reach the Saint Realm; even though his cultivation had already reached the Peak Stage of the Tyrant Level long ago, it turns out that the quality and quantity of qi on Earth was insufficient to reach that stage. So, when are we going to train on Earth II? Can I invite Feng Yao to join us?"

"Feng Yao has helped me a lot, so you can tell her about my plans. If she wants to join us, then we'll go to Earth II together." Tang Xiao agreed without a second thought.

"Alright." Tang Yuan immediately stood up from her seat. "I'll go out now, and I'll meet Feng Yao directly to discuss this matter."

Not long after Tang Yuan left, Xue Bai walked out of Mu Yan's room and walked over to Tang Xiao, who immediately stroked her head. "Have you practiced before?"

"Yes, Master."

Tang Xiao led Xue Bai to get on the flying car, which took them toward the training ground. "You might have practiced before, but you were still weak, so you were caught by that guy. For now, I want you to practice here, and I will take you out of this place

once you are physically and mentally ready. At that time, you will accompany me to train on Earth II by fighting those stronger beasts, and we will strive hard to become strong together so I can take you to the higher realms."

Xue Bai looked at Tang Xiao in confusion, especially regarding the higher realms, prompting him to explain things to her.

Once they arrived at the training ground, Tang Xiao explained the device in the center and its gravity feature to Xue Bai. "For now, I'm used to four times gravity, but you won't be able to withstand that much gravitational pressure, so you'll have to start from level one. As for me, I will train against those battle dummies, so you can train in peace."

"Alright." Xue Bai followed Tang Xiao to the center of the room, her expression showing her impatience. Unlike in the past, she no longer lived alone, and she had become his contract beast, so she was determined to become strong to protect him.

"Are you ready?"

"I'm ready, Master." Xue Bai immediately fell to the floor as soon as Tang Xiao turned on the gravity device, and she struggled to move her body, including her tail. "Master, it's really heavy."

"Haha." Tang Xiao crouched in front of Xue Bai and rubbed her head. "I also had a hard time like you when I first tried it, but I didn't give up, and I managed to adapt to four times gravity. That's why you should not give up; this training will make you strong enough that no one will be able to capture you again."

"Yes, Master."

Chapter 258: Tang Xiao's Plans

"Yuan?" Feng Yao led Tang Yuan into her apartment. "Why are you here at this hour?"

"I wanted to invite you to practice with me and Xiao'er on Earth II." Feng Yao was confused by her answer, but Tang Yuan immediately pulled her to sit on the sofa before explaining a few things to her, especially about other realms in their universe. "You may not believe me, but other realms do exist."

Feng Yao stared at her best friend in a daze, especially after hearing all that. She had been a cultivator for several decades, but she had never heard about the existence of other realms. Not even the senior cultivators from Earth II knew about them, so only Tang Xiao and those closest to him knew about them.

Tang Yuan continued. "Actually, the late Xiao'er's savior was a cultivator from higher realms, and he happened to be on Earth during the incident nineteen years ago. That man decided to save him from the ravine and sacrifice himself to save him for a reason,

but I don't know about his purpose. In fact, Xiao'er himself doesn't know the reason behind his late savior's decision, but he would have died if it weren't for him."

Feng Yao was even more dumbfounded after Tang Yuan mentioned the matter because most cultivators are selfish people, so she found it hard to believe that someone would be willing to sacrifice their life for Tang Xiao.

Feng Yao herself had inspected the ravine in the past, and she was certain that Tang Xiao would not survive after falling into such a deep abyss, especially since he hadn't yet become a cultivator. However, reality proved otherwise as he managed to escape death and return safely, and he also successfully became a cultivator after the incident. Moreover, he was not an ordinary cultivator; he possessed several elements simultaneously, including the void element, which cultivators on Earth II have never had, either in the past or present.

Feng Yao took a deep breath and grabbed Tang Yuan's shoulders. "Please tell me the truth about Xiao'er, Yuan. Who is his real master? Does he master other elements besides fire, wind, and void?"

"Xiao'er himself doesn't know the identity of his master because he was already dead when he woke up." Feng Yao nodded slightly to Tang Yuan. "Actually, he has six elements, and the other three are metal, lightning, and light."

"Six... elements..." Feng Yao stammered in shock. "Moreover, the metal element is one of the rare elements, even though it's not as rare as the void element."

"I was also shocked when I first learned about Xiao'er's six elements, but that's the truth. He is still weak now, but I believe that he will surpass Long Yin and Wang Fuxi in the future." Tang Yuan spoke confidently, and she had complete confidence in her nephew. "All his affairs in the outside world are almost finished now, and Ouyang Hong is the only one left of all the members of those families. However, he can't do anything that bastard for now because Long Yin is protecting him, so he wants to focus on building his strength by training on Earth II, and he invited me to join him."

Feng Yao nodded in understanding before teasing her. "Why did you invite me to join you two? Wouldn't it be nice for you and Xiao'er to spend some time together? I know you love him as a man, and he's already married to Yin'er, so—"

"No." Tang Yuan covered Feng Yao's mouth. "I do love Xiao'er as a man, but I've never thought about becoming his wife. I've already failed once in protecting his parents, and I don't want to fail to protect him and Yin'er. Therefore, I've decided to leave my work in the outside world, and I will fully focus on my life as a cultivator. I will train hard and reach the highest level, and I will protect them from any evil cultivators who may come in the future. So, what's your decision? Will you join us?"

Feng Yao pulled Tang Yuan's hand down. "I also have nothing to do in the outside world, so I'll join you two in training on Earth II. By the way, are there any other cultivation stages after the Saint Realm?"

"I don't know about that yet, but there should be other stages after the Saint Realm." Tang Yuan paused for a moment before continuing. "According to Xiao'er, we will never be able to break through to the Saint Realm as long as we cultivate on Earth, and we can only achieve it if we go to other realms. That's why he wants to forget all the affairs of the outside world and focus on his cultivation, which is because he wants to go to other realms to pursue higher levels."

"What are the levels after the Saint Level?"

"No one knows." Feng Yao raised an eyebrow at Tang Yuan. "Even though Xiao'er inherited many things from his savior, he can't see them all because his savior deliberately locked them away, but he will know everything once he's ready. After all, we have to take our cultivation one step at a time, right?"

Feng Yao nodded in agreement. "So, how will Xiao'er take us to other realms in the future? Does he have a way to do that yet?"

"Haish." Tang Yuan embraced her best friend. "For now, you don't need to ask about all that, okay? Our cultivation is still far from the Tyrant Level, so we should focus on reaching that stage first. Once we reach that stage, you'll have the answers to all your questions, and we'll go to the other realms together."

Feng Yao was genuinely curious about this, but she didn't force Tang Yuan to reveal everything. She waited for the right time for Tang Xiao to tell her everything himself. "So, when will we start training on Earth II?"

"We'll wait for Yi An and Ouyang Qing to go on vacation for a week, and then we'll head straight to Earth II." Feng Yao was surprised to hear that Tang Xiao had a relationship with the two women. "Xiao'er likes the mother, and he wants her in his harem. Unfortunately, she's just a mortal without any cultivation veins, so I don't know how their relationship will develop. Her daughter was the mastermind behind the incident seven years ago, but she still doesn't realize that the man who took her virginity is the same man she framed in the past."

Feng Yao nodded in understanding. "Ouyang Qing's character is similar to her father's, but unfortunately, she is too innocent and doesn't realize that she has fallen into Xiao'er's trap. I want to see her expression in the future when she finds out everything, and she will definitely be shocked after finding out that the man by her side is him."

"I can't wait to see Ouyang Qing's expression at that time." Tang Yuan immediately stood up. "Since it's getting late, I'll go back to my apartment, and we'll leave for Earth II immediately after the two women leave."

"Alright."

After Tang Yuan left, Feng Yao lay back on the sofa, thinking about many things, especially about Tang Xiao. "Big Brother Ye, you didn't have cultivation veins in the past, but your son has already forged his path in the cultivation world. Moreover, he's no ordinary cultivator because he possesses six elements, and he's already gotten rid of most of the people who did evil things to you and Sister Jing, so you should be proud to see him now."

After finishing his training, Tang Xiao went to the hot spring to refresh himself. However, he found Zhao Yuxian, Yu Xiaoling, and Jessica soaking in the hot springs.

Tang Xiao took off his clothes and joined the three women in the hot spring. "When did you three get back? Did something happen outside?"

"Master, we returned a few hours ago, and Zhao Qing sent us back here. However, Xiao Ai told us that you were busy practicing, so we didn't bother you," Zhao Yuxian answered him.

Yu Xiaoling also informed him. "There are no problems at Tianmei, and the company's sales are increasing thanks to Fu Chen's advertisements. Lin Yanxiu came to the office looking for Tang Yin for the past few days, but she came alone without her husband."

"I see." Tang Xiao nodded in understanding and leaned towards the side. "Zhao Teng, huh?"

"What are you going to do to him, Master?"

Tang Xiao shook his head at them. "I don't have any plans for that old man yet, and I'll think about it first. In the past, he repeatedly insulted my late father, and he even had the heart to ask for my parents' divorce. Even though he is my grandfather, I have to teach him a harsh lesson. By the way, I'll take the three of you to Earth II in a few days, and we'll train there. As for Tianmei, Xiao Ai will take care of the company while we're gone, so I'll make sure everything will go smoothly."

"What are we going to do on Earth II?" Jessica asked him.

Tang Xiao asked Xiao Ai to display the footage from the forest, which caused the three women to gasp in shock. "You guys are cultivators now, and you've been training at the training ground for a few days, so I'll take you there to practice fighting those beasts."

"Beasts?" The three women screamed and trembled at the sight of the terrifying beasts.

Chapter 259: Arrive At The Feng Clan

"How can those beasts exist on Earth?"

Tang Xiao smiled to himself at their terrified expressions. "Those beasts only exist on Earth II, but I don't know how they got there and thrived there. Earth II has existed for thousands, or perhaps tens of thousands of years, without ordinary humans realizing it. The two worlds are separated by a special barrier to prevent those beasts from escaping to the outside world; otherwise, they would eat those ordinary humans, and the human population on Earth would be drastically reduced as a result."

"Are those beasts scary?"

"Yes." Tang Xiao nodded at them. "However, you three don't need to be afraid of them because each beast has a different level, which corresponds to your existing cultivation stages. To start, I'll take you to a place with beasts weaker than you three, and I'll take you to a place with stronger beasts after you've adapted to them."

"But—"

Tang Xiao waved his hand. "I understand your fears, but you are cultivators, so you guys have to start adapting to such a life. Honestly, I was also scared when I first fought them some time ago, but I have started to get used to fighting with them after I trained there for a few days."

Even though they had trained a lot since they became cultivators, the three women had never fought before, let alone against such fierce beasts. They were truly terrified at the thought of having to fight such ferocious beasts in the forest, and they weren't confident that they could protect themselves from their attacks, especially since they looked so ferocious and vicious.

"Why do you suddenly want to take us to Earth II and train against them?"

Tang Xiao pulled Yu Xiaoling onto his lap and kneaded her bare breasts. "Teacher Yu, I will be taking the three of you to another planet in the future, and there are many cultivators who are stronger than us there. Therefore, I want you all to start learning to fight to improve your abilities so you can protect yourself."

"Mhmm..." Yu Xiaoling moaned as Tang Xiao stimulated her breasts and nipples.

"Mhmm... What... Mhmm... What do you mean by another planet?"

"Where are you taking us? Is it Mercury, Mars, or another planet?" Jessica asked.

"Hahaha." Tang Xiao laughed at her question. "Ordinary people only know about those planets, but they are uninhabited. I'm talking about planets in the cultivation worlds, and Earthlings can't detect them. Even the cultivators on Earth II are unaware of these planets, as they do not possess information about them."

Tang Xiao then explained to Yu Xiaoling, Jessica, and Zhao Ying the true cultivation world, which includes four categories: the lower realm, the middle realm, the upper realm, and the supreme realm.

The three women were shocked and found it difficult to believe after hearing all this, but Tang Xiao asked Xiao Ai to display several other planets on the screen, allowing them to see for themselves the other planets in the cultivation world.

"Unbelievable!" Yu Xiaoling exclaimed as she looked at the screen. "I've been alive for four decades, but this is the first time I've seen so many planets outside of the planets that we know so far, and all of their inhabitants are cultivators."

Zhao Yuxian stared at the screen thoughtfully and awe-stricken, but she remembered her two daughters. "Master, what about Yue'er and Xue'er? Are you going to leave them on Earth? They are my daughters and your cousins, yet you haven't taught them about cultivation."

"Hmm?" Tang Xiao looked at Zhao Yuxian and thought of her two cousins. "Honestly, I didn't think about taking them with us, and I wanted to leave them on Earth. If they become cultivators and join us in other realms, their lives will change drastically, and they may not be able to live peacefully. You should think about it carefully first, and you can tell me your decision later. If you want them to become cultivators like us, I'll ask Yin'er to explain to them."

Zhao Yuxian didn't want to be separated from her two daughters, but she also didn't want their lives to become less peaceful. If they became cultivators, they would face danger in the future. "I will think about this matter first, and I will tell you after I have thought everything through properly."

"When are you taking us to Earth II?"

"As soon as Yi An and Ouyang Qing go on vacation." Jessica looked at Tang Xiao curiously, prompting him to explain to them the situation at the Ouyang House, especially about Ouyang Hong's affairs with multiple women, including Su Rou. "They're going on vacation for a month, so we'll spend some time on Earth II then. Over the next week, I will train the three of you, so you will be better prepared to face those beasts."

"Yes."

After that, Tang Xiao spent time with the three women, and he took turns dual cultivating with them in the hot springs until they were completely exhausted. Afterward,

he took them back to their respective rooms before returning to his own, where he began to stabilize his cultivation again.

.
. .

On the rooftop of a residence, Wang Fuxi could only shake her head as Ouyang Hong was having sex with another woman. "This man is such an idiot! He is facing problems in his family, but he chooses to have fun with other women, so it's no wonder his wife decided to divorce him."

Wang Fuxi released a soft sigh, and she decided to leave the residence.

.
. .

Morning arrived quickly, and Tang Xiao stopped cultivating, but Xing Xing had already woken up and left the ark to take care of Tianmei, especially since Tang Yin was still absent.

Tang Xiao couldn't find Mu Lin in the ark, and Xiao Ai told her master that he was busy in the outside world, so he rarely went inside the ark to practice.

Meanwhile, Mu Yan was busy cultivating in her room, and Xue Bai had still been practicing since yesterday because she wanted to quickly adapt to heavier gravity.

As for Lin Yan, Xiao Ai told Tang Xiao that she was looking for him, but he didn't bother to meet her, and he wanted to focus more on his future. The female AI also told him that she was looking for her big brother, but she couldn't find Lin Xia because he had already killed him and thrown his corpse into the void.

Since Yi An and Ouyang Qing were busy at the Yi House, Tang Xiao didn't come out of the ark and went to the three women's room, finding them already ready. He led Zhao Yuxian, Yu Xiaoling, and Jessica to the training ground, where he trained them himself.

Tang Xiao taught the three women to use weapons and fight, especially since they had never done anything like that before.

.

.

.

At the Sun Clan, Tang Yin didn't waste any time relaxing, and she sparred with Su Yue again. After all, Xiao Ai had already informed her of Tang Xiao's plan to take them to Earth II to train, and she wasn't confident in her ability to fight against beasts far stronger than her, so she wanted to prepare herself better.

Meanwhile, Sun Xiang sat to one side as she watched the two women spar, but she was surprised about Tang Xiao's plan to take Tang Yin and his closest people to Earth II to train. Somehow, she was happy with his decision because it wasn't easy for him to convince her family to accept him.

'Tch! What was I thinking? I don't even have feelings for him yet, let alone fall in love with him, but I'm already thinking about him meeting my family.' Sun Xiang was also wondering about what made Tang Xiao decide to bring them to Earth II, especially since Tang Yin did not explain to her in detail about his plan. 'What exactly are their plans for the future? Why did he bring his people to this place to train? What will he do in the future?'

.

.

.

Since they were busy training, the day passed quickly, and night finally arrived.

After flying since yesterday, Feng Shen, Sun Qian, Tang Huang, and Tantai Lingyan finally arrived at the Feng Clan. The wind god did not join the three of them and went elsewhere to cultivate, mainly because they would be dealing with many strong cultivators soon.

Sun Qian led Tang Huang and Tantai Lingyan to the main hall, where Feng Xiaofang and Yan Huoling were already waiting for them.

"Haha! I didn't expect you two to break through to the Tyrant Level, Old Huang and Lingyan." Feng Xiaofang said as he laughed.

Yan Huoling also spoke to Tang Huang. "Old Huang, I never thought Xiao'er would be such an extraordinary cultivator, possessing the elements of space, fire, and wind. If only he had cultivated since childhood, I'm sure he would have become a powerful cultivator by now, and my daughter would probably have fallen behind him."

"Haha." Tang Huang laughed bitterly upon hearing that. "I didn't expect you to already know Xiao'er, Huoling. You're right, he has excellent talent in cultivation, but unfortunately, his late parents forbade us from teaching him about cultivation."

"I learned about Xiao'er when Yao'er brought him to train in the volcano. Although it was regrettable, he has changed now, so you should be proud of him." Yan Huoling then asked them. "So, what brings the three of you to our clan?"

"We wanted to talk about those clans."

Chapter 260: Talk And Idea

Tantai Lingyan played a recording of Xiao Meng's confession for Feng Xiaofang and Yan Huoling to hear, which really shocked them.

"Where did you get that confession, Lingyan?"

Tantai Lingyan explained to them. "Old Huang and Old Mu managed to capture Xiao Hua when she tried to attack Yin'er, and Xiao'er captured Xiao Meng when she was investigating him."

Since they had met Tang Xiao at the Xuan Clan's auction house, Feng Xiaofang and Yan Huoling were no longer surprised by his ability to capture Xiao Meng, as he was able to evade so many cultivators far stronger than her there.

Sun Qian spoke to them. "We couldn't persuade those first-grade clans to unite against them, so we specifically came here to meet you two. The Feng Clan is also a first-grade clan, like them. I hope you two can talk to them about this matter and convince them to unite against those heretic clans, or they will continue to act rampantly on Earth II."

"I understand that, Old Sun." Feng Xiaofang sighed softly before continuing. "However, those clans are no longer like they were in the past, and they only care about their affairs now. Long Yin and the Long Clan are the strongest among us, and they should be able to fight the Xie Clan, but they never make a move against those heretics."

Yan Huoling added. "Huang Jinhong no longer interferes in the Huang Clan's affairs, and we haven't seen him for a long time. Although Huang Xiaotian is in charge of everything in that clan, he lacks his father's courage. Huang Xianyu never interferes in their clan's affairs, and she is more focused on her alchemy, so we can't expect their clan to help us."

"What about the Wang and Liu Clans?"

"Haish." Feng Xiaofang sighed as he shook his head. "Wang Jishan may be the patriarch of the Wang Clan, but all the clan's decisions are in the hands of Wang Fuxi. However, that woman is more busy with her group and ordinary human affairs, and she

rarely comes back here now, so I'm sure she doesn't know much about the situation here. We can only hope for the Liu Clan, but we must first speak to Liu Xun and Liu Xing."

Although Sun Qian and Tang Huang agreed with that, they were aware that persuading Liu Xun and Liu Xing would not be simple. Then, Tantai Lingyan asked them. "What do you think if we go to the northern region?"

"The Xue Clan?"

"Yes." Tantai Lingyan nodded at them. "Xue Jing and Xue Lan don't like meddling with outside affairs, but I'm sure they would reconsider if they found out about the heretics' plans. If those people succeed in taking over the second-grade clans, I am confident they will first target the Xue Clan before moving on to other first-grade clans, as that clan is the weakest in overall strength; therefore, we can use this reasoning to persuade them. The main problem is that no men can go to the Xue Clan, and all the women will chase them away."

"I'm still confused about the Xue Clan." They looked at Tian Huang. "How have they managed to produce offspring if they've isolated themselves from men? I know Xue Jing and Xue Lan, but I've never heard of their family, and their clan has been female-only for generations."

"No one knows about the matter because the Xue Clan is too secretive, and no one has ever heard of the presence of men in their clan." Feng Xiaofang turned to his wife. "What if you go to their clan with Lingyan?"

"Alright." Yan Huoling then spoke to Tantai Lingyan. "We can't just go to the Xue Clan, and we have to inform Xue Jing beforehand about our plans to go there. I will contact her now to schedule an appointment, and we will leave for the northern region a few days before the appointment date."

"Are you going to ask Feng Shen to take us to that region?"

Yan Huoling nodded at her. "The fastest way to reach that region is by relying on Feng Shen's speed; otherwise, it will take us several days to get there, which would be a waste of time."

"Alright."

Yan Huoling contacted Xue Jing to arrange a meeting, but the woman did not give her an immediate answer, so they had to wait for news from her before arranging their departure.

After their discussion, Feng Xiaofang took Sun Quan and Tang Huang with him because it was already late. However, they did not rest and talked about other things, especially about Tang Xiao.

.
. .
.

"Do you know anything about Xiao'er's master?"

Tantai Lingyan shook her head in response. "In fact, Xiao'er himself doesn't know the identity of his master, Huoling. When he recovered from his injuries, his master was already dead because he sacrificed himself for him."

"Can you tell me more about Xiao'er?"

"Phew." Tantai Lingyan exhaled softly. "I already know some things about Xiao'er, but I can't tell you anything without his permission. You shouldn't ask about him, and you can ask him yourself in the future, or I'll feel bad for you."

Yan Huoling nodded in understanding. "Regarding Xiao'er, I feel uneasy about my daughter."

"Why?"

"You know that Yao'er has always liked the late Tang Ye, right?"

"I know." Tantai Lingyan naturally knew about that matter. "However, Yao'er never expressed her feelings to the late Tang Ye in the past because he fell in love with Zhao Jing, and she chose to stay in the outside world to protect them."

Yan Huoling released a soft sigh. "Even though she could never admit her feelings to him, she always loved him, and she felt guilty because she couldn't protect him."

"All because of Wang Fuxi."

"If Wang Fuxi hadn't forbidden Yao'er to save Tang Ye, he and Zhao Jing would never have died at the hands of those people." Yan Huoling turned to Tantai Lingyan. "Nineteen years have passed since their deaths, and that's not a short time. My daughter's feelings suddenly changed, and—"

"Xiao'er."

Yan Huoling continued. "I realized this matter when Yao'er first brought Xiao'er to Earth II, and I could see it in the way she looked at him."

"Do you think Yao'er has an interest in Xiao'er because he resembles his father?"

"Yes." Yan Huoling nodded at her. "I can see Yao'er's attraction to Xiao'er in her eyes, but I know my daughter well; she is attracted to him because he resembles his father. She doesn't want to admit the truth to me, and I'm worried that her feelings for him will become a problem for them in the future."

Tantai Lingyan nodded in understanding at that. "Actually, Xiao'er is a dual cultivator, and he already has two wives now."

"Eh? Is Xiao'er really a dual cultivator?"

"That's right." Tantai Lingyan replied with a nod. "Yao'er has already met his two wives, and he already has a third wife in mind."

"Who are those three women?"

"You know two of them, but you don't know the third woman because she used to be a mortal." Tantai Lingyan chuckled at her curious expression. "His first wife is Tang Yin, his second wife is Xing Xing, and his third woman is Mu Qingge."

Yan Huoling raised an eyebrow slightly. "Did Xiao'er really marry Yin'er? How could Mu Qingge fall in love with him?"

"Yes." Tantai Lingyan confirmed it with a nod. "Xiao'er has changed since he fell into the ravine and nearly died, and his unknown master did something to him to save his life. I can't explain it in detail, but he and Yin'er have no longer had any blood ties since then."

"That's weird." Yan Huoling was genuinely curious about it, but Tantai Lingyan's expression clearly showed that she didn't want to talk about it. "What about Mu Qingge? What made her change her mind about marriage? However, I find her decision strange because Xiao'er already has two wives, but she's willing to accept him as her future husband."

"Xiao'er and Mu Qingge's relationship happened because of Mu Yan." Yan Huoling seemed confused by this, prompting Tantai Lingyan to explain the real situation to her.

Yan Huoling's eyes widened in shock upon hearing this. "Is it true that Zhao Jing's soul resides in Mu Yan's soul space? How did they know about this?"

"At first, I also found it difficult to believe, but Zhao Jing's soul has been residing in Mu Yan's soul space since her death, and her soul influenced her. That's why Mu Qingge was willing to accept Xiao'er because she felt guilty towards her daughter, and her

daughter had never asked her for anything since childhood." Yan Huoling found it challenging to believe because she had never heard of such a thing before. "To tell you the truth, Xiao'er's unknown master was not an ordinary cultivator, and he came from another realm."

"What do you mean by another realm?" Yan Huoling asked in confusion.

"Earth II is not the only cultivation world in this universe, but there are still many other worlds out there, which are divided into four categories: lower, middle, upper, and supreme." Yan Huoling was stunned with a look of shock after Tantai Lingyan said that. "If it weren't for Xiao'er's unknown master, we would never have known that there were so many other cultivation worlds out there."

Yan Huoling took a deep breath. "Does that mean Xiao'er knows how to travel to other worlds? Does that mean there are still other cultivation levels after the Saint Realm?"
