Chapter 261: Yan Huoling - Tantai Lingyan

"Xiao'er knows about other worlds, but he doesn't know how to get there yet." Although she and the Tang Clan had a close relationship with the Feng Clan, Tantai Lingyan had no intention of telling Yan Huoling everything, and she handed everything over to Tang Xiao in the future because everything belonged to him. "He told me there are other stages after the Saint Level. However, he doesn't know about them yet because his late master sealed all information regarding it, and he must wait until his cultivation reaches that level first to be able to unlock everything."

Yan Huoling had a feeling that Tantai Lingyan was hiding things from her, but she felt that it was natural because everything belonged to Tang Xiao, and she did not force her to reveal anything. "Saint Level, huh? Long Yin and Wang Fuxi are two of the strongest cultivators on Earth II, and they reached the Peak Tyrant Level many years ago. Unfortunately, they didn't know the method to break through to the Saint Level, and their repeated failures made them think that level was impossible to reach."

'They will never break through to the Saint Level because the qi on this planet is insufficient for that, and they will have to go to the higher worlds to achieve it.' Tantai Lingyan didn't tell Yan Huoling about this. "For now, we just need to patiently wait for Xiao'er to reach that stage, and he might have found a way to go to another cultivation world by then. If he manages to find it, I'm sure that he will take us away with him, and we can see a world full of new adventures."

Yan Huoling could only agree with her because she herself did not know anything about it. "Do you think Xiao'er will take us with him if he decides to go to another cultivation world in the future?"

"Hahaha." Tantai Lingyan laughed at that. "Why should you doubt that? Your Feng Clan is an old friend of his Tang Clan. Feng Yao and Feng Shen also helped him in some matters, so I'm sure that Xiao'er will take you all away with him in the future. Hey, what if he ends up being interested in your daughter?"

Yan Huoling raised an eyebrow slightly. "Honestly, I don't have a problem with that, but I don't want my daughter to accept him because of his resemblance to the late Tang Ye. If she accepts him because of that, he will definitely be sad, so I want her to accept him as himself."

"That's true."

"Does Xiao'er like any other woman besides Mu Qingge?"

"Sun Xiang."

"Eh?" Yan Huoling was surprised by that. "Sun Xiang is Old Sun's eldest granddaughter, right? If I remember correctly, she is your disciple in martial arts, which means she is Xiao'er's senior sister."

"Yes." Tantai Lingyan nodded at her. "They are indeed my disciples in martial arts, but it's not that important. Xiao'er likes Xiang'er, and he kissed her several times. Their relationship is still casual now, but I know that she has started to fall in love with him, and she will probably become his fourth wife in the future. However, their relationship will not be easy, and—"

"Zhang Xingcai is a loyal woman, and she will probably never agree to their relationship."

Tantai Lingyan sighed softly. "I've spoken to Zhang Xingcai about their relationship, and she's already expressed her opposition to it. If Xiao'er wants to marry Xiang'er in the future, he must convince her mother to accept him first, but it's not an easy matter considering her character."

"Convincing Zhang Xingcai is no easy matter, and Xiao'er must work hard to gain her blessing if she wants to marry her daughter." Yan Huoling suddenly got a voice message and immediately listened to it. "Xue Jing is willing to meet us, but she asked us to come in two weeks."

"So, when are we going to the northern region?"

"Wait." Yan Huoling contacted the wind god first to ask. "Feng Shen said that we have to leave in a week because the distance between the two clans is in the far north and the far south, and we will arrive at the Xue Clan exactly on that day."

Tantai Lingyan nodded in understanding. "In that case, I'll go somewhere else to train, and I'll be back here in a week."

"Don't you want to stay here first?"

"No." Tantai Lingyan refused with a shake of her head. "My cultivation isn't completely stable yet, so I need to stabilize it first. I'm not used to staying still for too long, so I'll stabilize it while doing some light training. Please tell Old Sun and Old Huang that I will leave first, and they don't need to wait for me to come back."

"I'll tell them later."

After that, Tantai Lingyan left the Feng Clan because it was impossible for her to enter the ark in front of Yan Huoling, and she immediately entered after she was far enough away from the clan.

Yan Huoling was walking back to her room, but she suddenly received another voice transmission, which was from her daughter. "Oh? Is Yao'er really going to leave her job in the outside world and come back here? Why did she suddenly change her mind? Could it be that her decision has something to do with Xiao'er? Sigh! What a troublesome daughter!"

.

.

.

When she arrived at the training ground, Tantai Lingyan saw Zhao Yuxian, Yu Xiaoling, and Jessica lying on the floor with tired faces. Meanwhile, Xue Bai was still busy training using the gravity feature, and she was still having difficulty facing two times heavier gravity. "Why do you force them to train so hard?"

"I didn't force them, and they wanted to do it themselves after I told them so much about the higher realms." Tang Xiao put recovery pills into the three women's mouths. "How was your meeting with the Feng Clan?"

Tantai Lingyan looked at the three women and then explained to Tang Xiao their conversation with Feng Xiaofang and Yan Huoling. "Huoling and I will go to the Xue Clan in a week, and we will meet with Xue Jing the following week. Are you thinking about joining us to meet those two women?"

"No." Tang Xiao told his master about his plans, especially after Yi An and Ouyang Qing went on vacation. "I'll bring them all to Earth II, but we'll train separately from my clone, and my clone will focus entirely on training in the Ming Clan's battle arena."

"Are you still thinking about breaking my record?" Tang Xiao simply smiled at Tantai Lingyan. "Hey, I've told Yan Huoling about other worlds and the next cultivation levels, but I didn't explain everything in detail to her, and I want you to explain it to her in the future."

Tang Xiao nodded at her. "I will go to the Feng Clan, but not now, and I will go there in the future. For now, I want to focus on my cultivation and training, and we will leave Earth after I successfully defeat Long Yin and Wang Fuxi."

"I see." Tantai Lingyan asked him another question. "What do you think about Feng Yao?"

Tang Xiao looked at her in confusion. "What do you mean by your question?"

"Do you like Feng Yao?"

"I don't like her, and I just admire her."

"Why?"

"I know about Feng Yao's feelings for my late father, and I know that she's willing to help me because I'm his son." Tang Xiao's answer surprised Tantai Lingyan. "I like Mu Qingge and Sun Xiang because they don't have another man in their hearts, but I can't possibly like a woman who has another man in her heart, let alone my late father."

"I see." Tantai Lingyan nodded in understanding. "Is there a possibility that you will like Feng Yao in the future?"

"I don't have an answer for something that hasn't happened yet, and I don't want to think about that right now." Tang Xiao clenched his right fist. "For now, my main goal is to become strong enough to defeat Long Yin and Wang Fuxi."

"What about Mu Qingge and Sun Xiang?"

"I'll take them to train with me, and I'll deepen my relationship with them as we train together." Tang Xiao then asked her. "What about you?"

"Can we not talk about that?" Tantai Lingyan's answer made Tang Xiao sigh. "I've always loved you, but I only think of you as my son, and I have no other feelings for you."

"I know." Tang Xiao lifted the three women with his aura. "I'll take them back to their rooms so they can rest first for their training tomorrow."

Tantai Lingyan simply nodded and looked at Tang Xiao, who was leading the three women away with him. "You should forget your feelings for me because I will never break my vow to my late husband, Xiao'er. Moreover, there are many women more worthy than me out there, and you just need to find them."

After that, Tantai Lingyan went to another area of the training ground and started her training so she wouldn't disturb Xue Bai's training.

.

.

.

After sending the three women back to their respective rooms, Tang Xiao checked on Mu Yan, who was still immersed in her cultivation. He returned to his room, but he found Xing Xing there, and he was also lost in his cultivation.

Tang Xiao didn't disturb Xing Xing, and he sat by her side before starting his cultivation.

Chapter 262: People's Thought

"Hey, Yin."

"Hmm?" Tang Yin turned to Sun Xiang, who was lying by her side. "What's wrong?"

Sun Xiang lay sideways and looked at her. "Why did you suddenly become so diligent in training? Today, you trained from morning until midnight, and you didn't rest at all."

"I forgot to tell you that Xiao'er will be taking everyone to Earth II to train, and he invited you to join us." Sun Xian was quite surprised to hear this from Tang Yin, especially since Tang Xiao had already sent his clone to train in the forest. "I've never practiced martial arts like you two in the past, and I've only fought ordinary humans so far. Although I've trained a lot since I became a cultivator, I feel that my fighting skills aren't sufficient to train in this place. There are still a few days before he brings them here, so I want to continue honing my fighting skills while waiting for them to arrive."

Sun Xiang nodded in understanding. "How long will you guys be training on Earth II?"

"I can't confirm that yet." Tang Yin asked Xiao Ai to ask Tang Xiao about it, but the female Ai immediately told him some things about her master's plans. "Yi An and Ouyang Qing will be going on vacation for about a month or so, so we'll be training here during that time. For now, that's just my estimate, and we might extend our training time depending on the situation. Since you'll be training with us, you should take a leave of absence from the police, or they'll have a difficult time finding you."

"I can contact Xiao Meng, but Tang Xiao controls her, so—"

"Hehe." Tang Yin chuckled as she turned to face Sun Xiang. "I can control Xiao Meng from here, you know? You just need to contact her now, and I'll take care of the rest."

Sun Xiang was curious about how Tang Yin and Tang Xiao were able to control Xiao Meng, but she didn't ask anything about it and sent a voice message to her former best friend, asking her to take care of his leave from the office. "Done."

'Xiao Ai, you know what you have to do, right?'

[Yes, Mistress. I will order Xiao Meng to take care of Sun Xiang's leave tomorrow.]

'Good.' Tang Yin spoke to Sun Xiang again. "It's done! Xiao Meng will take care of everything for you, so you don't need to be confused by that and focus on training with us."

"I know." Sun Xiang then asked her. "What will you two do to Xiao Meng and Xiao Hua after we destroy the Xiao Clan? Will you continue to control them?"

Tang Yin thought for a moment before shaking her head. "I don't want to deal with them, and Xiao'er will decide their fate after the Xiao Clan is gone. He will never keep them with us, and he will do something else to them, either kill them or cripple their cultivation."

"Sigh! Tang Xiao is too cruel, you know?" Sun Xiang lay on her back and looked at the ceiling. "Even though Xiao Meng has evil plans against me, we've been friends since childhood, so I hope he won't kill her. As for Xiao Hua, I don't care about her, and he can do whatever he wants to her, including killing her."

Tang Yin observed Sun Xiang's expression closely before speaking to her again. "I'll persuade Xiao'er not to kill Xiao Meng, and he can use another action regarding her to ensure she won't be a problem for us in the future."

"Thank you, Yin."

"Let's sleep now, I want to spar with Sun Yue again tomorrow morning."

"Alright."

.

.

.

In her room, Xiao Meng lay on her bed with an annoyed look after receiving orders from Xiao Ai, who was disguised as Tang Xiao.

"Tch! I'm the young miss of the Xiao Clan, but that bastard treats me like an errand girl!" Xiao Meng cursed in annoyance because she couldn't do anything to refute Tang Xiao's order, but she suddenly realized something. "Is he in a relationship with Sun Xiang now? Does that mean he already gave the recording of my confession to the Sun Clan?"

Xiao Meng let out a heavy sigh and turned to Xiao Hua, who had been standing by the side of her room to watch over her as per Tang Xiao's orders. 'How am I supposed to contact my family and tell them about this? Aunt Hua kept watching me, and that bastard had also done something to me that made me unable to contact them or dispute his orders.'

Xiao Meng closed her eyes and decided to rest, hoping that her grandfather or her family would realize their situation and come to her rescue.

Unlike her, Xiao Hua stood like a statue at the side of the room, and she kept her eyes on her, especially since Tang Yin was controlling her using her parasitic soul.

.
. .
.

Meanwhile, at the Liu Clan, three men were gathered together enjoying wine, the three of whom were Liu Xun, Liu Xing, and Wang Jishan. Their expressions showed disappointment, as Tang Xiao had not yet appeared at the Ming Clan's battle arena, even though they had waited three days since the auction ended.

"Could it be that Wu Ming didn't dare appear because he knew we were looking for him, Brother?" Liu Xing asked.

"That possibility exists because he is with Feng Shen, and that old man must have guessed that we will look for him there." Liu Xun suddenly raised his eyebrows after he received a voice message, and he immediately listened to it, which came from Feng Xiaofang. "Xiaofang just sent a voice message to me, and he wanted to meet with us to discuss serious matters."

"What kind of serious problem?" Liu Xing and Wang Jishan asked in unison.

"We have long suspected that the Jiang Clan joined the Xie Clan, but I didn't expect that Xiao Luo brought his Xiao Clan to join those heretics." The news shocked both of them. "I didn't expect that old man to be so ambitious, and he wanted to take over the Sun Clan from Old Sun."

"The Sun Clan?" Liu Xun nodded to Wang Jishan. "As far as I remember, it was Sun Qian who helped Xiao Luo and the Xiao Clan become a second-grade clan, but I didn't expect him to betray him and join the Xie Clan."

"Where did Xiaofang hear that, Brother? Has he gotten any evidence about Xiao Luo and the Xie Clan's conspiracy?"

Liu Xun put on a serious expression after his brother asked that. "Xiaofang wouldn't speak carelessly without proof, you know? Moreover, Old Sun is in the Feng Clan now, and he has already shown some evidence of the conspiracy between the two clans. I don't know where or how he obtained it, but he's a man whose values are truth, so I'm sure the evidence is valid."

"Haha." Wang Jishan laughed. "No one would doubt Sun Qian's words, including Long Yin. Even my sister once said that all cultivators can lie, but he would never lie, especially about a serious matter like this."

Liu Xun nodded in agreement with him. "Jishan, I know that you can't make a decision regarding this matter, so you should contact Wang Fuxi and inform her right now."

"I'm not sure my sister will interfere in this matter, but I'll try talking to her first." After saying that, Wang Jishan immediately sent a voice message to Wang Fuxi, informing her about Xiao Luo and the Xiao Clan. "Let's wait for her answer."

"Yeah."

.
. .
.

"What's wrong, brother?" Huang Xianyu asked her brother, who had lost concentration in his alchemy.

"Feng Xiaofang just contacted me." Huang Xiaotian explained the message to his sister, which was quite surprising for Huang Xianyu. "The situation is getting worse as more and more clans are joining the Xie Clan, and the latest is the Xiao Clan."

"Is there any evidence that Xiao Luo and the Xiao Clan have joined the Xie Clan?"

"The evidence came from Sun Qian, so I believe it's true." Huang Xianyu agreed with Huang Xiaotian. "Unfortunately, we don't know our father's whereabouts, and I can't contact him either. Even though Feng Xiaofang has the evidence, I'm hesitant to join him. Moreover, the Xie Clan is stronger than our Huang Clan now, and I'm afraid Xie Shun will attack us if we interfere in this matter."

Huang Xianyu understood her brother's thoughts. "The problem is, if the Xie Clan manages to control the Sun Clan and the other second-grade clans, they will definitely target all the first-grade clans in the future, including our Huang Clan. I don't want to meddle in this matter either, but we have to do something about it, or we'll face the consequences in the future."

"I will contact Fang Xiaofang now." Huang Xiaotian immediately sent a reply message before he continued his alchemy.

.
. .
.

At the Xue Clan, Xue Lan walked into her big sister's room. "Why does Yan Huoling want to visit our clan, Big Sis?"

"They've received information about a serious matter, so she wanted to meet with me to discuss it." Xue Jing immediately explained to her sister the contents of the message from Yan Huoling earlier. "The Xie Clan is acting increasingly out of control, and if we don't intervene in this matter, I'm afraid they will target us in the future."

Xue Lan nodded in agreement with her big sister. "Shall we go see our protector first?"

Chapter 263: Long Yin

Xue Jing thought about it for some time. "We will climb to the top of the mountain early tomorrow morning, and we will talk to Senior Snow about this matter. If she agrees, we will join them."

"Yes." Xue Lan nodded at her. "Big Sis, I'm thinking about looking for that young man."

Xue Jing is also the same as her sister, and she wants to get back the snow leopard in Tang Xiao's hands. "How are we going to find him? We don't know his true identity, and I'm sure Feng Shen won't reveal it to us."

"Didn't you say that Yan Huoling will come to our Xue Clan in two weeks?"

"Do you think Yan Huoling will tell us the young man's true identity?" Xue Jing shook her head in response. "That young man deliberately used a disguise to attend the auction, which means he didn't want to be recognized by anyone. Even if she knew his true identity, I'm sure that she wouldn't be willing to reveal it to us. I also want to get that snow leopard from him because their population is decreasing every year, but we don't need to rush into this matter. Instead, we should prioritize more important issues, such as dealing with those heretics. If they succeed in controlling many second-grade clans, I'm sure they will attack us someday, and we won't be able to face them."

Xue Lan sighed in disappointment because her big sister wouldn't let her look for Tang Xiao. "I'm going back to my cave now, Big Sis."

After Xue Lan left, Xue Jing took out a device and injected something into it. Instantly, the device projected an image of Tang Xiao at the auction house, prompting her to observe it thoughtfully. "Who exactly is he? He came to the auction with Feng Shen, and he also knows people from the Zhang Clan. The most important thing is that he has the space element, and only ten people have it so far. If I recall correctly, Senior Snow also has a space element like him, so I will discuss the matter with her."

After some time, Xue Jing turned off the device and closed her eyes, continuing her cultivation while waiting for morning.

.
.
.
Tap... Tap...

A woman walked into a room where a middle-aged man was cultivating in the middle of an artificial pool, with crystals on each side.

The man had a tall, sturdy build with long, well-proportioned limbs. His physique was lean rather than muscular. His face looked calm yet serious, with sharp brows above his closed eyes. His long black hair is falling straight down his back. He wears layered robes in shades of pale silver, white, and muted gold.

Meanwhile, the woman's face is mature and serious, with fair skin. She has large light blue eyes that feel alluring, framed by long eyebrows. Her nose is small, and her lips are thick with a muted red tone. Her hair is jet-black, falling thickly around her shoulders and down her back.

She has a curvy, mature body with large breasts, a narrow waist, and wide hips, emphasizing her elegance and sexiness. She wears a deep blue robe-style dress with red and gold accents, and the top of the dress is quite open, showing off the deep cleavage of her breasts.

"Why did you suddenly come here, Long Xianyin? Is there something important that you came to see me for?" The man asked without opening his eyes.

"Big Brother Long Yin, Feng Xiaofang previously contacted me and told me that several other clans had fallen under the influence of the Xie Clan, including the Xiao Clan." Long Yin slowly opened his eyes and looked at Long Xianyin. "He invited you to meet him and the leaders of the first-grade clans to discuss that heretic clan, but I told him that you wouldn't necessarily agree to attend that meeting."

Long Yin nodded in understanding and closed his eyes again. "Inform Feng Xiaofang that I won't be attending the meeting, as I would rather not waste my time dealing with that matter, and I want to focus on passing the Tyrant Level. If you feel it's necessary for our Long Clan to attend the meeting, you can go there on my behalf."

'As expected,' Long Xianyin inwardly muttered. "In that case, I will attend the meeting to represent you, Big Brother Yin."

"Now, leave me alone."

"Yes." Long Xianyin immediately left the place as she contacted Feng Xiaofang to ask for confirmation of their meeting date.

.
. .
.

Meanwhile, Xie Shun stood atop a large tree and looked around with a grim expression, especially since his clansmen hadn't managed to find Feng Shen and Tang Xiao after four days of searching. Furthermore, the people from the Xiao, Jiang, and Song Clans also failed to find them.

****Boom****

Several nearby trees suddenly exploded, and Xie Shun took a deep breath to calm his anger. He then contacted all his clan members, including Xie Jun, to inquire about the results of their search for Feng Shen and Tang Xiao, which remained fruitless.

****Bam****

Xie Shun punched the tree he was standing on, and his expression grew worse because of their response. "Where exactly are those two people hiding? We've searched almost every location on this Earth II, but we still haven't found them. If that little bastard has swallowed the Ascension Fruit and the Origin Elemental Flower, I'll lose my chance to surpass the Tyrant Level and upgrade my element."

After ordering his clan members to continue their search for Feng Shen and Tang Xiao, Xie Shun took a deep breath and immediately flew away from the place, looking for their whereabouts elsewhere.

.
. .
.

Wang Fuxi stood on the roof of a building, listening to a message from Wang Jishan regarding an invitation from Feng Xiaofang to meet and discuss those clans that had joined the Xie Clan. "That heretic clan has become increasingly active lately, but I didn't expect the Xiao Clan to join them. Xiao Luo even planned to attack the Sun Clan, even though Old Sun had helped him and his clan so much."

"Big Sis." Wang Fuxi looked at Bai Lianzhi, who had just arrived. "As far as I know, Xiao Hua and Xiao Meng are in this city right now. Do you want me to capture them?"

Chapter 264: Take Two Women Away

Wang Fuxi thought for a moment before nodding to Bai Lianzhi. "Capture Xiao Hua for me, as she's Xiao Luo's confidant. However, you don't need to do anything to Xiao Meng, as she might not know about her grandfather's plans."

"Yes, Big Sis."

"Wait."

"Is there anything else, Big Sis?"

"I have to return to Earth II now, so you can lock Xiao Hua up in the usual place, and I'll take care of her when I get back from there."

Bai Lianzhi was surprised to hear that from Wang Fuxi because she had not returned to Earth II for a long time, and she had not managed to find Tang Xiao. "Do you want me to keep an eye on Ouyang Hong?"

"Yes." Wang Fuxi nodded slightly. "I'm worried that Tang Xiao will appear and kill Ouyang Hong, so you must keep an eye on him while I'm gone. If he kills him, it will incur Long Yin's wrath, and the city will be in chaos because of it."

Bai Lianzhi nodded in understanding. "Leave it to me, Big Sis. I'll keep a close eye on Ouyang Hong, and I'll capture Tang Xiao if he tries to kill him."

"Protect him well." Wang Fuxi immediately flew away from the place, and she contacted Wang Jishan, informing him that she would attend the meeting.

.

.

.

Bai Lianzhi had arrived at Xiao Meng's house, and she found Xiao Hua keeping watch in her room. She wanted to go inside, but she suddenly saw a hole open beside the old woman, and a hand pulled her within before disappearing again.

Bai Lianzhi was shocked by that, and she hurriedly snuck into Xiao Meng's room to check, but she couldn't feel anything there.

'What the hell was that? Where did that hole come from? Who owns that hand? I'm sure it was a man's hand, but I don't understand why that person took Xiao Hua away with him.' Bai Lianzhi immediately left Xiao Meng's room and contacted Wang Fuxi, informing her about it. Her leader ordered her to look for the old woman throughout the

city. "Is that really the space element? Who exactly is that man? Could it be that he is someone from the Xiao Clan who was assigned to protect them? However, I have never heard of any member of that clan who has the space element, and members of the Xie Clan don't have that element either."

Bai Lianzhi let out a soft sigh and left Xiao Meng House to search for Xiao Hua, but she was never able to find her.

Shortly after Bai Lianzhi left, a hole appeared in Xiao Meng's room, and Tang Xiao walked out of it. "Thankfully, you kept monitoring Wang Fuxi's movement, Xiao Ai. If Xiao Hua falls into her hands, I will lose a pawn against Xiao Luo."

[What will you do to Xiao Hua and Xiao Meng, Master? Wang Fuxi already knows that Xiao Luo joined the Xie Clan, and he ordered Bai Lianzhi to capture the old woman, so she is no longer safe in the outside world. Moreover, my mistress's parasitic soul is inside her body, and she might be aware of that.]

Tang Xiao looked at Xiao Meng, who was sleeping so soundly that she didn't notice his and Bai Lianzhi's actions. He didn't wake her and sent her into the ark directly, asking Xiao Ai to take care of the two women. "I can't keep them in the ark because I'm sure Xiao Luo will contact them at any moment, and he'll be suspicious if he can't reach them."

[Master, I think you should take Xiao Hua and Xiao Meng to Earth II so Xiao Luo can contact them. I'm sure Wang Fuxi would never guess if you brought them there, so they should be safe there.]

"I couldn't possibly leave them in the Sun Clan, as I'm sure Xiao Luo has spies there, and he will know of their presence there." Tang Xiao suddenly had an idea and entered the ark, and he went straight to the training ground to meet Tantai Lingyan, who was still training there.

.
. .
.

Tantai Lingyan was confused when the device turned off by itself, but she was surprised when Tang Xiao walked towards her carrying Xiao Meng, with Xiao Hua walking behind them. "Why did you bring them here?"

"Wang Fuxi already knew that the Xiao Clan had joined the Xie Clan, so she ordered Bai Lianzhi to capture this old woman." Tantai Lingyan immediately stood up and approached Tang Xiao. "Master, I need you to take them to the Feng Clan because I can't keep them locked up here, or Xiao Luo won't be able to contact them."

Tantai Lingyan refused with a shake of her head. "Although I'm not sure about it, I think the Xie Clan has spies in the Feng Clan. If I bring them there, their presence will only bring trouble for Feng Xiaofang and the others. Since your clone is training on Earth II, I think you can leave them with your clone. However, you need to change their appearance first; otherwise, people will recognize their identities, which could cause problems for your clone."

"That's true." Tang Xiao immediately asked Xiao Ai to take two disguise rings from the treasure vault, just like the one Tang Yin had given Jessica some time ago.

"Ugh." Xiao Meng groaned softly before opening her eyes, but she was shocked to find herself floating in midair. She realized that she was in Tang Xiao's private place, especially after she saw the interior of the room. 'Tch! This man is such a bastard! He snuck into my room and brought me here while I was sleeping.'

"I can hear you, you know?" Xiao Meng froze as she just remembered that Tang Xiao could read her mind. "Do you think you're pretty? I would never be interested in a cunning and ugly woman like you, and I brought you here because Wang Fuxi already knew that Xiao Luo was in cahoots with the Xie Clan."

Xiao Meng was shocked after hearing that, and she was sure that her clan would soon face serious problems. Tang Xiao just shook his head and put her down. "For now, you and Xiao Hua will stay with my clone, so Wang Fuxi will never be able to find you two."

"Hmm?" Xiao Meng was confused when Tang Xiao mentioned his clone, but he didn't want to waste time explaining to her.

A few minutes later, Xiao Meng's eyes widened when she saw Tang Xiao's clone standing before them, and he immediately pulled her and Xiao Hua to his side. "How did you create your clone? As far as I know, a clone only has a few percent of our strength, but your clone has the same strength as your real body."

"Do you need to ask that? Do any other cultivators have a place like this?" Xiao Meng scowled after hearing that, but Tang Xiao paid her no mind.

"Master." Xiao Ai handed both rings to the two women. "Use them, and people won't be able to recognize you."

Chapter 265: Disguise

Tantai Lingyan looked at the two women closely after they used the disguise rings. "Hmm? Those rings are truly extraordinary, Xiao'er. Not only do their faces change, but their auras change as well. I'm sure Xiao Luo wouldn't be able to recognize the two of them even if they were standing in front of him, so they shouldn't be any trouble for your clone."

"Yeah." Tang Xiao nodded in agreement and walked away from the training ground. "I will cultivate again, Master."

Meanwhile, Tang Xiao's clone took Xiao Hua and Xiao Meng out of the ark, and Tantai Lingyan continued her training after Xiao Ai turned on the device.

Xiao Ai walked away as she considered several things to help Tang Xiao, especially when he faced the Xiao Clan in the future.

.
. .
.

Xiao Meng was annoyed when they arrived in the forest, surrounded by so many beasts. Tang Xiao's clone ignored her and dashed towards the beasts, transforming the Atropos Glory into a sword to attack them.

Xiao Meng looked at Xiao Hua, who stood like an obedient statue. She sighed softly and sat on a fallen tree trunk, thinking about Wang Fuxi. She was worried that the woman would act against her Xiao Clan, and her family would be in big trouble if that happened.

'What can I do to contact them? That woman is notoriously cruel to heretic cultivators, and she will definitely kill my family. I don't care if my traitorous father dies, but I don't want my mother to die.' Xiao Meng looked at Tang Xiao's clone in the distance. 'Should I ask for his help to save my mother? Will he be willing to save her?'

Xiao Meng was having a headache thinking about the situation of her clan, but she couldn't contact them because of Tang Xiao. Besides, Xiao Hua was under the control of Tang Yin's parasitic soul, making her feel even more helpless. 'Sigh! I'll try talking to him after he finishes his training.'

.
. .
.

"Wang Fuxi is on her way back here, but Long Yin refused to join the meeting, and he sent Long Xianyin to represent him."

Yan Huoling nodded understandingly to her husband. "At least Long Yin sent Long Xianyin to attend the meeting, so you can show her the evidence, and she will speak to him. When will you meet them?"

"Another week." Feng Xiaofang then asked her. "What about Xue Jing? Is she willing to meet you?"

"Xue Jing has agreed to meet me in two weeks, so Tantai Lingyan and I will leave for the Xue Clan in a week, and Feng Shen will escort us there." Yan Huoling thought for a moment before telling her husband about her daughter's problem. "Yao'er has decided to leave her job in the outside world, and she will return here in about a week."

"Oh?" Feng Xiaofang turned to his wife in surprise. "Did something happen? Why did Yao'er suddenly decide to leave her job and come back here?"

Yan Huoling let out a soft sigh and explained to her husband the reasons behind their daughter's decision, which she believed was due to Tang Xiao. "What should we do, husband? Although Yao'er didn't tell me the real reason, I'm sure she made that decision because of Xiao'er, and she seems to be obsessed with him. If that's true, she'll face trouble in the future, as I'm certain he won't accept her if she's attracted to him because of his resemblance to his late father."

"I think the same as you too." Feng Xiaofang furrowed his brows as he thought about his daughter. "Yao'er will be back here in a week, right?"

"Yes."

Feng Xiaofang nodded slightly. "Let's wait for Yao'er to return, and I'll talk to her about this matter. I don't want our daughter to experience the same hardships in her life, as it will become a heart demon for her, so I hope I can convince her to give up her obsession with Xiao'er."

"Our daughter is really troublesome." Yan Huoling sighed softly as she spoke.

"Haha." Feng Xiaofang laughed as he hugged his wife. "Don't worry, our daughter is all grown up now, and I'm sure she won't seek any trouble that will harm her future."

"I hope you're right."

.

.

.

Quickly, the day changed and morning came. As usual, Xing Xing immediately left the ark, and she didn't take the three women with her because Tang Xiao wanted them to train inside the ark; instead, Xiao Ai accompanied her to Tianmei.

Tang Xiao left the ark because Yi An was looking for him, and he immediately went to the Yi House to pick up her and Ouyang Qing.

When he arrived there, Tang Xiao saw Ouyang Hong standing in front of the Yi House, but Yi An refused to meet him. In the end, he gave up and left the house, but he had some plans in his mind to force her to cancel their divorce proceedings.

'Continue to monitor his movements, Xiao Ai.'

[Yes, Master.]

After Ouyang Hong left, Tang Xiao immediately entered the Yi House, and he right away took the two women out because they had been ready for a long time.

Yi An asked Tang Xiao to take her to her friend's house to submit all the documents needed to process the paperwork, and she asked him to leave her there.

After dropping Yi An off at her friend's house, Tang Xiao left with Ouyang Qing. "Lin Yan contacted me yesterday and told me that her brother had disappeared, and she also asked me about you."

'Heh! She'll never be able to find Lin Xia because I killed him and threw his corpse into the void.' Tang Xiao muttered to himself. "What did she ask about me?"

Ouyang Qing shook her head at him. "She doesn't want to tell me anything, and we should go to her house now. She must be feeling down right now because her husband decided to divorce her, and now her brother has disappeared without a trace, so I want to accompany her."

"Alright."

.
. .
.

Sometime later, they arrived at Lin Yan's house, and she was a little surprised when she saw Tang Xiao. She was happy to see him again and wanted to spend time with him since they hadn't seen each other for four days, but she didn't say anything because of Ouyang Qing's presence.

Tang Xiao did not join them and left Ouyang Qing at Lin Yan's house, disappointing her. "When did you find out that Lin Xia disappeared?"

Chapter 266: 50,000 More

The two young women were already in the bedroom, and Lin Yan explained to Ouyang Qing about her visit to the Ouyang House a few days ago, but she couldn't find her. Since she couldn't find her, she went to Lin Xia's house, but she couldn't find him there, and his neighbor told her that he hadn't returned for several days.

"As I said before, I went to the villa to accompany my mother because she had decided to divorce my father." Lin Yan was surprised by this, and she didn't expect Yi An to have the guts to divorce Ouyang Hong. "Have you reported Lin Xia's disappearance to the police?"

"After my brother's neighbor told me that he had not returned for several days, I went to the police station and made a police report about his disappearance." Ouyang Qing felt that there was something strange about Lin Xia's disappearance, and Lin Yan's next words made him feel even stranger. "The police said that not only my brother disappeared, but also several people in his inner circle disappeared, such as Ran Qingfeng, Yang Chen, Shen Xiang, and Yao Shao. Meng Huo died in prison, and the police still don't know the killer."

Naturally, Ouyang Qing knew all of them because they were her brother's friends, and they were the people involved in the incident seven years ago. Unfortunately, they failed to carry out their task because Tang Yin jumped from the third floor of the building, but she didn't expect that all of them would be dead, except for her big brother.

"What are you thinking, Qing?"

Ouyang Qing didn't respond to Lin Yan; instead, she took out her smartphone to contact Ouyang Ming, but he didn't answer her call. She immediately thought he was with Su Rou, which irritated her. "I think those people's disappearances and Meng Huo's death have something to do with Tang Yin."

"Tang Yin?" Lin Yan gasped in shock after she remembered the events of that day. "Do you think she killed them? How did she do it?"

"For now, it's just my guess because I don't have any evidence." Ouyang Qing immediately contacted Hao Lin for help, but her subordinate's phone number was switched off. "I'll have someone investigate this matter, and I'm certain that Tang Yin is behind their deaths. Since that cheap woman woke up from her coma, so many strange things have happened, including their deaths."

Lin Yan agreed. "Should we report Tang Yin to the police?"

"We can't do that without evidence." Ouyang Qing was eager to get rid of Tang Yin because of their old issues, but she couldn't make any moves now that her father was still dealing with her mother's divorce lawsuit. "By the way, my mother and I are going to Paris in a few days, and we'll be spending some time there until her divorce from my father is finalized, so I won't be back for quite some time."

Lin Yan was overjoyed upon hearing that, but she tried hard not to show it on her face. If Ouyang Qing left, she thought that she could spend time with Tang Xiao until she returned, and she would enjoy her time with him. Unfortunately, her wish would never come true because he had grown tired of her, and he had already decided to train on Earth II. "How could your mother suddenly decide to divorce your father?"

"All of this happened because of Su Rou." Lin Yan naturally knew that the woman was Yi An's personal assistant. "She slept with my father and brother, and my mother caught them sleeping together when she was about to wake my brother up. Since then, my mother decided to divorce my father, and they will officially divorce in the near future."

Lin Yan really didn't expect that, but she knew that Su Rou was a cheap woman who liked to seduce men for their money. "How about we go out now? I'm bored at home, and I want to find entertainment outside."

"Let's go."

"Aren't you going to contact Feng Xiao?"

"No need! We can go by taxi."

"Alright."

.

.

.

After he parked the car in a safe place, Tang Xiao went back into the ark because Yi An and Ouyang Qing would be spending quite a while outside, and he didn't want to waste too much time relaxing.

"Master."

Tang Xiao turned to Xiao Ai. "I need you to expedite the visa process for Yi An and Ouyang Qing so they can go on vacation as soon as possible, and I'll go to Earth II after they leave."

"Master, you don't need to think about them, and I will take care of everything after their documents enter the government office. I will arrange for them to leave as soon as possible, and you can practice with peace of mind after that."

"Good." Tang Xiao then asked her. "I should be able to create a second clone once my cultivation reaches the King Realm, right?"

"Yes, Master. Once you reach the King Realm, you can create your second clone, and your cultivation will be even faster if you leave your second clone in the ark to fully cultivate."

"How much Qi do I need to break through to the King Realm?"

"About 50,000 more, Master."

"I'm going to the training ground to check on Xiao Bai and the three women."

"Yes, Master." Xiao Ai smiled as she watched Tang Xiao leave. "I hope you can break through to the King Realm and form your cultivation soul as soon as possible, Master. That way, you can meet your future self, and you can learn a lot about cultivation and the cultivation world from him, so you'll be better prepared when you leave Earth."

After that, Xiao Ai left the ark and went to Tianmei to help Xing Xing there, as Zhao Qing was still busy at the late Tang Ye's company.

.
. .

Upon arriving at the training ground, Tang Xiao saw that Xiao Bai had already perfectly adapted to the two times heavier gravity. Her adaptation speed was quite fast, as it had taken him several days to fully adapt.

Tang Xiao asked Xiao Bai to rest first, but she refused and wanted to continue her training. She asked him to increase the gravity because he had perfectly adapted to four times heavier gravity, so she wanted to catch up with him.

Since Xiao Bai insisted on it, Tang Xiao increased the gravity in the device to level two, which made the gravity in her area three times heavier. He left her and trained Yu Xiaoling, Zhao Yuxian, and Jessica, as their fighting skills were still at a basic level. If their fighting abilities were still like that, he was afraid they wouldn't be able to face the beasts on Earth II, so he wanted to help them improve them.

.
. .

"Hey." Tang Xiao's clone, who was soaking in the river, turned to Xiao Meng. She felt embarrassed seeing him half-naked, but she felt she had no other choice since he

rarely rested, and he continued to search for beasts to spar with. "I understand my situation, but I was hoping you could help me with something."

Tang Xiao's clone turned his face forward. "Tell me what you need."

"I hope you are willing to save my mother if other cultivators attack my Xiao Clan." Tang Xiao's clone didn't answer Xiao Meng directly because he didn't know the situation in her clan or the people within it. "I know you hate me for my plans against Sun Xiang, but my mother is a good woman, and she doesn't know anything about my grandfather's plans. You can do whatever you want to me, including killing me, but I hope you are willing to save her from them."

"Who is your mother? Do you have a picture of her?"

Xiao Meng walked to the riverside, crouched down, and handed a photo to Tang Xiao's clone. "My mother's name is Qing Cheng, and she came from the third-grade Qing Clan. She was a good woman and mother, but my bastard father treated her badly because she couldn't give him a son."

"Hmm?" Tang Xiao's clone received the photo and saw Qing Cheng's face. "Why couldn't your mother give birth to a son? Did something happen to her?"

Xiao Meng sighed heavily, remembering that incident. "After my mother gave birth to me, her womb had a serious problem, which caused her to bleed heavily. The healers on Earth II couldn't cure her, so my grandfather took her to the outside world. The doctor was forced to remove her womb to save her life, so she could never get pregnant again for the rest of her life."

Tang Xiao's clone was shocked to hear that, as he thought cultivators should be able to treat such an illness. However, Xiao Ai told him that such an illness was incurable, and the best way was to remove her womb. Using the equipment inside the ark, which was far more advanced than any equipment on Earth, would be the only option.

"My bastard father desperately wanted a son to be the successor to my clan, and my mother couldn't give him one, so he took another woman as his second wife.

"Did that woman manage to give him a son?"

"Yes." Xiao Meng received her mother's photo back. "His second wife gave birth to their son, and their positions were swapped after that. His second wife became the first wife, and my mother was demoted to the second wife."

Chapter 267: Tang Xiao's Answer

Tang Xiao's clone nodded in understanding and immediately gave his answer. "I can't promise you anything, but I will talk to Uncle Sun about this matter. The other cultivators respect him; they might listen to him and spare your mother if he talks to them."

Xiao Meng naturally knew Sun Qian's reputation because she had been friends with Sun Xiang since they were little, and she knew that other cultivators respected him greatly, even though his Sun Clan was only a second-grade clan.

"Thank you." Tang Xiao's clone said nothing more and began cleaning himself, forcing Xiao Meng to leave the area. 'Sigh! I hope he can persuade Uncle Qian because he is my only hope of saving my mother if other cultivators attack my Xiao Clan.'

[Are you going to help Xiao Meng to save her mother, Master?]

"I won't waste my time on her, so I'll just talk to Sun Qian and the others, and they'll take care of everything. For now, I want to concentrate on improving my fighting skills and cultivation, and I don't want to bother with other things, let alone other people's affairs." Thereafter, Tang Xiao's clone sped up his bath, and he went to practice again afterwards.

.

.

.

At the Sun Clan's training ground, Zhang Xingcai and Mu Qingge stood side by side, watching the sparring match between Tang Yin and Sun Yue. "Yin'er's fighting skills are too inexperienced, but her speed is far superior to Sun Yue's. If she didn't have her speed, I'm sure she would have lost from the start."

"After all, Yin'er is a novice cultivator, and she has never practiced martial arts before. On the other hand, Sun Yue has been cultivating and training since she was a child, so she should be superior to her." Mu Qingge looked at her and asked her. "Has Uncle Sun told you the results of his visit to the Feng Clan?"

Zhang Xingcai nodded slightly. "My father-in-law has already met with Feng Xiaofang, and he has contacted the other first-grade clans. Wang Fuxi is on her way back to Earth II, and the others have agreed to a meeting in a week."

"What about Long Yin? Will he attend the meeting?"

"As we expected, Long Yin didn't want to attend the meeting, but he sent Long Xianyin to represent him." Mu Qingge could only shake her head at that, but Zhang Xingcai immediately asked her. "Where is Yan'er now? Why didn't you bring her here?"

"Yan'er lives in the outside world with her grandfather, and her cultivation has just broken through to the Middle Xiantian Level. She still needs to stabilize her cultivation first, so I didn't bring her back here." Zhang Xingcai was surprised to hear that from Mu Qingge. The last time they met, the little girl's cultivation was still at the Peak Foundation Level, but she had already broken through to that stage now. "Since Yan'er met Tang Xiao, my daughter became active in cultivating, and she was able to cultivate for several days as a role model stopped. Besides, she trained every day to improve her fighting ability because she didn't want to lose to him."

"Yan'er really likes Tang Xiao, huh?"

"That's why I decided to accept Tang Xiao as my future husband, and I made this decision because my daughter really likes him."

"I see."

After they watched Tang Yin and Sun Yue for a while, Zhang Xingcai and Mu Qingge left the place before leaving the Mu Clan, taking a walk to refresh their minds.

Meanwhile, Sun Xiang sat on the side of the training ground with both hands supporting her chin, and her eyes followed the movements of Tang Yin and Sun Yue. "They are really training maniacs, and I can't keep up with their training rhythm from morning to night."

.

.

.

"Are you two really going back now?"

Sun Qian nodded to Feng Xiaofang. "Although Zhang Xingcai and my second son are in my clan, I can't leave them for too long. I'm worried that those heretical cultivators might infiltrate and cause trouble, so I must return immediately to monitor the situation. We will meet again at the meeting in a week, and I hope they will have the courage to make the right decision."

"Let's wait another week to see the results." Feng Xiaofang turned to Tang Huang. "Are you also going back to the Tang Clan?"

Tang Huang shook his head. "My clansmen can take care of everything, so I won't be going back there. I'll be going somewhere else to train for the next week. When the meeting day arrives, Lingyan and I will head straight there, and we'll show them all the evidence. I hope none of them are cowardly, especially the Huang Clan."

"Ha ha ha." Feng Xiaofang laughed at that. "Huang Xiaotian isn't as brave as his father, and Huang Xianyu is more focused on her alchemy, so we can't blame them. Old Sun, I'll call Feng Shen to take you home, so you don't have to waste a few days on the journey back."

"I'll take my leave now, Old Feng and Old Sun." Tang Huang instantly disappeared from their sight, and he went to a further area before entering the ark.

Before long, Feng Shen arrived there, and he immediately took Sun Qian away from the Feng Clan.

Feng Xiaofang jumped onto the roof and looked into the distance, contemplating the situation on Earth II. He sensed that a storm was imminent, and the situation would worsen if a battle between righteousness and evil arose. "Can we really destroy those heretics? If we can wipe them out, this place will be completely safe, and everyone will be able to live in peace."

.

.

.

Tang Yuan and Feng Yao were sitting across from each other in front of a cafe, discussing their preparations for returning to Earth II and training. "Wang Fuxi has decided to return there, and she will attend the meeting."

"I've heard about her from my father, but unfortunately, Long Yin won't be attending the meeting, and Long Xianyin will be representing him." Tang Yuan took a sip of his drink before asking. "Do you think they'll dare to fight against the Xie Clan?"

"I'm not sure Long Yin will make a move, and he will probably hold back his Long Clan as usual." Feng Yao twirled the spoon in her glass as she thought about some things. "I don't know what Wang Fuxi's decision will be, but she probably won't make a move right away, and she will wait while monitoring the situation first."

"Isn't Wang Fuxi always like that? She has strength because she is the second strongest cultivator on Earth II, but her indecisiveness is really annoying." Feng Yao laughed in response to Tang Yuan's comment. "Speaking of that woman, she ordered Bai Lianzhi to capture Xiao Hua last night, but Xiao'er moved quickly to secure the old woman. She ordered her to search for the old woman all over the place, but Lianzhi would never be able to find her."

"How can you be sure of that?"

"Hehe." Tang Yuan chuckled. "Xiao'er already brought the old woman and Xiao Meng to Earth II, and they would never have expected that, so I'm sure Bai Lianzhi will never be able to find her."

Feng Yao nodded her head a few times. "Xiao'er possesses the void element, and no cultivator on Earth II has ever heard of it, so Wang Fuxi wouldn't have guessed that the two women were in his hands. Has he told you about his plans for them?"

"Not yet." Tang Yuan replied with a shake of her head. "Xiao'er hasn't thought of a plan for the two women yet, but he wants to use them to destroy the Xiao Clan from within, and he doesn't care if they end up dying at the hands of the Xie Clan."

"The Xie Clan's spies are spread in many places, and I'm sure it's impossible for Xie Shun to let go of his control over those clans who choose to join his clan. If they show any dangerous behavior, I'm sure he will eliminate them." Feng Yao suddenly had an idea about Tang Xiao. "Why doesn't he use the two women to improve his cultivation? Isn't he a dual cultivator? Didn't he use those three previously mortal women?"

Tang Yuan nodded at her. "You were right about Yu Xiaoling, Zhao Yuxian, and Jessica. Xiao'er didn't kill them for some reason, and he taught them to cultivate for his benefit. Regarding Xiao Hua and Xiao Meng, they never had a relationship before, and he was thinking of killing them after the matter with the Xiao Clan was over, but he seemed to have changed his mind."

"Does that mean he won't kill them?"

"I can't confirm their fate yet," Tang Yuan replied with a shake of his head. "For now, I can only wait for Xiao'er to think of his plans, and I will follow his plan regarding those two women. Even if he doesn't kill them, I'm sure he will never use them to improve his cultivation."

"Why?"

Tang Yuan looked at her. "Xiao'er seems evil with his actions lately, but he never touches people who have no problems with him. I thought he would hand the two women over to Uncle Sun and let him decide their punishment, especially since they're members of the Xiao Clan."

"I can't wait a few more days, and I hope Yi An leaves soon so we can return to Earth II to train with Xiao'er."

Chapter 268: Tang Xiao - Tang Huang

Tang Huang met with Tang Xiao, who was training Yu Xiaoling, Zhao Yuxian, and Jessica to hone their fighting skills. He informed his grandson of the decision of the first-rank clan leaders for the meeting to be held next week. "Although our Tang Clan is a

second-rank clan, I will attend the meeting, and I will reveal the evidence to them. Wang Fuxi will also attend the meeting, but Long Yin will not be there. He sent his sister, Long Xianyin, to represent him."

"Long Xianyin?" Tang Xiao was immediately interested in it because he needed help to weaken Long Yin.

"Are you thinking of using Long Xianyin against Long Yin?"

"Yes," Tang Xiao admitted it. "I'm open to all means so I can deal with Long Yin much faster, including using those closest to him. After I deal with him, I will kill Ouyang Hong. After resolving all previous issues, we will fully concentrate on our cultivation and training, and we will leave Earth much sooner than originally estimated."

Tang Huang understood Tang Xiao's wishes, but he didn't want his grandson to use people who had nothing to do with the matter between them and Long Yin, including Long Xianyin. "Xiao'er—"

"Grandpa, I don't care whether Long Xianyin had anything to do with my parents' deaths or not." Tang Xiao's gaze was filled with hatred after he remembered the incident 19 years ago. "Long Yin was the main perpetrator in that night's incident, and those people were able to do such atrocious things to my mother and kill my father because he helped them stop you and my master. Since he helped them to destroy my family, I will use all means to destroy him and his Long Clan, including using his sister."

Tang Huang let out a heavy sigh and patted his grandson's shoulder. "Xiao'er, I understand your hatred for Long Yin, but—"

"I won't change my mind, Grandpa." Tang Xiao clenched his fist tightly until his skin turned red. "I didn't do anything to Ran Xue, Ran Yue, Yao Yao, Yang Ziyue, and Shen Ling because they were ordinary women who were unaware of their parents' heinous actions. However, Long Yin and the Long Clan are different from them, and I'm sure Long Xianyin knows her big brother's actions in helping those people, so she is just as responsible as her brother. For that reason, I will not hesitate to use her, and I will destroy the Long Clan to its roots in the future."

Even though he didn't like it, Tang Huang could see the seriousness in his grandson's eyes. "What about Wang Fuxi?"

"Wang Fuxi, right?" Tang Xiao muttered with a cold tone and a glimmer of hatred in his eyes. "She is no different from Long Yin because she stopped Aunt Yuan and Feng Yao from saving my parents, and I will also make her feel my suffering for 19 years by destroying her Wang Clan in the future."

"Are you also going to kill Wang Fuxi?"

"Why should I kill Wang Fuxi?" Tang Xiao shook his head at his grandfather. "Death is too easy a punishment for her and Long Yin, so I will never kill them; instead, I will cripple the cultivation they have built over the years. That way, they will understand my suffering over the past 19 years, and they will regret their past actions for the rest of their lives."

Tang Huang grabbed his grandson's shoulder tightly and spoke to him. "Honestly, I don't agree with you doing that to Wang Fuxi because she has done so much good, and ordinary humans would have long suffered because of cultivators if not for her."

"Grandpa, you must remember that Wang Fuxi let your only son die at the hands of those people, and they also did such cruel things to your daughter-in-law before trying to kill her. That incident would not have occurred if Wang Fuxi had not stopped Aunt Yuan from saving them, so she must be held responsible for it." Tang Huang furrowed his brows in response to Tang Xiao's statement. "Is that woman more important to you than their suffering? Are those ordinary humans more important than their lives?"

Naturally, Tang Ye and Zhao Qing were far more important to Tang Huang than anyone else, but he didn't want Tang Xiao to escalate the situation by doing something like that to Wang Fuxi. If anything happened to her, the cultivators from Earth II would be free to roam the outside world, with no one to stop them.

"Grandpa, you didn't witness what happened that night, but I witnessed the way those people treated my late mother with my own eyes, and I will never be able to forget that event for the rest of my life. I hope you can understand my decision regarding Wang Fuxi, and I will never change my mind." Tang Xiao shifted his grandfather's hand from his shoulder and turned to leave. "When I reach her level, I will give her the most painful retribution by killing the members of her Wang Clan before her eyes, and I will cripple her cultivation after killing them."

Tang Huang could only sigh after Tang Xiao left the training ground. He wanted to take revenge on the two people who had caused the deaths of his son and daughter-in-law. However, he still had the public interest in mind, so he never considered taking revenge on Wang Fuxi, and he only wanted revenge on Long Yin.

"We won't be able to change Xiao'er's mind, Old Huang." Tang Huang turned to Tantai Lingyan. "Like you, I also dislike the idea of him attacking Wang Fuxi and harming her Wang Clan, but his heart is already filled with hatred due to his parents' death."

"Yeah," Tang Huang then asked her. "Do you think we can stop Xiao'er from taking action against Wang Fuxi and her Wang Clan? I don't care if he kills Long Yin and slaughters his Long Clan, but I don't want him to do those things to her and her Wang Clan."

Tantai Lingyan shook her head at him. "Xiao'er has changed, and he possesses the void element, so we will never be able to stop him. The only way I can think of is to warn

Wang Fuxi about this matter, but I'm sure Xiao'er won't like it if we do that, and she will try to eliminate him before he reaches her level."

"So, what should we do to prevent that from happening?"

"I don't know," Tantai Lingyan replied with a shake of her head. "I don't want anything to happen to Wang Fuxi because she is the protector of mortals, but I don't want anything to happen to Xiao'er even more, as he is my son. For now, we have to think about the best way to resolve the problem between them, and we might find a solution to this problem in the future."

Tang Huang nodded in agreement. "Let's continue our training! I am Xiao'er's grandfather, so I can't let him fight Long Yin and the Long Clan alone, and I must accompany him to fight them in the future."

"Me too."

.

.

.

Tang Xiao had already arrived at his room in the residence, and he immediately sat down on the bed, thinking about his conversation with Tang Huang earlier. However, he was already firm in his decision regarding Long Yin, Wang Fuxi, the Long Clan, and the Wang Clan.

****Swoosh****

"Big brother," Tang Xiao turned to Mu Yan. "Why is your face so serious? Are you thinking about something complicated?"

"Yes." Tang Xiao pulled her to sit beside him. "I'm thinking about my parents' deaths, and I'm also thinking about the people involved in their deaths."

"Long Yin, right?" After Tang Xiao nodded, Mu Yan hugged his arm and leaned her head on his shoulder. "Big brother, I know I'm still weak now, but I will strive to become strong, and I will help you face that man."

Tang Xiao was delighted after hearing Mu Yan's words and hugged her. "Yan'er, I know you want to help me, but I don't want you to get involved in this matter. I will become as strong as Long Yin in the future, and I will challenge him to a one-on-one fight then."

"But—"

"Shh." Tang Xiao placed two fingers on her lips, causing her to blush. "Even though the cultivation world is cruel and harsh, I don't want you to get your hands drenched in blood, let alone become a murderer like me. I love your innocence, and I will protect you from harm so you will never change."

Mu Yan pulled his hand down and hugged him. "Big brother, I can't continue being an innocent little girl, let alone live under your protection forever. I will be a grown woman in the future, and I will go to various places to deepen my experiences, so I must be able to protect myself."

"Haha." Tang Xiao pinched her nose. "You'll have to work hard to do that, and you can't just focus on your cultivation. You also have to constantly hone your combat skills. In a few days, I'll take you back to Earth II, and we'll train in the forest to fight beasts. Are you interested in fighting them?"

"Yes!" Mu Yan replied enthusiastically. "My mother once took me to fight beasts, but that was a long time ago, and I want to fight them again to hone my fighting skills."

Tang Xiao nodded slightly. "Alright, we'll be leaving in a few days."

Chapter 269: Snow Woman

Xue Jing and Xue Lan had already arrived at the top of the ice mountain, but there was nothing there except a blanket of snow covering the peak.

"Senior Snow, we came to see you to discuss something important." After Xue Jing spoke, the snow on the ground began to float into the air, forming a small vortex. Soon, a woman appeared in front of them, and both of them paid their respects according to their Xue Clan's traditions. "Jing'er and Lan'er pay respects to the protector."

The woman has a mature and charming face, with white, pale skin because of the cold air at the top of the mountain. She has long, silky, icy blue hair that falls smoothly down her back. Her expression looked serious, with two sharp icy blue eyes. Her nose is small and slender, and her pale lips are naturally full. Her figure looks voluptuous and sexy in a plain white dress with wide shoulders; her breasts are big enough to peek out from under her dress, and her waist is slim.

"What brings you two here, Jing'er and Lan'er?" Xue Jing took out a device and injected her qi into it, projecting an image of Tang Xiao at the auction house. "Hmm? Who is that young man? Why are you showing me his picture?"

"Senior Snow, I don't know his real name because he uses the alias Wu Ming." The woman raised her eyebrows slightly in response to Xue Jing's statement. "He has a snow leopard by his side, and I suspect that it is the winged one."

Senior Snow fell silent as she looked at Tang Xiao's image. "What else do you know about him?"

"He has the space element, Senior Snow."

"Oh? How did you know about that?"

"This." Xue Jing changed the image on the device when Tang Xiao took Feng Shen away from the auction house.

"No way." Senior Snow's scream startled Xue Jing and Xue Lan, and they could see that her expression looked shocked. "His element is not a space element but something else."

"What do you mean by that, Senior Snow? Are there any other elements similar to the space element?" Xue Lan asked.

"I've never heard of another element similar to the space element, but I'm sure that his element isn't the space element." Senior Snow then used her space element so the two women could see for themselves. "Can you two see the difference between my space element and his element?"

Xue Jing and Xue Lan paid attention to Senior Snow's space element and Tang Xiao's void element, trying to find the differences between the two.

"I can't see his element."

"Me too."

Senior Snow observed Tang Xiao's void element before explaining it to the two women. "The easiest way to explain the space element is Earth. The inside of Earth is space, and everyone can live in it, protected by the sky and atmosphere. However, that young man's element is different from the space element, and we can't see anything inside because there is nothing inside."

"There's nothing in it?"

"Yes." Senior Snow nodded to them. "There is nothing inside his element, and there is only absolute darkness there, so we cannot see or feel it. Do you two know where to find him? I want to talk to him about his element, or I will continue to be curious about it."

"We don't know his origins because we saw him for the first time at the auction house, but he came together with Feng Shen, so I'm sure people from the Feng Clan should know him." Xue Jing then asked her. "Would you like to meet Yan Huoling, Senior

Snow? She will be coming to our clan in two weeks to discuss those heretics, and you can ask her directly about him then."

"No need." Senior Snow declined and looked at Tang Xiao's image again. "Since he has the winged snow leopard by his side, I'm sure he'll come here someday, so I'll meet him then. So, what's up with those heretics?"

"The Xie Clan is increasingly expanding its operations, and several other clans have already joined them." Xue Jing explained some of the things she heard from Yan Huoling to her. "I didn't want to attend the meeting, but we have to think of something about this matter. If those heretics succeed in taking down the other first-grade clans, they will definitely attack our Xue Clan, and we won't be able to fight against them."

"Honestly, you don't need to worry about those heretics, as they will never be able to attack your Xue Clan as long as I'm here. Those heretics have been causing chaos for too long, so it is time for all of you to eliminate them. This Earth II will have peace after they disappear, so its residents will not continue to feel anxious and afraid like now." Senior Snow suddenly remembered something. "Jing'er, I remember you once told me about Old Man Xia's vision, right?"

"Yes." Xue Jing nodded at her. "Some time ago, Old Man Xia said that someone was going to break the protective barrier between Earth II and the outside world, and he also said that the situation on this planet would become extremely chaotic because of it. However, he didn't have a vision of the culprit, and the situation here had become chaotic as everyone frantically searched for that person. Why do you ask that, Senior?"

"This man." Xue Jing and Xue Lan looked at Tang Xiao's image. "I don't dare say for sure because I've never met him in person, nor have I witnessed his abilities, but I have a feeling that his unknown element can destroy the barrier."

Xue Jing and Xue Lan exchanged glances with raised eyebrows. "Do you think Wu Ming can really break the barrier using his unknown element, Senior?"

"For now, it's just my guess because I don't have any information about his unknown element." Senior Snow remained silent for some time while thinking. "This is the first time I've seen such an element, and I don't know its depth. However, I'm sure that his element is extraordinary, and he might be able to use it to destroy the barrier."

"So, what should we do, Senior?" Xue Lan asked.

Xue Jing spoke. "The number of cultivators on Earth II is large, and we cannot control everyone. If the barrier separating the outside world and Earth II is destroyed, those ordinary humans will suffer because of our existence."

"Yes," Senior Snow agreed with that. "Since the young man deliberately used a disguise, it means he doesn't want to be discovered by anyone. For now, you can try

asking Yan Huoling about him, but you don't have to force her to tell you because this matter is just my guess without any proof, and the old man's vision has never come true."

"I'll try to speak with Yan Huoling when she comes to my clan in two weeks." Xue Jing deactivated the device and put it away. "My sister and I will return now, and we'll see you again in two weeks, Senior Snow."

"Yes." After Xue Jing and Xue Lian left, Senior Snow fell into a daze as she gazed into the distance. "Could it be that the old man's vision will come true this time?"

At the Sun Clan, Tang Yin and Sun Yue had finished their sparring and went to clean up. Meanwhile, Sun Xiang had already left a while ago, bored of waiting for the two women to finish their spar.

"Do you want to join us for training?" Sun Yue turned to Tang Yin. "Xiao'er wants to take us to train in the forest in a few days, and we'll train there for a while."

"No," Sun Yue immediately refused. "I'm curious about your little brother, but I'm not comfortable being around a man with multiple wives, so I won't join you. If you want to spar with me again, you can return to this clan after your training in the forest is finished, and I will accompany you to spar as much as you want."

Tang Yin nodded in understanding, and they discussed some other things while cleaning their bodies. After they finished, they immediately joined Sun Xiang, Mu Qingge, and the others in the dining room.

Night fell quickly, and Tang Xiao, who was cultivating, immediately stopped when Xiao Ai informed him that Yi An and Ouyang Qing had contacted him. Before leaving the ark to pick up the two women, he glanced at Mu Yan, who was lost in her cultivation.

Tang Xiao immediately went to pick up Yi An because Ouyang Qing said that she would be staying at Lin Yan's house tonight. However, they didn't go back to the Yi House straight away, and they spent time elsewhere.

Tang Xiao hugged Yi An's waist, who was walking beside him, as they enjoyed their time by the quiet riverbank. "When will your visas be issued?"

"According to my friend, four days is the longest, but I booked two plane tickets for next week." Yi An turned to him. "Will you miss me when I'm not by your side, Xiao'er?"

"Do you need to ask that?" Yi An put her arm around Tang Xiao's neck as he turned to face her and hugged her waist. "I will always miss you, but I want you to go refresh your mind first. When you return to this city, you will be a free woman, and we will spend time together without any obstacles."

Chapter 270: Another Day

"Hehe." Yi An giggled. "I can't wait for that, and I'm going to enjoy myself with you. By the way, Meng Xin called me earlier, and she said she wanted to follow me to Paris. She has forgotten Yao Wei, but she would rather not return to this country yet, and she wants to continue her vacation for another month."

"With Meng Xin joining you, I think your holiday will be more lively, and the three of you can have fun together in Paris." Then, Tang Xiao asked her. "Do you want to spend the night with me? Your daughter is staying at Lin Yan's house, so you don't need to go back to the Yi House, right?"

"My Yi family is conservative, and they know about my problems with my husband. If I spend the night with you, they will suspect me and question me. Currently, I'm still Ouyang Hong's wife, so I can't accompany you tonight." Tang Xiao wanted to spend time with Yi An, but he could understand her situation. "Oh! I forgot to tell you that my husband came to the Yi House this morning, and he forced me to cancel our divorce, but I refused. I will become a free woman following my divorce, and we will always be able to be together then."

"Did Ouyang Hong threaten you?"

"He threatened me, but I'm no longer afraid of him because I know you'll protect me from him."

"That's for sure." Tang Xiao rubbed her cheek. "You are my woman, and I will not let anyone hurt you, including your husband."

Yi An hugged him tightly, smelling his masculine scent. "I've never felt happier in my entire life, Xiao'er. I'm happy with your love and attention to me, but I'm still worried about one thing."

"Tell me."

"You are a cultivator, and I am an ordinary human. You can live a very long time and stay young, but I can't live as long as you, and I will grow older with each passing moment." Tang Xiao let out a soft sigh and hugged Yi An tightly, thinking of ways to help her become a cultivator like him. "Sometimes, I'm afraid you'll get bored with me if I grow old, and you'll leave me when I can't do anything anymore."

Tang Xiao released Yi An from his arms, grabbed her shoulders, and kissed her for a moment. "Yi'er, you don't have to think about that, okay? I will never leave you even if you grow old, and I will always be by your side."

"Will you promise me?"

"I promise I will never leave you even if you grow old." Tang Xiao answered her with a serious tone and gaze. "While you're on vacation, I'll go train on Earth II to strengthen myself. Once I'm strong, I'll look for profound veins that are compatible with your body so you can become a cultivator like me, and we'll be together forever after you become one."

Yi An was pleased with Tang Xiao's desire to find profound veins compatible with her body, but she didn't want him to do so because he would have to kill others to obtain them. "Xiao'er, I—"

"I will never kill innocent people, and I will only kill those who try to kill me first, Yi'er." Tang Xiao pressed his index finger to her lips. "The life of a cultivator is never peaceful, and I have too many enemies who will never hesitate to kill me on Earth II, including those heretic cultivators. That's why I want to be strong, and I want to protect myself and those closest to me. If they attack me and try to kill me, I will attack them back and kill them, and I will extract their profound veins for you."

Yi An was truly terrified to hear this because she was an ordinary woman and knew nothing about cultivators or the cultivation world. She was afraid that something terrible would happen to Tang Xiao, and she really didn't want that to happen. "I can't help you with this matter because I'm an ordinary woman, so you have to always protect yourself, okay?"

"Yes." Tang Xiao nodded at her. "I will protect myself well because I still want to accompany you and the others."

"Yeah."

After they walked and talked for a while, they quickly returned to the car because it was getting late. However, they didn't immediately return to the Yi House, and they had a fun round before Tang Xiao drove Yi An home.

.

.

Tang Xiao did not immediately enter the ark; Instead, he entered the void and went to the Ouyang House, where he found Bai Lianzhi monitoring the house for Wang Fuxi.
"How strong is that woman Xiao Ai?"

[I will display her data for you, Master.]

"Okay."

"Her cultivation has reached the Lower Tyrant Level, and she possesses the light element, huh?" Tang Xiao didn't bother with Bai Lianzhi because he wasn't her match yet, and Wang Fuxi would hunt him down if he did anything to her subordinate.

Tang Xiao went straight into the Ouyang House and found Ouyang Hong talking to someone in his study, asking for help in cancelling Yi An's divorce suit.

However, Xiao Ai had already acted first to threaten the person, and he refused Ouyang Hong's request, leaving him annoyed and angry.

Tang Xiao considered taking action against Ouyang Hong, but Bai Lianzhi kept an eye on him, so he abandoned his plan and entered the ark to cultivate.

Ouyang Hong was frustrated because no one was willing to help him, including Huang Xiaoming. In the end, he left the Ouyang House and went elsewhere, while Xiao Ai continued to monitor his movements for Tang Xiao.

Another day quickly passed; Tang Xiao left the Ark in the morning to pick up Ouyang Qing at Lin Yan's house.

For Yu Xiaoling, Zhao Yuxian, and Jessica's training, Tang Xiao asked Tantai Lingyan to teach the three women how to fight properly, especially since he would be taking them to Earth II soon.

At the Sun Clan, Tang Yin continued training with Sun Yue. Although she knew that her grandfather had returned to the ark, she did not return there and focused on her training.

Mu Qingge didn't relax either, and she practiced sparring with Zhang Xingcai while waiting for Sun Qian, who was on his way home.

When Tang Xiao arrived at the house, the two women were already dressed up, and he took Ouyang Qing away without saying a word to Lin Yan.

Lin Yan was disappointed by that, but she couldn't do anything because she didn't want Ouyang Qing to know about her relationship with Tang Xiao, which would make her angry and hate her.

After that, Lin Yan went to the police station again to seek information about her brother. She met Yang Zhiyue, who was also there seeking information about her family's

whereabouts. Unfortunately, the police still couldn't provide them with any information, as they couldn't find those people, disappointing the two women.

Although Lin Yan and Yang Zhiyue had never been close to each other, they were facing the same problem, and they decided to go together to refresh themselves.

Meanwhile, a young woman walked out of the airport, her expression anxious. Her face looks mature and charming. She has long, dark hair that falls smoothly past her shoulders and down her back. Her eyes are large and slightly elongated, with dark lashes and shaped brows that naturally frame them. Her nose is slim and straight, while her lips are full with a rose tone.

The woman's figure is slender and feminine with nicely defined curves. Her breasts are bigger than most women's, sticking out from behind her black blazer. Her waist is gently defined, and her legs appear long.

The woman was Shen Ling, the daughter of Shen Tianhu and Yang Mi. She received news of her parents' deaths three days ago, but she couldn't return immediately, so she only returned today. Moreover, not only were her parents dead, but her brother was also missing, and the police couldn't find him.

"Shen Ling!" Shen Ling turned to the woman who shouted at her while running towards her. "I'm glad you're finally back in this country! I know you're sad because of Uncle Shen and Aunt Yang's death, but we have to go to the funeral home now. The whole family has been waiting for you to come back since three days ago, but we haven't managed to find Shen Xiang."

Shen Ling nodded to her. "Let's go there now, Shen Yu."

"Let me help you with your suitcase."

Soon, the two women left the airport and headed to the funeral home, but Shen Ling's expression was heartbreaking because of her parents' deaths. "Have the police told them about the cause of my parents' deaths?"

"The police found nothing inside Uncle Shen and Aunt Yang's bodies, and they concluded that they died of natural causes." Shen Yu paused for a moment before telling her the rest. "The problem is, your father faced serious problems before his death."

"What kind of serious problems?"

Shen Yu softly sighed. "Uncle Shenhu's private documents fell into the hands of the police, and they all describe his involvement in Uncle Tang Ye's death."

"Uncle Tang Ye's death?" Shen Ling was shocked. "Was my father really involved in his death?"
