## **Chapter 271: Shen Ling - Shen Yu**

"Uncle Tianhu wasn't only involved in Uncle Ye's murder, but he was also the main mastermind. He persuaded several other families, such as the Ouyang, Ran, Meng, Yao, and Yang families." Shen Ling froze and stared at Shen Yu in shock. "In the end, Uncle Ye died that night 19 years ago. Aunt Qing survived that night, but she committed suicide due to depression, and the cause was their actions against her."

"What did they do to Aunt Qing that night?"

"Uncle Tianhu and the other four violated Aunt Qing forcefully in front of Uncle Ye before Uncle Ouyang shot them." Shen Ling slumped in the passenger seat with a pale face after Shen Yu said that. "Now, they are all dead, except for Uncle Ouyang."

"How did they die?"

"You've heard the cause of Uncle Tianhu and Aunt Mi's death, right?" Shen Ling nodded slightly. "Uncle Yao died in prison on the same day as Aunt Ning died in the hotel, and the doctor said they both had heart attacks. Uncle Wuya was murdered by his wife and son, leading to both of them being sentenced to death by the government. Uncle Yang, his wife, and his son disappeared a week ago, and the police still haven't been able to find them. Uncle Ran and his son disappeared a month ago, but Aunt Zhao and her twin daughters are still alive. Among them, Uncle Ouyang is still alive, but the police haven't arrested him due to interference from others."

Shen Ling was truly shocked to hear all that. "Don't tell me that my brother disappeared because of this matter."

"I think so." Shen Yu nodded at her. "I heard that your brother and his friends were the perpetrators who forced Tang Yin to jump from the third floor of the empty building seven years ago. They wanted to violate her by force, just like their fathers did to Aunt Qing in the past, but they failed because she tried to commit suicide by jumping off the building."

"Where did you hear that?"

Shen Yu handed her smartphone to Shen Ling. "There's a video of their actions that night there, so you can watch it yourself. Among all the people involved in the incident that night, only Ouyang Ming is still alive today."

Shen Ling looked for the video and played it. She saw Sheng Xiang and several of his friends chasing Tang Yin into the building, which ended with her jumping from the third floor. "Where did you get this video?"

"The video was uploaded to the internet along with Uncle Tianhu's documents, but no one knows the identity of the person who uploaded it." Shen Ling looked at Shen Yu, and she felt that there was something strange about the video because the building wasn't finished yet, so there should be no CCTVs there. "You feel strange about that video, right?"

"Yes."

"I found the video strange because it was not CCTV footage; instead, it was recorded from someone's perspective, indicating that person witnessed the incident that night." Shen Ling agreed with Shen Yu. "The police have tried to analyze the video, and they found it to be genuine. However, they found the video strange because the area was empty at the time, and the person recorded the incident from a higher location in the building."

"Have the police interrogated Ouyang Ming about this matter?"

"The police did not interrogate Ouyang Ming because of the person behind his father." Shen Ling was truly curious about that person because he or she could hinder the police's investigation. "Speaking of Tang Yin, she has woken up from her coma, and she is living a new life by founding a cosmetics company called Tianmei."

"Do you think Tang Yin was involved in their deaths and disappearances?"

Shen Yu could only shake her head. "There isn't any evidence to suggest Tang Yin's involvement, and she was just doing her usual routine at the Tang House and Tianmei, so the police didn't do anything to her."

"Tang Yin has a brother named Tang Xiao, right?"

"Yes," Shen Yu confirmed with a nod. "But Tang Xiao is dead in prison."

"Huh? How did Tang Xiao end up in prison? Did you hear the cause of his death?"

Shen Yu sighed softly. "Tang Xiao went to prison after being accused of forcibly violating several women, one of whom was Ouyang Qing. He was supposed to be released some time ago, but several inmates there ganged up on him, and he fell into a deep ravine."

"Do you think Tang Xiao really did that kind of thing?"

"No," Shen Yu denied it with a shake of her head. "I don't know Tang Xiao well, but I'm quite familiar with Ouyang Qing's character. She's no different from her father and brother, and I'm sure that she was the mastermind behind his imprisonment seven years ago."

Shen Ling agreed with her, and she felt that Ouyang Qing was just as evil as her father and brother. She let out a soft sigh in her heart as she was certain that her brother would never return, leaving her the only one remaining from the Shen Family.

"I forgot to tell you something."

"What's that?"

"Your father's wealth vanished completely, leaving only his house." Shen Ling didn't think much about it because she already had her own job, but she still wanted to know how her father's wealth could disappear without a trace. "As for his company, Tianmei has bought all the shares, so Tang Yin is the owner now."

Shen Ling fell silent after hearing that, and she thought about going to see Tang Yin. "Let's speed up, cousin. I want to pay my last respects to my parents, and their corpses can be buried immediately. After their funeral affairs are finished, we will go to Tianmei to look for Tang Yin, and I want to talk to her about some things."

"Alright."

.

.

.

Tang Xiao accompanied Ouyang Qing shopping for new clothes because she didn't want to go to Paris wearing her old clothes. He waited for her to pick out some clothes as he listened to Xiao Ai's explanation about Shen Ling's return.

[What do you want to do to her, Master?]

"Nothing," Tang Xiao answered without hesitation. "I will kill anyone who hurts my family, but I will not do anything to those who have no problem with me. Moreover, the Shen family fortune has already fallen into my hands, and Shen Ling will not have anything anymore, so I don't need to do anything to her."

[What if you take Shen Ling as your wife? She is beautiful and sexy, and I think she will suit you.]

"Hahaha." Tang Xiao laughed when he heard that. "I've seen the current Shen Ling, and I admit that she's beautiful and sexy, but I don't have any interest in her. Sun Xiang is not as beautiful and sexy as her, but I like her more, and I will get her as my wife in the future."

[Unfortunately, you still have to face a huge obstacle to get Sun Xiang as your wife, Master. Her mother, Zhang Xingcai, has already told Mu Qingge that she doesn't like a man with multiple wives like you. She will never approve of your relationship with her daughter, and she will probably be hostile to you if you force her to marry her daughter.]

Tang Xiao smiled bitterly because Tang Yin had already told him about Zhang Xingcai's dislike for him, but he really wanted Sun Xiang as his wife, and he would do anything to make his wish come true. "I understand her dislike for polygamy, but we've never met before, and she might change her mind after we meet. If she still insists on separating us, I'll try my best to convince her to accept me as her son-in-law."

[Hehe! I don't think you'll be able to convince Zhang Xingcai that easily, Master. Her character is strong, and her convictions are firm. I'm sure you'll have to work hard to get her blessing to marry Sun Xiang.]

Tang Xiao nodded to her. "I have no problem with that, Xiao Ai. I like Sun Xiang, and I will do anything to get her, even if I have to fight hard to convince Zhang Xingcai."

"Feng Xiao!" Tang Xiao sighed softly and approached Ouyang Qing, who was already standing in front of the fitting room carrying a large amount of clothes. She immediately pulled him into the fitting room as soon as he arrived in front of her. "Accompany me while I try on all these clothes."

"Alright."

Ouyang Qing immediately took off all her clothes, including her bra and underwear. Tang Xiao could see that she had brought a sexy bra and underwear, which she had deliberately chosen to please him.

Tang Xiao walked behind Ouyang Qing, hugged her from behind, and kneaded her bare breasts. "Did you buy them on purpose to seduce me, Qing'er?"

"Mhmm..." Ouyang Qing covered her mouth with her hand directly. "Feng Xiao, take your hands off my breasts; we are in the mall now."

Instead, Tang Xiao brought his face closer to Ouyang Qing's left ear and nibbled on it. He kneaded her breasts harder, pinching her erect nipples with his fingers. "Qing'er, you like adventurous sex, right? How about we have sex here?"

"Mhmm... No... I would die of embarrassment if people heard my moans." Tang Xiao smiled and reached down, rubbing Ouyang Qing's lower body. "Ugh! Stop it! Otherwise, I can't hold myself back anymore."

## **Chapter 272: Shen Ling Is A Cultivator?**

Ouyang Qing couldn't hold herself back any longer as Tang Xiao's fingers parted her labia and stimulated her clitoris, causing her high lust to automatically overflow. No matter how hard she tried to hold herself back, her lust was naturally very high, and her actions aroused her.

Ouyang Qing turned to face Tang Xiao, put her left arm around his neck, and kissed him to suppress her moan. After all, they were in a public place, and she didn't want people outside to hear her moans. She lifted her left leg and wrapped it around his waist, allowing his fingers to stimulate her pussy.

Moreover, they hadn't had sex in two days, and Ouyang Qing really wanted Tang Xiao's cock inside her pussy, pounding it hard. Her right hand moved down and rubbed his dick from outside his trousers, finding it already semi-erect.

Tang Xiao enveloped the fitting room with his void element, so no one could hear Ouyang Qing's moans. Since they were in a public place, he stimulated her clitoris more intensely using the pleasure touch technique, causing her pussy to become even wetter as her lust overflowed.

Sexual pleasure quickly swept Ouyang Qing away, and she couldn't wait to feel Tang Xiao's dick inside her. She opened his belt and inserted her right hand into it, holding and rubbing his dick.

Since Ouyang Qing was impatient, and her pussy was ready, Tang Xiao stopped his actions and turned her back to him. He made her bend forward, took off his trousers, held his dick, and rubbed his glans against her wet pussy.

"Mhmm..." Ouyang Qing looked at Tang Xiao as she covered her mouth with her hand. She spread her legs and wriggled her lower body, giving him the signal to insert his dick into her pussy. "Mhmm..."

Ouyang Qing gasped in shock as Tang Xiao's dick penetrated her pussy, but she loved the feeling as it filled her lower body, especially once it started pounding her. Her mind soared into sexual pleasure every time his dick moved in and out of her, and his hard shaft pressed against her clitoris while rubbing it.

Tang Xiao and Ouyang Qing engaged in sexual intercourse until they both experienced their first orgasm, during which he ejaculated a significant amount of semen into her womb. After that, he cleaned her pussy and her sexual fluids that wet the floor, and she tried on the clothes she had chosen earlier.

.  
. .  
"Ugh! You're so crazy!" Ouyang Qing complained as she hugged Tang Xiao's arm, but her expression showed otherwise. Although they had a quickie, she was quite satisfied with it after they hadn't had sex for two days, and she wanted to continue until she was exhausted. "Did you know my heart was beating really fast? I've never had sex in a fitting room before, and I'm afraid that people will find out about our activities."

"Haha," Tang Xiao teased her. "But you enjoy it, right? I can feel your pussy becoming tighter than usual, and my dick is having a hard time moving because of it."

"I love it! I miss having your dick pounding my pussy because it gives me such incredible pleasure." Ouyang Qing tilted her head to the side. "Hey! We've had sex countless times, and you always ejaculate inside me, but I've never gotten pregnant."

"Do you want to get pregnant?"

"No," Ouyang Qing answered with a shake of her head. "My mother still doesn't know about our relationship, and I'm afraid she'll be shocked if she finds out I'm pregnant with your child. However, I'm confused about it, and I think that one of us or both of us is infertile."

"Hahaha," Tang Xiao burst into laughter upon hearing that. "Your thoughts are too far-fetched, you know? There are so many fertile couples, but they can't have children right away, and it takes them a long time to be able to have one."

"That's true." Ouyang Qing nodded in agreement. "Lin Yan had to wait two years to have a child in the past, even though her husband never used a condom when they had sex, and she also never used contraception. Do you want to have children with me in the future?"

'Heh! You're just my toy, and I'll never have children with you,' Tang Xiao muttered to himself. "Before we think about children, we have to tell your mother about our relationship first, remember? If we suddenly have a child, she will definitely be very shocked, and it might be problematic for her because she is a conservative woman."

Ouyang Qing wanted to tell Yi An about her relationship with Tang Xiao, but she was afraid that her mother would disapprove of their relationship because he was a chauffeur. Even though her mother's family was less famous and rich than her father's family, she was still afraid that she would disapprove of their relationship and separate them. "You're right, we should ask my mother's blessing first before thinking about children, but I'm not sure if she will be willing to accept our relationship."

"Let everything flow like water, okay? If your mother doesn't agree with our relationship, I will try hard to convince her." Then, Tang Xiao asked her. "Do you still want to spend time with me? Or do you want to go back to the Yi House?"

"I still want to spend time with you, but my mother previously texted me and asked me to go back to the Yi House. There's a family event there, so we have to go back now, but I want to spend time with you again tomorrow."

"Alright, I will take you back to the Yi House now."

Since the mall and the Yi House were quite close, they quickly arrived at the house. Tang Xiao left the car there before finding an empty place, and he entered the ark to continue his training.

Ouyang Qing immediately entered the house and joined Yi An, who was chatting with her family.

.

.

.

At the funeral home, Shen Ling had already paid her last respects to Shen Tianhu and Yang Mi, and the officials there began the process of cremating their corpses because they had died three days ago.

Shen Ling was disappointed that her parents' families seemed indifferent to her, even though her parents had helped them so much in the past. Only a few of them cared about her, like Shen Yu and her family.

"What are your plans now?"

Shen Ling released a soft sigh. "We can only collect my parents' ashes tomorrow, right? If that's the case, I want to go back to the Shen House first, and we'll go to Tianmei to look for Tang Yin after that."

"I'll take you there." After informing her parents about this, Shen Yu took Shen Ling away from the funeral home, and they went to the Shen House first.

.

.

.

A few minutes later, they arrived at the Shen House, and Shen Ling looked around the house with a sad feeling. The last time she returned home, the atmosphere there was still warm because of her parents and brother, but now that they were dead, there was only emptiness.

Although there was no evidence about Shen Xiang's death, Shen Ling believed that her brother was dead like their parents. Although she had no proof of that, she had a hunch that Tang Yin knew something about it, and she wanted to meet her to confirm it.

Shen Yu could only sigh at her cousin's expression, and she tried to comfort Shen Ling. "What are your plans after this? Are you planning to go back abroad again in the future?"

"No," Shen Ling faced her cousin. "My job there is excellent, and I can save a lot with my high salary there. However, I've decided to resign, and I will use my experience there to find a job here. I'm sure my brother is also dead, but I won't give up on finding his corpse, and I will cremate him like our parents."

Unfortunately, Shen Ling's hope of finding Shen Xiang's corpse would never come true, as Tang Yin's darkness creature swallowed him alive.

Shen Yu nodded in understanding. "Do you want to go to Tianmei now?"

"Let's go there now."

.

.

.

Sometime later, the two women arrived at Tianmei, and Xiao Ai greeted them. "Would you two like to browse and buy our products?"

"Can we meet Tang Yin?" Shen Yu asked her.

On the other hand, Shen Ling looked at Xiao Ai with a strange gaze. 'This little girl isn't human because I can't sense any life signs from her.'

"Unfortunately, she's not here because she went abroad a week ago, and I don't know when she'll return to this country." Xiao Ai stole a glance at Shen Ling. 'Oh? I didn't expect that she was a cultivator, and her cultivation had already reached the Upper Xiantian Realm, so she should have realized that I wasn't human.'

"What do you think, cousin?"

"We'll come back here again when Tang Yin comes home." Shen Ling looked seriously at Xiao Ai. "Cousin, please wait for me in the car; I want to talk to her about something."

Although confused by that, Shen Yu nodded to her cousin and left the shop. After ensuring that her cousin wouldn't overhear their conversation, Shen Ling asked Xiao Ai a question. "What exactly are you?"

"I am Xiao Ai."

Shen Ling shook her head at Xiao Ai. "I didn't ask for your name, but I want to know what kind of creature you are."

### **Chapter 273: Shen Ling's Master**

"Sorry, but my identity is none of your business, so I don't need to tell you." Shen Ling frowned at Xiao Ai, but she kept a calm face. "If you come here looking for my mistress, you can come back after she returns, but I can't say for sure when she'll return from overseas."

Shen Ling didn't like Xiao Ai's attitude, but she couldn't make a fuss in the outside world, or Wang Fuxi would punish her for it. She took out a business card and handed it to the female Ai. "When Tang Yin comes back, please ask her to contact me on this number, and I will come again at that time."

"Alright."

Shen Ling stared at Xiao Ai for some time before turning to go out, leaving Tianmei.

"Hmm? Who is her master? I've checked the bodies of her parents and little brother, but they don't have any cultivation veins." Xiao Ai reported the matter to Tang Xiao as she searched for Sheng Ling's data in her database, but she found no information about her master or her connection to cultivators from Earth II. "She definitely has connections with cultivators on Earth II, or she wouldn't be able to become a cultivator, but I'm not sure which clan she's affiliated with."

.

.

.

In the car, Shen Ling was lost in thought as she looked out the window, thinking about Xiao Ai's identity. 'What exactly is that little girl? Could she be a creation of those heretic cultivators? If that's true, Tang Yin should be related to them, but I can't be sure yet because I haven't met her.'

"What are you thinking about, cousin? Are you thinking about your brother?"

"No," Shen Ling shook her head slightly at her cousin. "I'm thinking about something else, but I can't tell you about it. By the way, please take me to the hotel because I would rather not stay at my parents' house, or I'll keep thinking about them."

Shen Yu was curious about Shen Ling's thoughts, but she didn't ask anything and drove towards the hotel.

.  
. .  
.

A while later, Shen Ling was already in the hotel room and took out her smartphone, calling someone. However, she was unaware that Xiao Ai was already monitoring her phone number, which was too easy for the female Ai.

[Have you arrived in your country, Ling'er? Is there something that made you call me at this hour?]

"Master, I met a little girl, but I couldn't feel any signs of life from her. However, she is not a doll or a puppet, and she can think like a normal person." Shen Ling then told her master about Xiao Ai. "She works for Tang Yin, but I couldn't find any information about her true purpose for approaching her."

[Who is Tang Yin?]

"Tang Yin is the daughter of the late Tang Ye, Master."

[Oh! The late Tang Ye was Tang Huang's son, but he was born without cultivation veins, so he was forced to live in the outside world. However, I heard that he and his wife died 19 years ago, but I don't have detailed information about their deaths.]

Shen Ling sighed heavily after hearing that. "Master, my parents had something to do with their deaths, and I suspect that my parents' deaths are also related to that matter."

[Did your parents really have anything to do with their deaths?] Shen Ling recounted the story she had received from Shen Yu earlier. [You are a good girl, but I didn't expect your father to be so evil, Ling'er. If that's true, that little girl was probably related to Tang Huang and the Tang Clan, and that old man sent her to protect Tang Yin because she's not a cultivator, but I also have doubts about that.]

"What are your doubts, Master?"

[If Tang Huang could create that little girl to protect her granddaughter, he should have created her long ago to protect his dead son and daughter-in-law, and they both wouldn't have died at the hands of your father and his friends.]

"You mean?"

[I guess that there is someone else behind the Tang Clan, but that mysterious person appeared after Tang Ye's death, and he or she created that little girl specifically to protect Tang Yin.]

"But who is that person?"

[I left Earth II a long time ago, and cultivators are constantly evolving, so I don't know the situation there. If you want to investigate, you'll have to go to Earth II, and you can ask for help from the people of my Miao Clan by showing my plaque.]

Shen Ling thought about it seriously because she had never been to Earth II, and she met her master overseas several years ago. "Alright, I'll go to the Miao Clan and ask for their help in investigating the person behind the Tang Clan."

[Even though I've taught you a lot about fighting, you must always be careful when you go to Earth II. The situation there is different from the outside world, and there are countless cultivators far stronger than you there. Besides, those heretic cultivators from the Xie Clan are always roaming all over the area, and they won't hesitate to do cruel things to you if you fall into their hands.]

"Yes, Master." Shen Ling turned off the call and lay down on the bed. "Could it be the Tang Clan or the people behind them who killed my parents? Did they also kill my brother because he tried to violate Tang Yin by force?"

Shen Ling decided to rest first after such a long flight, and she intended to go to Earth II early tomorrow morning because she didn't know the situation there, so she wouldn't go there when it was dark.

.  
. .  
.

Tang Xiao stopped his training and approached his grandfather and master. "Do you two know about the Miao Clan?"

Tang Huang and Tantai Lingyan exchanged confused glances, wondering how Tang Xiao knew about the Xie Clan. "Where did you hear about that clan?"

"Shen Tianhu's daughter, Shen Ling, is a cultivator. Her master is from the Miao Clan, and she previously met Xiao Ai at Tianmei." Tang Xiao told the two about Shen Ling and her master's conversation based on information from the female AI. "She plans to go to Earth II to investigate the person behind our Tang Clan because her master suspects that there is someone else helping us from behind, including creating Xiao Ai."

"I see." Tang Huang nodded in understanding. "The Miao Clan used to be a first-grade clan, and they were experts in puppets and spies. However, their clan experienced a significant decline after several of their main members died at the hands of the Xie Clan, and they couldn't rise again since then, so their clan was dropped to a second-grade clan."

"If Sheng Ling's master is from the Miao Clan, I think I know that person."

"Who?"

"Miao Yusheng."

Tang Huang also remembered that person. "I agree with Lingyan, and Shen Ling's master should be Miao Yusheng. After the death of several key members of the Miao Clan, he decided to leave Earth II and live in solitude in the outside world, and he never returned there again. However, I didn't expect that he would take a disciple, and his disciple was the daughter of the mastermind behind your parents' deaths."

"How strong is Miao Yusheng?"

"Back then, Miao Yusheng's cultivation had already reached the Middle Tyrant Level, and several hundred years had passed since he left Earth II, so his cultivation was probably already on par with Long Yin's."

Tang Xiao raised an eyebrow. "Originally, I didn't want to do anything to Shen Ling, but she seemed to be deliberately looking for trouble with us. Moreover, Xiao Ai told me that she already knew that her father was the mastermind behind the incident 19 years ago and her brother was one of the causes of Yin'er's accident, but she intended to investigate us for the deaths of her family."

"What are you going to do to Shen Ling?"

"I haven't decided yet, and I will approach her first to observe the situation closely." Tang Xiao's gaze turned cold. "If she can't accept her family's death after the crimes they committed in the past, and she chooses to become our enemy, I won't hesitate to send her to reunite with her family in the afterlife."

Tang Huang and Tantai Lingyan let out a heavy sigh as they watched Tang Xiao leave. "Old Huang, Xiao'er is getting scarier and scarier, and he too easily says he wants to kill

others. I'm afraid his character will change to become like those heretic cultivators in the future, and people will hunt him down if that happens."

"Sigh." Tang Huang released a heavy sigh. "I myself don't want Xiao'er to turn into a cold-blooded killer, and I'm afraid that he will go astray on his path of cultivation."

"I hope Xiao'er will never stray into evil."

"Me too."

.  
. .  
.

Tang Xiao was already sitting on the bed in his room, thinking about Shen Ling, Miao Yusheng, and the Miao Clan. "Xiao Ai, do you know the location of that old man?"

[Master, I can't possibly randomly search for Miao Yusheng's whereabouts. If you want to know his location, you have to approach Shen Ling, and she will leave for Earth II tomorrow morning.]

"I want you to keep an eye on Shen Ling's movements and tell me about the portal that she passes through, and I will send my clone to her location."

[Yes, Master.]

## **Chapter 274: Teaching Mu Yan**

After a day of traveling, Sun Qian finally arrived at the Sun Clan, but Feng Shen didn't stay there long and left the clan directly. He met his family, who were chatting in the main hall, informing them about the meeting with the cultivators from the first-grade clans.

After they chatted for a while, Mu Qingge and Tang Yin decided to say goodbye to the members of the Sun Clan, and the two immediately left the clan before entering the ark.

Sun Yue was disappointed because she still wanted to spar with Tang Yin, but she couldn't stop her from leaving.

Sun Xiang was the same as her cousin, and she decided to return to her room to cultivate. She couldn't bear listening to her mother's lecture about Tang Xiao, even though she had told her that she had not fallen in love with him.

Sun Qing chose not to comment on Tang Xiao and Sun Xiang's relationship, and he waited for him to come to their clan first to talk about it. He advised Zhang Xingcai not to force her choice on her daughter, but his daughter-in-law was unwilling to listen to him, and she insisted on never approving their relationship.

.

.

.

After they entered the ark, Mu Qingge joined Tantai Lingyan and Tang Huang, who were training Yu Xiaoling, Zhao Yuxian, and Jessica in martial arts.

Mu Ling had also joined them, as he had finished his business in the outside world, and Mu Qingge explained to her father about the cultivator gathering that would take place in a few days. He had heard everything from Tang Huang and Tantai Lingyan, and he made the unexpected decision to abandon all his business in the outside world and return to Earth II.

"Are you really going to return to Earth II, Father?"

"Back then, I decided to stay in the outside world for several reasons, one of which was that my cultivation had never been able to break through. However, my cultivation has broken through now thanks to Xiao'er, and I'm confident I can break through even further after this, so I decided to return to Earth II and focus on my cultivation." Mu Qingge nodded to Mu Lin, who immediately asked her. "How is your relationship between you two? Have your feelings for him grown?"

Mu Qingge explained to him. "I've started to have feelings for Tang Xiao, but my feelings haven't really deepened yet. I'll wait until my feelings for him become deeper first before moving on to the next stage, which may take more time."

"I see." Despite this, Mu Lin was already satisfied with the development of the relationship between Tang Xiao and Mu Qingge, and he was sure that his daughter would not be lonely anymore if they became a couple in the future. "I hope that your relationship will bloom soon, and you two can get married at that time."

Mu Qingge smiled slightly as she saw the impatience on her father's face. "Don't worry, Father. Even though my relationship with Tang Xiao is still far away, our relationship is moving in the right direction, and you will see the results in the future."

"Yeah."

After that, Mu Lin and Mu Qingge helped Tang Huang and Tantai Lingyan train the three women, with Xue Bai working alone to adapt to Level 2 gravity.

.

.

.

Tang Yin had already arrived inside Tang Xiao's room, but he was still engrossed in his cultivation, and he didn't notice her arrival. She walked towards him as she took off her clothes, leaving her naked.

When Tang Yin stood in front of him, Tang Xiao opened his eyes and pulled her into his lap, giving her a brief kiss.

"Hehe," Tang Yin giggled and wrapped her arms around his neck. "Did you miss me, Xiao'er?"

Tang Xiao put Tang Yin on the bed, took off his clothes, and pinned her down. "You are my big sister and wife, so I will always miss you. How is your training with Sun Yue?"

"Not bad." Tang Yin touched his forehead and shared her training with Sun Yue over the past few days. "That woman is beautiful and sexy, and I think you will be attracted to her when the two of you meet."

Tang Xiao saw the image of Sun Yue in his memories first. "She is beautiful and sexy, but I will never be attracted to her."

"Are you sure about that?"

"One hundred percent." Tang Xiao's fingers began to trace her cleavage. "Her beauty is no match for you, Xing'er, and Qingge. Moreover, I can see that she's not my ideal woman, so I'll never be attracted to her."

"Haha," Tang Yin laughed at that. "You haven't met her yet, so how can you be sure she isn't your ideal woman?"

"Forget about her; I just want to spend time with you now."

"Me too." Tang Yin pushed Tang Xiao to lie aside, positioned herself between his legs, and held his dick. "We haven't had sex in a week, so I'm going to monopolize you today."

Tang Xiao moved her falling hair and rubbed her head. "I miss you too, so I want to spend time with you."

"Me too." Tang Yin stuck her tongue out of her mouth, lifted his dick up, and began licking it like a lollipop. She licked it from top to bottom and vice versa. She drenched his entire shaft with her warm saliva, making it slowly harder.

After Tang Xiao's dick was fully hardened, Tang Yin opened her mouth and devoured his glans. She didn't insert it too deep, and she licked his glans, especially the small slit above it, which leaked his precum.

"Ugh..." Tang Xiao moaned as he stroked her head, but he didn't rush her to suck his entire dick and let her do as she pleased. "Yin'er, you've gotten better at giving me oral sex."

Tang Yin thoroughly enjoyed playing with Tang Xiao's dick. She sucked it, sometimes hard and sometimes gently, with her tongue constantly moving nimbly over his glans.

Tang Yun's head started bouncing up and down, sometimes fast and sometimes slow, as Tang Xiao's dick filled her little mouth. Her lips rubbed against the skin of his shaft, accompanied by sucking sounds from her mouth that were sometimes soft and sometimes loud.

Tang Xiao lay relaxed on the bed, and his eyes kept opening and closing. His mouth emitted moans of pleasure as he enjoyed Tang Yin sucking on his dick..

***\*Swoosh\****

Tang Xiao and Tang Yin turned towards the door, seeing Mu Yan standing there with a red face and blinking repeatedly. She had seen him naked before, but she had never seen him with another woman in such a situation.

Instead of leaving the room, Mu Yan walked over to the bed as she looked at Tang Xiao's dick in Tang Yin's mouth. "What is Big Sis Yin doing, Big Brother? Why is she putting your thing in her mouth?"

"Yan'er, you have to leave us, okay? We—"

"Yan'er, you don't need to leave." Tang Xiao looked at Tang Yin, who had already removed his dick from her mouth. "She is your future wife, but she is still innocent about sex. I want her to learn about sex by watching us have sex, and she will understand how to serve you well when the time comes."

Mu Yan covered her face with both hands, but her fingers were slightly apart, which allowed her to peek at Tang Xiao's erect dick. 'Why did it get that big? Does it really not smell bad that Big Sis Yin wants to suck it?'

"Lower your hands, Yan'er." Mu Yan was too embarrassed to lower her hands, so Tang Yin grabbed them and pulled them down. "I know you've never seen a man's genitals

before, but I can tell you that this kind of thing is normal for husbands and wives, and I often do it for your big brother. When you're 18, you can do it for him, and you'll definitely like it."

Mu Yan turned her head to the side and asked. "Does it not smell bad, Big Sis Yin? After all, Big Brother peed through it, right?"

"No." Tang Yin shook her head. "Now you sit on the side, and I want you to watch us. I'll teach you how to satisfy your big brother, so you can do it well in the future."

Mu Yan nodded slightly and sat on the side of the bed, feeling curious about Tang Yin and Tang Xiao's activities. Her face became even redder when she saw his erect dick towering before her eyes.

Tang Xiao looked at Tang Yin and shook his head, but she winked at him and devoured his dick once again. She bobbed her head up and down, and her cheeks dimpled as she sucked his dick harder, with her slender fingers playing with his testicles.

Mu Yan never took her eyes off Tang Xiao's dick, as she was truly curious about a blowjob. His dick kept moving in and out of Tang Yin's mouth, mixing with the sound of her sucking. She looked at his face, and she could see that he was enjoying his big sister's actions, tempting her to try it.

*\*Slurp... Slurp... Slurp...\**

Tang Yin gave her little brother a blowjob for several minutes until he neared orgasm. "Yin'er, your sucking is too good; I'm going to ejaculate soon."

Tang Yin inserted most of Tang Xiao's dick into her mouth, followed by a spurt of his semen, which dripped out a little.

## **Chapter 275: The Xie Clan**

After Tang Xiao finished ejaculating, Tang Yin released his dick and showed his cum inside her mouth to Mu Yan before swallowing it.

"Why did you swallow big brother's liquid, Big Sis?"

"Yan'er, we're dual cultivators; his yang qi is beneficial for both my cultivation and my body. When you're ready, we'll teach you about dual cultivation, and you can start swallowing his cum then." Tang Yin straddled Tang Xiao's lower body, held his dick, and pointed his glans at her pussy. "Watch carefully, Yan'er. I will insert your big brother's dick into my body now, and we will immediately start having sex."

At first, Tang Xiao didn't want Mu Yan to watch them have sex, but he realized that she was too innocent when it came to that kind of thing. Moreover, Mu Qingge had already

agreed to her daughter becoming his wife, so she agreed to Tang Yin's idea of letting her watch them.

"Yes, Big Sis." Mu Yan lay on her stomach, resting her chin in both hands, and looking at Tang Xiao's dick. "Big brother's thing is so big; won't it hurt you, Big Sis?"

"I will get immense pleasure, and you can see it in my expression later." Tang Yin began to insert Tang Xiao's dick into her body, but she did it slowly, so Mu Yan could see the process. "Mhmm... I missed you and your dick, Xiao'er."

Mu Yan gasped in shock while covering her mouth with her hands. She could see Tang Yin's pussy stretching and expanding to match the size of Tang Xiao's dick.

Mu Yan observed Tang Yin's expression to ensure she wasn't in pain, but she didn't see any signs of pain on her face; instead, she looked obscene as Tang Xiao's dick went deeper into her body.

Tang Xiao stretched out both hands, kneading Tang Yin's breasts. "I miss you and your pussy too, Yin'er."

A while later, Tang Xiao's dick was already buried inside Tang Yin's body, and she immediately began their sexual activity by moving her body, allowing Mu Yan to watch his dick move in and out rapidly.

"Ahh... Your dick is truly the best, Xiao'er." Tang Yin pressed both palms against Tang Xiao's chest, lifted her lower body, and moved faster. "Ahh... Can you see it, Yan'er? Mhmm... Your big brother's dick is pounding my pussy, and the pleasure is incredible."

For the first time in her life, Mu Yan felt an unusual sensation from her body, which was starting to heat up because of their actions. She imagined herself in the position of Tang Yin and Tang Xiao's dick inside her body, causing her pussy to slowly become wet with her sexual fluids.

Mu Yan's breath slowly became ragged, watching Tang Xiao's dick continue to pound Tang Yin's pussy. She wanted to experience the sensation of having his dick inside her body, but she knew that she wouldn't be able to do it until she turned 18.

"How's the search for those two going?" Xue Shun asked Xie Jun, who had just arrived.

"We didn't manage to find them, Big Brother." Xie Shun narrowed his eyes at Xie Jun, making him tremble. "People from our clans, the Xiao Clan, the Jiang Clan, and the Song Clan, have searched almost the entire Earth II area for them, but their whereabouts are unknown. I've ordered some people to check the residence of the Feng Clan, and they'll let me know soon."

"Forget it." Xie Shun was truly disappointed with that. "Several days have passed; I'm sure the fruit is no longer there, so you can order them to stop. For now, we don't need to deal with those first-grade clans, and we should accelerate our plans for those second-grade clans."

"Big brother, I forgot to tell you, but I received news from our spies that Tang Huang, Tantai Lingyan, and Mu Qingge came to the Sun Clan a few days ago." Xie Shun raised an eyebrow upon hearing that. "Our spies don't know the purpose of those three people coming to the clan, but they said that Sun Qian had been away for a few days with two of them."

"What exactly are they planning?" Xie Jun responded with a shake of his head. "Xiao Luo is Sun Qian's good friend, so you can order him to find out information from that old man."

Xie Jun immediately contacted Xiao Luo and conveyed Xie Shun's orders to him. "What about the Miao Clan, Big Brother? Although they have been demoted to a second-grade clan, they were once a first-grade clan. They no longer have any powerful cultivators, and Miao Yusheng is the only one remaining from their older generation. However, he hasn't returned to Earth II for hundreds of years, so I think we should subdue them first."

"Even though the Miao Clan no longer has powerful cultivators, we cannot underestimate their abilities, especially their skills in puppetry and espionage." Xie Shun was silent for a while as he thought back to the clan. "Moreover, Wang Fuxi is protecting them because her father is their close friend, so we don't need to bother them for now. Instead, we should focus on the other second-grade clans, and our primary target is the Sun Clan. They are the strongest among the second-grade clans, and people greatly respect Sun Qian. Thus, we must first subdue him and his clan, and we will use them to smooth our dealings with the other clans."

Xie Jun smiled strangely as he remembered something. "Big brother, I heard that Zhang Xingcai is an attractive woman, so I hope you'll be willing to give her to me after we successfully subdue the Sun Clan."

"Your brain is only about women." Xie Jun grinned upon hearing that. "I don't need Zhang Xingcai, so you can have her later, and you can use her to subdue the Zhang Clan."

"Thank you, Big Brother."

After Xie Jun left, Xie Shun got up from his seat and walked to the window, looking south. "What exactly is Tang Huang, Tantai Lingyan, and Mu Qingge's purpose in going to the Sun Clan? Where did they go before? Are they planning something?"

Xie Shun contacted his subordinates in that city and ordered them to infiltrate the Sun Clan, as he had a bad feeling, especially with the return of Tang Huang and Tantai Lingyan. Even though they weren't as strong as him, he didn't dare underestimate them, especially the latter.

Xie Shun also ordered his other subordinates to check several other clans, one of which was the Zhang Clan because they were the Sun Clan's in-laws.

.

.

.

Tang Xiao was lying on the bed with Tang Yin and Mu Yan on either side of him, embracing both women.

"Do you remember everything, Yan'er?" Tang Yin asked, catching her breath.

"Uhm." Mu Yan nodded shyly, glancing at Tang Xiao's limp dick. "Unfortunately, I'm not 18 yet, so I still have to wait a few months to do it with Big Brother. Moreover, my mother hasn't done it with him yet, so I won't be getting ahead of her."

"Haha," Tang Yin softly laughed. "Even though your mother isn't his wife yet, she already has feelings for him, so we just need to wait for time until her feelings bloom. When that happens, she will give herself to him, and you can also be his wife at that time."

Mu Yan herself couldn't wait to become Tang Xiao's wife. "What are you thinking, Big Brother? Why are you so quiet?"

"I'm thinking about some things for our training, and we'll focus on training for the next month." Tang Yin and Mu Yan looked at him. "The only drawback of this ark is that we don't have any enemies, so we can't fight seriously. In the forest, we can fight many strong beasts that will attack us with the intent to kill, making them good opponents for us right now. Once our fighting abilities improve, we will fight other cultivators, especially those heretics from the Xie Clan."

Mu Yan's expression turned furious after she heard the name of the clan, recalling the horrific incident on Mu Lin's birthday. "The Xie Clan members are evil people, and many of them have attacked my Mu Clan. Even Jiang Sheng worked together to kidnap me and harm my grandpa, so we must kill them to uphold the justice."

"You're right." Tang Xiao recalled the events of that day. "Right now, we are no match for the Xie Clan, especially their higher-ups. We must be careful fighting them, as some are as strong as Long Yin and Wang Fuxi. I also want to fight them, but we don't need to think about them for now, and we should focus on building our strength. When we are truly powerful, we will go to that clan to exterminate them, and we will also exterminate all the clans that submit to them, including the Xiao and Jiang Clans."

"Yes." Mu Yan immediately got out of bed. "I'm going back to my room to cultivate, and I'm going to the Xie Clan to kick their ass in the future."

Tang Xiao and Tang Yin smiled in amusement as Mu Yan ran away. "What do you think I should do about Shen Ling, Yin'er?"

"I've heard from Xiao Ai about Shen Ling and Miao Yusheng." Tang Yin looked up at him. "What if you look at the situation first? If that woman really can't accept the death of her family, and she intends to take revenge against us, we will take action against her."

### **Chapter 276: Wang Fuxi - Wang Jishan**

"Alright, I'll take a look at the situation first, and I'll decide my next move regarding Sheng Ling later."

"What about Yi An and Ouyang Qing? When are they leaving for Paris?"

"In a few days, and Meng Xin will meet them there." Tang Xiao pinned Tang Yin beneath him. "Are you still not satisfied?"

"Haha," Tang Yin wrapped her arms around his neck. "How can I be satisfied with just one orgasm after we haven't had sex for a week?"

"Let's do it again."

.

.

.

Several hours later, Tang Yin had already fallen into a deep sleep. Xiao Ai informed him that Yi An sent him a message, and she wouldn't be going anywhere for the next few days because she wanted to spend time with her family before leaving for Paris.

When Tang Xiao came out of the room, Mu Qingge was already waiting for him outside, and he immediately approached her. "Why are you here, Qingge?"

"I already knew about the previous incident." Tang Xiao scratched his head as he understood what Mu Qingge was referring to. "Does this mean you've accepted Yan'er as your future wife?"

Tang Xiao nodded at her. "Although Yan'er's feelings for me grew because of my mother's soul, I could see that she was falling in love with me, so I decided to accept her. However, I won't take her as my wife now because she's only 17, and I haven't completely won your heart yet."

"I've started to like you, but I haven't completely fallen in love with you yet." Mu Qingge held his head and briefly kissed him. "I'll use our training in the forest later to get closer to you, and I'll give myself to you when I'm fully ready."

Tang Xiao held her hands and kissed her forehead. "I can't wait to get you, but let's let everything flow like water, and we'll enjoy our training in the forest."

"Yeah," Mu Qingge then told him. "Zhao Yuxian and the others are exhausted, so I sent them to their rooms to rest."

Tang Xiao nodded and let go of her hands. "I'm going to the training ground now."

"Alright." After Tang Xiao left, Mu Qingge went straight to her room and sat next to her daughter, and she began cultivating to stabilize her cultivation.

.

.

.

After three days of traveling, Wang Fuxi finally arrived at the Wang Clan, and she went to see Wang Jishan to ask about the Xie Clan. "Is what you said a few days ago true? Is the Xiao Clan really an accomplice of that heretical clan?"

"Big Sis, I didn't hear everything myself, but I heard it from Feng Xiaofang. He got all the evidence from Sun Qian, so I believe that it's true."

Wang Fuxi would never doubt Sun Qian, and she was certain about the truth of the news. However, she wanted to hear everything herself, so she immediately contacted him. She listened carefully to his explanation, but she was surprised when he said that he got all the news from Tang Huang and Tantai Lingyan, and they got it from Xiao Meng.

Wang Fuxi suddenly remembered Xiao Hua's disappearance, and she immediately contacted Bai Lianzhi to check on Xiao Meng's whereabouts in the outside world.

Wang Fuxi frowned deeply when Bai Lianzhi informed her that Xiao Meng had disappeared, even though she had seen her there three days ago.

"What happened, Big Sis?"

"My subordinate just told me that Xiao Meng disappeared." Wang Jishan was confused by Wang Fuxi's answer. "I contacted Sun Qian just now, and he told me that he got the news from Tang Huang and Tantai Lingyan, who got it from that little girl. I asked Bai Lianzhi to check that little girl's house, but she disappeared without a trace."

"Eh? Did news about the Xiao Clan come from Tang Huang and Tantai Lingyan?" Wang Fuxi nodded at Wang Jishan, who was increasingly confused about that. "Isn't Xiao Meng the granddaughter of Xiao Luo? Why would she leak the news about her grandfather to them?"

Wang Fuxi shook her head in response. "I don't know what really happened, but I'm sure Xiao Meng wouldn't have revealed her grandfather's plans on her own accord, and someone forced her to reveal everything."

"Are you sure that someone forced Xiao Meng to reveal her grandfather's plans?"

"Yes," Wang Fuxi sighed. "There have been many incidents in the outside world, and a young cultivator killed many mortals there. I've been searching for his whereabouts, but I've never managed to find him."

Wang Jishan was truly shocked that a young cultivator killed so many mortals in the outside world, especially under the supervision of his big sister. "Who is the person you mean, Big Sis?"

"His name is Tang Xiao, and he is Tang Huang's only grandson." Wang Jishan was even more confused by this because he knew that the old man's grandson was an ordinary human, but Wang Fuxi told him that he was a cultivator. "Many things happened in the outside world, and that kid almost died in prison. However, someone saved him and taught him cultivation, and he killed almost everyone involved in his parents' murder 19 years ago, except for the Ouyang Family."

"Are you saying that Tang Xiao forced Xiao Meng to reveal all his grandfather's plans?"

"I'm sure that Tang Huang and Tantai Lingyan would never do anything to Xiao Meng, and they were no longer in the outside world when I finished my seclusion." Wang Jishan agreed with Wang Fuxi on that matter. "On the contrary, Tang Xiao has committed many heinous acts, including killing those mortals, so I believe he forced the little girl to reveal all of her grandfather's plans. Unfortunately, I was unable to track his location because he possesses the space element, and I suspect that he was the one who took the little girl and Xiao Hua away."

"The space element?" Wang Jishan raised an eyebrow for a moment. "Could Tang Xiao and Wu Ming be the same person, Big Sis?"

Wang Fuxi looked at her brother. "When you told me about Wu Ming, Tang Xiao was in the outside world. Although they both possess the space element, I'm sure no one can be in two different places at the same time, so I'm certain that they're two different people who just happen to possess that element."

Unfortunately, Wang Fuxi was completely wrong about that, especially since she didn't know that Wu Ming was Tang Xiao's clone.

"That's true." Wang Jishan nodded at her. "There are some cultivators who have the space element here, but they can't go to the outside world using it, and vice versa."

"Forget it, I'll wait a few days, and I'll ask them directly." Thereafter, Wang Fuxi left his brother and returned to her room, where she cultivated while waiting for the meeting day to arrive.

Wang Jishan watched his big sister leave for a while before letting out a soft sigh, and he went to another area afterward.

.  
. .  
.

Meanwhile, Shen Ling was already in front of one of the portals leading to Earth II, and she activated the device Miao Yusheng had given her. Once the portal was activated, she immediately entered it, and it closed by itself.

After Shen Ling disappeared, Xiao Ai immediately informed Tang Xiao of her departure and the location of the portal.

The next moment, Shen Ling arrived in a forest on Earth II. She looked around and recalled her master's words about the Miao Clan's location, and she needed at least three days to arrive at the clan with her current flying speed.

Shen Ling decided to leave that forest and go to the nearest town, and she contacted a member of the Miao Clan according to her master's instructions. After all, there were too many cultivators far stronger than her on Earth II, and she had never fought them directly, even though she had often sparred with Miao Yusheng.

After flying for some time, Shen Ling arrived at a small town. She suddenly received a reply message from the person she had contacted earlier, asking her to wait for someone to pick her up in that town.

Shen Ling decided to go to an inn and rent a room, waiting for the person who would pick her up to arrive.

After getting a room, Shen Ling immediately went to hers and sat by the window, looking at the situation in the city from there. "I still can't believe that a world like this exists on Earth, and this place is truly vast, but no ordinary person knows about it. Can the people from the Miao Clan really help me investigate the Tang Clan and the mysterious person behind that clan? Sigh! I can only wait for someone from that clan to pick me up, and I'll ask them after I get there."

Since she didn't know when the person from the Miao Clan who would pick her up would arrive, Shen Ling decided to cultivate in her room, mainly because she was afraid to wander around alone.

.

.

.

Since he was going to another city to spy on Shen Ling, Tang Xiao's clone decided to send Xiao Meng and Xiao Hua back into the ark. Moreover, the two women weren't necessarily capable of handling the pressure inside the void, so he didn't want to bother bringing them with him.

After Xiao Ai informed him of Shen Ling's destination city, Tang Xiao's clone entered the void and used the Void Dragon Steps to travel there, which took one to two days.

## **Chapter 277: Pick The Ran Twins**

Even though she had been held in the Primordial Divine Ark before, Xiao Meng had never walked around in the other areas, so she was truly amazed when she saw everything.

At the training ground, Xiao Meng saw Mu Lin, Tang Huang, and Tantai Lingyan were busy training Yu Xiaoling, Jessica, and Zhao Yuxian. She could recognize the latter two women, but she couldn't recognize the first woman.

Xiao Meng didn't hear about Jessica's disappearance, but she knew that Zhao Yuxian was with Tang Xiao and Tang Yin. She did not expect that they would teach their maternal aunt to become a cultivator, and her cultivation improved quite rapidly even though she was still not as strong as her. Apart from them, she also saw Xing Xing, Zhao Qing, and Chu Lingxi practicing there.

Tang Xiao had planned to take them to Earth II in a few days, but his maternal aunt and mother-in-law were still beginners in cultivation, so they had a lot to learn, especially

fighting. He asked Tang Yuan to join them, but she refused him and went to train with Feng Yao, especially since her best friend still didn't know about the ark.

For Tianmei matters, Tang Yin asked Xiao Ai, Yao Yao, and the other employees to handle it because she wanted to focus on her training.

Xiao Meng watched them one by one as she wondered in her heart about the ark. 'Where exactly did Tang Xiao get this place from? Could it be that he got this place from his savior? Where did that person come from? The prison in this place is much more advanced than the prison in the outside world, and I've never seen a training ground this advanced before, especially that gravity device and those training dummies.'

Tang Xiao gave Xiao Meng freedom inside the ark, and he wasn't worried about her at all because Xiao Ai had implanted her sub-chip inside her brain, so he could control her easily.

[Master.]

'What's wrong, Xiao Ai?'

[Ran Xue and Ran Yue have returned to the Tang House.]

Tang Xiao stopped his training and approached Zhao Yuxian. "Your twin daughters are back, so I want you to meet them and tell them about cultivators."

"Eh?" Zhao Yuxian was surprised to hear that. "Are you really allowing them to become cultivators?"

"They are my cousins and good girls, so I won't abandon them. I'll take you out now, and you can talk to them first. After that, I'll bring you all back here, and you can teach them about cultivation." Tang Xiao took Zhao Yuxian's hand and took her out of the ark, but he didn't go to the Tang House and went somewhere else.

.

.

.

"Mom! Where have you been?" Ran Xue asked.

Ran Yue put on an annoyed face and spoke to her. "We came back a few days ago, but you weren't home, and we couldn't contact you either."

"I had some important business a few days ago, so I went out of town, and I only just got back today." Zhao Yixuan embraced her two daughters. "Yue and Xue, I have something to tell you, but you two probably won't believe it, so I'll show you in person."

Ran Yue and Ran Xue exchanged confused glances. "What exactly do you want to show us, Mom?"

"This." Zhao Yuxian stretched her hand forward, and a green qi appeared above her palm, leaving her twin daughters dumbfounded when they saw it. "Yin'er calls it Qi, and every cultivator has a different element."

"What do you mean by cultivator, Mom?" Both girls asked in confusion because they had never heard such a term before.

"Let's sit first." Zhao Yuxian pulled her twin daughters to sit on either side of her, and she explained to them about cultivators, qi, and some other things. "People here don't know about all that, but cultivators do exist. Yin'er and I are proof of their existence, and I'm telling you two about all this because we want you to become cultivators like us."

"Can we really become cultivators like you and Big Sis Yin, Mom?" Ran Yue asked.

Ran Xue was also interested. "Is it difficult to become a cultivator?"

"Becoming a cultivator is not difficult, but becoming a strong cultivator is difficult and takes a long time." Ran Yue and Ran Xue were increasingly eager to become one. "You both have cultivation veins, so you can become cultivators like us. After this I will take you two to a place, and I will teach you to become ones there."

"Is that place far? How are we going to get there?"

Zhao Yuxian shook her head at them. "Be patient, okay? For now, we have to wait for someone to pick us up, and you two will definitely be surprised to see that person."

"Who is that person?"

"Be patient! You will meet that person soon." Ran Yue and Ran Xue pursed their lips. "While we wait for that person, I want to know what you two have been up to these past few days, so you have to tell me everything."

.

.

.

Tang Xiao was standing on the roof of Lin Yan's house, and he could see her relaxing in her room. A week had passed since they last spent time together, and he wanted to kill her after she divorced her husband, but he changed his mind a little after Xing Xing and Tang Yin persuaded him.

Tang Xiao wanted to end their relationship by revealing his true identity, but he couldn't do it because Lin Yan would definitely tell Ouyang Qing about it.

Even though Xiao Ai could intercept Lin Yan's calls and messages, she couldn't do anything if the two women met, and Tang Xiao didn't want to use her sub-chip on her.

After thinking about it, Tang Xiao decided not to meet Lin Yan, and he immediately left her house for the Tang House.

.  
. .  
.

When Tang Xiao arrived at the Tang House, Ran Xue and Ran Yue couldn't recognize him because he was disguised as Feng Xiao, confusing them both.

"Is he the person you were talking about earlier, Mom?"

"What's his name, Mom? Is he your boyfriend? Why are you already looking for another man?"

Zhao Yuxian smiled bitterly because she felt confused about explaining to her twin daughters that the man in front of her was their cousin, Tang Xiao. "Have you finished your business?"

"Yeah." Tang Xiao looked at the two girls. "Your mother has explained to you two about cultivators and the like, right?"

"Yes."

"In that case, I will take the three of you to another place now, and you two can learn to become cultivators there."

"But—"

"It's okay," Zhao Yuxian interrupted her two daughters. "I understand that you two still have many questions about his identity, but you will find out everything soon."

"Alright."

.

.

.

Ran Yue and Ran Xue were stunned when Tang Xiao brought them into the ark because they had moved in the blink of an eye, and the interior could not be found anywhere else in the outside world. The two young girls rubbed their eyes repeatedly to make sure they weren't seeing things, and they also pinched their cheeks to make sure they weren't dreaming.

"What kind of place is this, Mom?"

"Where are we now, Mom?"

"This place is inside the Primordial Divine Ark." Ran Yue and Ran Xue were even more stunned when they heard that, especially when a flying car stopped in front of them. "You can take them to the residence area and teach them about cultivation. If they have trouble with that, I'll call Xiao Ai to help them."

"Alright." Zhou Yuxian pulled her two stunned daughters onto the flying car, and she took them to the residential area as per Tang Xiao's instructions. "For now, I want you two to focus on becoming cultivators, and you'll learn more later, including about this ark and everything within it."

Thereafter, Tang Xiao went straight to the training ground to continue his training.

.

.

.

Before long, Zhao Yuxian and her twin daughters arrived at the residence, where they encountered Mu Yan, who had just come out of her room.

"Are they your two daughters?" Mu Yan asked, looking at the Ran twins.

Zhao Yuxian nodded and introduced her two daughters. "Their names are Ran Xue and Ran Yue, and they're the same age as you."

"Eh?" Mu Yan was a little surprised to hear that. "You two are Big Brother Xiao and Big Sis Yin's cousins, right? My name is Mu Yan, and my mother is Big Brother Xiao's future wife."

Upon hearing that, Ran Yue and Ran Xue turned their attention to Zhao Yuxian. "Is the man from before our cousin, Mother?"

"Yes,"

Ran Yue and Ran Xue were shocked by this, as they couldn't recognize Tang Xiao. "Since when was our cousin released from prison? Why does his face look different from the one we know?"

"Many things happened in the outside world, and your cousin almost died in prison. Fortunately, his late master was in the area at the time, and he saved him and taught him to become a cultivator." Zhao Yuxian pulled her two daughters. "Let's talk about that later, and I'll teach you two to become cultivators first."

"I'll go to the training ground to train with the others." Mu Yan boarded the flying car and left them.

After Mu Yan left, Zhao Yuxian took her twin daughters to her room in the residence area, where she taught them the methods to become cultivators.

### **Chapter 278: Two Days Later**

After some time, Ran Xue and Ran Yue opened their eyes, feeling the changes in their bodies after they became cultivators. They looked at Zhao Yuxian, who smiled at them. "Can you feel the changes in your body? Do you feel much better than before?"

"We feel great, Mom."

"Who taught Big Brother Xiao and Big Sister Yin to become cultivators, Mom?" Ran Xue asked.

Ran Yue looked at the room area and asked. "What kind of place is this really, Mom? I feel like I'm in a sci-fi movie because this place is much more advanced than Earth."

"This place is inside the Primordial Divine Ark, and Xiao'er is its owner." Zhao Yuxian couldn't possibly address Tang Xiao as her master in front of her twin daughters because they were blood cousins. "When those prisoners tried to kill him, his late master saved him and taught him to become a cultivator, and he also bequeathed this place to him."

Ran Xue and Ran Yue were shocked to hear the news from Zhao Yuxian, but they were also grateful that Tang Xiao was still alive. Then, they listened to their mother, who told them about several other things, especially about the stages of cultivation, areas within the ark, and various other things.

Ran Xue and Ran Yue were shocked again when Zhao Yuxian told them that Earth wasn't the only inhabited planet, but there were many more planets inhabited by cultivators in their universe, and Tang Xiao already had plans to take them all away from Earth in the future.

"Mom, we—"

"I understand your desire to finish your studies and so on." Zhao Yuxian sat between her two daughters and embraced them. "However, you are both cultivators now, and Xiao'er will take us all away from Earth in the future. Therefore, I want you two to start reducing your activities as ordinary humans, and I want you guys to start focusing on your cultivation. Moreover, he will take us to Earth II to train in a few days, so you won't have time to take care of all of those things."

"Earth II?" The Ran twins looked confused by that.

"Earth II is a pocket dimension inhabited by cultivators, many of whom are significantly stronger than us." The Ran twins were increasingly confused by Zhao Yuxian's explanation. "Honestly, I have never been to Earth II myself, but Xiao'er and Yin'er have long gone there to train. Besides, Uncle Huang is a native of Earth II, and his Tang Clan is one of the second-grade clans there."

"Who is Uncle Huang, Mom?" Although Ran Xue and Ran Yue have often met Tang Yin and Tang Xiao in the past, they have never met Tang Huang because he did not want to have any contact with their Ran Family in the past, mainly because their father was involved in the murder of Tang Ye and Zhao Qing.

"Uncle Huang is Tang Huang, and he is Xiao'er and Yin'er's grandfather."

"Oh." The Ran twins nodded in understanding before turning towards the door, looking at Tang Yin, who walked into the room. "Big Sis Yin!"

"Haha," Tang Yin softly laughed and walked over to them. "Congratulations, you two have become cultivators like us, Xue and Yue. However, your cultivation is still at the most basic level, so you guys must work hard to improve it."

Ran Xue stood up and hugged Tang Yin's arm. "Are we really going to leave Earth in the future, Big Sis Yin?"

"Where will we go after we leave Earth, Big Sis Yin?" Ran Yu asked, hugging Tang Yin's other arm.

"Xiao'er will take us away from Earth in the future, but he hasn't thought that far ahead yet. For now, he wants to build up his strength first and settle some past issues, and we'll leave Earth once everything is resolved." Tang Yin then gave them the key to enter the ark. "Drip your blood on both of them, and you can use it to enter and exit this place

by injecting your qi into it. However, you must not take the key out in public, as people in the outside world will be shocked if you disappear; instead, you should use it in a secluded place, such as the Tang House."

Ran Xue and Ran Yue were confused about dripping their blood, so Tang Yin used her qi to pierce their fingers like needles. They grimaced a little, but they hurriedly dripped their blood onto the keys. "Thank you, Big Sis Yin."

"Yeah." Tang Yin looked at Zhao Yuxian. "Have you explained everything to them?"

"Yes."

"I see." Tang Yin led the Ran Twins out with her, with Zhao Yuxian following behind them. "I'll show you two around the ark, so you won't get lost if you wander around on your own."

"Yes, Big Sis."

Their first stop was the training ground, and the Ran twins saw many people training together there. After Zhao Yuxian joined the others at the training ground, Tang Yin took them on a tour of the ark, explaining everything in detail to them.

Their final stop was the hot spring area, making Ran Xue and Ran Yue's eyes light up. Tang Yin smiled seeing them like that and immediately took off her clothes, followed by the twins.

The three women immediately soaked in the hot spring, making Ran Xue and Ran Yue excited about it. "Wow! The water in this pool is really hot and refreshing!"

"Yes," Ran Xue agreed with her twin sister. "We've gone to hot springs in the past, but the water wasn't as refreshing as here. How could there be hot springs in here, Big Sis Yin?"

"Xiao'er's late master was a serious person, but he liked to enjoy his time alone. He purposely built this hot spring in the past, and he relaxed here after practicing all day." Tang Yin pointed to the side. "That's the hot water generator, and the water in the pool will be filtered daily, allowing it to stay clean."

"Big Sis, tell us about the cultivators and Earth II."

"Yes, Big Sis. Our mother has never been to Earth II, so I want to hear everything from you."

"Alright." Tang Yin began telling the two of them about Earth II and all the clans that existed there.

.

.

.

After they spent time together at the hot spring, Tang Yin brought Ran Xue and Ran Yue back to the residence, and she asked them to focus on cultivating while they were free from outside activities.

After Tang Yin left, Ran Xue and Ran Yue immediately sat side by side on the bed, and they cultivated according to their mother's previous instructions.

Tang Yin herself went to the training ground because her fighting skills were still lacking. She didn't want to waste time and focused on improving her fighting skills because she didn't want to be a burden to Tang Xiao and the others on Earth II.

.

.

.

Two days passed quickly.

Ran Xue and Ran Yue left the ark because they had school business. Although their mother had told them to minimize their involvement with ordinary humans, they couldn't do it so quickly, and they still had to adapt to their new situation first.

Tang Xiao, Tang Yin, Xing Xing, Tang Huang, Tantai Lingyan, Mu Lin, Chu Lingxi, Mu Yan, and Xue Bai never left the ark and focused on their training. Zhao Qing went out every day to take care of the late Tang Ye's company, mainly because there was no one else to help her with it.

As usual, Xiao Ai was responsible for taking care of Tianmei with Yao Yao and the three female employees, and Tang Xiao asked her to monitor Ouyang Hong's movements because she didn't want him to disturb the quiet life of Yi An and Ouyang Qing.

Tang Xiao also asked Xiao Ai to monitor the four cardinal families, including Huang Xiaoming, but they showed no movements.

Xiao Ai informed Tang Xiao that Lin Yanxiu kept coming to Tianmei looking for Tang Yin, but he didn't want to bother with outside world affairs for now, and he would take care of his maternal grandfather in the future.

Yi An and Ouyang Qing did not contact Tang Xiao to meet, and they focused on spending time with the Yi Family members, mainly because they were going on vacation to Paris for a long time.

Xiao Ai also informed Tang Xiao that Lin Yan had been contacting him, and she left a message for him to meet her. Yang Zhiyue also contacted him and asked to meet, but he ignored the two women and focused on his training.

After two days of traveling through the void, Tang Xiao's clone arrived in the small town, and he found Shen Ling enjoying herself there. He did not meet Shen Ling, but he went to the same inn and rented a room next to hers.

Tang Xiao's clone watched Shen Ling walking around the small town from the window, but he didn't have any plans for her yet, and he wanted to know first about her plans to meet the Miao Clan members. "Is the Miao Clan's location that far away? Why haven't the people from that clan picked her up yet?"

After walking around the town for a while, Shen Ling returned to her room at the inn. She was curious about the Miao Clan because she had contacted them three days ago, and they said they would send someone to pick her up, but no one had shown up yet.

## **Chapter 279: The Miao Clan**

The day passed quickly, and evening had arrived.

Tang Xiao's clone, who was cultivating in his inn room, suddenly heard heavy footsteps coming from outside. He stopped his cultivation, walked to the door, and listened to the footsteps. He heard the footsteps stop in front of Shen Ling's room, so he went into the void to check on the person.

From within the void, Tang Xiao's clone saw a tall, burly middle-aged man standing in front of Shen Ling's room. He saw a cross scar on his left cheek, making him wonder whether he was a member of the Miao Clan or not.

Not long after, Shen Ling opened the door of her room, and the middle-aged man showed a gold plaque with the word "Miao" to her. "My name is Miao Han, and Ancestor Yusheng asked me to pick you up and bring you to our Miao Clan."

"What—"

"I'm a field officer from the Miao Clan, and I was assigned to pick you up, so I can't decide anything for you. You should talk to my leaders about your problem yourself, and they will decide how to help you."

"I see," Shen Ling asked him. "How long will it take us to arrive at the Miao Clan, Senior?"

"Three to four hours." Miao Han turned to leave. "You should prepare now, and I will wait for you in front of the inn."

Shen Ling watched Miao Han leave, and his attitude made her feel that he was much different from her master. Since he was carrying the Miao Clan's plaque, she didn't feel suspicious of him, and she returned to his room to tidy up her things.

On the other hand, Tang Xiao's clone left the inn, where he saw Miao Han summoning a flying beast. "What kind of beast is that?"

[The beast is an Azure Luan, Master. People say that Luan Beasts are descended from the Phoenix because their appearance is almost like a Phoenix, but this one is the most common of all Luan Beasts, and the most special is the Five-Colored Luan. Although this one is nothing special, it has a decent flying speed, so you have to think of something to follow them to the Miao Clan.]

Tang Xiao's clone nodded slightly. "I've heard stories about the Luan Bird and the Phoenix, but this is my first time seeing a Luan Beast in person. Does that mean the Phoenix and the others also exist in this universe?"

[The Phoenix, the dragon, and the others once existed in this universe, Master.]

"What do you mean by that?"

[All mythical beasts, including phoenixes and dragons, have long since become extinct from this universe, Master.] Tang Xiao's clone was shocked to hear that. [My old master has lived for tens of thousands of years, but he has never encountered a single living mythical beast. Instead, he has found many ruins and murals depicting their past existence. This Luan Beast looks big, but its size is nothing compared to the phoenix depicted in those murals. The giant beast recorded in the murals is Kunpeng, a fish that transforms into a massive bird whose wings span thousands of miles.]

Tang Xiao's clone was not surprised to hear about Kunpeng because it was as described by many sites, but he was confused about the extinction of those mythical beasts. "How did they become extinct, Xiao Ai?"

[Master, I don't have that information because my old master never discovered the reason behind the extinction of the mythical beasts. In this universe, there are some

dragon-like beasts, like the flood dragons, but they aren't true dragons, and their size is too small compared to true dragons.]

"Flood dragons, huh? I'd like to meet one in the future." Tang Xiao's clone saw Shen Ling already walking out of the inn, and Miao Han took her away from the city, so he immediately followed them from within the void. "Damn! The Azure Luan's speed is really fast!"

.  
. .  
.

Three hours later, Tang Xiao's clone saw the Azure Luan enter the mountainous area, and it landed in front of a vast old residence located in the valley between the mountains.

Miao Han immediately helped Shen Ling get off his beast contract. "Miss Shen, you should go inside by yourself, and I'll go carry out my other duties in another region."

"Thank you, Senior." After Miao Han left, Shen Ling looked at the old sign above the gate, which said "Miao" on the plaque. "Why did the Miao Clan choose to live in a place like this?"

Shen Ling shook her head slightly and walked into the residence, and an old female servant was already waiting for her there. "I will take you to our patriarch, Miss Shen."

"Thank you, Senior."

The woman shook her head at her. "Please don't call me senior because I'm just one of the servants in this residence."

"Oh." Shen Ling nodded and followed the old female servant as she looked around the residence. Although the residence was ancient and located in a remote area, she could see the beauty of its surroundings, and the air there was much cooler and fresher than in the polluted city.

From within the void, Tang Xiao's clone followed the two women. Just like Shen Ling, he enjoyed the beauty of the residence's area, and he was thinking of building a similar residence in the future so his family could enjoy a quiet life without disturbance.

Although the ark was the safest place because no one could enter without his permission, and Xiao Ai could deactivate all the keys, Tang Xiao's clone felt that it was not suitable for his permanent residence, especially after he had children in the future.

Soon, Shen Ling arrived in front of the main hall, and the old female servant immediately went to another area, leaving her there.

Shen Ling took a few deep breaths before entering the main hall, where a middle-aged man and a middle-aged woman were already waiting for her. "Greetings, Senior."

"Are you really Ancestor Yusheng's disciple?" The middle-aged woman asked her.

Shen Ling nodded at her. "I met my master five years ago in Europe, and he offered me to become his disciple at that time."

"I see." The middle-aged woman nodded slightly. "My name is Fei Yan, and the man next to me is my husband, Miao Cangyu."

Miao Cangyu asked her. "What exactly is your problem with the Tang Clan? Ancestor Yusheng asked me to help you investigate that clan, but he didn't explain the details to me; instead, he asked me to ask you directly."

Shen Ling immediately explained to them about the problem between her family and the Tang Clan, and she suspected that people from that clan had killed both her parents and her brother.

The two exchanged glances after Shen Lin explained everything, and Fei Yan immediately spoke to her. "Honestly, I feel it's only natural that the Tang Clan killed both your parents and your brother, Ling'er. If I were in their shoes, I would definitely do the same."

"But—"

"The late Tang Ye was not a cultivator because he was born without profound veins, but he was still a descendant of the Tang Clan." Shen Ling looked at Miao Cangyu with a complicated gaze. "Your father committed such an evil act against his wife, and your mother also supported his barbaric actions at that time, which ended with their deaths at the hands of your father's friend. Your brother's character was no less rotten than your father's, and he tried to violate Tang Yin with his friends, but they failed because she tried to commit suicide."

Shen Ling knew that her parents' and brother's actions against the Tang family were indeed barbaric, but she was unwilling to accept their deaths because everything

happened so suddenly. She wanted to find out their true killer before deciding her next course of action.

Miao Cangyu spoke to her again. "I'm not sure if Tang Huang killed them because he was previously in seclusion for seven years, and he wouldn't dare kill those mortals with Wang Fuxi present in the outside world."

"You mean?"

"Yes." Fei Yan nodded to her. "Even though we haven't investigated this matter, I'm sure that Tang Huang wasn't the murderer of your parents and brother, and I'm sure their murderer was someone else who had direct ties to the Tang Clan."

"Could it be that Tang Yin killed them?" Shen Ling muttered softly.

Fei Yan thought for a moment before speaking to her. "I don't know about the current situation with Tang Yin, but I've heard that her late parents forbade Tang Huang from teaching cultivation to their two children. For many years, he followed the wishes of his son and daughter-in-law, but he may have changed his mind after their deaths."

"What about Tang Ye's son?"

"Tang Ye's son, Tang Xiao, died in prison, Seniors." Shen Ling's answer shocked Miao Cangyu and Fei Yan, and they thought that the Tang Clan would be finished because there was no longer a male heir. "He went to prison after being accused of forcibly violating several women, one of whom was Ouyang Qing. He was supposed to be released some time ago, but several inmates there ganged up on him, and he fell into a deep ravine."

"Did Tang Xiao really do something like that?" Fei Yan asked her. "I remember that Tantai Lingyan raised him from the age of five, and she was a strict woman, so I don't believe that kid would do something like that."

## **Chapter 280: Xiao Luo's Visit**

Shen Ling shook her head. "I've never known Tang Xiao, so I don't know about his character. However, my cousin believes that he would never do such a thing to those women, and she also believes that they deliberately framed him."

"I don't know Tang Xiao myself, but I know Tantai Lingyan well, and she would never allow her disciple to commit such a lowly act." Fei Yan turned to her husband. "Do you think that kid is really dead? Why have we never heard any sad news from the Tang Clan? He was not a cultivator, but he was the last heir of the clan, and Tang Huang would definitely regret his death very much."

Miao Cangyu thought for a while before asking Shen Ling. "Do you know the exact time that happened to Tang Xiao?"

"According to my cousin, the incident happened about a month and a half ago, Senior."

"A month and a half ago." Miao Cangyu tried to remember some things before speaking. "During that time, Tang Huang and Tantai Lingyan were still in seclusion, so they weren't in the outside world when the incident happened. Since Tang Xiao wasn't a cultivator, he might not survive if he fell into the deep ravine. But they've been out for a while, so they should have heard the news. I haven't heard anything sad from them, so he probably survived."

Fei Yan nodded at her husband. "Could Tang Xiao still be alive now? Could someone have saved him since he was the last descendant of the Tang Clan?"

"Since Tang Huang and Tantai Lingyan didn't mourn him, Tang Xiao might still be alive now, but who saved him?"

"Should we investigate the Tang Clan?"

Miao Cangyu thought for a moment and contacted someone to request a report. "One of our people saw Tang Huang and Tantai Lingyan at the Sun Clan a few days ago, but they didn't stay there long, and they left for another region with Old Sun."

"Which region?"

"He doesn't know their destination." Miao Cangyu answered his wife with a shake of his head. "He also saw that Mu Qingge and Tang Yin were in that clan, where they trained for several days."

"Eh?" Fei Yan was surprised to hear that. "Does that mean Tang Yin is a cultivator now? Why is Mu Qingge with them?"

"Tang Huang and Tantai Lingyan are Mu Lin's old friends, so you shouldn't be surprised if Mu Qingge is with them." Miao Cangyu was silent for a moment. "As for Tang Yin, I don't know why they brought her to the Sun Clan, but she has a good relationship with Sun Xiang. However, our people told me something absurd about her, and her cultivation has already reached the Xiantian Realm."

Fei Yan looked at her husband in shock. "Has Tang Yin's cultivation really reached the Xiantian Realm? If she had already become a cultivator at the time, she wouldn't have needed to attempt suicide, and she could have easily escaped from all those men."

"That's why I said it was absurd." Miao Cangyu looked at Shen Ling, who was stunned listening to their conversation about Tang Yin. "According to this girl, Tang Yin woke up from her coma not long ago, so she only started the path of cultivation after she woke

up. However, our people told me that her cultivation had already reached that stage, which was obviously impossible to achieve in just such a short time."

"Who taught Tang Yin to cultivate if Tang Huang and Tantai Lingyan were still in seclusion at that time?"

"I'll order one of our men to investigate the Tang Clan," Miao Cangyu said to Shen Ling. "For now, you can stay in our clan, and I'll inform you of the results after he reports to me. However, I'm not sure he'll find any useful information for you because Tang Huang and Tang Yin aren't in the Tang Clan, and he doesn't know their destination or whereabouts."

"Thank you, Senior," Shen Ling gratefully said.

Fei Yan got down from the chair directly and led Shen Ling away. "I will take you to the guest room, and you can rest and cultivate quietly there."

"Yes, Senior." Shen Ling immediately followed Fei Yan.

Miao Cangyu leaned back in his chair, wondering about everything. "Who taught Tang Yin to cultivate? How could her cultivation improve so quickly in such a short time? Where did Tang Huang and Tantai Lingyan go? Is Tang Xiao really still alive? Who saved him from that ravine?"

Afterward, Miao Cangyu contacted his ancestor and asked for his help in investigating Tang Yin and Tang Xiao's situation in the outside world, but Miao Yusheng refused his request because he didn't want to get in trouble with Wang Fuxi.

Since Miao Yusheng was unwilling to help, Miao Cangyu could only rely on his men to investigate the Tang Clan, but he was still not confident that he would get any results since Tang Huang and the others were not there.

.  
. .  
.

Shen Ling immediately entered the room after Fei Yan escorted her there, and she sat by the window as she thought about their earlier conversation. "Is Tang Xiao really still alive? Who taught him and Tang Yin to cultivate? Did they both kill my parents and brother?"

After some time, Shen Ling went to bed and started cultivating there, mainly because she was not familiar with the situation on Earth II. Although she was confident that she

would be safe around the Miao Clan's residence, she would rather not take any risk, and she chose to wait for information from Miao Cangyu and Fei Yan in her room.

Meanwhile, Tang Xiao's clone watched Shen Ling from within the void, but he still had no plans against her since she hadn't done anything yet, and he was waiting for her next action before making a decision.

Since Tang Huang was with his real body inside the ark, Tang Xiao informed him about the movements of people from the Miao Clan, and he asked his grandfather to contact people from the Tang Clan.

Tang Huang intended to leave the ark to contact the people of the Tang Clan and ask them to seal their clan, but Tang Xiao stopped him and forbade him from doing so, or the people of the Miao Clan would become even more suspicious of them.

Tantai Lingyan and Mu Ling also thought the same as Tang Xiao, urging Tang Huang to allow someone from the Miao Clan to investigate the Tang Clan, as he would be unable to gather any information due to the fact that everyone in the clan was unaware of their actions.

Tang Xiao's clone didn't want to waste any time, and he chose to leave the Miao Clan to train. However, he didn't go too far from the clan because he wanted to keep an eye on Shen Ling, and he went to an area infested with beasts in the region, where he fought with them.

.  
. .  
. . .

After waiting several days, Xiao Luo, who received orders from Xie Shun, walked into the Sun Clan casually, unaware that his intentions toward Sun Qian and his clan had been exposed.

Sun Qian himself had ordered her family and clan members not to do anything to Xiao Luo and to pretend they knew nothing, mainly because they wouldn't be able to face the Xie Clan. Therefore, he chose to play it safe and not arouse their suspicion, or they would openly attack their clan, which would only bring misery to them.

"Why did you suddenly come here, Old Xiao?"

"Hahaha," Xiao Luo laughed as he sat down on the chair beside him. "I haven't spoken to you in a long time, so I came here today to visit you, Old Sun. I heard that Tang Huang and Tantai Lingyan were here a few days ago. Have their cultivations improved?"

After all, they've been in seclusion for so long before, so their cultivation should have improved by now."

'What an old fool!' Sun Qian nodded at him. "Tang Huang and Tantai Lingyan did come here to visit me a few days ago, but they didn't stay here for long, and they immediately left for another region. As for their cultivation, they've already reached the Peak Emperor Realm, so their efforts in seclusion for years weren't in vain."

"Oh! Do you know which region they're going to, Old Sun?"

"They didn't tell me about their destination." Xiao Luo sneered in his heart upon hearing Sun Qian's answer. "Is your cultivation close to breaking through, Old Xiao?"

"Haish!" Xiao Luo wore a disappointed look. "I want to break through to the Middle Tyrant Level, but I feel that stage is far from my reach. A few days ago, I went to the auction at the Xuan's auction house in hopes of getting some good items to help me break through, but unfortunately, there were too many competitors in that auction, and they were all from those first-grade clans, so I wasn't able to get any interesting items."

Sun Qian nodded slightly. "As long as the people from those first-grade clans are present at the auction, people from second-grade clans like us won't be able to compete with them. Moreover, such items have exorbitant prices, and we would have to spend a lot of our clan's wealth to purchase them. That's why I've never been interested in auction events, and I prefer to work on my own to improve my cultivation because I have to think about the future of my clan."
