## Chapter 281: Sun Qian's Decision

"You're right, Old Sun." Xiao Luo sighed in disappointment. "Even though our two clans are prosperous, we are still not comparable to those first-grade clans. Since I have no other choice, I will try to break through to the next stage with my abilities, and I will wait for the next auction to look for useful items."

"Haha," Sun Qian laughed at that. "Old Xiao, those items are indeed useful to help us, but we can't depend on them, so you don't need to regret it."

After they had talked for a while, Xiao Luo decided to leave the Sun Clan, but he was disappointed that he couldn't get the information he needed from Sun Quan.

'Tch! That old bone seems to be keeping everything from me on purpose.' Xiao Luo contacted Xie Jun and conveyed his conversation with Sun Qian to him. 'I hope they don't get angry with me, or I will suffer.'

Before long, Xiao Luo received a reply from Xie Jun, who ordered him to contact his granddaughter. 'Do they really want to use Sun Xiang to force Sun Qian to surrender to them?'

Xiao Luo immediately contacted Xiao Meng to talk to her, but he couldn't contact her because she was inside the ark. He tried to contact Xiao Hua, but the result was the same because the old woman was with his granddaughter. 'Where did those two go? Why can't I contact them? Sigh! I will ask my son to go to the outside world and check their situation.'

.  
. .  
.

Meanwhile, Sun Qian stood on the roof of the main hall with Zhang Xingcai, watching Xiao Luo continue to move away from their clan.

"Father, the Xie Clan deliberately sent him here to gather information from you."

"Yes," Sun Qian nodded at his daughter-in-law. "He usually informed me before he came here, but he suddenly came and asked me about those things. Moreover, he knew about the arrival of Old Huang and Tantai Lingyan a few days ago, so I'm sure the

Xie Clan sent him to gather information. Fortunately, we already know that he's in cahoots with them, so I've prepared myself."

"Did you deliberately tell him that Uncle Huang and Sister Lingyan's cultivation is still at the Emperor Level?"

"I did." Sun Qian turned his head to her. "If I tell him that their cultivation has reached the Tyrant Level, he will inform the Xie Clan about it, and they will hunt them down. I'm not worried about Tantai Lingyan because she no longer has any family, and all the cultivators on Earth II know that she has no more contact with the Tantai Clan. However, Old Huang is different from her, and everyone knows that he still leads the Tang Clan. If they find out about his current cultivation, they will attack his clan, and the casualties will be heavy."

Zhang Xingcai nodded in understanding. "These few days, I saw many people trying to infiltrate our clan, Father. I think they are from the Xie Clan, and I suspect they infiltrated here specifically for Tang Yin. Fortunately, she and Qingge are no longer here, so they can't do anything to her. Besides, they also sent people to the Zhang Clan, and my parents are already on standby to deal with them."

"I had already anticipated that, so I had already ordered Wei'er to tell our clan members not to talk about them." Sun Qian looked away. "Even though they desperately want to control me and our clan, I'm sure they won't dare make a move openly, especially with Wang Fuxi being on Earth II now."

"Oh?" Zhang Xingcai was a little surprised to hear that. "Since when did Wang Fuxi return to Earth II? Isn't the meeting still a few days away?"

"She came back three days ago, and she contacted me, asking many things about the Xiao and Xie Clans." Sun Qian told his daughter-in-law about his conversation with Wang Fuxi a few days ago. "I couldn't lie to her, so I told her that I got all the information from Old Huang and Tantai Lingyan."

"Did she ask about Tang Xiao and Tang Yin?"

"She didn't ask about the two of them." Sun Qian exhaled softly. "Xingcai, I will keep an eye on those people's movements, but you must remain vigilant, and you must protect Xiang'er."

Zhang Xingcai nodded. "Ever since those people infiltrated our clan, I've been monitoring my daughter because I'm afraid that they'll do something to her, and they might use her to force you to submit to them."

"The Xie Clan is truly evil, and they will use any means to subdue us. If Xiang'er falls into their hands, she will suffer, and I have no choice but to surrender to them." Sun Qian remembered something. "Didn't Old Huang say that Tang Xiao's clone is training

in the southern region? I think it would be best if Xiang'er goes with him now so those people won't be able to find her, and we won't have to worry about her safety."

"But, Father—"

Sun Qian sighed softly and grabbed her shoulder. "Xingcai, I know that you don't like Tang Xiao because he has a polygamous relationship, but Xiang'er's safety is much more important. She's not safe in our clan or the outside world, and the safest place for her is by his side, so we should let them be together for now. Regarding their relationship, we will talk to him when he comes to our clan in the future, and we will make a decision at that time."

"I'm going to see my daughter now, Father."

"Go." After Zhang Xingcai left, Sun Qian flew down from the roof and went to see his second son to talk about his other two grandchildren.

.

.

.

"Xingcai."

"Come in, Mom." Sun Xiang looked at her mother. "What's wrong, Mom? Why is your expression so unpleasant?"

"Isn't this because of you?" Sun Xiang knew her mother didn't like Tang Xiao, but they hadn't talked about him in the past few days, so her mother's response confused her. "Can you contact him?"

"Eh? Why did you suddenly ask me to contact him?" Zhang Xingcai told her daughter about the intruders in their clan, and Sun Qian thought that the safest place for her now was by Tang Xiao's side. "Mom, I—"

"Xingcai, I don't like Tang Xiao, but your safety is the most important to me. Your grandfather and I have heard that he has the space element, so he should be able to protect you easily." Sun Xiang also knew that, but she was still confused about her mother's decision. "In the past few days, people from the Xie Clan have infiltrated our clan, and they also sent Xiao Luo here today to seek information from your grandfather. We're afraid they'll target you if they know you're here, so we want you to go to his side, and you can come back here after the cultivators' meeting in a few days."

Sun Xiang was shocked to hear that people from the Xie Clan had infiltrated their clan. "I—"

"No." Zhang Xingcai stopped her. "You're not their match, and you'll be a burden to us if you stay here. I know you want to help us, but you must leave as soon as possible. If they manage to capture you, they'll use you to force your two grandfathers to surrender to them. If that happens, you should know the risks, right?"

"Yes! What about Sun Yang and Sun Yue? Won't my grandfather evacuate them?"

"Your grandfather must be talking to Fang Xiaoru right now, and he's probably asking her to send them to the Fang Clan." Sun Xiang knew her grandfather wasn't worried about her two cousins because the Fang Clan's residence was close to the Wang Clan, so people from the Xie Clan wouldn't dare infiltrate there, and they would be safe there. "Contact Tang Xiao now and ask him to pick you up as soon as possible."

Sun Xiang nodded slightly and contacted Tang Xiao directly, informing him of the situation. She didn't have to wait long for an answer from him. "He's taking care of something in a distant area, but he'll ask Sister Qingge to pick me up, and he'll pick me up somewhere else."

"Is Qingge still nearby?" Sun Xiang shook her head at her mother because Tang Xiao did not explain the details to her. "How long will it take for her to get here?"

"I don't know for sure about that, so we can only wait for her to arrive."

Zhang Xingcai pulled her daughter down from the bed. "Let's wait for Qingge at the main hall."

"Alright."

.  
. .  
.

After they waited a few minutes, Mu Qingge walked into the Sun Clan's main hall. "Are you ready, Xiang'er?"

"How did you get here so quickly, Qingge?"

"Yin'er and I were training not far from this city, and I headed here after Tang Xiao contacted me." Zhang Xingcai didn't believe Mu Qingge's words, and she felt that she was hiding something from them. "If you are ready, we should go now, Xiang'er."

"I'm ready." Sun Xiang hugged and kissed her mother. "Mom, I'll go with Aunt Qingge now and tell my grandfather not to worry about me. Once things have calmed down, I'll come back here straight away."

Zhang Xingcai still wanted to ask Mu Qingge, but her daughter's safety was far more important to her. "Qingge, please tell Tang Xiao to protect my daughter, and I'll settle accounts with him if anything bad happens to her."

"Alright."

## **Chapter 282: Bring Sun Xiang In**

"Has Xiang'er left yet?"

"Qingge just picked up my daughter, and they're gone now." Just like Zhang Xingcai, Sun Qian was also confused by Mu Qingge's speed in arriving at their clan. "Has Fang Xiaoru taken Sun Yang and Sun Yue away, Father?"

"They just left through the back door, and they will be safe in the Fang Clan."

"Did you ask Wang Fuxi to protect them?"

"I've contacted Wang Fuxi, but I also sent Wei'er to speak to her directly. Do you want to return to the Zhang Clan?"

"No," Zhang Xingcai replied with a shake of her head. "Since I married my late husband, I'm part of the Sun Clan. My Zhang Clan has my parents and grandfather, and they can handle the intruders from the Xie Clan, so I don't need to worry about them. Unlike them, my brother-in-law won't be able to help you deal with them, so I'll stay behind to help you."

Sun Qian patted her shoulder. "I'm grateful to have a daughter-in-law like you, Xingcai. Even though my son passed away long ago, you remain loyal to my Sun Clan."

"I am the daughter-in-law of the Sun Clan, and my husband is no longer around, so I will take his place to protect this clan."

Sun Qian was pleased with Zhang Xingcai's loyalty, but he hoped she could put her past behind her and seek new happiness. He had repeatedly persuaded her to consider remarrying, but she remained steadfast in her determination to live as his son's widow. "If you see anyone from the Xie Clan entering our clan, you can kill them without mercy."

"Yes, Father."

Sun Qian gathered everyone and asked them to be on full alert, as he was worried that the Xie Clan would attack them after they got the news from Xiao Luo.

.

.

"How can you move so fast, Aunt Qingge?" Sun Xiang asked this question once they were far outside the city. "You're an ice cultivator, but your speed is even faster than Xiao Meng when she uses her wind element."

Mu Qingge smiled at her. "Even though I'm not a wind cultivator, I've been training for quite some time to increase my speed, and the results are as you saw just now."

"I see." Sun Xiang looked at the area around them. "So, where is Tang Yin now? Why isn't he here?"

"Tang Yin is not here." Sun Xiang looked at Mu Qingge in confusion. "I will take you to another place, and you will meet her there."

"Where—

.

.

.

"Ugh!" Sun Xiang staggered after Mu Qingge took her into the ark, which made her nauseous. "You should have told me earlier, Aunt Qingge."

"Haha," Mu Qingge laughed softly. "You'll get used to it soon."

Sun Xiang looked around at their location, but the ark's interior left her stunned. "Where is this place? What kind of place is this?"

"This is the Primordial Divine Ark, and its owner is Tang Xiao." Sun Xiang abruptly looked at Mu Qingge. "The original owner was his master, but his master is dead now, so he inherited this place. As you can see, this place is much more advanced than the outside world, so you shouldn't be surprised if he can do all that to his enemies out there."

Sun Xiang furrowed her brows, recalling all of Tang Xiao's actions in the outside world. "Where is he now? I—Ahh!"

Tang Xiao suddenly appeared, hugged Sun Xiang, and bent her under him. Without waiting long, he sealed her lips and kissed her.

Sun Xiang was irritated because Tang Xiao always appeared and kissed her out of the blue. She tried to kick his dick, but he swiftly caught her leg, lifted it, and kissed her deeper.

'Tch! This scoundrel!' Sun Xiang finally gave in, and she hugged his neck while kissing him back. Even though she hadn't fallen in love with him, she always missed him, especially after he stole her kisses repeatedly. 'This guy is getting better at kissing!'

Mu Qingge could only shake her head watching them kiss passionately, but she was truly happy to see Sun Xiang returning Tang Xiao's kiss, and she hoped they would become a couple soon. She didn't wait for them to finish, and she went first to the training ground to continue her training.

"Mhmm..." Sun Xiang was shocked when Tang Xiao squeezed her breasts, and she used all her strength to push him back. She wiped her lips and shouted at him, "Scoundrel!"

"Hahaha," Tang Xiao laughed at her expression. "Your breasts aren't that big, but they're soft, and I like them."

Sun Xiang's face turned red with anger and embarrassment, but she quickly calmed herself down because she knew her anger was useless against Tang Xiao. "Did you really get this place from your late master?"

"Yeah," Tang Xiao took Sun Xiang's hand and called a flying car, causing her to be stunned again. After all, there were no flying cars on Earth, so she was shocked to see one in front of her. "You don't need to be confused by all this because this ark and everything in it comes from a higher world, so you can't compare it with Earth."

Sun Xiang let Tang Xiao take her on the flying car, which would take them around all the areas inside the ark. "What do you mean by a higher world?"

"Earth is just one small planet among many in the lower realm." Sun Xiang looked at Tang Xiao in confusion. "This universe is far vaster than Earthlings know, and it is divided into four realms: lower, middle, upper, and supreme realms."

"Are you kidding me?"

"I'm not kidding you." Tang Xiao pointed at the flying car and the area they were passing through. "Have you ever seen any of this on Earth?"

"No."

"If they don't exist on Earth, then where did they come from?" Sun Xiang fell silent as she looked at the surrounding area. "My late master was a cultivator of the supreme

realm, and this ark was his inheritance. Before he died, he had lived tens of thousands of years, and he had seen almost the entire universe."

"How could your master die?"

"He sacrificed his life to save me."

"Eh? Is that true? Why would a strong and old cultivator like him be willing to sacrifice his life for you?"

"To be honest, I myself don't know the reason why my master sacrificed himself for me because he died while I was still unconscious, so I didn't have the chance to ask him, and he didn't leave any notes for me either." Sun Xiang turned to Tang Xiao directly. "My body was badly injured when I fell into that ravine, and I would have died if my master hadn't saved me. After he saved me, he brought me to this place and restored my body, and he sacrificed himself after I survived. Since then, I became a cultivator, and I also inherited this ark."

"That's weird," Sun Xiang muttered under her breath. "Most cultivators are selfish like you, and they wouldn't be willing to help a stranger, let alone sacrifice their lives for someone else."

"Whatever my late master's reasons for doing all that for me, I will always be grateful to him for giving me the opportunity to take revenge against those who killed my parents. My enemies are dead now, and Ouyang Hong is the only one left, but I can't do anything to him now." Sun Xiang sighed inwardly, remembering all the killing Tang Xiao had done in the outside world. "For now, I want to focus on increasing my strength as high as possible, and I will challenge the two people who are blocking my family from saving my parents."

"Long Yin and Wang Fuxi."

Tang Xiao nodded at her. "They are the number one and number two strongest cultivators on Earth II, and they're already far ahead of me now, so I have to work hard to reach their level."

"What will you do to them if you manage to reach their level in the future? Will you kill them too?"

"Kill them?" Tang Xiao shook his head slightly. "Death is too easy for them, so I will not kill them. Instead, I will cripple their cultivation, and I will destroy both of their clans before their eyes."

After Tang Xiao said that, Sun Xiang looked at him with shock and fear, feeling that he was too cruel. "What—"

"Do you think I'm too cruel?" Sun Xiang didn't answer Tang Xiao and simply stared at him. "If Long Yin hadn't stopped my grandfather and my master, and if Wang Fuxi hadn't stopped Aunt Yuan, my parents would never have experienced that terrible day, and they would still be alive today. That night, they beat my father brutally, and they also violated my mother before killing them. What would you have done if you were in my position that night? What would you do if their victims were your parents?"

Sun Xiang opened her mouth slightly before quickly closing it, afraid that she would say something that would offend Tang Xiao.

Tang Xiao sighed. "If Long Yin and Wang Fuxi hadn't stopped them, my parents would still be alive today, and I would have a joyful family. Unfortunately, we can't turn back time, and they both have to bear the consequences of their actions from 19 years ago. I may be weak now, but I will become strong and reach their level, and I will be their worst nightmare at that time."

### **Chapter 283: Telling Sun Xiang**

"This ark is truly like a separate world from the outside world, and all the equipment here is far more advanced than on Earth." Sun Xiang looked at the last place in front of her, and her eyes sparkled like stars as she saw the hot spring with steam covering it. She crouched on the edge and dipped her hand in. "Eh? This hot spring is artificial, but it's better than the ones out there. I—Ahh!"

*Splash... Splash...*

Tang Xiao immediately jumped into the hot spring, picked up Sun Xiang, who looked annoyed, and kissed her.

Unlike before, Sun Xiang no longer struggled when Tang Xiao kissed her; instead, she hugged his waist and kissed him back. She knew there was no point in resisting because he would still forcefully kiss her, so she chose to give in and enjoy their kiss, and the hot steam from the pool made the atmosphere between them more intimate. 'Am I really in love with him? I'm annoyed because this scoundrel always acts as he pleases, but I always enjoy kissing him.'

As their kiss deepened and became more passionate, Sun Xiang's hands slipped into Tang Xiao's clothes before being shocked by his muscles.

'Did his body become this strong because he trained with Big Sis Lingyan since childhood?' Sun Xiang groped Tang Xiao's body and felt the strength of his muscles beneath his skin, realizing that his body was much stronger than that of cultivators with higher cultivation levels. 'Ugh! Why am I groping his body?'

Tang Xiao suddenly separated their lips and looked at Sun Xiang with a playful smile, making her embarrassed by her action. "Are you enjoying yourself groping my body?"

"I—" Sun Xiang hurriedly pulled both hands out of Tang Xiao's clothes, but he took off his clothes and showed off his naked torso. "How did your body become this muscular and strong?"

"I've been training my body since I was little, you know? Our master was too harsh to me, and she always said that I had to strengthen my body to become a skilled martial artist. Besides, she often forced me to soak in a special liquid for several hours, and it was really painful." Sun Xiang knew what kind of liquid Tang Xiao was referring to, as Tantai Lingyan had also forced her to soak in it when she was little. "Besides, I told you before that I was badly injured when I fell into that ravine, and my late master transformed my body, so my body became much stronger than in the past. I also learned a special body technique inherited from him, but it's not suitable for women."

Sun Xiang nodded in understanding, as not all body cultivation techniques were suitable for everyone, so she did not ask Tang Xiao about it. He suddenly touched her forehead and imparted two techniques to her. "Nine Heavens Lightning Art and Myriad Spring Art."

"Both of them are suitable for your two elements, lightning and water, so I gave them to you."

"Are those two techniques your late master's legacy?"

"Everything I possess and have learned is his legacy." Tang Xiao touched her forehead again, imparting the Celestial Yin-Yang Arts to her. "You are my future wife, so I passed my dual cultivation technique to you."

Sun Xiang was stunned for a moment before shouting at him with a red face. "Who is your future wife? I haven't fallen in love with you, and you haven't met my family yet."

"Haha," Tang Xiao lifted her chin. "Even though you haven't fallen in love with me, you enjoy our kisses and groping my body, right?"

"Humph." Sun Xiang turned her embarrassed face to the side.

Tang Xiao smiled at the blush on her cheeks. "Take off your clothes."

"Huh?" Sun Xiang narrowed her eyes at him. "What—"

"How will you enjoy this hot spring if you're wearing clothes?" Tang Xiao hurriedly removed his pants and underwear.

Sun Xiang gasped in shock when she saw Tang Xiao's dick in front of her. She closed her eyes and submerged her body in the hot spring. 'Ugh! He's so crazy! Why is he naked in front of me?'

Tang Xiao shook his head as he lifted Sun Xiang, who still had her eyes closed. She trembled as he removed her shirt and considered stopping him, but she decided against it and let him do it.

Sun Xiang crossed her arms in front of her chest after Tang Xiao took off her bra, covering her breasts with her hands.

"Xiang'er, open your eyes and look at me." Sun Xiang's heart pounded when Tang Xiao addressed her like that because he usually addressed her as Miss Sun, but she still didn't open her eyes because she was embarrassed to be half naked. "I've liked you since the first time we met in that dark alley, and I kissed you at that time because I like you. I will try my best to melt your heart and make you fall in love with me, and you will be my wife when the time comes."

Hearing that, Sun Xiang opened her eyes, looking at Tang Xiao's face. "Do you really take Tang Yin as your wife?"

"Yes." Tang Xiao bit his finger and showed some of his violet-gold blood to Sun Xiang, which shocked her. "As you can see, my blood is no longer red like ordinary humans, but the blood inside me belongs to my late master. My body may still look the same as before, but it's no longer the same after he transformed it, and I no longer have any relationship with Yin'er. We no longer had parents since childhood, so we had to depend on each other, and the feelings between us grew without us realizing it."

Sun Xiang was stunned by Tang Xiao's explanation, and she had a difficult time digesting it all, especially her relationship with Tang Yin. She found it difficult to accept that fact, but his violet-gold blood was proof that he was no longer the same as before, as no human had blood with that color.

Tang Xiao summoned a screen, showing the process of Xiao Ai and her master rescuing and transforming him. "If you don't believe me, you can see it for yourself."

Sun Xiang said nothing and looked at the screen, which showed the scene from the beginning when Xiao Ai and her master brought the near-death Tang Xiao into the lab.

Sun Xiang saw the whole process from the beginning, and she also heard a man's voice ordering Xiao Ai to use something to increase Tang Xiao's brain capacity. The man also instructed her to rearrange his DNA, or else his body would not be strong enough to accept something mysterious.

Sometime later, Sun Xiang saw the picture change, and the two men were already in the glass tube. She couldn't see the man's face, but she could see Xiao Ai taking something from his head and moving it into Tang Xiao's brain. She also saw the female Ai exchange their blood, and she transferred the man's violet-gold into his body.

Sun Xiang gasped in shock as the screen showed the process of Xiao Ai extracting the man's veins, but she knew that they were not ordinary veins, and the female ai implanted them into Tang Xiao's body. Fortunately, he was in an unconscious state, or he would have suffered the same agony that the man had experienced before.

After some time, Sun Xiang saw the man coming out of one capsule glass, but his face was already deathly pale and aged, and his whole body was shriveled like an old person. Xiao Ai supported him as they moved towards Tang Xiao's capsule, where he pressed his chest to do something to him.

In the end, Sun Xiang saw the man disappear from the laboratory, and Xiao Ai remained silent for a while. After everything was over, she looked at Tang Xiao again, and she never expected that he had undergone so many procedures after he fell into the deep ravine.

"Do you believe me now?" Sun Xiang answered Tang Xiao with a slight nod. "My body and blood became different after I went through all that process, which made Yin'er and I no longer have a family relationship. Since we've loved each other since childhood, we decided to accept our relationship and get married."

Sun Xiang let out a soft sigh and held Tang Xiao's face with both hands, not caring that her breasts were exposed before his eyes. "I knew you were in bad shape after falling into that ravine, but I never thought that you had gone through so many painful processes because of what happened that day."

"Haha," Tang Xiao laughed, held her hands, and pressed them to his cheeks. "Luckily, I went through the whole process unconscious; otherwise, I would have felt all the pain, and I wouldn't have been able to endure it all because I was still an ordinary human at the time. After the whole process ended, Xiao Ai taught me to cultivate, and I have been a cultivator since then."

"Who exactly is Xiao Ai? I've seen her in Tianmei, but I didn't sense any signs of life from her."

"Before that, I'll take off your trousers first, okay?" Sun Xiang just nodded and let Tang Xiao take off her trousers, leaving both of them naked. He took her to sit inside the hot spring with her back to him, and he started telling her about Xiao Ai and some other things.

## **Chapter 284: The Xiao Clan**

"Hey! Watch your hands!" Sun Xiang slapped Tang Xiao's hands away.

Tang Xiao hugged Sun Xiang from behind. "You're my future wife, so it doesn't matter if I touch your body, right?"

Sun Xiang looked at Tang Xiao behind her. "Do you really love me? We've only known each other for a month, so I can't believe that you've already fallen in love with me."

"I never said that I've fallen in love with you, and I only said that I've liked you since we met in that dark alley." Sun Xiang nodded slightly and looked forward again. "I know you don't love me yet, but I'll prove I'm the right man for you."

Sun Xiang leaned against Tang Xiao's chest and held his hands. "Before meeting you that day, I had never thought about or had contact with other men, except my colleagues in the police force. Even though I wasn't in love with you yet, I kept thinking about you ever since you stole my first kiss. If you can prove your feelings and convince me, I will accept you as my lover, so you have to try hard for that."

"Yes," Tang Xiao hugged her tighter. "I will prove my feelings for you, and I will marry you at that time."

"Haha," Sun Xiang laughed at that. "Even if you succeed in convincing me to accept you, you cannot immediately marry me. You still have one more task to be able to marry me, which is to convince my mother."

"Our master and Qingge already told me that your mother was a very loyal woman, and she chose to live in solitude after your father died."

"That's right." Sun Xiang nodded slightly. "Even though my father has been dead for several years, my mother is very loyal to him. She never thought about looking for a replacement, let alone remarrying. When our master spoke to her about you, she immediately showed her dislike for you, and she was against us having a relationship. She wants to meet you, but I'm sure that she will ask you to leave me, so our relationship will not be easy to realize."

"Tell me about your mother's character," Sun Xiang immediately told Tang Xiao about Zhang Xingcai's character and disposition. "Your mother is indeed difficult, but I won't give up so easily. I want you to be my wife, so I will try my best to convince her to accept me."

"When will you go to my clan to meet my grandfather and mother?"

"For now, I want to focus on my cultivation and training, and I will go to the Sun Clan after I reach the King Realm."

Sun Xiang sighed inwardly. "I cultivated much longer than you, but my cultivation is still at the Peak Xiantian Level. On the other hand, you have only cultivated for a short time, but you have already reached this stage."

"Haha," Tang Xiao turned Sun Xiang to face him. "Xiang'er, you're an ordinary cultivator and not a dual cultivator, so don't underestimate yourself. My cultivation is indeed fast,

but that's because I'm a dual cultivator, and I use the Yin Qi of several women to cultivate, so you shouldn't be surprised if my cultivation improves faster than yours."

"Which women's Yin Qi do you use to cultivate?"

"Yin'er, Xing'er, Yu Xiaoling, Zhao Yuxian, and Jessica." Sun Xiang was no longer surprised to hear the names of the five women from Tang Xiao. "Apart from them, our master and Qingge also gave me their Yin Qi."

"Our master's Yin Qi?" Sun Xiang frowned.

Tang Xiao pinched her nose. "I'm not dual cultivating with our master, okay? She asked Xiao Ai to extract her yin qi, and Qingge also did the same with her, so I used their Yin Qi from the bottle."

"I still can't believe that Aunt Qingge is also willing to be your wife."

"Qingge has agreed to be my wife, but my relationship with her is no different from ours, and I still need to convince her to go further with me." Even though Tang Xiao said that, Sun Xiang believed he had been fortunate to have Mu Qingge. "Let's clean up, and I'll take you to the training ground."

"Alright."

.

.

.

They had arrived at the training space, but Sun Xiang was confused to see Tang Yin, Xing Xing, Mu Qingge, Mu Yan, and Xue Bai lying on the floor, unable to move their bodies.

On the side of the training ground, Sun Xiang saw Tang Huang, Tantai Lingyan, and Mu Lin giving training to Yu Xiaoling, Zhao Yixuan, Jessica, Zhao Qing, and Chu Lingxi, especially on how to fight properly because they had no experience at all.

Sun Xiang raised an eyebrow when she saw Xiao Meng and Xiao Hua on the other side of the training ground, but Tang Xiao explained to her that the two women were his captives, and he had no interest in them.

'Tch! That bitch finally fell into the hands of that bastard.' Xiao Meng gritted her teeth and cursed in her heart when she saw Sun Xiang.

In the past, Sun Xiang still cared about Xiao Meng because they had been close friends since childhood, but Xiao Luo's action made her change her mind. "What are your plans for them?"

"I will use them to destroy the Xiao Clan from within, and I don't care if Xiao Luo finds out about it and kills them." Tang Xiao pulled Sun Xiang to the other side of the training ground. "You don't need to think about anything and focus on training here with them, and I will ask Xiao Ai to give you some pills when she comes back from Tianmei later."

Sun Xiang nodded to him. "Are you going to train with us too?"

"Yes," Tang Xiao pointed to another area. "I will train there because you won't be strong enough to train at level five gravity. Get ready; I will increase the gravity in this area, and the pressure will be quite heavy for you."

Sun Xiang fell to the floor after Tang Xiao increased the gravity in that area, and she couldn't move at all. "Ugh! This gravity is really heavy!"

"Hehe," Tang Xiao squatted in front of her. "The gravity is only two times more than normal, so I'm sure you will be able to adapt more quickly. Once you adapt to it, I will increase it to level two and so on, and your speed will increase significantly at that time."

Sun Xiang considered asking Tang Xiao to bring her grandfather and mother to train there, but she quickly abandoned the idea because he didn't know them yet. "I will try to adapt to this gravity as soon as possible."

"That's the spirit." Tang Xiao immediately stood up and walked to another area, where he continued his training.

.  
. .  
.

At the Xiao Clan, Xiao Luo sat in front of his family members and spoke directly to his son. "Han'er, I want you to go out into the world to look for Meng'er and Xiao Hua."

"Huh?" Xiao Han was surprised to hear that. "Why don't you contact them from here, Father?"

"Fool!" Xiao Luo shouted angrily. "I've contacted them before, but I couldn't reach them, so I asked you to go there and check on their situation."

"Grandfather, aren't you afraid that Wang Fuxi will suspect us if you send my father out?" Xiao Luo looked at his grandson, Xiao Ming. "What if I go out into the world to look

for my sister? If I go there, that woman definitely won't be suspicious of us because my cultivation is still at the Xiantian Level. Moreover, there are only a few strong cultivators there, so I'm sure I'll be safe."

Xiao Luo thought for a moment before agreeing with that. "Alright, you can go to the outside world to look for your big sister, but you must not cause any trouble, or else Wang Wuxi and her subordinates will punish you."

"Yes, Grandfather." Xiao Ming hurriedly left the place to prepare.

"Since when did Xiao Meng and Xiao Hua disappear, Father? Could someone have captured them?"

"I can't think of anything yet, but no one should have been able to capture them, especially with Xiao Hua's high cultivation." Xiao Luo considered several other possibilities. "Moreover, they should already know not to cause trouble in the outside world, so Wang Fuxi and her subordinates shouldn't have made a move on them."

"Is it possible that there are other cultivators making moves on them without us knowing?"

Xiao Luo sighed and got down from his chair. "I don't know the situation outside, so I can't say anything. For now, let Ming'er go there to check on them, and I will think of other measures if other cultivators capture them. By the way, you should tell Qing Cheng about Meng'er's situation, and she can prepare to face the worst."

"Yes, Father."

\*Crack\*

Xiao Han walked into the room, where Qing Cheng was cultivating on her bed.

Qing Cheng's face is oval-shaped and mature. She has almond-shaped eyes framed by long lashes and slender eyebrows. A small, straight nose. Her lips are full and natural. She has a slender, feminine figure. Her shoulders are narrow and smooth; her waist is like a soft hourglass silhouette mixed with gently curved hips. Her hair is long, dark, and lustrous, cascading past her shoulders. She wears a sheer nightdress with delicate lace and floral embroidery details, highlighting the sexiness of her body and breasts. "Why are you here?"

## Chapter 285: Miao Xianyun

"Meng'er and Xiao Hua disappeared, so my father sent Ming'er to the outside world to look after them."

"Oh."

"Aren't you worried about our daughter's safety?"

"Have you ever cared about our daughter's safety?" Xiao Han chose not to answer Qing Cheng's question. "From the beginning, I disagreed with your decision to use our daughter to get close to Sun Xiang to facilitate your and my father-in-law's plan to annex the Sun Clan, but you ignored my concerns and sent her anyway. Besides, you also forced her to marry her younger half-brother, which made her reluctant to return to this clan for the past years. I don't want anything to happen to her, but I don't want her to suffer because of the decision of the two of you. Even though it's painful for me to lose her, I'd rather have her die than have her follow your wishes."

Xiao Han frowned upon hearing that, but he didn't say anything to refute her and left Qing Cheng's room.

After her husband left, Qing Cheng got out of bed and walked towards the window, taking out Xiao Meng's picture from the table near it. "Where exactly were you, Meng'er? Did something bad happen to you? Please forgive your useless mother because I couldn't protect you from their ambitions."

.

.

.

Night falls quickly; Tang Xiao's clone had finished his training and rested by the river. As he cleansed the beast's blood from his face and hands, he monitored Shen Ling, who was cultivating in her room in the Miao Clan. Since she arrived at the clan, she never left her room and continued cultivating there.

Tang Xiao's clone raised an eyebrow when he felt a powerful aura approaching him, but he didn't panic and waited for the owner of the aura to come to his location.

Before long, a young man riding a white lion arrived at his location, and he was a little surprised to see Tang Xiao's clone there. "Oh? I don't usually meet people here, Brother."

"I just finished training around here, and I saw this river from a distance, so I came here to clean myself." Xiao Ai immediately displayed the man's status for Tang Xiao's clone. 'Miao Xianyun, and his cultivation in the Middle Emperor Realm.'

"I see." Miao Xianyun jumped down from the white lion's back. "What's your name, Brother? Did you just break through? Your cultivation is at the Peak Xiantian Level, but I can sense that it isn't stable yet."

"My name is Feng Xiao." Miao Xianyun was taken aback upon hearing his surname. "You're right, Brother. I come from the Feng Clan in the south, and I'm here to find a new training ground. As for my cultivation, I broke through a week ago, so it hasn't stabilized completely yet."

"Do you really come from the Feng Clan?" Tang Xiao's clone showed Miao Xianyun the Feng Clan plaque that Feng Shen gave him some time ago. "Haha! I didn't expect to meet a member of that clan here, especially since the distance between this place and your clan is so great, and your cultivation is not yet stable. My name is Miao Xianyun, and I come from the Miao Clan, which is not far from here."

"I've heard about the Miao Clan from Uncle Feng Shen, but I'm not familiar with your clan."

"Senior 'Wind God' Feng Shen, huh? I've never met him, but I often hear his name, and I admire his speed." Miao Xianyun pointed to the white lion. "Bai Shi is my friend from childhood, and we were together since he was a cub."

Tang Xiao's clone looked at the white lion, which was lying down while cleaning its fur using its tongue. "Your beast contract is as powerful as you, Brother."

"We grew up and cultivated together since childhood, so our cultivation is evenly matched. However, he's stronger than me because of his large physique, and I'll die if he's not careful with me." Miao Xianyun walked to the riverside and washed his face. "Do you always train by fighting wild beasts, Brother?"

Tang Xiao's clone nodded at him. "Actually, Uncle Shen asked me to try the Ming Clan's battle arena to fight rogue cultivators, but I wasn't very confident in my fighting skills, so I chose to train from one forest to another."

"I see." Miao Xianyun nodded in understanding. "I don't think it's a problem, and those wild beasts are perfect opponents to hone our fighting skills. If we're not ready to face other cultivators and force ourselves to fight them, we might be seriously injured or die in their hands. I myself have never tried fighting in the Xing Clan's battle arena, but I often hear that the rogue cultivators there are very strong and vicious, and some of them don't hesitate to kill their opponents. I've wanted to try fighting there for a long time, but my parents forbade me from going there because our clan didn't have many members, and they were afraid I would die at the hands of those rogue cultivators."

Tang Xiao's clone smiled faintly. "Right now, my cultivation is still unstable, so I won't force myself to go to that kind of place. I might try going there after my cultivation stabilizes, and I'll try fighting those rogue cultivators. If my abilities are still insufficient, I'll return to the forest and fight those wild beasts again."

"Are you going to stay in an open place like this, Brother?"

"My clan is too far south, and I don't know anyone from this region. Moreover, I'm used to living in open places like this to hone my vigilance, which will be very useful for me."

"That's true." Miao Xianyun nodded in agreement. "Do you want to stay overnight at my Miao Clan? My parents will be happy to accept you because you are a member of the Feng Clan."

[Master, I think you should accept Miao Xianyun's offer so you can keep a close eye on Shen Ling, and they won't be suspicious of you.]

"Won't my presence trouble your clan, Brother?"

"Hahaha," Miao Xianyun laughed and embraced him. "My Miao Clan used to be a first-grade clan, and we have quite a close relationship with your Feng Clan, so they would be happy if you were willing to spend the night in our clan even just for a night."

"In that case, I will visit and stay at your Miao Clan, Brother."

"Good... Good...! Do you have a beast contract, Brother?" Tang Xiao's clone shook his head at Miao Xianyun because Xue Bai was not an ordinary beast, but her race was the very rare winged snow leopard. "Then, you can join me, and Bai Shi will take us back to my Miao Clan."

Tang Xiao's clone looked at Bai Shi, who was ready to leave, but the beast didn't seem to care about him. "Alright."

.  
. .  
.

Since the distance between their previous location and the Miao Clan wasn't far, they were able to arrive at the clan quickly. After they got off the white lion's back, Miao Xianyun asked Bai Shi to rest before leading Tang Xiao's clone into the clan.

When they arrived at the main hall, Tang Xiao's clone saw Shen Ling talking with Miao Cangyu and Fei Yan. As usual, Xiao Ai immediately displayed the status of the two Miao Clan members for him.

'They're quite strong, with his cultivation at the Middle Tyrant Level and his wife's cultivation at the Lower Tyrant Level.' Tang Xiao clone stole a glance at Shen Ling, who also stole a glance at him. 'Heh!'

"Who is this guest you brought, Xianyun?" Fei Yan asked.

"Mother, his name is Feng Xiao, and I met him at the East River. Since he's a member of the Feng Clan, I invited him to spend the night in our clan."

Miao Cangyu and Fei Yan seriously observed Tang Xiao's clone, who immediately showed them the Feng Clan plaque. However, they didn't believe him so easily, and one of them contacted someone from the clan to confirm his identity.

"Yan Huoling has confirmed that Feng Xiao is a member of the Feng Clan, Husband."

Miao Cangyu nodded to his wife before speaking to Tang Xiao's clone. "Please forgive us for doubting your identity, but we did so for the safety of our Miao Clan."

"No problem, Senior." Tang Xiao's clone saved the plaque directly. "Please forgive me for coming uninvited, two seniors."

"Xianyun, Feng Xiao seems tired after practicing, so you can take him to the guest room to rest."

"Yes, Father."

After they left, Miao Cangyu spoke directly to Shen Ling. "I called you here because my men reported to me about the Tang Clan. However, they found nothing there because Tang Huang isn't there, and they don't know when he will return. Even so, I asked them to keep an eye on the clan, and they will report to me if he returns. If you feel bored in this clan, you can go back to the outside world first, and I will tell the results to my ancestor later."

"I understand, Senior." Shen Ling sighed inwardly. "Actually, I'm happy with the situation of this clan, and I want to look around the surrounding areas. However, this is my first time coming to Earth II, so I'm a little nervous about going alone, and I've spent a few days in my inn room before."

"If you're comfortable and happy living in our clan, you can stay here as long as you like, Ling'er."

"Thank you, Senior."

## **Chapter 286: Training**

"This is your room, and you should rest first, Brother. Tomorrow morning, I'll take you to a good training area, and the wild beasts there will be perfect opponents for you."

"Thank you, Brother." After Miao Xianyun left, Tang Xiao's clone didn't enter the room; instead, he sat in the small garden in front of the room, observing the Miao Clan from the map displayed by Xiao Ai. 'This clan used to be a first-grade clan, but they declined drastically after being attacked by the Xie Clan in the past, and their number is less than fifty now. Even so, their two leaders are strong, and they are stronger than my grandfather and master. Miao Xianyun is still young, but his cultivation has already reached that stage.'

\*Tap... Tap...\*

Tang Xiao's clone looked at Shen Ling, who was walking towards her room, which was right next to his room.

When she noticed Tang Xiao's clone's gaze on her, Shen Ling abandoned her intention to enter the room and approach him. "Are you a native of Earth II?"

"Are you from the outside world?"

"Yes." Shen Ling sat beside him. "I arrived on Earth II three days ago, and my master is the ancestor of this clan, so I contacted them for help."

"Asking for help?"

"I wanted to find out a truth, and I didn't know the situation on Earth II, so I asked them for help."

"Oh."

"Are you curious about my problem?"

"No." Tang Xiao's clone shook his head slightly. "Everyone has their own problems, and other people's problems are none of my business."

"Are you always this indifferent?"

"Not really." Tang Xiao's clone turned to her. "We don't know each other, okay?"

Shen Ling stretched out her hand to him. "My name is Shen Ling."

"Feng Xiao." Shen Ling was a little annoyed because Tang Xiao's clone wasn't friendly at all, and he didn't want to shake her hand. "It's getting late, so I'll go rest now."

'Tch! Why is he acting so indifferent to me?' Shen Ling inwardly sighed and ran to her room.

.  
. .  
.

[Aren't you interested in Shen Ling, Master?]

"She's beautiful and sexy, but I have no interest in her." Tang Xiao's clone sat cross-legged on the bed. "Moreover, she already knows the evil deeds of both her parents and brother, but she still came here to investigate my Tang Clan, and I don't know what she'll do if she finds out later. If she can accept the fact that her family are evil people, then I won't bother her, but if she chooses to become my enemy, I will make her suffer."

[Master, I think you should take Xiao Meng and Xiao Hua out of the ark in case Xiao Luo contacts them, or their disappearance will bring trouble to you and the Sun Clan.]

Tang Xiao's clone raised an eyebrow slightly. "I'll go train somewhere else tomorrow, and I'll get them out of the ark when I get there. Did Yi An and Ouyang Qing contact me, Xiao Ai?"

[They were busy gathering at the Yi House, so they didn't contact you at all. Yang Zhiyue contacted you before, but she didn't contact you again after that. On the other hand, Lin Yan contacted you dozens of times, but I didn't pick up her calls or reply to her messages. Since you gave up on your intention to kill her, and you are already bored with her, I think you should reveal your true identity to her.]

"I haven't decided about Lin Yan, so just let her continue contacting me." Tang Xiao's clone immediately closed his eyes and cultivated.

.  
. .  
.

\*Knock... Knock...\*

In the morning, Tang Xiao's clone immediately exited the room when Miao Xianyun knocked on his door. "Are you ready to hunt wild beasts again?"

"|—"

"Are you two going to train?" They turned to Shen Ling, who had just emerged from her room. "Last night, Senior Fei told me to come with you if you two wanted to train."

"My mother already told me about you, and I have no problem with that." Miao Xianyun looked at Tang Xiao's clone. "What about you, Brother? Will you join us?"

"No," Tang Xiao's clone refused. "I'll train alone in another area, and we can meet at the East River tonight."

Shen Ling felt disturbed and annoyed by Tang Xiao's clone's decision, and she was sure that he refused to join them because of her. "Since the three of us are here, why don't we go practice together?"

"I'm used to practicing alone." Tang Xiao's clone looked at her. "Moreover, you've never been here before, which means you've never fought against those wild beasts. I always go to areas with stronger wild beasts, and I don't have time to protect you from them, so you should go train with Brother Xianyun."

"Hey! Although I've never fought those wild beasts, I'm used to sparring with my master, so you don't have to look down on me like that." Shen Ling protested in a high-pitched voice.

"I'm not looking down on you, but you should be aware of the difference between sparring with your master and fighting those wild beasts." Shen Ling frowned. "Your master won't fight you earnestly, and he also won't use his killing intent when fighting you. On the contrary, those wild beasts will not be merciful to you, and they will attack you with the intention of killing you. You have never fought against them, so I won't take you to my training area because my opponents are much stronger than you, and I don't have time to protect you. If you encounter a powerful beast, you will die, and it will eat you alive."

Shen Ling trembled at Tang Xiao's clone's last sentence, but Miao Xianyun spoke directly to her. "Brother Feng is right, Miss Shen. Those wild beasts are different from my ancestor, and they will not show you mercy. For now, I will take you to an area with beasts whose strength is below yours, and you can learn to fight with them first. Once you are used to fighting them, I will take you to an area with beasts whose strength is equal to yours."

'Tch!' Shen Ling gritted her teeth, but she didn't protest anymore and immediately followed behind them. She repeatedly glanced at Tang Xiao's clone with an annoyed gaze, as she was still annoyed by his indifferent attitude. 'Tch! I'll prove to him that I'm not a weak woman who needs his protection.'

After arriving outside the clan, Miao Xianyun immediately summoned Bai Shi to meet him, but the white lion's presence frightened Shen Ling due to its enormous size.

Shen Ling hid behind Tang Xiao's clone and trembled. "Do... do all beasts have bodies as big as this white lion?"

"Hahaha," Miao Xianyun laughed as he rubbed Bai Shi's body. "Miss Shen, some beasts have large bodies like Bai Shi, and some have small bodies like pets in the outside world. In fact, some beasts have bodies that are much larger than him, such as the Jade-Eyed Python, the Iron-Fist Bear, the Two-Headed Water Serpent, and many more. However, I will not take you to a place where beasts are as large as them, and I will start training you against beasts with a small body size, such as the Three-Eyed Toad, the Viper-Tailed Lizard, and beasts like them."

"Gulp." Shen Lin swallowed as she looked at Bai Shi. 'How am I going to fight a beast as big as this white lion? I'll definitely die if I fight him, and he'll eat my corpse.'

"You should go with Brother Xianyun because the beasts in my training area are much larger than this white lion, and they are extremely ferocious." Shen Lin was shocked to hear that. "Brother Xianyun, I will leave first, and we will gather at the East River tonight."

"Okay." After Tang Xiao's clone disappeared, Miao Xianyun turned to Shen Ling and asked her a question. "Shall we leave now, Miss Shen?"

"Are... are we really going to ride that white lion?"

"Hahaha," Miao Xianyun laughed at that. "Don't worry, Miss Shen. Bai Shi is a tame beast, and he's really gentle despite his size, so you don't need to be afraid of him."

"O... okay." Miao Xianyun immediately carried Shen Lin onto Bai Shi's back, who was right away taking them away from the Miao Clan. "Ugh! Can you ask him not to run so fast?"

"Miss Shen, this is Bai Shi's slowest speed, so I can't ask him to run any slower."

"Okay." Shen Ling was curious about how Tang Xiao's clone could disappear so quickly, and her senses couldn't track him. 'Where exactly is he training?'

.

.

.

Meanwhile, Tang Xiao's clone had arrived inside the forest, which was filled with large and ferocious beasts. He did not directly fight with them; instead, he entered the ark, but he immediately came out again bringing Xiao Meng and Xiao Hua with him.

Before he started fighting those beasts, Tang Xiao's clone ordered Xiao Hua to protect Xiao Meng, especially since some of those beasts were much stronger than her.

Xiao Meng sighed softly, but she did nothing and sat on a large tree branch. As she was thinking about something else, she suddenly received a voice transmission from her grandfather, asking about her whereabouts. "Why is my grandfather looking for me? What should I tell him?"

Since Tang Xiao's clone had just started his training, Xiao Meng had delayed asking him, and she also hadn't replied to Xiao Luo's messages.

### **Chapter 287: Nightfall**

"Why do you look so anxious, Xingcai?"

Zhang Xingcai turned to her father-in-law. "I've been trying to contact Xiang'er since last night to ask if she's met with Tang Xiao, but I haven't been able to reach her. I tried contacting Qingge, but the result was the same."

"Hmm?" Sun Qian raised an eyebrow for a moment and tried to contact the two women, but to no avail. "I can't contact them either, but I don't think we need to worry about Xiang'er. Qingge would never harm her, so let's leave everything to her."

Since they had been friends for years, Zhang Xingcai knew that Mu Qingge would never harm her daughter, but she was still worried because she couldn't contact Sun Xiang herself.

"Don't worry, Xingcai. I'm sure Xiang'er is fine, and she will return to you in one piece after all this matter is over."

"I hope so, Father." Zhang Xingcai sighed softly. "What about Wang Fuxi? Is she willing to protect the Fang Clan, Sun Yang, and Sun Yue?"

"Wang Fuxi has already sent two people from the Wang Clan to protect them, so I'm sure they'll be fine. Did you see the intruder last night?"

"I saw an intruder last night, but he wasn't from the Xie Clan, Father. Instead, he was a person from the Xiao Clan, and I killed him straight away."

Sun Qian nodded to Zhang Xingcai, as he had expected that Xiao Luo would send someone to infiltrate his clan. However, he knew that the person was merely a pawn intended to divert his attention from the actual intruder. Unfortunately, he still hasn't

managed to find out the true identity of the intruder, and that person could be disguised as anyone from his clan. "Please be careful, Xingcai. If you meet a stronger intruder, you must not act alone, and you must contact me immediately."

"Yes, Father."

Afterward, Zhang Xingcai returned to her room, trying to contact Mu Qingge and Sun Xiang again. Meanwhile, Sun Xian went to meet his second son and daughter-in-law to discuss some matters.

.

.

.

"Father, the person I sent to the Sun Clan is dead, but I don't know whether it was Sun Qian or someone else who killed him."

Xiao Luo seemed unconcerned by the person's death because he was merely a chess piece he had intentionally sacrificed. "I've been able to contact Meng'er. However, she hasn't answered any of the voice transmissions I sent her, so I don't know her current location."

"Do you think someone has captured Meng'er, Father? Could it be that person wants to use her to pressure us?"

"That's possible." Xiao Luo nodded to his son. "For now, let Ming'er check on her in the outside world, and we'll wait for news from him before deciding on our next move. How did Qing Cheng react when you told her about her daughter's disappearance?"

Xiao Han smiled bitterly before he spoke to his father. "Qing Cheng doesn't care about Meng'er's situation, and she blames us for her situation. She also said that she would rather have our daughter die than have her follow our orders."

"I see." Xiao Luo nodded slightly and contacted someone. "Send someone else to the Sun Clan tonight, and we'll keep at it until the Xie Clan's people can make a move."

"But who will they capture, Father? Sun Xiang is in the outside world, and Fang Xiaoru has already evacuated her two children to the Fang Clan, which is now protected by people from the Wang Clan."

Xiao Luo looked at his son. "If we can't capture Sun Qian's three grandchildren, we will capture her second son and two daughters-in-law. Moreover, Xie Jun has already told me that he wants Zhang Xingcai, so she will be our main target."

"Zhang Xingcai, huh?" Xiao Han muttered to himself. "What about the Zhang Clan?"

"Zhang Fei and his family are on high alert, and their strengths are equally matched. We don't need to worry about that clan for now, and the Xie Clan will take care of them." Xiao Luo hurriedly got up from his chair and walked out. "I'll leave everything to you, and I'll go to the Cao Clan to meet with Cao Teng."

"Yes, Father." When Xiao Han wanted to leave, his first wife walked into the room. "Why are you here, Shi Xian?"

"Did you and my father-in-law send Ming'er away somewhere else?"

"Yes." Xiao Han told her about Xiao Luo's decision to send Xiao Ming to the outside world. "You don't need to worry about our son. No cultivator dares to act recklessly in the outside world, so he will be fine there."

Shi Xian nodded slightly. "I was just worried because our son left without informing me, and since you've been busy since yesterday, I didn't have the opportunity to ask you. Since he went to the outside world, I don't have to worry about him anymore. Did my father-in-law send him there to pick up your daughter?"

"Meng'er disappeared yesterday, and my father couldn't contact her, so he sent Ming'er to check her situation." Shi Xian was surprised to hear that because no ordinary people could fight Xiao Meng, and other cultivators did not dare to act carelessly with Wang Fuxi there. "I don't know what happened to her, so we will wait for news from our son."

"Have you told Sister Qing about her daughter's disappearance?" Xiao Han hugged his wife's waist, led her out, and told her about the conversation he had with Qing Cheng yesterday. "What are you going to do to her?"

Xiao Han shook his head in response. "I've long wanted to get rid of Qing Cheng, but Meng'er would rebel and leave this clan for her mother, so I can't do anything to her now. Once the Sun Clan's affairs are settled, I'll get rid of her, and Ming'er can marry his big sister then."

"Half big sister."

"Haha," Xiao Han laughed at that. "What if we have another child?"

"Sure."

.

.

.

"Xiao'er." Tang Xiao, who was training in five times heavier gravity, turned to look at Tantai Lingyan in the distance. "I've been thinking since yesterday, and I'm afraid the situation in the Sun Clan will turn dire, so your grandfather and I thought about helping Old Sun from a distance. If the Xiao and Xie clans attack, we will help him, but we won't move if they don't attack."

Tang Xiao asked Xiao Ai to turn off the gravity device's effect in his area, and he quickly got up and approached Tantai Lingyan. "I've been considering sending Xiao Meng back to the Xiao Clan so we can use her to closely monitor Xiao Luo."

"I think it can be done, but I'm afraid Xiao Luo will suspect his granddaughter if you suddenly send her back to the Xiao Clan."

Tang Xiao agreed with that. "Since Xiao Meng is currently with my clone, I will speak to her once my clone has finished training, and then I will send her back to the Xiao Clan."

"Alright, you can arrange everything yourself, and we'll return to Earth II." Tantai Lingyan turned to the women who were training. "For now, Old Lin and Qingge will train them, and you can focus on yourselves, as you are our main hope."

"Alright." After Tantai Lingyan and Tang Huang left, Tang Xiao immediately resumed his training. He glanced at Xue Bai and Sun Xiang, who looked overwhelmed by their training, but he was pleased to see the seriousness in their expressions.

.

.

.

Night quickly falls; Tang Xiao's clone had already finished his training and collected the beast cores he found from the beast corpses. He selected several beast corpses suitable for consumption, sent them into the ark, and asked Xiao Ai to take care of everything.

"Tang Xiao." Tang Xiao's clone looked at Xiao Meng, who landed in front of him with Xiao Hua. "My grandfather has been sending me voice transmissions repeatedly all day, asking for my location, but I haven't responded to any of his messages."

"What does Xiao Luo want from you?"

"Nothing." Xiao Meng answered him with a shake of her head. "However, my grandfather told me that he sent Xiao Ming to the outside world to look for me and Xiao Hua, and he already left yesterday. If I remember correctly, the nearest portal from my clan is two days' journey, and he is probably almost at the portal's location."

"Xiao Ming, huh?"

Xiao Meng raised an eyebrow. "Do you intend to capture Xiao Ming?"

"Is he stronger than you?"

"The last time I met him, his cultivation had just broken through to the Xiantian level. However, I haven't seen him in a long time, and he's probably already broken through to the middle level."

Tang Xiao's clone nodded slightly. "How far is the portal from here?"

"Hmm?" Xiao Meng looked around, but she had never been to this area before. "I'm not familiar with this place, so I can't estimate the distance."

"Tell your grandfather that you'll wait for Xiao Ming in the outside world, and I'll capture him there."

Xiao Meng was overjoyed when she heard that, and she immediately contacted Xiao Luo. "My grandfather seems busy and hasn't replied to my messages."

"It's no problem." Tang Xiao's clone sent the two women into the ark and hurried to the East River to meet Miao Xianyun and Shen Ling.

When Tang Xiao's clone arrived, Miao Xianyun and Shen Ling still hadn't arrived. "Xiao Ai, please help me find the nearest portal in this region."

[Yes, Master.]

## **Chapter 288: Explosive Qi Pill**

[Master, the nearest portal location is not far from the previous small town, and you can get there in a few minutes by using the Void Dragon Steps level 2.]

Tang Xiao's clone nodded in understanding, as he should have been able to reach the Miao Clan much faster yesterday, but he didn't know the clan's location and had to follow Miao Han and Shen Ling.

Originally, Tang Xiao's clone wanted to wait for Miao Xianyun to arrive at East River, but he abandoned his intention and sent him a voice transmission before leaving in the direction of the small town.

Not long after Tang Xiao's clone left, Bai Shi landed at that place. Miao Xianyun helped Shen Ling, who looked exhausted and had suffered some minor injuries from his contract beast's back. "Where is Feng Xiao? Why isn't he here yet?"

"I forgot to tell you that Brother Feng went elsewhere to take care of something, and he probably won't be back tonight." Shen Ling looked disappointed. "Do you like him, Miss Shen?"

"Please call me by my name directly, Brother Xianyun."

"I'll call you Ling'er; is that okay?"

"Yeah," Shen Ling then answered his question. "I don't like Feng Xiao, but I want to show him that I've been training hard and killed several beasts."

'Haha! This woman! She didn't realize that she had started to be interested in Brother Feng; otherwise, she wouldn't have had such thoughts.' Miao Xianyun laughed in his heart. "Ling'er, wash your wounds in the river first, then I'll apply ointment to prevent scarring."

Shen Ling nodded slightly and walked to the side of the river to clean the wounds on her body, but her mind was filled with questions about Tang Xiao's clone. 'Sigh! Do all cultivators always practice like that? This is my first time fighting wild beasts, and they're too scary even though I'm only fighting the small ones. I don't dare imagine myself fighting a huge beast like that white lion; I'd definitely be eaten alive by it.'

After Shen Ling finished cleaning the wounds on her body, Miao Xianyun helped her to apply ointment to all her wounds. "Do you have a lover, Brother Xianyun?"

"Haha," Miao Xianyun laughed at her question. "I find women too troublesome, and I'm still young now, so I haven't thought about finding a lover yet. For now, I just want to train to become strong, and I will eradicate those heretic cultivators who have destroyed my Miao Clan in the future."

"The Xie Clan, right?"

"There are many evil cultivators on Earth II, but none as evil as the members of the Xie Clan."

"I've heard about the Xie Clan from my master, and they killed many powerful cultivators from the Miao Clan."

Miao Xianyun nodded at her. "My Miao Clan was one of the first-rate clans in the past, but the Xie Clan suddenly attacked us and killed almost all of our clan's key members. My ancestor was the only one remaining from our older generation, and he luckily survived because Ancestor Wang and Ancestor Liu happened to pass by our clan and stopped those heretics. After that day, he decided to leave Earth II and live in solitude in the outside world, and he never returned here again. That's why I want to be strong, and I will slaughter them in the future."

"I'm the same as you, Brother Xianyun." Shen Ling's expression turned sad. "My parents did die of natural causes, but I'm sure that someone they killed indirectly, and I suspect that person came from the Tang Clan. Moreover, my little brother also disappeared without a trace, and I think he is dead now. I don't have any proof, but—"

"Ling'er, I've heard about your parents and little brother from my mother." Shen Ling looked at Miao Xianyun. "Did you know that Uncle Tang Ye is the only descendant of the Tang Clan?"

"My master has already told me about that."

Miao Xianyun nodded slightly. "Since you already know about it, you can't blame the Tang Clan members for killing your parents."

"But—"

"We cultivators believe in the principle of blood for blood, life for life. We will kill anyone who kills our family without exception." Shen Ling clenched both fists. "Your father forcefully violated Uncle Ye's wife, and your mother supported him in doing so. Even if you were unwilling to accept the fact, they had committed fatal crimes without knowing their true identities. In my opinion, the Tang Clan members were right to kill them because they had committed such a heinous act against their clan's sole heir, and their clan lost its only heir because of your parents' crimes. If I were in the position of those clan members, I would also do the same thing, even though the perpetrators were ordinary humans."

Shen Ling was disappointed and angry with Miao Xianyun's words, but she kept everything in her heart and did not say anything to him.

"I know you don't like my words, but I've been in the Tang Clan's shoes, especially when the Xie Clan massacred my Miao Clan members. When I become truly powerful, I will go to that clan, and I will slaughter all their clan members down to their roots, so they will never rise again." Miao Xianyun put away the ointment and stood up. "Your brother was as evil as your father because he intended to violate Tang Yin, which led her to attempt suicide by jumping from a third-floor building. Fortunately, good luck was with her, and she managed to survive, even though she was in a coma for seven years. Therefore, their deaths were payment for their heinous act, and they reaped what they sowed. If I were you, I wouldn't investigate their deaths because it would only harm you, and their killers would kill you too."

Shen Ling didn't reply to Miao Xianyun, as she couldn't accept her parents' and brother's deaths, and she thought of finding their killers to take revenge.

Miao Xianyun shook his head and said nothing more. He immediately mounted Bai Shi. "Let's go back to my clan, Ling'er."

Shen Ling still didn't say anything, and Miao Xianyun helped her onto Bai Shi's back, who immediately took them away from that place.

. .  
.

Meanwhile, Tang Xiao's clone has arrived at the location of the portal, and he took Xiao Meng and Xiao Hua from the ark before they entered the portal and returned to the outside world.

"Has your grandfather replied to your previous message?"

"Not yet." Then, Xiao Meng asked him. "What should we do now? Shall we wait for Xiao Ming at my house?"

"Try calling him and asking for his location first."

Xiao Meng nodded and tried to contact her half-brother, who immediately replied to her message. "He's almost arrived at the portal location, and he'll come straight to meet me at my house once he gets here."

"Let's go to your house, and we'll wait for him there."

"Alright."

.  
. .  
.

After they arrived at the Miao Clan, Shen Ling immediately ran to her room, making Miao Xianyun shake his head.

"What happened to her, Xianyun?" Miao Xianyun turned to his mother and explained everything to her. "She is an inexperienced cultivator, so it's natural for her to think that way. Your father and I will help her investigate everything, but her life is her responsibility. If she is smart and cherishes her life, she won't think of revenge because she will surely die."

Miao Xianyun nodded to his mother. "I've told her about it too, but she doesn't seem willing to listen to me because she doesn't have any backers here, and we can't

possibly fight with the Tang Clan for her sake, so I won't say anything to her anymore. What about our ancestor if she dies at the hands of members of the Tang Clan?"

"I don't know how close the little girl's relationship is to our ancestor, so I can't answer that for now." Fei Yan looked behind his son. "Where is Feng Xiao?"

"Brother Feng had other matters, so he didn't come back with us, but he already told me that he might come back tomorrow because he still wants to train in this area." Miao Xianyun told Bai Shi to rest. "Mother, I'll go back to my room now, and I'll take Ling'er to train in the forest again tomorrow morning."

After her son left, Fei Yan immediately returned to her room and talked to Miao Cangyu about Shen Ling.

.  
. .  
.

Shen Ling lay on her bed, thinking about the words of her master and Miao Xianyun. She knew they were right, and she might die if she delved too deeply into the deaths of her parents and brother, but their deaths weighed heavily on her heart.

"Sigh! Should I go back to the outside world and forget everything?" Shen Ling immediately closed her eyes to rest, especially since her entire body was sore and aching from her previous training.

.  
. .  
.

Tang Xiao's clone and the two women had arrived at Xiao Meng's house, and he immediately handed her a pill. "You can use this pill on him, so we won't have to go through the trouble of fighting him, and I'll take him to my place afterward."

"What kind of pill is this? Will it kill him?"

"Hey! I need him alive, okay?" Tang Xiao's clone immediately informed her. "It's an Explosive Qi Pill, and its effect will disrupt his qi flow, so he won't be able to use his strength for a period of time."

## **Chapter 289: Capture Xiao Ming**

After waiting for a while, Xiao Ming finally arrived at the house. Tang Xiao's clone hid in the void, monitoring everything from within.

Xiao Meng was too lazy to meet her half-brother, but she had no choice but to meet him. "Why did you come here?"

"Isn't it because of you, my dear big sister?" Xiao Ming wanted to hug Xiao Meng, but she immediately moved away from him. "Hahaha! You can reject me now, but you won't be able to reject me forever. Our grandfather has already prepared our wedding, and I will enjoy your body on our wedding night."

Xiao Meng knew that she couldn't go against her grandfather's wishes, especially with her mother being in their clan now. She could hide somewhere far away in the outside world to avoid them, and he would have a hard time finding her, but he would do something to her mother if she disappeared.

"Where did you go two days ago?" Xiao Ming scanned the area around them using his senses, but he couldn't detect Tang Xiao's clone hiding in the void, as he had no understanding of that element. "Our grandfather was looking for you two days ago, but he couldn't contact you. He thought something had happened to you, so he sent me here to pick you up."

"I don't—"

"You have no other choice, and you have to come back with me." Xiao Meng furrowed her brows. "If you are unwilling to return to our clan, your mother will suffer because of you."

Xiao Meng stared at her half-brother with a gaze full of hatred as he used her mother to force her to return to their clan, but she knew that her family would use any means to force her to return, including using her mother.

Xiao Ming smiled at her expression. "Pack up now, Big Sister. I don't like this polluted world, so we're going back to Earth II now. If you don't want to come back with me, I'll tell our father about it, and he'll come here to force you to come home."

'This bastard!' Xiao Meng furiously shouted in her heart, but she quickly calmed herself down and took a drink that had been mixed with an explosive qi pill.

Xiao Ming immediately snatched the drink and drank it directly. "Hmm? This outside world is really disappointing! This drink is quite delicious, but it doesn't contain any qi, so it's useless for cultivators like us."

'What an incompetent fool! You didn't even notice that I mixed something in the drink!' Xiao Meng didn't say anything to her half-brother and went to her room to pack her things. 'Sigh! I don't want to go back there, but I have no other choice; otherwise, those

bastards will hurt my mother! Hmm? When will Tang Xiao's pill take effect? What will he do next to that fool?

While waiting, Xiao Ming sat on the sofa and turned to Xiao Hua. "Where did you two go two days ago?"

"Young Master, we went to an old place, and we think it's a relic of the cultivators who lived here in the past."

Xiao Ming wasn't surprised by this because many cultivators lived in the outside world in the past, and some of them still do, like Mu Lin. "Where is that old place? Did Sun Xiang join you two?"

"That place is in the northern area of this country, and Sun Xiang didn't join us because she was busy with her personal affairs."

"Did you two manage to find anything interesting there?"

"That place was destroyed a long time ago, so we didn't find anything there. Moreover, those old cultivators usually stayed here to find peace from the bustle of Earth II, and they never brought their valuables with them to the outside world."

"That's true." Xiao Ming nodded slightly. "Does my big sister have a lover here?"

"Since I've been living here with her, I've never seen a man come to this house, and she usually spends time with Sun Xiang at their workplace."

"My big sister is stupid," Xiao Ming said, shaking his head. "I never understood why she chose to live in such a disgusting place, and she should be focusing on her cultivation in our clan."

"Your grandfather assigned her to watch over Sun Xiang, and she lives here, so your big sister was forced to follow her here. As for her second reason, you should already know about it, right, young master?"

Xiao Ming nodded slightly and did not answer Xiao Hua, but he was still unaware of the changes that occurred in his body, as the explosive qi pill began to take effect.

Before long, Xiao Meng had returned to the living room, but she was disappointed because her half-brother still looked fine. However, Tang Xiao's clone immediately told her that the pill's effects would soon take effect, and he asked her to leave now. "Let's go."

"Hahaha," Xiao Ming laughed and followed her immediately. "Our grandfather and father will definitely be happy to have you back in our clan, Big Sister."

"Humph!" Xiao Meng immediately flew away after closing the door of her house, followed by Xiao Ming and Xiao Hua. Tang Xiao's clone immediately followed them from within the void, waiting for the pill to take effect.

.  
. .  
.

After flying for a while, they arrived at the portal. Xiao Meng hesitated about entering, and she glanced several times at her half-brother, whose expression had changed and whose breathing was heavy. 'Is the pill working?'

'What happened to me? Why did the qi flow in my body suddenly become like this?' Xiao Ming tried to stabilize his qi, but his efforts were in vain, and his qi became even more chaotic.

Xiao Meng's lips curled into an evil smile and signaled to Xiao Hua, who immediately pushed Xiao Ming into the portal. She tried to find Tang Xiao's clone, but she couldn't find him, so she immediately entered the portal.

Tang Xiao's clone emerged from the void. "Tch! This barrier is really troublesome! Even though I can enter the void, I can't penetrate this barrier, and I have to go there through the portal like this. Can we destroy this barrier, Xiao Ai?"

[It's possible, Master. You won't be able to break this barrier with your current cultivation, but the Primordial Divine Ark has several weapons, and you can use them to destroy it. However, you should seriously consider whether you want to do that because it will have a major impact on the lives of ordinary humans, and those cultivators will likely suppress them with their strength. Even though ordinary humans have advanced modern weaponry systems, they will never be able to win against those cultivators, and the situation on Earth will change completely.]

"Who exactly created this barrier?"

[When my old master became a cultivator, this barrier already existed, and the people of Earth II have no records of its initial creation or the identity of its creator.]

Tang Xiao's clone was curious about the barrier and its creator, but he had more important tasks at hand right now, so he rushed into the portal.

.  
.

.

"Ugh!" Xiao Ming groaned as the qi in his body became increasingly uncontrollable, causing him to fall to the ground. He looked at Xiao Meng and asked her, "What have you done to me?"

"Did you see me do something to you?" Xiao Meng squatted in front of her half-brother and sealed his cultivation, shocking Xiao Ming. "Even though your cultivation is quite high, you are just a naive guy, and you are never aware of your surroundings."

"You—" Xiao Ming looked at Tang Xiao's clone, who had walked just out of the portal. "You must have collaborated with this man to do this to me."

"Unfortunately, you were too late to realize it, and you have fallen into my hands now." Tang Xiao's clone knocked Xiao Ming unconscious and lifted him with his aura. "You have to wait for me here in case Xiao Luo contacts you again later."

"What should I say to my grandfather if he contacts me?"

"Tell him that you will return to the Xiao Clan with your half-brother." Tang Xiao's clone immediately brought Xiao Ming into the ark.

Xiao Meng sighed softly and waited for them to return not far from the portal. "I hope my grandfather won't contact me anytime soon, or he'll be suspicious of me because he can't contact that idiot."

.

.

.

Tang Xiao's clone placed Xiao Ming into one of the glass capsules, and Xiao Ai immediately began to do something to him. "Do you think it's enough to change his memories, Xiao Ai?"

"I think it's enough, Master. After this, he will obey your orders completely, and I will give him some pills that he can use on the members of the Xiao Clan. This way, you won't have to waste time making a move against that clan, and the Xie Clan won't suspect anyone, so the Sun Clan will be safe."

"I think that's good." Tang Xiao's clone observed Xiao Ming, who was still unconscious inside the glass capsule. "What do you think about the Jiang and Song Clans? I think the Xie Clan would be suspicious if something happened to those two clans, and they would definitely come out to investigate."

"In my opinion, you don't need to touch those two clans for now, Master. The Xie Clan is too powerful for you as you are now, so I think you can use the Xiao Clan to do something about them."

## **Chapter 290: Two Pills**

An hour later, the glass capsule had stopped operating, but Xiao Ai was in the treasury vault retrieving some pills. Tang Xiao's clone immediately took Xiao Ming out of it and woke him up.

Unlike before, Xiao Ming looked at Tang Xiao's clone with great respect after Xiao Ai modified his memories, making him completely loyal to her master. "Who am I to you?"

"My master."

Tang Xiao's clone nodded in satisfaction with that. "From now on, your main task is to weaken all your clan members from within, especially your grandfather, father, and mother."

"Yes, Master."

Tang Xiao's clone rubbed his chin, thinking about some other things. "Are your grandfather and father already planning to arrange your marriage to Xiao Meng when you both return?"

"Master, my grandfather has been preparing for our wedding for a long time, and we will get married in a few days after my big sister returns to our clan."

"In that case, you can marry Xiao Meng, but you must not touch her."

"Do you like my big sister, Master?"

"I don't like her." Tang Xiao's clone looked at Xiao Ai, who had just returned from the treasury vault. "Are there any pills useful for taking down the people of the Xiao Clan that other cultivators won't detect?"

Xiao Ai gave two types of pills to Xiao Ming as she explained to her master. "The first pill is the Five Viscera Pill, and it will cause people who swallow it to experience extreme pain in their inner organs for eight hours per day after consumption. The second pill is the Heart Illusion Pill, and it will cause the person who swallows it to hallucinate at night, depending on the fear within them."

"What would happen if they couldn't withstand the effects of the Five Viscera Pill?" Tang Xiao's clone took the pill from Xiao Ming's hand and observed it.

"If they swallow one pill whole, they will probably die with their internal organs destroyed, Master." Tang Xiao's clone looked at Xiao Ai in shock. "That's why I just gave him one pill, and he could mix it into their drinking water, so the effect wouldn't be too strong for them. Moreover, the effect would continue to work as long as they didn't swallow the antidote, and no cultivators from Earth II could make the antidote."

"How long will the pain last if they don't swallow the full pill?"

"If I recall correctly, the painful effects will only last one to two hours for each day if we mix it into their drinking water."

Tang Xiao's clone didn't want the Xiao Clan members to die, and he wanted to make them suffer for a long time. Moreover, the Xie Clan would be suspicious if they suddenly died, which would bring new problems for the Sun Clan.

"I think one to two hours is better than them dying from the effects of the pill." Tang Xiao's clone returned the pill to Xiao Ming. "What about the duration of the effect of the Heart Illusion Pill?"

"A week." Tang Xiao's clone felt that the effect was not long enough. "Master, the effect won't last long, but you have to remember that some cultivators have weak mental strength. Therefore, a week is enough to make them terrified by the fear inside them, and they will go insane if their mental strength collapses."

"I think these two pills are enough for now, and I can't wait to see their expressions after they take them both." Tang Xiao's clone grabbed Xiao Ming's shoulder. "I'll take him out now."

Xiao Ai shook her head slightly after they disappeared. "In the past, the old master almost never tortured his enemies, but the young master had a tendency to cruelly torture them."

.

.

.

"What have you done to him?" Xiao Meng asked as she observed Xiao Ming's face.

Tang Xiao's clone looked at Xiao Ming. "Immediately execute my plan once you arrive at your clan."

"Yes, Master."

Xiao Meng was shocked to hear her brother refer to Tang Xiao's clone as his master. "Did you change his memories?"

"Yeah."

"In that case, I—"

"You should return to your clan, and I will monitor your family through you." Xiao Meng didn't want to return to the Xiao Clan because her family would force her to marry her half-brother, but Tang Xiao's clone forced her to return. "Why should you worry about that? He's already under my control, and he won't do anything to you."

"Is he really not going to do anything to me?"

"Do I need to lie to you?" Tang Xiao's clone shook his head in response. "Even though I dislike you and you're my enemy, I'll help you avoid that situation, but I won't help you any more than this. Since you won't be able to avoid your grandfather and father forever, you have no other choice but to marry him, but he will never touch you without my orders. Once we've resolved all the problems, you can do whatever you want with your life."

Xiao Meng stared at Tang Xiao's clone for some time before nodding to him. "I will return to my clan."

"Go." Xiao Hua immediately grabbed Xiao Meng and Xiao Ming's shoulders, taking the two of them away from that place to the Xiao Clan.

[Are you returning to the Miao Clan, Master?]

"The wild beasts in that region are much stronger than the ones I faced in the southern region, so I'll continue training there. Furthermore, I can keep an eye on the Xiao Clan from afar, and I also have you to help me, so I won't waste my time in this region." Thereafter, Tang Xiao's clone returned to the outside world, and he went to the location of the portal that connected him to the region where the Miao Clan lived.

Upon arrival, Tang Xiao's clone didn't go straight to the Miao Clan because it was still midnight; instead, he went to the East River and spent the night there.

[Do you have plans to go to the Xue Clan, Master?] Tang Xiao's clone raised an eyebrow and looked at the snow mountain quite far to the north of his location. [Xue Bai will definitely be happy if you take her to her natural habitat, but the two women from that clan will definitely come to you to take her back.]

"Xue Bai is my beast contract now, so I will never hand her over to those two women." Tang Xiao's clone suddenly remembered something. "Yi An and Ouyang Qing are

leaving for Paris today, right? I have to go back there to see them off, and I will take the others to Earth II after they leave."

[The cultivators' meeting will be held tomorrow, Master.]

Tang Xiao's clone nodded slightly. "I won't be joining the meeting, and they can handle everything themselves. However, I will still go there to look for Long Xianyin, and I have to find a way to get close to her without making her suspicious of me."

[Are you really going to use Long Xianyin against Long Yin, Master?]

Tang Xiao's clone's expression was a mixture of sadness and anger after Xiao Ai asked that. "Long Xianyin should have known about Long Yin's decision to stop my grandfather and master nineteen years ago, but she didn't stop her brother from doing so. Because of her brother, my parents died that night, and my mother endured extreme humiliation before her death. Therefore, I would use his family members against him, including his sister."

Xiao Ai chose not to say anything because her master's heart was already filled with hatred for Long Yin, and he would do anything to take revenge on him for the deaths of his parents.

Thereafter, Tang Xiao's clone decided to go to another area, and he fought with wild beasts to relieve his anger.

.  
. .  
.

In the room, Tang Xiao lay down with Xing Xing and Tang Yin on either side of him. "After I drop Yi An and Ouyang Qing off at the airport this morning, I'll take you all to Earth II, and we'll focus on training there."

"Hehe," Tang Yin giggled. "Since Sister Qingge and I are already on Earth II, I'll wait for you all there, and we'll start our training once you arrive."

Xing Xing looked at him. "Are all wild beasts that scary, Husband? Although I've trained a lot since I became a cultivator, I've never fought one before, so I have some concerns in my heart. Moreover, my mother hasn't trained for long, so I'm afraid something bad will happen to her when she fights those wild beasts."

"Xing'er, I understand your worries, but you must know that I will not let anything bad happen to my mother-in-law." Xing Xing knew that, but she was still worried about Chu

Lingxi. "Moreover, Aunt Yuan and Feng Yao will be joining us, and they will protect everyone, so you don't have to worry about that."

Tang Yin also reassured Xing Xing. "Sister Qingge will be joining us too, so you don't have to worry about your mother, Xing'er. After the meeting is over, my grandfather and Big Sis Lingyan will be joining us too, so I'm sure we'll all be safe."

After that, Tang Xiao took turns dual cultivating with Tang Yin and Xing Xing while waiting for the day to lighten outside.

.  
. .  
.

When the time came, Tang Xiao immediately exited the ark and went to the Yi House to escort Yi An and Ouyang Qing to the airport. "Is everything ready?"
