Chapter 301: Tang Xiao's Decision

"Do you think we can survive in that realm, Yin'er?"

"The level of cultivators in the Canglan Realm is similar to that on Earth, and the strongest there have a maximum cultivation of the Lower Saint Realm. That's why I think we won't have any trouble adapting to the situation in the realm, and we won't face too powerful enemies."

Mu Qingge nodded in understanding. "In the past, no cultivators ever considered the existence of other realms, and few of them could reach the level of Long Yin and Wang Fuxi, so they died from exhaustion of their lifespan. Moreover, the world is constantly changing, and fewer and fewer cultivators can reach their level."

"Hehe," Tang Yin laughed. "Even if they consider the existence of other realms, they don't have any means of transportation that can take them that far. Right now, people in the outside world are racing to go to the moon, but they haven't been able to make that happen, let alone go to other realms. Theoretically, a trip to the Canglan Realm only takes two to three months, but that's only because we have the Primordial Divine Ark, and we will end up the same as the cultivators before us without it."

Mu Qingge didn't know much about the outside world because she had always lived on Earth II, so she didn't know anything.

On the other hand, Sun Xiang, who lived in the outside world, knew a lot about it. "What are Tang Xiao's plans after he takes revenge on the Long and Wang Clans?"

"If Xiao'er has successfully taken revenge on them, it means that his cultivation has already reached the Saint Realm. I think he won't spend any more time in the Lower Realm, and he will take us to one of the planets in the Middle Realm." Tang Yin's answer made Mu Qingge and Sun Xiang imagine their future, and they looked impatient for it. "For now, we don't need to think about things that are still far in the future, and we should train seriously in this forest so we'll be ready if he wants to take us to the Canglan Realm."

****Thud****

They turned to Tang Huang, who had just arrived at their location. He looked at the beast corpses scattered in the surrounding area and nodded in satisfaction with that. "Are you guys resting?"

"Yes, Grandpa," Tang Yin immediately informed him. "Xiao Meng, Xiao Ming, and Xiao Hua have already returned to the Xiao Clan. Xiao Luo will marry his two grandchildren early tomorrow morning, but he's still unaware that his grandson is already on our side, and he'll carry out Xiao'er's plans tonight."

"I think that's excellent, so we don't have to deal with Xiao Luo. His grandson will do everything for us, so the Xie Clan won't suspect us." Tang Huang told them about the results of the senior cultivators' meeting, including Wang Fuxi's decision to send two senior cultivators from her Wang Clan to protect the Sun Clan, which relieved Sun Xiang. "Long Xianyin will likely still be staying in this region, and Xiao'er can do something to her later, but he must be extremely cautious if he wants to act on her. She may not be as strong as Long Yin, but her brother will make a move if something happens to her, and he will be in danger if that happens."

"Why are you now supporting Tang Xiao in doing something to Long Xianyin, Uncle Huang?"

"Did that woman say something that offended you, Grandpa Huang?"

Tang Huang sighed softly and told them Long Xianyin's earlier words. "That's why I support Xiao'er's plan to use her against her brother, but he can't be careless in approaching her because she's no less powerful than Long Yin, and her cultivation is at the Peak Tyrant Level."

"Eh? Has Long Xianyin really reached that stage now?"

"I'm surprised by that too, Qingge." Tang Huang sighed again. "This way, the Long Clan has two powerful cultivators to protect their clan, and their clan members aren't weak either. If Xiao'er acts rashly and arouses that woman's suspicion, she will cripple his cultivation or even kill him."

"Is Long Xianyin really that vicious, Grandpa Huang?"

Tang Huang looked at Sun Xiang. "Xiang'er, you don't know Long Xianyin, but your grandfather and I are quite familiar with her character. Her expression was always that of a patient and calm woman, but she was truly vicious. In the past, a man tried to do something bad to her, and she immediately killed him without mercy. She not only killed him, but she also hung his corpse in a public place as a warning to other men, so Xiao'er must be fully careful of her."

"Have you warned Xiao'er about Long Xianyin, Grandpa?"

"I've already told Xiao'er about that woman, so it's up to him now."

"Don't worry, Grandpa. Xiao'er fully understands the difference in their strength, so he won't act rashly in taking action against Long Xianyin." Tang Yin looked away. "Since

we've had enough rest, we should continue our training now, and we'll meet with the others tonight."

"Let's go." Tang Huang led the three women to another area.

.
. .
.

In the northern region, Tang Xiao's clone had just finished killing several ice beasts, and he sent their corpses into the ark, asking Xiao Ai to process them.

"Phew! I've been fighting these ice beasts since I arrived in this region, so I think I'll take a break first." Xiao Ai suddenly brought up the map, as she knew Tang Xiao's clone's thoughts. "Hmm? Shen Ling is still training with Miao Xianyun in that forest, eh?"

[Hehe! Shen Ling seems to be training hard to face your Tang Clan in the future, Master. Unfortunately, she'll never be able to catch up to you or reach your level, especially if you decide to go to the Canglan Realm. With the quality and quantity of qi in that realm three times better than Earth's, she'll be left far behind you.]

Tang Xiao's clone actually didn't think much of Shen Ling because she hadn't done anything yet, but he was still wary of her intentions to take revenge for the deaths of her parents and brother. "Speaking of the Canglan Realm, do you have detailed information about it?"

[Unfortunately, I don't have much information about it, Master. The Canglan Realm is located in the Lower Realm, and my old master has only visited it once in the past without meeting any cultivators there. As I said before, the cultivation of cultivators in that realm is not much different from that of those on Earth, so you don't need to think too much about the people in the realm, and you'll be safe as long as you don't act conspicuously.]

"In your opinion, should I bring all of them to that realm?"

[Master, if you don't want to waste your time, you should take them to the Canglan Realm. Earth II is indeed large, but it can't compare to that realm, and you'll meet far more experienced cultivators there, so you can improve your abilities more quickly. However, that realm is much more dangerous than Earth II, and you will meet many cultivators who are much more evil than the Xie Clan there.]

His cultivation was still low, but Tang Xiao's clone wasn't afraid of encountering those cultivators in the Canglan Realm, and he was ready to take any risks as long as he could become stronger faster. However, he still thought about the people around him,

especially his family and women. After careful consideration, he made his decision immediately. "Xiao Ai, prepare for our departure starting now, and we'll leave for that realm in a month or two."

[Yes, Master.] Tang Xiao's clone didn't know that Xiao Ai was overjoyed by his decision to go to the Changlan Realm.

.
. .
.

Tang Xiao's clone was already in front of the small town he saw when he first arrived in the northern region, but he only saw a few people there.

"Brother Feng." Tang Xiao's clone turned to Bing Wen and Bing Qing, who had just returned from hunting. "Have you finished your training?"

"I've been training for almost two full days, so I'd like to rest first. Is there an inn in this town?"

Bing Wen shook his head. "Brother Feng, our town is only a small town, and not many cultivators come here. Moreover, we are a hunting clan, so there are no inns here. If you want to stay here, you can stay at our house, and we will be happy to welcome you."

"Brother Feng, I have many questions for you, so I hope you are willing to stay at our house." Bing Qing spoke to him.

"Won't my presence bother your parents?"

"They will accept you with open arms, Brother Feng."

Since there were no other towns in the area, Tang Xiao's clone chose to accept the Bing Siblings' offer, and they immediately led him to their house.

"Oh? Is he the man named Feng Xiao that you two were talking about yesterday?" Yun Yuerou asked in surprise.

"Yes, Mother. He is Brother Feng Xiao." Bing Qing turned to him. "She is our mother, Yun Yuerou. As for my father, he is going to another region to sell our hunt, and he will be back tomorrow."

Tang Xiao's clone nodded in understanding. "Aunt Yuerou, please forgive me for my sudden arrival, and I hope my presence will not cause you any trouble."

"Hehehe," Yun Yuerou laughed softly. "We rarely have guests, so I'm glad to have you. Please come in and treat our simple house as your own."

Chapter 302: The Beginning of the Fall

Tang Xiao's clone sat in front of the small house and thought about several things, one of which was Feng Yao's actions last night.

"Brother Feng," Tang Xiao's clone looked at Bing Qing. "Can you tell me how you train, especially how you train your speed? Your cultivation is still at the Peak Xiantian level, but I believe you're faster than other cultivators several levels above you."

"I didn't train my speed specifically, and I used a speed technique to increase my speed."

"Really?"

"I'll show you." Tang Xiao's clone stood up from his seat and moved around using his gale steps, making it impossible for Bing Qing's eyes to keep up with his speed. "Can you see my movements?"

"I can't follow your movements, Brother Feng. What's the name of your technique?"

"The gales step, but you must have the wind element to use it."

"Eh?" Bing Qing looked at him with repeated blinks. "Does that mean you have two elements? When you saved me and my brother yesterday, you used a powerful lightning technique, but you said that you also have the wind element."

Tang Xiao's clone opened his palms. A small green vortex of wind appeared in his left palm, and a flash of lightning appeared in his right palm. "Lightning and wind elements."

"Wow!" Bing Qing exclaimed as she bent forward, looking at the two elements in both of her hands. "Even though the wind element is often associated with speed, some wind techniques can also perform deadly area attacks. The lightning element has powerful destructive power, and it can be used in single or area attacks."

"You're right." Tang Xiao's clone combined his lightning and wind elements before throwing them forward, forming a small wind and lightning attack. "Wind and lightning elements can also be combined into one, and it will produce an even more deadly area attack."

Bing Qing nodded at him. "I think the wind element is the most universal, and it can be combined with many elements such as fire, ice, and others."

"That's true." Tang Xiao's clone used his wind element again. "Try using your ice element and combining it with my wind element."

"But—"

"Don't worry and use it."

Bing Qing stretched out her hand closer to Tang Xiao's clone's hand, used her ice element, and combined it with his wind element.

"Now throw it together."

"Okay." A small ice storm immediately formed in front of them after they threw their ice and wind elements. "Wow! A small ice storm!"

"You're not yet skilled at controlling your ice element." Bing Qing pursed her lips and nodded to Tang Xiao's clone. "If I don't control my wind element, the ice storm that appears will grow larger and uncontrollable. You must learn to control your ice element, or you will easily run out of qi, and it will be dangerous for you when you go hunting beasts. Additionally, you cannot rely on your cultivation and ice element all the time, but you must also train to improve your fighting ability."

Bing Qing let out a soft sigh. "My parents aren't skilled cultivators, and I don't have a master, so my brother and I have to practice on our own. Do you also practice martial arts, Brother Feng?"

"I've been practicing martial arts since I was five." Tang Xiao's clone touched her forehead and imparted some thoughts into her mind.

Bing Qing was stunned as a technique appeared in her mind. "The Ice Spirit Technique."

"I got it from my late master's collection, but I don't have the ice element, so I gave it to you." Bing Qing was excited to get the technique. "You can learn the Basic Fighting Technique to improve your fighting skills."

Bing Qing bowed once to him. "Thank you, Big Brother Feng! Can I share both techniques with my brother?"

"Yes." Tang Xiao's clone nodded at her. "You and your brother can study both now, and I'll go rest."

"Thank you again, Brother Feng." Bing Qing immediately went to see her brother.

Tang Xiao's clone smiled, seeing Bing Qing so happy about getting both techniques.

[Do you like Bing Qing, Master?]

"Bing Qing is kind and innocent, but I'm not interested in her. I only want to help her and her brother, but the results depend on their persistence." Tang Xiao's clone entered the house and began cultivating while taking a rest.

.
. .
.

Bing Wen was shocked after Bing Qing shared the Ice Spirit Technique with him because it was no ordinary technique, and he was certain they could become even stronger if they could master it. "Did Brother Feng really give you that technique?"

"Yes," Bing Qing told her brother about her conversation with Tang Xiao's clone just now, including his lightning and wind elements. "Initially, I asked Brother Feng to teach me to train my speed, but it turned out he used his wind element to move so fast. Instead, he gave me the Ice Spirit Technique and the Basic Fighting Technique, and he asked me to share both of them with you."

"Where is Brother Feng now?"

"Brother Feng is resting, so don't disturb him, Brother."

Bing Wen nodded slightly. "Qing, the Ice Spirit Technique is no ordinary technique, and I think it's much better than the Xue Clan's technique. Therefore, you must not tell anyone about it, including our parents and Big Sis Xue Jing, or you will bring trouble to Brother Feng. Do you understand?"

"I understand, Brother."

"Good." Bing Wen pulled his sister to sit next to him. "Let's learn the technique first, and I will thank Brother Feng tomorrow."

"Yeah."

.
. .
.

"Do you still want to fight those beasts, Ling'er? Don't you have any business in the outside world?"

Shen Ling shook her head at Miao Xianyun. "I have no family or work in the outside world, and I want to improve my fighting skills so I can face the people of the Tang Clan in the future."

'Sigh! This girl is really stubborn.' Miao Xianyun couldn't help but mutter in his heart. "Since it's getting dark, we have to go back to my clan first, and we will continue your training tomorrow."

"Did Feng Xiao contact you, Brother Xianyun?"

"Do you miss Feng Xiao?" Shen Ling didn't answer Miao Xianyun's question. "He must be busy training under the snow mountain since he hasn't contacted me since yesterday."

"Oh." Shen Ling nodded slightly. "Can you take me there?"

"I can't." Shen Ling looked disappointed. "The beasts there are much stronger than here, and I won't be able to protect you if you train there. If you want to go there, you have to defeat the strong beasts here first. Moreover, that area is close to where the Xue Clan resides, and that clan is a female-only clan, so I don't want to look for trouble with them by going there."

"A female-only clan?" Shen Ling was surprised to hear that.

"I don't understand why the Xue Clan has only female cultivators, and I don't want to know either. The leaders of the clan are Senior Xue Jing and Senior Xue Lan, and both of them are some of the top female cultivators on Earth II." Shen Ling looked at the snow mountain and thought about going there. "Let's go back now so you can rest first before going to practice tomorrow."

"Yes."

.

.

.

"Xiao Hua?" Qing Cheng was surprised when the old woman entered her room. "When did you come back? Did you come back with my daughter?"

"They're going to marry your daughter to Xiao Ming early tomorrow morning." Qing Cheng frowned and looked angry after Xiao Hua said that. "There's no point in getting angry like this, and you just have to play along with their game."

"What do you mean by that? Is my daughter in her room right now?"

"Your daughter is in her room, but you can't go see her now. For now, you should pretend to be unaware of this matter, and you must avoid drinking the water from this clan." Xiao Hua took out some drinking water from her storage ring and handed it to Qing Cheng. "If you're thirsty, you can drink it, and you must not speak to anyone in this clan."

"What actually happened in this clan?"

"It would be better if you didn't know anything, and you should wait until their wedding is over. Even if they get married, Xiao Meng will never truly be Xiao Ming's wife, and both of your lives will change after that."

After Xiao Hua left, Qing Cheng put away all the drinking water and walked to the window. "What exactly is happening in this clan? Why do I believe there's something different about Xiao Hua's behavior? She usually follows my father-in-law's orders, but she seems to have other plans in mind, and her plans have something to do with their wedding."

Qing Cheng tried to contact her daughter, but Xiao Meng couldn't answer her because Xiao Han had sealed her cultivation. "Meng'er, I hope you'll be okay."

.
. .
.

At the drinking water source of the Xiao Clan, Xiao Hua looked at their surroundings before giving a signal to Xiao Ming, who hurriedly appeared, crushed the two pills that Tang Xiao gave him into powder, and mixed them into the drinking water source.

After that, Xiao Ming hurriedly returned to his room, and Xiao Hua went to Xiao Meng's room, informing her about the situation.

Xiao Meng felt relieved and couldn't wait for tomorrow. "Even though you guys are my family, you always treat me and my mother unfairly, but you'll get your comeuppance tomorrow."

Chapter 303: Yi An - Meng Xin

Late at night, Xiao Luo, who was in the study room, was surprised by the appearance of Xie Jun and several members of the Xie Clan. "Is that true?"

"Yes." Xiao Luo poured tea for them. "It looks like we'll have a hard time moving against the Sun Clan."

"Why?" Xie Jun pondered after listening to Xiao Luo's explanation. "I didn't expect Wang Fuxi to return, and she ordered two of her clan members to protect the Sun Clan. Moreover, the Long, Feng, Liu, and Huang Clan people are currently in this town, so we can't move carelessly, or we will die in their hands."

Xiao Luo concurred with Xie Jun because their enemies were too numerous and strong, and they would die in vain if they fought the people from those clans. "My granddaughter and Xiao Hua returned this afternoon, and I will hold my two grandchildren's wedding early tomorrow morning."

"Did Xiao Hua fail to capture Tang Xiao and Tang Yin?"

"Wang Fuxi and her subordinates were protecting them, so Xiao Hua didn't dare make a move against them. However, Tang Yin is currently on Earth II, and she previously visited the Sun Clan with Tang Huang and Tantai Lingyan, but her whereabouts are currently unknown." Xie Jun frowned at Xiao Luo. "As for Tang Xiao, he might still be in the outside world, but she doesn't know his whereabouts. That kid has an excellent disguise technique, and no one knows his hiding location."

Xie Jun reported the matter to Xie Shun. "My brother asked us not to bother with Tang Yin and the Tang Clan, and he wants us to focus on the Sun Clan. However, we must assess the situation first, and we will act after the people from the Wang Clan leave that clan."

"Yes." Xiao Luo called someone and asked them to escort Xie Jun and the others to the guest rooms.

.

.

.

After a long journey, Tang Xiao and his group finally arrived at the location of Tang Yin and the others.

"Hehe," Tang Yin jumped up, hugged her little brother, and kissed him. "I thought you guys would arrive tomorrow morning, Xiao'er."

Tang Xiao smiled at her. "At first, I wanted them to practice somewhere else, but I changed my mind after you told me that Xiao Meng is getting married tomorrow morning, so we headed straight here. Has Xiao Ming moved yet?"

"Yes," Tang Yin informed him of the situation in the Xiao Clan. "Coincidentally, Xie Jun and some members of the Xie Clan have just arrived there, so the two pills you gave Xiao Ming will affect them."

"Oh?" Tang Xiao quickly thought of another plan, especially for the Xie Clan members. "I'll go to the Xiao Clan to check now."

"Wait," Tang Huang shouted at him. "Do you seriously want to go to the Xiao Clan with Xie Jun and the others there?"

Tang Xiao looked at his grandfather. "Don't worry, Grandpa. Even though Xie Jun and the others are strong, they won't be able to detect my presence as long as I'm inside the void, so I'll be safe there."

"Are you sure about that?"

"Yes." Tang Xiao then entered the void and used his Void Dragon Steps to head to the Xiao Clan.

Mu Lin grabbed Tang Huang's shoulder. "I know you're worried about Xiao'er, but he's not a careless person, and I'm sure that he'll be fine."

"I hope you're right." Tang Huang looked at Xing Xing and the others. "You guys should rest now, and we will start your hard training tomorrow morning."

"Yes." Tang Yin, Xing Xing, Chu Lingxi, Jessica, Zhao Yuxian, and Yu Xiaoling looked for a place to rest.

The winged snow leopard was also exhausted after flying all day, and she curled up on the ground before falling asleep.

Tang Huang, Mu Lin, Feng Yao, and Tang Yuan stood guard in the surrounding area to protect them from wild beasts that might attack them.

Mu Yan went to Mu Qingge's side and sat leaning against her. "How long will we stay in this forest, Mother?"

"A month or more depends on Tang Xiao." Mu Qingge embraced her daughter. "Do you want to return to our Mu Clan and meet your friends?"

Mu Yan shook her head slightly. "I don't want to meet them because they'll invite me to play, and I'll stay here with you all to train. Although it's not certain yet, Big Brother

plans to take us to the Canglan Realm one day, so I have to focus on strengthening myself because I don't want to be a burden to anyone."

"I see." Mu Qingge nodded with a smile. "I'm happy if you continue to focus on your cultivation and practice, and I'm sure you will surpass me one day because you are a smart girl."

"Hehe," Mu Yan giggled and hugged her mother. "Mother, I'm exhausted after flying all day without resting, so I'm going to sleep now."

"Sleep then."

.
. .
.

Tang Xiao was already inside the Xiao Clan, and he sneaked into Xie Jun's room, thinking of a plan against him.

[Master, Xue Jun is too strong for you as he is now, so you shouldn't risk appearing before him. You're faster than him, but he can restrict your movements with his aura, and you'll fall into his hands if you're too late to escape. Moreover, Xiao Ming has mixed both pills into the clan's drinking water source, and he will definitely be affected by them tomorrow, so you can make your move then.]

Tang Xiao was aware of this, so he avoided appearing in front of Xie Jun and observed him from within the void. "How strong are the people from the Xie Clan he brought here?"

[Xie Jun is the strongest among them, and the weakest among them has a cultivation of the Peak Emperor Level, Master.]

"The Peak Emperor Level, huh?" Tang Xiao nodded in understanding and immediately left Xie Jun's room, but he didn't leave the Xiao Clan and went to check on Qing Cheng, finding her restless in her room.

Tang Xiao didn't stay there long and left the Xiao Clan to return to the forest, but he didn't rest and went to look for stronger wild beasts.

.
. .
.

On the other side of the world, Yi An and Ouyang Qing had just stepped out of the airport arrivals hall. "Has Aunt Meng Xin arrived here yet, Mother?"

"Meng Xin arrived two days ago, and she's waiting for us at the hotel, so we're going there to meet her." After Yi An sent a message to Tang Xiao, she and Ouyang Qing left the airport by taxi.

Some time later, they arrived at the hotel, and Meng Xin was waiting for them there. "Haha! I missed you, Yi An!"

"You're really crazy, you know? You've been on vacation for over a month, and you're still not satisfied," Yi An said, shaking her head.

"Hehe," Meng Xin helped them unload their suitcases. "I was planning to go home, but you suddenly called me and told me you were going on vacation here, so I postponed my return, and I'll go back there with you guys. By the way, you don't need to rent a room because my friend has prepared a room for the three of us, so we'll be staying together for the next month."

"Who's your friend?"

"Dong Xinyue"

"Eh?" Yi An was taken aback. "Isn't she Dong Wutian's sister?"

Meng Xin nodded at her. "In fact, Dong Wutian and Gong Qingyan are on a flight here, and they will be here in a few hours. They will be staying at this hotel, so we will meet them later."

Yi An was actually lazy about meeting Gong Qingyan because she was having an affair with Ouyang Hong, but she didn't think about that anymore because she was in the process of divorcing him. "Let's go to the room now because I want to rest first, and Qing'er is also suffering from airsickness after the long flight."

"Alright."

After they arrived at the room, Ouyang Qing immediately went to one of the bedrooms to rest, causing Yi An and Meng Xin to shake their heads.

"Hey! What finally gave you the courage to divorce Ouyang Hong?" Meng Xin asked this question after she and Yi An had entered the other bedroom.

Yi An was confused about answering Meng Xin, as she was embarrassed to tell him about her relationship with Tang Xiao. "I won't answer you now, but I will tell you after we return to our country."

"Hmm?" Meng Xin squinted her eyes. "Have you found a replacement man so much better that you dare to divorce Ouyang Hong?"

Yi An shook her head and pulled Meng Xin to lie down on the bed. "I said I'd tell you when we got back to our country, but I'm more interested in you since we haven't seen each other in so long."

"My feelings are calm and peaceful now, so I'm ready to move forward in my life." Meng Xin smiled as she remembered Tang Xiao. "I've been thinking about many things since I left for vacation, and I think I've found the right man to start my new life with."

"Who is that man?" Yi An asked, pretending not to know, but she was sure that the man Meng Xin was referring to was Tang Xiao.

"Hahaha," Meng Xin laughed. "Since you won't tell me the reason behind your decision to divorce Ouyang Hong, I won't tell you the man's identity either, and you'll find out after we return to our country."

Chapter 304: Four People Talks

In the forest, Tang Xiao faced several large wild beasts with Lower King-level cultivation. They looked very ferocious, but none of them could get close to him because he created a barrier using his void element.

Tang Xiao faced all the beasts with a sword made of his void element, not the one from his necklace. In a few seconds, he had killed them all and immediately looked for their beast cores. "Sometimes I feel like using my void element is cheating, but I must continue to hone it in preparation for going to the Canglan Realm."

[Your void element is your secret weapon, Master. There are almost no cultivators or beasts who possess knowledge of the void element in the lower realm, and even if there are, their numbers are very small. However, the story is different if you go to the middle, upper, or supreme realms. You will encounter quite a few cultivators with the void element, even though their numbers are less than 10% of cultivators with other elements.]

"Has your old master truly never met any void cultivators in the lower realm, Xiao Ai?"

[My old master has traveled all the realms, and he has never encountered a single void cultivator in the lower realm, but he has met many space cultivators. For ordinary cultivators, the space element is truly powerful, but they can't do anything against cultivators who possess the void element. However, you still need to increase the rank of your void element, or you'll run into trouble if you encounter a body cultivator with high physical strength, especially if they have knowledge of the void element.]

Tang Xiao went to another area to look for other wild beasts. "Do you think this universe has changed? After all, your master returned from the future, and his choices must have an impact on this era, right?"

[You're right, Master. My old master's master warned him repeatedly before he decided to return to the past that his actions would have serious consequences, but I don't know the extent of the impact on this era, and we will find out the answer in the future.]

"In that case, there's a possibility of many void cultivators being born in the lower realm after your old master returned to this era, right?"

[That's possible, Master. However, I'm sure you're the only cultivator on Earth who possesses the void element, so you don't need to worry about that. By the way, Yi An sent you a message and told you that she and Ouyang Qing have arrived in Paris, and they've gathered with Meng Xin at the hotel.]

"I want you to protect them, Xiao Ai. If they encounter any problems there, you can immediately take necessary action."

[Yes, Master.]

Afterward, Tang Xiao continued his training in the forest, battling wild beasts above his level. He used not only his void element but also his other elements, such as fire, lightning, and metal.

.
. .
.

After resting for a few hours, Yi An prepared to go out to eat with Meng Xin, but Ouyang Qing was too drunk and slept soundly like a dead pig.

"Dong Wutian and Gong Qingyan arrived while you were resting, and they're waiting for us at the restaurant now." Yi An looked at Meng Xin with a raised eyebrow. "Dong Xinyue is on her way here, and she will take us to an interesting place."

"Where?"

"She hasn't told me about that."

"Let's go then; I'm really hungry, so I want to eat first."

.

A while later, they arrived at the restaurant, and Dong Wutian waved at them. Gong Qingyan, who was sitting beside her husband, felt anxious and awkward because of Yi An's presence.

Since their encounter that day, Yi An and Gong Qingyan hadn't communicated with each other again, even though they were once close friends for years.

Yi An and Meng Xin immediately sat down with them, ordering several dishes directly.

"Ouyang Hong called me a few days ago." Gong Qingyan was shocked to hear that from Dong Wutian, and she glanced at Yi An, but she didn't pay attention to her and looked at her husband. "I didn't expect you to dare to divorce him, and he asked for my help in persuading the court to dismiss your divorce suit."

Yi An glanced at Gong Qingyan before answering Dong Wutian. "I couldn't stand it anymore because he was cheating on me with many women, so I decided to divorce him. Do you agree with his request?"

"No," Dong Wutian answered with a shake of his head. "I rejected his request because I would rather not interfere in your household affairs, and I asked him to ask others for help. However, everyone refused to help him, including Huang Xiaotian. I don't understand why he refused to help him, especially since they've been working together for so many years."

Yi An sighed inwardly with relief after hearing Huang Xiaotian reject Ouyang Hong's request. "I was relieved to hear that because I was fed up with all his affairs, and I wanted to be free again so I could be myself."

"Yes," Dong Wutian nodded slightly. "Moreover, the situation in our country is chaotic right now, especially after what happened with the Ran, Yang, Meng, and Yao families. The most recent incident was the deaths of Shen Tianhu and Yang Mi, but we are not sure if they died of natural causes, and we suspect that someone killed them."

"I still find it hard to believe that Yao Wenhua and Meng Huo would have such a relationship, and they killed my brother after he found out about their affair." Meng Xin spoke with a sad expression.

Dong Wutian looked at her. "Do you really believe that Yao Wenhua and Meng Huo had such a relationship?"

"They have admitted everything in court, right? So, what do I have to doubt about that matter?" Dong Wutian did not refute Meng Xin, but he still felt that there was something

strange about Yao Wenhua and Meng Huo's relationship. "Meng Huo is my nephew, but he and his mother were proven to have killed my brother, so I don't feel sad about losing him."

"What are you and the other families going to do?"

"Nan Yueqin and I won't do anything, but I don't know about Bei Linyang and Xi Mingjian. Additionally, Huang Xiaoming doesn't seem like he'll do anything about the incident either, especially after he refused Ouyang Hong's request." Yi An and Meng Xin were a little surprised by that. "What are your plans after divorcing your husband?"

Yi An shook her head at him. "For now, I haven't thought about my future, and I'll stay here for a while to clear my head. After I've put everything behind me, I'll return to our country and start a new life with my daughter."

"What about your son?"

"My son is as depraved as my husband, and I caught them having a threesome with Su Rou before I decided to divorce him."

Dong Wutian didn't show the slightest surprise upon hearing that, but Gong Qingyan looked shocked by the truth. She knew Ouyang Hong had flirted with many women, but she didn't expect him to bring his son into that kind of life, let alone that Su Rou was Yi An's former personal assistant. 'That guy's completely crazy! I'm never going to see him again after this.'

Yi An glanced at Gong Qingyan again, thinking about her sex video with Ouyang Hong that she had used as evidence in their divorce trial. She wanted to ask her lawyer to withdraw the evidence, but she decided against it.

"Okay! Let's stop talking about all the unhappy things; we came to this country to vacation and have fun." The three agreed with Meng Xin and talked about lighter matters until their food arrived.

After their dinner was over, Dong Wutian and Gong Qingyan immediately went to their rooms to rest. Meanwhile, Yi An and Meng Xin went with Dong Xinyue, who took them to a place with beautiful scenery in the city.

After hunting wild beasts for a while, Tang Xiao returned to their camping area to rest, but he shuddered when his eyes met Feng Yao's. 'Tch! She always looks calm and cheerful, but I didn't expect her to have such a psychopathic side!'

Tang Xiao ignored Feng Yao and went to the side of Tang Yin and Xing Xing, who were already fast asleep side by side. He sat between them, hugged them, and tried to rest.

Feng Yao looked at Tang Xiao with a faint smile, but no one knew what she was thinking.

Early in the morning, the Xiao Clan was already busy with Xiao Meng and Xiao Ming's wedding, which was also attended by Xie Jun and the people from the Xie Clan. Unfortunately, they still didn't realize that their wedding would be the beginning of their downfall, and it would be too late by the time they realized it.

The wedding ceremony didn't last long, and Xiao Han ordered his two sons to go to their bridal chambers to enjoy their wedding after everything was over. The members of the Xiao Clan and the Xie Clan celebrated the day with various foods and drinks, unaware that they had fallen into a trap.

In her room, Xiao Meng immediately changed into her regular clothes and removed all her makeup. She thought about going to see her mother, but Qing Cheng had already entered her room, and she immediately hugged her. "Mother! I missed you so much!"

Chapter 305: Start Their Seclusion

"I missed you, Meng'er." Qing Chen hugged her daughter and looked at Xiao Ming. "Did something happen to him?"

"You're not wrong about him, Mother." Xiao Meng pulled her mother to a chair. "Someone has done something to him and Xiao Hua, but I can't tell you the person's identity for now because that person doesn't want anyone to know. After today, I'll take you away from here, and we'll go somewhere far away to avoid their pursuit."

"Someone?"

"Please don't ask anything about that person's identity because I can't tell you about it, and we'll leave this clan early tomorrow morning."

Qing Cheng held her daughter's hand tightly. "Where are we going? Your grandfather and father will hunt us down if we escape from this clan, and they will punish us severely. I don't have a problem if they want to punish me or kill me, but I don't want anything bad to happen to you."

"Mother, you don't know about this matter yet, but my grandfather is a lackey of the Xie Clan. He wants to get rid of Grandpa Sun and take over the Sun Clan, not for his own interests, but because of the orders of those heretic cultivators." Qing Cheng froze, and her eyes widened in shock. She knew that Xiao Luo wanted to take over the Sun Clan, but she never knew that he had any ties to that heretic clan. "You may not believe me, but that is the truth, and he assigned me to approach Sun Xiang because of his connection to the heretic clan."

Qing Chen rubbed her daughter's cheek. "Why did you never tell me about any of this? Why did you keep everything to yourself?"

"I was afraid they would kill you if I told you anything." Xiao Meng pressed her mother's hand on her cheek. "However, everything will end today, and we will both live safely after this. We will both go to the outside world, and I will take you to a faraway and isolated place so they won't be able to find us. We will start our new lives there, and we will never return to this place again."

"Alright, I will go with you, and the two of us will live in the outside world together." Qing Chen looked at Xiao Ming again. "What exactly does that person plan to do to your grandfather and the others?"

Xiao Meng shook her head. "I don't have any information about that person's plans for them, but Xiao Ming has mixed two types of pills into this clan's drinking water source. I don't know when they will take effect, but it's our signal to leave this clan, so you should prepare now. After their effect works, we will immediately leave this clan and go to the outside world to hide from them."

"Alright, I will go back to my room and pack my things, and we will leave this clan according to your signal."

Xiao Meng sighed in relief after her mother left, and she walked towards the window, listening to the laughter of the people, who had not yet realized that they had fallen into a trap. "You guys can enjoy yourselves now, but soon all of you will suffer, and I'll take my mother away from this cursed clan."

.

.

In the forest, all the women were ready to train, and they looked eager for it, especially Xiao Bai, who couldn't wait to hunt those wild beasts. Tang Xiao asked Tang Huang and the senior cultivators to train Yu Xiaoling and the others, but he forbade them from helping the women unless they were in real danger.

Thereafter, Tang Xiao took Tang Yin, Xing Xing, and Sun Xiang with him. He asked Xiao Bai to go hunting alone like before, but he forbade her from going too deep into the forest.

Mu Qingge went with Mu Yan and accompanied her daughter to practice.

Mu Lin accompanied Chu Lingxi.

Tang Huang took Yu Xiaoling and Zhao Yuxian away to train them.

Feng Yao chose to train Jessica, so Tang Yuan trained the last person, Zhao Qing.

.

.

.

Tang Xiao brought Tang Yin, Xing Xing, and Sun Xiang to the location of the wild beasts with cultivation in the Xiantian Realm. He used his void element to keep the stronger wild beasts away from their location, allowing the three women to train safely there.

"Does this mean you'll be training here with us, Xiao'er?"

"For now, I want to see the results of your three trainings, especially yours, Xing'er."
Tang Xiao looked at Sun Xiang. "I don't doubt Yin'er's ability and courage in killing those wild beasts, so I won't say anything to her. You have cultivated and trained longer than them, but you still lack the courage to kill those beasts. The world of cultivation is not as peaceful as you think, and the situation in other realms is worse than on Earth II. Therefore, I want you to change your mindset, and I want you to kill as many of them as you can daily; otherwise, you won't be able to face the situation when I take you to another realm later."

Sun Xiang sighed softly and nodded at him. "Does this mean you have decided to go to the Canglan Realm?"

"Yes," the three women were surprised by that. "I've been thinking about it since yesterday, and I've decided to leave for the Canglan Realm in the next month or two. At first, I thought about taking revenge on Long Yin and Wang Fuxi first, but I believed that it would take me too long to reach their level. Thus, I decided to go to that realm earlier than I originally planned, and we'll cultivate there until I reach their level. After that, I'll come back here to settle accounts with them, and we'll go straight to the middle or upper realm."

"Eh? Are you serious about going straight to the middle or upper realm after that?" Xing Xing asked.

Tang Xiao nodded at her. "When that day comes, our cultivation will definitely have reached the Peak Tyrant Level or even the Lower Saint Level, so we can't continue to stay in the lower realms. If we don't go to the middle or upper realms, our progress will be hampered. That matter is still far in the future, so I won't think about it for now, and we will focus on our seclusion within this forest."

"We'll be leaving in a month or two, right?"

"Yes,"

Tang Yin nodded slightly. "Alright! Let's not talk about that for now, and we'll focus fully on our training. After we finish our seclusion, I'll return to the outside world to take care of some matters."

After that, Tang Yin, Xing Xing, and Sun Xiang spread out in three different directions to fight wild beasts that matched their cultivation levels.

Meanwhile, Tang Xiao jumped onto a large tree and sat on its branch, watching the three women fight the wild beasts. He didn't doubt Tang Yin's determination to kill them, and Sun Xiang was also quite experienced in dealing with them, but he was still worried about Xing Xing.

[Master, Xiao Luo and the others will soon be affected by the effects of the two pills, so you can go to the Xiao Clan later, and you can bring them into the ark.]

"After this, the Xiao Clan will be under our control, so I don't need to worry about them anymore. However, Xie Jun is too strong, and he might be able to withstand the effects of the two pills for longer, so I need someone's help to capture him."

[Feng Xiaofang and the others are at the Sun Clan right now, so I think you can ask him for help in capturing Xie Jun. However, you two must do it quickly, so he won't have time to contact Xie Shun. If that man finds out about this matter, he might come personally to attack the clan.]

"Yeah."

.

.

.

"Brother Feng! Are you going to train now?"

Tang Xiao's clone nodded to Bing Qing. "I'm going into the forest now, and I won't be coming out for the next two months. You and your brothers must study and practice that technique diligently, and I'm sure you two will become powerful cultivators in the future. By the way, please tell your mother that I'm going into the forest, and I might visit you again after I'm done with my seclusion."

"Please be careful, Brother Feng." Tang Xiao's clone nodded to Bing Qing and immediately disappeared from her sight. "Sigh! I must not disappoint him, and I must train harder and become a powerful cultivator."

"Has Brother Feng left yet, Qing?"

Bing Qing turned to her brother. "You woke up late, so you didn't get to see Brother Feng. He's gone into the forest, and he won't be leaving for another two months."

"Sigh." Bing Wen let out a disappointed sigh because of that. "I didn't have an opportunity to thank Brother Feng."

"Hehe," Bing Qing laughed. "If you want to thank Brother Feng, you should train harder and become a great cultivator."

Bing Wen nodded at her. "We will go straight to the forest after our mother returns, and we will train hard there every day."

"Yeah."

.

.

.

In the Sun Clan, Sun Qian was sitting with two other men. "Old Huang just contacted me and told me that Xiao'er has arrived in the forest, so I think we should go after them now."

"Let's go!" Feng Xiaofeng and Zhang Fei were excited for it.

Chapter 306: Meet Three Seniors

After he observed the three women for a while, Tang Xiao jumped down from the tree and went to an area not far from them, but a huge black bear with a cultivation in the Lower King Realm suddenly blocked his way.

Since the black bear had the earth element, Tang Xiao hurriedly created a fire sword and struck it first. With his fire element having reached level five, coupled with the passive effect of his Celestial Body Technique, making his attacks several times stronger.

With a single slash, Tang Xiao's attack wounded the bear beast's chest, and blood flowed profusely from the wound. He used the Gale Steps, moved quickly behind the beast, and beheaded it.

After examining the bear's head and being unable to find a beast core, Tang Xiao continued to another area and searched for wild beasts equal to or stronger than the black bear.

[Master, Feng Xiaofang, Zhang Fei, and Sun Qian are on their way to another forest.] Tang Xiao was a little surprised by this. [Your grandfather told them about your training location, and they probably wanted to see your fighting abilities.]

Tang Xiao didn't think much about the three men's goals because they were Tang Huang's best friends, and he also wanted to meet them to discuss Xiao Luo and Xie Jun. While waiting for the arrival of the three at his location, he fought with several wild beasts that blocked his way.

.
. .
.

Sometime later, Feng Xiaofang, Zhang Fei, and Sun Qian arrived at the forest, but they didn't show up and watched everyone training from behind the trees.

Tang Huang, Mu Lin, Feng Yao, and Tang Yuan noticed the three men's arrival, but they did not greet them and focused on protecting Yu Xiaoling and the others.

"Oh? Old Mu seems interested in that woman."

Sun Qian agreed with Zhang Fei. "That woman also seems interested in Old Mu, but her cultivation and combat abilities indicate that she's a novice cultivator."

"Haha," Feng Xiaofang laughed. "Whether that woman is a novice or experienced cultivator doesn't matter, right? What's important is that they like each other, and Old Mu can help her to improve her abilities."

"Yes."

Zhang Fei pointed to Yu Xiaoling, Jessica, Zhao Yuxian, and Zhao Qing, who were training under the guidance of Tang Huang, Feng Yao, and Tang Yuan. "Those three women are also novice cultivators, like the woman with Old Mu."

"They're still afraid of facing those beasts, and their fighting skills are still too low, making it difficult for them to read their movements. However, the speed of those three women is not that of beginner cultivators, as I've never seen beginner cultivators move as fast as them," Sun Qian commented.

Unlike them, Feng Xiaofang was more interested in his daughter, Feng Yao, whose cultivation had already increased by one minor stage to the Middle Emperor Level. 'How come Yao'er's cultivation has improved again? When she last returned to our clan, my wife said that her cultivation was still at the lower level, but she had reached the middle level now.'

After observing the four women for a few minutes, Feng Xiaofang and the other two immediately went to another area, where they saw Tang Yin, Sun Xiang, and Xing Xing fighting wild beasts by themselves.

"Your granddaughter's cultivation is already at the Peak Xiantian Level, but her fighting ability is disappointing, Old Sun and Old Zhang." Sun Qian and Zhang Fei couldn't say anything in response to Feng Xiaofang because Sun Xiang really didn't like fighting. "That girl is Old Huang's granddaughter, right?"

"Yes," Sun Qian nodded at him. "Her name is Tang Yin, and she has only been cultivating for a month and a half. She is much better than Xiang'er at fighting, and she doesn't have the slightest hesitation in any of her attacks. Moreover, her speed is exceptional, and her attacks accurately hit those beasts' weaknesses."

"I didn't expect that Tang Yin would have the darkness element, and people would hunt her down if they knew about it." Zhang Fei spoke with a serious expression.

"People mistakenly believe that all righteous cultivators are heretics due to past problems, but in reality, not all of them are like that, and some are more dignified than those who claim to be righteous cultivators." Sun Qian and Zhang Fei agreed with Feng Xiaofang, who then pointed to Xing Xing. "That girl is also a novice cultivator, but her mentality is much better than the previous five women's. Although she seemed reluctant to kill those wild beasts, she was aware of the situation and immediately killed them."

They then searched the area around them for Tang Xiao, but they couldn't find him. "Where—"

"I'm here." Feng Xiaofang, Sun Qian, and Zhang Fei jumped in surprise and turned around to see Tang Xiao smiling to himself. "Hehe! Long time no see, Grandpa Zhang and Uncle Feng. If I had to guess, the other one is Grandpa Sun, right?"

Sun Qian nodded to Tang Xiao. "Your face truly resembles your late father, and I feel like I'm standing opposite him, Xiao'er."

"Since I was little, everyone has said the same thing to you. After my parents died, I always looked at my face in the mirror when I missed my father." Tang Xiao sighed sadly, thinking about his father's death in the past. "Even though it's been a long time, I still feel sad over my parents' deaths. Although I can't kill some of them now, I've killed everyone involved in their murders, and I will kill the rest in the future."

Sun Qian grabbed his shoulder. "I've heard all about your revenge from Old Huang and Tantai Lingyan, and I'm glad you didn't kill anyone indiscriminately. We are cultivators, so we shouldn't act like those ordinary humans who love war and invade other countries for their interests and profits, which brings destruction and sorrow to countless people. We can kill those who harm us or our families, but we must spare those who are innocent."

"Haha," Tang Xiao scratched the back of his head. "I would be delighted if only Sun Xiang had your understanding, Grandpa Sun. She tried to stop me repeatedly, even though I never killed innocent people, and I only killed those involved in my parents' murder."

Sun Qian nodded slightly and pulled his hand back. "Xiang'er has been like that since she was little, and she's really not suited to the life of a cultivator. Unfortunately, it's her destiny because she was born into a family of cultivators, so she can't be like that forever."

"She has started to change, but she still needs time to become a true cultivator. I hope she can accept her situation as soon as possible, or her mindset will become a problem for her in the future." Sun Qian agreed with Tang Xiao. "By the way, Xiao Luo and the people from the Xiao Clan have started to be affected by the effects of my pills, as well as Xie Jun and some people from the Xie Clan. I want to do something to them, but they're too strong for me right now, so I need your help with that."

"What kind of pills did you give them?" Feng Xiaofang asked him.

Tang Xiao explained the effects of the Five Viscera Pill and the Heart Illusion Pill to them, which caused their jaws to drop after hearing the effects of the first pill. "I don't understand alchemy, and I got these two pills from my late master's legacy. The second

pill's effects will take effect tonight, so I think we should act then, and I'll do something about them."

"What are your next plans for them?"

"I can't explain that to the three of you, but my next plan will make it easier for us to monitor the Xie Clan." The three senior cultivators were curious about Tang Xiao's plans, but he didn't want to explain to them about Xiao Ai, the Primordial Divine Ark, and all the equipment there. "We will meet at the Sun Clan tonight, and we will go to the Xiao Clan together."

Sun Qian immediately informed him. "Two people from the Wang Clan are protecting my clan from behind, and they will report to Wang Fuxi if they recognize you. That woman is still eager to find you, so I think it will be dangerous for you."

"Grandpa Sun, I know your worries, but I'm sure they won't recognize me." Tang Xiao looked at Zhang Fei. "Isn't that right, Grandpa Zhang?"

"Haha," Zhang Fei laughed as he grabbed Sun Qian's shoulder. "If people could recognize him, they should have done so back at the auction house, Old Sun. No one present there knew that he was wearing a disguise, and I wouldn't have known that he was Xiao'er either if he and Old Shen hadn't told me back then, so you don't need to worry about that."

Sun Qian nodded in understanding. "Although your disguise is excellent, you still have to be careful of the people from the Wang Clan, and Wang Fuxi will make a move against you if you are careless."

"I understand, Grandpa Sun." Tang Xiao looked at the herd of beasts gathered below them. "In that case, I'll continue my training now, and I'll meet you three at the Sun Clan tonight."

"Alright."

Feng Xiaofang, Zhang Fei, and Sun Qian did not leave the area immediately, and they watched Tang Xiao fight with those wild beasts first.

After they were satisfied with that, the three men immediately left the forest and returned to the Sun Clan, waiting for Tang Xiao to come to them tonight.

Chapter 307: Head For The Xiao Clan

"Now we just need to wait for the pills to take effect."

"Do you think the pills will really work on them, Old Zhang?" Sun Qian asked with doubt in his voice.

Feng Xiaofang grabbed his shoulder. "Old Sun, whether the pills will work or not, we'll find out tonight. For now, we just need to wait patiently, and we'll see the results for ourselves tonight. If the pills work, we should act to deal with them, and your Sun Clan will be safer in the future."

"We—"

"What are you three talking about? What kind of pills are those?" Chen Xinyan asked as she walked over to them with Sun Xiang.

The three men exchanged glances for a moment before explaining to the two women using voice transmission because two people from the Wang Clan were watching them from afar, and they didn't want Wang Fuxi to know about Tang Xiao's presence on Earth II.

Zhang Xingcai's expression changed after they mentioned Tang Xiao, and she wanted to go meet him in the forest. Sun Qian and Zhang Fei swiftly stopped her and forbade her from doing so, as Wang Fuxi was still searching for him, and she would put him in a difficult situation if she found out about it.

Zhang Xingcai thought for a moment before agreeing with her parents, and she couldn't wait for Tang Xiao to come to the Sun Clan tonight.

"Do you three think this plan will work?"

"Whether it works or not, we'll find out tonight."

"Let's wait for the night, then."

.

.

.

"Big Sis, Wang Bao reported to me earlier that Sun Qian and the others had left the Sun Clan."

Wang Fuxi raised an eyebrow after receiving her brother's report. "What was their purpose in going to the forest? Which forest did they go to before?"

"Wang Bao didn't know their destination because I forbade them from leaving the Sun Clan because Xie Jun and several members of the Xie Clan had already arrived in this town. Are you going to meet them to ask about that?"

"No need." Wang Fuxi shook her head slightly. "We don't need to interfere in their personal affairs, and I await their action against the Xiao Clan."

"Do you think their plan will work?"

Wang Fuxi thought for a moment before looking away. "If Xie Jun hadn't arrived at the Xiao Clan, their plan against the clan members might have succeeded. However, I can't predict the outcome with his presence in the clan, and he would definitely stop their actions. For now, we can only wait for them to make their move, and we will rescue them if they are in danger. Where are Wang Dong'er and Wang Yu'er? Why haven't I seen them since I came back here?"

"Yu'er and Dong'er went to the Liu Clan a few days before you returned, and they want to train in the western region, so they won't be back anytime soon."

"Yu'er and Dong'er went to the Liu Clan a few days before you returned, and they want to train in the western region, so they won't be back anytime soon." Then, Wang Jishan asked her, "What about Long Xianyin, Huang Xiaotian, and Huang Xianyu?"

"Huang Xiaotian and Huang Xianyu are standing guard at their residence in this region, and they are ready to move at any moment at my cue. Long Xianyin is in another town, but she will return here tonight, so you don't need to worry about her situation." Wang Fuxi paused and thought. "The problem is that if we do anything to Xie Jun, we will be facing the Xie Clan directly, and Xie Shun will lead their clan's people to attack us. Our Wang Clan is indeed a first-grade clan, but our clan's situation has declined considerably compared to the past. If we go to open war with them and that person comes out of his long isolation, I'm not confident we can defeat them, and many of our members will definitely die because of it."

"Do we need to step back and stop interfering in this matter?" Wang Fuxi looked at Wang Jishan with a frown. "Old Sun and the Sun Clan are important, but our Wang Clan is more important than them, and I don't want to sacrifice our members for their sake."

Wang Fuxi inwardly sighed because her brother was too cowardly. "Your thoughts are not wrong, but you must remember that we will face more serious problems if the Xie Clan succeeds in subduing the Sun Clan and the other second-grade clans. Therefore, we must protect Old Sun and the Sun Clan, or the people will turn against us if we don't protect them from that heretic clan, which will only be detrimental to our Wang Clan."

Wang Jishan understood the consequences of the matter, but he was the patriarch of their Wang Clan, so he had to prioritize the well-being of his clan members over that of other clans.

"Forget it," Wang Fuxi sighed. "For now, we just need to wait for their movements and signals, and we'll act immediately if they need our help. I'm not sure about their chances, but I hope their plan against the Xiao Clan will succeed."

"Yes, Big Sis."

After Wang Jishan left, Wang Fuxi immediately left the Wang Clan and went to explore some forests in the central region, as she was curious about the reason the three men had gone there earlier.

.
. .
.

From her room, Xiao Meng listened to a report from Xiao Hua, who was overseeing the Xiao Clan. However, the old woman informed her that the two pills had yet to take effect and that the people in the clan were still carrying on with their normal activities, leading her to believe that Tang Xiao's two pills were ineffective against powerful cultivators like Xie Jun and Xiao Luo.

Xiao Meng wanted to order Xiao Ming to check out, but she dropped her intention because they should still be enjoying their wedding. "Sigh! I hope Tang Xiao's plan against them will work, so I can take my mother away from this clan."

Just like her daughter, Qing Cheng couldn't wait to leave the Xiao Clan and go to the outside world to escape from it, but she was also worried that her daughter's plan would fail, especially since she didn't know the identity of the person who helped her daughter do all that.

"I hope everything works out so Meng'er and I can live freely after we escape this clan." Qing Cheng didn't leave her room and patiently waited.

.
. .
.

Meanwhile, the people of the Xiao and Xie Clans were still enjoying themselves celebrating Xiao Ming and Xiao Meng's wedding. They celebrated by eating and drinking, and some of them were already quite drunk, but they were unaware that something terrible awaited them.

The day passed quickly, and night finally fell.

The first to feel the effects were Xiao Han's wife, Shi Xian, and the people from the Xiao Clan who were not drunk. She felt excruciating pain in her internal organs, and she screamed loudly in pain for help, but no one came to help her, including Xiao Ming.

Shi Xian tried to get out of bed, but the excruciating pain that coursed through her body caused her to fall hard onto the floor head first. She crawled out of her room to ask for help, but the effects of the Heart Illusion Pill began to take hold, causing her to hallucinate and scream hysterically while enduring the pain.

In several other rooms, Xiao Luo, Xiao Han, and Xie Jun, who were very drunk, felt their entire bodies in excruciating pain after the Five Viscera Pill took effect. They also screamed hysterically due to the hallucinations produced by the effects of the Heart Illusion Pill, but they had difficulty moving because of the pain they were experiencing.

Not only the main members of the Xiao Clan, but all the members of the clan suffered the same fate, as did the members of the Xie Clan in the other rooms.

Hearing the people's screams, Xiao Meng ran out of her room and asked Xiao Hua to unseal her cultivation. After that, she ran to her mother's room, but Qing Cheng was just walking out of her room. "Do the pills work, Meng'er?"

"Yes," Xiao Meng nodded at her mother and pulled her into the room. "We just need to wait for that person to arrive to do something about them, and we'll head to the nearest portal."

Qing Cheng sighed and nodded to her daughter. "I hope they won't be able to find us in the outside world, so we can live safely and peacefully."

"Don't worry, Mother."

.

.

.

Sun Qian, Feng Xiaofang, Zhang Fei, Chen Xinyan, and Zhang Xingcai, who were waiting in the main hall of the Chu Clan, looked at the guard who escorted Tang Xiao toward them.

Sun Qian and Zhang Xingcai couldn't recognize Tang Xiao, but Feng Xiaofang, Zhang Fei, and Chen Xinyan immediately recognized him because he was wearing the same disguise as at the Xuan Clan's auction house some time ago. "Are you ready to move? My two pills should have taken effect by now, and Xie Jun is also affected by their effects, so we must go to the Xiao Clan now."

After Tang Xiao spoke, Sun Qian and Zhang Xingcai immediately recognized his identity but said nothing and followed him and the others.

Wang Han and Wang Bao, who were ordered by Wang Fuxi to protect the Sun Clan, also immediately moved, following them from behind.

Chapter 308: Capture The Evils

After arriving at the Xiao Clan, Sun Qian went directly to Xiao Luo's room, Zhang Fei to Xiao Han's room, and Feng Xiaofang to Xie Jun's room. Meanwhile, Chen Xinyan and Zhang Xingcai went to Shi Xian's room to capture the woman.

Tang Xiao didn't join them and hid among the dense trees, observing the Xiao Clan's surroundings from within. He found Wang Fuxi and Long Xianyin standing far away in the sky, and he immediately thought of a way to approach the latter.

[The two women seemed to have purposely come to watch their actions and look for you, Master. Long Xianyin's cultivation is also at the Peak Tyrant Level, just like Wang Fuxi, so you have to be careful if you want to act against her.]

"Yeah." Tang Xiao entered the void and went towards Qing Cheng's room because Xiao Meng was in there.

.

.

.

Up in the sky, Wang Fuxi and Long Xianyin stood side by side, and their expressions turned shocked when Tang Xiao disappeared from their sight.

"That young man should be Wu Ming."

"Yes." Wang Fuxi nodded slightly. "Wu Ming is related to Feng Shen, so it's natural that he also has a connection with the Feng Clan. Feng Xiaofang seems to have asked for his help to attack the Xiao Clan tonight. However, I didn't expect his cultivation to have already reached the Peak Xiantian Level, even though he was still at the Middle Xiantian Level at the time of the auction."

"What exactly happened to Xiao Luo and the others? Why were they screaming so hysterically?"

"I can't guess what happened to those people, but I don't think they'll have any trouble dealing with them."

"Let's wait for the results."

.

.

.

Given Xiao Luo's unstable condition and lower level of cultivation, Sun Qian was able to easily knock him unconscious. In the other room, Zhang Fei also had no difficulty in knocking Xiao Han unconscious.

Meanwhile, Chen Xinyan and Zhang Xingcai didn't have to work hard to capture Shi Xian, especially since she had already fallen unconscious when they arrived at her room, which happened because she couldn't bear the excruciating pain in her internal organs.

On the other hand, Fang Xiaofang received a little resistance from Xie Jun, but he ultimately managed to knock him unconscious.

After they succeeded in their mission, Sun Qian and the others brought the people back to the Sun Clan, waiting for Tang Xiao there. Wang Fuxi and Long Xianyin, who watched their actions from the sky, hurriedly followed them.

.

.

.

Qing Cheng was shocked when Tang Xiao came out of the void, but Xiao Meng immediately calmed her mother. "Have you succeeded in capturing them?"

"Yes." Tang Xiao looked at Qing Cheng for a moment. "Grandpa Sun and the others have already taken them down, and they are on their way to the Sun Clan now. You must take your mother away from here now and hide in the outside world, and I will take care of the people of this clan."

Xiao Meng wanted to ask Tang Xiao about his control over her, but she immediately dropped her intention. "Thank you for helping us."

"I did everything not for you but for the Sun Clan, and I have not forgotten your malicious intentions towards Sun Xiang." Qing Cheng wanted to speak to Tang Xiao, but Xiao Meng stopped her, signaling her not to say anything to him. "Leave."

"Thank you." Xiao Meng hurriedly led her mother out of the room. "I'll explain to you later, but we must leave for the outside world as soon as possible."

"Alright."

[Are you really going to let Xiao Meng go, Master?]

"Even though I don't like her and her actions towards Sun Xiang, I can understand her situation. She did everything to protect her mother, so I will let her go, but I won't remove your sub-chip from her brain." Xiao Hua and Xiao Ming walked into the room after Tang Xiao called them, and he handed them two pills. "Crush them and mix them with water, and you two must help those people recover."

Xiao Hua and Xiao Ming nodded to Tang Xiao, who immediately left for the Sun Clan. They left Qing Cheng's room and carried out his orders.

.
. .
.

Sun Qian and the others arrived at the Sun Clan and laid the people on the floor, but Wang Fuxi and Long Xianyin suddenly appeared before them.

"What are your plans for them? Are you going to kill them?" Long Xianyin asked.

Wang Fuxi spoke to them directly. "I think you should not kill them, especially Xie Jun. If he dies, Xie Shun will lead the Xie Clan members to attack this clan, and everyone here will die at their hands."

"We—"

"I will handle them." Sun Qian and the others became tense as Tang Xiao walked in, and they were worried that Wang Fuxi would recognize him. However, their worries were unfounded because she had never met the current him, and she couldn't see through his disguise either.

"Are you Wu Ming?"

Tang Xiao looked at Long Xianyin and activated the Heart-Seizing Technique, which caused her heart to waver. She had uncontrollable feelings for him, leaving her confused. "I am."

'What happened to me? Why do I suddenly feel this kind of feeling for him?' Long Xianyin shook her head to dispel the feeling, but it didn't disappear and only grew stronger because Tang Xiao was still using his Heart-Seizing Technique on her. "What are you going to do to them?"

"Please forgive me; I can't explain it to you because it concerns my secrets, but they will be the key to bringing down the Xie Clan in the future." Long Xianyin and Wang Fuxi

frowned at Tang Xiao's answer, but he ignored them and enveloped the unconscious people with his qi. "I'll take them away for now, and I'll return them to you later."

"Wu Ming, I want to talk to you, so you should come to see me."

Tang Xiao inwardly sighed, nodded to Zhang Xingcai, and took the people into the void.

"What do you think that kid will do to them?"

"I can't guess that kid's purpose, and we'll find out after he brings them back." Wang Fuxi looked at them. "Old Sun, please contact me after Wu Ming brings them back."

"Yes," Sun Qian nodded slightly.

"Let's wait for him in my clan, Xianyin."

Long Xianyin followed Wang Fuxi to leave the Sun Clan, but she was still confused about her feelings for Tang Xiao because they had appeared so suddenly. 'Did he use a technique on me? What kind of technique did he use on me? Why didn't I feel anything from him when he did it?'

"Phew." Zhang Fei wiped his forehead. "At first, I thought they would recognize that kid, but my guess turned out to be wrong because they didn't recognize him."

Sun Qian nodded in agreement. "I was also afraid that Wang Fuxi would recognize him, but fortunately, she couldn't see his disguise. If she managed to recognize him, she would capture him directly because of his actions in the outside world."

"What exactly is he planning to do with them? Where is he taking them?" Fang Xiaofang was still wondering about it because Tang Xiao hadn't told them anything.

"Hehe," Chen Xinyan chuckled. "Whatever he plans to do to them, I'm sure it will be beneficial to us, and we might even succeed in destroying the Xiao Clan in the future."

"Why do you trust him so much, Mother?"

Chen Xingyan turned to her daughter. "Xingcai, I haven't witnessed all of his abilities, but you must remember that he managed to deceive all the senior cultivators present at the auction that time. Have you ever met a young person who could do something like that before? Moreover, his cultivation is still far below ours, but he managed to do something like that and escape from that place, so it's natural for me to trust his abilities, right?"

Zhang Xingcai didn't argue with her mother, and she sat impatiently waiting for Tang Xiao to return to the Sun Clan, as she wanted to talk to him about her daughter.

"Let's wait for him to bring them back."

"I'm really curious about that."

.
. .
.

Tang Xiao had already brought those people to the laboratory inside the Primordial Divine Ark, placing Xie Jun and Xiao Luo inside two glass capsules. "Start now, Xiao Ai."

"Yes, Master." Xiao Ai immediately conveyed Tang Xiao's plan to the two elderly men. "Did your Heart-Seizing Technique work on Long Xianyin, Master?"

Tang Xiao nodded at her. "Long Xianyin's cultivation is indeed high, but she and all the cultivators on Earth don't seem to have high soul power, and I can see that my technique has an immediate effect on her."

"Hehe," Xiao Ai giggled. "Soul power is the weakness of cultivators from the lower realm, Master. This Earth is the weakest of all the planets in the lower realm, and those cultivators don't have any methods to strengthen their soul power, so their souls are too weak. If you go to the Canglan Realm later, you'll meet many cultivators with soul power far superior to the people here."

"Do you think I can break through to the King Realm before we arrive at the Canglan Realm?"

"We will be traveling for two to three months to arrive at the Canglan Realm, and we will only be leaving there in two months, so your cultivation should have already broken through to the King Realm by the time we arrive there, Master."

"I hope so."

Chapter 309: Tang Xiao - Zhang Xingcai

In her room, Long Xianyin tried to calm herself down, but she kept thinking about Tang Xiao due to the effects of her Heart-Seizing Technique.

Long Xianyin was sure that Tang Xiao had done something to her, and she thought about going to see him. She was confident that she could force him to confess his actions to her because she was much stronger than him, but she was also afraid that she would not be able to control herself when she met him.

Long Xianyin thought of various possibilities behind why Tang Xiao would do something like that to her, but she did not know his true identity as the son of the late Tang Ye. "Could it be that he used some kind of charm technique on me? Why did he do something like that to me?"

.
. .

After Xiao Ai was done with those people and gave them some items, Tang Xiao brought them back to the main hall of the Sun Clan, where Sun Qian and the others were already waiting for him.

"What did you do to them, Xiao'er?"

"Where did you take them earlier?"

Even though they were close friends with his grandpa, Tang Xiao still had no intention of telling them about Xiao Ai and the Primordial Divine Ark yet. He used his light element to wake up Xiao Luo and the others.

"Oh god! You have four elements!" Feng Xiaofang's loud shout shocked them. "Yao'er told me that he has the fire and wind elements, and I witnessed him take Feng Shen away from the auction house using the space element."

"Now, he uses the light element, which means he has four elements." Zhang Fei spoke, nodding his head.

Chen Xinyan looked at her daughter, Zhang Xingcai. "Can you find a husband for Xiang'er who is more worthy than Xiao'er?"

Zhang Xingcai didn't reply to her mother's annoying question, and she focused on watching Tang Xiao wake up the four of them. She admitted that he was talented and outstanding, but she still didn't want her daughter to marry a man who already had two wives, and she still wanted her daughter to marry a man who loved her alone.

Before long, Xiao Luo, Xiao Han, Shi Xian, and Xie Jun had woken up. Their next action shocked Sun Qian and the others, as they knelt in front of Tang Xiao. "Master."

Sun Qian, Zhang Fei, Feng Xiaofang, Chen Xinyan, and Zhang Xingcai looked at Tang Xiao, waiting for him to explain his actions toward the four people.

"I don't have any techniques to change their minds, but I use a little trick on them." Tang Xiao looked at those people. "Even though I am your master now, the four of you must

follow Grandpa Sun and Grandpa Zhang's orders. If you dare to disobey their orders, I will kill you."

Xiao Luo, Xiao Han, Shi Xian, and Xie Jun looked at the two old men before nodding to Tang Xiao. "Yes, Master."

Tang Xiao gave the antidotes for the two pills to the three Xiao Clan members, but he didn't give them to Xie Jun to avoid Xie Shun's suspicion. "Bring your subordinates back to the Xie Clan and find excuses for your brother."

"Yes, Master."

"Leave." They immediately left the Sun Clan to return to the Xiao Clan. "Grandpa Sun and Grandpa Zhang, you two can use the three people from the Xiao Clan to eliminate the people from the other clans who are collaborating with the Xie Clan, and I will not interfere in this matter."

"We—"

"Can we talk now?" Tang Xiao nodded to Zhang Xingcai and followed her out of the main hall.

Chen Xinyan could only shake her head as they left. "Xingcai will definitely ask Xiao'er to stay away from Xiang'er."

"That's for sure." Zhang Fei looked at the other two men. "What exactly did Xiao'er do to those people? Why did they become so obedient to him?"

"Could he have used an enslavement technique on them?" Feng Xiaofang frowned.

Sun Qian pondered the matter as he looked outside the main hall. "I don't dare say that Xiao'er used an enslavement technique on them, and he might have used another technique. His late master was a mysterious person, and Old Huang said that he came from another realm."

"That's true." Feng Xiaofang nodded in agreement. "Back then, Tantai Lingyan told my wife about Xiao'er's mysterious master and other realms, so I thought he inherited many techniques that don't exist here."

Chen Xinyan spoke directly to them. "I know you three are curious about it, but I don't think we need to think about it, right? Whether Xiao'er uses the heretic technique or not, I will fully support his actions. They are evil cultivators, and his actions toward them will be helpful for us to overcome the problems before us. Instead of thinking about that, it would be better for us to think about plans for other clans who decide to follow the Xie Clan."

"What should we say to Wang Fuxi and Long Xianyin? If they find out what Xiao'er did to those four people, they might assume he's a heretic cultivator and hunt him down."

Feng Xiaofang immediately refuted Zhang Fei. "I don't know if Xiao'er possesses the darkness element, but I'm sure he'll be safe as long as he doesn't use it in front of those two women, especially Wang Fuxi."

"Wang Fuxi and Long Xianyin obviously couldn't recognize Xiao'er's disguise because they called him Wu Ming before, so I'm sure they'll have a hard time finding him." The three people agreed with Sun Qian. "What do you three think we should do next?"

"I think our next target is the Jiang Clan." The three men turned to Chen Xinyan. "The Cao and Song Clans are stronger than the Xiao Clan, and Xiao Luo is much closer to Jiang Bai than Cao Teng and Song Han, so I think we should clear out the Jiang Clan first. However, I think we should restrain ourselves for now, and we should wait for Xie Jun to return to the Xie Clan first. If we move too frontally, I'm afraid Xie Shun will realize that something is wrong with the situation, and he will lead his subordinates to attack us, which will be detrimental to us."

"Let's rest first; we'll meet Wang Fuxi tomorrow morning."

"Yeah."

The three men immediately left the main hall, and Zhang Fei pulled Chen Xinyan back to their room, as he knew she wanted to eavesdrop on Tang Xiao and Zhang Xingcai's conversation.

.
. .
.

"What do you want to talk to me about, Senior?"

Zhang Xingcai stopped walking and faced Tang Xiao. "Please leave my daughter alone, as you already have two wives, and Sister Qingge is your prospective third wife."

"Why?"

"I don't want Xiang'er to have a husband with multiple wives. I want her to find a husband who only loves her, just as my late husband only loved me."

Tang Xiao sighed in his heart. "Senior, I understand your opinion about polygamous relationships, but you have to—"

"I don't care," Zhang Xingcai decisively interrupted. "I am grateful for your help to my Sun and Zhang Clans, but I don't want my daughter to have anything to do with you, so I hope you will be willing to leave her."

"Aren't you selfish, Senior?"

"I am a mother, and I have to be selfish for the good of my daughter. She is my only daughter, and I understand what's best for her. You may say that she would be happy if she married you, but I will never believe that a polygamous relationship will bring her happiness."

"|—"

"I don't want to negotiate with you, and I will never allow my daughter to have a relationship with you, let alone marry you." Tang Xiao frowned at that. "I don't care how talented you are, but you don't deserve to be my daughter's husband. If my daughter insists on having a relationship with you and wants to marry you, she'll have to step over my dead body first."

After saying that, Zhang Xingcai immediately left Tang Xiao, feeling that she had said enough to him and hoping he would end his relationship with her daughter.

[Haha! Your relationship with Sun Xiang will definitely not be easy, Master. Zhang Xingcai is firm in her principles, and she will never approve of your relationship with her daughter. If you want to take her daughter as your wife, you must work hard to convince her to accept you, and the easiest way is to use the Heart-Seizing Technique on her.]

"I will never use that technique on her, and I will convince her to accept my relationship with Sun Xiang." Tang Xiao immediately entered the void to return to the forest.

.
. .
.

Before long, Tang Xiao had arrived at the forest, and almost all the women were asleep, except for Feng Yao and Tang Yuan.

"What happened? Why are your expressions so unpleasant?"

"Nothing happened." Tang Xiao immediately sat down by the campfire. "By the way, I've decided to leave Earth in the next two months, and I'm going to the Canglan Realm."

"Eh?" Tang Yuan and Feng Yao were surprised by his decision. "Why did you suddenly decide to go to the Canglan Realm? I thought you were still thinking about it, but you suddenly made such a decision."

Tang Xiao looked at the flames before him. "It will take me a long time to reach Long Yin and Wang Fuxi's level if I stay here, so I decided to go to the Canglan Realm sooner."

Chapter 310: Three Days Later

"Who are you going to bring to that realm, Xiao'er?"

"I'll bring everyone who has a direct connection to us to the Canglan Realm, like Grandpa Mu. After all, Mu Qingge and Mu Yan are my future wives, so I won't leave Grandpa Mu here." Tang Xiao looked at his paternal aunt. "As for other people, I only consider Senior Shen, the Zhang Clan, and the Sun Clan."

Tang Yuan raised an eyebrow slightly when Tang Xiao mentioned Feng Shen but not the other members of the Feng Clan, and she glanced at her best friend, Feng Yao. She realized that her actions two days ago lingered in his mind, and he hadn't considered bringing them because of that incident.

Tang Yuan wanted to say something to her nephew, but she quickly swallowed her words back. After all, the Primordial Divine Ark belonged to her nephew, and she felt she had no right to control the people he would bring to the Canglan Realm.

Feng Yao was also aware of this, but she didn't say anything to Tang Xiao. Even though she was disappointed with that, she respected her decision if he wasn't willing to bring her and her family to the Canglan Realm.

Tang Xiao glanced at Feng Yao without saying anything. He immediately stood up and went to another forest area to practice while thinking of a way to convince Zhang Xingcai to accept his polygamous relationship.

"Yao."

"You don't need to say anything, Yuan. I understand the situation, and you don't need to persuade Xiao'er to take me and my family to the Canglan Realm. Moreover, my cultivation is still far from the Saint Level, so I can cultivate here as usual." Feng Yao hurriedly went to another area to stand guard and protect the sleeping women.

"What happened between Yao'er and Xiao'er?" Tang Yuan told Tang Huang about the incident two days ago. "He's a dual cultivator with two wives now, and he already has three other prospective wives, but he'll never accept her if she acts like that."

Tang Yuan agreed with her father. "I myself never expected that Yao would act like that towards Xiao'er, Father. He was angry with her because of that incident, and he had already made up his mind not to bring her to that realm."

"Honestly, I'll be disappointed if Xiao'er doesn't bring Yao'er and the Feng Clan to the Canglan Realm, but I won't force him to bring them with us because the ark is his, and he has the right to decide who he takes there."

"I agree with you, Father."

.

.

.

Morning came quickly, and Xie Jun hurriedly took his subordinates from the Xiao Clan back to the Xie Clan.

Xiao Luo and the others knew about Xiao Meng and Qing Cheng's departure from their clan, but they didn't bother looking for them, waiting for Tang Xiao or Sun Qian's orders.

Meanwhile, Sun Qian and the two men were already at the Wang Clan, with Wang Fuxi and Long Xianyin sitting in front of them. He immediately explained to the two women the situation regarding Xiao Luo and the others, which shocked them.

"Did Wu Ming enslave them? Doesn't that mean he possesses the darkness element?" Long Xianyin asked with a frown, convinced that Tang Xiao had used a heretic technique on her, causing her to remember him since last night.

Although she didn't ask anything, Wang Fuxi also thought that Tang Xiao had the darkness element; otherwise, he would not be able to make Xiao Luo, Xie Jun, and the others obey him.

"Honestly, I don't know whether Wu Ming possesses the darkness element or not, and he told us that he used another method against those people."

"Another method?"

"He didn't explain his actions to us, but I don't think we need to worry about that, right?" Both women looked at Feng Xiaofang with displeased looks. "The enemy of our enemy is our friend, and he never caused any trouble here; instead, he helped us fight those evil cultivators. For now, Xie Jun and the Xiao Clan are in our control, but there are still several other clans conspiring against the Xie Clan, so we should focus on them."

"So, which clan should we target first?"

"Jiang Bai and the Jiang Clan." The two women immediately considered Zhang Fei's idea. "The Cao and Song Clans are stronger than the Xiao Clan, and Xiao Luo is much closer to Jiang Bai than Cao Teng and Song Han, so I think we should clear out the Jiang Clan first. However, we should restrain ourselves for now, and we should wait for Xie Jun to return to the Xie Clan first. If we move too frontally, I'm afraid Xie Shun will realize that something is wrong with the situation, and he will lead his subordinates to attack us, which will be detrimental to us."

"You're right, Old Zhang." Wang Fuxi contacted someone from her Wang Clan and asked him to monitor the Jiang Clan. "Since Xie Jun will report to you, I will wait for news from you, Old Sun. Once he arrives at the Xie Clan, you can order Xiao Luo to take action against Jiang Bai, and the Jiang Clan will be in disarray without their patriarch."

Sun Qian nodded at her. "In that case, we will return to my Sun Clan now, and I will inform you directly if Xie Jun contacts me."

"Yes."

After the three men left, Long Xianyin looked at Wang Fuxi. "Do you think Wu Ming is a heretic?"

"As long as I haven't seen him use the darkness element, I can't categorize him as a heretic cultivator." Long Xianyin agreed with Wang Fuxi, but she still believed that Tang Xiao was a heretic cultivator, especially after his actions against her. "Unfortunately, we don't know his location, and I tried searching for him in several forests yesterday, but I couldn't find him. Additionally, he assisted us by taking action against Xie Jun, allowing us to monitor the Xie Clan's movements without Xie Shun's knowledge, which will ultimately benefit us."

"That's true."

"Are you going back to the Long Clan now?"

"No," Long Xianyin stood up. "I still have some business with my friend, so I'll be staying in this region for a while. I'll return to my clan once my business is done."

"Alright." After Long Xianyin left, Wang Fuxi returned to her room to cultivate.

.

.

.

Long Xianyin intended to search for Tang Xiao in the forest, but there were so many forests in the Central Region. She tried to contact him, but he deliberately didn't reply. "Tch! That kid is playing me on purpose! If I manage to find him, I'll beat him up!"

Long Xianyin decided to go to the nearby forests, but she couldn't find Tang Xiao. After searching for some time, she decided to go somewhere else to rest since it was still midnight.

Tang Xiao led them to another forest a little further away from the Central Region to avoid Long Xianyin's search, leaving Tang Huang and the others puzzled as he didn't explain to them the reason.

.
. .
.

Three days passed quickly.

Tang Xiao kept coming to Long Xianyin for the past three days, whether she was sleeping or cultivating, and he continued to use the Heart-Seizing Technique on her.

Long Xianyin was getting more and more annoyed with Tang Xiao because the effect of his Heart-Seizing Technique on her was getting stronger every day, and she had been searching for his location every day for the past three days, but she still hadn't managed to find him.

Tang Xiao deliberately did not appear in front of Long Xianyin directly, and he chose to play hide-and-seek with her. He believed that the effect of his technique would become stronger, which would make it easier for him to subdue her when he appeared in front of her later.

.
. .
.

After a week of travel, Feng Shen arrived in the northern region with Tantai Lingyan and Yan Huoling. He did not go with them to the Xue Clan because the people of the clan were not willing to accept male guests in their private territory, and he found Tang Xiao's clone training in the forest at the foot of the snow mountain.

On the way to Tang Xiao's clone's location, Feng Shen saw Bing Wen and Bing Qing fighting wild beasts, which caught his attention. He landed on a snowy tree branch not

far from their location, watching them fight. "These two kids are quite amazing, but their fighting skills are still so-so. If only they had a strong backer, they could definitely become powerful cultivators in the future."

.
. .
.

Meanwhile, Tantai Lingyan and Yan Huoling had arrived at the Xue Clan, and a woman from the clan immediately escorted them to Xue Jing's private quarters before leaving them there.

The two women immediately entered the room, where Xue Jing and Xue Lan were already waiting for them. Yan Huoling told them about Sun Qian and the others' actions against Xie Jun and the Xiao Clan, but she didn't tell them that Tang Xiao was the one who helped them.

Xue Jing nodded at them. "I think it's beneficial if we can monitor the Xie Clan so we can take precautions if they decide to commit crimes. But how do they control Xie Jun? As far as I know, only heretic techniques can do that, but I know that Old Sun and the others are not heretics."

"We have our own methods, but we won't go into detail. The important thing is that we can keep a close eye on the Xie Clan, and we can take precautions to stop their evil actions."
