Chapter 311: Xue Jing's Request

Xue Jing and Xue Lan looked at Tantai Lingyan suspiciously, but they decided not to inquire further about the matter.

"Huoling, can you contact Wu Ming for us?" Tantai Lingyan and Yan Huoling exchanged a surprised look at Xue Jing's question. "Someone wants to meet him, but I can't contact him. Since he came with Feng Shen to the auction, I thought he had a favorable relationship with the Feng Clan."

"Who is the person who wants to talk to him?"

"We usually address her as Senior Snow, and she is the snow spirit of this snow mountain and protector of our Xue Clan."

"A snow spirit?" Tantai Lingyan and Yan Huoling were shocked by that.

Xue Jing took out a device and activated it. "She is Senior Snow, and she wants to talk to Wu Ming about something. I hope you are willing to help me contact him and ask him to come here to meet her."

"Unfortunately, I can't help you contact Wu Ming, Jing." Xue Jing was skeptical of Yan Huoling's answer. "Moreover, this area is closed to men, right? Will your clan members be comfortable with his presence?"

"My clan members won't be comfortable with Wu Ming's presence, but they won't say anything because Senior Snow is the one who wants to meet him."

"What did she want to talk to him about?"

"I don't know, but I'm guessing it has something to do with his unknown element and the barrier that separates Earth II from the outside world."

"An unknown element?" Yan Huoling stole a glance at Tantai Lingyan because she was Tang Xiao's master. "Isn't his element clearly the space element?"

Xue Jing changed the image that appeared on the device, showing them the conversation with Senior Snow two weeks ago. "Senior Snow is the possessor of the space element, and she is sure that Wu Ming's element is not the space element but another element. Old Xia's vision about the barrier is quite disturbing to her, and she has a hunch that he can destroy the barrier with his unknown element. The number of

cultivators on Earth II is large, and we cannot control everyone. If the barrier separating the outside world and Earth II disappears, those ordinary humans will suffer because of our existence."

"Why do you care so much about the fate of those ordinary humans?" Tantai Lingyan coldly asked. "Many of them are far worse than cultivators, and they bring destruction to various places with endless wars. Those bigger countries always act arrogantly, and they always suppress small countries, bringing suffering to countless people. If Earth II and the outside world become one, those powerful cultivators can control them, and those ordinary people will no longer be able to act as they please."

Xue Jing sighed upon hearing this from Tantai Lingyan, but she could understand her hatred for ordinary humans, which was connected to Tang Ye's death. "I understand your feelings, but—"

"Don't say that you can understand my feelings because you have never been in my position," Tantai Lingyan interrupted her. "Have you both ever imagined being in Zhao Qing's shoes that night? Those ordinary people violated her by force, and they killed her together with Tang Ye after they were satisfied with their depraved actions. Their children framed Xiao'er until he had to languish in prison for seven years, and they also tried to violate Yin'er until she was in a coma for seven years. If it weren't for Long Yin and Wang Fuxi, I would have killed those people long ago. Therefore, I would be delighted if the barrier disappeared, and they would experience life under the pressure of cultivators."

"Lingyan, you—"

"What? Do you want to say that I'm selfish?" Xue Lan nodded to Tantai Lingyan. "Why didn't you say that to Wang Fuxi? She knew that Tang Ye was Old Huang's only child, but she didn't move to save him that night, and she even stopped Tang Yuan from saving him and his wife. If the barrier disappears in the future, everyone can blame her for her selfishness."

Xue Jing and Xue Lan just kept quiet listening to all of that, as they had no words to reply to Tantai Lingyan. They were aware that Wang Fuxi's actions were selfish, and she should have saved Tang Ye and his wife that night. Even if she wasn't willing to do it herself, she should have allowed Tang Yuan to save them, and the Tang Clan would never have lost an heir.

"That's enough, Lingyan," Yan Huoling finally spoke. "I don't want the barrier separating the two places to disappear, but we can't do anything now, and we can only wait for the results in the future. Moreover, Old Xia's visions often don't come true, so we don't need to dwell on this matter, and we should focus on more important matters."

"Humph." Tantai Lingyan snorted coldly and left the place. 'I hope Xiao'er will destroy that barrier when we leave Earth! Those arrogant and evil ordinary people will experience horrors they never imagined with these two places becoming one!'

Yan Huoling could only sigh at Tantai Lingyan's attitude, but she couldn't blame her because the Tang Clan was like her own family. "I can't contact Wu Ming because I've never spoken to him directly, but Feng Shen might be able to, so I'll try talking to him first."

"Please help us, Huoling."

After they discussed a few other matters, Yan Huoling immediately left the area. She and Tantai Lingyan flew away from the snow city afterward.

"Big Sis, do you think Wu Ming is capable of breaking the barrier?"

"I don't know whether he can break the barrier or not, and we can find out after he comes to us and talks to Senior Snow. I hope Feng Shen is willing to help us contact him, and we will take him to the top of the mountain."

"Yeah."

.
. .
.

Feng Shen appeared in front of them as soon as Yan Huoling and Tantai Lingyan arrived at the foot of the mountain. "What did you two talk to them about?"

"Nothing much." Yan Huoling explained to him about her previous conversation with Xue Jing and Xue Lan. "They want to meet Tang Xiao."

Feng Shen raised an eyebrow before pointing to the snow forest. "That kid is there now, and he's already slaughtered many wild beasts."

"Let's go there." Tantai Lingyan immediately flew into the area, with Feng Shen and Yan Huoling following behind her.

When they arrived there, they saw Tang Xiao's clone had just killed several snow bears on the King Level, and he immediately looked for the beast cores in their heads. "Why did you three come here?"

Feng Shen and Yan Huoling were shocked to hear that, but not Tantai Lingyan, who immediately landed in front of Tang Xiao's clone. "Haha! The snow beasts here will become extinct if you keep killing them like this, Xiao'er."

"I only kill those with cultivation at the King Level, Master." Tang Xiao's clone looked at Feng Shen and Yan Huoling. "I've long been aware of your presence in this area, but you were busy observing Bing Wen and Bing Qing, Senior Shen."

"Haha," Feng Shen laughed. "Those two kids have good talents in cultivation, but unfortunately, they don't have the support of a strong clan, so their abilities are difficult to develop."

Tang Xiao's clone agreed with him. "I also feel that they have outstanding talent, and they have the willpower to become even better cultivators. So, how was your conversation with the two women from the Xue Clan?"

"Xiao'er, Xue Jing wants to see you, and she wants to take you to meet someone." Tang Xiao's clone looked at Yan Huoling with raised eyebrows. "That person is the snow spirit of this snow mountain, and she wants to talk to you, regarding your unknown element and the barrier."

"My unknown element?"

Tantai Lingyan immediately explained to him. "Xiao'er, that woman possesses the space element, and Xue Jing already showed her actions when you took Feng Shen away from the auction house. She believes that your element is not the space element but something else, and she thinks that you can break the barrier with it."

"What exactly was the element you were using back then, kid?"

"The void elements." Feng Shen and Yan Huoling were confused upon hearing it for the first time. "Simply put, the space element is Earth II and the outside world, and the void element is outer space. If the space element has limits, the void element has no limits."

"Can you use the void element to destroy the barrier?"

"Yes," Tang Xiao's clone nodded to Yan Huoling. "The void element is superior to the space element, but I can't do that with my cultivation at this level, and my element level is still too low."

"Do you want to meet that woman?"

Tang Xiao's clone looked towards the peak of the snow mountain, as he was curious about the snow spirit. "I've already decided to leave Earth, so I would rather not waste my time, and I want to focus on my training here."

"Eh?" Tantai Lingyan and Yan Huoling were surprised to hear that.

In contrast, Feng Shen was confused by this. "What do you mean by leaving Earth, kid?"

"Senior Shen, Earth isn't the only world in this universe, and there are many other worlds out there," Tang Xiao's clone explained everything to Feng Shen. "My cultivation will take a long time to improve if I stay here, so I've decided to leave in less than two months. My first destination is the Canglan Realm, as the quality and quantity of Qi on that world are several times higher, and I can cultivate faster there."

Chapter 312: Xie Shun's Confusion

"How many times better?"

"Three times better."

Feng Shen immediately thought about it. If the quality and quantity of Qi in the Changlan Realm were three times better than on Earth, he should be able to cultivate three times faster there, and he might even break through to the Saint Realm, something no cultivator on Earth had ever achieved before. "Can I go with you to that realm, Kid?"

"You've helped me a lot since I arrived on Earth II, so I've been planning to take you to that realm ever since I decided on this, Senior Shen." Tang Xiao briefly glanced at Yan Huoling. "As for the others, I haven't decided everything yet, but I'll definitely bring the people from the Sun and Zhang Clans with us."

Since she raised and trained Tang Xiao from the age of five, Tantai Lingyan was quite familiar with his character, and she felt something was odd because he didn't mention the Feng Clan.

Even though she didn't know Tang Xiao well, Yan Huoling also realized this, which made her think that something beyond her knowledge had happened. 'Could this have something to do with Yao'er?'

As a senior, Feng Shen also realized there was another meaning behind Tang Xiao's words. He didn't say anything because it was his right to choose who he would bring to the Canglan Realm.

"I will start preparing everything from now on, and I will wait for news of our departure from you." Feng Shen looked at the two women. "Are you two going back to the central region now?"

"I won't be returning to the central region because all matters there are finished, and I will accompany Xiao'er to train in this region."

"Let's go back." Thereafter, Feng Shen took Yan Huoling away from that region to return to the central region.

"Aren't you going to bring the Feng Clan with us, Xiao'er?"

"I haven't decided yet."

"Is it because of Yao'er?" Tang Xiao's clone became annoyed when he remembered Feng Yao's actions a few days ago. "Did she do something to offend you?"

Tang Xiao's clone sighed softly and told Tantai Lingyan everything. "I'm grateful to her for bringing me here and teaching me a few things, but I don't want to be around a woman with a psychopathic character. Although she was a childhood friend of my late father and Aunt Yuan, I don't want to bring her or any other members of the Feng Clan with us."

"I didn't expect that Yao'er would do such a crazy thing." Tantai Lingyan sighed. "Since the Primordial Divine Ark is your inheritance from your late master, I will not interfere with your decisions regarding them, and you can decide for yourself which people you want to take away with us."

"Yeah,"

"Let's continue your training."

.

.

.

"What exactly happened? Why doesn't that kid seem to want to take you all to the Canglan Realm?"

Yan Huoling shook her head at Feng Shen. "I thought something had happened between Xiao'er and Yao'er, so he wasn't willing to take us with him."

"Yao'er?"

"You remember that Yao'er liked the late Tang Ye, right?"

"How could I forget that?"

"When Yao'er took Xiao'er to the volcano, I saw the way she looked at him was similar to when she looked at the late Tang Ye in the past." Feng Shen looked at Yan Huoling in surprise. "His face is truly similar to his late father's, so I can guess straight away that

my daughter is willing to teach him because of that. I don't know what happened between them, but I realized that he wasn't willing to take us because of her actions."

"Haish." Feng Shen released a helpless sigh after hearing that. "I know Yao'er has a deep love for the late Tang Ye, but that kid isn't his father, and she's being unfair to him if she wants him because of their facial resemblance."

Yan Huoling agreed with him. "I've warned Yao'er about this matter, but her feelings for the late Tang Ye have blinded her, and she wants Xiao'er as a replacement for him."

"What are you going to do about this matter? That kid will be leaving Earth in less than two months, so you only have that much time to repair their relationship."

"I won't do anything." Yan Huoling's answer confused Feng Shen. "It would be better if they separated earlier, right? Naturally, I want to go to the Canglan Realm because we will never be able to reach the Saint Realm as long as we stay on Earth, but I don't want their relationship to become worse than it is now. As long as Yao'er cannot forget the late Tang Ye, she will continue to act that way towards Xiao'er, so I want them to be separated for quite a long time in the hope that her feelings will change."

Feng Shen nodded in agreement. "Even so, I hope Yao'er's feelings will change before that kid leaves, and he'll take you all with him."

"I know my daughter very well, so I know that her feelings won't change that quickly, and she might need a long time to get over the late Tang Ye."

"What a troublesome niece."

"Hahaha."

.

.

.

Xie Shun raised an eyebrow as he saw Xie Jun and the others walk in with pale expressions. "What happened to you guys?"

"Brother, a mysterious person attacked us while we were on our way to the central region. That person took us captive and gave us a strange pill before releasing us, which makes us suffer every night." Xie Shun immediately moved in front of Xie Jun and grabbed his hand, but he couldn't find anything inside his body. "The pain appears at night for several hours, and we also experience acute hallucinations every night."

"Do you recognize that person's identity?"

"That person is an old man, but I've never seen him before, so I don't know his origins."

Xie Shun frowned after hearing that, and he tried to search his memories for all the senior cultivators who had reached their level and had such abilities. "Go rest now, and I'll ask Xie Han to check on you tonight."

"Yes, Brother." Xie Jun and those people immediately left Xie Shun.

Xie Shun contacted Xiao Luo to ask about the situation in the city, but the old man told him that he didn't dare move without backup because Wang Fuxi and the others were protecting the Sun Clan.

"Damn it! Who did that to my brother and the others?" Xie Shun summoned Xie Han and ordered him to heal Xie Jun as quickly as possible. "Our ancestor is still in seclusion now, and he asked me not to disturb him unless there is an emergency in our clan. Sigh! I'm forced to postpone my plans for the Sun Clan until they recover; otherwise, Wang Fuxi and the others will attack me if I move alone."

.

.

.

In the sky above the Sun Clan, Wang Fuxi stood there with several other cultivators. "It looks like the situation is under control now, but Old Sun still has to wait for news from Xie Jun before making a move on the Jiang Clan."

"Since the situation in this region is safe, we will return to our clan, as we have been gone for several days." Huang Xiaotian took out his flying artifact. "If there are any changes in the situation, you can contact us directly, and we will come here immediately."

"In that case, we will return to our Liu Clan, and we will come back here if you need us," Liu Xun said as he took out his flying artifact.

"I will contact you if anything urgent happens." After that, the four members of the Liu and Huang Clans immediately left the area on their respective flying artifacts. "Are your affairs in this region finished, Xianyin? Are you returning to the Long Clan today?"

Long Xianyin shook her head slightly. "I'm still looking for someone in this region, so I'll delay my return. If I can't find that person, I'll return directly to my Long Clan."

"Who is the person you are looking for? Do you need my help to find that person?"

"No need." Long Xianyin looked away. "I'll be leaving now, and you must contact me if Xie Shun decides to come to this region himself."

"Alright." Wang Fuxi watched Long Xianyin leave in confusion. "What happened to her? Why has she been searching the forests for the past few days?"

Wang Fuxi looked at the Sun Clan again before leaving the area, returning to her own Wang Clan.

.
. .
.

At the Sun Clan, Zhang Fei and Chen Xinyan decided to return to the Zhang Clan, while Feng Xiaofang was still waiting for his wife to return from the northern region.

"Has Xie Jun contacted you, Old Sun?"

"He just contacted me because he just arrived at the Xie Clan, and Xie Shun didn't suspect him at all."

Feng Xiaofang nodded. "In that case, you should order Xiao Luo to take action against the Jiang Clan immediately, and I will help you deal with them."

"Alright."

.
. .
.

Meanwhile, Xiao Meng and Qing Cheng had arrived in the outside world yesterday, and they were waiting in the airport lounge for their plane to depart.

"Are you sure they won't be able to find us there, Meng'er?"

Xiao Meng turned to her mother and held her hand. "Mother, you don't have to worry about them, okay? We'll stay in Harbin for a while, and we'll return to this city once the situation has calmed down."

"I haven't seen you in a while, so we'll have fun together in the city."

Chapter 313: Yi An's Confession

Sun Qian contacted Tang Xiao to discuss his next plans with the Jiang Clan, but he told her that he had already provided Xiao Luo with some things so he could start his plan.

Thereafter, Sun Qian contacted Xiao Luo and asked him to take care of Jiang Bai and the Jiang Clan. "Sigh!"

"Why are you sighing to yourself, Father?"

Sun Qian looked at Zhang Xingcai and told her about his plans for the Jiang Clan. "I hope my plan succeeds, and there will be one less heretic clan."

"Do you know where Tang Xiao and the others are training, Father?"

"Xiao'er took them to move around from one forest to another to avoid Wang Fuxi and Long Xianyin, who had been looking for him for the past few days." Zhang Xingcai was disappointed with that because Sun Xiang didn't reply whenever she contacted her. "Xingcai, I know you don't like Xiang'er being in a relationship with him, but you shouldn't bother them now. Your daughter is usually too lazy to train, but he makes her train hard now, so you should be grateful for that."

"I know, Father." Zhang Xingcai left with a disappointed expression.

Sun Qian contacted Fang Xiaorou, and he asked her to bring her two children back because the situation was getting under control.

.

.

.

In the outside world, Yang Ziyue and Lin Yan gather together in a restaurant. "Why are you always gloomy?"

"Nothing."

"Do you like this because of a man?"

Lin Yan denied her with a shake of her head. "Haven't you thought about your family's disappearance?"

"What do you think?" Yang Ziyue asked while shaking her head. "They're my family, and they've been missing for so long, so I keep thinking about them. Unfortunately, I don't know where to look for them because all their friends don't know where they are, and the police also still haven't managed to find any trace of them, as if they disappeared off the face of the earth."

"My brother is the same." Lin Yan sighed. "I've tried to contact Ouyang Ming, but he never answered my calls. I went to the Ouyang House several times, but there was no one there, including Uncle Hong. As for Aunt Yi and Ouyang Qing, they are on vacation in Paris, and I don't know when they will return to our country."

"Since we couldn't find them, we can only hand this matter over to the police." Yang Ziyue took out her smartphone and searched for Tang Xiao's name. 'Where exactly did he go? He hasn't appeared since he met my mother and Lin Xia at my apartment, and he hasn't replied to my messages either.'

After she considered it, Yang Ziyue decided to delete Tang Xiao's number, thinking that he didn't want to see her again.

"Are you leaving now?"

"I'm no longer as rich as I was in the past, and I have to work to make ends meet, so I'm going back to the office now."

"Alright." After Yang Ziyue left, Lin Yan took her smartphone and looked at all the messages she had sent to Tang Xiao, but he didn't reply to any of her messages and didn't contact her back. "Has he forgotten me now? I've looked for him many times at the Ouyang House, but I've never been able to find him there, and the people there say that he never returned there after Aunt Yi decided to divorce Uncle Hong."

Once again, Lin Yan sent a message to Tang Xiao and asked him to meet, and he left the restaurant afterward.

.
. .
.

In the apartment, Ouyang Hong was sitting naked with an angry expression after he remembered Yi An. His smartphone suddenly rang, and he immediately picked it up. "What's the matter?"

"The judge has decided on your divorce from Yi An, so you two are officially divorced now, but I have some bad news for you."

"What kind of bad news?"

"Did you give all your wealth to Yi An as compensation?"

"What do you mean by that?"

"When you signed the divorce documents, you also signed a deed of handing over all your wealth to Yi An." Ouyang Hong abruptly stood up, his expression completely shocked. "You have nothing now because all your assets will be handed over to her soon, including your company, house, and all your savings. I checked your signature, and it's real, so you've lost everything now."

Ouyang Hong immediately hung up the phone and sat back down. "How is this possible? I don't remember signing any of those documents, including the one handing over all my assets to that bitch."

Hearing that, Su Rou, who had just finished having sex with Ouyang Ming, immediately got off him and walked to Ouyang Hong's side. "What did you mean by what you just said?"

"I've lost everything, so I'm broke now."

Su Rou was shocked to hear that. "What exactly happened? How could you lose everything?"

"I don't know; I don't remember signing all those documents, and all my wealth has fallen into that bitch's hands now."

Su Rou frowned. "Are you going to see Yi An now?"

"That bitch is in Paris with our daughter, and I don't know when she'll be back in the country."

'Tch! What a useless man!' Su Ruo bit her finger and thought about her future. Since Ouyang Hong had lost everything, he could no longer fulfill all her needs, and she thought of looking for another man who was richer than him. "Aren't you going to take care of this matter? Are you going to let that bitch take all your wealth just like that?"

Ouyang Hong took his smartphone, trying to contact Huang Xiaoming and all his acquaintances. However, Xiao Ai had long hijacked his number, preventing him from contacting anyone. "None of them answered my calls."

'He is no longer useful to me, so I have to leave him and his son as soon as possible.'

"I'm going to see Huang Xiaoming, and I won't be back for a few days." Ouyang Hong went straight to his room to get dressed, and he left his apartment right after.

Su Rou looked at Ouyang Ming, who had already fallen asleep from exhaustion. She immediately went to her room to pack her personal belongings and then left the apartment.

.

.

"Have you been able to meet Tang Yin?"

Lin Yanxiu sighed heavily and sat beside her husband. "Tang Yin has been abroad for almost three weeks, and the people at Tianmei don't know when she'll return to the country."

"What exactly is she doing abroad? Why is she staying there for so long?"

"I don't know what Tang Yin is doing there, as everyone at her company is unaware of it, and Tianmei is now supervised by a young girl named Xiao Ai."

"Xiao Ai?"

"She said that she was Tang Yin's confidant, and she asked her to take care of Tianmei until she returned to this country."

Lin Yanxiu hugged him. "Husband, you did lose 55% of your company's shares, but at least our family is still fine, so I hope—"

"Fool!" Zhao Teng shouted as he stood up. "No matter what happens, I must take all my shares back from that damned little girl."

Lin Yanxiu could only sigh as she watched her husband leave. "Is his wealth the only thing that matters to him?"

.

.

.

"Why are you smiling to yourself so early in the morning?"

Yi An turned to Meng Xin. "My lawyer just texted me, and he informed me that my divorce is final, so I'm a free woman now."

"Haha," Meng Xin sat on the bed and hugged her. "Congratulations! You're finally free from hell, and you can find a better man than Ouyang Hong after this."

"I have been waiting for this day for a long time, and I can feel relieved that we are divorced now." Yi An looked at her thoughtfully. "Hey! I've been wanting to ask you a question for a long time, but I've always hesitated to ask."

"What do you want to ask me?"

"How do you feel about Feng Xiao?"

Meng Xin was taken aback for a moment. "Feng Xiao is a good man, and he's also gentle, unlike Yao Wei and Ouyang Hong."

"Do you like him?"

"I kissed him when he drove me to the airport that time, and I asked him to wait for me to return. However, I'm hesitant to see him again because he already has a girlfriend, and I don't want to be the third wheel in their relationship."

Yi An hesitated to confess the truth to Meng Xin, but she ultimately told her best friend about her relationship with Tang Xiao. "Actually, I made the bold decision to divorce Ouyang Hong because of Feng Xiao."

"Oh? How did that happen?"

"I want to tell you something, but you might be shocked to hear it." Yi An grabbed her hand. "Honestly, I've been in a relationship with Feng Xiao for a long time, and I've already met his wife."

"Huh?" Meng Xin was shocked to hear that, and she blinked repeatedly. "Are you serious about that? Are you really in a relationship with Feng Xiao?"

"Yes," Yi An acknowledged with a nod, and she told her best friend about the process of her relationship with Tang Xiao, which started with a massage session. "I liked his gentle treatment and attention to me, and we've had sex many times since then."

Meng Xin was completely shocked after hearing all this, and she never expected a woman like Yi An to have a relationship with a chauffeur before her official divorce. "Will you stay with Feng Xiao after this?"

Chapter 314: Future Plans

"Yes," Yi An answered determinedly. "At first, I was hesitant about being with Feng Xiao, and I thought I would end our relationship after I divorced Ouyang Hong. However, he told me many things and introduced me to his wife, which made me change my mind. Since his wife was willing to welcome me with open arms, I decided to be with him, and I believe that my decision this time will not be wrong."

Meng Xin suddenly remembered something. "Wait a minute! When did Feng Xiao get married? What was his wife's name? As I recall, he had a girlfriend when we last met, but they weren't married at that time."

"In fact, Feng Xiao has two wives, but he hasn't told me about his first wife, and his second wife is Xing Xing." Meng Xin was dumbfounded to hear that Tang Xiao already had two wives. "I've met Xing Xing before, and we've spent time together. They agreed to share him with another woman because he was too strong in sex, and I had already proven that myself after doing it with him many times."

Meng Xin was even more dumbfounded after Yi An said that, as she didn't know Tang Xiao well, and her actions at that time were due to her sadness. She had spoken to Tang Yin on the phone, but they only spoke for a few minutes and never spoke again after that. "Is Feng Xiao really that strong when it comes to sex?"

"Hehe," Yi An giggled. "He was so strong that I felt overwhelmed every time we had sex. Luckily, he was very understanding of me, and he immediately stopped when I was exhausted. If you don't believe me, you can see for yourself when we get back to our country. If you are worried about his two wives, I will ask him to take us to meet them, and they will definitely agree to that."

"Phew," Meng Xin exhaled softly. "I've been thinking about Feng Xiao all this time on vacation, and I really want to be with him, but I'm worried that my presence will ruin his relationship with his girlfriend. She told me that she has no problem with him looking for another woman, but I don't feel comfortable being the third wheel in their relationship. However, you told me that he already has two wives, and you're already in a relationship with him."

Yi An embraced her. "Let's meet them once we return to our country, okay? I know you like Feng Xiao, and I don't want you to regret your decision, so you should make a decision after we talk to them."

"Yeah," the two women suddenly heard Ouyang Qing calling them outside the room. "Let's get ready now, and we'll go have some fun together."

"Have Dong Wutian and Gong Qingyan returned to our country?"

"They're returning to our country tonight."

"I see." Yi An thought about Dong Wutian's reaction when he discovered that Gong Qingyan was having an affair with Ouyang Hong. 'What will he do once he finds out everything?'

.

.

.

After receiving Sun Qian's orders, Xiao Luo immediately went to the Jiang Clan. He went straight to see Jiang Bai, but he was meeting a guest and asked him to go to his study first.

When he entered the room, Xiao Luo first made sure no one was watching him. He immediately took out a pill, crushed it into powder, and mixed it into the water jug on the table.

After he waited a few minutes, Jiang Bai arrived in the room and sat behind the desk. Without realizing his best friend's actions, he drank water from the jug. "What about your plans for Sun Qian?"

"Failure." Jiang Bai raised an eyebrow. "I don't know what happened that night, but we were in pain and hallucinating. Xie Jun decided to postpone our plans and return to the Xie Clan directly, so I'm still waiting for their orders."

"Could it be that someone did something to you guys that night?"

"We didn't detect any other presence that night, and I checked everything, but we couldn't find anything, which baffles me."

Jiang Bai nodded slightly. "Wang Fuxi and her subordinates are keeping watch over the Sun Clan, so you can't possibly move by yourself. If she learns of the Xie Clan's plans, she'll realize we've joined them, and she'll kill us immediately."

"I'm worried about that too, and my Xiao Clan will be destroyed if Wang Fuxi finds out about our plans."

After discussing a few topics, Xiao Luo left the room with a slight smirk on his face and informed Sun Qian that Jiang Bai had already been affected by Tang Xiao's pills, so they just needed to wait for the effects.

Jiang Bai was still unaware of Xiao Luo's actions because Tang Xiao's pill was odorless and tasteless, and he immediately went to his room to cultivate, which would speed up the effect of the pill.

.
. .
.

The night passed quickly, and Tang Xiao asked everyone to rest.

Tang Yin led all the women to the river to wash off the beasts' blood stuck to their bodies.

Tang Yuan and Feng Yao joined them, while Tang Huang and Mu Lin stood guard in separate locations to protect them.

As usual, Xiao Bai brought a beast corpse back to their camp, and Tang Xiao immediately sent it into the ark so Xiao Ai could process it. "Did you enjoy your training in this forest?"

"Hehe," Xiao Bai rubbed her head against Tang Xiao's leg. "Master, there are many strong beasts here, but I can handle them easily."

Tang Xiao smiled and rubbed her head. "If you encounter beasts that are much stronger than you, don't force yourself to fight them. You can call me directly, and I will come to your aid."

"Yes, Master." Xiao Bai then walked to the river. "Master, I will join them to clean the blood on my fur."

After Xiao Bai left, Tang Xiao opened the map and checked the Jiang Clan, especially Jiang Bai. "He's already taken the pill, so I just need to wait for it to take effect, and the Jiang Clan will collapse with his death."

[Master, everyone refused to help Ouyang Hong because of my threats, and he was frustrated because he couldn't return to the Ouyang House. Besides, Su Rou decided to leave him and Ouyang Ming, and she is having fun with another man now.]

Tang Xiao was not surprised by Su Rou's decision to leave them, especially since Ouyang Hong had nothing now. "If it weren't for Long Yin, I would have killed him long ago, and Yin'er could have killed Ouyang Ming. What about Yi An and the others?"

[They are having fun in Paris and celebrating the divorce of Ouyang Hong and Yi An, Master. Ouyang Qing sent you a message, and she attached her naked photo to tease you.] Tang Xiao smiled to himself when he heard that. [As usual, Lin Yan sent you a message, asking if you were bored with her. By the way, aren't you going to see Long Xianyin? She's been looking for you since morning, so I'm sure your Heart-Seizing Technique has already taken full effect on her.]

Tang Xiao didn't care about Lin Yan, and he thought about whether he should meet Long Xianyin or not. He was sure that she had already suspected he was using some kind of technique on her, and since her cultivation level was much higher than his, she could easily kill him. "I won't meet that woman now, and I will meet her in the future when our cultivation is equal. At that time, I will do something to her and her brother, and I will make them regret their decision to help Ouyang Hong nineteen years ago."

Sometime later, all the women had returned to their camp, and Tang Xiao asked them to rest. He wanted to dual cultivate with Tang Yin and Xing Xing, but the two women had been training hard all day, so he decided against it.

"What are you thinking, Xiao'er?"

Tang Xiao pulled his paternal aunt to sit beside him. "I'm thinking about my next plans in the Canglan Realm, and I'm thinking of joining a sect there."

"A sect?"

"Yes," Tang Xiao nodded at her. "Unlike here on Earth II, there are so many sects in the other cultivation worlds. I'm thinking of joining one in the Canglan Realm so I can further hone my skills as a cultivator, and I will defeat those two people in the future."

"What kind of Sects are you referring to? Does that sect have anything to do with dual cultivation?"

"Haha," Tang Xiao softly laughed. "There are many dual cultivation sects out there, but I'm not interested in joining them. Instead, I want to join a universal sect, and I'll learn many things there, such as swordsmanship and others."

Tang Yuan nodded in understanding. "If that's the case, I'll join a sect there too, but Xiao Ai doesn't have any clear information about the Canglan Realm, so I'll wait until we get there before making a decision."

"I was thinking of seeking information first in that realm, and I'll choose a sect that suits me afterward." Tang Xiao clenched both fists. "I can't wait to go to that realm, but their abilities are still too minimal, except for you, Yin'er, Qingge, and Yan'er. I hope their fighting abilities will improve after we finish training in these forests so they won't have too much trouble adapting to the situation in that realm."

"I think that's a great idea." Then, Tang Yuan asked him. "What about Ran Xue and Ran Yue?"

Chapter 315: Seclusion End I

"Xiao Ai brought them into the ark to cultivate there and train in the training ground every day, but their progress was too slow because they were busy with their college affairs, so they only cultivated and trained for a few hours every day." Tang Xiao looked at his paternal aunt as he remembered Feng Yao's words a few days ago about Tang Yuan's feelings for him, and he wanted to ask her about it, but he immediately thought better of it. "I'll go practice again, Aunt Yuan."

Tang Yuan let out a soft sigh after Tang Xiao disappeared because he was overexerting himself, but she was pleased with his seriousness in cultivation. She believed he would become powerful in the future, especially after they went to the Canglan Realm.

Tang Yuan looked at her best friend, who had just sat beside her. "What are you thinking about, Yao?"

"Nothing." Feng Yao shook her head slightly. "So, when will you all leave for the Canglan Realm?"

Tang Yuan embraced her. "I'm sorry, Yao. I wanted to persuade Xiao'er to take you and your family to the Canglan Realm, but those facilities belong to him, so I don't feel like I have any say."

"You don't need to apologize to me, because everything is my fault." Feng Yao lowered her head. "If only I hadn't acted on my impulse a few days ago, he wouldn't have been angry with me."

"How about you have a heart-to-heart talk with Xiao'er and apologize to him? If you apologize to him and admit your mistake, he might forgive you."

Feng Yao thought for a moment. "He's serious about his training, so I won't disturb him now, and I'll talk to him when he's finished his training."

"I think that's good too." Tang Yuan lifted her to her feet. "Let's guard and protect them from those wild beasts."

"Alright."

.

.

.

"Brother Xianyun."

Miao Xianyun turned to Shen Ling. "What's wrong, Ling'er?"

"Can you take me to an area with stronger beasts?"

"No."

"Why?"

"Sigh." Miao Xianyun sighed to himself. "Ling'er, I know you want to become strong, but everything takes time. You won't become strong by forcing yourself; instead, you'll die if you don't understand your own strength. You still have difficulty fighting wild beasts in this area, so I won't take you to areas inhabited by powerful wild beasts. The world of cultivation is different from the outside world, and you will get lost if you are not patient. If you lose your path of cultivation, you will turn into a heretic cultivator, and worst of all, you will die before achieving your goal."

"Are heretic cultivators so strong? Why are all the cultivators on Earth II so afraid of them?"

"Ordinary and heretic cultivators are equally powerful; the only difference between the two is their cultivation methods and techniques. Those heretic cultivators use vile and vicious methods, and they won't hesitate to kill anyone who gets in their way, just like when they killed many members of my Miao Clan." Miao Xianyun grabbed her shoulder and carried her onto the back of his contracted beast. "Ling'er, I warn you not to take the heretic path because it will harm you, and you will die a terrible death if you do. Do you understand?"

"I know, Brother Xianyun."

Some time later, they arrived at the Miao Clan, and Shen Ling immediately went to her room to clean herself up and rest.

"How is the little girl doing, Son?"

Miao Xianyun shook his head at his father. "Ling'er's been having trouble concentrating these past few days because she's been thinking about Brother Feng, and she's also been constantly thinking about how to avenge her family's death. She previously asked me about heretic cultivators, but I warned her not to take that path."

"Is she really thinking of taking the heretic path?"

"I don't know, Father." Miao Xianyun looked into the distance. "I hope Ling'er will let go of the grudge in her heart, as her family's death was a result of their own mistakes, and she cannot blame others for it. If she continues like this, I'm afraid her grudge will blind her mind and heart, and she will choose a heretical path in the future."

Miao Cangyu agreed with that. "If that little girl truly chooses a heretical path in the future, I will speak to our ancestor and ask for his permission to kill her before it's too late."

"I'll go back to my room first, Father."

.

.

.

Time passed quickly, and morning had arrived. A huge commotion broke out in the Jiang Clan, especially after the clan members found Jiang Bai dead in his room.

The people of the Jiang Clan called a physician to examine Jiang Bai's corpse, but he could not find anything inside, and he concluded that he died of natural causes.

News of Jiang Bai's death quickly spread throughout the city, and people from other clans connected to the Jiang Clan went to pay their respects, including Xiao Luo and people from the Xiao Clan.

Jiang Bai's death sparked conflict within the Jiang Clan because his only son, Jiang Sheng, had already died. Since he had no other heirs, people from the clan began whispering about who would be the next patriarch. As for his wife, she lost her role in the clan and considered returning to her own clan after her husband's funeral.

Song Han and Xiao Luo reported Jiang Bai's death to Xie Shun, which shocked him. He ordered Xie An to go to the clan to investigate his death and appoint a new leader, especially since he still needed the clan.

.

.

.

Sun Qian received news of Jiang Bai's death from Xiao Luo, and he was relieved that no one could find out the cause of his death, but he realized that his death would not have much impact as long as the Xie Clan still existed.

Sun Qian informed Feng Xiaofang and his family about Jiang Bai's death, and they were also happy to hear the news because they had one less enemy.

Feng Xiaofang asked Sun Qian not to order Xiao Luo to do anything to the other clans until the furor over Jiang Bai's death had subsided; otherwise, the Xie Clan would become suspicious and attack them directly.

.

.

.

In the Wang Clan, Wang Fuxi and Wang Jishan also heard the news of Jiang Bai's death, but they did not expect that his death would be so fast, and no one knew the main cause of his death.

Wang Fuxi decided to go to the Sun Clan to ask Sun Qian about the matter, and the old man was forced to tell her that Wu Ming gave Xiao Luo a pill that he used to kill Jiang Bai.

Wang Fuxi was curious about the pill, but she was even more curious about Wu Ming's identity. Unfortunately, she still didn't know that Wu Ming and Tang Xiao were the same person, and she tried to search for him in the forests.

Tang Xiao himself had been monitoring Wang Fuxi's movements through the map, and Sun Qian had also informed him that the woman would try to find him, so he took everyone away from the central region to prevent her from finding them.

.

.

.

Long Xianyin, who decided to stay in the region to look for Tang Xiao, also heard the news of Jiang Bai's death. She was unconcerned about his death, and she was more concerned with finding Tang Xiao. The effects of his Heart-Seizing Technique lingered on her, causing her discomfort and emotional turmoil.

Like the previous days, Long Xianyin searched for Tang Xiao in all the forests in the central region, but she didn't know that he had already taken everyone away from the region to avoid her and Wang Fuxi, which made her even more furious with him.

Since she's been gone for a few days, Long Xianyin eventually gave up on searching for Tang Xiao and decided to return to the Long Clan, hoping that the effects of his Heart-Seizing Technique would wear off on their own.

.

.

.

In the outside world, Ouyang Hong returned to the Ouyang House in despair after none of his friends were willing to help him. News of his downfall had spread quickly, and those who had helped him had chosen to cut ties with him because he no longer had anything, including Huang Xiaoming.

Ouyang Hong had tried to contact Yi An, but she always rejected his calls and didn't reply to his messages. She eventually blocked his number so he couldn't bother her anymore.

When Ouyang Hong arrived at the Ouyang House, Yi An's lawyer and several policemen were already waiting for him there. They asked him to pack up and leave the house he had lived in for years, as it was already the property of his ex-wife.

Ouyang Hong did not argue with them and went to pack all his personal belongings, including the item that Long Yin had given to his ancestor to ask for help.

As for Ouyang Ming's belongings, Yi An's lawyer left all his things there because he was her son, and he was waiting for her to come back to decide everything.

Yi An guessed that Tang Xiao had done everything for her without her knowing because she already knew his identity as a cultivator, and she immediately sent him a message to inquire about it.

Xiao Ai, on behalf of her master, replied to Yi An's message to confirm it.

Xiao Ai's reply made Yi An impatient to return to their country and meet Tang Xiao, but she was worried that Ouyang Hong would bother her if she returned too soon, and she decided to continue her vacation.

Chapter 316: Seclusion End II

Ouyang Hong felt disappointed upon returning to his apartment, as Su Rou had decided to leave and had deliberately blocked his number. All the women he had been having affairs with also decided to leave him because he had fallen into poverty, further frustrating him.

Ouyang Ming was the same as his father, and he was disappointed with Su Rou's decision to leave them. Since his father seemed so frustrated, he decided to leave the apartment and return to the Ouyang House, afraid that his father would take his anger out on him.

Ouyang Hong, who was frustrated with his situation and had no way out to fix everything, started to fall into despair and started drinking alcohol to relieve his frustration.

Unlike them, Yi An and Ouyang Qing spent their time enjoying themselves in Paris, accompanied by Meng Xin. The three women ignored matters back home, choosing to spend their time in joyful pursuits.

.
. .
.

In the northern region, Tantai Lingyan decided to meet Bing Wen and Bing Qing to teach them proper martial arts, which of course was at Tang Xiao's request.

Bing Wen and Bing Qing were shocked when Tantai Lingyan came to see them, but they were overjoyed after she explained everything, and they were truly grateful to Tang Xiao for the opportunities he had given them.

Bing Wen and Bing Qing did not waste the opportunity before their eyes, and they trained hard under Tantai Lingyan's guidance.

.

.

.

Elsewhere, Miao Xianyun was increasingly worried about Shen Ling's situation, as she was having difficulty concentrating on her training, and he suspected that she was thinking of taking the heretic path.

Miao Xianyun didn't say anything to Shen Ling because she was a grown woman, and she should be able to decide for herself which choice was best for her. He had advised her several times, but she didn't seem to listen, so he could only hope that revenge wouldn't blind her heart and mind.

Even so, Miao Xianyun asked his parents to contact Miao Yusheng, as he was his ancestor and Shen Ling's master. He hoped his ancestor could advise her so she wouldn't choose a heretical path in the future, which would only be detrimental to her.

.

.

.

Three days later, Long Xianyin arrived at the Long Clan and immediately went to Long Yin to report everything to him. However, he wasn't concerned about external affairs. He said that Wang Fuxi could handle everything herself, and he wouldn't interfere in the matter.

After speaking with Long Yin, Long Xianyin returned to her room. In the past three days, she had hoped that the effects of Tang Xiao's Heart-Seizing Technique would disappear on their own, but her previous assumption was wrong, as it still affected her.

Long Xianyin decided to enter into seclusion in the hope that the effects of Tang Xiao's technique would soon disappear. She asked someone else from the Long Clan to take care of their clan, and she asked that person to report to her only if serious problems occurred within their clan.

.

.

.

On the same day, Xie An arrived in the Central Region and went to the Jiang Clan. He discovered that they had already cremated Jiang Bai's corpse, and his wife had already left the clan.

The people of the Jiang Clan were terrified by Xie An's arrival, and they had no choice but to hand over the decision to elect their clan leader to him. Unfortunately, the situation in their clan would never be the same after Jiang Bai's death, as they had no other cultivator as powerful as him.

Xie An invited people from several clans to come to the Jiang Clan, including Xiao Luo, who reported everything to Sun Qian.

.

.

.

After receiving the information, Sun Qian immediately passed it on to Wang Fuxi. She decided not to take action against Xie An for fear of retaliation from Xie Shun and the Xie Clan, which disappointed him.

Sun Qian told Tang Xiao about Wang Fuxi's decision regarding Xie An, which made him look down on her even more, as she lacked resolve in dealing with the Xie Clan. She repeatedly looked for him in the outside world because he had killed many mortals, but she did not have the courage to fight with those heretics on Earth II.

Tang Xiao told Sun Qian to ignore the Xie Clan for now, as they could monitor the heretic clan through Xie Jun, allowing them to prepare something in case the heretics wanted to act against them.

Xie An didn't stay long in the Jiang Clan, and he decided to leave after the situation in the clan stabilized and a new leader was appointed. He also feared that Wang Fuxi would attack him if he stayed too long in the region, especially with Xie Jun's situation still uncertain due to the effects of Tang Xiao's two pills.

Although the situation in the Central Region was already safe for now, Wang Fuxi decided to stay in the Wang Clan for a while longer, and she left matters in the outside world to her subordinates. Besides, she waited for Tang Xiao or Wu Ming to appear, as she was sure he would return to the Sun Clan again.

.

.

.

Three days later, Feng Shen had brought Yan Huoling back to the Sun Clan, but he immediately flew to the northern region again to meet Tang Xiao and Tantai Lingyan, who were training there.

Yan Huoling contacted Feng Yao and wanted to talk to her about the problem between her daughter and Tang Xiao, but she told her that they had already left the Central Region several days ago.

Yan Huoling gave up and left the Sun Clan together with her husband, Feng Xiaofang, to return to the Feng Clan in the Southern Region.

.

.

.

Time quickly passed; Tang Xiao and the others had been training in the forest for a whole month. Although all the women weren't yet fully skilled in combat, their progress was quite significant due to their constant training from morning to night, and he decided to end their seclusion.

Tang Xiao and Sun Xiang's relationship got better after they spent a month together, but they haven't taken their relationship any further, which was due to Zhang Xingcai's rejection.

After they had finished cleaning up, Tang Xiao sent Xiao Bai, Tang Yuan, Zhao Qing, Jessica, Zhao Yuxian, and Yu Xiaoling into the Primordial Divine Ark. After that, he brought a few people back to the Central Region.

Feng Yao wanted to talk to Tang Xiao, but her parents asked her to return to the Feng Clan after they finished their seclusion, so she decided to go back there.

Since last month, Mu Lin and Chu Lingxi's relationship has continued to improve, and he decided to take her to the Mu Clan. Mu Qingge and Mu Yan decided to go with them because they had been gone for too long, and Tang Xiao considered bringing all their clan members to the Canglan Realm.

Tang Huang brought Tang Yin and Xing Xing to the Tang Clan to meet their clan members, as his grandson had already told him that he would bring all of them to the

Canglan Realm. Even though Tang Xiao had never known people from the Tang Clan, they were his family members, so he would not leave them on Earth II.

.
. .
.

As soon as they arrived at the Sun Clan, Zhang Xingcai took her daughter away with her, leaving Sun Xiang disappointed and grumbling in her heart.

Just like before, Tang Xiao disguised himself as Wu Ming because he believed Wang Fuxi was keeping a close eye on the Sun Clan for him.

Sun Qian introduced Tang Xiao to Sun Wei, Fang Xiaoru, Sun Yang, and Sun Yue. He asked them to address him as Wu Ming, preventing Wang Fuxi from discovering his true identity.

"What's your next plan, kid?"

"For now, I will return to the outside world to settle some matters, and I will take my family to the Canglan Realm in a month." Sun Qian and his family were no longer surprised to hear that because they had long known everything from Tang Huang's explanation. "Grandpa Sun, I would like to invite you and your family to join us, and you can cultivate faster in that realm."

"Eh? Do you really want to take us to that realm?" Sun Yue asked in surprise.

Tang Xiao nodded at her. "The Sun Clan is an old friend of my grandfather's, and the two clans are like family, so I want to take you all to that realm. Besides our two clans, I'm also thinking of bringing members of the Zhang Clan there, but I haven't discussed this matter with Grandpa Zhang yet."

"Are you also going to take the Mu Clan to that realm?"

Tang Xiao smiled at Sun Wei. "Uncle Wei, Mu Qingge is my future wife, and the Mu Clan will be my family after we marry, so I will take them there too."

"I see."

"What do you think about that, Grandpa Sun?"

Sun Qian thought for a moment before answering Tang Xiao. "I already learned about the realm from your grandfather some time ago, but your decision to take us there was

so sudden. Even so, I think a month is enough to take care of and pack everything, but you have to do one thing first before I make a decision on this matter."

"Aunt Xingcai."

"Yes." Sun Qian nodded at him. "Xingcai might not be willing to go with you, and she's always been loyal to my family, so I can't possibly leave her here alone."

Tang Xiao nodded in understanding. "I'll try talking to Aunt Xingcai first, Grandpa Sun."

Chapter 317: Talk To Zhang Xingcai

"Mother, what—"

Zhang Xingcai waved her hand and asked back, "What have you done with him?"

"Huh? What do you mean by that?" Sun Xiang was puzzled.

Zhang Xingcai narrowed her eyes. "Have you done anything intimate with him? I'm sure you two have done something like that, right? You've been together for a whole month, and he's a playboy with many women by his side."

"Mother, do you really think I'm a shameless woman with no self-respect?" Sun Xiang'er asked with a sad expression in response to her mother's question. "He does have several wives, but you don't know him, and you think negatively of him simply because of your differences in principles. He has kissed me many times, but we have never done anything like that."

"Is that true? Have you two really never done anything intimate before?"

Sun Xiang felt even more sad because her mother didn't believe her. "Mother, did you ever believe me? I told you the truth, but you keep thinking that I did that kind of thing with him."

"Xiang'er, I—"

"I don't want to hear anything from you." Sun Xiang shook her head vigorously. "You gave birth to me and raised me, but you never understood my feelings, and you always imposed your life choices on me. I already said that I never did anything intimate with him, and we were fully focused on our training, but you were too selfish to believe me."

"Xiang'er." Sun Xiang hurriedly ran away from the place, which shocked Zhang Xingcai because she couldn't stop her daughter. "How can she move that fast?"

"She's been training hard, you know?" Zhang Xingcai frowned at Tang Xiao, who suddenly appeared in front of her. "You're her mother, but you never try to understand your daughter's feelings."

"Isn't all this your fault?" Zhang Xingcai asked back in a harsh tone. "If you hadn't forcibly kissed my daughter, she wouldn't be like this now. My daughter never acted like that before she met you, and she always listened to me."

"I admitted I was wrong to forcefully kiss Xiang'er, but do you really think Xiang'er always listens to you? Why does she prefer to stay in the outside world rather than in this clan?" Zhang Xingcai started to get angry. "I know she doesn't like the life of a cultivator, but you and the people of this clan are her mother and family. If you truly understood her feelings, I'm sure she wouldn't choose to live far away from you. Unfortunately, you were too selfish to understand her feelings, so she decided to live apart from you for her own peace."

"You—"

"Listen to me first, Aunt Xingcai." Tang Xiao interrupted her directly. "My mother died when I was five years old, but I still remember how she treated me and my big sister in the past. Compared to you, she cared about us and understood our feelings, and she never forced us to be like her or my father; instead, she gave us the freedom to choose our future."

"Humph!" Zhang Xingcai shouted at him. "If your mother was like that, she wouldn't have prohibited Uncle Huang and Tantai Lingyan from teaching the two of you to cultivate, and the two of you would never have experienced such an incident."

"You're not wrong about that, but you forgot that my late mother was an ordinary human, and she didn't know anything about cultivators before marrying my late father. She had heard everything about the world of cultivation from my late father, and she didn't want us to live in such a harsh and cruel world. She wanted us to live peacefully as ordinary humans, so she begged my grandfather and Aunt Yuan not to teach us to cultivate. Regarding what happened to Yin'er and me in the past, we never blamed her for her decisions. Even though we had some bad experiences, we managed to get back up, and we have taken revenge on almost all of them." Since Zhang Xingcai was silent, Tang Xiao immediately continued. "I understand and respect your decision to be loyal to your late husband, but Xiang'er is not you, and she will never be like you. Even if she is willing to follow your wishes, she will always be unhappy and frustrated with herself, and you might lose her forever one day."

Zhang Xingcai looked at Tang Xiao silently as she thought about his words just now, but she remained firm in her stance, and she still refused to accept Sun Xiang having a relationship with him.

Tang Xiao himself was in no rush to take his relationship with Sun Xiang to the next stage, so he decided to let Zhang Xingcai think about his words first. "By the way, I was planning to bring all the members of the Sun and Zhang Clans to the Canglan Realm, but Grandpa Sun said that he won't leave without you, and he asked me to persuade you first. I understand that you dislike me because of my polygamous relationship, but this is a good opportunity for everyone, so I hope you won't be selfish and will be willing to go to that realm."

After saying that, Tang Xiao immediately left Zhang Xingcai and went to the Tang Clan, as Tang Huang asked him to go there so their clan members could get to know him.

"Does he really want to take us to that realm?" Zhang Xingcai ran out of her room to meet Sun Qian.

.

.

.

"Father!" Sun Qian turned to Zhang Xingcai. "Does he really want to take us to that realm?"

Sun Qian nodded at her. "He does want to take everyone from our two clans to that realm, but I know your dislike for him, so I asked him to speak to you first. If you don't want to go there, we'll stay in this city, so the decision depends on your answer."

"Aunt Xingcai, I know you don't like him, but I hope you won't be selfish for the sake of many people." Zhang Xingcai looked at Sun Yue. "Going to that realm is our best chance to become stronger, and this opportunity will not come twice. Therefore, I hope you are willing to go there, regardless of your dislike for him."

Zhang Xingcai looked at Sun Wei, Sun Yang, and Fang Xiaoru, who looked excited to go to the Canglan Realm with Tang Xiao. She didn't want to get too close to him or be indebted to him, but she didn't want to disappoint too many people. "Okay, I agree to go to that realm, but when will we leave for that realm?"

"In a month."

"Eh? Are we really leaving in a month, Father?"

Sun Qian nodded at her. "That kid wants to become strong as quickly as possible, and he feels that he'll be wasting too much time staying here, so he wants to leave for that realm in a month. A month is short, but I think it's enough to settle all our affairs here. Since you've agreed to go there, I'll ask the people of this clan to take care of everything from now on."

"What about my family, Father?"

"I've asked your parents to come here, and I'll talk to them."

Zhang Xingcai nodded in understanding. "I'll go see Xiang'er first, Father."

"Xingcai, leave Xiang'er alone for now." Zhang Xingcai was confused. "She's angry and disappointed with you, so you should let her calm down first, and I'll talk to her later."

"Yes, Father."

After Zhang Xingcai left, Sun Yang and Sun Yue also went to pack their things. Sun Qian instructed Sun Wei and Fang Xiaoru to take care of some matters, especially the shop and everything else they owned.

.

.

.

Sun Qian went to see Sun Xiang, who was daydreaming in her room. "Xiang'er."

"Hmm?" Sun Xiang turned to her grandfather. "What's wrong, Grandpa?"

Sun Qian sat next to her and embraced her. "Do you like Xiao'er?"

"I—" Sun Xiang did not continue her words and nodded to him.

"I see." Sun Qian nodded slightly. "I have no problem if you like Xiao'er, but your relationship won't be easy, and you both have to convince your mother to accept it."

"How should we convince her, Grandpa?" Sun Xiang hugged him. "She hates polygamous relationships, and she said she would never approve of our relationship. I've never done anything intimate with him, but she doesn't believe me, and she thinks that we've done that kind of thing."

"Haha," Sun Qian laughed and rubbed her head. "Have you ever heard the saying, 'No matter how hard a stone is, it will shatter if it's continuously exposed to water droplets'? Your mother is a conservative woman, and she was loyal to your late father. Although it won't be easy, I'm sure you can change her mind someday."

"Do you think my mother will really change, Grandpa? Will she really be willing to accept our relationship?"

Sun Qian pushed her back and grabbed her shoulders. "Xiang'er, everyone can change; it's just that we need the right method to change someone. As long as you don't give up and keep trying, I'm sure your mother will change someday, and you will find your happiness at that time."

"Thank you, Grandpa."

Sun Qian gently pinched her nose. "You are my granddaughter, and I will do my best for your happiness, so you don't need to thank me. By the way, your mother has already agreed to go to the Canglan Realm, and I've already ordered our people to start packing, so you can start packing your things too."

"Huh? Does my mother agree to go to that realm, Grandpa?"

"Yes."

Chapter 318: Return Outside

Tang Xiao was already at the Tang Clan, and Tang Huang introduced him to the clan members, who numbered no more than thirty people.

They had met Tang Xiao in the past, but he was only a few years old at the time. After his parents died nineteen years ago, Tang Huang never brought him to the clan again, so they didn't know him at all. Even so, they welcomed him warmly because he was a direct descendant of their clan, and he would be their leader in the future.

Tang Xiao was surprised that the Tang Clan's members were so small, and most of them were quite old, with some being as old as his grandfather. He didn't mind their numbers and explained several things to them, including the Canglan Realm.

All of them were shocked to hear about the existence of other planets besides Earth, and they didn't believe Tang Xiao at first. He took out a device that they had never seen before and displayed the Canglan Realm, but unfortunately, Xiao Ai didn't have much information about that realm.

Tang Xiao told them that the quality and quantity of qi in the Canglan Realm was three times better than on Earth, and they could cultivate much faster there, which made them excited and impatient to go there.

Even though they were his family, Tang Xiao didn't want them to know about the Primordial Divine Ark, and he asked Xiao Ai to prepare something for them.

Xiao Ai informed Tang Xiao that there was a type of pill that could be used for this, and everyone would fall asleep during their journey to the Canglan Realm. As long as they fell into a deep sleep, she would take care of them, so he did not need to think about them.

After hearing that, Tang Xiao ordered Xiao Ai to prepare it within a month, and he needed it for people from all four clans.

After everything was done, Tang Huang ordered them to pack up all the important things in their clan, and he decided to stay behind in the Tang Clan to watch over them.

.
. .

Tang Xiao brought Tang Yin and Xing Xing to the Mu Clan, where Mu Lin and Mu Qingge were speaking with their clan members, who numbered less than the Tang Clan—around twenty people.

The people of the Mu Clan were shocked after Mu Lin told them that Tang Xiao was Mu Qingge's future husband, which meant he would be their leader in the future.

Like the people of the Tang Clan, the people of the Mu Clan found it difficult to believe in the existence of other planets besides Earth. They only believed it after Tang Xiao showed them the realm and explained everything to them, which made them excited to go there.

They asked him about how he would take them to the Canglan Realm, but Tang Xiao did not explain to them in detail, and he also did not tell them about the Primordial Divine Ark. He asked them to wait and leave everything to him, and Mu Lin asked them to prepare everything and have it finished in a month.

Mu Lin and Mu Qingge decided to stay at the Mu Clan to oversee their preparations. Mu Yan also chose to stay there for a month, as she wanted to meet her old friends before leaving with Tang Xiao for the Canglan Realm.

Although she didn't have many personal belongings, Chu Lingxi decided to return to the outside world to pack her things. Besides, she wanted to visit her family and old friends to say goodbye, especially since she knew they would never return to Earth.

After that, Tang Xiao took Tang Yin, Xing Xing, and Chu Lingxi away from the Mu Clan. He sent them into the ark first before heading to the portal's location, allowing him to move freely within the void and arrive there more quickly.

.
. .

Zhang Fei and Chen Xinyan had returned from the Sun Clan, and they were overjoyed that Tang Xiao was willing to take them to the Canglan Realm, even though their daughter wasn't yet willing to accept him being in a relationship with Sun Xiang.

Upon returning to the Zhang Clan, Zhang Fei gathered his clan members and ordered them to pack everything. According to the results of his discussion with Sun Qian, he did not explain too much to them, and he only told them that they would be moving in a month.

Although they wondered about Zhang Fei's decision, they immediately carried out his orders and started packing.

Meanwhile, Chen Xinyan explained the Canglan Realm and other details to Zhang Fei's second wife, Han Yueya. Just like other cultivators, she was also shocked after hearing about the existence of other planets, but her sister assured her that the Canglan Realm truly exists, and they will arrive in that realm in two to three months.

"Big Sis Lingyan, isn't Brother Feng out of the woods yet?"

Tantai Lingyan shook her head at Bing Qing. "You don't need to worry about him, and you should focus on your training for the next month. After that, I will leave this region, and I hope you and your brothers will grow into capable cultivators in the future."

"Hehe," Bing Qing giggled as she nodded. "Don't worry, Big Sis Lingyan. I will cultivate and train hard, and I will become a respected cultivator in the future."

Tantai Lingyan smiled. "Let's continue your training."

.

.

.

"Will you continue training here until next month, kid?"

Tang Xiao's clone nodded to Feng Shen. "Senior Shen, you should return to the Feng Clan to pack your things, and you can leave for the outside world the day before our departure."

"Hahaha," Feng Shen laughed. "All my belongings are in my storage ring, so I don't need to return to my clan, and I can leave at any time."

"That's good." Tang Xiao's clone looked at the top of the snow mountain. "Do you think I should meet them?"

"If you want to meet them, I think you can go there the day before we leave."

"I'll think about it first."

.

.

.

Feng Yao had arrived at the Feng Clan, but Yan Huoling immediately took her to her room. "Do you have a problem with Xiao'er? Why does he only want to bring Feng Shen with him to the Canglan Realm?"

"Yes."

"What have you done to make him angry?" Feng Yao didn't hide it from her mother and explained the incident between her and Tang Xiao. "Sigh! It's no wonder Xiao'er is angry with you since you treated him like that, Yao'er! Have you apologized to him?"

Feng Yao shook her head at her mother. "I haven't apologized to him because he's busy practicing from morning until midnight, and we don't have time to talk. He should be back in the outside world today, so I'll go there now, and I hope he'll be willing to talk to me."

"You have to leave now, and you have to apologize to Xiao'er for your actions."

"Okay."

Shortly after Feng Yao left, Feng Xiaofang walked to his wife's side. "What happened between our daughter and Xiao'er?"

"My worries about our daughter's obsession with the late Tang Ye have really come true, Husband." Yan Huoling explained everything to her husband according to Feng Yao's previous explanation. "I had expected something like that to happen, but I didn't expect our daughter would do such a low thing to Xiao'er, which made him angry with her."

Feng Xiaofang could only sigh and hug his wife's waist. "Everything has already happened, so you don't need to blame our daughter. Even though I want to go to the

Canglan Realm, we can't force Xiao'er to take us there. His departure might be a good thing for our daughter, and she might slowly forget about him."

"I hope you're right," Yan Huoling sighed. "I hope our daughter can forget Xiao'er because I don't want her future to be ruined because of her obsession."

"Me too." Feng Xiaofang took his wife away. "Xiao'er will be gone for a few years, and he will come back here when he feels capable of defeating Long Yun and Wang Fuxi. At that time, Earth II will probably experience major changes, and the situation here will be much safer by then."

"Husband, do you think the person in the vision of Old Man Xia is Xiao'er? If he goes to the Canglan Realm and cultivates there for a few years, I'm sure he'll be truly powerful when he returns, and he might have the strength to break the barrier."

Feng Xiaofang nodded at her. "Whether that person is Xiao'er or not, we will know the answer in the future. Even though he hasn't left for that realm, I can't wait for him to come back, and he should have surpassed all the cultivators here by then."

"When he returns, I hope he will be willing to help us get rid of the heretics, and Earth II will be safe."

"Hahaha,"

After he arrived at the portal, Tang Xiao summoned all the women out of the Primordial Divine Ark, and they returned to the outside world together.

Tang Yin, Yu Xiaoling, and Jessica went to Tianmei. Chu Lingxi and Xing Xing returned to their apartment. Tang Yuan and Zhao Yuxian went to the Tang House. Zhao Qing went to another company.

"Have Yi An and the others arrived in this country, Xiao Ai?"

[They will arrive tonight, Master.]

Tang Xiao nodded slightly and considered his next move. "In that case, I'll go see Lin Yan now to end it all."

Chapter 319: Tang Yin - Yao Yao

Lin Yan, who was about to leave her house, was surprised by Tang Xiao's sudden arrival. She wanted to hug him, but an invisible wall stopped her in her tracks, preventing her from moving forward. "Where—"

"Go back inside." Tang Xiao's cold tone confused Lin Yan.

"Alright." When they arrived inside, Tang Xiao removed his disguise as Feng Xiao, causing Lin Yan's eyes to widen in shock as she staggered backward. "How? How could this happen? How could you be Tang Xiao?"

Tang Xiao strangled her neck. "Do you remember what happened seven years ago?"

"Ugh." Lin Yan was having difficulty breathing, and she tried to remove Tang Xiao's hand from her neck. "Ugh... Let me go... I'll die if you strangle me this hard."

"Wouldn't it be great if you died? If you die, you will reunite with your brother in hell."

Lin Yan was shocked to hear that, and she finally found out the truth that Lin Xia had been dead for a long time. Moreover, her brother's killer was the man she had been sleeping with, and she never realized it.

"Unfortunately, your guess is wrong. I didn't kill your brother, but Yang Chen did, and that guy died at the hands of my big sister."

"Ahh." Lin Yan screamed as Tang Xiao threw her onto the sofa, but she couldn't move or speak because of his restraint. 'Ugh! What happened to me?'

"Seven years ago, Yu Xiaoling gave me sleeping pills, and you guys made it all seem as if I violated the four of you by force, remember?" Lin Yan's face turned pale after Tang Xiao mentioned that incident. "I wouldn't be surprised if Ouyang Qing framed me for doing such a thing, but I didn't expect you to participate in her madness. Did you know that your brother and his friends tried to violate Xing Xing by force years ago? That day, I happened to pass by that alley and saw their actions, so I beat them all up to save her."

Lin Yan's eyes widened because she was unaware of the events that occurred at that time, and she found it hard to believe Tang Xiao's claim that her brother had attempted to violate Xing Xing by force while they were still in middle school.

"You don't believe me, right? I'll show you what happened that night, and you can see everything for yourself." Tang Xiao took out a small device and activated it, bringing up several videos from his memories. "See everything for yourself."

Lin Yan was confused about the device because no country on Earth had one, but Tang Xiao did. She ignored it and watched all the videos that came from the device, which were videos of Lin Xia and his friend trying to violate Xing Xing years ago.

The video ends after Tang Xiao beats up Lin Xia and his friends, but several other videos immediately appear.

Lin Yan was even more shocked when she saw the next video, which convinced her that it was from Ouyang Qing's memories, showing their meeting with Luo Qinlin and Jessica as they discussed a plan to frame Tang Xiao.

"You're right; these videos are based on Ouyang Qing's memories, and it's not difficult for me to obtain her memories because I am her man." Lin Yan looked at Tang Xiao in fear. "Your dead brother and his friends tried to do something cruel to Xing Xing, but I managed to stop them. However, I didn't expect that you and your three friends would do the same to me, and Luo Qinlin would end up violating me while I was unconscious."

Lin Yan tried to open her mouth to plead with Tang Xiao, but she was just an ordinary woman, which made her completely helpless under the restrictions of a cultivator like him.

"Do you know that you are lucky because I am different from your dead brother? If I were the same as him, I would have violated you by force to take revenge on you." Tang Xiao sat beside Lin Yan, looked at her frightened face, and continued. "Because of the actions of the four of you, I lost my hope for my future, and I spent seven years in the cold of prison. Therefore, I used several tricks on you to get you, and I was truly satisfied after enjoying your body multiple times. At first, I wanted to kill you and throw your corpse somewhere else, like Luo Qilin."

Lin Yan trembled violently after Tang Xiao's words, and tears began to fall from her eyes because she feared dying like her brother or Luo Qinlin.

"You're lucky that Xing Xing begged me not to kill you, and I've already had the pleasure of enjoying your body, which led your husband to divorce you. Since we're both even now, I will spare you, and we will never see each other again after this." Tang Xiao turned off the device and put it away. "By the way, you can forget about telling Ouyang Qing about this matter because I can see all your call and message records, even if you use a different number. If you even think about going to her to tell her about this matter, I will send you to reunite with Luo Qinlin in the afterlife."

After saying all that, Tang Xiao immediately entered the void, causing Lin Yan to be free from his restraints and gasp heavily.

"Hah... Hah..." Lin Yan caught her breath, but she was still shocked by Tang Xiao's previous actions and words, making her tears flow even more freely. She lifted her legs onto the sofa, hugged them, and cried louder, regretting her mistakes in the past.

If only Lin Yan hadn't conspired with Ouyang Qing to frame Tang Xiao seven years ago, she wouldn't have experienced all of this, and she wouldn't have lost her husband.

However, regret always came too late, and her life had already become a mess because her husband had already divorced her.

.
. .
.

Meanwhile, Tang Yin sat down with her employees at Tianmei, and she informed them that she would be handing over the company to Nan Xinyue. After all, she would be going with Tang Xiao to the Canglan Realm, and they wouldn't be back for several years, so she wouldn't be able to manage the company.

Liao Yuxi, Lin Qingxue, and Qiao Yumei were shocked by Tang Yin's decision, but she assured them that she would secure their positions in Tianmei, although Nan Xinyue would take care of everything.

After discussing for some time, the three women left the room and waited for the next decision. On the other hand, Yao Yao stayed in the room and asked Tang Yin. "Why did you suddenly decide to hand over the company to Nan Xinyue, Big Sis Yin? Didn't you reject her offer of cooperation some time ago?"

"Yao'er, I'm leaving the country in a month, and I won't be coming back." Tang Yin's answer shocked Yao Yao. "This company is important to me, but I want to pursue a much more important future, and I want to focus on that."

"Where are you going, Big Sis Yin?"

Tang Yin pondered while observing Yao Yao. "Yao'er, I remember you want to go on an adventure in the future, right?"

"I do want to do that in the future, but why are you asking about it?"

"Do you want to go on an adventure with me?"

"Eh?" Yao Yao was surprised to hear that. "Where do you want to go, Big Sis?"

"I'm going to a place that's very far away, and no Earthling can reach that place." Yao Yao was confused by that, but Tang Yin immediately opened her palm and showed her darkness element to her, causing her jaw to drop. "Have you ever heard of cultivators?"

Yao Yao nodded to her. "I've read about them in novels, but aren't cultivators fictional stories?"

"Hehe," Tang Yin giggled. "Do you see this darkness in my hand? I can do this because I'm a cultivator, and—"

"What?" Yao Yao hurriedly covered her mouth with her hand. "Are you serious, Big Sis? Are you really a cultivator?"

"I'll show you something else."

Yao Yao ran away in fear after Tang Yin transformed into a female demon, hiding behind the cupboard. "Big Sis... How? How did you become a demon?"

"Haha," Tang Yin laughed, seeing Yao Yao's timid behavior. She returned to her human form and spoke to her. "You don't need to be scared like that, okay? I'm not a real demon, and I use my technique to turn into one because I am the owner of the darkness element."

Yao Yao blinked her eyes several times as she looked at Tang Yin, confirming that she was not a demon. She carefully walked over to her and groped her body. "How did you become a cultivator, Big Sis? What is the darkness element?"

"I became a cultivator because of my brother."

"Your brother? Tang Xiao? Didn't he die in prison?"

"Xiao'er managed to escape death because Xiao Ai and her late master saved him." Yao Yao was stunned, but Tang Yin pulled her to sit with her. "In the world of cultivation, there are various elements, one of which is the darkness element. Even though not all of them are heretics, those who possess the darkness elements are often labelled as heretics due to stereotypes and prejudice."

Yao Yao was confused by this because she had never heard anything about cultivators and the like except from novels, but her expression couldn't hide her eagerness to become one. "Can I really become a cultivator like you, Big Sis?"

"Yes," Tang Yin nodded at her. "You have the primary requirement to become a cultivator, which is cultivation veins."

Chapter 320: Settle Their Affairs

After discussing it with Tang Xiao, Tang Yin decided to bring Yao Yao into the Primordial Divine Ark. The interior and all the equipment inside the ark shocked her greatly, as no country on Earth had them, including those superpower countries.

Yao Yao was even more shocked when a flying car stopped in front of them, and Tang Yin took her into it to go to the laboratory.

Tang Yin could teach Yao Yao to cultivate manually, but she felt that it would take time, and it would be much faster if Xiao Ai helped her become one. Along the way, she explained many things to her, especially about cultivators and the ark.

"Hehe," Xiao Ai giggled after the two women arrived at the laboratory. "Since my mistress has already explained everything to you, I won't waste any more time on it. For now, you must take off all your clothes and lie down inside the glass capsule, and I will help you become a cultivator."

Yao Yao started to take off her clothes. "Honestly, I'm still in shock about everything, including your identity as an AI and your android body, Xiao Ai."

"You don't need to rush with everything, and you will know more things in the future." After she was naked, Yao Yao immediately entered the glass capsule, and Xiao Ai began to help her become a cultivator. "Mistress, my master has already met Lin Yan and broken off relations with her."

Tang Yin nodded slightly. "Now, we just need to wait for Yi An and Ouyang Qing to return, and I want to see the reactions of the two women when they find out their true identity."

"Ouyang Qing will probably be shocked to death, Mistress." Tang Yin smirked at the thought. "Seven years ago, she framed him and caused him to spend seven years in prison. Seven years later, she fell in love with him and slept with him dozens of times."

"Haha," Tang Yin laughed softly. "Ouyang Qing's reaction will be interesting when she finds out about everything, and she'll probably feel deep regret. Unfortunately, it's all too late, and she won't be able to escape her fate. I don't know Yi An's reaction after finding out everything, but I hope she can accept the fact that her daughter's character is terrible, and she is no different from her father."

"Are you going to see Nan Xinyue now, Mistress?"

"I'll pick up all the ingredients at the factory, and I'll go see Nan Xinyue afterward." Tang Yin looked at Yao Yao, who was already asleep in the glass capsule. "You know what you have to do to her, right?"

"Leave everything to me, Mistress."

After that, Tang Yin went to the factory, collected a large amount of materials, and then left the ark.

.

At the apartment, Chu Lingxi and Xing Xing were busy packing their things. "Mom, how is your relationship with Uncle Mu Lin?"

"Why do you ask that, Xing'er?"

"Do you like him?"

Chu Lingxi stopped and looked at her daughter. "He's a kind, patient, and loving man. We have a good relationship now, and I like him, but I haven't thought about taking things any further."

"Mom, I think you shouldn't delay your relationship with him for too long, and I think you should accept him if he asks you to be his wife later."

"Why do I feel like you're more impatient than me, Xing'er?"

Xing Xing sat beside her mother and held her hand. "Mom, my father passed away a long time ago, and you raised me by yourself for so many years. I'm an adult now, and I'm married to my husband, so it's time for you to find your happiness. Uncle Mu is a wise and kind man, so I'm sure he will make you happy in the future."

"I know that, but—"

"No buts, okay?" Xing Xing interrupted her. "You've suffered for so many years raising me, so I want you to think more about yourself and your happiness now."

"Are you really okay with me being remarried?"

"Hehe," Xing Xing hugged her mother. "Mom, why should I have a problem with that? Moreover, Sister Qingge is Tang Xiao's future wife, remember? If you marry Uncle Mu, we will be one big family, and I'm sure everyone will be happy with that."

Chu Lingxi smiled and hugged her daughter. "Actually, Mu Lin already asked me to marry him some time ago, but I asked him for time to think about it first. Since you have no problem with our relationship, I will accept his proposal then."

"Hahaha," Xing Xing laughed happily when he heard that. "That's great, Mom!"

"Let's pack our things, and we'll go see our families afterward."

"Yeah."

.

.

.

"Are we really leaving Earth, Mom?"

"Are we never coming back here again, Mom?"

Zhao Yuxian nodded to her twin daughters. "Your cousin will take us to the Canglan Realm in a month, and we will stay there until he reaches the peak of mortal cultivation. After he settles his affairs with Long Yin and Wang Fuxi, he'll take us to one of the planets in the upper realm, so we won't be coming back here again."

Ran Xue and Ran Yue wore sad looks after hearing that because they were born and raised on Earth, and all their friends were Earthlings, so they felt sad to part with them.

Tang Yuan directly spoke to them. "Yue and Xue, I know you two find it difficult to leave Earth, but we are cultivators now, and our main focus is cultivation. Like you two, I have never left Earth before, and we might face difficulties adapting to the situation in the Canglan Realm. We will face and adapt to the situation in that realm together, so I believe everything will be fine."

"Will we really be okay in that realm, Aunt Yuan?"

"What if the cultivators in that realm refuse to accept us and become hostile toward us?"

"Haha," Tang Yuan laughed softly. "If the cultivators in that realm are hostile to us, we can stay inside the ark, right? We'll focus on cultivating and training inside the ark, and we'll come out when our strength is on par with theirs."

Ran Xue and Ran Yue sighed in their hearts. "Since we will be leaving for that realm next month, we will spend this month with our friends first."

"You two can do that, but you must not be lazy in cultivating, and you must enter the ark to train."

"We understand, Aunt Yuan."

"Let's pack up the things in this house, and you can leave after we're done. Although the things here are useless to cultivators like us, they were left behind by your two cousins' parents, so I want to take them all."

"Okay." The four women started packing up all the things in the Tang House after that.

.

.

.

Zhao Qing sat alone in her office at Tang Ye's company. She was reluctant to leave the company, as it was her late brother's legacy, but she wouldn't be able to manage it anymore because Tang Xiao would be taking her to the Canglan Realm. "Who is the appropriate person to manage this company?"

Zhao Qing took out her smartphone, checking all the messages that came in while she was training inside the ark and on Earth II. She found many messages from Lin Yanxiu and Zhao Teng, asking her to persuade Tang Yin to return their shares.

Zhao Qing could only shake her head after reading all the messages, and she immediately deleted them all before she contacted a woman, asking her to meet. After the woman agreed, she hurriedly left her office to go see her.

.

.

.

"Tang Yin?" Nan Xinyue was truly surprised by her sudden arrival. "Why did you suddenly come here without telling me?"

"I came here to talk to you and your mother about Tianmei."

"Tianmei?"

Tang Yin nodded at her. "Can we talk inside?"

"Sure." Nan Xinyue led Tang Yin to the living room, where Nan Yueqin was enjoying her time.

Nan Yueqin was surprised by Tang Yin's arrival. "What brought you here today?"

"I want to talk about Tianmei." Tang Yin immediately told the two women about her decision regarding her company, and she also gave them some things, such as the methods for making the four beauty products and their ingredients.

Nan Xinyue and Nan Yueqin couldn't believe that Tang Yin would give everything to them for free, especially since she and Tang Xiao no longer needed earth money.

"I'll leave everything to you two, but you have to keep my three employees. If I find out you fired them, I'll destroy the Nan Family like the other families."

Nan Yueqin frowned upon hearing that, but Tang Yin immediately released her darkness aura, which shocked them. "What—"

Tang Yin waved her hand to stop them. "I didn't come here to explain my darkness aura, and I've already explained my purpose. If you two agree to my terms, I'll give you my company, but you must always remember my previous words."

"Are you the mastermind behind the destruction of all those families and the disappearance of those people?"

Tang Yin smiled at Nan Xinyue. "You two should know what they did to my parents, right? You're right, I destroyed all those families, and those people should be gathering in hell right now. That's why you two shouldn't doubt my words because I can destroy the Nan Family in a matter of seconds, and you two will suffer for it."

"Sigh." Nan Yueqin sighed softly. "I agree with you, and I will never fire your three employees; instead, I will ask them to take care of Tianmei."

"You must remember your words forever." With that, Tang Yin immediately disappeared from their sight, shocking them again.
