

# Celestial 'War God' Return #Chapter 331: Bone Breaking Powder - Read Celestial 'War God' Return Chapter 331: Bone Breaking Powder

## Chapter 331: Bone Breaking Powder

"Stop first and wait for me here." The people from the Xie Clan followed Xie Jun's orders and landed in the area below them, but he himself immediately flew to another area.

Before long, Xie Jun arrived in front of a forest, where Tang Xiao's clone and Tantai Lingyan were waiting for him.

"Why did you ask him to meet us, Xiao'er?" Tantai Lingyan glanced at Xie Jun.

"I don't want the people of the Miao Clan to get hurt, so I'll do something to prevent that." Tang Xiao's clone handed a packet of powder to Xie Jun. "Use this Bone Breaking Powder on your subordinates when you guys fly to that clan, and they won't notice its effects until they get there."

"Yes, Master."

After Xie Jun flew away, Tantai Lingyan asked him, "What effect does the powder have on those people?"

"They will feel excruciating pain in their bones, and their bones will become soft to the point of breaking easily." Tantai Lingyan was no longer surprised to hear Tang Xiao's clone had such an item, as there were so many items in the treasure room in the Primordial Divine Ark. "This way, Xue Jing and the others can get rid of them easily, and I've already told Senior Shen to prevent them from killing Xie Jun because we still need him."

"Can Xiao Ai monitor Xie Jun from the Canglan Realm?"

"Xiao Ai is much more special than you imagine, Master. Even if we go to the Canglan Realm, she can still monitor all events on Earth. Let's go back to the Miao Clan, and we will watch them from afar."

"Alright."

.

.

.

After he returned to his subordinates, Xie Jun led them to continue their journey to the Miao Clan, and he used the bone-breaking powder without them knowing. "After we arrive at the clan, we'll monitor the situation first, and we'll attack them after we confirm everything is safe."

"Yes, sir."

"Speed up our flight."

.  
. .  
.

"Xue Jing, you should take your people to hide first, or they'll run away if they see all of you in this clan."

Xue Jing glanced at Feng Shen for a moment before agreeing with his idea, and she led the Xue Clan's people to hide in the inner area of the Miao Clan.

"Have they arrived in this region?"

"They're already in this region, and Xie Jun brought several people from the Xie Clan." Miao Cangyu, Miao Xianyun, and Fei Yan tensed upon hearing that. "Alright, you don't need to worry about them, and we will get through this situation. We can't kill that man, and we will use him to monitor Xie Shun closely so we can devise countermeasures if he makes new plans."

"I know." They suddenly felt a powerful aura heading their way, and Miao Yusheng landed in front of the main hall. Miao Cangyu immediately led his family to greet him. "Welcome back, Ancestor."

"I didn't expect you to return here, Old Miao."

"I didn't want to return to Earth II, but I couldn't let those heretics further destroy my clan, so I came here after I received information about the matter." Miao Yusheng looked at the area around them. "Where's Ling'er? Why isn't she here with you?"

"Ancestor, Senior Feng Shen already sent Shen Ling to the exit portal ten days ago, so she should have already returned to the outside world." Miao Xianyun said.

"It's good if she has returned to the outside world so she doesn't have to fight with those heretics. So, what are your plans regarding those people?"

"Kill the others and leave Xie Jun alone."

"Why?"

"Old Miao, Xie Jun is our spy in the Xie Clan, so we can't kill him." Miao Yusheng was surprised to hear that. "We got the information that they were going to attack this clan from him, so we prepared to stop them."

Miao Yusheng folded his forehead. "What exactly is going on here? How could Xie Jun be on our side?"

"I won't explain everything to you, and you just need to know that he's already under our control. From now on, we can monitor the Xie Clan's movements, and we will act immediately if those heretics plan to attack us."

Miao Yusheng looked at Miao Cangyu and his family, but the three of them didn't say anything to him about Tang Xiao's actions against Xie Jun and the others. "Forget it! At least our Miao Clan will be safe, and I'll return to the outside world after this matter is resolved."

"Let's get ready because those guys are getting closer."

"Yes."

.  
. .  
.

"That old man is Shen Ling's master and the remaining ancestor of the Miao Clan, Miao Yusheng. I didn't expect that he would return here, especially since he hasn't been back in the past hundreds of years."

"Naturally, he will never allow the Xie Clan to attack the Miao Clan again, so he came back here to help them." Tang Xiao's clone looked at the old man. "After this matter is settled, I will return to the forest to train again, and we will depart in twenty days."

"Do you really not want to bring Bing Qing with us?"

"Let Bing Qing train and develop herself on Earth II first, and I will see her in a few years when I return to fight Long Yin and Wang Fuxi."

Tantai Lingyan was disappointed with Tang Xiao's clone's decision, as she liked Bing Qing's tenacity in training, and she wanted to train her further.

.

.

.

After waiting for some time, Xie Jun and the people from the Xie Clan arrived in an area not far from the Miao Clan. Seeing no defenses within the clan, they immediately charged into it.

As soon as they entered the clan, Feng Shen, Miao Yusheng, Miao Cangyu, Miao Xianyun, and Fei Yan surrounded them. Without wasting any time, they attacked the people from the Xie Clan.

Hearing the sound of fighting, Xue Jing, Xue Lan, and the people from the Xue Clan helped the people from the Miao Clan. However, they felt there was something strange about their enemies, and they only needed a short time to kill them, except for Xie Jun.

According to Tang Xiao's clone's plan, Feng Shen injured Xie Jun quite heavily and asked him to return to the Xie Clan afterwards.

"Hey! Why do I feel that they are much weaker than they should be?" Xue Lan asked, pointing her finger at one of the corpses.

Xue Jing agreed with her sister. "Do you know anything about that, Feng Shen?"

"Naturally, I know about that, but I won't explain it to you guys." Feng Shen's answer caused them to frown. "The important thing is that the Miao Clan is safe, and the Xie Clan has lost many subordinates, so they won't make any moves anytime soon. Since matters here are settled, I will leave now, and you guys don't need to chase me."

"Tch!" Xue Lan gritted her teeth after Feng Shen disappeared. "Did that old man tell you guys anything?"

"Brother Feng didn't say anything to us, but I think this situation has something to do with Feng Xiao."

"Feng Xiao?"

"Feng Xiao was the one who told them about Xie Shun's plan, and he also helped the clans from the central region fight the Xie Clan." Xue Jing suddenly remembered something. "If my guess is correct, Feng Xiao and Wu Ming are the same person; otherwise, Feng Shen wouldn't be so secretive."

"Are you sure about that, Big Sis?"

"Yes." Xue Jing looked up at the sky and searched for Tang Xiao's clone. "I'm sure he was hiding nearby, and he was watching our fight just now."

"Senior Xue Jing, Feng Xiao has been training under the snow mountain for one and a half months, and he should still be there now."

After Miao Xianyun finished speaking, Xue Jing and Xue Lan quickly left the Miao Clan, followed by the members of the Xue Clan.

"What happened? Why do they seem so eager to meet Feng Xiao?" Fei Yan wondered.

"We don't need to interfere in their affairs." Miao Cangyu ordered the people from the Miao Clan to take away and cremate the corpses. "Are you returning to the outside world now, Ancestor?"

Miao Yusheng shook his head. "I'll stay here for a few days before returning to the outside world."

"I'll have someone clean out your old room, Ancestor."

"Alright."

Miao Xianyun spoke directly to his parents. "Since our clan is safe now, I'll go train again."

.  
. .  
.

Xue Jing and Xue Lan had already arrived at the foot of the snow mountain. They searched for Tang Xiao's clone, but they couldn't find him anywhere. "Do you think Feng Xiao has left this place, Big Sis?"

"I don't know." Xue Jing looked at the battle in the distance, and she immediately flew there, with Xue Lan following behind her.

"Huh? Big Sis Jing? Why did you come here?" Bing Qing asked in surprise after Xue Jing killed all the beasts that surrounded them.

Xue Jing didn't answer Bing Qing immediately and felt the increase in her aura. "Did you learn any new ice techniques, Qing'er?"

"Uhm," Bing Qing nodded to her. "Brother Feng gave me an ice cultivation technique and some pills, Big Sis Jing."

"By Brother Feng, are you referring to Feng Xiao?"

"Brother Feng saved us from those ice wolf packs some time ago, and he stayed at our residence for a day, but he hasn't come to see us since." Then, Bing Qing asked her. "Do you know him, Big Sis Jing? Are you looking for him?"

Xue Jing nodded slightly. "I was indeed looking for Feng Xiao, but I couldn't find him anywhere."

"Hey, Little Qing, what kind of technique did Feng Xiao give you?"

"The Ice Spirit Technique, Big Sis Lan."

### **Chapter 332: Yi An Learn The Truth**

"The Ice Spirit Technique? Does that mean Feng Xiao also has the ice element?"

"Big Sis Lan, Feng Xiao doesn't possess the ice element, but he possesses the wind and lightning elements."

Xue Lan and Xue Jing were shocked to hear the two elements from Bing Wen, as they already knew that Tang Xiao had the fire element and the unknown element. "Does he really have the wind and lightning elements?"

"When Brother Feng saved us from those ice wolf packs, he used the lightning element, and he used the wind element when he passed on that technique to me." Bing Qing said.

Xue Lan looked at her big sister. "Doesn't that mean he has four elements, Big Sis?"

"Yes." Xue Jing nodded slightly. "Do you two know when he will see you again?"

"Brother Feng hasn't seen us since he entered the forest to train, but he asked Big Sister Lingyan to teach us both martial arts."

"Tantai Lingyan?" Bing Qing and Bing Wen nodded to Xue Jing. "Where is she now?"

"Big Sis Lingyan went out to do something, but she didn't tell us when she would be back. Would you like to wait for her at our house, Big Sis Jing and Big Sis Lan?"

"What do you think, Big Sis? Should we wait for them in that small town?"

Xue Jing thought as she checked all the areas around them. "Feng Xiao doesn't seem to want to meet anyone, so I think there's no point in waiting there, and we should return to our clan."

"But—"

"Forget it." Xue Jing sighed. "We will return to our clan now, Little Qing and Little Wen."

"Okay, Big Sis."

After the two women left, Bing Qing asked her brother, "Why are they looking for Brother Feng, Brother?"

"I felt like they were acting a little strange about Brother Feng, and I thought maybe something had happened between them before." Bing Wen looked away. "We don't need to interfere in their problems, and we should focus on our training."

"Let's go to another area, Brother."

"Let's go."

.  
. .  
.

"Are you going to continue avoiding them, Xiao'er?" Tantai Lingyan asked as she looked at the two women leaving.

"Master, you can continue training Bing Qing and Bing Wen." Tantai Lingyan immediately went to the location where the two were training. "Senior Shen, we'll be going to another forest with stronger beasts. We only have three weeks left, so I want to make the most of this time, and I'll be going to the Xue Clan a few days before we leave Earth."

Feng Shen nodded slightly. "In that case, we should go to the eastern forest, but there are quite a few Tyrant Rank beasts there, so you have to be careful."

"Let's go there now."

.  
. .  
.

"Eh? Big Sis Lingyan?"

Tantai Lingyan nodded to Bing Qing. "I'm leaving in three weeks, so you two should train seriously before I leave."

"Yes, Big Sis Lingyan."

"Big Sis Lingyan, Big Sis Jing and Big Sis Lan are looking for—"

"I was in this area before, so I already know that those two women are looking for Xiao'er. Let him take care of them later, and you just need to focus on your training." Tantai Lingyan grabbed their shoulders and took them somewhere else to continue their training.

.

.

.

"What are you thinking?"

Yi An looked at Meng Xin. "It's been eleven days since Tang Xiao confessed everything, and he hasn't come to us since."

"Hehe," Meng Xin giggled and sat beside her. "Did you miss him?"

"Sigh." Yi An laid her head on her shoulders. "I've been thinking about everything these past few days, and I realized that I've fallen too deeply in love with him. All this time, he's always been by my side, and he's always comforted me. Ever since he left my side, my life has become empty, so I truly miss him."

"Does that mean you can accept his lies?"

"Even though Tang Xiao lied to me about his identity, he never once treated me badly; instead, he always cared about me, and he was always there when I needed him. I didn't want my life to be miserable without him by my side, so I decided to accept everything." Yi An looked up slightly. "What about you? Do you want to be with him?"

"Honestly, I want to be with Tang Xiao, but I still have feelings of unease in my heart, so I'm still in a dilemma. My dead brother did that kind of thing to Zhao Jing in the past, and my dead nephew intended to do the same to Tang Yin, which caused her to be in a coma for seven years." Yi An hugged Meng Xin as she understood her best friend's feelings. "Even though he said that their mistakes were not mine, I found it difficult to shake off my guilt towards them."

"Even though you haven't started an official relationship with Tang Xiao, I know you want to be with him, right?" Meng Xin nodded slightly. "You still have three weeks to think things over, but I hope you'll make the best decision for yourself by then."

"I also hope I can make the best decision regarding this matter." Meng Xin looked at Ouyang Qing's room. "Do you feel anything strange about your daughter?"

"What do you mean by that?"

Meng Xin pushed Yi An back a little and looked at her. "When she cried a few days ago, I suspected that she also had a relationship with Tang Xiao."

"Do you really think they're in a relationship?" Yi An's brows furrowed. "I've tried to ask Qing'er about the reason she cried that time, but she was unwilling to tell me anything."

"Qing'er framed Tang Xiao in the past, which resulted in him spending seven years in prison, remember?" Yi An nodded to Meng Xin. "Besides, she also sent people into the prison to kill him, but their attempt failed because his late master saved him. Moreover, he has killed so many people, including Luo Qinlin, so I think he has done something to her."

Yi An pondered Meng Xin's words as she recalled all the people who died at Tang Xiao's hands. She immediately stood up and pulled her best friend to her daughter's room, finding Ouyang Qing lost in thought in front of the dressing table. "Qing'er."

"Hmm?" Ouyang Qing looked at them. "What's wrong, Mom?"

"Did you have any relationship with Tang Xiao while he was living with us in this house?" Ouyang Qing stiffened after hearing that, convincing Yi An and Meng Xin that she did have a relationship with him. "How far has your relationship with him progressed?"

"Mom, I—"

"Qing'er, you don't have to lie to us, okay?" Meng Xin interrupted her. "We are more mature and experienced than you, and your reaction just now clearly shows that you have a relationship with Tang Xiao."

"Please tell us the truth, Qing'er."

Ouyang Qing bit her lower lip and nodded at them. "I did have a relationship with Tang Xiao, and I already gave him my virginity."

"What?" Meng Xin supported Yi An who staggered backwards. "Since... since when have you been in a relationship with him? When... when did you first do that with him?"

"We did it the first time a few days after we visited Wen Tian's house for his mother's birthday party." Yi An naturally still remembers that day, but she never knew that Tang Xiao and Ouyang Qing had a relationship after that.

"How did the relationship between the two of you start, Qing'er?"

"If I had known from the start that Feng Xiao was actually Tang Xiao, I would never have entered into a relationship with him, Mom." Ouyang Qing sighed inwardly at Yi An's expression, and she began to explain to them about the beginning of her relationship with Tang Xiao. "I was miserable at that time, and he was always caring and considerate of me. After that day, I started having a relationship with him, and I gave my virginity to him a few days after."

"I see." Meng Xin led Yi An out of Ouyang Qing's room. "Let's go back to your room."

"I'm sorry, Mom." Ouyang Qing felt sad that her mother was sad because of her.

.

.

.

Upon arriving at the room, Meng Xin led Yi An to sit on the edge of the bed. He sat beside her and embraced her. "I know you're sad about Tang Xiao and your daughter's relationship, but I'm sure he approached her because of a past grudge."

"I know." Yi An buried her face in Meng Xin's shoulder. "What should I do? I love him, but I can't possibly be in a relationship with a man who has that kind of relationship with my daughter."

"You're wrong about that." Yi An looked up at Meng Xin. "I'm sure Tang Xiao only loves you, and he's in a relationship with your daughter not out of love but out of revenge. He could have killed your daughter, just like when he killed Luo Qinlin. He didn't do that because you would be sad if she died, so he took another option to take revenge on her."

Yi An thought the same as Meng Xin, but she found it difficult to accept the fact that he was also in a relationship with her daughter. "Do you think I should contact Tang Xiao and talk to him directly about this?"

"I think you should talk to him directly." Meng Xin picked up Yi An's smartphone on the side table and handed it to her. "Call him now and ask him to come here."

"Alright."

### **Chapter 333: Another Ten Days**

After he received a report from Xiao Ai about Yi An's call, Tang Xiao took Tang Yin out of the Primordial Divine Ark and went to the Ouyang House.

Meng Xin and Yi An were a little surprised to see Tang Xiao bringing Tang Yin with him.

"Hehe," Tang Yin chuckled at their expressions. "Why are you two surprised to see me together with Xiao'er?"

Meng Xin raised her eyebrows slightly as she remembered Tang Yin's voice. "Were you the one who talked to me that day at the airport, Yin'er?"

"That's me."

Meng Xin was shocked. "Does that mean you are Tang Xiao's first wife?"

"Huh?" Yi An looked at her best friend in shock. "What do you mean by that? How can they be husband and wife?"

"Don't ask me; ask them." Yi An and Meng Xin looked at Tang Yin, waiting for her answer.

Tang Yin took out her marriage certificate and showed it to the two women. "I am Xiao'er's big sister, but I am also his first wife. You may not believe me, but this marriage certificate is real, and we are officially married."

"How is that possible? You two are siblings, so—"

"You two still don't know the real us, and nothing is impossible for us." Tang Yin pulled Tang Xiao to sit in front of them. "Do you two think we could destroy those families and seize their wealth that easily if we didn't have anything special? Do you think Ouyang Hong would give his wealth to you if we didn't do something for you?"

"No," Yi An responded with a shake of her head. "Ouyang Hong loves his wealth so much, and he will never willingly hand over all of it to me."

"As you both know, Xiao'er and I are cultivators, but we also have some other things in our possession. We can destroy the world's economy if we want, and it's as easy as turning over our hands." Even though Tang Xiao and Tang Yin had done a lot recently, Meng Xin and Yi An still found it difficult to believe that they could do such a thing. "Back to the topic! We loved each other since childhood, and our feelings grew because we had to depend on each other after our parents' deaths. For years, we kept our feelings deep inside because it was taboo, but everything changed after Ouyang Qing ordered Bai Huang to kill him in prison."

Yi An turned sad after Tang Yin mentioned what happened to Tang Xiao seven years ago. "I—"

"You don't need to feel guilty towards us." Tang Yin took out a device and displayed the process after Tang Xiao fell into the ravine, as the two women had not seen it. "Watch everything first."

Meng Xin and Yi An's mouths fell open after they saw the interior and equipment in the laboratory inside the Primordial Divine Ark, mainly because they were too sophisticated compared to those on Earth. The two women disregarded everything else and focused intently on the video that appeared before them, which showed the process of Tang Xiao's body recovery along with several other related events.

Meng Xin and Yi An could hear an old man's voice, but they couldn't see his face. They watched everything from beginning to end, including Tang Xiao's violet-gold blood.

After everything was done, Tang Yin put away her device again. "Even though we were originally born from the same parents, we became two different people from that day on, and we decided to accept each other's feelings."

"Let me show you." Tang Xiao made a small cut on his finger, allowing Yi An and Meng Xin to see his violet-gold blood.

Even though they had seen the changes in Tang Xiao's blood in the video, Meng Xin and Yi An were still amazed to see his current blood in person, as no human has violet-gold blood.

"What exactly is your blood? How can it be a violet-gold color? What kind of place was that? How can it be so sophisticated?" Both women asked.

Tang Xiao shook his head at them. "I won't explain anything for now, and I'll wait for you two to make a decision about your future. If you two can accept everything, I'll take you to that place to see everything, and I'll take you to the Canglan Realm with us."

"Xiao'er." Yi An felt hesitant to express her feelings.

"Are you feeling hesitant because of my relationship with your daughter?" Yi An nodded at Tang Xiao. "To tell you the truth, I approached her only to take revenge on her, and I intended to kill her after everything was over."

Yi An was really scared to hear that. "Xiao'er, I—"

"After we got into a relationship, I realized that you loved your daughter very much. I changed my mind about her, and I abandoned my intention to kill her for your sake." Yi An felt relieved at that. "Even though I won't kill her, I will never forgive her past actions, especially her action of asking her brother to do something like that to Yin'er. You still have twenty days to think things over, and you can contact me again if you're willing to accept everything. If you truly want to be with me, I'll take you with me. If you decide to give up on our relationship, I'll leave you on Earth, and we'll never meet again forever."

"Alright." Yi An nodded at him. "I'll think things over again, and I'll give you an answer before that day comes."

"I'll wait for your answer." Tang Xiao brought Tang Yin directly back to the Primordial Divine Ark.

Meng Xin embraced her best friend. "I know your feelings are complicated because of his relationship with Qing'er, but this is your chance to find your happiness. You love him, and he loves you too, so I hope you won't let go of the opportunity before your eyes; otherwise, you will regret it forever."

"What do you think he will do next to my daughter?"

"I can't guess, but at least he already said he wouldn't kill Qing'er, right? Even if he does something to her later, I don't think it's anything bad, and you can still be with her."

"Yeah," Yi An sighed in relief. "If I decide to go with him, I don't want to go without you. I know you're still in a dilemma, but we still have plenty of time now, so you should think things through carefully."

"Alright."

"I'm going to see Qing'er now."

.

.

.

"What happened, Mom? Did Tang Xiao just come to see you?"

"I asked Tang Xiao to come here to talk about you." Ouyang Qing stiffened after hearing that. "He decided not to kill you for my sake, but he will never forgive you because of your plot against Tang Yin in the past. I don't know what he'll do to you next, which makes me hesitant to go with him."

Ouyang Qing was also afraid about that, especially after Tang Yin came to her ten days ago. She was fully aware that her fate was sealed, and she would never be able to escape them. "Mom, my past mistakes are my responsibility, and I will bear their punishment. I don't want your happiness to be ruined because of my past mistakes, so I hope you will go with him regardless of what they will do to me later."

"But—"

"Please, Mom." Ouyang Qing grabbed her mother's hand. "You've done so much for me since I was born, and you've made me happy all these years. I can't repay you for everything, so I don't want you to suffer because of my past mistakes, and I will take responsibility for everything."

Yi An looked at Ouyang Qing for a moment before hugging her tightly. "Let's not talk about this matter for now, okay? Tang Xiao won't be leaving for another twenty days, so I still have that much time to think things over, and I'll make a decision then."

"Yeah." Ouyang Qing hugged her mother back. 'Mom, I am an unfilial daughter, so you should think more about your happiness than me.'

.  
. .

In the Xie Clan, Xie Shun was enraged, especially after he received a report from Xie Jun that their men were dead.

Naturally, Xie Jun did not tell Xie Shun the truth, instead reporting to him according to Tang Xiao's instructions.

**\*Bam\***

Enraged, Xie Shun smashed the table beside him with one light blow. "Damn it! Why did Miao Yusheng suddenly return to Earth II? Why did the Xue Clan happen to be at the Miao Clan when they attacked that clan? Since Xue Jing already knows everything, I'm sure that she and her clan members will protect the clan in the future. Furthermore, their attack severely injured my brother, and he won't be able to recover any time soon."

Xie Shun decided to leave the Xie Clan for the northern region to pick up Xie Jun so he could help him recover from his injury as soon as possible.

.  
. .

Time passed quickly—ten days had passed again. Xie Shun had arrived at Xie Jun's location and found him unconscious in a cave. He immediately checked his brother's injuries and discovered that they were grave.

After Xie Shun took Xie Jun away with him, Tang Xiao's clone took Feng Shen out of the void. "Thanks to your pill, that man won't be able to recover for several years, so I don't think his brother will make a move until he recovers."

"Yes." Tang Xiao's clone nodded at him. "We've done all we can, so we don't need to worry about them anymore. We still have a few days left, and we will go to the Xue Clan two days before our departure."

### **Chapter 334: Visit The Xue Clan**

After they spent some time at their relative's house, Xing Xing and Chu Lingxi didn't return to their hometown because they had already stored all their personal belongings in their storage rings before they left. They searched for an empty place before entering the Primordial Divine Ark.

After all, they would leave Earth in ten days, and they had already slacked off for twenty days. As for the apartment and others, Xiao Ai took care of everything for them, and Tang Yin asked her to hand over all the assets on earth to Zhao Wei.

Yu Xiaoling, Jessica, Zhao Yuxian, the Ran Twins, Zhao Qing, and Yao Yao never left the Primordial Divine Ark, focusing their time entirely on their cultivation and training.

Tang Yuan had entered the Primordial Divine Ark several times and persuaded her nephew to meet Feng Yao, but Tang Xiao was never willing to meet her, and he was fully focused on his preparations to go to the Canglan Realm.

After trying for a long time without success, Feng Yao decided to give up, and she asked Tang Yuan to stop trying to persuade Tang Xiao to see her.

Tang Xiao's cultivation had stabilized since their training in the forest, and he had spent the past twenty days practicing in the morning. At night, he engaged in dual cultivation with Tang Yin, Yu Xiaoling, Zhao Yuxian, and Jessica. Unfortunately, his cultivation was still far from breaking through to the King Realm, even though Tantai Lingyan and Mu Qingge gave him their Yin Qi.

.

.

.

In the Sun Clan, everyone had packed up their belongings, including their personal items. They had sold almost all of their property, except for their residence. Even though they would never return to Earth, Sun Qian didn't want their residence to be owned by anyone else, and she chose to leave it empty.

Sun Yang and Sun Yu were the most impatient to leave for the Canglan Realm, and they repeatedly asked Sun Xiang to contact Tang Xiao, but she refused their requests and asked them to wait until their departure day arrived.

Since her conversation with Zhang Xingcai twenty days ago, Sun Xiang continued to avoid her mother because she kept lecturing her not to have a relationship with Tang Xiao.

Sun Qian had advised his daughter-in-law not to force Sun Xiang, but Zhang Xingcai didn't listen to him, and she always thought that Tang Xiao was not worthy of her daughter.

.  
. .

Just like in the Sun Clan, the Zhang Clan was almost completely empty after Zhang Fei, Chen Xinyan, Han Yueya, and their families packed up almost everything in the clan, including all the furniture they could use in the Canglan Realm later.

Zhang Fei decided not to sell the Zhang Clan residence, and he chose to leave it empty.

After everything was settled, Zhang Fei discussed their future plans in the Canglan Realm. They eagerly awaited their departure, and they were also eager to begin their adventure in the realm.

.  
. .

The Tang Clan had also finished packing all their belongings, and Tang Huang chose to spend his time in his seclusion room, waiting for the day of their departure, which was getting closer.

The Tang Clan members were impatient to leave for the Canglan Realm, especially after Tang Xiao explained everything to them twenty days ago, particularly about the quality and quantity of qi in that realm.

.  
. .

.

At the Mu Clan, Mu Qingge and Mu Li were enjoying their time after their clan members finished packing up.

They discussed their future plans in the Canglan Realm, but they didn't need to worry about that because Tang Xiao had already prepared several things for them. Mu Qingge repeatedly persuaded her father to propose to Chu Lingxi soon so she could accompany her while she and Mu Yan were busy with their affairs.

Meanwhile, Mu Yan spent her time with her old friends because they would not meet again after she left Earth, and she was afraid that she would miss them.

.

.

.

Wang Fuxi wanted to leave Earth II and return to the outside world, but she still had many questions about the four clans' decision to move simultaneously. She suspected that their decision had something to do with Wu Ming, so she decided to wait for their move, and she also asked some of her clan's people to monitor them.

Wang Fuxi wanted to meet Wu Ming, as she believed that he was the reason behind the four clans' decision to move from the central region, but she never managed to find him. She also asked Feng Xiaofang and Yan Huoling about their plans for moving, but they asked her to ask Sun Qian and the others directly.

.

.

.

Shen Ling, who had been living in the small town near the portal's location for twenty days, was relieved after hearing that the Miao Clan was safe. She deliberately waited there to confirm news about the clan, but she did not contact Miao Xianyun to pick her up; instead, she decided to go to another region for an adventure, especially since she no longer had anyone in the outside world.

Shen Ling didn't know that her decision this time would change her life completely, but the story of her future would only be revealed when Tang Xiao returned to Earth to fight with the Long and Wang Clans.

.

.

.

In the outside world, Lin Yan visited the Ouyang House several times, and she decided to reveal her past relationship with Tang Xiao to Ouyang Qing.

Ouyang Qing was quite surprised by Lin Yan's confession, but she didn't care much. She was more concerned about her uncertain future because of Tang Yin's words twenty days ago, which stated that she and Tang Xiao would take her away even if Yi An didn't want to go with them.

Meanwhile, Yi An has not decided her future, whether she chooses to be with Tang Xiao or leave him. She knew that she had little time left, but she still had several things that were bothering her, especially regarding her daughter.

Just like Yi An, Meng Xin also hasn't made a decision about her future plans. She wanted to become a cultivator and go with Tang Xiao to the Canglan Realm, but guilt still weighed on her heart, even though the mistake was not hers.

.

.

.

Eight days passed quickly, and Tang Xiao's clone decided to stop his training in the forest. He asked Tantai Lingyan to stop training Bing Qing and Bing Wen. He also asked his grandfather to enter the Primordial Divine Ark to retrieve the pills that Xiao Ai had prepared to put the people of the three clans into a deep sleep during their journey to the Canglan Realm, as he did not want them to know about the Primordial Divine Ark.

Since he already had plans to visit the Xue Clan, Tang Xiao's clone immediately took Feng Shen there.

As per Tang Xiao's request, Tantai Lingyan gave Bing Qing and Bing Wen several items, including pills that were useful for their cultivation.

"Will you see us again in the future, Big Sis Lingyan?" Bing Qing asked sadly.

Tantai Lingyan wanted to take Bing Qing with them, but Tang Xiao was already determined to leave her on Earth. "Qing'er, please forgive me, but today will probably be our last meeting. However, we don't know what fate has planned for our future, so you must cultivate diligently after I leave, and destiny might give us a chance to meet again if you have become strong in the future."

"I will diligently cultivate and train, and I will prove to you that I can become a powerful cultivator, Big Sis."

"Haha," Tantai Lingyan laughed and rubbed her head. "I believe you have the talent to become a great cultivator, but you can't rely solely on your talent, and you must work hard to achieve your dream."

"I understand, Big Sis." Bing Qing nodded seriously. "By the way, won't Brother Feng meet us before leaving?"

"I don't know whether Xiao'er will meet you or not because he still has some other matters." Bing Qing was disappointed by that, and she hoped Tang Xiao would see her one last time. "Alright, I'll be leaving now, and you two should take care of yourselves."

"Goodbye and take care, Big Sis."

"I will." Tantai Lingyan immediately left the small town before entering the Primordial Divine Ark.

Bing Wen embraced his sister. "I know you're saddened by Big Sis Lingyan's departure, but there's nothing we can do to stop her. For now, we must cultivate and train diligently, and we'll show her that her efforts in training us were not in vain if we meet her again someday."

"Yeah." Bing Qing wiped her eyes. "Let's go, Brother! We have to train harder, and we'll prove our hard work to Big Sis Lingyan if we have the chance to meet her again in the future."

.  
. .  
.

Meanwhile, Tang Xiao's clone and Feng Shen had already arrived in front of the Xue Clan, but the two women guarding the front stopped them.

"Don't you two know that our clan doesn't welcome male guests?"

"You must leave now, or we will force you to leave."

Tang Xiao's clone immediately spoke to them. "Please tell Senior Xue Jing that Wu Ming has come here to fulfill her invitation."

"Eh?" Both women were taken aback. "Are you really Wu Ming?"

"I am." Tang Xiao's clone nodded. "Please inform her, as we don't have much time, and we will leave after speaking with her."

"Please wait."

"No need." Xue Jing landed in front of them. "Please follow me; I'll take you to Senior Snow."

### **Chapter 335: Meet Senior Snow**

"Hey, Xue Jing! Aren't you guys bored living in a place like this?"

"Why?"

"Look at this place! There's barely anyone here, making this place so boring."

"No," Xue Jing shook her head. "Unlike you, we don't think about having fun, and we solely focus on our cultivation, so the situation here is the best for us."

"Haish! Your life is really miserable." Xue Jing did not comment on that. "Even though we're cultivators, we're still human beings who need fun to clear our minds. If I lived in a place like this, I'd surely die of boredom."

"That's why your cultivation hasn't reached my level, even though you're older than me."

Feng Shen was tongue-tied, unable to reply to Xue Jing, making Tang Xiao's clone smile to himself. "I think living in a place like this isn't that boring, and we can live a leisurely life with our family while cultivating."

"Do you intend to live in a place like this in the future?"

"Why not? If we live far from the hustle and bustle of the city, our lives will be quieter and more peaceful, and we won't have to deal with those evil cultivators."

"You're no fun, Kid."

"Haha," Tang Xiao's clone put his arm around Feng Shen's shoulders. "Did you forget our next goal, Senior Shen? I want to have fun, but I also have to think about the safety of my family members. However, I haven't decided on my future plans yet, and I'll wait for the day to come before making a decision."

Feng Shen nodded in understanding. "I can't wait for the day to come, Kid."

"What are you two talking about? What day are you two waiting for?"

"Nothing." Both men answered at the same time.

Xue Jing raised an eyebrow at their behavior, but Xue Lan suddenly landed in front of them. "Hey, Wu Ming! You have a winged snow leopard by your side, right?"

"Why?"

"Winged snow leopards are sacred beasts for our Xue Clan, and they are almost extinct, so I hope you are willing to return yours to us."

"No," Tang Xiao's clone rejected her without a second thought.

"You—"

"Isn't that your clan's fault? If they are sacred beasts for your clan, you should protect them with full responsibility, and they will not fall into the hands of those hunters." Xue Jing immediately restrained Xue Lan so that she wouldn't attack Tang Xiao's clone. "I found the winged snow leopard on the black market, and her condition was awful at that time. Since I liked her, I asked Senior Shen to buy her. She is my beast contract now, so I won't return her to you."

Feng Shen immediately helped Tang Xiao's clone to talk to them. "The female winged snow leopard was in a dire condition at the time because the hunter who captured her didn't feed her, and her body was emaciated. If I hadn't bought her for Wu Ming, she would have died within a few days. He had already helped her to recover, and she enjoyed her time with him. Moreover, she was his beast contract now, so you couldn't ask him to return her to your clan."

"But—"

"That's enough, Lan." Xue Jing stopped her. "Wu Ming obtained the winged snow leopard fairly by buying it from someone else, and she's his contract beast now, so we can't force him to return her to us. Can you bring her here?"

"Sure." Tang Xiao's clone immediately disappeared into the ark, confusing Xue Jing, Xue Lan, and Feng Shen. A few moments later, he returned to them, bringing Xue Bai with him.

Xue Bai's eyes sparkled like stars when she saw the place. She looked at Tang Xiao's clone. "Master, I didn't expect you to bring me here, and this area is my birthplace."

"Haha," Tang Xiao's clone rubbed her head. "I came here to meet someone at the top of the mountain, and these two women wanted to see you, so I brought you here."

As senior cultivators, Feng Shen, Xue Jing, and Xue Lan naturally knew that Xue Bai couldn't talk to them yet, but she had no problem communicating with Tang Xiao because he was her master.

Xue Bai looked at the two women, but she immediately hid behind Tang Xiao's clone when Xue Lan tried to pat her head. "Master, I don't like that woman, so you have to protect me from her."

"Xue Bai doesn't want you to touch her."

Xue Lan raised an eyebrow and looked at her, but Xue Bai didn't want to look at her and hid her face behind Tang Xiao's clone. "Sigh! I don't understand why she doesn't like me, even though we just met for the first time."

"A beast's instincts are much sharper than ordinary animals, and Xue Bai senses something from you that makes her dislike you."

Xue Lan folded her forehead and black lines appeared there, but Tang Xiao's clone couldn't care less about her reaction.

Xue Jing moved beside Tang Xiao's clone and crouched down in front of Xue Bai, who was curiously staring at her. "Are you afraid of me?"

"Master, she is beautiful and kind, so you should approach her." Xue Bai moved her head closer to Xue Jing and allowed her to pat her.

Tang Xiao's clone smiled to himself. He admitted that Xue Jing was beautiful and attractive, and she was also much stronger than him. Even so, he didn't want to think about such things now, and he was more impatient to leave Earth for the Canglan Realm.

"Hehe," Xue Jing chuckled as she rubbed Xue Bai's head, making Xue Lan burn with jealousy. "You really like your master, huh? Does he treat you well?"

"My master always treats me well, and he also helps me become strong." Xue Jing couldn't hear Xue Bai's words, but her nodding helped her understand the female winged snow leopard beast.

"Since he's become your master, you must strive hard to become strong enough to fight by his side, and you two will protect each other in the future." Xue Jing rose to her feet. "Let's go to the top of the mountain now to meet Senior Snow."

"Master, I won't come with you there, and I will play here while waiting for you to come back." Xue Bai happily ran to another area with her wings flapping on their own.

'I'll think of something to make snow inside the ark so she can enjoy her time there.'

Tang Xiao's clone smiled to himself at seeing Xue Bai so excited. "Let's go."

.

Sometime later, the four of them arrived at the snow peak, and Senior Snow was waiting for them there.

[Master, the woman before you is the snow spirit of this snow mountain, and she is very old, perhaps the oldest on Earth II.]

Tang Xiao's clone nodded slightly. "Why do you want to see me, Senior?"

"Can you tell me about your unknown element?" Senior Snow showed them her space element. "As you can see, I possess the space element, so I'm sure your element is higher than mine, which makes me curious about that."

Tang Xiao's clone stretched out his hand forward and dispelled Senior Snow's space element, which shocked them. "My element is not the space element but something else, and I would rather not explain it to anyone."

"I see." Senior Snow nodded in understanding. "At first, I wasn't sure about Old Man Xia's vision, but I'm now convinced that you can destroy the barrier separating Earth and Earth II in the future. After all, the barrier separating the two has the same principle as the space element, and your unknown element is far superior to it."

"You may be right about that, but I can't break that barrier with my current strength. Moreover, those ordinary humans would suffer if I did something like that, so I will never do it even if I become stronger in the future." Xue Jing and Xue Lan were slightly relieved to hear Tang Xiao's clone's words. "If you want to meet me just to ask about this matter, I will take Senior Shen away now because I still have many things to prepare."

"Can you tell me about the Canglan Realm?" Tang Xiao's clone raised an eyebrow after Senior Snow asked that.

Feng Shen was also surprised by Senior Snow's question, but her question confused Xue Lan and Xue Jing, who had never heard of the Canglan Realm before.

"How did you know about that?"

"I am indeed the snow spirit of this snow mountain, and I have the ability to know everything that happens in all the snowy areas of this region. After Yan Huoling and Tantai Lingyan left the Xue Clan that day, I followed them without them knowing, and I heard your talk about the Canglan Realm, including that the quality and quantity of Qi in that planet is three times better than on Earth."

'Can she really do something like that, Xiao Ai?'

[Master, she's a snow spirit, and the entire snow area in this region is her territory, so it's easy for her to do something like that.]

Tang Xiao's clone inwardly sighed. "The Canglan Realm is two to three months away from Earth, and you were right about the quality and quantity of Qi on that planet."

"Eh? Do other cultivation worlds really exist, Wu Ming?"

"My name is not Wu Ming, but Tang Xiao."

Tang Xiao's clone canceled his disguise, shocking Xue Jing and Xue Lan.

"I didn't expect you to be Tang Huang's grandson."

"Haha," Tang Xiao's clone laughed softly. "Other cultivation worlds do exist, and the number of cultivators there is far greater than on Earth, but not a single cultivator from Earth has the ability to go there."

### **Chapter 336: Pick Up People**

"If all the cultivators on Earth can't go to other planets, how are you going to get there?" Xue Lan asked, puzzled.

Tang Xiao's clone looked at her. "I have no problem sharing information about the existence of the other cultivation worlds with the three of you, but I won't tell you anything more than that."

"Tch." Xue Lan clicked her teeth.

"If you want to go to the other cultivation worlds, you must first break through to the Peak Saint Level, and you will know how to reach the other cultivation worlds. By the way, cultivation worlds are divided into four realms: lower, middle, upper, and supreme."

"Does that mean Earth is one of the planets in the lower realm?"

"Yes," Tang Xiao's clone nodded at Xue Jing. "The Canglan Realm is also in the lower realm, but the quality and quantity of Qi on that planet is three times better than on Earth."

"How did you know all that information?"

"My late master was a cultivator from the supreme realm, and he passed down all his knowledge to me." Xue Jing, Xue Lan, and Senior Snow were shocked by this, but Tang Xiao's clone didn't want to explain further to the three women. "There's no need to ask

about his identity because the three of you wouldn't know him, and he died after sacrificing his life for me."

Xue Lan felt strange about that. "If your late master came from the supreme realm, he should be powerful enough to destroy Earth. So, why did he sacrifice his life for an ordinary human like you?"

"No comment." Xue Lan was irritated by Tang Xiao's clone's attitude. "I've told the three of you about all that, so it's all up to your efforts. If you have dreams of leaving Earth and going to other cultivation worlds to reach higher levels, you just need to work hard to reach the Peak Saint Level, and we might meet again someday in the future."

"Are you going to bring the entire Tang Clan with you?"

"Isn't that a given?" Tang Xiao's clone asked Xue Jing back. "Although I don't know them yet, I am a direct descendant of the Tang Clan."

Xue Jing nodded slightly. "When will you leave for the Canglan Realm?"

"In two days." Tang Xiao's clone grabbed Feng Shen's shoulder. "I still have things to attend to, so I'll take Senior Shen away now."

"Tch! That cheapskate guy! I hate him!" Xue Lan cursed angrily.

Xue Jing just shook her head listening to her sister. "What do you think about that, Senior Snow?"

"Sigh." Senior Snow looked into the distance, finding Tang Xiao's clone bringing Feng Shen to pick up Xue Bai. The three of them immediately disappeared after that. "Although we didn't get detailed information from him, at least we know that other cultivation stages and other cultivation worlds exist, and we just need to work hard to reach the Tyrant Level."

"But how?" Xue Lan wore a displeased expression. "Big Sis has long since reached the Peak Tyrant Level, but she never managed to reach the Saint Realm."

Xue Jing was also confused by this, but she didn't dwell on it as much as Xue Lan. "Alright, we don't need to think about that anymore, Lan. We just need to cultivate harder, and we'll reach that stage someday."

"But, Big Sis—"

"Stop it, Lan." Xue Jing sighed. "As Tang Xiao said before, we are not his friends or family members, so we can't force him to tell us everything. I know you're upset, but we can't possibly tell him our secrets, right?"

"Tch!"

"Senior Snow, we will return to our clan now."

"Yes."

After Xue Jing and Xue Lan left, Senior Snow tried to track down Tang Xiao's clone and Feng Shen, but she couldn't find them because they had already left the northern region. "Does that kid really have no plans to break the barrier in the future? He still has unresolved grudges with Long Yin and Wang Fuxi, so he should be back here someday, and a big battle will break out between the three of them then."

.  
. .  
.

"Master, why did you take me away so quickly? I still wanted to play in the snow there."

Tang Xiao's clone rubbed Xue Bai's head. "Please forgive me, okay? We're going to the Canglan Realm in two days, so I have some matters to settle here. I've asked Xiao Ai to figure out how to make snow, and you can play to your heart's content once she succeeds."

"Really?" Xue Bai's eyes gleamed.

"Haha," Tang Xiao's clone laughed in amusement at her childish expression. "I would never lie to you, okay? I'll send you back there, and you can meet Xiao Ai directly."

"Please send me back, Master." Tang Xiao's clone sent her into the ark directly.

"Where are we going now?"

"The Central Region." Tang Xiao's clone looked in that direction. "We need to pick up my grandfather and the others, and I'll send them to my private place, so we can leave immediately in two days."

"Let's go."

.  
. .  
.

Some time later, they arrived at the Tang Clan. Feng Shen was surprised to find that everyone in the clan had fallen into a deep sleep, except for Tang Huang. "Did you put them to sleep on purpose?"

"Yes," Tang Xiao's clone enveloped them with his qi and sent them into the Ark. "Even though they are members of my clan, I don't want them to know about my secret, so I deliberately put them to sleep during our journey, and I will wake them up when we arrive at the Canglan Realm."

"I see." Feng Shen himself was curious about Tang Xiao's clone's secret.

"Grandpa, you should go back there, and I'll pick up the others."

"Alright."

.

.

.

"Big Brother! I missed you so much." Mu Yan jumped to hug Tang Xiao's clone as soon as they arrived at the Mu Clan.

"I missed you too, Yan'er." Tang Xiao's clone looked at the Mu Clan members who were already deep in sleep. "I'll send them there now, and you three should go in as well."

"Come here, Yan'er." Mu Yan directly released Tang Xiao's clone and went to her mother's side.

After Tang Xiao's clone sent the Mu Clan members into the ark, Mu Lin, Mu Qingge, and Mu Yan followed them in.

.

.

.

"Are you ready?"

Zhang Fei nodded slightly. "We've been waiting for you."

"Xiao'er, Wang Fuxi's subordinates monitor the four clans, so she should already be aware of this matter," Chen Xinyan informed him.

"You don't need to worry about Wang Fuxi, and Senior Shen will help me stop him." After he sent all the Zhang Clan members into the ark, Tang Xiao's clone and Feng Shen left the Zhang Clan residence.

.

.

.

When they arrived at the Sun Clan, they saw Wang Fuxi already waiting for them at the top of the clan gate. "Where did you take them? Why did Tang Huang and the others put their clansmen to sleep?"

"We're neither acquaintances nor friends, so I don't need to report my personal affairs to you, right?" Tang Xiao's clone asked coldly, causing Wang Fuxi to raise an eyebrow. "I still have a lot of business to attend to, so I won't waste my time talking to you."

"Wait." Wang Fuxi blocked Tang Xiao's clone's path, but she immediately felt a strange feeling as soon as he used his Heart-Seizing Technique. "What did you do to me?"

"What do you mean by that? Do powerful cultivators like you like to accuse others for no apparent reason?" Wang Fuxi released her aura to restrict Tang Xiao's clone's movements, but he quickly used Gale Steps to avoid her, thwarting her efforts. "Heh! Is this how a respectable cultivator like you should behave? Your behavior is no different from those heretics from the Xie Clan; do you know that? We have no problem with each other, and we are neither acquaintances nor friends, yet you act arrogant just because I don't want to explain anything to you."

Wang Fuxi was quite shocked that Tang Xiao's clone managed to circumvent her restrictions, especially with his cultivation still at the Peak Xiantian level. Her heart pounded as his Heart-Seizing Technique increasingly affected her. She was certain he had used something on her, but strangely, she didn't feel any movement of qi within his body.

"I don't know what you're thinking, but you shouldn't pry into that kid's private affairs. Moreover, he won't do anything bad to them, and he will move them elsewhere to protect them from those heretics." Wang Fuxi looked at Feng Shen with a frown. "Besides, he has already helped the cultivators in this region by taking action against the Xiao and Jiang Clans, so you should know that he has no ill intentions toward Old Sun and the others. On the contrary, you had the opportunity to get rid of Xie An a few days ago, but you chose not to make a move against him because you were afraid that Xie Shun and the Xie Clan would attack your Wang Clan."

Hearing their commotion, Sun Qian and the others immediately went to that area, but they weren't surprised by Wang Fuxi's presence.

Sun Qian immediately floated beside Tang Xiao's clone. "Wang Fuxi, I know your intentions are good, but I hope you won't interfere in this matter. I've decided to leave with Wu Ming some time ago, and my family agreed with my decision."

Wang Fuxi glanced at Zhang Xingcai and the others, and she could see the displeasure in their eyes. "I just wanted to make sure you guys were safe, but since you've already decided that, I won't interfere with your decision."

### **Chapter 337: Leaving Earth I**

Wang Fuxi did not leave the Sun Clan; instead, she stayed there and watched as Tang Xiao's clone sent the Sun Clan members who had fallen into a deep sleep into the Primordial Divine Ark.

A frown appeared on Wang Fuxi's face as she wondered where Tang Xiao's clone had sent those people. She had long known that he possessed the space element, or at least that's what people thought when they witnessed him taking Feng Shen away from the auction house.

'Did he send those people into his space? Can they survive there?' In addition to that, Wang Fuxi was curious about the technique that Tang Xiao's clone had previously used on her, which caused her to experience uncontrollable yearning and confusion. 'Sigh! What has he done to me? Why do I feel this kind of feeling towards him?'

After all those people disappeared, Tang Xiao's clone sent Sun Wei and his four family members, along with Sun Xiang and Zhang Xingcai, into the Primordial Divine Ark. Meanwhile, Sun Qian chooses to accompany him and Feng Shen to prevent Wang Fuxi from attacking him.

Tang Xiao's clone wasn't too worried about Wang Fuxi because his speed was faster than hers despite the huge difference in their cultivation levels, which was thanks to his training in five times gravity. Moreover, she had no intention of injuring or killing him, so he felt there was no need to be afraid of her.

After everything was done, Sun Qian cupped his hands to Wang Fuxi. "Thank you for your help over the years, but we have to leave this region to find a quieter life."

"Honestly, I'm disappointed with your decision to take them away from this region, Old Sun." Wang Fuxi cupped her hands. "However, I understand your decision to keep your family safe, so I won't hinder your move, and I wish you all the best in the other region."

"Thank you." Sun Qian glanced briefly at Tang Xiao's clone. "We will leave now, and we will meet again in the future."

Wang Fuxi wanted to speak to Tang Xiao's clone, but she could see the disgust in his eyes, forcing her to abandon her intention.

"Wang Fuxi, be careful of those heretics."

"I know."

Tang Xiao's clone grabbed Sun Qian and Feng Shen's shoulders and took them away from the Sun Clan residence through the void.

Wang Fuxi looked at the empty residence as she clutched her chest. Although Tang Xiao's clone had left, the effects of his Heart-Seizing Technique lingered on her. "Sigh! I hope this feeling will disappear soon."

"Big Sis, are you going back to the outside world now?"

Wang Fuxi nodded to her brother. "The situation here is safe now, and all the clans targeted by the Xie Clan have moved away. Besides, I received information from Xue Jing that Xie Jun was heavily injured after attacking the Miao Clan, so I believe they won't be making any moves anytime soon."

"Huh? When did Xie Jun attack the Miao Clan?"

"Eighteen days ago, the Miao Clan, aided by the Xue Clan, successfully foiled the Xie Clan's plan and injured Xie Jun. Although they failed to capture him, they managed to kill everyone who came with him." Wang Fuxi looked off into the distance. "I'll leave our clan in your care, and you must contact me if there are any changes in the situation."

"Alright." After Wang Fuxi flew away towards the portal's location, Wang Jishan immediately returned to the Wang Clan.

.  
. .  
.

In the Xiao Clan, Xiao Luo sat together with Cao Teng and Song Han, discussing the move of the Sun and Zhang Clans. The last two people still found it difficult to believe that Sun Qian and Zhang Fei would bring their two clans away from the Central Region, mainly because they had not been in that region for several generations.

Cao Teng and Song Han did not care much about the Tang and Mu clans because they had no influence in the Central Region, unlike Sun Qian and the Sun Clan. Surprisingly, Xie Shun did not try to stop their move; instead, he targeted the Miao Clan, which was far away in the Northern Region.

Additionally, Xie Shun ordered them to remain still and await his next instructions, but he did not inform them that Xie Jun had sustained a serious injury that would require a long time for full recovery.

After chatting for a while, Song Han and Cao Teng left the Xiao Clan to return to their respective clans. Shortly after, Tang Xiao's clone and the two men appeared before Xiao Luo, and he gave him several items to use on the Song and Cao Clans, which would weaken the Xie Clan's influence in the Central Region.

"Why did you do that?"

"I don't have a special reason, and I just want to help people in this region."

"Haha," Sun Qian grabbed Tang Xiao's clone's shoulder. "I'm glad you thought about the safety of those people, even though they have nothing to do with you. This way, the Xie Clan will lose two powerful clans under them, and it will be increasingly difficult for them to mess around in this region."

"Yeah." Tang Xiao's clone opened the map to check Wang Fuxi's position. "The woman is on her way back to the outside world, so I will send you two to my private place, and you can join the others there."

"How about you?"

"I will return to the outside world via another route, so I won't meet that woman, and we will leave Earth in two days."

"Alright." After he sent off the two old men, Tang Xiao's clone immediately went to the nearest portal location to go to the outside world.

.  
. .  
.

Feng Shen and Sun Qian were truly shocked when they arrived at the Primordial Divine Ark, and its interior made them feel like they had entered another world.

"Grandpa Feng and Grandpa Sun." Feng Shen and Sun Qian looked at Xiao Ai, who had just arrived in front of them in a flying car. They were confused when they couldn't sense any life signs from her. "My name is Xiao Ai, and I'm not a human but an android, so you two don't need to be confused if you can't sense any life signs from me."

"What is an android?" The two old men asked in confusion.

"I'll explain everything on the way." Once they boarded the flying car, Xiao Ai took them to the dining area, where everyone had gathered. She also explained a few things to them—about her identity and the area inside the Primordial Divine Ark—but she didn't tell them that she and everything inside the ark came from the future.

Feng Shen and Sun Qian were so shocked they were speechless. They had never been to the outside world, but they had heard about the situation there from Sun Xiang and the others, so they understood that the Primordial Divine Ark and everything within it were far more advanced than there.

"Hahaha." When they arrived at the dining area, Tang Huang's loud laughter greeted their arrival. "I can understand if you guys feel shocked by this place because Old Mu, Tantai Lingyan, and I also experienced the same thing when Xiao'er brought me here, but all of you will get used to everything in this place after some time."

"Where exactly did Tang Xiao get this place, Old Huang?"

"Didn't Xiao'er tell you that his late master came from the supreme realm?" Zhang Fei and the others nodded at Tang Huang. "His late master has visited all the realms in the universe, and many of them have technology far more advanced than Earth's. He built everything based on the technology he saw there in the past, and he passed it all down to my grandson."

"Then, what about this flying artifact?"

"This is not a flying artifact but the Primordial Divine Ark." They looked at Xiao Ai. "My late master found this ark in a distant realm years ago in an empty state, and he built all the technology in this place himself, including me. For now, you don't need to be confused by everything, and you'll get used to everything later. You can use all the facilities in here to improve yourselves, as I don't have any information about the Canglan Realm, so you should prepare yourself for the worst."

"Let's go! I'll take you to the training ground, and we'll train there until we reach the Canglan Realm." Feng Shen, Sun Qian, Zhang Fei, Sun Wei, and Sun Yang immediately followed Tang Huang and Mu Lin.

Several women, including Zhang Xingcai, Chen Xinyan, Sun Yue, Han Yueya, Hao Xingchen, and Fang Xiaoru, immediately left with Xiao Ai. "I'll show you guys around the other areas, so this place won't confuse you. After that, all of you can join them at the training ground, and you must focus on training until we arrive at the Canglan Realm."

.

.

.

Meanwhile, Tang Xiao and Tang Yin exited the ark, planning to meet some people. "Wang Fuxi is on her way back here, so we have to finish everything before she gets here because I don't want to see her again."

"I know." Tang Yin looked at him. "Xiao'er, you should go to the Ouyang House to meet Yi An and Meng Xin, and I'll go meet Fu Chen."

"Are you really thinking of bringing Fu Chen with us? Even though she helped us before, she is Huang Xianyu's disciple, and she might not be willing to go with us."

"At least, I have to try it first, right?"

"Alright, you can go see Fu Chen now, and I will go see those two women."

### **Chapter 338: Leaving Earth II**

Yi An and Meng Xin were a little surprised when Tang Xiao suddenly appeared in front of them, but they could already understand the reason for his arrival.

Ouyang Qing, who was sitting on the sofa to the left, didn't dare look at Tang Xiao even once. On the one hand, she hated him for everything, but on the other, she missed all the times they spent together, especially when they had sex.

Tang Xiao glanced at Ouyang Qing and asked the two women. "What about your decision? In two days, I will leave Earth forever, and I will never come back, so this is your last chance."

"I'll go with you, Xiao'er." Yi An walked in front of him, circled her arms around his neck, and kissed him for a brief moment. "Even though I'm a little disappointed with your disguise, I've already fallen in love with you since that day, and I don't want to imagine my life without you. Furthermore, you've never treated me badly, and you've always been by my side and helped me when I needed help."

After Yi An said that, Tang Xiao hugged her waist and briefly kissed her. He rubbed her cheek and looked into her eyes. "I'm glad you decided to go with me, Yi'er."

"Can you tell me what you plan to do to Qing'er next?"

Tang Xiao looked at Ouyang Qing. "For your sake, I will never treat her badly, but she will never be my official wife; instead, her status will always be the same as Yu Xiaoling and Jessica."

"Eh? Is Yu Xiaoling still alive? Wasn't she supposed to have died in an accident?" Not only Yi An was surprised to hear that but also Ouyang Qing.

"I never killed Yu Xiaoling, and I used certain tricks to fake her death. After all, she betrayed me by giving me sleeping pills, which ultimately made me spend seven years in prison." Tang Xiao looked at Meng Xin. "Do you want to come with me or stay here? I already told you that your brother and nephew's mistakes were not yours, and I already killed them both, so the debt between us has long been settled."

Yi An looked at her best friend with a pleading look. "Please come with us."

"Phew," Meng Xin exhaled softly. "Even if you say that, I still feel guilty towards you and Tang Yin. However, I can't deny my feeling that I want to be with you, and I also don't want to be separated from my best friend, so I will go with you guys."

Tang Xiao smiled in satisfaction after hearing Meng Xin's answer. "The three of you should pack up all your personal belongings now, and I'll take you to my secret place afterward."

"What about the house and company?"

"We won't need them anymore, and we'll use something else in our new life." Tang Xiao asked Xiao Ai to take care of everything and hand them over to Zhao Wei. "I've already asked someone to take care of everything, and Grandpa Wei will take control of the company."

"Uncle Zhao Wei?"

"I'll hand over all the companies and goods on Earth to Grandpa Wei, and he will manage everything with his family." Yi An was a little surprised by this, but she left everything to Tang Xiao. "Go pack now."

Yi An and Meng Xin hurriedly went to their room to pack their belongings. Ouyang Qing was reluctant to go with Tang Xiao, but she couldn't leave her mother, so she also went to pack her belongings.

Tang Xiao sat on the sofa and opened the map to search for Xiao Meng and Qing Cheng's whereabouts, and he found them in a small town far from his location. He briefly considered taking the two with him, but he changed his mind and let them live freely on Earth.

.

.

.

"Tang Yin?"

"Hehe," Tang Yin hurriedly hugged Fu Chen and pushed her inside. "I came here to offer you something, but you have to give up your status as an actress if you're willing to accept it."

Fu Chen was confused by this. "What do you want to offer me? Why should I give up my job as an actress?"

"I want to take you away from Earth, so—"

"Wait a minute! What do you mean by taking me away from Earth?" Tang Yin pulled Fu Chen to sit with her, and she took out her device before activating it. "Where did you get this device? Even though I'm not a technology enthusiast, I know that this kind of device doesn't exist on Earth."

"I got this device from Xiao'er's late master, and he used to be a cultivator from outside Earth."

"Outside Earth?"

"The universe is vast, and Earth is just one of the many planets in the lower realm. There are still many cultivation worlds out there, and we plan to depart for a planet called the Canglan Realm in two days."

"Huh?" Fu Chen was so shocked that her mouth opened wide in an O shape, making Tang Yin itch to pinch her cheeks. "Are you serious about that?"

"Look at that." Fu Chen looked at the images appearing from Tang Yin's device. "This universe is divided into four categories: lower, middle, upper, and supreme. The Canglan Realm is included in the lower realm, like Earth, but the quality and quantity of qi there are three times better than Earth's. If you are willing to go with us there, you can cultivate much faster."

"Who exactly was Tang Xiao's late master?"

"Honestly, Xiao'er himself doesn't know that person's identity because he died to save him, and he didn't leave any records." Fu Chen looked at Tang Yin with a frown. "Hey, I didn't lie to you, okay? You're my best friend, so I want to give you this opportunity, and you'll become much stronger if you go with us there."

"Even though I'm still uncertain about everything, I'm quite interested in your offer. However, I can't go with you because I have responsibilities with my contract, and I have to fulfill them. Will you come back here again in the future?"

"We've decided to go to the Canglan Realm to become stronger faster, and we will return to Earth once we're truly strong." Fu Chen immediately understood their wishes.

"At that time, we will settle our old grudge against Long Yin and Wang Fuxi, who let our parents die at the hands of those bastards."

Fu Chen looked at the images again. "Since you two will be returning to Earth in the future, I'll go with you then. For now, I still have many responsibilities on Earth, and I'm not the type of person who would abandon my responsibilities."

"Are you sure about that?"

"One hundred percent."

Tang Yin gave a storage ring to her best friend. "I've prepared the items inside in case you refuse my offer, and you can use them to improve yourself. When I return to this planet in a few years, I don't want to hear any more rejections from you, and I will take you with us whether you agree or not."

"Hahaha," Fu Chen laughed at that. "Don't worry, I won't reject you again at that time. When will you guys leave for the Canglan Realm?"

"Our original plan was that we would leave in two days, but all our business on this planet is finished, so we might leave sooner."

Fu Chen sighed softly and hugged Tang Yin. "You have to take good care of yourself in that realm, okay? I'll wait for you to come back in a few years, and I don't want to see you hurt then."

"Don't worry, we'll meet again in a few years." Tang Yin broke their embrace and handed Fu Chen a device. "We can communicate remotely using this device, and I'll send you many videos of our adventures in that realm in the future. By the way, never show this device and the pills in the storage ring to your master, okay?"

Fu Chen received the device and nodded to her. "I will keep everything to myself, and you must not forget to send me all videos of your adventures in that realm."

"I still want to talk to you, but I have some things to prepare for our departure, so I'll be leaving now."

"Please take care of yourself, Yin."

"I will."

Fu Chen let out a soft sigh after Tang Yin left, and she checked the contents of the storage ring she gave her. "Eh? How could she give me so many high-level pills? Where did she get them all? If my master saw all these pills, she would probably die of shock."

.

.

.

After the three women finished packing their personal belongings, Tang Xiao immediately brought the three of them to the Primordial Divine Ark.

"This? Where did you get such a futuristic place, Tang Xiao?" Meng Xin asked as she looked around the area.

"I inherited it from my late master." The three women were even more shocked when a flying car arrived in front of them, but Tang Xiao immediately led them aboard. "I already did something to Yi An and Ouyang Qing's bodies a few months ago, so now it's your turn."

"Huh? What did you do to them?"

Yi An also looked at Tang Xiao. "Is that why I never get tired when we have sex?"

"Haha," Tang Xiao embraced her. "I often see you stressed out by your situation, so I secretly do it."

On the way to the laboratory, Tang Xiao explained many things to the three women about the Primordial Divine Ark. He left Meng Xin there so Xiao Ai could help her become a cultivator, and he took the two women to other areas afterward.

### **Chapter 339: Leaving Earth III**

"Sorry, Yao. I couldn't persuade Xiao'er to meet you," Tang Yuan said disappointedly.

Feng Yao shook her head and hugged Tang Yuan. "You don't need to think about that anymore, okay? If I hadn't acted rashly that night, the situation wouldn't have turned out like this. I've already accepted Tang Xiao's anger, so I have no one to blame but myself. Are you going to leave now?"

"Yes." Tang Yun hugged Feng Yao before handing her a storage ring. "There are many pills inside, and you can share them with your parents. I'm leaving now, but I'll be back in a few years when Xiao'er returns here to fight Long Yin and Wang Fuxi. Hopefully, Xiao'er will have changed his mind about you by then, and I will ask him to take you to other realms."

Feng Yao just smiled at that. "You should go now and take good care of yourself in the Canglan Realm."

"Take good care of yourself and wait for my return."

"Alright."

After they hugged each other once more, Tang Yuan immediately entered the ark, leaving Feng Yao to ponder alone on the roof. After some time, she flew to the nearest portal and returned to Earth II, as she no longer had any business in the outside world with their departure.

"I hope you've become a strong cultivator when you return in the future, Xiao'er. At that time, I will personally witness your revenge against Long Yin and Wang Fuxi, and you must kill them for the sake of your late parents."

.

.

.

"Who are those people, Xiao'er? I know your grandfather, Mu Lin, Mu Qingge, Mu Yan, and Sun Xiang, but I don't know the others." As he took both women away from the training ground, Tang Xiao told Yi An about the people from the Zhang and Sun Clans. "Oh? Is Sun Xiang really a cultivator? Why did she choose to become a police officer in the outside world?"

"Xiang'er wasn't comfortable with the harsh life of a cultivator, so she decided to leave Earth II and live in the outside world."

"Xiang'er? Are you in a relationship with her too?"

"We do have a close relationship, but it's not that far yet. Her mother is a loyal woman, and she chose to live alone after her husband died, so she's not yet willing to accept our relationship."

"I see."

Tang Xiao took Yi An and Ouyang Qing to several other areas within the Primordial Divine Ark, and their final stop was the hot spring area. "You guys can have fun here if you like, and I'll go meet Xiao Ai to prepare for our departure."

"Alright." After Tang Xiao left, Yi An walked to the side of the hot spring and squatted there. "Qing'er, let's soak in this hot spring."

"Yes." The two women immediately took off their clothes and entered the pool.

Yi An sat beside her daughter. "I'll try to talk to—"

"No need, Mom." Yi An looked at her daughter. "As I told you a few days ago, I will bear the consequences of all my past mistakes, so you don't need to say anything to him."

"But—"

Ouyang Qing shook her head. "It's okay, Mom. You should think more about yourself than me, and you should enjoy the happiness in front of your eyes."

"Sigh." Yi An embraced her daughter. "Even though you say that, you are my only daughter, remember? I can't possibly not think about your situation, and I want the best for you, so I'll still talk to him later."

"Let's talk about other things, Mom." Ouyang Qing looked at the source of the hot spring. "This hot spring is man-made, but I feel it is much better than the ones I have visited in the past."

"Yes." Yi An scooped up the water with both hands. "Even though I'm not a cultivator, I can feel that the water in this pond is different from the water in the outside world. I still find it hard to believe a place like this exists, and the people of Earth would definitely be shocked by all the technology here."

Ouyang Qing agreed with her mother, as she had seen so many things in the ark, including those flying cars. "Even though the outside world has a lot of modern technology, they haven't been able to create a flying car like the one we used before, and it obviously doesn't use fuel."

"I think so too." Yi An looked around them. "I'm more curious about this ark, Qing'er. There are so many areas inside, and each one is very large, especially the farm and factory areas. Look at this hot spring area; its size is several times that of our house, so the ark must be massive."

"Yeah." Ouyang Qing leaned against the wall of the hot spring, thinking about Tang Xiao's next plan for her. 'Why haven't I seen Jessica anywhere before? Did she go to the outside world?'

.

.

.

Tang Xiao arrived at the main control room and found Tang Yin already there. "What about Fu Chen?"

"Fu Chen still has many responsibilities on Earth, so she's unwilling to come with us. However, we can take her with us when we return to Earth in a few years." Tang Yin

tilted her head to the side. "All our business on Earth is finished, so I don't think we need to delay our departure. Xiao Ai can take care of the rest while we're on the way there, as her system has long been integrated with all the systems on Earth."

"I think the same as you." As Tang Xiao sat in the main seat in the control room, Xiao Ai immediately appeared on the large screen in front of him. His clone had also returned to the Ark, so he decided to right away leave Earth. "Are we ready to go?"

[I've prepared everything long ago, so we can leave Earth whenever you want, Master.]

"Yin'er, you should withdraw your parasitic souls from Ouyang Ming and Ouyang Hong, so both of them will suffer without having any wealth."

"I already did it before I came back."

"Let them suffer a little longer, and I'll kill them in the future."

"Haha."

"Xiao Ai, take us away from Earth! Our next destination is the Canglan Realm."

[Yes, Master.] Xiao Ai first sent a warning to everyone on the ark. [I'll fly the ark now, Master.]

"Yes."

**\*Swoosh\***

Tantai Lingyan, Tang Yuan, and Xing Xing ran into the main control room.

"Why did you suddenly rush our departure, Husband?"

Tang Xiao pulled Xing Xing into his lap. "We have no business on Earth anymore, and I'm too lazy to meet Wang Fuxi again, so I decided to leave for the Canglan Realm two days earlier than originally planned."

"Is everything really all set?"

Tang Xiao nodded to Tang Yuan. "Xiao Ai can take care of the rest on the way, so you don't have to worry about that, Aunt Yuan."

"I see."

"At first, I thought you were going to bring Xiao Meng and Qing Cheng with us, Xiao'er."

"Haha," Tang Xiao laughed at Tantai Lingyan's expression. "From the start, I never had any plans to bring them with us, Master. Even though Xiao Meng did all that for her mother's safety, I never liked her attitude. Moreover, they're safe now that the Xiao Clan is under my control, so she and her mother can live peacefully on Earth."

"Well, that's true." Tantai Lingyan looked at him. "I'm still disappointed that you didn't want to bring Bing Qing with us, and I hope you will bring her in the future."

Tang Xiao actually liked Bing Qing, but he didn't want to ruin her peaceful life on Earth II. Moreover, he didn't have clear information about the situation in the Canglan Realm, so he decided to leave her. "Let's talk about it in the future, Master. If she and her brother have become strong when we return to Earth in the future, I will consider bringing them with us, and we will go straight to the upper realm after I defeat Wang Fuxi and Long Yin."

"Eh?" Tantai Lingyan and Tang Yuan were shocked to hear that. "Are you going to pass the middle realm?"

"The situation in the middle realm isn't that much different from the lower realm, except that there are quite a few cultivators with cultivations above the mortal realms. That's why I think it's pointless for us to go to one of the planets there; instead, we'll go directly to one of the planets in the upper realms."

Tantai Lingyan nodded in understanding. "The journey to the Canglan Realm takes two to three months, right? In that case, I'll focus fully on my cultivation and training, so I'll be ready when we arrive."

"Me too." Tang Yun nodded.

Tang Xiao smiled at them. "For now, I want to reach the King Realm and form my cultivation soul first, and my clone will focus on training in the training ground."

"Let's go, Yuan! Two to three months is a short time, so we can't waste time lazing around, so we should join Old Huang and the others to train." Tang Yuan immediately followed Tantai Lingyan to return to the training ground.

[Master, we have flown away from Earth, and you can go to the upper deck if you want to see Earth from space.]

Hearing that, Tang Xiao put Xing Xing down from his lap, taking her and Tang Yin to see Earth one last time. He also told the others about it in case they wanted to see it, since they wouldn't be back for several years.

Tang Xiao and several people stood on a deck covered with thick, special glass. Their gazes were focused on looking at Earth, which was slowly moving away from their sight.

"I've long guessed that the Primordial Divine Ark is massive, but I never expected it to be this massive!" Xing Xing spoke with awe. "Moreover, this ark has been in outer space all this time, but I couldn't have guessed that before."

"Hehe," Tang Yin chuckled. "With the ark being this big, it's impossible for Xiao Ai to bring it to Earth, right? The presence of this ark will put ordinary people in danger, even though it has camouflage features and is invisible to earthlings".

"Yes," Xing Xing propped her chin with her hand on the guardrail. "So far, I've only been able to see things like this in films, but I can see Earth directly from space now, and it's truly beautiful."

Not only Xing Xing felt that way, but Mu Qingge, Mu Yan, and several other women also felt that Earth was beautiful when viewed from space.

"We just left, but I already miss our clan, Mom." Mu Yan hugged Mu Qingge, watching Earth continue to drift away from her sight.

Mu Qingge smiled and hugged her daughter. "I feel the same way, Yan'er. I was born and grew up on Earth II, but I would never have known about any of this if it weren't for Tang Xiao."

"Yeah."

.  
. .  
. .

Tang Yuan looked at Earth longingly. "Goodbye, Big Brother and Big Sister. We're going to the Canglan Realm, so we won't be able to visit your graves again in the future. In the past, you two forbade our father and me from teaching your two children about cultivation, but they're already cultivators now, and they've given us the opportunity to become even better cultivators."

"Please forgive me, Father." Zhao Qing sighed in her heart, thinking of her father, Zhao Teng. "I left without telling you, and we will never see each other again because Xiao'er will take me to the Canglan Realm, so I hope you will take excellent care of yourself on Earth."

.  
. .  
. .

On the other side, Yu Xiaoling, Jessica, Zhao Yuxian, Yao Yao, and the Ran Twins stood side by side, staring in awe at Earth. As Earthlings, they had heard of space travel using rockets, but they had never imagined that they would one day go into space. Moreover, they were not only flying in outer space, but they were also on their way to a new realm that all earthlings could never imagine.

Ran Yue and Ran Xue each took out their smartphones, recording the scene in front of them. Since they were going to the Canglan Realm, and they didn't know whether they would return to Earth in the future or not, they wanted to keep it as a memento.

Unlike her twin daughters, Zhao Yuxian didn't think much about Earth as she had long since accepted her fate.

Jessica's face showed melancholy as she held her chest, thinking about her husband and child. Even though several months had passed, she still thought about them, but she no longer had the desire to return to them because she already belonged to Tang Xiao. Moreover, her position by their side has been taken over by an artificial doll that completely resembles her. "I'm sorry, I can no longer accompany you two, so I hope you two will take good care of yourselves on Earth."

Yu Xiaoling also experienced the same feelings as Jessica at this time. She had long forgotten her husband, but she always missed their child. Unfortunately, she was dead in their eyes, and she would be far from Earth. "I hope you take care of our child, and you have to educate her well."

Yao Yao gripped the guardrail tightly and focused on looking at Earth. "Father and mother, I'm sorry I can't accompany you two anymore. I will go to the Canglan Realm with the others, and I will start a new life there. Despite the vast distance that separates us, I will always hold you dear in my memories."

Yi An and Ouyang Qing were also among them, hugging each other. They had never imagined leaving Earth before, but they were already in space on their way to the Canglan Realm.

Yi An inwardly sighed. "Ming'er, you must change and become a better man. I can't accompany you anymore, so you must take care of yourself and your father."

"Goodbye, Earth! I will miss you forever because you are my birthplace." Ouyang Qing inwardly muttered.

Meng Xin, who had completed the process of becoming a cultivator, stood beside Yi An and looked at Earth. "Phew! Even though we just left, I already miss Earth. I don't know what the future holds, especially in the Canglan Realm, but I must do my best to adapt to my new life as a cultivator."

.

.

On the other side, the women of the Zhang and Sun Clans stood side by side, gazing at Earth with longing and admiration. They would arrive in the Canglan Realm in two to three months, and they would never return to their home planet.

Zhang Xingcai felt the same way as both of her family, but she was more concerned about her daughter Sun Xiang's situation. She repeatedly glanced at her daughter, who hadn't spoken to her since their argument some time ago.

Zhang Xingcai was aware that her daughter had fallen in love with Tang Xiao, but she insisted on refusing to approve of their relationship because he already had two wives, and his number of wives would increase in the future with the presence of Yi An and Meng Xin.

Sun Xiang noticed her mother's glance, but she didn't pay any attention to her, and she was more enjoying the view of Earth from space. She never liked the cultivation world, and she chose to stay in the outside world because of it. However, she eventually followed Tang Xiao to the Canglan Realm, which was inhabited by far more cultivators than Earth II. "Sigh! I hope the situation in that realm won't be as chaotic as Earth II, but that seems unlikely, especially with all its inhabitants being cultivators."

As Earth grew smaller in their view, Tang Xiao led them back into the ark, and most of them went straight to the training ground to train. He took Yi An, Meng Xin, and Ouyang Qing with him to the residential area to choose their rooms.

.

.

.

Ouyang Qing decided to take the room next to Jessica's, but Yi An and Meng Xin decided to stay in the same room, especially since all the rooms there were quite big and spacious.

After the three women chose their rooms, Tang Xiao took Yi An and Meng Xin to his room because he hadn't seen them for a long time.

"Eh? This bedroom is different from the others." Meng Xin ran toward the Jacuzzi. "Aish! You cheated, Tang Xiao! This room is the only one with a Jacuzzi!"

"Haha," Tang Xiao hugged Yi An's waist, bringing her over to Meng Xin. "This bedroom used to be Xiao Ai's master's room, and she asked me to occupy it. Thus, it's natural

that this bedroom has various amenities that the other rooms don't have, right? If you like, you can use it every day, and the water in it will be useful for you as a cultivator."

Meng Xin turned to him and smiled seductively. "Are you thinking about seeing me naked?"

"Haha." After he let go of Yi An, Tang Xiao pulled Meng Xin into his embrace. "Do you still remember what you said that night?"

Meng Xin blushed. "I was so drunk that night; I don't remember what I said."

"Is that true?" Tang Xiao caressed her cheek. "What about our kiss at the airport? Do you remember that?"

"I—Mhmm." Meng Xin was surprised when Tang Xiao suddenly sealed her lips, but she didn't resist him. She closed her eyes, wrapped her arms around his neck, and kissed him back. 'Mhmm... his kisses are getting better than when we kissed for the first time at the airport.'

Yi An smiled as she watched them enjoy their kiss, and she looked thoughtfully at the jacuzzi. She decided to take off all her clothes and get inside. "The water in this jacuzzi is different from that in the hot spring."

"Do you remember now?"

Meng Xin nodded bashfully, and she became even more embarrassed as Tang Xiao began to undress. She didn't refuse him; instead, she moved to strip him as well.

After they were naked, Tang Xiao pulled Meng Xin into the jacuzzi, with him sitting between her and Yi An. He embraced both women and kissed them in turn. "I know today's changes still feel strange for you two, but we will help you adapt to them, and I'm sure you'll get used to everything quickly."

"I still feel strange about everything." Yi An laid her head on Tang Xiao's left shoulder, holding his hand. "Unlike Meng Xin, I'm just an ordinary woman who can't cultivate, so I don't know if I'll be able to adapt to the situation in the Canglan Realm. If I can't adapt there, I'll stay inside this ark forever."

"Do you trust me, Yi'er?"

"If I didn't trust you, I wouldn't be here with you, right?"

"That's right." Tang Xiao looked at her. "Don't worry, I will keep my promise to you. I will find a cultivation veins that perfectly suits your body, and you will be able to cultivate like us then."

"Yeah." Yi An moved onto Tang Xiao's lap. "I missed you."

## Chapter 340 340: Toward The Canglan Realm

Tang Xiao and several people stood on a deck covered with thick, special glass. Their gazes were focused on looking at Earth, which was slowly moving away from their sight.

"I've long guessed that the Primordial Divine Ark is massive, but I never expected it to be this massive!" Xing Xing spoke with awe. "Moreover, this ark has been in outer space all this time, but I couldn't have guessed that before."

"Hehe," Tang Yin chuckled. "With the ark being this big, it's impossible for Xiao Ai to bring it to Earth, right? The presence of this ark will put ordinary people in danger, even though it has camouflage features and is invisible to earthlings".

"Yes," Xing Xing propped her chin with her hand on the guardrail. "So far, I've only been able to see things like this in films, but I can see Earth directly from space now, and it's truly beautiful."

Not only Xing Xing felt that way, but Mu Qingge, Mu Yan, and several other women also felt that Earth was beautiful when viewed from space.

"We just left, but I already miss our clan, Mom." Mu Yan hugged Mu Qingge, watching Earth continue to drift away from her sight.

Mu Qingge smiled and hugged her daughter. "I feel the same way, Yan'er. I was born and grew up on Earth II, but I would never have known about any of this if it weren't for Tang Xiao."

"Yeah."

.

.

.

Tang Yuan looked at Earth longingly. "Goodbye, Big Brother and Big Sister. We're going to the Canglan Realm, so we won't be able to visit your graves again in the future. In the past, you two forbade our father and me from teaching your two children about cultivation, but they're already cultivators now, and they've given us the opportunity to become even better cultivators."

"Please forgive me, Father." Zhao Qing sighed in her heart, thinking of her father, Zhao Teng. "I left without telling you, and we will never see each other again because Xiao'er will take me to the Canglan Realm, so I hope you will take excellent care of yourself on Earth."

.

.

.

On the other side, Yu Xiaoling, Jessica, Zhao Yuxian, Yao Yao, and the Ran Twins stood side by side, staring in awe at Earth. As Earthlings, they had heard of space travel using rockets, but they had never imagined that they would one day go into space. Moreover, they were not only flying in outer space, but they were also on their way to a new realm that all earthlings could never imagine.

Ran Yue and Ran Xue each took out their smartphones, recording the scene in front of them. Since they were going to the Canglan Realm, and they didn't

know whether they would return to Earth in the future or not, they wanted to keep it as a memento.

Unlike her twin daughters, Zhao Yuxian didn't think much about Earth as she had long since accepted her fate.

Jessica's face showed melancholy as she held her chest, thinking about her husband and child. Even though several months had passed, she still thought about them, but she no longer had the desire to return to them because she already belonged to Tang Xiao. Moreover, her position by their side has been taken over by an artificial doll that completely resembles her. "I'm sorry, I can no longer accompany you two, so I hope you two will take good care of yourselves on Earth."

Yu Xiaoling also experienced the same feelings as Jessica at this time. She had long forgotten her husband, but she always missed their child. Unfortunately, she was dead in their eyes, and she would be far from Earth. "I hope you take care of our child, and you have to educate her well."

Yao Yao gripped the guardrail tightly and focused on looking at Earth. "Father and mother, I'm sorry I can't accompany you two anymore. I will go to the Canglan Realm with the others, and I will start a new life there. Despite the vast distance that separates us, I will always hold you dear in my memories."

Yi An and Ouyang Qing were also among them, hugging each other. They had never imagined leaving Earth before, but they were already in space on their way to the Canglan Realm.

Yi An inwardly sighed. "Ming'er, you must change and become a better man. I can't accompany you anymore, so you must take care of yourself and your father."

"Goodbye, Earth! I will miss you forever because you are my birthplace."  
Ouyang Qing inwardly muttered.

Meng Xin, who had completed the process of becoming a cultivator, stood beside Yi An and looked at Earth. "Phew! Even though we just left, I already miss Earth. I don't know what the future holds, especially in the Canglan Realm, but I must do my best to adapt to my new life as a cultivator."

.

.

.

On the other side, the women of the Zhang and Sun Clans stood side by side, gazing at Earth with longing and admiration. They would arrive in the Canglan Realm in two to three months, and they would never return to their home planet.

Zhang Xingcai felt the same way as both of her family, but she was more concerned about her daughter Sun Xiang's situation. She repeatedly glanced at her daughter, who hadn't spoken to her since their argument some time ago.

Zhang Xingcai was aware that her daughter had fallen in love with Tang Xiao, but she insisted on refusing to approve of their relationship because he already had two wives, and his number of wives would increase in the future with the presence of Yi An and Meng Xin.

Sun Xiang noticed her mother's glance, but she didn't pay any attention to her, and she was more enjoying the view of Earth from space. She never liked the cultivation world, and she chose to stay in the outside world because of it. However, she eventually followed Tang Xiao to the Canglan Realm, which

was inhabited by far more cultivators than Earth II. "Sigh! I hope the situation in that realm won't be as chaotic as Earth II, but that seems unlikely, especially with all its inhabitants being cultivators."

As Earth grew smaller in their view, Tang Xiao led them back into the ark, and most of them went straight to the training ground to train. He took Yi An, Meng Xin, and Ouyang Qing with him to the residential area to choose their rooms.

.  
. .  
.

Ouyang Qing decided to take the room next to Jessica's, but Yi An and Meng Xin decided to stay in the same room, especially since all the rooms there were quite big and spacious.

After the three women chose their rooms, Tang Xiao took Yi An and Meng Xin to his room because he hadn't seen them for a long time.

"Eh? This bedroom is different from the others." Meng Xin ran toward the Jacuzzi. "Aish! You cheated, Tang Xiao! This room is the only one with a Jacuzzi!"

"Haha," Tang Xiao hugged Yi An's waist, bringing her over to Meng Xin. "This bedroom used to be Xiao Ai's master's room, and she asked me to occupy it. Thus, it's natural that this bedroom has various amenities that the other rooms don't have, right? If you like, you can use it every day, and the water in it will be useful for you as a cultivator."

Meng Xin turned to him and smiled seductively. "Are you thinking about seeing me naked?"

"Haha." After he let go of Yi An, Tang Xiao pulled Meng Xin into his embrace. "Do you still remember what you said that night?"

Meng Xin blushed. "I was so drunk that night; I don't remember what I said."

"Is that true?" Tang Xiao caressed her cheek. "What about our kiss at the airport? Do you remember that?"

"I—Mhmm." Meng Xin was surprised when Tang Xiao suddenly sealed her lips, but she didn't resist him. She closed her eyes, wrapped her arms around his neck, and kissed him back. 'Mhmm... his kisses are getting better than when we kissed for the first time at the airport. '

Yi An smiled as she watched them enjoy their kiss, and she looked thoughtfully at the jacuzzi. She decided to take off all her clothes and get inside. "The water in this jacuzzi is different from that in the hot spring."

"Do you remember now?"

Meng Xin nodded bashfully, and she became even more embarrassed as Tang Xiao began to undress. She didn't refuse him; instead, she moved to strip him as well.

After they were naked, Tang Xiao pulled Meng Xin into the jacuzzi, with him sitting between her and Yi An. He embraced both women and kissed them in turn. "I know today's changes still feel strange for you two, but we will help you adapt to them, and I'm sure you'll get used to everything quickly."

"I still feel strange about everything." Yi An laid her head on Tang Xiao's left shoulder, holding his hand. "Unlike Meng Xin, I'm just an ordinary woman who can't cultivate, so I don't know if I'll be able to adapt to the situation in the Canglan Realm. If I can't adapt there, I'll stay inside this ark forever."

"Do you trust me, Yi'er?"

"If I didn't trust you, I wouldn't be here with you, right?"

"That's right." Tang Xiao looked at her. "Don't worry, I will keep my promise to you. I will find a cultivation veins that perfectly suits your body, and you will be able to cultivate like us then."

"Yeah." Yi An moved onto Tang Xiao's lap. "I missed you."
