Chapter 341: Meng Xin's First Blowjob*

"Hey! Why are you getting horny?"

Yi An tilted her head at Meng Xin. "Before I went on vacation to Paris, we had sex almost every day, and it's been over two months since we last had it, so I want to have sex with him now."

"Tang Xiao, you've turned my best friend into a pervert!" Even so, Meng Xin glanced at his dick under the water. She had held it a few months ago, and she remembered for sure that it was much bigger than the average man. She even asked him to have sex with her at that time, but he rejected her.

"You've never experienced the full sensation of his cock inside you, and you'll be hooked after just one taste." Yi An got off Tang Xiao's lap and pulled him to his feet.

"Big!" Meng Xin shrieked as Tang Xiao's fully erect cock was exposed before his eyes. "Oh, gosh! Your cock is bigger than when I touched it last time!"

"Hehe," Tang Xiao teased Meng Xin. "Do you want to touch it again? Back then, you were holding it from the outside of my trousers, so you couldn't estimate its actual size."

Meng Xin unhesitatingly stretched her hand forward and held Tang Xiao's cock, squeezing it gently and feeling its hardness. "It's so hard! I didn't know that a man's cock could be this hard! If—"

"Alright, no need to mention a dead man, right?"

Meng Xin nodded as her hand began to move slowly, giving Tang Xiao's cock a hand job and squeezing it gently.

"Ugh!"

Meng Xin smiled mischievously when she heard Tang Xiao's low moan. She pointed his cock upward and licked its shaft from top to bottom and vice versa. 'It's been a while since I've done this for a man.'

Yi An pursed her lips as she watched her best friend do that, but she knew that Meng Xin was quite naughty and quite lustful. Moreover, she herself had tasted Tang Xiao's cock too many times, and she was always tempted to enjoy it in her mouth or in her pussy.

Tang Xiao pulled Yi An closer and kissed her. His left hand moved to her breasts, gently kneading and molding them. His right hand moved between her inner thighs, and his finger slowly traced her wet pussy.

Yi An closed her eyes, embraced Tang Xiao's neck, and kissed him back. She spread her legs to the side to give her right hand more freedom to play with her pussy, and her body trembled as his fingers slipped between her pussy lips.

"Mhmm..." Yi An was overcome with ecstasy as Tang Xiao's finger curled into her pussy, slowly moving it while rubbing her clitoris. Her pussy, which was already wet from the water from the jacuzzi, became even wetter as her sexual fluids flowed out of her body. "Mhmm..."

When she heard her best friend's moans, Meng Xin glanced down at Yi An's lower body for a moment, watching Tang Xiao's fingers move in and out. She returned her focus to his cock and inserted it into her mouth, licking his glans all over with her tongue.

Tang Xiao trembled as Meng Xin did that, but he didn't expect her to be more skilled than Yi An at performing a blowjob. Her head slowly moved back and forth, but her tongue didn't stop licking his glans, and her slender fingers gently played with his testicles.

"Mhmm..." Yi An hugged Tang Xiao's neck tighter as her legs went limp from the relentless sexual stimulation. Her sexual fluids flowed out more, and the movement of his fingers inside her pussy produced squelching sounds. "Mhmm..."

Below, Meng Xin was enjoying herself even more, and Tang Xiao's cock was moving inside her mouth faster and faster in accordance with the movements of her head. Her left hand has moved to her breasts, and her right hand is on her pussy to stimulate herself.

When she was still married to Yao Wei, Meng Xin often satisfied herself because he was too busy with other things, neglecting her sexual needs. She had wanted to enjoy Tang Xiao's cock ever since she touched it some time ago, but he refused to have sex with her at the time, and her wish finally came true.

"Ahh..." Yi An hid her face beside Tang Xiao's head as she enjoyed the increasingly fast movement of her fingers inside her pussy. "Ahh... Xiao'er... Ahh... I'm going to orgasm soon."

Tang Xiao moved his fingers faster, licked Yi An's ear, and whispered to her. "Release it, Yi'er. You haven't had an orgasm for a long time, so you don't need to hold it in."

"Ahh..." Yi An hugged Tang Xiao's neck tightly, and her legs clamped his hand between her inner thighs. She convulsed in his embrace, and her pussy squirted her sexual fluids. "Ahh... Cumming..."

Meng Xin, who was enjoying Tang Xiao's cock, was a little surprised by Yi An's orgasm.

Meng Xin furrowed her brows as Tang Xiao's cock throbbed hard in her mouth, and she hurriedly took it out of her mouth, as she had never swallowed a man's cum before.

"Ugh!" The next second, the small slit above Tang Xiao's glans shot his cum onto Meng Xin's pretty face, and he kept shooting his cum for a whole minute, leaving her stunned.

After his ejaculation stopped, Meng Xin shot a deadly glare at Tang Xiao, but he smiled at her.

"Sorry... Your mouth made my cock so comfortable, and I couldn't hold back my ejaculation." Tang Xiao used his qi and wiped his cum from Meng Xin's face clean.
"Done."

Yi An tried to catch her breath and looked at her best friend. "Hey! You should swallow his cum; it'll make your body stronger."

"Hmm?" Meng Xin looked at Yi An in disbelief. "Do you often swallow his cum?"

Yi An nodded as she squatted in the jacuzzi, and she took Tang Xiao's cock from Meng Xin's hand. "Xiao'er, I want your cum."

"Make me."

Yi An pursed her lips for a moment before inserting Tang Xia's still erect cock into her mouth, and she gave him an intense blowjob straight away.

Meng Xin looked at her best friend, who was so excited about giving Tang Xiao a blowjob that her cheeks were deeply dimpled. She was even more amazed by his cock because it was still perfectly erect, even though he had just orgasmed on her face.

Tang Xiao lifted Meng Xin to her feet, cleaned the remaining cum from her mouth, and briefly kissed her. "Are you ready to be mine?"

"No." Meng Xin rested her head on his left shoulder. "Please give me some time, okay? I've been thinking about it since I was on vacation, but I'm not ready to have sex with you yet. For now, I want to get to know you better and confirm my feelings, and I'll have sex with you when I'm truly ready."

"It's okay; we still have plenty of time, so we don't need to rush."

"Yeah."

Tang Xiao looked at Yi An, who couldn't wait to enjoy his cum again. He forced his cum out in her mouth, which she enjoyed until the last drop.

"Hehe," Yi An giggled after releasing Tang Xiao's cock from her mouth. "I've been waiting a long time to enjoy it again."

Tang Xiao rubbed her cheek. "After this, you can enjoy it every day if you want, Yi'er."

"Yeah."

"Hey! Doesn't that taste bad?"

"No," Yi An shook her head at Meng Xin. "At first, I thought it would taste disgusting and horrible, but I didn't taste anything from his cum, and I've been swallowing it ever since. If you don't believe me, you can try tasting it, and I'm sure you'll enjoy it."

"Let me think about it first." Meng Xin let go of Tang Xiao. "You guys can have sex now, and I'll watch from the sidelines."

"Do you want to do it in bed?"

Yi An thought for a moment before turning her back to Tang Xiao, and she leaned forward with both hands supporting her body on the side of the jacuzzi. "Do me from behind, Xiao'er."

Meng Xin could only shake her head upon seeing and hearing her best friend act like that. "You've changed now, and you're truly shameless."

"You will be the same as me after you have sex with him." Yi An looked back. "I can't wait any longer."

Tang Xiao leaned closer to Yi An, held her buttocks, and rubbed his glans against her wet pussy. "Get ready, Yi'er."

"Ahh..." Yi An's head tilted upward as she released a loud moan after Tang Xiao's cock fully penetrated her pussy, making her inside feel full and even wet. She squeezed the edge of the jacuzzi, and her legs bent slightly. "Mhmm... I miss this full sensation, Xiao'er."

Meng Xin gulped hard as she saw their lower bodies pressed together, and she imagined Tang Xiao's cock deep inside Yi An's pussy. "Is the sensation so amazing?"

"Uhm." Yi An nodded and turned to her. "I have a hard time describing the sensation, so you should try having sex with him. My insides feel so full, and his glans is touching my innermost walls."

"I'll have sex with him one day."

Yi An looked at Tang Xiao again. "Please move your cock and fuck me hard, Xiao'er."

"Call me husband first."

"Husband, please move your cock and fuck me hard." Tang Xiao smiled and started pumping Yi An. "Ahh... Your cock is the best, Husband."

Yi An instinctively moved her body back and forth in rhythm with Tang Xiao's cock thrusts, and she tried to tighten her lower body, giving both of them immense sexual pleasure.

"Ahh... Your cock is pounding me hard."

Chapter 342: Tang Xiao - Yi An**

Meng Xin shook her head when Tang Xiao carried Yi An to bed, making her best friend moan even louder as they had sex while walking there.

Meng Xin decided to get out of the jacuzzi and get dressed, leaving them to enjoy their time. She considered going to the training ground and joining the others, but Xiao Ai had previously forbidden her from going there before she got used to her new situation.

In the end, Meng Xin returned to her room to study all the things that Xiao Ai put into her mind before.

Tang Xiao made Yi An crawl on all fours on the bed. He grabbed her breasts, gently kneading them along with her hardened nipple. His lower body continued to clap against hers, and his dick pounded her increasingly wet pussy with a steady rhythm.

****Pah... Pah...****

"Ahh... Ahh..." Her eyes kept opening and closing from the pleasure that swept through her body with every deep thrust of his cock, and only increasingly erotic moans could be heard from her. Wet squirting sounds continued to come from her pussy, which was getting drenched with her sexual liquid. "Ahh... Ahh..."

****Pah... Pah...****

"Ahh... Ahh..." Her breasts jiggled under as he fucked faster and faster. Her thick, sensual, red lips kept parting, followed by moans that became more sensual as the seconds passed. "Ahh... Ahh..."

He himself felt immense pleasure in his cock as her inner walls wrapped around his shaft, squeezing it tightly. Despite her inside being so slippery, the rubbing of her inner walls on his shaft was intense, giving both of them unbearable pleasure.

Her head tilted upward as his dick kept poking her last wall, and his intense thrust made her afraid that his cock would penetrate her cervix.

****Pah... Pah...****

She had never experienced such intense and relentless sexual satisfaction during her marriage to Ouyang Hong, rendering her sexual life quite dull.

However, her sexual life changed since he came into her life, and she finally got the sexual satisfaction she had always been looking for throughout her marriage.

When they had sex for the first time, she felt a deep sense of guilt because she was still Ouyang Hong's wife at that time. However, the sexual pleasure that he gave her made her unable to hold herself back, and she ended up having sex with him almost every day—whether at home or outside.

When she went on holiday with her daughter to Paris, she really missed him and their sexual activities, but she was forced to hold back her lust for a whole month. When she returned to their country, she wanted to spend time with him, but all the revelations, including his relationship with her daughter, gave her a dilemma.

She was devastated after learning everything, and she thought about letting him go at that time. However, she thought back to their relationship and his gentle treatment towards her, which made her not want to lose him. She eventually made up her mind and accepted everything, as she was afraid her life would be miserable again if he left her.

****Pah... Pah...****

"Ahh... Husband... Ahh... I'm going to orgasm again."

"Release it, and I will release my cum inside you."

"Ahh..." She bent down on the bed with her face pressed against the mattress, and her body convulsed violently as she reached her second orgasm. "Ahh... Cumming..."

Despite this, his cock didn't stop pounding her pussy, as it released as much of his cum as possible, which mixed with her sexual fluids.

After their orgasm ended, he lifted her to her feet, making her bend forward and holding onto the headboard. He lifted her left leg as his cock continued to move in and out of her pussy, enjoying the increasingly intense squeeze after her last orgasm.

****Pah... Pah...****

He flipped her as he leaned forward, and he kneaded her breasts while sucking her left nipple, using his hand to play with the right one. His dick thrust deeper inside her pussy, increasing in speed with each movement.

"Ahh... suck it... Mhmm... suck my nipple harder." Her face grew lewd as her lust soared more, and her moans became louder, mixed with the sound of clapping from their lower bodies. "Ahh... gosh... Ahh... your dick keeps poking my deepest spot."

He roughly kneaded her breasts, and he repeatedly bit her left nipple, licking and pressing the tip using his forked tongue. He thrust his hips faster, increasing the intensity of his penetration.

****Pah... Pah...****

"Ahh... Ahh..." She kept jerking from the overwhelming pleasure, especially as his dick rubbed against her pussy both inside and out, with his glans repeatedly poking at her deepest spot. "Ahh... so good..."

"Do you want to go faster?"

"Mhmm... faster..."

"As you wish."

"Ahh... harder..."

****Pah... Pah...****

She was completely immersed in the sexual pleasure that continued to course through her body with each powerful thrust of his dick, and her eyes were clouded by her lust. She gradually lost her mind to lust under his intense onslaught and stimulation, and her moans grew increasingly lewd as she also uttered obscene words.

"Ahh! I'm cumming again, husband!" She suddenly reached her orgasm again, but she didn't stop him and kept moving her body in sync with his dick's thrusts, which became faster and more intense, especially since he was getting hornier with the pinch of her pussy on his dick. "Ahh... Ahh. ..."

He eventually had sex with her for some time until she reached several more orgasms.

.

.

.

Tang Xiao was already lying on the bed with Yi An curled up in his arms and smiling contentedly. "Hehehe."

"Hmm? Why are you giggling to yourself?"

"I felt satisfied because we didn't have sex while I was on vacation in Paris, and we also didn't have sex after I returned to our country." Yi An looked up slightly. "Unlike you, who have Tang Yin and Xing Xing by your side, I only have you, so I felt lonely at that time."

"Hehe," Tang Xiao hugged her. "Actually, we never had sex while you were on vacation either, and we focused on our training to prepare for our departure to the Canglan Realm."

"Hey, husband, what should I do in the Canglan Realm later? Do you have any plans there? After all, I'm an ordinary woman, and I won't be able to handle the situation there."

Tang Xiao had also thought about it, but unfortunately, he didn't have any clear information about the Canglan Realm. "For now, I don't have any plans for that realm because I'm still unfamiliar with the situation there, so I'll go check it out once we get there, and then I'll formulate my next plan. As for you and Qing'er, you two can stay inside the ark for a while, and I'll take you out once I know the situation there."

"I'm used to staying at home, so I don't have a problem with that. However, Qing'er is different from me, and she often travels to various places on Earth, so she might get bored of staying here all the time." Yi An suddenly remembered something. "Why don't you take Lin Yan with us?"

Tang Xiao shook his head. "I never had any feelings for Lin Yan, and I had sex with her purely for revenge because she had made false accusations against me seven years ago. At first, I wanted to kill her like I killed Luo Qinlin, but Xing'er and Yin'er persuaded me not to kill her, and I decided to leave her on Earth."

"Then, why did you bring Jessica with us?"

"Jessica is different from Lin Yan, and she participated in the incident because of your daughter's threats. Even so, I can't forgive her completely because she was one of the masterminds who made me spend seven years in prison."

Yi An hugged Tang Xiao. "I still find it difficult to believe that my daughter would do all that to you and Tang Yin in the past, but that's the truth, and I truly regret what my daughter did to you two. I've raised her as best I could, and I've always fulfilled her wishes, but I never realized that her character would be so similar to her father's."

"It's okay, you don't need to blame yourself. It's all in the past now, and we will start our new life in the Canglan Realm in a few months, so you don't need to remember all that anymore."

Yi An leaned closer to Tang Xiao's arms and hugged him tightly. "Accompany me to sleep, okay?"

"Alright."

.
. .
.

"Jessica."

Jessica, who was about to enter her room, immediately stopped and looked at Ouyang Qing. "Are you satisfied? Because of you, I lost my husband and child! Although I've long accepted my fate, I still often regret my decision seven years ago. I will never forgive you for ruining my joyful life, even though we are now in the same situation."

After saying that, Jessica ignored Ouyang Qing and went into her room.

"Your behavior in the past was outrageous; did you know that?" Ouyang Qing looked at Yu Xiaoling. "Just like Jessica, I also had to lose everything because of you, including my real face. Even though we both have the same fate now, I don't want to talk or meet you."

Zhao Yuxian, who witnessed the incident, felt sorry for Ouyang Qing.

However, Zhao Yuxian did not go to see Ouyang Qing and allowed the three women to handle their own affairs, knowing that it would be difficult, especially because Jessica and Yu Xiaoling were cultivators.

Ouyang Qing could only sigh to herself after Yu Xiaoling entered her room, and she immediately returned to her own room.

Chapter 343: Start His Breakthrough

Morning came quickly, and Tang Xiao left the sleeping Yi An behind. As he exited the room, he found the Ran Twins and Yao Yao discussing cultivation and other matters in the front room. "Did you three enjoy your time?"

"Cousin, I still find it hard to leave Earth," Ran Yue answered him.

Ran Xue asked him, "Will you take us back to Earth someday, Cousin?"

"I'll return to Earth when I'm ready to face Wang Fuxi and Long Yin, but it will probably take several years."

The Ran Twins nodded in understanding. "In that case, we will come with you when you return to Earth, Cousin."

"Alright." Tang Xiao sat in front of them. "I understand how you two feel, but we are cultivators, and the situation on Earth will hinder our development. We don't know the situation in the Canglan Realm yet, but you two will probably enjoy living there later."

"What will we do in that realm later, cousin?"

"Where will we live in that realm, cousin?"

"I don't have any plans for the future yet, and I will check the situation in that realm before making a decision." Tang Xiao told them some things he knew about the Canglan Realm. "If you two want, you can join the sects there later, and you can further develop yourselves there."

"A sect? Is that like a campus on Earth?"

"A sect is similar to a campus, but it is also different at the same time." The Ran Twins looked at Yao Yao. "I don't know about a real sect myself, but I've read xianxia novels in the past. Cultivators join a sect not to learn general things, but to learn many things about cultivation and seek resources for their cultivation. We can take various missions that suit our level, and we will get rewards equivalent to the level of the mission."

"Haha," Tang Xiao laughed. "I don't know where xianxia novelists get their ideas, but Yao Yao isn't wrong about that. Some sects in other realms have similarities to the ones in novels, but they have different rules compared to the fantasy ones, so we'll have to check them out for ourselves when we arrive in the Canglan Realm. If there's an interesting and harmless sect, we will join there to improve ourselves, and we'll make many new friends there."

"How long will it take us to get there, Tang Xiao?"

"Two or three months." Tang Xiao stood up from his seat. "That's why we can't waste time relaxing, and we have to prepare ourselves as best as possible before we arrive in that realm. Since the three of you are fresh now, we should go to the training ground to practice."

"Yes." The three women immediately followed Tang Xiao.

Shortly after they left, Ouyang Qing came out of her room to look for her mother, but she found Yi An asleep. She found Meng Xin busy cultivating in her room, but she couldn't find anyone else in the residence, as they were busy practicing in the training ground.

Ouyang Qing sat alone in the living area as she contemplated her future. After all, she and her mother didn't have cultivation veins, so they couldn't cultivate like Tang Xiao and the others. "Do I have to spend all my time in this place forever?"

.

.

.

When they arrived at the training ground, they saw Tang Yin and Sun Xiang sparring, and the fight between the two women was quite intense.

As usual, several women like Zhao Qing, Yu Xiaoling, Jessica, and others were training under the guidance of Tang Huang, Tantai Lingyan, and Mu Lin.

Senior cultivators like Sun Qian, Zhang Xingcai, and several others were practicing using the gravity feature.

Sun Yue wanted to train using the gravity feature like the others, but Xing Xing asked her to accompany her in the spar because she was still dissatisfied with her fighting skills.

Since the ark and everything in it belonged to Tang Xiao, and Xing Xing was his second wife, Sun Yue chose to follow her wishes.

Tang Xiao asked the Ran Twins and Yao Yao to practice using the level one gravity feature first, and he himself practiced using the level six gravity feature.

.

.

.

Wang Fuxi finally arrived in the outside world, and she summoned Bai Lianzhi to meet her. "Did anything else happen while I was back on Earth II?"

"Aside from Xiao Meng and Xiao Hua disappearing, nothing else happened after that, Big Sis."

"Has Tang Xiao still not shown up? Where are Feng Yao and Tang Yuan?"

"Tang Xiao hasn't appeared to this day, Big Sis." Wang Fuxi raised an eyebrow because Tang Xiao hid himself so neatly, but he still didn't realize that he had already met her twice. "Two months ago, Tang Yuan and Feng Yao suddenly disappeared, but they returned a month ago. However, the former suddenly disappeared again, and I don't know her whereabouts. As for the latter, she returned to Earth II yesterday."

"Follow me."

Soon, the two women arrived at the Tang House, but they couldn't find anyone there. Then, they went to Tang Yuan's apartment, but they found that all of her belongings were gone.

Their next destination was the Ouyang House, but they couldn't find Yi An and Ouyang Qing there either. Wang Fuxi used her senses to search for Ouyang Hong and Ouyang Ming, and she didn't notice anything unusual about them, but both of them looked depressed about their situation.

Wang Fuxi remembered Tang Yin's company, and she took Bai Lianzhi to the Tianmei. The two women discovered that the owner had changed people, but they did not recognize Nan Xinyue's identity.

"Could it be that they moved to Earth II, Big Sis?"

"That could be true." Wang Fuxi nodded. "Tang Yuan took all her personal belongings with her, and Tang Yin also handed over her company to an ordinary woman. Additionally, the Tang, Mu, Zhang, and Sun Clans decided to move to the southern region."

"Huh? Why did they suddenly decide to move to that region?" Bai Lianzi asked in surprise.

"The Xie Clan." Wang Fuxi sighed before explaining the situation on Earth II to Bai Lianzhi. "Since they decided to move to that region, I don't have the right to prevent them."

Bai Lianzi nodded slightly. "I had expected that the Xie Clan would make a move against them one day, but I didn't expect them to make a move against the Miao Clan. Fortunately, the Xue Clan helped the clan members; otherwise, they would have fallen into the hands of those heretics. So, what about Tang Xiao?"

"Sigh." Wang Fuxi felt a headache about Tang Xiao. "I wanted to meet him to discuss his previous actions, but I didn't expect that he could hide himself and his movements from us. Moreover, all his enemies here should have died, except for Ouyang Hong."

"Did he not dare to attack Ouyang Hong all this time because of Long Yin?"

"That's for sure." Wang Fuxi looked at a distance. "Tang Xiao probably realized that Long Yin had implanted something in the bodies of the Ouyang Family descendants, and he would know immediately if he killed them."

"Are we still going to continue monitoring the Ouyang Family?"

Wang Fuxi thought for a moment. "I don't think we need to keep an eye on them anymore, Lianzhi. It would just be a waste of time, and I'm sure Tang Xiao wouldn't dare kill them as long as Long Yin still exists."

"Are you going to stop looking for Tang Xiao?"

"Forget it." Wang Fux flew away, followed by Bai Lianzhi. "Those people are dead now, and only Ouyang Hong remains, so I won't waste any more time looking for Tang Xiao. Furthermore, my cultivation had already reached this stage a long time ago, but I still haven't managed to reach the Saint Realm, so I want to focus on that now."

Bai Lianzhi turned to her. "Could it be that we need something to reach the Saint Level, Big Sis?"

"Yes," Wang Fuxi nodded to her. "I've been thinking about it for a long time, and I believe we're lacking something to break through to that level, but I still haven't figured out what exactly we're lacking. For now, we have no choice but to keep trying, and I hope to reach that level before my lifespan ends."

"I think I'm going into seclusion again too, Big Sis."

"Let's do it together, Lianzhi."

"Yes."

.

.

.

One and a half months passed very quickly.

For the past one and a half months, everyone inside the Primordial Divine Ark was busy training and cultivating.

Apart from dual cultivating with Tang Yin and Xing Xing, Tang Xiao also cultivated using Mu Qingge and Tantai Lingyan's Yin Qi. His cultivation, which had been stuck at the Peak Xiantian Level for months, was finally ready to break through to the King Level.

Tang Xiao was already sitting on the bed with his eyes closed, preparing himself to break through to the King Realm. Previously, Tang Huang and the others had given him pointers on how to form his cultivation soul, as it was the most crucial part of reaching that level, and he would not be able to break through if he failed to form it.

Meanwhile, Tang Yin, Xing Xing, and Mu Qingge waited in front of the bed with their gazes never leaving Tang Xiao, waiting for his breakthrough process to begin.

"How long did it take you to break through to that stage in the past, Sister Qingge?"

Mu Qingge sighed softly. "Every cultivator needs a different amount of time to form their cultivation soul, and it took me a whole month to form mine. I don't know how long Tang Xiao will need to form his, but he'll probably succeed faster, similar to when he formed his cultivation core."

Chapter 344: Lower King Realm

After they waited for quite a while, Mu Qingge, Xing Xing, and Tang Yin felt a massive fluctuation in Tang Xiao's body, followed by his qi erupting. Soon, a red and white aura suddenly enveloped his body, and two blurry silhouettes emerged behind him.

Unlike Tang Yin, Mu Qingge and Xing Xing had seen both silhouettes when Tang Xiao broke through to the Xiantian Realm a few months ago.

One silhouette was of Tang Xiao, who was wearing red armor with various kinds of weapons behind his back, which came from his war god physique. As for his other silhouette, he was sitting in a white cloud, which came from his celestial physique.

"Have you two seen those two silhouettes before?"

Mu Qingge nodded to Tang Yin. "We saw these two when he broke through to the Xiantian Level the first time, Yin'er. The red one came from his war god physique, and the white one came from his celestial physique."

"Actually, there was still one more figure we met at that time, Big Sis Yin." Tang Yin looked at Xing Xing. "Please be patient; I'm sure the third figure will come out soon."

"Let's wait then."

After the two silhouettes became clear, they emitted auras that contradicted each other. The war god Tang Xiao emitted an aura filled with extreme bloodlust and intense killing intent, while the celestial Tang Xiao emitted an aura filled with both sacredness and extraordinary calmness.

A few moments later, Old Tang Xiao appeared between the two silhouettes, which shocked Tang Yin.

Just like Tang Yin, Old Tang Xiao was also surprised by her presence, but he immediately smiled as he looked at her with longing. "Big Sis Yin."

"You." Tang Yin was even more shocked to hear Old Tang Xiao addressed her as his big sister. "You are—"

"No need to say anything, and keep everything to yourself." Tang Yin nodded slightly as she had already realized everything, including the identity of Old Tang Xiao. "I didn't expect you to be here, but I'm glad that you're still alive, and your cultivation has improved quite a bit."

"Were you the one who saved me that night?" Old Tang Xiao smiled in response to Tang Yin's question. "Why did you seal my subconscious back then?"

Old Tang Xiao shook his head. "I can't say much because it will affect the future to such an extent, but you should already know the answer, right?"

"If I wake up, those people will come after me again. You already know I am the owner of the darkness element, and you did that to make me stronger."

"You're wrong about the second one, Big Sis." Tang Yin was confused by that. "My big sister died before I became a cultivator, so I never knew about your future. I won't talk much about it because it's pointless, and you're still alive now, so your future lies in your hands."

Tang Yin sighed and asked him another question. "What will happen in the future? You decided to return to the past for some reason, but you changed some things in the past, and I'm sure your actions will impact the future."

"You're right." Old Tang Xiao nodded. "Originally, I returned to the past to help my younger self become a cultivator faster, but I didn't expect that the past had already changed as soon as I arrived in this era."

"How did it happen?"

"I've tried analyzing everything, but I couldn't find the answer. Maybe all of this is the will of fate, and it changed everything because of my actions."

Old Tang Xiao looked at Tang Yin. "He's almost finished his breakthrough, so it's time for us to part, and he will gradually inherit the memories I've stored in this tiny bit of my soul."

"But—"

"No more questions, okay? The future has changed, and I don't want my actions to change it further." Tang Yin was disappointed with that. "As I said before, your future lies in your hands. You already have the strength to pursue a better future, but it's still not enough. You must continue to increase your strength so you can face all the dangers and obstacles that will stand in your way in the future."

"Alright."

Old Tang Xiao smiled. "Please take care of Xiao Ai for me, okay? Even though she's an AI and an android, she's like my own daughter, and she'll help you two face any dangers in the future."

"I will." Tang Yin seriously nodded.

"My time is up, and I will meet him before I disappear." After he said that, Old Tang Xiao disappeared from their sight, and the two silhouettes slowly became clearer and clearer with two eyes shining brightly—bloody red and white.

After a few minutes, the three women saw a third figure appear before their eyes, but he was as small as a newborn baby.

"That is Tang Xiao's cultivation soul."

"Why is his cultivation soul like a newborn baby, Sister Qingge?" Xing Xing asked in confusion.

Mu Qingge turned to her and explained, "Xing'er, did you grow up immediately when you were born? Our cultivation soul is also like that, and it requires a lot of nutrition to grow up."

"Nutrition?"

"Herbs, pills, and many other things." Xing Xing nodded in understanding. "However, I don't have much information about soul cultivation, but Xiao Ai should know more about it, so we should ask her for details."

"I'll go see Xiao Ai first." Tang Yin immediately left the room and went to the main control room.

Although Tang Yin didn't say anything to them, Mu Qingge and Xing Xing understood her thoughts and worries. If Old Tang Xiao hadn't intervened in the incident that night seven years ago, she would have died when she jumped from the third floor of the building.

.

.

.

When Tang Xiao opened his eyes, he found himself in a place he had never seen before.

"This place is your soul space."

Tang Xiao suddenly looked back, and his eyes widened in shock upon seeing his older self. "How could this happen? Are you really me?"

"I am."

"Does that mean you are Xiao Ai's old master?"

"Haha," Old Tang Xiao laughed. "Why must you ask a question you should already know the answer to? I am your future, and you are my past, so we are both her masters."

"No wonder Xiao Ai has never been willing to tell me about you, and you deliberately withheld all information about you." Tang Xiao felt strange talking to his older self, especially since he came from the future. "What exactly is your purpose in returning to the past?"

"Xiao Ai should have told you about the future danger, right?"

"Xiao Ai has already told me about it, but she hasn't explained everything clearly."

Old Tang Xiao nodded slightly. "In my era, the danger was born on one of the realms in the upper realm, but I never realized it before that man showed his evil behavior. By the time I became aware of the situation, he had already grown stronger. I tried to hunt him down at that time, and I managed to find him, but I couldn't bear to kill him."

"A man."

"I won't tell you about him now, but I've kept everything in my memories that I've sealed inside your soul. When you go to that realm and meet him, my memories will detect his presence, and you will know his identity then."

"Which realm?"

"The Myriad Heaven Realm." Old Tang Xiao immediately warned him. "I forbid you from going to that realm before your cultivation passes the Saint Realm, or you will die there, and all the risks I took will be in vain."

"I know." Tang Xiao wasn't so crazy as to go to a realm in the upper realm now, where many cultivators far beyond his reach lived. "Do you think I made the right choice by bringing them to the Canglan Realm?"

"The Canglan Realm, huh? I don't remember anything about that realm, so I can't tell you whether your decision was right or not. At least, your decision is much better than continuing to stay on Earth, and you can become stronger faster by going there."

"I want to go to that realm to become stronger faster." Tang Xiao clenched his fist. "When my cultivation reaches the Peak Saint Realm, I'll return to Earth to settle accounts with Long Yin and Wang Fuxi, and I'll make them pay for my parents' deaths."

Old Tang Xiao chose not to comment on that. "I have one request for you, and I hope you will fulfill it."

"Tell me."

"I want you to go to the Frozen Cloud Abyss in the future, and I want you to save Xue Lingyue, who is frozen there." Tang Xiao raised an eyebrow. "She was my master, and she was trapped there because of the actions of her sect sister. Back then, I found her accidentally, and I became her disciple after I freed her from there. The present has changed a lot because of my actions, and the future will probably continue to change because of it, so I hope you can fulfill my request."

"I will definitely go to that realm in the future," Tang Xiao decided without hesitation, as Xue Lingyue was connected to many things. "Are you going to disappear now?"

"Back then, I couldn't stop that man, and all the powerful cultivators of my era died because of my mistake, which led me to decide to return to the past. I hope you won't repeat my mistake, and you must kill him when you encounter him so your future won't be as bleak as mine." Old Tang Xiao sighed. "I think this is our goodbye, and I hope you will be much better than me in the future."

"I will."

Chapter 345: With His Two Aunts

"Congratulations, husband. Your cultivation has finally reached the King Realm," Xing Xing said happily.

Mu Qingge also spoke to him. "Congratulations, Tang Xiao. You've become stronger now."

"Thank you." Tang Xiao looked for Tang Yin. "Did Yin'er go to attend to something else?"

"Yin'er went to see Xiao Ai after she met the future you." Tang Xiao raised an eyebrow. "Xing'er and I met him when you first broke through to the Xiantian Level, but he forbade us to tell you at that time."

Tang Xiao himself had already gained some memories of his future self, so he knew that he was the one who saved Tang Yin from that incident and sealed her consciousness. "We should be arriving at the Canglan Realm in a month, so I want you

two to start preparing now. Once we arrive in the realm, I'll take you around to find a suitable place for us to live."

"You should go see Big Sis Yin, husband. Sister Qingge and I will go get everything ready, and we'll head to the training ground afterward."

"Yeah." After the two women left, Tang Xiao left his room. He found Yi An and Ouyang Qing talking about something outside. "We will arrive at that realm in a month, Yi'er."

Yi An ran over to Tang Xiao and pulled him away from her daughter. "Husband, you've been ignoring Qing'er for the past month and a half, and she's feeling lonely because of it, so I hope you will stop treating her like a stranger."

"Let's talk about her later, okay? Yin'er is thinking about something heavy, so I want to meet her and cheer her up."

"What happened to her? Why did she suddenly become like that?"

"There was something that happened before, but I can't tell you about it." Yi An looked disappointed. "I wanted to tell you about the matter, but the risks were too big and serious, so I chose to keep everything to myself."

Even though she was not a cultivator, Yi An could see the seriousness of the matter from the look in Tang Xiao's eyes. "Alright, I won't ask anything, but you should talk to Qing'er later."

"Okay." Tang Xiao glanced at Ouyang Qing before leaving the two women.

After Tang Xiao left, Yi An sat beside her daughter again and embraced her. "You know what to do when he sees you later, right?"

"You shouldn't have to persuade him, Mom."

"You're my daughter, remember? How can I stand seeing you gloomy like this every day?"

Ouyang Qing didn't want to be like that either, but her situation was far worse than she had initially anticipated, and Tang Xiao had been ignoring her ever since he brought them into the ark. "I'll look into the situation later, Mom."

"Sigh." Yi An pulled her daughter to her feet. "Let's go to the farm area, Qing'er. We're not cultivators like them, and I would rather not be a burden to them, so we should help them with other things."

"Okay."

.

.

.

When he arrived at the main control room, Tang Xiao saw Tang Yin having a serious conversation with Xiao Ai, mainly about things that happened during her master's era.

However, Xiao Ai was unwilling to tell Tang Yin too much, as it would only harm her master and mistress, so she only told her general details.

"Yin'er," Tang Yin turned to Tang Xiao, who immediately lifted her to her feet. "You don't need to force Xiao Ai to explain everything, okay? I'm curious about events in their era, but knowing everything isn't good for us. Moreover, the future has changed since they returned to the past, and our future won't necessarily be the same as their era."

"But-"

"Shh." Tang Xiao pressed his index finger to her lips. "Everything that happened in their era has already happened, and we can't change it. We are still alive, and our future is still long ahead of us. Their future may be terrible, but I will never let our future be the same as theirs. I will train and cultivate harder, and I will become a much better cultivator than my future self to ensure a better future for us."

"Your future self doesn't have me because his big sister died before he became a cultivator, but you have me by your side." Tang Yin sighed softly and hugged Tang Xiao. "I will always walk beside you, and I will fight with you for our better future."

"We will fight together, and we will create a better future for both of us and for everyone around us." Tang Xiao hugged his big sister and looked at Xiao Ai. "I have no words for you, but I'm grateful that you're always with us."

"Even though you didn't create me, you and your future self are essentially the same person, and you will always be my master forever." Xiao Ai gave two pills to Tang Xiao and explained to him about their benefits. "We will arrive at the Canglan Realm in a month, so I will prepare all the necessities for you to use in that realm later."

After Xiao Ai left, Tang Xiao released Tang Yin from his embrace and swallowed the two pills in his hand. One pill helped stabilize his soul, and the other pill strengthened it. "Fortunately, we have this ark and all the items in the treasury vault; otherwise, we would have gone through a steep path like the other cultivators."

"Hehe," Tang Yin wrapped her arms around his neck. "All the items in the treasury vault are the result of your future self's hard work, remember? You're both the same person, so I'm sure you can become equal to him or even stronger than him in the future."

Tang Xiao shook his head slightly. "I don't want to be equal to my future self, or I will fail in facing future danger. I must become stronger than him, and I will destroy all the dangers that will come and hinder our path in the future."

"I will also train and cultivate harder, and we will face all the dangers that stand in our way together." Tang Yin immediately released him. "Since my cultivation is still far from breaking through, I will focus on training in the training ground, and we will dual cultivate at night."

Tang Yin immediately left, but Tang Xiao remained in the main control room; instead, he accessed several databases to search for information about Xue Lingyue. Soon, the image of a beautiful woman with waist-length snow-white hair appeared on the screen in front of him.

"She is entirely different from all the women I have met so far, and she is much more charming than Xue Jing and the snow spirit." Tang Xiao watched the images appearing on the screen with a serious expression. "What a stunning yet terrifying place! Why is Xue Lingyue's sect sister so heartless towards her? She froze her and left her in such a place—frozen in solitude and loneliness. I don't know if she suffers a similar fate in this era, but I've promised my future self to look for her in that realm, and I will do so when my cultivation surpasses the Saint Level in the future."

.

.

.

"Xiao'er!" Zhao Qing and Tang Yuan screamed as Tang Xiao arrived at the hot spring, and they immediately dipped their bodies in, leaving their heads on the surface. "Why did you come here?"

"Haha," Tang Xiao laughed as he took off his clothes, leaving only his boxers. He got into the pool and leaned against the edge. "I just broke through, so I wanted to freshen up before starting my training."

"Tch! You're getting more and more like a scoundrel, Xiao'er." Tang Yuan complained.

Zhao Qing had already bathed with Tang Xiao before, but she was still bothered by her nephew's presence. "What are your plans when we arrive in the Canglan Realm, Xiao'er?"

"The first thing I'll do is find a peaceful city to live in, but we won't be staying in a big city. After all, we're newcomers to the realm, and large cities are usually home to many large clans. I don't mean to generalize, but large clans are typically filled with arrogant people, so I think we should avoid them." Zhao Qing and Tang Yuan agreed with Tang

Xiao. "After we find a suitable city for us to live in, I'll look up information on all the sects in the realm, and we'll choose the sect that suits us best."

"Does that mean we will be joining different sects, Xiao'er?" Zhao Qing asked in a gloomy tone.

Tang Xiao looked at his maternal aunt. "Aunt Qing, we don't have any other choice, right? Not every sect will suit us, so we have to find the best one for us, and we'll learn from the cultivators there to improve ourselves. I understand your worries, but we are cultivators, and we have to live as one. Moreover, I won't let you go without protection, and Xiao Ai will be watching everyone from inside the ark, so she can tell me if there's any problem with you."

"How will Xiao Ai keep an eye on everyone, Xiao'er?" Tang Yuan asked him. "On Earth, she can do that because there are many CCTVs in the city, but they shouldn't exist in the Canglan Realm, right?"

"Haha," Tang Xiao chuckled. "Aunt Yuan, you've been living here for a few months, right? Thus, you should already know about all the equipment inside, so you shouldn't have any doubts that Xiao Ai can monitor everyone."

"Well, that's true." Tang Yuan nodded. "I can't wait to arrive in the Canglan Realm, where we'll live a completely different life than on Earth."

"Me too."

After they left the hot spring, Tang Yuan and Zhao Qing returned to the training ground, joining the others in their intense training.

Meanwhile, Tang Xiao went to the farm area because Yi An and Ouyang Qing were there to take care of the beasts and other things. Although the two women were ordinary humans, they had no difficulty taking care of the beasts, as they were all tame.

When he arrived there, Tang Xiao saw Ouyang Qing playing with a flock of Jade Spirit Rabbits with light green fur, and their size was several times larger than ordinary ones.

Ouyang Qing looked up at Tang Xiao as he approached her. "Are you looking for me?"

"You think?" Tang Xiao pulled Ouyang Qing to her feet. "Honestly, I hate you so much, and I want to kill you like I killed Luo Qinlin."

Ouyang Qing's face turned pale as her body trembled, afraid that Tang Xiao would really kill her. "I-"

"Fortunately, you have such a good mother, and she loves you so much even though you've caused so much trouble. You should be grateful to her, you know? If it weren't

for her, you would have reunited with Luo Qinlin in the afterlife long ago." Tears streamed down from Ouyang Qing's eyes as she sobbed. "I deliberately ignored you since I brought you here so that you would realize that you were no longer a young miss, and you could no longer do as you pleased."

"Sob... Sob..." Ouyang Qing placed her head on Tang Xiao's chest and cried. "Sob... Sorry... Sob... I'm sorry..."

Yi An, who was watching them from a distance, felt relieved when Tang Xiao hugged Ouyang Qing. 'I hope you'll really change, Qing'er. If you continue to act like you did in the past, I'm afraid he'll kill you in the future.'

Tang Xiao lifted Ouyang Qing's face, wiped her tears, and kissed her. As his tongue invaded her mouth, she closed her eyes and stuck out her tongue, licking and sucking each other's.

Yi An could only shake her head as Tang Xiao began to undress her daughters and throw them away, but she didn't bother them and focused on taking care of everything on the farm.

After she was naked, Ouyang Qing's hands moved nimbly in removing Tang Xiao's clothes, leaving both of them naked. She had long missed having sex with him because they had not been intimate for months.

Ouyang Qing's left hand wrapped around Tang Xiao's neck, and her right hand moved to his lower body, stroking his dick, which had been erect since earlier. She gently held it, squeezed it, and jerked it.

Tang Xiao deepened their kiss with both of his hands on Ouyang Qing's breasts. He cupped her big breasts, kneaded them together, and rubbed her nipples with the tips of his fingers.

"Mhmm..." Ouyang Qing's mind slowly drifted into sexual ecstasy as sexual pleasure began to flow through her nerves. She moved her hands and jerked Tang Xiao's cock a bit faster, with her fingers rubbing his glans, which was starting to get wet with his precum. "Mhmm..."

Tang Xiao kissed Ouyang Qing more passionately, and he squeezed her breasts harder. He clamped her erect nipples between his fingers and kneaded her soft and bouncy mounds with enthusiasm, eliciting soft, muffled moans from her sealed mouth.

"Mhmm..." Ouyang Qing kept moaning muffledly, and her hand moved faster on Tang Xiao's cock. She walked backwards as he pushed her until her back was against a shady tree. "Mhmm..."

They stopped kissing when Ouyang Qing's breath started to hitch, but Tang Xiao lifted and bent her left leg, forcing her to hold onto his neck. They both wanted each other, so she rubbed his glans against her pussy, which was already wet with her sexual fluids.

"Ahh..." Tang Xiao slowly pushed his cock forward, making Ouyang Qing tremble and moan in pleasure. "Ahh... Daddy... Ahh... I missed your cock."

Tang Xiao smiled faintly and dived into Ouyang Qing's breasts, wetting them with warm saliva. He stopped pushing his cock when his glans was in, but her pussy seemed to be sucking it to go deeper, and her inner walls squeezed it tightly.

"Ahh..." Ouyang Qing's eyelashes trembled as Tang Xiao devoured her left nipple, with his tongue moving wildly on her erect nipple. His hand pressed her right nipple and gently rubbed it, burning her lust further. "Ahh... Daddy, please suck my nipple harder... Ahh... rub the other..."

Ouyang Qing tried to insert Tang Xiao's cock deeper, but she was just an ordinary woman, and her strength was too weak compared to a cultivator like him.

"Ahh..." A while later, Tang Xiao's head moved to Ouyang Qing's right breast, stimulating her right nipple with his tongue and saliva. "Ahh..."

As Ouyang Qing's moans became louder and her expression more lustful, Tang Xiao pushed his dick into her soaked pussy all at once, causing her head to tilt upwards.

"Ahh... Daddy's cock is filling my pussy again..."

"Mhmm... please move your cock and fuck my pussy like crazy, Daddy."

Tang Xiao complied with Ouyang Qing's request, moving his cock faster and pounding her increasingly wet pussy harder.

"Ahh... it feels so good, Daddy."

"Mhmm... Daddy's cock pounded my pussy."

.

.

.

From a distance, Yi An was stunned as she stared at her daughter with wide eyes. She never imagined that her daughter would have such a fetish for calling Tang Xiao "daddy" during sex. Moreover, she could see that he liked it when her daughter called him that, which gave her an idea for their next sexual activity.

Yi An swallowed her saliva as she watched Tang Xiao lift both of Ouyang Qing's legs. His cock moved faster and faster inside her daughter's pussy, and his mouth endlessly played with her breasts, causing her moans to get louder.

Yi An wanted to join them, but she was embarrassed to have sex with Tang Xiao in front of her daughter. Moreover, he had neglected Ouyang Qing for quite some time, so she didn't want to disturb them.

As Yi An turned to leave, she saw Meng Xin standing frozen at the entrance of the farm area, her jaw dropped wide open. She immediately approached her best friend and pulled her away from the area.

"Hey! Your daughter is really crazy!"

"This is the first time I've seen them having sex, so I'm also shocked that my daughter would act like that when they have sex." Yi An tilted her head to the side. "What about you? Are you still not ready to have sex with him?"

Meng Xin replied with a light shake of her head. "I like doing intimate things with Xiao'er, but for some reason I still hesitate to have sex with him."

"Is it because he has Tang Yin and Xing Xing by his side?"

"Perhaps." Meng Xin nodded. "I don't want to rush into having sex with him, and I'll wait until I'm mentally ready to share him with multiple women."

"I see." Yi An embraced her. "I hope you're ready to have sex with him soon, and we'll have a threesome."

Meng Xin furrowed her brows as she didn't expect that Yi An would have such an idea, but she knew that her best friend had changed since she was with Tang Xiao. "Let's see later."

.

.

.

Meanwhile, Ouyang Qing had already bent forward and held the tree in front of her, with Tang Xiao fucking her from behind, which made her breasts sway endlessly beneath her. She became increasingly intoxicated with sexual pleasure as his middle finger entered her asshole, moving in rhythm with his cock inside her pussy.

"Ahh... Cumming!" Ouyang Qing's body convulsed strongly, with both hands squeezing the tree trunk tightly. Her pussy repeatedly twitched and squeezed around Tang Xiao's cock inside her. Her sexual fluids flowed profusely, wetting his cock.

Tang Xiao was on the verge of reaching his orgasm, so he began to move his cock faster. He thrusts deeper into her innermost walls, pouring his cum into her womb.

After their orgasms ended, Tang Xiao lifted Ouyang Qing's left leg and started another round of sex, and they did it until they orgasmed several times.

After Ouyang Qing fell asleep from exhaustion, Tang Xiao picked her up and carried her back to the living area. He left her in his room and went to the training ground to train, mainly because he only had a month left before they arrived in the Canglan Realm.

.

.

.

A month passed quickly.

Tang Xiao and everyone else living inside the Primordial Divine Ark rushed to the deck to see the Canglan Realm, which would be their next residence.

For the past month, Tang Xiao was not only focused on his training, but he also had sex with Tang Yin, Xing Xing, Yi An, Ouyang Qing, Yu Xiaoling, Zhao Yuxian, and Jessica. Besides, his relationship with Mu Qingge, Sun Xiang, and Mu Yan became deeper, even though he had not done anything intimate with them.

Not only did all of Tang Xiao's women and family experience significant growth, but the people from the Sun, Zhang, and Mu Clans also grew significantly thanks to all the features in the training ground.

Since she quarrelled with Zhang Xingcai a few months ago, Sun Xiang still hasn't spoken to her mother. Even though her mother tried to communicate with her, she chose to stay away from her and did not respond to her, making her mother sad with her attitude.

Sun Qian had tried to persuade the two of them, but both Sun Xiang and Zhang Xingcai persisted in their stance, which made him and his family helpless, as they were unable to mend their relationship.

"We've finally arrived, Xiao'er." Tang Yin leaned against Tang Xiao.

Tang Xiao nodded slightly. "I can't wait to start our new life in this realm."

[Master, I'll activate the stealth feature now, and I'll map the situation inside the realm first. Once everything is ready, you can take everyone to the realm after that.]

Although Tang Xiao was eager to start a new life in the Canglan Realm, he wasn't in a rush to enter the realm without any clear information, so he patiently waited for Xiao Ai to scan everything.

Time goes by...

After waiting for several hours, Xiao Ai finally finished scanning the entire Canglan Realm. She asked Tang Xiao to take out his device before displaying all the information about the realm.

The Canglan Realm is almost the size of Earth. It has three massive main islands separated by dangerous seas with extreme and unpredictable weather, coupled with powerful beasts, making sea travel between them rare and difficult.

The inhabitants of the Canglan Realm only live on three main islands because the southernmost and northernmost areas are uninhabitable.

The northernmost area is filled with ice and snow, resembling the north pole and south pole on Earth. The southernmost area is filled with deserts, barren plains, and deadly volcanoes.

From the data Xiao Ai collected, many beasts inhabit the northernmost area, most of which are ice-type beasts. As for the southernmost area, many demons and demon beasts live there, but she couldn't determine their types and strengths.

Each island has the same power structure, with a major empire ruling over three kingdoms each, creating a total of three empires and nine kingdoms across the entire realm.

Each Empire holds ultimate control over military power and resources, while kingdoms administer local territories under their command. Since the islands are isolated, each develops independently, and most people never leave their own island.

Overall, the kingdom appears stable, but behind that stability lies ongoing conflict, political pressure, and constant struggle for greater power.

"Kingdoms, duh." Tang Yin massaged her forehead.

Xing Xing nodded slightly. "This realm is like Earth in ancient times, when many kingdoms existed."

"So, which island are we going to live on?" Tantai Lingyan asked.

Mu Yan pointed to the largest island. "I think it's that island, Aunt Lingyan."

"I'm not sure about that, Yan'er." Mu Qingge propped her chin on her hand, examining the three islands.

Sun Xiang agreed with Mu Qingge. "That island is the largest compared to the other two, and it's also much more densely populated. I'm sure the Empire there is the strongest among the others, so there should be many powerful cultivators living there."

Chu Lingxi, Zhao Qing, Yu Xiaoling, Jessica, Zhao Yuxian, Yao Yao, the Ran Twins, and Meng Xin chose not to express their opinions because they were still relatively new to the world of cultivation, so they felt they lacked the experience to give their opinions. Yi An and Ouyang Qing are also the same as them, mainly because they are ordinary humans and not cultivators.

The younger generations of the Sun and Zhang Clans, such as Sun Yang, Sun Yue, and others, also chose not to comment because they would not be able to go to the Canglan Realm without Tang Xiao. They left the decision in his hands, and they will follow him to live on one of the islands.

Tang Xiao himself was also confused about which island to choose as their home for the next few years. He looked at his grandfather and the others. "What do you all think?"

"Haha," Tang Huang scratched his head. "Xiao'er, I don't know anything about the situation in that realm, so I'll leave everything to you."

Zhang Fei and Mu Lin were also the same as Tang Huang. "You can choose a suitable island, and we will follow you there."

"How about we take a middle path and choose this island, Xiao'er?" Sun Qian asked, pointing to the second-largest island in the realm. "This island isn't as big as the first or as small as the third, so I think it's the best choice. However, this choice is just my opinion, as I don't know the situation there, and the decision is yours."

"What do you think, Xiao Ai?"

[Master, I can't clearly detect the situation on the three islands, but there are many cultivators at the Tyrant Level on the largest island, and there's a cultivator who has reached the Lower Saint Level there.]

Tang Xiao furrowed his brows. "That person should be the emperor or empress of that empire."

[I think so.]

"What about the other two islands?"

[Master, each island has one cultivator at that level. However, there aren't as many Tyrant-level cultivators on the smallest island as there are on the largest island. If you ask me to choose, I will choose the second largest island because the population strength is more balanced.]

"In that case, I will choose the second-largest island." Tang Xiao looked at the people. "You guys should stay here for now, and I will go to that island to check out the situation there. Once I have information about that island, I will look for a suitable place for us to settle, and I will take you all there after finding it."

"I'll come with you, Husband," Tang Yin said.

Xing Xing also wanted to go to the island, but she decided against it and instead waited inside the Primordial Divine Ark.

Tantai Lingyan thought for a moment. "I'll come with you too, Xiao'er."

"Me too." Mu Qingge turned to her daughter. "I know you can't wait to go there, but you have to wait here, Yan'er."

"I know, Mom." Mu Yan nodded.

"I-"

"You stay here, Xiang'er." Zhang Xingcai directly interrupted Sun Xiang.

Sun Xiang glared at her mother hatefully, but Tang Xiao immediately spoke to her. "Your mother is right, Xiang. You should stay here for now and wait for us to return to inspect the island."

"Okay." Zhang Xingcai's brows wrinkled as Sun Xiang listened to Tang Xiao more than her.

After they finished discussing, Tang Xiao enveloped the three women with his void element before bringing them into the void.

Since they still had to wait, Xing Xing and the other cultivators went straight to the training ground to train.

"Xiang'er." Sun Xiang ignored Zhang Xingcai's call and joined the others directly.

Sun Qian sighed softly and patted Zhang Xingcai's shoulder. "Xingcai, you should stop forcing your principles on Xiang'er because you two are different."

"But Father—"

"Are you willing to follow my words if I ask you to walk a path that is not suitable for you?" Zhang Xingcai shook her head at Sun Qian. "See? Doesn't that mean you're selfish? You're not willing to follow my words if I force you, but you keep forcing Xiang'er to follow your words. She is your daughter and not your property, and she has her own will, so you should respect that. If you keep forcing her to walk your path, she will continue to be angry with you, and you might lose her one day."

After saying that, Sun Qian immediately walked away, followed by Zhang Fei and Chen Xinyan. They were Zhang Xingcai's parents, but they were too tired to advise her about Sun Xiang because she was never willing to listen to them.

Zhang Xingcai stood at her spot for a while before following the others, and she tried to talk to Sun Xiang, but her daughter kept ignoring her and focused on her training.

.
. .
.

A void crack opened in front of a deserted forest, and Tang Xiao brought the three women out from within. The first thing they did was try to absorb the qi around them, and their expressions turned to joy after they sensed its quality and quantity.

"Haha," Tantai Lingyan laughed excitedly. "Xiao'er! I'm confident we can reach the Saint Level if we stay in this realm for a few years!"

"I feel the same." Tang Xiao nodded at her. "I don't know how long it will take us to reach the Saint Level, but I hope it won't be decades. Once we reach that stage, we will return to Earth to make calculations with Wang Fuxi and Long Yin, and we will go to the upper realm after that."

"So, where are we now?" Tang Yin asked.

"We'll go that way," Tang Xiao pointed east. "One of the three kingdoms on this island is in that direction, so we'll go to its capital to gather information. When we were in the void earlier, I observed those five kingdoms, and that one isn't too big but not too small either, so we'll gather information from there. If we can't find a suitable one there, we'll go to the other four kingdoms."

Tang Yin nodded slightly. "Let's go there."

.

.

.

After some time, they arrived at the entrance gate to the kingdom, but they had to queue behind many people who wanted to enter the kingdom.

They queued for some time until it was their turn, and the gatekeeper charged them the entrance fee.

"100 Lower Spirit Crystals per person." Fortunately, Tang Xiao had a lot of spirit crystals from four different grades left by his future self. He immediately took out spirit crystals according to their number and gave them to the gatekeeper. "Go in."

Tang Xiao didn't say anything and led the three women to enter the kingdom, which was the Song Kingdom, led by King Song Zhentian.

"I don't know the size of ancient kingdoms on Earth, but this Song Kingdom capital is truly massive," Tang Yin said in awe.

Mu Qingge agreed with her. "This kingdom capital is much larger than the central area of Earth II."

"We don't have any information about this kingdom." Tantai Lingyan turned to Tang Xiao. "Where are we going to find information?"

Tang Xiao scratched his head because he himself had never lived in the kingdom era. "We'll try going to a restaurant, and we'll ask the waiter there where to find information."

"Let's go then."

Chapter 346 346: Canglan Realm First Arrival*

After they left the hot spring, Tang Yuan and Zhao Qing returned to the training ground, joining the others in their intense training.

Meanwhile, Tang Xiao went to the farm area because Yi An and Ouyang Qing were there to take care of the beasts and other things. Although the two women were ordinary humans, they had no difficulty taking care of the beasts, as they were all tame.

When he arrived there, Tang Xiao saw Ouyang Qing playing with a flock of Jade Spirit Rabbits with light green fur, and their size was several times larger than ordinary ones.

Ouyang Qing's face turned pale as her body trembled, afraid that Tang Xiao would really kill her. "I-"

"Fortunately, you have such a good mother, and she loves you so much even though you've caused so much trouble. You should be grateful to her, you know? If it weren't for her, you would have reunited with Luo Qinlin in the afterlife long ago." Tears streamed down from Ouyang Qing's eyes as she sobbed. "I deliberately ignored you since I brought you here so that you would realize that you were no longer a young miss, and you could no longer do as you pleased."

"Sob... Sob..." Ouyang Qing placed her head on Tang Xiao's chest and cried. "Sob... Sorry... Sob... I'm sorry..."

Yi An, who was watching them from a distance, felt relieved when Tang Xiao hugged Ouyang Qing. 'I hope you'll really change, Qing'er. If you continue to act like you did in the past, I'm afraid he'll kill you in the future.'

Tang Xiao lifted Ouyang Qing's face, wiped her tears, and kissed her. As his tongue invaded her mouth, she closed her eyes and stuck out her tongue, licking and sucking each other's.

Yi An could only shake her head as Tang Xiao began to undress her daughters and throw them away, but she didn't bother them and focused on taking care of everything on the farm.

After she was naked, Ouyang Qing's hands moved nimbly in removing Tang Xiao's clothes, leaving both of them naked. She had long missed having sex with him because they had not been intimate for months.

Ouyang Qing's left hand wrapped around Tang Xiao's neck, and her right hand moved to his lower body, stroking his dick, which had been erect since earlier. She gently held it, squeezed it, and jerked it.

Tang Xiao deepened their kiss with both of his hands on Ouyang Qing's breasts. He cupped her big breasts, kneaded them together, and rubbed her nipples with the tips of his fingers.

"Mhmm..." Ouyang Qing's mind slowly drifted into sexual ecstasy as sexual pleasure began to flow through her nerves. She moved her hands and jerked Tang Xiao's cock a bit faster, with her fingers rubbing his glans, which was starting to get wet with his precum. "Mhmm..."

Tang Xiao kissed Ouyang Qing more passionately, and he squeezed her breasts harder. He clamped her erect nipples between his fingers and kneaded her soft and bouncy mounds with enthusiasm, eliciting soft, muffled moans from her sealed mouth.

"Mhmm..." Ouyang Qing kept moaning muffledly, and her hand moved faster on Tang Xiao's cock. She walked backwards as he pushed her until her back was against a shady tree. "Mhmm..."

They stopped kissing when Ouyang Qing's breath started to hitch, but Tang Xiao lifted and bent her left leg, forcing her to hold onto his neck. They both

wanted each other, so she rubbed his glans against her pussy, which was already wet with her sexual fluids.

"Ahh..." Tang Xiao slowly pushed his cock forward, making Ouyang Qing tremble and moan in pleasure. "Ahh... Daddy... Ahh... I missed your cock."

Tang Xiao smiled faintly and dived into Ouyang Qing's breasts, wetting them with warm saliva. He stopped pushing his cock when his glans was in, but her pussy seemed to be sucking it to go deeper, and her inner walls squeezed it tightly.

"Ahh..." Ouyang Qing's eyelashes trembled as Tang Xiao devoured her left nipple, with his tongue moving wildly on her erect nipple. His hand pressed her right nipple and gently rubbed it, burning her lust further. "Ahh... Daddy, please suck my nipple harder... Ahh... rub the other..."

Ouyang Qing tried to insert Tang Xiao's cock deeper, but she was just an ordinary woman, and her strength was too weak compared to a cultivator like him.

"Ahh..." A while later, Tang Xiao's head moved to Ouyang Qing's right breast, stimulating her right nipple with his tongue and saliva. "Ahh..."

As Ouyang Qing's moans became louder and her expression more lustful, Tang Xiao pushed his dick into her soaked pussy all at once, causing her head to tilt upwards.

"Ahh... Daddy's cock is filling my pussy again..."

"Mhmm... please move your cock and fuck my pussy like crazy, Daddy."

Tang Xiao complied with Ouyang Qing's request, moving his cock faster and pounding her increasingly wet pussy harder.

"Ahh... it feels so good, Daddy."

"Mhmm... Daddy's cock pounded my pussy."

.
. .
.

From a distance, Yi An was stunned as she stared at her daughter with wide eyes. She never imagined that her daughter would have such a fetish for calling Tang Xiao "daddy" during sex. Moreover, she could see that he liked it when her daughter called him that, which gave her an idea for their next sexual activity.

Yi An swallowed her saliva as she watched Tang Xiao lift both of Ouyang Qing's legs. His cock moved faster and faster inside her daughter's pussy, and his mouth endlessly played with her breasts, causing her moans to get louder.

Yi An wanted to join them, but she was embarrassed to have sex with Tang Xiao in front of her daughter. Moreover, he had neglected Ouyang Qing for quite some time, so she didn't want to disturb them.

As Yi An turned to leave, she saw Meng Xin standing frozen at the entrance of the farm area, her jaw dropped wide open. She immediately approached her best friend and pulled her away from the area.

"Hey! Your daughter is really crazy!"

"This is the first time I've seen them having sex, so I'm also shocked that my daughter would act like that when they have sex." Yi An tilted her head to the side. "What about you? Are you still not ready to have sex with him?"

Meng Xin replied with a light shake of her head. "I like doing intimate things with Xiao'er, but for some reason I still hesitate to have sex with him."

"Is it because he has Tang Yin and Xing Xing by his side?"

"Perhaps." Meng Xin nodded. "I don't want to rush into having sex with him, and I'll wait until I'm mentally ready to share him with multiple women."

"I see." Yi An embraced her. "I hope you're ready to have sex with him soon, and we'll have a threesome."

Meng Xin furrowed her brows as she didn't expect that Yi An would have such an idea, but she knew that her best friend had changed since she was with Tang Xiao. "Let's see later."

.
. .
.

Meanwhile, Ouyang Qing had already bent forward and held the tree in front of her, with Tang Xiao fucking her from behind, which made her breasts sway endlessly beneath her. She became increasingly intoxicated with sexual pleasure as his middle finger entered her butthole, moving in rhythm with his cock inside her pussy.

"Ahh... Cumming!" Ouyang Qing's body convulsed strongly, with both hands squeezing the tree trunk tightly. Her pussy repeatedly twitched and squeezed around Tang Xiao's cock inside her. Her sexual fluids flowed profusely, wetting his cock.

Tang Xiao was on the verge of reaching his orgasm, so he began to move his cock faster. He thrusts deeper into her innermost walls, pouring his cum into her womb.

After their orgasms ended, Tang Xiao lifted Ouyang Qing's left leg and started another round of sex, and they did it until they orgasmed several times.

After Ouyang Qing fell asleep from exhaustion, Tang Xiao picked her up and carried her back to the living area. He left her in his room and went to the training ground to train, mainly because he only had a month left before they arrived in the Canglan Realm.

.
. .
.

A month passed quickly.

Tang Xiao and everyone else living inside the Primordial Divine Ark rushed to the deck to see the Canglan Realm, which would be their next residence.

For the past month, Tang Xiao was not only focused on his training, but he also had sex with Tang Yin, Xing Xing, Yi An, Ouyang Qing, Yu Xiaoling, Zhao Yuxian, and Jessica. Besides, his relationship with Mu Qingge, Sun Xiang, and Mu Yan became deeper, even though he had not done anything intimate with them.

Not only did all of Tang Xiao's women and family experience significant growth, but the people from the Sun, Zhang, and Mu Clans also grew significantly thanks to all the features in the training ground.

Since she quarrelled with Zhang Xingcai a few months ago, Sun Xiang still hasn't spoken to her mother. Even though her mother tried to communicate with her, she chose to stay away from her and did not respond to her, making her mother sad with her attitude.

Sun Qian had tried to persuade the two of them, but both Sun Xiang and Zhang Xingcai persisted in their stance, which made him and his family helpless, as they were unable to mend their relationship.

"We've finally arrived, Xiao'er." Tang Yin leaned against Tang Xiao.

Tang Xiao nodded slightly. "I can't wait to start our new life in this realm."

[Master, I'll activate the stealth feature now, and I'll map the situation inside the realm first. Once everything is ready, you can take everyone to the realm after that.]

Chapter 347 347: Song Kingdom

Although Tang Xiao was eager to start a new life in the Canglan Realm, he wasn't in a rush to enter the realm without any clear information, so he patiently waited for Xiao Ai to scan everything.

Time goes by...

After waiting for several hours, Xiao Ai finally finished scanning the entire Canglan Realm. She asked Tang Xiao to take out his device before displaying all the information about the realm.

The Canglan Realm is almost the size of Earth. It has three massive main islands separated by dangerous seas with extreme and unpredictable weather, coupled with powerful beasts, making sea travel between them rare and difficult.

The inhabitants of the Canglan Realm only live on three main islands because the southernmost and northernmost areas are uninhabitable.

The northernmost area is filled with ice and snow, resembling the north pole and south pole on Earth. The southernmost area is filled with deserts, barren plains, and deadly volcanoes.

From the data Xiao Ai collected, many beasts inhabit the northernmost area, most of which are ice-type beasts. As for the southernmost area, many demons and demon beasts live there, but she couldn't determine their types and strengths.

Each island has the same power structure, with a major empire ruling over three kingdoms each, creating a total of three empires and nine kingdoms across the entire realm.

Each Empire holds ultimate control over military power and resources, while kingdoms administer local territories under their command. Since the islands are isolated, each develops independently, and most people never leave their own island.

Overall, the kingdom appears stable, but behind that stability lies ongoing conflict, political pressure, and constant struggle for greater power.

"Kingdoms, duh." Tang Yin massaged her forehead.

Xing Xing nodded slightly. "This realm is like Earth in ancient times, when many kingdoms existed."

"So, which island are we going to live on?" Tantai Lingyan asked.

Mu Yan pointed to the largest island. "I think it's that island, Aunt Lingyan."

"I'm not sure about that, Yan'er." Mu Qingge propped her chin on her hand, examining the three islands.

Sun Xiang agreed with Mu Qingge. "That island is the largest compared to the other two, and it's also much more densely populated. I'm sure the Empire there is the strongest among the others, so there should be many powerful cultivators living there."

Chu Lingxi, Zhao Qing, Yu Xiaoling, Jessica, Zhao Yuxian, Yao Yao, the Ran Twins, and Meng Xin chose not to express their opinions because they were still relatively new to the world of cultivation, so they felt they lacked the experience to give their opinions. Yi An and Ouyang Qing are also the same as them, mainly because they are ordinary humans and not cultivators.

The younger generations of the Sun and Zhang Clans, such as Sun Yang, Sun Yue, and others, also chose not to comment because they would not be able to go to the Canglan Realm without Tang Xiao. They left the decision in his hands, and they will follow him to live on one of the islands.

Tang Xiao himself was also confused about which island to choose as their home for the next few years. He looked at his grandfather and the others.
"What do you all think?"

"Haha," Tang Huang scratched his head. "Xiao'er, I don't know anything about the situation in that realm, so I'll leave everything to you."

Zhang Fei and Mu Lin were also the same as Tang Huang. "You can choose a suitable island, and we will follow you there."

"How about we take a middle path and choose this island, Xiao'er?" Sun Qian asked, pointing to the second-largest island in the realm. "This island isn't as big as the first or as small as the third, so I think it's the best choice. However, this choice is just my opinion, as I don't know the situation there, and the decision is yours."

"What do you think, Xiao Ai?"

[Master, I can't clearly detect the situation on the three islands, but there are many cultivators at the Tyrant Level on the largest island, and there's a cultivator who has reached the Lower Saint Level there.]

Tang Xiao furrowed his brows. "That person should be the emperor or empress of that empire."

[I think so.]

"What about the other two islands?"

[Master, each island has one cultivator at that level. However, there aren't as many Tyrant-level cultivators on the smallest island as there are on the largest island. If you ask me to choose, I will choose the second largest island because the population strength is more balanced.]

"In that case, I will choose the second-largest island." Tang Xiao looked at the people. "You guys should stay here for now, and I will go to that island to check out the situation there. Once I have information about that island, I will look for a suitable place for us to settle, and I will take you all there after finding it."

"I'll come with you, Husband," Tang Yin said.

Xing Xing also wanted to go to the island, but she decided against it and instead waited inside the Primordial Divine Ark.

Tantai Lingyan thought for a moment. "I'll come with you too, Xiao'er."

"Me too." Mu Qingge turned to her daughter. "I know you can't wait to go there, but you have to wait here, Yan'er."

"I know, Mom." Mu Yan nodded.

"|-"

"You stay here, Xiang'er." Zhang Xingcai directly interrupted Sun Xiang.

Sun Xiang glared at her mother hatefully, but Tang Xiao immediately spoke to her. "Your mother is right, Xiang. You should stay here for now and wait for us to return to inspect the island."

"Okay." Zhang Xingcai's brows wrinkled as Sun Xiang listened to Tang Xiao more than her.

After they finished discussing, Tang Xiao enveloped the three women with his void element before bringing them into the void.

Since they still had to wait, Xing Xing and the other cultivators went straight to the training ground to train.

"Xiang'er." Sun Xiang ignored Zhang Xingcai's call and joined the others directly.

Sun Qian sighed softly and patted Zhang Xingcai's shoulder. "Xingcai, you should stop forcing your principles on Xiang'er because you two are different."

"But Father—"

"Are you willing to follow my words if I ask you to walk a path that is not suitable for you?" Zhang Xingcai shook her head at Sun Qian. "See? Doesn't that mean you're selfish? You're not willing to follow my words if I force you, but you keep forcing Xiang'er to follow your words. She is your daughter and not your property, and she has her own will, so you should respect that. If you keep forcing her to walk your path, she will continue to be angry with you, and you might lose her one day."

After saying that, Sun Qian immediately walked away, followed by Zhang Fei and Chen Xinyan. They were Zhang Xingcai's parents, but they were too tired to advise her about Sun Xiang because she was never willing to listen to them.

Zhang Xingcai stood at her spot for a while before following the others, and she tried to talk to Sun Xiang, but her daughter kept ignoring her and focused on her training.

A void crack opened in front of a deserted forest, and Tang Xiao brought the three women out from within. The first thing they did was try to absorb the qi around them, and their expressions turned to joy after they sensed its quality and quantity.

"Haha," Tantai Lingyan laughed excitedly. "Xiao'er! I'm confident we can reach the Saint Level if we stay in this realm for a few years!"

"I feel the same." Tang Xiao nodded at her. "I don't know how long it will take us to reach the Saint Level, but I hope it won't be decades. Once we reach that stage, we will return to Earth to make calculations with Wang Fuxi and Long Yin, and we will go to the upper realm after that."

"So, where are we now?" Tang Yin asked.

"We'll go that way," Tang Xiao pointed east. "One of the three kingdoms on this island is in that direction, so we'll go to its capital to gather information. When we were in the void earlier, I observed those five kingdoms, and that

one isn't too big but not too small either, so we'll gather information from there. If we can't find a suitable one there, we'll go to the other four kingdoms."

Tang Yin nodded slightly. "Let's go there."

.

.

.

After some time, they arrived at the entrance gate to the kingdom, but they had to queue behind many people who wanted to enter the kingdom.

They queued for some time until it was their turn, and the gatekeeper charged them the entrance fee.

"100 Lower Spirit Crystals per person." Fortunately, Tang Xiao had a lot of spirit crystals from four different grades left by his future self. He immediately took out spirit crystals according to their number and gave them to the gatekeeper. "Go in."

Tang Xiao didn't say anything and led the three women to enter the kingdom, which was the Song Kingdom, led by King Song Zhentian.

"I don't know the size of ancient kingdoms on Earth, but this Song Kingdom capital is truly massive," Tang Yin said in awe.

Mu Qingge agreed with her. "This kingdom capital is much larger than the central area of Earth II."

"We don't have any information about this kingdom." Tantai Lingyan turned to Tang Xiao. "Where are we going to find information?"

Tang Xiao scratched his head because he himself had never lived in the kingdom era. "We'll try going to a restaurant, and we'll ask the waiter there where to find information."

"Let's go then."

Chapter 348 348: Yuanxi Hall

Tang Xiao and the three women had arrived at the restaurant.

They ordered some dishes while asking the male waiter about where to find information in the capital.

From the male waiter's explanation, Tang Xiao learned about a place called Yuanxi Hall, where he could find all the information he needed.

"This kingdom capital city is almost no different from Earth II, but it's much grander and more bustling." Tantai Lingyan spoke while looking out the window.

Mu Qingge also looked at the street below. "There are many more cultivators with cultivation at the Tyrant Level here than on Earth II, so we must always be alert and careful."

"Are we going to stay in this capital, Xiao'er?" Tang Yin asked.

"I haven't decided yet." Tang Xiao looked off into the distance, specifically at the location of Yuanxi Hall. "We'll go there first to gather all the information we need, and I'll make a decision after we discuss it with the others. This capital is too dense with people, and many strong cultivators gather here. I don't have a problem with that, but I think it's too risky for our people."

Tang Yin understood this situation because not all members of the four clans had high cultivation levels; many only possessed foundation-level cultivation.

"Are we really going to join a sect, Xiao'er? Aren't I too old for that?"

"Hehe," Tang Yin chuckled. "Big Sis Lingyan, only fools think you are old! Look at you, your face still looks young, your boobs are bigger than papayas, and your body is also this sexy."

Tantai Lingyan glared at her as she glanced at Tang Xiao. "Why are you smiling to yourself? You've seen my boobs since childhood, remember? Do you want to see them again?"

"Sister Lingyan, we are in a public place, remember?" Mu Qingge reminded her.

Tantai Lingyan glanced at the restaurant guests, and most of the men glanced at her because of her huge boobs.

Tang Xiao smiled and shook his head. "Even though we have plenty of resources, I'll still join a sect in this realm to gain experience in the real world of cultivation. After all, it will be difficult for us to develop without sufficient experience, right? As for you, you don't need to join a sect if you're not interested in joining one, and you can cultivate in our residence later."

"Sigh." Tantai Lingyan supported her chin, looking outside. "I will think about it first, and I will make a decision after we get a lot of information about this realm, especially this kingdom and the other two."

"Are you planning to go to the Empire Capital?"

Tang Xiao thought for a moment before nodding to Mu Qingge. "If we can't find a suitable residence in one of the three kingdoms, I might go check out the Imperial Capital. However, the cultivators there are much stronger than those in the three kingdoms, so we'll face a complicated situation if we stay there."

Tang Yin, Mu Qingge, and Tantai Lingyan agreed. They had no problem living anywhere, but they had to think about their clansmen, especially those who didn't have high cultivation levels.

.

.

.

Sometime later, Tang Xiao and the three women were already in the Yuanxi Hall, meeting the female officer on duty in the middle of the room.

"Welcome to the Yuanxi Hall! Is there anything I can help you with?"

"We want to learn general information about the empire, the three kingdoms, and sects. Can you help us with that, Miss?"

The woman nodded slightly. "Does that mean you guys just arrived in this realm?"

"We just arrived from the Qingquan Realm, Miss."

"Oh! Qingquan Realm! That realm is much smaller than this Canglan Realm, and many residents from that realm come here to join sects because there are no sects there."

"That's right." Tang Xiao nodded. "We plan to move to this realm, so we need general information about it, especially this island."

The woman pointed to a room in the back. "You guys can go to that room, and one of our officers will meet with you to explain everything."

"How much should we pay for all that information, Miss?"

"The fee depends on the information you need, and our officers will determine the cost after everything is complete."

"Thank you, Miss."

Tang Xiao immediately led the three women into the room, and the woman looked at them as she contacted someone to meet them.

.

.

After waiting a few minutes, an old man walked into the room and sat down in front of them, examining their cultivation one by one. He could tell that the three women were Tang Xiao's women because he detected traces of their yin qi within his body, but he wasn't interested in their relationship.

Xiao Ai informed Tang Xiao that the old man's cultivation had already reached the Middle Tyrant Level, one level above Tantai Lingyan's.

"What kind of information do you need, Young Man?"

"First, we need information about this empire and the three kingdoms. Second, we need information about all the sects on this island. Third, we are looking for a quiet location for our new residence."

The old man stroked his long beard as he began to explain. "Our Empire is the Xuanyuan Empire, led by Emperor Xuanyuan Lingtian and Empress Jiang Fenghua, but I can't tell you too much about them. The Xuanyuan Clan has ruled the empire for three generations, and every emperor is wise, including the current one. All the cultivators on this island hold them in high regard and admiration, particularly due to their consistent fair and impartial rule."

Tang Xiao wanted to ask more about the Xuanyuan Clan and Emperor Xuanyuan Lingtian, but the old man stopped him with a shake of his head. "What about the three kingdoms?"

"As you probably already know, this Song Kingdom is ruled by King Song Zhentian and Queen Shangguan Qingyin. They are wise and fair leaders, but they are still no match for Emperor Xuanyuan and Empress Jiang in both cultivation and the way of ruling." Tang Xiao nodded in understanding. "They have two sons, Prince Song Tianzun and Prince Song Tianlin. The first prince has a character like his father, but the second prince has a disobedient and troublesome character."

"Is it okay if you tell us information about them, Senior?"

"Haha," The old man laughed in response to Mu Qingge's question. "Everyone in this kingdom already knows about them, and King Song never forbade us

from telling others about their general information, but I can't tell you about their private information."

"Senior, what do you mean by Prince Song Tianlin's character being disobedient and troublesome?" Tang Yin asked.

"Haish," The old man sighed helplessly. "Little girl, the second prince doesn't like being controlled, and he prefers a free and unfettered life, which goes against the royal character. Besides, he is a womanizer, and he often takes women by force to serve him. You three have beautiful faces and are still young, so you guys should be careful if you meet him one day."

"What about the first prince, Senior?"

The old man wore a proud look when Tantai Lingyan asked that. "The first prince's character is the opposite of his little brother's, and he is very talented in the arts, especially painting. He never differentiates people by their status, and he treats everyone well, even beggars. Everyone in this kingdom hopes he will succeed his father when he abdicates, and we believe that this kingdom will become even better under his leadership."

"What about the other two kingdoms, Senior?"

"The other two kingdoms are the Taixu Kingdom and the Shenwu Kingdom." The old man's expression turned serious. "Young man, you have to be careful of the people from the Shenwu Kingdom."

"What's wrong with the Shenwu Kingdom, Senior?"

The old man took out a map and spread it out on the table. "The Shenwu Kingdom is south of this island, very close to the barren southernmost island. That island is a den of demons, and rumors have it that King Shenwu Huxiao has ties to them. I don't know the truth, but rumors say that Queen Gu Qianying is a female demon. Emperor Xuanyuan has tried to investigate the rumors, but he still hasn't succeeded in uncovering the truth."

"Demons, huh?" Tang Xiao muttered while frowning. "How strong are they, Seniors?"

"King Shenwu and Queen Gu's cultivation has reached the Peak Tyrant Level. They have two children, Prince Shenwu Yufeng and Princess Shenwu Meihua, but I don't have clear information about their cultivation. If you

encounter people from the Shenwu Kingdom, you must be wary of them, or you will suffer."

"Thank you for your warning, Senior."

"Then, what about the third kingdom?"

"The Taixu Kingdom is the second-largest kingdom on this island, led by King Taixu Wudie and Queen Situ Lingshan. They have a son named Taixu Wuxian, who is a best friend of Prince Song Tianzun. I can't tell you too much about them, so this is all I can tell you. If you're interested in alchemy, you should go there and join the Lingdan Pavilion."

"The Lingdan Pavilion?"

The old man nodded. "The Lingdan Pavilion is one of the three sects in the Taixu Kingdom. It's a universal sect, but they excel in alchemy, and they have shops on all the islands, except the Shenwu Kingdom."

"Are you interested in alchemy, Xiao'er?"

Tang Xiao shook his head at Tang Yin. "I'm not interested in alchemy, but I am interested in their concocted pills, so we'll visit their shop in this kingdom after this. Then, what are the other two sects in the Taixu Kingdom, Senior? How many sects are there in this Song Kingdom?"

Chapter 349 349: Six Sects

"The other two sects in the Taixu Kingdom are the Heavenly Star Palace and the Myriad Sword Sect. The former is a universal sect like Lingdan Pavilion, and the latter is a sect specializing in swordsmanship." The old man took out an orb, turned it on, and displayed the three sects for them. "You guys can see for yourselves about the three sects."

"What kind of orb is this, Senior?"

"Have you four never seen the Memory Thread Orb?" They answered the old man with a shake of their head. "This orb is an artifact for memory storage, and the images you see now are our leader's memories. He used this artifact to make it easier to share information, but only general information is stored in it. To get more detailed information, you must visit each place directly."

"The Myriad Sword Sect is quite interesting, Xiao'er." Tang Xiao agreed with Tantai Lingyan. "Unfortunately, neither of us is focused on the sword, so we won't be joining that sect."

"Yes." Tang Xiao pointed to the image of the Heavenly Star Palace. "Is there anything interesting about this sect, Senior?"

The old man stroked his beard. "The Heavenly Star Palace is the only sect on this island owned by the royal family, and King Taixu's little sister is its sect master. Apart from a general sect, it also has an academy for beginner cultivators. The sect also has four courtyards: outer, inner, core, and gifted."

"Academy?"

"Yes." The old man nodded. "As you already know, we start cultivating at the age of 16, and children under that age usually join there to learn various cultivation theories in more depth, so they will be ready when they reach that age."

"Then, what about the outer, inner, core, and gifted courtyards?"

"Don't you know about these four?" They shook their heads because there were no sects on Earth II. "The outer courtyard is for Beginner Level cultivators until they reach the Foundation Realm, and they will advance to the inner courtyard until they reach the King Realm. After they break through to the Emperor Realm, they will become core disciples. As for the gifted courtyard, they are people with high aptitude in cultivation, regardless of their cultivation level."

"Regardless of their cultivation level? How do you know if someone has high aptitude in cultivation, Senior?"

The old man took out a large clear stone. "If you touch this stone and flow your qi into it, it will immediately change color, and each color will determine your aptitude in cultivation. The colors are white, green, blue, purple, black, and gold."

"White is the lowest, and gold is the highest, eh?"

The old man nodded to Tang Xiao. "If you haven't tried it before, you can try it now so you can choose a suitable sect later."

"Let me try it first." Tantai Lingyan touched the stone and channeled her qi into it. In a few moments, the stone turned blue, causing her to frown. "Does this color mean my aptitude is mediocre?"

"Hahaha," The old man laughed. "Even though blue color is quite common, your aptitude isn't really mediocre; otherwise, you wouldn't be able to reach the Lower Tyrant Level."

"Senior, you don't need to comfort me." Tantai Lingyan dejected.

"Hehe," Tang Yin giggled. "Big Sis Lingyan, you don't have to feel that way, do you? You yourself once said that talent without hard work is useless, and you've worked hard to reach this point, so you should be proud of your achievements."

Tantai Lingyan simply nodded. "Now it's the three of you's turn."

"I'll try it." Mu Qingge touched the stone and injected her qi into it, causing it to emit a purple color.

The old man nodded slightly. "Your aptitude is good, little girl. If you work hard even more, I'm sure you will reach the Saint Level in the future."

"Thank you, Senior." Mu Qingge turned to Tang Yin. "Your turn, Yin'er."

"Yeah." Tang Yin did the same with the two women, causing the stone to glow black.

"Oh? Black aptitude." The old man was slightly surprised before looking at Tang Yin. "No wonder you managed to reach the Upper Xiantian Level at less than thirty years old, little girl. If all the sects knew about your aptitude color, they would scramble to recruit you. If you choose the Heavenly Star Palace, you will be able to enter the gifted courtyard, and King Taixu will fully support you."

Tang Yin smiled upon hearing that. "We haven't heard about any sects in this Song Kingdom, so I can't make a decision yet, Senior."

"Your turn, young man."

Tang Xiao was a little hesitant to touch the stone, but he did it anyway. Within moments, the stone emitted a bright golden light that dazzled everyone's eyes for a moment.

Tang Yin, Mu Qingge, and Tantai Lingyan were not too surprised to see the results because they had already met the future Tang Xiao. Moreover, they knew about his celestial bloodline and two special physiques.

The old man stared at Tang Xiao in disbelief when the golden light vanished. "How old are you, young man?"

"24."

"I see." The old man nodded several times. "You're only 24 years old, but your cultivation has already reached the Lower King Realm. In my entire life, I've only heard of one cultivator with golden aptitude, and that person is Emperor

Xuanyuan Lingtian. Before and after him, no cultivator has such a high aptitude on this island."

"Eh? What about the empress and the others?"

"Empress Jiang Fenghua only has black aptitude, and her two children only have purple aptitude. As for the three kings and three queens, only King Taixu has black aptitude. The rest, including their children, vary between blue and purple." The old man put away the stone and warned Tang Xiao and Tang Yin. "I guarantee that information about you two will not leave this room, but I can't guarantee that it will remain confidential once you join one of the sects. At that time, news of your aptitude will spread throughout this island, and some people may target you, such as King Shenwu Huxiao and Queen Gu Qianying."

Tang Xiao and Tang Yin frowned at that, but they weren't too afraid of them because they had the Primordial Divine Ark to hide in, and no one would be able to find them there. However, their original plan would be ruined if they hid there, especially since their purpose in moving to the Canglan Realm was to gain experience in the real world of cultivation.

The old man spoke again. "Young man, you must always remember that there are too many two-faced cultivators, so you must always be careful while you

stay in this realm. Those who appear good on the outside are not necessarily good on the inside, and vice versa. Therefore, you must be adept at reading other people's characters; otherwise, you will be the one who suffers."

"I understand, Senior." Tang Xiao nodded seriously. "I'm not afraid of them, but I will never underestimate them, and I will always be wary of them."

"That's good." The old man touched the Memory Thread Orb, causing the images of the three previous sects to vanish, replaced by the three other sects. "Just like in the Taixu Kingdom, there are three sects in this Song Kingdom: The Demon Slaughter Sect, the Emerald Bamboo Sect, and the Nine Profound Sect."

"The Demon Slaughter Sect?"

"This one." The old man pointed to one of the pictures. "As the name suggests, members of the Demon Slaughter Sect focus themselves on cultivating and hunting demons. In this realm, demons have been a major problem for the past few generations, and they slaughter people indiscriminately. That's why the ancestor of the Song Clan founded the sect, and their main task is to fight demons."

"Is there a problem between the Song Clan and the demons, Senior?" Mu Qingge asked.

The old man sighed heavily. "Those demons killed so many members of the Song Clan in the past, which nearly destroyed them. Even so, they managed to rise again with the help of Emperor Xuanyuan, and they swore to eradicate those demons down to their roots. However, their numbers are simply too large, and many of them are truly powerful, so they have never succeeded in eradicating them."

"Demons and heretics have always been a problem in all realms," Tantai Lingyan muttered to herself with a glimmer of hatred in her eyes.

"Are you thinking of joining the Demon Slaughter Sect?"

Tantai Lingyan shook her head at the old man. "I hate those demons and heretics, but I haven't decided whether I will join the sect or not."

"What about the Emerald Bamboo Sect and the Nine Profound Sect, Senior?"

"I don't think the Emerald Bamboo Sect would be suitable for the four of you because the people in that sect are like hermits, completely focused on their cultivation without any regard for worldly affairs." The old man pointed to the image of the last sect. "In my opinion, the Nine Profound Sect would be more suitable for you guys, especially you, young man."

"Eh? What do you mean by that, Senior?"

"You're a dual cultivator, right?" The old man looked at Tang Yin, Mu Qingge, and Tantai Lingyan. "I detected their Yin Qi inside your bodies, so I thought you were one. The Nine Profound Sect has nine halls, and one of them is for dual cultivation, so I thought it would be suitable for the four of you."

"Haha," Tang Xiao laughed wryly. "Senior, I do cultivate using their Yin Qi, but I am not a true dual cultivator."

"Then?"

Tang Xiao put his arm around Tang Yin and Mu Qingge's shoulders. "Yin'er is my official wife, and Qingge is my future wife. Meanwhile, Big Sis Lingyan is my martial arts master, and she gave me her Yin Qi to speed up my cultivation. That's why I never thought about joining a dual cultivation sect, and I'll only dual cultivate with my wives."

Chapter 350 350: Decision

"What about the sects in the Shenwu Kingdom, Senior?" Tang Yin asked.

The old man waved his hand, and two new images emerged from the Memory Thread Orb. "The one on the left is the Azure Dawn Sect, and the one on the right is the Blossom Fragrance Sect."

"These two sects are no different from the other sects, Senior."

"As I said before, King Shenwu and Queen Gu perfectly covered up any traces of their involvement with the demons, so both sects looked normal from the outside." Tang Xiao and the others nodded in understanding. "Even though both sects seem normal, I advise the four of you not to join either one. After all, it's better to stay away from a poisonous snake than to approach one, right?"

"Yes,"

Mu Qingge looked at one of the pictures. "Is the Blossom Fragrance Sect a dual cultivation specialty sect, Senior?"

"That's right." The old man nodded. "Unlike the Nine Profound Sect, the Blossom Fragrance Sect is a pure dual cultivation sect. Although the cultivators in this realm have no problem with dual cultivators, not everyone welcomes their presence. Besides, that sect is more like a brothel than a sect,

and everyone there dual-cultivates as they please, including sharing partners. I've heard that their sect master and vice sect master change partners every day."

"Disgusting!" Tantai Lingyan blurted out. "I have no problem with male cultivators having multiple wives, but that sect is truly disgusting if one female disciple sleeps with multiple men."

"Hahaha," the old man laughed when he heard that. "My opinion may be biased toward female dual cultivators, and I strongly disagree that a woman has more than one man, but I have no problem if a man has more than one wife. In my eyes, that kind of woman is no different from a sale item, and anyone can buy one if they like it."

Tantai Lingyan nodded in agreement. "If I met a woman like that, I would immediately stay away from her."

"What about the dual cultivation disciples in the Nine Profound Sect, Senior?"

"The founder of the Nine Profound Sect made a rule that one woman can only have one male partner, and the sect will expel her if she has more than one male partner. That's why I said that the sect would be suitable for the four of you, but again, the decision is yours." The old man turned off the artifact and looked at them. "If you join that sect, you can learn about many things at once, such as swordsmanship, blacksmithing, and others."

Tantai Lingyan looked at Tang Xiao. "I think that sect is suitable for us, Xiao'er. Since it has nine different halls, we can learn many new things there. If you're interested in finding dual cultivation partners, you can also meet those disciples."

"I'm also interested in that sect, but I won't make a decision now, and we'll discuss this matter with the others first." Then, Tang Xiao asked the old man,

"Senior, do you have any information on a suitable location for our residence if we choose to join that sect?"

"Before I answer your question, I would like to know the criteria for your residence first," Tang Xiao immediately told the old man. "If you decide to join the Nine Profound Sect, I know a suitable place for you and your family. However, the area you need is quite large for that number of people, so you'll need quite a lot of Lower Spirit Crystals to purchase it."

"How many crystals do I need, Senior?" Tang Xiao didn't think much about it because the stock of Lower Spirit Crystals in the treasury vault was much more than enough for several generations, and he also still had several other grades.

The old man rubbed his beard while thinking. "Perhaps you need a hundred to two hundred million crystals to buy that area."

[Master, one hundred to two hundred million crystals is cheap, but you should look at the area first before deciding to buy it.]

Tang Xiao nodded slightly. "Thank you for all the information you've provided, Senior. Regarding our residence, I'll discuss it with my family first, and I'll come see you again once we've decided which sect to join."

"Once you've made your decision, you can come here whenever you want, or you can contact me via voice transmission."

"How much should we pay for all the information just now, Senior?"

"Haha," The old man laughed. "You don't need to worry about that, young man. All of that information just now is just general information, and everyone in this realm knows it, so you don't need to pay a single cent for it."

"Is that okay, Senior?"

The old man nodded at Tang Yin. "Is all the information just now enough?"

"I think that's enough for now, and I'll come back after discussing it with them, Senior."

"Alright, I will wait for news from you." Shortly after Tang Xiao left, a woman appeared behind the old man, wearing an off-the-shoulder purple dress, exposing her shoulders, collarbones, and cleavage. "What do you think of them, Huangfu Meizhen?"

Huangfu Meizhen has a soft, delicate oval-shaped face with smooth skin. Her almond-shaped eyes are large with a seductive and alluring gaze. Her eyebrows are thin, naturally arched. Her nose is small and straight. Her full lips are soft pink. She has long, straight dark brown to black hair, cascading over her shoulders and down her back.

She has a curvy and well-proportioned figure. Her shoulders are broad, with smooth and fair skin. Her waist is narrow. Her chest is full and prominent. Her hips are soft and rounded.

"Grandfather, I find that young man and young girl interesting, and they have a very high cultivation aptitude. If you manage to persuade them to join our Nine Profound Sect, our sect will flourish, and we will definitely be able to compete with the Boundless Sky Sect in the future." The old man nodded in agreement with Huangfu Meizhen. "Besides, if they decide to join our sect, we can help them hide their aptitudes, and they will be safer living in this domain."

"I hope they will choose our sect, but I can't force them to join us. For now, let them discuss and think things over, and I will meet with that young man again later." The old man turned to her. "What do you think of the young woman with light blue aptitude?"

"She's beautiful and calm, and her cultivation is quite high for her age, but she's quite cold."

"Haha," the old man laughed. "She possesses the ice element, so it's natural that she's cold, right? Unfortunately, there are no sects specializing in the ice element on this island, and she'll have to go to the largest island in this realm if she wants to improve herself. However, I'm not sure that the young man will allow her to go there alone, especially since the situation on that island is not as stable as it is here. Besides, the crown prince of the Dongfang Empire is a womanizer even worse than Prince Song Tianlin, and he forces the women he likes to become his. If the woman refuses, he will violate her by force before killing her."

"Dongfang Xuanye is indeed a bastard." Huangfu Meizhen clenched both her fists. "If it weren't for Emperor Dongfang Yutian, I would have killed that bastard long ago. In the past, he attempted to violate my sister by force, causing her severe trauma and hindering her cultivation."

The old man's expression turned gloomy. "Just like you, I also want to kill Dongfang Xuanye, but I have to think about the future of our Huangfu Clan. Although our clan is close to the Xuanyuan Clan, Emperor Xuanyuan won't be able to protect us from Dongfang Yutian if he wants to destroy our clan."

"I'll return to our sect now, Grandfather. You must inform me if that young man comes here again."

"Alright."

After Huangfu Meizhen disappeared, the old man walked out of the room and gave some instructions to the woman on duty in the middle.

After they left the capital, Tang Xiao immediately brought the three women back into the ark, where he discussed all the information he had obtained earlier with his grandfather and the others. "What do you all think about all those sects?"

"The Lingdan Pavilion isn't suitable for us because we don't have any alchemists," Tang Huang said.

Zhang Fei then spoke. "The Heavenly Star Palace is quite interesting, but that sect belongs to the Taixu Royal Family, and we don't have detailed information about that kingdom. Furthermore, the sect master of that sect is King Taixu's sister, and we might get into trouble if we come into contact with the royal family."

"Some of us are swordmasters, so the Myriad Sword Sect is suitable for them." Mu Ling looked at Tang Xiao. "However, you don't seem interested in that sect, and you're more interested in the Nine Profound Sect."

Tang Xiao nodded to him. "I'm more interested in the Nine Profound Sect because it has nine halls, and we can learn a lot there."

"Since you're more interested in that sect, I think you should choose it. You can find a residence nearby, Xiao'er." Sun Qian looked at the others before continuing. "If any of them want to join other sects, I think that's no problem, and they can stay there."

Tang Xiao looked at them, but they were waiting for his choice. "Alright, I'll join the Nine Profound Sect, and the rest of you can choose the sects that suit you best."

"Big Sis Yin and I will follow you to the Nine Profound Sect, Husband," Tang Yin agreed with Xing Xing.

"I'll join the sect too." Mu Qingge turned to her daughter. "What about you, Yan'er?"
