1461 Make the First Move

She had mastered the skills of both worlds, so Yang Mo learned very quickly and soon learned the skills of western medicine here.

After that, she also helped the Yang family learn about spiritual plants.

Soon, her position in the Yang family was getting higher and higher, and before she knew it, she had been here for fourteen years.

When she woke up here, her body was only 13 years old.

!!

Now she was 27 years old.

Moreover, she was still a divine doctor in the eyes of the people, with a high level of medical skills. Many people came offering their money just to get her consultation.

Her life was getting better and better, but to her surprise, she would see Xia Xibei here!

Even though the face was more than ten years younger, it was definitely Xia Xibei!

That made Yang Mo a little suspicious.

How could this Xia Xibei also know the art of healing?

Was it possible that she was also reborn?

Yang Mo's eyebrows were locked, and she was a little more nervous.

If Xia Xibei was reborn, she might know who did what in the first place.

If that were the case, then it would be a problem.

However, Yang Mo finally put her mind at ease after thinking through Xia Xibei's experience.

Xia Xibei might have had a different encounter, such as awakening her memories from back then, but she certainly didn't fully bring over her previous knowledge.

At most, Xia Xibei only had a little memory of her previous life.

How could she be a celebrity now if she had all those memories?

Being a divine doctor was much better than being an actress.

If Xia Xibei had all the memories of her past life, it would be too easy to become a divine doctor.

Although Yang Mo had mastered the medical arts of this world, she had very strong confidence in her own system of medical arts from her previous life.

She could have used her spiritual power for healing!

This was the difference between the two worlds' healing arts.

Thinking of this, Yang Mo was a little remorseful. How come she didn't learn all these skills before attacking Xia Xibei?!

However, she hadn't gotten this far at first because Xia Xibei didn't teach her more.

If she had become a junior alchemist, she would have been able to learn how to use her spiritual power for healing.

Although she had now become a junior alchemist by her own efforts and one of the few junior alchemists in this world, she did not know how to use her spiritual power to heal.

Although she also had spiritual power, using spiritual power to cure diseases was another level of skill. That would have to be learned systematically.

If she could use her spiritual power to heal, she would be more famous now!

Even if she had to treat Gu Yinglei, it would only take a few days, but now it would take her a month or two to treat him by conventional means.

The difference here was a shame to think about!

However, Yang Mo soon revealed a sinister smile.

Since she knew that Xia Xibei might also have memories of her past life, she could never let her live!

It wouldn't be good if Xia Xibei knew about her existence.

Moreover, it was possible that Xia Xibei would awaken more memories as time passed.

By that time, Xia Xibei would be back to being the senior pill refiner she was back then!

So, she must strike first!

Yang Mo looked at the pretty face on the phone and had already made a decision.

On the other hand, Xia Xibei did not expect that Yang Mo, who had killed her, had also come to this world.

She didn't expect that this woman was planning to hurt her!

Chapter 1462 - 1462 Going Abroad

1462 Going Abroad

After Qiao Yanjue's health improved, he began to act against Gu Yinglei.

Wasn't the reason why Gu Yinglei was able to be so arrogant because of the support of the Gu family?

So, he then told Gu Guanlin about these things through other channels.

Gu Guanlin and Gu Yinglei were in competition, and Gu Guanlin was stronger than Gu Yinglei.

!!

If it weren't for the fact that Gu Yinglei had been loved by his elders since he was young, he wouldn't have been able to do what he did before.

Now, Gu Yinglei had made a wrong decision and did not correct it, continuing to mess up, so it was no wonder that Gu Guanlin found an opportunity to make a move.

As long as Gu Yinglei lost the company, he could not be so arrogant.

Although the Gu family was big, it did not belong to Gu Yinglei alone.

If it weren't for the fact that there were things abroad that required Qiao Yanjue's personal attention, Gu Yinglei would not have gotten off so quickly.

After arriving in M, Qiao Yanjue received the news that Gu Guanlin had helped Gu Yinglei find a doctor.

It was not surprising that Gu Guanlin operated in this way.

Gu Guanlin took over the company, and if he didn't want Gu Yinglei to make trouble, he had to promise a little benefit.

However, he wasn't too worried about Gu Yinglei getting better because he had confidence in Xia Xibei's strength.

Xia Xibei's tampering with Gu Yinglei's health was something unique to the Land of Fantasy, and the people here would not be able to find out.

When the time came, Gu Yinglei's company was taken away, and he was personally ruined. It would be the greatest punishment for him.

Death was not the best punishment. Living in pain was.

Qiao Yanjue felt there was no way for Gu Yinglei to get better.

After he took care of this matter, he flew to M country.

This time, he came to M country mainly because of the sales of the new material.

Once this new material was launched, not only did the domestic business world go crazy for it, but the news also reached abroad.

This material could be used in many industries, including automobiles, ships, railroads, and aviation...

So, after seeing the benefits of these materials, people with a keen business sense flocked here.

This time, Qiao Yanjue came to M to explore the market here.

After all, M was also a big market, and the business people here were financially strong. If they could cooperate with them, the Qiao family would be even stronger.

After integrating the memories of his previous life, Qiao Yanjue also had a sense of urgency.

He knew that once he was weak, he would be beaten.

Although the Qiao family wasn't weak, they were no match for other ancient martial arts families because of time and heritage.

Although the distance between the two types of families had gradually become much closer in this era, there was still a difference.

So, he wanted to make the Qiao family more powerful, so that others no longer had the opportunity to harm them!

Moreover, the meeting place this time was quite close to Xia Xibei's movie shoot.

So, Qiao Yanjue returned to the hotel to wait for Xia Xibei after finishing the day's work.

After fusing the memories of his life as her fellow disciple, Qiao Yanjue's feelings for Xia Xibei are even stronger.

The pain of being separated from each other before the relationship had even made him unable to remember things, and he couldn't bear to be apart from Xia Xibei.

If Xia Xibei had not strongly refused, he might have been unable to resist following her to the shooting location for filming.

To take the college entrance exam in a month, Xia Xibei didn't have much time to spend with him.

She had to free up more time before returning to take the exam.

After a period of adjustment, Qiao Yanjue also finally put all his focus on his work.

After meeting with several partners, he suddenly had a big reward.

Chapter 1463 - 1463 There Are Spiritual Stones

1463 There Are Spiritual Stones

Qiao Yanjue had a full schedule in country M. On this day, he was discussing cooperation with a businessman.

This businessman was a wealthy mogul in M country and had many properties.

This time, the two parties met at one of the businessman's manors.

Qiao Yanjue stopped in his tracks just as he arrived at the manor.

!!

His expression changed slightly as he felt the aura of the place.

"Mr. Qiao." The man saw him stop and followed suit. "What's wrong?"

Qiao Yanjue showed a smile, "Mr. Elton, the environment here is very good."

“That’s right!” Mr. Elton showed a proud smile. “I like this place the most too!”

Although he had many properties, this was one of his favorites.

The environment here was very beautiful. Moreover, the soil was very fertile, and it didn’t take much effort to grow beautiful plants.

There were also mountains and water here, very suitable for vacation.

To make this deal, he brought Qiao Yanjue here.

“It’s really great. I like it too.”

Qiao Yanjue smiled, nodded his head, then stepped away and walked inside.

He was pleasantly surprised.

There were definitely spirit stones here!

After he had fused Little Brother’s memories with his own, he knew that to move up, spirit stones were indispensable.

Although his current strength wasn’t bad, to continue to be strong, he needed to have spirit stones.

Before, he bought the small mountain village where Xia Xibei recorded a TV program.

After buying it, he didn't have time to explore it, so he wasn't sure about its specifics.

In Hua, there were not many good places like this.

He didn't expect that there would be such good places abroad!

Looking at the growth of the trees here, there were definitely a lot of spirit stones here.

This also made Qiao Yanjue more interested.

Mr. Elton probably didn't know that there were spirit stones here, and they weren't too useful to them.

Since that was the case, there was room for negotiation.

Soon, the two of them sat in the conference room and started to talk about this cooperation with the beautiful scenery outside.

Although Qiao Yanjue wanted to buy the manor, he also knew that the other party would not easily give up. After all, they had spent so much effort, and there was no shortage of money.

However, he was not going to give up.

Although he had this idea in mind, Qiao Yanjue did not show it, and everything was done according to the rules.

The other party was also imperative to this cooperation. After all, if they could become the agent of these materials, they could definitely earn more.

Although they were already very rich, who could have had too much money?

The two sides were talking back and forth, and the conversation was heated.

Qiao Yanjue was the dominant person. He only occasionally offered a little advice, but also controlled the direction of the whole discussion.

Soon, the negotiations came to a later stage, and both sides intended to cooperate, so naturally it was quickly agreed upon.

After talking about this matter, Qiao Yanjue was trying to find an opportunity to raise his love for this estate when the other party received a phone call.

Then, the other party's face was very unpleasant.

“Sorry, I have some issues on my side. I’ll have to leave. Let’s get in touch later!”

After saying that, he hurriedly left.

Qiao Yanjue’s ears twitched, and his brows furrowed.

The phone call just now was from a woman, and she said that the girl’s health was not good.

This girl, he believed, was Mr. Elton’s daughter.

Qiao Yanjue immediately asked his assistant to check the details.

Soon, he got the news that the other party’s daughter was sick, which was quite tricky.

Chapter 1464 - 1464 A Win-Win for Everyone

1464 A Win-Win for Everyone

“There are spirit stones?”

Xia Xibei was stunned.

Were there actually spirit stones here?!

She had been looking for spirit stones as well.

!!

There had to be spirit stones to have better development.

Her current strength was far from her peak back then.

Unfortunately, spirit stones were not that easy to find.

In densely populated places, there would be no spirit stones present. In those places, the spiritual energy had been destroyed long ago, and, even if there really were spirit stones, they would eventually be discovered.

Although there were not many people who knew the spirit stones, there were still some.

There were still several ancient martial arts families in the country. Although they were not too different from ordinary families now, to maintain their superiority, they would definitely try to find spirit stones.

The Qi family also had a lot of spirit stones. Qi Zhi'an said that the Qi family had a spirit stone mine that had been passed down from ancient times.

However, only the head of the family knew about this spirit stone mine, and its production had been reduced a lot.

The Lu family also had a spirit stone mine, but its output was not much anymore.

It should be said that almost all the spirit stone mines in the country have been discovered.

Moreover, there were not many spirit stones left in the country.

So, Xia Xibei didn't have too much hope.

Who would have thought that there were spirit stone mines in M country?

This was simply an unexpected joy!

"Right," Qiao Yanjue nodded his head, "It's Mr. Elton's."

Seeing Xia Xibei so happy, he couldn't bear to interrupt her excitement.

"However, I don't think he would sell it."

Xia Xibei's excitement seemed to be doused with a pot of cold water.

Spiritual stones were only useful for people like them. Other people, even if they found them, without cultivation techniques, would only treat them as ordinary beautiful stones or ordinary crystal stones. Still, these were even more fragile than crystal stones, and the energy would easily drift away.

Therefore, these spirit stones were useless to ordinary people and would only improve the air.

The spirit stones could only show what they were supposed to do after processing.

This was a win-win for both sides.

But not selling?

“Have you asked yet?”

“Not yet,” Qiao Yanjue shook his head. “However, his family is not short of money, and he also said that he likes that place the most and usually goes there to vacation.”

Since there was no shortage of money, naturally, the manor would not be sold. After all, he was a big rich businessman who would only continue to buy houses, and rarely sell them.

Xia Xibei was immediately disappointed, “Then what do we do?”

“There is a way.”

Qiao Yanjue looked at her.

“What do you want me to do?”

Xia Xibei immediately understood what he meant.

Qiao Yanjue showed a smile, “His daughter is sick and needs to find a doctor.”

“I’ll do it!”

Xia Xibei immediately patted her chest and nodded her head.

Since Qiao Yanjue talked about this matter, the daughter must be very important.

Xia Xibei was confident in her own medical skills, and although she was not from the same country, everyone was human and could be treated.

“Okay, I’ll contact him.”

Since the stones had been discovered, it was natural to act immediately.

Although others would not find out about the existence of the spirit stones, who knows?

There were always many accidents in this world.

They must make the first move.

So, Qiao Yanjue immediately looked for an opportunity to take Xia Xibei to visit Mr. Elton.

When they arrived at Mr. Elton's mansion, they saw his sad face.

His daughter suddenly fell into a coma, and the doctor said something was wrong with her immune system.

However, the doctor couldn't explain the details.

When he saw Qiao Yanjue, Mr. Elton was in a bad mood but tried to smile.

Chapter 1465 - 1465 Poisoned

1465 Poisoned

"Mr. Elton," Qiao Yanjue greeted with a smile. "How is Miss Elton doing?"

Mr. Elton had a sad face, "Alas, my child..."

Talking about this matter, his eyes were tearing up.

His reaction also made Xia Xibei and Qiao Yanjue glance at each other. It seemed that he really loved his child.

!!

In that case, this matter would be more certain.

“I’ve brought a doctor here, and I hope we can do something for her.”

Mr. Elton looked up, “A doctor?”

“Right.”

Qiao Yanjue pushed out the disguised Xia Xibei. “This is Dr. Xia, an exceptionally good doctor. She’s a famous doctor in our country!”

Mr. Elton’s eyes instantly had a little more hope. “Really?”

“Yes.” Qiao Yanjue said without changing his expression. “Dr. Xia’s medical skills are very good. She has treated many difficult and complicated diseases.”

Mr. Elton had more hope at that moment.

If Xia Xibei had been brought by someone else, he would not necessarily believe it.

However, this was Qiao Yanjue!

Qiao Yanjue was his business partner, and his status was not ordinary.

The doctors that such a person knew must be very high-level.

He certainly wouldn't have brought her here if she didn't have the strength.

"Hello, Dr. Xia!"

He immediately greeted Xia Xibei with an eager smile.

"Hello."

Xia Xibei's disguised appearance was quite dignified, and she could only be considered cute but not beautiful, but her aura and composure made her look very confident.

Mr. Elton also had more hope in his heart. "Then I'll trouble you, doctor. My child is still in the hospital, so if you don't mind, can you come with me to the hospital?"

"Of course," Xia Xibei and Qiao Yanjue said in unison.

Didn't they come over today for this matter?

Soon, they went to the hospital together.

It was a private hospital with high fees, and the doctors inside were at the top level in M.

Mr. Elton didn't care about the cost of treatment. He just wanted his child to get better.

They arrived at Miss Elton's ward.

Although it was a ward, it was a small courtyard with everything inside.

The girl was lying on the bed and was sleeping deeply. Her pretty little face showed that she had gotten quite thin.

Mr. Elton's heart hurt even more when looking at his daughter's pitiful appearance.

Xia Xibei walked to the bedside and reached out to feel her pulse.

Mr. Elton was confused and couldn't help but look at Qiao Yanjue.

If Qiao Yanjue didn't bring this doctor, and a girl at that, he would have thought she was taking advantage of his daughter!

Qiao Yanjue shook his head at him, signaling him to be quiet.

Only then did he realize that Hua had different treatment methods than theirs.

Maybe these methods worked? It couldn't be a scam, could it?

Then he watched as Xia Xibei touched his daughter's hand and then the other hand.

He thought that would be enough, but then she returned to undoing her daughter's top!

"Dr. Xia!"

Mr. Elton was anxious and came forward with a grimace, trying to stop Xia Xibei.

What kind of doctor's treatment involved undressing?

Qiao Yanjue stopped him. "Mr. Elton, take it easy. It's going to be fine. Aren't we all here?"

His voice was calm and steady, with reassuring strength.

Mr. Elton finally stopped in his tracks.

Yes, they were all here, so what could Xia Xibei do?

After checking the girl all over, Xia Xibei finally made a conclusion, "It's not an illness. It's poisoning."

"Poisoned?!"

Chapter 1466 - 1466 A Somewhat Familiar Poison

1466 A Somewhat Familiar Poison

"Poisoning?!" Mr. Elton was panicked. "This is poisoning?! How is it possible?!"

His daughter usually kept a low profile and seldom had grudges with anyone. Moreover, others did not know that she was his daughter.

Under such circumstances, how could she be poisoned?

"It's indeed poisoning, and it's a neurotoxin." Xia Xibei had a serious and grave expression. "If we don't hurry to detoxify the poison, there will be greater effects afterward."

!!

Although Xia Xibei did not say the greater impact clearly, she did not need to say more for him to know the result.

Mr. Elton became more anxious, "What should we do then?"

"Don't worry, I can fix it," Xia Xibei said confidently.

Since she could see the problem, she could naturally solve it.

However, there was still a problem here.

"But where did this poison come from?" Mr. Elton's face was ugly.

His daughter was doing well before. How could she be poisoned?

If not for the fact that Xia Xibei was brought by Qiao Yanjue, who had a cooperative relationship with himself, he would not have believed such nonsense.

It was one thing to say that one was sick but poisoned?!

It was not like they were shooting a TV show!

"It was likely done by someone close to her."

This statement widened Mr. Elton's eyes. "Someone close to her?"

"Yes," Xia Xibei nodded. "This kind of poison works long-term and was put in her daily food. Moreover, the dose was increased little by little."

It had to be someone around her.

Mr. Elton's face was darkened. "Are you sure?"

"I'm very sure," Xia Xibei nodded affirmatively. "As for who... I think that person should appear soon."

Mr. Elton's face was gloomy and ugly, "I know."

He swore to himself if he found out who did it, he would make them know the consequences!

"So what now? How do we fix the poison?"

Xia Xibei gave him a look, "I'll give you a list, you get me all the things in it, and I can start the treatment."

After all, this was M country, and the herbs were not easy to find, so she had to rely on Mr. Elton to find them.

After all, he was influential locally and knew what was available.

Mr. Elton immediately nodded his head, "Okay! You write it out, and I'll go find it right away!"

Xia Xibei quickly wrote up a list full of what was needed.

After Mr. Elton sent someone to take care of it, Xia Xibei smiled again, "Actually, we can find out tomorrow at the latest if we want to know who did it."

This statement surprised Mr. Elton. "How do you know?"

Qiao Yanjue smiled and spoke, "She means that tomorrow at the latest, the murderer should appear."

Xia Xibei nodded, "Yes."

Mr. Elton became even more indignant at once, his eyes filled with anger.

"Okay, I got it!"

Before the materials were found, Xia Xibei and Qiao Yanjue left and returned the next day.

When they got into the car, Xia Xibei's smile suddenly disappeared.

"There's a problem?"

Qiao Yanjue immediately saw that something was wrong with Xia Xibei.

"Yes," Xia Xibei nodded. "This time the poison... It's a bit familiar."

Qiao Yanjue was surprised, "Familiar?"

How was it possible?

Xia Xibei's familiarity with poisons was definitely related to the Land of Fantasy. After all, both of them were connected to that place.

How could there be a poison here that had something to do with there?

Besides them, were there other people from that world here?

"I suspect that someone here... Is related to there."

Xia Xibei's face was serious.

“You’re not kidding?”

Qiao Yanjue’s face also became serious.

Chapter 1467 - 1467 A Familiar Style

1467 A Familiar Style

Xia Xibei was sensitive to the fact that the situation was not right after checking Ms. Elton’s condition.

She was indeed poisoned, but if a doctor here examined her, he would only think that it was a rather strange disease, not that she was poisoned.

Xia Xibei knew this technique, which could fake this effect.

Xia Xibei rarely used this method to harm people, but that didn’t mean she didn’t know how.

!!

On the contrary, when the alchemist was skilled, they could not only make tonic medicines that were great for the human body, but he could also make poisons.

Xia Xibei rarely used poisons to hurt people, but she was no stranger to this technique.

Moreover, many good medicines could become poisonous if used incorrectly.

She was very familiar with this type of poisoning, and most importantly, this poisoning had a little bit of her own style.

These words made Qiao Yanjue froze for a moment.

“With your style?”

“Right,” Xia Xibei nodded. “It has my style, however, it is quite inferior to my level.”

Otherwise, it would not have been discovered by her so quickly.

If it was her poison, others would never have found it. They would only think it was an ordinary disease, just a bit rare.

In Ms. Elton’s case, she was the only one who could see the problem.

“But this is not there,” Qiao Yanjue frowned.

This was not the Land of Fantasy, and besides, there shouldn’t be that many people who came from there, right?

The two of them were in a special situation.

Were there other people from the same place?

Was this world a place for them to travel to?

"I know," Xia Xibei's eyebrows sank. "That's why I'm suspicious of what's going on here."

Qiao Yanjue's expression also became serious. "Yes or no, we'll know tomorrow."

She nodded, "Yes, tomorrow."

In fact, both of them had an idea, but they didn't dare to say it.

By the next day, Mr. Elton had retrieved what they needed.

After Xia Xibei received the news, she and Qiao Yanjue rushed over.

After checking the herbs, Xia Xibei nodded in satisfaction.

Although this was not Hua, Mr. Elton was still very capable and had found a lot of medicinal herbs.

If they were to find them on their own, there was no telling how long it would have taken.

“Can we start the treatment now?” Mr. Elton was anxious.

It was hard to have a daughter just lying in bed, not knowing if she was alive or dead.

“Not yet.” Xia Xibei shook her head. “Don’t you want to know who the killer is?”

“Of course I do!”

Mr. Elton immediately understood what they meant.

This was to draw the murderer out!

“But her condition...”

“Don’t worry, it won’t affect her.”

“Then... Let’s wait.”

After half an hour, sure enough, the maid came to say that someone had come to see the girl.

Mr. Elton immediately stood up with anger on his face. "Is the murderer coming over?!"

"Let's go and see," Xia Xibei stood up.

"Okay."

Mr. Elton was very anxious and immediately walked over quickly.

Soon, they arrived at Ms. Elton's hospital room, where there were several other people in the room.

There were men and women here, and they were all quite young.

One of the women was different from the others, and she was wearing a white coat, so it was obvious that she was a doctor.

Xia Xibei looked at her a few more times; she always felt a little familiar.

However, with Xia Xibei's memory, if she had really seen this girl, she would definitely recognize her.

"Mr. Elton, we are Marley's friends and classmates. We came to see her," a man smiled and spoke to Mr. Elton.

Chapter 1468 - 1468 The Young Professor

Mr. Elton looked at these people in front of him, and although he was suspicious, he did not show it. There were so many people here. Who knew who was the murderer?

“Hello, guys! Sorry to trouble you guys to make this trip.”

He also squeezed out a smile.

“We’re all Marley’s classmates, and we’re a little worried about her, so we came to take a look.”

!!

The boy was tall and handsome and looked very affable.

If it weren’t for the problems Xia Xibei mentioned earlier, Mr. Elton wouldn’t have even thought about other possibilities when he saw them.

However, he knew that his daughter was poisoned, there was no way he could be carefree.

This is too much trouble for you guys, thank you,” he said with a smile.

“No trouble. We also want her to get well soon.”

The boy said with a smile, "By the way, my name is Sean, she is Lily, and she is... Oh yes, this is our professor, Dr. Yang."

"Professor?"

Mr. Elton was instantly shocked and couldn't help but pay a little more attention to this Dr. Yang.

To become a professor, one had to accumulate a long time.

At least for now, the youngest professor he had seen was thirty years old.

This girl in front of him still looked very young!

Moreover, she was of Asian descent!

Asian women already looked young, and in Mr. Elton's opinion, this Dr. Yang might be in her twenties.

A professor at that age? How brilliant must she be?

However, if one was brilliant enough to be a genius, one could become a professor at a very young age.

This Dr. Yang should be very good.

Moreover, Mr. Elton's daughter, Marley, went to a prestigious school, and their medical program was famous.

How good must she be to be a professor in such a school!

Mr. Elton had a little more trust in Dr. Yang for a while.

Maybe Dr. Yang would have a different opinion?

"Hello, Dr. Yang!"

Mr. Elton immediately extended his hand and said with a smile.

"Hello, Mr. Elton."

Dr. Yang extended her hand, shook his hand, and then smiled, "Marley is a student at our school, and we are all friends. I heard that she was hospitalized, so I came to see if there was anything I could do to help."

Thank you so much, Dr. Yang. You're very kind!"

Listening to their pleasantries, Xia Xibei and Qiao Yanjue exchanged a look.

It seemed that Mr. Elton's daughter was not a medical student, right?

Since she was not a medical student, how could she have such a deep

friendship with such a person?

Would a professor come to visit a random student?

This professor was not so compassionate, right?

Moreover, Xia Xibei always felt that Dr. Yang looked familiar.

She had a vague suspicion in her heart but didn't dare to admit it.

Dr. Yang's appearance was unfamiliar; she had not seen her before.

It was only because of the last name that she felt familiar.

However, there were so many "Yang," so who knew which surname it was?

So, Xia Xibei didn't say anything and just stood aside.

Qiao Yanjue also didn't say anything and stood quietly next to Xia Xibei.

However, Qiao Yanjue's appearance was not disguised, so he was very conspicuous.

Soon, the students looked their way.

Especially the two girls, their eyes lit up when they saw him.

It was so rare to see such a brilliant Asian man here!

His aura seemed unusual!

Besides, he was standing with Mr. Elton. His status must be different.

Chapter 1469 - 1469 Something Is Really Wrong

1469 Something Is Really Wrong

In Country M, Asian men were generally less popular.

Due to genetics, Asian men were usually short, and there was a big difference between them and the tall and strong M countrymen.

Plus, the culture was different. Country M's girls preferred men from their own country and were not too interested in Asian men.

However, a man like Qiao Yanjue was very popular no matter what country.

!!

The girls' eyes took on a glow when they looked at him.

Such an outstanding man would be great to flirt with.

Of course, everyone thought what they wanted, but on the surface, they were still very reserved.

Yang Mo saw the two people near her.

Her heart thumped a bit when she saw them, and she was a bit uncomfortable.

She always felt that these two people gave her a familiar feeling.

However, these two people looked very strange. She had not seen them before.

She didn't think too much about it. After all, because of her profession, she had seen a lot of people.

That was why she had a familiar feeling.

However, this man was indeed outstanding.

Even in the M country, he was also outstanding. People always saw him first.

As for the ordinary-looking woman beside her, she didn't catch her eye at all.

Yang Mo didn't care about the two of them and gave Sean a look.

Sean immediately understood her meaning and said to Mr. Elton with a smile, "Dr. Yang took time out of her busy schedule to come here today. Why don't you let her see how Marley is doing?"

Mr. Elton couldn't help but frown.

Before he could refuse, Sean immediately said. "Dr. Yang is very good. She is the chief physician of HS Hospital!"

Mr. Elton's eyes widened as soon as he said this.

HS hospital was a famous private hospital in M country with high prices, but the doctors there were at the top level in the country.

Originally, he wanted to send his daughter to HS Hospital, but it was already full, so even if he had the money, there was no way to get in.

So, he had to settle for the second best and send his daughter here.

This hospital wasn't bad, but there was still a gap compared to the HS hospital.

This woman was actually the chief physician of HS. This was too awesome!

Those chief physicians he had seen before were at least forty years old!

Mr. Elton felt like he was being enlightened all the time.

In this way, he also had some more hope.

If she was so powerful, maybe she could save his daughter.

He was just about to say yes when he remembered the presence of Qiao Yanjue and Xia Xibei and turned his head to look over.

Qiao Yanjue smiled at him and spoke, "With Dr. Yang's help, Marley will definitely be fine."

Yang Mo was not sheepish and nodded proudly.

With her strength, she was indeed able to solve this difficult problem.

When Qiao Yanjue said so, Mr. Elton immediately understood.

“Then I’ll trouble you, Dr. Yang!”

Usually, it was difficult to ask Dr. Yang for a consultation, but he didn’t expect her to come to him today.

However, he also had some more doubts in his heart.

He was not a fool and was still cautious if people offered him anything for free.

Such an excellent doctor was someone who was hard to reach even with money, but today somehow took the initiative to come to the door?

Adding to what Xia Xibei had told him before, he couldn’t help but be more suspicious.

However, he did not immediately raise his suspicions but watched her reaction first.

Yang Mo walked towards the bed with a calm expression, then took Marley's hand and started to take her pulse.

Her actions made Xia Xibei and Qiao Yanjue's hearts jump.

The two of them looked at each other, and a cold light shone in their eyes.

Sure enough, something was wrong!

Chapter 1470 - 1470 Recognized

1470 Recognized

Xia Xibei and Qiao Yanjue were appalled when they saw Yang Mo's movements.

Xia Xibei stared intently at Yang Mo's movements, a horrifying light shining in her eyes.

She finally knew who this person was!

It was Yang Mo!

!!

It was the same Yang Mo who had harmed her!

At this moment, Xia Xibei gritted her teeth as hatred and anger surged in her heart.

In fact, in the Land of Fantasy, doctors and pill refiners were two different professions.

It was equivalent to a doctor and a pharmacist in this world. Although they were one industry, they did not overlap.

Doctors saw patients and prescribed medicine, while medicine refiners made medicine.

The doctor saw the patient, then gave the patient a bill to buy the medicine on their own.

However, Xia Xibei did not do that. She combined both, seeing patients and making medicine at the same time.

At first, she didn't know why she was reborn here, but she understood that she must make herself stronger!

So, she studied hard.

There was a common ground between medicine and pharmaceuticals. However, it was very difficult to master both.

After all, human energy was limited, so people usually chose one direction to work in.

If it weren't for Xia Xibei's unique situation, with her strong spiritual power and deep memory, she wouldn't have been able to master all of these elements so quickly.

Even Qiao Yanjue, at that time, did not have such a skill.

Xia Xibei's teacher was an all-around expert, and because he was very old, he had high achievements in pill refining and weapon refining, as well as in the medical arts.

Xia Xibei followed him for nearly thirty years, and under his influence, plus her own special circumstances, she could master so much so quickly.

If it were anyone else, they might have spent the same amount of time and still might not have achieved much in one area.

After Qiao Yanjue became a disciple, he also tried to study medicine and alchemy, but in the end, he found that his talent in this area was not really good.

In the end, he switched to learning weapon refining.

After he got in touch with weapon refining, his strength increased by leaps and bounds.

Xia Xibei, on the other hand, focused on medical arts and pill refining. In the end, she became an advanced medicine refiner and was also strong in medicine.

However, in terms of refining, she was only a beginner refiner.

Qiao Yanjue, on the contrary, was on the verge of breaking through Senior Pill Refiner and becoming a Master Pill Refiner before her accident.

Well, this was the back story.

Since Xia Xibei was practicing medicine and refining at the same time, she had little habits. For example, when she was taking someone's pulse, her little thumb would slightly cock up a little.

At the same time, when she took someone's pulse, it was as if she was playing the piano, with her fingers moving slightly to the rhythm of her heartbeat.

Her two disciples, Yang Mo and another girl, both picked up her little movements after studying under her.

It was a small habit, naturally difficult to correct.

Of course, no one bothered to try to change it

So, when she saw Yang Mo's movements, Xia Xibei recognized them immediately.

Moreover, she finally understood why she felt this poisoning had her style.

It was really related to Yang Mo!

At this moment, Xia Xibei's feelings were very complicated.

She couldn't understand why Yang Mo had also arrived in this world. Moreover, Yang Mo was now in her twenties, older than her!

Back then, Xia Xibei was more than ten years older than Yang Mo!

Based on the situation, Yang Mo should have been here for many years and learned many skills.
