

## **Chapter 1591 - 1591 Provincial Champion**

### 1591 Provincial Champion

When Yang Mo was just getting results in her research, the college entrance exam results came out.

As everyone expected, Xia Xibei's score was super high, and she was also the top scorer in the province!

The provincial champion!

How awesome!

!!

When this result came out, Xia Xibei was still in M, so she asked Pan Yan to help her check the result.

When he saw the result, Pan Yan was stunned.

He knew that Xia Xibei was a top student, but he didn't expect that she could get such a great result even though she was busy working in the first half of the year!

Looking at the terrifying numbers on the top, Pan Yan was dumbfounded for a while before he came back to his senses and immediately contacted the company to share the news.

Soon, Xia Xibei received a call from the school.

On the phone, the principal was very excited to congratulate her, and then a banner was quickly pulled up at the entrance.

This result shocked people in and out of the industry.

During the previous exams, many haters were waiting to see Xia Xibei make a fool of herself.

Xia Xibei had always been making herself out to be a top scholar.

The so-called top scholar persona was very easy to lose. At least several stars in the circle were humiliated because of such a persona and were laughed at.

Xia Xibei's current popularity made everyone enthusiastic about her.

Before her performance on the show, fans were excited, but while there were fans, there were haters too, and many haters were unwilling to believe the online reports.

Besides, many of those so-called reality shows had scripts.

With Xia Xibei's status, it was easy to work with the TV stations to get certain results.

Even if the fans dumped the results in front of them, they were not recognized.

Before that, the fact that Xia Xibei refused the invitation to CG University was also mocked madly by many haters.

They felt that Xia Xibei was faking it.

She didn't know how to grasp such a good opportunity, so she really had to rely on her own entrance exams to get there.

Did she really think she was the best of the best?

CG University was very difficult to get into!

When the time came, she would really embarrass herself!

Xia Xibei worked until the middle of May, which made the fans worry, but excited the haters.

With only ten days left, what could Xia Xibei learn?

She better not be ashamed of herself by then!

Xia Xibei ran off to work in M after her exams, not spending any time at all in the country, which in turn excited the haters. The tide had turned!

In their minds, Xia Xibei was afraid to face her own results. When she failed the examination, she could use the excuse of work being too busy.

Well, no matter what Xia Xibei did, the haters had their own explanation.

In their minds, Xia Xibei was simply a fake top student, without any semblance of real talent. She was just a pretty face.

The fans were so angry that they had many fights with the haters, but no matter how angry they were, the haters continued to be around.

This time, Xia Xibei's entrance exam results came out, and the fans were so happy that they were finally vindicated!

The haters were dejected by this slap on the wrist.

This was, after all, the most important college entrance exam in the country. No one could cheat, much less bribe the test proctors, and the results could not be faked.

Even if there were people who cheated in the college entrance exam every year, this was not related to Xia Xibei.

After all, Xia Xibei was a star, and so many people were watching. How could she make a move?

So, Xia Xibei's results were totally real!

The fans were ecstatic.

Their Sister Bei was incredible!

Those haters who were down on her deleted their previous comments.

They were laughable in the face of such iron-clad facts, even if they were recalcitrant.

### **Chapter 1592 - 1592 Congratulations**

#### **1592 Congratulations**

After Xia Xibei's results came out, many congratulatory messages came in.

It went without saying that Qi Zhi'an and Ling Xiao were the first to call her, and the patriarch of the Qi family also called to congratulate her.

Chang Qianzi, though no longer her mother, did not forget her achievements either.

As for other friends and relatives, they all came to congratulate her enthusiastically as well.

!!

In this college entrance examination, Xia Xibei got the top score in the province, but Tang Luo did not do well.

It was not that Tang Luo didn't perform well in the exam; she did it on purpose.

Tang Luo had been living as a boy and would have been living like that if she hadn't been unmasked.

Now that her gender had been discovered and she was with Mo Bonan, there was no need to continue her disguise.

She had plans to return to her female identity.

So, this exam was a start.

It wasn't that hard to regain her identity, but it couldn't be noticeable.

So, she saved herself a lot of effort in the entrance exam and only got a relatively good score, but it was still much worse than before.

Her results were a disappointment to the teachers, who had thought that she would be able to tie with Xia Xibei as the top scorer!

Even if she wasn't the top student, she should at least be in the top three!

Who would have thought that she would get a score like this?

It was not bad for an average person, but for Tang Luo, it was not good enough.

However, Tang Luo told the teachers that she wanted to study abroad.

Of course, this was a step to clean up her identity.

She was going to spend some time in a foreign country and then return to the country as a girl afterward.

That way, her identity would not be in question.

Xia Xibei knew the plan and naturally supported it.

Song Jiaren and Ren Juncheng's results were also quite good, especially Song Jiaren, who got a historically good score and managed to get into a top-tier university.

This result made the Song family very happy.

Although her family was rich and their careers were developing well, it was a matter of pride for their offspring to get into a good university.

In Hua, no matter what class one's parents belonged to, they refused to relax about the education of their children.

It was all thanks to Xia Xibei, as she was the one who highlighted the key points of the exam for Song Jiaren and guessed a lot of questions.

So, the Song family called Xia Xibei to congratulate and thank her.

Xia Xibei's good friends all got good results in the exam, and everyone could go to college in the imperial capital.

There were also good universities in G city, but Xia Xibei definitely wanted to go back to college in the imperial capital.

Therefore, other people also wanted to go with her.

Song Jiaren, especially, had an "I'll go wherever you go" attitude and insisted on following her.

In the end, Xia Xibei enrolled at Imperial Capital University.

Song Jiaren, for the sake of safety, enrolled in the other school next to the Imperial Capital University.

Pan Yan was so happy about this that if Xia Xibei's filming hadn't been completely finished, he might have taken Xia Xibei back to their home country to appear on talk shows.

The top student in the college entrance exam!

How awesome!

Who would dare to talk about Xia Xibei's top scholar persona as a fake then? They would be smacked in the face with the college entrance exam results!

This news made the fans at home happy, but Xia Xibei, who was working on the set, encountered an unpleasant event.

There was a guest star on the set, a big M star who had won many awards.

However, Xia Xibei found that this actress seemed to have a deep hostility towards her.

### **Chapter 1593 - 1593 Unfriendly**

#### 1593 Unfriendly

The actress was named Dolores, a very famous star in M.

She had done a lot of movies before and performed well, playing a lot of roles that won her fans.

She had a stunning figure and face and was also a bit domineering. Many people liked this kind of style and had fallen under her spell.

She came over this time to make a guest appearance as a villain.

!!

Although it was a villain, if the role was successfully done, it would make people both love and hate her.

If the villain was beautiful, people especially couldn't get enough of it.

After she joined the cast, she was very nice to the others, but Xia Xibei was sensitive to the fact that she was not very friendly to her.

Although she was smiling, her expression cooled down when no one else was present.

Xia Xibei could clearly feel the contrast.

So, she was curious. When did she offend Dolores?

It was obvious that the two of them had never crossed paths before, so how could she have such an attitude?

Xia Xibei was very confused, but Dolores was so cold to her. She would not offer herself only to be rejected.

So, she reacted lightly. She was polite, but not too enthusiastic.

Unexpectedly, in this way, Dolores became more dissatisfied with her.

Xia Xibei was able to notice clearly that her attitude toward her became colder.

If she was just disliked before, now it should be disgust and displeasure.

Xia Xibei was curious. What was this person's problem?

Although the two of them were at odds with each other, the entertainment industry was full of such things. As long as it did not become a big deal, no one required that the actors who worked together must become good friends.

On this day, it was finally time for the two to have a scene.

As the villain, it was natural to abuse these heroes more than once.

This time, it was Dolores and Xia Xibei's scene.

Made up and dressed, the two officially got on the set.

The director had talked about this scene already.

Xia Xibei's perception was good. Naturally, there would be no problem.

Dolores was experienced, so that was also not a problem.

This was an exchange of words and auras between the two.

There was no action in this scene, only a collision in words.

The two were supposed to rehearse with each other before, but Dolores refused.

She said that with Xia Xibei's strength, she should not worry about this aspect of her performance.

So what could Xia Xibei say? Of course, she could only laugh.

Although there was no preparation, neither of them was afraid.

After taking their positions, the director picked up the loudspeaker.

“Action!”

At the command, Xia Xibei dropped to one knee, covered her injured hand, and then had her chin lifted by Dolores.

The two women’s gazes collided in the air.

“Hah...” Dolores sneered. “Isn’t this our most powerful hero, Bella? How come you’re so pathetic today?”

Her expression was cold and haughty, as if she was a god so high so that people did not dare to raise any resistance.

In response to her cold and indifferent eyes, Xia Xibei snorted. Her eyes were steely and disdainful, without saying a word.

Although she did not say anything, her attitude already showed her tenacity and unyieldingness.

Dolores’ eyes went icy, and her expression became serious and cold.

At this moment, she seemed as if she would really give off a heart-stopping aura.

If it were anyone else, they might have already fallen to their knees.

“Good, you’re really stubborn!” Dolores slightly turned up the corners of her mouth. “Since that’s the case, then you can’t blame me.”

She let go of Xia Xibei, then clapped her hands, and two tall men stepped out behind her.

“Cut! Good!” the director shouted, and the scene was over.

### **Chapter 1594 I Have Many Male Friends**

This was a good scene for the two of them. Although the scene was simple, it showed their acting skills.

In particular, the two of them were full of tension in their acting, so much so that people could not take their eyes off them.

Director Smith was very satisfied with this scene.

While he was watching the replay, Xia Xibei returned to her chair and began to touch up her makeup and rest.

She watched Dolores walk past her and also return to her chair to start touching up her makeup with a calm expression.

Through this contact, Xia Xibei was completely sure that Dolores really didn't like her.

Although the scene seemed to be very conflicting, Dolores was secretly making an effort during the performance.

She might have been overwhelmed by her strength if it were anyone else.

By then, the performance would have seemed inferior.

Had Xia Xibei's acting skills not been good enough, she might have had to do it again by now.

This kind of thing was also very much about momentum. The first try was the strongest.

Dolores' acting was really good, very tense and spirited. No wonder so many people like her.

However, Dolores treated her badly, and it was a foregone conclusion that they wouldn't be friends.

Xia Xibei was just curious as to why Dolores was so hostile to her.

After another scene, their scenes came to an end.

Next, it was time for the group scene.

This scene was so grand that almost all the actors had to be present.

They had to fight together against the villain, played by Dolores, and the big boss behind her.

Since the set-up took time, they could not shoot until a few days later.

After shooting this scene, Xia Xibei could finish here.

After that, she could go back to her country.

In a month or so, she would be going to college.

Xia Xibei had not done anything in Hua these days, and her fans missed her a lot.

Besides, her birthday was coming up and she had to return to prepare for it.

Xia Xibei was happy to think that she could go back to her country.

"What's the good news?"

As she was happy, Dolores came over, with a smile on her face.

Xia Xibei's smile slowly disappeared.

She looked at Dolores suspiciously and thought she might be hallucinating.

It was not long ago that the two of them were still at war- not quite so exaggerated, but not much better either.

In this situation, Dolores came over to talk to her in a friendly manner.

Xia Xibei was wary.

Having been in the industry for a long time, she was very wary when faced with these unusual situations.

She tapped on the recording on her phone and turned off the screen.

"The shooting is about to be finished. Of course I'm happy."

"Indeed," Dolores nodded approvingly.

Filming was a very tiring thing and it was non-stop. If you were about to finish shooting, you would be relieved, so you should be happy.

boxnovelfull.comnov//el/bin[./]net'

There was no star who did not like to be done with shooting.

Dolores said while walking up to Xia Xibei, "I heard that you have a lot of fans in Hua."

"It's okay. It's my honor that they like me," Xia Xibei said modestly.

"Yes, it is indeed an honor to have someone like you," Dolores smiled and nodded, then walked up to Xia Xibei.

However, without waiting to speak, she stumbled and almost fell over.

Xia Xibei immediately got up and held her in place. "Are you okay?"

Dolores stood up straight and shook her head, "Yes, I'm fine.

"By the way, you have a boyfriend, right?" she asked.

"Boyfriend?" Xia Xibei raised her eyebrows. "I have a lot of male friends."

### **Chapter 1595 Shadowless Bee**

Faced with Dolores' question, Xia Xibei, of course, avoided answering it.

Those who were able to do so well in the industry were not fools.

A casual remark could easily be taken for a story.

Xia Xibei was not a fool.

Besides, Dolores clearly did not have good intentions towards her, so how could she tell the truth about herself?

Xia Xibei was not afraid of announcing a romance, but it was not necessary.

If she announced her relationship, every move she made after that would be in the eyes of the public.

She didn't want to be watched all day long.

Seeing Xia Xibei like this, Dolores could only smile.

Soon, the two of them parted.

However, Xia Xibei was still curious on the way home. What did Dolores want to do?

When she got home, Xia Xibei stopped just after she changed her clothes.

She brought the clothes she had taken off to her face and frowned for a moment, turning them over.

Then, she had a serious expression.

On the top of this dress, there was a very inconspicuous mark, as if it

was stained by some oil.

If it was other people, they might have thought that they had just accidentally gotten an oil stain when they were eating.

However, Xia Xibei was very serious.

She sniffed it, then nodded heavily.

It was indeed not just an ordinary oil stain.

Thinking about it, she threw the clothes toward the window.

After about half an hour, she heard a slight humming sound coming from outside.

The buzzing sound was so subtle that it was inaudible to ordinary people.

Xia Xibei sat quietly on the sofa, holding a book as if she was quietly looking at it.

Soon, a bee flew in from outside.

At the sight of this bee, Xia Xibei finally confirmed the suspicion in her mind.

The bee was here because of the oil stain on the clothes!

It was not an ordinary oil stain, but a very magical oil.

Moreover, it was a kind of oil secreted from the fruit of a spiritual plant.

This kind of oil could attract a kind of bee, called the shadowless bee.

This kind of bee was a primary spirit beast that flew extremely fast, coming and going without a shadow, which was the reason for its name.

The bee liked the taste of this oil the most.

In the Land of Fantasy, they would use this oil to attract this kind of bee.

Now, this strange oil stain appeared on Xia Xibei's clothes, and then this bee also appeared...

The answer was obvious.

Xia Xibei continued to read the book as if it was very important, but her mind was on the bee and she was on her guard.

The bee flew around the room and soon landed on top of the closet.

The bee was small and landed on top of the pale yellow dresser, which didn't cause much attention.

If Xia Xibei hadn't noticed its presence long ago, she wouldn't have noticed the problem at all.

The bee stopped and did not move again, very quiet.

Xia Xibei continued to flip through the book in her hand, but her mental energy carefully extended out.

She discovered that there was a very tiny camera on the bee's body!

This kind of camera was usually used for very confidential and important things, such as military or space matters.

Now, this kind of camera actually appeared on a small bee!

Moreover, it was coming for her!

Xia Xibei's heart sank slightly.

Who had such an ability, to raise this kind of shadowless bee to do something?

Could it be Yang Mo?

Impossible!

Xia Xibei shook her head.

This couldn't be Yang Mo's doing. Yang Mo didn't have such an ability.

### **Chapter 1596 Successful Trial**

Although this bee was just a primary-level spirit beast, to sign a contract with it, one's spiritual power had to be very strong. Otherwise, it could not be controlled.

Yang Mo already had a contracted spirit beast, and with her current strength, there was no way she could contract another one.

So, this had nothing to do with Yang Mo.

Moreover, Yang Mo wouldn't use this method to spy on her.

Various thoughts flashed through Xia Xibei's mind, then she stood up from the sofa and walked out.

After a while, the bee also flew out.

Before Xia Xibei noticed it, it flew quite high.

Moreover, the amazing thing about this bee was that it was able to change color.

If it weren't for a small video recorder on its body, it might have blended in with the wall.

Xia Xibei pretended not to know and continued to do her own thing.

After a while, Xia Xibei's phone rang.

It turned out to be a professor from the medical department of CG University.

On the phone, the professor excitedly told her that the drug had been tested successfully.

In addition to the previous experiment with mice, this time, they also found patients to do the experiment.

The patients suffered from various types of cancer and had long given up hope on their condition.

So, this time, they just came with the mentality of trying it out.

In their opinion, it was good to make a little contribution to medicine before they died, as they were going to die anyway.

So, after a quick application for state approval and a contract with the patients, the trial began.

Xia Xibei provided them with a lot of drugs, which were then used on the mice and patients.

The mice were naturally fine. Otherwise, they wouldn't have been used on the patients.

The patients were not at all hopeful.

However, after taking these drugs, they were shocked to find that their health improved at a rate visible to the naked eye!

Patients who had cancer had their body functions damaged in all aspects, so they were very uncomfortable.

After many rounds of chemotherapy, they were hollowed out and only an empty shell was left.

Therefore, many cancer patients wanted to choose death at the later stage, as it was too unbearable!

This time, they could feel that their bodies were changing!

Before, they had no strength to sit up at all, but after taking the medicine for a day, they felt a lot more strength in their bodies.

It was as if the body that had been ruined before had regained a bit of vitality. It was just a little too fast.

On the second day, things got better and they were able to stand up.

On the third day, they were able to walk two steps.

The fourth day...

In less than ten days, they found that their bodies had returned to the state they were in before their illness!

This was how the patients felt, and the professor had even more detailed and clear data there.

boxnovelfull.comn/ov/elb/in[./]net'

Every day, they would do tests and examinations on these patients, especially their blood and cells.

So, every day they could see that the situation of these patients was changing for the better.

The cells that had been cancerous before, under the attack of the drug, returned to normal little by little.

Some patients in the early stage of cancer recovered very quickly.

Those with advanced cancer took a little longer, but their health still got better little by little!

This kind of speed simply shocked everyone!

This was like a miracle medicine from God!

It was amazing!

**Chapter 1597 Pricing**

After the patients participated in the experiment, they were surprised to find that they were rapidly recovering.

This speed of recovery was something they could personally feel.

They felt like a tire with holes everywhere before, and no matter how hard they tried to inflate, the air would leak out.

This time, they could feel that their leaks were being patched up.

When the leaks were mended, they were naturally able to re-inflate.

Thus, they could feel that their bodies began to change.

This change brought tears of joy to their eyes!

How long had it been since they had felt this comfortable and relaxed?

After that, the doctor told them that all the cancer cells in their bodies had transformed back into normal cells!

Everyone was stunned by this statement!

How could cancerous cells be transformed back into normal cells?

Was it a lie? Was it a fantasy?

Why hadn't they heard of this kind of thing before?

However, looking at the cellular changes of their blood on the screen, all of them covered their mouths and cried.

The cancer cells in their bodies had indeed disappeared!

Replaced by healthy cells!

It was simply an unprecedented miracle!

All the patients cried with joy and wanted to tell the world, but the team didn't stop there.

They also followed up with these patients.

After the cancer cells disappeared, the patients stopped taking the drug.

After that, the doctors observed the patients for a few more days, and no new cancer cells were found.

boxnovelfull.comn0/v//el//bin[.//]net'

After a period of observation, everyone was sure that the cancer cells really disappeared completely and the patients really recovered!

Everyone in the experimental group was excited at this news.

Then, the professor immediately called Xia Xibei to report this progress.

During the phone call, the professor was very excited and said a lot of energetic and grateful words.

If it weren't for Xia Xibei, this amazing drug would not have been possible.

How many patients in the world would this have helped?

"By the way, what is the pricing of this drug?"

Finally, the professor asked a very important question.

It was not that they were snobbish, but it was a very important question.

If the pricing was too high, it was not good for the patient.

The sick patient was already very unfortunate.

If the family was a little richer, they could still spend money on treatment.

The worst thing was for poor families to get sick.

If one of these families had this disease, it was a disaster for the whole family!

Therefore, there were many families who gritted their teeth and chose to give up.

For them, this was something that couldn't be helped.

So, if the price was set too high, people would still choose to give up.

"I have to talk to my country's government first." Xia Xibei said.

The professor froze for a moment, then understood.

Yes, this drug was world-changing! It could easily win a medical award.

If Xia Xibei just sold this formula to other pharmaceutical companies, she could immediately become a billionaire.

However, Xia Xibei's method was nobler.

It was really for the country and the people!

The professor couldn't help but give her a thumbs up.

No one knew how much thought Xia Xibei had put into this project, but it was not easy to come up with such a result.

If other people had spent a lot of energy and financial resources to develop this kind of medicine, the first thing they would do was earn benefits for themselves.

This was a very normal practice. After all, if there was no benefit, who wanted to work this hard?

No one could live for free.

### **Chapter 1598 Microwaved Durian**

The professor did not know that Xia Xibei's situation was different from others.

Others had to spend many years developing such drugs, with who knows how many detours and stumbles to reach the goal.

It was said that the introduction of each effective drug included decades of work by many people.

Therefore, the price of these drugs must not be low after they were released.

Otherwise, how could they pay back the money?

People had been working hard for so many years, only to end up with no money back. What fool would do such a thing again?

The first person to do this kind of thing could be said to be a genius, the second to do so would be either a saint or a fool!

If there was no profit to be made, who would do this?!

So many drugs were sold at very high prices because it took at least a few years to earn back the cost, after which it would be profitable. This was the truth that everyone understood.

So, after developing a new drug, the team usually collaborated with a pharmaceutical company.

Working with a pharmaceutical company to bring the drug to the market would give them more than enough benefits.

However, if you cooperated with the state, you would have to concede a lot in terms of benefits.

If you took the initiative to cooperate with the state, it would seem quite noble.

As long as one was willing to sacrifice those interests, cooperation with the state was a very high-brow thing.

If Xia Xibei was willing to cooperate with a country, no matter which country, she could end up being a VIP in that country.

So, the professor had no problem with Xia Xibei's decision.

It was not them who made the effort anyway. It was Xia Xibei.

This was Xia Xibei's project, they were just joint collaborators. The fame was there, and the benefits would not be less.

Therefore, they naturally listened to Xia Xibei's opinion.

"Please send a copy of the data to me, it will be useful on my side."

"OK."

The professor sighed and then ended the call.

When she hung up the phone, Xia Xibei remembered that there was still a bee above her head.

Now, the bee had written down everything she had said.

Xia Xibei was not afraid that these things would get out. After all, it was not a formula leak.

However, who was the owner of this bee?

She stood in place for a moment, then made a decision.

boxnovelfull.comnov/el/b/in[./]net'

She walked into the kitchen and took out a durian.

This durian was one she bought earlier.

The taste of durian was ferocious, those who liked it liked it to death, and those who didn't like it hated it and wanted to spit it out.

Xia Xibei liked durian, so she put on her gloves without changing her expression and started to open the fruit.

As the shell cracked open, the durian flesh inside was exposed.

Looking at the yellow fruit, she took a bowl, put a piece of fruit into it, and threw it into the microwave.

If other people were here, they would be absolutely horrified.

Cooking durian in the microwave? Was she building a biological weapon?

After a while, the microwave oven stopped and Xia Xibei opened its door.

At this moment, a terrible smell came out of the microwave oven.

Fortunately, no one was in the room. Otherwise, they would have suffocated.

What was this horrible smell?

However, Xia Xibei was very calm, as if she didn't smell it, let alone being affected.

No one knew that she had blocked her sense of smell. Otherwise, she would have to suffocate too!

The horrible and bursting smell exploded in the room, and the bee in the room was also affected by it, spinning twice in place and flying out dizzily.

When Qiao Yanjue returned, he almost collapsed from the smell inside.

### **Chapter 1599 Unfamiliar Man**

Qiao Yanjue was so frightened by the lingering smell inside that he hurriedly backed up.

Only after exiting the room did he feel his respiratory system returning to normal.

The smell inside was horrible!

If someone else was there, they would have asked, were they cooking feces?

Or did the toilet burst?

Qiao Yanjue was unprepared and almost suffocated from the smell.

However, there was no one in the room.

boxnovelfull.comnov/el/b/in[.]net'

Xia Xibei was gone.

He was full of confusion, but he could only hold his breath and open all the doors and windows, so as to let out the scent.

Still, the smell here would remain for who knows how long.

This kind of smell was practically more powerful than a biochemical weapon!

After smelling it, he didn't want to eat, his stomach turned!

Qiao Yanjue waited at home for some time, and when he couldn't resist calling Xia Xibei, she finally came back.

Looking at Xia Xibei's serious expression, Qiao Yanjue couldn't care less about asking about the smell and went up to her.

"What's wrong?"

"Just chased a shadowless bee out."

"Shadowless bee?"

Qiao Yanjue froze for a moment. Of course, he knew what a shadowless bee was.

There was a shadowless bee here?

"Whose is it?" He frowned, thinking of a possibility. "Is it Yang Mo's?"

Just after he finished asking, he shook his head, "No, Yang Mo doesn't have this ability."

Xia Xibei nodded in approval, "It's not Yang Mo, it's an unfamiliar man."

"Unfamiliar man?" Qiao Yanjue was shocked. "Who?"

"I don't know," Xia Xibei shook her head, "And I think... He might have done it in disguise too."

"How so?" Qiao Yanjue immediately became serious.

Xia Xibei recalled what she saw just now while tracking the Shadowless Bee and couldn't help but get serious, "I think that person shouldn't be that young."

Shadowless bees had a keen sense of smell, and in addition to being able to detect spiritual plants, they were very keen on strong smells.

That was why Xia Xibei attacked it with the smell of durian.

After being attacked by the smell of durian, the shadowless Bee ran out in a dizzy manner.

She followed behind and tracked it outside a nearby house.

She didn't dare to go inside, for fear of being discovered.

However, she soon found that a man came out of the house with a hurried gait.

Moreover, the man's body had the scent of the shadowless bee.

That was why Xia Xibei was so concerned about this man.

The man looked just about thirty years old, but his eyes, gestures, and movements all carried a bit of old age.

She should say that his eyes and movements looked like an old man who had experienced the passage of time, not just a young man.

This made Xia Xibei's doubts even stronger.

Moreover, why did this man make the shadowless bee keep an eye on her?

After listening to Xia Xibei's explanation, Qiao Yanjue frowned.

"The strength... That can make the shadowless bees obey is not weak. However, I have not heard of anyone who has such a skill."

Since his memory was restored, he had the sense to pay attention to the other families.

After all, those were ancient martial arts families, unlike the Qiao family.

Qiao Yanjue did not want to be bullied by these families, so of course he had to know himself and his opponents.

In the past, he did not cultivate, so he naturally could not reach such a point.

Now, he knew that if he didn't work hard, he couldn't talk to them as equals.

However, those ancient martial arts families did not have the shadowless bee.

**Chapter 1600 Where Is It From?**

Xia Xibei was equally curious about this matter.

"Moreover, do you know how the shadowless bee came to be?"

Qiao Yanjue looked at her expression and immediately understood, "The phantom flower?"

The oil in the fruit of the phantom flower was a favorite of the shadowless bee.

Therefore, shadowless bees would usually follow these smells to find their way here.

If one were to simply rely on the shadowless bees to find Xia Xibei's whereabouts, the owner of the bee would need to spend a lot of effort.

Only by using the oil of the phantom flower would it be easier to track the shadowless bees, so he definitely had something from the phantom flower on him.

"Right," Xia Xibei nodded approvingly.

Ever since Qiao Yanjue had recovered his memory, he knew these things very well, and it didn't take her much time to explain them to him.

"But... How can there be a phantom flower here? Where did you find them?"

The phantom flower sounded terrifying, but it was actually an intermediate-level spiritual plant.

Even for the Qi family, which had many spiritual plants, there were not many intermediate-level spiritual plants, maybe just a few, and they were very precious.

So, where did the phantom flower come from?

Where did the shadowless bee find it?

As far as Qiao Yanjue knew, he had not heard of these situations at all.

"I'll ask."

Xia Xibei also wanted to ask this question and took out her cell phone to call Qi Zhi'an.

When he received Xia Xibei's call, Qi Zhi'an thought something had happened to her and almost got anxious.

Luckily, Xia Xibei quickly told him the reason for her call.

"Phantom flower? Shadowless bee?" Qi Zhi'an was surprised, with a bit of shock and bewilderment. "Are there such things?"

Once these words came out, Xia Xibei and Qiao Yanjue understood.

Qi Zhi'an had never been exposed to these at all, let alone understood them.

So, what was the situation here?

"Would the other families have these things?" Xia Xibei, still a bit undeterred, continued to ask.

"No," Qi Zhi'an shook his head. "If they had, I would have known about it."

In fact, all the major families knew something about the other families.

For example, the Qi family's spiritual plants were probably known to others.

Although they didn't fully know the Qi family's secrets and couldn't take the treasures here away, knowing oneself and one's enemy was the key to winning!

The Qi family also knew about the other families.

However, Qi Zhi'an had not even heard of the so-called phantom flower and shadowless bee from the other families.

Not getting any helpful information from Qi Zhi'an's side, Xia Xibei could only hang up the phone in disappointment.

However, she was even more curious now. If even Qi Zhi'an didn't know about these things, could it be that these things appeared out of nowhere?

Or rather, did they come over from the Land of Fantasy?

"I got it!" Qiao Yanjue clapped his hands and immediately had an idea.

"You got it?" Xia Xibei was dumbfounded. "What do you know?"

"I know where that person came from!"

Qiao Yanjue's gaze shone.

"You do?"

Xia Xibei was even more surprised. Qiao Yanjue actually knew what was going on here.

However, looking at Qiao Yanjue's expression, she also quickly reacted.

"Five lakes and four oceans!"

"It's five lakes and four oceans!"

The two spoke in unison about their guesses.

The two of them had such a tacit understanding that Qiao Yanjue couldn't help but smile and nod in agreement, "Yes, it should be from five lakes and four oceans."

This guess didn't appear out of nowhere.

If Qi Zhi'an hadn't mentioned five lakes and four oceans before, they wouldn't have thought of this possibility.

However, these unknown phantom flowers and shadowless bees could not come from anywhere else but five lakes and four oceans.
