1971 Camouflage (4)

There were also quite a number of surveillance cameras in the house, and these surveillance cameras were quite advanced. If Tang Luo hadn't upgraded their equipment again, they might have been discovered.

After entering, the two of them moved very quickly. When they encountered surveillance cameras, they avoided them if they could, and quickly went over if they couldn't, trying to reduce the risk of being discovered.

Soon, the two of them arrived at the expert's bedroom.

There were no surveillance cameras in the bedroom. After all, it was not that crazy.

On the bed, a figure was sleeping soundly.

The two of them did not go up immediately. Instead, they carefully used their spiritual power to probe.

After confirming the person's identity, Qiao Yanyu rushed forward and struck the sleeping person unconscious.

After confirming that the man had fainted, Qi Xibei stuffed another pill into his mouth.

This pill could make her hypnosis more effective.

Then, she began her own hypnosis.

After a while, the man opened his eyes.

“Answer whatever I ask you.”

“.. Alright.” the man said with an empty look in his eyes.

The man’s appearance was just as Han Rui had described. He was very thin and had a similar build to Qi Xibei.

Of course, there was a difference between a man’s body and a woman’s body, but Qi Xibei was not worried about this.

Qi Xibei asked a bunch of questions. After getting a clear understanding of the man’s condition, he touched his body to confirm his figure.

Qiao Yanyu’s face darkened as he watched from the side.

However, he did not say anything.

Although he liked to be jealous, he was not jealous regardless of the occasion.

The current situation was special.

Qi Xibei moved very quickly. In less than half an hour, he had finished asking all the questions and had also figured out the other party's physical condition.

"Let's go."

"Alright."

The two of them quickly left the room.

Outside, Han Rui had already been driven away. However, the bodyguards were not in a good mood.

It would be better to chase away such a drunkard and not get in the way here.

When Han Rui returned to the car, he saw Qi Xibei and Qiao Yanyu.

"Done?"

He was shocked.

He thought that he would have to wait here for a while before they would come out.

“Of course.” Qiao Yanyu glanced at him.” Do you think everyone’s efficiency is as low as yours?”

Han Rui’s face darkened, and he almost wanted to strangle him to death.

“You bastard...”

“Alright, let’s go to the next shop.” Qi Xibei interrupted their bickering.” We still have to go to someone else’s house.”

“Alright.” Han Rui snorted at Qiao Yanyu. He was about to start the car when Qiao Yanyu chased him to the side.

“You can’t drink and drive.”

“I’m not drunk! I only drank two sips!” Han Rui defended himself, but he also understood that Qiao Yanyu was concerned about him.” Alright, you drive.””

Although nothing would happen to them, safety was the priority.

Qiao Yanyu's driving skills were very good. In the dark night, the car quickly headed to another place.

The two places were not far from each other, and they arrived in less than ten minutes.

When they arrived, they realized that the situation here was similar to the one they had just seen. There were also several bodyguards beside them.

Thus, they repeated the same trick and let Han Rui distract them. Then, the two of them sneaked in.

After another half an hour, the two of them had finished.

After coming out, the three of them drove back to Tang Luo's place.

After they returned, Qi Xibei and Qiao Yanyu hid in their room and began to prepare for this trip.

After they were done, they rested for half a day before they set off again.

This time, they returned to the place they had been to last night.

Chapter 1972 - 1972 Infiltrating in Disguise (1)

1972 Infiltrating in Disguise (1)

When they arrived at this person's house, they thought of a way to transfer the people guarding outside, and Qi Xibei snuck in.

Soon, she knocked the sleeping person unconscious and hid him.

Qi Xibei realized that there was a small secret chamber inside. Usually, no one would come in.

Moreover, this person named Bart also said that this was his own space, and no one else knew.

Therefore, there wouldn't be any problem hiding it here.

She gave Bart medicine to ensure that he would not wake up during this time.

After hiding him, Qi Xibei transformed himself into his appearance.

On the other side, Qiao Yanyu did the same thing. He fed the other person medicine and hid himself, taking on his appearance.

After video-calling the two of them and seeing their expressions, Han Rui was also very eloquent and convinced.

Their dressing was simply too magical!

Their performance was beyond his imagination.

In addition to disguising their appearances, the two of them also focused on learning their voices.

This time, they had made a lot of preparations.

Even the fingerprints of these two people had been copied by them, just waiting to be used in case of emergencies.

These two people had high statuses in the company, so they would occasionally need to use fingerprints.

The day before, Qi Xibei had hypnotized them and asked them about the things they needed to pay attention to. They just needed to be smart.

The next day, the two of them drove to the company.

They were wearing their usual clothes. There was not much difference in their appearance and the way they walked.

Most importantly, the two of them were not very close to many people, so even if there were some flaws, they did not have to worry about others finding out about them.

When they arrived at the company, they could not help but laugh when they saw so many people outside.

Previously, they had come here as thieves. This time, they went in as staff members. It felt really different.

After Qi Xibei arrived at the company, he took Bart's card, opened the elevator, and entered.

This elevator looked similar to the other elevators, but Qi Xibei keenly noticed that there were many surveillance cameras inside.

It could be said that the surveillance cameras here could capture people from 360 degrees. There was absolutely no need to worry about missing anything.

It could be seen that they were also afraid that someone would bring out something that could not be seen.

Qi Xibei's expression was calm. He calmly went underground and opened the door.

After the door opened, her expression did not change, but she was a little surprised.

This was a very spacious basement. Although it was underground, it was as bright as day.

This place was at least a few thousand square meters, and the decoration and furnishings were very technological.

There were quite a number of people walking here. Everyone was wearing white coats, and some of them were talking as they walked.

But most of them were people with serious expressions.

Just looking at this place made him feel like he had walked into a movie world, as if he had entered a research lab of some weirdo.

Qi Xibei's expression was calm as he calmly walked in and headed towards Bart's office.

Bart was a biologist who studied genetics, and his abilities were not bad.

Of course, if he did not have the ability, he would not be able to enter this place.

After all, it could be seen from this place that the person behind this place had a lot of demands.

Qi Xibei walked out calmly. There was a security gate at the door.

The security check was to see if the other party had brought any weapons in. There were still people guarding at the side.

Chapter 1973 - 1973 Infiltrating in Disguise (2)

1973 Infiltrating in Disguise (2)

The security here was very tight and there were surveillance cameras everywhere.

Qi Xibei calmly accepted the examination and did not find any problems.

Actually, she still had Qing Zhu with her.

However, Little Green had already faked its death. Because it was lifeless and not made of metal, the machine could not detect its existence at all.

After the checkup, Qi Xibei headed to his office.

Bart was also a very important researcher here, so he had his own office.

She followed the route Bart had told her and quickly found his room.

After entering the room, she heaved a sigh of relief.

Although she was confident in herself, she was still worried that she might make a mistake.

Fortunately, there was no danger.

She wondered how Qiao Yanyu was doing.

At the thought of this, she picked up her phone and dialed the number.

Soon, the other side picked up.

“Bart?”

Qiao Yanyu’s deep voice rang out.

“Yes, Shaws. How’s the progress on your side?”

“Everything went smoothly.”

“Alright, keep up the good work.”

“Alright.”

After saying a few words, the two of them hung up the phone.

Their cell phones couldn’t be used here, so they could only use the internal phone here.

The internal phone call was likely to be monitored by someone, so of course, they would not expose themselves.

After confirming that the other party was fine and had entered safely, they could begin their operation.

Qi Xibei turned on Bart's computer and looked at the information inside. His expression flickered slightly.

Then, she typed out a few documents and went to the laboratory.

She was wearing a white coat, and her thin figure looked inconspicuous, no different from Bart's.

As she walked, someone nodded politely at her. She walked forward without looking sideways, with a little arrogance.

Soon, she arrived at Laboratory A.

There were many laboratories here, two of which even Bart had never entered.

In Laboratory A, there were also a few people working hard.

Seeing her enter, someone raised his head and greeted her before continuing to work.

This place was mainly for work, not for small talk.

This was also beneficial to Qi Xibei and Qiao Yanyu's operation.

If everyone was very friendly and intimate, it would be easy to be exposed. This was just right.

Qi Xibei entered the laboratory and walked around, as if he was only observing everyone's progress.

The others glanced at her, but didn't say anything and continued working.

Then, she continued to walk out with the documents in her arms.

Soon, she arrived at another laboratory.

When she entered Lab B, she looked a little surprised.

The laboratory was huge and tall.

Most importantly, there were several large experimental glassware inside. There were many strange things in these glassware.

This laboratory was different from the one she had just seen.

Laboratory A looked rather ordinary, just like the laboratory she had stayed in before.

However, this place was like a crazy laboratory in those horror movies.

Inside the glassware were several bodies.

These bodies were male and female, and they were all soaked in some unknown liquid.

Their eyes were closed, as if they were dead, but also as if they were alive.

And on these glassware, there were all kinds of strings.

Qi Xibei found it strange that the wires were connected to a large white stone.

When she saw the stone clearly, her expression changed.

This kind of stone...So familiar!

After a while, she finally reacted.

This stone was clearly something that only existed in the Fantasy Continent!

Chapter 1974 - 1974 Infiltrating in Disguise (3)

1974 Infiltrating in Disguise (3)

When he saw this stone, Qi Xibei was finally certain that this laboratory was definitely related to Jiang Rongguang!

This stone was a very special material called White Crystal Black Rock.

The energy inside the White Crystal Rocks could allow one to quickly increase their strength.

It could be said that owning this piece of White Crystal Black Rock was equivalent to having a battery that could be charged at any time.

If he was exhausted during a battle, he could use it to quickly recover his strength.

However, White Crystal Rocks were very rare.

Qi Xibei did not expect to see the White Crystal Rock here!

This huge piece of White Crystal Black Rock was placed in a machine with many strings attached to it. These wires were connected to these glass windows.

These countless routes made Qi Xibei's heart sink.

He didn't know what Jiang Rongguang was thinking.

Qi Xibei's eyes darted around as he looked at the glassware beside him.

There were a few very special people there.

They didn't look like humans. They looked more like humans... A monster.

Because they had four hands and four feet.

This was what the so-called three heads and six arms meant.

However, the three heads and six arms were only seen in movies and television works. If one really saw such a person on television, it would only make one feel afraid.

These people also had their eyes closed, and their chests were heaving slightly.

It could be seen that they were still alive.

"Bart?"

Someone walked over.” What’s the matter?”

Qi Xibei’s thoughts were interrupted. She calmly looked at the person.” I have a new idea and want to test it.”

“There’s an empty seat over there.”

“Okay, I’ll go over now.”

“How are they now? Are they okay?” she asked.”

She asked casually, and the other party did not notice anything wrong.

“It’s alright. This batch could withstand the power of the batteries.”

The power of the battery.

Qi Xibei’s expression did not change.

She remembered the so-called “battery plan” that she had learned from Bart before.

They wanted to channel the 'electricity' in the White Crystal Rocks into the human body to see if humans were much stronger than before.

Qi Xibei scoffed at this plan.

If he wanted to absorb the energy inside, he only needed to cultivate.

Oh, no, it was not something that could be achieved by cultivation. Only after reaching a certain level would one have the ability to absorb the energy in one's hand.

If one's strength was not enough and they were forced to move, they would only suffer from Qi deviation.

These people who were found to be test subjects should be some special people. Their physical fitness was different from ordinary people.

However, no matter how different it was, it could not withstand the energy inside. After all, their energy was not the same as the energy in the stone.

Wasn't it courting death to rashly guide this energy into their bodies?

It was like charging. He should have used a lithium battery, but he used an aluminum battery. Could the result be the same? It would be strange if it didn't explode!

Jiang Rongguang was not that stupid!

Even if he wanted to create some terrifying killing machine, he should know this, right?

Wait!

Qi Xibei was suddenly stunned.

It seemed like... She had never seen Jiang Rongguang's strength in person.

Moreover, she could not guarantee that Jiang Rongguang's strength system was the same as hers!

If it was a different cultivation system, the method would definitely be different!

At this thought, Qi Xibei's expression changed.

"What's wrong with you?" the man asked.

"I'm fine. I'll go over first."

Qi Xibei shook his head and left.

When she reached a place where there was no one, she frowned.

Chapter 1975 - 1975 Sneaking In In Disguise (4)

1975 Sneaking In In Disguise (4)

Qi Xibei felt strange.

Jiang Rongguang's performance and other aspects made her feel that he should be from the Fantasy Continent.

However, what she saw today made her doubt her own opinion.

If Jiang Rongguang really came from the Fantasy Continent, then he should know the use of the White Crystal Rock.

In that case, it would be better for him to use it himself than to use it for experiments, right?

However, she soon had other thoughts.

Perhaps Jiang Rongguang wanted to use this stone to do something?

Qi Xibei could not come to a final conclusion before he met Jiang Rongguang and fully understood the situation.

It was better to focus on what was in front of him.

Qi Xibei thought to himself.

Then, she continued walking inside.

She had seen two laboratories just now, and it was as she had expected.

However, when she saw the third laboratory, her pupils constricted.

There were no humans or animals inside, but all kinds of insects!

There were snakes, centipedes, all kinds of soft worms, and some worms with hard bodies that were poisonous.

These bugs moved around inside, making a rustling sound that made people's scalps go numb.

The people in the laboratory didn't feel anything. After all, they were used to the commotion here.

Qi Xibei stood at the door and soon saw someone pour a small bucket of worms into a jar.

This black urn looked very simple and had suspicious stains that made one's scalp go numb.

This black urn was incompatible with the environment here.

This was a modern scientific research site, but this black urn made people feel as if they were in an ancient and deep forest.

It seemed to have been dug out of the soil, and it was soaked in blood.

After the worm was poured in, the black urn began to shake.

It was shaking violently, as if some terrible monster was about to run out.

Fortunately, the shaking soon ended.

After the commotion ended, the person clicked the mouse, and a dark black color appeared on the screen.

The black color quickly turned grayish-white. It should be an infrared environment.

Soon, a worm appeared inside.

It was a worm with two heads and many legs.

Qi Xibei's eyesight was very good. Even from a few meters away, she could see the situation on the screen.

This made her heart skip a beat.

This bug was very similar to the one that Ling Juan had taken out earlier!

This bug only had two heads, while Ling Juan's had three!

Other than the number of heads, the rest were similar.

Qi Xibei's expression darkened.

Yes, this was the King of Venomous Worms that Ling Juan wanted to nurture!

However, this bug had not been raised yet.

Qi Xibei also felt that it was a little magical.

It was indeed a technological society. Even raising Gu worms had begun to be modern.

Gu worms needed to grow in a dark environment, so they could not be placed in glassware.

To raise powerful Gu worms, one had to rely on the Gu Master's own strength.

Experienced Gu Masters could know the situation of the Gu worms inside even if they did not open the black urn.

However, if someone else came, they would not know the situation inside.

However, if he installed an infrared camera inside, he could see what was going on inside.

Indeed, technology changed fate!

Qi Xibei sighed in his heart.

Other than this Gu worm, Qi Xibei also discovered several black urns.

Therefore, they were preparing to mass produce the King of Venomous Worms!

Who knew what terrifying things they would do after they created the King of Venomous Worms!

Chapter 1976 - 1976 Successfully Acting

1976 Successfully Acting

Qi Xibei's heart sank when he saw so many Gu worms inside.

He didn't know what they wanted to do. If these Gu worms were nurtured, it would be troublesome.

If these Gu worms landed on a person's body, they would cause very serious damage to the other party.

Other than that, the people who were possessed by the Gu worms would become puppets and listen to them.

If that was the case, it would be a huge disaster.

"Bart?"

A person walked over with a curious expression." What's wrong?"

"It's nothing. I just passed by and wanted to take a look." Qi Xibei's expression was calm." I still have to put my idea into practice."

After saying that, she left the laboratory.

From then on, she worked in the laboratory. Looking at how serious she was, no one noticed that something was wrong with her.

On the other side, Qiao Yanyu was also playing his role seriously.

At midnight, they were not discovered and left the place smoothly.

Their working hours were actually not fixed. If they had any ideas, they could continue to work. If he didn't have any thoughts, he could leave earlier.

The people here usually went to work after six o'clock in the evening. After all, at that time, everyone in the entire building had started to get off work.

Their working hours were reversed.

Leaving at twelve was not too early.

After leaving the place, Qi Xibei and Qiao Yanyu went back to their respective homes.

After feeding them some food and confirming that they were still alive, the two of them carefully left the place.

Soon, Qi Xibei and Qiao Yanyu arrived at Tang Luo's house one after another.

They gathered together and recounted what had happened that day. Then, they discussed the future.

Qiao Yanyu's actions today were similar to hers. He had also seen many strange things.

Moreover, he also found that there were some prohibited plants in two of the rooms.

"I think they should be researching a new type of poison. Grade."

Qiao Yanyu shared his findings.

Even though he wasn't a professional in this area, he knew that it wasn't anything good.

He had also learned about the appearance of these prohibited plants before. Now, there were many such things in these laboratories.

Thinking about Jiang Rongguang's business, he could guess the exact situation.

"Definitely!"

Han Rui nodded." I found out before that there was a new poison on Jin Jien's side. It looked similar to ordinary milk powder, and even the taste was not much different, but the effect was terrifying. It would cause great harm to the human body, and the dependence would be stronger!"

Han Rui's expression was serious. He wanted to bring these people to justice immediately.

It was all because these people had given up their conscience for the sake of benefits that they kept doing these things.

"I also discovered that they are nurturing Gu worms."

Qi Xibei's words made everyone's eyes widen.

"Gu worms?"

"Yes." Qi Xibei nodded. "And there are quite a few King Venomous Worms. After a while, the transformation will be successful."

"Several?"

Qiao Yanyu frowned. "What are they trying to do?"

"I feel that they might be using Gu worms to control others to achieve an unknown goal."

After the two of them explained what they had seen today, they were able to figure out the situation inside.

He was sure that this was Jiang Rongguang and Ling Juan's secret base, and the things inside couldn't be seen by anyone.

However, how should he deal with this matter?

Chapter 1977 - 1977 Someone Sneaked In (1)

1977 Someone Sneaked In (1)

The few of them discussed for a long time before they dispersed.

The next afternoon, Qi Xibei and Qiao Yanyu arrived at Miracle Corporation again.

Their reactions were the same as usual, and no one could tell that something was wrong with them.

However, after entering, it was Little Green's world.

What delighted Qi Xibei was that besides shrinking, Little Green could also change its color!

It was simply a chameleon!

This skill was very useful at this time.

There were some places that were inconvenient for Qi Xibei and Qiao Yanyu to enter. At this time, Little Green needed to step in.

Little Green shrunk itself to its limit, and its body became half of its previous size.

When it moved, it slowed down and changed according to the color of the environment, completely transforming itself into the appearance of its surroundings.

In this way, it avoided everyone's attention.

The people watching the surveillance cameras would not notice that there was a snake moving here.

Even if they felt that something was wrong, they wouldn't think too much about it.

Thus, after a few days, Little Qing had completely figured out everything here.

Other than the two laboratories, it had entered all the other places.

However, they had been here for a few days and still hadn't found Ling Juan.

This made them a little anxious.

He didn't know where Ling Juan and Qi Xin were hiding, but they hadn't come out yet.

Fortunately, on the second day of their struggle, there was finally news from Ling Juan!

Ling Juan wasn't here, but someone knew where she was!

When Qi Xibei passed by, he happened to hear that person talking on the phone.

She stopped because she felt that something was wrong.

After that, she was very glad that she did not miss this call. Because it was Ling Juan!

She also found out that Ling Juan was coming here the next day.

This was good news!

They had stayed here for a few days and figured out everything here. They were just waiting for Ling Juan to come.

If Ling Juan didn't show up soon, they would be at a loss.

They endured the anxiety in their hearts and made all the preparations.

The next day, they finally met Ling Juan.

Ling Juan was wearing a white coat and walking with a few people.

She was here to see the progress of the experiment.

“How is it going?”

“Everything went smoothly!” One of them replied respectfully, “In another week, it’ll definitely be fine!”

“Alright.”

Ling Juan nodded. “Finish it as soon as possible.”

“Alright!”

Qi Xibei was not there. Instead, he was in his own room. Only Xiao Qing was by their side.

Little Green shrunk its body and carefully hid at the side, allowing its color to change with its surroundings.

Its existence was very secretive, so it recorded their conversation safely.

After that, Ling Juan brought a group of people to the laboratory where many poisonous insects were placed.

Ling Juan started to observe the situation inside.

The Gu worms here were raised quite well, so there was no need to worry about any problems.

After giving a few more instructions, she left.

After looking at the situation here, she returned to her office.

Her office was huge, but she wasn't here all the time.

When she entered the office, her expression suddenly changed. She slammed the table." Someone sneaked in!"

The others were stunned." Someone sneaked in?"

"Impossible!"

The security here was so tight. How could anyone sneak in?

"It can't be wrong." Ling Juan's expression was very ugly." The things in my office have been touched!"

Chapter 1978 - 1978 Someone Sneaked In (2)

1978 Someone Sneaked In (2)

Ling Juan's expression was very serious. She looked at the things in the room, and her eyes seemed to have knives in them." Seal this place and investigate!"

She rarely stayed in this office, but she had set up a trap here. After all, there were a lot of secrets here.

It could be said that as long as someone entered this place, they would be discovered.

This place was so secretive and strictly guarded. Generally speaking, no one would sneak in.

But now, someone had indeed come in!

Moreover, that person must still be here!

No matter what, he had to investigate!

"Right, find out if they're in disguise!"

Ling Juan immediately thought of Qi Xibei.

Other than Qi Xibei, no one else had such an ability.

Although she hated Qi Xibei and wanted him dead, she had to admit that Qi Xibei was very capable.

He had such special abilities to force the mother and daughter into such a state.

Moreover, Qi Xibei had the ability to sneak in here.

At the same time, she must have put on a disguise.

With Qi Xibei's ability, no one would have noticed.

Besides, no one would have thought that an outsider would dare to come here.

This was their world. Other than the elevator, there was no other place to escape. If they sneaked in, they would be walking into a trap.

Therefore, Ling Juan did not expect Qi Xibei to come here.

But no matter what, he had to find them!

“We must investigate it clearly!”

A cruel smile appeared on Ling Juan’s face.

It was not that she did not want to seek revenge on Qi Xibei, but she had been focusing on dealing with Qi Xin’s matter for the past few days.

Moreover, she did not know where Qi Xibei and Qiao Yanyu had run off to. She could not find them either.

They did not expect that they would walk right into the trap themselves!

He didn’t know how they found this place, but he was sure that there was something wrong here!

The others quickly nodded and rushed out to check everyone’s condition.

Little Qing also took advantage of the chaos to escape.

In fact, no one had ever entered Ling Juan’s room, but Qing Zhu had.

It did not expect that the traces left behind by a snake would be discovered!

Moreover, Qi Xibei and the others were implicated!

No, he had to go back and report!

Ling Juan's sharp eyes spotted a figure that flashed past and she was a little confused.

However, she quickly reacted.

It was that snake!

It was the snake that appeared that night!

That's right! That was a spirit beast! It was a transformed spirit beast!

This time, Ling Juan was completely sure of her guess.

She immediately rushed out." She's right here. Find her!"

The others didn't know what had happened, but they also became restless.

As a result, the entire laboratory was filled with an uneasy atmosphere.

On the other side, Xiao Qing returned to Qi Xibei's side and told her what had happened.

Knowing that Ling Juan wanted to investigate this place thoroughly, Qiao Yanyu immediately understood that he had been exposed!

No! He had to inform Qiao Yanjue!

Fortunately, they were fully prepared this time.

She immediately called Qiao Yanyu, but her words did not reveal anything." Come over here for a moment. The flowers you gave me earlier have bloomed.""

"Alright."

Qiao Yanyu understood the meaning behind her words and immediately nodded.

When he came out, he also noticed that something was wrong outside.

The security guards here began to investigate!

As expected, something had happened!

He pretended not to know, but calmly changed direction.

He only quickened his pace when he was out of their sight.

However, halfway through, a few armed security guards suddenly appeared in front of them.

“Stop!”

Qiao Yanyu’s expression changed immediately.

Chapter 1979 - 1979 Someone Sneaked In (3)

1979 Someone Sneaked In (3)

When the armed security guards noticed Qiao Yanyu, they immediately felt that something was wrong.

At this moment, some people looked anxious. How could he be fine?

Thus, they immediately rushed over.

Qiao Yanyu's heart skipped a beat when he saw them rushing towards him. However, he kept the nervousness on his face and looked at them with a serious and innocent expression." What's wrong? What happened?"

Seeing that he was frowning and his expression was normal, these people felt that they were making a fuss just now.

"We're investigating the spies who infiltrated this place."

"A spy?"

Qiao Yanyu's eyes widened." Are you kidding me?!" Where are we? Can you let anyone in?"

Before the man could say anything, he could not help but curse," Boss spent so much money here to make this place a good place. What are you idiots doing?!"

He angrily scolded this group of people.".. Hurry up and find it! If anything happens, I'll see how you explain it!"

These few people were scolded until their heads drooped down. They were a little pitiful.

"But..."

Something was wrong with him!

But before she could say anything, Qiao Yanyu stopped her.” Hurry up. Are you planning to let Sally punish you?””

Sally was Ling Juan’s English name.

When they were hypnotizing the two of them, they had obtained this important information.

Qiao Yanyu also knew that Ling Juan was here today.

Then, what happened here today must have something to do with Ling Juan.

Besides, Ling Juan was an important leader here. Only she could command these security guards.

Therefore, if anything happened, Ling Juan would definitely be very angry.

He said this to show that there was no problem with his identity.

As expected, when he said this, those people’s expressions immediately changed.

That’s right, if they continued to waste time here and the thief ran away, they would be the ones punished!

Moreover, this man was a small leader here. He should not be a thief.

They immediately nodded." Alright, we'll go over now!"

"Yes, pay more attention to the washroom. If someone really came in, they must be hiding there!" Qiao Yanjue said solemnly.

"Good!"

Qiao Yanyu heaved a sigh of relief as he watched those people leave in a hurry.

God knew how nervous he was just now.

He was also prepared to fight them head-on if they discovered his identity.

He had already thought of how to resist.

When the time came, he would snatch their guns and kill them if he acted quickly.

However, this was the last resort.

If he made a move, his identity would be exposed.

After they were exposed, they would have to face hundreds of people here.

Moreover, there were some strange weapons and people here. If something really happened, it would be a big problem.

He did not want to face the attacks of hundreds of people.

No matter how powerful he was, there was no way he could dodge it.

Fortunately, he adapted to the situation and finally dodged it.

After dodging, he immediately sped up and headed toward Qi Xibei's room.

Along the way, he met several groups of security guards.

However, before these people could speak, he went forward to give instructions.

Although these security guards were required to check the situation here, they would not attack anyone before they had checked the surroundings.

Besides, the man that Qiao Yanyu was playing was a small leader, so they didn't want to disturb him.

Finally, Qiao Yanyu arrived at Qi Xibei's room safely.

Chapter 1980 - 1980 Smashing Up (1)

1980 Smashing Up (1)

When Qiao Yanyu arrived at Qi Xibei's room, the two of them did not look too good.

"Ling Juan has found a problem." "They should be able to find us soon," said Qi Xibei."

With Ling Juan's speed, she definitely wouldn't miss this place.

If Ling Juan found out about this, the two of them wouldn't be able to escape.

However, they were already prepared.

"When I came over just now, I was almost discovered. Fortunately, I dodged it. However, I'm afraid that they'll have to investigate here when they come to their senses."

"Alright." Qi Xibei stuffed something into Qiao Yanyu's hands." Follow the previous plan."

Fortunately, they knew that Ling Juan was coming, so they prepared a lot of things.

Although there was a slight mistake now, it was not too far off.

Moreover, now was the time to fish in troubled waters.

“Alright.”

Qiao Yanyu took the things that Qi Xibei handed over and stuffed some more things into her hands.

After the two of them exchanged a lot of things, they split up.

In fact, they were holding masks and explosives.

These explosives were not brought in from outside, but were made here.

Yes, bombs could not be brought in from the outside. It would take a lot of effort to bring it in.

If he was careless, he would be discovered.

But this was a laboratory! There were so many materials inside. If he wanted to do something, it would be too easy.

Moreover, this place was under tight surveillance, so after passing the security check, they would not care too much about the situation inside.

If there wasn't any major problem, they wouldn't have discovered it.

Therefore, Qiao Yanyu took advantage of the few days he was guarding the place to make several bombs with the materials here.

After making these bombs, they placed them in some places, and there were many hidden in the office.

Other than the bombs, Qiao Yanyu also used the materials here to make some weapons for self-defense.

As for Qi Xibei, he observed the people here and used their appearances to make many masks. He made masks for people who were similar in size to them. His preparations were very thorough.

Without anyone knowing, the couple had used the materials here to make many things that were beneficial to them.

Even Ling Juan and the others didn't expect this.

If he knew, he would be angered to death!

After dividing the items, the two of them split up.

Outside the door, Qi Xibei realized that the atmosphere outside was very strange. There were many security guards walking around.

However, her expression did not change and she went to the toilet naturally.

Of course, she went to the boys 'toilet.

Perhaps the security guards had already checked the situation in the toilet, so they lifted the seal.

Qi Xibei waited inside for a while, and soon, a person who was about the same size as her arrived. Moreover, it was the person she had made the mask for.

She smiled at that person.

“Why...”

The man looked confused, but before he could finish speaking, he was knocked unconscious.

Before he fainted, he didn't understand why Bart knocked him out.

After knocking the man out, Qi Xibei dragged him into a cubicle, took off his clothes, and changed his clothes with him.

After changing her clothes and face, she made sure that she was fine before she walked out.

Soon, there was a “Bart” in the toilet.

There was a piece of paper pasted on the door of the cubicle with the words “ cleaning ” written on it.
