

Chapter 1981 - 1981 Smashing Up (2)

1981 Smashing Up (2)

After coming out, Qi Xibei changed his walking posture.

These days, she had observed the people around her and even learned their accents.

Her memory, comprehension, and imitation ability were all very strong, so she naturally could grasp their characteristics very quickly.

When imitating a person, it was called a likeness.

She came out of the room and quickly arrived at the room of the person who had been knocked out.

After placing a bomb in the room, she called the other people who were close to this person and called him to the room.

That person had not even had the chance to speak when he was knocked unconscious.

Qi Xibei had no identity this time. Instead, he tied him up and locked him in a cabinet.

Outside, Ling Juan was very angry.

“You haven’t found him yet?”

Her expression was very ugly.” Didn’t I tell you to pay more attention to those people?”

“Sorry, we didn’t find any suspicious people.”

They immediately lowered their heads and apologized.

Things happened so suddenly that they couldn’t find the mole among so many staff members in a short time.

Besides, there were many researchers in the laboratory. How could they find each other?

If he rushed in rashly, he might destroy the things inside.

If this continued, they would also be scolded.

Ling Juan’s face darkened.” Did you even put your heart into it?!”

Looking at her exasperated expression, the security guards looked at each other carefully and lowered their heads.

They muttered in their hearts, but they did not dare to say anything.

“Go find more! Find out if there are any suspicious people!”

Ling Juan roared angrily.

“Yes, sir!”

Everyone separated again.

Ling Juan sat on the chair angrily and frowned.

She was certain that Qi Xibei was here.

However, Qi Xibei, that little b * tch, was too cunning. She would not be caught so easily.

Moreover, she must have disguised herself as someone else and hidden somewhere.

Then... Where should he dig her out from?

Where could she be hiding?

No!

Ling Juan suddenly stood up.

If Qi Xibei snuck in, he would definitely know where the most important place was.

If she wanted to destroy this place, she would definitely target the most important place.

Thinking of this, Ling Juan's face immediately darkened and she quickly walked out.

Soon, she arrived at the laboratory where the Gu worms were placed.

Seeing that everything was normal inside, she heaved a sigh of relief.

Although he did not know if Qi Xibei was going to attack this place, as long as he guarded this place, he was not afraid of anything happening.

She brought a few people to guard outside. After a while, she suddenly frowned.

A man walked over.

The man was not tall, only about 1.7 meters tall. And his body was thin and weak.

Moreover, his walking posture was a little strange.

He was a big man, and he walked a little bashfully...

No! There must be a problem!

Ling Juan immediately walked over and stopped the man." Who are you?"

The man looked up, his ordinary face blank." Me? I'm Jeremy, what's wrong?"

Ling Juan frowned and reached out to tear his face.

The man's face hurt from her pulling and he immediately cried out," What are you doing?!"

Ling Juan pulled his face for a long time before finally letting go, her expression ugly.

This man's face was real. He was not Qi Xibei.

"Get lost!"

The man was dumbfounded and covered his face pitifully.

In the end, he could only cover his face and leave.

Ling Juan's expression turned ugly when she didn't notice anything wrong.

The next second, she heard the sound of something shattering in the room.

Oh no!

Chapter 1982 - 1982 Smashing Up (3)

1982 Smashing Up (3)

Ling Juan's expression changed when she heard a voice in the room.

She immediately rushed in with the others.

When she entered, she was stunned.

One of the black urns was shattered.

But the most terrifying thing was that the Gu worm inside was gone!

When he looked again, he saw a small snake.

The Gu worm was not big, only the size of a finger. The snake was not big, only as long as an arm and as thick as a chopstick.

Therefore, its body was several times larger than that Gu worm.

Moreover, the Gu worm was in the snake's mouth!

Ling Juan went crazy.

The Gu worm was actually eaten by this snake!

This snake was Qi Xibei's spirit beast!

She really wasn't seeing things!

Its appearance here meant that Qi Xibei was really here.

But why did it come here to eat Gu worms!?

The Gu worm's entire body was filled with poison, and this poison could instantly kill a person.

However, after the snake swallowed the Gu worm, there was no problem.

On the contrary, it quickly swam its body and quickly arrived in front of the other black urns.

Ling Juan also realized that after eating the Gu worm, the snake's speed became even faster!

What the hell was this?

Ling Juan panicked." Stop him!"

The others were shocked.

They all knew the situation of these Gu worms. After all, they had done experiments before.

Even if the experiment failed in the end, it was precisely because of the failure of the experiment that they saw how terrifying the damage these Gu worms could bring.

It was because they knew how terrifying these Gu worms were that they knew how ferocious this snake was!

To be able to swallow the Gu worm and be fine, it meant that this snake was not an ordinary snake!

One had to know that they had also used the cobra's poison sac to feed Gu worms!

Even after eating the cobra's poison sac, the Gu worm was still alive and kicking.

But now, it was actually eaten by this seemingly inconspicuous little snake!

It was too terrifying!

If they went up and were bitten by this snake, wouldn't they die?!

They did not want to die just like that.

Therefore, no one dared to step forward even though Ling Juan was furious.

"Shoot! Right, shoot!"

"Shoot it!"

They were shouting crazily at the side.

If he could shoot the snake to death, he wouldn't have to come into close contact with it.

Someone immediately took out a gun in a hurry.

However, they realized that they couldn't do anything even if they took out their guns.

Because the snake moved very quickly, they could not aim at it at all!

Moreover, this snake was going back and forth between the black urns. If it hit the black urns, it would be troublesome!

If the Gu worms inside came out, they would also die!

At the thought of this, they all felt weak all over.

"Trash!"

Ling Juan cursed with a dark face as she watched them push each other, not daring to step forward.

The others did not dare to talk back, but they could not help but mutter in their hearts.

If she was that powerful, she would go!

This was a poisonous snake!

They were not fools. Who would dare to rush up like this?

Seeing that she couldn't count on these good-for-nothings, Ling Juan had no other choice.

She snatched someone else's gun and aimed it at the snake.

Bang!

After a crisp sound, the bullet flew towards the snake.

However, as everyone expected, the bullet did not hit the snake, but hit a black urn.

Then, the black urn shattered.

Everyone's expression changed.

The Gu worm inside was about to come out!

As soon as they thought of this, they saw a terrifying double-headed Gu worm appear.

The speed of the Gu worm was very fast. In the blink of an eye, it was about to climb down from the table.

Chapter 1983 - 1983 Smashing Up (4)

1983 Smashing Up (4)

Everyone's expression changed.

If the Gu worms crawled over, they would be finished!

He had done experiments before.

They placed Gu worms in people's bodies.

Then, that person could not withstand the poison of the Gu worm. Soon, his body turned black and he fell.

After falling, his corpse was quickly devoured.

Everyone who had seen this scene had a psychological shadow in their hearts.

Even though they were doing these terrifying experiments. However, they were foreigners after all. They were not familiar with witchcraft that was said to have come from an ancient place in China.

Such a small bug actually had such terrifying power. Who wouldn't be afraid?

Therefore, other than the researchers who took care of the Gu worms and Ling Juan, who was in charge of this matter, the others generally did not dare to approach this place, afraid of being infected.

Therefore, when they saw the Gu worm crawling over, everyone could not help but let out a shrill scream.

Ling Juan's face darkened.

These useless people!

It was fine if he couldn't help, but he actually shouted so loudly!

However, Ling Juan's mood was also very heavy.

Although she could control Gu worms, they were too terrifying. If she was not fully prepared, she might not be able to deal with them.

Just as she was debating how to deal with this Gu worm, a figure flashed past.

In the next second, the Gu worm that was crawling towards them was swallowed.

Seeing the snake open its mouth and swallow the Gu worm, everyone could not help but swallow a mouthful of saliva.

This was too terrifying!

However, they could not help but heave a sigh of relief after surviving the disaster.

However, before they could do anything, Ling Juan raised her gun again and fired at the snake that was swallowing.

Little Green, who had just swallowed the Gu worm, was caught off guard and was almost hit.

Fortunately, it rolled away in time to avoid the fatal blow.

The bullet left a deep mark on the ground.

Qing Zhu turned around and swept a glance at them. With a flick of its tail and a twist of its body, it crawled toward the other black urns.

Seeing Qing Zhu's actions, Ling Juan became even angrier.

This was provocation!

She fired at it again.

As expected, the black urn cracked open again, and a Gu worm crawled out.

Before the Gu worm could move, Little Green rushed over and swallowed it.

This time, Little Green moved even faster and did not stay on the spot.

Ling Juan's shot missed again.

Ling Juan was so angry that she gritted her teeth.

Fortunately, after eating four or five Gu worms, Little Green's movements clearly slowed down.

While so many Gu worms gave it strength, the poison was also accumulating.

Although Little Green was a poisonous snake, it could not withstand too much poison.

This time, Ling Juan finally hit its tail.

Qing Zhu was in so much pain that its tail trembled.

Seeing this, Ling Juan revealed a cruel smile.

He could finally kill it!

However, before she could do anything, she heard the sound of a bomb outside.

The sound was so loud that it was like an earthquake, causing the entire place to tremble.

Everyone's expression changed." There's a bomb!"

" Who's using a bomb here?!"

" Why is there a bomb!?"

"Who got the bomb?"

Everyone was stunned.

How could there be a bomb here?

Bombs were absolutely not allowed here.

Ling Juan's expression changed. At this moment, Qing Zhu could no longer care about the pain on its tail and quickly swam to other places.

Another bomb sounded from outside. Ling Juan couldn't care less about Qing Zhu and immediately rushed out.

Chapter 1984 - 1984 Experimentals (1)

1984 Experimentals (1)

Outside, several places had already exploded.

These bombs were not very powerful and did not cover a large area. At the very least, they would not blow up such a large place.

However, a few places were already in chaos.

However, there were no casualties at the scene because before the explosion, someone suddenly shouted, "There's a bomb." Although the others were confused, they still subconsciously dodged.

However, the explosion here was enough to shock everyone.

What exactly happened?

If it wasn't for the fact that they knew what they were doing and knew that they were 'bad people', they would have thought that some bad people were wreaking havoc here.

Although he didn't know who did it, it didn't take long for the place to turn into a mess.

The security guards also rushed over to find the person who was causing trouble here.

Some people went to check the surveillance cameras, but they couldn't find any trace of the murderer. It was as if the murderer was invisible.

Hence, the scene became even more chaotic.

Taking advantage of the chaos, Qi Xibei and Qiao Yanyu hid in the crowd.

When Ling Juan came out, the scene was already very chaotic. She couldn't see everyone's faces clearly.

She couldn't find where Qi Xibei and Qiao Yanyu were either.

After all, it was so chaotic and everyone was panicking. It was not easy to find the two people hiding inside.

"Gather everyone! They definitely couldn't be left alone! Those who are alone, tie them up!"

She ordered angrily.

Only by capturing them could they find them inside.

The others followed the order and immediately organized everyone.

However, before they could gather together, another bomb exploded.

The sudden explosion of the bomb made everyone scream in fear.

No one knew where the bomb was, and they didn't know when there would be casualties.

They didn't know who the murderer was, nor did they know where he was.

Under such circumstances, who would still have the mood to gather together and slowly find out the spy inside?

Ling Juan was furious when she saw the chaos.

She raised her gun and fired a shot into the sky.

“Shut up!”

She wanted to kill these people immediately.

However, she still held it in.

When the others heard the gunshot, they were also shocked and their bodies trembled.

This time, they didn't dare to make a fuss anymore. They could only cover their mouths and not speak.

“Be good! Get to the side!”

Ling Juan said to these people with a dark face.

The others nodded and obediently walked to the side.

Seeing that everyone was so obedient, Ling Juan's expression became slightly better.

Qi Xibei and Qiao Yanyu mingled in the crowd and exchanged glances.

Before Ling Juan could heave a sigh of relief, she heard the sound of another bomb exploding.

This time, the power of the bomb was much stronger than before. The fragments that exploded also affected the people beside them.

“Ah!”

The man screamed and cried miserably as he covered his injured arm.

This sudden change made everyone anxious.

“There’s still a bomb!”

“Find the bomb!”

“We don’t want to die!”

Everyone panicked and went crazy.

If he was hit by the explosion, he would be finished.

They did not want to die here.

Ling Juan was furious when she saw the crowd, which had finally quieted down, quarrel again.

However, she was also stunned by the endless number of bombs.

Chapter 1985 - 1985 Experimentals (2)

1985 Experimentals (2)

How did Qi Xibei get so many bombs?

One had to know that the security facilities here were very good. It could be said that the security here was tighter than in many places.

Under such circumstances, why would there be so many bombs here?!

How did he bring it in?

Ling Juan had no idea that Qi Xibei and Qiao Yanyu had come up with all these materials here.

Although she did not know, these changes were enough to anger her.

“Shut up! Captain, hurry up and find the bomb!”

Ling Juan raised her gun and said to these people.

“Yes, sir!”

The security captain nodded and led his team to search for the bomb.

“But... If we stay here and there are more bombs...Then what should we do?” Someone could not help but ask.

As soon as he said this, the others nodded.” That’s right! We don’t want to die!”

“There must be more bombs here!”

“Definitely!”

“I don’t want to die, nor do I want to lose my limbs!”

Everyone started shouting.

These few bombs had already made them panic.

That was a bomb that would explode at any time or place. Who would dare to stay here?

Perhaps there was a bomb under their feet?

If something happened, then it would be over!

They did not want to die here!

Moreover, there was no exit from here.

If someone placed a powerful bomb here, wouldn't they be cooked?

Everyone was shocked by their own imagination.

Hence, everyone became anxious.

"I want to leave this place!"

"Yes! Leave this place!"

"When the danger is resolved, we will return!"

"This place is too dangerous!"

“I don’t want to stay here!”

It was easy to solve the problem when one person said such things, but with so many people making noise, even Ling Juan couldn’t suppress them.

Ling Juan’s head hurt even more and her face darkened when she saw that everyone was starting to make a fuss.

Her chest rose and fell rapidly, her nostrils constricted, and her expression was terrifying.

Suddenly, she raised her gun and fired at the person who shouted the loudest.

Bang!

The man clutched his chest, his eyes bulging, and his expression aghast as he fell to the ground.

Everyone was shocked into silence by this scene.

The scene was deathly silent.

“Those who don’t want to die, shut up!”

Ling Juan's face was dark and scary." If you keep arguing, I'll let you know that you'll be dead before the bomb goes off!"

These words made everyone shiver.

It was too terrifying!

Looking at the man who had died with his eyes wide open, everyone knew that what she said was true!

Moreover, this man was a capable researcher with quite a few good results, but he was still killed by her!

Thinking of this, everyone felt extremely terrifying.

However, they were more afraid that Ling Juan would attack them.

Therefore, no matter how panicked they were, no one dared to make a fuss.

Ling Juan's eyes darted back and forth among these people with a fierce expression." I know you're among them! Come out obediently! Otherwise, don't blame me for being rude!"

Of course, she was talking to Qi Xibei and Qiao Yanyu.

However, how could they possibly go out?

The two of them lowered their heads and did not say anything. There was a hint of panic on their faces, and it seemed that they had the same reaction as the others.

Seeing that everyone was quiet, Ling Juan was satisfied.

But the next second, a scream came from behind.

Chapter 1986 - 1986 Experimentals (3)

1986 Experimentals (3)

The shrill scream from behind made Ling Juan's face sink again.

Which bastard!

Was killing the chicken to warn the monkeys useless?

She was determined to kill the person who screamed! She wanted everyone to know that she was not someone to be bullied!

However, just as she turned around and before she could see the situation behind her clearly, she heard more tragic cries.

“Ah!”

“They’re out!”

“Ah! Monster!”

“The Experimentals have escaped!”

The people behind could see clearly that a few people had suddenly run out of the room.

These were the Experimentals trapped in the room!

The bodies of the Experimentals were strangely shaped and looked terrifying.

If they were soaked in the liquid, they would find it repulsive. They knew that these Experimentals were not ordinary. However, they were still locked in there and knew that they could not cause harm to humans, so the researchers were not afraid.

However, when these Experimentals suddenly ran out, everyone was frightened.

These were all semi-mature experimental subjects!

If these Experimentals were to run out, they would not be able to resist at all!

However, why would the Experimentals come out?!

At this moment, everyone was terrified.

Especially those who participated in the experiment, their faces turned pale with fear.

They screamed and frantically dodged.

As for Ling Juan's threat, they had long forgotten about it.

Nonsense!

The bomb might not explode, but these Experimentals were very ferocious!

If they caught him, he would really be finished!

They did not want to die!

Everyone fled frantically.

Ling Juan's face turned pale when she saw the escaping figures and the naked bodies of the Experimentals.

Who let them out?"

She screamed miserably.

The bomb didn't explode inside!

Moreover, the security of the laboratory was very tight. Anything left inside would be checked carefully.

Even if the bomb was disguised, it would definitely be investigated.

Even if there was an extra piece of paper, it had to be checked clearly.

Besides, they didn't hear any explosion coming from inside.

Then, how did these Experimentals escape?!

Ling Juan immediately understood when she saw a figure flash past the Experimentals.

It was that snake!

The snake ate the Gu worms and then ran to release the Experimentals!

He had miscalculated!

Ling Juan screamed in her heart.

She had almost killed the snake just now, but she did not expect it to explode.

After she ran out, she was distracted by what happened here.

It had only been a few minutes, and the snake had already released the Experimentals!

This time, he was in big trouble!

As the person in charge of these projects, how could Ling Juan not know how terrifying these Experimentals were?

It was precisely because he understood how terrifying these Experimentals were. Only then did she realize that the situation was critical!

The others had already rushed to the elevator and were frantically pressing the button to open the door.

However, there was only one elevator.

Although this elevator was not small and could hold a lot of things.

But there were hundreds of people here!

No matter how big the elevator was, it was impossible to fit so many people!

Therefore, everyone was going crazy.

Especially when they saw the Experimentals rush into the crowd and start a massacre, they almost peed their pants.

These Experimentals were very powerful. One of them had four hands. After grabbing a person, it tore the person into four pieces!

Chapter 1987 - 1987 Experimentals (4)

1987 Experimentals (4)

The savagery of these Experimentals frightened everyone.

Everyone fled frantically, wishing they could leave this place immediately.

However, this was a sealed space, and they could not leave at all.

Normally, no one could enter this place. It was a very safe fortress.

However, at this time, the fortress had become a cage. None of them could leave.

Many people felt despair.

It was over!

“Security! Attack!”

Ling Juan roared with a ferocious expression.

In addition to these powerless researchers, there were also many powerful security guards.

These security guards were not ordinary people. Some were retired men, while others were mercenaries.

Moreover, there were emergency measures here.

After all, there was such a dangerous existence here, so they had to take some precautions.

If it was any other time, it wouldn't have caused everyone to panic like this.

However, after the bomb incident, everyone was shocked.

They couldn't guarantee that if they hid in the room, there wouldn't be a bomb inside!

Some people even began to suspect that the explosives inside were made by the Experimentals!

Moreover, the massacre of the Experimentals made them feel terrified.

In such a dangerous environment, everyone's fear was magnified, and everyone began to be at a loss.

In a situation where he was at a loss, he naturally couldn't deal with it calmly.

That was why the scene had become so chaotic.

If it weren't for the chaos, the security guards wouldn't have messed up.

Looking at the Experimentals wreaking havoc in the crowd, Ling Juan's expression was extremely terrifying.

She raised the gun in her hand and fired at one of the Experimentals.

With a bang, the Experimental's body shook.

However, before she could be happy, the Experimentals rushed towards her.

"Damn it!"

She gritted her teeth.

These Experimentals were all physically strong. Otherwise, they would not have been able to survive these experiments.

Their experiment was to turn these people into "superhumans" and "non-humans."

Therefore, these Experimentals were even more thick-skinned.

The shot that Ling Juan fired just now couldn't cause any fatal damage to the Experimentals.

Although the Experimentals were a little slower, his goal was clearer now.

He wanted to kill the person who had caused him harm!

Ling Juan's expression was terrifying as she watched the Experimental run towards her.

She raised her gun and fired a few shots.

After the Experimental was hit by the first bullet, it consciously avoided it.

Therefore, even though the shots were successful, the damage to the Experimentals was even smaller.

Furthermore, the Experimentals were even angrier.

He must kill this human!

Ling Juan threw the gun away and ran away quickly.

His ears were filled with suffocating screams and screams.

At this moment, the security guard finally appeared.

They were wearing protective suits and holding weapons.

They fired wildly at the Experimentals.

These Experimentals also let out a scream that made one's scalp go numb.

These weapons were not ordinary pistols and could cause even greater damage.

However, although these Experimentals were covered in wounds, they did not fall!

What was even more terrifying was that they had the consciousness to protect themselves and protect their heads.

Therefore, no matter how serious their injuries were, as long as their heads were not injured, they were not dead!

This scene made the others feel even more despair.

It was over!

They finally had a clear sense that they had created a terrible monster!

Chapter 1988 - 1988 Experimentals (5)

1988 Experimentals (5)

Everyone in the laboratory knew what they were doing and what kind of impact they would have on the world.

But a lot of people were hoping that they would create something that would have a major impact on the course of the world.

Maybe they will create a superhero that can save the world?

If it wasn't for this thought, they wouldn't have been so invested.

But today, when these Experimentals ran out, they realized that their original thoughts were all fake.

How stupid were their thoughts back then!

What they created was not superman, not a hero, but a terrifying monster!

These monsters had no thoughts, and they were not humans!

If these monsters were allowed to run outside, it would have a terrible impact on humans!

Of course, this was something that he had to pay attention to later. What they were concerned about now was how to escape from the hands of these monsters and save their lives.

These Experimentals were too terrifying. Even the weapons they had prepared could not stop them from wreaking havoc.

Of course, their experiment was not a complete failure. Although these Experimentals did not have much intelligence, they could still learn!

In the beginning, the Experimentals were hit.

Towards the end, the Experimentals knew how to hide!

Such a heaven-defying learning ability was indeed very enviable.

Normally, the researchers would be very happy to see such a learning ability. This meant that they had done a good job.

However, the current situation made their hearts turn cold.

The more powerful the Experimentals were, the more dangerous their fate would be.

Those who ran to press the elevator button also let out miserable screams.

An Experimental with wings had flown to the elevator and destroyed it!

This scene made everyone's guts break!

In their minds, the Experimentals were dealing with outsiders.

They had never thought that one day, these Experimentals would actually swing their fists at them!

Looking at the destroyed elevator button, everyone felt their scalps go numb and their legs tremble.

To them, this was simply too terrifying!

They were dead!

Ling Juan's face darkened as she led the security guards to stop the attacks of the Experimentals.

They had also gained something. At the very least, they had killed two Experimentals.

However, these two dead Experimentals were not very mature, so they were easy to kill.

However, all the Experimentals had come out.

There were nearly ten Experimentals left!

Ten Experimentals had turned this place into a purgatory!

Ling Juan's head was starting to hurt. She had never thought that this place would become so scary today. It was really like hell.

However, she could not stop. She had to stop these Experimentals. Otherwise, they would all die here!

While the crowd was in chaos, Qi Xibei and Qiao Yanyu were also stunned.

Especially Qi Xibei. She did not expect these Experimentals to be so cruel!

When they placed the bombs earlier, they did not intend to kill the people here.

After all, these people had no enmity with her, so there was no need to make a move on them.

Moreover, even if they did something bad, they could just leave it to the law. Their target was Ling Juan.

Therefore, she had no intention of releasing the Experimentals.

If the police came in later and found the Experimentals, they would naturally know how to deal with them.

However, the current changes had exceeded her expectations.

When she turned around and saw Little Green, she immediately understood everything.

This was all caused by Little Green!

Chapter 1989 - 1989 Experimental Body (6)

1989 Experimental Body (6)

Yes, this matter was caused by Xiao Qing.

After Little Qing finished eating the King of Venomous Worms, she heard a commotion outside.

Therefore, it decided to save Qiao Yanyu and Qi Xibei from the chaos.

However, how could a snake deal with so many people here?

Although its strength had increased by a lot. However, it did not intend to fight so many people head-on.

Therefore, it quickly made a decision.

It chose to release the Experimentals in the room.

When it passed by this room earlier, it could sense the aura of the Experimentals inside.

Although the aura was very chaotic and strange, the strength of these Experimentals was not bad!

Although it couldn't compare to it, it was the best way to fish in troubled waters.

Presumably, Qi Xibei would also express his appreciation for its decision.

So, it came to this room and swallowed that stone.

Oh right, what it cared about the most was this stone.

It liked the smell of the stone very much.

That was why it wanted to release these Experimentals.

After releasing them, the stone would be its!

Therefore, Little Green ate the stone and broke the glass to chase the Experimentals out.

After the Experimentals came out of the glass, they quickly opened their eyes.

They had been soaked in a very complicated liquid that could stop their brutality.

But after they came out, their brutality naturally surfaced.

Therefore, they found the aura that they hated the most.

Although these Experimentals did not have much rationality or memory, their subconscious still remembered those who wanted to harm them.

The aura of the researchers here was similar. After all, everyone was doing the same thing.

Even if the taste was slightly different, it was not much different.

Therefore, they rushed out and wanted to kill everyone here.

Looking at the chaos here, Little Green was also very satisfied.

It was so chaotic here, so they could leave!

Sensing Xiao Qing's emotions, Qi Xibei's mouth twitched.

She did not expect Xiao Qing to cause such a huge disaster!

This was simply life-threatening!

They didn't plan to kill many people here, but as soon as these Experimentals came out, the scene immediately turned into a river of blood.

Looking at it made one's heart turn cold.

If this continued, this place would really be finished.

He didn't want this place to become a living hell.

It would be even worse if the Experimentals escaped and caused casualties to innocent people.

It was fine if the people here died, but it did not affect the innocent people outside.

Qi Xibei and Qiao Yanyu exchanged a look and gave instructions to Xiao Qing at the same time.

After Little Qing received the instructions, she was puzzled.

Why save these humans?

Aren't these enemies?

Qi Xibei knocked its head and said, ""This is your fault. Also, be careful! Right, kill Ling Juan first."

It would be bad if Qing Zhu was killed by Ling Juan instead.

He would deal with Ling Juan first, and then he wouldn't have to worry about being stabbed.

As for Qi Xibei and Qiao Yanyu, they would blast a path out.

They had prepared quite a number of bombs, some of which had not been used yet.

Fortunately, they had already memorized the floor plan of this place and knew where the weakest spot was.

The two of them split up.

Chapter 1990 - 1990 Experimental Body (7)

1990 Experimental Body (7)

Because it was very chaotic here, no one knew what they were doing.

After all, everyone was busy running for their lives.

Soon, Qi Xibei arrived at the weakest spot and placed a bomb.

As she pushed back, she shouted, "Don't come over, there's a bomb here!"

The others did not have time to understand the situation here and subconsciously dodged.

The bomb and the Experimentals had the same fear.

Soon, the place exploded.

The sound of the bomb shocked everyone. They quickly hugged their heads and squatted on the ground.

However, after the dust settled, they immediately let out a joyful sound.

That was because a huge hole had appeared here.

And this big hole was connected to the outside!

Although this place was underground, not every place was completely sealed.

There was a parking lot above, and the terrain was relatively thin.

Looking at the light shining from above, everyone felt that they had seen hope for life.

At this moment, those people all rushed over.

This was an escape route!

However, this opening was not too big. Everyone was anxious to escape in the shortest time possible, so it was not that easy.

Fortunately, after this place exploded, another place exploded.

Qiao Yanyu had blown up another place.

Previously, when everyone heard the explosion, their faces would turn pale and their legs would go weak.

But now, the sound of bombs was the most pleasant music to them!

They could live!

Everyone rushed madly towards these openings.

Some people were stopped by the Experimentals, but more people squeezed their way over.

While everyone was running for their lives, a shrill scream rang out.

This voice sounded a little familiar.

Qi Xibei turned around and was instantly delighted.

It was Ling Juan's scream.

She was bitten hard by Little Green, and then she instantly lost all color and fell to the ground.

The others were all shocked by this scene. When did a snake appear?!

However, everyone did not have the time to care about her because escaping was more important!

Even the security captain didn't have time to think about it.

They realized that no matter how hard they tried, they could not kill the Experimentals!

Although their attacks had caused some damage to the Experimentals, they were still alive!

This terrifying result made them pale with fright.

Previously, there was no way to escape, so they could only stay and fight.

But now, with two more exits and a way out, who would still fight with these Experimentals!

Most importantly, they would be the ones to die in the end!

Only a fool would do such a thing!

Therefore, they didn't have the time to care about Ling Juan, who had been pointing fingers at them. They all ran towards the exit.

Ling Juan clutched her chest and fell to the ground. Her face was white and green, but she soon stopped moving.

After Greenie bit Ling Juan to death, it returned to its original size.

The moment the terrifying giant snake appeared, the screams at the scene became even more tragic.

The ferocious and terrifying Experimentals had yet to leave when another terrifying snake appeared!

Moreover, it was a snake that could transform!

Heavens! Were they going to die here?

At this moment, everyone's desire to survive quickly gained the upper hand and they rushed out crazily.

After Little Green returned to its original state, it quickly went forward and stopped the Experimentals.

Its tail was very flexible and powerful.

With a swoosh, it swung its tail.

A fierce wind blew, and the Experimental in front of it was slapped into two.

After its body was broken, the Experimental finally breathed its last.

After dealing with this Experimental, Little Green continued to charge at the next Experimental.
