

Chapter 1991 - 1991 Experimental Body (8)

1991 Experimental Body (8)

The originally calm Miracle Company suddenly had a terrifying explosion in the middle of the night.

Although the initial explosion was a little soft, as if it was just a bottle that had exploded, the repeated explosions made the people on the ground a little flustered.

Could it be a precursor to an earthquake?

They didn't know what was going on inside, but they didn't dare to call the police.

However, just because they didn't call the police didn't mean that someone didn't.

Han Rui had already made an agreement with Qiao Yanyu and the others. They would cause trouble downstairs while he waited outside.

When he heard the explosion inside, he certainly did not think it was the sound of firecrackers.

This was a declaration of war!

Therefore, he immediately contacted the police and asked them to come over and guard the place.

Soon, something big would happen here!

Because of his special identity, he was called to the police. Chief Rang came over.

After coming over, he saw that there was no movement here. Moreover, this was Miracle Corporation's bureau. The elder was a little dissatisfied.

"Are you joking with us?"

"Of course not." Han Rui shook his head with a serious expression. "Let's wait a little longer. We'll know soon enough."

That person was very dissatisfied, but when he thought of Han Rui's identity, he endured it.

After more than ten minutes, there was still no movement. The faces of this group of people darkened.

In the middle of the night, the group of them did not sleep in their beds. Instead, they moved out and ran to a large company like Miracle Corporation to guard it like fools. Is there something wrong with that?

If the public found out about this, they would definitely be scolded to death!

Just as they were about to lose their temper, a loud explosion came from below.

This voice made them shudder and instantly wake up.

Something big had happened!

Before they could figure it out, another bomb exploded!

This time, they were completely awake.

It could be said that it was an illusion just now. But this time, it was not an illusion.

Was he playing with the foundation inside?

Before they could figure it out, they heard screams coming from inside.

What appeared next was a group of people with terrified expressions.

They were wearing white lab gowns, and there were more or less bloodstains on their bodies.

Most importantly, they looked terrified, as if something terrifying was chasing them.

“Capture him!” Han Rui threw the cigarette down and said to them.

“Capture?”

The others looked at each other, but they still obediently went forward.

Didn’t they come here tonight to arrest him?

When those people saw the police, their faces immediately showed joy as if they had seen their savior.

“Help!”

“There are monsters inside!”

“Help!”

A monster?

The police were all dumbfounded.

What was going on?

Han Rui's reaction was much calmer than theirs.

After all, he had already learned about the situation here from Qi Xibei and Qiao Yanyu, and he knew what the monster they were talking about was.

However, he did not expect Qi Xibei and Qiao Yanyu to be so ruthless and even release the monsters.

But no matter what, these people had to be arrested.

Fortunately, when these people saw the police, it was as if they had seen their savior. Without much effort, they obediently got into the car.

It was as if the monsters would not follow him as long as he got into the car.

The police arrested these people and their faces darkened.

Why are there so many people here?

A party in the middle of the night?

Han Rui left this matter to them, but he rushed to the hole himself.

Qiao Yanyu and Qi Xibei shouldn't be out yet!

They would be fine, right?

Chapter 1992 - 1992 Strangle

Han Rui was anxious. What if something happened to Qi Xibei and Qiao Yanyu? He couldn't explain it!

Everyone ran out, so why weren't they out yet?

At this moment, a terrified reply came from behind."The Experimentals below have escaped!"

"They are all monsters!"

"So scary!"

Experimentals?

Han Rui's expression immediately changed.

Those who could be used as experimental subjects by these people were not ordinary people.

If those Experimentals ran out...This was deadly!

The hundreds of people here were all so nervous. Wasn't it because of the Experimentals?

Then wouldn't Qi Xibei and Qiao Yanyu have to face these Experimentals?

Han Rui was anxious and sped up.

When he rushed to the entrance of the cave, he saw a figure running out.

The figure was very tall, at least two meters tall.

The scariest thing was that the person seemed to have four hands!

Han Rui could not help but stop in his tracks.

When he saw the person's appearance clearly, he sucked in a deep breath.

Because that person really had four hands, and his skin was pale white, like a corpse!

He took a step back in fright.

When that person saw him, his expressionless face immediately lit up and he immediately rushed towards him.

Han Rui cried out in fear.

His reaction was quick. He pulled out his gun and shot the other party.

His shot was very accurate and directly hit the man's chest.

The man stopped in his tracks.

However, before Han Rui could be happy, this person continued to walk forward.

Heavens!

Han Rui was so scared that all the hair on his body stood up.

Was this the Experimentals?

He wasn't afraid of being shot!

Just as his face turned pale, someone ran out from behind him.

The man punched the four-armed Experimental.

In the next second, the Experimental groaned and fell to the ground while hugging its stomach.

This scene scared Han Rui so much that he took another step back.

Moreover, he also saw the person's appearance clearly.

It was an unfamiliar man's face, about 1.7 meters tall.

However, this terrifying power was not ordinary at all.

It was Qi Xibei!

As soon as this thought came to his mind, Han Rui saw the other party shout at him, "Don't come in yet. You can't beat him!"

It was indeed Qi Xibei!

Han Rui suddenly understood and stopped in his tracks.

He understood that Qi Xibei was right.

They had no way of dealing with these Experimentals!

He had clearly fired a shot at the Experimental just now, and it had hit the Experimental in the heart, but there was nothing wrong with the Experimental!

If they really went in, they would only be torn apart!

After understanding this, Han Rui did not dare to go in.

He also saw that Qi Xibei was still alive.

Qi Xibei was still alive, so Qiao Yanyu was definitely fine.

After making sure that the two of them were safe, he turned around and went out with the other police officers to arrest the researchers.

It was all because of these research maniacs that they could create such terrifying experimental subjects!

If it weren't for Qi Xibei and Qiao Yanyu, who knew what terrible consequences these experiments would cause!

The more Han Rui thought about it, the angrier he became, and his expression became uglier.

Some of the researchers were silent, while others were panicking. They were controlled by Han Rui and his men.

Someone might have escaped in the middle, but that was not a problem.

Han Rui believed that Qi Xibei and the others would definitely have a way to find everyone.

In the laboratory, Qi Xibei, Qiao Yanyu, and Xiao Qing were all trying their best to kill the Experimentals.

Chapter 1993 - 1993 Not Dead

1993 Not Dead

The harm brought by these experiments was too great.

Moreover, Miracle Corporation's address was located in a busy city. If the Experimentals were to escape, who knew how many people would die?

Even people with weapons could not cause too much damage to the Experimentals, let alone ordinary people. They were simply delivering themselves to the Experimentals.

Therefore, they had to keep these Experimentals!

Qi Xibei and Qiao Yanyu's strength was not bad. When dealing with these Experimentals, they still used their Yuan Qi. Their offensive skills were different from those in this world, and their power was even more different.

During the process of attacking, Qi Xibei used his mental power to discover that the fatal points of these Experimentals were not in their chests, but in other places.

The fatal points of ordinary people were in their chests and stomachs. If something went wrong in these places, it would be very easy to die.

However, the fatal points of these Experimentals were in their buttocks, calves, and arms. No one would have thought of that.

In any case, these were not the fatal points of ordinary people, so no one could think of this possibility.

If not for that, the security guards would not have been caught off guard and unable to deal with the Experimentals.

Qi Xibei told Qiao Yanyu loudly after he found the fatal point of these people.

Qiao Yanyu and Qi Xibei's strength were on par, so he naturally noticed that something was wrong with the Experimentals.

After hitting them a few times and realizing that they did not cause much damage, he also used his spiritual power.

Therefore, after knowing the fatal point, the two of them quickly took care of these people.

One of the Experimentals ran out and almost hurt Han Rui. Qi Xibei even chased after it and stopped it.

If one of them was released, it would be over.

Greenie stayed behind. It opened its mouth or wagged its tail fiercely, leaving the Experimentals behind.

They worked together and the situation was quickly brought under control.

When he turned around, he saw that there were many corpses at the scene.

These were the researchers who were killed by the Experimentals before they could escape.

Looking at the mess here, it really made one's scalp go numb.

"I'm going to see Ling Juan."

Qi Xibei said to Qiao Yanyu.

"Alright."

The two of them returned to their original position, where Ling Juan had fallen.

They had been blocking the entrance just now. There was a distance of nearly 100 meters from where Ling Juan had fallen.

When the two of them returned, they were stunned.

“Where is he?”

Qi Xibei thought he had seen wrongly. Why was there no one here?

Qiao Yanyu followed her.” What’s wrong?”

“He’s gone!”

Qi Xibei looked around and frowned.

“Gone?” Qiao Yanyu was also shocked.” How is that possible?!”

Wasn’t Ling Juan bitten by Qing Zhu?

Little Green also swam over quickly, sticking out its forked tongue.

It looked down and was also stunned.

Where is he?

It clearly remembered that it had bitten that woman!

Moreover, it used the strongest poison, so Ling Juan was poisoned to death in just a few breaths.

It clearly saw Ling Juan fall, but where was she now?

Why did he disappear?

Qi Xibei walked around the scene and frowned." She's not dead."

"He didn't die?" Qiao Yanyu's expression did not look good either." This..." That was impossible, right? Or rather, who took her body away?"

Little Green's poison was very strong.

Under such circumstances, how could Ling Juan still be alive?

Qi Xibei squatted down and touched the bloodstains on the ground. Then, his expression turned grave." She's not dead." The poison isn't harmful enough to her."

Qiao Yanyu and Qing Zhu were stunned by her words." Really?"

Chapter 1994 - 1994 Concealing Evil

Qi Xibei looked at the scene and rubbed his chin." She definitely has a Gu worm on her."

She smelled something strange from the blood.

The smell was a little fishy and pungent, making people feel nauseous.

This was the smell of Gu worms.

"Gu worm." Qiao Yanyu frowned." That's indeed possible."

Ling Juan was a Gu Master, so it was normal for her to have Gu worms on her. He had even been scammed back then.

Not long ago, when Qi Xin was in trouble, Ling Juan had used a Gu worm to save her life.

Then, when it was her turn, it was normal for her to use Gu worms to save her life.

As a Gu Master, he had an extra life.

Ling Juan must have crawled out of the crowd and escaped while the scene was in chaos.

“But... How did she leave?” Qiao Yanjue was puzzled.

“There should be a secret passage here.”

Qi Xibei said.

Although this place seemed to be completely sealed, as the person in charge, it was impossible for him not to have prepared a way to escape.

After all, they all knew that the Experimentals here were terrifying and ferocious existences.

Facing such an existence, who would dare not make preparations? If an accident happened one day, how could he hide?

Therefore, there must be a way out.

However, Ling Juan was still alive, which surprised them and made them angry.

“No matter what, let’s leave first!”

Qiao Yanyu's ears twitched as he heard the noise outside.

"Alright."

Qi Xibei nodded.

They could not stay here any longer.

They were using someone else's identity now. If they were discovered, it would be very troublesome.

Even though they had dealt with the Experimentals and saved many people, their purpose in coming was not to be seen.

If they were caught by the police, it would be embarrassing.

Qi Xibei stretched out his hand, and Qing Zhu immediately shrunk. It then pounced on her arm and wrapped itself around it.

Then, the two of them quickly rushed out.

The direction they left in was different from the direction of those people, so they would not be discovered.

After they left, she sent a message to Han Rui.

After receiving the message and confirming that they had left, Han Rui rushed in with his men.

After entering, a pungent smell assaulted his nose.

Everyone could not help but take a step back, their eyes filled with horror.

Looking at the chaos and death here, everyone was stunned.

Oh my god!

Wasn't such a scene only seen in movies?

They had never thought that they would see such a terrifying scene in such a place!

This was Miracle Corporation, a very large company in America. Its importance and status were different.

Who would have thought that such a tragedy would happen here?

Especially those terrifying and strange-looking corpses, it made their scalps go numb.

What kind of devil's nest was this?

No wonder those people rushed out like crazy.

The fully armed policemen had solemn expressions as they began to check the situation inside.

The deeper they went, the more terrifying they felt.

This was indeed the research lab of those lunatics mentioned in the movies!

This place was really too terrifying. It had completely refreshed their understanding!

Although there were Experimentals wreaking havoc and bombs exploding, there were not many places that were damaged.

Therefore, there was still a lot of evidence left here.

Looking at the situation here, the police officers' hearts were solemn. Then, they called their superiors and asked for more support.

After everything was sorted out, they realized that Miracle Corporation was too terrifying!

This kind of corruption was really too shocking!

Chapter 1995 - 1995 Dig Deep

This matter had caused a huge commotion. Even though they had covered it up tightly, the media had found out.

The media immediately swarmed over.

Although this place was tightly hidden and many things could not be known to the public, some photos were still leaked.

When this news came out, all the people were shocked.

Miracle Corporation was actually that terrifying?

They were actually doing such terrifying research in the basement?!

The whole world was shocked, and the matter also became a big deal. The police continued to dig down this line and indeed arrested many people.

Including the people in the laboratory, there were hundreds of people involved in the case!

However, when they were about to find the last person, the clue was cut off.

Someone came out and admitted all the mistakes.

However, these mistakes had nothing to do with Jin Jien, as if the whole thing had nothing to do with him.

Han Rui was so angry that his chest hurt.

MD! Jin Jien hid it too well!

However, this matter was not without gains.

Although they didn't find out about Jin Jien, because of this matter, many people who usually kept a low profile were involved.

At the same time, this matter involved personnel from several countries.

The information dug out from the laboratory let everyone know that someone really had such terrifying ambitions!

And these ambitions, not to mention legal ethics, the final result might kill all mankind!

The people were furious.

Under everyone's anger and the pursuit of the media, many countries began to conduct self-inspections and seized several companies.

However, Qi Xibei and Qiao Yanyu, the heroes behind all this, were still not too happy.

The main reason why they came this time was for Ling Juan and Qi Xin.

They almost killed the two of them, but in the end, they had another life!

Just thinking about it made one furious!

"Alright." Tang Luo patted Qi Xibei's shoulder." Although we didn't get rid of them, we've gained quite a lot this time."

At the very least, Miracle Corporation was in a mess because of this matter.

Those who knew and those who didn't, they were all making a fuss now.

Once this matter was exposed, Miracle Corporation's stock price plummeted instantly.

Moreover, many companies canceled their cooperation with them.

After all, who knew if their medicine was poison or good?

Now, Miracle Corporation was in a precarious situation.

At the same time, everyone was still trying their best to dig into the company's past!

"Yes." Mo Bonan nodded." Miracle Corporation is so large. Now that it has become like this, it will hurt them a lot."

Even though Jiang Rongguang had a lot of assets, Miracle Corporation was still a very important asset.

Now that Miracle Corporation was in trouble, he must have suffered a lot. This was equivalent to losing an arm.

"And I feel that even if they're still alive, it won't be as easy as before."Tang Luo continued.

What was certain was that Ling Juan and Qi Xin had survived because of the Gu worms.

Gu worms!

That was a terrifying thing.

Who would dare to play with such a thing?

Although he survived because of the Gu worm, it would definitely cause a lot of damage.

At the very least, they were no longer normal people.

“Yes.” Qi Xibei nodded. “I know.” If they met them again, they would not be so lucky.”

“Right!” Tang Luo nodded. “I believe that they must be furious right now!”

How could he not be angry?

He was almost killed, and now he was neither human nor ghost. Who wouldn't be angry?

Chapter 1996 - 1996 Missing Experimentals (1)

1996 Missing Experimentals (1)

Although they did not complete the mission this time, it was not without gains.

At least this time, he had messed up Jiang Rongguang's Miracle Company.

Now, Miracle Corporation's matter had become a huge issue, and the police had already followed this lead to continue their investigation.

Although someone had stepped out to take the blame, everyone knew that things would not be so simple.

As for Qi Xin and Ling Juan, although they did not die, they were not in a good state either.

That was a Gu worm!

Although Gu worms could keep them alive, they would also cause damage to their bodies.

Most importantly, Gu worms would make them not look like humans.

Qi Xibei thought about Qi Xin's previous pride and felt that this was pretty good.

He was not even human anymore, so how could he still be proud?

However, this good mood was quickly ruined.

Han Rui came back with bad news.

“There are some things in that underground base that don’t match.”

Han Rui’s words made the two of them frown.” No? What’s missing?”

“Didn’t you say that there were several laboratories with twenty experimental subjects? However, in the end, we only found the corpses of eighteen Experimentals. Moreover, some of the laboratories were missing a lot of things.”

Han Rui told her what he knew.

Han Rui was the main force of this operation. After all, Miracle Corporation was a very important part of his mission, so he spent a lot of time on it.

He also hoped that he could find more clues from this matter.

In this way, they could find Jiang Rongguang’s location.

However, he didn’t expect that he wouldn’t find anything that he should have.

The basement was in a mess because of the Experimentals ‘riot and the bombs.

The police and the relevant departments sorted out the information.

However, the results they came up with were different from the information they received.

Out of the 20 Experimentals, they had only found 18 of them. The other two had gone somewhere unknown.

“Those two Experimentals...Is it in the innermost laboratory?”

Qi Xibei and Qiao Yanyu had never entered the laboratory because the security was very strict.

However, they had used their spiritual energy to check.

Although they couldn't open the door to the laboratory, they knew what was inside.

There were two Experimentals.

The Experimentals were also kept in glassware and soaked in some unknown liquid.

However, these two Experimentals looked like ordinary humans.

The Experimentals from before were all very strange. Some had several hands and some had several feet. They looked strange.

However, these two Experimentals were very normal.

It should be said that the two experimental bodies in this laboratory were mature.

Those grotesque ones should be half-matured.

Of course, it was precisely because it was half-mature that it was so crazy and destructive.

However, the two Experimentals had disappeared?

“Did you find any clues?” “For example, traces of experimental equipment being taken away?” Qi Xibei asked.”

“No, I haven’t.”

Han Rui shook his head.” We’ve checked. There are no traces there, just like...”

He was silent for a moment before continuing,”It’s as if the two Experimentals came out on their own and left.”

Qi Xibei and Qiao Yanyu were shocked by her words.” She left on her own?”

“Yes.” Han Rui nodded. “This is the result of our examination.”

Chapter 1997 - 1997 Missing Experimentals (2)

1997 Missing Experimentals (2)

It was so chaotic there that it was quite difficult to check.

They searched the inside thoroughly and found a passage.

“This passage leads to the outside. The Experimentals should have left from there.” “We found traces of a few people inside,” said Han Rui.

Therefore, several people had walked this path before.

“There are also two sets of strange footprints here, like... There are no footprints of shoes.”

It was precisely because of this that they deduced that the two of them should have left like this.

Qi Xibei and Qiao Yanyu looked at each other and saw the surprise in each other’s eyes.

If they were taken away by someone, then the two Experimentals definitely did not need to walk on the ground. They were taken away by someone with tools.

But now, there were two strange footprints, and they were not shoe prints...This meant that they were walking on their own.

Or rather, they should have left after they woke up.

This made Qi Xibei and Qiao Yanyu feel amazed.

“We have already sent people to continue investigating. However, some of the information you provided previously was wrong.”

Previously, when Qi Xibei and Qiao Yanyu snuck in, they had also found quite a bit of information.

It could be said that a lot of the information was provided by them.

With the information they provided, the police could successfully arrest the participants inside.

However, some of the information they found was not true.

“Maybe they used fake identities like us.” Qi Xibei said.

“It should be.” Han Rui nodded. “And the people I was staring at before did have plastic surgery. It was different from the previous wanted poster.”

In order to avoid being tracked and captured, this was the normal operation.

After all, they were doing things that could not be seen by others. They had to hide their true appearance and change according to the situation.

“This time, we have also gained a lot.” Right now, Miracle Corporation is in a precarious situation,” Han Rui said. “If we continue to investigate, we’ll definitely be able to find more useful information.”

Han Rui was a little excited.

He had followed and investigated for so long, but he finally had some results.

Although they couldn’t find Jiang Rongguang yet, it was enough to make him suffer heavy losses.

“Yes.” Qi Xibei nodded. “Continue with your work. Let us know if there’s any news.”

“We’ve been in M Nation for a while now, so we have to go back.”

They had already stayed here for half a month. It was time for them to go back.

Moreover, the old man could not wait to go back.

However, the two of them had never been free, so they had been staying here.

Now that the matter had come to an end, they could not find Qi Xin and Ling Juan for the time being. It would be a waste of time if they continued to stay here.

He might as well go back to China to deal with things first.

“Alright.”

Han Rui nodded.” I will continue to keep an eye on it.” If there’s anything else, I’ll tell you.”

“Alright.”

After that, Qi Xibei and Qiao Yanyu began to prepare to go back.

Tang Luo was very reluctant.

Although Qi Xibei and the others had stayed here for a while, she did not have much time to accompany Tang Luo.

Tang Luo also understood that Qi Xibei had his own things to do. However, she also felt sad that she had to go back just like that.

"It's okay. You can go back to China later." Qi Xibei gave her a hug. "Everyone is waiting for you in the country!"

"Alright." Tang Luo took a deep breath and smiled brightly.

Chapter 1998 - 1998 Returning to the Country

1998 Returning to the Country

The old man had been living here for quite some time now. He was worried about Qi Xibei and Qiao Yanyu's safety every day, but he also wanted to return to China as soon as possible. He could not sleep well at night.

Finally, Qi Xibei and the others decided to go back. He was overjoyed.

"I don't know how my family is doing now. When I get back, I'll definitely teach them a lesson!"

The old man muttered as he watched the others pack their luggage.

This incident had dealt him a huge blow.

Other than Qi Xin, Qi Zhiqiang and his family were also accomplices!

If it wasn't for this unfilial son, he wouldn't have become like this.

This time, if it weren't for Qi Xibei and Qiao Yanyu's help, he might have already died in this foreign country.

Therefore, he decided to hand over the Qi family's things to Qi Xibei when he returned.

He could tell that Qi Xibei's abilities were far above theirs.

If he wanted the Qi family to develop better, it would be best to let Qi Xibei take care of it.

Moreover, after this incident, the old man realized that he was old and could no longer keep up with the pace.

If it was still like before, he would really be too tired.

What he was worried about now was what the Qi family had become. He did not know what Qi Xin had done to ruin the Qi family's business.

If something big happened, he would be too ashamed to face his ancestors!

Therefore, even though Qi Zhian comforted him over the phone, he still couldn't relax.

He was very happy that he was going back this time.

The next day, Qi Xibei and Qiao Yanyu brought the old man to the airport.

The old man's passport and ID card had already been prepared, so there was no need to worry about not being able to go back.

Looking at the various races coming and going outside, the old man could not help but sigh.

He usually didn't like to go abroad and liked to stay in China. He didn't expect to stay here for so long this time.

"Alright, we have to go back." Qi Xibei, who was wearing sunglasses and a big hat, waved at Tang Luo.

In order to avoid any problems, Tang Luo and Mo Bonan also changed their appearances.

Anyway, the two of them didn't need to board the plane, nor did they need to go through security checks. No one would check their identities, so they naturally didn't care if their appearances were real or fake.

Before they caught Qi Xin and Ling Juan, Qi Xibei did not dare to let Tang Luo and the others take the risk.

If Qi Xin and the others found out about his cooperation with Tang Luo, they would very likely make a move on Tang Luo and Mo Bonan.

Qi Xibei did not want to hear such bad news.

Therefore, she decided to take precautions and let Tang Luo and Mo Bonan change their appearances before coming over.

After all, no one knew where Ling Juan and Qi Xin were hiding.

“Alright, have a good trip.” Tang Luo and Qi Xibei hugged each other, feeling a little reluctant to part.

“Yes, I am. It would go smoothly. Everything is going well for you.”

Everyone was reluctant to part, but they still had to part ways.

Soon, they passed the security check and entered the departure lounge.

Looking at the plane outside, Qi Xibei held Qiao Yanyu’s hand, relaxed his body, and leaned on his shoulder.

Qiao Yanyu patted her shoulder, telling her to rest.

These days, not only did the old man not sleep well, but they were also not much better.

“The plane to the capital of China...”

After the announcement, the three of them picked up their luggage and walked towards the boarding gate.

Soon, they boarded the plane and found their seats.

They didn't lack money, so they booked first-class seats.

The space here was much more spacious than other places.

However, Qi Xibei's expression suddenly changed when the other passengers were still boarding the plane.

Chapter 1999 - 1999 The Venomous Insect on the Plane

1999 The Venomous Insect on the Plane

Qi Xibei's expression changed as he stood up abruptly.

“What's wrong?”

Qiao Yanyu, who was beside her, was shocked and looked at her in confusion." What's wrong?"

"There's a problem!" Qi Xibei said in a low voice with a cold expression.

"Is there a problem?"

Qiao Yanyu's expression turned serious." What's the problem?"

If Qi Xibei said there was a problem, then there was definitely a problem.

The other passengers were still boarding the plane. It seemed that there was no problem at all.

The plane had yet to take off, which made Qi Xibei heave a sigh of relief.

"I found a bad smell."

Qi Xibei's expression was very ugly. His gaze was like a knife as he surveyed the cabin behind him.

"Hmm?"

Qiao Yanyu also frowned." What's that smell?"

“It tastes the same as a Gu worm!”

Of course, she didn’t say that it was all thanks to Qing Zhu.

Qing Zhu changed her appearance and passed the security check smoothly.

It was supposed to stay in the suitcase, but it was unwilling and insisted on wrapping itself around Qi Xibei’s wrist.

It was also because it was wrapped around Qi Xibei’s wrist that it immediately noticed that something was wrong when someone passed by.

Although Qi Xibei was powerful, she did not expect the Gu worm to come to the plane.

She was sensitive to these scents, but she could not immediately detect them. Not to mention that the owner of the Gu worm had only brushed past her.

If it wasn’t for Qing Zhu, she wouldn’t have found out so easily.

Little Green’s strength was definitely not a joke.

Qiao Yanyu also stood up and looked behind him.

The economy class at the back was filled with passengers of all colors.

Looking around, he couldn't find any special characters.

"What should we do?" Qiao Yanyu asked softly.

"Let's wait until everyone is seated."

Qi Xibei took a deep breath and sat down.

Someone had already seen them.

Although they did not take off their sunglasses and hats, their outstanding temperament was still very eye-catching.

At this moment, the two of them could not use any other appearance. They could only use their real appearance.

Moreover, Qi Xibei was a world-class celebrity who had appeared on the international news several times.

If it was just her, others might not be sure of her identity. But she still had Qiao Yanyu by her side!

How could two equally outstanding men and women not attract attention?

Therefore, if they continued to stand, they would definitely be discovered.

Moreover, the plane would not take off for a while.

As long as they didn't take off and were still on land, things would be easy to resolve.

Qi Xibei didn't care what was going on with that Gu worm, but it definitely had something to do with Ling Juan.

Moreover, he had appeared at this time and was definitely coming for her!

They would rather kill the wrong person than let him off!

After sitting down, Qi Xibei took a deep breath.

Then, she felt her wrist tighten.

It was Little Green.

Qing Zhu's emotions were transmitted over-I'll go over and take a look.

Qi Xibei reacted.

That's right, she couldn't move easily, but Xiao Qing could!

In such a narrow space, her actions would attract attention, but Xiao Qing would not!

As long as it carefully avoided the human's feet, it would not be discovered.

In such a narrow space, who would lower their heads and look around?

Moreover, Little Green had eaten so many Gu worms, so it had a very good impression of them.

"Alright."

Qi Xibei nodded and lowered his wrist.

Qing Zhu escaped from her wrist and crawled backward.

It was very fast. It came back in just a few minutes before the passengers were seated.

At the same time, there was also good news.

It found out who had a Gu worm on them!

2000 The Insect on the Plane (2)

Little Green had eaten a lot of Gu worms in the laboratory before.

Those Gu worms were not the last to mature. Although the poison was strong, it was still within the tolerance range.

After eating these Gu worms, its strength was much stronger than before.

And because of this, it had a deep impression of the taste of these Gu worms.

When a person walked past Qi Xibei, it had smelled something different.

The taste was the same as the Gu worm it ate in the laboratory!

Because of its understanding of these smells, when it went to search, it quickly found the human with the Gu worm.

It was a very ordinary-looking white man. He was neither tall nor short, and his appearance was very ordinary.

He walked on the road like an ordinary passerby and wouldn't attract any attention.

Who would have thought that there was a Gu worm in his body?

The situation of Gu worms was special. They were like parasites in the body. When they passed the security check, they could not find out what was going on inside, so they naturally let him bring the Gu worms up.

The other parasites might just be a coincidence.

But this was a Gu worm!

Moreover, this Gu worm had a deep relationship with Ling Juan.

Under such circumstances, the Gu worm still appeared on the same flight as them...If there was no problem, that would be strange!

Qi Xibei and Qiao Yanyu's class information was not completely confidential. After all, they were not on a private jet.

If he wanted to find their information here and then do something to them, it would not be difficult as long as he spent some effort.

Qi Xibei believed that Ling Juan would not dare to show up anytime soon.

However, just because she didn't dare to show her face didn't mean that she wouldn't do anything.

After suffering such a huge loss, how could Ling Juan not do anything?

Therefore, this person with the Gu worm was definitely an enemy.

Qi Xibei was silent for a moment after learning about the situation from Little Apple.

Although she had found out the situation, she couldn't just run out and tell others that there were bugs on this person, right?

Only a fool would believe her!

However, if he didn't deal with it, it would be troublesome when the plane rose into the sky.

What if that person self-destructed?

Self-destruct?

This thought suddenly flashed through Qi Xibei's mind, and then her heart trembled.

That's right!

There was such a possibility!

Gu worms were very magical existences and might have many different abilities. Even if something big really happened, it was still possible.

Touching Qing Zhu on his wrist, Qi Xibei used his mental power to ask, "You've eaten these Gu worms, what effects will they have?"

"It can make one's strength increase and make one lose their rationality...It might explode."

After confirming the situation from Little Apple, Qi Xibei's expression turned ugly.

As expected!

No!

He absolutely could not let that person continue to stay here.

“What should we do?”

Qiao Yanyu leaned over and asked softly.

The plane would take off in half an hour.

By then, it would be too late.

Qi Xibei frowned and thought for a long time.

Soon, she had an idea.

She bit Qiao Yanyu’s ear and even pulled his hand to her stomach.” Just press here.””

Very quickly, Qiao Yanyu nodded.” Alright, I’ll do it.””

He pulled his hand back, stood up, and winked at her.” Watch me.””

Then, he walked to the back.

When he walked to the man’s side, he suddenly tilted his foot and fell on the man’s body.

"I'm sorry!"

He quickly got up and apologized profusely.
