

Chapter 2021 - 2021 Strength Is the Absolute Truth

Qiao Yanyu and Qi Xibei could tell that Big Horn and Little Qu didn't trust them.

However, this did not hinder their actions.

On the contrary, Big Horn and Little Qu were the ones they thought were a burden.

However, they were Han Rui's companions and should be able to help a lot.

"Alright, it's time for us to take action." Qiao Yanyu said to Qi Xibei.

"Alright."

The two of them gave the list out, but the list was not complete.

This was because there needed to be something that could replace gunpowder.

These things couldn't be easily sold outside.

Moreover, the quantity they requested was not small.

However, on their way back, they found a lot of good things.

These things could replace gunpowder and be used to make bombs.

What they could use were naturally the plants outside.

There was a plant here, and its leaves contained a lot of elements similar to sulfur.

Therefore, he could take these leaves back and extract the ingredients inside to make bombs.

Thus, the two of them bought two baskets and began to pick up leaves on the road.

Only withered leaves had such an ingredient.

They directly snatched the jobs of the cleaners, causing the uncles and aunties in charge of cleaning to be stunned.

By the time Han Rui and the others returned, the two of them had already gotten enough leaves.

The three of them ran around outside and quickly bought everything.

After all, they often traveled around various countries, so they were very adaptable and mobile.

The reason why Han Rui called them over was, of course, because they were indeed capable.

However, they did not expect to see the two of them sitting face to face when they returned after messing around outside for a long time. Tearing leaves?

Looking at the pile of dead leaves, even Han Rui was dumbfounded.

“Come, help me deal with the leaves.”

He didn’t want the thick meridians on the leaves, he only wanted the leaves.

Therefore, it would take some time to sort it out.

Han Rui was stunned.” You guys are...”

“Prepare for the preliminary work.”

“This...”

“Stop talking. Come and help.” Qiao Yanyu urged,” We still have to continue later!””

Han Rui walked over with a blank look on his face. Qiao Yanyu then stuffed a basket of leaves into his hands.” Do what I did, you know?””

Han Rui took the basket, sat down, and began to process the leaves.

Big Horn and Little Qu were stunned.

What the hell was this?

“Don’t just stand there. Hurry up and come over. We have to get rid of that place as soon as possible. If he was late, who knew how many more victims would come.”

That place was so big and produced a lot of drugs.

Almost every day, a lot of drugs would be leaked out. Through some special channels, they would flow into various countries, causing harm to many people and destroying many families.

Big Horn and Little Qu looked at each other, wondering if they had come to the wrong place.

Or rather, what was the problem here?

Otherwise, why would things turn out like this?

Let them deal with the leaves?

What a joke!

“I don’t...”

The two of them were about to refuse, but they stopped in the next second.

That was because, ten centimeters in front of them, two pairs of scissors were fiercely stabbed into the ground, several centimeters deep.

Qi Xibei, who had just started working, lowered his head and continued to work on the leaves.

Both of them were stunned.

Did they see wrongly?

The scissors could actually be inserted into the ground!

What kind of power was this?

However, after Qi Xibei revealed this move, the suspicion and dissatisfaction in their hearts quickly disappeared.

Strength was the absolute truth!

Chapter 2022 Return Soon

Qi Xibei understood that strength was the absolute principle.

She could tell that Big Horn and Little Qu were unwilling to cooperate with them.

This was normal. After all, she and Qiao Yanyu were just "ordinary people" in the other party's eyes.

However, this operation required their cooperation, such as helping to deal with the leaves.

There were so many leaves here, and it was not easy to find outsiders to deal with them. Naturally, he had to ask them for help.

Therefore, she didn't want to listen to their chatter and directly suppressed them with one hand.

Big Horn and Little Qu looked at each other and carefully pulled the scissors from the ground.

They used some strength to pull the scissors out of the ground.

This was enough to shock them.

Looking at the small hole, the two of them exchanged a shocked look.

This move was amazing!

Even if their strength was not weak, they did not have such ability!

At this moment, they finally understood what Han Rui had said earlier.

He was really an expert!

Thus, the two of them admitted defeat and obediently carried the small stool and began to process the leaves.

It had to be said that although the two of them did not have a good attitude previously, their efficiency was still quite good.

The scissors in his hand were so smooth.

With the help of three people, they finished processing the pile of leaves in less than half an hour.

After they were done, they threw the leaf into a glass bucket and poured some unknown liquid over it.

The three of them watched Qiao Yanyu's actions from the side, unable to come to their senses for a long time.

This was... What were they doing?

After the leaves were soaked in the liquid, they quickly changed.

Seeing the changes in the leaves, Big Horn and Little Qu were even more confused.

Qiao Yanyu didn't explain and continued to work with Qi Xibei.

Han Rui felt that it was too strange for them to stay here, so he brought the two of them out.

"F * ck!"

When he came out, Xiao Qu finally shouted. He had yet to recover from Qi Xibei's attack!

"I told you not to underestimate them." Han Rui raised his eyebrows. "Am I right?"

"What you said is indeed correct..." "But what are they doing now?"

"I don't know." Han Rui shook his head decisively. "No matter what we do, let's just wait.""

Perhaps in a day or two, there would be results.

However, Qiao Yanyu and Qi Xibei came out much faster than they had expected.

Only three hours had passed, and they came out at around ten o'clock at night.

"Done."

They were holding a few bottles in their hands.

"Done?"

Even Han Rui, who was familiar with them, was surprised. "How did you do it?"

"Just like that." Qiao Yanyu shrugged. "Alright, we can move now.""

"So fast?!"

"Yes, with your help, we can be so fast." Qi Xibei praised them for their help.

Her praise made Big Horn and Little Qu blush slightly. They felt flattered!

However, they only helped to buy some materials and process the leaves.

"Alright, we have to go in." "According to our previous plan, you will receive us from outside," said Qi Xibei. Of course, if you can find the police here, you can also ask them to come over."

"You guys...Do we act now?"

Even though Han Rui was mentally prepared, he did not expect the two of them to act so quickly.

"That's right." Qi Xibei nodded. "Wait outside. We'll be back soon.""

Han Rui was speechless.

Chapter 2023 Opening a Path

Qi Xibei and Qiao Yanyu did not care about their reactions and immediately set off with Little Green.

They were not people who would drag things out. Since they had found Jiang Rongguang's lair, they naturally would not drag things out.

The longer Jiang Rongguang lived in the world, the more they would be unable to eliminate the threat.

This should be the ultimate big Boss. They had to deal with him.

Han Rui and Xiao Qu watched the two of them leave and could not help but look at each other.

This mission...It was as if the three of them were the main characters!

Why were these two more enthusiastic than them?

No matter what, they had to cooperate.

The strength that Qi Xibei had displayed earlier was enough to earn their trust.

On the other side, Qi Xibei and Qiao Yanyu took the small bombs they had made today and brought Little Green to the place they had been to before.

This time, they even brought signal interference devices with them.

With the signal interference device, they quickly avoided the surveillance cameras outside.

However, they also realized that the surveillance cameras outside the wall were not of the same quality as the ones inside.

But it didn't matter. As long as he went in, things would be easy.

Soon, they avoided the surveillance cameras and arrived in front of the poisonous thorn plant wall.

Even at night, this large patch of poisonous thorns made one's scalp tingle.

Beside these poisonous thorns were the corpses of some small animals. From the looks of it, they had probably just died today.

If anyone else saw this, they would definitely be shocked.

This could be considered a form of intimidation.

Qi Xibei and Qiao Yanyu looked at each other and smiled.

Then, Qi Xibei walked up and placed his hand on some poisonous stingers.

If anyone else was here, they would definitely be shocked.

Did she want to die?

However, the next second, what happened at the scene was enough to shock everyone.

With Qi Xibei's hand as the center, the surrounding vines retracted their poisonous stingers!

This was not the end.

These vines even squeezed to the side, revealing a large hole.

Looking in, one could see that it was a cave with an inner wall that was five meters deep!

At the same time, the surrounding trees shook, and the leaves rustled with a hint of joy.

If someone was here, they would definitely kneel down and shout for a miracle!

These plants could actually move on their own!

They actually opened up a path!

However, the two people and the snake were used to this scene.

They all knew Qi Xibei's abilities, so they were not surprised by the scene.

Qiao Yanyu smiled." I'll go in first.""

"Alright."

It wasn't that Qiao Yanyu didn't know how to be humble to Qi Xibei, but that he simply couldn't be humble.

Qi Xibei's strength in this aspect was superior to his.

If Qi Xibei went in, the hole might be sealed.

Qiao Yanyu was very fast. In the blink of an eye, he was inside without a single stain on his body.

This was normal. After all, the hole was about 1.7 meters high. He only needed to bend down to enter.

After Qiao Yanyu entered, Qi Xibei followed suit.

After they all went in, the vines moved again. Shua la la, very quickly, these vines grew poisonous thorns again and returned to their original positions.

Even if someone came over, they would definitely not discover what had happened here.

As for the surveillance cameras, no one would care.

After all, there was nothing wrong with the Poison Sting Wall. Who would have the time to stare at this place?

Chapter 2024 Explode (1)

Qi Xibei and Qiao Yanyu quickly entered through the tree hole. The entire process was very smooth and they did not suffer any injuries.

After entering, they realized that the situation inside was indeed very unusual.

Inside the wall, it was like a small town. There were several houses ten meters ahead.

A four-story house was for the coolies, and the others were for the guards.

In front of the house were hills.

The sky was dark, but he could still see that there were many plants planted on the hills.

Qi Xibei and Qiao Yanyu looked at each other and then split up.

Little Qing also left quickly.

This area was very large. If they acted together, they wouldn't be able to deal with it for half a day.

Only by splitting up could they complete the mission.

The two of them even brought their phones with them to ensure that they could communicate normally.

There was a need for a signal, so there was naturally no signal jammer.

In the darkness, Qi Xibei moved very quickly and rushed out.

Qiao Yanyu was not to be outdone.

The two of them were like ghosts, moving crazily in the night.

Soon, Qi Xibei arrived at the foot of the hill.

Many plants were planted here.

The sky was already dark and those people had already rested. This place was empty.

However, that didn't mean that no one was watching.

Qi Xibei looked at the rotating cameras around him and enveloped his body with his mental power.

Spiritual power could temporarily bring about the effect of invisibility, but not for too long.

After avoiding the cameras, Qi Xibei quickly entered a pile of plants.

These plants looked ordinary, but they could extract harmful substances from their leaves or trunks.

Therefore, these things were a headache.

It looked ordinary, but it was a terrifying existence that could kill without a trace!

Qi Xibei's expression was very calm. With a flick of his hand, a small bomb fell beside him.

These bombs were only the size of a quail egg. They were easy to carry around, but their power was terrifying.

The explosion range of these bombs was 20 meters.

With a distance of twenty meters, she quickly put down the bombs.

At that time, the effect of setting off firecrackers would appear.

In just a short while, Qi Xibei had finished placing the bombs.

On the other side, Qiao Yanyu moved quickly.

Little Qing's movements were not slow either.

It had no hands, so it could only put the bomb in its mouth.

If it exploded, it would also be finished.

However, it had great skill and courage, so it really swam over with it in its mouth.

It could control its mouth, so it naturally wouldn't let these bombs explode.

Soon, the two of them and the snake had finished placing the bombs.

It could be said that they had surrounded the entire hill.

As long as one bomb exploded, the other bombs would follow suit.

At that time, the plants in these two hills would be destroyed.

When Qi Xibei was about to leave, he suddenly stopped in his tracks.

Because she found the plants that Little Green had mentioned before.

These were actually low-level spirit herbs!

Although these spiritual plants were not of high grade, they were terrifying existences to spiritual beasts.

Spirit beasts also liked to eat spirit plants, but some spirit plants were not suitable for spirit beasts to eat and would even make spirit beasts avoid them.

Qi Xibei squatted down and plucked one of the spiritual plants.

When she pulled it out, she realized that the soil was very strange.

There was actually the smell of blood down there!

She reached out and pulled the soil away. Then, her expression froze.

There were actually some skeletons below!

Chapter 2025 Exploded (2)

Qi Xibei's expression immediately turned cold when he saw the residue.

There were many corpses buried below!

She finally understood why Xiao Qing said that these plants would make it uncomfortable. It was because these plants did not grow through normal means!

There were so many corpses down there. Who knew how many people had died?

The spirit plants that were nurtured with corpses and fresh blood would become extremely ferocious, and the effects would also be different.

Spirit plants were usually very peaceful, just like the spirit plants that Qi Xibei had encountered before. They could even develop a little intelligence and were quite cute.

However, the spiritual plants in front of her now gave off a sinister feeling.

The growth of spirit plants depended on spiritual energy and some strange little hobbies, so they would choose the environment they liked.

Spirit plants were different from spirit beasts. After all, spirit beasts were carnivorous and would occasionally eat some spirit plants.

However, spirit plants absorb spiritual energy and then photosynthesize.

Once it was stained with blood, the spirit plant would undergo changes.

The more blood it was stained with, the more ferocious the spirit plant became.

However, savage spirit plants also had different effects. It was just that ordinary people would not use this method to nurture spirit plants.

But now, Qi Xibei's expression turned ugly as the bloody aura was so strong.

From this, one could tell how many people had died here.

These spirit plants were cultivated with fresh blood, and then they would emit some aura.

This aura could infect the surrounding plants with its aura and make them grow faster.

Most importantly, the plants around were all prohibited plants.

The effects of these plants would be even more terrifying, and the damage to the human body would be even greater.

Qi Xibei finally understood why the plants here were growing so well. It turned out that there was another reason!

The density of plants here was obviously too high.

Logically speaking, the density of the plants here could not be so high to grow well.

However, there were so many plants growing here, and they were growing so well.

So it was all because of these spirit herbs!

It should be said that it was all because of the corpses below!

This was too detestable!

Jiang Rongguang had gotten a pile of corpses from somewhere and used them to cultivate spirit plants, which then led to the growth of other plants. Then, he would use these plants to extract medicine and sell them. Then, he would kill a few more people...

Heavens!

Qi Xibei felt his scalp go numb just thinking about it.

She believed that she was a willful and selfish person, but her selfishness was only because she was living a relaxed and happy life. She did not want to hurt anyone.

However, Jiang Rongguang had actually done such a thing for his own benefit!

How many people had he hurt?

Qi Xibei's expression became even colder. He swore in his heart that he would definitely resolve this matter and not let such evil continue!

Destroying this place could save a few more people.

As for these spirit herbs, she had no use for them.

These spirit herbs were stained with so much blood, it was useless to bring them over.

She threw the spiritual plant that she had just pulled out onto the ground and left quickly.

She moved very quickly. The moon wasn't big tonight, and the moonlight was very dim, making their movements very convenient.

Soon, Qi Xibei left and returned to the place they had agreed to meet.

After a while, Qiao Yanyu and Qing Zhu returned.

"Done."

"Alright."

Qiao Yanyu took out a remote control from his pocket.

Then, he pressed down hard.

Bang!

Bang!

Bang!

A loud explosion sounded like firecrackers, instantly lighting up the dark sky.

Chapter 2026 Exploded (3)

In the room, everyone was watching the situation in front of the screen as usual.

The situation here was special, so he had to keep an eye on it.

"It seems... What's wrong?"

Some people felt their vision blur, as if something had flashed across the screen.

"What's wrong?" The captain immediately came over and asked.

"It's nothing. I think I'm seeing things."

"I think I saw a figure just now." The man shook his head and joked."

"What?"

The captain frowned." Turn it back and take a good look.""

"Are you alright? How can there be someone here..."

"Transfer it back!"

The captain's expression was very serious." We can't let our guard down!"

Although the security here was tight, if they didn't pay attention, who knew what would happen?

That person muttered in his heart. Even birds did not dare to fly in here, so who else would dare to come in?

However, he didn't dare to say it out loud and obediently pulled the screen back.

When he reached a certain figure, he stopped and was also stunned.

"There really is someone!"

How was this possible?

After dark, everyone would return to their rooms.

As for those laborers, they were naturally locked up and could not be released.

If they were patrolling, they should have appeared in a small team of several people. It was impossible for them to be alone.

"Magnify it!"

The captain's expression was also very ugly." Could it be that someone is alone?"

"I've never heard of anyone being alone." The person beside him said.

"This person...I can't see clearly."

The others gathered around and looked at the person in the picture carefully.

He looked like a young man, but he was thin and did not look like them.

One had to know that the people here were all tall and strong men. If anyone dared to enter, they would definitely cry and leave.

Even without a weapon, he could still fight against ten.

Although they were guarding here, they had to train every day and could not relax.

Therefore, the people here all had muscles and muscles.

Under such circumstances, this weak-looking kid...She was out of place with them.

Moreover, although it was not very clear, it could be seen that this person's limbs were intact and healthy.

Other than them, the coolies who were left behind to do hard labor were either missing hands or broken legs. None of them were intact.

If it wasn't them and they weren't laborers, then...

"Get out!"

The captain immediately stood up with a serious expression." Catch that person!"

"Yes, sir!"

The others nodded and immediately prepared to run out with their weapons.

"There's a situation here too!"

Someone shouted again.

"What?"

The others were all surprised. Soon, they found a figure on another screen.

This figure looked a little taller than the previous person, but it was not one of their members.

Moreover, it would be strange if someone appeared in such a place at this time.

"Capture them!" The captain's eyes were fierce and bloodthirsty.

It had been a long time since anyone dared to come in, and no one could.

He did not expect two "little cuties" to appear at this time!

However, he was also very curious about how these two people avoided their guards and ran in here.

But no matter what, these two people would not survive!

Soon, they rushed out.

However, when they rushed to the place where the two people appeared, they did not find them.

Just as they were puzzled, the bomb exploded!

Chapter 2027 Exploded (4)

The bomb exploded, instantly detonating all the bombs.

In just a short while, it was as if an earthquake of magnitude 8 had occurred here. The earth shook, the mountains shook, and dust flew into the air. Screams sounded continuously.

"Be careful!"

Before the bombs exploded, the captain's heart skipped a beat and he immediately jumped to the side. However, he could not dodge the power of these bombs.

Outside, Han Rui and the other two were stunned when they heard the violent explosion coming from inside and saw the flames that soared into the sky.

They were waiting outside.

They didn't know if Qi Xibei and Qiao Yanyu had gone in, nor did they know how they were going to get in.

But now, it seemed that they had really gone in and acted according to the plan.

Now, it really exploded inside.

The violent explosion made their expressions change.

"What powerful power!"

Big Horn murmured with his eyes wide open.

This was too amazing!

Previously, they had been shocked by Qi Xibei's abilities and did not dare to have any objections. However, they were still skeptical about the bombs they had made this time.

Can these leaves be used to make bombs?

Are you kidding me?

Fortunately, they didn't ask these questions out loud. Otherwise, how embarrassing would it be now?

He did not expect that these bombs would really work!

There was really no problem with these bombs!

Moreover, the power of these bombs was far stronger than the ones they had made before!

They were so far away from the outside, but they could still feel the terrifying commotion.

In the residential area not far away from the wall, it was already a mess. The car alarms were also ringing crazily.

This place was in chaos.

"Right, we have to go over and receive them!" Little Qu said.

"Actually, I think...It's fine if we don't have to go to the rescue." Big Horn's expression was dull." I think..." There shouldn't be anything left inside."

Such a powerful bomb was enough to destroy most of the inside.

Even if there were still some places left, they were not much better.

Even if they went over, there was no difference. They would just go over and snatch the credit.

"Then this time...What are you doing here?" Little Qu looked at Big Horn with the same dull expression.

They came here this time with the idea of fighting to the death.

They could not let such a drug lord continue to live freely!

For this, they had prepared a lot of things just to destroy that damned Ginjin's lair.

However, they had not done anything yet.

No, they did do some things, such as helping Qiao Yanyu and the others buy materials and process the leaves.

The few of them could only be reduced to running errands and watching the show.

This made them a little dazed.

This feeling...It was as if he had hugged onto a golden thigh.

After clinging onto the golden thigh, they did not have to do anything and just won?

"We still have to deal with the aftermath." "We have to figure out the situation so that we can explain it to the outside world," Han Rui said to the two of them."

This time, the matter had caused such a huge commotion. They had to compare their statements properly before they could deal with it.

It couldn't be helped. Who asked Qi Xibei and Qiao Yanyu to be so tough? They actually blew up the inside.

The matter had blown up so much that it could no longer be hidden.

Han Rui finally understood why he had asked Big Horn and Little Qu to come over. It turned out that he wanted to take the blame together!

If the three of them were together, the higher-ups would believe them.

"Alright, let's hurry over. I wonder what's going on there. They should be safe."

"It will definitely be safe."

At the same time, the police car arrived.

Chapter 2028 Exploded (5)

The situation here was chaotic and terrifying.

There were many explosions here, blowing up all the plants planted here. Dust flew everywhere and even caused a small fire.

Moreover, many people had died.

However, the ones who died were the ones who took advantage of the people.

As for those poor people who were captured to be coolies, they all stayed in their rooms.

They were locked inside without any entertainment. They could only eat and drink to ensure their survival. They could only rest at night.

Their lives were bitter, but they could not escape.

Today, when they were about to rest, they heard a terrifying explosion coming from outside. The sound was extremely loud, causing them to be stunned.

The feeling of the earth shaking and the mountains shaking made them think that they were going to die.

However, when all the noise stopped, they realized that there was nothing wrong with the house they lived in. Although their ears were a little ringing, it did not affect anything else.

This surprised them. What was going on outside?

When they walked out to take a look, they were instantly stunned.

Outside, it had already become ruins!

The plants that they had spent a lot of effort to plant had already been reduced to pieces.

Among them, there were many corpses.

This scene was like a scene from hell, making them feel terrified.

The faces of the people who were guarding them also changed in fear.

"Boss!"

"Boss!"

"Heavens!"

These people were scared out of their wits. What exactly happened? Why did it suddenly explode?

But what was certain was that many people had died here!

Moreover, they were the ones who died.

The coolies had escaped because they were resting in their rooms.

They did not know that Qi Xibei and Qiao Yanyu had done all of this on purpose.

In fact, they had no intention of hurting anyone before this.

They only wanted to destroy this place.

However, after knowing what these people had done, they changed their minds.

They wanted to deal with these people.

They were all mercenaries, and many of them were terrorists.

Their hands were stained with blood.

Moreover, they even attacked those poor people.

Just by looking at the blood and bones under the plants, one could tell that many people had died here.

These were all scumbags who colluded with each other. Naturally, they were not qualified to continue staying in this world.

Qi Xibei was more worried that even if something happened here, these people would not be punished.

Instead of being punished, they would hurt more people.

Therefore, the two of them made a decisive decision to deal with these people.

That was why those people could discover their existence through the cameras.

Otherwise, they would not have been able to discover the two of them at all, let alone chase after them.

Now, many of these scums had died.

In the end, there were only a few people left.

The rest of the people had sorrowful expressions as they were stunned by the scene in front of them.

A few minutes ago, they were still existences that were feared by others, but who would have thought that in just a few minutes, the world would have undergone a world-shaking change?

"Who did it? I want to kill him!"

One of them roared and raised the gun in his hand. His expression was ferocious and terrifying.

However, they were not dealing with the person who caused this accident, but these people who were powerless.

Facing the black muzzle, these people screamed in fear and hid to the side.

The man revealed a sinister smile and pulled the trigger.

But in the next second, he screamed.

Chapter 2029 Giant Snake's Rescue

"Ah!"

The man cried out in pain. His veins were bulging and his eyeballs were about to pop out.

This was because a terrifying existence had suddenly appeared in front of him.

A huge green snake!

The snake was huge, and its waist was as thick as a bucket.

However, no one present knew what kind of snake it was.

What was known was that this was a terrifying giant snake!

At this moment, it opened its bloody mouth and bit off the man's hand and wrist.

The bloody scene made everyone scream.

The giant snake bit off the man's hand, and the gun naturally fell to the ground.

The other men who still had guns screamed in fear and fired at it in panic.

After a few bangs, their eyes widened.

When the bullet landed on the snake, it only caused sparks but did not cause any damage.

This snake was actually invulnerable!

It was too terrifying! What kind of monster was this?

Everyone was terrified.

After biting off the man's hand, the snake charged at them again.

Everyone screamed and fled, but they could not catch up to its speed.

They turned around and fired a few shots, but they still couldn't do any damage to it.

After firing wildly, the bullets ran out.

They threw away their guns and ran away in horror.

However, what was surprising was that after these people threw away their guns, the giant snake did not continue to chase them. Instead, it twisted its body and looked at these laborers with its big head. It swayed for a while and then swam away.

Seeing its huge body leave just like that, everyone was still in shock.

"This is... What do you mean?"

"It didn't hurt us?"

"It...Is he here to help us?"

"Yes! It must be here to save us!"

"Definitely!"

"Heavens! We're saved!"

Someone finally reacted.

This giant snake was here to save them!

Just as that person was about to shoot, it appeared!

After those people lost their guns, it left!

It meant that it wanted to force these scumbags to drop their guns!

Now that these scumbags didn't have guns, things were simple!

At the thought of this, these poor people's originally turbid eyes suddenly lit up.

"We can leave now!"

"Kill them!"

"Hurry up!"

Everyone was shouting crazily and excitedly.

They had already seen that many people had died outside. Only a few people were left here.

They didn't dare to escape before. After all, the surveillance here was tight and the area was large.

If they wanted to escape, they might be discovered before they could get 100 meters away.

Those who were discovered would be captured and tortured.

None of them were in good health. Other than a few underaged people, the rest were missing arms and legs.

After all these years, they had lost all hope of escaping this place. They could only stay here in despair day by day. They might suddenly die one day.

The outside world was so beautiful, but they were living such a terrible life.

Now, their savior had finally appeared. They could finally be free!

There were only a few people here, but there were so many of them. One punch from each of them could kill these people!

Everyone's originally exhausted hearts were rekindled with hope as they rushed towards those people.

"What do you want to do...I'm warning you, don't mess around... Ah!"

Those people appeared fierce but were weak inside. In the next second, they started screaming.

This was because these people were like vengeful demons, erupting with terrifying power.

Chapter 2030 Purely Interested

Hearing the screams coming from inside, Little Green quickly shrunk its body and left.

It was indeed arranged to save these laborers.

These people had been locked up here for so long that their bodies and minds were already numb.

But no matter what, they could not continue to stay here.

Moreover, he had to provide them with a channel to vent their anger. Otherwise, even if they left, their hearts would still be bound.

Previously, they were trapped here by these demons and could not escape. Now, they could finally escape.

When the police arrived, the remaining people were already on their last breaths.

They looked like they were in pain, and there was not a single good spot on their bodies.

Initially, the police thought that these people had been arrested. In the end, they found out that they were the bad guys.

After understanding the crimes of these people, the police snorted coldly. They deserved it!

Such scum, such a demon, deserved such a punishment!

As for these poor people, he would have to go back and investigate the situation.

After the police dealt with the situation outside, they found that many people had died in the explosion.

What was even more terrifying was that there were many prohibited plants planted here!

Looking at the plants all over the mountain, they all felt their hair stand on end.

This was too terrifying! So many!

Especially when they dug out some bones from the ground, they realized that things were far more terrifying than they had imagined.

In fact, this country was also fighting against drugs, but the people in power couldn't do much.

Who asked the country to be in chaos? They had no way and did not have enough power to solve this kind of thing?

Even if they knew that something was wrong here, what could they do?

Without enough evidence, they couldn't have come here to arrest him.

And to obtain enough evidence, they would have to spend a lot of manpower and resources.

After all, this was private territory, and they couldn't enter at will.

The owner of this place had obviously protected this place very well and did not allow ordinary people to enter. In addition, there was also the informant's tip-off, which made things even more difficult.

Since there was no way to enter this place, there was naturally no way to find evidence.

If they couldn't find evidence, how could they carry out follow-up work?

Therefore, they could only walk step by step.

He did not expect that such a thing would actually happen today. The true face of this place had been exposed.

I wonder who did it. It's too amazing!

Seeing that the police were all moving, Han Rui and the other two looked at each other and then left carefully.

Before they left, they left behind some information and materials.

He believed that the police would know what to do after getting this information.

Looking at the mess that covered the mountains and plains, they were also shocked.

As expected, the damage caused by those bombs was too terrifying.

If they had come by themselves, they definitely wouldn't have been able to do this.

Fortunately, Qi Xibei and Qiao Yanyu were here. Otherwise, they would have a headache again.

"The two of them are really awesome!" Big Horn praised.

"I wonder if they are interested in joining us?" The district said the same.

"They are not interested." Han Rui shook his head.

"You haven't even asked, how do you know?" Big Horn was unhappy.

"No need to ask." Han Rui shrugged. "They have their own careers. These are purely interests."

Big Horn and Little Qu looked at each other speechlessly.

He was an amateur and did these things for fun...Why was the difference between anyone so big?

This was too much!

If they joined, wouldn't the other missions be easier?
