CCW Chapter 7330

That way, he would not need to report anything concerning Rachel to Wu Feiyan. The matter could simply be dealt with internally within the Left Army Command.

By then, he would have made enough money, and Rachel would be permanently silenced. That would be the most advantageous outcome for him.

Nevertheless, Rachel's attitude had reassured him somewhat. It seemed that this young woman was genuinely loyal to him. At least for the time being, he did not need to worry that she might reveal his secrets to Wu Feiyan after marrying into the Rothschild family.

Of course, Rachel had merely expressed her loyalty. That did not mean Wu Yongzhen could completely put his mind at ease. Still, her words had accomplished at least half of what he wanted.

In reality, although Rachel was young, her social experience and ability to deal with people were far superior to those of ordinary adults—even many seasoned business professionals.

As a scholar, she had undergone two kinds of rigorous training since childhood.

The first involved developing the skills necessary to integrate into society, such as academic performance and particular artistic or athletic talents.

The second involved acting.

She had to develop exceptional acting skills from an early age, skills so refined that they would leave absolutely no trace of deception. Only then could she gradually approach her targets during infiltration missions.

Consequently, her acting abilities and the psychological composure that accompanied them were even stronger than those of Wu Yongzhen sitting opposite her.

Before attending the banquet, she had already thoroughly thought through the entire situation and its underlying logic.

She knew that the moment Wu Yongzhen needed her most was right now. Before Charlie made his move against him, all she needed to do was make Wu Yongzhen feel as reassured as possible.

As for whether she would eventually marry Robert Rothschild, that decision had absolutely nothing to do with the Rothschild family's wishes. It depended entirely on her—or, more precisely, on Charlie.

If Charlie managed to deal with Wu Yongzhen, she and her family would undoubtedly gain their freedom. At that point, there would be no need for her to continue pretending with Robert.

Of course, that was unless Charlie, like the Qing Restoration Society, also needed her to infiltrate the Rothschild family.

However, judging by the current situation, that possibility was extremely slim.

Charlie's control over the Rothschild family was unprecedented. He could directly command the Rothschild heir. Someone like Robert, who belonged to a collateral branch of the family, was practically insignificant in his eyes. There was absolutely no need for him to plant a spy within Robert's family.

To put it bluntly, even if Robert's family installed surveillance cameras throughout their own home and secretly handed the surveillance account credentials to Charlie, he probably wouldn't even bother opening the application to take a look.

Therefore, unless Charlie forced her to marry him, she would definitely never marry Robert for real.

After all, marrying Robert would only elevate her family's standing within the Qing Restoration Society. But that was not necessarily a good thing.

Sometimes, it was the unremarkable and inconspicuous scholar families that survived the longest. Those who pursued an overly aggressive path often ended up seeing their entire families destroyed.
