

Cruel Heart Lover Novel

Chapter 671

However, the facts are in front of us.

Under the palm of his hand, Daniel's heartbeat was so chaotic as if he had been infected by a virus, and he missed a beat several times.

Only then did Selena have to believe that she had indeed used too much force.

So, she started pushing the pot...

"Well, you can't blame me... If you want to blame it, you can blame your brother... He taught me this idea... It's all because he is too dirty..."

Actually, I really can't blame Saul for this, Saul completely led her in the direction of purity and safety, who would have known that there would be something wrong...

At this moment, in China, in Saul's villa.

A certain little koi is hugging a pillow and weeping silently. The good times are coming to an end, and I don't know what kind of miserable life it will be in the future!

Otherwise, forget it if he runs away from home, no, no, let's go straight to the empty door, and bring the little baby together...

If you beat him to death right now, you probably wouldn't have thought that Selena was going to treat other men by the stove, but ended up undressing his brother...

At this moment, Daniel was staring at her with blazing eyes, his eyes were like x-rays trying to penetrate the most secret corners of her body.

Selena looked a little nervous, "What's wrong?"

Daniel reached out his hand and touched her forehead.

After a while, I touched it again.

After a few seconds, I touched again.

When Daniel touched it for the fourth time, Selena finally couldn't bear it any longer, and pressed his hand down, "Don't touch it! Your forehead is almost callused, I don't have a fever, I don't drink alcohol, I don't sleepwalk. Very sober..."

Daniel looked at her with an unusually serious expression, "Are you sure it's me?"

Selena: "Definitely, definitely and definitely!"

Daniel: "Why?"

Daniel couldn't be blamed for having such a reaction and questioning, even now he felt that he was dreaming.

In fact, what happened tonight was definitely the biggest change and accident in his life, and it would not be an exaggeration to say that it overturned all his logic and common sense judgments.

Selena confessed to him, but she actually said... that she likes him...

The person she confessed to was not someone else, but herself...

Totally impossible, but it happened.

Why? Hearing this question, Selena was in a daze for a moment.

What Daniel asked was why him.

But she was asking herself why she finally spoke up, why she still told him...

In such a sudden and unexpected situation, she didn't even think about it.

At first she thought about burying her love for him for the rest of her life, but later she wanted to wait for the time when she could stand side by side with him, but in the end, her plan changed again and again.

It can only be said that... as far as love goes, I can't help myself.

From the moment when her eldest brother told her that satan asked her to meet her in Philadelphia, until the day before yesterday when she was on the verge of life and death, her thoughts almost changed drastically.

At the moment before she thought she was going to die, what she regretted the most was that she didn't let him hear what she said to Daniel during the fireworks display in the amusement park that day.

We never know which will come first, the future or the unexpected.

If you can, don't wait for tomorrow, don't wait for the future, what can be done is right now, right now, just say it and do it.

That's why.

So, although she was still a little impulsive about confessing to Daniel, at this moment, she didn't regret it at all.

When Selena raised her head again, there was only a dazzling light left in Selena's eyes. She looked at the man with an obviously tense expression, kissed the corner of his mouth, and replied, "Because... I found... I really like eating more. Cabbage..."

Chapter 672

"Because... I found... I really like eating cabbage more..."

As soon as the words were finished, before she could leave, Daniel's frozen eyes suddenly lit up, and he grabbed the back of her head in an instant, deepening the kiss...

Different from every shallow touch of a girl, the moment she touches it is to pry open her teeth, to attack the city and seize the land...

The room is so quiet that you can hear a pin drop, only the ambiguous sound of water stains and the subtle sound of clothes rubbing against each other. In this quiet night, the air is easily ignited...

Daniel hugged the person and the quilt together in his arms. At the end of the kiss, his palm uncontrollably penetrated into the quilt, from the graceful and slender neck to the most beautiful butterfly bone on the girl's body, along the edge from the back sliding all the way to the tailbone, until it touched the only fabric on her whole body...

This girl is really completely vacuum inside, except for a thin pair of panties, she is not wearing anything... She took it off completely.

"Damn it..." There was a trace of collapse on Daniel's face, he pressed her jaw and kissed her more fiercely.

Selena's brain was in a daze, and the base of her tongue was numb from being sucked. She felt a pair of rough fingers moving on her skin, causing her to tremble. nauseous feeling...

Even though she knew that the other party was almost on the verge of losing control, she was still at ease...

Just because this person is him.

The next second, the body was placed back on the big bed behind him. In the darkness, the man's eyes locked her tightly like a beast that had been hungry for thousands of years, "Put on clothes."

Selena's breath was messy, her chest heaved violently, she was stunned when she heard the words, "Huh?"

After waking up a little, Selena blinked her eyes, and asked, "Are you sure you want me to wear it? Why do I feel that this follow-up development is not quite right and not following the script?"

"What's the script?" The man looked at her with an unusually hoarse voice.

Selena thought about it seriously, "Anyway, it's definitely not the male lead who asked the female lead to wear clothes! Isn't it after exchanging heart-to-hearts with each other **Water and milk blending with the warmth of the hibiscus tent** or something..."

Daniel gritted his teeth, and bit her lips as punishment, "Are you sure your body can handle it now?"

The dangerous tone made Selena tremble immediately, her head shook like a rattle.

Even if she was alive and kicking without injuries, she still felt choking...

"Uh...wait! This shows...you really thought about following the script? It was only because of my injuries..." Selena thought, and then said quietly, "I remember... When we first met, someone told me that we only accept sexual relations based on marriage?"

Daniel narrowed his eyes slightly, revealing a cold light: "Aren't you going to be responsible for me?"

Selena was stunned again, then stopped him and said, "What's wrong... The script is still wrong... Shouldn't men be responsible for women?"

Daniel nodded slightly: "It's also possible."

Selena: fell into the pit. Talking to the big devil really can't distract you at all...

So, this night, Selena had to start thinking about another problem...

The confession is just out of passion, so what happens after the confession?
How to deal with it?

What kind of relationship is she and Daniel now...?

Chapter 673

Outside the window, the night is as cool as water.

The room was filled with heating, and on the big warm white bed, the girl's delicate body was trapped in the soft quilt, her breathing was long and steady, and she was sleeping soundly.

Daniel sat on the bed, wrapped his fingertips around the girl's hair, quietly looked at the girl's sleeping face, and stayed up all night.

Her every word, every word, every frown and smile repeated in her mind.

She said, Daniel, I like you, very much, very much...

She said, because I found out that I really like cabbage more...

One second before, he fell into the abyss because of Saul's phone call, but the next second, he was saved...

He has always liked to be in control of everything, and he doesn't like the feeling that things are out of his control, but the girl in front of him is a completely uncertain factor, which may bring him unpredictable situations in his life at any time.

Just like his doom, there is no escape.

But also, do not want to escape.

Although he didn't sleep all night, Daniel didn't feel sleepy at all, instead he was very energetic.

When it was close to the early morning, he was keenly aware that there seemed to be someone outside the house.

So Selena tucked the corner of the quilt, then pushed the door and went out.

Sure enough, there was a man standing under the eaves outside the door, with a pile of cigarette stubs under his feet, and he didn't know how long he had been there.

Seeing Daniel come out, the man raised his head, his voice was hoarse, "boss..."

At this moment, Karl, who was always high-spirited and carefree, had a pale face, an unshaven beard, and a heavy shadow under his eyes, making him look extremely haggard.

Daniel didn't seem to be surprised by Karl's state, he just said coldly, "Have you seen it?"

Karl nodded with difficulty, and after hesitating for a long time, he asked, "The things you showed me...are they true?"

"A friend of mine in the military found it. You should have heard of the Mo family in the imperial capital." Daniel replied.

Karl's face suddenly became silent, completely ashamed. Daniel's words were undoubtedly the last straw that broke the camel's back...

Of course he knew about the Mo family in the imperial capital. The old man of the Mo family was in charge of the Ministry of Foreign Affairs of China. For this kind of thing, it's fine if you don't investigate it.

Karl closed his eyes in extreme pain, his body trembled slightly, and murmured inaudibly, "I regret it... I knew it earlier... I might as well be confused... Why bother to find out the truth..."

"The half-year deadline has come, and my promise has been fulfilled. From now on, you can decide whether to stay or not," Daniel said.

Karl rubbed his chin, "Well, isn't it too bad for you to say that? I've spent more than half a year with you and done nothing!"

"You saved her."

Raising soldiers for a thousand days and using them for a short time, so there is no loss at all. And, this is his most correct decision.

"Uh, okay..." Karl said, sighing, "Hey, where else can I go now... This time I was completely exposed in order to save my junior sister, boss, please take me in! If you don't cover up Look at me, and I'm going to die!"

"The Mo family intends to recruit you into the military. I wonder if you have the will? Your past identity and everything can be erased," Daniel said.

Karl was slightly startled when he heard the words, and remained silent for a long time, before finally refusing, "Forget it, there's nothing to do in that ghostly place, there's no freedom at all! Boss, can you arrange an ordinary job for me? Hey, I'm a little envious of my junior sister... I suddenly want to live a normal life..."

"Yes. You can go to Cheng Feng, and he will arrange it for you."

"Then thank you, Boss..." Karl said gratefully, and then, out of the corner of his eye, he inadvertently glanced at Daniel's exposed shoulders, and the end of his voice picked up, "Yo...was it intense last night?"

Chapter 674

Daniel lowered his head and took a look. The red marks on his shoulders were inadvertently grabbed by Selena.

"When will you drink your wedding wine?" Karl teased.

Daniel's icy eyes melted slightly, "Look at her."

Noticing Daniel's obviously softened outline and indulgent expression when he mentioned Selena, Karl couldn't help showing a trace of worry in his originally smiling eyes.

look at her?

If you look at Junior Sister, wouldn't you be able to drink this glass of wine for the rest of your life?

As far as he knew, Junior Sister was a staunch non-marriage advocate!

He really didn't believe that anyone was capable of abducting her into the grave of marriage, even if that person was Daniel.

He didn't know what kind of relationship Selena and Daniel had at the moment, nurturing? lover? Or is it a lover?

No matter what it is, he is actually not very optimistic about these two people, because there is a big gap between them in terms of personality, occupation, life background, and even values.

The hot-tempered and unrestrained temperament of the little junior sister, and Daniel's arrogant and lonely Wannian iceberg, this godlike combination is simply too unreal and unbelievable.

It is completely impossible to imagine how these two people get along when they are together, including the position on the bed...

In the morning, Selena opened her eyes in a daze.

Subconsciously looking around, he saw that Daniel was already awake on the opposite sofa. There was a laptop on the seat, and he was concentrating on looking at the densely packed digital charts on the screen. The silk shoulders seemed to have coated him with a layer of golden light, which was unbelievably beautiful.

It made her think of a sentence inexplicably, the most beautiful thing in the world is to wake up in the morning, with sunshine and you by my side.

As if he had sensed the gaze on him, Daniel raised his head from the screen, slightly raised his gaze, and met the girl's gaze.

"Woke up."

"Yeah." Selena nodded in confusion and yawned.

Daniel put down the computer, stood up, walked to the bed with slender legs, leaned down, and kissed the girl's lips.

Selena: "Um..."

In the beginning, it was just a light k!ss, but in the end the k!ss got deeper and harder, and the wet feeling spread all the way to the neck, leaving red marks one after another...

Selena subconsciously arched her body, her fingers gripping the bed sheet under her body.

Just after waking up, there was an overwhelming k!ss, Selena was dizzy. Although her consciousness was not clear yet, her body was already awake.

When the man's head was buried deeper and deeper, Selena finally started to panic, and stretched out her hand to push him, "Hey... early in the morning..."

"You seduce me first." The man's voice was hoarse.

Selena's head was full of black lines, "I seduced you... When did I seduce you? I just woke up, so I did nothing but open my eyes!"

"You look at me with that kind of eyes." Daniel's dark eyes locked on her.

"What kind of look?" Selena blinked and recalled.

Well, the look in her eyes when she looked at Daniel just now...seemed to be something wrong...

Because I expressed my heart to Daniel last night, let go of my defenses, relaxed and stopped covering up, it was inevitable that I would reveal my true feelings.

Selena held the man's face and couldn't help laughing, "Master Boss, you are too easy to be seduced, right? Where's the promised abstinence male god?"

Chapter 675

The man responded by kissing her again...

"Selena..."

"Ok?"

"Let's go home. The doctor said that your injury has stabilized and you can leave."

"Okay! I want to go back a long time ago!"

The two lay on the bed again for a long while before finally getting up.

When Selena was putting on her clothes, she saw that she was very sad. There were dense hickey marks on the neckline and even down the neck...

Fortunately, it is winter, so you can wear a high collar to cover it up.

It's just that when asking for a turtleneck sweater from the little nurse, it's inevitable that it's a little embarrassing.

The little nurse looked young, but she was already married, and she knew why when she heard Selena's request, and said immediately, "Oh, Mr. Lu, it's true, madam, you still have injuries! Why don't you know how to control your body?" One point! The wound must be open, right? That part is easy to be touched... I also specially reminded him that it is best not to have intercourse during this time..."

Selena's injury was close to the base of her thigh, if she did something, the wound would be easily torn...

The little nurse was so worried that she kept nagging.

Selena helped her forehead, so she had no choice but to speak directly, "Miss Nurse, don't worry, we didn't do it."

Embarrassing, I didn't expect the nurse to remind Daniel of that kind of thing, she is so dedicated...

"Ah... no... it's good if you don't! Mr. Lu really loves you!" However, the little nurse didn't feel relieved because of this, but was even more worried, "However, holding on like this is not good for Mr. Lu's body." Alright! Otherwise, let me teach you some other methods, you can solve it without doing it, you don't need to be shy..."

Selena: "Uh..." There seems to be something wrong...Miss Nurse, why did you suddenly teach intercourse surgery?

"What are you talking about?" At this moment, Daniel stepped in.

Selena hurriedly put on a pure expression: "It's nothing!"

"Let's go, the ticket is booked."

"Yeah." Selena stretched out her hands naturally.

Daniel walked over, leaned over and picked her up.

When the two left, the old minister took a large group of people to see off the plane, and the scene was extremely grand.

It made Selena feel a little guilty because of her acting skills.

When returning home, Daniel booked an international flight and did not use a helicopter because the passenger plane was relatively stable.

The space in the first-class cabin was large and comfortable. Daniel helped her adjust the back of the recliner and covered it with a cashmere blanket, "Go to sleep."

"Can't sleep..." Selena shook her head, worried, "Daniel... Tell me, what if Minister Naka and the others find out that you lied to them? It won't cause any international disputes, right?"

Daniel chuckled, "Then I have to ask Madam to save me."

"Uh...?" Selena was taken aback for a moment. Could it be that Daniel meant that the fake show was real?

Not wanting to embarrass her, Daniel stopped the topic in time and rubbed her head, "I'm just kidding, don't worry, they've already got what they want, so it's okay if they know."

Selena nodded, and finally felt relieved.

After Daniel finished speaking, he suddenly looked at her steadily, "Selena, can I ask you a question?"

"what?"

"Why did you choose... me in the end?"

"Is this a question... um... let me think about it..." Selena pondered for a long time, and then replied, "Of course, one percent of the reason is because you are mature, stable, reliable, and good-looking. So spicy..."

Daniel raised his brows slightly: "Is there still 99% left?"

Selena blinked: "Ninety-nine percent, of course it's because of Rick!"
