

Chapter 51 - GiGi Never Learns - Part 1

The Next Day..

Lacey's PON

It's incredible the things that can inspire someone and make them wanna do better in life

It's especially incredible for someone like me who is a writer and constantly needs to be inspired and motivated to wanna work and be creative

Before I came back to New York, I was in the middle of writing a new werewolf series but now I've decided to be a multitasker and write

another book which I've been inspired to write thanks to my handsome husband and wonderful kids

Most billionaire love stories I've read, always feature the same tropes of a cheating spouse or he accuses his innocent partner of cheating or

he's abusive and even though they're good books, they get kind of tiresome, so I've decided to write a new book which features a man

inspired by my own

Logan is a unique man and is a far cry from what most men of his status and wealth are like

Even though the main character in my new book is based off my husband, I'm going to include a little bit of danger in there as well and I'm still toying with the idea of making it a mafia story but I think that may be too much

I haven't told Logan about my alter ego yet but I plan to soon because I don't want to keep any secrets from him, it doesn't matter how big or

Chapter 51 - GiGi Never Learns

small they are

Even the smallest of secrets kept from your partner is enough to cause major doubt

I'm currently at home sitting in my office which Logan had secretly arranged for me while we were in London and I'm honestly over the moon with it

The room is a sleek and classy black and white colour with blue neon lighting going around the borders of the room and also under my desk and on the shelves

My desk is a huge white table with a nice comfy white office chair and the latest Apple desktop and accessories

The walls are bare except for a clock and a couple of framed pictures, one is of the stunning Marilyn Monroe and the other is of Taraji P

Henson's character from Empire

You're probably wondering why I'd have a picture of Cookie Lyon on my wall, well, it's simple she's freaking iconic, that's why, she's also one

of TV's most memorable characters and her one-liners are classic, not to mention Taraji is just stunning in every way possible so, why not?

Logan also told me he kept the walls bare so that I could hang pictures of us and our kids up on them which I plan to do very soon, he's even set up a little Christmas tree in the corner of the room, that's how cute and adorable he is

Anyway, I've been sitting in my office all morning working on my new book and right now, I feel like Jim Carrey in God Almighty with how fast I'm typing

I'm all alone at home, well, except for the staff because Logan had to go to the office and the kids have gone out with Logan's parents for the day

Logan Junior wasn't keen on going with them but I encouraged him to go because he needs to learn to let down his walls and welcome other people into his inner circle

Twelve was close to finishing the current chapter I was working on when my phone started ringing

"Hello"

"Hey, darling"

Abby greeted me and I smiled

"Hey Abs, how are you?"

"I'm not so good, sweetheart"

She says confusing and worrying me

"Why? what's wrong? is everything ok"

Task and she lets out a sigh

"Lacey honey, is there anything you wanna tell me as both your friend and your agent?"

She asks and I drop my head in shame

"Actually yes, there is something, Abby but in my defence, you can't get mad at me for not telling you because everything happened so fast

and it's honestly just been one thing after another lately"

"What is it, Lacey?"

Abby asks with a slight growl in her tone

I let out a sigh and told her everything that happened from the invitation my family sent me, to Logan coming back into my life and us

getting married to us coming back home to New York

Abby was silent as I spoke and she was silent for a few seconds

afterwards as well which I didn't think was odd because I had just given her as**t ton of information that she wasn't expecting

Chapter 51 - GiGi Never Learns. vw

So, let me get this straight..Logan Black, THE Logan Black is the father of your kids, he came all the way to London to get you back and he

succeeded, you all are now married and living together in New York and you all announced your marriage to everyone at Duke and Bunny's

Christmas party last night, am I hearing this right?"

She asks me and I nod my head

"Yes, you are"

"I can't believe this"

Abby said barely above a whisper and I narrowed my eyes in confusion

"Why? what's up, Abs?"

"Two words, doll, gold-digging, attention-seeking hoe"

"That's four words, Abs or five if you consider the first word as two and not one"

"Huh...oh yeah"

She says and I chuckle

For a smart woman, Abby can be quite dumb and ditsy sometimes but I still love her anyway

"Anyway, what are you talking about, Abby? who has got you wound up so tightly?"

I asked her thinking it's nothing but then she asked me a question which instantly put me on alert and made me feel angry

"Do you know a woman called GiGi Addams?"

She asks and I roll my eyes

"Unfortunately yes I do, why do you ask?"

“Well.”

Abby drifted off and I got the feeling she was hesitant to tell me what's

Chapter 51 - GiGi Never Learns

on her mind

“Abby, what is it?” “Ok fine, I'll tell you” Abby says annoyed

“This GiGi chick was on Good Morning America this morning as well as several other trashy talk shows giving interviews and acting like the

hard done by princess she's clearly not and acting like she's had her precious little heart broken by her billionaire fiance Logan Black who

according to her, dumped her so that he could marry his mistress Lacey Carpenter who has tricked him into thinking her three babies are

his” “WHAT?” I growled angrily

“That's not all doll, she even claimed that the real reason why you initially left New York is because Logan refused to marry you and said

you'll always be his w***e and never his wife, so you ran away and when she was questioned about why you all are married now if that's the

case, she said it's because he found out about the kids and he didn't want them growing up in a broken home, so he sacrificed his happiness

with her for the happiness of his alleged children” What the f**k?

“Please tell me you're joking, Abs” “I wish I was joking, doll but I'm not, the worst part is that this isn't the only interview she's done, she's

done a few others as well and I've heard from some of my friends who work for America's top magazines and newspapers that she's

planning on selling her sob story to any magazine who'll offer her big money for it"

Urghtt, that trashy skank

Chapter 51 - GiGi Never Learns. 4

Just wait until I get my hands on her, she won't know what's hit her when I do

"I'm gonna f=++g kill her" I growl down the phone

"No, you're not, Lacey, you're not gonna do anything, you're gonna sit back and let me and Logan's people sort this out"

"What do you mean? what are you gonna do?" I ask feeling both confused and pissed off

Twas confused because I didn't know what she meant and I was pissed off because I really wanna f**k this b***h up

"Just trust me, doll, that girl is gonna wish she'd never messed with my family by the time I'm done with her"

She says and I smile

"Thanks Abs, I don't know what I'd do without you"

"Oh you'd be lost and your life would be dull, especially my poor nephews and niece's lives who would be stuck with only Carmella for an auntie"

Abby said and I chuckled

"Anyway, don't worry about this, Lace, I'll get it sorted out for you" "Thanks again, Abs, you're an angel"

Actually, she's more like a Pitbull, especially when it comes to protecting her family and loved ones from people like GiGi Addams

"You're welcome, doll, anyway, I've gotta love you and leave you, babe, I'll see you later, ok"

"Ilove you too, Abs...bye"

lend the call but I was still feeling pissed off

I tried to calm myself down and concentrate on my work but I couldn't

so instead, I called Ruth to make sure the kids were ok to stay with them for a little while longer before I headed out to my car

I didn't know where I was going or who I was going to see but I knew! couldn't just sit around doing nothing and I had to do something

about this sneaky, manipulative snake which was roaming around my family garden

I warned that b***h to let Logan go and to stay away from my family but here she is not heeding my warning

You better watch out GiGi because you just pissed off the wrong woman

Logan's PO

Being a powerful billionaire CEO has got many wonderful perks but it's also got a lot of downs to it as well, like for example, long ass

meetings with boring people or folk you can't stand, doing a s**t ton of paperwork, long hours, early mornings and late nights etc

Don't get me wrong, I love my work and I definitely love being my own

boss but I love my family even more and I'd much rather be hanging out with them or making mad passionate love with my sexy wife than

be here

Urgh!

Just thinking about my beautiful wife who I had to leave naked and alone in bed this morning is giving me a major f*****g hard-on

Last night was a rollercoaster of a ride for the both of us

There were a lot of highs and lows and I honestly thought from my tired wife's reaction in the limousine on our way back home that she'd

want to go to bed after putting our children to bed but no, she was more wired than ever and we were up until the early hours of the

morning just making love to each other

It was a glorious night and I'd happily go to work exhausted if it means I can spend every night of my life getting lost in my wife's body like I

did last night

BZZZZ!

My intercom buzzed and I groaned in annoyance

“Yes, Sophie”

"Sir, Mr James Carpenter, Mr Justin Carpenter And Mr Liam Carpenter are here to see you"

Lord give me strength

"Send them in"

Isit back in my chair and sighed in frustration as I run a hand over my face just as my in-laws walked into my office and all three of them

looked absolutely furious

Great, just what I need

"Good afternoon gentlemen, to what do I owe this pleasure?"

"We're not here to fight with you, Logan, we're here because of this"

Justin says as he throws a bunch of magazines and newspapers on my desk

At first, I was pissed at the audacity of this i***t but then my eyes narrowed on one of the gossip magazines in front of me and my eyes

widened when I saw a picture of myself and Lacey as well as a picture of our children and another one of that b***h GiGi from last night and

the headline made me wanna throw my fist through the nearest wall

Billionaire Bachelor Logan Black Dumps America's Sweetheart GiGi Addams For Lacey Carpenter And A Ready Made Family

What the fk?

I picked up the magazine in question and I read through the interview

It made me feel f****g apoplectic because it paints my Lacey as a homewrecking w***e, our kids as bastards, myself as a pig and GiGi as a victim

Chapter 52 - GiGi Never Learns

"What the f**k is this?" "It's a one-woman crusade to defame my daughter, that's what it is Logan" James Carpenter growled and I could tell

from the look on his face that he was trying to rein in his anger and keep himself calm and

'composed, his sons however weren't as strong as him

"How the f**k could you allow this to happen, Logan? how can you let this w***e treat our Lacey like she's a piece of crap?"

"What? like you guys did six years ago?" I ask and they all look at me with guilty expressions

"Look Logan, we know we all f****d up and we wanna make things right with my sister but we can't do that if it's constantly being thrown in our faces like this"

"Whatever you say, Justin" I say as I run a hand through my hair

"Anyway, I haven't got a clue what this is about and I certainly didn't know that GiGi was gonna pull a stunt like this, if I did then I never would've allowed it to happen"

"We know you wouldn't, Logan" Liam says and I let out a frustrated sigh

"I'll get this sorted out, I promise, I'll get my lawyer to threaten every

single one of these bloodhounds with a defamation lawsuit if they don't retract these stories and issue a public apology to me and my family”

"Twish it was that simple, Logan but it's not" "What do you mean?"

Task as I look up at my father-in-law who looked both distraught and pissed off

Chapter 52 - GiGi Never Learns. ~"

“Like I told you before, son, GiGi Addams has gone on a one-woman crusade to defame my baby girl which includes selling her so-called story to magazines, newspapers, radio and TV shows, I wouldn't be surprised if the b***h has gone global with her lies”

What the fk?

I growled to myself just as my phone started ringing

I was so pissed off that I forgot all about manners and being pleasant when I answered the call

"WHAT?" This is from

I growled down the phone

Right now I wasn't Logan Black the successful billionaire businessman and entrepreneur, no, I was Logan Black the husband and father who was absolutely livid and I didn't need useless phone calls right now

“Sorry, I'm looking for Logan Black but I must've gotten the wrong number from my best friend who told me you were a charming and polite young man”

The lady says and I scrunch my face up in confusion

"What? who is this?"

"My name is Abigail, Abigail Walters and I'm your wife's best friend, how do you do, sir?"

Huh

Lacey never mentioned a friend called Abigail to me

"I'm fine and you?"

"Not good, I assume you've seen and heard the news that is spreading about yourself and Lacey?"

"Yes, I have"

"Well, I'm not happy about this, Mr Black, Lacey is like my little sister

Chapter 52 - GiGi Never Learns

her kids are my nephews and nieces and I don't like that someone is defaming my family like this"

You're not the only one, love

"I'm not happy either, Abigail and I promise you, I plan on getting this sorted out, ASAP"

"Oh, don't worry your cute little self, Mr Black, I'm already on it but I'd love it if you could give me the number of someone who is high up

on your team so that we can work together to clear my friend's name"

She says and I don't know why but I feel like I can trust this girl without speaking with Lacey first

"Please call me Logan and sure, I can give you my lawyer's number, I was gonna call him anyway to file a lawsuit against GiGi and everyone

she's spoken to today you just beat me to it"

"That'll be great, thank you"

1 gave this Abigail chick my lawyer's number and she made it clear to me that she was going to do everything within her power to avenge

my wife and kids before hanging up

I don't know who this woman is but if she really is my Lacey's best friend then I'm happy and grateful that she's got someone other than

myself and Carmella in her life who is fiercely over-protective of her

She sounds like a right Pitbull and I can't wait to see what this girl is gonna do even though I've already got both a plan A and plan B in

place to take care of my former friend

GiGi did all of this even though she had been warned multiple times by at least three different people, so 1 need a couple of plans in place

just in case she continues to be a nuisance

Luckily for me, I've got friends in high places so I only need two plans

Chapter 52 - GiGi Never Learns. ba and I really hope I don't have to use plan B on her

"Who was that?"

"It was a friend of Lacey's, she's not happy with GiGi either and plans to get all of this s**t sorted out for us"

"Wait, you're entrusting something as serious as this with a stranger?"

Liam growls at me and I glare at him

"Yes, I am, Liam"

"Why?"

James asks me and I let out a frustrated groan

“Because I am, James...she said that Lacey was like her little sister and our kids are her niece and nephews, that's what makes me trust her”

“Your kids”

Justin says as he picks up a picture frame from my desk which has got a picture of myself, Lacey and our kids from our wedding day in it

It was gifted to me by Bunny who told me that every man should have at least one picture of his family on his desk and I couldn't contain

the proud smile on my face when I first put it there

It may seem cheesy but! don't care because I love it and I love looking at it

“They really do look like you, well, except for the little girl, she's Lacey's carbon copy”

Justin says with a smile as he shows the picture to his dad and brother

James took the photo from Justin and I swear I heard a sob coming from his mouth when he did

Chapter 52 - GiGi Never Learns. 4

“She looks so beautiful and happy, I don't think I've ever seen her so happy before in her life even when she was with Dylan” He says and I

groaned at the mention of that prick's name

“That's because her love for me is completely different from when she loved that prick and our love is ten times stronger for each other, you

may not like it and you may not be happy that Lacey now belongs to me but you

need to accept it"

"We do accept it, son, we were just shocked that you guys were married"

James says and I narrow my eyes at him

"It shouldn't be that shocking to you all James considering I asked both you and Justin for your permission to let me marry her"

Isay and he looks at me shocked

"I didn't think you were being serious"

Yeah, that old f*****g chestnut

"Wait, you knew where she was this whole time and didn't tell us?"

Liam asked me and I had to resist the urge to roll my eyes like a teenage girl and facepalm

"Of course I didn't know, i***t, do you seriously think Lacey and I would be newlyweds if I knew where she was this entire time? do you think

our triplets would be the only kids we would have now if I knew where she was, huh?"

growl at him

"Look, I didn't know, ok, I only found out recently where she was and I wasted no time in going to see her and bringing her back home

where she belongs"

Chapter 52 - GiGi Never Learns. ba

"Do you think she'll ever forgive us?"

Liam asks sadly and I let out a sigh

"I honestly don't know, Liam, only Lacey knows if she can forgive you all or not"

Itell them honestly and they all dropped their heads in defeat

Urghtl, I hate seeing them like this

I thought to myself while sighing

"Look...you guys and your family need to realise that you all have deeply hurt my wife...if you really want her forgiveness then you need to

own up to everything you've done instead of playing the victims and making Lacey out to be the villain, you also need to make things right

with not only her but with the public and the media as well..GiGi wasn't the first one to tarnish Lacey's reputation with lies, her own family

was and it's not right or fair..she doesn't deserve that"

Isay and they nod their heads

"You're right she doesn't and we plan on rectifying that"

"How?"

Task and James shakes his head

"I don't know but I'm..no, we're willing to do anything it takes to get our princess back and to be grandparents and uncles to these precious babies"

"I hope so"

And I really do

Thope the Carpenters can make things right with my wife, not just for them or for Lacey but also for our kids as well

They deserve both sides of their family not just mine

Chapter 53 - GiGi Never Learns - Part 3

Logan's POWV

What a day today has been

It's been so tiring and hectic and it's only an hour or so past midday

After the Carpenters left my office, I received a phone call from my lawyer who wanted to discuss this GiGi situation with me and he also

wanted to verify Abigail's cooperation in it which I did

He also informed me that he's sent cease and desists out to every single tabloid, talk show and radio show that featured GiGi and her lies

which have now tarnished my wife's reputation, as well as sending one to GiGi and her management team

My lawyer also informed me that he's threatened all of them with legal action on my behalf if they dare to slander either myself or Lacey

again or if they bring up our children

It's one thing to bring Lacey or me up because we're adults who can and will protect and defend ourselves as well as each other but you're

crossing a damn line and a very dangerous one when you bring our minor babies into it

"Miss Walters and I also think it would be in both yours and Mrs Blacks best interest if you give a public statement and let the whole world

know the truth about your relationship with your wife and also expose Miss Addams for her lies"

My lawyer says before letting out a sigh

"I know it's nobody's business what goes on in your personal life, Mr

Chapter 53 - GiGi Never Learns

k but I would still recommend that you do as I advise you, the court of public opinion is a hard case to win especially if members of the

public don't have all of the information and only have one side of the story"

"I was actually thinking about this myself, I don't want anyone to think ill of my wife when she's completely innocent in all of this"

"So, are you sir?"

No, I'm not

I was warned many times about GiGi even long before I reunited with Lacey but me being the naive dumbass that I am, I believed she was a

sweet girl who was just trying to make something of her life and it turns out she was but she was using my name and hard work to do it

I was brought out of my thoughts by the noise from my intercom

"Yes, Sophie"

"Sir, Miss GiGi Addams is here to see you"

You've gotta be f*****g kidding me

"Tell her to get lost"

"Ok, sir"

I continued to talk with my lawyer hoping Sophie could get rid of GiGi

or that the b***h would at least take the hint and leave but unfortunately, luck wasn't on my side today

“Hey, you can't go in there, I'm gonna call security”

I hear Sophie shout as my door bursts open and GiGi storms in looking like she's been crying but I knew better than to believe those things

are real

“Logan baby, please listen to me, I need to talk to you, it's important”

"I'm sorry, sir, she wouldn't take the hint and leave"

Chapter 53 - GiGi Never Learns. —

Sophie said with a growl as she glared at GiGi who scowled back at her

“It's ok, Sophie, go back to your desk” "Are you sure, sir?" "Yes, you can go now"

Sophie nods her head and leaves my office but not before giving GiGi one last disgusted look

I know your're all probably thinking it's an awful idea for me to be left alone in my office with this witch but trust me it's ok because I've got

state-of-the-art CCTV in every single corner of this building, well, except for the toilets for obvious reasons and GiGi knows this, so she'll be

stupid if she tries anything

“Hey, can I call you back?”

"Of course, sir, I'll talk to you later”

"Bye"

"Bye"

Thang up the call and look up at GiGi who was acting like a wounded Puppy-

"What do you want, GiGi?"

"I want to talk to you, Logan"

"About what?"

"About us?"

Us?

Is she being serious?

"ust

us"

"You don't mean that, Logan"

GiGi says with a gasp and I glare at her

"Don't tell me what I mean or don't mean, GiGi"

I growl as I stand up from my chair before walking around my desk

"Lacey is my wife, Lacey is the love of my life and she has been for a very long time now, as for you, you've only ever been a friend and

that's all"

"What? but I thought you loved me?"

GiGi asks in the most pathetic voice ever

"L only ever loved you as a friend but now I can't even stand to look at you after what you've done"

"Why? what have I done?"

She asks innocently

/f you don't know then I can't help you

I thought to myself as I let out a sigh and rubbed my forehead

"This is because of that b***h, isn't it? that f*****g stupid w***e who threatened me and manipulated you into marrying her and being her kid's father"

GiGi growled pissing me off

Doesn't this b***h know you shouldn't piss off an already angry wolf?

"You'd better listen to me very f*****g carefully GiGi because I'm only going to tell you this the one time and one time only, ok, first of all,

you'd better watch your f*****g dirty mouth when it comes to my wife and children, do you understand me? I don't tolerate anyone,

especially not

and Lacey's, maybe if you opened your eyes instead of your legs every once in a while and took a good, long hard look at them then you'd

notice they look just like me"

Isaid and she gasped loudly

“And thirdly, you're the one and only reason why I'm acting this way with you, GiGi, you were warned umpteen times by me, my wife and my father to back the f**k off and leave us alone but you didn't and now thanks to you, the whole of America thinks I'm some kind of a scumbag, they think my wife is a nasty homewrecking w***e and my children are bastards while you're the poor innocent little victim in all of this...”

"But I am a victim, Logan, I."

She interrupted me and tried to give me a sob story but I wasn't having it

“No, you're not GiGi, you're anything but a victim... told you numerous times that you and I are just friends but yet again you didn't listen and you went straight to my dad to arrange a marriage between us"

Just a heads up: is the only place to read the complete version of this book for free. Don't miss out on the —visit us now and continue your journey!

“That's because I love you and you love me, I know you do"

"Love?"

I say with a scoff

“Don't make me laugh, the only woman I love is Lacey Black"

"Urgh!l, what does she have that I don't have, huh?"

GiGi says while stomping her foot like a bratty child throwing a strop

“Everything GiGi, Lacey has got everything that I need and want in a woman which makes her my perfect woman who owns my whole heart,

Chapter 53 - GiGi Never Learns. ws she always has and always will, now get lost and leave my property with at least a little bit of your

dignity and pride still intact before I call security and have them throw you out"

"But we're only talking" .

"I don't care, GiGi"

Tsay as I pick up a file and look through it

"My wife won't be happy if she finds out you're here and you didn't listen to her warnings last night"

Isay and she scoffs while rolling her eyes

"I'm not worried about her, Logan"

"Well, you should be worried, GiGi, Lacey's a Carpenter by blood, a Black by marriage and her brother-in-law is a Tate who is willing to do

anything and everything to get back in my Lacey's good books and earn her forgiveness, not to mention he's prepared to do anything

including wiping you off the face of this earth to make her happy. so please do as I say and get out of my building right now and don't ever

darken my doorstep again, I'm done with you"

"No"

She growls at me

"What did you just say?"

I snapped my head towards GiGi and glared at her but my eyes widened in shock and anger when I saw her standing there wearing nothing

but her lingerie and heels and the long, black coat she was previously wearing was now pooled around her feet on the ground

"GiGi, what the f**k?"

"I came here to get my man and I'm not leaving until I've got you"

GiGi said as she stalked over to me like a lioness stalking her prey but just as she was a foot away from pouncing on me, my door burst open and my heart stopped beating for a split second when I saw who was standing there

Chapter 54

Chapter 54 - Don't Mess With Lacey Black

Lacey's POV

"WHAT THE f**k IS GOING ON IN HERE?"

Twass furious, I was livid, I was apoplectic, angry, irate, enraged, whatever word you can think of to describe the pure, unadulterated rage I was currently feeling because I'm all of that and more

After I left the Greystone, I decided to go and see Logan and discuss GiGi's latest shenanigans with him because I didn't wanna just sit back and rely on Abby to get all of this sorted out for me even though she's got more

experience with this than me

Before Abby was an agent for writers she was a lawyer for a top New York law firm but she quit because she hated how demanding the job was for her

Anyway, as I said earlier, I didn't wanna rely on Abby so I went to see Logan but when I got there, my already short fuse was growing smaller and smaller thanks to his employees

First, the security guards and the downstairs receptionist refused to let me through without an appointment but they quickly backed off

when I told them I'm James Carpenter's daughter and Logan's wife

Yes I know, it was a cheap move to use my dad like this when we're not on good terms right now but I don't care because I was angry and these people were making my mood even worse

The next person to test my patience was Miss Thing outside of Logan's office who had the nerve to threaten me with not only being thrown

out by security but also having the police called on me, can you believe that?

Chapter 54 - Don't Mess With L. w)

Now I'm standing in the doorway of my husband's office watching as that half-naked w***e GiGi Addams tries to seduce my man, well, she was up until I stopped her

Logan looked like a frightened deer caught in the headlights while GiGi who was wearing a black bra, thong, stockings, suspenders and

what looked like stripper heels smirked at me and looked like the cat who got the cream

"Well.. 'm waiting"

I growl at the pair but mainly at GiGi who made me wanna forget I was a lady with manners

"Babe, L."

Logan tried to explain but he was cut off by slutty the billionaire slayer
over here

"I'm so sorry you have to find out about us like this, Lacey..actually, I'm not, I told you last night that Logan belonged to me and this proves it"

GiGi says and I smile at her

This b***h thinks she's won..we'll see about that

You know when Beyonce said "you showed your ass and I saw the real you'well, I'm hoping that by doing what I'm about to do, everyone will see the real GiGi Addams for who she really is, and a good tramp who is happy to

break up marriages and homes just to get her way

The only difference is that Beyonce meant it figuratively and I'm doing it literally

"Is that so, GiGi?"

"Mmm-hmm®

I walk into the office and pick up the coat off the floor which I'm

Chapter 54 - Don't Mess With L. wv) assuming is hers from the cheap smell of perfume coming from it

"Babe, look at me, please, I can explain"

Logan was pleading with me to listen to him and focus on him but! ignored him because I was more focused on the thirsty b***h in front of

me and teaching her a permanent lesson shell never forget

I walked over to GiGi and she yelped like the little dog that she is when I grabbed her by her ratty, overly processed blonde hair before

dragging her out of Logan's office and all the way down to the lobby with everyone watching as I did

Ididn't know if Logan was following me or not and honestly, I didn't care, I'll deal with him once I'm done with this w***e

Unfortunately, Logan's floor is high up in this building so I had to use the elevator to get her out of here quicker even though it would've

been more dramatic and painful for her to drag her down every single floor

GiGi was still mouthing off at me during the elevator ride and she even had the nerve to demand s**t from me even despite her current

predicament and she was doing this right up until we got to the final floor where the lobby is

"LET ME GO YOU STUPID f+**+%g b***hil, LET ME GO!!"

"You want me to let you go, GiGi? ok, fine"

I grow as I throw her ass out onto the floor of the very packed lobby

"OH MY GOD, ARE YOU OUT OF YOUR f**++*g MIND?"

GiGi growled as she made feeble attempts to cover her naked self

"Iwarned you last night, GiGi to stay the hell away from my husband, you didn't listen and now you're paying for your dumbass actions"

I'said before calling over a security guard

Chapter 54 - Don't Mess With L. wv)

"Yes, ma'am"

"Escort this person out of this building and make sure she's wearing this when she does, it's cold outside"

I may be a b***h and right now, I may be angry but I'm not the kind of person to throw a half-naked woman out onto the streets, especially

when it's cold and snowing outside even if she is a tramp like GiGi Addams who deserves it

"Yes, ma'am"

The security guard said before going over to GiGi and helping her up

I was about to head back into Logan's personal elevator when I was stopped in my tracks by an irate GiGi

"Who the hell do you think you are, huh? do you think Logan will be happy that you've thrown me out of his office like this?"

"I don't know, GiGi, you tell me...he watched me drag your ass out of his office and he didn't do a damn thing to stop me, did he?"

I say and she looks at me with a shocked expression

"Oh and you asked me who I think I am? well, my name is MRS LACEY BLACK and I'm Logan Black's WIFE, you'd better remember that and stay the hell away from him because I won't be a happy woman if I have to repeat myself to you again, GiGi"

I say while glaring at her and she looks at me with fear

I then turned around and headed back inside ignoring all of the shocked stares from everyone as the doors to the elevator closed

I was still feeling very angry and I must've looked it as well because when I got to Logan's floor, all of his workers had their heads down and

didn't dare to look at me, it's almost like they were terrified to meet my

Chapter 54 - Don't Mess With L. wv)

wrath which makes my mood worse because I don't want anyone here to be scared of me

Even Logan's little blonde secretary was scared to look at me and I had to force her to look up at me whilst trying to keep my voice as calm

as possible

"What's your name?"

S..Sophie, m.ma'am

Sophie said nervously

"Hi Sophie, my name is Lacey and I'm Logan's wife, please don't ever threaten me with the police or with security again, do you understand me?"

"Yes, ma'am"

She says and I smile

"Good girl"

I then head back into Logan's office and I slam the door shut

I kept my back to Logan as I rested my forehead against the door to try and calm myself down .

"Lacey, baby..."

"Is your office soundproofed?"

Lask a shocked Logan

"What?"

"You heard me, Logan..is your office soundproofed?" "Yes, it is, why?"

He asks and I smirk

"Good..get naked"

Chapter 54 - Don't Mess With L. vw.

"What?"

Logan asks sounding even more shocked and confused

"You heard me, Logan...get naked"

His mood and expression quickly tuned to a happy and lustful one when I turned around to face him just as I was pulling my cream blouse

off me

Logan's eyes widened and his lips turned into a sexy smirk as he bit down on his lower lip while watching me strip down to just my

underwear but they were quickly gone as I walked over to my husband

"Wow, my love, you never fail to impress me"

Logan said with lust in his eyes as he undressed himself

When he was finished undressing and he was standing in front of me looking like the sexy Italian god that he is, I closed the space between

us and I wrapped my arms around his neck pressing my chest against his

"You're mine, Logan Black"

I whispered against his thick juicy lips

"And you're mine, Lacey Black"

Logan growled as he crashed his lips against mine and ran his hands all over my body

I didn't wanna make love to him, I didn't want oral or foreplay, I just wanted to have rough, hot, passionate s*x with my husband and

reassure myself that he's mine and ONLY mine

I haven't felt this insecure in my entire life but GiGi has been tapdancing on my insecure button for longer than I care to admit and now

she's pulling stunts like this showing me just how much of a threat she really is to me and my marriage, so I need to reassure myself that

she's not and that Logan isn't going anywhere

I squealed when Logan suddenly picked me up and wrapped my legs around his waist before turning us around and placing me on his desk

He then cupped my face with one hand as he slowly stroked his c**k
em,

against my p**#y with his other hand, all the while looking me deep in my eyes

"By the time I'm done with you, my love, you're gonna know who you f*****g belong to, Lacey"

Logan growled and I threw my head back and moaned when he slammed his entire length into me

"And that's me"

+k, yeah I do

Chapter 55 - True Love Will Conquer All

“True love cannot be found where it does not exist nor can it be denied where it does’

~ Torquato Taze~

~ ~

Author's PO

Francois De La Rochefoucauld once said “true love is like ghosts which everyone talks about and few have ever seen’ and it's true

autiful for those who get to experience it, the same goes for soulmates

I don't know if Logan and Lacey know this but the pair are soulmates who share a neverending true love, a deep connection and one hell of an intense passion for one another

The couple also share a mutual respect and trust with each other This is from Even though Lacey had every right to doubt her husband when she walked in on him alone with a half-naked woman, she didn't and that's

because she trusts her husband and knows that he would never ever intentionally hurt or betray her

Lacey wanted to make sure Logan knew how much she loves and trusted him, so as soon as she came back to his office after disposing of

the major thorn in her side, she spent the next couple of hours making love to her husband all over his office and even in the bedroom

which is adjacent to it

"Oh...Logan...fuck"

Lacey moaned/whimpered as Logan pounded her rough and hard

Chapter 55 - True Love Will Con. w) from behind

"L.Logan, LLc.can't"

"You can't what, baby"

Logan said with a smirk as he f**d his wife and each powerful thrust was like he was asserting his claim over her and reminding her who

she belongs to

"You're mine, Lacey Black, you belong to me"

Logan growled earning a satisfied sigh from his wife

He then leaned down until his rock-hard, sweaty chest was resting against Lacey's back and he moved Lacey's hair to the side before

brushing his lips against her ear

"You're so beautiful and sexy, my love, you're so f**+*g perfect"

Logan complimented his wife as he continued to thrust in and out of her while Lacey whimpered and moaned underneath him

"I love you, Lacey, I love you 50 f****g much..you're the only woman for me, please tell me you know that, babe?"

"Tkn.know, I L.love y.you, too"

Lacey declared her love for her husband, upon hearing this, Logan smirked and his chest burst with pride as he gripped his wife's chin

"c*m for me, my love"

He whispered against her lips before passionately kissing her

"fr+k, Logan"

Lacey broke their kiss and moaned as tears of joy and happiness fell down her cheeks which Logan quickly wiped away and kissed where they previously were

The hot and horny pair were finally able to quench each other's thirst for one another and after catching their breaths, they fell asleep in each

Logan's POWV

What a day today has turned out to be?

The day started off boring as hell with work which I normally love but now it's irritating to me and I think it's because I've now got a family

waiting for me at home who I'd rather be with

My day quickly took a turn when the Carpenters showed up here revealing GiGi's latest stunt to me and then the witch herself made an

appearance and was being an even bigger pain in my ass than usual but she took things way too far when she stripped herself of her coat

showing me her true intentions for why she was here and I was shocked that she would pull a stunt like this

I know I probably shouldn't be shocked because this is something she'd definitely do but was and I was fully prepared to call security and

have her ass thrown out of my building because she was putting me in a dangerous position where I could lose my wife and children thanks

to her obsessive behaviour but then the craziest and most unexpected thing happened, Lacey turned up at my office

My wife appeared out of nowhere looking like an angry bat out of hell and my heart sank seeing her standing there because I honestly

thought she was gonna misconstrue what was going on here, I mean anyone in their right mind would, right?

I guess I underestimated who I was married to and I felt guilty for second-guessing my girl's trust in me when my badass wife grabbed GiGi

by her hair and dragged her out of my office

I wanted to go after them and stop Lacey from doing something she may or may not regret but I was left in a state of shock and by the

time I had broken out of it, it was too late and all I could do was watch through

Chapter 55 - True Love Will Con

the camera monitors in my office with a proud smirk on my face as my wife threw GiGi's half-naked self into my very packed lobby and

made it clear to her that I was hers

She then came back up to my office and I was fully prepared to face her wrath but instead of an angry Lacey coming back to me, a horny

and dominating Lacey did and it was a huge f~**g turn-on when she demanded that I get naked while she did the same thing

It was truly an exquisite sight to watch my wife strip down in front of me revealing her beautiful, sexy and perfect body to me with each

layer she removed and it made my d**k harden and twitch as she did it

After that, we had the most amazing s*x ever

It was rough and passionate and both my queen and I have left quite a few hickeys and marks on each other's bodies including scratch and bite marks

It's like we were a pair of angry, horny wolves who were desperate to mark our territories which resulted in us having the best s*x ever until we finally tired ourselves out and fell asleep

Twoke up not too long ago and I've just been lying in bed watching my beautiful wife sleep ever since

I couldn't help but smile brightly at her peaceful state because we really did wear each other out this afternoon

I don't know how long or how many rounds of s* we had but what I do know is that every inch of my office including the couches, the

coffee tables, my desk, the floors and even the walls have now got a beautiful memory of me taking my beautiful, sexy queen over and over

again

"Mmm"

I was brought out of my thoughts when Lacey moaned in her sleep and snuggled closer to me

Chapter 55 - True Love Will Con

I smiled down at my girl as I leaned in and kissed her forehead which inadvertently woke her up

"Mmm, Logan" f**k, she's so sexy when she moans my name

Lacey then opened her eyes and looked up at me with a cute smile on her face

"Hey, baby"

She greeted me and I smiled at her

"Hi, my love, did you have a nice sleep?" "Mmm-hmm, how long have I been asleep for?" She asks and I look at the time on my Rolex

"Hmm, not long babe, maybe a couple hours or so" I say and her eyes widen

"A couple of hours? s**t, what time is it? the kids need picking up from your mom's"

Lacey started to pull away from me as she panicked but I held her close to me

"Don't worry baby, they're fine, I promise you"

"Are you sure?"

"Yes, I'm sure, now relax"

I say while kissing her lips

Lacey's worried and panicked expression quickly changed to a conflicted one as she looked down whilst nervously biting her lip

I gently gripped her chin and lifted her face up so that her beautiful green eyes were looking into mine

"Hey, what's wrong?"

"I acted like a crazy person, didn't I? with GiGi I mean" Lacey asks looking guilty

"No baby you didn't, you acted like a normal queen who was protecting her king"

"So, it's completely normal that I threw a half-naked woman out into the lobby filled with people and then sexually assaulted my husband?"

She asks and I laugh

"Do you hear your husband complaining, babe?"

"I'm being serious, Logan"

Lacey said with a chuckle as she gently slapped my chest

"I know you are, babe and trust me, it's normal to wanna defend and protect your husband and family, you just did it in spectacular fashion, that's all"

"If you say so, Logan"

Lacey said as she tried to move away from me but winced in pain when she did

"Are you ok, love?"

Task feeling worried as I try to embrace her but she angrily pushes me away

"No, I'm not, your damn snake has abused my kitten, Logan...fuck, I thought snakes loved mice, not cats"

Lacey groaned in pain and I chuckled as I kissed her cheek

"I'm sorry, baby, just couldn't resist my sexy, insatiable wife, it's not my fault"

Isay and she glares at me making me laugh

She's so cute

"Come on, love, let's go and take a hot bath and then we'll go and pick up our babies"

"You've got a bath in here?"

Lacey asks looking surprised

"Yep, I've got a whole en-suite"

Isay with a smile and she rolls her eyes

"Of course you have, you're Logan Black after all" "Yes, I am baby and don't you ever forget it"

Not that she ever could considering she's chained to me for life

Chapter 56

Chapter 56 - Logan's Surprise

A Couple Of Days Later.

Lacey's POV

I've always dreamed of having that picture-perfect Christmas with my friends and family but most importantly with my kids and Logan

Even if we weren't a couple and we were just co-parents, I always hoped that one day we could be civil enough to give our children the best

Christmas ever

This year, my dream is sort of coming true and it's a very bittersweet feeling because I'm gonna be celebrating Christmas with my husband

and my children who will be having the best one ever according to them

On the flip side, I'd love to celebrate it with my family but I highly doubt the rift between me and my family can be healed in time and I

refuse to rush myself in my healing process or in forgiving them just to celebrate one day with them, a day that comes around every year

might I add, so we won't be having a complete family Christmas this year but maybe one year down the line we will

Anyway, despite this, I'm still determined to have a perfect Christmas with my little family and with Logan's family, I may even invite my

grandparents around for dinner on Christmas day but it all depends on whether they're spending the day with my parents or not

Right now, I'm in my kitchen listening to some festive music while cooking a three-course meal for a family dinner I'm having tonight with

Logan, the triplets, Carmella and Cade as the maids set up the dining room for us

Chapter 56 - Logan's Surprise. ~)

"Mummy, can you play that song again, please?"

My princess Teddy asks me

"What song, baby?"

"The Christmas song, mum"

Well, that narrows it down to at least a thousand songs, my love

"There's tons of Christmas songs, Teddy love, you have to be more specific"

"You know the one where the girl talks about what she wants for Christmas"

Oh god, not that one

Lord give me strength

Don't get me wrong, I love the song All Want For Christmas but that was before it was played to freaking death every year

Now it's more like a yearly reminder to let us all know that Mariah is still in the land of the living and not because it's a classic song

"Baby, we can't play that one again"

"Why not?"

Sets

"Because...well because didn't you know? every time a Mariah Carey song is played around Christmas an angel is forced into retirement"

Isay and she gasps

"Is that true, mummy?"

Nope but I'll literally say or do anything so that I don't have to hear

that song again

"Yeah, it is"

"Wow...well, we can't allow that to happen, can we?"

Chapter 56 - Logan's Surprise. J "No, we can't" I say with a chuckle

"So, where are your brothers anyway? and why aren't you with them?
normally you three are stuck at the hip with each other"

"Oh, that's because Dayton and Logan are up in their room playing something
called COD which sounds pretty boring to me, I mean, why
would you wanna play a game about fish?"

She asks and I laugh

"Baby, COD is an acronym for Call Of Duty, it doesn't mean the fish cod"

"If you say so, mummy"

Teddy says and I smile

"So, is that why you're down here hanging out with your momma, huh?
because your brothers are busy with their games?"

Task whilst faking a whimper and a sob

"I've gotta say that hurts my heart, Teddy Louise...I can't believe you'd treat
your poor mother like this"

Ifake cry for extra dramatics and Teddy chuckles

"Don't get upset mummy, you're my number one mum"

"I'm your only mom, Teddy"

"Exactly but I've got two brothers who have to battle each other over who's my
favourite brother, so you should be grateful"

She says with a cheeky smirk and I chuckle

This kid is nuts

"Speaking of my favourites, where's daddy?"

"He's at work, remember, he should be home soon though"

Or at least I hope he will

Chapter 56 - Logan's Surprise. ~

Otherwise, all of my hard work preparing this delicious food will be for nothing if my beloved husband doesn't show up

"Mummy"

"Yes, Teddy"

"Is daddy still angry with Dayton, Logan and me?"

She asks confusing me

Just a heads up: is the only place to read the complete version of this book for free. Don't miss out on the —visit

us now and continue your journey!

"Of course not honey, why would your dad be angry with you?"

"Because of the prank, we pulled on him the other day at grams house"

"Oh that"

I said while laughing

I honestly wouldn't say what the kids did the other day was a prank but it was funny as heck, well for me it was but it nearly put poor Logan

in the hospital with a heart attack

What happened is that after Logan and I's very steamy session in his office, we had a nice hot bath together before changing into some

fresh clothes and leaving to go and pick up our triplets but when we got there, we found our children eating pizza and it had two sins on it

according to my husband

The two sins were pineapple and ketchup

Now, how is this a prank? you're probably asking yourselves, well, Logan is a very proud Italian man and he sees things like this as

disrespectful and an insult to his heritage

It also didn't help matters that this pizza was freshly made using a recipe which was created by his dear late nonna, so Logan was really

upset about it, so much so that he didn't even realise it was a prank until his parents who were in on it by the way told him so and even then

he still

Chapter 56 - Logan's Surprise. J] wasn't happy about it which isn't shocking or at least to me it wasn't

I remember when we were in our teens, Logan got pissy with me because he caught me eating a pizza with a knife and fork and he wouldn't

talk to me for days after that

In my defence I hate grease, more specifically, I hate touching it, so that's why I was eating a pizza this way

"You know daddy could never stay angry with you guys, especially over something as silly as that"

"As silly as what?"

I hear my husband's deep, husky voice say as he walks into the kitchen looking like a damn Gucci model

"DADDY!" Teddy screams as she gets up and runs over to her dad

"Hi, princess"

Logan greets our daughter as he picks her up, he then walks over to

me and wraps his arm around my waist as he kisses my cheek

"Hey, baby" Hi, love" Logan kisses my lips and I sighed in contentment

"So, what were my two favourite girls talking about?"

"Oh nothing, our daughter was just wondering if you're still mad at her and the boys for the little prank they pulled on you at your parent's house"

I say and I had to suppress a chuckle when I saw Logan's face darken

"You don't ever disrespect your heritage like that princess"

"Wait, so it's ok for people to get belligerent and dance on my heritage

Chapter 56 - Logan's Surprise. 00 every year but you can't handle a piece of fruit and some sauce added on a pizza?"

Task jokingly and Logan rolls his eyes

Whatever

"Anyway, Teddy, can you go and get your brothers for me? I've got something I wanna show you all"

"Ok" Teddy kisses her father's cheek and leaves after he puts her down

When we were left alone, Logan caged me in against the kitchen island and buried his face in my neck

"Mmm, something smells delicious, my love"

"I hope so, it's all your favourites, I even made you your favourite dessert crostata al cioccolato"

I tell him and I found myself moaning when he bit down gently on my neck

"fk, I love it when you speak in Italian, Lace"

"Is that so, Il mio marito sexy?" (My sexy husband) ngeeyn

He once again groans and I chuckle

Logan then placed kisses from my neck all the way up to my ear and my head rolled back from the sensation of his lips on my skin

"By the way, honey, you're my favourite dessert"

He says while licking and tugging on my earlobe just as the triplets come into the room

"DAD"

Chapter 56 - Logan's Surprise. ~) The boys shouted as they embraced Logan and I smiled at them

"Teddy said you've got something you wanna show us, what is it?" Dayton asked as Logan rolled his eyes

"Impatient like your mother?"

Logan groaned as he placed his briefcase on the counter and opened it

He then pulled out a brown envelope and I instantly became intrigued to know what it was

"Do any of you know what this is?"

Not

"Nope"

The boys said as our daughter rolled her eyes

"You wouldn't have to show us if we knew, daddy"

Teddy says and we both chuckle

"Well, I do..baby, can you read these for me?"

Logan pulls the forms out of the envelope and hands them to me

Lacey's POV

"Oh my god"

This can't be real

"What is it, mummy?"

ignored my child as I looked up at my husband who was smiling at me with so much pride and love

"Is this real?"

"Mmm-hmm"

He says while biting down on his lower lip

"I put a rush on it after we came back from England...from this day forward you are all officially Blacks" This content is ©

Logan says and the kids cheer as I continued to look at my husband in shock

"How? when?"

"I filed it after we got married and I made my lawyer put a rush on it, I didn't want another day to go by where my wife and children didn't

have my name...now you do"

He says with a cheeky smile

"But don't you need my signature for something like this?" I ask and he scratches the back of his head nervously

"Yeah, you kind of gave it to me unknowingly, babe"

Huh

"What? when? what do you mean?"

Chapter 57 - Lacey's Alter Ego R. Os

"Do you remember those forms I asked you to sign when we first arrived in New York?"

"Yeah"

Tsay nervously but he doesn't answer me straight away

Logan looks both nervous and scared, probably because he thinks I'll flip my s**t on him which I probably should considering whatever it is,

it's most likely something I should've been consulted on but I doubt I'll get mad at him because he's my husband and I love him which may

make me seem weak but I don't care

Logan would never do anything that could negatively impact our marriage or our family, so whatever it is, it can't be that bad

"Well..I told you they were a formality to have your name legally changed to Black which they were but they were also forms to have the children's names changed and also to change their birth certificates as well so that my name is on them"

Oh my god, this sneaky snake

"Logan..."

"Please don't be mad at me, babe, I had good intentions behind doing this"

He says looking like a scared puppy and I felt bad for making him feel this way

"Babe, I'm not mad at you, I mean..I'm a little peeved that you didn't just tell me because I still would've signed them regardless but I can't

be mad at you for doing this, especially when you're pulling that cute, adorable face"

Tsay as I cup Logan's face and kiss his lips earning groans of disgust from our babies

"Ding dong, must be that whip that I ordered and a new crib for my daughter, you know a bad b***h gone spoil her..."

Carmella tried to rap but I cut her off

"For god's sake Carmella, would you stop? you're not and never will be Cardi B, please let it go"

"If you say so, darling, Cardi B is my spirit queen and you know it" Spirit queen?

What the f**k?

"Oh and I heard your little comment, Logan, you should be blessed to have Cade and me in your presence"

Carmella growled at my husband who just shrugged his shoulders with that cheeky smile back on his face

"I'll take your word on that one, Carm"" Logan says earning a snarl from Carmella

"Anyway, this is a gorgeous place you guys have got, you've even got a boujee doorbell as well, Lace"

"Technically, it's Logan's boujee doorbell, Carm, it's his house"

Chapter 57 - Lacey's Alter Ego R ~) "Babe, we're married" Logan said annoyed

And? what's your point?" "My point is that what's mine is yours and what's yours is mine" "Oh really?"

Task with a smirk and even Carmella smirked as her eyes shone with excitement and happiness

"Does that include the sexy little Rolls Royce outside, Logan?"

Carmella asks and I almost burst out laughing at the look on Logan's face, he looked like he was gonna cry

Logan's a collector of expensive and antique cars and he considers them his babies that's why he's reacting like this

"No offence, auntie Carm but I wouldn't trust you with one of my dad's cars"

"And why's that young man?"

Carmella asks Logan Junior who looks at her stoically before saying something which had all of us laughing while his auntie looked at him with a gobsmacked expression

"Because you drive like a maniac who's got no common sense, that's why"

"He's got a point, babe"

Cade says while laughing so hard he was holding his stomach

"Shut up, i***t"

Carmella groaned and I chuckled

"Anyway, can I take your coats, guys?"

"Please, Lace"

Carmella says while glaring at her boyfriend

Chapter 57 - Lacey's Alter Ego R

"Thanks, kid"

Cade said with a smile as they both handed me their coats and accessories

I was about to hang them on the coat hangers but was stopped by the maid who insisted that she do it

It's so strange having people around here to help me and I constantly have to remind myself that I'm not alone anymore and that I've got extra hands here to assist me when and if I need them

"Something smells good, Lace, what have the cooks made for us?"

Cade asks and I blush a little at the inadvertent compliment

"Actually, I cooked, Cade"

"Really?"

He asks sounding shocked

"Lacey's an excellent cook and one hell of a baker, babe"

Carmella also complimented me but her next words had me rolling my eyes and chuckling

"Is she now?" "Mmm-hmm, you should be grateful that my willpower is so strong, lover boy because if it wasn't then I'd have to pay

insurance on my body

instead of my car so that I can roll to work because only strong people can resist Lacey's home-baked goods"

Carmella said and I chuckled

“Come on guys, let's go through to the dining room”

Everyone followed Logan and me to the beautifully decorated dining room and we all took our seats

Twass about to sit down when I remembered I'd forgotten

Chapter 57 - Lacey's Alter Ego R. 7 something

“Oh, I forgot the drinks”

I said and was about to jump up when Logan stopped me

"Relax babe, that's what the maids are for"

“I can't just expect the maids to do everything for us, Logan”

"Why not?"

He asks looking confused

"Because...I.."

“Great argument you're giving here bestie”

Carmella says and I glare at her

Logan chuckled as he wrapped his arm around my shoulders and kissed my temple

"You need to learn to relax baby and accept that you're a billionaire's wife now and you've got people here to help you"

“It's hard to accept when I've been independent for so long, babe”

I said with a sigh

“You can still be independent and accept the staff's help, Lace, I mean, it's not like they work here for free, Logan offers his workers a very

high wage with a lot of great benefits, so they're good...besides, the staff doing all of the extra stuff you normally do frees you up to do anything you want or have wanted to do but couldn't because your hands were always full"

"Cade's right, Lace, you can focus more on your writing now without worrying about the kids or housework"

Carmella says and I narrow my eyes at her

This girl never knows when to keep her big mouth shut

"What are you talking about, Carm?"

Chapter 57 - Lacey's Alter Ego R. 4 Logan asks as he looks between the two of us

I was glaring at my best friend while she was looking at me with an apologetic expression

"What's she talking about, babe?"

Logan asked me and I cleared my throat

"Erm...well, after I left New York I erm..I needed money to support the kids and working the jobs I had was barely getting me by, especially

as my pregnancy progressed... didn't know how I was gonna get by but then I found a new passion for writing and not long after writing

first book, I started raking it in, I mean, I'm not rich like you are but I'm comfortable rich"

"Comfortable rich, what's that?"

Cade asks and I let out a sigh

"It's where one isn't rich enough to live in a house like this but she's rich enough to not worry about being able to live or denying her children of anything they want or need"

"Our mummy is the best she always looked after us and made sure we were happy"

Logan Junior says and I smile down at my little boy who was sitting to my right

"So, you're a writer?"

Logan asks me and I nod my head

"What do you write?"

"Romance mainly but I was actually working on a supernatural one before you bulldozed your way back into my life"

I said with a chuckle and Logan smirked proudly

"Wow...50, are you successful?"

Chapter 57 - Lacey's Alter Ego R. A Cade asks causing Carmella to scoff

"Successful? babe, she's one of the most famous writers around, she's even a New York Times Bestseller"

"Really?"

"Mmm-hmm"

Carmella says with a smile

"Are you two being serious? or is this a joke?"

Logan asks confusing Carmella and me

"Of course we're being serious, Logan, why would we be joking about this?"

ask him

"Well because if you're as famous as Carmella claims you are then I would've found you years ago when you first blew up, not six years later

because my brother found you"

"Not if she's working under a different name, Logan" Carmella teases my husband

"What? like Lacey Wright?"

Logan asks me and I shake my head

It's not surprising he'd think that considering it's not my birth name and also the fact that Lacey isn't a unique name either, so I could get

away

with that as my pen name

"Then what name did you use, Lace?" Cade asks me and I look around at everyone nervously

Logan and Cade were looking at me with intrigued expressions, the triplets were smiling at me and Carmella was looking at me with a you

this, babe kind of expression

I take a deep breath in before telling the boys my alter ego's

name

I don't know what I was expecting their reaction to be but it certainly wasn't the one that I got from them

"The name I use is Olivia James" "WHAT?"

They both shouted causing me to flinch

What the hell?

What the hell?

Logan asks me and I nod my head

"Yeah, why?"

Tasked and the boys fell silent as a faint red blush appeared on their cheeks

"I think our boys here are huge fansies of you, babe"

Carmella says with a smile

"What? really? you guys have read my books?"

"No

"Pfft, of course not"

Logan and Cade said with a tone like I was being ridiculous but I knew better

"It's ok to say you're a fan, boys, romance books aren't just for the ladies you know"

Carmella teases the boys

"We're not fans, Carm" Cade growls at his girlfriend and she chuckles

"It's probably a good thing you're not a fan, I was gonna do one final

book to that series and I was planning on killing off the male lead"

I say nonchalantly and the boys look at me with a horrified expression

"You can't do that, Lace"

"Cade's right babe, you'll ruin the story if you do"

"What? you mean the story you've never read?"

Task with a smirk leaving both Logan and Cade in shock

"Ok fine, we've read your books but it's not our fault you're good at what you do, babe"

"You're so sweet, my love and I love that my books were able to attract one of the most famous billionaires in the world"

I say with a smile as I wrap my arm around Logan's neck and kiss his cheek

Cade says shocking me

"Really?"

Wow, that's insane

I mean, I knew I was successful and famous obviously because of not only the revenue I get from my books but also because of the

multiple awards I've won, as well as being on the New York Times Bestsellers list multiple times but still, it's crazy to hear people's

opinions of me like this, especially the opinions of people I know

to think it's been you all of this time..why did you change your name?"

"Oh, there were multiple reasons for that"

Isay as our food is served along with wine and beer for the adults and orange juice for the kids.

"Like what?"

"Well, I wrote my first book while I was pregnant and I had to be as stress-free as possible during my pregnancy, so I created an alter

ego using my middle name and my dad's first name so that I could remain anonymous, not to mention, I was scared of my family . possibly finding me and forcing me to come back home before I was ready to, so"

I said drifting off in the end because I was feeling uncomfortable talking about my past

Even though things worked out well for me in the end, I still don't like to remember my early days in London when I was practically alone and frightened for the well-being of my babies

I looked up at Logan when I felt his hand gently rub circles on my back and I smiled back at him when I saw his handsome smile

"Well, congratulations Lace, I heard not too long back that your agent Abby is planning a party for you here in New York"

Cade said and I groaned

"Yeah, she wants to celebrate me making the list again for the fifth year in a row"

"And you don't?"

Cade asks me probably sensing from my tone that I'm not interested in having a party thrown in my honour

"No, I'm not a party kind of girl, especially when I'm the main focus of it"

Chapter 58 - Fans Of Olivia Jam

"Why not?" "Because the last party I attended which was centered around me was the night I found out about Dylan and Luca..I think it

scarred me for life" "I hope not, we've gotta plan your grand wedding" Carmella says and I roll my eyes

"I'm already married, Carm"

"Yes, [know love but that was just a registry office wedding, the wife of New York's number one billionaire needs to have the wedding of the century"

oh god

"If mummy and daddy are getting married again, does that mean that I get to wear a nice dress and hold some pretty flowers?"

"Yes it does, you'll be mommy's pretty little flower girl"

Carmella tells my daughter who smiles all giddily while my sons groan

in annoyance

"Does that mean we have to dress up as penguins as well?"

"It's not fair if we do, I mean Teddy gets to look all pretty and we have to look like penguins"

Dayton says and we chuckle

"Penguins are cute, Dayton"

"If you say so, auntie Carm"

Dayton groaned while rolling his eyes

"Wait, can we go back to what you said earlier? Abby's your agent?"

Logan asked me and I nodded my head

"Yeah, she is"

Chapter 58 - Fans Of Olivia Jam

"Is this a joke?"

"No, why?"

Task confused

What the hell is his problem?

"So, I'm entrusting something as serious as this situation with GiGi with a freaking writers agent?...fuck, Liam was right, I should've listened to him"

Logan said while facepalming as he muttered the last part under his breath

I was shocked by his words but even more so when he mentioned my brother's name

"First of all, Logan, watch your language in front of our children and secondly, what's Liam got to do with this? when did you even see my brother?"

"I saw him the day you came to my office, he came to visit me with your dad and Justin"

What the hell?

Why am I only hearing about this now?

Wait, that's not important right now

"That doesn't answer my first question, Logan"

I say and Logan lets out a sigh as he runs a hand through his hair

"Your family wasn't happy that GiGi was running a smear campaign against you and they wanted to know what I was gonna do about it,

Abby called me while they were there and I agreed to let her take the reins which

Liam wasn't happy about because he didn't like the fact that I was allowing a stranger to handle it"

Logan said and Carmella made a noise like she was disgusted

"No offence but Liam's a dumbass"

"Carmella"

I groaned and she shrugged her shoulders at me

"What? he is and as for Abby, she's the best person to handle GiGi and it'll be a fun fight to watch, it'll be like watching a rottweiler

taking on a scared little chihuahua, actually no, not a chihuahua they're cute, more like a rat"

She says and I chuckle

"Carmella's right, babe, before Abby started doing what she does now, she was a lawyer and was a damn good one, in fact, she earned herself the nickname The Don when she was practising"

"Why's that?"

Cade asks me

"Because she was like the Don of a mafia, she was highly respected and very powerful in the field, people also feared her, so much so

that when defending lawyers found out they were going up against her, they either told their clients to get a new lawyer or advised them to back down and take a guilty plea”

“Seriously?”

Logan asks sounding surprised

“Yep...50 is she still not worthy to handle GiGi, babe? because I think Abby is more than qualified to handle this situation, in fact, 1

wouldn't be surprised if I found out tomorrow that GiGi has escaped to the deepest, darkest parts of the planet because of Abby, that's how much I trust her, Logan”

Itell my husband who looked shocked

“Mum's right, dad, auntie Abs is a crazy woman, especially when you

mess with her and her family”

Logan Junior tells his dad who sighs

“Ok, fine, I'm sorry, I doubted your friend”

Logan said as he grabbed hold of my hand and lifted it up to his mouth kissing the back of it while keeping his eyes firmly fixed on me

“Am I forgiven?”

“There's nothing to forgive, babe, we all have a reason to worry about our spouse's friends even if we know them really well”

“Hey, what's that supposed to mean?”

An offended Cade asks in a high-pitched voice causing all of us to laugh

For the rest of our dinner, we talked about many things including the holidays, our plans for after the holidays and we also discussed

Cade and Carmella's relationship and I was shocked to learn that they've been together for around a year and a half

I was shocked that my bestie never told me she was in a long-term serious relationship but I was even more shocked that she was able to keep it a secret

Carmella and secrets are like oil and water, they don't last long together, so that's why I was so shocked

We also talked about Logan's surprise from earlier on which I learned he was planning on giving us on Christmas day but he was too excited to wait, so he gave us it early

Tonight has been wonderful and it felt lovely to spend time with some people who I love and adore and it was nice to forget about all of the

drama for a few hours

I wish life could always be like this but as you know, life isn't perfect

and there's always something or someone lurking in the shadows, if you know what I mean

Chapter 59 - Press Conference - Part 1

Logan's PO

You know the saying it's too good to be true ? well, I never really understood the true meaning of this saying until this morning

It was at work having a meeting with the board of directors which also featured my father and my brother because the miserable old

bastards were growing impatient with me after I kept putting off meeting with them to address my situation with Lacey and the kids

The main reason why I was putting off this meeting is because I was waiting on the papers which legally prove Lacey is my wife and the children are mine

The papers include our wedding certificate, change of name applications and also the positive DNA test we took at the behest of my wife

who wanted to make sure our baby's futures was safe and secure and couldn't be threatened through a loophole which we could've prevented earlier on

Despite having all of this information which was legally binding by the way, the board still weren't happy and one of my board members Lee

kept asking me about Gigi and in his words = 'where does she stand now that Lacey and I are married?'

I made it very clear to everyone at the meeting that Gigi was only a friend to me and there never has or will be anything romantic between us

This seemed to suffice the majority of my board but a few still weren't happy not that I gave a damn because I had finally given them all

what

Chapter 59 - Press Conference -

they wanted which was security for the future of my company via a marriage and an heir, it's not my fault if they're still not satisfied

Anyway, it was during this meeting that my day took a dreadful and dramatic turn when both Cade and my assistant Sophie who has done a

total one-eighty since the day Lacey showed up at my office and announced that she's my wife, burst through the door of the meeting

room startling everyone and pissing me off

"Sir"

"Logan"

Sophie and Cade said at the same time

"What the hell, guys? I'm in a meeting"

I growl at the stupid pair

"I'm sorry, sir but this is important"

"How important, Sophie?"

Cade and Sophie share a look with each other before looking back at me

"You need to go home, Lo, Lacey needs you"

Cade said making my heart rate speed up This content is ©

"What do you mean? is she ok?"

"I'm sure she's fine, sir but she's gonna need you"

Sophie said pissing me off even further

"CAN YOU TWO PLEASE TELL ME WHAT THE f**k IS GOING ON WITH MY WIFE?"

I growled as I slammed my fist down against the table causing everyone around me to flinch

"It's the Carpenters, Lo..they're making a statement to the public about her"

Chapter 59 - Press Conference -

What?

Timmediately ran out of the meeting room and went straight to my office to get my coat and phone before leaving my building and getting in my car

"Get me home, ASAP"

"Yes, sir"

My driver says as he starts up the car and drives off

I tried to get hold of my wife but she wasn't answering any of my calls

"f+=kll, answer your damn phone, Lacey"

Just as Twas about to call her again, my phone rang and the caller was my home phone

"Hello Lace, is that you, babe?"

"Daddy"

"Princess...princess, are you ok? where's your mommy?"

Task Teddy who fell silent and if it wasn't for her breathing then I would've thought the line had been cut

"Teddy, what's going on? where's mommy?"

"She's crying, daddy...she's in your room and she's crying, I don't like it, daddy, she hasn't cried like this since Dayton broke his arm after jumping on his bed"

wanted nothing more than to be at home comforting my poor little wife

Hold on, baby, I'm on my way

Lacey's POV

My anxiety is running so high right now

Not too long ago, I was sitting in my office working on my new novel when I received a weird text message from an unknown number and

the person claimed to be my brother Liam who was begging me to turn on the news

At first, Tignored the message but then I got another text from the same number which just said please, so that mixed with how intrigued I

was, is how I found myself sitting on the couch in my living room anxiously watching and waiting for the news to come on

I was bored with waiting and I was ready to get up and go back to my office because whatever it was wasn't worth risking my anxiety for

but then the news came on and my heart rate picked up when I saw a split screen with a beautiful blonde on one side and my parents, all

three of my brothers and Dylan on the other side looking like they're at a press conference

Oh god, what the f**k are they up to now?

"Breaking news, one of New York's affluent families the Carpenters who are members of the exclusive circle known as the elite are throwing

an impromptu press conference inside of their home today, rumours are already circulating about why they're doing this with many

believing it's to address their youngest son's recent public and drunken escapades while others believe the family want to address the

recent return of their daughter Lacey who showed back up in New York after a six-year absence with a bang, the heiress to the Carpenter

fortune announced at her

Chapter 59 - Press Conference -. bes

dparents annual Christmas party that not only is she the wife of fellow elite member and billionaire businessman Logan Black but she's also

a mother to Logan's three children as well"

The Australian host says making my anxiety spike

Normally, this accent is very calming and relaxing to me but not right now it's not, especially when the girl on screen decided to be a shady

b***h for no reason

“don't know how Lacey could possibly have three children with New York's most eligible bachelor, especially when the alleged couple are said to have never had any interaction with each other before she left but I'll guess we'll have to wait for the Carpenters princess to explain that one to us”

Urght, condescending b***h

“It's called s*x, that's how ninety percent of babies are made for fs sake”

Igrowl at the TV

Everyone knows how babies are made but this girl is acting like it's a foreign concept to her, then again she looks like the type who would

struggle to come up with an answer for two plus two

The camera then switched from being on the obnoxious news reporter to the camera inside my parent's mansion and I couldn't help but

scoff and roll my eyes at the set-up they've arranged

They're sitting in the family room where there's a huge family portrait of us which they've made sure is perfectly on show, they've also set

up several framed family photos including ones of me with my parents and others with my brothers both separately and together

They're also dressed and looking immaculate with no creases or hairs out of place, all in all, they look like they're trying to portray themselves as

Chapter 59 - Press Conference -

the picture-perfect family unit

“Mr and Mrs Carpenter, why have you arranged this meeting with us today?”

One of the reporters asked my parents who looked nervous as fio

"We're doing this because we want to right all of the wrongs we've committed against our daughter Lacey...we've sat back and watched as

lies were spread about our daughter and she was blamed for the breakdown in her relationship with Dylan and we want to rectify that here

today"

"We also hope that by doing this, it will help our daughter to heal and maybe one day she can find it in her heart to forgive all of us and

give us a chance to be in both hers and our grandchildren"s lives"

My mom said and I felt a painful stab in my heart when she mentioned her grandchildren and being in their lives

"Why are you doing this now? why didn't you do this when everything first happened?"

Good question

"Well, Lacey had run away from home and we had no clue where she was or if she was ok, we were so worried for her and her safety that we

put all of our time and energy into trying to find her..we hoped to deal with all of this after we had safely brought her back home but then

days turned into weeks and then months and before we knew it, six years had passed"

"Whether Lacey or anyone else believes this or not, our main focus these past six years has always been both our daughter and her safety,

everything else was irrelevant until we found her..that's why we're doing this now to right a wrong"

My dad says and I scoff while rolling my eyes

You're right dad, I don't believe you

"And it's got nothing to do with the fact your daughter is now married to Logan Black?"

The reporter asks and my heart skipped a nervous beat

They'd better give the right answer to this because the wrong one will demolish any chances or future chances they may have had for a happy reconciliation with me in the future

Chapter 60

Chapter 60 - Press Conference - Part 2

Lacey's POV

"Logan is family to us, he's been in our lives ever since he was a newborn, he's my son's best friend and my husband and I are his godparents, so no, this has got absolutely nothing to do with Logan or his marriage to our daughter"

My mom said honestly and with some anger in her tone and I sighed with relief

"Ok...where would you like to start with this?"

"I guess the beginning"

My dad said as he looked at my mom who smiled at him

"As you all know, our daughter Lacey was set to marry her fiancée, Dylan..they had been best friends ever since they were kids and had been dating ever since they were at school together, so naturally the next step was for them to get married and build a family together but what none of us knew was that Dylan was having doubts about his sexuality...Dylan"

My dad gave Dylan the floor to speak and I noticed while he was speaking, he was fidgeting with the signet ring on his..wait, that's the ring

I got him for graduation

Why is he still wearing the ring I gave him?

That's weird, right? or am I reading too much into it?

I thought to myself

"I wanna start off by saying that I really did love Lacey, she was my world at one point and I fully intended to marry her when I proposed to her"

Chapter 60 - Press Conference -

What happened?"

The reporter asks Dylan who lets out a breath before explaining what happened and how his feelings eventually changed

"A few months after Lacey and I got engaged, I started noticing a change in me and my feelings for her, I still loved her immensely but it wasn't... wasn't feeling the same love that I had felt for her during our entire relationship"

"What kind of love were you feeling for her?"

The reporter asks a tearful Dylan who looks guilty

"I loved her like a sister"

He said and I gasped .

We were engaged for a long time before we officially had our engagement party and the fact that he wasn't even in love with me and he

only loved me like a sister during that time is shocking to me, I don't know why it is, it just is

"Why didn't you tell her?"

"Because I didn't want to lose her and also because I was still in denial about my sexuality, I knew... knew I was attracted to men but I didn't know if I was gay or bisexual"

"And when did you realise you were in fact gay?"

The reporter asks Dylan whose answer left me feeling absolutely shocked and angry

"I erm..."

Dylan looks towards Luca who gave him a comforting smile

"It was during a party my parents-in-law were throwing for Lacey's birthday, I needed to go and see Luca about a gift I had gotten Luca

which he was helping me with but when I got to his room, I walked in on Luca

Chapter 60 - Press Conference -

had just gotten out of the shower and I was lost in how attracted to him I was, after that things got...intimate if you know what I mean"

"Intimate how? you guys kissed?"

"Amongst other things"

Luca chimed in and I baulked

/ think I'm gonna be sick

I kissed Dylan that night, I kissed that motherfucker so many times that night and he kissed me back knowing full well that he'd done

something s***I with my own f=**+*g brother

"After that night, I found myself becoming more attracted to Luca than his sister, I wanted to be around him more and he felt the same way about me, that's how our affair started and how we fell in love"

"You fell in love with your fiancée's brother?"

The reporter asks and both Dylan and Luca's eyes squeeze shut

"Yeah...I know it sounds terrible and we're everything everyone says we are because we ended up hurting someone who we both love and cherish more than anything but we couldn't help ourselves..you can't help who you fall in love with after all"

"BULL fg s**t, ASSHOLE! f*++g BULLSHIT!"

I growl at the television

OK"

The reporter lets out a breath as he looks down at his notepad

“She walked in on them”

Liam growled as he glared at Luca and Dylan and they glared back at him

Chapter 60 - Press Conference -

She walked in on you?”

The reporter asks sounding very shocked and with some sympathy in his tone but it wasn't for the Brokeback Mountain twins over there, it was for me

“Yeah, she did...I had snuck away to have a few minutes alone with Luca and we ended up having s* in Lacey and I's suite...Lacey must've come looking for me because she walked in and instantly caught us in the act”

“And what happened after that?”

“She ran out”

Dylan said with a sigh

“Dylan and Twent to look for her but she was nowhere to be found, we called anyone who she may have ran to but we couldn't find her”

Luca says and I hate to say this but he actually sounded like he was feeling pained and guilty about what happened

“The next day my daughter came home still dressed in her clothes from the night before and she was looking worse for wear..we didn't

know it at the time but she had spent the night with her now husband”

“You mean she had a one-night stand with Logan Black?”

Oh my god, this is so embarrassing

I groaned as my dad looked at the reporter angrily

“I’m trying to be as respectful as I possibly can to my daughter because she deserves nothing less, she’s innocent in all of this but

unfortunately, I can’t tell you the rest of the story without mentioning this part because you’d wanna know the reason why I did what I did

to her and you wouldn’t understand if I didn’t or as the media loves to do, you’d make

up your own reasons for why I did what! did”

Chapter 60 - Press Conference -

And what did you do?”

“No dad don’t do it, not on live television, please, it’s not worth it”

I said with my wide eyes fixed firmly on the TV as I hoped and prayed that my dad didn’t confess on national f+****g television to one of the

top four sins a parent can commit against their child

If you don’t know what I’m talking about, the four biggest sins a parent can commit against their child are molestation, murder, neglect and

abuse, at least in my opinion they are

"My wife and I raised all of our children to be respectful of others but more importantly to be respectful of themselves, we didn't want any of our kids to run around acting or being promiscuous, what I'm trying to say is we've always promoted chastity with our children, no sex before marriage and my daughter broke that rule"

My dad stopped and looked down at his lap

I hoped he had changed his mind and wouldn't confess to the whole f****g country that he'd hit me but unfortunately, he didn't

"At the time, I stupidly cared more about my reputation and the reputation of my family and our businesses over caring for my one and

only baby girl and her happiness, she told me that she didn't want to continue with her marriage to Dylan and at this point, we didn't know

why and I just assumed it was because she'd cheated on him which she didn't but you know what I mean...anyway, we got into an argument

and /erm.../ did something no man should ever do"

"Don't do it, dad, please, don't do it"

"Ihither"

Oh fk no

"Dad, why?"

Chapter 60 - Press Conference -

I say barely above a whisper as tears fill my eyes

Why would he do this?

"I hit my daughter, I hit her because she went against me and she stood up for herself"

My dad quickly wiped his tears away before continuing

"I wanted the marriage between Dylan and Lacey to continue but before any concrete plans could be made, Lacey ran away..not long after that, we discovered the truth about Dylan and Luca's sexualities and their secret relationship that they had carried on behind my daughter's back"

My dad growled

"Lacey was innocent, she never cheated on Dylan, he cheated on her, she never betrayed her family, we did by ignoring what she wanted and for believing that she was the guilty party when she wasn't, Dylan and Luca are the guilty ones, not her"

"My mom's right...Dylan and I are in the wrong, we never intended to hurt Lacey..we never wanted to hurt her but we did...she's my sister, my princess, she's been my best friend ever since we were little and I never wanted to hurt her but it happened and I can't change that"

Luca whimpered and sobbed and my heart broke a little for him

"What are you hoping will come from you doing this today?"

The reporter asks a question which I'd also love to know the answer to, I just never expected to get as emotional as I eventually did from their answer

"We're hoping all of the rumours and lies will be cleared up and everyone will now know that my Lacey was a victim and she ran away

because she had been betrayed by the people who were supposed to love

protect her the most, Dylan was her fiance and he cheated on her, Luca was her big brother and he betrayed her by having an affair with his sister's fiancée, I did a despicable thing by hurting my princess and putting the Carpenter reputation over her..as for my wife and my two sons Justin and Liam...they're only guilty of not standing up for Lacey or for protecting her"

My dad says with so much emotion in his tone

A lone tear fell down my face at his words but I didn't know why or what I was crying for
