

Clan Cultivation 70

Chapter 70

The Lu family's family background is not enough to train the cultivators of the Zifu.

Relying on farming, raising spirit beasts, refining medicinal pills, etc., the annual income is barely balanced, but it is almost impossible to go further.

The best thing is to go outside and look for various opportunities.

Staying at home, naturally there will be no so-called adventures.

But if you walk around more outside, you can encounter adventures and big opportunities.

The Great Elder said: "Which of those Jindan ancestors did not have great adventures and great luck. If the luck is too bad, they can't become Jindan cultivators. There are thousands of monks in the world, relying on farming and hard work, to achieve Jindan cultivators. not even one."

I was a little reluctant and a little nervous, but the Great Elder still agreed.

Before parting, the first elder warned about the precautions outside, and took out a storage bag with 5,000 spirit stones in it.

"Elder, this is too much money!"

Holding the bag, Lu Xuanji felt a little embarrassed.

"There's not much money, that's all!" The Great Elder urged, "The spiritual energy outside is thin, in order not to delay cultivation, use spiritual stones to cultivate, so as not to slow down. Be careful outside, it would be best if you can kill Zhao Wuji. , if you can't meet it, it doesn't matter."

"If it's okay, you can contact Lu Yanping, Lu Xiuqin, etc.! They are the black gloves of my Lu family outside, and they are responsible for some gray matters."

Finally, the elder said some secret things about the Lu family.

When some disciples of the Lu family made big mistakes and were expelled from the family, they would set up bases in some square markets or some small spiritual mountains to handle some gray matters for the Lu family. The Lu family was afraid of the rules of the Danyang faction, and some things could not be done and could not be done.

But those disciples who were expelled from the Lu family could do these things.

Even if they were discovered, the Lu family could be pushed clean.

This is what the disciples of the expelled family did, and it has nothing to do with the Lu family.

These disciples of the expelled family are also the last guarantee of the Lu family.

Once the Lu family was attacked by a powerful enemy, and even when there was no capital to be trapped in the mountain gate, these disciples who were expelled from the family might become the only chance to revive the Lu family.

"The three of them were expelled from the family by the ancestor Lu Fuping. On the one hand, the ancestors could not cover them up because they committed a lot of things; on the other hand, the ancestor Lu Fuping felt that some families had bad intentions towards the Lu family, and they led snakes out of their holes to kill them in advance. Some enemies, but still failed!"

Talking about the past, the Great Elder was full of sighs.

There are some thrilling and exciting games in places that many people can't see.

Before the fall of Lu Fuming's ancestor, he paid some price, communicated with the Ye family, Wu family, etc., exchanged interests, stabilized the two families, and would give some care to the Lu family;

He has also lured the enemy in the dark to take action many times, eliminated hidden dangers for the Lu family, and killed seven or eight foundation-building cultivators, but it is a pity that Yanyang's ancestor is too stubborn, so he doesn't show up.

He also expelled the three Foundation Establishment cultivators, planning for the worst.

Before his fall, Lu Fuming's ancestor did a lot, but it's a pity that people are not as good as heaven.

The Lu family was still attacked by the ancestors of Yanyang, and was almost destroyed.

After preparing some things, Lu Xuanji and Ye Feixue quietly left Changyuan Mountain and set off into the distance.

There is a sign inside, you can contact Lu Yanping, Lu Xiuqin and other two foundation-building cultivators.

But Lu Xuanji thought for a moment, even if he gave up, because they were unreliable.

First of all, I went to the copper mine. There used to be dozens of qi-training cultivators stationed here, who were responsible for mining the ore veins. They brought 1,500 spiritual stones to the Lu family every year, which was one of the important incomes of the Lu family. However, after being looted by the repairing bandits, this ore vein was subjected to violent mining, and the tunnel was collapsed, and the ore vein could no longer be mined.

Dozens of cultivators from the Lu family bleed and died here.

At this moment, it has become quiet.

After the murderer ransacked here, he may have escaped, and he will not stay in the same place stupidly.

The country of Chu is too big, the world is too big, the murderer can travel thousands of miles away with just one wave, or simply hide his tracks and hide in the mountains, there is no possibility of chasing them.

Leaving here, the two began to patrol the Lu family's territory.

The power of the Lu family is shrinking, and they control the population of less than 100,000 people in Danyang County. The shrinking population means that the number of new monks is also decreasing.

Ten days later, he arrived at a town controlled by the Lu family. When he approached the town, he suddenly smelled blood, and when he approached, he saw three corpses on the ground.

Approaching this town, I immediately felt dead.

There were about 3,000 people in the town, all of them were slaughtered, and the corpses were strewn all over the road.

There were also some soldiers in black armor who fell to the ground and seemed to have died in battle. The scene was a bit miserable and a bit scary.

They are the black armored guards of the Lu family. They are an army composed of warriors. They are usually in charge of patrolling and maintaining order in the county town and some small towns.

"The magic cultivator is making trouble!"

A trace of killing intent flashed in Lu Xuanji's eyes.

Demon cultivators lack resources, like to kill mortals, and pursue quick success.

In the White Bone Demon Sutra, there is a secret magic technique recorded. As long as 10,000 mortals are killed, the monks who practice the first level of Qi can enter the first level of foundation building in just three years.

This speed is more than ten times faster than Tianlinggen.

Walking into the center of the town, I saw an ancient altar set up. On the altar, there was a white bone banner. The black canvas was painted with a skull. A trace of gloom and evil spirit spread out, covering a radius of 100 meters. It's all about the evil spirits. Originally, it was sunny and sunny during the day, but it was cold here.

Around the altar, the bones of mortals were scattered all around, and the bones were like mountains.

On the altar, stood an old man in black robe, wrinkled on his face, drooping old age, but he had a terrifying evil spirit on his body.

Woohoo!

The white-boned magic flags were dancing, and there were thousands of mortal souls on them, struggling, roaring, and resentful. They were unwilling to die, resentful to the sky.

"You came a little late from the Lu family, the old man waited here for a day, and you got here, the speed is a little slow!" The old man snorted coldly, seeming to be a little disdainful, "The old immortal didn't come. Today, this town is your burial place, this deity. Let the flesh and blood of the two Foundation Establishment cultivators sacrifice their blood to the White Bone Banner!"

"Thousand Corpse Array, get up!"

Boom boom boom!

Suddenly, the altar disappeared.

At this moment, an endless fog rose up, the gray fog enveloped the town, and even the sun in the sky was blocked, and the gray corpse fog began to erode all around.

"Be careful, this is the Great Array of Thousand Corpses. It is based on the corpses of thousands of mortals, and the great array is arranged. The mist emitted by the array is poisonous with corpses, but it can silently erode the true essence of the monks. Be careful!" Lu Xuanji reminded, the next moment he took out a detoxification pill and put it in his mouth.

It was another gift for Ye Feixue, and Ye Feixue took it and put it in her mouth.

In the White Bone Demon Sutra, there is a record of the Thousand Corpse Array, which works to the extreme, and can kill the Foundation Establishment cultivator.

The greater the number of corpses, the stronger the power of the formation.

There was a magic cultivator who used millions of corpses as the foundation to set up a lore formation and killed the Jindan cultivator.
