

# Complete Martial Arts Attributes

## Chapter 1651: Lightning Spirit! (3)

Sikong The Second was frustrated. He felt that Wang Teng knew everything and he had no need for an instructor like him.

Wang Teng immediately read through the method of forming a spiritual contract in his mind. Then, he prepared to act.

He sat cross-legged in front of the Lightning Spirit and closed his eyes, preparing to tame it.

The Lightning Spirit sensed something and slid back. It wanted to escape.

It looked like it was indeed pretending to be dead just now. It was very weak but it wasn't incapacitated.

However, it sensed the formidable presence of Sikong The Second so it didn't dare to act. It just lay there motionlessly.

Now that there was no other way out, it could only escape.

A sharp glint flashed passed Wang Teng's eyes as he stretched his hand out. The Emerald Glazed Flame surged along his arm, transforming into a fiery giant hand that grabbed hold of the Lightning Spirit.

Slip~

However, the Lightning Spirit was extremely slippery. It slid out of the flaming hand and slammed into the protective shield of the warship.

"Trying to escape?" Wang Teng snorted. The Emerald Glazed Flame slammed down on the Lightning Spirit and turned into a circular cage, trapping the Lightning Spirit inside.

The Lightning Spirit struggled frantically. It darted left and right and released the power of lightning.

Wang Teng's expression changed. He hurriedly reinforced the cage formed by the Emerald Glazed Flame.

The Lightning Spirit withered after a while. It couldn't break the cage formed by the Emerald Glazed Flame.

The Emerald Glazed Flame was a divine flame. It was on the same level as the Lightning Spirit so it was able to trap it.

Also, this little fellow was just born not long ago. How could it be compared to the Emerald Glazed Flame that had been around for countless years?

"It's resisting furiously. Its power must be weak since it has just been born so if you're not careful, you might destroy it," Sikong The Second said grimly, "You should try to eliminate its resistance mentality first."

"Eliminate its resistance mentality." Wang Teng frowned. He pondered for a moment and clapped his hands. "How can I forget!"

A silver-white bolt of lightning appeared on his finger as he spoke. It moved towards the Lightning Spirit.

As expected! Sikong The Second was surprised when he saw the silver-white bolt of lightning.

This fellow had many good things on him.

He even had the Heaven-Earth Calamity Lightning!

Sikong The Second recognized the lightning.

As an eternal stage martial warrior, he had dealt with the Heaven-Earth Calamity Lightning before so he was familiar with it.

"Hey, do you want this? I have something delicious here!" Wang Teng smiled and said to the Lightning Spirit within the fire cage.

Sikong The Second: ...

What a pervert!

He looks like an old uncle asking a young girl if she wants to eat ice cream.

However, the Lightning Spirit fell for it. It sensed the Heaven-Earth Calamity Lightning in Wang Teng's hand and turned quiet.

Then, like a hungry cat that saw delicious food, he involuntarily inched closer.

But, there was a fire cage around it so it couldn't go out. It spun around anxiously in front of Wang Teng's finger.

"Do you want to eat this?" Wang Teng moved his finger to tempt it. "Follow me and I'll give you this treat every day."

The Lightning Spirit understood Wang Teng's words. When it heard that it could eat this lightning every day, it came to a halt, just like a child who couldn't move a step further.

There's a chance. Wang Teng was elated. He continued enticing the Lightning Spirit, "Come closer if you agree."

"Wang Teng, you're so sneaky," Round Ball couldn't help but complain.

"What do you know? I'm giving it a direction in life. It will be able to enjoy life after it follows me," Wang Teng said confidently. "Others might not be able to afford this Heaven-Earth Calamity Lightning but I can."

"You make sense," Round Ball replied.

"Quick," Wang Teng kept urging the Lightning Spirit.

The Lightning Spirit was tempted but it wasn't stupid. It knew that once it agreed to Wang Teng's request, it would lose its freedom.

It wanted to devour the Heaven-Earth Calamity Lightning but it didn't want to lose its freedom. It was torn between the two, anxiously spinning in circles, unable to make a decision.

"This Lightning Spirit is quite smart," Sikong The Second lamented. He felt even more envious.

Wang Teng was delighted. The smarter the spirit, the more useful it would be. This was a good thing for him.

However, if they continued like this, he didn't know how long he would need to subdue the Lightning Spirit. Hence, he decided to scare the Lightning Spirit.

"Little creature, if you don't agree, I'll burn you to death." Wang Teng gave a fierce look and retracted his hand. The fire cage started shrinking.

"Squeak!" The Lightning Spirit froze and made a sad sound.

Wang Teng was unmoved and continued to shrink the fiery cage. Finally, the Lightning Spirit yielded and, as if resigned to its fate, slowly moved towards Wang Teng's fingertip.

Very good! Wang Teng smiled. "I will plant the spiritual mark now. Don't resist."

"Squeak!" The Lightning Spirit moved up and down as if it was nodding.

A brilliant light shot out of his forehead and formed a golden mark. It slowly floated towards the Lightning Spirit.

It didn't resist as agreed and the golden mark entered its body smoothly.

After some time, Wang Teng felt a weak and pitiful soul. He was elated. He knew that he had succeeded. They had established a connection.

The fire cage dissipated.

The Lightning Spirit floated over and landed on his palm.

Wang Teng placed the Heaven-Earth Calamity Lightning in front of it.

"Squeak!" The Lightning Spirit cheered. It immediately enveloped the Heaven-Earth Calamity Lightning as if it was devoured.

"If I didn't see it personally, I won't believe that you tamed a Lightning Spirit," Sikong The Second sighed.

"I'm just lucky." Wang Teng smiled.

"That's the Heaven-Earth Calamity Lightning, right?" Sikong The Second asked.

"What Heaven-Earth Calamity Lightning? it's just a normal string of lightning," Wang Teng pretended to not understand.

Sikong The Second smirked. He stopped probing and said, "Since you have it, give more to the Lightning Spirit. It can help it to grow."

"Yes." Wang Teng nodded.

"Alright, it's time for us to leave this place." Sikong The Second waved his hand, shook his head with regret, and entered the warship.

## **Chapter 1652: Chaotic Star Sea!**

The ancient warship left the void torrent belt and entered another part of the universe.

Wang Teng and the others had left the Liuguang Territorial Domain where the Great Qian Empire was and entered another territorial domain.

But, there wasn't much difference since all they could see was the starry sky in front of them. It was cold and lonely with countless celestial bodies floating in it.

However, to Wang Teng, entering the void torrent belt was a novel experience.

He even received a huge gift and a favor from Sikong The Second.

Wang Teng wanted to laugh when he remembered Sikong The Second's frustrated expression.

After leaving the void torrent belt, the warship entered the Dark Universe again and started sailing at high speed.

...

In the cultivation room of the warship.

Wang Teng sat cross-legged on the ground and studied the Lightning Spirit he just tamed.

Round Ball appeared and sized up the Lightning Spirit curiously too. It wanted to come out just now but had to wait until Sikong The Second left.

"This Lightning Spirit was just born not long ago. It's only at the celestial stage," Round Ball said.

"If it was a little stronger, I might not be able to catch it." Wang Teng shook his head. "Also, the bolt of Heaven-Earth Calamity Lightning might not be enough to entice it."

"Hahaha, you're right. You're really lucky. A bolt of Heaven-Earth Calamity Lightning for a Lightning Spirit. What a huge gain." Round Ball laughed.

"But, I will need to use more Heaven-Earth Calamity Lightning to feed it in the future. This little creature is a huge consumer of lightning," Wang Teng lamented.

Another Heaven-Earth Calamity Lightning appeared in his hand. The instant it appeared, it was devoured by the Lightning Spirit at an incredible speed.

This was already the ninth Heaven-Earth Calamity Lightning he fed the Lightning Spirit!

The Lightning Spirit ate happily while Wang Teng felt a little helpless.

The Heaven-Earth Calamity Lightning that he had painstakingly accumulated was immediately eaten by the Lightning Spirit. If this continued, he would run out of Heaven-Earth Calamity Lightning soon.

"Squeak!" The Lightning Spirit was elated. It cried with joy.

Its master wasn't lying!

There were indeed many delicious things to eat if it followed him.

"You're a foodie!" Wang Teng flicked it with his finger.

The Lightning Spirit started shaking back and forth like jelly.

"Squeak~" The Lightning Spirit made an aggrieved sound. It wasn't afraid of Wang Teng and immediately moved closer to his hand and rubbed against it. It seemed exceptionally intimate.

"Haha, you know how to whine." Wang Teng was caught between laughter and tears.

"The Lightning Spirit is indeed intelligent," Round Ball exclaimed in surprise.

"How is it compared to you?" Wang Teng asked.

"Go away! I don't know how to whine." Round Ball's face turned black.

Wang Teng was stunned for a moment. Then, he burst out laughing. "Hahaha, I'm not asking you to whine. I'm asking about your intelligence."

"No way!" Round Ball knew that it made a huge mistake so its face turned even blacker. However, it still said, "If it grows up, its intelligence will be on par with mine. However, it won't be as powerful as me. I'm an intelligent life form. I can do many things it can't."

"Squeak squeak!" The Lightning Spirit seemed to understand Round Ball's words and squeaked unhappily.

"Haha, it's not convinced by you," Wang Teng teased.

"This little creature." Round Ball rolled its eyes. "You just came and you're already looking down on your boss. I wonder how bad your attitude will be in the future?"

"You're the boss? You might not be able to win it," Wang Teng said.

"What a joke. I'm at least at the cosmos stage." Round Ball glared at him.

"Fight with it. The one who wins will be the boss." Wang Teng sniggered.

"Squeak squeak!" The Lightning Spirit floated into the air. Lightning crackled around it as it got ready for a fight. It wasn't afraid.

"Tsk, I'm not going to fight with it. It's demeaning." Round Ball pouted. It rolled its eyes and gave a look of disdain. Then, it said calmly, "Even if I win, you will say that I bullied the little creature."

Wang Teng knew that Round Ball was feeling a little scared. It wasn't good at fighting but was useful in other areas. However, he didn't expose it. He waved his hand and said, "Alright, alright, we're on the same side. There's no need to fight."

Then, he consoled the Lightning Spirit.

"You're a Lightning Spirit. You will definitely be useful in the future. You won't lose to anyone."

"Squeak squeak!" The Lightning Spirit rubbed against Wang Teng's hand happily and sent him a thought... I will work hard to become stronger!

"Good boy!" Wang Teng touched the Lightning Spirit and kept it in his Space Fragment.

"There's no justice in this world. You forget your old friend when you have a new one," Round Ball lamented.

"Come on." Wang Teng rolled his eyes. "Or do you want me to touch your head too?"

"Thanks, but I don't need it." Round Ball felt a chill in its heart. It hurriedly distanced itself from Wang Teng, afraid of his evil hand.

Based on his understanding of Wang Teng, he might do it.

"Alright, let's stop fooling around. Let's get back to business. I have a question for you," Wang Teng said.

"What question?" Round Ball heaved a sigh of relief when it saw Wang Teng becoming serious. It was afraid that Wang Teng would suddenly go crazy and want to have an intimate time with it.

"I never knew how you can raise your ability." Wang Teng pondered for a moment and asked directly.

"That's the question? I thought it will be something more serious. Improving my ability isn't easy. I need life crystals, soul crystals, or other similar things," Round Ball said.

"Soul crystal!" Wang Teng was surprised. "Why didn't you tell me about this when we found the antman queen's soul crystals?"

"That amount of soul crystal isn't enough. I need a large number of them to evolve."  
Round Ball shook its head.

"Your requirements are so high." Wang Teng frowned.

"What do you think?" Round Ball felt helpless. "I don't have much hope that I can improve my ability anymore. Well, it's a good thing. At least I can live for a long time. As long as I can replenish my Origin Of Life and Origin Of Soul occasionally, I can remain alive like a universe stage martial warrior."

"This is amazing." Wang Teng was surprised.

"This is an intelligent lifeform." Round Ball smiled proudly.

"Alright, you're amazing." Wang Teng shook his head in amusement. "It looks like I can only wait for a chance in the future."

"As long as you have the heart. Don't force yourself." Round Ball glanced at him and disappeared on the spot.

It was touched when he knew that Wang Teng wanted to help him. However, it wasn't good at expressing its emotions so it could only run away.

Wang Teng smiled and shook his head. He stopped thinking about it and started to cultivate.

He wanted to start developing the World Devourer. He hoped that he could enlighten a domain.

Flying in the void was boring.

Time passed slowly.

Three days later, the warship trembled and Sikong The Second's voice sounded beside Wang Teng's ear.

Wang Teng opened his eyes gradually. There was a hint of helplessness in them. Three days of enlightenment and he still didn't manage to grasp the real Devour Domain.

This domain was extremely profound and occult. Even though he grasped the Dark Devour Domain, he couldn't extract the Devour Domain from it.

From his point of view, the Dark Devour Domain was just a fake Devour Domain. It wasn't the real Devour Domain.

However, he did gain some inspiration after three days. At least Wang Teng had a deeper understanding of the World Devourer.

He realized that the World Devourer divine ability was impressive and awesome. It could swallow almost anything, not just substances or intangible things. It could also swallow Force, spiritual power, and even... emotions!

At this moment, he finally knew how powerful the Devour Nihilism Beast was!

It could even devour emotions! F\*\*k! Wasn't it invincible?

These thoughts shot through his mind as he got up and walked out of the cultivation room.

"Are we here?" Round Ball's excited voice appeared in his mind.

Wang Teng didn't reply to it. He walked out of the cultivation room and came to the deck of the warship. Sikong The Second was standing at the edge of the ship.

"Instructor!" Wang Teng called.

"We're almost there." Sikong The Second looked over and smiled.

We're almost there! Wang Teng was surprised. He quickly walked to Sikong The Second's side and looked in front.

An astonishing scene appeared in his vision.

"This is..."

"This is the Chaotic Star Sea!" Sikong The Second opened his mouth and said.

"Chaotic Star Sea!" Wang Teng was shocked. His throat felt a little dry.

What appeared before him was a vast expanse that resembled an ocean, stretching as far as the eye could see.

Countless celestial bodies adorned it, surrounded by liquid-like energy resembling seawater. It was majestic and unfathomable, mysterious and occult.

Sikong The Second smiled at Wang Teng. He seemed to find Wang Teng's expression very interesting.

"The situation here is similar to the void torrent belt!" Wang Teng finally calmed down after some time and exclaimed in surprise.

"That's right. This is the birthplace of the void torrent belt. I don't know how big the Chaotic Star Sea is, but the void torrent belt flows out from this place and streams to all parts of the universe," Sikong continued.

"Are the Seven Stellar Academies inside?" Wang Teng swallowed his saliva and asked.

"You're right." Sikong The Second chuckled.

Wang Teng was flabbergasted. No wonder the Seven Stellar Academies were so mysterious. They actually existed in such a strange place.

Normal martial warriors might not be able to enter this place!

"Instructor, is there a specific range for the Chaotic Star Sea?" Wang Teng asked. He had a sudden thought.

"There should be powerful martial warriors who can travel across the Chaotic Star Sea, but there are no records. Hence, normal martial warriors don't know how big it is." Sikong The Second looked at the vast sea of stars in front of him and shook his head with a deep gaze.

"Alright, another unknown." Wang Teng felt helpless.

"You might be able to travel across the Chaotic Star Sea one day," Sikong The Second glanced at him and said in a meaningful tone.

"Instructor, you think too highly of me." Wang Teng didn't deny it.

If Sikong The Second couldn't do it, that meant that only a god stage martial warrior could do it.

Wang Teng didn't dare to boast about this.

The god stage was still too far away for the current Wang Teng.

"You still don't understand what the Star Rankings represent. There are records of many talents from the Star Rankings who crossed the Chaotic Star Sea," Sikong continued.

"Someone on the Star Rankings crossed the Chaotic Star Sea." Wang Teng was astounded. He was in disbelief.

## **Chapter 1653: Mysterious!**

"Entering the Star Rankings is of great significance. At the same time, you have to bear many responsibilities," Sikong continued.

"Bear many responsibilities? instructor, what do you mean?" Wang Teng asked.

"For instance, there will be many people in the Stellar Academies who are unconvinced by you. They might come and look for you hahaha..." Sikong The Second gloated.

Wang Teng felt speechless.

Has he already become a target before entering the Seven Stellar Academies?

Was he allowed to skip school?

Was it too late for him to leave now?

Wang Teng suddenly felt that there was a huge trap waiting for him in front. He preferred to improve his ability steadily.

"All the best, young man. I hope that one day, you will be able to light up your Divine Kingdom in the Eternity and become an existence that transcends everything." Sikong The Second patted Wang Teng's shoulder and encouraged him.

"Divine Kingdom!" Wang Teng was flabbergasted. He wanted to ask.

However, at this moment, a warship flew over from afar and a voice echoed in the universe.

"Sikong Number Two, you're here too."

"F\*\*k, Old Man Shu, I told you not to call me Number Two. Why are you shouting?" Sikong The Second flared up like a cat whose tail got stepped on.

"Isn't your name Number Two? Why can't I call you that?" The person laughed loudly.

"Do you want to fight?" Sikong The Second asked coldly.

"Alright, why must we argue every time we meet? Since everyone is here, come over quickly" Another voice floated over from the Chaotic Star Sea in front.

Wang Teng was surprised and looked in the direction of the sound.

There was a vast celestial body that looked like a meteorite floating at the edge of the Chaotic Star Sea. The voice was coming from above.

"Hmph, I'm too lazy to argue with you." Sikong The Second snorted. Their warship immediately shot towards the meteorite.

Boom!

The speed was amazing. It traveled tens of thousands of miles in an instant and entered the Chaotic Star Sea. Then, it landed on the meteorite.

Wang Teng finally saw the situation on the meteorite.

This was like a small piece of land. It was built like a spacecraft dock and a huge warship was parked not far away.

Wang Teng and Sikong The Second's warship was like a baby in front of this giant. The difference was vast.

"Instructor, this is..." Wang Teng whispered.

"This is a warship that will bring us to the Seven Stellar Academies. The Chaotic Star Sea is more terrifying than the void torrent belt. The warship we took can't resist the chaotic energy in the Chaotic Star Sea," Sikong The Second explained.

"The Chaotic Star Sea is indeed scary!" Wang Teng was shocked.

At this moment, another warship arrived right after them and landed on this meteorite. A group of people alighted.

The leader was a middle-aged man. He had black hair and his face was a little long. His aura wasn't significant.

More than 30 young men and women followed closely behind him.

These youths had one thing in common. They were all extremely confident, or rather... proud!

It was a pride that came from the bottom of their heart.

Wang Teng didn't recognize these young people. They weren't the Second Prince or Ji Haochen from the Great Qian Empire.

"These must be the talents from the other territorial domains," Round Ball said in Wang Teng's mind.

Wang Teng nodded.

"Sikong, you only accepted one student?" The middle-aged man with a long face walked over and asked in surprise.

"It's none of your business." Sikong The Second ignored him. He didn't hide his contempt.

Shu Chu didn't mind. He looked at Wang Teng and squinted. Then, he smiled and said, "This young man must be extraordinary to be able to let you guide him alone. I heard that a talent from the Great Qian Empire managed to get onto the Star Rankings. Is it him?"

Wang Teng's expression didn't change, but his gaze flickered slightly. As expected, these eternal stage martial warriors were all smart people. They could guess that he had entered the Star Rankings because he was the only martial warrior Sikong The Second fetched.

However, this person didn't seem to have any good intentions when he revealed his identity directly.

Wang Teng glanced at the young martial warriors behind Shu Chu. As expected, they were looking at him curiously.

They knew about the legendary Star Rankings and knew what it meant to be on it.

Now, a talent who managed to get onto the Star Rankings was standing right in front of them. It would be a lie to say that they didn't have any thoughts.

Some showed hostility, some were unconvinced, some were curious, some were indifferent...

Everyone was looking at Wang Teng blatantly, disregarding his emotions.

Wang Teng remained expressionless but he sniggered in his heart.

A bunch of tools!

They looked like good tools!

"Are these the talents you brought back from the Tianlan Territorial Domain?" Sikong The Second didn't reply to him. Instead, he sized up the young martial warriors opposite him and asked calmly.

Tianlan Territorial Domain! Wang Teng thought to himself. Another human domain?

"That's right. They're the top 10 talents from the various factions in the Tianlan Territorial Domain." Shu Chu nodded.

There were hidden benefits for examiners like them to invigilate the various territorial domains' competitions in the universe. For instance, they could interact with the talents first. Once they established a good relationship with them, these talents would naturally come to their faction.

There were many factions in the Stellar Academies, even in a single faculty.

Yet, Shu Chu managed to pull all the top ten talents in the territorial domain to his side. He was a very opportunistic person.

But, when he saw Wang Teng standing behind Sikong The Second, he didn't feel proud anymore!

A single talent on the Star Rankings was enough to win all the talents behind him.

A peerless and formidable talent couldn't be surpassed by numbers alone.

"Not bad. You brought many talents back to the Seventh Stellar Academy." Sikong The Second nodded.

The corners of Shu Chu's eyes twitched.

This Sikong Number Two was complimenting him. Who did he think he was?

Wang Teng chuckled in his heart. Instructor Sikong was not the type to suffer losses easily. The other party wouldn't be able to get any advantages.

"You're Wang Teng, right?" Shu Chu ignored Sikong The Second and looked at Wang Teng instead.

"Yes." Wang Teng was surprised that the other party knew his name. However, since he asked, he could only nod and agree.

"Old fellow, what do you want to do?" Sikong The Second was vigilant.

"What can I do? I just want to get to know Wang Teng." Shu Chu smiled and turned to Wang Teng. "My name is Shu Chu. You may look for me if you face any difficulties in the Seventh Stellar Academy."

"F\*\*k, how dare you steal my man." Sikong The Second was furious.

"What do you mean by your man? He hasn't officially entered the stellar academy. It doesn't mean anything." Shu Chu laughed and ignored Sikong The Second. He turned and walked towards the huge warship with his men.

"Wang Teng, don't get fooled by him. This old fellow is famous for throwing his net wide to catch more fish. If you choose his side, you won't get many resources," Sikong The Second gritted his teeth and said to Wang Teng hurriedly.

"Instructor, I don't even know what side you're talking about," Wang Teng smiled and said.

His intention was clear. It was too early to say this.

Sikong The Second regained his senses. He secretly lamented that his concerns made things complicated, and he couldn't see things as clearly as a new student.

"You're right. We'll talk about this after we reach the stellar academy." Sikong The Second looked at him intently and regained his composure. He waved his hand and kept the warship behind him. Then, he walked forward and said, "Come, let's board the spacecraft. It looks like most of the people are here."

Wang Teng nodded and followed him.

The two of them boarded the giant warship.

When he boarded the warship, Wang Teng finally realized that there were already many people on it. They were split into many small groups.

Wang Teng blinked. These talents belonged to different factions. It looked like the Seven Stellar Academies encompassed all the talents in the universe.

Also, he could sense that these talents were all extraordinary. Some were on par with the Second Prince, while others were on par with the Crown Prince.

This distinct faint aura would appear naturally when one reached a certain level. It wasn't something an ordinary talented martial warrior could possess.

"Wang Teng!" At this moment, a surprised voice came from a corner of the warship.

"Ji Haochen!" Wang Teng turned and looked in the direction of the voice. As expected, he saw a few familiar figures. It was the Second Prince, Ji Haochen, and a few others.

Wang Teng looked at Sikong The Second.

"Go ahead. You can stay with them before you reach the faculty." Sikong The Second disappeared after he finished speaking.

Wang Teng walked over and scanned the crowd. He noticed that besides the Crown Prince, the top 10 in the League Of Talents of the Great Qian Empire were all here. He smiled and asked, "When did you arrive?"

"We have been here for a day. We have been waiting for this warship to set sail," the Second Prince, Yu Yuanrui, smiled and replied.

Yu was the imperial surname of the Great Qian Empire. This surname was relatively rare in the universe.

"Where are the others?" Wang Teng glanced around him. He didn't see any of the top 1,000 martial warriors from the Great Qian Empire.

"They seem to have another warship fetching them." Ji Haochen greeted him. "Come, sit down and talk. We were just discussing when you would arrive. Why did you arrive so late??"

"I had many things to settle in my territory so I left a little late." Wang Teng shook his head.

Then, he started chatting with the others. Ji Haochen and the others arrived earlier than him so they were more familiar with this place. However, they didn't know much as the talents from the different territorial domains were all gathered together. They didn't interact much.

But, Wang Teng received an important piece of news from them. The Crown Prince was here too. He was in the cabin and hadn't come out.

Wang Teng was surprised. What was going on with the Crown Prince?

Why was he released after he turned into a dark apparition? Also, why were the Seven Stellar Academies willing to accept him?

Things were getting mysterious.

## **Chapter 1654: You Have Never Fished, You Don't Understand! (1)**

Wang Teng didn't probe further regarding the Crown Prince.

Yu Yuanrui and the others were being secretly so he could tell that they didn't want to say much. Looking at their expressions, they probably didn't know much either.

It made sense. Young martial warriors like them wouldn't have the right to know such secret matters.

A genius was just a genius!

They hadn't reached the level where they could grasp all secrets!

There weren't many people like Wang Teng who knew a little of everything.

"Wang Teng, they seem to be looking at you." Ji Haochen interrupted Wang Teng's thoughts.

"Who's looking at me? Is it a man or a woman?" Wang Teng looked around curiously.

Everyone: ...

Did you think that there was a beauty looking at you?

What was wrong with this guy?

"Almost everyone is looking at you," Timothy whispered. He was caught between laughter and tears.

"I thought that some beauty saw my handsome face and fell in love with me," Wang Teng said with regret.

Everyone: ...

"You're so shameless." Yue Qiqiao rolled her eyes.

Leng Qianxue, who was standing at the side, couldn't bear to look at him either.

This person was quite thick-skinned!

Wang Teng felt unreal to her. He was clearly talented, yet so unconventional and different from other arrogant geniuses.

However, Wang Teng had his pride too. His pride was hidden deep in his heart and would only be revealed when someone touched his bottom line.

She understood this during the League Of Talents.

"I'm so handsome, it's possible," Wang Teng replied to Yue Qiqiao.

Yue Qiqiao felt even more speechless.

Despicable people were invincible.

This person had reached a new realm of shamelessness.

"They probably know that you're on the Star Rankings." The Second Prince, Yu Yuanrui, smiled and shook his head.

"So what if they know? What can they do to me?" Wang Teng glanced around him and replied nonchalantly.

Honestly, he was filled with anticipation. All these talents were suppliers of attribute bubbles. He hoped that they would come and find him soon.

"You have a big heart," Ji Haochen said.

"These people are secondary. The talents from the Seven Stellar Academies are your greatest trouble," the Second Prince, Yu Yuanrui, reminded him.

"I know." Wang Teng nodded. He looked at the silent Landon and smiled. "Hey, Landon, you're here too. Did the Parkers family come up with any plans to tackle me recently?"

Everyone: ???

Landon was stunned too. This fellow didn't go by the book. How could he ask such a question?

"No? Really? Come on, those old fellows from the Parkers family hate me to death." Wang Teng touched his chin curiously.

Landon coughed awkwardly and gave a bitter smile. "Brother Wang, I rarely participate in family matters."

"That's impossible. You're the only talent from the Parkers family who entered the Seven Stellar Academies," Wang Teng cried in disbelief.

He was very curious about Landon. This person didn't have the inherent coldness and arrogance of the Parkers family. He never showed any hostility towards him either.

This was strange!

Everyone in the Parkers family hated him to the core, but this person didn't.

Either he hid his emotions well or he didn't have a strong sense of belonging to the Parkers family.

Whichever it is, it was worth Wang Teng's attention.

What's more, he had information about the Gray-White Flame.

"Whether you believe me or not, I have no prejudice against you," Landon said sincerely.

"Really?" Wang Teng gave a meaningful smile and patted his shoulder. "In that case, let's get along well in the academy."

"I will, I will." Landon smiled and nodded.

The others had strange expressions on their faces. What was with this harmonious atmosphere between them?

...

Wang Teng and his friends chatted casually while the others discussed in low voices. They were undoubtedly talking about Wang Teng.

"That's Wang Teng who entered the Star Rankings!"

"He looks ordinary. Besides being a little good-looking, I don't see anything special."

"That's the Star Rankings. Anyone who can be on the Star Rankings should be a dazzling star."

"I heard that this person came from the Great Qian Empire in the Liuguang Territorial Domain. Some of the talents on the Star Rankings came from there. It looks like he has a strong foundation."

"Anyway, he chose the Seventh Stellar Academy. I wonder what he's thinking."

"That's right. He chose the Seventh Stellar Academy instead of the first three academies."

"I heard that he grasped multiple Forces. Is this the reason?"

"Some of us have multiple Forces too but no one chose the Seventh Stellar Academy. Everyone knows what the Seventh Stellar Academy is like. Choosing that path is a path of death."

"What an unwise decision!"

"I think that this is the end of him."

"I wonder how powerful Wang Teng is. Does anyone want to test him?"

"Why don't you go? We'll cheer for you."

Silence.

Many people were talking about it. However, no one was willing to be the first to test Wang Teng.

## **Chapter 1655: You Have Never Fished, You Don't Understand! (2)**

They weren't stupid. A talent who was able to enter the Star Rankings definitely wasn't weak. They would be asking for humiliation if they went up now.

Even if they wanted to challenge Wang Teng, they would wait for a few years after entering the stellar academies.

Many people felt that Wang Teng was stupid to choose the Seventh Stellar Academy. They were being polite when they called him unwise. Actually, many people were mocking Wang Teng secretly.

They felt that after choosing the Seventh Stellar Academy, Wang Teng's future was half-destroyed no matter how talented he was.

They might not be as powerful as Wang Teng now, but they could catch up with him in a few years.

There were instances like this in the past.

Many talents who entered the Seventh Stellar Academy were full of confidence at the start but after a few years, they became ordinary.

This was why the Seventh Stellar Academy was always at the bottom.

Of course, this 'ordinary' referred to becoming normal talents.

The Seventh Stellar Academy was still a stellar academy. No matter how bad it was, the students wouldn't be worse than normal martial warriors.

Around three hours later, the warship suddenly vibrated and soared into the sky.

"We're leaving!"

The talented martial warriors on the warship were exhilarated. Many of them had been waiting for a few days. Finally, they could leave.

Wang Teng, Ji Haochen, and the others stood up and looked out of the warship.

The warship flew out of the meteor below them and entered the Chaotic Star Sea.

An endless surge of chaotic liquid energy came forth, only to be shattered by this immense and colossal warship. The warship, like a sharp knife, resolutely sailed towards the depths of the Chaotic Star Sea.

The genius warriors on board were greatly astonished. They gathered around the edge of the ship to witness this spectacle.

Generally speaking, as genius warriors, their perspectives should be broad. However, it was their first time witnessing such a magnificent sight.

The Chaotic Star Sea was famous in the outside world, but it was only among the powerful martial warriors.

These talented martial warriors had never been here.

This was even the first time many of them saw a void torrent belt.

"Look, what are the instructors doing?" Someone whispered.

Many people looked up. There were two decks in this warship. The young martial warriors were on the lower deck while the eternal stage instructors were on the upper deck.

"Fishing!"

"They seem to be fishing!"

Exclamations escaped the mouths of these genius warriors as they witnessed someone fishing within the Chaotic Star Sea for the first time. They were all utterly shocked by this sight.

Wang Teng looked up in surprise too.

He thought of many things. Besides the void torrent belt, they could fish in this Chaotic Star Sea too.

Why else would Sikong The Second have brought his fishing rod along?

After all, void torrent belts weren't easy to find. Which eternal stage martial warrior would go to a void torrent belt to fish for no reason?

Everything made sense after he saw this scene.

This was because the Seven Stellar Academies were in the Chaotic Star Sea. The instructors from the Seven Stellar Academies must have been fishing frequently.

"You can fish in the Chaotic Star Sea!"

Ji Haochen and the others exclaimed in surprise.

Wang Teng chuckled in his heart. He wondered what their expressions would be like if they knew that he had fished personally.

"I wonder what's below?" Ji Haochen asked in surprise.

"There's fish," Wang Teng replied seriously.

"There's are fish?" Ji Haochen and the others looked over and asked curiously. "That's impossible. Fishing isn't always about catching fish. You have never fished before, so you don't understand. The instructors might seem to be fishing, but this is the Chaotic Star Sea, not the real sea. I feel that they might be fishing for something else."

"You make sense." Wang Teng glanced at him with a strange expression.

I've never fished before so I don't understand.

This fellow sounds so confident people might think that he had fished before.

However, Ji Haochen was right. There should be more exquisite things below the Chaotic Star Sea.

These eternal stage instructors might not be fishing. They might be hoping to catch something else.

At this moment, one of the instructors got lucky and his fishing rod was suddenly pulled downwards, indicating that something took the bait.

"Hahaha..."

A burst of laughter echoed from above as the mentor exerted a strong force, pulling out a massive blackfish from the Chaotic Star Sea. The liquid energy splashed around, resembling glistening water droplets under the sunlight, radiating a sparkling brilliance.

Everyone looked at Ji Haochen in unplanned unison.

Who was the one who said that there might not be fish?

Isn't this a fish?

They almost believed his nonsense.

"Cough, so it's really a fish." Ji Haochen coughed awkwardly, his facial muscles twitching, overwhelmed by a sudden wave of embarrassment.

The fish that glided through the air happened to pass right in front of him. Its lifeless fish eyes locked with his for a brief moment as if mocking him.

"It's alright. Besides fish, there must be other things below." Wang Teng held back his laughter and patted his shoulder to console him.

Ji Haochen: ...

It would have been better if he didn't comfort him. It made him even more awkward.

He glared at Wang Teng. This fellow was laughing at him, right? He must be.

"Pfft!" Yue Qiqiao burst out laughing when she saw his expression.

Ji Haochen's face turned black. He felt like he had truly made a fool of himself.

If the first thing the instructor caught wasn't a fish, he wouldn't feel so awkward.

Ironically, just moments ago, he had adamantly declared that it was impossible to catch any fish. Yet, the first mentor managed to hook a fish, which happened to pass right before him. What a stroke of luck!

Wasn't this a slap on his face?

...

At the same time, on the upper deck of the warship, a few instructors were chatting casually.

"It's a Black Blade Fish!"

Everyone gathered around the black fish and started commenting.

The instructor who caught this black fish was an old man around 50 years old. He seemed quite happy.

The Black Blade Fish was a large fish with a sleek, jet-black body shaped like a blade. It was considered a relatively precious species, known for its excellent flesh and its ability to enhance the physical body of heaven stage martial warriors. While its effects may not be significant for them, it was a valuable resource for young martial warriors.

"Old Geng, it looks like you're quite lucky today. You caught a Black Blade Fish in such a short time," someone said.

"Hahaha, this is just the start. I'm sure everyone will get lucky later." Geng Zhizhen waved his hand and laughed.

"Old Two, do you want to compete with me today?" Shu Chu suddenly opened his mouth and asked Sikong The Second.

"No!" Sikong The Second held the fishing rod in his hand and replied calmly without turning his head.

"Hey, Sikong The Second, aren't you always enthusiastic about competitions? Why aren't you participating today?" someone nearby commented.

"Sigh, don't talk about it." Sikong The Second didn't like Shu Chu but he had to give face to the other instructors. He said in frustration, "I just lost to a junior a few days ago. I'm not in the mood to compete anymore."

"You lost to a junior!"

"Really? You will lose to a junior?"

"Did you go easy on him?"

Everyone was stunned. They discussed fervently.

"Why will I lie to you? Am I supposed to be proud that I lost to a junior?" Sikong The Second was speechless.

"Who did you lose to? Tell us about it," someone said.

"Here, the one below." Sikong The Second pouted.

"Hey, isn't that the young man who got onto the Star Rankings? I think his name is Wang Teng, right?" The eternal stage martial warriors had good memory so they recognized Wang Teng instantly.

"That's right, it's him." Sikong The Second nodded.

This time, they believed him. After all, individuals with such exceptional talent often possessed extraordinary qualities, particularly a kind of luck that even they couldn't quite explain.

"What did he catch?" Shu Chu couldn't help but ask.

"Let me tell you what I caught first." Sikong The Second suddenly sniggered and piqued everyone's interest.

"Alright, speak." Everyone knew Sikong The Second's temperament. They could only urge him with a roll of their eyes.

"I caught four silver-scaled yellowfish and one of them is three meters long," Sikong The Second said proudly.

"Silver-scaled yellowfish!"

"Really? F\*\*k, how lucky are you?"

The eternal stage martial warriors started shouting in envy, "No, those who listen will get a share. Hurry up and take it out."

## **Chapter 1656: Arrival at the Seven Stellar Academies!**

When the group of eternal stage martial warriors heard that Sikong The Second had caught several silver-scaled yellowfish, their immediate response was to think about dividing the benefits among themselves.

The silver-scaled yellowfish seemed extremely attractive to them.

"Don't even think about it. I don't even have enough silver-scaled yellowfish for myself. Why will I give them to you?" Sikong The Second snorted. He expected this scene.

"F\*\*k, you bitch, you did it on purpose!" Shu Chu cursed uncontrollably.

This bastard said it to make them envious!

"Hahaha..." Sikong The Second burst out laughing.

"Brother Sikong, this is too much. Why don't you share the good stuff with everyone? You have four silver-scaled yellowfish, right? Keep three of them and share the three-meter-long one with us." The eternal stage martial warrior who caught the Black Blade Fish, Geng Zhizhen, said earnestly, "I can use this Black Blade Fish to trade with you."

"No. What use do I have for the Black Knife Fish? It won't be of any help to me," Sikong The Second refused without hesitation.

"The Black Knife Fish can be used to strengthen the physical bodies of the younger generation. How can you say it's useless?" Geng Zhizhen, being straightforward, expressed his dissatisfaction.

"It's not as good as my silver-scaled yellowfish," Sikong The Second said proudly.

"Alright, can't you tell? He's just boasting in front of us." Shu Chu said angrily, "What's so great about it? Let me catch a few later."

"Hehe, well then, go ahead and fish. If you manage to catch something, I'll admit you're skilled." Sikong The Second smiled.

The others knew that Sikong The Second wouldn't take it out so they all scorned him severely.

"So what did Wang Teng catch?" An eternal stage martial warrior covered with purple scales asked.

"That's right. What did he catch? How can it be even more precious than your four silver-scaled yellowfish!" The others were curious too.

"He caught a Lightning Spirit!" Sikong The Second didn't leave them hanging any longer.

"Lightning Spirit!"

Even as eternal stage martial warriors, they couldn't help but feel shocked when they heard about Thunder Spirit, a being born and nurtured by heaven and earth.

"Are you kidding?" Shu Chu frowned as he looked at Sikong The Second.

"If you don't believe me, call him up and ask him personally," Sikong replied.

"Alright, call him over. We old folks are also curious to see what this Thunder Spirit looks like," Geng Zhizhen said.

Sikong The Second immediately acted. He shouted, "Wang Teng, come up."

Wang Teng was chatting with everyone when he heard Sikong The Second's voice. He was stunned and looked up.

The others also glanced at the instructors in surprise before turning to look at Wang Teng.

It looked like the eternal stage instructors were looking for Wang Teng.

Many people were envious. Getting on the Star Rankings was truly remarkable. Even eternal stage instructors were paying much attention to him.

"I'll go up and take a look," Wang Teng said to the Second Prince and the others before flying to the upper deck.

"Why do you think the instructor called Wang Teng?" Ji Haochen couldn't help but ask.

"Who knows? Maybe they want to take a look at the talent who entered the Star Rankings," the Second Prince, Yu Yuanrui, said.

Wang Teng came to the upper deck.

The eternal stage martial warriors sized him up. His heart skipped a beat and he felt a little nervous.

Only at a close distance could he understand the pressure that this group of eternal stage martial warriors brought to him, even though they didn't show any hint of the imposing aura.

However, the difference in their stages still made people uncomfortable.

"Wang Teng, take out the Lightning Spirit you caught and show it to the instructors," Sikong The Second said directly.

Wang Teng was taken aback for a moment and gave Sikong The Second a speechless look. Was he using his Lightning Spirit to show off?

It was quite audacious for a mentor to engage in such behavior. His skin was honestly thick!

However, since the other party had spoken and there were so many eternal stage instructors watching, he could only take out the Lightning Spirit.

"Squeak!"

The round little Lightning Spirit appeared in front of everyone.

It didn't know what happened so it thought that it was time to eat. It squeaked happily and prepared to receive the food.

But, there was nothing. There was only a bunch of wolf-like gazes.

All those eternal stage mentors were gazing at the Lightning Spirit with shining eyes as if they discovered a precious treasure.

"Squeak!"

The Lightning Spirit jumped in fright when it saw a bunch of eternal stage martial warriors staring at it. It jumped onto Wang Teng's head and shivered in fear.

When it was caught by Wang Teng, it didn't dare to act rashly because he got frightened by Sikong The Second. Now, there were even more eternal level martial warriors staring at him. This feeling was terrifying.

"Hahaha, this little creature got frightened by y'all." Sikong The Second burst out laughing.

Wang Teng was speechless. Why was the Lightning Spirit hugging his head? He felt as if he was wearing a hat.

After comforting it, the Lightning Spirit knew that there was no danger. It flew down obediently and landed on Wang Teng's palm.

"Indeed, it's a Lightning Spirit. There's a powerful lightning Force in its body!" Shu Chu exclaimed. "And its intelligence is not low."

"It's a newborn Lightning Spirit. Did you really catch it?" Geng Zhizhen asked in disbelief.

"Yes, I caught it in the void torrent belt. Instructor Sikong wanted to have a duel with me, but I accidentally caught a Lightning Spirit. It was all luck," Wang Teng said in a humble tone.

But, to everyone, this wasn't what they heard.

This guy is a show-off too!

No wonder Sikong The Second managed to get him over to his side. Birds of a feather flock together.

"You're really lucky. I've never seen anyone who can catch a naturally occurring spiritual life form like the Lightning Spirit in the void torrent belt," Geng Zhizhen shook his head and lamented.

The others were amazed too. They looked at Wang Teng in a different light.

It looked like the talents who were able to enter the Star Rankings were indeed extraordinary.

Wang Teng felt that he was able to catch the Lightning Spirit because he possessed the Heaven-Earth Calamity Lightning. All the credit should go to the system as it helped him to pick up the Heaven-Earth Calamity Lightning.

But, in the eyes of these eternal stage martial warriors, it represented a long-lasting fortune.

People who possessed such fortune often had the ability to go much further in their endeavors.

Now, they believed that Wang Teng might be one of those individuals so their attitude towards him became better.

A talented individual with such a long-lasting fortune had boundless potential in the future. They didn't mind establishing some positive connections with him right now.

Of course, that was it. Eternal stage martial warriors wouldn't curry favor with a young martial warrior.

As the saying goes, a prodigy was just a prodigy and means nothing until they had grown and accomplished something significant.

If Wang Teng knew what they were thinking, he might laugh out loud.

Imaginary assumptions were deadly!

Sikong The Second smiled when he saw this scene.

He had done everything he could. Venturing down the multi-Forces path would require a significant amount of resources and was a challenging route to take. Since he had already brought Wang Teng to the Seventh Stellar Academy, it was natural for him to hope that Wang Teng could go even further. Establishing connections was the first step towards that.

In the academy, eternal stage martial warriors were at the top of the pyramid. If he could gain the favor of these eternal stage martial warriors, Wang Teng would face fewer difficulties in the academy in the future.

After chatting for some time, Sikong The Second asked Wang Teng to leave.

Wang Teng felt regretful. He was wondering if Sikong The Second would give him another chance to fish, but that opportunity went down the drain.

Such opportunities were hard to come by.

In the future, he wouldn't be able to fish here unless he got a warship and a fishing rod that could be used to fish in the Chaotic Star Sea.

However, he quickly realized the true intentions behind Sikong Second's actions. Revealing the Lightning Spirit was just a catalyst. In reality, Sikong The Second wanted

him to make an appearance in front of these eternal stage instructors, paving the way for his future cultivation journey at the stellar academy.

"This instructor is really..." Wang Teng smiled and shook his head. He felt grateful.

Wang Teng returned to Ji Haochen and the others. He noticed that they were looking at him curiously.

"Why are you looking at me?" Wang Teng asked.

"Wang Teng, did you cozy up to the eternal stage instructors?" Ji Haochen leaned over and whispered.

"How is that possible? Those are eternal stage martial warriors. It's not easy to cozy up to them," Wang Teng replied calmly.

"We saw it. You have a good relationship with the instructors," Timothy said.

"You must have seen wrong. They just asked me some questions," Wang Teng said.

"Wang Teng, this isn't right. We're all in this together, so when something good happens, you should share it with us. How can you enjoy all the benefits by yourself?" Ji Haochen suddenly hooked his arms around Wang Teng's neck and said.

"Go away." Wang Teng slapped him away. He didn't tell them directly but used voice transmission, "I just went to show my face to the instructors. Don't tell others."

Everyone's eyes lit up and they nodded.

They came from the same empire as Wang Teng so they had to stick together. The better Wang Teng became, the better their prospects would be in the future.

For the rest of the time, Wang Teng and the others cultivated on the warship. They didn't roam around.

For those who came to the Chaotic Star Sea for the first time, it might indeed be intriguing at first. However, as they spent more time here, they realized that it was quite monotonous.

Of course, it would be more interesting if Wang Teng could fish every day like the instructors.

After all, there were always some peculiar and unexpected things being caught, much like opening a blind box. There might be surprises awaiting him.

Three days passed in a blink of an eye.

On the third day, the warship vibrated slightly. Everyone who was cultivating in the cabin sensed something and rushed out. They came to the deck.

Ahead, within the vast and dreamlike ocean of energy, numerous celestial bodies revolved around a central point. Seven immensely colossal continents emerged before everyone's eyes.

At the center of each continent, there stood a towering and majestic mountain peak, occupying almost half of the landmass. These peaks soar into the void, reaching an indiscernible height, shrouded in ethereal clouds and mist. They exuded a sense of grandeur and profound mystery.

Each continent was surrounded by a variety of celestial bodies, including planets, satellites, and stars, creating a truly magical and extraordinary sight.

"Everyone, we have arrived at the Seven Stellar Academies!" A voice was heard.

Wang Teng and the others look at each other in speechless astonishment, completely overwhelmed by the scene unfolding before them.

## **Chapter 1657: Are You A Lady? (1)**

"The Seven Stellar Academies are seven... continents!!!"

Second Prince Yuanrui, Ji Haochen, and the others widened their eyes in shock. They were in awe and unable to calm down for a long time.

Even Wang Teng was astounded.

In the universe, various celestial bodies such as planets, stars, black holes, and even supergiant stars can be seen in abundance.

However, Wang Teng had never seen such an enormous piece of land. It was a sight that left him utterly amazed.

In the virtual universe, many factions existed as continents but this was reality.

It was hard to imagine that there were such continents in the vast universe.

Moreover, around those continents, all other celestial bodies pale in comparison, serving merely as adornments. Planets, stars, and the like are nothing more than accessories to those majestic landmasses.

That was why everyone was stunned!

They couldn't even describe their emotions with words.

The young martial artists present were all top talents from various territorial domains and had witnessed various extraordinary things and beings. However, when they saw the seven continents today, their knowledge and experiences were completely overturned.

"Everyone, what do you think about our Seven Stellar Academies?" An eternal stage martial warrior asked with a smile.

Everyone finally regained their senses and looked at the eternal stage instructor. They didn't know what to say.

"Hahaha..."

The eternal stage martial warriors burst out laughing when they saw their expressions.

Back then, when they first came to the Seven Stellar Academies, they felt the same way. However, that was many eras ago.

A hint of nostalgia appeared in the eyes of many eternal stage martial warriors. However, it disappeared quickly.

"Instructor, how big is this land?" Wang Teng whispered to Sikong The Second.

"Every piece of land spans a few hundred thousand light years," Sikong The Second replied calmly.

"A few hundred thousand light years!" Wang Teng was flabbergasted.

The Battle Planet that hosted the League Of Talents was huge. It was many times bigger than Earth.

However, compared to these seven continents, everything else seemed insignificant, like sesame seeds on a pancake. There was no point in comparing.

"It's too big. I didn't expect such a place to exist in the universe." Round Ball's astounded voice sounded in Wang Teng's mind.

You couldn't blame it for making a fuss. Anyone who saw the seven continents for the first time would have the same response.

Moreover, it used to be a country bumpkin among intelligent lifeforms. It only had the opportunity to broaden its horizons after following Wang Teng.

Round Ball felt that it followed the right person.

In the future, it would be...

A real knowledgeable Round Ball!

"I wonder if these seven immense continents are formed naturally or... are they man-made?" Round Ball asked.

This was the biggest question in Wang Teng's mind. He asked Sikong The Second.

"Guess!" Sikong The Second looked at him mysteriously and chuckled.

Wang Teng: ...

This was a reminder that his actions could come back to haunt him.

Wang Teng loved to use these two words to shut other people up. He didn't expect himself to suffer this treatment today.

Every dog had its day!

"I can't guess." Wang Teng rolled his eyes.

"Alright, alright! You're so uncooperative." Sikong The Second shook his head and continued, "Actually, we don't know either."

"???"

Wang Teng glanced at him speechlessly.

Instructor, you're so irritating!

What's the point of pretending to be mysterious about something you don't know?

Of course, he only dared to complain in his heart. He couldn't afford to offend an eternal stage martial warrior.

The warship below them continued flying forward at high speed.

The continent seemed right in front of them, but the warship still took more than three hours to reach it.

The closer they get, the more the vastness of the continents astounded them.

"Instructor, do these seven continents correspond to the Seven Stellar Academies?" A talented martial warrior asked.

"That's right. The Seven Stellar Academies are known as stellar academies, but from a certain point of view, they are one entity. Hence, the Seven Stellar Academies are all here. Every piece of land in front of you represents an academy. The warships from your faculties will come and fetch you later. We will part here," an eternal level instructor said.

Everyone nodded. They finally understood why they gathered together. It was because the Seven Stellar Academies were in the same location.

"Wang Teng, the celestial bodies around the continent seem to be rune Force weapons," Round Ball suddenly said.

It couldn't see clearly as they were too far away earlier, but now, as they approached closer, Round Ball discovered something unusual.

Wang Teng had a sudden thought. He looked at the nearest planet and indeed saw traces of rune Force weapons.

He was a rune grandmaster. The fluctuations emitted by the runes couldn't escape his eyes.

"These are rune Force weapons." Sikong The Second noticed Wang Teng's gaze and smiled. "There are many dangers in the Chaotic Star Sea. Without these weapons, other dangerous creatures can threaten the Seven Stellar Academies at any moment."

Wang Teng nodded in deep thought.

"Look, there's a Chaotic Star Sea beast there." Sikong The Second suddenly pointed in a direction.

Wang Teng's eyes lit up. He looked in the direction Sikong The Second was pointing at.

Beneath the turbulent liquid energy of the Chaotic Star Sea, a massive dark shadow flashed by, swiftly surging up and heading towards the third continent.

It was a monstrously fierce star beast, with a body as colossal as a planet. It opened its blood-stained maw, ready to devour everything in its path.

## **Chapter 1658: Are You A Lady? (2)**

Universe Behemoth!

This was the real Universe Behemoth!

Many people on the warship exclaimed in astonishment.

Even from afar, they could feel how terrifying the Universe Behemoth was.

This was a mid-tier imperial-level Universe Behemoth. However, it gave off a ferocious and terrifying aura. This feeling far exceeded that of an ordinary mid-tier imperial-level imperial-level star beast.

All the young martial warriors present were talents who could skip levels and kill a beast of a higher level than them. Hence, all of them had killed mid-tier imperial-tier star beasts before.

However, their expressions still changed slightly when they saw the Universe Behemoth. They turned grim.

Wang Teng activated his Real Eye. With his powerful eyesight, he saw someone in front of the Universe Behemoth.

Boom!

At this moment, a loud explosion was heard.

A blade glow flashed across the sky and collided with the Universe Behemoth.

The appearance of that blade glow caused many people's expressions to change. They knew that they couldn't execute this attack.

The person who launched the attack was very strong!

However, when the blade glow landed on the Universe Behemoth's body, it only left a wound. It didn't kill it.

Howl!

The Universe Behemoth roared like a maniac. It was drenched in blood as it charged towards the mainland even more ferociously.

Boom!

A beam of light suddenly shot out from a planet, piercing through the body of the Universe Behemoth in an instant, abruptly silencing its roar.

The Universe Behemoth was dead!

There was dead silence. Everyone stared at this scene in bewilderment.

"What a powerful attack!" Round Ball said grimly.

Wang Teng's eyes shimmered. He was shocked.

If he was right, the person who attacked the Universe Behemoth was a gifted student from the stellar academy. He was at the cosmos stage but he couldn't kill the Universe Behemoth at the same level. This was surprising.

However, the rune Force weapon managed to kill it in one move!

What a terrifying power!

The foundation of the Seven Stellar Academies was surprisingly strong.

What's more, this was probably just the first layer of defense. The real defense barrier should be on the seven continents.

"What do you think?" Sikong The Second smiled and asked.

"It's very powerful!" Wang Teng replied as he picked up the attribute bubbles dropped by the Universe Behemoth.

He gained many blank attributes for free. This felt amazing!

"There are many such weapons around, and that's not the strongest. The most powerful weapons can kill eternal stage Universe Behemoths," Sikong The Second continued.

Wang Teng and the young martial warriors around him were astounded when they heard this. They inhaled sharply in unison.

These weapons could even kill an eternal stage Universe Behemoth. This was unbelievable.

Based on the ability of that mid-tier imperial-tier star beast, the strength of an eternal stage Universe Behemoth couldn't be compared to an ordinary eternal stage star beast.

Boom!

The warship landed on a planet close to the seven continents. There were already warships from the Seven Stellar Academies waiting there. Wang Teng bid farewell to Yuanrui, Ji Haochen, and the others.

"Brother Landon, you're at the Third Stellar Academy? I'll come and play with you in the future." Wang Teng waved his hand when he saw Lan boarding the warship.

"Of course, of course." Landon nodded with a smile. The corners of his eyes twitched.

"Why do you keep targeting him?" Yue Qiqiao stood beside Wang Teng and whispered.

"Really? I just think that he's a little special. I want to get closer to him." Wang Teng didn't deny it.

Then, everyone boarded their academy's warships and flew towards the seven continents.

Yue Qiqiao and... the Crown Prince were going to the Seventh Stellar Academy too!

Wang Teng didn't expect the Crown Prince to choose the Seventh Stellar Academy.

This was the first time he saw the Crown Prince in these few days.

Previously, the Crown Prince stayed in the cabin and never appeared.

He was still the same. The light covered his face so no one could see him. His aura remained exceptional.

The moment he appeared, he attracted everyone's attention.

The Crown Prince was too outstanding. Wherever he went, he became the center of attention.

Many people wondered who he was and why they didn't see him on the giant warship.

Sikong The Second glanced at the Crown Prince when he appeared. There was an ambiguous glint in his eyes, but he didn't say anything.

Wang Teng took in everything with his eyes, and numerous thoughts flashed through his mind.

"Wang Teng, what do you think happened to the Crown Prince? Why is he released?" A voice suddenly sounded beside Wang Teng's ear. It was a voice transmission.

Wang Teng glanced at Yue Qiqiao and replied using voice transmission, "How would I know? I can't see anything amiss."

"I feel that there's something strange about him. Shall we stay away from him in the future?" Yue Qiqiao felt a little closer to Wang Teng unconsciously as they were in the same academy.

"We'll see. I can win him anyway," Wang Teng replied calmly.

Yue Qiqiao was speechless.

She almost forgot that this fellow was a monster who could defeat the devilized Crown Prince.

At this moment, Wang Teng walked over and asked the Crown Prince, "Are you feeling better?"

Yue Qiqiao: (#~#)

She just said told him that they shouldn't provoke the Crown Prince, and now, this fellow ran up to him.

How fearless was he?

The Crown Prince looked at Wang Teng, not knowing what expression to give. He remained silent for some time before replying, "I'm a little better."

"Only a little. Why didn't you rest more?" Wang Teng patted the Crown Prince's shoulder and said in a brother-like tone, "In the future, we are all students of the Seventh Stellar Academy. We should help each other."

Yue Qiqiao felt her heart pounding furiously.

"Alright!" The Crown Prince remained silent for some time before he replied.

"Oh right, I don't know your name. I can't keep calling you Crown Prince, right?" Wang Teng asked.

During the League Of Talents, the Crown Prince was the only one who didn't reveal his name. Wang Teng found this strange.

"Yu Yunxian!" The Crown Prince didn't hide his identity.

"Yu Yunxian? This is a good name, but it sounds like a lady's name," Wang Teng complimented. Then, he sized up the Crown Prince strangely and whispered, "Are you a lady?"

Yu Yunxian: ...

Yue Qiqiao: ...

What was this person thinking? The Crown Prince was a man. How could he be a lady? Did he think they were blind?

Also, what's the use of whispering? Do you think no one can hear you?

"Really?" Wang Teng widened his eyes in surprise.

"... No!" Yu Yunxian's tone fluctuated violently.

"That's good, that's good. If not, I will think that I took advantage of you." Wang Teng patted his chest and heaved a sigh of relief.

During the competition, he hit the Crown Prince's chest many times. It wasn't soft so it looked like he was a real man.

Yu Yunxian: ...

Yue Qiqiao didn't know how Yu Yunxian was feeling right now. However, if it was her, she would have exploded in anger.

In the distance, a group of people was startled upon hearing Wang Teng refer to Yu Yunxian as the Crown Prince, and they started discussing it among themselves.

"So that's the Crown Prince of the Great Qian Empire. I heard that he's famous!"

"That's right. I heard that before the League Of Talents, he traveled to other territories and fought with talents from other parts of the universe."

"I didn't expect him to lose to Wang Teng!"

"Is Wang Teng really so powerful?"

"Luck won't bring you to the Star Rankings."

...

Puff!

The warship entered the range of the seventh continent and slowly descended into a docking bay with numerous spacecraft already docked.

Wang Teng and the others alighted the warship under the lead of Sikong The Second and the other instructors. They stepped on land.

There were already many young men and women in faculty uniforms waiting at the dock. When they saw Sikong The Second and the others, the young man at the front came forward and greeted them. "Instructor Sikong, Instructor Shu..."

Sikong The Second and the others nodded. "I'll leave the new students to you."

"Don't worry, instructor. We will make the necessary arrangements," the young man replied respectfully.

Sikong The Second and the others nodded. He turned and said to Wang Teng, "Come and find me if you need anything." Then, he flew away.

The group of young men and women wearing faculty uniforms looked at Wang Teng in surprise. They recognized him quickly.

"You must be Junior Brother Wang Teng, right?" The young man in the lead came forward and smiled.

## **Chapter 1659: The Seven Judges!**

Wang Teng looked at the young man in front of him. He was surprised by his sudden enthusiasm.

This person looked like a human but he had a horn on his head. He must be from a special race and he gave off a powerful aura. He was a heaven stage martial warrior!

"Yes!" Wang Teng nodded.

"I've long heard of you. You're quite famous in the Seven Stellar Academies now," the young man said with a meaningful smile.

Wang Teng smiled modestly and exchanged a few words of humility. He had already learned about this situation from Sikong The Second so there was no need to repeat it.

The reputation of the Star Rankings had its pros and cons. He might be able to make use of it.

Let's not talk about this for now.

The young man in front of him seemed warm-hearted but he was acting like a senior. This made him uncomfortable.

He was new so they didn't know each other. Hence, there was no need for unnecessary words.

"We are the logistics staff from the faculty's arbitration association. My name is Sari. I will bring you to your lodgings now." The young man introduced himself and brought everyone onto a small spacecraft. They flew towards the mainland.

Throughout the journey, Wang Teng and the others had been traveling by warship so this was the first time they boarded a spacecraft. They finally found a sense of familiarity.

This was a universe level spacecraft so it was extremely luxurious.

As for Sari, he was a heaven stage martial warrior. It was considered quite impressive for him to be able to use a universe level spacecraft.

From the looks of it, in the faculty arbitration association... he seemed to hold a certain position of importance within the logistics department.

Thus, when everyone boarded the universe level spacecraft, one could see a hint of pride on his face.

"Junior brothers and sisters, you can use spacecraft to fly within the Seventh Stellar Academy. However, you need to register the spacecraft first. I will send you some things to take note of in the academy. You must remember them clearly. If not, it will cause unnecessary trouble."

At this moment, everyone was sitting in the lobby of the spacecraft. Sari glanced at them and said calmly.

"This is not an exaggeration on my part. If any of you violate the rules of the academy, the members of the arbitration association will mete out punishments!"

Upon hearing these words, a chill ran through the hearts of the young martial warriors. It seemed that there wasn't as much freedom in the stellar academy as they had initially thought.

Also, what was the faculty arbitration association?

Many people were puzzled.

"The faculty arbitration association is an arbitration body formed by the most powerful students from the Seven Stellar Academies. Their authority is derived from the academy itself as well as from the Stellar Arbitration Council."

"In theory, the younger generations of the Seven Stellar Academies are all under the control of the academy's arbitration association."

Sari smiled when he saw everyone's confusion and continued explaining to them.

The talented martial warriors from the various territories were shocked. The faculty arbitration association's power was immense. It was able to govern the younger generation of the Seven Stellar Academies.

And it looked like it had a powerful backing!

However, the instant they understood what the faculty arbitration association was, another Stellar Arbitration Council appeared.

They got confused again.

Wang Teng blinked. From the sound of it, the faculty arbitration association should be an organization within the academy. As for the Stellar Arbitration Council...

As its name suggested, it must be a huge organization within this vast universe!

It was hard to imagine who founded the Stellar Arbitration Council.

Sari smiled. He didn't explain what the Stellar Arbitration Council was and just continued.

"The ones in charge of the faculty arbitration association are the strongest martial warriors in the Seven Stellar Academies. They are all talents who reached the eternal stage within 30,000 years. In the entire universe, they are an insurmountable presence. Hence, it's best not to rashly challenge the authority of the arbitration association."

"Reached the eternal stage in 30,000 years!" Everyone widened their eyes in shock as if they had heard something incredible.

That was the eternal stage!

Many people might not even reach the eternal stage in a hundred thousand years!

It was truly unimaginable that those seven geniuses who control the faculty arbitration association were able to reach the eternal stage within just thirty thousand years.

The significance of a genius becoming an eternal stage martial warrior was entirely different.

Some eternal stage martial warriors were known as marquesses, and some were known as rulers. The main reason for this difference was their abilities.

Some prodigies, even in their weaker stages, were able to fight against higher-level opponents. If such prodigies reached the eternal stage, their combat power would undoubtedly be terrifying. A single person could defeat numerous opponents of the same stage.

It could be said that those seven strongest individuals from the academies were the epitome of exceptional cultivation speed and unparalleled strength.

Even though the young martial warriors present were all talents from various factions, they didn't dare to say that they could reach the eternal stage within 30,000 years. It would be good enough if they could reach the universe stage at all.

They had barely set foot on the continent where the academy was located, and already, they could feel the weight of immense pressure upon them!

Even Wang Teng turned serious.

But, his blood was boiling with excitement.

This was more interesting!

Being invincible was lonely!

Also, 30,000 years was too long. He hoped that he wouldn't need 30,000 years to reach the eternal stage.

"The seven strongest martial warriors in the seven faculties are called the chiefs or... the judges!" Sari smiled when he saw the young talented martial warriors getting intimidated by him.

He felt the same way when he first entered the stellar academy.

However, at that time, their understanding of the Seven Judges was only superficial. After so many years had passed, they truly came to understand what those seven judges represented, and their awe and reverence towards them became even more profound.

These were seven insurmountable mountains!

"Judges!"

Everyone was flabbergasted. They felt as if there were seven majestic and powerful figures pressing down on their heads. The immense pressure made it hard for them to breathe.

"Of course, the Seven Judges are way ahead of you so we won't see them normally. You just need to know their presence," Sari said calmly.

"There are many eternal stage and universe stage martial warriors under the seven judges. If you can grow and develop in the future, and catch the attention of the seven arbitrators, perhaps you will earn their favor."

Hmph~ Wang Teng snorted in his heart.

He was already establishing his authority over the freshmen as soon as they enter the stellar academy. Their power and authority were truly formidable!

Everyone present was a genius from the various territories. Asking them to submit to the seven judges was equivalent to looking down on them.

Maybe Sari made an unintentional mistake because he respected the seven judges too much. Hence, he was forcing this respect on them.

But, to the talents present, this was unbearable. It was a humiliation.

Many young talents were furious and unconvinced. They came to the Seven Stellar Academies to become stronger, not to become subordinate of a formidable warrior.

Sari smiled. A hint of disdain appeared at the edge of his lips.

He acted the same way in the past. At the start, he was unconvinced but only after experiencing the brutality of reality did he know how terrifying the seven judges were.

These talents from the various territorial domains would eventually follow in his footsteps.

Of course, there might be people who could get closer to the seven judges, but only close. The eternal stage and universe stage martial warriors under them were instances.

They were once the most outstanding geniuses with broad perspectives and strong spirits. However, now, they had all been defeated by the seven judges and willingly submitted themselves.

What was the difference?

As he thought about this, Sari glanced at the young faces in front of him as if he was watching a good show. How would they feel if they remembered their emotions today?

They would probably feel complicated!

Suddenly, he saw one young man and the smile on his face disappeared.

That person had no trace of anger or resistance on his face. There was only an extreme calmness as if the reputation of the seven judges had no impact on him.

Wang Teng!

It was him!

Sari squinted. Many thoughts went through his mind.

It was said that the Seven Judges were talents who entered the Star Rankings too!

Wang Teng was an accident!

The biggest accident in this batch!

Could a peerless genius who entered the Star Rankings shake the position of the seven judges?

No!

Impossible!

So what if he entered the Star Rankings? He hadn't matured fully. Too many talents died in the process.

On the other hand, the seven judges earned their reputation through their own efforts and abilities!

They deserved everyone's respect!

He would only be able to convince them if he reached that stage. If not, everything would be empty talk.

"Scary! Scary!" Round Ball couldn't help but mutter to itself. It was overwhelmed with shock as it once again widened its perspective.

F\*\*k, the Seven Stellar Academies were filled with hidden dragons and crouching tigers.

Eternal stage was considered the pinnacle in the outside world, but it seemed that there were many of them within these Seven Stellar Academies.

Compared to the seven judges who achieved the eternal stage in 30,000 years, the eternal stage martial warriors outside were nothing.

"Don't make such a fuss. You're embarrassing me," Wang Teng said calmly.

Round Ball choked.

This fellow was really arrogant!

"These are ultimate geniuses who reached the eternal stage within 30,000 years. You mustn't underestimate them," Round Ball couldn't help but interject.

"I'm not looking down on them, but they can be surpassed," Wang Teng said.

Round Ball didn't know what to say. It wanted to persuade Wang Teng not to be too conceited but it felt that its persuasion was a little useless when it remembered Wang Teng's past achievements.

For instance, in the League Of Talents, it was certain that Wang Teng wouldn't be able to enter the top 10.

In the end, Wang Teng got first place and even entered the Star Rankings!

It was a tight slap to his face.

Wang Teng might be able to surpass The Seven Judges. Who knows?

Many talents found it extremely difficult to reach the eternal stage in 30,000 years.

But, look at how young Wang Teng was!

He was a little more than 20 years old!

He could reach the eternal stage within 30,000 years.

Round Ball's eyes lit up. It suddenly felt hopeful for Wang Teng. He might be able to shake the seven judges' positions in the future and replace them.

If Wang Teng became a judge, its status would rise too.

Whenever a person mentioned the judge, he would mention Round Ball, the intelligent lifeform who helped the judge along his journey.

Just thinking about it made it excited. Hahaha...

## **Chapter 1660: F\*\*k, They're All Perverts! (1)**

In the spacecraft.

Fulfilling his duties, Sali informed the new students about various common matters within the academy. This knowledge would prevent them from unknowingly violating certain taboos within the academy.

Although this logistics personnel from the faculty arbitration association might have a somewhat authoritative demeanor, he didn't neglect any of his duties.

"Our faculty has a points system. Everything needs points, such as lodging, scriptures, battle techniques, weapons, and many more. You might even have the chance to enter the Uncharted," Sari said.

"Points!" Everyone listened attentively, afraid that they would miss something important. However, when they heard the Uncharted, they were all shocked.

They had already known about the Uncharted since the beginning of the League Of Talents, and they were extremely eager for the opportunity to explore it.

They were still at the celestial stage and the reason why they didn't advance was because they wanted to wait for the chance to explore the Uncharted. They hoped that they could gain great benefits through exploration, which could help them to advance to the cosmos stage.

Only by making such a breakthrough could they dominate their peers and crush other geniuses.

This was their pride. Being geniuses, they naturally aimed to walk the path of the strongest.

If they could get some benefits from the Uncharted, it would be enough to make them stand above all others in the cosmic stage.

Based on what Sari said, they were able to buy the chance to enter the Uncharted with points.

Many people had doubts in their minds and immediately raised their questions on the spot.

"Senior Sari, can you use points to buy a chance to enter the Uncharted?"

"The points are just one of the requirements. There are other things you need. You will know them in the future." Sari gave a mysterious smile.

Everyone was speechless. A person who didn't finish his sentence should be dragged out and killed.

"How do we get the points?" Someone asked again.

"There are many ways to get points, such as completing missions, gaining enlightenment from predecessors, and obtaining rankings. Of course, you can also join the faculty's arbitration association. For instance, I came to welcome you today because the faculty gave me a mission. I can get the corresponding points," Sari said.

At this moment, everyone finally knew that Sari came to welcome the freshmen because he could get faculty points.

At the same time, after his introduction, they knew that these points were equivalent to UC outside. However, in the academy, points were more useful than UC.

"Alright, I won't go into the details. The method of getting points is in the enrollment guide I sent to you. Take a good look at it when you go back," Sari said.

"Let me introduce your lodgings now!"

"In the faculty, the students' residences are segregated based on their levels. There are four main categories: the cosmos zone, the heaven zone, the universe zone, and the eternal zone."

"From the names, you should be able to understand what these four residential districts represent."

Everyone nodded in deep thought. This was differentiated based on one's stage and ability.

"That means that cosmos stage martial warriors can only live in the cosmos zone?" Someone couldn't help but ask.

"Not necessarily," Sali replied with a meaningful smile. "If you can make it onto the major rankings within the academy, you can naturally reside in higher-level zones."

He knew someone would ask this question. To put it nicely, these talented martial warriors were proud. To put it bluntly, they were arrogant. They believed they were different from everyone else and refused to acknowledge anyone's superiority over themselves.

But, this was the stellar academy. All of them were the cream of the crop. It would be incredibly difficult to stand out among such a group of exceptional talents.

Hence, these were just empty words.

Everyone was in deep thought.

"Why isn't there a celestial zone?" Someone asked.

Sari's expression turned strange. He glanced at the person and said, "Everyone here is among the top 10 in the League Of Talents. You have the chance to visit the Uncharted and will be able to break through to the cosmos realm soon. What's the use of this celestial zone?"

The person's face turned red. He knew that he had asked a stupid question.

"What kind of rankings are there?" Someone asked.

"The most famous one is the top 100 ranking. Every academy has a top 100 ranking," Sari said.

"Top 100!" Everyone was shocked.

It wasn't easy to make it into the top 100 of the academy. Just thinking about it made it clear that this was a challenging feat.

"You're right. Most of the people in the top 100 are universe stage martial warriors or eternal stage martial warriors. No one below the universe stage can enter the rank." Sari glanced at everyone and continued, "So, when you enter the academy, you should focus on cultivation and not think about how to get on the rank."

The subsequent words carried a slightly admonishing tone, though it may have seemed a bit authoritative, one could still discern that it was for the good of everyone.

Wang Teng's gaze flickered. He really wanted to know how powerful the talents who advanced to the universe stage after entering the faculty Stellar Academies were.

Even he wouldn't have an easy time fighting someone a level higher than him.

"Oh right, besides the top 100, there's also the universe goddess rank. The universe goddess rank doesn't just belong to our faculty. It includes all the goddesses in the universe. The ladies on it must be the most beautiful ladies in the universe and their ability must also be recognized. However, this ranking only belongs to ladies, hahaha." Sari laughed at the end. He looked a little pervertic.

The men present were captivated when they heard about the universe goddess rank. Their eyes light up with excitement.

It wasn't for the points. It was for the title of the most beautiful lady in the universe.

Since the universe goddess rank included all the goddesses in the universe, it was worth paying attention to.

No man would dislike a goddess!

Not even geniuses.

## **Chapter 1661: F\*\*k, They're All Perverts! (2)**

The female martial artists present also had an expression of longing on their faces. If they could leave their names on such a prestigious ranking, they would consider it an achievement worth dying for.

This was undoubtedly a great honor for ladies!

No lady could resist this temptation.

Wang Teng was speechless. The universe goddess rank seemed famous. In the past, the instructors from the Seven Stellar Academies used the goddess ranking to tempt him. Now that he thought about it, it was a little absurd.

But, this made things more interesting.

He wondered how beautiful the goddesses on the universe goddess rankings were to garner such adoration.

He looked at Yue Qiqiao, who was beside him. Her eyes were almost glowing.

Speaking of which, her appearance and aura were quite exceptional. How was she compared to the goddesses on the goddess ranking?

"Senior Sari, are there any senior sisters in our faculty on the ranking?" The male martial warriors below asked curiously.

"Of course. There's quite a few of them." Sari smiled. "If you want to know who they are, you can look them up online. The rankings not only provide detailed descriptions but also showcase their actual appearances. Although it can't be compared to seeing them in person, at least you can get an idea of what they look like."

All the male martial warriors were motivated. They had seen many normal female martial warriors but they had never seen a martial warrior on the universe goddess rank.

Wang Teng: →\_→

F\*\*k, they're all perverts!

"There are other rankings too. I won't go into detail. You can check them yourselves," Sari said. He thought of something and continued.

"Furthermore, as freshmen, each of you should have received some points. The amount of points awarded to each person is based on their ranking in the League Of Talents," Sari explained.

"The first place should have 10,000 points, the second place should have 5,000, and the third place should have 3,000. The points thereafter will decrease gradually."

"You can take a look at your wristwatches. Your identity information was automatically recorded when you entered the vicinity of the Seven Stellar Academies," Sali said.

Everyone hurriedly looked at their wristwatches to check.

As expected, the certification symbol of the Seventh Stellar Academy appeared in their information. There was also a points record.

"30,000 points?" Wang Teng looked at his points in surprise.

Sari had been paying close attention to Wang Teng and saw his surprised expression. He immediately knew that Wang Teng had more than 10,000 points.

This was normal!

It would be strange if there were no special bonuses for entering the Star Rankings.

"Based on past practice, the points of the students who enter the Star Rankings should be three times that of the normal first place," Sari said.

"F\*\*k! Three times!" Someone cursed instantly.

"That's 30,000 points!"

"This is unfair. I only have 1000 points but he has 30,000!"

"There are so many benefits after entering the Star Rankings!"

...

All eyes turned towards Wang Teng. If they had merely harbored a sense of dissatisfaction towards him before, now it was turning into a mixture of envy and resentment.

With 30,000 points, he was far ahead of them. It was difficult for anyone to bear such a gap.

They knew that these points were their foundation in the faculty. It was likely that they would have to rely on these points to exchange for resources in the future too. With 30,000 points, Wang Teng was way ahead of them.

"Wang Teng, do you really have 30,000 points? Let me take a look." Yue Qiqiao leaned over and wanted to look at his wristwatch. She was filled with curiosity and envy.

"It's indeed 30,000." Wang Teng squinted. He glanced at Sari and smiled calmly. "It looks like you know everything."

"Hahaha, after all, everyone is paying close attention to you. Besides, it's not really a secret," Sali laughed heartily.

Everyone got even more envious when Wang Teng admitted it.

After flying for nearly half an hour above the continent of the Seventh Stellar Academy, the spaceship finally arrived at an island floating above a massive lake.

As the martial warriors looked down from the spaceship, they could see that the island was incredibly vast, stretching as far as the eye could see. It was adorned with numerous mansions arranged in a meticulous manner. What a luxurious sight.

The environment on the island was amazing, with various natural landscapes scattered throughout. It felt like a true paradise with a serene and pleasant atmosphere that was soothing to the eyes.

Residing in such an environment would indeed bring about a sense of joy and contentment.

"We have arrived at the cosmos zone. The buildings below have signs indicating if there's anyone living there. You can choose whichever building you want," Sari smiled and said to everyone.

"If there's anything else, the faculty will inform you through our wristwatch."

"You will have to figure out the rest of the cultivation matters yourself."

"In that case, this is where we part. I wish you a happy journey in the Seventh Stellar Academy!"

As the conversation reached this point, everyone realized that Sali's task was coming to an end, and it was also time for them to depart.

The spacecraft didn't land. Everyone flew out from the cabin door at the center of the spacecraft and landed on the island. They started looking for a place to stay and familiarize themselves with the environment.

"Wang Teng, let's find a row of mansions so that the three of us can stay closer. It will be easier for us to take care of one another," Yue Qi suggested, looking around.

"I have no objections. I'm happy even if you live in the same mansion as me." Wang Teng smiled.

"Shameless!" Yue Qiqiao's face turned red as she cursed.

"Hahaha..." Wang Teng didn't mind. He laughed and looked at the Crown Prince beside him. "Brother Yunxian, what about you?"

"I'm fine with the suggestion!" Yu Yunxian nodded calmly. It looked like he didn't plan to stay alone either.

"Let's start searching." Wang Teng scanned the sky and his eyes lit up. "That place looks good. It's quite secluded."

The place Wang Teng chose was at the foot of a lush green mountain. The mountain was covered with a canopy of trees. The environment was pleasant and there were many exotic flowers and rare plants. The concentration of the Force alone was stronger than in other areas. It was an excellent place for cultivation.

"This is a great location. I bet others have already taken it," Yue Qiqiao said.

"Let's take a look first." Wang Teng had already used his Real Eye and realized that there was only one manor with someone living inside. The other buildings were empty but he couldn't say it directly.

Soon, the three of them arrived at the foot of the mountain.

There were a total of four mansions here built around the mountain peak. The atmosphere was serene. Each mansion exuded an ancient charm, surrounded by various plants, some even climbing up the walls on the outskirts of the mansions.

Wang Teng loved this environment.

"Huh? There's really no one here." Yue Qiqiao was surprised. "Why is there only one person living in this good place?"

There was an electronic screen above the gates of the manors. Three of the manors were indeed marked as unoccupied. It was just enough for the three of them.

"In that case, let's each choose a manor to stay in." Wang Teng smiled.

Yue Qiqiao and Yu Yunxian had no objections and chose a manor each. Although there was some distance between them, they were relatively close to each other.

To martial warriors like them, they would only need a few seconds to reach each other's mansion at this distance, including reaction time.

If anything happened in the future, the three of them could take care of each other.

The three of them didn't say much. They were new so they needed to familiarize themselves with the Seventh Stellar Academy quickly.

"No. 1568!" Wang Teng looked at the house number and used his wristwatch to open the door of this manor. The electronic screen on the door immediately changed to 'Occupied'. Then, he pushed the door and walked in.

These mansions were primarily characterized by their spaciousness, occupying a large area. At the center were several buildings, while the surrounding area was covered with lush green lawns.

Wang Teng strolled around and quickly familiarized himself with the layout of his mansion. The mansion was well-equipped. Each mansion had a luxurious and spacious living villa, and all the amenities were brand new. There was no sense of antiquity, nor any trace of previous inhabitants. It was hard to tell how they had managed to maintain such a pristine condition.

In addition to the living villa, there was also a massive training ground. It was constructed with extremely sturdy metal and engraved with runes, capable of withstanding powerful attacks.

Next to the training ground, Wang Teng discovered a spacious and comfortable swimming pool. The pool water was refreshingly cool, and there were instruments nearby to control the water temperature. It would be incredibly relaxing to take a dip in the pool after a training session.

Of course, if Yue Qiqiao, Leng Qianxue, and the others came to take a dip with him, he would be even happier.

## **Chapter 1662: The Four Uncharted!**

After taking a stroll around the mansion, Wang Teng walked into the central villa with an antique charm.

The ground floor of the villa was a spacious hall, suitable for receiving guests.

As for the second floor and above, Wang Teng didn't bother to explore or take a look. After all, they were most likely just the usual amenities and facilities.

Round Ball appeared at the side and sized up its environment. It exclaimed, "The lodging in the universe zone is already so extravagant. What about the heaven zone and the universe zone? What about the eternal zone? I don't even dare to imagine."

"These are just material possessions. It's nothing." Wang Teng sat down on the sofa and let out a contented sigh. He continued, "Round Ball, open the enrollment guide for me to take a look."

Round Ball was speechless.

While Wang Teng claimed that these were just material possessions, he couldn't help but indulge in them. What a shameless person.

However, it still waved its hand and opened a screen for Wang Teng to look at the content of the enrollment guide.

It had already read the content, so it disregarded Wang Teng and started wandering around the villa.

It toured the first floor up to the third floor.

"Wang Teng! Wang Teng! This place is truly luxurious, even more so than your previous residence. The study, the bedroom, and everything else is all constructed with the finest materials," Round Ball exclaimed in astonishment as it returned to the first floor after exploring the upper levels.

"Don't disturb me when I'm looking at the enrollment guide," Wang Teng waved his hand and said with disdain.

"You've changed. You weren't like this in the past." Round Ball was stunned.

"Everyone will mature, and now I have reached a point where I am not burdened by material possessions. Luxurious indulgence is like fleeting clouds to me," Wang Teng calmly remarked, his gaze still focused on perusing the enrollment guide. He realized that the continent where the Seventh Stellar Academy was located was incredibly vast, and there was a lot to understand. If he accidentally violated any taboos due to ignorance, others might use it to target him.

From Senior Sari's words, he could discern the general attitude of most people in the academy towards him.

Getting onto the Star Rankings was an honor but it also make him a target.

Many people probably wanted to see him make a fool of himself.

Thus, Wang Teng had to be careful when he should be.

The faculty arbitration association had great authority so Wang Teng didn't plan to break their rules.

Moreover, if he wanted to know which areas of the academy could help him quickly improve his cultivation, he would also need to find out from the enrollment guide.

He wasn't afraid of any opponents but the talents in the academy still gave him a lot of pressure.

Especially universe stage and eternal stage talents. He couldn't win them yet.

There were also the Seven Judges at the peak of the Seven Stellar Academies.

Senior Salii praised the Seven Judges at every opportunity as if they were invincible. Even the most talented martial artists ultimately chose to submit to them.

This wasn't what Wang Teng wanted.

He wanted to be unbeatable so he wouldn't become someone's subordinate.

However, he needed time to grow.

No one can reach the top without any effort, even if he had the help of a system. He still needed to rely on his hard work... to pick up more attribute bubbles to surpass one genius after another.

This was a difficult path!

Yes, it was difficult!

Round Ball cursed in its mind.

What do you mean by not burdened by material possessions? What do you mean by luxurious indulgence is like fleeting clouds?

It didn't believe it.

This fellow was full of bullshit.

Round Ball rolled its eyes and thought of something. It sniggered and asked, "Why? Do you feel pressured?"

"This isn't pressure. It's motivation." Wang Teng glanced at it from the corner of his eyes.

"Tsk, pressure is pressure. Motivation? Come on, I won't laugh at you." Round Ball pouted.

"What do you know?" Wang Teng rolled his eyes.

Round Ball smirked and stopped arguing with him. It turned serious and said, "I think that what you should do now is to prepare to go to the Uncharted. Nothing else is as important as this."

"This is an excellent opportunity. Many people advanced to the cosmos stage in the Uncharted."

"Uncharted!" Wang Teng blinked. "There's nothing I need to prepare, right?"

"You should at least understand the situation inside the Uncharted," Round Ball said with exasperation. "Use some of your points to look it up on the Stellar Academies' network. I've checked. If you want to know specific information, you can find it on the official website of the academy. However, depending on the value of the information, it may cost you a certain amount of points."

"Alright, help me to check." Wang Teng nodded and ordered.

"Alright, watch me." Round Ball waved its hand and a search interface appeared on the screen. It entered the information they needed.

A confidential file called [Uncharted File] appeared in front of them. It required 3 points to open it.

"3 points seems quite cheap," Wang Teng said. "Buy it."

"Don't underestimate the value of 3 points. You can do many things in the faculty with 3 points. You have a whopping 30,000 points so you can afford to spend them freely. However, to the other students, 3 points might be too precious to spend," Round Ball said. It made the payment, and the details of the Uncharted appeared in front of them.

Wang Teng didn't reply to it. He hurriedly looked at the information.

The document was not lengthy, but it was quite informative. It covered all the necessary introductions.

The Uncharted could be categorized into four major categories: Chaotic Uncharted, Primordial Uncharted, Cosmic Uncharted, and Apocalyptic Uncharted. Every Uncharted had significant differences, as one could infer from the names alone.

The Chaotic Uncharted represented the state of the world before its creation, where everything existed in chaos. It represented the most fundamental form of all things. For martial warriors, this was an excellent opportunity for enlightenment and comprehension.

One second of enlightenment inside was equivalent to ten years of enlightenment outside.

Also, the Chaotic Uncharted was known to contain unimaginable treasures.

If he could obtain a treasure from the Chaotic Uncharted, it could bring about a profound transformation, granting unimaginable benefits and advantages to his body and cultivation.

The Primordial Uncharted, on the other hand, represented the early stages of the universe's formation. It was a time of constant refinement, where the laws of the universe took shape and evolved. For warriors, this was also an exceptional opportunity for enlightenment and understanding.

The Uncharted treasures born in the Primordial Uncharted might not be as good as the ones in the Chaotic Uncharted but they were still powerful. There would be great benefits if he could get one of them.

The Cosmic Uncharted represented a more stable phase in the universe's development. As the universe reached a state of relative equilibrium. While not as transformative as the Chaotic or Primordial Uncharted, the Cosmic Uncharted still hold significant benefits for those who ventured into them.

The final Uncharted was the Apocalyptic Uncharted, which manifested during the impending destruction of the world. While the laws of the universe were still present inside this Uncharted, it was incredibly perilous. Venturing into the Apocalyptic Uncharted posed great risks, and one might die inside.

However, the Apocalyptic Uncharted had its benefits. Many martial warriors even chose the Apocalyptic Uncharted specially to understand the origin of destruction.

Moreover, during the destruction of the world, unimaginable treasures might appear. However, they were relatively scarce compared to the other Uncharteds.

In summary, the four major Uncharteds could be categorized in decreasing order of preciousness and significance.

According to the [Uncharted File], the Chaotic Uncharted was rarely made accessible to freshmen. Only eternal stage martial warriors who made great contributions could enter this Uncharted.

Wang Teng wanted to know which Uncharted he could enter.

## **Chapter 1663: The Foundation Of The Academy! (1)**

After entering the Seven Stellar Academies, all the freshmen who entered the top 10 in the League Of Talents had the chance to enter the Uncharted.

However, the ranking was different so the type of Uncharted they could enter would be different too.

If not, there wouldn't be four types of Uncharted.

This was what Wang Teng learned from the [Uncharted File].

The [Uncharted File] was probably created by past students. It had a detailed introduction and analysis of the four Uncharteds.

Wang Teng blinked. The content of the [Uncharted File] was disappearing gradually.

One look was enough for the martial warriors.

Also, the information he found on the academy's internal web could only be viewed by himself. It couldn't be shown to others. If not, it would be a violation of the rules of the academy.

This was to protect the interests of every student!

If others want to know the information that someone painstakingly brought out from an Uncharted, naturally they needed to pay a certain price.

In this place, no one could gain benefits for nothing.

The faculty created these rules to give every student a chance to earn points.

For instance, the [Uncharted File] required 3 points for one person to read, and as the number of people increased, the income naturally would become quite significant. Moreover, this was a long-term income rather than an overnight one.

There were many similar information files on the academy's internal web. However, all of them required points to read.

Wang Teng asked Round Ball to open the internal web and scanned through all the files. There were all kinds of information. Basically, every piece of information cost 1 to 10 points.

Every piece of information had a different value.

However, that was just normal information. Wang Teng saw some extremely precious information files that were worth a few hundred or a few thousand points. There were even some worth tens of thousands of points.

He couldn't imagine what was recorded in these files that were valued at tens of thousands of points.

This was a platform for the academy to exchange information with the students.

Working in isolation wasn't advisable!

Information gains more value when it is circulated or shared.

It was worth mentioning that this information circulation wasn't just within the Seventh Stellar Academy. It included the entire Seven Stellar Academies.

However, that was on the public platform. Every academy also had its own platform.

"Interesting!" Wang Teng touched his chin. He felt that the academy's points system was not bad. Not only could it stimulate the enthusiasm of the students, but it could also link all the students together, allowing them to have more interactions in their boring cultivation life.

This was probably the only way for every student to grow faster or stronger!

This was a healthy competition!

"Wang Teng, there's an Academy Treasure Pavilion here," Round Ball suddenly noticed something and shouted.

"Treasure pavilion! Open it and take a look." Wang Teng's eyes lit up.

He had 30,000 points so he could spend however he wanted.

Round Ball opened another interface.

Treasure Pavilion!

The first thing that appeared was a series of categories, such as scriptures, battle techniques, items, technology, weapons, and so on.

Below each category, there were even smaller sub-categories.

"Oh my god, there are so many categories!" Round Ball widened its eyes in surprise. It urged, "Quick, open them."

Wang Teng was flabbergasted too. He took a deep breath and scanned the interface.

First, there were the scriptures. The scriptures could be classified into different elements such as wood, water, fire, metal, and earth. There were even scriptures with special attributes like wind, lightning, poison, and light.

Wang Teng's gaze paused, and he suddenly noticed the last category that had been subdivided.

Mixed-element scriptures!

This caught his attention. He had always wanted to create scriptures that could merge all kinds of attributes.

That way, he wouldn't need to grasp too many scriptures.

A scripture that contained all kinds of elements could save him much trouble.

But, he never succeeded.

He opened the mixed-element scriptures section and countless words and images appeared.

**Water-Wood Flowing Cloud Scripture:** A water-element and wood-element scripture. These two attributes complement each other to yield twice the result with half the effort. It's suitable for water and wood-element martial warriors. (Note: This scripture was created by Duke Shui Muzhen. Price: 12,000 points (cosmos stage) 50,000 points (heaven stage) 150,000 points (universe stage) 500,000 (eternal stage))]

**Flaming Sea Burning Wood Scripture:** A fire and wood scripture. To practice this scripture, you need both your fire and wood Forces to reach the heaven stage. These two attributes complement each other. Fire Force will be the main Force while wood Force will be the secondary Force. (Note: This scripture was created by the Duke Flaming Sea. Price: 12,000 points (cosmos stage) 50,000 points (heaven stage) 150,000 points (universe stage) 500,000 (eternal stage))]

**Metal Gale Sky Destruction Scripture:** Metal and wind element scripture. Level of difficulty is high. Metal and wind talents need to reach the universe stage. After cultivating this scripture, the metal and wind Force in your body will become one. Astonishing power. (Note: This scripture was created by the Ruler Sky Destruction. Price: 20,000 points (cosmos stage) 80,000 points (heaven stage) 200,000 points (universe stage) 800,000 (eternal stage))]

...

"Gasp!" Wang Teng gasped when he saw the mixed attribute scriptures on the first page.

He thought that he was a wealthy person after receiving 30,000 points.

Now, he finally knew how poor he was.

Looking at the introduction on the list, just the cosmos stage scripture alone cost 12,000 points.

Also, this was just a double-element scripture. He hadn't looked at the multi-element ones.

## **Chapter 1664: The Foundation Of The Academy! (2)**

That wasn't all. 12,000 points was the lowest. For instance, the Metal Gale Sky Destruction Scripture required 20,000 points.

Not to mention the heaven stage and universe stage scriptures.

Fortunately, these scriptures could be sold based on different stages. If not, who could afford them?

Among the freshmen, Wang Teng had the most points. If he couldn't afford it, the others had no hope.

"So expensive!" Round Ball looked at the scripture on the list and kept quiet for a moment.

"This is atrocious. The price of the heaven stage, universe stage, and eternal stage scriptures are almost double the price of the previous stage. How many points do I have to earn to buy them?" Wang Teng said in frustration. He couldn't even afford a heaven-stage scripture.

"Look at the note behind it. These scriptures are all created by eternal-stage martial warriors. The Metal Gale Sky Destruction Scripture came from an eternal stage ruler. In the outside world, scriptures like this are definitely coveted treasures by major powers. However, they don't have the means to acquire them. Here, being able to purchase them is already considered quite remarkable," Round Ball said in astonishment.

"You make sense. People outside won't be able to buy this scripture." Wang Teng agreed with it. He looked at the Metal Gale Sky Destruction Scripture and lamented, "The rulers of the eternal stage are a formidable presence even among eternal stage martial warriors. It looks like this scripture is indeed as powerful as described."

"A double-element scripture is indeed powerful, especially when it's a combination of metal and wind elements. The metal element is known for its powerful attacking power, and the wind element is a special attribute. The combination of these two attributes is extraordinary." Round Ball nodded. It continued, "I think there's a three-element scripture at the back. Go to the back and take a look."

"Yes." Wang Teng nodded and tapped the interface lightly.

He flipped through a few pages before he reached the section on three-element scriptures. However, Wang Teng was deterred by the price.

"It's too expensive!" Wang Teng shook his head. He was speechless. "I can't afford it."

"It looks like you need to find a way to earn points first." Round Ball gloated.

It knew that Wang Teng intended to pursue a multi-element path, and his number of elements was far beyond that of an ordinary multi-element warrior. This path was destined to require a greater expenditure of resources.

However, this was Wang Teng's choice. It wanted to see if Wang Teng would still stick to his original decision in the face of such a huge consumption of resources.

"You need to use points to buy the weapons and pills on this list. I feel that I can sell weapons and pills. As long as the price is lower than that of the Treasure Pavilion, I won't have to worry about not having sales," Wang Teng smiled and said. His eyes shimmered.

Round Ball was stunned. "Are you trying to snatch business from the academy?"

"I've read the rules of the academy, and it doesn't say anything about prohibiting students from competing with the academy for business. Besides, what I'm doing is a legitimate trade, and no one can find fault with it," Wang Teng said confidently.

"No wonder you were studying the entrance guide and the rules of the academy. Have you been thinking about this all this while?" Round Ball sometimes couldn't help but admire Wang Teng. He always seemed to be one step ahead in his thinking compared to others.

"That was an initial thought, but now I'm even more convinced that I should start my own business," Wang Teng rubbed his chin and pondered, "However, I'll need some help."

"Let's look for Ji Haochen and the others. I think they're trustworthy. However, you need to give them some benefits," Round Ball said.

"It's nothing. If you want the horse to run, you have to feed it some hay," Wang Teng said nonchalantly.

"If they know that you're comparing them to horses, they will be furious." Round Ball chuckled.

"Hahaha... it's just an analogy." Wang Teng couldn't help but laugh at his analogy.

"Fortunately, the points of the seven major academies can be exchanged, which actually makes it more convenient for you," Round Ball suddenly said with a glint in its eyes.

"That's right. This is good. I want to expand my business to all the Seven Stellar Academies." Wang Teng felt proud.

"Not many people would expect that a talent who entered the Star Rankings would be a triple-field grandmaster," Round Ball smiled and said.

"It's alright. They will know soon," Wang Teng replied calmly.

He continued flipping through the scriptures. Unfortunately, the maximum number of elements for mixed-element scriptures was limited to five, and they were the five basic elements. Beyond that, there were no more options available.

Wang Teng felt a little regretful.

He wanted to merge all his Forces!

It looks like I can only take one step at a time. Wang Teng's eyes shimmered as he thought to himself.

Then, he stopped looking at the scriptures and flipped through the other categories.

Battle techniques were categorized in the same way as the scriptures. There were all kinds of hybrid battle techniques too. The price wasn't as high as the scriptures but it wasn't low either.

For the time being, Wang Teng didn't plan to waste his points on battle techniques. He had many battle techniques, including divine stage battle techniques. This wasn't a problem for him.

The classification of treasured items was extremely detailed. There were ores, plants, metals, elemental pills, and many more. Wang Teng couldn't help but scroll through them. It was truly amazing.

There were many things he had never seen before. They were all extremely precious.

There were even items that could increase one's lifespan. Wang Teng took much effort to find a Tree of Radiance that could extend one's lifespan. Yet, there were so many of them here. It was unbelievable.

## **Chapter 1665: The Foundation Of The Academy! (3)**

However, it was expensive too. Such treasures were hard to come by.

Fortunately, Wang Teng had it so he didn't have to be envious. If he had the chance, he could even get some Light Sap from the Tree of Radiance to sell.

Perfect!

The Tree of Radiance had already settled down in the Space Fragment. With the Floral Fairy Race accompanying it every day, it had a happy life.

Also, with the help of the Floral Fairy Race, its main body was restored to its original state. It wasn't as burnt as before.

At this moment, the spiritual form was sitting on the trunk of her main body. Her body was snow-white and she was swinging her fair legs gently.

The floral fairies below the tree ran around and laughed happily.

This atmosphere made the Tree of Radiance feel relaxed.

However, at this moment, she suddenly frowned and felt a chill.

I've already recognized him as my master. What is that bastard planning to do? The Tree of Radiance knew that Wang Teng must be scheming against her and cursed in her mind.

...

Wang Teng continued scrolling.

He noticed that the technology category didn't just include spacecraft and weapons. It also included warships.

He tapped on the category and as expected, it was the type of warship he took on his way here. Was this considered a technology?

He remembered that this was created by the Ancient Runes Technology so it could be considered rune technology.

But, he didn't expect the academy to sell these ancient warships.

This was a little amazing!

Wang Teng couldn't understand what the academy was thinking.

Normal people wouldn't bear to sell such warships.

The magnanimity of the academy exceeded Wang Teng's expectations.

"Tsk!" Wang Teng clicked his tongue when he saw the price of the warship. "A cosmos level warship costs 500,000 points!"

"That's an ancient warship!" Round Ball stared at the screen carefully and exclaimed, "Although the style is different, I can tell that these are ancient runes at one glance. It's not too much to sell it for 500,000."

"You make it sound so simple." Wang Teng rolled his eyes.

"Work hard to earn points, young man!" Round Ball sniggered.

"Go away!" Wang Teng laughed and scolded it.

Lastly, there were weapons. They were split into different categories such as swords, blades, rods, axes, maces, and many others. There were many weapons that Wang Teng had never seen before.

He opened the sword category and scrolled to the end. Suddenly, his eyes widened.

Hades Divine Sword: Divine level! Price: 100 million!

Nihilism Divine Sword: Divine level! Price: 12 million!

...

"Divine level weapons!" Wang Teng exclaimed. Waves of astonishment crashed into his heart.

Only two words 'divine level' were seen in the introduction, the impact it had on people was by no means insignificant.

There were a few divine level swords hidden in the academy's Treasure Pavilion. This... was unbelievable.

"Gasp!" Round Ball gasped in shock. "Am I seeing things?"

Wang Teng didn't reply to it. He tapped on the blade category and scrolled to the end.

Heaven Annihilation Blade: Divine level! Price: 100 million!

...

A few more divine level blade weapons appeared. Wang Teng and Round Ball stared at each other speechlessly.

Wang Teng refused to believe that every category had divine level weapons so he proceeded to open other categories. To his surprise, apart from some more obscure ones, he found that the more common types like staffs, spears, axes, hammers, and so on, all had corresponding divine level weapons!

For a moment, Wang Teng and Round Ball lost their voices.

"The foundation of the academy is truly profound!!!" After a moment, Wang Teng let out a breath and exclaimed emotionally.

"This is scary. The Seven Stellar Academies are indeed extraordinary. They have so many divine level weapons in their collection," Round Ball said in a serious tone. "What's more, there are many legendary weapons inside."

"Legendary weapons!" Wang Teng was appalled.

"That's right. The Nihilism Divine Sword is a legendary weapon." Round Ball waved its hand and a screen appeared.

On the screen lay an extremely ancient and completely black sword, exuding a sense of simplicity.

The ancient sword seemed to possess a certain kind of enchantment that could absorb people's gaze and even their emotions.

"What a frightening sword!" Wang Teng took a deep breath. He almost couldn't control himself. "Is this the Nihilism Divine Sword?"

"That's right. Do you know that the Nihilism Divine Sword is related to you?" Round Ball suddenly smiled.

"Related to me?" Wang Teng was stunned.

What relationship did he have with this divine sword?

"It's said that the Nihilism Divine Sword is made from the bones of the Devour Nihilism Beast," Round Ball said.

"F\*\*k!" Wang Teng cursed uncontrollably.

What kind of relationship is this?

The Devour Nihilism Beast was his clone now. It was no different from himself.

He suddenly felt a chill down his spine.

## Chapter 1666: You Might Earn, But I Won't Lose Anything! (1)

Wang Teng was struck dumb when he heard that the divine level Nihility Divine Sword was made from the bones of the Devour Nihility Beast.

This was too much!

The Devour Nihility Beast, a universe behemoth shrouded in mystery, had its bones forged into a divine sword!"

It felt tragic just by thinking about it!

"Hahaha..." Round Ball burst out laughing when it saw his expression.

"Seriously, are you scaring me on purpose?" Wang Teng was speechless.

"No, I'm just reminding you that while the Devour Nihility Beast is indeed formidable, you should still be cautious when encountering eternal-stage or higher-stage martial warriors. Who knows if they might kill it and refine weapons? After all, the Devour Nihility Beast is extremely rare and possesses valuable assets. It will attract unscrupulous intentions," Round Ball solemnly remarked.

Wang Teng moved his lips and nodded. "I understand."

"But don't worry too much. The Nihility Divine Sword is made from a dead Devour Nihility Beast. It wasn't killed." Round Ball sniggered.

Wang Teng glanced at it in frustration.

He felt that Round Ball had fooled him. This fellow didn't complete its sentence in one breath and kept him in suspense. A dead Devour Nihility Beast and a Devour Nihility Beast that was killed were two different things.

Come on, the Devour Nihility Beast was extremely mysterious and rare. It wasn't easy to kill.

However, it would be an immense stroke of luck to come across a dead Devour Nihility Beast too.

Normally, the Devour Nihility Beast would choose a burial ground for itself before it died and wait there quietly for its death.

The tombs they chose were normally hidden with dimensional rifts. They would rarely leave any clues behind.

It was likely that a stroke of luck also guided the predecessors who managed to find that dead Devour Nihilism Beast.

This was the information Wang Teng got from the Devour Nihilism Beast's memory. Normal people wouldn't know about it.

"Wang Teng, why don't you buy the Nihilism Divine Sword in the future? It's just the right weapon for your Nihilism clone." Round Ball smiled.

"It's too expensive!" Wang Teng glanced at the price of the Nihilism Divine Sword and replied in exasperation.

120 million points!

Where could he get so many points? Even if he was confident that he could earn points by making pills and forging weapons, he couldn't guarantee that he could earn so many points.

If not, the divine-level weapons wouldn't be in the academy's Treasure Pavilion. They would have been bought already.

A divine-level weapon was good!

But, there weren't many people who could afford it.

Even eternal-stage martial warriors might not spend their points on weapons.

Weapons, after all, were just external tools. The fundamental aspects lie in cultivation techniques and battle techniques. Only when one's stage and strength had been elevated should one consider the choice of weapons. Otherwise, it would be a case of putting the cart before the horse.

Round Ball knew this logic too. It just wanted to tease Wang Teng so it didn't mention it anymore.

Wang Teng stopped scrolling through the treasures in the Treasure Pavilion. There were too many of them. He wouldn't be able to finish looking through them even if he was given three days and three nights.

Also, looking through them now was a waste of time. He could come back again when he needed a weapon.

Wang Teng stood up from the sofa and stretched his back. He walked up the stairs.

The first floor was the reception room.

The second floor was an entertainment and cultivation area.

However, unlike the dedicated cultivation venue outside specifically designed for cultivation, the cultivation room on the second floor was simply a quiet chamber. It was suitable for cultivating Forces and achieving enlightenment, but not ideal for practicing battle techniques.

The night passed quickly.

The continent where the Seventh Stellar Academy was located also had the distinction between night and day. Above the continent, several stars took turns revolving, creating a cycle similar to the alternating day and night on a planet.

Wang Teng ended his night of cultivation and slowly opened his eyes. He washed up and prepared to go out.

"Wang Teng, someone is looking for you," Round Ball suddenly said.

"Who is it?" Wang Teng asked.

"Who else could it be? Yue Qiqiao," Round Ball replied.

"Let her in," Wang Teng said.

Round Ball had taken over the manor's intelligence system. It would now take care of all the matters in the manor, saving Wang Teng much trouble.

After some thought, Wang Teng still went to welcome her at the entrance.

Otherwise, it would be impolite.

"Why are you looking for me so early in the morning?" Wang Teng asked Yue Qiqiao the moment he saw her.

"Have you looked at the academy's internal web?" Yue Qiqiao asked him back directly.

"Yes." Wang Teng raised his eyebrows.

"Have you noticed? Points are required for almost everything within the academy. Last night, I wanted to look up some information about the Uncharted, and it cost me more than ten points," lamented Yue Qi Qiao with a tinge of distress.

"So?" Wang Teng guessed Yue Qiqiao's motive.

While they were talking, they had already reached the living room. Wang Teng invited her to sit down.

"It's too expensive! At this rate, our points will never be enough," Yue Qi Qiao sat on the sofa, her pretty face filled with misery. She continued, "Even if you have 30,000 points, it won't be sufficient. We quickly deplete our resources as each of us needs a significant amount for cultivation. However, I checked the academy's Treasure Pavilion, and the items there cost tens of thousands of points. Even if it's you, I'm afraid you won't be able to buy much. So, we need to find a way to acquire more resources."

"Didn't Senior Sari say yesterday that you can fight to get onto a ranking? I think you might be able to enter the universe goddess rank," Wang Teng teased.

"Come on, why will I be on the rank? It's hard to get on the universe goddess rank. Without a certain level of strength, it's impossible to make it to the top. Relying solely on looks won't cut it," Yue Qi Qiao replied angrily.

## **Chapter 1667: You Might Earn, But I Won't Lose Anything! (2)**

"So you have already looked at the rules?" Wang Teng looked at her strangely.

As expected, women couldn't resist the allure of the prestigious universe goddess rank.

"Me? No, I didn't." Yue Qiqiao's gaze flickered as she denied it.

"Is that so?" Wang Teng: (¬↪)↪

"Don't look at me like that. I have no interest whatsoever in that universe goddess rank. I disdain such superficial fame and have no intention of competing for it," Yue Qi Qiao said with a serious expression on her pretty face.

Wang Teng: ...

Unexpectedly, she was a woman who could lie without blushing. Wang Teng felt that he had underestimated her in the past.

"Alright, let's be serious. Forget about the rankings for now. Doing missions may not earn us many points and could be a waste of time. So, I think we can try doing some small business?" Yue Qi Qiao suggested.

"Business?!" Wang Teng looked at her in surprise.

"Wang Teng, Yue Qiqiao has the same thought as you." Round Ball's surprised voice appeared in Wang Teng's mind.

"What business?" Wang Teng asked calmly.

"I'm from the Yuanyue Race so I have a scripture that allows me to form the Yuanyue Pearl. Using the Yuanyue Pearl, I can create spiritual illusions to train the spiritual power of martial warriors," Yue Qiqiao hesitated before sharing this information.

"Train spiritual power!" Wang Teng was stunned.

This was good stuff.

"Yes, and there's no harm." Yue Qiqiao nodded.

"Why are you telling me this secret?" Wang Teng was even more surprised.

He originally thought that Yue Qiqiao wanted to leverage his abilities as a three-field grandmaster to earn points. However, he didn't expect her to have another approach in mind.

If he was right, this Yuanyue Pearl was a secret of the Yuanyue Race, and Yue Qiqiao wouldn't disclose it easily to outsiders. Otherwise, people from the outside world would have long known about the function of the Yuanyue Pearl. However, up until now, Wang Teng had never heard anything about it.

It could train one's spiritual power. This was an irresistible temptation to many martial warriors, t

Besides people who were born with strong spiritual power, the spiritual power of ordinary martial artists was generally average. It was incredibly difficult for them to enhance their spiritual power.

What's more, this thing could be mass-produced.

"Actually, many people know that the Yuanyue Race can create the Yuanyue Pearl. However, their effects are limited, and once used excessively, resistance builds up, causing their effectiveness to diminish. So, it's not as exaggerating as it may seem," Yue Qiqiao explained.

"Those who know about my race's Yuanyue Pearl will only come and ask for it occasionally. There are enough pearls for them to use."

"Also, they won't deliberately publicize it to maintain their friendship with my race. After all, the more people who know, the smaller their share," Yue Qiqiao explained.

Wang Teng nodded. He wasn't surprised. The Yuanyue Pearl would be invincible if it could train the spiritual power of martial warriors infinitely.

If the Yuanyue Race had this ability, they could have already dominated the region and wouldn't remain a moderately influential force.

Or, they would be imprisoned by other factions and become tools for producing the Yuanyue Pearl.

However, only the members of the Yuanyue Race would know if she was speaking the truth.

This matter concerned their entire race. No one would be stupid enough to reveal it.

Wang Teng didn't want to probe further. Sharing this with him could be considered a form of trust.

Of course, it was probably because she valued his ability.

After all, Yue Qiqiao only trusted a few people in the stellar academy. Among them, Wang Teng was the most powerful one.

There was another possibility. She was testing him.

"Of course, the effectiveness of the Yuanyue Pearl depends on the strength of the martial artist who makes it. Yuanyue Pearls made by cosmos stage martial artists can be used by those at the cosmos stage and below. Those made by heaven stage martial warriors can be used by those at the heaven stage and below and so on," Yue Qiqiao continued, unaware that Wang Teng had already pondered so much in his mind.

"Can I take a look?" Wang Teng blinked and asked.

"I prepared it last night." A round and smooth milky-white pearl suddenly appeared in Yue Qiqiao's hand. She smiled.

Wang Teng found it a pity. If Yue Qiqiao had made the Yuanyue Pearl on the spot, he might have been able to pick up some attribute bubbles.

He took the pearl and sized it up. He realized that the pearl wasn't milky white. Instead, there was a ball of milky-white mist floating inside.

"Place the Yuanyue Pearl on your forehead and you can enter the illusion," Yue Qiqiao said.

Wang Teng nodded. The Yuanyue Pearl floated up automatically and pressed against his forehead. He closed his eyes.

Yue Qiqiao's gaze flickered. There was a look of curiosity in her eyes.

Crack!

However, at this moment, a crisp cracking sound was heard.

Within three seconds, the Yuanyue Pearl on Wang Teng's forehead shattered.

Yue Qiqiao was stunned.

Wang Teng slowly opened his eyes and looked at Yue Qiqiao. "Interesting!"

Yue Qiqiao: ...

"What's wrong?" Wang Teng asked when he saw her sitting there absentmindedly.

"You deciphered the illusion of the Yuanyue Pearl?" Yue Qiqiao asked after some hesitation.

"That's right." Wang Teng nodded.

"That's fast!" Yue Qiqiao expected this answer but she still took a deep breath when Wang Teng admitted it.

Mind you, she was a divine spirit master. Her spiritual power was much stronger than normal martial warriors so even if it was a cosmos-stage martial warrior, he would need some time to decipher her illusion.

Yet, Wang Teng managed to break free within a few breaths.

This was unbelievable!

"My spiritual power is slightly stronger," Wang Teng replied humbly.

Yue Qiqiao: ...

Slightly stronger?

Are you sure it's just slightly stronger?

He destroyed her Yuanyue Pearl illusion within a few breaths as if it was a piece of cake.

She didn't know if Wang Teng was being humble or if was he boasting.

"Do you think my suggestion is feasible?" Yue Qiqiao took a deep breath and asked.

"We can give it a try. The Yuanyue Pearl can be used by cosmos stage martial warriors so we can earn some points from the freshmen." Wang Teng nodded.

"Only freshmen?" Yue Qiqiao asked.

"Unless you can make heaven stage Yuanyue Pearls," Wang Teng replied.

"Alright, I can't do that." Yue Qiqiao shook her head regretfully. Then, she got excited and asked, "Shall we sell this Yuanyue Pearl?"

"No hurry," Wang Teng replied calmly.

"Why not? The earlier we start, the faster we can earn points," Yue Qiqiao said.

"Do you think freshmen will buy this now?" Wang Teng asked him back.

"Erm..." Yue Qiqiao was stunned.

"They will definitely use their points wisely. What's more, they have so few points now. Why will they buy your Yuanyue Pearl?" Wang Teng shook his head.

"Huh?" Yue Qiqiao had a good idea but it wasn't feasible. She was stunned.

"But we can sell it in the future. Someone will want the Yuanyue Pearl at that time" Wang Teng consoled her.

"Unfortunately, it can't help our situation now," Yue Qi Qiao sighed.

"Well, I have a business here." Wang Teng smiled and changed the topic.

"What business?" Yue Qiqiao looked up and asked curiously.

"Pills!" Wang Teng replied.

"I forgot that you're a grandmaster alchemist!" Yue Qiqiao's eyes lit up. However, she thought of something and shook her head. "Unfortunately, that's your ability. It has nothing to do with me. I can't help you."

"No, you can help me. Ji Haochen and the others can help me too." Wang Teng shook his head.

"What do you mean?" Yue Qiqiao was shocked. It looked like Wang Teng wanted to help them.

"I'll be in charge of making the pills and y'all will be in charge of selling them. Every time we sell one pill, I'll give you 10% of the profit." Wang Teng raised a finger and smiled.

"Really?" Yue Qiqiao widened her eyes in surprise.

She would earn 10% of the profit for every pill sold. Yue Qiqiao was willing to do it.

She suddenly realized that she found the right person!

"Of course!" Wang Teng smiled.

## **Chapter 1668: The Reappearance Of The Solar Dragon Race!**

Yue Qiqiao was extremely excited. She didn't expect to have such a rewarding outcome by taking the initiative to look for Wang Teng.

10% profit of a pill!

It might only be ten percent profit but the overall amount could be quite substantial if she sold a large quantity.

This was definitely more profitable than doing missions!

Also, this wouldn't require much time.

Originally, she only wanted to leverage Wang Teng's strength to sell Yuanyue Pearls together in the academy. However, it seemed that selling pills was the more profitable option.

After all, Wang Teng was a grandmaster alchemist. Previously, she saw some grandmaster-level pills in the academy's Treasure Pavilion and most of them required tens of thousands of points. It was extremely profitable.

"If you agree, I will look for you again in the future." Wang Teng smiled.

"Yes, of course. I can't miss this chance," Yue Qiqiao replied quickly.

"That's good." Wang Teng nodded. "As for your Yuanyue Pearl, you can make some when you have the time. We will use it in the future."

"No problem." Yue Qiqiao agreed readily. She was willing to do anything that could help her earn points.

Wang Teng glanced at her strangely. He didn't know that Yue Qiqiao was a money lover.

However, this was a good thing for him. If Yue Qiqiao didn't come to look for him, he would need more time to settle this matter.

Yue Qiqiao opened the topic and he continued the conversation.

"What about Ji Haochen, Leng Qianxue, and the others..." Yue Qiqiao asked.

"I'll contact them when I'm free," Wang Teng said. It was better for him to handle this matter personally.

No matter what, he was the one who gave these talents an opportunity to earn points. If Yue Qiqiao contacted them for him, the favor would be greatly discounted.

Wang Teng had his plans all laid out.

His motto was still the same. They could earn but he mustn't lose anything.

"What about Tu Xiaoba, and Situ Wan'er?" Yue Qiqiao hesitated before asking.

These people didn't enter the top 10 of the League Of Talents so she was worried that Wang Teng wouldn't include them.

"Don't worry, I won't forget them." Wang Teng said, "Situ Wan'er is my friend. Tu Xiaoba might be a little naughty, but I think she's quite likable. She should be able to make friends with the other martial warriors quickly. This will make her a suitable helper."

After he finished speaking, he touched his chin and gave himself a thumbs-up for his wit. He looked like an unscrupulous merchant.

Yue Qiqiao was speechless. "Is this considered child labor?"

"Tu Xiaoba isn't small, right?" Wang Teng glanced at Yue Qiqiao's chest with a strange expression. He remembered that Tu Xiaoba's chest wasn't small either.

"Hey, where are you looking?" Yue Qiqiao blushed. She glared at him and said, "I can't be bothered with you. I'm leaving."

"Go ahead." Wang Teng waved his hand and said with a sad expression, "You threw me away after getting the benefits. How sad."

"Do you think I'll believe you?" Yue Qiqiao rolled her eyes and left.

However, the moment she reached the entrance, she was stopped by a tall figure.

This person had an extremely tall and robust physique, resembling a demi-human. His whole body was covered in a dark red dragon scale-like armor, and two dark red horns protruded from the top of his head. He gave off a sense of nobility.

"Dragon horn!" Yue Qiqiao's gaze paused on the two dark red horns on the other party's head. She was stunned.

This figure gave her an overwhelming sense of pressure as if there was a universe behemoth standing before her!

Also, based on the faint aura he gave off, this wasn't an ordinary person.

She only felt a similar aura from two other people before. One was the Crown Prince and the other was Wang Teng.

This was the third one!

"Does Wang Teng live here?" The person's voice was loud and clear but there was a hint of arrogance and indifference in it.

"Who are you?" Yue Qiqiao turned grim. She took a step back unconsciously.

"You don't have to know who I am. If Wang Teng lives here, call him out," the person replied calmly.

A displeased look flashed across Yue Qiqiao's face. The person before her completely disregarded her presence, displaying an attitude of disdain and making her feel like she was beneath his notice.

She was one of the top ten talents in the Great Qian Empire. Yet, she got looked down upon by a person of unknown origin, and to add insult to injury, he even asked her to run errands.

No one could bear this humiliation.

Hence, she snorted and ignored him. She wanted to leave.

He could look for Wang Teng himself. What did it have to do with her?

"Hmm?" The person's expression slightly darkened, but he made no immediate move.

However, there were many people behind him. One of the young men took a step forward and blocked Yue Qiqiao's path with a smile. "Beautiful lady, you can't leave yet!"

"Move!" Yue Qiqiao's expression turned cold. She was afraid of the man with dragon horns but she wasn't afraid of the young man in front of her. She slapped him directly when he blocked her way.

The young man's expression changed slightly. He didn't expect Yue Qiqiao to act so quickly. In his haste, he pushed his palm out too.

Boom!

The two of them exchanged a palm attack. Force exploded, creating a loud explosion.

The young man was forced to retreat more than a dozen steps before stabilizing himself. He stared at Yue Qiqiao with an unpleasant expression.

The others looked at Yue Qiqiao in surprise. They didn't expect this lady to be so powerful.

Yue Qiqiao snorted. She ignored them and wanted to leave.

"Did I say you can leave?" An indifferent voice was heard.

Yue Qiqiao felt a powerful aura pressing down on her from behind. She stopped in her tracks uncontrollably and her face turned pale.

This person is powerful! What race is he from? Yue Qiqiao turned to look at the muscular man with horns in astonishment.

"Call him out!" The dragon-horned man's aura got stronger. He looked at Yue Qiqiao calmly.

Yue Qiqiao's face turned slightly pale. Beads of cold sweat dripped from her forehead. She felt extremely humiliated and was determined to fight with this person, even if it meant getting injured.

"Where did this mad dog come from? Why is it barking in front of my door and disturbing my peace?"

At this moment, a cold and distant voice came from the manor.

Boom!

An immense aura surged over and collided with the aura of the man with dragon horns.

The invisible pressure vanished without a trace. Yue Qiqiao felt relieved.

She heaved a sigh of relief. That fellow was finally out.

She wondered who was stronger, Wang Teng or this man with dragon horns.

He must be a talent from another territorial domain and it was highly likely that he was the champion of the League Of Talents like Wang Teng. This was the only explanation for his power.

The expressions of the man with dragon horns and the people behind him changed slightly.

The people in the manor called them mad dogs!

How bold!

All eyes turned towards the entrance of the estate, where a young man with black hair walked out slowly. His indifferent gaze swept over them, causing everyone's heart to skip a beat.

Wang Teng's gaze finally landed on the man with dragon horns. He was surprised. Solar Dragon Race!

He didn't expect the other party to find him so quickly. What's more, they found him when he was in the Seventh Stellar Academy.

"Wang Teng! He's very powerful!" Yue Qiqiao retreated to his side and said using voice transmission.

"I know. Are you alright?" Wang Teng nodded and asked in concern.

"I'm fine. However, if you came out a little later, things might have been different." Yue Qiqiao shook her head and rolled her eyes at him.

"Why didn't you inform me immediately? If the Force fluctuations from your battle didn't attract my attention, I wouldn't have known that there were a bunch of uninvited guests outside." Wang Teng was speechless.

Yue Qiqiao was frustrated. If the other party didn't order her around like a servant, she would have notified Wang Teng immediately, and there would have been no confrontation.

Wang Teng immediately understood when he saw her expression. He had also heard the last words of the horned man and realized that Yue Qiqiao must have been humiliated. He said apologetically, "I'm sorry, I implicated you. I will make sure he apologizes."

After he finished speaking, he looked at the man with dragon horns and asked calmly, "Are you the mad dogs that were barking in front of my door?"

"How dare you!"

"Bastard!"

"Who are you calling a mad dog?"

Shouts of anger erupted from the group of people behind the horned man. These individuals were all geniuses from various factions, but now they were being called "mad dogs." No one could bear such humiliation.

"The ones who responded are the mad dogs." Wang Teng chuckled.

"You..." The people behind the dragon-horned man almost exploded in anger.

"You're looking for death!" The dragon-horned man's face turned cold as he glared at Wang Teng.

"That's right. I'm looking for death. Are you going to give it to me? Come, give it to me!" Wang Teng said.

The man with dragon horns: ...

Everyone: ...

Yue Qiqiao: ...

For a moment, there was an eerie silence.

Even Yue Qiqiao was flabbergasted. She didn't expect Wang Teng to be so... direct.

Was he really an unparalleled talent on the Star Rankings?

He didn't look like one!

Very soon, the man with dragon horns regained his senses. His expression turned ugly.

Humiliation, this was a blatant humiliation!

"Do you have a death wish?" The dragon-horned man's expression turned cold. He suddenly punched Wang Teng.

A cold glint flashed passed Wang Teng's eyes. He released his fist too. Fire Force exploded and congregated into a fist mark. It collided violently with his opponent.

Boom!

A terrifying explosion occurred. Shockwaves swept through the air, pushing away the people behind the dragon-horned man. Even Yue Qiqiao was forced back.

The man with dragon horns squinted. He took five steps back uncontrollably.

Wang Teng only took three steps back.

The outcome was hard for the horned man to accept. Despite being the first to make a move, he found himself at a slight disadvantage against the other party.

"Not bad. You're quite strong but it's not enough," Wang Teng replied calmly.

"Indeed, you're Wang Teng. You do have some ability since you're able to enter the Star Rankings," the man with dragon horns said indifferently. "Again!"

"You have no chance!" Wang Teng shook his head and looked at the sky.

A spacecraft flew over from afar and finally stopped above them. A few figures jumped down from the spacecraft.

"The academy arbitration association!" Someone behind the man with dragon horns exclaimed.

## **Chapter 1669: I Think You'll Make A Reliable Backer!**

The man with dragon horns frowned at the sudden appearance of the academy arbitration association.

He might appear arrogant and conceited, but he feared the academy arbitration association.

He had long heard of the academy's arbitration association.

Wang Teng looked at the man with dragon horns mockingly. However, he was surprised too. He had thought they would have to fight a little longer, but he didn't expect the academy arbitration association to arrive so quickly.

"This batch of new students sure has some guts, violating the academy's rules right from the start," remarked a lazy-looking young man with long brown hair. He glanced at the crowd before chuckling.

"Senior, I didn't break the rules. They acted first." Wang Teng raised his hand, portraying himself as the victim.

"You must be Junior Wang Teng. I've heard a lot about you." The brown-haired young man gave him a meaningful look and smiled.

Wang Teng was stunned. He didn't expect himself to be so famous. Even the people from the academy arbitration association knew him.

"Alright, it's clear what happened. Whoever initiated the physical aggression will have points deducted accordingly: 300 points for the first instigator, and 100 points for the others involved. Additionally, you all will be taken back for some education to familiarize yourselves with the academy rules to prevent any future violations," the young man with brown hair smiled and didn't say anything more to Wang Teng. With a sweeping gesture, he turned to the man with dragon horns and the others and asked, "Do any of you have any objections?"

The dragon-horned man's expression turned ugly.

He didn't do anything. One punch and 300 points were deducted.

He felt his heart aching.

This punch was a little expensive!

"No way, 100 points will be deducted!" The expressions of the people behind the dragon-horned man changed slightly. They were the most unfortunate ones as they didn't even lift a finger, yet they were going to have 100 points deducted. Could there be anything more frustrating than this?

These people were all geniuses. Although they had been at the academy for a few days, not many of them had taken the time to read the academy rules carefully. At most, they looked at some critical points, which was why they foolishly decided to pick a fight with Wang Teng.

Of course, they didn't expect Wang Teng to be so shameless and call the people from the arbitration association over directly.

"If you're not convinced, you can try making a move." The brown-haired young man smiled when he saw the dragon-horned man's expression.

He knew the temperament of these talents. After all, he had been through this phase.

But, if they really acted, he would teach his juniors a lesson.

"My brother is a member of the academy's arbitration association..." The man with dragon horns was interrupted before he could finish his sentence.

"I know. Zhulong Ye, right? I know him. I recognized your race the moment I saw you," the brown-haired young man replied nonchalantly.

The horned man felt the corners of his eyes twitching.

He knew that this brown-haired young man wasn't afraid of his brother so there was no need to plead anymore.

"Can I speak to him?" The man with dragon horns looked at Wang Teng.

"Alright, since you're from the Solar Dragon Race, I'll give you some time to speak to him," the brown-haired young man said.

"Thank you!" The man with dragon horns nodded to express his gratitude. Then, he gave a look of contempt and said to Wang Teng, "I thought that you wouldn't be afraid of a fight since you're able to enter the Star Rankings. I didn't expect you to find the academy arbitration association. It looks like I've overestimated you."

"It doesn't matter to me. Throughout my life, I have conducted myself without needing the approval of others," Wang Teng said with a resolute sense of righteousness.

The man with dragon horns choked. He felt that he punched a ball of cotton.

Other talents would have been enraged by his words but Wang Teng didn't seem to care about his reputation. He was extremely shameless.

"Pfft!" Yue Qiqiao burst out laughing. The anger she felt from the previous humiliation dispersed a little.

Wang Teng's actions were always unexpected.

Although it didn't seem to have caused any physical harm to the man with dragon horns, it exasperated him. She felt delighted for some reason.

The brown-haired man and the other members of the academy's arbitration association wore strange expressions on their faces too.

What do you mean by you've always conducted yourself without needing the approval of others?

How could a person be so shameless?

They didn't believe him but they had to respect Wang Teng's thick skin.

They had never seen such a talent before.

These geniuses had a high and mighty attitude, putting their reputation above everything else. However, to Wang Teng, this wasn't the case.

"Hmph!" The man with dragon horns snorted. "Don't argue with me. You should know why I came here today. You don't have the right to own that thing. I urge you to return it to the Solar Dragon Race. This matter isn't over until you do that."

Yue Qiqiao was stunned. What did Wang Teng take from the Solar Dragon Race? No wonder they came to look for him.

A sharp glint flashed past the brown-haired young man's eyes. He was surprised.

At first, he thought that Zhulong Shan wanted to compete with Wang Teng because he had entered the Star Rankings. He didn't expect there to be another story behind it.

Wang Teng took something from the Solar Dragon Race. This was incredible.

The Solar Dragon Race would never allow any outsiders to possess their things.

Also, looking at Zhulong Shan's expression, the item Wang Teng took wouldn't be something ordinary.

However, Wang Teng put on an innocent expression and said, "What are you saying? I don't understand. Did I take a thing from the Solar Dragon Race? Don't frame me."

He even emphasized the word 'thing'.

The muscles on Zhulong Shan's face twitched uncontrollably. Anger flashed passed his eyes as he glared at Wang Teng. "How dare you humiliate the Solar Dragon Race!"

"Did I humiliate the Solar Dragon Race?" Wang Teng looked at Yue Qiqiao and asked, "Did you hear me humiliating the Solar Dragon Race?"

Yue Qiqiao was silent for a moment. Then, she hesitated and said, "I don't think so."

She couldn't tell at all!

But, looking at the other party's expression, she felt that Wang Teng had probably humiliated his race.

"Alright, let's stop here. I don't have much time to waste," the brown-haired young man waved his hand and said impatiently.

"Senior, have a safe trip." Wang Teng said, "Thank you for upholding justice for weak juniors like us."

The brown-haired young man looked at him strangely and said, "I haven't seen someone as interesting as you in a long time. Let's get to know each other. My name is Wu De."

"Wu De!" Zhulong Shan shuddered. He exclaimed, "You're that Wu De!"

"Hey, it looks like you know me." Wu De glanced at Zhulong Shan and exclaimed in surprise.

"My brother mentioned Senior Wu De to me before. Senior Wu De, please forgive me for being rude just now," Zhulong Shan said with a stiff expression. There was fear in his eyes.

He was puzzled. How did Wang Teng find this person? Were they related?

A normal student dispute wouldn't have involved a member of the academy's arbitration association.

Wang Teng glanced at Zhulong Shan in surprise. The moment this person heard Wu De's name, his attitude changed entirely.

Mind you, he acted fearless and disregarded everyone. Even when the academy's arbitration association came, he wasn't afraid.

Yet, he suddenly lowered his back to apologize.

The stark difference between his previous demeanor and his current attitude caught them off their guards and left them unable to react in time.

Yue Qiqiao was flabbergasted too. She glanced at Zhulong Shan and then at Wu De. She seemed to understand something.

"No problem!" Wu De smiled and didn't make things difficult for him.

"Wang Teng, I won't make things difficult for you today because Senior Wu De is here. But next time, you won't be so lucky. I will look for you. Remember my name, Zhulong Shan!" Zhulong Shan glanced meaningfully at Wang Teng, then flew towards the ship in the sky with Senior Wu De.

"You're welcome to come again." Wang Teng waved.

Zhulong Shan stopped in his tracks. His face turned black.

Wu De turned and glanced at Wang Teng. He smiled and entered the spacecraft.

The group of martial warriors followed behind Wu De and entered the spacecraft. The cabin door closed and the spacecraft disappeared in front of Wang Teng and Yue Qiqiao in a blink of an eye.

"Hahaha..." Yue Qiqiao burst out laughing. "Didn't you see his expression just now? His face was as black as the bottom of a pot."

"Did you vent your anger?" Wang Teng asked.

"Erm..." Yue Qiqiao stopped laughing. She blinked and contemplated for a moment before replying, "Half of it. However, I'll take care of the rest myself. You don't have to do anything."

"Impressive." Wang Teng was stunned. Then, he gave Yue Qiqiao a thumbs up.

"Go ahead and laugh at me," Yue Qiqiao said angrily.

"I'm not laughing at you. Instead, I admire you." Wang Teng smiled. "Zhulong Shan should be a talent of the Solar Dragon Race. This race is very powerful. Not only do they have a powerful body, but they can also turn into Solar Dragons. Their eyes also have special abilities. If you meet them, you need to be careful."

He told Yue Qiqiao about the characteristics of the Solar Dragon Race. This wasn't a secret. Most formidable warriors knew about it.

After all, race talents were hard to conceal, especially for a big race like the Solar Dragon Race. It was only natural that others knew about their powers.

Thus, he took advantage of the situation and told Yue Qiqiao about it. This was considered a favor.

What's more, he was the reason why Yue Qiqiao had a conflict with Zhulong Shan.

"Solar Dragon Race? I understand." Yue Qiqiao nodded. Her gaze flickered slightly.

"Also, you heard what he said. He has an elder brother who is in the academy's arbitration association and is a council member. It looks like his status isn't low. If we infuriate him, he might call him brother out," Wang Teng reminded her.

"I know. However, this is the academy. They can't possibly have everything their way here," Yue Qiqiao remarked.

"That's true." Wang Teng nodded.

"If I can't, I still have you." Yue Qiqiao gave a sly smile.

"I think I should take back my words." Wang Teng was caught between laughter and tears. A moment ago, he was complimenting Yue Qiqiao for her ambition. Now, she showed her true colors.

"I think you'll make a reliable backer. All the best..." Yue Qiqiao laughed and said earnestly, "I'll have to rely on you from now on!"

## **Chapter 1670: Sword Storm Plain!**

Wang Teng was speechless.

Yue Qiqiao was the first person he knew who was so straightforward about finding someone to rely on.

She didn't seem like someone with such a personality in the past.

During the League Of Talents, she hated him to the core.

Of course, that was because Wang Teng smashed her head. That was how he provoked this lady.

Wang Teng suddenly felt that ladies should be beaten up. If not, they wouldn't be so obedient!

It made sense.

He touched his chin and nodded to himself.

"What are you thinking?" Yue Qiqiao suddenly felt that his expression was a little strange. She could tell that he was up to no good.

"Cough." Wang Teng coughed awkwardly and waved his hand. "Nothing, nothing."

"Strange." Yue Qiqiao glanced at him curiously. Then, she thought of something and asked, "You seem familiar with the Solar Dragon Race?"

"When I was on the No. 29 Defense Planet in the Great Qian Empire, I saw a Solar Dragon Race martial warrior whose body got overtaken by a dark apparition," Wang Teng said.

"Oh right, I forgot that you're a military martial warrior." Yue Qiqiao was enlightened. She asked in surprise, "Does that mean that you fought with the Solar Dragon Race before?"

"The Solar Dragon Race is at the universe stage!" Wang Teng replied calmly.

"A universe stage martial warrior!" Yue Qiqiao was shocked. She understood what Wang Teng was trying to say.

Since he was a universe stage martial warrior, he probably didn't fight with him. He only just watched the battle at the side.

Wang Teng smiled secretly. This lady was so easy to fool.

"What did you take from the Solar Dragon Race? The moment you arrived, Zhulong Shan came to look for you," Yue Qiqiao asked curiously.

"Make a guess!" Wang Teng said.

Yue Qiqiao was speechless. She rolled her eyes. "Guess what? It's alright if you don't want to tell me."

"Hey, didn't you say that you want me to be your backer? Are you eating your words already? Looks like I can't be your backer anymore." Wang Teng shook his head and sighed.

"No, no, I was wrong." Yue Qiqiao placed her palms together and apologized.

In the Seventh Stellar Academy, Wang Teng was her only friend.

Leng Qianxue, Tu Xiaoba, and the others were at other stellar academies. They were too far away so they couldn't help her for now.

Also, they weren't as powerful as Wang Teng.

The Crown Prince, Yu Yunxian, was powerful but he was stubborn and unreceptive to suggestions. He wasn't as reliable as Wang Teng.

There were too many powerful martial warriors in the academy. A random Zhulong Shan was already so powerful so the other martial warriors wouldn't be weak either.

She wasn't afraid of competing with her peers but she was worried that others would bully her with their status.

Thus, Yue Qiqiao felt that she should cozy up to someone powerful.

Wang Teng was a suitable candidate.

After what happened just now, she also realized that Wang Teng was a responsible person. He stood up for her without any hesitation even when facing a powerful race like the Solar Dragon Race.

If it was her, she might not be able to do what Wang Teng did.

Most importantly, besides being powerful, his methods were... impressive too. Well, you could say that he was impressive or sly.

He defeated Zhulong Shan within a few moves and got the student arbitration association to deduct his points. He even humiliated him.

"You weren't like this before," Wang Teng's expression turned strange, unable to resist speaking up.

"What was I like in the past?" Yue Qiqiao was stunned.

"Hmph, think about it yourself," Wang Teng replied.

"Oh, come on, we've become acquainted through the fight. Now that we're friends, you surely wouldn't stand by and watch me being bullied by others, right?" Yue Qi put on a pitiful expression and said.

"Who knows? You're not related to me. Why should I care about you," Wang Teng replied.

"Oh... your thoughts aren't pure." Yue Qiqiao dragged her words and stared at Wang Teng with an ambiguous smile.

"You're thinking too much. I'm just stating the truth," Wang Teng replied calmly.

Come on, I'm a real man who has been through many battles. How can I be fooled by a woman?

Yue Qiqiao didn't know what to do when she saw his expression. She twirled her pupils and said, "I'm going to help you sell pills so I'm your employee. You have to ensure the safety of your employees, right?"

"It depends on your performance," Wang Teng glanced at her and replied calmly.

If the enemy didn't move, he wouldn't move!

He would firmly carry out the 'four-nots' policy of not taking the initiative, not rejecting, not giving promises, and not being irresponsible!

"I will definitely do my best." Yue Qi suddenly felt a bit passive, but knowing that she had a favor to ask from Wang Teng, she immediately let go of her concerns. Adopting a graceful posture, she performed a ceremonial gesture unique to the Yuanyue Race, exuding elegance and charm, pleasing to the eye.

Wang Teng nodded to himself.

Good, the first part of his training was successful!

"What plans do you have today?" Wang Teng suddenly asked.

"I don't have any plans. I want to walk around and familiarize myself with the academy," Yue Qiqiao replied.

"I want to walk around too. Why don't we go together?" Wang Teng asked.

"Okay!" Yue Qiqiao smiled and agreed.

Wang Teng took out a heaven level spacecraft. He bought this specially for the stellar academy. The universe level spacecraft was too ostentatious for him, but he shouldn't keep too low of a profile either as this was where talents congregated. Thus, the heaven level spacecraft was just right.

QY-C86!

This was the model of a spacecraft. This was a spacecraft unique to the Great Qian Empire.

Wang Teng once owned a Q63-Y-E63 cosmos level ancient spacecraft. Unfortunately, it was destroyed and this was a new model. It lacked some vibe.

After all, to many nobles, an ancient spacecraft was a symbol of legacy and wealth.

However, Wang Teng didn't care. He had the Devil Slayer and the Flaming River. These two universe level spacecrafts were his real wealth and foundation.

"You've registered your spacecraft already?" Yue Qiqiao was surprised.

"That's right." Wang Teng nodded.

Round Ball was in charge of these matters. Last night, it helped Wang Teng to register his spacecrafts. Both the Devil Slayer and the Flaming River were registered too.

Wang Teng didn't plan to use the Devil Slayer or the Flaming River but that didn't stop him from registering first. He might need them in the future.

He didn't have to worry about other people knowing that he had two universe level spacecrafts. Only the academy's intelligence knew about the registration. No one else had the right to investigate.

Unless Wang Teng committed a crime and got expelled by the academy, even the Seven Judges of the arbitration association wouldn't be able to investigate his personal information without his consent.

The two of them entered the spacecraft and flew towards the academy.

Indeed, it was undeniable that the continent where the academy was located was incredibly vast. Without spacecrafts, traveling to a single destination would consume a considerable amount of time.

"Why is your registration accepted so quickly? Mine is still under review," Yue Qiqiao said in frustration as she looked at her wristwatch.

"When did you apply?" Wang Teng asked in surprise.

"Last night too," Yue Qiqiao replied.

"Round Ball, did you do something?" Wang Teng asked in his mind.

"It's not me. I just followed the normal procedures. I don't know what happened," Round Ball said innocently.

"I don't know either. Maybe I have special privileges?" Wang Teng shook his head and guessed with a smile.

"Maybe. After all, you're a talent who entered the Star Rankings." Yue Qiqiao gritted her teeth and said unhappily, "Damn it, they're so bias."

"Well, there's nothing you can do." Wang Teng smiled.

As they chatted, the spacecraft stopped at the edge of a plain. It couldn't move any further.

But, this was their destination.

Wang Teng and Yue Qiqiao walked out of the spacecraft and kept it.

The two of them stood at the edge of the plain and looked ahead.

Drizzling raindrops falling from the sky. Further away, the rain poured down like dense curtains that seemed to connect the heavens and the earth. It was a majestic sight.

There were even mist rising in some areas. It was hazy, blocking people's vision.

A few meters away from where they were standing, there was a huge stone tablet erected. It was like a cliff or a high mountain. No one could see the peak.

"Sword Storm Plain!" Yue Qiqiao muttered softly. She was flabbergasted.

This was a place of enlightenment for the Seventh Stellar Academy. It was called the Sword Storm Plain. The enlightenment of numerous sword masters were left inside. For some reason, they turned into raindrops and fell from the sky. As long as the enlightenment was there, the raindrops would never stop.

This was the information Wang Teng and Yue Qiqiao found.

The Seventh Stellar Academy had many other places like the Sword Storm Plain. The other six stellar academies had similar places too.

The stone tablet they saw was a ranking.

You could get points if you entered the rankings!

"Come, let's take a look." Wang Teng took the lead and walked towards the stone tablet. It wasn't far so the two of them arrived below the stone tablet quickly.

Wang Teng raised his head and saw many names written on it. He couldn't count them at one glance.

"The more enlightenment you absorbed, the higher your ranking. You will be able to leave your own enlightenment in the Sword Storm Plain. The stone plate will decide its value and use it as the basis for your ranking," Yue Qiqiao read the small words on the left of the stone plate.

"Interesting!" Wang Teng touched his chin.

"You must be new students, right?" Not far away, a tall and slender female martial warrior walked out of the Sword Storm Plain. She seemed to have heard their conversation and turned to look at Wang Teng and Yue Qiqiao. She smiled and said, "Why don't you give it a try? You just need to take things one step at a time and act according to your ability. There won't be any danger."

"We're just about to try." Wang Teng smiled and nodded. "Thank you for your reminder."

"You're welcome. I want to see the quality of this batch of freshmen too," the female martial warrior smiled and said. She stopped in her tracks, not planning to leave.

Wang Teng didn't mind. He turned to Yue Qiqiao and said, "You practice sword skills too. Do you want to try?"

"Of course!" Yue Qiqiao glanced at the senior sister and nodded.

"Let's go," Wang Teng said. He walked towards the Sword Storm Plain with Yue Qiqiao.

When he passed by the female martial warrior, she said to them, "All the best!"

They nodded and stepped into the rain.

## **Chapter 1671: Enlightenment Of The Five-element Sword Domain!**

After Wang Teng and Yue Qiqiao entered the rain, they separated and started their own cultivation.

Wang Teng walked amid the rain curtain, feeling the gentle drizzle of raindrops falling from the sky.

In his eyes, the rainwater seemed to transform into countless tiny sharp swords. As they fell, the shape of the raindrops gradually turned into that of swords, splashing and spreading on the ground.

Some distance away, Yue Qiqiao looked at her skin and felt a sharp pain.

She didn't train her physical body specially but as a celestial stage martial warrior, normal pain shouldn't be able to hurt her.

Yet, she felt a slight pain. This was unbelievable.

Wang Teng looked at his arm. He didn't feel anything when the rain fell on it. It was like he got bitten by an ant.

This was the benefit of having a strong physical body.

This was the Sword Storm Plain.

Numerous enlightenment were merged in the rain droplets. As long as he could resist the pain and his Enlightenment was high enough, he could comprehend it at will.

Wang Teng walked deeper into the Sword Storm Plain. The enlightenment within the rain outside was too weak, so it wasn't of much help to him.

His Sword Ultima was already at the perfected stage and his sword domain had reached the second rank too. It was merged into the Golden Lightning Sword Domain.

Wang Teng walked into the rain step by step. His figure gradually blurred.

The female martial warriors outside the Sword Storm Plain sat cross-legged on the ground and looked at Wang Teng's back view with interest.

Yue Qiqiao's eyes shimmered when she saw Wang Teng walking further and further away. She gritted her teeth and walked into the rain too.

To her, this wasn't just a matter of enlightenment. She had to resist the raindrops that incessantly fell on her and endure the continuous stinging sensation they brought.

Initially, the sensation of pricking raindrops was manageable, but as she delved further into the rain curtain, it became increasingly unbearable, as if the raindrops were about to cut her body into countless fragments.

After walking for about 500 meters, Wang Teng stopped and looked ahead in surprise.

Several attribute bubbles emerged as the raindrops fell, floating above the lush green grass.

There are attribute bubbles here? Wang Teng wondered to himself. He picked up the attribute bubbles without any hesitation.

Golden Sword Domain\*50

Golden Sword Domain\*40

Golden Sword Domain\*70

...

The attribute bubbles merged into Wang Teng's mind under the influence of his spiritual power. Enlightenment appeared in his mind.

"Golden Sword Domain!" Wang Teng was astounded. The Golden Sword Domain was just enough to upgrade his Golden Lightning Sword Domain.

Just those few attribute bubbles were enough to significantly enhance his Golden Lightning Sword Domain. Although he couldn't reach the third rank for now, it could undoubtedly bolster his understanding of swordsmanship.

This was a good thing!

Wang Teng glanced around him. He didn't see any more attribute bubbles. He was understood. These attribute bubbles appeared at random. They wouldn't appear all the time.

He stood on the spot and didn't go further in. This place was beneficial for the enlightenment of his second-rank sword domain.

Any deeper and the enlightenment would be too profound.

Rome wasn't built in a day, and success comes one step at a time.

Everything should proceed step by step, and Wang Teng wasn't in a hurry. Taking things slowly was fine.

As for Yue Qiqiao, she stopped 400 meters away and closed her eyes to sense the raindrops carefully.

However, she wasn't in Wang Teng's area. She was a few hundred meters away.

The Sword Storm Plain was a mysterious place. The enlightenment hidden within the raindrops in every area was different.

For instance, Wang Teng's area was the Golden Sword Domain while Yue Qiqiao's area was the water domain. Wang Teng remembered that Yue Qiqiao's Water Lunar Domain was a combination of the water domain and spiritual domain.

In summary, every single drop of rain in the Sword Storm Plain contained a different enlightenment.

No droplets of rain were the same!

Even if it rained at different times in the same area, the enlightenment contained in it might be different.

This was because every student who entered this place would more or less leave behind their enlightenment.

Everyone's enlightenment was different.

Take Wang Teng as an example.

This was the Golden Sword Domain but in Wang Teng's mind, it wasn't the original Golden Sword Domain anymore. It was his own Golden Sword Domain.

A difference of a hair's breadth leads to a thousand-mile deviation!

That was why the sword enlightenment in the Sword Domain Plains kept changing.

This proved how generous the stellar academics were.

Each student can leave behind their understanding of swordsmanship, and at the same time, they can also draw inspiration from the swordsmanship insights left by their predecessors.

The academy never forced anyone, but all the students who practiced swordsmanship were willing to do so.

This was the legacy!

Without the countless sword enlightenment left behind by their predecessors, how could today's students have such convenience in their practice?

This was precisely the charm of the Sword Storm Plain.

After some time, a few attribute bubbles appeared around him again.

Wang Teng was deep in thought but he still left a part of his spiritual power outside. Hence, when the attribute bubbles appeared, he felt them immediately and picked them up.

Golden Sword Domain\*30

Golden Sword Domain\*50

...

The attribute bubbles merged into his mind, accelerating and deepening his comprehension of the Golden Sword Domain.

A few more figures walked out from the edge of the Sword Storm Plain. They were surprised when they saw the female martial warriors sitting cross-legged beside the stone plate.

"Miao Tao, why are you still here?" A young man opened his mouth and asked, "I remember that you came out earlier than us. Are you going in again?"

"I won't be going in again. My body has reached its limit." Miao Tao shook her head and continued, "I just saw two juniors going in. I want to see how far they can go."

"Another new student? Many new students came to try it out over the past two days. I remember that the highest ranking is around 100,000," the young man said.

"169365!" Another person looked at the stone plate and smiled.

They didn't remember the ranking but they had some impression of it. Hence, they only knew the exact number of looking at the stone plate.

"This is not bad. When I first entered the Sword Storm Plain, I couldn't even get into the top 200,000. That was when I knew that in this world, there's always someone better," the young man lamented.

"It doesn't matter if your ranking is low at the start. You're catching up now." Miao Tao smiled.

"Hey, I'll take that as a compliment." The young man laughed.

"By the way, in our Seventh Stellar Academy, the highest rank of a student's first trip to the plains is 100,000, right?" someone said.

"Yes, it's this ranking. We still couldn't make it into the top 100,000. The difference is slight but the gap is huge. Stellar Academies is after all a gathering place for numerous geniuses. The senior students are too powerful, while the newcomers have yet to fully grow." The young man nodded and asked, "Miao Tao, what are the names of the two freshmen?"

"I don't know," Miao Tao replied.

The young man was speechless. "You waited for them all this while but you don't even know their names."

"We'll know when they come out." Miao Tao shrugged.

"Forget it. I'm a little curious too. I'll wait with you," the young man said.

The others didn't leave either. They sat beside the stone plate and waited quietly.

"Huh?" Miao Tao suddenly exclaimed softly.

"What is it?" The young man asked in surprise.

"That freshman is moving horizontally," Miao Tao frowned and said.

"Moving horizontally!" The older students at the scene looked into the rain and immediately noticed a moving figure.

"Is that him?" An older student pointed in Wang Teng's direction and asked.

"Yes, that's one of the freshmen!" Miao Tao nodded. Then, she pointed at Yue Qiqiao's location and said, "The other one is over there."

"Hey, she's a beauty." The older students' eyes lit up when they saw Yue Qiqiao.

"Enough. She's a junior." Miao Tao rolled her eyes.

"Junior sisters are the best." The older student laughed nonchalantly.

"Beast." Miao Tao was speechless.

The older students laughed louder.

However, their attention was quickly drawn to Wang Teng. They noticed that he was moving between different areas, never staying in one place for too long. He seemed to have finished his enlightenment very quickly.

"What is he doing?" Someone couldn't help but ask.

"I don't understand. Is he looking for an area suitable for his sword enlightenment?" The young man asked curiously.

"Haha~ this junior brother is quite interesting." Miao Tao smiled with interest.

"You called us beasts just now, but you have your eyes on a junior brother," the young man beside him teased.

"Go away!" Miao Tao's face turned black.

Wang Teng had a great harvest. The Sword Storm Plain was a treasure trove. In just half a day, he collected numerous attribute bubbles, and his understanding of swordsmanship significantly improved.

Most importantly, his enlightenment wasn't limited to the Golden Sword Domain. There were other sword domains too.

To Wang Teng, this was a gift from heaven.

After half a day, Wang Teng gathered all the five basic element sword domains. All of them had reached the second rank.

Wang Teng was able to improve so quickly because his five basic Force domains were all at the third rank and fourth rank. All he needed to do was to use his understanding of swordsmanship to convert them into sword domains.

"Let's see if I can merge them into a five-element sword domain." Wang Teng stopped in his tracks and sat cross-legged on the ground. The five sword domains circled him, unfolding gradually.

The small sword lights of gold, green, red, yellow, and blue, resembled agile fish, darting through the pouring rain, moving freely and effortlessly.

Time passed slowly.

In a blink of an eye, another half a day had passed, and the continent where the Seventh Stellar Academy was located had entered the night. Ten bright moons hung high in the sky, creating a breathtaking spectacle.

The continents of the Seven Stellar Academies were so vast that they required not just one sun or moon but multiple ones to sustain their ecological balance. A single star or satellite would be insufficient to maintain the continent's ecosystem.

Of course, besides the celestial bodies and satellites, there were also powerful martial warriors shaping and supporting the seven continents.

Any martial warriors could tell how special these seven continents were. Normal continents wouldn't be able to survive in the Chaotic Star Sea for long.

Yue Qiqiao glanced at Wang Teng from afar. She had reached her limit. Her whole body was in pain, and she had no choice but to withdraw from the area.

However, she didn't expect Wang Teng to continue staying here. He seemed to have grasped something.

This person was a monster!

She shook her head and walked out of the Sword Storm Plain.

## **Chapter 1672: No. 99,999! The Record Is Broken!**

"One is out!" Miao Tao's eyes lit up.

Although the sky had grown dark, she had not left yet, and neither had the others. In fact, more people seemed to have gathered around.

After some senior students came out, they met Miao Tao and the others. They noticed that they were observing two new students so they decided to stay as well.

The senior students always paid close attention to the new students because there was a possibility of exceptional geniuses emerging in every new cohort.

These geniuses were bound to rise rapidly and become prominent figures within the academy in a short period.

Such talents were worth befriending or drawing to their side.

Thus, it was best to seize the opportunity to interact with them before they fully mature.

Of course, being geniuses themselves, they wouldn't be overly eager to make connections. They were just doing it out of interest in equal and meaningful exchanges.

"It's that lady."

As Yue Qiqiao got closer to the edge of the Sword Storm Plain, many people saw her face. They were surprised.

Yue Qiqiao was definitely a goddess. Many male martial warriors were stunned by her beauty.

Especially with the moonlight illuminating the rain curtain behind her, making her appear like a fairy under the moonlight.

"So beautiful!"

Some people couldn't help but mutter.

"Pathetic!" Miao Tao couldn't help rolling her eyes. These people were supposed to be experienced seniors who had seen their fair share of beauties on the universe goddess rank. Yet, they were captivated by a new student.

"You are jealous." The young man laughed.

"Me? Jealous?" Miao Tao flared up like a cat. She glared furiously at the young man not far away.

She wasn't ugly by any means but compared to Yue Qiqiao, she fell slightly short. However, there was no way she would willingly admit to being inferior to someone else.

Women were always stubborn in this area.

"Everyone loves beauties. Why are you mocking us when we see beauties? Isn't that jealousy?" Someone teased her.

"I despise you all!" Miao Tao retorted with a scornful look.

At this moment, Yue Qiqiao walked out. Her expression turned strange when she heard their conversation.

However, deep inside, she was more curious than anything else.

Why are there so many people here?

Why aren't they going back even though it's late at night? Are all the students of the stellar academy this diligent?

"Sister, can you come over for a chat?" Miao Tao waved at Yue Qiqiao.

"Sister?" Yue Qiqiao frowned at the odd title. Nevertheless, she didn't want to be confrontational, and since the other party didn't seem like they were looking for trouble, she decided to approach them. She asked, "What can I do for you, senior sister?"

"Nothing. We just want to ask for your name to see your ranking," Miao Tao smiled and replied.

"My name is Yue Qiqiao." Yue Qiqiao nodded.

"Yue Qiqiao. What a good name. You are as beautiful as your name," Miao Tao praised.

"You're flattering me. You're beautiful too." Yue Qiqiao felt a little awkward. This senior sister was a little too enthusiastic. However, she reminded herself that they were strangers, and perhaps this was just her character.

"Junior Sister Yue, where did you come from?" A young man asked.

"I'm from the Liuguang Territorial Domain, the Great Qian Empire," Yue Qiqiao replied.

"The Great Qian Empire is indeed a powerful faction. No wonder they were able to groom such an outstanding talent like Junior Sister Yue," the young man smiled and said.

"You're flattering me," Yue Qiqiao said.

"Come, let's take a look and see how high Junior Sister Yue's ranking is," Miao Tao said excitedly.

Everyone gathered around the stone tablet, searching for Yue Qiqiao's name.

There were too many names on the stone plate. If they didn't know Yue Qiqiao's name, they wouldn't be able to find her ranking.

Fortunately, they could roughly estimate the ranking, narrowing down the search range. With so many martial artists looking for the same person, it wouldn't take long to find them. What's more, martial warriors could read ten lines at once.

"127,600!"

Everyone was taken aback. Their gazes landed on Yue Qiqiao.

This stunning woman possessed such extraordinary talent!

She just entered the stellar academy but had already left her mark on the stone table. This was extremely rare.

What they didn't know was that Yue Qiqiao's domain was a combination of the water and spiritual domain. Thus, her potential exceeded that of a normal domain.

That was why she was able to get on the rankings.

"Junior Sister Yue, you're amazing!" Miao Tao sized up Yue Qiqiao in astonishment.

"It's nothing, I still have a long way to go," Yue Qiqiao replied, though she was also a bit surprised.

"You're too modest." Miao Tao said, "You managed to squeeze into the top 120,000 the moment you entered the academy. You have already exceeded 80% of the freshmen."

"I'm not being modest." Yue Qiqiao shook her head and continued, "My ranking is quite low among the top 10 in the League Of Talents of the Great Qian Empire."

"Really?" Miao Tao and the others were shocked.

"Of course. I don't have to lie to you about this," Yue Qiqiao replied.

"It looks like the quality of the talents in your League Of Talents is very high," Miao Tao said.

"I remember there was a top-notch genius who made it to the Star Rankings, and he came from your Great Qian Empire. What was his name again?" someone nearby suddenly said.

"I don't know his name but I remember he's a talent from the Great Qian Empire." Miao Tao shook her head. She looked at Yue Qiqiao and asked, "Do you know him?"

"That's him!" Yue Qiqiao smiled and pointed at the figure in the rain.

"What!" Miao Tao and the others stared into the rain curtain in astonishment.

The real person was right in front of them but they just didn't recognize him.

"He's the unparalleled talent who got onto the Star Rankings?" Miao Tao widened her eyes in disbelief.

She still vividly remembered the appearance of that young man from before. He was very gentle and handsome, which was why she couldn't help but remind him.

The other party even nodded and smiled at her politely. She couldn't see any signs of the arrogance and conceit that one would expect from a top-tier talent.

"That's right. You don't know? I thought you reminded him because you know who he was." Yue Qiqiao suddenly found Miao Tao's expression a little fun. She couldn't help but tease her.

"Erm... how would I know that it would be such a coincidence?" Miao Tao was speechless.

The others exchanged glances with one another. It felt a little unreal, but they were a little envious of Miao Tao. Just because she had offered a simple reminder, who knew, she might have formed a good connection with that exceptional talent.

If it was an ordinary genius, they wouldn't react this way. But Wang Teng was a top talent who made it onto the Star Rankings.

What kind of presence was that?

To put it bluntly, the Seven Judges from the academy's arbitration association were the talents who got onto the Star Rankings!

Wang Teng had this potential.

Indeed, regardless of whether he could ultimately reach such heights, he already surpassed the average genius by far. This wasn't something to be underestimated.

Everyone had different thoughts going through their minds. All eyes were focused on the figure within the rain curtain.

Time flies.

A silent night.

In the sky, the stars rose gradually, and their radiance illuminated the continent.

Just as the first rays of dawn fell upon the earth, in the distance within the rain curtain, a five-colored sword light flashed and disappeared, blending into the rain curtain silently and without a trace.

The rain in that area seemed to have undergone an unbelievable change.

But, outsiders wouldn't be able to sense it.

The figure sitting cross-legged on the ground stood up and ended his night of enlightenment. He walked towards the edge of the Sword Storm Plain without any hesitation.

"I think I sense five different sword domains," someone said after some hesitation.

"It felt like a single sword domain," Miao Tao frowned and said.

Everyone was bewildered and uncertain. They had all seen that sword light just now. Though it was unclear through the rain curtain, they could still sense something extraordinary about it. It was not an ordinary sword enlightenment.

Yue Qiqiao turned serious too. She looked at Wang Teng with mixed emotions.

The sword aura just now was unique. What was it?

At this moment, everyone's wristwatches vibrated slightly. They received an announcement.

Everyone was stunned. Then, they realized something and all looked at their wristwatches in shock.

"Congratulations to freshman Wang Teng for entering the Sword Storm Ranking for the first time and entering the top 100,000. His rank is 99,999 and will be rewarded with 30,000 points!"

When everyone saw this announcement, they were all shocked beyond measure, and waves of astonishment surged in their hearts.

They even suspected that they were mistaken.

99999th place!

Indeed, this was the ranking.

Many people looked at it repeatedly and finally confirmed that they were not mistaken.

The difference was just one place but he did manage to squeeze into the top 100,000!

A difference of one rank was like the difference between heaven and earth. It was difficult to surpass.

Even the previous batches of strongest new students who had excelled in swordsmanship could only reach around the 100,000th position, unable to break into the top 100,000. This illustrated just how difficult it was to reach the top 100,000.

However, Wang Teng managed to squeeze into the top 100,000 as a freshman. This was unbelievable.

At the same time, many people in the academy received this announcement too.

There were many rankings in the academy. Once there was a huge change in these rankings, the academy's network would get informed instantly and make an announcement so that all the students and instructors would know immediately.

What's more, this announcement was made on the public platform of the Seven Stellar Academies, not the Seventh Stellar Academy's internal web.

This was an incentive mechanism!

Wang Teng set a new record for the Sword Storm Ranking but squeezing into the top 100,000 on his first attempt.

In a certain part of the academy, Sari, who was on a mission, was astounded when he saw this announcement.

"No. 99,999 on the Sword Storm Ranking!"

"This junior brother is unpredictable. He caused such a huge commotion the moment he came to the academy. It looks like I underestimated him."

Zhulong Shan was walking out of the academy's arbitration association when he saw this announcement. He frowned and his expression turned grim.

He was locked up for the entire night to study the rules of the academy in the arbitration association.

On the other hand, Wang Teng broke a ranking record.

This contrast made him uncomfortable. He felt exasperated.

In the academy's arbitration association, Senior Wu De, who brought Zhulong Shan away, was sitting on a chair with one leg crossed over the other, savoring a glass of wine. He glanced at his wristwatch and was astounded. "Good riddance, he sent

Zhulong Shan to the academy arbitration association yesterday and broke the record for the Sword Storm Ranking today. Wang Teng is quite impressive."

"It was worth meeting him personally."

"It looks like he's not just an interesting person but also a great talent. He earned his title."

"Top 100,000 in the Sword Storm Ranking? This isn't something an ordinary talent can do. I think those sword talents won't be able to sit still anymore."

"Will the seven of them take notice of this baby dragon?"

"Interesting! Interesting! This is so interesting! Hahaha..."

Laughter echoed in the room, and the passing students from the academy arbitration council couldn't help but look towards the door in surprise.

What's wrong with Wu De?

On the other side, in a cosmos-level manor, a petite young lady with short silver-white hair wrinkled her nose and snorted. "Hmph, this fellow is in the limelight again. I can't lose to him."

"Unfortunately, I'm at the First Stellar Academy and he's at the Seventh Stellar Academy. I can't find him for now."

"I wonder what he's thinking. Why did he go to the Seventh Stellar Academy?"

"Nevermind, I'll ignore him. He brought this upon himself. I'll catch up with him sooner or later. At that time, I must win him."

Besides these people, the ones who knew Wang Teng personally, such as Yu Yuanrui, Ji Haochen, Timothy, and many others saw the announcement too. They were shocked and in disbelief. They felt complicated.

Many seniors in the academy looked in the direction of the Sword Storm Plain. Some of them had already rushed over.

## **Chapter 1673: Do You Like Peaches?**

At the edge of the Sword Storm Plain.

"Why were there so many people?"

Wang Teng saw the crowd beside Yue Qiqiao after he walked out of the rain. He was stunned.

"Everyone is waiting for you." Yue Qiqiao sized up Wang Teng curiously. She wanted to see if Wang Teng was a human. If not, how could he be so talented?

"Your gaze is weird." Wang Teng was puzzled.

"Your Sword Storm ranking is out," Yue Qiqiao said seriously.

"Huh?" Wang Teng was surprised. Judging by their expressions, his ranking was not low. He couldn't be bothered to check and asked directly, "What position am I in?"

"Wang Teng, you're ranked 99999th on the Sword and Storm Ranking. The academy even rewarded you with 30,000 points. It's already announced."

Before Yue Qiqiao could reply, Round Ball's voice appeared in his mind.

"An announcement?" Wang Teng was stunned. He felt a slight vibration from his smartwatch just now but he had Round Ball and it didn't alert him so he didn't pay much attention to it.

"99,999! You broke the record!" Yue Qiqiao exclaimed.

"99,999? That's not high at all. How did I break a record?" Wang Teng was taken aback once again, and his surprise became even more evident on his face. "Moreover, they're rewarding me with 30,000 points. How did this happen?"

Everyone: ...

Yue Qiqiao: ...

How is 99,999 not high?

How high do you want to be?

Why do I feel that he's boasting again?

"In the past, the highest ranking for freshmen was 100,000!" Miao Tao explained.

"100,000? That's only a difference of one place. It's nothing," Wang Teng responded.

"No, you don't understand," Miao Tao shook his head. "The difference between being ranked 100,000th and 99,999th is vast. If you can't enter the top 99,999, you can't." Miao Tao shook her head.

Wang Teng nodded in deep thought. He turned to Yue Qiqiao and asked, "What's your rank?"

"127,600! I'm far behind you," Yue Qiqiao said.

"Junior Sister Yue, your ranking isn't low either. You have surpassed 80% of the freshmen," a young man said.

Wang Teng glanced at the person who spoke and then looked at Yue Qiqiao. He understood something and a hint of amusement curved up at the corners of his mouth.

Yue Qiqiao saw Wang Teng's expression and knew that he was thinking about something strange. She rolled her eyes uncontrollably.

"Even this senior said that you can surpass 80% of the freshmen. It looks like your swordsmanship is not bad," Wang Teng praised.

"It doesn't sound right to me," Yue Qiqiao said.

"You're judging me unfairly," Wang Teng replied.

Yue Qiqiao was speechless.

"I'm quite envious that the academy rewarded you with 30,000 points," Miao Tao said. "When we first arrived at the academy, we had to complete numerous tasks just to earn a few points. It's still fresh in my memories."

"Indeed, it's not easy to earn points in the academy, which is why many people try to improve their rankings on various leaderboards. Unfortunately, only a small number of them manage to break records," the young man said with a sigh, seemingly reminded of his own painful experiences from the past.

For a moment, everyone looked at Wang Teng with jealousy.

Yue Qiqiao was no exception. She knew that Wang Teng had previously been rewarded with 30,000 points, and now he received another 30,000, totaling 60,000 points. This amount was already several times more than what most new students had.

This was the best interpretation of winning at the starting line.

"I was just lucky. I didn't expect to break the record," Wang Teng shook his head and replied calmly.

This was the truth. The Five-element Sword Domain was just a domain that had evolved from the Golden Lightning Sword Domain. He had also created the five-element fist

before so he was familiar with the merging of Forces. In the end, it's just a matter of course, nothing extraordinary.

The record was broken accidentally.

He couldn't believe it himself.

Wasn't the Sword Storm Ranking a little too easy to break?

Fortunately, he didn't say it out loud. If not, Miao Tao and the others might think he's boasting.

For now, they thought that Wang Teng was being humble so they didn't say anything.

"How do I address you?" Wang Teng looked at the female martial artist who had previously warned him and realized that he didn't know her name yet.

"Miao Tao!" Miao Tao smiled and replied.

"Good name," Wang Teng praised.

"What's good about it?" Miao Tao asked.

"Erm... peaches are delicious!" Wang Teng raised his eyebrows and said.

Miao Tao: ...

Yue Qiqiao: ...

Everyone: ...

To hell with being delicious.

Was he teasing her?

This guy had some nerve. He dared to flirt with his senior sister.

What's more, he did it in front of so many people.

All male martial artists cast an admiring glance at Wang Teng. Miao Tao was not an ordinary female martial artist. When she got angry, even they were afraid of her.

What would happen to Wang Teng after he teased her personally?

They were waiting for Miao Tao to flare up in anger!

But, what happened next stunned them.

"Do you like to eat peaches?" Miao Tao asked provokingly.

Everyone was dumbfounded. They couldn't believe that Miao Tao just said that.

Wang Teng: ...

How should he reply?

It felt a little dangerous!

Especially when he saw the other party's provocative gaze, he felt that he was playing with fire.

Yue Qiqiao smiled as she watched this scene.

"Cough, I'm leaving. See you again!" Wang Teng noticed that the atmosphere wasn't right so he immediately took out his spacecraft and flew inside in a hurry.

"Seniors, I'm leaving too." Yue Qiqiao nodded at Miao Tao and hurriedly followed Wang Teng.

Everyone looked at the spacecraft as it flew away. Then, they glanced at Miao Tao strangely.

"What are you looking at?" Miao Tao glared at them and asked angrily.

"Miao Tao, I didn't expect you to go after younger guys. You didn't even spare your junior brother," the young man from before teased.

"Bullshit, can't you see that he was the one who flirted with me first?" Miao Tao scolded.

"But you responded." The young man was speechless.

"Come on, he's so handsome and talented. Why can't I reply to him?" Miao Tao rolled her eyes. "I'm not a nun."

Everyone: ...

Well said, they couldn't refute it at all.

"You're just attracted to his good looks," the young man said contemptuously.

"You're right. I'm feasting my eyes on him. You men like beautiful women, so why can't we women like handsome guys?" Miao Tao sniggered.

"Of course! We never said you can't go after handsome guys. If you can win over Junior Wang Teng's heart, we will call you a heroine," the young man said with a wry smile, giving Miao Tao a thumbs up.

"Hmph, I'll show you what I'm capable of," Miao Tao snorted lightly. Though she felt a bit nervous inside, she didn't show any signs of backing down.

In truth, she was just talking big. She didn't have the guts or confidence to take Wang Teng down.

She couldn't see through Wang Teng at all. He even dared to tease her. Normal freshmen wouldn't dare to do this.

She felt that if she flirted with him recklessly, she might be the one losing out.

How scary!

She didn't want to admit it, but she wasn't as good-looking as Yue Qiqiao.

Even Yue Qiqiao seemed a bit overshadowed by Wang Teng's presence, let alone her.

"We'll wait and see then," the young man chuckled.

After joking around for a while, they wanted to leave. Suddenly, they saw several spacecraft flying in from a distance.

Multiple figures appeared in mid-air and landed at the edge of the Sword Storm Plain. They walked towards the stone plate.

"Why are they here?" Miao Tao and the others' expressions changed slightly.

"They're probably attracted by Wang Teng's ranking. After all, he broke the record," the young man said grimly.

"Miao Tao, why are y'all here? Have you seen Wang Teng?" A young man with a long sword behind his back asked when he saw Miao Tao and the others.

"He just left." Miao Tao ignored these people and left immediately after replying to him.

"He left? It seems I arrived a step too late," the young man with the long sword on his back frowned and murmured. He looked at the stone plate and saw Wang Teng's name at the 99,999th position. All doubts were dispelled. He turned around and left, saying, "Since we're in the same academy, there will be another chance to meet."

The others left too. They came and left quickly.

Wang Teng didn't know that he had attracted so many people just because he broke a small record.

If he knew, he would be glad that he left quickly.

Otherwise, getting involved with this group of people would surely lead to many more troubles.

On the spacecraft, Yue Qiqiao hesitated before asking, "Did you grasp a new enlightenment just now?"

"It's just a small gain." Wang Teng sat on the sofa in the lobby of the spacecraft and smiled at her.

"I didn't expect you to break the record." Yue Qiqiao didn't ask further. "I'm afraid many people will be alerted."

"It doesn't matter. My existence has already stirred many people," Wang Teng said with a calm expression.

Before he arrived at the stellar academy, many people already knew his name and his achievements. No matter how low-key he tried to be, it might not make much of a difference. It's like the wind blowing when the tree desires stillness.

From the moment he ascended to the Star Rankings, "low-key" and "discreet" were probably out of reach for him.

Hence, it was better to keep a high profile and do whatever he wanted.

"True," Yue Qiqiao nodded thoughtfully and smiled. "It's not a bad thing. The bigger your reputation, the more advantageous it will be for the things we need to do later on."

"You're quite smart." Wang Teng smiled. He hadn't thought of this, but Yue Qiqiao did.

"Of course. I have some talent in doing business," Yue Qiqiao said proudly.

"Then go ahead and make the most of it. If you can handle it well, I don't mind leaving everything to you," Wang Teng said with a meaningful look in his eyes.

Yue Qiqiao was elated. If she was in charge of everything, she would be able to earn more points.

Was this good opportunity falling into her lap like this?

It was unbelievable just thinking about it.

"Really?" She couldn't help but ask.

"It depends on your performance," Wang Teng answered.

"Don't worry. I won't disappoint you," Yue Qiqiao said confidently.

## Chapter 1674: The Strange Treants!

Wang Teng and Yue Qiqiao returned to the cosmos zone residential area.

The moment the spacecraft landed, they received a message simultaneously. They exchanged glances with each other.

"What is it this time?" Yue Qiqiao was astounded. She looked at her wristwatch.

"Wang Teng, it's the Uncharted! The academy informed you that you will be heading to the Uncharted soon." Round Ball's excited voice appeared in his mind.

Uncharted! Wang Teng got excited. He asked hurriedly, "When do we leave?"

"All the freshmen will gather in the dormitory area two hours later. A spacecraft will come and fetch you." Round Ball repeated the content of the message.

"That's great!" Wang Teng was elated. "I can't wait to see what the Uncharted looks like."

At this moment, Yue Qiqiao finished reading the message. There was excitement on her pretty face as she said, "We will be heading to the Uncharted soon."

"Yes." Wang Teng nodded at her.

"I wonder which Uncharted it will be. According to the usual practice, those who rank in the top ten of the League Of Talents might go to the Primordial Uncharted, but this time, you are somewhat special. There's a possibility you could enter the Chaotic Uncharted," Yue Qiqiao said. "However, there's no record of where the geniuses who previously ascended to the Star Rankings went, so we have no way of knowing."

"Chaotic Uncharted!" Wang Teng's eyes gleamed with excitement and yearning in his heart.

This was the highest level Uncharted. If he could enter it, it would be of great help to him.

However, he couldn't make the decision and would have to rely on the academy to decide which Uncharted he would go to.

In the [Uncharted File], Wang Teng learned that the Chaotic Uncharted wasn't a place ordinary martial warriors could enter.

The Chaotic Uncharted had many benefits but it was also full of dangers. Normally, only universe stage or eternal stage martial warriors had the confidence to enter.

Very few cosmos stage or heaven stage martial warriors got to visit it.

Firstly, they weren't strong enough. Secondly, they didn't have enough points.

Of course, even if they went, the possibility of dying was high.

This was recorded in the data of the academy.

"Don't worry. We can just wait and see," many thoughts flashed through Wang Teng's mind as he replied calmly.

Yue Qiqiao nodded. She took a deep breath and tried her best to calm down.

Two hours passed quickly.

Within these two hours, people started rushing over from all directions. They returned to the residential area and waited patiently for the academy's spacecraft to arrive.

Some people couldn't contain their excitement and ventured out of their manors.

Geniuses from various factions gathered together, whispering and discussing the upcoming journey to the Uncharted.

There wasn't a single senior student in the cosmos zone dormitory. They were all freshmen.

To the senior students, surpassing the cosmos stage was a piece of cake. They had been in the academy for many years. If they hadn't reached the cosmos stage, they could drop out of school and go home.

The stellar academies wouldn't accept a piece of trash like this!

Wang Teng and Yue Qiqiao stood on the lawn outside the manor and looked at the sky silently. No one spoke.

At this moment, a figure walked out of the manor not far away. It was Yu Yunxian.

He was quite patient. He honestly waited for two hours before coming out, unlike other people who had already been waiting outside.

"Brother Yunxian!" Wang Teng greeted him.

Yu Yunxian nodded at him slightly. Suddenly, he turned to look at another manor.

Wang Teng and Yue Qiqiao sensed something too. They looked in the same direction.

There were only four manors in this vicinity, all gathered at the foot of the mountain. It was an excellent place to stay with mountains surrounding them.

Before they arrived, a manor was already taken. They just didn't know who lived inside.

They were a little curious.

After all, they lived so close to each other so it was inevitable that they would meet in the future.

At this moment, a figure walked out.

Wang Teng and the others were stunned when they saw the figure clearly.

The other party's image had exceeded their expectations.

That was a tall and slender figure, resembling a humanoid with four limbs, covered all over with dried tree bark. Some tree branches grew out from the gaps in the bark, adorned with lush green leaves. A small sapling was growing on top of his head.

For some reason, even though the other party looked rough, he felt a little funny.

"Treant!" Yue Qiqiao was astounded.

"Treant?" Wang Teng sized up the other party curiously. He didn't expect such a strange lifeform to live in this mansion.

Considering the nearby living environment, it seems to meet the requirements of the Treant. No wonder he chose to live here alone.

"It's the Treant Race, a very rare race!" Round Ball's surprised voice echoed in Wang Teng's mind as it explained, "Treants are plant lifeforms. They're extremely special and not commonly seen in the universe. They are generally more inclined towards the wood attribute of elemental force and are born with high innate wood talent."

"Of course, some Treants might have other Forces too, such as fire Force, earth Force, or even lightning Force or light Force."

"That's normal. Even some spiritual trees might have lightning element attributes, just like the Tree of Radiance, much less a plant lifeform like the Treant Race." Wang Teng nodded in deep thought.

"That's right. The Treant Race is extremely unique and gifted. However, this race is also prone to early death and struggles to grow, so it's quite surprising to encounter one in the stellar academies. It looks like this individual possesses remarkable talent," Round Ball remarked.

Wang Teng nodded. He activated his Real Eye, and an unnoticeable golden glow flashed past his eyes.

A dense green ball of light appeared in his vision. It was the Treant!

Moreover, within this dense green light sphere, there were two extremely dazzling lights, one red, and one purple!

Lightning Force!

Fire Force!

This Treant had wood, lightning, and fire Forces.

Looking at the intensity of the lights, all three Forces had reached the peak of the celestial stage. There was no weakness.

"F\*\*k!" Wang Teng cursed uncontrollably when he saw the color of the light.

This Treant wasn't abnormal!

Besides the most basic wood Force, he also had the fire and lightning Forces, which were known for their attacking power. This was unbelievable.

He wondered how this peculiar lifeform was born.

Although Wang Teng spoke confidently earlier, believing that a Treant could possess attributes other than wood Force, he still found it somewhat unbelievable when faced with such an existence.

One could only marvel at the wonders of the world. Anything was possible in this vast universe!

"What's wrong? Did you see something?" Round Ball asked hurriedly.

After interacting with him for a long time, it knew that Wang Teng had a special vision that allowed him to see through many things.

For instance, Force, stages...

"This Treant is impressive!" Wang Teng exclaimed. "He has wood, lightning, and fire Forces simultaneously."

Round Ball gasped. "Really? Are you sure?"

"You're doubting my vision," Wang Teng said.

"Oh my god! This Treant must have a powerful background." Round Ball exclaimed. It suddenly said, "Wang Teng, get to know him quickly. You might have unexpected gains in the future."

"Do I look like someone who will make friends for interest? You're humiliating me," Wang Teng replied angrily.

Round Ball choked.

"But, I don't mind getting to know him. After all, he's a rare Treant. I'm very interested in him," Wang Teng said.

Round Ball: ...

It had never seen such a shameless person.

However, before Wang Teng could walk over, the other party sensed his gaze and suddenly walked towards him.

The Treant's face lacked any expression so he appeared somewhat stiff and rigid. With its eyes in a dark green hue and a mouth resembling a withered old man's, one could not ignore the slightly comical and eerie feeling it gave off. However, looking past the humorous aspect, it gave an overall impression of being somewhat menacing.

Thus, when Yue Qiqiao and Yu Yunxian saw him walking over, they frowned slightly.

What was this Treant planning to do?

Wang Teng patted Yue Qiqiao's shoulder and stared at the Treant calmly. He wasn't affected.

The Treant walked in front of Wang Teng and opened his mouth slightly. His voice was a little hoarse, like two pieces of wood rubbing against each other. "Hello, I'm Boret."

Wang Teng and the others were stunned.

This was a little unexpected.

The tree person actually came over to greet them, and he exuded a somewhat simple and naive feeling.

"Erm... hello!" Wang Teng regained his senses and said, "My name is Wang Teng."

"Wang Teng!" Treant Boret repeated. Then, he said, "Nice to meet you."

"Nice to meet you too." Wang Teng didn't expect that one day, he wouldn't know how to converse with others. He had no choice but to continue the conversation awkwardly. He also took the chance to introduce Yue Qiqiao and Yu Yunxian.

At this moment, a huge spacecraft appeared in the sky. It flew over quickly and stopped above the cosmos zone residential area.

"It's here!" Wang Teng was invigorated. He looked up.

Yue Qiqiao, Boret, and Yu Yunxian looked over too.

"All freshmen, board the spacecraft!" A voice came from the spacecraft. The cabin door opened.

The instant he finished speaking, numerous figures soared into the sky and entered the huge spacecraft.

"Let's go too." Wang Teng said and flew into the sky.

Yue Qiqiao, Boret, and the others followed him and dashed into the spacecraft.

After some time, all the freshmen entered the spacecraft. No one wanted to be left behind.

The huge spacecraft didn't stop and headed straight for a mysterious place in the Seventh Stellar Academy.

## **Chapter 1675: Entering The Chaotic Uncharted! (1)**

In the spacecraft.

It was a gathering of talents. The entire cohort of talents who entered the Seventh Stellar Academy were present.

Wang Teng scanned the crowd and saw many unfamiliar faces. These people should be the talents who reached the Seventh Stellar Academy earlier than them. They didn't arrive on the same spacecraft as him so he had never seen them before.

The space inside the spacecraft was huge. It was a large spacecraft and could fit a few hundred thousand people.

This wasn't an exaggeration!

A large spacecraft had this capacity.

Actually, this was still considered small. There were many bigger spacecraft. Some large-sized spacecraft could even hold billions of people.

It was unimaginable but it existed in the universe.

Thus, when these talented martial warriors stood in the spacecraft, it didn't appear crowded. Instead, it was relatively spacious.

Suddenly, a figure entered his vision.

Zhulong Shan!

"It's him!" Yue Qiqiao noticed Zhulong Shan and whispered.

"Ignore him. Let's see if he dares to look for me again." Wang Teng smiled calmly.

At this moment, Zhulong Shan also noticed Wang Teng. He glanced over with a gloomy expression but he didn't come over. He just glanced at Wang Teng from afar before finding a seat and sitting down cross-legged.

He was surrounded by the talented martial warriors who followed him in the past. Zhulong Shan seemed to be their leader.

Yes, even though Wang Teng cheated them of their points, they remained loyal to Zhulong Shan.

They probably didn't dare to blame Zhulong Shan and blame Wang Teng instead. After all, he was the one who caused them to lose their points.

Points were precious to a new student.

This was a huge grudge!

However, they didn't dare to provoke Wang Teng either. They had witnessed the battle between Wang Teng and Zhulong Shan, and that had left a lasting impression on them.

They had to admit that Wang Teng was powerful, enough to contend with Zhulong Shan.

Zhulong Shan was the most powerful martial warrior in their Solar Dragon Territorial Domain.

Thus, they could only wait for Zhulong Shan to look for Wang Teng.

Of course, the most important thing now was to advance to the cosmos stage in the Uncharted. The rest would come later.

You could say that this Uncharted was a great opportunity.

Some people might not have a high ranking in the League Of Talents, but they could still rise above others in the stellar academy and surpass other geniuses.

This was the lethal attraction of the Uncharted.

In the past, many geniuses had entered the Uncharted and gained unimaginable benefits, allowing them to rise strongly and even surpass the first-ranked genius in the League Of Talents.

They were all the cream of the crop. Some people just lacked an opportunity.

At this moment, a figure suddenly appeared in front of everyone. He placed his hands behind his back and cast an indifferent gaze over the crowd.

Wang Teng's gaze fell upon the man standing at the forefront of the crowd. Though he was dressed in a simple white robe, there was an extraordinary aura about him. He was standing there but he seemed to blend into the emptiness. He looked like a hologram.

What made him even more peculiar was that, apart from his pair of dark red eyes, he had two additional eyes on each side of his cheeks. However, those four eyes were all currently closed.

Everyone's gaze landed on the man unconsciously, especially the four eyes on the sides of his face. They were astounded.

The man said nothing, but all the new students quietened. No one dared to make a sound.

Eternal stage!

This person was definitely an eternal stage martial warrior. He didn't emit any aura intentionally but the pressure he exuded was like a towering mountain weighing heavily on the hearts of the onlookers.

This was the pressure of a higher level of existence.

Just like the Devour Nihilism Beast. The power of its bloodline was so powerful that normal universe behemoths couldn't threaten it at all.

The principle was the same.

"Students!" A stern voice came out of the man's mouth.

A collective shudder ran through the crowd, stirring their spirits.

The man in white only opened his mouth again when he noticed everyone's attention on him.

"The Uncharted is about to open. All of you will be entering the Uncharted. Hence, we will be launching the Freshmen Leaderboard."

"All the new students will be on the ranking, so please do your best!"

The instant he finished speaking, everyone looked at the man in white in astonishment.

Freshmen Leaderboard!

This was a great opportunity for everyone.

But, it was also a chance for competition.

The Freshmen Leaderboard was activated and all the freshmen were included, effectively initiating a competition where every new student would contend and be re-ranked.

This competition would be exceptionally intense.

"Things will get interesting in the future" Yue Qiqiao muttered to herself. A flicker of astonishment flashed in their eyes.

"It's not just interesting, it's going to be explosive," Wang Teng shook his head and remarked.

"Wang Teng, you're powerful!" Boret looked at Wang Teng and said.

"Erm..." Wang Teng was stunned. His expression turned strange.

What the hell?

Was Boret praising him?

He felt a little embarrassed to be complimented right after they met.

Courtesy demanded reciprocity. Wang Teng felt that he should praise him too so he said, "Yes, you're powerful too."

"Shall we have a duel?" Boret asked.

"Okay." Wang Teng agreed readily. He was never afraid of duels.

Yue Qiqiao glanced at Boret. This Treant was no ordinary opponent. He dared to challenge Wang Teng.

Did he know who Wang Teng was?

If Boret knew and still challenged him, it meant that he was confident in himself.

If he didn't know, he might suffer a huge blow.

Wasn't he looking for trouble by challenging this pervert?

However, she wouldn't say this out loud in case the other party accused her of looking down on him.

## **Chapter 1676: Entering The Chaotic Uncharted! (2)**

After the man in white announced the start of the Freshmen Leaderboard, he didn't speak anymore. He stood on the spot and closed his eyes to rest.

The crowd glanced at the man in the white robe and then began whispering among themselves.

Some distance away, Zhulong Shan glanced at Wang Teng and suddenly walked towards him.

"Wang Teng, the Freshmen Leaderboard is now open. Let's see how much potential you, the talent who got on the Star Rankings, truly possess."

Zhulong Shan stood in front of Wang Teng with his towering figure, looking down at him with contempt.

The way Wang Teng had previously used the methods of the Academy's Arbitration Council had filled him with both anger and disdain. He regarded Wang Teng's actions as despicable and utterly shameless. To him, this was underhanded means.

"What does my ability have to do with you?" Wang Teng replied calmly.

If Zhulong Shan spoke to him nicely, he didn't mind returning the body of the Solar Dragon Race to him.

However, from the very beginning, the other party had assumed a condescending and domineering attitude, even using force to intimidate. He nearly hurt Yue Qiqiao too.

If he were to obediently return the body of the Solar Dragon Race, wouldn't it make him appear weak and easily disregarded?

Wang Teng never pampered those who held themselves in high regard.

"Are you afraid?" Zhulong Shan frowned and said with contempt.

"You can say whatever you want but not everyone has the privilege to babble in front of me. If you want to see what I'm made of, weigh your own worth first," Wang Teng chuckled.

"You!"

Zhulong Shan was infuriated when he saw Wang Teng disregarding him. Flames of anger shot out of his eyes.

"Hahaha, Zhulong Shan, you have your moments too." A peal of laughter came from behind Zhulong Shan.

"Wu Yan!" Zhulong Shan's expression turned uglier when he saw the person who came. He glared at the other party and said coldly, "This has nothing to do with you."

"Can't I just watch the show?" The person chuckled.

The young man had long black hair, and his face bore intricate black patterns that resembled totems. He gave off an eerie aura.

Wang Teng glanced at the other party, too lazy to be bothered.

"You must be Brother Wang Teng. I've heard a lot about you." Wu Yan didn't plan to let Wang Teng go. He leaned over and spoke to him politely.

"Who are you?" Wang Teng asked.

Wu Yan: ...

He didn't expect Wang Teng to be so direct and not give him any face.

"Cough, it's normal that Brother Wang Teng doesn't know a nobody like me. I'm just one of the numerous talents in the Witch Tower Territorial Domain, quite ordinary compared

to the likes of Brother Wang Teng, who has risen to the Star Rankings. Everyone knows you." Wu Yan coughed awkwardly and chuckled.

"What's the matter?" Wang Teng ignored his compliments and asked calmly.

Wu Yan's expression froze.

What the hell?

Shouldn't he give him some response after praising him so hard?

Wang Teng appeared completely unaffected, leaving him feeling as if he had been given a cold shoulder.

"Hmph, he's someone who entered the Star Rankings. I don't think he cares about you," Zhulong Shan scoffed.

"Haha, Brother Wang Teng is a straightforward person. I like to make friends with straightforward people." Wu Yan's eyes flickered slightly. He laughed and continued, "Brother Wang Teng, I don't like Zhulong Shan. Why don't we kill him together?"

Zhulong Shan's face turned black when he heard this. "Wu Yan, don't go overboard."

"Brother Wang Teng, what do you think? Consider it." Wu Yan ignored Zhulong Shan and continued speaking to Wang Teng.

"Thank you, there's no need for that. If he provokes me, I can take care of him alone." Wang Teng glanced at him in surprise and shook his head.

Wu Yan choked on Wang Teng's words.

Take care of him alone!

This fellow was a little arrogant!

Even he didn't dare to say that he could take care of Zhulong Shan alone. Where did he get his guts from?

Was he ignorant or confident?

"Impudent!" Zhulong Shan was enraged by Wang Teng's words.

This bastard was looking down on him.

"Well, since Brother Wang Teng is so confident, I'll be looking forward to it." Wu Yan's eyes flickered as he smiled with genuine interest.

"Wang Teng, you're quite something. It's been a long time since someone dared to underestimate me like this. We'll settle our matters in due time. You better pray that your ranking on the Freshmen Leaderboard is higher than mine, or else your words just now will be nothing but a joke," Zhulong Shan said coldly before turning around and walking away.

Wang Teng ignored his threat. He sat cross-legged on the ground and waited.

Yue Qiqiao glanced at him but didn't say anything. She sat down cross-legged beside him and waited with closed eyes.

Yu Yunxian was surprised. He didn't know how Wang Teng got into a conflict with the other party.

The surrounding geniuses observed the spectacle with keen interest and engaged in discussions for a while. Wang Teng was extremely popular as he was a rising star who got on the Star Rankings. Wherever he went, he would become the center of attention.

The fact that Zhulong sought trouble with Wang Teng actually aligned with the desires of many people. They could sit back and watch the battle unfold, eager to witness the extent of Wang Teng's true strength.

The man in white didn't open his eyes. He seemed unconcerned about the conflicts and competitions among the students.

Approximately ten minutes later, the spacecraft vibrated.

Everyone stopped their conversation. Their gazes shimmered as they looked at the man in white.

The man in white opened his dark red eyes and said, "We have reached the Uncharted. Alight the spacecraft."

"Yes!" Everyone replied hurriedly and flew out of the cabin door. Wang Teng, Yue Qiqiao, and the others followed the crowd.

## **Chapter 1677: Entering The Chaotic Uncharted! (3)**

When everyone arrived outside, they were dumbstruck by the scene outside.

"This is..." Wang Teng widened his eyes as he looked around him.

Before him lay a vast expanse shrouded in a hazy grayness with no discernible boundaries in sight.

Within that hazy expanse, colossal whirlpools slowly rotated, exuding a mesmerizing and awe-inspiring power that seemed capable of drawing everything into their depths.

Wang Teng glanced at the whirlpools. His pupils narrowed.

There was a figure sitting cross-legged in front of each whirlpool.

They sat there like aged monks, devoid of any aura or presence. They showed no signs of vitality, to the extent that one could easily overlook them if they just cast a casual glance.

Wang Teng activated his Real Eye but he couldn't see their stages. Everything seemed to be sealed.

He was appalled. These were definitely indomitable warriors but he couldn't fathom their exact stages.

The Stellar Academies' foundation was truly astonishing!

It had many powerful martial warriors.

"Where are we?" Yue Qiqiao scanned her surroundings and asked in a low voice. She was unable to hide the bewilderment in her eyes.

"I don't know. This area is special. It seems to be isolated from the outside world." Wang Teng mused, surveying his surroundings. He noticed that the entire area was shrouded in a hazy grayness, with no indication of its location. There was no visible entrance either. He wondered how they came in.

"This is where the Uncharted is and those whirlpools are the entrance to the Uncharted. The formidable martial warriors from the academy used their great power to move these whirlpools here" the man in white explained.

He wasn't explaining to Wang Teng alone. He was explaining to everyone. This was the question in everyone's mind.

"Gasp!" Round Ball gasped. "They used human power to transfer the entrances here? It's hard to imagine the magnitude of their power."

Wang Teng and the others were flabbergasted too. They looked at the whirlpools, unable to imagine the immense strength they contained.

"Alright, prepare to enter the Uncharted." The man in white waved his hand and continued, "Do you see the stone plates at the side of the zones? The corresponding Uncharted zones are marked on them."

Wang Teng and the others finally realized that this gray area was split into four main zones. They were segregated by the stone plates.

There were whirlpools in every zone.

There were only five whirlpools in the area marked 'Chaotic Uncharted'.

There were 16 whirlpools in the area marked 'Primordial Uncharted'.

There were 23 whirlpools in the area marked 'Cosmic Uncharted'.

And finally, there were only 12 whirlpools in the area marked 'Apocalyptic Uncharted'.

Wang Teng was surprised. He could understand why there weren't many whirlpools in the Chaotic Uncharted zone. After all, this type of Uncharted was rare. However, there were fewer Apocalyptic Uncharteds compared to Primordial Uncharteds. This was surprising.

The man in white paused for a moment before continuing.

"I'm sure you know that there are four types of Uncharted. They are the Chaotic Uncharted, the Primordial Uncharted, the Universe Uncharted, the Apocalyptic Uncharted, and the Apocalyptic Uncharted. It's shown on the stone plate."

"The top 10 in the League Of Talents can enter the Primordial Uncharted. You can choose which whirlpool you want to enter."

"The top 500 in the League Of Talents can enter the Uncharted Cosmic Uncharted. Similarly, you can choose your whirlpool."

"The 500-1000th place can enter the Apocalyptic Uncharted. You can choose your whirlpool too."

A flicker of anticipation arose in the hearts of the crowd as they turned their gaze towards the whirlpools, each seeking their place of opportunity. Unfortunately, they couldn't see anything.

You would only know what Uncharted was like after you entered it. Nothing could be seen on the surface.

Are the top 1,000 martial warriors from the League Of Talents here too? Wang Teng glanced around and wondered to himself.

Wang Teng didn't know the martial warriors well as he didn't interact much with them. However, he saw a few familiar faces. He wondered if they were the talented martial warriors from the Great Qian Empire.

But soon, he shifted his attention back to himself. At first, he hoped that he could enter the Chaotic Uncharted. It looked like he didn't have the chance.

He could only enter the Primordial Uncharted like the other top 10 martial warriors.

It was a pity, but the Primordial Uncharted wasn't bad. It all depended on what opportunities he could find inside.

As he was deep in thought, the man in white suddenly looked at Wang Teng and spoke to him.

"Wang Teng, you have entered the Star Rankings so the academy has decided to allow you to enter the Chaotic Uncharted."

Wang Teng was momentarily stunned. Then, a surge of joy welled up within him.

Every cloud has a silver lining.

He thought all hope was lost but another twist unfolded in the end!

Seriously, can't this man in white finish his sentence at once?

He made him feel disappointed for a moment.

The others were shocked too. They looked at Wang Teng in envy.

The Chaotic Uncharted!

Wang Teng was indeed the only special person in this batch!

Many gazes of many talents flickered as they looked at Wang Teng with a hint of inexplicable meaning in their eyes.

Zhulong Shan looked at Wang Teng with a gloomy expression.

Just moments ago, he was warning Wang Teng not to fall behind him in the rankings, but little did he know that he had already won the race even before entering the Uncharted.

This slap in the face came a little too quickly!

"Chaotic Uncharted!" Yue Qiqiao looked at Wang Teng enviously.

Even someone like Yu Yunxian looked at Wang Teng with a complicated gaze.

These events seemed to serve as a repeated reminder to him that he had lost to Wang Teng, who proved to be even more outstanding and remarkable than himself.

Star Rankings!

Even he had never thought of entering the Star Rankings before the League Of Talents.

But, Wang Teng did it.

He was unable to deny Wang Teng's remarkable abilities.

The benefits brought by the Star Rankings were gradually manifesting, placing Wang Teng ahead of everyone else.

"You only have three months. Make use of the time and don't waste this chance." The man in white waved his hand. "Go!"

"Yes!"

All the talented martial warriors shot out and dashed towards their chosen whirlpool. They were afraid that someone would beat them to it if they were a step too late.

"Wang Teng, I'll leave first," Yue Qiqiao said.

"Alright." Wang Teng nodded. He looked at the five whirlpools and chose one randomly. He flew towards the one in the middle.

The man in white's gaze landed on Wang Teng's back. He watched Wang Teng until he entered the Chaotic Uncharted whirlpool before disappearing on the spot.

## **Chapter 1678: The Land Of Arduous Cultivation!**

Boom!

The instant Wang Teng leaped into the whirlpool, his mind suddenly jolted, overwhelmed by waves of intense throbbing and pain.

It felt extremely uncomfortable!

It felt as if the whirlpool had manifested inside his head, fiercely spinning and churning, causing his world to spin in a dizzying whirlwind.

Wang Teng tried his best to open his eyes but he couldn't see his surroundings clearly.

Uncharted passageway, time distortion! The introduction of the [Uncharted File] appeared in Wang Teng's mind.

"Continue moving forward and pass this passageway quickly!" An ancient voice resonated beside Wang Teng's ear.

"Yes!" Startled, Wang Teng's mind suddenly cleared, no longer hindered by the whirlpool's influence. Without further delay, he swiftly accelerated and rushed towards the passage ahead.

He activated his Real Eye and scanned his surroundings, observing the passageway leading to the Uncharted.

To Wang Teng, the Uncharted was unfamiliar. Even if it was just a passageway, there were many things worthy of his attention.

Also, based on his experience, the more peculiar the place, the greater the potential for benefits to be obtained.

Especially to Wang Teng.

Other people might not gain any benefits from this passageway but Wang Teng had the chance.

As expected, after proceeding for some distance, Wang Teng's eyes lit up.

A few attribute bubbles appeared at the side of the passageway.

Wang Teng flew over and swept it over with his spiritual power. He picked them up.

Time\*50

Time\*75

Space\*480

Space\*600

Space\*550

...

As expected, it's time and space attributes! Wang Teng was elated. He guessed that there might be time and space attributes here after recalling the introduction in the [Uncharted File].

Generally, the more chaotic the space, the easier it was for attribute bubbles to appear.

Reality proved that it was true.

What's more, he picked up more attributes here compared to the void torrent belt.

Wang Teng dashed forward and realized that this passageway was very long. He wouldn't be able to cross it in a short time.

Fortunately, attribute bubbles would appear occasionally along the way so Wang Teng didn't get tired of it.

To others, passing through this passageway was just a hurried journey. However, to Wang Teng, this was the opening of great opportunities

Collect!

Collect!

Wang Teng immediately picked up the attribute bubbles when he saw them. He didn't miss a single one.

Time\*60

Time\*50

Space\*500

Space\*600

...

The attribute bubbles merged into Wang Teng's body, allowing his time and space attributes to increase exponentially.

"Amazing! So this is the Uncharted passageway. Time and space are distorted so I can't sense the normal state of time and space anymore." Round Ball's excited voice appeared in Wang Teng's mind. It didn't seem to be affected by the chaos.

Wang Teng might have regained his consciousness, but he still had to exert all his spiritual power. The Nine Treasures Pagoda radiated a brilliant light, stabilizing his sea of consciousness, and allowing him to resist the disorienting sensations.

He didn't dare to waste any time. He was too lazy to speak to Round Ball so he quickly picked up the attribute bubbles and left the passageway.

After some time, a ray of light suddenly appeared in front of them.

Wang Teng's eyes lit up. He dashed out immediately.

In an instant, the disorienting sensation vanished, leaving Wang Teng feeling a sense of relief. The flow of his spiritual power gradually stabilized, and the Nine Treasures Pagoda settled deep within his sea of consciousness.

"Sigh!" Wang Teng let out a small sigh and glanced at the attributes board.

Time: 1250/10000

Space Physique: 11200/400000 (fourth-rank)

The time and space physique attributes increased tremendously. Wang Teng's grasp of them raised significantly.

He was satisfied with his gains. After all, this was just the start.

The future would bring even better results after making a good start. Wang Teng was looking forward to it.

He finally looked around him and was stunned.

All around him was a void of chaos that was incredibly dim. Chaotic currents swirled and floated everywhere. In the distance, cracks emerged within the chaos, sometimes tearing open and other times sealing shut.

Mysterious and intricate runes flickered in and out within the chaos. These small and enigmatic symbols seemed to form chains, interconnecting and entwining the cracks within the chaos.

Countless chains of runic symbols were connected, forming a vast web that enveloped the heavens and earth. They continued to spread and proliferate within the chaos as if weaving the fabric of this realm.

"What is this?" Wang Teng was thunderstruck when he saw this scene.

Chaotic Uncharted!

This was the Chaotic Uncharted!

The boundless chaos and the intermittent glimpses of the chains of rules of heaven and earth were beyond comprehension. Even though Wang Teng had read the [Uncharted File], seeing it firsthand made him realize the sheer incredibility of it all. It was impossible to accurately express in words.

All language and vocabulary seemed empty and tasteless, and being able to describe even a fraction of its true meaning would be quite remarkable.

"This is marvelous!" Round Ball exclaimed, unable to contain itself as it appeared and gazed at the chaotic scenery before it. "Being able to enter the Chaotic Uncharted is a lifetime achievement for me. I'll have bragging rights when I go out. I can die in peace now."

"Die in peace?" Wang Teng glanced at it from the corner of his eyes.

"Cough, that's not it. I want to stay alive and enjoy the more experienced." Round Ball coughed awkwardly.

"Useless." Wang Teng rolled his eyes. "Hurry up and go back. Don't let others see you."

"Alright, alright!" Round Ball knew that it was a little reckless this time so it hurriedly disappeared. However, its voice still rang in Wang Teng's mind.

"Wang Teng, look at those dimensional rifts. They are interwoven with profound heaven and earth runic chains. They are the manifestation of the outward expression of the rules of the heavens and earth. They cannot be seen in the universe outside."

"Universe stage martial warriors will definitely be able to grasp the power of origin quickly if they cultivate here."

"The universe we are in is too perfect. The fundamental laws remain hidden, unable to manifest outwardly, and invisible to the naked eye. That is why martial warriors can only gradually comprehend them through deep enlightenment."

"But, it's different here. You can see the laws of origin with your naked eye. These laws of origin are perfectly intertwined together."

"Everything is encompassed within it, including the formation and evolution of the universe and the operation of the laws. That's why it is much easier to attain enlightenment here."

"That's why the slots for the Chaotic Uncharted are so precious. You only have three months. You must seize the opportunity."

Round Ball persuaded him earnestly.

"I know!" Wang Teng scanned the chaos and dimensional rifts in front of him and nodded.

Now, he knew why there were no images or videos of Uncharted.

Because images and videos were useless. These origin laws couldn't be conveyed through these mediums.

One needed to see and comprehend them personally.

Then, he looked down.

Behind him was the whirlpool he came from. Below him floated a massive island suspended within the void and chaos.

Based on the [Uncharted File], this island was the transit hub for the Chaotic Uncharted. Any students who came here could stay on the island.

Every Uncharted had an island like this.

This was formed by the powerful martial warriors in the academy.

At the universe stage, one's own body formed a realm. The martial warrior could create an entire planet if he wanted to, much less an island.

This was his first time in the Chaotic Uncharted, so Wang Teng naturally went to the island first.

Wang Teng didn't hesitate. He moved his body and soared towards the island below.

He seemed to be very close to the island below, but after flying over, he realized that the island was actually very far away.

It was hard to predict the distance accurately.

Wang Teng could only take out his spacecraft and fly towards the island.

As he approached closer, the complete appearance of the island gradually became clear. Wang Teng's eyes widened in astonishment as he realized its extraordinary enormity. Its diameter seemed to rival that of an entire planet.

When the spacecraft approached the island, a ray of light flew out from the island and landed in front of the spacecraft.

This was a young man wearing a gray-white long gown. He stood in front of the spacecraft with his hands behind his back. There was the symbol of the academy's arbitration association on his gray-white gown.

Wang Teng had a sudden thought. He flew out of the spacecraft and arrived in front of the other party.

Wang Teng activated his Real Eye and saw the other party's ability. This was probably a universe-stage martial warrior!

"I'm a staff of the academy's arbitration association. At the same time, I'm the guide of this island." The young man in a gray gown asked calmly, "Are you a freshman?"

It's the academy arbitration association again. Wang Teng was surprised. They seemed to be present everywhere, even within the Chaotic Uncharted! Moreover, the other party was the guardian of this island. It looked like his identity was far from ordinary.

These thoughts flashed through his mind. Wang Teng nodded and replied, "Yes, I'm a freshman. This is my first time in the Chaotic Uncharted."

"A freshman can come to the Chaotic Uncharted?" The guide sized up Wang Teng and asked, "What's your name?"

"Wang Teng." Wang Teng frowned but he still gave his name.

"Follow me." The guide nodded in deep thought. He didn't probe further and turned to fly towards the island.

Wang Teng followed him immediately.

"This island doesn't have a name. It's a transit hub so many students call it a transit island."

The guide started introducing the place as he led the way.

"Transit island!" Wang Teng muttered to himself. He felt speechless. What a simple name.

The island was enveloped in a light shield, resembling a gigantic bubble. The guide took out a token, gave it a wave, and effortlessly led Wang Teng into the island without any hindrance.

Then, he threw the token in his hand to Wang Teng and said, "This token is the access token. You can use it after dripping a drop of blood on it."

"You can take it with you when you leave. It will make it easier for you to use it the next time you enter."

"However, you will need a large number of points and certain conditions to enter the Chaotic Uncharted. I wonder if you can come in again next time." He gave Wang Teng a meaningful look.

Wang Teng understood. He kept the token carefully.

The two of them passed through the defense shield and entered the interior of the island. Wang Teng glanced around and noticed that the island resembled a massive fortress, with buildings scattered all over. However, they were far from extravagant; instead, they appeared incredibly simple. All the structures were made of stone, rough and unadorned when viewed from the outside.

"This is a place of cultivation, not enjoyment," the guide said calmly. He seemed to have noticed Wang Teng's gaze.

This looks like a place for arduous cultivation! Wang Teng wondered to himself.

## **Chapter 1679: Three Dangers Of Chaos!**

Wang Teng and the guide landed on the streets of the buildings on the island.

The buildings around him came into sharper focus, and it truly resembled a place just for cultivation. Everything here was so simple and austere.

Many people were sitting cross-legged on the roofs of the stone houses. They had varied appearances. Some had scales, others with horns, and a few even had a single eye on their foreheads. Each one of them was unique and bizarre in their own way.

There were many universe races gathered on this island.

These individuals were seated cross-legged on the rooftops, seemingly engrossed in deep contemplation. Some had their eyes closed, while others gazed up at the sky...

They gave off a powerful aura, and most of them were at the universe stage and above. Heaven-stage martial warriors were rare.

There were also many eternal-stage martial warriors!

However, their aura seemed to be confined within the stone houses and didn't get released.

"This island has a long history. It has existed since the founding of the academy," the guide said.

"It existed since the founding of the academy!" Wang Teng was astounded.

The history of the academy seemed to be shrouded in mystery. No one knew exactly how far back it dated.

"The history of the Seven Stellar Academies is incredibly long," the guide explained. "Apart from a few reclusive and exceptionally powerful beings, or individuals with special status, I think no one knows when they appeared or who founded them," the guide explained.

Wang Teng nodded. He had heard such statements many times. After coming to the Stellar Academies, he was even more convinced of its profound mystery and ancient origins.

If those who had stayed in the academy for a long time didn't know about it, outsiders wouldn't know anything either.

"These stone houses are unoccupied as long as their protective shields are not activated. You are free to choose any of them for your residence." The guide pointed at a stone house that hadn't been activated.

"Alright," Wang Teng replied. This was similar to his mansion in the outside world. As long as no one lived here, he could stay here.

The academy was very casual when it came to lodging.

However, compared to the outside, the dwellings inside were indeed modest. Wang Teng didn't need to step inside to know that these stone houses only had basic facilities.

"This is just a transit station. There's nothing worth paying attention to, so you don't have to waste time here." The guide said, "The opportunities of the Chaotic Uncharted lie beyond the islands, within the realms of chaos. It is there that you can contemplate and comprehend within the islands, just like the seniors."

He pointed at the powerful martial warriors who were in the midst of enlightenment.

"If you're confident, you can go out and take a look."

"However, you're too weak so I won't recommend that. You should stay on the island obediently for three months before leaving the Chaotic Uncharted."

"I don't know what the academy is thinking. How can they let a freshman like you enter the Chaotic Uncharted?"

Wang Teng listened to him attentively. His words weren't pleasant to hear but they were the truth.

In the [Uncharted File], it was mentioned that the area beyond the islands was highly dangerous. Even some eternal stage powerhouses might perish if they venture outside.

What's more, if he went out of the island, he might not be able to come back in time.

The academy only gave him three months. They probably wanted him to stay on the island to gain enlightenment.

But...

Wang Teng had always been one to defy conventions. Now that he finally had the opportunity to enter, he didn't want to confine himself to staying within the islands.

What's more, he saw attribute bubbles in the chaotic zones outside.

He was a distance away but he could see the attribute bubbles with his eyesight.

It would be a shame not to seize this opportunity and make the most of it.

Of course, he wouldn't rush out like an idiot. He needed to make preparations.

"What dangers are there outside?" Wang Teng asked.

"There are three types of dangers. The first is dimensional rifts. As the heavens and earth are in a state of chaos, dimensional rifts can appear unpredictably without any discernible pattern. For a low-stage warrior like you, they pose a significant threat," the guide said.

"Dimensional rifts!" Wang Teng nodded in deep thought. They shouldn't be a threat to me.

"The second danger is the existence of creatures known as Chaotic Beasts. They are formed by condensing chaotic energy and have spontaneously become a living creature due to the unique nature of the Chaotic Realm!"

"They exhibit various forms and possess varying levels of strength. Some are equivalent to the planetary stage, the celestial stage, and even the cosmos stage. Others are equivalent to the heaven stage, the universe stage, and even the eternal stage. Hence, they are very dangerous."

"Don't underestimate these planetary-stage or celestial-stage Chaotic Beasts. They are abundant in numbers and possess peculiar abilities. If you're not careful, even if you enter the Stellar Academies and can fight beyond your ranks, you will still die here."

The guide seemed to have seen through Wang Teng's plan and replied to him calmly.

"If you want to leave the island, no one will stop you. However, you should stay within 3,000 kilometers of the island. Powerful martial warriors from the academy will clear this area regularly to ensure the proper functioning of the transfer islands. Thus, the Chaotic Beasts in this region are generally below the cosmos stage and relatively less dangerous."

"Thank you for your reminder." Wang Teng thanked him hurriedly.

"There's no need for that. I just don't want to witness a promising freshman meet his end here," the guide said dismissively, waving his hand.

"Mister, what's the third danger?" Wang Teng asked.

"The third danger is as dangerous as the Chaotic Beasts. It's called the Chaotic Forbidden Ground," the guide said.

"Chaotic Forbidden Ground!" Wang Teng's heart skipped a beat. Anything referred to as a forbidden ground wasn't a good place to be.

The forbidden areas on the Battle Planet were all extremely dangerous. If he wasn't strong enough, he might not have been able to pass the competition unscathed.

The Great Lightning Monster and the Oceanic Unicorn Whale were terrifying presences in forbidden areas. Normal celestial realm martial warriors would have a slim chance of survival if they met them.

"The Chaotic Forbidden Grounds are perilous places born from within the chaos. Once you enter, you might not be able to escape," the guide explained. "You must have heard that the Uncharted holds many opportunities, haven't you?"

"Yes." Wang Teng nodded. He asked humbly, "Is there a meaning behind this?"

"The Chaotic Forbidden Grounds are precisely where these opportunities lie. It depends on whether you have the ability to seize them," the guide smirked, his lips curling slightly as he spoke.

Wang Teng cursed in his heart.

The Uncharted [Uncharted File] didn't explain clearly. It merely mentioned that opportunities came with dangers, but it did not explicitly specify the extent of these dangers.

To think he even wanted to find them.

If he knew that the opportunities were in the Chaotic Forbidden Grounds, he wouldn't even think about it.

While Wang Teng was eager to explore beyond the islands, his priority was to ensure his safety. He intended to venture out cautiously to collect attribute bubbles and to closely comprehend various fundamental laws. That was his sole purpose.

He wasn't arrogant enough to touch the Chaotic Forbidden Grounds.

Honestly, the [Uncharted File] only cost him a few points. Why would anyone include such crucial information inside?

Wang Teng felt frustrated. He looked at the expression of the guide and felt even more frustrated. He felt that the other party was mocking him.

This guide seemed a little evil.

"What dangers are there in the Chaotic Forbidden Grounds?" Wang Teng couldn't help but ask.

"The dangers are unpredictable. It could be the appearance of Chaotic Beasts or treacherous situations. Everything is uncertain," the guide said impatiently. "Alright, I've said all I needed to. My task is completed. The rest is up to you."

He turned into a beam of light and shot into the sky. In a blink of an eye, he disappeared in front of Wang Teng.

"Tsk, this guide doesn't seem easy to talk to, but he did provide you with all the necessary information. His words are worth quite a few points." Round Ball's voice appeared in Wang Teng's mind.

"Another arrogant fellow." Wang Teng shook his head. "Huh, why did I say 'another'?"

Round Ball smiled secretly. It asked, "Are you planning to get out of the island?"

"Of course! I've come all this way. I definitely want to explore the outside. Who knows when I'll have another chance to come in again?" Wang Teng replied.

"Be careful." Round Ball no longer tried to persuade Wang Teng. It knew it couldn't change Wang Teng's mind, and besides, it was also curious to see what the Chaotic Uncharted truly looked like.

Wang Teng glanced around him and found an empty stone house. He walked inside, and the protective shield of the stone house automatically activated. It was remarkably user-friendly.

He walked into the house to take a look. His speculation was right. The furnishings inside were extremely simple. There were only three rooms: a bathroom, a bedroom, and a cultivation room. There was nothing more than that!

Wang Teng walked to the roof. He wanted to experience the cultivation ground those formidable martial warriors were using.

"Huh?" Wang Teng walked to the roof and exclaimed in surprise. There were attribute bubbles here.

Originally, he had thought it was just an ordinary rooftop that was convenient for gazing at the manifestation of the laws of origin in the sky. However, he unexpectedly obtained a surprise gain.

Wang Teng immediately picked up the attribute bubbles.

Origin of Wood\*10

Wood Domain\*50

Origin of Wood\*10

...

The three attribute bubbles merged into Wang Teng's body. Two were the Origin of Wood and one was the Wood Domain.

There weren't many attributes but they were all useful for Wang Teng.

Wang Teng suddenly felt a hint of insight into the Wood Domain and a glimpse of understanding into the Origin of Wood forming in his mind.

It had been a while since these two attributes rose in value.

In the League Of Talents, no one could surpass him in terms of Wood Domain and Origin of Wood. Hence, he wasn't able to gain new enlightenment.

But, at this moment, the attribute bubbles he received on the roof allowed his understanding of the Wood Domain and the Origin of Wood to rise.

This feeling was amazing!

Why are there attribute bubbles here? Wang Teng was puzzled after absorbing the attribute bubbles.

Soon, he noticed the source of the issue. On the floor where the attribute bubbles were forming, he discovered some engravings and patterns. They seemed ancient, emanating unique and subtle energy.

I see. Wang Teng was enlightened. This is the enlightenment left behind by our predecessors.

**- Chapter 1680: Only Those Who Exploited Other  
Martial Warriors Before Would Know Its True Pleasure!  
(1)**

## **Chapter 1680: Only Those Who Exploited Other Martial Warriors Before Would Know Its True Pleasure! (1)**

Wang Teng walked to the roof of the stone house and reached out to touch the traces left behind by those who came before him.

With his talent, he could sense something even without picking up attributes.

He sat down cross-legged directly, preparing to delve into enlightenment.

Besides the messy marks on the ground, there were also some marks on the fences.

To the freshmen, this was a place suitable for enlightenment.

These traces might be left by universe-level martial warriors or eternal-stage martial warriors. They would be of great help to future generations.

Even if it was just a small fragment of enlightenment they left behind, it was enough to provide inspiration to others.

Even the senior students would benefit greatly here.

Was the guide lying when he said that there were no opportunities on the island?

Wang Teng wondered.

It wasn't that he didn't trust the other person, but they were still strangers after all. Who knew if the other person would deceive or trick him?

"Maybe he didn't remind you because he thinks that you will see the traces once you enter the stone house," Round Ball guessed.

"Maybe." Wang Teng didn't think too much. He planned to tour the island and familiarize himself with it first.

If the guide told him, it was out of friendship. If he didn't, there was nothing wrong with that either.

Very soon, he started his cultivation. When attribute bubbles appeared on the ground again, Wang Teng picked them up.

Origin of Wood\*5

Origin of Wood\*5

Wood Domain\*20

...

"There are even fewer attributes than before." Wang Teng frowned as he tried to find the reason. "It seems that the appearance of attribute bubbles here is not unlimited. The enlightenment left behind by those traces is constantly being depleted, resulting in fewer attribute bubbles over time."

He cultivated while waiting for the attribute bubbles to appear.

After waiting for a while longer and seeing no more attribute bubbles appearing, Wang Teng stood up directly and left the stone house without any hesitation.

There were many stone houses here. If there were no more attribute bubbles in this stone house, he could go to the next one.

He walked out of the stone house and took a look around. He noticed an adjacent vacant stone house and immediately walked inside. He went straight to the rooftop.

As expected! Wang Teng's eyes lit up when he saw the roof.

Collect!

Origin of Metal\*10

Origin of Metal\*10

Metal Domain\*40

Metal Domain\*20

...

Origin of Metal and Metal Domain! Wang Teng was elated. This place seems to be filled with domains or the power of origin. That makes sense, only universe stage martial warriors and above can leave behind their enlightenment. If it were enlightenment left by the heaven stage, they would likely dissipate within a short period and not remain for too long.

This involved the preservation time for one's enlightenment.

Normally, the enlightenment left by a heaven-stage martial warrior would only last for a few decades.

The universe stage and the eternal stage were different.

Enlightenment left by universe-stage martial warriors could last for a few hundred or even thousands of years while that of an eternal-stage martial warrior could last for more than ten thousand years.

Indeed, this was because the enlightenment they left on the rooftops was often impromptu. Sometimes, they might have simply been struck by inspiration and left a trace behind on the rooftop.

That was why there was a limited preservation time.

If they deliberately wanted to leave behind a certain legacy, even a heaven-stage martial warrior's enlightenment could last for a few thousand years.

In the outside world, a heaven-stage martial warrior was like an overlord. He wasn't a nobody.

Wang Teng waited on the roof of this stone house for some time and picked up another round of attribute bubbles. Then, he continued to the next stone house.

He felt that this was a treasure trove for him. There were attribute bubbles to pick up in every stone house. What's more, every pickup was different.

Just like opening a treasure box, the first stone house has the Origin of Wood and Wood Domain attributes, while the second stone house gave him the Origin of Metal and Metal Domain. This was a pleasant surprise.

He went to the stone houses one by one and collected many attribute bubbles.

Although the number of attributes was not abundant, each one was a genuine gain.

Due to the large number of stone houses, Wang Teng increased his pace. He spent no more than three minutes in each stone house to avoid delaying his search for attribute bubbles in other houses.

He could use his spiritual power but there were too many powerful martial warriors here. If he used his spiritual power, he would offend others easily. Hence, he had to physically move from one stone house to another.

It was a little troublesome but it was safe.

However, his actions still attracted the attention of many powerful martial warriors. Some people looked at him in surprise.

What was this fellow doing?

He was visiting the stone houses one by one. Was he planning to pick one that was comfortable?

However, it seemed that he wasn't concerned about that either because he didn't linger inside the houses. After entering each stone house, he immediately went to the rooftop.

Was it because of the traces?

Many people immediately thought of something, but they found it strange.

Even if it was for the enlightenment, he wouldn't be able to understand anything after staying in each stone house for less than three minutes.

Was he playing?

In the sky, there was a floating stone platform. Several figures dressed in gray-white robes were sitting cross-legged on the platform. They frowned as they looked down at Wang Teng below.

These were the guides!

Their mission was to guard this island. Once a newbie came, they would welcome him.

Of course, their responsibility wasn't just to guide them. They also had to maintain the order of the transit island to prevent any chaos.

After all, they represented the academy's arbitration association and had the responsibility and obligation to oversee the academy's students.

## **Chapter 1681: Only Those Who Exploited Other Martial Warriors Before Would Know Its True Pleasure! (2)**

"Ge Chenfei, what's the new student you welcomed doing?" A guide asked curiously.

"I don't know." Ge Chenfei, the one who guided Wang Teng, shook his head with an exasperated expression.

"This fellow is a little unconventional," another guide smiled and said.

"Ge Chenfei, why don't you go down and take a look? If he continues fooling around, he might make some seniors unhappy," A guide persuaded him.

Ge Chenfei kept quiet. He turned into a ray of light and disappeared from the stone platform.

Wang Teng was speeding through the streets, happily thinking about the attributes he had just collected. However, his gaze swept around the surroundings and he thought to himself, "All the stone houses in this area are occupied. It seems I'll have to go a little further to find an empty one."

At this moment, a figure appeared in front of him.

"Mister." Wang Teng stopped.

"What are you doing?" Ge Chenfei asked with a stern face.

"Why does he look a little angry?" Round Ball's voice appeared in Wang Teng's mind.

"You don't have to remind me. I can tell." Wang Teng was speechless. He looked at the guide and started spouting nonsense, "I'm... strolling around!"

"Strolling around?" Ge Chenfei didn't believe this nonsense.

"Yes, that's right. I'm just strolling around and admiring the scenery of this transit island," Wang Teng declared confidently.

"What scenery is there here?" Ge Chenfei's face darkened slightly. "If you're here to enjoy the scenery, why do you need to enter every single stone house?"

"Um... there is still scenery here. As a guide, you've been here for a long time so maybe you don't feel it, but as a newcomer, everything I see is scenery," Wang Teng started to make up stories.

"As for why I go up to the roof, it's simply because each roof offers a different view. If I want to see, I want to see it thoroughly," Wang Teng explained confidently.

"Senior, haven't you taken a careful moment to appreciate it?" Wang Teng pointed to those roofs and said, "Stand on those rooftops and close your eyes. It's as if you're immersed in the realms of the indomitable warriors in the past. It's like being there in person. You can better understand the emotions and state of mind of those formidable individuals from before."

"Everyone's state of mind is different. Only by grasping their mindset at that time can we better comprehend the insights they left behind," Wang Teng emphasized.

Ge Chenfei was stunned. He started to get suspicious.

O(◉\_◉)o

Was that really the case?

Would standing on the roof and understanding their state of mind truly help in comprehending the enlightenment those formidable warriors left behind?

It made sense!

Should he find a chance to try it next time?

In the past, he had chosen the dwelling left behind by a particular powerful martial warrior but he had been unable to comprehend the enlightenment left behind by that individual.

Was it because he didn't understand the other party's state of mind?

"Oh right, just strolling around without disturbing others' cultivation shouldn't be considered a violation of the academy's rules, right?" Wang Teng asked.

"That's true." Ge Chenfei hesitated before answering.

"That's good to hear. I was worried about disturbing my seniors' cultivation. That would have been a big offense on my part," Wang Teng heaved a sigh of relief and cautiously asked, "So, can I continue... strolling around?"

"Go ahead! Try not to disturb the others." Ge Chenfei waved his hand.

"Alright, no problem. I promise that I won't affect anyone," Wang Teng swore immediately.

Ge Chenfei stumbled back to the stone platform where the others were and noticed that they were looking at him with strange expressions on their faces.

"Ge Chenfei, you must have been fooled," someone said.

"Fooled? Don't you think he makes sense?" Ge Chenfei asked.

"Understand the state of mind?" A few guides fell into contemplation. "Come to think of it, it could be a method of attaining enlightenment."

"It doesn't matter if it's right or wrong. We can at least give it a try," someone said.

"Haha, I asked you to persuade him but you ended up being persuaded instead," the guide who had previously tasked Ge Chenfei with convincing Wang Teng couldn't help but laugh.

"Hahaha, this fellow is interesting." The other guides laughed.

Even Ge Chenfei burst out laughing.

On the streets of the island, Wang Teng continued his pursuit of collecting attributes. He felt that the guides didn't seem particularly clever. Otherwise, it wouldn't have been so easy to deceive him.

State of mind? If you can grasp the enlightenment left by your predecessors by experiencing the state of mind, why do you need to cultivate?

"Wang Teng, isn't this a little inappropriate?" Round Ball was speechless.

"Well, it's not that I'm being dishonest. If the other party truly experiences a certain state of mind and has a sudden enlightenment, then the credit would be mine. They should be grateful to me," Wang Teng remarked.

"Haha, how lucky do they have to be to understand the so-called state of mind?" Round Ball sniggered.

"That's up to them. I just wish they don't bother me," Wang Teng said.

"Anyway, what are you trying to accomplish? Are you planning to inspect every single stone house?" Round Ball asked, looking puzzled.

"Of course." Wang Teng nodded. "The enlightenment of my predecessors is left in these stone houses. It will be of great help to me."

"What do you think you'll understand after staying for three minutes?" Round Ball was speechless.

"You don't understand. With my talent, comprehending this enlightenment is a matter of minutes," Wang Teng replied confidently.

"Do you think I'll believe you?" Round Ball kept quiet after it finished speaking. It was obvious that Wang Teng didn't want to tell his real intention.

This was infuriating.

## **Chapter 1682: Only Those Who Exploited Other Martial Warriors Before Would Know Its True Pleasure! (3)**

This fellow didn't even tell it. He didn't treat it as one of his own.

Wang Teng smiled, not saying anything further. He walked into an empty stone house and made his way directly to the rooftop.

This location was already close to the center of the island, and empty stone houses were scarce. He took much effort to find one.

"Huh?" Wang Teng was stunned when he saw the attribute bubbles on the roof. That's quite a lot.

More than ten attribute bubbles were floating on the roof. This was more than any of the previous stone houses.

Wang Teng immediately picked them up.

Origin of Space\*10

Origin of Space\*15

Origin of Space\*12

...

Space Domain\*100

Space Domain\*80

...

It's the Origin Of Space and Space Domain! Wang Teng was surprised and elated.

Not only were there more attribute bubbles, but the attribute inside was also scarce too.

These were two attributes Wang Teng didn't have.

All the attribute bubbles, more than a dozen of them, merged into Wang Teng's mind, transforming into profound enlightenment about space. They blended with his memories, becoming an integral part of him.

Wang Teng sat cross-legged on the ground and closed his eyes to comprehend and digest the information.

This time, he only opened his eyes gradually after three hours. A sharp glint shot out from the depth of his eyes.

By now, he had completely absorbed the enlightenment brought by the attribute bubbles, and he even took the opportunity to further comprehend the traces of space enlightenment left in the surroundings.

The combined effect was even better!

I see. Wang Teng's eyes shimmered. A smile appeared at the edge of his lips.

This feeling was amazing!

His gains this time were truly immense. Both the Origin of Space and the Space Domain were aspects he had never comprehended before. It felt amazing to receive them all at once.

Wang Teng glanced at the attributes board.

Space Domain: 800/1000 (first-rank)

Origin of Space: 230/10000 (first-rank)

Both attributes had reached the first rank, especially the Space Domain. It was only 200 points away from the second rank.

There weren't many Origin of Space attributes and it required 10,000 points to break through to the second-rank. It was much more difficult than the Space Domain.

Wang Teng waited to see if there would be more attribute bubbles but there weren't.

In the past three hours, he had already picked up three waves of attribute bubbles. There shouldn't be any more attribute bubbles now.

At least for the time being, there wouldn't be any more attribute bubbles.

Wang Teng got up and left the stone house.

He made a note of the location of this stone house. He intended to come back and check for any attribute bubbles when he had the chance.

Space attributes were rare and encountering them was a rare opportunity. When it comes to such valuable resources, it's only natural to make the most of them and not let a single one of them slip away.

Wang Teng was elated as he walked along the streets. This place was truly a land of opportunities for him. In just half a day, he had already collected space-related attribute bubbles. This was a huge gain.

He didn't plan to leave the transit island today. He was determined to go through every single stone house on the island. It would be a shame to let this opportunity slip by without taking advantage of it.

Unfortunately, for the next two hours, he didn't meet any more special attributes. They were all the five basic element domains and origins.

There were many special Force attributes.

Wang Teng wasn't discouraged. Even if it was attributes related to the five basic elements, he still enjoyed picking them up.

After all, these were the enlightenment of powerful martial warriors. Other people would need a few months or even a few years to comprehend them but he picked up so many in one day. What could be more satisfying than this?

Fortunately, there were many stone houses here. Even if many of them were occupied by his seniors, he knew that one day would not be enough to go through them all.

This was the most exciting part.

No one knew what attribute bubbles lay inside a stone house he hadn't touched.

Maybe some special attribute bubbles would appear in the stone houses that he hadn't collected.

With this mindset, Wang Teng continued his search, going from one stone house to another. If he came across attribute bubbles related to the five basic elements, he would collect them without hesitation happily. And if he encountered attribute bubbles of a special nature, it would make him even happier as he picked them up.

Either way, he was happy!

After all, he was the only one who knew how fun it was to get attribute bubbles for free.

Anyone who experienced it would enjoy it!

Wang Teng showed no intention of resting even as night fell. He continued picking up attribute bubbles.

The guide had nothing else to do and there were no freshmen arriving in the Chaotic Uncharted so they directed their attention towards Wang Teng. Since they had no one else to guide, they observed his actions intently.

All the guides were puzzled. When would he be done?

If it weren't for the fact that he hadn't disturbed the cultivation of the seniors, they would have been tempted to drag him out and prevent him from making a fool of himself on the island.

At the same time, many seniors who were cultivating at the top of the stone house noticed Wang Teng's puzzling actions. After observing him for a while, they lost interest and no longer paid attention to him.

Their cultivation time in the Chaotic Uncharted was limited. Every second was worth numerous points. They mustn't waste it.

Wang Teng didn't care about other people's opinions. Nothing was more important than picking up attribute bubbles.

He entered a stone house and climbed to the rooftop. He noticed several traces resembling thunderbolts.

A few attribute bubbles were floating above the marks.

He got excited and immediately picked up the attribute bubbles.

Origin of Lightning\*15

Origin of Lightning\*20

## **Chapter 1683: Only Those Who Exploited Other Martial Warriors Before Would Know Its True Pleasure! (4)**

Lightning Domain\*200

Lightning Domain\*250

...

As the attribute bubbles merged into Wang Teng's body, he immediately gained insights into the Origin of Lightning and the Lightning Domain.

He already possessed the Lightning Domain, which was at the fourth rank. Although the increase in attributes was only a few hundred points, it unexpectedly enhanced his Lightning Domain.

This meant that the martial warrior who left his enlightenment here was definitely above the heaven stage. His domain must have exceeded the fourth rank.

Wang Teng instilled the enlightenment of the Lightning Domain into his Lightning Spear Domain, causing it to improve greatly.

Of course, the Origin of Lightning was more important!

This was the first time Wang Teng received the Origin of Lightning. It was an unexpected gain.

Wang Teng stayed on the roof for another half an hour and picked up three rounds of attribute bubbles. His Origin of Lightning increased tremendously.

Origin of Lightning: 180/10000 (first-rank)

Although it was just the first rank, it was still a starting point. Whether or not there was any enlightenment involved was a different matter altogether.

Wang Teng could use his Origin of Lightning now.

He left the small building and continued picking up attribute bubbles.

Time passed slowly. By the next morning, Wang Teng had explored every vacant stone house. He didn't miss a single attribute bubble that he could collect.

The gains were sizable!

First, his five elements domains rose tremendously. Some even broke through their original rank.

For instance...

Flaming Magnetic Meteor Domain: 200/5000 (fifth-rank)

The Flaming Magnetic Meteor Domain was a combination of the Fire Domain, the Earth Domain, and the Magnetic Domain. As Wang Teng's Fire Domain and the Earth Domain rose, this domain rose too. It went from the fourth rank to the fifth rank.

There was also the Netherworld Domain!

The Netherworld Domain was a combination of the Sea Gravity Domain, the Water Of Netherworld, and the Water Lunar Domain. Now that the Water Domain had increased, all domains related to the Water Domain increased too. Hence, the Netherworld Domain increased.

Unfortunately, the Netherworld Domain was still at the fourth rank and didn't break through.

Netherworld Domain: 3200/4000 (fourth-rank)

Furthermore, the Five-element Sword Domain Wang Teng comprehended in the Sword Rain Plains also experienced an improvement.

When he first grasped it, the Five-element Sword Domain was only at the third rank. Now, it was at the fourth rank and its power had increased tremendously.

Mind you, a fourth-rank domain was extremely powerful among the celestial-stage martial warriors.

Even some normal martial warriors who just reached the heaven stage might not be able to grasp a fourth-rank domain.

Only the top talents had the ability to grasp domains at the celestial stage.

Even in the Stellar Academies, there weren't many students who could grasp a fourth-rank domain at the celestial stage.

Five-element Sword Domain: 1200/4000 (fourth-rank)

As for the other special Forces, besides the lightning Force and the Space Force, Wang Teng also received the wind and ice domains and their origin attributes.

However, the ranks of these two domains didn't increase. They were still at the fourth rank.

Of the two origins, the Origin of Wind remained at the first rank.

And the Origin of Ice was new. He just received it.

Origin of Wind: 500/10000 (first-rank)

Origin of Ice: 220/10000 (first-rank)

Wang Teng was overjoyed when he saw the attributes board.

This time, he had gathered all the power of origin, except for the Origin of Poison.

They might be at the first rank but who else could manage to comprehend so many power of origin at the celestial stage?

With the addition of the Origin of Darkness that Wang Teng couldn't showcase, the total number of origins he wielded reached an astounding 11. It was truly a terrifying array of powers.

If word got out, Wang Teng would be cut into pieces for research. Even Stellar Academies might not be able to protect him.

Wang Teng felt that he needed to be careful before he reached the universe stage. He mustn't expose all his power of origin. Otherwise, it would inevitably lead to suspicion and wariness from others.

## **Chapter 1684: Origin Of Chaos Energy!**

Wang Teng had been in the Chaotic Uncharted for an entire day and his gains were greater than expected.

Other people might not be able to have this gain in three months, but he collected all of them in a day. He had thoroughly exploited every opportunity available to him.

This feeling was amazing.

Unfortunately, besides the occupied stone houses, he had visited all the vacant stone houses on the island. If he wanted to pick up attribute bubbles again, he would have to wait until the next time.

"It's time to go out for a walk!" Wang Teng stood on the roof of the last stone house and admired the entire island. Besides the stone houses, there was nothing else here.

Wang Teng leaped down from the roof and swiftly raced along the street towards the outskirts of the island.

There was a rule on the transit island. You couldn't fly in the sky.

The powerful martial warriors on the island needed to comprehend the laws of origin. If everyone flew around in the sky, it would affect their enlightenment.

Of course, the guides had the right to fly above the island.

However, they wouldn't fly around casually. Only under special circumstances do they occasionally fly across the sky. Most of the time, they would run through the streets.

It wouldn't be worth it if they angered these powerful martial warriors.

Only a fool would dare to offend these powerful martial warriors who have cultivated in the academy for countless years, all for the sake of a little convenience.

Wang Teng had only been in the academy for a short time, but he already sensed that Stellar Academies was a place full of hidden dragons and crouching tigers.

It was better to keep a low profile if one didn't have the ability!

In the sky at the edge of the transit island, on the stone platform, the guides noticed Wang Teng's movement and were surprised.

"This brat finally stopped after causing a commotion all night. What is he planning to do now?" One of the guides asked in surprise.

"I think he is... leaving the island!" Ge Chenfei frowned and said after some hesitation.

"Leaving the island?!" The other guides were stunned. They walked to the edge of the stone platform and looked down.

"This fellow is a freshman, right? Why is he leaving the island on the first day? Ge Chenfei, didn't you remind him?" Someone asked.

"I did. He didn't listen," Ge Chenfei replied calmly.

"Youth knows no fear," a guide at the side smiled and said.

"I hope he doesn't perish outside. Qualifying to enter this Chaotic Uncharted right after entering the academy shows that he has great potential and talent. It would be a pity if he dies," another guide said.

They chatted for some time before they stopped paying attention to Wang Teng.

Talents had their pride. They wouldn't spend too much time thinking about other people.

Wang Teng had already arrived at the edge of the island. He took out his token and waved it. Then, he transformed into a streak of light and shot towards the chaotic region outside.

At the same time, a spacecraft appeared. Wang Teng entered the spacecraft and flew away.

The chaotic region was incredibly vast, with some places appearing deceptively close but actually being quite distant. Without using a spaceship, it was unknown how much time it would take to fly and reached the destination.

Moreover, flying also required the expenditure of one's own Force. In this dangerous and unpredictable chaos, it was crucial to conserve as much Force as possible.

Wang Teng even changed the heaven-level spacecraft to the Devil Slayer after he flew away from the transit island. His speed increased exponentially.

The Devil Slayer's speed was top-notch among all the universe-level spacecraft. Being a universe-level spacecraft, its speed naturally surpassed that of the heaven-level spacecraft.

This would save Wang Teng much time.

An hour later, Wang Teng finally reached the first dimensional rift.

He sat in the spacecraft and activated the panoramic simulation. He could see the outside scenery but he couldn't perceive the manifestation of the laws.

The laws of origin were the rules of the universe. They could not be simulated and could only be seen with the naked eye.

Hence, he immediately flew out of the Devil Slayer spacecraft and came to the outside world.

The instant he flew out of the spacecraft, Wang Teng felt a strong energy fluctuation.

"This is... the energy of the origin of chaos!" Wang Teng sensed it and immediately knew what this energy was.

He did some research before he came.

Amid chaos, everything was in its primordial state, and everything was evolving.

Therefore, the energy within chaos was incredibly potent, and it was the most fundamental form of energy. It could not only assist martial warriors in comprehending the laws of origin, but it also greatly benefit their cultivation.

"The Origin Energy of Chaos, through certain special transformations, can condense into Chaos Element Crystals. Chaos Element Crystals are a type of energy crystal that is even more precious than Immaculate Energy Stones," Round Ball said.

"Chaos Element Crystals!" Wang Teng searched through the Devour Nihilism Beast's memory and found the relevant records.

Similar to the immaculate energy stone, the Chaos Element Crystals had no attributes. It could be used by martial warriors with any elemental Forces.

However, its energy form was more advanced than the Immaculate Energy Stone!

As mentioned before, universe-stage martial warriors used the Immaculate Energy Stones to cultivate. However, that was in the outside world.

Most universe-stage martial warriors with enough resources would use the Chaos Element Crystals.

For instance, the universe stage martial warriors from the various stellar academies would have this privilege.

A universe-stage martial warrior needed the power of origin to nourish his own small world. These Chaos Element Crystals could provide this energy.

If he used the Immaculate Energy Stones, an additional step of refining and transformation is required, making the process more cumbersome compared to the Chaos Element Crystals.

Most importantly, the Chaos Element Crystals could help with the cultivation of the laws of origin. This was something the Immaculate Energy Stones couldn't match!

To martial warriors, every second counts when they were cultivating. Falling behind even for a moment means lagging at every step.

This was why some universe-stage martial warriors were powerful while others were weaker. There was an insurmountable gap between them.

Wang Teng's mind worked furiously. He stopped looking at the Origin Energy of Chaos. The rules of origin were more valuable here.

In the vicinity of the dimensional rifts ahead, numerous rune chains emerged, emitting divine radiance as they intertwined and entangled with each other. It was a mysterious and captivating sight.

The strands of the Heavenly Dao became visible. Wang Teng observed them in close proximity and instantly felt greatly enlightened. Many previously incomprehensible things suddenly became clear, as if a fog had lifted from his mind.

At the same time, he noticed many attribute bubbles floating around him. He picked them up immediately.

Origin of Space\*5

Origin of Space\*5

Origin Of Earth\*10

Origin of Wind\*10

Origin of Chaos Energy\*50

Origin of Chaos Energy\*60

...

Oh my, the first one is the origin of space. Is this a gift for me? Wang Teng was elated.

The attribute bubbles merged into his body and mind. Some turned into enlightenment while others turned into energy and flowed through his body.

First, there was the Origin of Space.

Wang Teng received some Origin of Space attributes when he was on the transit island so he was familiar with it. His understanding of the Origin of Space deepened and he felt more skilled at using it.

Wang Teng placed great importance on the Origin of Space.

The Origin of Space was a rule that surpasses all basic elemental laws and stands on par with the Origin of Time.

The universe!

The universe comprises space and time.

The universe was space and the universe was time.

Wang Teng hadn't reached that level, but he knew how important the Origin of Space and the Origin of Time were.

This was a deeper level of aspiration. At the most superficial level of understanding, it could be said that these two laws of origin are immensely powerful, and therefore, they provided significant assistance in enhancing his current strength.

For instance, the Infinite Tornado he created in the past was already very powerful, but if he added the Origin of Space, it would definitely be many times stronger than it was now.

Wang Teng closed his eyes and comprehended the Origin of Space carefully for some time. He absorbed and digested all the knowledge of the laws of space for his use.

Besides the laws of space origin, he also gained the laws of earth origin and the laws of wind origin. Wang Teng absorbed them too.

There was nothing much to say about the laws of earth origin. As for the laws of wind origin, it was a law of a special Force. If he could raise it, his offensive capabilities would increase significantly.

These were his enlightenment. Wang Teng shifted his attention to his body. Strange energy was flowing through his limbs and bones. It felt peculiar.

This energy was different from other Forces. It was more pure and profound.

"Origin Energy of Chaos!" Wang Teng muttered. There was a strange glint in his eyes.

He was still thinking about the Chaos Element Crystals a moment ago but unexpectedly, he obtained the energy he could only acquire through the refinement of Chaos Element Crystals—the Origin Energy of Chaos!

Wasn't this more direct than getting the Chaos Element Crystals?

"Huh?" Wang Teng sensed the energy in his body carefully. Suddenly, he exclaimed, "This Origin Energy of Chaos is indeed special."

In his perception, the Origin Energy of Chaos resembled a nebula, swirling and nebulous, with numerous tiny particles within it. It felt like the planets within the universe.

Those tiny particles were circulating and distributing themselves in a mysterious pattern, at times transforming into the constellation earth Force, at times into the constellation wood Force, and at other times into the constellation fire Force... They were constantly evolving, yet perpetually maintaining a state of chaos.

The essence of the Heavenly Dao rules was contained within, causing all the minuscule particles to possess a certain connection. They formed a cohesive whole rather than separate entities.

A flash of enlightenment streaked across Wang Teng's mind like lightning. He reached out to grasp it but only managed to touch the tail. It slipped away under his gaze.

He seemed to understand something, but he didn't.

At the same time, all the Force constellations in the sea of nihility started vibrating simultaneously. They seemed to be pulled by some force.

But, it only lasted for a split second. Then, they went silent again as if nothing had happened.

"Erm..." Wang Teng came back to his senses and took a deep breath. He felt a little frustrated. Darn it, it seems like my Enlightenment still falls short. I had a glimpse of

something but failed to grasp that fleeting spark of inspiration. If my Enlightenment could reach the universe realm or even the eternal realm, I should be able to seize that moment of inspiration and smoothly break through to the cosmos stage.

What is it? What's the connection between constellation, Force, and the rules of the Heavenly Dao?

Countless doubts appeared in Wang Teng's mind. It was frustrating to think that he had been so close to reaching the truth, yet he couldn't manage to hold onto the spark of enlightenment.

At this moment, Wang Teng felt stupid.

(#~#)

## **Chapter 1685: The Benefits Of The Chaotic Beasts Are Amazing! (1)**

Wang Teng felt contempt towards his level of enlightenment.

Why couldn't it be higher?

Why couldn't he be smarter?

Just a little more and he would be able to grasp that piece of inspiration. What a pity.

"What's wrong with you?" Round Ball appeared beside him and asked curiously when it noticed Wang Teng's frustrated expression.

"Round Ball, my talent isn't good enough!" Wang Teng shook his head and sighed.

Round Ball: ???

It felt like asking a star student how he did after an exam.

The star student said that he didn't do well because there was a question that was too difficult and he might have made a mistake.

F\*\*k, did he think that he would score badly just because he made one mistake?

Where was the logic?

Wang Teng's response felt similar.

Everyone who knew how talented Wang Teng was would probably call him a monster!

Yet, he said that his talent wasn't good enough!

Look at what he's saying!

Wang Teng disregarded Round Ball and started thinking about how to deal with the Origin of Chaos in his body.

All his Force had reached the perfected stage and was extremely abundant. Even if he converted the Origin of Chaos into Force, it would just be the icing on the cake.

This was a waste of the Origin Energy of Chaos.

"Round Ball, do you think the Origin Energy of Chaos can be used to nourish the Space Fragment?" Wang Teng asked.

"Use the Origin Energy of Chaos to nourish the Space Fragment!" Round Ball was stunned. It asked curiously, "Where did you get the Origin Energy of Chaos?"

It knew that Wang Teng wasn't just asking casually.

He might have already gotten this energy.

"Answer my question first," Wang Teng said.

"In theory, it should be possible," Round Ball pondered for a moment and said, "From a certain perspective, space fragments share a similar essence with the universe lords' small worlds. Since universe-stage martial warriors can use the Origin Energy of Chaos to nourish their small world, you should be able to nourish the Space Fragment as well."

"That makes sense." Wang Teng nodded thoughtfully.

"But, I've never tried it. Who knows what will happen? If anything went wrong, don't look for me." Round Ball shrugged.

It seemed certain that Wang Teng would experiment with it.

"I'm just asking for fun," Wang Teng replied.

"Do you think I'll believe you?" Round Ball scoffed.

"You don't have to believe me," Wang Teng shrugged indifferently.

"How did you get the Origin of Chaos?" Round Ball asked. "I didn't see you absorb it."

"Make a guess!" Wang Teng said.

"You're irritating." Round Ball rolled its eyes.

Wang Teng decided to keep the Origin Energy of Chaos first. After he left the Chaotic Uncharted, he would see if he could use it to nourish his Space Fragment.

Picking up attribute bubbles was more important now.

He glanced around him and realized that he had absorbed all the attribute bubbles in this area. He waited for a while but there were no new attribute bubbles. He was a little disappointed.

It looks like the next round of attribute bubbles will take some time. Wang Teng thought to himself. He sat on his spacecraft and left.

The chaotic zone was huge. There was no need to stay here.

The Devil Slayer spacecraft sped through the chaos. After some time, Wang Teng arrived at another dimensional rift. The rules of the Heavenly Dao unfolded and attribute bubbles of various attributes were scattered around.

Wang Teng appeared outside and picked up the attribute bubbles.

Origin of Wood\*10

Origin of Lightning\*10

Origin Of Light\*15

Origin Energy of Chaos\*80

Origin Energy of Chaos\*45

...

There's the Origin Of Lightning and the Origin Of Light! A peculiar gleam shimmered in Wang Teng's eyes as if there were laws evolving within them.

The laws of wood, lightning, and light alternated and gradually converged into stillness. This indicated that they were absorbed and assimilated by Wang Teng.

At the same time, a stream of Origin Energy of Chaos entered Wang Teng's body. Wang Teng guided it and merged it with the Origin Energy of Chaos already inside him. It was stored in a corner of the sea of nihility. He didn't absorb or use it. He would leave it there for now.

"Next stop!" Wang Teng flew into the Devil Slayer spacecraft.

The spacecraft flew through the chaos. When they passed by a particular location, Wang Teng hurriedly commanded the spacecraft to stop.

There was a pile of rocks floating in the chaos.

This was the first time Wang Teng saw anything solid besides a transit island in the Chaotic Uncharted.

"There are already rocks here." Round Ball floated beside Wang Teng and exclaimed in surprise.

"As the heavens and earth are yet to fully unfold, chaos gives birth to all things. Do you think there might be any treasures here? I've heard that treasures are often found within these evolving areas," Wang Teng remarked.

"The possibility is very slim. We haven't even ventured beyond a range of 3,000 kilometers from the transit island. What's more, this area has long been swept clean by the academy's powerful individuals. Do you think there are any treasures left behind?" Round Ball asked.

"Sigh, can't you let me indulge in a little fantasy? Perhaps this place has only evolved recently," Wang Teng replied irritably.

"It's possible. Hurry up and take a look," Round Ball urged him. It didn't refute.

Wang Teng flew out of the Devil Slayer spacecraft and floated into space. He wasn't in a hurry to enter the pile of rocks. Instead, he activated his Real Eye and looked inside.

Faint traces of Origin Energy of Chaos wafted in the surroundings, but it wasn't as dense as expected. The stones held no special qualities. They were just ordinary rocks. Wang Teng was disappointed.

## **Chapter 1686: The Benefits Of The Chaotic Beasts Are Amazing! (2)**

He hoped that he could find a special stone. Chaos Stones were fine too.

He scanned his surroundings and shook his head in disappointment. However, he stopped abruptly when he saw something from the corner of his eyes.

"Huh?" Wang Teng exclaimed softly.

A peculiar luminous sphere emerged in front of his eyes. It was a mass of energy resembling chaos. It was gathered there without dispersing, hidden among the pile of rocks.

Wang Teng closed his Real Eye and realized that there was only a pile of rocks there. There was nothing.

There was a rock at the spot where the luminous sphere was at. It didn't look special.

"I almost got fooled by you." Wang Teng smiled.

"What did you discover?" Round Ball asked curiously.

"Shh!" Wang Teng raised a finger and disappeared on the spot.

Round Ball's expression changed. Did Wang Teng discover a treasure?

It floated quietly on the spot and scanned its surroundings, searching for Wang Teng.

Roar!

At this moment, it noticed a 'rock' leaping up from the pile. It gave an angry roar.

It was a strange-looking stone creature, constructed entirely from stacked rocks. It resembled a cheetah and had sleek and agile limbs with a single horn protruding from its forehead. Its eyes, filled with ferocity, shot out from the crevices between the stones.

It suddenly shot up from the ground and twisted its body nimbly in mid-air. It pounced towards a vacant spot behind it.

"I got discovered!" Wang Teng's figure appeared. He sounded surprised.

He thought that he hid well, but the other party still discovered him in advance and found his position accurately. It was surprising that it managed to make the first move.

"Roar!" The rock monster roared again in mid-air. It opened its huge mouth and wanted to bite Wang Teng.

"Why are you so fierce?" Wang Teng sniggered. He moved his body and appeared above the rock monster's head. He stomped down with one foot.

Bang!

The rock monster didn't have the time to react. A huge force surged towards it and its entire body got crushed. It turned into a mass of chaotic gas.

"Chaotic Beasts!" Round Ball finally recognized the rock monster's identity and exclaimed.

Wang Teng's eyes lit up too. He lowered his gaze to the chaotic gas beneath his feet. He guessed that this might be the Chaotic Beast and his suspicion was finally confirmed.

The Chaotic Beasts didn't have a physical body. They were formed from chaotic gas and coincidentally became a strange lifeform. However, their intelligence was low.

For instance, this Chaotic Beast in front of him was probably at the celestial stage but its intelligence was far from commendable. A normal low-tier imperial-level star beast's intelligence was no different from a human's. However, this Chaotic Beast still retained its primal instincts and didn't seem very smart.

Honestly, it was strange. One would expect beings like the Chaotic Beasts to possess higher intelligence. However, it seems that their intelligence has regressed rather than evolved.

As he pondered, the chaotic gas below his feet started churning and condensed again. It transformed back into the same stone monster as before and lunged towards Wang Teng.

"You're still not dead?" Wang Teng sized up the Chaotic Beast strangely. Then, he attacked again and punched the Chaotic Beast.

Bang!

The Chaotic Beasts exploded and turned into a mass of chaotic gas again. However, after some time, it condensed again and escaped into the distance.

It already knew how powerful Wang Teng was. It wasn't smart but it wasn't foolish enough to continue seeking its demise.

"This is a little troublesome!" Wang Teng blinked. He had a sudden thought and released his fist again. This time, he instilled the laws of flame origin in his fist aura and punched the Chaotic Beast directly.

Boom!

The mighty crimson fist aura directly blasted the Chaotic Beast, causing it to explode into countless chaotic gas scattering in all directions.

"It should be dead now, right?" Wang Teng looked in front.

The chaotic gas finally stopped condensing. A golden ball of light smaller than a palm floated up from the spot where the Chaotic Beast died. It wanted to escape.

With a flicker in his eyes, Wang Teng released his spiritual power and caught the golden ball of light, trapping it and drawing it into his hand.

"What is this? Is this the soul of the Chaotic Beast?"

Wang Teng examined the golden ball of light in his hand and sensed an incredibly soothing aura emanating from it. Deep within his soul, a sudden longing emerged.

Eat it!

Wang Teng was frightened by the appearance of this thought.

His soul wanted to devour the golden ball of light. This was extremely rare. Even when he met Spirit attribute bubbles, he didn't have this desire.

"Wang Teng, I feel that this thing is useful to me?!" Round Ball hesitated before commenting.

"Useful to you!" Wang Teng was stunned. Could it be that Round Ball also wanted to devour this golden ball of light?

"Yes, I think it can elevate my life status." Round Ball nodded solemnly.

"Why don't you give it a try?" Wang Teng passed the golden ball of light to Round Ball. He didn't dare to devour souls so he decided to let Round Ball try first.

"Why do I feel that you want to use me as an experiment?" Round Ball was puzzled.

"Cough, how is that possible? I gave it to you because you have a strong desire for it. Don't be ungrateful. I think that this item will benefit me too. If you don't want it, I will swallow it myself," Wang Teng responded angrily.

As he spoke, he tried to pull the golden ball of light into his consciousness.

"Who says I don't want it?" Round Ball reacted quickly and swiftly snatched the golden ball of light. It stuffed it in its mouth and puffed up its cheeks. Then, it pressed its little hands against its mouth and swallowed the ball of light.

Wang Teng looked at it speechlessly.

The next instant, a burst of golden light erupted from Round Ball's body. It looked blissful and seemed extremely comfortable.

Wang Teng had been paying attention to Round Ball's reaction. He activated his Real Eye and noticed that Round Ball's Origin Of Soul and Origin Of Life seemed to have elevated a little.

He saw the entire process so the slight increase didn't escape his eyes.

The benefits of the Chaotic Beasts are amazing. Wang Teng thought to himself.

Round Ball moaned in comfort. Its eyes were shining as it said, "Wang Teng, this thing is really useful to me. Quick! Let's go and kill more Chaotic Beasts."

"Don't get too excited. This golden ball of light is a reward for your unwavering loyalty to me. As for the next one, I have decided to try it out myself," Wang Teng said in a soft tone.

Round Ball looked at Wang Teng bitterly. "You can't do this."

"You didn't do anything while I took much effort to kill these Chaotic Beasts," Wang Teng said.

"But if my level of existence is elevated, I can accomplish much more. That would greatly benefit you," Round Ball immediately retorted

"It depends on my mood." Wang Teng touched his chin and relented.

"Don't forget about me. I'm your loyal intelligent lifeform. I'm unique. Helping me means helping yourself." Round Ball followed Wang Teng and kept nagging. It was afraid that Wang Teng wouldn't help it.

"Alright, alright. Are you a parrot?" Wang Teng waved his hand helplessly.

He scanned his surroundings. The Chaotic Beast he killed dropped a few attribute bubbles. He picked them up quickly.

Origin Of Earth\*50

Origin Energy of Chaos\*300

Blank Attribute\*10000

...

Huh? There's Origin Energy of Chaos and Blank Attributes too? Wang Teng was surprised. He didn't think that killing the Chaotic Beast would give him these two attributes.

It looked to the system, the Chaotic Beasts were similar to the star beasts. Both of them could drop Blank Attributes.

What's more, the Chaotic Beasts dropped 10,000 points of Blank Attributes. This was a sizable gain.

There were also 300 points of Origin Energy of Chaos. It was slightly more than what he collected in the dimensional rift.

The Origin Of Earth was within Wang Teng's expectations.

He was able to kill the Chaotic Beasts because he used the power of laws. This proved that the Chaotic Beasts were related to the laws of origin.

Wang Teng turned around, preparing to step into the spacecraft. Now he had an additional task on his hands: hunting down the Chaotic Beasts.

"Didn't the guide say that there are many Chaotic Beasts outside? Why is there only one? Did I stumble upon a lone one?" Wang Teng asked in disappointment.

"Wang Teng, look over there," Round Ball suddenly said softly.

As Wang Teng turned his head, he saw countless pairs of eyes suddenly appearing to his right. They glared at him fiercely.

Roar!

A series of roaring sounds erupted as the horde of Chaotic Beasts rushed towards him with a thunderous boom.

"What the f\*\*k!"

## **Chapter 1687: Hunt!**

"What the f\*\*k!"

Wang Teng felt that this was the only way to express his astonishment.

A moment ago, he was still wondering why there was only one Chaotic Beast. In a blink of an eye, numerous Chaotic Beasts appeared. What the hell was going on?

His mouth must be jinxed!

But, the current situation didn't allow him to think too much...

Roar!

Howl!

...

Roaring sounds filled the surroundings as variously shaped Chaotic Beasts emerged from the chaos. They charged straight towards Wang Teng.

"Run!" Wang Teng felt his head turning numb. He turned and used Space Flash to return to his spacecraft and escaped quickly.

The bold declaration of hunting down Chaotic Beasts was long forgotten. Staying alive was his top priority now.

The guide was right. There were too many Chaotic Beasts and they were dangerous. He mustn't fight with them.

What's more, the Chaotic Beasts could only be killed with the power of laws of origin. His tiny amount of power of laws wasn't enough for him to face so many Chaotic Beasts.

If Wang Teng didn't use the power of laws to kill the Chaotic Beasts, they would quickly recover to their original state. This was disadvantageous for Wang Teng.

Therefore, the best course of action now would be to flee first, ideally dispersing the group of Chaotic Beasts pursuing from behind. Then, he could take them down one by one.

Unfortunately, the Chaotic Beasts wouldn't allow Wang Teng to escape easily. Amidst their roars, they launched their attacks. They condensed spheres of chaotic light in their mouths infused with the power of laws. These spheres then surged towards the Devil Slayer spacecraft, aiming to strike it down.

"Evade!" Wang Teng's expression changed slightly.

Round Ball turned serious. It immediately controlled the spacecraft and evaded the attacks behind it.

Boom!

Boom!

Explosions were heard continuously. Attacks exploded around the spacecraft.

These Chaotic Beasts were only at the celestial stage or the cosmos stage but their attacks contained a trace of the power of laws of origin. They mustn't be underestimated.

Especially those attacks that contained the power of laws of light origin, laws of lightning origin, and laws of light origin. They were so fast even the Devil Slayer spacecraft didn't have much of an advantage.

Of course, the unpredictable environment within the chaos zone was also a major factor preventing the spacecraft from accelerating.

There were dimensional rifts in many parts of the Chaotic Uncharted. The Devil Slayer spacecraft wouldn't be able to travel quickly.

These dimensional rifts were surrounded by the power of laws. Even if the spacecraft were at the universe level, ramming headlong into them would yield little benefit.

Most importantly, as the Chaotic Beasts attacked, more and more Chaotic Beasts were attracted over and surrounded the Devil Slayer spacecraft.

To these Chaotic Beasts, Wang Teng's Devil Slayer was an invader. The Chaotic Beasts didn't have much intelligence but they had a strong instinct to protect their territory.

"Wang Teng, we need to think of a way to get rid of these Chaotic Beasts. If not, our Devil Slayer spacecraft won't be able to withstand their attacks," Round Ball said grimly.

"I didn't expect these Chaotic Beasts to be so crazy. This is unexpected." Wang Teng looked at the Chaotic Beasts around him through the panoramic simulation and felt a little helpless.

There were too many of them!

Even if he acted, he wouldn't be able to kill them all!

"That's right, the sheer number is terrifying. They appeared out of nowhere without giving us any time to react. We didn't even notice them," Round Ball shook its head. It couldn't care less about the potential benefits brought by the Chaotic Beasts anymore. The multitude of Chaotic Beasts made it feel the malevolence and onslaught emanating from the chaos itself.

The reality was a harsh reminder that this place was not just a land of opportunity but also a treacherous and dangerous territory.

If they were careless and lost their lives here, Wang Teng would become the biggest joke of the Seven Stellar Academies.

A talent who couldn't harness the opportunity was nothing.

"These Chaotic Beasts seem a little strange. They can hide perfectly in the chaos and discover my presence in advance," Wang Teng frowned and said.

Mind you, his concealing skill could even fool universe-stage martial warriors temporarily. Yet, he was discovered when he wanted to sneak an attack on that stone-like Chaotic Beast.

This was unbelievable.

Wang Teng didn't know how the other party discovered him.

Wang Teng's knowledge about the Chaotic Beasts was limited.

Actually, there was hardly anyone who could claim to have a thorough understanding of the Chaotic Beasts. They were extraordinarily peculiar lifeforms, and most people only knew the surface.

"Maybe it's because of the chaotic current?" Round Ball guessed.

"It's similar to what I think." Wang Teng nodded in deep thought. The only thing he could think of was the chaotic current.

These Chaotic Beasts might be able to sense the outside world through the chaotic current. Thus, it was hard for Wang Teng, surrounded by the chaotic current, to hide himself.

Of course, this was just a guess. It was still to be verified.

Boom!

The spacecraft vibrated slightly. An attack landed on the spacecraft.

The universe-level spacecraft was able to withstand an attack from a universe-stage martial warrior. Naturally, it could withstand an attack that contained the power of laws of origin.

This was the difference between the heaven level and the universe level.

You could say that there was a technological barrier between a universe-level spacecraft and a heaven-level spacecraft. Only by breaking this barrier could a universe-level spacecraft be truly considered a universe-level spacecraft.

The attacks of the Chaotic Beasts landed on the spacecraft. The spacecraft vibrated a little but it was fine. The other party's attacks didn't even break the protective shield. They only caused slight damage.

However, Round Ball didn't dare to let down its guard. There were too many Chaotic Beasts. If it allowed the attacks to continue, the spacecraft's defense shield would be destroyed sooner or later.

"Round Ball, let's keep the spacecraft," Wang Teng suddenly said.

"Keep the spacecraft? Are you crazy? Without the spacecraft, we won't be able to outrun the Chaotic Beasts," Round Ball exclaimed.

"Even if we use the spacecraft, we won't be able to escape from these Chaotic Beasts. They will chase us relentlessly." Wang Teng shook his head. "We can only go all out and take the risk."

"What do you have in mind?" Round Ball was puzzled. From Wang Teng's words, he seemed to have come up with a plan.

"Let's give it a try. Be prepared," Wang Teng replied without further explanation. He prepared to charge out of the spacecraft.

Round Ball felt helpless. It could only command the spacecraft to slow down and stop.

Wang Teng dashed out of the spacecraft immediately and kept it. Then, he dashed into the chaotic currents nearby.

Round Ball was confused by his actions.

A moment ago, he guessed that the Chaotic Beasts could sense the outside world through the chaotic current. Now, he was rushing into the chaotic currents.

Wasn't he walking into the trap?

Round Ball didn't know what to say.

As the spacecraft was decelerating, the Chaotic Beasts behind them got closer and closer. They saw Wang Teng dashing into the chaotic current so they quickly chased after him.

This was their territory. Entering the chaotic currents was suicidal.

But soon, they realized that this wasn't the case...

The person was gone!

He disappeared!

Numerous Chaotic Beasts raged through the chaotic currents, searching for Wang Teng. However, they couldn't find him. He seemed to have completely vanished.

Roar!

Roar!

Angry roars came out of the Chaotic Beasts' mouths.

After searching for some time, many Chaotic Beasts couldn't find their target and dispersed.

"How did you do it?" Round Ball widened its eyes in disbelief when it saw this scene.

A few Chaotic Beasts were loitering not far away from them. However, they couldn't detect Wang Teng. They seemed to be blind.

"It's very simple." Wang Teng smiled. "You just need to merge into the chaos."

"Assimilate into the chaos?" Round Ball was flabbergasted. It suddenly noticed something. "There seems to be a layer of Origin Energy of Chaos on your body?"

"That's right. I used the Origin Energy of Chaos to cover my entire body and then used my Disguise Talent to merge into the chaos. It's seamless. There are no flaws so the Chaotic Beasts can't find me" Wang Teng chuckled.

He wasn't confident just now but he had no other choice. He could only give it a try.

Fortunately, his guess was right. This method was effective.

"I didn't know that." Round Ball shook its head. It had to admire Wang Teng's ingenuity. He was able to think of such a plan in that situation. However, it suddenly reacted and looked at Wang Teng with a puzzled expression. "Indeed, you have the Origin Energy of Chaos."

Wang Teng smiled. He didn't say anything.

This matter was difficult to explain so Round Ball could speculate all it wanted.

"These Chaotic Beasts chased us relentlessly. It's time to settle the score." Wang Teng looked at the three closest Chaotic Beasts with a dangerous gaze.

"Aren't you afraid of attracting other Chaotic Beasts?" Round Ball was speechless.

This was an audacious move, considering the recent intense pursuit.

It wanted to take revenge and was extremely interested in the 'soul' of the Chaotic Beasts, but the harrowing chase just now was an experience it did not wish to relive.

"Don't worry. I'll be careful this time. After killing these Chaotic Beasts, we'll hide and wait for them to let down their guards before continuing our hunt," Wang Teng said.

"Alright, be careful." Round Ball knew that it couldn't stop Wang Teng so it decided to wait and see how he would kill the Chaotic Beasts.

There were so many Chaotic Beasts here. If he could get more of their souls, it would be able to achieve a leap in his life status.

Round Ball was filled with anticipation.

Wang Teng kept quiet. He was focused. He stared intently at the three Chaotic Beasts and held his breath.

The three Chaotic Beasts gradually approached Wang Teng's area. They didn't notice Wang Teng's presence at all. Their vigilance had already been lowered to the minimum.

Now!

A flash of brilliance flickered in Wang Teng's eyes as he extended his hand, pointing forward. Three tongues of fire shot out forcefully, entwined with the power of laws of fire origin. Scorching heat radiated.

The tongues of fire were extremely fast and the distance was short. Before the three Chaotic Beasts could react, their heads were penetrated.

Bang! Bang! Bang!

Three muffled sounds echoed as the three Chaotic Beasts simultaneously exploded, releasing chaotic currents that surged in all directions. Three golden light spheres attempted to escape in the chaos.

Wang Teng's gaze turned sharp. He released his spiritual power and swept the three golden rays over.

He swept up many attribute bubbles too.

Then, without hesitation, he fled. He shifted to another area within the chaos and found a place to hide.

Roar!

Angry roars were heard again. Many Chaotic Beasts sensed the abnormality and rushed over. Unfortunately, they still couldn't find anything.

## Chapter 1688: Awakening! (1)

The Chaotic Beasts around them roared in anger.

Round Ball was frightened. It was afraid that Wang Teng would be discovered.

However, Wang Teng remained composed. He watched this scene with a playful smile.

After some time, the Chaotic Beasts left since they couldn't find any traces of Wang Teng. Only a few of them were still wandering around.

Wang Teng smiled. He glanced at the attributes board. He had picked up many attribute bubbles just now.

Origin of Water\*50

Origin Energy of Chaos\*250

Blank Attribute\*10000

Origin of Wind\*40

Origin Energy of Chaos\*200

Blank Attribute\*8000

Origin Of Flame\*45

Origin Energy of Chaos\*220

Blank Attribute\*8500

...

Three power of laws of origin! Wang Teng was elated.

Gaining three powers of laws of origin at once was even better than farming attributes from a universe-stage martial warrior!

There were also three balls of Origin Energy of Chaos circulating in his body. Gradually, they merged with the original ball of Origin Energy of Chaos and got stored in the sea of nihility.

It was all thanks to the Origin Energy of Chaos. If not, Wang Teng wouldn't be able to fool the Chaotic Beasts so easily.

Although this would consume a portion of the Origin Energy of Chaos, it was still worth it.

This was a good deal.

Then, there were the Blank Attributes. The Blank Attributes dropped by the three Chaotic Beasts were slightly different. One was 10,000, one was 8,000, and one was 8,500. There were 26500 points in total. Adding the 10,000 points he collected previously, he had 36,500 points now.

He received 36,500 points of Blank Attribute. This felt better than killing star beasts.

Wang Teng looked at his Blank Attribute and smiled. He was extremely satisfied.

Blank Attribute: 3,678,500

This was all the blank attributes Wang Teng received during the League Of Talents. There were 3.6 million of them!

Wang Teng had never possessed so many blank attributes.

Now, after killing the Chaotic Beasts, his Blank Attribute increased again. What's more, many Chaotic Beasts were waiting for him to slaughter. By the time he left the Chaotic Uncharted, his Blank Attribute could exceed 4 million, or even more.

These Chaotic Beasts were his blessing!

Wang Teng was overjoyed. He remembered the three Chaotic Beasts' souls.

The three golden balls of light were his greatest gain!

This time, he wanted to devour them himself.

He wasn't going to give them to Round Ball!

Round Ball had already tested it once. It proved that the Chaotic Beasts' souls were not only harmless but also offered numerous benefits. Naturally, he had to give it a try himself.

However, just as he was about to take out the three golden light spheres, his expression froze.

They were... gone?!!

The three golden light spheres were gone!

Wang Teng was worried that the other Chaotic Beasts would discover the golden light spheres so he kept them in his Devour Space. It was a place where he could store living things so he should be able to store these light spheres.

But now, the golden ball of light was gone!

Wang Teng scanned the Devour Space with his spiritual power to search for the three balls of golden light but nothing was found. They had disappeared without a trace.

Did they get absorbed by the Devour Space?

That isn't right. Even if it's devoured, I can sense it. This Devour Space is mine, not the Devour Nihilism Beast's.

Could it be that it devoured the three golden balls of light through its connection with the Devour Space?

Many thoughts went through Wang Teng's mind. He frowned gradually.

With the threat of the Chaotic Beasts no longer looming, Round Ball set its sights on those three golden spheres. It noticed that Wang Teng didn't take them out for quite some time so it assumed he wanted to keep them all to himself. It immediately urged, "Wang Teng, bring out those three golden balls of light quickly. There are three of them. I'm not being greedy, just give me two and keep one for yourself, alright?"

"There's nothing left." Wang Teng glanced at it from the corner of his eyes. His face turned black.

"You're so mean. Can't you just give me one?" Round Ball widened its eyes in disbelief. It felt that he was too stingy.

"Stop it. The three golden balls of light are gone. I haven't eaten any of them," Wang Teng said angrily.

"What do you mean? The three golden balls of light are gone?" Round Ball was puzzled.

"What do you think?" Wang Teng asked.

"You're not lying?" Round Ball didn't believe him.

Wang Teng didn't reply to him. He suddenly disappeared on the spot and appeared in the Devour Space. He scanned his surroundings.

Round Ball was stored in the life crystal, which was on Wang Teng. Hence, it appeared in the Devour Space too. It noticed Wang Teng's unusual expression and began to believe his words.

"You placed the three balls of golden light here?" Round Ball glanced around and asked.

"Where else can I put it?" Wang Teng asked.

"Maybe it got devoured by Nihility. This thing is beneficial to you and me so it should be able to help a universe behemoth like Nihility too, right?" Round Ball guessed.

"That's not possible. If he devours the three golden balls of light, he will tell me." Wang Teng realized this and ceased to doubt Nihility any longer. His character disdained to engage in such actions of taking without informing others.

He looked up at the cocoon of light floating in the purple-black space.

"The antman queen!" Round Ball reacted instantly. "Are you saying it's her?"

"Besides the antman queen, there's no one else here." Wang Teng stepped forward and came beside the cocoon of light formed by the antman queen. He placed his hand on it and closed his eyes.

## **Chapter 1689: Awakening! (2)**

After some time, he slowly opened his eyes and said helplessly, "Indeed, it's this fellow. She devoured the three light balls at once and left us with nothing."

"Sigh." Round Ball sighed. It said dejectedly, "We risked our lives to kill the Chaotic Beasts, but this fellow took advantage of us."

"You? What risk are you taking?" Wang Teng glanced at it from the corner of his eyes. "I'm the one taking the risk."

"Haha, I'm beside you all the time so I'm also taking the risk." Round Ball said with a sly grin on his face.

"Seriously." Wang Teng pushed it away with a look of disdain. Then, he pondered and said, "I talked to Elizabeth just now. She's at a critical stage of her transformation. If she can get an ample supply of golden balls of light, it will be beneficial to her"

Round Ball's expression turned strange when it heard Wang Teng calling the antman queen's name. It didn't know what to say. However, upon hearing Wang Teng's subsequent words, it immediately disregarded those trivial matters and exclaimed in distress, "Ah, we have to give it to her too?"

He was the one who tasted the golden ball of light first. In the end, he had to let someone else use them first.

How frustrating!

If it hadn't experienced the taste itself, Round Ball wouldn't feel so disheartened. However, now that it had tasted them, the feeling of watching the golden spheres going into someone else's mouth was indescribable.

"You'll have to move back." Wang Teng touched his chin. "Don't forget that there's Little White. I'll be the third and you'll be the last."

He suddenly remembered that Little White was also transforming. Since the golden ball of light was beneficial to Elizabeth, it would be beneficial to Little White too.

In terms of intimacy, Little White should come before Elizabeth. After all, it had been by Wang Teng's side for the longest time.

"Pfft!" Round Ball clutched its chest and almost vomited blood.

The last one!

The last one!

The last one!

These three words resounded incessantly in Round Ball's mind. Round Ball felt that its life was filled with sorrow.

It turned out that it had the lowest status in this small group!

To think that it called itself Sir Round Ball. Who knew that it was just a handyman?

No, it was worse than a handyman!

"So I'm the clown," Round Ball lowered its head and said in a gloomy tone.

[○ · `Д´ · ○]

Wang Teng: ...

Is this fellow feeling disheartened?

Is there a need to feel this way?

Is it so serious?

"Cough, are you alright?" He coughed awkwardly and asked.

"Don't mind me. I'm an intelligent lifeform that no one loves or dotes on. I'm so miserable," Round Ball said with a pitiful expression.

"Alright, I'll let you use it first. I'll be the last, alright?" Wang Teng rolled his eyes uncontrollably. This fellow was already a few hundred years old, but it was still whining.

He finally understood. These sidekicks were his ancestors. He had to treat them well.

Well, he wanted their help and skills so he had no choice.

To achieve something worthwhile, one naturally has to make sacrifices.

"Really?" Round Ball's eyes lit up.

"No." Wang Teng snorted. He ignored it and continued killing the Chaotic Beasts. If he had the time, he might as well kill a few more Chaotic Beasts. This would make sure he at least got his share of golden spheres.

"Come on, you must keep your word." Round Ball caught up with him hurriedly and chattered on.

Wang Teng couldn't be bothered by Round Ball's lamentations. He had already found several isolated Chaos Beasts and swiftly took action. He released the tongues of fire and caught them off their guards, killing them swiftly.

These Chaotic Beasts were ultimately only at the celestial stage and the cosmos stage. Without the advantage of numbers, Wang Teng found it relatively easy to deal with them.

The Chaotic Beasts had different appearances. Some seemed to be composed of flowing water, some seemed to be formed from condensed flames, and some resembled regular star beasts...

If he didn't know that they were Chaotic Beasts, Wang Teng would have thought that they were star beasts.

Under Wang Teng's Fire Tongue skill, the Chaotic Beasts didn't even have the time to scream in agony. They were reduced to splattering streams of chaotic currents in an instant.

Golden balls of light appeared!

Attribute bubbles floated out.

Wang Teng immediately pulled them over and ran away. Angry roars and howls were heard behind him.

He found a safe place to hide and entered his Space Fragment. He brought the five balls of golden light closer to the blood cocoon Little White had turned into.

From within the blood cocoon, a surge of longing emotion suddenly emanated.

Little White also wanted to devour the golden ball of light as it sensed the benefits within them.

Wang Teng smiled. He placed the golden balls of light on the blood cocoon.

In an instant, the blood cocoon squirmed and swallowed the five balls of golden light.

A faint golden glow appeared in the blood cocoon.

"More!"

A thought transmitted through the spiritual pet contract reached Wang Teng's mind.

"You're all foodies." Wang Teng laughed and scolded them. "Alright, I'll go and kill more Chaotic Beasts."

Little White conveyed a sense of gratitude and affection to Wang Teng once again.

"Alright, alright, your early emergence is already the greatest reward for me. This time, you have to become stronger. Don't disappoint my expectations," Wang Teng caressed Little White and then vanished within the Space Fragment.

He had high hopes for Little White. He hoped that it could be a great assistant to him instead of just being a pet.

After absorbing the blood essence of the Blood Crow ancestor and the soul of the Chaotic Beasts, he believed that Little White would undergo a huge transformation. Its ability would rise exponentially.

The Crown Prince of the Great Qian Empire, Yu Yunxian, had a Golden Wing Crimson Celestial Tiger as his mount during the League Of Talents. It looked majestic.

Wang Teng wanted a mount like that too.

Although he did have a more terrifying beast than the Golden Wing Crimson Celestial Tiger, he couldn't ride it.

Thus, he had to think of another way to get a mount.

Little White was undoubtedly the most suitable.

If he could groom Little White to be as powerful as the Golden Wing Crimson Celestial Tiger, it would undoubtedly be a tremendous sense of accomplishment.

It was exciting just thinking about it.

However, using a Blood Crow as a mount somehow gave off a slight villainous vibe.

Wang Teng touched his chin and wondered if he should dye Little White in the future. How about white? That would suit its name.

Round Ball didn't say anything this time.

He could tell that Wang Teng treated Little White differently.

There was no need to fight for Wang Teng's love. It was an intelligent lifeform. Its role was different from Little White. Wang Teng needed it.

His previous actions were all for the golden balls of light.

Otherwise, at the rate they were going, there was a good chance that it wouldn't get its share of the golden spheres.

The crying child gets the milk.

It needed to cry.

Over the next month or so, Wang Teng killed Chaotic Beasts while picking up the attribute bubbles in the chaos. He didn't waste any time in either endeavor.

During this month, Wang Teng killed a large number of Chaotic Beasts and obtained a large number of golden balls of light. He fed them to Little White and the antman queen.

These two creatures seemed like bottomless pits. Despite feeding them golden orbs for a month, and not knowing how many had consumed already, they still seemed insatiable.

Wang Teng was exasperated.

Round Ball was frustrated too.

It had been waiting for Little White and the antman queen to be satisfied before being fed itself.

But, no matter how long it waited, it couldn't see the end.

It was longing so intensely as if it could pierce through the depths of autumn water!

One day, Wang Teng fed Little White and the antman queen the ten balls of golden light he just collected. Each of them received five.

Round Ball almost drooled when it saw this scene.

"Huh?" Wang Teng was stunned. He was elated. "They're full!"

Just now, Little White and the antman queen sent him a thought at the same time. Their Origin Of Soul was saturated. They couldn't consume any more golden spheres.

"Full!" Round Ball regained its senses and was overjoyed. Tears almost fell from its eyes. "Finally, it's my turn. Sob..."

"Useless!" Wang Teng rolled his eyes speechlessly.

Boom!

Boom!

Suddenly, Little White's blood cocoon and the antman queen's cocoon of light started vibrating at the same time. A powerful aura erupted and swept towards the surroundings.

## **Chapter 1690: Awakening! The Transformations Of The Two Pets! (1)**

Boom!

In the Space Fragment, the blood cocoon hung in mid-air and gave off a blood-red glow. It was like a small red sun.

A crimson wave of energy surged in all directions. A tremendous Force fluctuation erupted from within the blood cocoon.

Amidst the crimson wave of energy, there were also tendrils of dark green flames intertwined. They looked like blooming flowers. They radiated with exceptional splendor, centered around the blood cocoon.

The Floral Fairy Race ladies below were attracted by this scene. They stared at the sky in astonishment.

The Metal Armor Flaming Scorpion stared at the sky in astonishment. There was a hint of envy in its eyes.

It was jealous!

Judging from the fluctuations in this aura, Little White's ability would increase significantly after breaking free from the cocoon. It would surpass its previous ability.

Little White was on the verge of a breakthrough but it was still stuck in the same place. It was hard to maintain its calmness.

However, it knew that this was Little White's opportunity. The opportunity was useless to it.

The blood essence of the Blood Crow ancestor was useless to a scorpion.

Thus, he could only be jealous.

Wang Teng stood in the sky and scanned the people below with a frown. With a wave of his hand, he brought Little White out of the Space Fragment and into the Devour Space.

Little White was causing a significant disturbance. Wang Teng was worried it might damage the Space Fragment.

Mind you, there were many precious spiritual herbs planted in the Space Fragment. He would cry if they were destroyed.

The Floral Fairy Race ladies heaved a sigh of relief when they saw Wang Teng bringing the blood cocoon away. The oppressive pressure exuded by the blood cocoon made them a little breathless as if they were facing a far more formidable and terrifying creature.

However, they knew that Little White was inside the blood cocoon so they were curious.

"Sister Catalpa, what do you think Little White will turn into after it breaks out of its cocoon?" The tiny Flower Angel stood beside Catalpa with her head raised and her ponytails hanging down. She looked at Catalpa with anticipation in her eyes.

These Floral Fairy Race ladies had lived in the Space Fragment for a long time and had a good relationship with Little White.

Especially Flower Angel. She often played with Little White and almost treated it like her large toy.

"I don't know. It might become very powerful." Catalpa patted Flower Angel's little head and smiled.

"I know that Little White will become very powerful, but I want to know what it will turn into." Flower Angel pouted. She felt that Sister Catalpa was being silly. What she said was equivalent to saying nothing at all.

"Oh my, I don't know either. We'll know after watching. It should be out of its cocoon soon." Catalpa knocked Flower Angel's head.

Indeed, kids were troublesome.

"Alright, alright. I won't give Sister Catalpa a hard time. You probably didn't pay attention to the grand elder's lesson when you are young," Flower Angel said helplessly.

Catalpa: ...

Are you blaming me?

Who said that she didn't listen properly? This knowledge was completely out of the scope.

Who knew what a crow could transform into?

What's more, this was an extraordinary transformation, not a normal racial evolution. There was no point of reference.

Of course, she wouldn't explain this to Flower Angel. She wouldn't understand it anyway.

Flower Iris and the other floral fairies chuckled secretly when they saw Flower Angel complaining about Catalpa.

In the Devour Space.

Two luminous orbs, one big and one small, floated in mid-air. The small one was a blood-red cocoon while the big one was a white cocoon. Although they differed in size, both were incredibly enormous. They gave off a dazzling brilliance and waves of Force exuded from within them, sweeping out in cascades.

Wang Teng stood some distance away and watched this scene quietly. He waited for Little White and the antman queen to break out of their cocoons.

His expression was calm, but his flickering gaze betrayed him.

Round Ball floated beside Wang Teng and said, "There should be some effects after eating so many golden balls of light, right?"

"Their potential should be able to increase significantly," Wang Teng nodded and replied.

"Potential? The souls of the Chaotic Beasts seem to have such a special effect. Whether my level of existence can be elevated also depends on it," Round Ball said. "Furthermore, it's not just about potential. Their actual strength will also increase significantly beyond their previous capabilities."

In mid-air, the radiance emitted by the two cocoons had reached a dazzling pinnacle.

Crack~

Suddenly, a crisp cracking sound was heard.

Wang Teng was invigorated. He hurriedly looked at the blood-red cocoon on his left and saw a small crack appearing on it. An even more blinding blood-red glow seeped out from the fissure. It was exceptionally conspicuous.

"Is it coming out?" Round Ball squinted. It looked at the blood-red cocoon with anticipation.

Little White transformed using the blood essence of the Blood Crow ancestor. No one knew what it would become in the end.

The level of uncertainty is immense.

Crack!

At this moment, another crisp cracking sound was heard. It didn't come from the blood cocoon. Instead, it came from the other side.

"It looks like the antman queen is coming out too." Round Ball looked at the other side and smiled.

"Good, let's come out together." Wang Teng smiled happily.

As they spoke, the cracks on the cocoons got bigger and bigger. They spread out like spiderwebs.

It wasn't just this particular spot. Cracks appeared in other areas as well.

Soon after, the cracks behind began to emerge one after another.

## **Chapter 1691: Awakening! The Transformations Of The Two Pets! (2)**

These cracks continued to radiate outward, eventually connecting until they covered the entire cocoon.

"Wang Teng, which one do you think will come out first?" Round Ball asked when it saw this scene.

"I don't know," Wang Teng replied directly.

"Do you want to make a bet?" Round Ball sniggered.

"What do we bet on?" Wang Teng asked curiously.

"Ten golden spheres. If you win, you can have the first ten golden spheres. If I win, you can have them," Round Ball said.

"You're quite the schemer," Wang Teng rolled his eyes. "I am the one who killed the Chaotic Beasts so I can give the golden spheres to whoever I want. Why should I gamble with you?"

"Erm..." Round Ball was initially planning to trick Wang Teng while he was in a good mood but Wang Teng saw through the plan. It quickly changed its approach and said, "I didn't mean it that way. You will give it to me anyway. I'm just using this wager to decide who comes first."

"Forget it. Since you're so pitiful, I'll play with you. Who do you want to choose?" Wang Teng continued nonchalantly.

"I choose the antman queen." Round Ball's eyes lit up.

"Are you sure?" Wang Teng gave him an ambiguous smile. "You have to choose carefully. Don't say that I didn't give you a chance."

Round Ball looked at Wang Teng curiously and snorted. "Don't lie to me. I choose the antman queen."

"Alright, I'll choose Little White." Wang Teng shrugged.

"Wang Teng, you're going to lose this time. Little White is weaker so it won't break out of its cocoon so quickly." Round Ball smiled.

"Who knows?" Wang Teng smiled. He turned to look at the blood-red cocoon and kept quiet.

Round Ball started to waver when it saw Wang Teng's expression. Did he notice something?

After all, Wang Teng had many tricks up his sleeve and even it was unsure of the exact extent of Wang Teng's capabilities. He might be able to see something.

But it didn't matter much in the end. It was a win-win situation for it as there was no real loss even if it lost the wager. On the other hand, winning would grant it the opportunity to use ten golden spheres first. So why not seize the chance and take the bet?

It had been craving the golden light spheres for an entire month.

For the past month, he fed all the golden balls of light to Little White and the antman queen. It was frustrating.

He just wanted to taste the golden spheres as soon as possible. Everything else was unimportant.

Wang Teng didn't know what Round Ball was thinking. He was too lazy to care about it. His attention was completely on the two light cocoons in front.

Suddenly, Wang Teng's gaze changed. He smiled uncontrollably.

Crack!

A particularly clear and crisp sound reverberated abruptly within the Devour Space.

Round Ball looked in the direction of the sound. Its expression froze.

The sound came from the blood-red cocoon!

Crack!

Another crisp sound was heard.

Bang!

At the same time, a claw giving off a blood-red glow suddenly tore through the crimson cocoon, thrusting out directly from within.

This claw appeared to be made of some kind of solid and sharp metal, with a dark crimson light flickering and swirling upon it. At times, it exhibited a deep, gloomy hue, while at other moments, it revealed a trace of blood red. It was exceptionally peculiar. It resembled a formidable and lethal tool.

Round Ball's last hope was destroyed.

Bang!

The blood-red cocoon shattered again. Another sharp claw pierced through from within, resembling the previous one in its hardness and sharpness.

At first glance, it looked like a divine weapon!

Screech!

A resounding screech like the collision of metal suddenly rang out. It reverberated throughout the Devour Space and lingered for a long time.

Boom!

The entire crimson cocoon burst open, shattering into countless crimson specks of light that floated down from above.

A dark red light shot out of the shattered cocoon, soaring directly towards the top of the Devour Space.

Unfortunately, the Devour Space had a limited range. It could only circle the top of the space and give off a resounding screech reminiscent of clashing golden weapons.

Wang Teng and Round Ball looked up simultaneously.

A colossal avian creature unfolded its wings and took flight. Its talons, beak, and feathers gleamed with a metallic sheen, while its dark red plumage resembled forged iron and gold, exuding a sharpness beyond compare. Its entire body radiated a dark red hue, adorned with peculiar patterns akin to flames that were icy but yet imbued with scorching heat. It possessed an eerie yet harmonious presence.

The Spirit Flame Ghost Crow!

The transformed Spirit Flame Ghost Crow!

The Spirit Flame Ghost Crow had changed entirely!

Not only did its appearance undergo a tremendous transformation, but even its size had increased several times compared to before.

The Spirit Flame Ghost Crow was originally red-black. Now, the black color had turned darker and the red color had turned blood-red.

This caused the Spirit Flame Ghost Crow to look dark red.

The two colors may seem similar but there was a huge difference.

Crimson red and blood red gave off two completely different sensations. One was pure scorching heat, while the other carried a subtle hint of wickedness or malevolence.

However, on top of the dark red hue, there were intricate patterns that resemble flickering flames, which diminished some of the hostility.

Of course, this was secondary. The greatest change was its ability. It went from below the low-tier imperial level to the mid-tier imperial level. It was a huge leap.

Mid-tier imperial-tier star beasts were equivalent to the cosmos stage martial warriors.

Little White jumped two levels at once. It was unbelievable.

## **Chapter 1692: Awakening! The Transformations Of The Two Pets! (3)**

After a star beast reached the emperor level, every level increase became extremely difficult. It wasn't any easier than martial warriors and might be even more difficult.

Thus, Little White's transformation was a huge blessing.

"You caught up with me." Wang Teng activated his Real Eye and saw Little White's current stage. He smiled uncontrollably.

"It has reached mid-tier imperial level?" Round Ball was astounded.

"Yes!" Wang Teng nodded in satisfaction.

"F\*\*k! Is the blood essence of the Blood Crow ancestor so powerful?" Round Ball cursed uncontrollably. It was in disbelief.

"The golden light spheres must have played a huge role too. If not, it wouldn't have been able to break through to the mid-tier imperial level!" Wang Teng pondered.

"You're right." Round Ball quickly caught on to the situation.

Without the golden light spheres, Little White's transformation wouldn't have been so complete. It rose two major realms at once. This was terrifying.

There was a sharp glint in its eyes. Its desire for the golden light spheres grew stronger.

Wang Teng knew that the golden light spheres were useful but he didn't expect them to have such a tremendous impact.

Nevertheless, regardless of the circumstances, this was an immense benefit for Little White, something that is incredibly rare and difficult to come by.

Wang Teng suddenly felt fortunate that he wasn't stingy. For the past month, he kept feeding Little White golden light spheres. Now, it looked like the golden light spheres weren't wasted.

"Screech!"

A shrill cry was heard. Little White descended from above and stopped in front of Wang Teng. Its enormous head leaned towards Wang Teng and its sharp eyes were filled with gratitude and admiration.

"Good job." Wang Teng laughed happily. He patted Little White's head and praised it.

"Master!"

Suddenly, a child-like voice emerged from Little White's mouth. It sounded like a seven years old child.

It wasn't used to speaking so it stuttered a little.

"Little White, you can speak?" Round Ball widened its eyes in surprise.

Wang Teng was astounded too. He looked at Little White and suspected that he heard wrong.

Little White had advanced to the emperor level a long time ago but it didn't know how to speak. Wang Teng felt helpless because he couldn't find any reason.

Yet, Little White suddenly spoke now.

It was natural that Wang Teng found it unbelievable.

Did he finally gain the ability to speak after this transformation?

"Brother Ball Ball" Little White looked at Round Ball with its huge eyes and opened its mouth again.

"Brother Ball Ball?" Round Ball's face turned black. "What kind of address is this?"

"Hahaha..." Wang Teng burst out laughing. "That's great. Little White, you can finally speak."

"You can speak but you're still not fluent." Round Ball sized up Little White and chuckled. "But please don't call me Brother Ball Ball. It sounds weird."

"Ignore it, it's just being melodramatic," Wang Teng pushed Round Ball away.

"Melodramatic!" Little White repeated what he said.

Round Ball frowned.

"Hahaha..." Wang Teng laughed uncontrollably. "Exactly, that's how it should be. We can't pamper it."

"You guys are too much! You completely disregard me!" Round exclaimed angrily.

"Round Ball, you lost your bet with me," Wang Teng said.

"Pfft!" Round Ball felt another stab in its heart. It almost vomited a mouth of blood.

Boom!

At that moment, a loud rumble echoed through the sky as a dazzling white light exploded. The cocoon formed by the antman queen suddenly erupted, transforming into countless white specks of light scattered in the air.

The same scene repeated once again, but the emergence of the antman queen was comparatively more subdued than Little White's. There were no excited cries or erratic flight. The cocoon burst open and the impact of the Force was more intense.

Compared to Little White, the antman queen was more composed.

Wang Teng, Round Ball, and Little White quickly reacted and looked at the white light.

A huge figure appeared among the droplets of light.

Wang Teng and the others were stunned when they saw the true appearance of the giant figure. There was a strange look in their eyes.

It was an immensely massive queen ant, completely white and translucent as if sculpted from precious jade. It didn't appear bloated but rather exuded a sense of delicacy and refinement.

If it was shrunk countless times, it might even look like a silkworm baby.

What's more, it was the cartoon version.

There were two horns on the antman queen's head resembling dragon horns, replacing its original antennae. This additional feature added a touch of strangeness to its appearance.

The two dragon horns had a black and yellow hue and emitted traces of dark energy.

Wang Teng and Round Ball only glanced at its physical characteristics.

Their gazes finally stopped between the two dragon horns of the antman queen.

There was a figure that looked like a human lady.

She had long, silver-white hair and a beautiful countenance. Her eyes were slightly closed. Her lower body merged seamlessly with the massive white torso, with only her upper body exposed, showcasing a perfect golden proportion.

However, the upper half of her body was covered with a light shawl. The crucial parts of her body weren't revealed.

Wang Teng was shocked when he saw the other party's appearance.

Did the antman queen look like this?

He remembered that the antman queen he saw on that decaying planet wasn't like this.

It didn't have half a human's body.

"Is this the antman queen?!" Round Ball sized up the giant creature in front of it in surprise.

## **Chapter 1693: Awakening! The Transformations Of The Two Pets! (4)**

"It's me!" The antman queen, Elizabeth, seemed to have heard its voice. She opened her eyes and turned to look at Round Ball. A smile appeared at the edge of her lips as

she said in a gentle voice, "Indeed, there have been some changes compared to my previous form."

"You have a human body?" Wang Teng asked.

"I can have it, but it's useless to me. I got this body specially for my rebirth because it's convenient for me to interact with you," Elizabeth said.

"Erm..." Wang Teng was silent for a moment before speaking, "You're quite thoughtful. However, the new form looks good. You look more pleasing to the eye."

"It's just a little strange. I keep looking at the lower half of your body," Round Ball said with a strange expression.

"Be serious. She's a lady. Why are you looking at her lower body?" Wang Teng said calmly.

Round Ball rolled its eyes.

Damn it, it sounded like a pervert.

Damn it!

He was framing it!

"Elizabeth became like this because of you," Round Ball refuted.

Wang Teng: ...

Elizabeth smiled when she saw the two of them bickering.

"You kept your universe stage ability." Wang Teng ignored Round Ball. Golden light shimmered in his eyes. This was the sign that his Real Eye was working.

The Antman Race was a race of humans too. Hence, she could be referred to as a universe-stage martial warrior.

This was a pleasant surprise!

Universe stage!

Originally, he thought that it would be good enough if the antman queen could retain her heaven stage ability but she managed to retain her universe stage strength.

This meant that Wang Teng had another universe-stage martial warrior beside him!

"Yes." Elizabeth floated towards Wang Teng and stopped a few hundred meters away from him. She said gratefully, "It's all thanks to the Obelisk Scale Dragon Beast's body and the amazing golden light spheres. If not, I might have to start cultivating again."

"You and Little White are lucky. I just happened to enter the Chaotic Uncharted to kill Chaotic Beasts," Wang Teng laughed and replied.

"Chaotic Uncharted! Chaotic Beasts!" Elizabeth seemed a little astounded. "Could it be the Uncharted before the universe was formed?"

"You know about it?" Wang Teng asked in surprise.

"There are relevant records in my legacy," Elizabeth said.

"It looks like the antman queen's legacy isn't weak," Wang Teng glanced at her and said.

"I only know the tip of the iceberg. I have never seen the Chaotic Uncharted personally." Elizabeth shook her head.

"A little is good enough. Some people don't even know what the Chaotic Uncharted is," Round Ball said as it looked at Wang Teng.

"Why are you looking at me? How old am I? How old is Elizabeth? How can you compare the two of us?" Wang Teng was speechless.

"Master, I'm not old among the antman queens. I'm still very young," Elizabeth said softly.

Wang Teng: ...

He didn't expect the antman queen to care so much about her age.

Was this the similarity between all female humans and creatures?

"But, I still have to thank master for giving me such a precious thing," Elizabeth said gratefully again.

"It's nothing. We're on the same side. It's not a loss to give them to you." Wang Teng waved his hand. "Since you're awake, help me kill Chaotic Beasts later."

"You're quite something. You make her work as soon as she wakes up," Round grumbled, feeling a bit speechless.

"Do you still want more golden light spheres?" Wang Teng asked angrily.

"Yes!" Round Ball immediately looked at Little White and Elizabeth and said seriously, "We're on the same side. Let's work together and kill more Chaotic Beasts. That way, we can get more golden light spheres. They might be useful to you in the future."

Elizabeth: ...

Little White: ...

Wang Teng gave Round Ball a speechless glance.

Its attitude changed too quickly!

How thick was its skin?

"I didn't have much combat power originally, but this time I was reborn with the body of the Obelisk Scale Dragon Beast. I have acquired some of its battle techniques so my combat strength has increased significantly. I can provide assistance," Elizabeth explained.

"Oh?" Wang Teng was surprised. He asked hurriedly, "What ability did you gain?"

"First, there's the Dark Obelisk Dragon Armor. It can form a layer of dragon armor to cover my entire body during a battle. It provides astonishing defense. Additionally, there's a skill called Dark Obelisk Dragon Light Beam, which enables me to emit a powerful beam from the dragon horns on top of my head," Elizabeth explained.

Dark Obelisk Dragon Armor! Isn't that the skill I got from the Obelisk Scale Dragon Beast? Wang Teng was astounded. He couldn't believe what he just heard. There's also the Dark Obelisk Dragon Light Beam. Even I don't have this skill. This antman rebirth skill is quite impressive.

The only disadvantage is that after she is reborn, her body her your body anymore. There are some changes to it.

But, I think the antman queen probably won't care about this.

"Amazing," Round Ball exclaimed after hearing Elizabeth's explanation.

"Indeed. I fought with the Obelisk Scale Dragon Beast in the past so I know that these two skills are extremely powerful. If you get them, your ability will increase exponentially." Wang Teng nodded.

He would benefit from it too.

At first, he was worried that Elizabeth's battle ability was too weak. Now, it looked like his worry was unnecessary.

How could the antman queen be weak after learning the Obelisk Scale Dragon Beast's skill?

"Master, I learned a few skills too." Little White chimed in, unwilling to be outdone.

"You have new skills too?" Wang Teng's eyes widened. He felt even more surprised than when he heard the antman queen obtaining the Obelisk Scale Dragon Beast's skill.

Even Round Ball looked at Little White in surprise.

"What skills do you have? Tell me quickly," Wang Teng urged hurriedly.

It should have spoken up about such important matters earlier.

"That's right. Tell us quickly," Round Ball said impatiently.

"I received four new skills. One is called the Blood Crow Ghastly Scale Shield. It's a defensive skill that allows me to conjure a shield made of feathers."

"The other one is the Blood Crow Cloner, which allows me to create multiple clones to confuse enemies. These clones also possess a portion of my original body's attack power."

"There's another skill called Blood Sickle Slash. It's a powerful offensive technique that allows me to manifest a crimson sickle for a devastating slashing attack."

"The last skill is called Three Thousand Flame Feathers, which allows me to transform my feathers into offensive attacks infused with the power of fire. I gained this skill from the drop of blood and combined it with my abilities. Pretty impressive, isn't it?" Little White said proudly.

Silence.

Wang Teng, Round Ball, and Elizabeth were dumbfounded.

Four skills!

Are you a bug?

Even Elizabeth didn't know what to say. She felt that getting two skills was impressive enough but Little White got four.

What's more, it managed to combine one of them with its ability.

This was much more challenging than simply inheriting or comprehending the abilities of others. Even a universe-stage martial warrior like her couldn't do it.

## Chapter 1694: Seal! (1)

Wang Teng and the others were stunned by Little White's enlightened skills. They stared at it in disbelief, feeling a sense of incredulity at the situation.

No matter how they looked at it, comprehending four powerful skills in an instant was truly impressive!

"How did you do it?" Elizabeth's beautiful face was filled with astonishment as she asked hesitantly.

Even her huge lower body moved a little restlessly.

She used the body of a dark behemoth like the Obelisk Scale Dragon Beast but her skills weren't as powerful as the ones Little White received from the drop of blood essence.

This didn't make sense.

Was the Obelisk Scale Dragon Beast weaker than a drop of blood essence?

How could a beast be weaker than a drop of blood?

Elizabeth was starting to doubt her life.

At first, she felt that the Obelisk Scale Dragon Beast was a good host for her rebirth. She didn't mind if it was a dark element star beast.

She knew better than anyone how rare and precious it was to find the body of a star beast equivalent to the universe stage.

Even if Wang Teng agreed to help her hunt star beasts, it was unlikely that they would encounter such a powerful star beast in the near future.

But now, she suddenly felt less enthusiastic about it.

"I don't know either." Little White couldn't remain proud for more than three seconds. It was stunned for a moment when it heard Elizabeth's question. There was confusion in its eyes. "After I devoured the golden light spheres, I felt that my entire world became clearer. Then... I was enlightened!"

Elizabeth: ...

Sudden enlightenment?!

This was it?

She also felt the change after devouring the golden light spheres.

This was a rise in her Origin Of Soul. Her Enlightenment increased but it wasn't enough for her to learn four skills.

It was already quite impressive for her to comprehend the two skills from the Obelisk Scale Dragon Beast.

Without the golden light spheres, she might not be able to grasp these two skills.

Wang Teng's gaze flickered. He knew what was going on.

The golden ball of light could raise one's Origin Of Soul!

Little White's Origin Of Soul increased and so did its Enlightenment.

It was even possible that at that moment, Little White entered an enlightened state, allowing it to comprehend four skills and seized the opportunity to integrate its abilities into one of them. This gave birth to a completely new skill.

There was no denying that this was an incredible stroke of luck!

"Your situations are different, so it's not fair to make such comparisons," Wang Teng pondered, stroking his chin. "The drop of blood essence Little White consumed came from an ancestor-level dark apparition. It possessed an incredible legacy. It's reasonable that Little White managed to learn four skills."

"You are not bad either. I'm familiar with these two skills. They're quite powerful and far from ordinary skills. You haven't lost anything."

"That being said, I still can't help but compare." Elizabeth shook her head with a bitter smile and didn't dwell on this matter.

After all, she was a universe stage martial warrior so her temperament was far beyond that of an ordinary martial warrior. She was just a little unsettled when she heard that Little White had learned four new skills.

She wasn't jealous, just a little envious!

Of course, after hearing Wang Teng's consolation, she regained her composure.

Indeed!

The two skills she received were not bad. Her battle ability had already exceeded the past. There was nothing to be unsatisfied about.

"I didn't expect myself to be like this," Elizabeth sighed with a wry smile.

"It's alright. It's human nature." Wang Teng smiled. He looked at Little White and said, "Little White, your four skills are good, especially the Blood Crow Clone and the Three Thousand Flame Feathers. They will be very useful in the future. You must cultivate harder."

"I understand." Little White nodded slightly. It was getting better at speaking.

"Oh right, both of you should have inherited Dark Force, right?" A faint golden glow appeared in Wang Teng's eyes as he suddenly asked.

Everyone turned silent.

Little White and Elizabeth seemed a little nervous. They were just normal star beasts, so they were afraid of the dark Force.

"Don't worry, possessing dark Force doesn't mean you will become a dark apparition or beast." A wisp of dark Force appeared in Wang Teng's hand. It twirled around his arm like a black python.

Since everyone had dark Force, there was no need to hide anymore.

What's more, they already knew that he possessed dark Force.

Releasing the dark Force at this moment was merely an attempt to make it easier for Little White and Elizabeth to accept the situation.

If their master possessed dark Force, it should be easier for them to accept their dark Force.

"You're right. I realized this when I accepted the body of the Obelisk Scale Dragon Beast. Why does dark Force matter?" Elizabeth smiled and sighed with relief.

At the same time, she released wisps of dark Force from within her body, entwining around the two dragon horns. The dark Force gathered and lingered, adding a sense of evilness to Elizabeth's presence.

Along with the appearance of the black Force came a trace of a yellow Force. It seemed extremely thick and heavy.

The Obelisk Scale Dragon Beast possessed dark and earth Force. Elizabeth inherited both attributes.

Likewise, threads of dark Force emerged from Little White's body. Unlike Elizabeth, the dark Force permeated its entire body, accompanied by bursts of blood-red light and a strong scent of blood.

## Chapter 1695: Seal! (2)

No wonder everyone looked at the dark Force as if it was something evil.

Just by its appearance alone, it was as if the word "evil" was written on it.

Definitely!

If Little White and Elizabeth were to present themselves in such an appearance, they would undoubtedly be met with hostility and a desire for immediate elimination.

"The three of you are master and servants now." Round Ball was speechless. "I feel like an outsider."

It felt a little extra.

Look!

All three of them possessed dark Force but it didn't. If he wasn't an outsider, who would be?

"Look at how jealous you are. Why don't I modify you?" Wang Teng asked.

"If you have the ability, I don't mind." Round Ball chuckled.

It knew that Wang Teng couldn't do it. It had never heard of an intelligent being transforming into a dark creature. Even with Wang Teng's numerous abilities, he surely couldn't perform such a miraculous act.

"Wait for me. I'll turn you into a dark Round Ball sooner or later," Wang Teng said.

"Alright, I'll wait." Round Ball didn't mind. It glanced back and forth between Little White and Elizabeth with a hint of concern. "But what should we do with them?"

"I wanted them to help you kill the Chaotic Beasts but I don't think it's appropriate for them to appear outside now."

"The Chaotic Uncharted is in the hands of Stellar Academies. There must be many eternal stage martial warriors here."

"If they meet them, they will be able to tell that Little White and Elizabeth have dark Force. The eternal stage martial warriors might think they are dark apparitions or creatures and kill them."

"Don't worry. I have my ways," Wang Teng said.

"What can you do? Do you have a solution?" Round Ball scoffed in disbelief. But then, it suddenly had a realization. "Wait a minute... your Dark Force is hidden so well that even eternal stage martial warriors can't detect it. Do you really have a solution?"

"They won't be able to use my method. However, I recently discovered another interesting method. I can give it a try." Wang Teng smiled.

"What method?" Round Ball looked at him curiously.

"Seal!" Wang Teng spat out a word.

"You want to seal their Dark Force!" Round Ball said.

"That's right. Only by sealing it away can we prevent the leakage of Dark Force. Combined with some concealment skills, no one will detect it," Wang Teng explained. "Of course, the sealing method must be sophisticated enough, or it could still be discerned by certain formidable individuals."

"Do you have such a sealing skill?" Round Ball asked curiously.

"Since I said it, I have it." Wang Teng gave a mysterious smile. He didn't explain further and said to Little White and Elizabeth, "Let's start with Little White. It's weaker so it's easier to seal."

"Okay!" Elizabeth nodded. She was overjoyed.

It would be great if she could seal away her Dark Force.

She didn't want to constantly hide and be unable to show herself in front of others in the future.

Little White looked at Wang Teng and leaned its huge head towards him.

"Relax, don't resist my spiritual power!" Wang Teng consoled it softly.

"I understand," Little White replied softly.

Wang Teng's gaze turned sharp. Without further ado, he swiftly moved and arrived above Little White's head.

He sat cross-legged, closed his eyes, and extended his right hand, placing it between Little White's eyes. A surge of spiritual power flowed out from him. It ran through his arm and entered Little White's body.

The Force of a star beast was in the star core. Wang Teng's spiritual power passed through Little White's body and headed straight for the star core.

He activated his Real Eye and saw the condition within Little White's body clearly.

There existed a void in Little White's body, a realm between reality and illusion.

A unique star core was floating in it.

There were three patterns intertwined on the star core. One in blood red, one in dark red, and one in pitch black.

The three colors almost covered the entire star core, especially the pitch-black pattern, which occupied more than half of it. The dense power of darkness lingered within, sometimes revealing itself and other times hiding away.

Wang Teng was slightly taken aback. The power of darkness was indeed not to be underestimated!

If left uncontrolled, the power of darkness would undoubtedly prevail among the three Forces.

The dark red color was the special fire Force of the Spirit Flame Ghost Crow. The blood-red color came from the Blood Crow's special Force—Blood Force!

Even the combined efforts of the Blood Force and the Fire Force couldn't suppress the Dark Force. This proved how terrifying the dark Force was.

A thought sparked in Wang Teng's mind as he visualized the method of sealing. He began tracing the intricate golden patterns with his spiritual power and they covered the surface of Little White's star core.

This sealing skill came from Yu Yunxian!

That's right, the Crown Prince of the Great Qian Empire, Yu Yunxian!

The other party was in a strange state. Wang Teng observed him many times and finally noticed the problem.

Yu Yunxian's dark Force wasn't destroyed. It was just sealed.

Wang Teng saw the complete sealing method in his body. It was profound and engraved in Yunxian's body and the sea of nihility.

If Wang Teng didn't have the Real Eye and observed for a few days, he wouldn't have discovered the sealing method.

However, he didn't tell anyone. He was the only one who knew.

Yu Yunxian's matter involved many secrets, especially concerning the dark apparitions. There must be a reason why the Stellar Academies allowed him to enter the academy.

## **Chapter 1696: Seal! (3)**

Wang Teng didn't know what secrets there were so he could only pretend that he didn't know.

He observed everything from the shadows so he was able to have the initiative and was less exposed to danger.

After all, curiosity kills the cat!

He was curious but he didn't want to be the cat.

The sealing skill in Yu Yunxian's body was profound. It wasn't something an ordinary person could make. Wang Teng could only replicate it because he was a rune grandmaster and his spiritual power was immense.

At this moment, he was fully focused, not daring to relax even the slightest bit. He engraved the seal bit by bit with utmost caution.

When he was carving the runes, he had to constantly be on guard against the violent surges of dark Force.

After all, the dark Force wouldn't sit still and allow him to seal it without resisting.

Fortunately, Wang Teng possessed dark Force and Little White was suppressing its dark Force so the entire process went smoothly.

Half an hour passed.

Golden patterns covered the area where the black patterns were. No traces of the black patterns could be seen anymore.

Success! Wang Teng was elated.

The golden patterns covering Little White's star core suddenly burst into dazzling golden light, forming a massive golden net that completely isolated the fluctuations of the dark Force.

Outside, Wang Teng slowly opened his eyes. A smile appeared at the edge of his lips.

"How is it? Did you do it?" Round Ball asked hurriedly.

"Have I ever failed?" Wang Teng replied calmly.

"Pretentious!" Round Ball heaved a sigh of relief and complained with a smile.

The happiness on Elizabeth's face got stronger. Since Little White was able to succeed, it shouldn't be a problem for her.

At this moment, Little White opened its eyes and said happily, "Master, I can feel my dark Force getting suppressed."

"Don't use your dark Force unless necessary," Wang Teng smiled and reminded it.

"Yes." Little White nodded fervently. "I won't use my dark Force. Without it, I'm still very powerful."

"Wow, you've become more arrogant after your transformation," Round Ball teased it.

"I want to assist master," Little White raised its head and said proudly.

"Alright, Elizabeth, let me seal your dark Force." Wang Teng looked at the antman queen.

"Master, do you need to rest?" Elizabeth asked worriedly.

"It's alright." Wang Teng waved his hand and appeared on the antman queen's back. He stood in front of her human body and tapped her forehead with his forefinger.

With the experience from the first attempt, Wang Teng became much more skilled. He started carving with ease.

However, Elizabeth was a universe-stage martial warrior and possessed a huge amount of dark Force. Little White couldn't be compared to her.

Hence, Wang Teng spent three hours before he finished carving the seal. It completely suppressed the dark Force in Elizabeth's body.

"Done!"

Three hours later, Wang Teng opened his eyes again. Even he could feel a wave of mental fatigue washing over him.

This sealing technique was truly profound, and it imposed a tremendous strain on one's spiritual power. If it weren't for Wang Teng's immense spiritual power, he would never be able to sustain the completion of the seal's engraving.

"Thank you, master!" Elizabeth felt the condition of her body and was overjoyed. She thanked him hurriedly.

"You don't have to thank me. Just help me kill more Chaotic Beasts later," Wang Teng smiled and replied.

"I'll rest for a while. You can familiarize yourselves with your current body. We will start hunting later. We mustn't waste any time."

"Yes!"

Little White and Elizabeth nodded immediately.

Wang Teng didn't waste any time. He sat down cross-legged and started recuperating.

An hour later, he stood up abruptly and said, "Come, let's start hunting!"

He waved his hand and Little White and Elizabeth disappeared from the Devour Space.

The next instant, they appeared outside.

The appearance of Little White and Elizabeth in the chaos attracted the attention of many Chaotic Beasts.

Roar!

Roar!

...

Roars resounded as countless Chaotic Beasts were stirred up. They charged towards Wang Teng and the others.

This was the first time Little White and Elizabeth saw such an imposing scene. They were slightly taken aback.

"Are these the Chaotic Beasts?" There was a strange glow in Elizabeth's eyes. "They look different from the ones in my memory."

"Chaotic Beasts have no fixed form. Every Chaotic Beast is different," Wang Teng explained.

"Hmm, it's indeed special." Elizabeth nodded in deep thought.

"Are you afraid?" Wang Teng looked at Little White and smiled.

"I'm not afraid. I will help my master to slay these Chaotic Beasts," Little White's gaze was sharp. The Spirit Flame Ghost Crows were known for their viciousness, and even though Little White had been raised by Wang Teng since it was young, it still retained its wild and ferocious nature. How could it possibly be intimidated?

"Very good, let's... kill!" Wang Teng laughed. He was shouting when he said the last word.

Boom!

In an instant, Wang Teng, Little White, and Elizabeth dashed out. Terrifying Forces erupted from their bodies.

This time, Wang Teng didn't choose to hide and kill them slowly. He went straight on.

He had helpers and a universe-stage martial warrior like Elizabeth. There was no need to be afraid of these celestial stage and cosmos stage Chaotic Beasts.

Let's fight!

"Elizabeth, you need to use the power of laws of origin to kill these Chaotic Beasts," Wang Teng said.

"Okay!" Elizabeth's gaze turned sharp. The two dragon horns on top of her head suddenly emitted an earthy yellow glow, forming a beam of yellow light that shot towards the horde of Chaotic Beasts ahead.

Although she couldn't use her dark Force and only used her earth Force, the power of the Dark Obelisk Dragon Light Beam shouldn't be underestimated.

The pillar of light swept through the Chaotic Beasts. The power of laws of origin spread out and instantly killed a large number of Chaotic Beasts.

There were a large number of Chaotic Beasts, and some managed to evade the destruction of the beam. They roared in anger as they charged towards Elizabeth, either opening their huge mouths to bite at her or conjuring chaotic energy spheres to blast at her.

A tremendously heavy yellow glow suddenly surged out from Elizabeth's body. It formed a layer of yellow scales, resembling dragon scales, on her massive snow-white form. It exuded a majestic and awe-inspiring aura, providing an astonishing level of defense.

All the attacks landed on her but they couldn't hurt her at all.

Wang Teng felt at ease. Elizabeth's battle power had exceeded his imagination. With her around, they were invincible.

Then, he looked at Little White and was stunned.

## **Chapter 1697: Special Chaotic Beasts! Space Concealment! (1)**

On the other side, Little White's situation was surprisingly on par with the universe stage Elizabeth.

30 Little Whites attacked at the same time!

This was a majestic sight!

This was Little White's Blood Crow Clone. There were 30 Blood Crows in total, and the stench of blood filled the air. With Little White in the center, attacks shot out of their mouths and turned into blood sickles, reaping the lives of the Chaotic Beasts.

These Blood Crows were only at the low-tier imperial level, but they were more than enough to deal with the Chaotic Beasts.

Due to their incredible speed, they raced through the chaos like streaks of blood, leaving behind a trail of crimson brilliance.

Their metal-like wings slashed through the air like blood-red blades, chopping the Chaotic Beasts around them into two.

What's more, Wang Teng distinctly felt the power of laws of origin within those attacks.

Little White could use the laws of origin!

Wang Teng was astounded by this discovery.

Mind you, Little White was only a mid-tier imperial-level star beast. It was equivalent to a cosmos-stage martial warrior.

Normally, martial warriors needed to reach the universe stage to grasp the power of laws of origin. This applied to star beasts too.

Of course, some talented martial warriors could grasp the power of laws of origin at the cosmos stage.

Wang Teng was one of them!

However, he didn't expect Little White to have this talent too. It grasped the power of laws of origin when it was at the mid-tier imperial level.

It looked like, after the transformation, Little White's ability and potential increased tremendously.

It was entirely different from before!

This ability exceeded Wang Teng's expectations.

Powerful!

It was extremely powerful!

This level of power far surpassed that of a normal mid-tier imperial-level star beast and could even rival the offspring of a Universe Behemoth.

The Universe Behemoth was a powerful race in the universe. They were considered star beasts but they were mightier than normal star beasts.

After Little White transformed, it could be compared to the offspring of the Universe Behemoth. This change was astonishing. Wang Teng was overjoyed.

The greater Little White's potential, the higher its achievements in the future.

Once it matured, it might indeed be worthy of being called a Universe Behemoth.

Based on Little White's current potential, Wang Teng felt that it might advance to the ultimate stage imperial level in the future, also known as the ultimate stage beast emperor!

It was equivalent to a universe-stage martial warrior!

Of course, with his help, when the opportunity arrived, Wang Teng believed that Little White's achievements would be higher.

Becoming a beast titan wasn't impossible!

Wang Teng felt relieved for some reason.

My son... wait, my crow has the potential to become a beast titan!

Little White didn't know what Wang Teng was thinking. If it knew that Wang Teng had such high hopes for it, it would be... elated!

Little White's greatest wish was to be able to help Wang Teng and stay by his side forever.

It was a loyal and devoted crow!

At this moment, Little White was working hard to kill more Chaotic Beasts. It wanted to kill more for Wang Teng.

This was its first battle after the transformation. It wanted to display its ability and let Wang Teng know that after the transformation, it was no longer the weak Little White. It was a real ferocious eagle... crow!

Seeing that both Little White and Elizabeth were not in danger, Wang Teng withdrew his gaze and began hunting as well.

Boom!

A burst of green flames erupted from his body, swirling outwards in all directions. The flames condensed into tongues of fire, resembling fiery pythons, as they surged towards the Chaotic Beasts.

The Chaotic Beasts were killed one by one. Golden light spheres appeared and attribute bubbles were dropped.

Wang Teng released his spiritual power and picked them up.

Origin of Wood\*10

Origin Energy of Chaos\*80

Blank Attribute\*7000

Origin of Metal\*25

Origin Energy of Chaos\*120

Blank Attribute\*8500

...

The attribute bubbles merged into Wang Teng's body and mind. Wang Teng wasn't in a hurry to sort them out since they were all his anyway, and they couldn't escape!

He stored the golden light spheres in his Devour Space temporarily.

More and more Chaotic Beasts gathered around them. But, they were powerless against the combined efforts of Wang Teng, Little White, and Elizabeth.

Most of them got slaughtered. They couldn't get close to these three fellows at all.

Round Ball clicked its tongue secretly when it saw this scene.

Good lord!

Little White and Elizabeth's battle power had become so terrifying!

It suddenly felt fortunate that Wang Teng gave them the golden light spheres first.

After their transformations, these two fellows had indeed become extremely formidable. Their speed in hunting down the Chaotic Beasts was significantly faster than what Wang Teng was capable of before.

Most importantly, they weren't afraid of getting ganged up by the Chaotic Beasts anymore.

Whether it was Elizabeth, who was at the universe stage, or Little White's Blood Crow Clone, they were more than enough to deal with a large number of Chaotic Beasts.

Look, the Chaotic Beasts couldn't do anything to them!

With the addition of Little White and Elizabeth, killing the Chaotic Beasts became much easier. Wang Teng didn't need to hide anymore.

That way, he would get twice the result with half the effort!

Perhaps in just a few days, the golden energy spheres they acquired would surpass what Wang Teng gained in an entire month.

Round Ball got excited when it thought about this.

After all, these golden light spheres were for him and Wang Teng to use.

The more golden light spheres they collected, the more spheres he could get.

"Wang Teng, Little White, Elizabeth, all the best! Go!"

Round Ball got more and more excited. It started to shout and cheer for Wang Teng and the pets.

## **Chapter 1698: Special Chaotic Beasts! Space Concealment! (2)**

Wang Teng was speechless.

This fellow couldn't kill the Chaotic Beasts so it could only cheer for him.

Compared to Little White and Elizabeth, it was useless.

He knew clearly what Round Ball was thinking.

This bastard just wanted to get more golden light spheres. Otherwise, why would it be so enthusiastic in cheering?

However, Little White was greatly encouraged by the cheer and became even more determined in hunting down the Chaotic Beasts.

Elizabeth also saw through Round Ball's thoughts and shook her head. She found it a little funny.

"All the best!"

"Hooray!"

...

Round Ball noticed that at least Little White was encouraged by it so it became even more enthusiastic. It waved its small paws and continued to shout.

"One more shout and you will lose ten golden light spheres," Wang Teng said calmly.

Round Ball immediately fell silent. It covered its mouth with its hand and swallowed the words of encouragement it wanted to say. It blinked furiously and looked at Wang Teng nervously.

Wang Teng rolled his eyes. He was too lazy to care about it.

As time went by, the number of Chaotic Beasts around them decreased gradually.

There were many Chaotic Beasts but within a given area, there could only be a limited number. It was unlikely that there would be any more than that.

After a round of killing by Wang Teng, Little White, and Elizabeth, the remaining scattered Chaotic Beasts realized the dire situation and swiftly fled.

Wang Teng didn't chase after them. He waved his hand and said to Little White and Elizabeth, "Get some rest. We will continue hunting in other areas."

"Okay!" Little White and Elizabeth replied in unison.

They had also expended a considerable amount of their Force. While it was possible to continue hunting, the sheer number of Chaotic Beasts did pose a risk. It would be better to take a moment to replenish their Force before resuming the hunt.

Wang Teng scanned his surroundings and picked up all the attribute bubbles and golden light spheres. He didn't miss a single one.

With the addition of Little White and Elizabeth, the hunt became incredibly enjoyable!

In the past, he was chased around by the Chaotic Beasts and had to hide. He was in a miserable state. Now, he could finally vent his frustration.

Indeed, one couldn't fight alone. Helpers were needed.

With Little White and Elizabeth's ability, they were good enough to be his helpers.

There was no need to talk about Elizabeth. She could be his trump card. If they met a universe-stage martial warrior, she would be his lifesaver.

Based on Wang Teng's observation, Little White's strength was now on par with the top geniuses in the League Of Talents.

Wang Teng even felt that it might be able to fight with Yu Yunxian.

Although it might come across as looking down on Yu Yunxian, the truth was that Little White was indeed formidable.

Little White was as powerful as the offspring of the Universe Behemoth. He wasn't lying when he said that.

Yu Yunxian possessed the Golden Wing Crimson Celestial Tiger. Wang Teng wondered if Little White could defeat it.

If he had the chance next time, he would let Little White compete with the Golden Wing Crimson Celestial Tiger.

Wang Teng thought to himself.

One was the star beast he groomed, while the other was a real Universe Behemoth!

If Little White could defeat the Golden Wing Crimson Celestial Tiger, his sense of accomplishment would be off the charts.

He groomed an existence that surpassed the Universe Behemoth. Who else could achieve such a feat?

After resting for two hours, Wang Teng and the others had recovered most of their Forces. They set off again and charged towards other areas.

The Chaotic Uncharted was a treasure trove. There were even more Chaotic Beasts for them to hunt.

To Wang Teng, every second in the Chaotic Uncharted was precious. He mustn't waste it.

The battle continued!

In the chaos zone, large numbers of Chaotic Beasts appeared. Wang Teng, Little White, and Elizabeth charged out at the same time and started fighting with the Chaotic Beasts.

One by one, the Chaotic Beasts were slain in their hands. It was like harvesting crops.

Wang Teng alternated between using the various power of laws of origin. This way, he could familiarize himself with their usage quickly and kill all kinds of Chaotic Beasts quickly.

This was because he realized that these Chaotic Beasts followed the laws of heaven and earth too. For instance, if a Chaotic Beast grasped the laws of fire origin, it would be easier to defeat it using the power of laws of water origin.

He could help Wang Teng to conserve the different power of laws of origin.

One couldn't deny that combat was indeed the most effective way to enhance one's strength.

Swoosh!

At this moment, a soft sound was heard behind Wang Teng.

The voice came abruptly and out of nowhere. It was extremely faint, and if one wasn't careful, it would go completely unnoticed.

"Master, be careful!"

Little White and Elizabeth shouted abruptly.

"Wang Teng, be careful!" Round Ball noticed the abnormality behind Wang Teng and its expression changed.

Wang Teng's expression didn't change but his pupils constricted slightly. This time, he didn't use his Light Bolt. Instead, he disappeared on the spot, merging into space.

Space Flash!

In an instant, a pitch-black crack appeared on the spot where Wang Teng was standing a second ago. His lingering shadow was still there and it was torn into two.

Round Ball and the others thought that Wang Teng didn't manage to evade. They widened their eyes in astonishment.

But soon, they realized that it was just a lingering shadow. There was no blood splattering. They heaved a sigh of relief.

Some distance away, space fluctuated and Wang Teng stepped out of the void. He stared coldly at the spot where he was standing a moment ago.

## **Chapter 1699: Special Chaotic Beasts! Space Concealment! (3)**

Unfortunately, only a healing dimensional rift could be seen. There was no trace of any Chaotic Beasts in sight.

"Space power!" Wang Teng frowned. He felt a faint space fluctuation just now. Someone was using the power of space.

"Did you see what it is?"

Wang Teng asked as he observed his surroundings.

"No. We only saw a black shadow flashing past and disappearing into the dimensional rift." Round Ball shook its head grimly.

"Interesting!" Wang Teng couldn't help but smile. He scanned his surroundings and activated his Space Physique. Strands of space power spread out from his body as he searched for the Chaotic Beast that used the power of space.

However, no matter how hard he tried, he couldn't find it.

He frowned uncontrollably.

This was the first time something like this happened. There was actually something that could evade his detection.

Wang Teng utilized his spiritual power and activated his Real Eye, but he still couldn't find the other party.

"Be careful. This should be a Chaotic Beast that grasped the power of laws of space origin. It's going to be hard to deal with it." Wang Teng turned serious as he spoke to Little White and Elizabeth.

Little White and Elizabeth turned serious when they heard this.

They knew that this Chaotic Beast was a tough opponent after witnessing its powerful ambush. Upon hearing Wang Teng's words, they became even more careful, not daring to underestimate the situation.

Anyone who grasped the power of space wasn't easy to deal with.

The power of space was one of the most mysterious forces in the universe. It possessed unfathomable capabilities. A slight carelessness could lead to unforeseen consequences.

This was even more so for normal martial warriors and star beasts.

Most martial warriors could only comprehend the Space Domain after they reached the heaven stage. Thus, they were at a disadvantage when facing martial warriors who possessed the Space Domain.

It sounded long but everything happened within a few seconds.

The Chaotic Beasts behind charged over again and surrounded Wang Teng, Little White, and Elizabeth.

Wang Teng paid attention to his surroundings as he killed the Chaotic Beasts. He didn't dare to relax.

Swoosh!

Suddenly, amidst the chaos, he felt the ripple of space again from the left side.

This time, he was prepared. He turned into a streak of light and evaded the attack with a slight flash.

Another crack appeared in space.

Invisible and intangible, yet undeniably present, an attack flashed by, cutting through space and causing a dimensional rift to appear.

Following the spatial fluctuations, Wang Teng appeared about 500 meters to the left. However, he was still too late. He only managed to catch a glimpse of a black silhouette. The opponent had already fled, disappearing once again.

However, he remained unperturbed. With a calm expression, he strolled through the void, continuing his hunt. It seemed as though he didn't care about the previous ambush or the lurking Chaotic Beast in the shadows.

He believed that as long as he was here, the Chaotic Beast would appear sooner or later. It was only a matter of time before it fell into his grasp.

"Master, I saw it. It looks like a fish-like Chaotic Beast. It uses its body to attack!" Elizabeth's voice suddenly entered Wang Teng's ears.

She was a universe stage martial warrior so she had some understanding of space power.

She had been keeping a close eye on her surroundings all along. When the black shadow appeared, she chose not to act but instead observed it carefully.

Because she knew that since Wang Teng was able to evade the attack once, he would be cautious and capable of evading a second time. There was no immediate danger.

Hence, what she needed to do was to help Wang Teng get information about the other party.

Also, from a bystander's point of view, it was easier to see things that the people directly involved might overlook.

The black shadow was focused on attacking Wang Teng so he probably didn't expect to fall into Elizabeth's gaze.

"A Chaotic Beast that attacks using its own body, resembling a fish?" Wang Teng's eyes gleamed with excitement. He didn't expect Elizabeth to assist him and provide such crucial information. He immediately expressed his appreciation, saying, "Well done, keep observing."

"Yes!" Elizabeth hesitated before asking, "Do you need my help?"

Wang Teng contemplated for a moment. He didn't reject her and said, "You can do this and then this... do you understand?"

"Yes... I understand!" Elizabeth's expression turned strange. She couldn't help but ask, "Is it really alright?"

"Don't worry, I know what I'm doing," Wang Teng said confidently.

"Alright." Elizabeth finally agreed.

The two of them communicated using voice transmission so no one knew what they said.

Round Ball only saw the two of them exchanging glances before shifting their gazes away. It was puzzled.

What secrets were they hiding from it?

However, it didn't dare to disturb Wang Teng. What if he was ambushed by the lurking shadow? Wang Teng would kill him.

Well, this was secondary. It was more worried that Wang Teng wouldn't give it any golden light spheres.

Hence, it immediately shut its mouth obediently. Only its eyes were moving back and forth as if it wanted to help Wang Teng find the black shadow.

It felt that it should make a contribution too. That way, he could get more golden light spheres.

As an intelligent lifeform, it mustn't be so useless!

I, Round Ball, will rise to the challenge. Round Ball's eyes glimmered with determination.

Wang Teng didn't know that his unintentional pressure caused Round Ball to become competitive. It decided not to slack anymore.

## **Chapter 1700: Special Chaotic Beasts! Space Concealment! (4)**

All along, Round Ball had placed itself in the role of an intelligent companion. It believed that it could assist Wang Teng in gathering various information and even act as a butler, managing everything for him.

But now, it suddenly realized that as Wang Teng's ability increased, he would only become stronger in the future. If it continued to be a passive observer, it would be useless most of the time.

This was a little awkward!

In the end, it was the strength that speaks in the universe.

By possessing strength, it would also have more influence and authority on Wang Teng's side.

Round Ball wanted to be the boss of all Wang Teng's pets and subordinates!

Intelligent lifeforms were not devoid of combat capabilities. For instance, Round Ball possessed spiritual power equivalent to that of a universal-stage martial warrior.

However, it was too useless. It had been rather inactive in battles and hadn't had much opportunity to showcase its true capabilities.

Now, it could only release his spiritual power to sense its surroundings. He hoped that it could help Wang Teng to find the black shadow.

Sometimes, spiritual power was extremely useful. It had a distinct advantage in terms of perception.

Soon, Round Ball noticed something. Its expression changed slightly and it shouted.

"Wang Teng, it's behind you!"

Wang Teng was surprised. He didn't expect Round Ball to detect the lurking black shadow.

Actually, even without Round Ball's reminder, Wang Teng had already noticed the presence of the enemy. However, he didn't say anything. It was a good thing that Round Ball was willing to help, and he didn't want to discourage it.

But, even though he had discovered the other party, Wang Teng didn't move.

A space fluctuation swept over from behind him as if possessing the power to tear everything apart. Space itself was torn asunder in its wake.

"Dodge!" Round Ball's expression changed drastically as it shouted hurriedly.

It didn't know what was wrong with Wang Teng. It had already reminded him so why didn't he move?

The next instant, the surrounding space was sealed.

The Chaotic Beasts in that area, including Wang Teng, froze.

No one was spared!

Everyone froze.

And that intangible space attack also froze midway, unable to advance any further.

Squeak!

An ear-piercing scream was heard.

There was a hint of... panic in its voice.

"It's useless. Let's see where you can run to this time." The power of space in Wang Teng's body erupted and broke the seal. He moved his body and stretched out his hand.

Boom!

The erupting spatial power transformed into a cage, enveloping the previously concealed black shadow behind.

At this moment, everyone finally got a clear view of the black shadow. It turned out to be a knife-shaped fish with a dark purple-black body. It was over a meter in length and resembled a sharp-edged blade.

Squeak!

The blade fish-shaped Chaotic Beast thrashed frantically within the space cage but was unable to break free from Wang Teng's space confinement.

Wang Teng utilized the majority of his space power to stop it. He wouldn't let it escape.

"It's a fish!" Round Ball floated over from afar and circled the Chaotic Beast in surprise.

"This isn't an ordinary fish. It's a broadsword fish that grasped the power of laws of space origin!" Wang Teng smiled. "But at least I've caught it now."

"Were you discussing how to catch it just now?" Round Ball remembered Wang Teng and Elizabeth's eye contact and asked curiously.

"Here, only Elizabeth can seal space so I'll have to discuss it with her," Wang Teng smiled. "Besides, she was the one who first noticed that it was a fish-like Chaotic Beast

using its own body as a weapon. It was thanks to her that I was able to formulate a plan to capture it."

"Darn it, you fooled me again!" Round Ball looked at Elizabeth and said in frustration.

"It's my job to help master." Elizabeth covered her mouth and smiled when she saw its reaction.

"It's too dangerous. Aren't you afraid of putting yourself at risk when you lock up that area?" Round Ball said sternly.

"You know that I have the power of space." Wang Teng smiled. "Space freezing can't trap me."

Round Ball didn't say anything else. It looked at the Chaotic Beast in front of it and said, "The other Chaotic Beasts have no intelligence but this Chaotic Beast seems a little sly. What do you plan to do with it?"

"Let me try it." Wang Teng touched his chin and stretched out his hand. He pointed at the Broadsword Chaotic Beast.

Bang!

The struggling Broadsword Chaotic Beast exploded instantly and turned into a ball of chaotic currents. However, they quickly congregated again.

Wang Teng controlled his attacking power and didn't kill it completely.

When the Broadsword Chaotic Beast exploded, it dropped two attribute bubbles. Wang Teng blinked and picked them up.

Origin of Space\*10

Space Concealment\*50

...

A profound enlightenment appeared in Wang Teng's mind, accompanied by a vivid image.

In the image, a Broadsword Chaotic Beast shuttled back and forth in the void.

Behind it, several Chaotic Beasts of various appearances were fiercely chasing after it.

These Chaotic Beasts had all grasped the power of laws of space origin. Each of their attacks contained the power of space, making them incredibly powerful and formidable opponents.

Normally, Chaotic Beasts would fight and kill each other like normal star beasts.

Chaos Beasts with the same laws of origin could devour each other to strengthen the power of laws of origin in their bodies.

It was obvious that this was a game of survival of the fittest.

However, the Broadsword wasn't a weakling. It shuttled back and forth between dimensional rifts and concealed itself in space, preventing other Chaotic Beasts from finding it.

The other Chaotic Beasts possessed the power of space but they couldn't find any traces of Broadsword. In the end, they roared and left.

The scene comes to a halt at this point.

Space Concealment! Wang Teng regained his senses. There was a sharp glint in his eyes.
