- Chapter 1808: The Request From Two Eternal Stage Martial Warriors! (4)

Chapter 1808: The Request From Two Eternal Stage Martial Warriors! (4)

"I wonder what Wang Teng and the grandmasters are doing."

"That's right. He has been in there for so many days!"

"It looks like their conversation went well. If not, they would have come out long ago."

"Wang Teng is a monster. His martial talent is already impressive, but his alchemical proficiency is equally terrifying!"

"That's right. I've enquired about those grandmasters. They're all at the eighth or ninth-level grandmasters. Wang Teng's alchemical skills are quite strong if he's able to converse with them."

"I think two eternal-stage martial warriors went in along the way!"

"When did they go in?"

"When you went out to play!"

"F**k, I stepped away for a while and two eternal-stage martial warriors came?"

"Did they come out?"

"No, they're still inside."

"Why didn't you tell us this important piece of news earlier? You idiot."

"Are those two eternal-stage martial warriors looking for a grandmaster alchemist to make some pills?"

...

The group of them immediately began discussing.

However, they didn't leave. After waiting for so many days, how could they give up halfway?

Suddenly, dark clouds gathered in the sky, swirling right above the alchemy room where Wang Teng and the others were.

"Lightning calamity!"

"Oh my god, someone is really making pills!"

"I wonder which grandmaster is making it."

"This lightning calamity seems a little scary. Look at the scale. The lightning seemed powerful."

"Looks like I didn't wait in vain."

...

Everyone looked up in astonishment. A commotion spread among them.

Boom!

A clap of thunder resounded, echoing through the sky with great momentum. It even drew the attention of the staff inside the main hall.

At the same time, outside the alchemy room, Dong Yutang and the others were elated. Their expressions changed abruptly.

"Success!"

The two eternal-stage martial warriors stood up from their chairs.

They looked at the door of Wang Teng's alchemy room excitedly.

They hadn't expected it to be a success!

The appearance of the pill calamity indicated that the alchemical process had reached the last congregation stage. Once they passed the lightning calamity, it would be considered a complete success.

How could they not be excited?

Originally, the two eternal-stage martial warriors were prepared to give up. Wang Teng had been inside for two days and there was no news at all.

But in the final moment, he succeeded!

Boom!

A column of golden light shot up into the sky, piercing through the gathering dark clouds.

Within that column of light, three dazzling and round pills floated up, emitting a rich medicinal fragrance.

"Three pills!" The three grandmasters widened their eyes in surprise.

Especially Dong Yutang. He didn't make any pills but Wang Teng made three.

"Good! Good! Good!" Hu Qi burst out laughing.

"Junior Wang Teng's alchemy mastery is amazing!" The eternal stage female martial warrior exclaimed.

"Who would've thought? It's hard to imagine he's just a freshman," Hu Qi remarked.

"Hu Qi, the calamity of the Yin-Yang Dragon Essence Pill must be extraordinary. We will resist it together later," the eternal stage martial warrior said grimly.

"Don't worry, I won't let anything happen to this pill." Hu Qi patted his chest.

"You can both relax. Grandmaster Wang Teng has a weapon that can withstand the lightning calamity!" Dong Yutang added with a smile, seeing their improved mood.

"Oh, what kind of weapon can withstand the calamity lightning?" Huqi asked in surprise.

"You'll see later," Dong Yutang replied mysteriously.

"Hahaha, Old Dong, why are you leaving me hanging?" Hu Qi laughed.

Boom!

As they spoke, a calamity lightning descended from the sky. From below, a purple light rushed upwards at an extremely fast speed, colliding with the bolt of lightning.

Boom!

A resounding explosion filled the air as the first calamity lightning was blocked by the purple light.

"Huh?" Hu Qi looked at the purple light and couldn't help but mutter, "Is that... a brick?"

"Cough, I think it's a seal. However, the design is a little strange," Dong Yutang said.

"Yes, that makes sense. With Wang Teng's status, how could he wield a brick as a weapon!" Huqi nodded seriously.

The female eternal-stage martial warrior's expression turned strange.

However, their attention was quickly drawn once again to that purple light. Bolts of lightning struck down one after another, all blocked by the purple light. When the eighth calamity lightning arrived, the 'seal' seemed to have reached its limit.

Hu Qi turned serious. He prepared to act.

The final calamity lightning was the most terrifying. The 'seal' had reached its limit so it was unlikely able to withstand the ninth bolt of lightning.

However, at this moment, a figure shot into the sky from the alchemy room.

Boom!

The ninth calamity lightning descended with a resounding boom, resembling a fearsome thunderous dragon roaring as it charged toward that figure.

"Grandmaster Wang Teng!" Dong Yutang and the others were flabbergasted. How could a grandmaster resist the lightning calamity personally? Grandmaster Wang Teng was too reckless!

Huqi had initially intended to lend a hand, but he seemed to have realized something. A hint of curiosity flashed in his eyes and he stopped in his tracks.

Boom!

The lightning calamity struck Wang Teng's body instantly. Endless lightning engulfed him. The lightning was blindingly bright, completely obscuring Wang Teng's form.

"Erm..." Hu Qi was stunned.

This Wang Teng was quite bold.

The ninth lightning was formidable. Yet, he confronted it directly. Where did he get his courage from?

Chapter 1809: The Request From Two Eternal Stage Martial Warriors! (5)

"Junior Wang Teng is too reckless. How can he face it himself?" The female eternal stage martial warrior said anxiously.

She was grateful to Wang Teng for successfully refining the Yin-Yang Dragon Essence Pill and didn't want anything to happen to him.

However, they soon realized that they were overthinking. Wang Teng wasn't afraid of the power of lightning at all. He seemed to be as comfortable as a fish in the water as he bathed in the lightning.

Dong Yutang and the others were stunned. Their mouths were slightly agape, and their hearts shook.

Grandmaster Wang Teng is too... monstrous!

An alchemist resisted the calamity lightning head-on!

That was an unexpected change.

"Aren't we a little too weak?" Dong Yutang, Pu Yuanzhong, and Cecilia looked at each other and asked hesitantly.

As heaven-stage martial warriors, they didn't dare to directly confront the lightning calamity like this. Wang Teng was merely at the cosmos stage yet he was able to achieve such a feat. This made them wonder if they were too weak.

"I think that Grandmaster Wang Teng is too powerful!" Cecilia smiled bitterly.

"You don't have to compare yourself to him. If I'm not wrong, Junior Wang Teng has some kind of powerful physique talent and also cultivated a powerful physique training scripture. That's why he can withstand the power of the calamity lightning." Hu Qi's eyes gleamed with insight, and he stroked his chin with a curious expression, speculating.

It was truly difficult to connect a grandmaster alchemist with a physique martial warrior!

The difference was too significant!

"Physique talent! Physique training scripture!" Dong Yutang and the others' expressions became extremely interesting as if they had heard something extremely amusing.

At this moment, the power of lightning within the thunderclouds gathered and formed the last calamity lightning... the tenth calamity lightning!

This was what made a supreme-rank pill different. It possessed the tenth calamity lightning.

Hu Qi's expression turned solemn. The ninth calamity lightning of a ninth-level grandmaster pill was already very terrifying. Thus, there was no need to mention how terrifying the tenth calamity lightning would be.

Countless forces of lightning converged, transforming into a terrifying pillar of lightning that crashed down with a deafening roar.

Before the lightning around Wang Teng's body dissipated, the tenth calamity lightning arrived and landed on his body.

Wang Teng felt how terrifying the tenth bolt of lightning was. He activated the True Dragon Battle Physique (pseudo) after activating the Ancient God's Body.

Boom!

A loud explosion erupted in his body. The divine flames swept out, condensing on the surface of his body into scales of fiery dragons. It covered his entire body instantaneously!

The green dragon scales formed by the Emerald Glazed Flame resembled a green armor, giving Wang Teng a majestic appearance. An aura of tremendous strength emanated from within him!

"What is this?" Hu Qi and the female eternal stage martial warrior saw what happened through the lightning and were shocked.

Junior Wang Teng continued to exceed their expectations time and time again!

"That green flame seems to be a divine flame, right?" The female eternal stage martial warrior asked.

"Yes, I think so!" Hu Qi nodded. At this moment, he knew why Wang Teng was confident in refining the Yin-Yang Dragon Essence Pill even though he was an eighth-level grandmaster.

It was said that divine flames possessed a specific unique power that could aid alchemists in their elixir refining, increasing the rate of successful pill formation!

"What divine flame are you talking about?" Dong Yutang and the others asked in surprise.

The words 'divine flame' were like a bomb to alchemists. They were extremely sensitive to it.

"You might not be aware but Wang Teng has a divine flame!" Hu Qi smiled.

"What?"

"Grandmaster Wang Teng possessed a divine flame?!"

"Really?"

...

The three grandmasters were too shocked and exclaimed in disbelief.

"There's no mistake. You can't see the situation under the lightning, but I can see that he is using a divine flame. It's a green flame," Hu Qi said.

"Green flame!!!" The three of them were dumbfounded. They were unable to calm down for a long time.

"No wonder! No wonder!" Dong Yutang muttered absentmindedly. He finally knew why Wang Teng was confident in refining supreme-rank pills even though he was only an eighth-level grandmaster.

Of course, he didn't think that it was just because of the divine flame. Wang Teng's mastery in alchemy must be great as well.

All these factors allowed Wang Teng to refine supreme-rank pills when he was only an eighth-level grandmaster.

Alchemists were a profession that valued skills. There are no shortcuts or luck involved.

While they were talking, the lightning in the sky dissipated, revealing Wang Teng's face.

The green dragon scales on the surface of his body had long vanished. Perhaps among the people present, only the two eternal stage martial warriors witnessed what happened just now.

In the eyes of outsiders, Wang Teng had blocked the calamity lightning with his physical strength, emerging unscathed. Not a single piece of his clothing was damaged, and coupled with his calm expression, he looked extremely dashing.

This True Dragon Battle Physique (Pseudo) seems incredible! Wang Teng thought to himself.

This was Wang Teng's first time using the True Dragon Battle Physique (Pseudo) and he understood how powerful this physique was. He might be able to withstand an ordinary universe-level attack.

Of course, it would be a different story if he used the power of origin.

Chapter 1810: Eternal Stage Matter! Abnormal Movement in the Chaotic Star Sea! (1)

In the sky.

The dark clouds finally began to disperse slowly, causing many people to heave a sigh of relief.

The calamity lightning just now was too terrifying. One could feel the boundless heavenly might. Many martial warriors below the heaven stage almost couldn't breathe.

They gazed at the figure standing resolutely in mid-air, their eyes filled with awe!

"What kind of calamity lightning was that? There were ten of them!"

"That's right. Doesn't a ninth-level grandmaster pill only have nine bolts of calamity lightning?"

"You guys don't know this, right? Above the ninth-level grandmaster pill is an even harder pill to refine. It's called a supreme-rank pill and it's very rare!"

"Supreme-rank pill!!!!"

"Supreme-rank pill? I've lived for hundreds of years and I only knew about this today!"

"That's not important. What's important is that Wang Teng can refine supreme-rank pills. Doesn't that mean that his alchemy skills have reached the peak of the grandmaster level?"

"That must be the case. Otherwise, how could he refine a supreme-rank pill!"

"He's insane. Wang Teng reached the peak of the grandmaster level at such a young age. This is unbelievable!"

"Most importantly, he can resist calamity lightning!"

"This doesn't seem right."

Silence.

As the lightning calamity came to an end, the onlookers couldn't help but start discussing among themselves. The astonishment in their hearts remained for a long time.

The impact Wang Teng had brought to them was truly immense. They had thought that refining grandmaster-level pills 12 times in three days. was already remarkable, but they didn't expect there to be more shocking things to come.

That was a supreme-rank pill!

After many people understood what a supreme-rank pill was, they knew what it meant to be able to refine a supreme-rank pill.

It was safe to say that an alchemist who could refine supreme-rank pills was already half a step into the divine level!

To refine supreme-rank pills, relying solely on external forces and luck was insufficient. One's mastery of alchemy must reach a profound level. Otherwise, it was all just empty talk.

Wang Teng ignored everyone's expressions and picked up the attribute bubbles around him.

Constellation Force (Lightning)*2500

Constellation Force (Lightning)*3000

Heaven-Earth Calamity Lightning*600

Heaven-Earth Calamity Lightning*800

Not bad! Wang Teng's eyes lit up. He didn't expect to obtain that much attributes this time. It was even more than the amount he obtained during the previous 12 times.

The lightning constellation Force merged into his body and flowed through his limbs and bones, it entered his Inner Cosmos and turned into purple constellations!

Boom!

There was a loud explosion. Wang Teng's constellation lightning Force had reached the third level of the cosmos stage!

Constellation Lightning Force: 2800/30000 (cosmos stage third level)

Wang Teng looked at his attributes board and nodded in satisfaction. No one would have thought that his realm would increase by one level after refining a few grandmaster-level pills.

He killed two birds with one stone!

The recent 12 calamity lightnings had provided Wang Teng with a lot of constellation lightning Forces. He was already at the peak of the second level of the cosmos stage. After obtaining another 5,500 points of attributes, his constellation lightning Force leveled up immediately.

Without any hesitation!

Then, there was the Heaven-Earth Calamity Lightning. He had obtained a total of 1,400 points, which was not a small amount.

The calamity lightning caused by this supreme-rank pill was indeed extraordinary!

What made Wang Teng even happier was that after the 1,400 attribute points merged into the Heaven-Earth Calamity Lightning in his Inner Cosmos. The ball of Heaven-Earth Calamity Lightning underwent a mysterious change!

It seemed to be transforming!

The entire ball of Heaven-Earth Calamity Lightning suddenly expanded. Lightning flashed continuously and erupted with a dazzling light.

Unfortunately, no one could see it.

That cluster of lightning, shimmering with silver radiance, was undergoing a transformation. Its color is deepening, gradually taking on a hint of purple hue.

His first-rank calamity lightning was originally silver-white, but the true calamity lightning was purple.

It seemed that Wang Teng's calamity lightning power was undergoing a true metamorphosis, displaying a trace of purple hue and significantly increasing in its might.

Wang Teng could feel that this ball of Heaven-Earth Calamity Lightning had become stronger, emitting a faintly terrifying aura akin to heavenly might. It contained a dreadful power.

Wang Teng glanced at his attributes board.

Heaven-Earth Calamity Lightning: 200/20000 (second-rank)

Second rank!

Wang Teng's Heaven-Earth Calamity Lightning had reached the second rank!

During this period, Wang Teng had experienced many calamity lightnings. During the time in the Chaotic Uncharted, he had picked up a lot of attribute bubbles. In addition to

the dozens of calamity lightnings in the past few days, he didn't realize that his Heaven-Earth Calamity Lightning attribute had reached the peak of first rank. He could advance soon.

The 1,400 attribute points he obtained this time allowed his Heaven-Earth Calamity Lightning to reach the peak of first rank. It finally advanced and transformed from the first rank to the second rank.

Wang Teng was in a wonderful mood. This was a pleasant surprise.

Moreover, there were two surprises, one big and one small.

If not for the fact that the situation did not allow it, he would have immediately experimented with the second-rank Heaven-Earth Calamity Lightning.

But looking around, there were too many people. It was better to save it for later.

Wang Teng looked at the golden pillar of light below. After the calamity lightning disappeared, the pillar of light also dissipated slowly. Three round pills appeared in front of him, emitting an even stronger fragrance.

Many people smelled this fragrance and their spirits were shaken.

Wang Teng immediately kept the three pills into the jade bottle and sealed them. Then, he descended from the sky and disappeared in front of everyone.

Chapter 1811: Eternal Matter! Abnormal Movement in the Chaotic Star Sea! (2)

In the alchemy room, the dome was closed.

Wang Teng walked out of the alchemy room and met Dong Yutang and the others in the hall again.

"Junior Brother Wang Teng, no, Grandmaster Wang Teng!" Hu Qi's white-haired face was filled with excitement. He strode forward and changed the way he addressed Wang Teng.

Wang Teng was caught between laughter and tears.

How realistic!

"Grandmaster Wang Teng, have you succeeded in making the Yin-Yang Dragon Essence Pill?" The eternal stage female martial warrior walked forward and asked.

They saw Wang Teng resisting the lightning calamity but they still wanted to hear the answer from his mouth. They were afraid of unforeseen circumstances.

The Yin-Yang Dragon Essence Pill was too important to them.

"Thankfully, I haven't disappointed your expectations!" Seeing their anxiousness, Wang Teng didn't keep them in suspense and immediately took out a jade bottle. He handed it over to the two of them.

The three Yin-Yang Dragon Essence Pills lay quietly inside. The two eternal stage martial warriors widened their eyes and stared at them intently as if trying to discern something.

Dong Yutang and the others came over and asked after some hesitation, "Can you open it for us to take a look?"

Hu Qi looked up at Wang Teng instinctively.

"Of course!" Wang Teng nodded nonchalantly.

Hu Qi took a deep breath and opened the jade bottle. He poured out a Yin-Yang Dragon Essence Pill and let it float above his palm.

"One, two, three... Gasp, eight patterns!"

Dong Yutang and the others stared at the Yin-Yang Dragon Essence Pill, looking closely at the patterns on its surface and carefully counting them. They couldn't help but gasp in shock.

Eight patterns meant that the Yin-Yang Dragon Essence Pill had reached eighty percent of its medicinal power!

They couldn't help but look at Wang Teng, who had a calm expression on his face. Their hearts were churning with astonishment.

The Yin-Yang Dragon Essence Pill was a supreme-rank pill but it could reach 80% efficacy. Just how profound was Wang Teng's mastery of alchemy?

At this moment, they couldn't help but feel a genuine sense of admiration for Wang Teng.

"Eight patterns? Looks like Grandmaster Wang Teng's 50% to 60% confidence is a conservative estimate," Hu Qi said with a smile. He was elated.

He thought Wang Teng was being modest.

"Initially, I'm only 50% to 60% confident. However, I accidentally broke through to the ninth grandmaster level so my confidence increased," Wang Teng smiled and replied.

Hu Qi: ...

Dong Yutang and the others stared at Wang Teng in disbelief. They stuttered, "Grandmaster Wang Teng, you advanced to the ninth grandmaster level?"

"That's right. Maybe I'm just lucky. When I was studying the Yin-Yang Dragon Essence Pill, I seemed to have understood something and achieved a breakthrough," Wang Teng said with a straight face, nonchalantly spinning a tale.

Dong Yutang and the others: ...

What a sudden breakthrough!

How come they never experienced such a "sudden" breakthrough?

The three of them looked at Wang Teng's calm expression and felt a little... jealous!

Seeing their expressions, Wang Teng felt a bit guilty. Was he overdoing it?

They were all his elders!

He would take note next time.

"Grandmasters, there's no need to be like this. Actually, I only encounter such situations occasionally. It normally happens two or three times a year. It's not that common," Wang Teng reassured them.

Dong Yutang and the others: ...

Two or three times a year wasn't common? Did they have some misunderstanding about enlightenment?

Hu Qi also caught on and gave them a peculiar look. Then, he looked at Wang Teng.

This junior brother didn't know how to console people!

"Ahem." The eternal stage martial warrior coughed awkwardly and broke the awkward atmosphere. "Grandmaster Wang Teng, since you're confident in making the Yin-Yang Dragon Essence Pill, how about we entrust you with refining the star core of the titan-level star beast?"

"That's right, that's right. The Yin-Yang Dragon Essence Pill made from the star core of a titan-level star beast is what we truly need." Hu Qi regained his senses. He almost forgot his primary purpose here.

"It will be harder to make a pill from the star core from a titan-level star beast. I've never seen a titan-level star beast's star core so I can't promise you anything." Wang Teng hesitated. "Based on what I know, the star core of a titan-level star beast might be a little different."

Hu Qi nodded. A jade box appeared in his hand and he said in a low voice, "This is the star core of the titan-level star beast."

Wang Teng glanced curiously at the jade box. Even without activating his Real Eye, he could see the mysterious runes on the box's surface. They possessed sealing power.

"This jade box is specially used to keep the star cores of titan-level star beasts as they contain a special substance called the eternal matter!" Hu Qi said in a serious tone.

"Eternal matter!" Wang Teng muttered with a sharp glint in his eyes.

"Yes, eternal matter. This is the key to becoming an eternal stage martial warrior." Hu Qi nodded.

"The key to becoming an eternal stage martial warrior!" Wang Teng frowned and asked, "What is eternal matter?"

"Eternal matter is a peculiar substance in the world. Eternal-stage martial warriors extract this substance from the universe and incorporate it into themselves, making their souls and bodies immortal. That way, they can truly coexist and decline with the universe. As long as they possess the eternal matter, eternal stage martial warriors cannot be killed. To eliminate them, you must completely erase the eternal matter. Even a trace of the eternal matter can potentially lead to revival," Hu Qi explained.

Chapter 1812: Eternal Matter! Abnormal Movement in the Chaotic Star Sea! (3)

"To coexist and decline with the universe! Immune to being killed!" Wang Teng's heart trembled, and he couldn't calm down for a long time.

Eternal stage martial warriors were truly incredible!

This was intimidating!

That meant that even the weakest eternal-stage martial warrior would be hard to kill, unless the opponent's strength was much weaker than theirs, making it possible to completely remove their eternal matter.

Universe-stage martial warriors had eternal life but they would still die. They couldn't be compared to eternal-stage martial warriors.

Hu Qi smiled when he saw Wang Teng's expression.

When he first heard this secret, he was flabbergasted too. He couldn't fully comprehend it.

The eternal-stage martial warriors had reached a transcendent realm. Only by stepping into this realm could one understand the profundity within.

"To make a supreme-rank pill using the star core of this titan-level star beast, you need to integrate eternal matter into the different spiritual herbs," Dong Yutang opened his mouth and said.

"Integrate eternal matter into spiritual herbs." Wang Teng frowned. He had never tried this before and had never received any knowledge regarding this.

Honestly, this was getting a bit... beyond his scope!

"I didn't think that you wanted to use the star core of a titan-level star beast to make the Yin-Yang Dragon Essence Pill. If I had known earlier, I wouldn't have dared to claim that I could refine it. It's too difficult for a grandmaster alchemist to integrate eternal matter. This isn't something a grandmaster alchemist can do. Even a grandmaster at the peak might not be able to do it," Dong Yutang said with a bitter smile.

"That's right. Only eternal-stage martial warriors can control the eternal matter!" Pu Yuanzhong nodded in agreement.

"There might be unpredictable consequences if a grandmaster alchemist touched the eternal matter forcefully." Cecilia glanced at the two eternal stage martial warriors and reminded them.

Wang Teng couldn't help but look towards Hu Qi.

Looking at the grandmasters' expressions, he felt that he shouldn't agree to make the pill using this titan-level star core.

In fact, the grandmasters originally intended to mention these concerns earlier.

But considering that Wang Teng initially used the star core of an ultimate-stage imperial-level star beast, the issue shouldn't be too significant. To avoid affecting Wang Teng's mindset, they refrained from bringing it up at the time.

"You don't need to worry about this. The two of us can assist Grandmaster Wang Teng in manipulating the eternal matter," Hu Qi said. "I wasn't confident but after seeing Grandmaster Wang Teng's divine flame, I feel that only you can refine this Yin-Yang Dragon Essence Pill."

He saw it! Wang Teng was surprised.

"We saw it when you were resisting the lightning," the female eternal stage martial warrior smiled and said.

"That's right. If it's the divine flame, it might be able to refine the eternal matter," Dong Yutang's eyes brightened, and he said excitedly, "Grandmaster Wang Teng, can you let us see your divine flame? I've been an alchemist for so many years but I've never seen what a divine flame looks like."

Pu Yuanzhong and Cecilia also looked at Wang Teng with eager anticipation in their eyes.

Wang Teng couldn't help but find it amusing. These alchemists were at the pinnacle of the grandmaster level, yet when they heard about the divine flame, they acted like children who had seen a captivating toy.

He didn't reject it. He stretched out his palm and a green flame appeared. It burned silently on his palm and a scorching heat spread out.

"It's really a divine flame!" Excitement appeared in Dong Yutang's eyes. He wanted to touch the green flame.

"Be careful!" Wang Teng quickly withdrew his hand backward.

"Oh right. Look at me, I'm too excited!" Dong Yutang jolted and regained his composure.

A ninth grandmaster-level alchemist displaying such impulsive behavior. If his masters and even grandmaster-level disciples saw this, their jaws would probably drop.

Their master wasn't like this!

"Hahaha, Old Dong, this is a divine flame. Be careful." Hu Qi laughed uncontrollably.

He was surprised when he saw the divine flame but he wasn't an alchemist so he wasn't as excited as Dong Yutang.

Dong Yutang gave a wry smile when he heard Hu Qi teasing him.

"This is... the Emerald Glazed Flame, right?!" Pu Yuanzhong took a deep breath and asked after some hesitation.

"Yes!" Wang Teng glanced at him in surprise. He hadn't expected this grandmaster to recognize it. It seems like he has done some research.

"I've seen records of divine flames before." Pu Yuanzhong smiled. He couldn't hide the envy in his eyes. "Grandmaster Wang Teng is really lucky."

"I was lucky!" Wang Teng chuckled.

What would happen if he took out the Soul Of Thousand Beasts Flame?

Never mind, he should keep a low profile.

They looked at the flame for some time before Wang Teng kept the Emerald Glazed Flame under their reluctant gazes.

Dong Yutang gave Wang Teng a slightly reproachful look as if he was complaining that Wang Teng didn't let him take a longer look.

"Grandmaster Wang Teng, what do you think?" Hu Qi asked.

"I can try." Wang Teng pondered for a moment and finally nodded.

He was extremely curious about the eternal matter and wanted to see what it was.

Also, with the help of two eternal stage martial warriors and the divine flame, he should be able to refine the eternal matter.

Chapter 1813: Eternal Matter! Abnormal Movement in the Chaotic Star Sea! (4)

If one divine flame was not enough, then he would use two. After all, he had plenty of divine flames anyway.

"There's no time to lose. Let's start refining now." A hint of joy flashed across Hu Qi's eyes as he said hurriedly.

Wang Teng nodded.

He still had many things to do and had already wasted a lot of time here. It would be best to refine the Yin-Yang Dragon Essence Pill as soon as possible.

Dong Yutang and the others moved their mouths as if they were about to say something, but in the end, they kept quiet.

Honestly, they didn't think Wang Teng would succeed. The eternal matter wasn't something ordinary martial warriors could handle.

Even with a divine flame, it would be very difficult to refine.

However, since Wang Teng agreed, they couldn't say anything else.

Moreover, the two eternal-stage martial warriors were eager and enthusiastic. If they went against their opinions, they might end up offending them.

Wang Teng and Hu Qi walked into the alchemy room.

Wang Teng waved his hand and took out the Black Meteorite Furnace. He then sat cross-legged and said, "Senior Hu Qi, please take out the ingredients."

"Don't you need to rest?" Hu Qi asked hesitantly.

Was Grandmaster Wang Teng that confident?

He just finished making a batch of Yin-Yang Dragon Essence Pill and was already going to start another round of refinement!

"Don't worry. I have enough spiritual power. Otherwise, I wouldn't be able to make grandmaster-level pills 12 times in three days," Wang Teng said confidently.

"Pardon my memory. It seems like Grandmaster Wang Teng's spiritual power is quite formidable!" Hu Qi looked at him meaningfully. He was genuinely surprised but he didn't say anything. He took out the last set of ingredients and handed it to him.

He believed whatever Wang Teng said now. His previous questioning was just a subconscious reaction. In reality, he completely trusted and respected Wang Teng.

For an alchemist with such attainments, even an eternal-stage martial warrior like him had to show enough respect.

This was a huge affirmation of Wang Teng's ability!

Wang Teng smiled and took the last set of ingredients from Hu Qi. His gaze landed on the jade box.

He couldn't help but feel excited.

He wondered what kind of attribute bubbles would drop from a titan-level star beast and the eternal matter.

Wang Teng was looking forward to it. Previously, power of origin attribute bubbles were dropped from the star core of an ultimate-stage imperial-level star beast. The core of this titan-level star beast wouldn't be any worse.

This was also the first time he saw the star core of a titan-level star beast.

A titan-level star beast was equivalent to an eternal stage martial warrior. Naturally, its star core was extraordinary.

Even though Wang Teng couldn't possess something like that now, just taking a look at it would be a good experience to broaden his horizons.

He placed the jade box in front of him, took a deep breath, and slowly opened it.

A dazzling light burst forth as two star cores unexpectedly shot out from the jade box as if attempting to escape.

Wang Teng was taken aback.

Fortunately, Hu Qi had already expected this situation. He smiled and reached out, grabbing the two star cores. No matter how the two star cores struggled, they could not escape from his hands.

"Hahaha, titan-level star beasts' star cores aren't ordinary." Hu Qi laughed.

"Senior, are you trying to prank me?" Wang Teng said speechlessly.

"Ignore him, this guy doesn't act his age." The female eternal-stage martial warrior said with a hint of annoyance as she playfully slapped Hu Qi.

"Hehe, don't mind me, don't mind me. I'm just joking." Hu Qi scratched his head and chuckled.

Wang Teng laughed and shook his head. Then, his expression slightly froze as he looked at the two star cores in Hu Qi's hand.

A few attribute bubbles dropped.

There are attribute bubbles! A glint flashed across Wang Teng's eyes. He released his spiritual power and picked up the attribute bubbles.

Eternal Matter*10

Eternal Matter*5

Eternal Matter*8

...

Eternal matter! Wang Teng gasped. He was deeply shocked. He didn't expect to find the attribute bubbles of the eternal matter.

This was something he had never dared to imagine before!

Even though he knew that this was the star core of a titan-level star beast, he didn't dare to think about it. After all, he was only at the cosmos stage, and it seemed unlikely that he could make use of this eternal matter, let alone master it.

Currently, he had reached his limit in mastering the power of origin. He had never heard of anyone being able to control the eternal matter at the cosmos stage, heaven stage, or even the universe stage.

This was unreal!

At this moment, the eternal matter entered his body and appeared in the Inner Cosmos. It scattered like specks of stars, forming a streak of light. Then, with a flicker, it merged into the "black hole" at the center.

In an instant, Wang Teng felt a cool stream flowing through his soul. It was so comfortable that he almost moaned.

Fortunately, that feeling was fleeting and did not last long. He forcefully endured it.

The eternal matter entered my soul? Wang Teng was puzzled. Does this mean that my soul has an additional eternal attribute?

He recalled what Hu Qi had said earlier. The eternal matter could render the soul and physical body immortal. Just now, the eternal matter seemed to have fused into his soul. Perhaps it could indeed bestow a trace of immortality to his soul.

However, he could not verify this matter now, which made him feel helpless.

After calming himself down, Wang Teng looked at his attributes board.

Eternal Matter: 23/10000 (first-rank)

First-rank? Are there different levels of eternal matter? Wang Teng's eyes flickered as he speculated in his mind.

Unfortunately, discussing these matters now seemed too distant for him. He shook his head and decided not to think too much about it.

Then, he looked at the two star cores in Hu Qi's hands again. It would be great if they could drop more eternal matter attribute bubbles.

Chapter 1814: Eternal Matter! Abnormal Movement in the Chaotic Star Sea! (5)

Wang Teng was honestly greedy.

"Grandmaster Wang Teng, can we start now?" Hu Qi didn't know what benefits Wang Teng had just received. He couldn't help but nudge him.

"Alright, let's start now," Wang Teng nodded and said seriously.

The eternal-stage martial warriors' expressions turned serious.

"I'll have to trouble the two of you when I start refining the two star cores."

Wang Teng reminded him just in case. He didn't know if he could control the eternal matter now.

According to the system's nature, since he possessed eternal matter, he should be able to control it.

However, he did not want to appear too special in front of the two eternal-stage martial warriors.

Low profile! Low profile!

"Alright!" Both of them nodded solemnly.

"I'll refine the other materials now." Wang Teng didn't waste any more time. He started refining the other materials apart from the two star cores.

He was very fast. One by one, the spiritual herbs flew into the furnace and turned into refined matter under the embrace of the emerald flames. There were no mishaps.

Hu Qi and the other eternal-stage martial warrior watched in astonishment. They looked at each other and their admiration for Wang Teng's alchemical skills grew even stronger.

Not only was Wang Teng's refining speed fast, but his techniques were also extremely skillful and aesthetically pleasing. It was a sight to behold.

Ordinary grandmaster alchemists would not be able to do this.

The two of them were completely immersed in Wang Teng's refining process, oblivious to the passage of time until Wang Teng suddenly spoke up.

"Alright, throw the two star cores into the furnace."

Hu Qi and the other eternal-stage martial warrior instantly turned alert. They each handled a star core and threw it into the furnace according to Wang Teng's instructions.

Boom!

Boom!

As soon as the two titan-level star beast star cores touched the flames, they tried to break free. Specks of starry light emerged, transforming into two starlight azure dragons that let out roaring sounds.

"Hmph, sinful beast, how dare you resist!" Hu Qi snorted coldly and was about to suppress them.

"Senior, don't be too rough, a gentle suppression will suffice," Wang Teng immediately advised.

Hu Qi was stunned for a moment and immediately nodded. He somehow managed to trap the two star cores within the flames.

The two azure dragons were instantly dispersed and returned to their cores.

Wang Teng's eyes lit up. He saw more attribute bubbles appearing and floating above the two star cores.

Get them!

Eternal Matter*12

Eternal Matter*15

Eternal Matter*10

Eternal Matter*20

...

Awesome. A total of 57 points. It's even more than before! Wang Teng was elated. He almost laughed out loud. The corners of his lips curled up uncontrollably.

However, Wang Teng quickly focused and shifted his attention away from the eternal matter.

Now was the critical moment of refining the eternal matter. He could not afford to be careless.

Very soon, Wang Teng realized that it was extremely difficult to refine the star cores of this titan-level star beast. He had to exert all his efforts to activate the power of the divine flame, and only then did the two star cores show signs of melting.

It's not enough! He frowned again after a moment.

Hu Qi and the others also noticed this situation and their expressions turned solemn.

He didn't expect that even a divine flame couldn't refine the star cores.

Looks like I have to use the Soul Of Thousand Beasts Flame. Wang Teng felt helpless. Without any hesitation, he released the Soul Of Thousand Beasts Flame and it entered the furnace.

Boom!

A scorching sensation erupted instantly as the collision of the emerald and red flames seemed to trigger a chemical reaction, causing the temperature to rise continuously.

"What!" Hu Qi and the others were shocked. They widened their eyes and looked at the red flames.

"A second divine flame!"

The two of them couldn't help but look at each other in surprise and joy.

Outside the alchemy room, Dong Yutang was stunned for a moment and asked, "Do you feel that the temperature seems to have risen a lot?"

"Indeed!" Pu Yuanzhong nodded.

"Could it be that divine flames are so terrifying that even the array formation in the alchemy room can't isolate the heat?" Cecilia asked.

"The wonders of divine flames are far beyond our understanding." Dong Yutang shook his head.

In the alchemy room, with the help of the two divine flames, the two star cores finally melted completely, transforming into two clusters of sparkling lights.

"Seniors, sprinkle the eternal matter on the other spiritual herbs. Remember to do it evenly!" Wang Teng said.

Hu Qi and the other eternal-stage martial warrior nodded and did as they were told.

They were very cautious as they scattered the eternal matter evenly. Fortunately, it wasn't difficult for eternal-stage martial warriors.

Wang Teng heaved a sigh of relief when he saw that. Then, he started fusing the various spiritual herbs.

Time passed slowly...

The anticipated mishaps did not occur, and the final process of pill condensation proceeded surprisingly smoothly. Within the furnace, four rounded pills began to take shape.

Hu Qi and the lady stared at the furnace nervously. Their palms were covered in sweat.

Ever since they advanced to the eternal stage, it had been a long time since they had been so nervous.

However, at this moment, they couldn't spare much thought for anything else. Their hearts were focused solely on the Yin-Yang Dragon Essence Pill. As long as they could succeed, everything else paled in comparison.

Boom!

After some time, a loud rumbling sound suddenly echoed from within the furnace. A rich medicinal fragrance filled the air as the Force reverberated against the walls of the furnace, creating a series of clangorous sounds.

"Is it going to succeed?" Hu Qi and the lady were shocked as they stared at the furnace intently.

"Open the dome!"

Boom!

As soon as he finished speaking, another loud rumble echoed out. A pillar of light shot into the sky from the furnace, and the four pills turned into four Azure Dragons, intertwining and soaring into the sky.
