Chapter 2401: Virtual Universe Corporation Arrives! A God-Stage Prodigy Contract! (1)

Inside the manor, Wang Teng returned to his chamber and found his clone seated cross-legged on the bed. He sighed with relief, realizing that no one had come looking for him during his absence.

He then proceeded to stow away the clone and settled himself on the bed, legs crossed, once again retrieving that mysterious and terrifying beast skin.

Wang Teng gazed at the skin with lingering trepidation, unable to fathom how such an inconspicuous hide could exude such dreadful energies.

If not for the Nine Treasures Pagoda condensed using a legendary scripture, he might have been in grave danger.

"What was that aura emanating from the Nine Treasures Pagoda just now?"

Wang Teng wondered, his curiosity piqued. He delved his consciousness into his Inner Cosmos, attempting to sense the Nine Treasures Pagoda.

However, the golden tower had already returned to its calm state, revealing nothing discernible.

The surge of energy had vanished as swiftly as it came, leaving only a sense of ancient solemnity in its wake, impervious to further scrutiny.

"The Buddha's Sutra is even more mystical than I had imagined," Wang Teng mused. He now regarded the scripture with heightened reverence. He resolved to seek out the remaining teachings for future cultivation.

At the same time, he was glad that he had refined the Nine Treasures Pagoda in time. Otherwise, he might have found it challenging to withstand the skin's ominous energies.

"Wang Teng, it seems this beast skin is quite a treasure," Round Ball remarked, finally regaining its composure. It was in a daze. If Wang Teng's Nine Treasures Pagoda had not shielded them from the skin's energies, it too would have been affected.

Intelligent lifeforms were devoid of physical form, their essence was primarily composed of spirit. The skin's energies were precisely attuned to such spirits.

"Well, it appears I've stumbled upon a fortune!"

Wang Teng nodded, his gaze flickering with a hint of intrigue. His lips curved into a sudden smile.

Judging by the sheer intensity of its aura, it could undoubtedly pose a threat to a universe-stage existence. As for eternal-stage beings, that remained open to debate.

If only he had possessed such an artifact earlier, he wouldn't have been so ruthlessly cornered by Elder Hui.

Furthermore, Wang Teng sensed that the beast skin seemed to be reusable, not rendered completely useless after just one use.

The resilience of the skin was remarkable and difficult to destroy. The star beast it belonged to must have been an exceedingly powerful entity.

Wang Teng continued his examination of the skin for a while longer when suddenly a knocking sounded at the door.

"Wang Teng, are you finished with your tasks? Come out and have something to eat. You haven't eaten anything for days," Yizang Xinnuo called from outside the door.

"Well, I am feeling a bit hungry," Wang Teng's eyes flickered slightly as he opened the door and stepped out.

Yizang Xinnuo smiled faintly upon seeing Wang Teng. "I personally prepared some delicacies from the Five Burial Stars. Brother Wang Teng, you must taste them."

"Oh, you made them yourself?!" Wang Teng was genuinely surprised.

"Yes, I've always been interested in various cuisines since I was young, so I learned some culinary skills. I'm a Force chef master now," Yizang Xinnuo said proudly.

"In that case, I must truly savor them," Wang Teng chuckled.

While the delicacies made by a Force chef master couldn't compare to those of Wang Teng, a Force chef grandmaster, he couldn't possibly deflate her enthusiasm.

In the dining room, a table laden with fragrant dishes awaited them. Shouzang Caiyun and Guizang Zhu, who had been waiting at the table, rose with smiles to greet Wang Teng. "Wang Teng, come and eat. Sister Xinnuo made so many delicious dishes. We were just waiting for you."

"Everyone's here!" Wang Teng nodded with a smile, making his way to an empty seat.

Yizang Xinnuo also sat down.

The group ate and chatted happily.

He had to admit the dishes prepared by Yizang Xinnuo were indeed impressive. They had reached the master level and were even tastier than those of an average Force chef master, a testament to her extraordinary culinary skills.

After the meal, Wang Teng returned to his room.

"Wang Teng, what do you think they wanted to confirm?" Round Ball's figure materialized, asking.

"Well, members of the five families probably went to investigate that planet. They must want to see if there's any connection to me," Wang Teng speculated.

"Why would they think there's a connection to you?" Round Ball furrowed its brows, finding it rather peculiar.

"It's not surprising. I'm probably the only anomaly on the Five Burial Stars now. Regardless, they'll surely want to take a look," Wang Teng replied.

"That makes sense. Looks like you're quite self-aware," Round Ball nodded in agreement and teased him.

"Given the constraints on the Five Burial Stars, now that they've acknowledged my identity, I should leave!" Wang Teng said with seriousness.

"Before that, it seems we need to report to the Academy Arbitration Association," Roundy suggested.

"I'll leave it to you. Make sure to vividly describe what happened here," Wang Teng instructed.

"You're leaving it to me again?" Round Ball rolled its eyes, speechless.

"Of course." Wang Teng grinned, stroking his chin. "Remember to report on the incident with the Heishan Royal Clan and exaggerate my sufferings. An eternal-stage martial warrior attacked me, nearly causing my demise. Even so, I sustained severe injuries and have yet to fully recover..."

He went on and on, finally concluding, "In short, make sure the academy gets me justice."

Round Ball cast a strange glance at Wang Teng, never having encountered such shamelessness before. It sighed. "Fine, I understand."

As it was about to disappear to draft the report for Wang Teng, it suddenly let out a soft exclamation.

Chapter 2402: Virtual Universe Corporation Arrives! A God-Stage Prodigy Contract! (2)

"What happened?" Wang Teng asked in surprise.

"Wang Teng, someone from the Virtual Universe Corporation is trying to reach you," Round Ball exclaimed in surprise.

"The Virtual Universe Corporation?" Wang Teng paused for a moment. "I remember they mentioned signing a contract after the last League Of Talents, but then they went silent. Why are they contacting me now?"

"They probably learned about your recent battle. Being able to kill a universe-stage powerhouse and withstand a blow from an eternal-stage ruler, your potential has caught the attention of the Virtual Universe Corporation," Round Ball explained.

"Let's connect with them and see what they want," Wang Teng nodded.

With a wave of Round Ball's small hand, a light screen immediately opened, floating in front of Wang Teng.

"Greetings, Sir Wang Teng!"

A gentle-looking human elder clad in silver-white armor appeared on the screen. He smiled at Wang Teng.

"Hello." Wang Teng's gaze slightly sharpened. Even through the light screen, he could sense the extraordinary nature of the elder before him. The other party was an eternal-stage existence, perhaps even an eternal-stage ruler like Elder Hui. He quickly nodded politely.

"I am Rofort, an eternal-stage ruler from the headquarters of the Virtual Universe Corporation," the elder introduced himself.

Indeed! Wang Teng thought to himself after hearing the introduction. Without showing any excitement, he calmly asked, "May I know the reason for your contact, sir?"

His expression remained neutral, devoid of any urgency or enthusiasm.

Rofort smiled slightly and said, "Since the last League Of Talents, we have been closely following your progress. However, due to internal debates regarding your potential, we

hesitated to sign a deeper contract with you. After witnessing your display of strength in the recent battle on the Five Burial Stars, internal doubts about your potential have finally been dispelled. Now, I have been tasked to communicate with you personally, hoping you won't dwell on past matters."

The eternal-stage martial warrior spoke very frankly, not hiding anything. He directly explained the cause and effect, showing no concern that Wang Teng might take offense.

Or perhaps, he wasn't worried at all that Wang Teng would refuse a contract from the Virtual Universe Corporation.

As one of the major powers in the universe, the Virtual Universe Corporation exuded confidence. Nobody could afford to turn down their contracts.

Moreover, they didn't underestimate Wang Teng. The fact that they were straightforward about the matter indicated their high regard for him and their reluctance to conceal anything.

Having an eternal-stage ruler explain matters personally was already a considerable show of respect for Wang Teng.

Wang Teng finally realized that there were many intricacies involved in this situation.

"Wang Teng, I reckon the contract the Virtual Universe Corporation is preparing for you isn't an ordinary one, hence the internal debates," Round Ball said, slightly surprised.

"Indeed," Wang Teng thought, realizing the implications. He nodded secretly but didn't show any emotions on his face.

This tranquility wasn't an act. Having experienced numerous events, even encountering god-stage beings, he wouldn't be overly excited about a contract from the Virtual Universe Corporation.

Nonetheless, there was still a sense of joy.

After all, contracts from the Virtual Universe Corporation came with many benefits.

"It's of little consequence to me," Wang Teng said lightly, smiling. "So, may I know what kind of contract the Virtual Universe Corporation is offering me?"

"Very well. As for the contract, I will be arriving at the Five Burial Stars shortly. Let's discuss it in person when I arrive," Rofort replied with a smile.

Wang Teng was momentarily surprised by the prospect of the eternal-stage ruler coming personally to the Five Burial Stars. However, he quickly regained his composure and said, "I'll be eagerly awaiting your arrival."

"I will arrive in about half an hour." Rofort smiled.

"Okay," Wang Teng replied.

The communication ended, and Round Ball exclaimed excitedly, "Wang Teng, the Virtual Universe Corporation is prepared this time. They will surely offer you extremely high treatment. Otherwise, they wouldn't have an eternal-stage ruler to come in person. Wow! Your influence is massive."

"Is it really that exaggerated?" Wang Teng watched Round Ball fluttering about, feeling somewhat speechless.

"Of course it is! Don't you understand what this means? An eternal-stage ruler! Such beings don't travel around for no reason. Now, for your contract, one is coming personally. That alone speaks volumes," Round Ball exclaimed urgently.

"I hope so," Wang Teng's eyes flickered, smiling. "Help me inform the five major families so they won't be caught off guard."

"You're so calm about this," Round Ball shook its head, unsure of what to say. It believed that once Wang Teng saw the contents of the contract, he wouldn't remain so calm. Without further ado, it went to contact the members of the five major families.

Upon learning that an eternal-stage ruler from the Virtual Universe Corporation was about to arrive at the Five Burial Stars in about half an hour, the family heads were shocked. Without delay, they immediately informed the ancestral elders.

Hengzang Bo, Yizang Zhao, and the others were also astonished. They appeared in Yizang Xinnuo's manor through spatial fluctuations.

Upon receiving the news, Yizang Xinnuo and others were already waiting in the hall. Seeing the arrival of the ancestral elders, they all bowed respectfully.

Chapter 2403: Virtual Universe Corporation Arrives! A God-Stage Prodigy Contract! (3)

"No need for excessive courtesy!" Hengzang Bo waved his hand and asked, "Where is Councilor Wang Teng?"

Yizang Xinnuo was about to respond when Wang Teng walked down the stairs. He smiled and said, "Elders, you've arrived so quickly."

is it true that an eternal-stage ruler from the Virtual Universe Corporation is coming?" Hengzang Bo quickly inquired. "Councilor Wang Teng,

An eternal-stage ruler from the Virtual Universe Corporation not only possessed widely acknowledged strength but also wielded immense power and held a much higher status than the elders of the five major families.

Therefore, upon hearing about his arrival, they found it somewhat unbelievable, feeling incredulous.

"Yes, they just contacted me. I was concerned that the Five Burial Stars might not be prepared, leading to misunderstandings, so I informed you in advance." Wang Teng nodded.

"We must thank Councilor Wang Teng for this matter. Otherwise, our preparations here at the Five Burial Stars would have been lacking," Hengzang Bo expressed his gratitude.

"It's nothing, just a few words," Wang Teng replied modestly.

"I wonder what the purpose of the eternal-stage ruler is?" Guizang Ling asked.

"It's about my contract," Wang Teng replied.

"A contract?!" Hengzang Bo and the others were momentarily stunned, then their eyes began to flicker with various thoughts. They grew increasingly surprised.

It seemed that Councilor Wang Teng had caught the attention of the higher-ups at the Virtual Universe Corporation!

Originally, they were already wary of the forces behind Wang Teng. Now, with the addition of the Virtual Universe Corporation as his backing, they couldn't afford to provoke him even more in the future.

Suddenly, they couldn't help but admire their investment in Wang Teng.

Their investment turned out to be incredibly accurate!

It was a good deal!

Setting aside everything else, with the Virtual Universe Corporation as his backing, even the Heishan Royal Clan wouldn't dare to act against him.

"Since the eternal-stage ruler from the Virtual Universe Corporation can arrive in half an hour, we might as well wait in outer space," Hengzang Bo suggested.

"If you wish to go, please go ahead." Wang Teng smiled slightly, but he made no move to accompany them.

It wasn't that he didn't respect the eternal-stage ruler from the Virtual Universe Corporation. It simply wasn't necessary. Besides, being too proactive would mean relinquishing a certain degree of control, which wouldn't bode well for the negotiations to come.

In the end, he had no hierarchical relationship with the Virtual Universe Corporation and didn't need to be overly obsequious.

Hengzang Bo and the others were once again slightly astonished, their gazes shifting as they looked at Wang Teng.

He remained so composed when facing an eternal-stage ruler from the Virtual Universe Corporation!

The elders of the five major families couldn't help but admire Wang Teng a little.

But then again, considering how he dared to confront even the eternal-stage ruler from the Heishan Royal Clan, his calm demeanor in the face of the Virtual Universe Corporation's eternal-stage ruler seemed understandable.

It was quite normal.

"Very well, we'll wait outside the Five Burial Stars," Hengzang Bo and the others said nothing more and departed directly.

They didn't dare to neglect the Virtual Universe Corporation.

Although the Five Burial Stars held a strong position in the Phantom Drift Territorial Domain, they still lacked confidence when facing such a giant entity as the Virtual Universe Corporation.

As the elders left, Yizang Xinnuo and the others looked at Wang Teng with complex expressions, surprised, bewildered, and even a hint of envy.

To be valued by the Virtual Universe Corporation was certainly something to envy.

It was the dream of many talented martial artists.

But looking at Wang Teng's demeanor, it seemed he didn't even care. he didn't even plan to receive the eternal-stage ruler from the Virtual Universe Corporation personally.

They couldn't imagine themselves doing the same.

...

The appearance of several elders from the five major families in the sky caught the attention of many martial artists.

For ordinary martial artists, encountering an eternal-stage entity was a rare occurrence. Now, with five eternal-stage martial warriors from the major families appearing simultaneously in the void, it naturally drew much attention.

"Are those the elders of the five major families? I've seen them before in that battle."

"Yes, they are. Why are they here?"

"They seem very solemn as if they're waiting for someone important."

"Who could they be waiting for?"

...

People whispered and speculated about who the elders were waiting for.

Many martial warriors chose to stay, observing the scene. The members of the five major families didn't drive them away either, allowing them to watch.

The arrival of the Virtual Universe Corporation was, in many ways, a boon for the Five Burial Stars.

After the previous war, the reputation of the Five Burial Stars had greatly diminished, and now it was time to rebuild its reputation.

Even though they were only using Wang Teng's name, outsiders were unaware of this, which worked in their favor.

The people from the other factions in the Phantom Drift Territorial Domain hadn't left. They initially planned to wait for Wang Teng to show up so that they could establish relations with him. However, Wang Teng had yet to appear, leaving them feeling quite helpless.

They planned to wait for a few more days. If Wang Teng still didn't appear, they would leave this place.

Unexpectedly, they ended up witnessing the appearance of the five elders. At this moment, people from these factions appeared one after another, looking at the eternal-stage elders and engaging in low conversations.

Half an hour quickly passed, and outside the starry sky of the Five Burial Stars, there was a significant disturbance in space. Several ships emerged from the void and hovered outside the Five Burial Stars.

There were a total of nine ships. One of them, quietly suspended in the void, exuded an aura that made it impossible to look directly at, like a terrifying beast.
