Chapter 2661: This Isn't The End, This Is Just The Start! (4)

"What are you afraid of?" Wang Teng turned and gave her a strange look.

"I... I'm not afraid." Le Yan felt a little awkward. She said stubbornly, "I just got a shock."
"Really?" Wang Teng snorted.

"Of course. I've seen dark apparitions before. Don't look down on me." Le Yan's face turned black when she heard his contemptuous laughter. She refuted uncontrollably.
"Roar!"

Just when Wang Teng was about to reply to him, the flaming figure in front of him bellowed in anger.

"This isn't the end. This is just the start. Hahaha..."

The figure in the flames looked at Wang Teng and glared at him. His gaze was filled with bitterness and madness as he laughed.

Boom!

The next instant, his entire body exploded, releasing a loud explosion.

"Wang Teng, stop him. If not, this area will be contaminated by the dark Force," Le Yan exclaimed.

"Hmph, small tricks!" Wang Teng frowned and snorted. Then, he waved his hand and a holy light shot out. It was even faster than the Force impact from the explosion. It swept through the air and the remaining dark Force was purified. It disappeared in the void.

The moment Le Yan spoke, she realized that the trouble in front of her had been solved. Astonishment flashed past her eyes.

To other martial warriors, this was a huge trouble. However, in the hands of light element martial warriors, it was a piece of cake. No wonder light element martial warriors were so important.

Outside, Great Elder Dan Chen and the others were flabbergasted when they saw Julius self-destructing. However, they didn't expect Wang Teng to kill him so quickly. He didn't give them any chance to be surprised.

The three Great Elders exchanged glances with one another. The feeling of being at a loss made them extremely uncomfortable. They sat down awkwardly.

Cough... calm down! Calm down!

Look at Wang Teng. He didn't take the dark Force to heart at all. They were at the immortal level. Could they be weaker than a grandmaster like him?

Wang Teng activated his Real Eye and scanned the sky. No dark Force could escape his eyes.

"Done!"

He clapped his hands and shook his head. "This is a waste of my time."

"What did he mean by that?" Le Yan frowned uncontrollably.

Wang Teng frowned too. "It should be referring to the other dark apparitions. There are probably other dark apparitions on the other two planets."

"Are the dark apparitions plotting something?" Le Yan asked uneasily.

"Who knows?" Wang Teng shook his head. "Don't think too much. If the sky falls, the tall ones will hold it up. I'm just a small cosmos stage martial warrior. Let's continue our competition."

Le Yan was speechless.

This fellow was really daring. If he was just a small cosmos stage martial warrior, what were the others? They couldn't even be compared to a cosmos stage martial warrior. However, Wang Teng was right. To them, the competition was the most important. She nodded helplessly and stopped thinking about it.

Outside, Great Elder Dan Chen and the others frowned when they heard what Julias said before he self-destructed.

The three Great Elders exchanged glances with one another and saw a hint of doubt in each other's eyes.

"I'm afraid there's something fishy about this. We need to ask the headquarters to be vigilant," Great Elders Byers said sternly.

In front of the dark apparitions, he had to treat them seriously, whether it was a lie or not. He mustn't be careless.

Great Elder Dan Chen nodded and immediately sent the message back.

There were other formidable martial warriors in the Secondary Career Alliance's headquarters to deal with this matter. The exchange event was still ongoing. It wouldn't be stopped just because of this groundless statement.

At the same time, the others were discussing this matter too. The appearance of the dark apparition was too sudden. No one could feel at ease.

Herb Garden Planet.

After Wang Teng finished speaking, he ignored Le Yan and prepared to leave.

"Wait, where are you going?" Le Yan was speechless when she saw him leaving. She hurriedly stopped Wang Teng.

"Of course. You have wasted much of my time," Wang Teng replied.

If it wasn't for the Great Flaming Elemental Python Array Plate, he wouldn't have such a good temper.

However, he was just saying it in his heart. He wouldn't say it out loud.

Le Yan:...

Why did she feel that she was being looked down upon?

This bastard!

He always looked down on her. Was she so unpopular?

Le Yan gritted her teeth. She felt a little helpless and aggrieved, but she still said sincerely, "Thank you for your help just now. If it wasn't for you, the other members of the Le family and I might be dead."

"It's alright, just a piece of cake." Wang Teng was surprised. This talent from the Le family had always been proud like a white swan. He didn't expect him to reveal such a delicate expression at this moment. He didn't say anything to stimulate her and just waved his

hand.

Le Yan was speechless. Would he die if he didn't boast?

A piece of cake?

Did that battle seem like a piece of cake?

Did they think they were blind?

However, she still said, "Don't worry. I, Le Yan, will definitely repay your kindness in the future.

"How will you repay me?" Wang Teng was interested.

Le Yan glanced at her angrily and said, "I owe you a favor. If you need anything, just tell me,"

"It's just a favor. I thought it was a favor from the Le family." Wang Teng shook his head.

Chapter 2662: This Isn't The End, This Is Just The Start! (5)

Le Yan was so furious she wanted to hit him. This fellow was complaining.

In the past, many people wanted her favor but they couldn't get it. Yet, this fellow didn't take it to heart.

"You already have the favor of the Le family," Le Yan took a deep breath and said.

"The more favors I have, the better." Wang Teng chuckled.

"Do you want it?" Le Yan asked. "If you don't, I can change it."

"Nevermind, your favor is fine." Wang Teng waved his hand. "It's nothing. It's alright."

Le Yan took another deep breath and changed the topic. "I have a presumptuous request..."

"Since it's a presumptuous request, don't say anything." Wang Teng hurriedly interrupted

her.

Le Yan:...

"Am I so irritating to you?" A hint of bitterness appeared in Le Yan's voice uncontrollably. "Cough, that's not it. I just have something to attend to. It's really inconvenient." Wang Teng felt a little guilty from her gaze. He coughed awkwardly.

"We won't disturb you." Le Yan had an idea. She said hurriedly, "I just want to make a deal with you."

"A deal? What deal?" Wang Teng asked curiously. He was stunned for a moment.

"We're almost done looking for spiritual herbs. We just need a few more. By right, with our ability, we should be able to find them. However, look at our current situation. Almost everyone is poisoned. I'm afraid we won't be able to find spiritual herbs anymore. Hence, I want you to help us find those spiritual herbs, Le Yan said. "Of course, I won't let you search for them for nothing. I will give you double the remuneration based on the value of those spiritual herbs."

"Oh?" Wang Teng was interested. He touched his chin and asked, "What if the spiritual herbs are very valuable? Can you give twice the price?"

"Sure." Le Yan said proudly, "Don't look down on my Le family."

"Alright, it's decided. However, I want the points from the Secondary Career Alliance," Wang Teng said.

"Okay." Le Yan nodded.

"Let's go," Wang Teng said.

"Wait, don't be so impatient. The poison in my Le family hasn't been cured," Le Yan said helplessly.

"Oh!" Wang Teng felt a little helpless. Women were indeed troublesome. However, he remembered that he needed to earn points from her so he bore with it.

The two of them landed on the ground. The Le family members in the distance had already woken up. They evaded the battle circle between Wang Teng and the man in black and didn't get implicated.

However, they didn't look well. Their faces were green and gray, and their auras were weak. They were still poisoned.

These people were different from Le Yan. Le Yan consumed the antidote she made in advance so the effects were better. They took it later so they were probably abysmally poisoned.

"Sister Le Yan!"

The Le family welcomed Le Yan and Wang Teng when they saw them coming down.

They greeted Le Yan before looking at Wang Teng. There seemed to be a hint of admiration in their eyes.

"Thank you for saving us, Mister Wang Teng!"

The young man called Le Ping cupped his fists at Wang Teng.

"You're too polite. I'm close to Le Yan. How could I leave you in the lurch?" Wang Teng chuckled.

Le Yan rolled her eyes uncontrollably when she heard this. This fellow almost didn't save them in the past. If the person in the black gown didn't force him out, he might have pretended that he didn't see anything.

However, Le Ping and the others were unconscious so they didn't know this. They were extremely grateful when they heard Wang Teng's words. At the same time, they were guessing the relationship between Wang Teng and Le Yan.

Wang Teng was still able to save them even though he was facing the dark Force. His relationship with Le Yan must be special.

For a moment, the Le family looked at Wang Teng and Le Yan with an ambiguous gaze. "Alright." Le Yan immediately sensed something and interrupted their thoughts. She asked, "How's your recovery?"

"After consuming the antidote you gave us, we managed to suppress some of the poison. However, we might have been poisoned for too long and missed the best opportunity. The poison in our bodies has already spread to our entire body." A bitter smile appeared at the edge of Le Ping's lips. "It looks like we can't continue the competition." "Give me your hand." Le Yan furrowed her beautiful brows and opened her mouth.

Le Ping immediately stretched out his hand.

Le Yan placed her finger on his wrist and sensed it carefully. Her frown got deeper and deeper. She said to the other members of the Le family, "Let me take a look too."

The remaining people came forward and passed their wrists to Le Yan for inspection. Wang Teng watched the show from the side. He knew what poison it was and how to cure it. However, he wanted to see if Le Yan had a way to cure it.

Le Yan looked at the condition of the Le family. Her expression was a little ugly. She said helplessly, "The poison is too deep. The effects of my antidote will be greatly discounted. Also, it isn't the pertinent antidote to begin with, so I can only suppress it temporarily." "If you want to make the antidote, you need to spend some time researching it." "The poison of the Lan family is indeed extraordinary!"

"I didn't expect Lan Yu to be such a despicable person. Not only did he run away, but he even dragged us down with him," a member of the Le family said angrily.

"I think he just wants us to be his scapegoat so that he can escape on his own," another member of the Le family said angrily.

"It's all my fault. I shouldn't have trusted an outsider." Le Ping felt ashamed.

Le Yan remembered how much she trusted Lan Yu in the past, and her expression turned ugly. It didn't feel good to be betrayed. This matter had given her a huge blow.

"Alright, what's done is done. There's no point in talking anymore. If I meet him next time, I will not let him off easily," Le Yan said coldly.

"That's right, put him on the Le family's blacklist. We must take revenge." Everyone agreed.

Le Yan suddenly noticed Wang Teng's calm expression. She remembered his endless skills and asked, "Brother Wang Teng, do you have a way to deal with the Lan family's poison?"

"It's a piece of cake," Wang Teng replied calmly.

"You can really cure this poison?" Le Yan was stunned for a moment. Then, happiness appeared in her eyes.

She was just making a Hail Mary effort. She didn't expect to receive such an affirmative reply.

"This poison is called the Blue Loach Gu Poison. The Blue Loach entered your body and poisoned you," Wang Teng explained calmly.

"Blue Loach Gu Poison!" Le Yan and the others' expressions changed slightly when they

heard Wang Teng's explanation. They felt uncomfortable.

This poison was caused by a creature that entered their bodies. Just the thought of countless poisonous creatures crawling in their bodies was enough to send chills down their spines. Their hairs stood up.

Especially Le Yan. She was a lady. No matter how strong her mentality was, she would still feel a little scared when faced with this disgusting place.

"Do you have a way to cure the Blue Loach Gu Poison?" Le Yan asked hurriedly.

"Simple." Wang Teng sniggered.

Le Yan's eyes lit up when she heard this. She grabbed Wang Teng's arm and stared at him intently. She said impatiently, "Quick, help me!"
