

## Conqueror 1811

### Chapter 1811: Fiend King Star

The Brightness Emperor Lan Zhi calmed the people arguing below with a press of his hand in the air. Everyone immediately stopped speaking.

“Long’er was my hope. Originally, I had hoped for Long’er to gain a spot within the top three in the Battle of the Heavenly Court. He could have become one of the Divine World’s dazzling stars to return with honor and glory. But who knew...!” Brightness Emperor Lan Zhi’s icy cold voice rang. “Who knew that I would get the news of that dog Huang Xiaolong killing Long’er on the spot instead of his glorious return!”

“Long’er didn’t even have a body to be buried!”

“Lately, Long’er’s painful screams have been ringing in my mind, calling for me to save him. How helpless he must have felt on the battle stage with desperation and pain!”

Brightness Emperor Lan Zhi’s icy voice reverberated through the hall, conveying his pain, killing intent, wrath, and hatred.

Lan Zhi had placed all his hope on the Brightness Emperor’s Disciple Lan Tailong. He had even envisioned the scene where Lan Tailong had led the Brightness Emperor Palace to greater heights after advancing to the Emperor Realm in the future. But unfortunately, Lan Tailong had died in the Battle of the Heavenly Court, and everything had changed because of Huang Xiaolong’s appearance!

The Brightness Emperor Palace’s Ancestors fell into a heavy silence. Chen Wenqian, Chen Wenxin, and other Ancestors were mainly silent as they had helplessly watched Huang Xiaolong kill the Brightness Emperor’s Disciple Lan Tailong on the battle stage. These people were burdened by shame, guilt, and intense hatred.

“Emperor, it was us who were useless! We failed to save the Emperor’s Disciple. Please issue us our punishments!” Chen Wenqian knelt on his knees.

Chen Wenxin and several other Ancestors followed suit and knelt on their knees.

Brightness Emperor Lan Zhi shook his head, sighing heavily, "I know that all of you did your best at the time. The two monsters have incredible strengths, and even I am not a match against them. So, you are not to be blamed for this. Alright, get up, all of you."

Chen Wenqian and the other Ancestors complied respectfully then stood up.

"Wenqian," Brightness Emperor Lan Zhi called out.

"Subordinate is here." Chen Wenqian responded in a hurry.

"Contact the Fiend God Emperor Palace, and at the same time, gather all the Brightness Emperor Palace's Ancestors who can be employed to head to the Fiend God Emperor Palace with me. Also, get in touch with the Solitude Emperor Palace, Nine Dragons Emperor Palace, Thousand Venoms Emperor Palace, and the Flying Blossoms Emperor Palace. Have them gather all the Ancestors they can employ at the moment to meet me at the Fiend God Emperor Palace. Defiance should not be allowed!" Brightness Emperor Lan Zhi's inviolable tone echoed in the air.

"We obey the Emperor!" Chen Wenqian's sonorous voice rang in the hall.

Several Ancestors disagree with Lan Zhi cooperating with the Fiend Emperor Palace. However, since Chen Wenqian and others complied sonorously, these Ancestors exchanged a silent glance and decided to keep their mouths shut.

Anyone could tell that their Brightness Emperor Lan Zhi was determined, and few of their words could not sway his decision.

Brightness Emperor Lan Zhi continued to issue more orders as he arranged for various matters.

After killing Huang Xiaolong, the Grandmist Emperor Palace and King of Grandmist would definitely retaliate. Therefore, he needed to prepare in advance.

Even though Lan Zhi was cooperating with the Fiend God Emperor Palace to kill Huang Xiaolong in the name of avenging his son Lan Tailong, only he knew the real reason behind it—the sixteen wings!

That's right; it was for the sixteen wings on Huang Xiaolong!

Only he knew the secret behind these sixteen wings in the entire Brightness Emperor Palace.

More accurately, only the generations of Brightness Emperor Palace's Emperor knew about it.

Once he could get his hands on the sixteen wings, then he didn't need to fear the King of Grandmist, much less fear Jiang Hong.

With those sixteen wings in hand, he could even stand above the Heavenly Emperor Di Jun, becoming the one giant of the universe!

As Brightness Emperor Lan Zhi rolled out his orders, the entire Brightness Emperor Palace was in a flurry of actions. Soon, the Solitude Emperor Palace, Nine Dragons Emperor Palace, Flying Blossoms Emperor Palace, and Thousand Venoms Emperor Palace received Lan Zhi's summons.

Just like what Di Jun had predicted—even though the Solitude Emperor Palace and Nine Dragons Emperor Palace didn't wish to take action against Huang Xiaolong, they had no choice but to obey Lan Zhi's order.

Huang Xiaolong was on his way to the Fiend God Emperor Palace while the Brightness Emperor Palace, Solitude Emperor Palace, Nine Dragons Emperor Palace, and others assembled at the meeting point and headed to the Fiend God Emperor Palace for their cooperation.

Huang Xiaolong was rushing there on his Black Dragon Throne.

The Black Dragon Throne could adjust its size according to Huang Xiaolong's preference. At one end, the Black Dragon Throne could resemble a majestic black dragon flying ship. Although its speed was a little slower, it was spacious. And Huang Xiaolong could cultivate with ease inside it.

Sitting cross-legged inside the black dragon flying ship, Huang Xiaolong summoned out his three avatars and took out two thousand Brilliant Sun Divine Pills. As he circulated the Grandmist Parasitic Medium,

Huang Xiaolong and his three avatars began refining the two thousand Brilliant Sun Divine Pills' medicinal energies.

As time passed, three archdevils' shadows from his bloodlines appeared in the air behind Huang Xiaolong.

Lightning power from the four chaos lightning pools between his eyebrows roiled vigorously.

His three supreme godheads emitted resplendent lights.

The night gave way to dawn.

The two thousand Brilliant Sun Divine Pills were completely refined, and Huang Xiaolong's body was brimming with godforce.

"The remaining Brilliant Sun Divine Pills would soon finish at this rate." Huang Xiaolong sighed, shaking his head. The one million Brilliant Sun Divine Pills he had gotten from the Heavenly Hall were almost finished.

The remaining pills could last him several months at most.

Therefore, he would need to search for another supply of top-grade grandmist spiritual pills again.

"The Fiend God Emperor Palace's treasury should have a lot of top-grade grandmist spiritual pills, right?" Huang Xiaolong smiled, though there was no temperature to his smile.

As an old power that had existed for hundreds of millions of years, how many other Emperor Palaces and forces' wealth the Fiend God Emperor Palace had swept clean? They had to have a lot of top-grade grandmist spiritual pills.

Huang Xiaolong journeyed without stopping on the black dragon flying ship even as he passed by some larger world surfaces.

He continued to cultivate, consuming large amounts of Brilliant Sun Divine Pills to strengthen his newly-broken-through early Eighth Order Heavenly Monarch Realm's foundation.

....

A little over two months went by.

The Black Dragon Throne stopped above a specific world surface.

Huang Xiaolong and two odd beasts stepped out from the Black Dragon Throne's flying ship. He looked around. According to the Silver Fox Commerce, the Fiend God Emperor Palace's headquarters was located in this area.

Huang Xiaolong opened the Eye of Hell on his forehead, and a red light-beam lit up the surrounding. It ignored the layers of space and reflected everything into Huang Xiaolong's mind.

A dozen breaths later, Huang Xiaolong flew southward with the two odd beasts. Barely after a hundred thousand li, a strong force suction force enveloped them. Huang Xiaolong did not resist at all, allowing the force to pull them away.

In a spiral, the view in front of them changed. Huang Xiaolong and the two odd beasts arrived at a stretch of starry space.

The starry sight in front of them were world surfaces. At the top of each world surface was dense nefarious qi as if a fiend god was residing inside each world surface.

Huang Xiaolong's eyes fell on the biggest world surface of all. This world surface was several times bigger than all other world surfaces he had seen so far. Nefarious qi roiled like clouds above this world surface. Even at more than a billion li's distance, Huang Xiaolong felt the overpowering nefarious qi.

This was the core location of the Fiend God Emperor Palace, the Fiend King Star!

Legend had it that the Fiend God Emperor Palace's founder was titled the Fiend King. Thus the world surface was named after him as the Fiend King Star.

Sensing the faint fluctuations of murderous auras coming from the surroundings, Huang Xiaolong and the two odd beasts flew towards the Fiend King Star.

Chapter 1812: Fiend God Emperor Feng Chu

As Huang Xiaolong and his two odd beasts got closer to the Fiend King Star, more than a couple of powerful auras locked onto Huang Xiaolong's group.

Sensing these powerful auras, Huang Xiaolong remained indifferent as he flew onward.

However, the closer Huang Xiaolong got to the Fiend King Star, the surrounding's nefarious qi grew increasingly dense and intense akin to a boundless chaos pool of concentrated nefarious qi pressing on one's chest until they could hardly breathe. Even someone as strong as Huang Xiaolong felt coercive pressure.

At one point, this nefarious qi pressed against Huang Xiaolong's body like several floors of chaos mountain, forcing him to circulate his supreme godheads' godforce to withstand the surrounding nefarious qi.

As the distance between him and the Fiend Star King narrowed, Huang Xiaolong's face grew solemn gradually.

Based on his current strength and the heart of hell, there were not many things that could give him a sense of danger; however, the Fiend King Star gave him a sense of danger.

At this distance, Huang Xiaolong could clearly sense that the seemingly infinite nefarious qi had reached an indescribable degree.

Through billions of years of forging with dark and nefarious items by several generations of Fiend God Emperor Palace's Ancestors, one could imagine the terror of Fiend Star King. Venture too deep, and even high-level Emperor Realm experts risked being corroded by the dense nefarious qi, and their minds being controlled!

It was not hard to imagine one's ending after being controlled by nefarious qi.

Huang Xiaolong's group stopped a hundred thousand li from the Fiend King Star and did not fly closer.

Seeing that Huang Xiaolong had suddenly stopped flying forward, the Fiend God Emperor Palace's Ancestors stayed hidden in the surroundings, seemingly competing over who could remain calm longer with Huang Xiaolong.

The world was unusually quiet.

Huang Xiaolong stood with his hand behind his back, his Eye of Hell opened and surveyed his immediate surroundings.

A while later, the dense nefarious qi around the Fiend King Star roiled like bubbling water, spreading out in the four directions, declaring its territory.

Simultaneously, the nefarious qi formed a giant arm that stretched out towards Huang Xiaolong.

Seeing this, Huang Xiaolong didn't bother dodging the outstretched arm coming at him. He circulated godforce from his Innumerable Buddha Supreme Godhead. Pure buddhist energy rose, condensing into golden Buddhas that sat in circles around Huang Xiaolong.

However, the nefarious qi hand enlarged and continued to reach for Huang Xiaolong as if the golden Buddhas around Huang Xiaolong did not exist.

Golden lights gleamed in Huang Xiaolong's eyes, and buddhist energy instantly flooded forward, colliding with the giant nefarious qi palm.

Z-zi-i!

Sharp exploding noises resounded. Against the purifying power of Huang Xiaolong's Innumerable Buddha Supreme Godhead's godforce, the nefarious qi hand scattered at a rapid pace. However, the nefarious qi seemed neverending as more of it flooded out from the Fiend King Star. The giant nefarious hand continued to be purified by Huang Xiaolong's godforce, yet it continued to condense simultaneously.

No matter how startling the nefarious qi was, it could not enter within a hundred li radius from Huang Xiaolong.

Huang Xiaolong sneered.

As long as the nefarious qi hand could not enter within a hundred li from him, it couldn't harm Huang Xiaolong, no matter how startling it was.

While Huang Xiaolong was fighting against the giant nefarious qi hand, a piercing sword qi suddenly slashed towards Huang Xiaolong from the void on the side.

World-shaking sword qi raised a sword qi wave over ten thousand li high as if a sword-river had suddenly appeared in the dark space.

This sword slash contained the profound power of heaven and earth's esoteric, enough to reduce a Tenth Order Emperor Realm expert into blood mist in an instant.

However, when the sword qi got closer to Huang Xiaolong, one of the odd beasts behind Huang Xiaolong instantly made its move. With a slap of its claw, it easily dispersed the lethal sword qi; the force rushed forward and disappeared into the void. A loud boom rang in the next second, and a figure was blown out from the void. This figure belonged to the attacker, the Fiend God Emperor Palace's Ancestor Liu Yuan.

But when one of the odd beasts retaliated, four murderous sword qis slashed at Huang Xiaolong from the other side of the void. Each sword qi was as powerful as Liu Yuan's sword attack.

The four sword qis resembled four fierce dragons locked onto Huang Xiaolong with world-destroying momentum, blocking Huang Xiaolong's path of retreats from left to right, and from up and down.

The remaining odd beast roared as it slapped out with both claws. Frenzy force slammed onto the four sword dragons.

The four sword dragons scattered into energy, and the claw force disappeared into the void. Four consecutive booms sounded, and in the next second, four figures stumbled out from the void with shocked expressions, looking at the monster.

These four people had the same level of strength as Liu Yuan, late-Tenth Order Emperor Realm experts. Within the Fiend God Emperor Palace, the four of them were amongst the top ten strongest experts. Even so, Huang Xiaolong's monster had easily shattered their combined efforts, kicking them out from the void in a sorry state.

"Very good, as expected of the Senior King of Darkness' invincible Four Gods of War that terrified the Divine World in the past!" A voice filled with appreciation came from the purgatory of nefarious qi. This voice embodied malevolence, pulling others into boundless nefarious purgatory with his voice.

Huang Xiaolong was enshrouded in flickering radiant light as he looked ahead and saw a massive figure concealed within a nefarious light leap out from the Fiend King Star. It arrived a hundred li in front of Huang Xiaolong in a single leap.

When this massive figure enshrouded in nefarious light appeared, the nefarious qi within this space roiled in excitement and ecstasy.

The massive figure exuded a powerful momentum comparable to the four odd beasts.

This was the Fiend God Emperor, Feng Chu!

Huang Xiaolong's eyes narrowed—only the Fiend God Emperor Feng Chu could have such momentum and fiendish aura.

With the Fiend God Emperor Feng Chu's appearance, the experts hidden in the surrounding all came out consecutively. Each person exuded a strong and powerful aura.

No doubt, these were the Fiend God Emperor Palace's Ancestors, a total of one hundred and seventy-eight people!

After these Emperor Realm Ancestors' appearance, another group of people appeared, consisting of the Fiend God Emperor's Disciple Feng Chan, Wang Yongsan, and other Fiend God Emperor Palace's supreme rank godhead geniuses.

"Greetings, Emperor!"

Liu Yuan and the other Ancestors, as well as Feng Chan's group all, knelt respectfully in salute.

Feng Chu nodded, and his majestic voice sounded, "Stand up."

Feng Chan and the others stood up.

"Huang Xiaolong, I have to say that I'm genuinely surprised that you really have the guts to come to my Fiend God Emperor Palace." Feng Chu's voice sounded again from the massive figure enshrouded in nefarious light. His words echoed in space, reaching over a hundred million li. There was a gleam of crimson in his obsidian pupils, like the devil himself. "Not even your Senior Brother Jiang Hong dares to venture in here recklessly."

Huang Xiaolong was unaffected by Feng Chu's momentum at all, "I've been to places that are more dangerous, it's just the Fiend God Emperor Palace."

Liu Yuan and the others glared at Huang Xiaolong in outrage at his casual retort about the Fiend God Emperor Palace.

Feng Chu sneered, "You do have some guts, but by entering here today, don't think you would be able to escape."

Huang Xiaolong replied nonchalantly, "Since I dare to come here, I naturally never thought of running."

Feng Chu smiled meaningfully as he shook his head, "I have to admit, the two odd beasts behind you are very powerful, but they are still not existences that have surpassed the Emperor Realm. They can protect you today. Once the Grand Fiend God Formation is activated, only the existence that has surpassed the Emperor Realm is capable of escaping!"

The moment his voice fell, numerous malevolent giant arms appeared from space's horizon. On the surface of these massive arms were glimmering devilish runes, blocking all paths of escape.

Chapter 1813: Feng Chu Trying To Solicit The Odd Beasts?

Huang Xiaolong's chest slightly tightened with tension, looking at the numerous malevolent giant arms.

This was the notorious Grand Fiend God Formation!

The malevolent giant arms were different from the giant arms condensed from nefarious qi earlier, as each of these giant arms was made out of real flesh and blood.

Rumors had it that every giant arm of the Grand Fiend God Formation used the generations of Fiend God Emperor Palace's Emperor Realm experts' arms as materials!

Thus, every malevolent arm within the Grand Fiend God Formation contained the concentrated nefarious qi of a Fiend God Emperor Palace's Tenth Order Emperor Realm expert's lifetime accumulation of nefarious qi. Hence, it was not hard to imagine the astounding amount of nefarious qi.

Every giant arm had been tempered for numerous years by the Fiend God Emperor Palace's Tenth Order Emperor Realm experts. The hardness of these giant arms was stronger than most grandmist spiritual artifacts.

These arms were linked together like a chain which amplified these numerous Emperor Realm experts' nefarious qi. Therefore, breaking this Grand Fiend God Formation was akin to breaking a solid defensive wall formed by countless Fiend God Emperor Palace's Tenth Order Emperor Realm experts.

Feng Chu's statement from earlier that only an existence who had surpassed the Emperor Realm could break out from the formation was no exaggeration by any means.

In truth, even an existence that had surpassed the Emperor Realm would be hard-pressed to break out from this Grand Fiend God Formation.

"Huang Xiaolong, looking at the sake of your Master, the King of Grandmist, as long as you hand out all the peerless treasures on you, and offer up your sixteen wings, my Fiend God Emperor Palace can spare your life!" Feng Chu watched Huang Xiaolong intently as he went on coldly, "I'll give you only one chance. I hope you will seize it. Think it through before answering me."

Feng Chu was full of confidence since the Grand Fiend God Formation was already activated.

In his opinion, no matter how many secrets Huang Xiaolong had, how many trump cards were up his sleeves, he couldn't escape the Grand Fiend God Formation.

Moreover, he really planned to spare Huang Xiaolong if he handed out all of his treasures and offered up his sixteen wings.

After all, backing Huang Xiaolong was the King of Grandmist. Even though the Fiend God Emperor Palace was strong with Nine Yin Giant Corpse Tribe's support, Feng Chu had to think of the consequences.

No matter who it was, they couldn't sneeze at the King of Grandmist's wrath.

Hearing Feng Chu's words, Huang Xiaolong smiled.

Looking at the smiling Huang Xiaolong, Feng Chu's expression clouded in an instant.

As expected, Huang Xiaolong spoke, "Feng Chu, I don't need to think it through. Looking at the Nine Yin Giant Corpse Tribe's face, take out the Fiend God Emperor Palace's treasury, and offer up your heads. I can consider not annihilating the Fiend God Emperor Palace." He paused for a second, then added, "I'll only give you one chance as well. I hope you think it through before answering me."

“What?!”

“Huang Xiaolong, do you want to die!?”

The Fiend God Emperor’s Disciple Feng Chan was enraged and was the first to blast at Huang Xiaolong, “Huang Xiaolong, we pity you. So we gave you a chance to beg for mercy. But you don’t know how to appreciate it. So what if your Master is the King of Grandmist?! So what if your Senior Brother is Jiang Hong? If we want to kill you, it’s as easy as killing a dog!”

Huang Xiaolong’s eyes narrowed dangerously as he asked, “I’ve heard that you have an archdevil bloodline. Am I correct?”

Feng Chan was stumped by the unexpected question but raised his chin and admitted proudly, “That’s right. I have a king of supreme godhead, an archdevil bloodline, and on top of that, the Fiend Spirit Physique!”

King of supreme godhead, archdevil bloodline, and Fiend Spirit Physique!

It had to be said, the Fiend God Emperor’s Disciple Feng Chan’s talent was indeed shocking. No wonder Feng Chan was hailed as the Fiend God Emperor Palace’s greatest genius of all time. This level of talent didn’t lose out much even when compared to the Heavenly Prince Di Jing.

On the contrary, Huang Xiaolong snickered at Feng Chan’s words, “Since you have an archdevil bloodline, I am not so worried anymore. After I devour you and refine your archdevil bloodline, it would help my archdevil bloodline evolve one more time.”

As Huang Xiaolong’s archdevils bloodline evolved and became purer, his cultivation speed increased. This brought the day of advancing to the Emperor Realm closer by each day.

Currently, the devil’s army was in the midst of preparing an attack on the Divine World. With the Nine Yin Giant Corpse Tribe at the helm, Huang Xiaolong needed to break through to Emperor Realm before that.

Only this way would he have enough power to ensure he survived when the time came.

“Huang Xiaolong, you’re seeking death!” Feng Chan’s killing intent needed hearing that Huang Xiaolong had the audacity to want to devour his archdevil bloodline. In a flicker, he turned into a huge fiend body. His archdevil bloodline was pushed to the extreme, and he punched out with both fists at Huang Xiaolong.

Feng Chu did not stop Feng Chan’s action.

However, the surrounding Fiend God Emperor Palace’s Ancestors’ godforce was locked onto the two odd beasts behind Huang Xiaolong to prevent them from interfering with Feng Chan.

Huang Xiaolong was indifferent watching Feng Chan’s fists coming at him, even though Feng Chan’s strength had already reached the early Ninth Order Heavenly Monarch Realm, Huang Xiaolong had a greater understanding of his own strength.

Feng Chan’s fists were almost right in front of his eyes before Huang Xiaolong raised his hands to meet the attack.

Rum~rumble!

In the next moment, Feng Chan tumbled backward in space like a broken kite. His mouth, nose, ears, eyes, and various places on his body were spurting blood.

"Young Lord!"

Liu Yuan and the others were taken aback and swiftly rushed out to catch Feng Chan.

There were lines all over Feng Chan’s body like cracked porcelain as blood seeped out nonstop. It seemed like Feng Chan’s body would collapse into pieces any second.

Liu Yuan and the other Ancestors hastened to rescue Feng Chan in a fluster.

Cold gleams flickered across Fiend God Emperor Feng Chu's scarlet eyes, his hostile gaze fixed on Huang Xiaolong. He had intended to have his son Feng Chan test if Huang Xiaolong's strength was really as amazing as the rumors claimed. But who would've thought that even with his son's strength and talent, Huang Xiaolong could injure him in one move?

Viciousness roiled in his eyes like two sharp blades, enveloping Huang Xiaolong.

However, Feng Chu did not attack impulsively. His attention shifted to the two odd beasts behind Huang Xiaolong, and he said, "Both of you were Senior King of Darkness' invincible gods of war in the past. Why humble yourself to follow an insignificant Heavenly Monarch like Huang Xiaolong? What benefits has he given you? If you're willing to join our Fiend God Emperor Palace, I am willing to govern the Fiend God Emperor Palace with the both of you. Brothers may take any treasures from our treasury!"

Govern the Fiend God Emperor Palace!

This was nothing less than supreme authority. Anyone would be greatly tempted by this offer. After all, the Fiend God Emperor Palace ranked third among thousands of Emperor Palaces, and its strength was not as simple as it seemed on the surface. Just the several bloodbaths on the Fiend God Emperor Palace's record spoke volumes of their power and strength.

On top of that, Feng Chu promised the two odd beasts a choice of the treasures from inside the Fiend God Emperor Palace's treasury.

Huang Xiaolong sneered. If it were someone else, they would have betrayed him on the spot after hearing such conditions, but Feng Chu had chosen the two odd beasts as the wrong targets.

The two odd beasts remained cold and indifferent as if they had not heard Feng Chu's words.

"If two brothers are not reassured, I can make a heaven oath." Feng Chu was unwilling to give up despite the two odd beasts' tepid reaction; thus, he added.

However, just as Feng Chu finished speaking, the two odd beasts roared and reverted to their real size, and their claws struck out.

## Chapter 1814: Blasting A Hole Through a Plane

One of the odd beasts directly aimed its attack at Fiend God Emperor Feng Chu, while the other odd beast dived into the group of Fiend God Emperor Palace's Ancestors. A flurry of blasts ensued.

When the two odd beasts reverted to their real forms, they were over a thousand zhang tall. Due to their sudden attack in their real forms, Feng Chu and the Fiend God Emperor Palace's Ancestors took on the full force of the attack and got smashed backward violently.

Feng Chu was a peak late-Tenth Order Emperor Realm expert at the same cultivation realm as the two odd beasts. But in their real forms, the two odd beasts' strength surpassed an Emperor Realm expert. Moreover, how could Feng Chu withstand an odd beast's full force attack!

And the full force attack of an odd beast carried the power of shattering the universe for the Fiend God Emperor Palace's Ancestors.

Liu Yuan, Zhao Wendan, Liu Wen, and other Fiend God Emperor Palace's Ancestors were smashed into a planet's land in the distance. The entire planet trembled violently, and that particular land exploded, spitting dirt everywhere.

Though Feng Chu fared better than these Ancestors, he was still sent flying back over ten thousand li, coughing up blood. The nefarious light that enshrouded his body dispersed from the impact, exposing his true appearance.

Feng Chu was an old fogey!

A tall and burly old man with small eyes and a small mouth that only emphasized this eighty-plus-year-old man's sinister personality!

The two odd beasts succeeded with their first attacks, and without waiting for Feng Chu, Liu Yuan, and the rest to react, their second wave of the attack arrived.

One of the odd beasts aimed its punch at Feng Chu's head. The hill-sized claw burst out in radiant rays of black light, resembling a giant black hole. This punch shattered the void, and even time seemed to slow down.

No matter how powerful or hard Feng Chu's head was, or even if his entire body had been tempered and forged by numerous herbs, his head would inevitably suffer injuries if this punch hit it.

Feng Chu was alarmed. As the Fiend God Emperor, he had experienced many things, and he had personally annihilated countless sects and even Emperor Palaces, but the expression on his face had remained indifferent through it all. This time, he actually felt death enveloping and entangling his whole body.

Under the threat of death, Feng Chu roared in resistance. Something seemingly triggered the nefarious power inside his body, exploding in blinding light. Nefarious qi roiled frenziedly as the Fiend King Star emitted thousands of rays of nefarious light like a million bright suns, shining on Feng Chu.

When the odd beast's punch struck Feng Chu, the million rays of nefarious light on Feng Chu's body turned into a Fiend God Divine Armor.

Rumble—!

The odd beast's powerful void-shattering punch landed accurately on Feng Chu's head.

The Fiend God Divine Armor that had just formed around Feng Chu shattered in the blink of an eye. Whereas Feng Chu was sent flying horizontally with his head crooked at an odd angle. Loud buzzing noises thundered in Feng Chu's mind as if there was a sea of chaos lightning raising hell in his head.

However, because Feng Chu was protected by the Fiend God Divine Armor earlier, he survived the odd beast's lethal attack, and his head did not explode.

Feng Chu was furious, shocked, and afraid. He was shocked by the odd beast's strength and furious because he had never been humiliated like this in his life! In the last ten billion years, he had never been struck flying endlessly, and no one had dared to hit his head!

Although Feng Chu had estimated the odd beast's strength, only now did he understand that its strength was higher than he could imagine.

At this point, Feng Chu finally understood why the four odd beasts were hailed as the four gods of war under the King of Darkness, who had swept across the eight directions, unrivaled amongst the Emperor Realm.

After the other odd beast smashed Liu Yuan, Zhao Wendan, and the rest into a big planet, the odd beast appeared above the planet in a flicker. Its arms looked like sky-propping pillars hammering down on Liu Yuan, Zhao Wendan, and the others.

Two overwhelming forces hit onto the planet.

Liu Yuan, Zhao Wendan, and the others were horror-struck and frantically circulated their godforce to execute their own escape methods, regardless of the heavy injuries on their bodies.

R~rr-rumble!

When the odd beast's two arms with the force of two galactic rivers punched into the planet, the entire planet was dislocated from its original spot!

This giant planet had been in existence for countless millions of years, probably countless billions of years, but now, it was actually sent rolling in space!

This was not the end of it. The mainland where Liu Yuan, Zhao Wendan, and the others had fallen were reduced into dust by the punches. Two holes broke on the other end of the planet!

Starlight could shine through the entire planet!

Other than Liu Yuan and Zhao Wendan, the other four Fiend God Emperor Palace's Ancestors were smashed into the core of the planet, exiting from the other end before exploding to their deaths in a mist of blood.

Dead in two punches!

These four were Fiend God Emperor Palace's Ancestors, but they didn't even get a chance to resist. More accurately, they didn't even have the opportunity to think of resisting.

However, at this time, a radiant ray of sword qi whistled from a distance with overwhelming momentum, exuding a sacred aura. It stood out from the surrounding nefarious qi, but it was just as piercing. No doubt, it could split a planet into two.

This radiant sword qi directly targeted Huang Xiaolong's back. It was so fast that many Emperor Realm experts couldn't react, much less Huang Xiaolong.

This radiant sword qi was going to pierce through Huang Xiaolong's back and cut him into two in a split second. Out of nowhere, another radiant sword appeared and completely blocked the attacking radiant sword qi.

Zheeeng!

A crisp sound resounded as blinding sparks flew.

Two figures enshrouded in holy radiant halos appeared in everyone's sight.

One was the person who had attempted to assassinate Huang Xiaolong in the dark. It was the Brightness Emperor, Lan Zhi, while the other was...!

"Fourteen-winged Radiance Angel!" Brightness Emperor Lan Zhi and Fiend God Emperor Palace's Ancestors shouted in unison, filled with incredulous disbelief as they stared at the figure enshrouded in the holy halo.

The one who had blocked Brightness Emperor Lan Zhi's assassination attempt was none other than one of the Heavenly Hall's fourteen-winged Radiance Angels of peak late-Tenth Order Emperor Realm. In terms of strength, the fourteen-winged Radiance Angel might be slightly weaker than any of the four

odd beasts. However, the fourteen-winged Radiance Angel was a lot stronger than the same realm Brightness Emperor Lan Zhi.

Hence, Brightness Emperor Lan Zhi's assassination attempt on Huang Xiaolong was blocked without breaking a sweat.

After blocking Brightness Emperor Lan Zhi's assassination attempt, the fourteen-winged Radiance Angel's sword slashed across space in Lan Zhi's direction. The stars in the vicinity seemed to light up with his action, emitting unprecedented radiance.

Brightness Emperor Lan Zhi's eyes widened in horror. Radiant lights burst out from his entire body as he desperately retreated as far as he could from the Radiance Angel.

However, no matter how far and how fast Lan Zhi retreated, the fourteen-winged Radiance Angel's sword-slash was still aiming for his throat. On top of that, the sword attack's speed was faster than his retreating speed.

As Brightness Emperor Lan Zhi was that close to being beheaded, suddenly, several radiant figures rushed out from the void from above, below, and the four sides, attacking the fourteen-winged Radiance Angel.

Huang Xiaolong sneered, watching this scene and inwardly summoned the other fourteen-winged Radiance Angel from the Heavenly Hall.

#### Chapter 1815: Everyone's Here, Very Good

These people attacking the Radiance Angel to rescue Brightness Emperor Lan Zhi were the Brightness Emperor Palace's Chen Wenqian, Chen Wenxin, and several other Ancestors. However, just as Chen Wenqian, Chen Wenxin, and the Ancestors attacked the fourteen-winged Radiance Angel, tens of thousands of zhang radiant sword qi slashed down on them.

This radiant sword qi resembled a vast river of light that separated them from the fourteen-winged Radiance Angel.

Chen Wenqian, Chen Wenxin, and the others panicked and backed away in a fluster while changing their attacks toward the glaring river of sword qi.

Rumb-le! R~rumble!

Several sword qis collided.

The rest of the starry space was eclipsed by the sparks of collision around Huang Xiaolong.

At the last moment, a Radiant Divine Armor appeared over Brightness Emperor Lan Zhi's body that blocked the fourteen-winged Radiance Angel's sword attack. However, the sword qi also destroyed more than a dozen radiant runes on Lan Zhi's divine armor, and Lan Zhi himself was blasted back from the massive collision.

Chen Wenqian, Chen Wenxin, and the rest were also smacked into the distance by the sword qi river.

Sword qi crisscrossed cracking space openings everywhere with the overwhelming aftershock.

Both fourteen-winged Radiance Angels did not continue to attack after that and returned to Huang Xiaolong's side in a flicker. So did the two odd beasts, standing behind Huang Xiaolong like two sturdy mountains.

Fiend God Emperor Feng Chu and Brightness Emperor Lan Zhi stood side by side, staring at the two beasts as well as the two fourteen-winged Radiance Angels behind Huang Xiaolong with an ugly expression on their faces.

They held supreme positions in the Fiend God Emperor Palace and Brightness Emperor Palace and were two top experts in the ranks of Divine World's pinnacle existences. But this time, neither could hide the astonishment in their eyes as they looked at the two beasts and fourteen-winged Radiance Angels guarding Huang Xiaolong.

Four peak late-Tenth Order Emperor Realm experts!

Moreover, after reverting to their true forms, the two odd beasts had the strength surpassing the Emperor Realm!

Just the two odd beasts and two fourteen-winged Radiance Angels behind Huang Xiaolong were sufficient to walk sideways anywhere they wanted, deterring any force.

The Fiend God Emperor Palace's Liu Yuan and Zhao Wendan had turned deathly pale at this point. The two beasts' ferocious momentum from earlier had left a big shadow in their souls.

Initially, they were still somewhat doubtful about the ancient legends related to the four odd beasts, and now, not the slightest doubt remained.

"Do the rest of you plan to hide until the end?" Huang Xiaolong's gaze turned frosty as he looked towards a certain direction in space.

Brightness Emperor Lan Zhi's eyes glimmered in silent shock, then he nodded secretly. A second later, figures flickered out from the void.

Consecutive people with powerful momentums clad in the radiant divine armors appeared from the void. These were the Brightness Emperor Palace's Ancestors who had been concealing within the void until now.

A total of one hundred and forty-five people!

This was the number of Ancestors the Brightness Emperor Palace had brought with them.

Subsequently, after the Brightness Emperor Palace's one hundred and forty-five Ancestors appeared, the Solitude Emperor Palace's Gudu Wuyi, Nine Dragons Emperor Palace's Chen Jianwei, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace's experts also showed themselves.

These four Emperor Palaces added twenty-six top Emperor Realm experts!

Counting the Fiend God Emperor Palace's one hundred and seventy plus Ancestors, there were over three hundred Emperor Realm experts!

The momentum of over three hundred Emperor Realm experts' in the same place was akin to a giant tsunami. Even space became distorted from their momentums.

"Everyone's here, very good," Huang Xiaolong looked at Gudu Wuyi, Chen Jianwei, and the others with a tepid expression as he added, "This way, I won't have to go the Solitude Emperor Palace, Nine Dragons Emperor Palace, Thousand Venoms Emperor Palace, and Flying Blossoms Emperor Palace one by one."

For Huang Xiaolong, being able to annihilate Gudu Wuyi, Chen Jianwei, and the others once and for all was the most ideal of situation, saving him the trouble of running east and west, and wasting precious time for cultivation.

Huang Xiaolong's brazen words instantly enraged Gudu Wuyi, Chen Wenqian, and the others.

"Huang Xiaolong, don't think those few subordinates can protect you!" Gudu Wuyi pointed the sword in his hand at Huang Xiaolong's face and yelled, "Inside this Grand Fiend God Formation, it's impossible for you to escape. Today is the day you die!"

"That's right, Huang Xiaolong, hand out those treasures on you and the sixteen wings now. Plead for mercy on your knees and we can consider letting you die more comfortably!" Chen Jianwei glared fiercely at Huang Xiaolong as he finished, "Otherwise, you'd wish you were dead when we're done with you!"

Huang Xiaolong retorted nonchalantly, "I don't know if today is the day I die, but I am absolutely certain, today, all of you will die!"

Gudu Wuyi, Chen Jianwei and the others were infuriated, however, Brightness Emperor Lan Zhi raised his hand and stopped them from bickering. His gaze had never left Huang Xiaolong ever since the two had stood on opposite sides. "Huang Xiaolong, I know those two beasts and fourteen-winged Radiance Angels behind you have shocking strength. However, inside this Grand Fiend God Formation, killing you is still doable with the help of six Emperor Palaces' experts."

Brightness Emperor Palace's Lan Zhi paused briefly before continuing, "Hand over the sixteen wings to me, and the supreme treasures to the Fiend God Emperor Palace. We can guarantee to let you leave here alive!"

Fiend God Emperor Feng Chu nodded his head in agreement to Brightness Emperor Lan Zhi's words, "That's right, we guarantee to let you leave. In the future, we'll mind our own business and not interfere with each other. When my Fiend God Emperor Palace rules the Divine World in the future, we won't touch any Fortune Emperor Palace's disciples."

In truth, their original plan was to eliminate Huang Xiaolong once and for all, but the two beasts' strength had greatly exceeded their expectation. On top of that, there were two more fourteen-winged peak late-Tenth Order Emperor Realm Radiance Angels... They had no choice but to change their plans.

Six Emperor Palaces' joint-effort could ensure that they could kill Huang Xiaolong but that would come at a high price. Both sides would suffer a tragic defeat.

Neither Lan Zhi nor Feng Chu wanted to see that.

Therefore, it was best for them if Huang Xiaolong yielded.

"Let me leave alive? From your tone, it seems I should be grateful." Huang Xiaolong's mocking gaze swept over Feng Chu and Lan Zhi.

Feng Chu's face sank. His voice was cold and sullen as he spoke, "Huang Xiaolong, we've given you enough face. So, don't be shameless. We have yet to truly activate the Grand Fiend God Formation's power, but once we do that, you won't even have a chance to beg for mercy."

Huang Xiaolong laughed casually, "I'm curious to see how powerful this fabled Grand Fiend God Formation is."

"In that case, I'll fulfill your wish!" Feng Chu felt he had given Huang Xiaolong enough chances. But since Huang Xiaolong did not appreciate it, there was no need for him to be 'polite' any further. He waved his hands in the air and the nefarious qi within his body surged, resonating with the Fiend King Star's desecrating nefarious qi. It immediately spread out and covered the entire space.

Under the startling dense nefarious qi from the Fiend King Star, the numerous giant arms that had been lingering on the horizon were jolted awake, emitting glaring but eerie light as they slammed forward.

The giant arms' attack rained down on Huang Xiaolong like a thunderstorm from all angles.

Seeing this, Huang Xiaolong did not dare to be careless. His Innumerable Buddha Supreme Godhead's godforce flooded out and sixteen radiance wings grew out from his back, spreading out majestically.

The two fourteen-winged Radiance Angels' fourteen wings spread out simultaneously in sync with Huang Xiaolong's action, amplifying the radiant light energy rushing out.

Chapter 1816: You're the New Lord of Hell!

The two fourteen-winged Radiance Angels' radiant energy suppressed and blocked the violent nefarious qi rolling down from above.

The rolling nefarious qi smashed against the massive radiant energy wall like meteor rain, yet the radiant energy wall remained steadfast.

Feng Chu and the Fiend God Emperor Palace's Ancestors' faces tightened nervously.

The two fourteen-winged Radiance Angels' radiant energy was far stronger than they had imagined.

The nefarious qi within the Grand Fiend God Formation was formed from their Fiend God Emperor Palace's generations of experts' forging and accumulation. Even Feng Chu himself could not accurately judge the terror of this nefarious qi. But it was actually blocked by the two fourteen-winged Radiance Angels' radiant energy from behind Huang Xiaolong.

"The Fiend King's Descend!"

Seeing this result, Feng Chu bellowed furiously and pushed the nefarious energy within his own body to the limit. Blinding nefarious light burst out from his body. The same happened from the Fiend God Emperor Palace's Ancestors as they followed suit, circulating their nefarious energy to the limit.

In a split second, the nefarious qi from the Fiend King Star rose sharply, raising humming noises in space, as if there was a terrifying fiend creature awakening from slumber inside the Fiend King Star.

Simultaneously, bursts of nefarious light and endless nefarious qi roiled, gathering and merging, condensing into two giant arms. There were runes on these giant arms, shining brightly. Robust nefarious qi roared violently like a galloping waterfall from the void.

As the infusion of more nefarious qi further strengthened these malevolent giant arms, it formed an utterly massive body.

This figure exceeded a hundred thousand zhang height, clad in an armor of fiendish runes.

"Who awakened me from my slumber?" The massive malevolent body opened its mouth and spoke in a thunderous voice, rumbling outward in all directions. Nefarious qi roiled, turning into a turbulent hurricane.

"We pay our respects to the Founder Fiend King!" Elation rushed up to Fiend God Emperor Feng Chu's face as he saluted with the utmost respect.

This massive body of nefarious qi not only contained the dense nefarious qi from the Fiend King Star but also a fraction of the Fiend God Emperor Palace's Founder's consciousness.

The Fiend King was an existence who had surpassed the Emperor Realm.

He was a peerless overlord!

"Founder, this disciple is the Fiend God Emperor Palace's third-generation Emperor, Feng Chu. Currently, the Fiend God Emperor Palace is under enemies' attack. The enemies are so strong that this

disciple has no choice but to awaken the Founder and plead with the Founder to save our Fiend God Emperor Palace by annihilating the enemies!” Feng Chu answered respectfully.

The fiend figure looked at the two odd beasts and fourteen-winged Radiance Angels behind Huang Xiaolong.

“En, two of the four odd beasts?!” The Fiend King’s consciousness was locked onto the two odd beasts. The fiery amber lights that were his eyes glimmered with intense killing intent.

He had once suffered heavy injuries at the hand of the King of Darkness. Thus he was very familiar with the four odd beasts under the King of Darkness.

“So, it’s you guys!” Fiend King chuckled sinisterly, and his voice echoed throughout the entire Fiend God Emperor Palace’s starry space.

“Not bad, not bad. After this king devours you two, I might even have the chance to be reborn a few million years based on your powerful darkness bloodline!” After the Fiend King’s consciousness finished speaking, two giant arms shot out, slamming down on the two odd beasts.

Nefarious qi roiled frenziedly.

Two giant arms moved with world-destroying power that a peak late-Tenth Order Emperor Realm expert would explode to his death in an instant if hit by it.

Seeing this, the two odd beasts roared in annoyance, and their claws swept out, meeting the Fiend King’s two giant arms head-on.

Rumble~r~rr-rumble~! Thunderous blasts shook the starry space.

Right at this time, the dense nefarious qi within the Grand Fiend God Formation rushed towards Huang Xiaolong and the two fourteen-winged Radiance Angels from every direction.

The radiant lights shining on the fourteen-winged Radiance Angels intensified, forming layer after layer of light barrier that blocked the incoming nefarious qi.

“Kill!” Feng Chu’s voice reverberated, “Whoever captures Huang Xiaolong will be greatly rewarded with ten million low-grade chaos spirit stones!”

With that, Feng Chu was also the first to lunge toward Huang Xiaolong in the attack. His palms turned to two huge mountains, slamming down on Huang Xiaolong from above.

The Fiend God Emperor Palace’s Liu Yuan, Zhao Wendan, and the others promptly joined in attacking.

Brightness Emperor Palace’s experts also made their moves.

Over three hundred Emperor Realm experts’ simultaneous attack was powerful enough to destroy a piece of the universe, breaking a super world surface in crumbles.

Each swirling palm force bore the weight of an insurmountable chaos mountain.

The space around Huang Xiaolong was already distorted and began to crack even before Feng Chu’s attack arrived.

Huang Xiaolong narrowed his eyes as he looked at Feng Chu and the others lunging towards him, and the sharp gleam in his eyes veiled under his lashes. He was in no hurry to act, and he waited until Feng Chu, Lan Zhi, and the rest to get close. Only then did he summon the City of Eternity and Heavenly Hall.

The City of Eternity appeared first. Under one hundred high-level Emperor Realm Undead Race Netherguard’s godforce, the City of Eternity ballooned in size into a hundred million miles wide behemoth that smashed onto Feng Chu, Liu Yuan, Lan Zhi, and the rest.

Then, twelve twelve-winged Radiance Angels drove the Heavenly Hall. The Heavenly Hall resembled a radiant shining sun, emitting boundless radiant energy, as it flew out after the City of Eternity.

As Feng Chu, Lan Zhi, Liu Yuan, and the rest were quite close to Huang Xiaolong, they were unable to react to the speed of the City of Eternity. The City of Eternity had arrived in front of them like a giant mountain smashing into a flock of birds.

Fiend God Emperor Feng Chu and the rest were all knocked backward, smashing into a large planet. Some low-level and mid-level Emperor Realm Ancestors exploded into blood mists in this collision.

Blood splattered everywhere.

The Heavenly Hall rammed into them barely a moment after Feng Chu was hit by the City of Eternity.

Half of the planet disappeared, and countless mainlands and mountains collapsed, and seas were gone.

The City of Eternity flew up once again and then slammed down on the group again with overwhelming pressure. The remaining planet exploded into a dozen pieces.

Under the City of Eternity and Heavenly Hall's consecutive smashes, the Fiend God Emperor Palace, Brightness Emperor Palace, Solitude Emperor Palace, Nine Dragons Emperor Palace, Flying Blossoms Emperor Palace, and Thousand Venoms Emperor Palace's Ancestors' miserable undulating screams pierced through space.

Out of the twenty-six Ancestors of the Solitude Emperor Palace, Nine Dragons Emperor Palace, Flying Blossoms Emperor Palace, and Thousand Venoms Emperor Palace—eighteen of them died! Only eight remained!

Whereas the Fiend God Emperor Palace and Brightness Emperor Palace had lost a total of fifty-six low-level and mid-level Emperor Realm Ancestors!

In the meantime, the Grand Fiend God Formation's numerous giant arms collided with the City of Eternity and Heavenly Hall, finally slowing down their movements.

At this time, Feng Chu and Lan Zhi were staring at the City of Eternity and Heavenly Hall in their shattered divine armors and disheveled hair, as if they had just seen something unbelievable. Their expressions changed drastically, filled with astonishment and indescribable horror.

“Huang Xiaolong, you, so it’s you! The New Lord of Hell is actually you!” Feng Chu blurted out as he stared at Huang Xiaolong. Other Ancestors from Fiend God Emperor Palace, and Brightness Emperor Palace, as well as Gudu Wuyi, Chen Jianwei, and others shuddered, hearing Feng Chu’s exclamation.

Chapter 1817: Everyone, Don’t Panic!

The New Lord of Hell!

Huang Xiaolong was actually the new Lord of Hell!

His Majesty, the Nether King!

Especially for Gudu Wuyi and Chen Jianwei, the shock was no less than the heavens collapsing right above them.

A while back, a rumor was heard from Hell that a new Lord of Hell had appeared. This new Lord of Hell had led the Netherworld King’s Organisation and defeated the Nine Yin Giant Corpse Tribe, Massacring Gods Sect, Howling Moon Wolf Race, Gu Family, and other enemies above the Nethersea until they had fled with their tails between their legs!

The battle of the Nethersea had shocked Hell and other big worlds. Several hundred Emperor Realm Ancestors of Nine Yin Giant Corpse Tribe, Massacring Gods Sect, and Howling Moon Wolf Race had died that day! Even the Nine Yin Giant Corpse Tribe’s Patriarch Shi Wushuang had barely escaped with heavy injuries.

The Massacring Gods Sect’s Young Lord Song Litao and Howling Moon Wolf Race’s Young Lord Yi Qing were killed on the spot!

That battle had made all the forces in the universe suck in a breath of cold air.

The new Lord of Hell, the Asura noble named Duwei, had seemed to appear out of nowhere. No one could say for certain what his real identity was.

“So, the new Lord of Hell is you. I should have known, I should have thought of you!” Brightness Emperor Lan Zhi repeated dazedly, sounding as if he had lost his mind as he stared at the sixteen radiant wings on Huang Xiaolong’s back. “Only the legendary Heavenly Hall in Hell... Only by obtaining the Heavenly Hall’s inheritance, could one condense sixteen wings. I should have thought of it!”

Looking at the City of Eternity and the Heavenly Hall, Lan Zhi’s heart suddenly gave birth to despair.

Even though the Nine Yin Giant Corpse Tribe’s Patriarch had led a large group of experts and joined hands with the Massacring Gods Sect, and Howling Moon Wolf Race, their several hundred experts had failed to kill Huang Xiaolong. Those people were massacred instead! What about them then...?

Gudu Wuyi, Chen Jianwei, and the surviving Ancestors were terrified and flustered. Wouldn’t it mean that offending Huang Xiaolong was equivalent to offending Hell’s three worlds? Huang Xiaolong was an existence more terrifying than the Nine Yin Giant Corpse Tribe!

As powerful as the Nine Yin Giant Corpse Tribe was, it was still one tribe of Hell’s Spirits World. From the surface, they were one of many under Huang Xiaolong’s governance!

Despair infected the rest of the group.

The Fiend King was still battling with the two odd beasts.

Although the Fiend King’s consciousness was supported by the endless nefarious qi from the Fiend King Star and the surrounding planets, he was merely a fraction of the Fiend King’s consciousness. Hence it was impossible for him to suppress the two odd beasts. Moreover, in the prolonged battle against two odd beasts, the Fiend King began to fall downwind.

“Everyone, don’t panic!” Suddenly, Feng Chu’s resounding roar jolted everyone’s attention back to the present. “Even if Huang Xiaolong is the Lord of Hell, it does not mean he’s unkillable. His strength is only at the Heavenly Monarch Realm now. We can kill him!”

“As long as he’s still inside this Grand Fiend God Formation, we have the opportunity to kill him!”

“As long as we kill him, we’ll get the Lord of Hell’s peerless treasure on him and his heart of hell. We will be the new Lord of Hell!”

“We will rule Hell’s three worlds and sweep the entire universe. Who else would dare to defy us? Moreover, by getting Huang Xiaolong’s sixteen wings, we will also become the Radiance World’s Overlord, commanding the Radiance World’s army of hundred billion Radiance Angels. Even the Heavenly Emperor will kneel respectfully before us!”

Feng Chu’s words greatly moved the despaired from Fiend God Emperor Palace, and Brightness Emperor Palace’s Ancestors. Gudu Wuyi and Chen Jianwei’s fighting spirit was aroused once again.

The heart of hell!

Sixteen wings!

Everyone’s gaze changed this time as they looked at Huang Xiaolong, gleaming with an inexplicable fervor.

Like what Fiend God Emperor Feng Chu had said—so what if Huang Xiaolong was the Lord of Hell? He’s still a Heavenly Monarch Realm ant. It wasn’t as if Huang Xiaolong was immortal! Moreover, Huang Xiaolong was now restrained inside the Grand Fiend God Formation, and the possibility of them killing Huang Xiaolong was twice as high.

As long as they killed Huang Xiaolong and obtained Huang Xiaolong’s heart of hell, any one of them could become the Lord of Hell! If the sixteen wings also fell into their hands, everything in Hell and the Radiance World would belong to them!

“KILL—!”

“Kill Huang Xiaolong!”

Fiend God Emperor Feng Chu and Brightness Emperor Lan Zhi shouted in unison.

Blinding lights enshrouded Feng Chu and Lan Zhi. Nefarious qi from the Fiend King Star and surrounding planets erupted to another level into Feng Chu's body. Feng Chu's body grew massive in the blink of an eye. His old appearance turned into a stalwart fiend god over ten thousand zhang tall. Long green hair grew past his shoulders. His eyes glowed crimson. His ten fingers and nails becoming long and pointy, akin to ten deathly scythes.

Whereas the Brightness Emperor Lan Zhi's Radiant Divine Armor exuded endless roiling radiant energy. His earlier injuries healed in a moment and he shined like an ancient God of Light.

Both Feng Chu and Lan Zhi were experts of peak late-Tenth Order Emperor Realm. With their full strength erupted, their strengths had leaped into the level comparable to existences surpassing Emperor Realm!

Feng Chu was the first to leap towards Huang Xiaolong with his lethal nails that were so sharp that it shredded through the fabric of space.

Lan Zhi followed right behind Feng Chu. In a flicker, he appeared high above, slashing down on Huang Xiaolong with his sword.

Fiend God Emperor Palace and Brightness Emperor Palace's Ancestors, as well as Gudu Wuyi, Chen Jianwei, and the rest all exploded their full force like never before. Some of them even executed taboo techniques as they rushed towards Huang Xiaolong.

Huang Xiaolong sneered, watching this.

In that case, he would send Feng Chu and Lan Zhi into absolute despair.

The City of Eternity grew even bigger, exuding an immemorial majesty as it flew straight at Feng Chu and Lan Zhi, whereas the Heavenly Hall shone brightly as a golden hexagon light pillar emerged below it.

The golden hexagon light pillar was the Heavenly Hall's most lethal attack!

The Heavenly Hall rose high up, dispersing all the nefarious qi into nothing, until nothing was left.

Weng—!

The golden hexagon light pillar rotated at high speed and terrifying radiant energy flooded out like the end of the world.

This stretch of starry space shook under this overwhelming, terrifying radiant energy. The Grand Fiend God Formation was humming in danger.

The Fiend God Emperor Palace and Brightness Emperor Palace's Ancestors, Gudu Wuyi, Chen Jianwei, and others looked up. They saw the golden hexagon light pillar shining down on them and the horrifying destructive power falling onto them.

Faces turned bloodlessly pale, and they could not be bothered with attacking Huang Xiaolong anymore. Everyone turned around to escape the golden hexagon light pillar's destructive area.

Even so, there were always people who were too late. Several Fiend God Emperor Palace's Ancestors were erased by the radiant energy from the golden hexagon light pillar.

These Ancestors' tragic screams cut across the void.

Gudu Wuyi and the others saw these Ancestors' bodies incinerated under the golden light beam, and the nefarious qi within them were purified instantly. Their bodies turned into dust inch by inch, disappearing from the world, and not even their godheads remained.

Although the Heavenly Hall was not a grandmist treasure artifact, its power was more terrifying than any grandmist treasure artifact to those evil and darkness cultivators.

Gudu Wuyi and the others felt their strength sucked out of them, watching this sight.

Some of the Brightness Emperor Palace's Ancestors also suffered injuries from the golden light beam, but they were not as miserable as the Fiend God Emperor Palace's Ancestors. Still, it was no less than being smashed by a divine mountain and knocked far away, coughing up several mouthfuls of blood.

#### Chapter 1818: Die Together

Fiend God Emperor Feng Chu and Brightness Emperor Lan Zhi's attacks were blocked by the City of Eternity.

Bang! A thunderous explosion rang. The City of Eternity stood steady after the collision while Feng Chu and Lan Zhu were thrown several li back.

Even though Feng Chu and Lan Zhi's strength had risen significantly by borrowing the Fiend King Star and Radiant Divine Armor's power, they were no match against the City of Eternity controlled by one hundred high-level Undead Netherguards.

In the past, with the one hundred Undead Netherguards driving the City of Eternity, even the Nine Yin Giant Corpse Tribe's Patriarch Shi Wushuang had to flee with heavy injuries. Feng Chu and Lan Zhi were nothing compared to him.

However, after the City of Eternity knocked Feng Chu and Lan Zhi back, it did not attack anymore. Instead, the City of Eternity flew further out and attacked one of the Fiend God Emperor Palace's big planets.

The planet shattered into pieces under the City of Eternity's powerful blow. Various formation arrays placed within and around the planet were destroyed by the City of Eternity in one blow. Yet the City of Eternity's speed did not diminish at all, and it continued to ram forward.

In an instant, countless pieces of shattered mainlands ricocheted into space. Mountains and seas collapsed, and another planet was destroyed.

Seeing this, Feng Chu immediately understood Huang Xiaolong's intention. He was infuriated. His ten blade-like fingers swiped towards Huang Xiaolong while he roared in anger, "Huang Xiaolong, how dare you?!"

If Huang Xiaolong continued to destroy these Fiend God Emperor Palace's planets, the Grand Fiend God Formation would lose the nefarious qi support from the planets, weakening the formation's power considerably. Not to mention, his strength would also drop drastically without the aid of these planets' nefarious qi.

,It was obvious how the Fiend God Emperor Palace would end with the destruction of more palaces!

Huang Xiaolong looked at the infuriated Feng Chu attacking him in a frenzy, and he leaped back agilely while the two fourteen-winged Radiance Angels flew straight towards Feng Chu.

The two fourteen-winged Radiance Angels' fourteen wings spread out majestically, forming a radiant energy wall barrier.

Feng Chu's attack fell onto the fourteen-winged Radiance Angels' wall barrier. The radiant energy wall barrier quivered and scattered away silently. Even so, Feng Chu's attack was successfully blocked.

Weng—!

Unknowingly, the Heavenly Hall had appeared above Feng Chu's head. The golden hexagon light pillar, brimming with radiant destructive power shot down.

Feng Chu pale as he swiftly retreated, escaping the area of the golden hexagon light pillar's area of attack.

He had already witnessed its destructive power just now. If the golden light hit him, not even the nefarious qi of his body could completely block it. The injury was inevitable.

Feng Chu had barely dodged the attack when another wave of boundless radiant energy fell from space above. Feng Chu broke out in cold sweat, looking at the boundless radiant destructive energy falling from above, feeling he had survived a catastrophe.

While Feng Chu dodged the Heavenly Hall's attack, a curtain of vigorous radiant sword qi suddenly slashed down on Huang Xiaolong.

Every radiant sword qi was powerful enough to pierce through a world surface.

The attacker was naturally the Brightness Emperor Lan Zhi trying to kill Huang Xiaolong in a sneak attack.

However, the curtain of radiant sword qi was blocked by the two fourteen-winged Radiance Angels with ease even before the attack got close to Huang Xiaolong.

When Lan Zhi's powerful attack fell on the two fourteen-winged Radiance Angels' barrier, it was akin to boulders sinking into the sea or raindrops falling into the ocean. It was completely assimilated into the barrier!

Lan Zhi was astounded.

What was going on?!

These two fourteen-winged Radiance Angels actually can absorb other radiant energy?

Then, thunderous booms sounded from the distance as another planet was destroyed by the City of Eternity, turning into numerous pieces of shattered mainland.

Every time a planet was destroyed, the Grand Fiend God Formation weakened by a degree, and the Fiend King controlled by the Fiend King's consciousness weakened as well. Feng Chu's strength was also affected.

Feng Chu bellowed as he rained tumultuous attacks on Huang Xiaolong.

He couldn't stop the City of Eternity, therefore he could only lay his hope on killing Huang Xiaolong. The City of Eternity and Heavenly Hall would lose control once Huang Xiaolong died, and his dire situation would be reversed.

However, what enraged Feng Chu was, no matter how hard he and Brightness Emperor Lan Zhi attacked, it was blocked by the two fourteen-winged Radiance Angels.

Moreover, the Heavenly Hall would appear out of nowhere from time to time, scaring them out of their wits.

In the meantime, the Fiend God Emperor Palace and Brightness Emperor Palace's Ancestors could only protect themselves by dodging the Heavenly Hall, much less think of attacking Huang Xiaolong.

....

Time flowed by.

Minutes became an hour.

The City of Eternity had destroyed several tens of planets that were part of the Fiend God Emperor Palace's Grand Fiend God Formation.

Though this amount of planets were nothing more than a few drops of water overall, the Fiend God formation lost the support of nefarious qi from these planets, which caused a small hole in it.

On another side, the Fiend King's body that was suppressed by the two odd beasts was now at a disadvantage. If this continued, it wouldn't take long for the Fiend King to be defeated and get scattered!

The loss of the Fiend King condensed from the nefarious qi would only result in the six Emperor Palaces' Ancestors' death. No one would be left to deal with the two odd beasts.

Feng Chu and Lan Zhi grew anxious and hurriedly attacked in desperation.

However, the two fourteen-winged Radiance Angels successfully blocked all of their attacks.

Another hour passed inside the Grand Fiend God Formation.

By the time the Fiend God Emperor Palace lost a hundred planets, the Grand Fiend God Formation had weakened significantly once again. The Fiend King's consciousness' huge figure took a punch from both odd beasts and smashed into the distance. A large portion of nefarious qi scattered away from his body.

"Huang Xiaolong, since you aim to rescue Fang Gan, I'm willing to return Fang Gan to you. You can take him away!" Feng Chu screamed. "We will never cross each other's path in the future, agreed? Our Fiend God Emperor Palace's disciples will retreat ten thousand li if they encounter you in the future!"

Seeing the situation growing from bad to worse, Feng Chu finally relented.

Huang Xiaolong sneered, hearing that. "What? You don't want to kill me now and get those peerless treasures on me—the heart of hell, and sixteen wings anymore? I will definitely take away Fang Gan. I can leave if you want me to, as long as all of you submit to me and offer the Fiend God Emperor Palace's treasury and Brightness Emperor Palace's treasury!"

Feng Chu and Lan Zhi's fury was beyond eruption.

"Huang Xiaolong, don't go overboard!" Feng Chu shouted.

As Emperor of an Emperor Palace, both Feng Chu and Lan Zhi were used to others begging them, summoning the winds and calling for rain with a wave of their hands. Now, not only did Huang Xiaolong reject their offer, but he also demanded additional terms and conditions! Not only did Huang Xiaolong want the Fiend God Emperor Palace and Brightness Emperor Palace's treasuries, but he also had the guts to ask them to surrender to him. Putting it in ugly words, it meant becoming Huang Xiaolong's slaves!

Feng Chu's eyes were bloodshot as he stared furiously at Huang Xiaolong. "Huang Xiaolong, you're the one who forced me—let's die together then!" In the next second, his entire body's nefarious qi surged violently.

This nefarious qi condensed into various figures of fiends.

Each of these fiends exuded shocking momentum.

Chapter 1819: Brightness Emperor Lan Zhi Has Fled

As nefarious qi continued to condense these fiend figures, Feng Chu's strength rose to another level.

When these fiends reached a thousand in number, Feng Chu's momentum doubled!

One thousand fiends formed behind Feng Chu and built a huge Chaos Fiend Grand Formation. When this Chaos Fiend Grand Formation was completed, Feng Chu's nefarious qi began to evolve, becoming denser, and it almost solidified.

The fiends' nefarious qi body became even more real, solid, and more powerful.

Huang Xiaolong's eyes narrowed, watching Feng Chu's strength rise to another level. It looked like this was Feng Chu's last trump card up his sleeve, and Feng Chu was prepared to die this time!

This was probably some kind of taboo chaos grade technique. After performing it, Feng Chu's strength was bound to explode for a certain period. On the other hand, there were dire repercussions for using this technique once the effects were worn off.

A strange light glimmered in Lan Zhi's eyes as Feng Chu was really going all out. He had even executed some kind of chaos taboo technique to increase his strength, and there was apparent hesitation. He, too, knew of a chaos taboo method that could temporarily raise his strength to another level. However, after using that method, he wouldn't recover the damage it caused to his body in several hundred years. It could even take him several thousand years to recover.

Not to mention, it would also affect his future breakthrough to the realm above Emperor Realm. Who knew, the consequences might even cause him to lose the chance of surpassing the Emperor Realm altogether, losing the chance to become a peerless existence.

Roar!

Nefarious qi continued to flood out from Feng Chu's body more intensely, and it turned dark green. In a flicker, Feng Chu arrived in front of Huang Xiaolong. His ten sharp, pointed fingernails slashed down on Huang Xiaolong. Simultaneously, the one thousand fiends around him shot out to attack the two fourteen-winged Radiance Angels.

This group of fiends formed a big fiend-ring that closed in on two fourteen-winged Radiance Angels like a cage, leaving no path of retreat.

Feng Chu knew very well that these one thousand fiends wouldn't hold back the two fourteen-winged Radiance Angels, but to as long as they could delay them for even a second, it was enough for him to kill Huang Xiaolong!

Looking at Feng Chu descending on him from above, Huang Xiaolong remained unperturbed; neither did he dodge the attack. The Black Dragon Divine Armor emerged in front of him, the Black Dragon Throne below him, and as Huang Xiaolong's hand reached out, the Black Dragon Cold Jade Bracelet emitted bright rays of black light.

The Desolate Era's Black Dragon Clan's famous three treasures were simultaneously activated, generating thousands and thousands of black dragon souls.

Resounding dragon roars reached the nine heavens.

The waves of black dragon souls rushed up to Feng Chu.

Simultaneously, the Radiance Divine Scepter appeared in Huang Xiaolong's hand. His Innumerable Buddha Supreme Godhead's godforce flooded into the Radiance Divine Scepter. Instantly, the crescent moon-shaped gem on top of the scepter released a myriad of dazzling lights as if a bright giant hole to another world had opened in the void. A waterfall of radiant energy rushed down from the hole.

The Radiance Divine Scepter erupted a powerful radiant energy that could shake eternity.

Vast and vigorous radiance runes formed a massive radiance formation, following right behind the waves of black dragon souls, shooting straight towards Feng Chu.

Huang Xiaolong did not expect the radiance formation and thousands of black dragon souls to block Feng Chu's attack. However, it was enough to delay Feng Chu's attack slightly.

Just like what Huang Xiaolong had expected, against the thousands of black dragon souls and radiance formation, Feng Chu's attack was delayed for a split second.

Right at this time, the Heavenly Hall appeared right above Huang Xiaolong's head.

The golden hexagon light pillar appeared again.

Boundless radiant energy shot down straight at Feng Chu.

Feng Chu was startled and had to give up on his attack on Huang Xiaolong for the moment. His body twisted to dodge the attack.

Even after executing a chaos taboo method, Feng Chu did not dare to go head to head against the Heavenly Hall's golden hexagon light pillar.

When Feng Chu dodged the Heavenly Hall's attack, the two fourteen-winged Radiance Angels broke through the one thousand fiends' encirclement.

.....

A little over an hour later, a figure crashed heavily into the Fiend King Star.

The entire Fiend King Star shook, and the Fiend God Emperor Palace's buildings inside the Fiend King Star crumbled and collapsed. Numerous formations were broken. Amidst tragic screams, countless Fiend God Emperor Palace's disciples, Elders, and even Hall Masters flew out from the Fiend King Star in a panic.

The figure that had crashed into the Fiend King Star was none other than Feng Chu!

Although Feng Chu had executed a chaos taboo method, it was nothing but a pipe dream to think it was enough to kill Huang Xiaolong. Huang Xiaolong had the City of Eternity, the Heavenly Hall, Radiance Divine Scepter, the Black Dragon Clan's three treasures, and four chaos lightning pools. Not to mention, he also had the Yellow Springs Magic Robe, the Netherking's Jade, Moon Jade Heavenly Spiral Shell, and various other experts' treasures. Despite being only a Heavenly Monarch, there were less than a handful of people that could kill Huang Xiaolong at this point.

Don't forget, Huang Xiaolong still had the heart of hell!

Even the Massacring Gods Sect's Old Ancestor, who was said to have surpassed the Emperor Realm, was incapable of killing Huang Xiaolong. Then what's more Feng Chu?

More than an hour had passed since Feng Chu had executed the chaos taboo method. By this time, his blood and qi had been greatly damaged and significantly weakened. Now, he was weaker than ever and was sent crashing into the Fiend King Star by the two fourteen-winged Radiance Angels.

The Fiend King battling the two odd beasts was also smashed until he couldn't merge back together.

By this time, the City of Eternity had destroyed more than three to four hundred planets that were part of the Grand Fiend God Formation. The awe-inspiring malevolent giant arms condensed of nefarious qi now looked weak and feeble.

Fiend God Emperor Palace's disciples were fleeing out of the Fiend King Star for their lives after Feng Chu had smashed into the Fiend King Star. However, beneath the Fiend King Star ruins, Feng Chu's body suddenly glowed dark green and turned into a streak of dark green light, shooting into one of the Grand Fiend God Formation's giant arms.

Huang Xiaolong was caught off guard for a second. He swiftly used his Eye of Hell to check; however, he could not detect Feng Chu's presence at all. Feng Chu had fully concealed himself within the Grand Fiend God Formation.

Huang Xiaolong furrowed deeply.

One hour earlier, seeing the hopeless situation, Brightness Emperor Lan Zhi had escaped by sacrificing his own blood qi regardless of the severe aftereffects.

If Feng Chu also managed to escape, half of Huang Xiaolong's efforts would be in vain.

Huang Xiaolong immediately ordered the two odd beasts to attack the Grand Fiend God Formation with full force. He told them that they absolutely needed to dig out Feng Chu from the formation.

Then, he had the two fourteen-winged Radiance Angels fly towards the Fiend King Star. He had just captured a Fiend God Emperor Palace's Ancestor and learned that Fang Gan was being imprisoned inside one of the Fiend King Star's Fiend God Emperor Palace's buildings.

Huang Xiaolong's divine sense spread out, searching for Feng Chu in the surroundings as he hurried to the Fiend King Star.

Earlier, when he had injured the Fiend God Emperor's Disciple Feng Chan, he was rescued and taken to the Fiend King Star. Feng Chan still had to be hiding inside the Fiend King Star.

An hour earlier, the remaining Brightness Emperor Palace's Ancestors, Gudu Wuyi, Chen Jianwei, and the rest had executed their secret methods, escaping like Lan Zhi. The remaining Fiend God Emperor Palace's injured seventy to eighty-something Ancestors, including Liu Yuan and Zhao Wendan, had all scurried back the Fiend King Star.

A while later, Huang Xiaolong crossed the vigorous qi barrier and entered the Fiend King Star with both fourteen-winged Radiance Angels. He flew straight towards the Fiend God Emperor Palace.

## Chapter 1820: Blocking Feng Chan

Huang Xiaolong went forward nonstop, getting closer to the Fiend God Emperor Palace.

Along the way, Huang Xiaolong could see Fiend God Emperor Palace's disciples fleeing in different directions, but he ignored them.

But there were some unwise Fiend God Emperor Palace's disciples who tried to sneak-attack and kill Huang Xiaolong as they flew past him.

Huang Xiaolong didn't even need the fourteen-winged Radiance Angels and the two odd beasts to handle these disciples. He merely burst into misty blood splatters with one punch.

Based on his current early Eighth Order Heavenly Monarch Realm cultivation, even an early First Order Emperor Realm expert would be hard-pressed to take one punch from Huang Xiaolong without suffering some internal injuries. Then what was more to these God King or Heavenly Monarch Realm Fiend God Emperor Palace's disciples?

Hence, Huang Xiaolong killed several hundred of these brazen Fiend God Emperor Palace's disciples who attacked him along the way.

Finally, after killing several hundred fleeing Fiend God Emperor Palace's disciples, other disciples stopped harassing Huang Xiaolong. All of them avoided him.

It didn't take Huang Xiaolong long to reach the Fiend God Emperor Palace's cluster of main buildings.

The Fiend God Emperor Palace's buildings were built on the Fiend King Star's central mountainous region. The mountain range stretched for miles and miles, littered with at least a billion clusters of palaces.

However, due to the earlier intense battle, there were fissures and collapsed palaces everywhere. Many of the formations were broken and damaged as well.

Even so, Huang Xiaolong proceeded carefully.

The formation arrays around the Fiend God Emperor Palace were indeed not to be sneezed at since it ranked third in the Divine World. To top it off, it had remained standing until now despite rousing several bloodbaths across the Divine world.

As expected, the moment Huang Xiaolong arrived above the Fiend God Emperor Palace's main buildings, several hundred fiendish creatures suddenly flew out from the buildings below. They had opened their jaws wide open to swallow him in one go.

These fiendish creatures were captured and tamed with secret methods by several generations of Fiend God Emperor Palace's Ancestors to guard various Fiend God Emperor Palace's buildings.

Needless to say, every fiend creature was powerful and had shocking origins. Each one was a rare ancient beast of the Divine World.

More importantly, these fiend creatures were hard to kill.

These fiend creatures were Huang Xiaolong and the two fourteen-winged Radiance Angels.

When these fiend creatures attacked, the two fourteen-winged Radiance Angels countered immediately. The fourteen wings on their backs spread out, shooting out radiant feather arrows.

These fiend creatures were split into countless pieces by the torrents of these radiant feather arrows.

Furthermore, after these fiend creatures were divided into countless pieces by the fourteen-winged Radiance Angels' holy radiant energy, it purified their nefarious energy. There was no chance these fiend creatures could recover or come back to life.

Huang Xiaolong wasn't one to be polite, and he summoned the City of Eternity.

He had left the Heavenly Hall outside with the two odd beasts to continue attacking the Grand Fiend God Formation and brought the City of Eternity with him.

The moment the City of Eternity came out with one hundred Undead Netherguards, it launched a powerful blow. In a split second, numerous fiend creatures exploded to their deaths. Subsequently, the City of Eternity slammed into the cluster of palace buildings below, reducing tens of thousands of buildings to dust. Formations burst out in lights then fizzled out.

Huang Xiaolong sped onwards, straight into the depths of the Fiend God Emperor Palace.

Now, he was still in the outer periphery of the Fiend God Emperor Palace's territory.

As Huang Xiaolong flew deeper through the Fiend God Emperor Palace's main buildings, he encountered more powerful fiend creatures than before. These fiend creatures were sealed within these buildings. Furthermore, one or a group of powerful fiend creatures were sealed within every important palace.

These fiend creatures would only appear when enemies trespassed.

Once, Huang Xiaolong even came across a group of twenty to thirty high-level Emperor Realm fiend creatures.

However, even twenty to thirty high-level Emperor Realm fiend creatures couldn't impede Huang Xiaolong's advance under the City of Eternity and two fourteen-winged Radiance Angels assault power. They were annihilated by the City of Eternity and two Radiance Angels' constant attacks in less than a dozen breaths.

Even though these fiend creatures had high-level Emperor Realm experts' strength, it was merely a high-level Emperor Realm. How could their strengths withstand the City of Eternity or the two peak late-Tenth Order Emperor Realm Radiance Angels?

A while later, Huang Xiaolong finally arrived at the center region of the Fiend God Emperor Palace.

Rich nefarious qi enshrouded this center cluster of palaces in front of Huang Xiaolong, almost obscuring the buildings completely. However, Huang Xiaolong could taste the danger coming from these buildings on the tip of his tongue.

The entire way until here, Huang Xiaolong had not encountered the Fiend God Emperor's Disciple Feng Chan, Liu Yuan, Zhao Wendan, or any of the Fiend God Emperor Palace's Ancestors who had fled back to the Fiend King Star.

Feng Chan, Liu Yuan, Zhao Wendan, and the others were probably hiding inside these palace buildings.

Huang Xiaolong did not enter the palace building with the richest and most abundant nefarious qi recklessly. He had the City of Eternity expand to its biggest size possible and cover half of the sky. Then, he had it dropped straight onto the center palace buildings.

The moment the City of Eternity started falling onto the palace buildings below, numerous powerful formation lights soared to the sky from the center palace buildings, forming a giant nefarious qi barrier.

R-rr-umble!

The bottom of the City of Eternity slammed onto the nefarious qi barrier. Strong lights rippled across the barrier surface, then dimmed and vanished.

The attack was actually blocked! This was unexpected for Huang Xiaolong.

In the next second, Huang Xiaolong had the City of Eternity rise and slam down on the barrier again.

Rumble—!!

This time, the nefarious qi barrier gave out, and the palace building below began to crumble as fissures and cracks opened over the land.

At this time, numerous figures whistled out from the palace buildings and attacked Huang Xiaolong. But Huang Xiaolong was prepared. He retreated in a flicker just as these people appeared. The two fourteen-winged Radiance Angels slashed out with their swords, parrying these peoples' attacks.

These people were none other than Liu Yuan, Zhao Wendan, and other Fiend God Emperor Palace's Ancestors who had fled earlier.

However, Huang Xiaolong's attention was not on Liu Yuan, Zhao Wendan, or any of the Ancestors. His Eye of Hell opened and locked towards a certain direction. He could see several people trying to escape in concealment.

In a flicker, Huang Xiaolong and the fourteen-winged Radiance Angels blocked their paths.

"Fiend God Emperor's Disciple Feng Chan, where are you planning to go?" Huang Xiaolong sneered.

This fleeing group consisted of the Fiend God Emperor's Disciple Feng Chan and several Ancestor bodyguards.

Feng Chan had not expected Liu Yuan and the others' sneak-attack to fail in distracting Huang Xiaolong. He had still noticed them.

"Huang Xiaolong, what do you want to do?" Feng Chan inhaled deeply as he forced himself to calm down. "If you let me go, our Fiend God Emperor Palace can give you anything you want."

Huang Xiaolong shook his head, "I will take what I want. You know very well what I want to do. But don't worry as I will quickly devour your archdevil bloodline. You won't feel much pain at all."
