

## **Conqueror 1961**

### **Chapter 1961: If I Don't? Get Lost?**

Originally, Huang Xiaolong hadn't planned on fighting with this ten-winged pegasus. After all, he didn't lack a mount. With his current status and identity, what kind of mount couldn't he get if he wanted to?

Hence, Huang Xiaolong dodged in a flicker by reflex.

But the result surprised Huang Xiaolong. When he made a move to dodge, the ten-winged pegasus had already arrived by his side, and he wouldn't leave!

It actually stood intimately by Huang Xiaolong's side, snorting in excitement and pleasure.

His actions utterly stupefied Huang Xiaolong.

No, it can't be!

"Little guy, I'm not your master. Why are you following me so closely?" Huang Xiaolong joked.

The ten-winged pegasus blinked his sapphire blue eyes and spoke, "Who said I'm young? It's just that the energy from your body is very comfortable. I have seen many pontiffs, but the energy from their bodies isn't as comfortable as yours."

Huang Xiaolong was surprised by the ten-winged pegasus's reply. Energy? Could it be the Heavenly Hall's energy?

In other words, could this pegasus sense the Heavenly Hall's energy in him?

Then again, it was not impossible. Legend had it that elite sacred beasts like the pegasus were born from the Radiance World's origin radiance energy.

By this point, the group pursuing from behind had caught up. They immediately spread out and encircled Huang Xiaolong and the pegasus.

“Punk, get lost, don’t hinder us!” One of them barked impatiently at Huang Xiaolong.

Huang Xiaolong made a quick sweep around him and asked in an unhurried tone, “And if I don’t...? Get lost?”

The person snickered at Huang Xiaolong’s retort, “Not going to get lost? I told you to get lost for your own good, giving you a chance to run to save your life! Since you don’t know how to appreciate it, then, you might as well go to hell now!” He swung his blade at Huang Xiaolong.

This person was quite powerful, a peak late-Seventh Order Heavenly Monarch, just half a step from advancing to late-Eighth Order Heavenly Monarch Realm. In any church of the Radiance World, he would be a candidate of focused nurturing.

Huang Xiaolong’s gaze turned frosty, watching the blade falling towards him. A ruthless light gleamed, and in the next second, everyone saw the man who had slashed his blade at Huang Xiaolong suddenly split into two halves from the middle. Blood spurted high into the air and rained to the ground. The man was already dead before he could grunt in pain.

His companions were startled, and they looked at Huang Xiaolong in shock and wariness.

All of a sudden, the surroundings went deathly quiet.

“You, you dared to kill my Half Moon Church’s Senior Deacon, you—! You’re so f\*cking dead!” One of them pointed angrily at Huang Xiaolong angrily as he shouted.

The several hundred people behind him were glaring murder at Huang Xiaolong.

The Half Moon Church was part of the Radiance World’s most powerful one hundred church forces, one of the arms under the Radiance Lord Dun Ei.

"I killed him, so what?" Huang Xiaolong sounded as if he was talking about eating lunch. "If your Half Moon's pontiff is here, I'll kill him just the same."

Everyone looked strangely at Huang Xiaolong because of his words.

The Half Moon Church's pontiff was a late-Tenth Order Emperor Realm expert.

The man let out a whoop of laughter, "Punk, you would kill him, relying on your strength? Don't you know that our Half Moon Church's pontiff is a late-Tenth Order Emperor? You don't even qualify to carry our Half Moon Church's pontiff's shoes, but you have the cheek to speak of killing him."

Huang Xiaolong simply tapped a finger in the air just as the man finished, and the man burst into a fog of blood.

"So what if he's a late-Tenth Order Emperor?" Huang Xiaolong repeated nonchalantly, "Even if he's a late-Tenth Order Emperor, I'll end him just the same."

It wasn't as if he had not killed a late-Tenth Order Emperor before. Whether it was above Hell's Nethersea or the Devil World's Famish Devil Ancient Battlefield, he had killed several late-Tenth Order Emperors. Truth be told, he had actually lost count of many late-Tenth Order Emperors he had killed to date.

Although Huang Xiaolong had consecutively killed two people and showed his startling strength, the several thousand experts, encircling him, perceived his words to be presumptuously arrogant. Huang Xiaolong's words especially infuriated the Emperor Realm experts.

Among these several thousand people, there were four Emperor Realm pontiffs. Though none of them were high-level or even mid-level Emperor Realm, one of the four was an early Second Order Emperor Realm expert.

"You really got a big tone there. Do you think that killing a late-Tenth Order Emperor is just the same?" The early Second Order Emperor Realm pontiff questioned as his expression grew icier by the second, "Do you think you are our Radiance Ancestor? I really want to see how you are going to kill me, an early Second Order Emperor?!"

Huang Xiaolong had not concealed his aura when he had killed the two people earlier. Thus, this early Second-Order Emperor Realm pontiff was able to determine that Huang Xiaolong's cultivation was merely at the early First Order Emperor Realm. Moreover, he could clearly tell that Huang Xiaolong had just advanced not long ago.

A punk that recently advanced to Emperor Realm actually had the guts to talk in a big tone in front of them, claiming he could easily kill a late-Tenth Order Emperor. It would be strange if they weren't outraged.

That pontiff leaped into the air, and the sword in his hand slashed out towards Huang Xiaolong.

"Punk, take my Ten Thousand Radiance God Slash!" Layers upon layers of sword qi rushed forward with just one slash, numbering exactly ten thousand layers. Every layer of sword qi was powerful enough to kill any First Order Emperor.

"This is the Fire Worshipper Church's ultimate technique!"

"The Fire Worshipper Church is an ancient supreme church that had disappeared for a billion years. Indestructible Pontiff actually got the Fire Worshipper Church's ultimate technique!" The other three Emperor Realm pontiffs exclaimed almost in unison.

It could be said that the Radiance Lord Dun Ei ruled half of the Radiance World, and the Radiance Knight Corp ruled the other half. Then again, this was a very general description of the overall situation. In truth, still, a large number of Radiance World's super churches did not attach themselves to Dun Ei or the Radiance Knight Corp. The Fire Worshipper Church in ancient times was one such example.

This aspect alone spoke volumes of the Fire Worshipper Church's power. As the Fire Worshipper Church's ultimate technique, the Ten Thousand Radiance God Slash was an overbearingly powerful attack technique.

Since Indestructible Pontiff had used such a big move in his initial attack, he clearly intended to kill Huang Xiaolong in one move. One reason for him to do so was to deter everyone, so the process of taking away the pegasus would be smoother. Secondly, he detested Huang Xiaolong's arrogance, who had just broken through to Emperor Realm.

In a split second, the Ten Thousand Radiance God Slash attack reached Huang Xiaolong. Huang Xiaolong snickered ironically. Without employing his Emperor's will or using the three devil stele's power, he punched out with his bare fist and dispersed the Ten Thousand Radiance God Slash in an instant. He rushed forward and punched the Indestructible Pontiff squarely on the chest.

Huang Xiaolong's fist pierced a hole through Indestructible Pontiff's chest and came out his back. Huang Xiaolong slowly withdrew his fist.

At the same time, a group of experts was flying towards them. This was the group that had invited Huang Xiaolong to join their team.

Lu Feng and his team saw Huang Xiaolong's fist pierce through Indestructible Pontiff's chest from afar and came to a sudden halt in midair. Shock and disbelief were written all over their faces. The shock was mainly visible on the mid-Third Order Heavenly Monarch middle-aged man who had claimed to teach Huang Xiaolong a miserable lesson. His complexion turned pallid.

All around was an unnatural silence. This eerie silence had descended due to overwhelming shock as no one could move their gazes away from the gaping hole in Indestructible Pontiff's chest.

"You, how is it possible?!" Indestructible Pontiff shrieked sharply. Even at this point, he denied reality. He, an early Second Order Emperor, had his chest penetrated by a punk who had newly advanced to the Emperor Realm. Moreover, there was a destructive force that was frenziedly shredding away his body's vitality.

A few breaths passed and Indestructible Pontiff's body exploded into splatters of blood and flesh.

Dead!

Ignoring the astounded faces, Huang Xiaolong's cold gaze swept around, and he asked, "Anyone else wants me to get lost?" Then he pointed at the ten-winged pegasus and added, "I want this ten-winged pegasus, anyone wants to snatch it?"

Originally, a ten-winged pegasus was negligible to Huang Xiaolong, and he didn't care about possessing it. But now, he had decided to take it.

#### Chapter 1962: Bounty

For a moment, none of the surrounding experts made a sound, including the remaining three Emperor Realm pontiffs.

In a swift leap, Huang Xiaolong landed on the ten-winged pegasus's back. When he was about to leave on the ten-winged pegasus, a loud voice rang in the silent atmosphere, "Not so fast!"

Others were stunned. When they turned towards the source, they saw a group of Radiance Knight Corp flying towards them. The one who had spoken was a muscular middle-aged man with a thick Hungarian mustache, bright-spirited eyes that resembled two bright suns that glints sharply, making others shy away from meeting his gaze directly. He seemed to be the leader of the group.

"It's the Radiance Knight Corp's bishop, Lord Lu Zhaoming! Young Master Lu Feng is with him as well!"

"Lord Lu Zhaoming has long stepped into late-Third Order Emperor Realm. He's the Radiance Knight Corp's Archbishop Abra's personal disciple!"

The large crowd of experts stirred with anticipation. Even the three Emperor Realm pontiffs hastened to Lu Zhaoming's side.

"Greetings, Lord Lu Zhaoming!" All three saluted respectfully.

Lu Zhaoming nodded at them as he and the rest of his group continued flying towards Huang Xiaolong.

Huang Xiaolong frowned, then looked at Lu Zhaoming, Lu Feng, and others coming towards him with 'an inquisitive expression.'

“This ten-winged pegasus belongs to our Radiance Knight Corp. Therefore, you cannot take this ten-winged pegasus away.” Lu Zhaoming said as he came to a stop in front of Huang Xiaolong.

Huang Xiaolong suddenly smiled. A blind person could also see that the ten-winged pegasus was an ownerless creature. Yet this Lu Zhaoming had the cheek to claim that it belonged to the Radiance Knight Corp. He was literally lying through his teeth.

“You say this ten-winged pegasus belongs to your Radiance Knight Corp. In other words, do you mean it’s yours?” Huang Xiaolong pointed at the radiance divine armor on Lu Zhaoming, and he half-jokingly said, “That armor on your body is actually mine. How about you take it off for me and strip naked.”

The surrounding experts couldn’t hold back their laughter.

Lu Zhaoming blanked for a second. Then his eyes narrowed in anger as a dangerous light glinted in them. The light in his eyes danced like flames.

“Insolent! This is our Radiance Knight Corp's bishop, Lord Lu Zhaoming. Do you know you’ve committed a crime worthy of death just by uttering those words!”

One of the knight captains standing behind Lu Zhaoming stepped out and reprimanded Huang Xiaolong in a fit, “Don’t assume that the Radiance Knight Corp won’t dare to kill you because you’re an Emperor Realm expert!”

Right at this time, Huang Xiaolong flicked his fingers in the air, and that Radiance Knight Corp's captain went flying off his mount. He burst into a ball of flames in midair, amidst blood-curdling screams before disappearing from the world a second later.

“What?!”

Everyone present was astounded.

It had never occurred to them that Huang Xiaolong could have the guts to kill a captain of the Radiance Knight Corp. A Radiance Knight Corp's captain! Once killed, that meant the entire Radiance Knight Corp

would hunt down the murderer. There would also be a bounty on the killer's head, subjecting him to pursuit from every expert in the Radiance World.

"You!" Lu Zhaoming had not expected Huang Xiaolong to kill a captain right in his face.

This was simply...!

"Do you think after killing a Indestructible Pontiff, you don't have to put our Radiance Knight Corp in your eyes?"

Lu Zhaoming sneered, "Very good! If you had left tactfully just now, you could have escaped safely. But now, you're dead! You are far too arrogant for your own good!

Although the sight of Huang Xiaolong killing Indestructible Pontiff had deterred them somewhat, Lu Zhaoming refused to believe that he, a late-Third Order Emperor, couldn't deal with a junior that had recently broken through to Emperor Realm.

With that said, a halberd appeared in Lu Zhaoming's hand as he shouted, "Die, brat!" A burst of cold rays shot out from his halberd.

But Lu Zhaoming's words barely fell when a giant palm suddenly appeared in the sky and struck down with overwhelming destructive darkness element power, akin to a super dark sun.

Lu Zhaoming had yet to react when he was already hit by the giant palm, smashing straight into the Sea of Radiance. The beast mount under him had turned into a scattering blood fog.

Boom!

Lu Zhaoming hit the sea surface hard, then shot straight to the seabed, raising several thousand zhang of waves.

The Radiance Knight Corp's Lu Feng and the rest looked stupidly at sea below.

Huang Xiaolong retrieved his palm, looking coldly at the spot where Lu Zhaoming had smashed into the sea, "You speak too much nonsense! Looking at the sake that you're the Radiance Knight Corp's so-called bishop, I'll spare you today. If there is a next time, I'll pinch you to death."

Wait until he received the other half of the Radiance Ancestor's inheritance. The Radiance Knight Corp would be under his command. Hence, in a sense, this Lu Zhaoming would be his subordinate's subordinate's subordinate. Taking this point into consideration, Huang Xiaolong had spared Lu Zhaoming's life this time.

"Anyone else wants to say that this ten-winged pegasus belongs to him?" Huang Xiaolong once again looked at the crowd of experts, as his gaze lingered longer on Lu Feng and the group of Radiance Knight Corp.

Lu Feng and several of the Radiance Knight Corp's captains retreated in trepidation, and blood faded from their faces.

Seeing this, Huang Xiaolong did not bother with them further and left on the ten-winged pegasus.

The ten-winged pegasus had a fantastic flight speed. As all its ten wings spread and flapped, it could traverse several tens of thousands of li.

Lu Feng and the others only dared to dive into the sea after watching Huang Xiaolong fly out of sight to rescue Lu Zhaoming. Although Huang Xiaolong had not slapped Lu Zhaoming to death in one palm strike, he hadn't been lenient either. That strike had actually shattered half of Lu Zhaoming's skull, and his neck had twisted oddly at a sixty-degree angle.

After some emergency rescue efforts by Lu Feng and the others, Lu Zhaoming regained consciousness. There was fury and shock in his eyes as he shouted, "Pass my order. There will be a bounty of two hundred thousand low-grade chaos spirit stones to capture that bastard! Go immediately! I must kill that bastard!"

Soon, Lu Zhaoming's bounty order spread like a hurricane.

Huang Xiaolong was completely ignorant of the storm he had caused. Then again, even if he did know, he wouldn't put the matter to heart. To him, the most important matter at the moment was getting the remaining half of the Radiance Ancestor's inheritance.

Riding on the ten-winged pegasus, Huang Xiaolong continued traveling southward.

One after another, small islands disappeared behind Huang Xiaolong. Perhaps it was the powerful momentum from the ten-winged pegasus's body that no radiance beasts attacked them along the way.

"That's the ten-winged pegasus! Bishop Lu Zhaoming has placed a bounty on the person riding it!"

"Chase, quickly, chase him!" Although no radiance beasts attacked them, Huang Xiaolong and the ten-winged pegasus would occasionally catch some experts' attention when they passed by the bigger islands.

Huang Xiaolong's gaze was icy. He initiated his Emperor's will that took the shape of a little chaos ax and chopped towards a group of experts that wanted to attack him.

A streak of radiant ax light that stretched as far as the horizon cut across the sky. In that instant, the group of experts trying to attack Huang Xiaolong plummeted like locusts. Blood rained down on the sea below. The ax qi split the big islands below into halves.

The chaos ax returned to Huang Xiaolong.

This was the first time Huang Xiaolong had used his Emperor's will in its tangible form.

Among fifty thousand experts, only one survived, one that Huang Xiaolong spared specifically.

This surviving expert was a late-First Order Emperor Realm, standing alone as if abandoned. His body trembled uncontrollably, and his eyes turned, looking everywhere except at Huang Xiaolong.

Four big churches' pontiffs, and close to fifty thousand experts were slaughtered in the blink of an eye?! A force from Huang Xiaolong's palm grabbed the late-First Order Emperor and pulled him to Huang Xiaolong.

"Lu Zhaoming placed a bounty for my capture?" Huang Xiaolong asked coldly.

#### Chapter 1963: Siege and Kill Huang Xiaolong?

That late-First Order Emperor Realm expert looked at Huang Xiaolong, who was right before him as if he was looking at a terrifying devil. His complexion turned deathly pale and lips quivering so much that he was unable to speak.

Huang Xiaolong's brows wrinkled. "You were the one screaming and shouting to chase me right now, correct? Weren't you excited just now? Speak! If you don't speak, then I'll search your soul and turn you into a fool!"

The late-First Order Emperor Realm expert hastened to speak, "Ye-yes, it's Lord Lu Zhaoming. He issued a bounty for your capture and has offered two hundred thousand low-grade chaos spirit stones!"

Huang Xiaolong chuckled softly, "I'm only worth two hundred thousand low-grade chaos spirit stones? A Radiance Knight Corp's bishop that Lu Zhaoming can only afford so little? He is so poor."

The late-First Order Emperor Realm expert was terrified standing in front of Huang Xiaolong, not daring to utter any unnecessary sound. Two hundred thousand low-grade chaos spirit stones weren't little at all. It was enough to move any low-level Emperor Realm experts. Hence, Lu Zhaoming's bounty of two hundred thousand low-grade chaos spirit stones for capturing Huang Xiaolong, who had recently advanced to Emperor Realm, was not a small sum.

Looking at the late-First Order Emperor Realm expert's frightened and flustered behavior, Huang Xiaolong said, "Don't worry, since I spared your life, I won't kill you."

With that said, Huang Xiaolong simply threw the late-First Order Emperor Realm expert on a barren island several hundred thousand li away. A muffled boom came from that island, raising a thick cloud of sand.

“Go back and tell Lu Zhaoming, no need to offer a bounty on me. I will go look for him at the Myriad Spirits City in ten years.” Huang Xiaolong left on the ten-winged pegasus, but his voice reverberated in the air.

The late-Tenth Order Emperor Realm expert watched Huang Xiaolong disappear on the horizon in awe and fear. His knees nearly buckled, remembering the power of Huang Xiaolong’s ax.

A long time later, after he was absolutely sure that Huang Xiaolong had left, he dared to flee the island in a fluster.

The Myriad Spirits City was where the Radiance Knight Corp’s headquarters was located.

Huang Xiaolong was bound to go to the Myriad Spirits City after he had gotten the other half of the Radiance Ancestor’s inheritance. It wasn’t a bluff saying that he would go to Myriad Spirits City.

Then again, Lu Zhaoming alone was not important enough for him to make the trip to the Myriad Spirits City.

After getting the Radiance Ancestor’s complete inheritance, he would be the Radiance World’s true lord. Hence he would go to the Myriad Spirits City to take over the command of the Radiance Knight Corp.

Based on the Heavenly Hall’s induction in his body, Huang Xiaolong continued flying southward on the ten-winged pegasus.

Perhaps the news of Huang Xiaolong slaughtering close to fifty thousand experts with a single ax had spread. Therefore, despite coming across quite a number of experts after that, no one dared to block Huang Xiaolong’s way or attack him.

Two hundred thousand low-grade chaos spirit stones were very tempting, but life was far more important.

Judging from the strength Huang Xiaolong had shown, they couldn't treat him as the average low-level Emperor Realm expert. Moreover, mid-level Emperor Realm experts were disdainful of a two hundred thousand low-grade chaos spirit stones bounty. Thus, for a while, no one looked for Huang Xiaolong's trouble.

While Huang Xiaolong was journeying further down south, on an island somewhere on the Sea of Radiance, Lu Zhaoming's face was twisted with rage, "Ten years? Good, I'll wait to see if you have the guts to appear in the Myriad Spirits City in ten years!"

As long as that punk appeared at the Myriads Spirits City, Lu Zhaoming vowed to make that punk experience a living worse than death!

....

Five days passed.

As they were crossing above over a sea region, Huang Xiaolong had the ten-winged pegasus stop.

Within a several billion li radius of this part of the sea, no island or radiance beasts could be found. But there was a faint but constant flow of destructive energy.

'It's likely in this spot.' Huang Xiaolong thought to himself. A light flashed from his body as the Heavenly Hall flew out.

After the Heavenly Hall flew out, it emitted brilliant golden rays of light. Sacred golden lights rippled in circles towards the sea below. In the end, it stopped several hundred li further up.

Huang Xiaolong was following closely behind the Heavenly Hall to another part of the sea. He looked down. A soft glow glimmered from his forehead as he opened his blue-specter eyes. Under the blue-specter eyes blue glow, everything that was concealed in the vicinity appeared clearly in Huang Xiaolong's mind.

Sometime later, Huang Xiaolong's gaze was fixed at a point several li ahead of him.

After some thought, he also summoned the Heavenly Hall's fourteen Radiance Angels and the four odd beasts, ordering them to attack the point several li away.

Under the fourteen Radiance Angels and four odd beasts' consecutive attacks, the Light and Shadow Array laid out by Dun Ei and others was soon broken, revealing the Array of Origin underneath the sea.

"The Array of Origin!" The ten-winged pegasus exclaimed.

Huang Xiaolong was taken aback. He grinned, "Little guy, didn't think you would know about the Array of Origin."

The ten-winged pegasus curled his lips and snorted in disdain, "There is nothing in the Radiance World that I don't know of."

Then, he looked wide-eyed at the fourteen Radiance Angels and added, "But, fourteen-winged Radiance Angels still exist in the current Radiance World?!"

This was the first time he had seen one!

"Little guy, there are still a lot of things you don't know," Huang Xiaolong chuckled.

Then, he ignored the ten-winged pegasus and arrived above the Array of Origin in a flicker. Looking at the one hundred core points of the array, rays of light glimmered from Huang Xiaolong's hand as he took out a hundred Radiance Divine Stones.

Huang Xiaolong already knew that he would require a hundred pieces of Radiance Divine Stones after obtaining the Heavenly Hall's inheritance in Hell. Thus, he had been collecting Radiance Divine Stones from thereon.

Huang Xiaolong's hands were moving swiftly in the air as one hundred pieces of Radiance Divine Stones fell accordingly onto the Array of Origin's core points. He subsequently summoned the one hundred

Undead Netherguards and allocated each one to an array core point. Simultaneously he activated the entire Array of Origin.

Dazzling lights from the Array of Origin soared to the sky.

The sea surface suddenly divided to the sides as a giant object flew out—it was exactly the other half of the Heavenly Hall.

Looking at the emerging Heavenly Hall, Huang Xiaolong heaved a sigh in relief. The joy in his heart was hard to suppress. The other half of the Heavenly Hall, the other half of the inheritance!

Only after refining the other half of the inheritance would he get the Radiance Ancestor's complete inheritance and become the right and just Radiance World's ruler!

Huang Xiaolong walked forward and stopped in front of the Heavenly Hall's main door. The Radiance Divine Scepter appeared in his hand, and he inserted the other end of the scepter into the groove of the door. A burst of dazzling lights lit up the door as it slowly creaked open.

The moment Huang Xiaolong stepped into the Heavenly Hall, inside the Radiance Sacred Temple, the Radiance Lord Dun Ei's expression sank. He said to Brightness Emperor Lan Zhi, "The Light and Shadow Array was broken just now!" He had left behind a marking on the Light and Shadow Array. If the array was broken, he would sense it immediately.

Brightness Emperor Lan Zhi's face tensed immediately as he shouted, "It's Huang Xiaolong?!"

"It's most likely Huang Xiaolong!" Radiance Lord Dun Ei's eyes turned frosty, "I hadn't expected him to break the Light and Shadow Array in such a short amount of time!"

"Doesn't that mean the other half of the Radiance Ancestor's inheritance would...?!" Brightness Emperor Lan Zhi was extremely agitated, "No, Huang Xiaolong must not be allowed to get the other half of the inheritance!"

Yet Radiance Lord Dun Ei remained seated calmly.

“Senior Brother, if we don’t stop him now, it’ll be too late!” Brightness Emperor Lan Zhi screamed.

“Please issue an order, Senior Brother. Deploy a hundred billion soldiers to siege and kill Huang Xiaolong. Powerful as Huang Xiaolong might be, he cannot fight against an army of a hundred billion! We must kill him before he successfully refines the other half of the inheritance!”

#### Chapter 1964: The City of All-Heavens

“Siege and kill?” Suddenly, Dun Ei snickered mockingly as he looked at Brightness Emperor Lan Zhi. “You are capable of besieging and killing Huang Xiaolong? Before Huang Xiaolong broke through to Emperor Realm, the Nine Yin Giant Corpse Tribe’s Old Ancestor Shi Ming and Chiyu Archdevil joined hands yet they failed to kill Huang Xiaolong in the Devil World. Even when they failed to kill him, can you?”

Brightness Emperor Lan Zhi was embarrassed by Dun Ei’s words and could not find any retort.

“Even if we won’t be able to kill him, we could stop him from refining the Radiance Ancestor’s other half of the inheritance.”

Brightness Emperor Lan Zhi went on stubbornly, “As long as Huang Xiaolong can’t get the Radiance Ancestor’s inheritance, we still have a chance. At the same time, we can delay Huang Xiaolong while waiting for the reinforcements from the Nine Yin Giant Corpse Tribe’s experts!” They had expected Huang Xiaolong to come there, so they had got in touch with the Nine Yin Giant Corpse Tribe early on.

Dun Ei shook his head, “Shi Ming is still forging the grandmist treasure artifact Blade of Death. So, he won’t be able to come here personally. Without Shi Ming, it’s useless no matter how many Nine Yin Giant Corpse Tribe’s experts they send over.”

“Then, are we going to sit and watch Huang Xiaolong get the other half of Radiance Ancestor’s inheritance?!”

Brightness Emperor Lan Zhi almost roared out his unwillingness. His hatred towards Huang Xiaolong had long passed the point of reconciliation. His Brightness Emperor Palace would not be destroyed if it wasn’t for Huang Xiaolong, and he wouldn’t need to flee and hide in the Radiance World like a beaten-down dog.

“It doesn’t matter even if Huang Xiaolong really gets the other half of the Radiance Ancestor’s inheritance and acknowledged by the Radiance World’s pure origin energy.” Dun Ei sneered coldly and went on, “I have the Radiance Divine Seal in my hands. As long as I hold the Radiance Divine Seal, I am the Radiance World’s Radiance Lord.”

“Huang Xiaolong’s dreaming if he thinks he can make me hand over the Radiance Divine Seal! Moreover, the Radiance Divine City is infallible as it’s built using various divine materials by the Radiance Ancestor. It’s comparable to a grandmist treasure artifact. Even if Huang Xiaolong steps into Sovereign, he won’t be able to break past the Radiance Divine City’s defenses. As long as I remain in the Radiance Divine City, it’s not Huang Xiaolong’s turn to swagger in this Radiance World!” Dun Ei’s grim voice echoed through the hall.

That was also his last line of defense. The Radiance Divine City was also known as the strongest fort in existence, and some even compared it to the Ancient Heavenly Court. Thus, Dun Ei was confident that Huang Xiaolong wouldn’t be able to do anything to him even if he got the other half of the inheritance.

“But it’s a pity. The Radiance Ancestor has left a word that whoever obtains his inheritance, that person would be the master of the Radiance Knight Corp.” Dun Ei sighed hopelessly. In other words, after obtaining the full inheritance, Huang Xiaolong could take over the Radiance Knight Corp, and that meant half of the Radiance World’s power.

.....

In the meantime, above the Sea of Radiance, Huang Xiaolong had disappeared into the Heavenly Hall through the door in a flicker.

Similar to the first time, the moment Huang Xiaolong passed through the Heavenly Hall’s door, he was entirely enveloped by a gentle radiant light. It was so comfortable that his soul wanted to groan in pleasure.

Based on his previous experience, Huang Xiaolong proceeded with more familiarity this time. He quickly sat down and circulated the Grandmist Parasitic Medium to absorb the sacred light’s energy.

This was the Radiance World's pure origin energy, and its preciousness was comparable to the grandmist aura.

The moment Huang Xiaolong started absorbing, the radiance origin energy began to rush toward him and entered his body, reaching every part of him. He was the sacred light itself.

While Huang Xiaolong refined and absorbed the pure radiance origin energy, the one hundred Undead Netherguards removed the one hundred Radiance Divine Stone from the core points per Huang Xiaolong's earlier instruction.

The Array of Origin's power stopped circulating when all the Radiance Divine Stones were removed from the core points. The Heavenly Hall's door slowly shut itself, and the Heavenly Hall once again sunk to the hidden space at the bottom of the sea.

Subsequently, the Radiance Angels and four odd beasts executed methods to hide the Array of Origin and then concealed themselves in various corners in the vicinity. They waited for Huang Xiaolong to come out after obtaining the complete inheritance.

Calmness returned to the surrounding sea.

While Huang Xiaolong was refining the other half of the Radiance Ancestor's inheritance, a piece of shocking news spread out from the Radiance World.

"What!? The Son of Light has broken through to mid-level Emperor Realm in one fell swoop, advancing to Fourth Order Emperor?! Impossible, right? The Son of Light hasn't been cultivating for more than thirty thousand years!"

"Realer than gold, when the Son of Light was breaking through, there were many Emperor Realm pontiffs present. The Son of Light is our Radiance World's number one genius. His talent has superseded the past Radiance Ancestor. He would definitely be able to control the Radiance Divine Seal and take over His Highness Archbishop's position. He will unify our Radiance World!"

"Also, our Son of Light has put up a battle stage at the Reverence Moon Divine City. He has invited talented peers of other worlds for a battle. Anyone below the bone-age of one hundred thousand years

can challenge him. It can be any disciple, who meets the criterion, from the Divine World, hell, Devil World, Buddha World, or even the Demon World!”

“For real? Challenging the whole universe’s same generation’s geniuses? That...! I’ve heard the Divine World’s Heavenly Prince Di Jing has the number one Heavenly Dao Godhead. There is another terrifying individual called Huang Xiaolong with three king of supreme godheads. Not to mention, the Buddha World’s Pu Ti is said to be the reincarnation of a Great Buddha! Could our Son of Light defeat him?!”

“What’s Huang Xiaolong considered as? He merely got better luck than others, getting hit by the Lord of Hell’s inheritance. Although his cultivation speed is shocking, it’s all piled up by treasures. His foundation is definitely not stable. Not to mention, Huang Xiaolong has only advanced to Emperor Realm for a short time. How is he a worthy opponent for our Son of Light? Much less the Heavenly Prince Di Jing and Buddha World’s Pu Ti!”

“The battle stage will be put up for a decade. Let’s see if that Huang Xiaolong, Heavenly Prince Di Jing, and that Pu Ti would dare to challenge!”

The Son of Light had been cultivating for less than thirty thousand years, yet he had already reached the mid-level Emperor Realm. He has also issued a challenge to the younger generation of geniuses from the Divine World, Hell, Buddha World, Devil World, and Demon World. The news caused a big stir.

In a short time, geniuses from various worlds made their way to the Radiance World to challenge the Son of Light.

.....

The Divine World’s Heavenly Court.

When the Heavenly Prince Di Jing heard the news, he harrumphed coldly, “That Son of Light has merely cultivated for twenty thousand years more than me. There will be a day where I’ll pinch him to death like an ant!”

But at his current strength, Di Jing had to admit he could not defeat the Son of Light unless he too advanced to Fourth Order Emperor Realm. At that level, he could probably defeat the Son of Light. Even

though he had the first-ranked Heavenly Dao Godhead, he couldn't help but acknowledge that the Son of Light was highly talented as well.

"I've heard that Huang Xiaolong went to the Radiance World." A light glimmered in Heavenly Emperor Di Jun's eyes as he went on, "If the other half of the Radiance Ancestor's inheritance falls in his hand, it will be even harder to suppress him."

Hearing that, the Heavenly Prince Di Jing suddenly said, "Father, in a few days, I'm going to the City of All-Heavens."

Heavenly Emperor Di Jun's eyes widened in astonishment, "What? Do you want to go to the City of All-Heavens? No, absolutely not! Although you've already broken through to Emperor Realm, it's still too dangerous for you to go to the City of All-Heavens! It's too risky. Ninety percent, you're going to lose your life!"

Heavenly Prince Di Jing shook his head, "I know the City of All-Heavens is dangerous, but if I don't go, I will never be able to defeat Huang Xiaolong. Especially if Huang Xiaolong obtains the other half of the Radiance Ancestor's inheritance, his strength would far surpass mine. The City of All-Heavens is my only hope."

#### Chapter 1965: Myriad Spirits City

Heavenly Emperor Di Jun looked at his son Di Jing's determined face and sighed helplessly, "Are you absolutely sure that you want to go to the City of All-Heavens?"

The City of All-Heavens was a taboo!

A taboo for the Emperor Realm experts from the entire universe, even Sovereign Realm experts!

Heavenly Prince Di Jing nodded his head solemnly, "The City of All-Heavens. I'm bound to go there!" He paused slightly, then added, "Father, please rest assured, I have the Heavenly Dao Godhead and Heaven's Dao Physique. I won't die so easily." His gaze sharpened, "Huang Xiaolong isn't dead yet. How can I die first?!"

Di Jun let out another sigh, "Alright then, prepare well in these two days. I'll send Yan Tianchen and a few others to escort you to the City of All-Heavens!"

It was a long way to reach the City of All-Heavens, and the journey was laden with many dangers that even an average high-level Emperor Realm expert's strength could not guarantee he could arrive safely. With Di Jing's First Order Emperor Realm strength, it was certain that he wouldn't make it to the City of All-Heavens alone. This was also why Heavenly Emperor Di Jun had Yan Tianchen's group of several peak late-Tenth Order Emperor Realm experts escort Di Jing.

"Understood!" This time, Di Jing did not refuse. He was aware that he wouldn't reach the City of All-Heavens safely by himself at his current strength. His eyes turned frosty and sharp as he said, "Huang Xiaolong, your death is near. I will kill you when I come back from the City of All-Heavens!"

.....

The Radiance World.

Four years passed in the blink of an eye. During this time, everyone's attention was on the Radiance World's Son of Light, who had put up a battle stage, challenging the universe's same-generation geniuses.

During these four years, there had been numerous geniuses from other worlds who had answered the Son of Light's challenge on the battle stage. But none of them was his match.

In fact, in these four years, none of the challengers were able to last more than three moves from the Son of Light. The majority of them were defeated in one move; worst still, some didn't even last one strike. First-Order and a small number of Second Order Emperor Realm disciples were completely suppressed by the pressure exuded by the Son of Light to the point that they were lying face down on the battle stage.

Hence, in these four years, the Son of Light's reputation was catching up to Huang Xiaolong's, and there was a trend of surpassing Huang Xiaolong.

“Anyone among the younger generation below one hundred thousand years of bone-age who can take ten moves from me, I will worship them as my Master!” After the battle stage had been set up for four years, the Son of Light issued a public announcement.

Ten moves!

The announcement roused another wave of furor through various worlds.

But this also provoked the ire of many supreme godheads and king of supreme godhead geniuses of the younger generation. Some successors of ancient sects and forces began making their way to the Radiance World’s Reverence Moon Divine City to challenge the Son of Light. They wanted to determine who was better.

However, another four years passed. Whether it was supreme godhead geniuses or king of supreme godhead geniuses, regardless of which Emperor Palace or ancient sects these geniuses hailed from, none of them were able to last ten moves from the Son of Light.

At this time, Huang Xiaolong was still refining the other half of the inheritance inside the Heavenly Hall at the bottom of the Sea of Radiance. He was completely unaware of the outside happenings.

The layers of sacred golden light enveloping Huang Xiaolong opened like blooming petals, and at the center, he was the god of light and radiance, the supreme existence above everything.

It was as if the entire Radiance World’s radiance was gathered within Huang Xiaolong. The light from his body soared to the heavens, bringing radiance to every corner of the world. It even passed the boundary of the Heavenly Hall, flowing outwards to the Sea of Radiance.

The sixteen wings on Huang Xiaolong’s back spread out and almost doubled in size. On each wing, radiant runes glimmered, and each rune contained incredible radiance energy.

Soon, every ray of sacred light within the Heavenly Hall rushed into Huang Xiaolong’s body with strong momentum, and loud hissing noises came from his body.

Suddenly, the sacred light that had gathered around Huang Xiaolong exploded! Then, a barely audible sound of something shattering came from within Huang Xiaolong as his momentum escalated. The exploded rays of light condensed into shadows of Radiance Angels around Huang Xiaolong like they were his guardian angels.

Another month passed.

Huang Xiaolong completely absorbed every last ray of sacred light inside the Heavenly Hall. When the last ray of light entered Huang Xiaolong's body, a divine radiance rune emerged on his forehead.

This divine radiance rune resembled the ancient character for 'bright.' At the same time, it also resembled the shape of the Radiance World that had shrunk many times over.

A few minutes later, Huang Xiaolong opened his eyes. Radiant light danced inside his pupils, reflecting the entire Sea of Radiance and more, as well as all the islands on it.

Huang Xiaolong could see every corner of the Sea of Radiance clearly despite sitting inside the Heavenly Hall.

Huang Xiaolong took the time to check his internal condition. A while later, he stood up with a satisfied expression. Now that he had refined the other half of the inheritance, he had obtained the Radiance Ancestor's complete inheritance. The radiance rune on his forehead was proof that the Radiance World's origin energy had recognized him. He was the Radiance World's Lord. Moreover, after obtaining the full inheritance, not only his physical body but even his three supreme godheads had improved by ten folds, maybe even more.

The only thing that depressed Huang Xiaolong was that his cultivation had merely advanced to the early Second Order Emperor Realm after refining the other half of the inheritance.

If someone learned that Huang Xiaolong had broken through from early First Order Emperor Realm to early Second Order Emperor Realm in less than a decade, they would probably cry to his death.

Re-emerging above the Sea of Radiance, Huang Xiaolong gathered the Heavenly Halls with a wave of his hand. As the two Heavenly Halls floated in front of him, Huang Xiaolong's hands quickly formed a set of

seals. Gradually, both Heavenly Halls emitted brilliant lights as they began to merge into one entity. The Heavenly Hall's outer appearance did not change after merging, but its aura was several times more powerful!

The Array of Origin flew up from its position and imprinted on the Heavenly Hall's floor, integrating into the Heavenly Hall.

The Array of Origin was one of the Radiance World's most powerful array formations. After it integrated into the Heavenly Hall, the Heavenly Hall seemed more oppressive.

"Pity!" Huang Xiaolong shook his head as he looked at the Heavenly Hall in front of him. Despite the integration of the two halves of Heavenly Hall into one entity and the Array of Origin, it still fell short of reaching the level of a grandmist treasure artifact.

Then again, even though this complete Heavenly Hall was not at the level of a grandmist treasure artifact, it was probably the most powerful amongst top-grade grandmist spiritual artifacts.

Huang Xiaolong retrieved the Heavenly Hall into his body and mounted on the ten-winged pegasus in a leap. Their figures disappeared into the horizon in blurry afterimages. The Radiance Angels and four odd beasts followed closely behind them.

The Myriad Spirits City was located on the Myriad Spirits World surface together with the Radiance Divine City. They were known as the Radiance World's two holy cities.

The Myriad Spirits World surface was one of the Radiance World's biggest world surfaces, and the Myriad Spirits City occupied one-third of the Myriad Spirits World's land surface. One could imagine how big the Myriad Spirits City was.

Huang Xiaolong looked at the heights of Myriad Spirits City that loomed over the land from afar. He merely stopped for a brief few moments before nudging the ten-winged pegasus forward towards the Myriad Spirits City.

Huang Xiaolong did not conceal his aura deliberately. Hence, the moment he entered the Myriad Spirits City, the Radiance Knight Corp Bishop Lu Zhaoming received a report from his subordinate.

Lu Zhaoming was thrilled upon receiving his subordinate's report. Killing intent flashed across his pupils. "Punk, it's astounding that you've got the guts to show up. Very good! Let me see what tricks you have up your sleeve that you have the confidence to show up here in the Myriad Spirits City. This time, Radiance Lord Dun Ei also won't be able to save you!"

Lu Zhaoming marched out from the palace with anticipation. Since Huang Xiaolong was there, he couldn't let him run away.

#### Chapter 1966: Tired of Living?

Huang Xiaolong strolled through Myriad Spirits City's streets on the ten-winged pegasus, which attracted a lot of attention.

"It's a ten-winged pegasus! Could it be the same one that appeared in the vicinity of Sea of Radiance a few years ago?!"

"Correct, it's the same one! This black-haired young man killed the Indestructible Pontiff with one punch, and he even sent Bishop Lu Zhaoming flying with one palm strike. Bishop Lu Zhaoming issued the bounty of two hundred thousand low-grade chaos spirit stones for his capture!"

"It's him!? Has he gone mad? How dare he show up here at Myriad Spirits City? Is he tired of living? He's more arrogant than our Son of Light, ah!"

"I've heard that the Divine World's Heavenly Prince Di Jing has not dared to answer the challenge. Everyone is also wondering which corner that Huang Xiaolong is hiding, not daring to come out. Also, the Buddha World's Pu Ti has not dared to accept the challenge as well. Our Son of Light is really the strongest person of the younger generation in the universe!"

"Of course, our Son of Light has put up the battle stage for almost nine years now. Still, no one has successfully lasted ten moves from him. Even if Di Jing or Huang Xiaolong come, they would fail like the others before them. They know that they are not our Son of Light's match. That's why they did not show up to accept the challenge!"

The various churches' experts on the streets conversed excitedly.

These words stoked Huang Xiaolong's curiosity. Son of Light? Battle stage?

Huang Xiaolong stopped a young man in front of him on the street and inquired about the Son of Light putting up a battle stage.

When the young man saw the ten-winged pegasus below Huang Xiaolong, he nearly jumped back in alarm. He awkwardly squeezed a smile. "Erm, that one..." He stalled, debating if he should get as far away from Huang Xiaolong as possible or answer Huang Xiaolong's question.

Huang Xiaolong threw him a spatial ring and said, "Answer my questions to my satisfaction, and these ten thousand low-grade chaos spirit stones are yours."

The young man's hands and legs shook as he stared at the spatial ring in his palm.

He was just an average low-level Heavenly Monarch. Forget ten thousand low-grade chaos spirit stones; merely one thousand low-grade chaos spirit stones was an exorbitant sum for him.

"This... Is this really, really for me?" The young man stammered.

Huang Xiaolong nodded in affirmation.

The young man gulped audibly and managed, "A little over eight years ago, our Son of Light put up a battle stage at the Reverence Moon Divine City, challenging all the younger generation's geniuses. Anyone below one hundred thousand years of bone-age can battle him on the battle stage. But to-date, there hasn't been anyone who could last ten moves from the Son of Light. No, in fact, no one could last more than five moves. Our Son of Light made an announcement a few years ago, stating that anyone who could take ten moves from him, he would worship that person as his Master!"

"Oh~," Huang Xiaolong's eyes glimmered as he asked, "So, is your Son of Light very strong?"

The young man raised his chin, full of pride as he replied, "Of course. Our Son of Light has only been cultivating for less than thirty thousand years, yet he's already a Fourth Order Emperor Realm expert. I've also heard that our Son of Light's cultivation of Radiance Divine Tome has reached the twelfth floor. He can easily kill a Fifth Order Emperor Realm expert."

Huang Xiaolong was genuinely surprised to hear that. Less than thirty thousand years and he is already a Fourth Order Emperor?

It seems like this Son of Light was indeed a rare monstrous genius. This level of talent is as strong as Di Jing's. However, Di Jing has the Heavenly Dao Godhead, and the number one Heaven's Dao Physique. Could the Son of Light have two king of supreme godheads?

Huang Xiaolong believed that the Son of Light's cultivation would not reach a level comparable to the Heavenly Prince Di Jing's with one king of supreme godhead.

"Now, there's still a little over a year from the stipulated ten years. If Huang Xiaolong, the Heavenly Prince Di Jing, or Buddha World's Pu Ti do not show up, then our Son of Light will become the undisputed strongest person amongst the younger generation of geniuses."

There was an unmistakable pride and shared glory in the young man's tone.

In the few years since the Son of Light had put up the battle stage challenge, he had defeated numerous geniuses from various worlds. None of his challengers were able to last more than five moves. His undefeated streak was a source of pride for the Radiance World's experts.

"Senior, Bishop Lu Zhaoming is deploying experts from the Radiance Knight Corp and would arrive very soon. I, I think, you should leave Myriad Spirits City as fast as you can." The young man couldn't help saying to Huang Xiaolong towards the end. Perhaps, it was for the sake of the ten thousand low-grade chaos spirit stones that he cautioned Huang Xiaolong.

Huang Xiaolong glanced at the young man's robe and stated, "You're a disciple of the Purple Flame Church?"

The young man hesitated but answered honestly, “Yes, my name is Andrew. My Master is the Purple Flame Church’s Archbishop.”

Huang Xiaolong nodded. The Purple Flame Church was one of the stronger churches of the Radiance World. Merely judging from their strength, the Purple Flame Church was definitely within the top one thousand amongst the Radiance World’s countless churches. Additionally, it was not attached to the Radiance Lord Dun Ei or the Radiance Knight Corp’s rule.

“Wait till I kill Lu Zhaoming. I will make a trip to the Purple Flame Church when I get time in the future. At that time, I might have to trouble you when I want to see your Purple Flame Church’s Archbishop.”

The young man, Andrew, was clearly taken aback. Then, his face turned red, as he looked slightly embarrassed as he waved his hands in the air, not knowing what to say.

Huang Xiaolong merely waved Andrew away, seeing his response. Andrew hastened away as if he had received an amnesty. After all, Lu Zhaoming and his team of Radiance Knight Corp would be arriving soon. Whoever stood close by Huang Xiaolong at this point was literally looking to get killed.

Huang Xiaolong watched as Andrew hurried away in a fluster, and he didn’t really mind his attitude. He continued heading towards the Radiance Knight Corp’s headquarters, riding on the ten-winged pegasus.

While Huang Xiaolong made his way to the Radiance Knight Corp’s headquarters, Lu Zhaoming was rushing towards Huang Xiaolong’s location, leading a group of Radiance Knight Corp’s experts.

Lu Zhaoming was cautious, knowing that Huang Xiaolong wasn’t a soft persimmon. Therefore, he invited his Master, Abra. Abra was the Radiance Knight Corp’s Archbishop, a mid-Ninth Order Emperor Realm expert.

Other than his Master Abra, there were a dozen more Emperor Realm pontiffs. These pontiffs all served under his Master Abra.

Abra, Lu Zhaoming, and thousands of experts all uniformly rode on Sky Dragon Horses, galloping down the streets, scaring all other churches’ disciples to retreat to the sides.

The Sky Dragon Horse was one of Radiance World's divine beasts. Even though it was not a high-bloodline divine beast, it was quite pricey. This also showed how wealthy the Radiance Knight Corp was.

These Sky Dragon Horses had the strength of Tenth Order God King Realm and above. A handful of them had the strength of low-level to mid-level Heavenly Monarch. As these Sky Dragon Horses' auras were completely released, it immediately attracted attention, and some of the weaker cultivators on the streets felt overwhelmed.

Before Huang Xiaolong actually saw Lu Zhaoming's group, he already sensed the powerful momentum of Lu Zhaoming's army of thousands moving towards him.

Huang Xiaolong's divine sense spread out, covering several hundred-million miles radius, capturing the presence of Abra, Lu Zhaoming, and others.

'Unfortunately, Xiaoniu isn't here.' Huang Xiaolong sighed to himself. The old little cow loves nothing more than fighting.

As the thought crossed his mind, the ten-winged pegasus continued towards the Radiance Knight Corp at a steady pace.

....

Half an hour later.

Huang Xiaolong felt the tremors coming from the ground—tremors caused by thousands and thousands of galloping Sky Dragon Horses.

A dozen breaths passed, and the several tens of thousands of Sky Dragon Horses, Abra, Lu Zhaoming, and the rest entered Huang Xiaolong's line of sight.

At this point, there was only Huang Xiaolong on the street. Others had long fled far away.

Lu Zhaoming's army stopped one thousand meters from Huang Xiaolong while Lu Zhaoming's Sky Dragon Horse trotted a few meters forward. He stared coldly at Huang Xiaolong. His sonorous voice rang in the street, "Punk, you've got some guts to come here to our Radiance Knight Corp's Myriad Spirits City. Today, no one can save you, even if you say you're friends with the Son of Light!"

#### Chapter 1967: Abra Killed

"Son of Light?" Huang Xiaolong couldn't help chuckling, "Who is the Son of Light other than someone qualified to carry my shoes?" He paused for a split second, then added, "I too want to tell you that even Elan can't save you today."

"Impudent!"

"Insolent!"

As Huang Xiaolong actually dared to speak the name of their Radiance Knight Corp Commander Lord Elan without honorifics, all the Radiance Knight Corp members behind Abra were outraged, and they reprimanded Huang Xiaolong.

Abra, Lu Zhaoming, and other Emperor Realm experts' faces sank, and all their murderous auras were locked onto Huang Xiaolong.

Abra nudged the Sky Dragon Horse under him forward. His icy gaze never left Huang Xiaolong. "Brat, on the way here, I was thinking of sparing your life if you showed willingness to turn over a new leaf by begging for pardon on your knees, and vowed to serve me as a warrior. But now, even if you beg on your knees, you've already missed your chance!"

On the way over, Abra had indeed thought about this.

Since Huang Xiaolong had easily defeated Lu Zhaoming in one move above the Sea of Radiance in the past, Huang Xiaolong's battle strength was simply amazing. Thus, Abra had thought of subjugating Huang Xiaolong.

If Huang Xiaolong had kneeled to him and vowed to serve him, Abra would have spared his life.

Huang Xiaolong couldn't resist snickering after hearing Abra's words, "You want me to serve you? I wouldn't even consider you as a candidate for being my slave with your qualifications."

Abra was merely a mid-Ninth Order Emperor.

"You're courting death!" Abra's eyes widened in fury, and his aura turned violent in an instant.

"Master, your status is too noble to deal with little clowns like him. Please allow this disciple to make him kneel before you to receive your punishment!" At this time, Bishop Barnett moved out from behind Abra and volunteered.

Though Barnett was of the same bishop rank as Lu Zhaoming, he was significantly stronger than Lu Zhaoming. He was a late-Fourth Order Emperor Realm expert.

Abra's oppressive aura converged slightly as he suppressed the killing intent roiling in his heart. He nodded at Barnett and agreed, "Alright! Go break and cut off his legs for me first to make him kneel to me!"

"Yes, Master." Barnett approached Huang Xiaolong on his Sky Dragon Horse mount.

Lu Zhaoming and the rest remained on standby behind Abra.

Experts spectating from afar stirred in excitement.

"Who is that kid? He is simply too arrogant, he dared to say our Son of Light is merely qualified to carry his shoes! This kind of reckless and ignorant rascal should not be killed immediately, but slowly tortured to death. That is the best lesson for him!"

"That's right. Better yet, nail him to the spot and let the sun dry him out day in and day out into a dried corpse!"

“Lord Barnett, kill this stupid pig!” Someone in the crowd instigated. To Radiance World’s younger generation, the Son of Light was the sky’s limit, the idol in their hearts. So how dare Huang Xiaolong blaspheme their idol by comparing him to someone that carries another’s shoes. In a sentence, Huang Xiaolong had provoked public ire.

Barnett stopped roughly a hundred meters from Huang Xiaolong and scrutinized him in a condescending manner as he spoke, “Kid, did you hear that? Say, how do you think I should torture you after cutting off your legs? Should I nail you here and let you slowly turn into a dried corpse as they suggested?”

But Barnett barely finished his words when a small chaos ax whistled across the air towards him.

The moment the little chaos ax appeared, it sent a ripple through heaven and earth. The whole Myriad Spirits City’s experts’ hearts palpitated without knowing why.

Barnett merely saw a gleam of light, and the world came to a standstill in that moment. When he looked down, there was a cut that went all the way down to his crotch from his head. His body split into two.

That moment felt like forever, yet it seemed like barely a breath’s time had passed as Barnett’s two-halves fell to the ground. Glaring rays of light burst out from the cut across his body, as well as the Sky Dragon Horse under him.

The shouts and yells for Huang Xiaolong’s torture from the spectating crowd came to an abrupt stop.

The surrounding churches’ disciples stared stupidly at the street where the two-halves of Barnett’s corpse fell.

“Lord Barnett!” A few breaths later, the Radiance Knight Corp’s members finally reacted. Their voices reverberated in the street.

Abra came to his senses, and he glared at Huang Xiaolong with intensified killing intent. Even so, his killing intent failed to hide the shock in his gaze. What was that just now? In that split second when that small ax struck, it was too fast. So fast that he could merely catch a blurry shadow of it.

“Kill this animal, avenge Lord Barnett!”

“Lord Abra, please give the order, we must kill this little beast!”

The captains and senior captains under Barnett hollered with raging fury but before they could take any action, the little chaos ax appeared again, drawing a streak of light across the air.

Wherever the streak of light passed, the captains, senior captains, and knights fluttered weightlessly into the air, disintegrating into particles of light as they landed on the ground and disappeared from the world.

The lights disappeared and there were a few more corpses on the street. These were the senior captains, captains, and knights who had been shouting to kill Huang Xiaolong the loudest.

How could the Majesty, the Nether King be challenged this way? How could the majesty of the Radiance Lord be blasphemed?

“Little beast, you’re courting death!” Abra bellowed as he leaped off his Sky Dragon Horse, and his palm struck down on Huang Xiaolong.

A bright shining palm appeared, casting a shadow over half of the Myriad Spirits City. It seemed like the entire Myriad Spirits City would sink into the earth if Abra’s palm really struck down.

Huang Xiaolong’s gaze hardened listening to Abra shouting another ‘little beast.’ A soft light rippled from his body as a fourteen-winged Radiance Angel flew out at a terrifying speed straight at Abra. The fourteen-winged Radiance Angel shattered Abra’s palm strike in the blink of an eye. Then, his palm slit across Abra’s neck like the sharpest blade.

Abra could only watch the fourteen-winged Radiance Angel slit his throat with fear and despair.

.....

At the center of Myriad Spirits City stood a huge, sacred manor, enshrouded in radiant light. It exuded supreme majesty and holiness. Little sparkles of light elves whizzed happily above the manor.

This was the Myriad Spirits Divine Manor, also known as the Radiance Knight Corp's headquarters.

At this time, at the main hall of the Myriad Spirits Divine Manor sat a woman of peerless beauty. Twelve wings were spread out on her back, exuding an inviolable majesty that filled the huge main hall.

This beautiful woman was the Radiance Knight Corp's Commander, Elan. She was also the strongest person of Radiance Knight Corp, hailed as the most powerful person of Radiance World.

Suddenly, Elan opened her eyes, and the twelve wings folded to her back. In the next moment, Bishop Mo Xifa walked in anxiously and knelt on one knee before Elan, "Corp Commander, bad news, Archbishop Abra was killed moments ago!"

"What!?" Elan was shocked, and she demanded, "You're saying Archbishop Abra?!"

"Yes, just now, inside our Myriad Spirits City!" Bishop Mo Xifa answered apprehensively.

Inside the Myriad Spirits City! Elan rose briskly from her seat.

Right at this time, several hundred people entered the main hall. These were the Radiance Knight Corp's archbishops and bishops who had rushed over upon hearing the news.

The Radiance Knight Corp had close to a hundred archbishops, and amongst the several hundred people that entered the main hall, forty-plus of them were archbishops. All the archbishops within the Myriad Spirits City were present in the main hall.

The rest of the archbishops were stationed at other world surfaces.

Abra was killed. On top of that, he was killed within the Myriad Spirits City. When these archbishops heard the news, all of them rushed over to the headquarters' main hall. Something of this magnitude had never happened before.

#### Chapter 1968: Greetings to Your Majesty, Radiance World Lord!

"What is going on exactly?" Elan sternly demanded an explanation from Bishop Mo Xifa. Her thoughts were in a mess.

Mo Xifa reported, "It's the same person who took away the ten-winged pegasus above the Sea of Radiance. This person injured Bishop Lu Zhaoming at that time and then ran away. Bishop Lu Zhaoming had issued a two hundred thousand low-grade chaos spirit stones bounty for his capture. But who'd have thought that this person would actually run here to our Myriad Spirits City!"

"When Bishop Lu Zhaoming got the news that this person has entered Myriad Spirits City, he informed Archbishop Abra of the matter. So, Archbishop Abra led a team to capture this person, but Archbishop Abra was killed by an expert by that person's side!" Mo Xifa's voice reverberated in the main hall.

Elan, the archbishops, and bishops got the gist of the matter.

Elan was aware of the conflict related to the ten-winged pegasus above the Sea of Radiance, but that was a small matter in her eyes. Who knew it would ferment to today's outcome?

"Other than Archbishop Abra, Bishop Barnett was killed too. Also, that person has killed several of our senior captains, captains, and knights!" Bishop Mo Xifa added.

The present archbishops and bishops were outraged and inwardly astonished at the same time.

"He's mad. How dare he come to our Myriad Spirits City and kill our Radiance Knight Corp's archbishop and bishop?!" In the main hall, Archbishop Hillier's outraged voice rang sonorously, "Not even the Radiance Lord Dun Ei would dare to act so wantonly on our territory! I will bring a group and capture this bastard right now! He must not be allowed to run!"

"I agree. Regardless of this person's identity, he must die today. On top of that, he is not to have an easy death. Capture him. Put him up on the city walls, then flay his flesh piece by piece and behead him for all to see. Let everyone know the dire consequences of provoking our Radiance Knight Corp!" Another Archbishop, An Si, strongly seconded.

Both Hillier and An Si were late-Tenth Order Emperor Realm experts. Among the Radiance Knight Corp's archbishops, their strengths could be ranked within the top ten.

Elan's blue eyes gleamed a frosty light as she said to Hillier, An Si, and the rest, "This matter might not be so simple. Order the people below to activate the city's grand formation, and lockdown the whole Myriad Spirits City!"

After Elan ordered for the Myriad Spirits City to be locked down, she turned and asked Bishop Mo Xifa, "You said Archbishop Abra was killed by an expert by that person's side? Do you have detailed information about the experts by his side? How many experts he has on his side?"

Bishop Mo Xifa concisely recounted the event to Elan and everyone else present.

"You mean Abra was killed by the other side's expert in one move?!" Elan exclaimed in shock after she finished listening to Mo Xifa's recount. So were Hillier, An Si, and the rest.

Abra was a mid-Ninth Order Emperor Realm expert. Someone that could kill Abra in one strike would, at the very least, have the strength of a mid, probably even late-Tenth Order Emperor.

"Yes, Abra was killed in one strike. However, those present at that time merely saw a blurry white figure flicker, and Archbishop Abra was already dead. That white figure vanished without a trace." Bishop Mo Xifa answered. "Whether there are any other hidden experts by his side, we cannot be certain of that for now."

Elan's pale white eyebrows wrinkled as she frowned.

"Corp Commander, we request to take on the capture of this person!" Hillier and An Si stepped out simultaneously.

But Elan shook her head, “No need, I will go myself.”

What?! Go personally?

Everyone was surprised at Elan’s decision. It had been several hundred million years since their Corp Commander had taken action.

But right at this time, an unfamiliar voice rang in the main hall, “No need, I’m here.”

Everyone was alarmed and looked towards the door immediately. They could see a black-haired young man approaching on a ten-winged pegasus.

“It’s him. It’s him. He killed Archbishop Abra!” Bishop Mo Xifa yelled and pointed at Huang Xiaolong.

Hearing that, all the outraged archbishops and bishops rushed towards Huang Xiaolong, and encircled him.

Huang Xiaolong continued forward towards the Corp Commander Elan on the ten-winged pegasus as if he could not see the ferocious archbishops and bishops encircling him. More accurately, he was heading straight to the Radiance Throne at the center of the main hall.

Noticing Huang Xiaolong’s intention, the Radiance Knight Corp exchanged doubtful glances.

Is something wrong with this kid’s brain? After killing Archbishop Abra and several others, he actually has the guts to show up at the Myriad Spirits Divine Manor. On top of that, he strolled into the main hall leisurely on the ten-winged pegasus as if he is taking a walk through the streets.

Elan too was frowning at this sight.

As Elan did not give any orders, the Radiance Knight Corp merely encircled Huang Xiaolong.

“Who are you?” Elan questioned, her icy stare was fixed on Huang Xiaolong.

Huang Xiaolong did not respond to her question. He stopped at the front of the main hall, and just as the present archbishops and bishops were about to attack in anger, sixteen pure radiance wings spread out from Huang Xiaolong’s back for all to see.

At first, it was two wings, then four wings, six wings, eight wings, ten wings...!

In the beginning, Elan and the others weren’t concerned at all, but when Huang Xiaolong’s twelve-wings spread out, all of them were dumbfounded. Currently, in the entire Radiance Knight Corp, Elan alone had twelve wings.

And Elan was an existence that had surpassed the Emperor Realm.

When Elan, Hillier, and the rest regained their senses, another pair of wings spread from Huang Xiaolong’s back!

“Four-fourteen wings!” Hillier, other archbishops, and bishops trembled, filled with disbelief. Even Elan’s eyes were rounded in astonishment.

But that was not the end as two wings extended out from Huang Xiaolong’s back.

“It’s, it’s sixteen wings!” Hillier, An Si, and others quivered.

Unprecedented!

Sixteen wings!

When all sixteen of Huang Xiaolong’s wings were spread out, unrestrained holy rays of light shone from his body. Boundless radiance energy washed over everyone in waves. Not even the Myriad Spirit Divine Manor’s array formation could block his brilliance. The light from his body soared straight to the sky. It

was visible from every corner of the city, and also from every corner of the Myriad Spirit World surface. A dazzling, warm, and holy light full of vitality.

“... You are?!” A thunderclap sounded in Elan’s mind as a thought emerged from her memory—Huang Xiaolong had obtained half of the Radiance Ancestor’s inheritance in Hell.

A crepuscular radiant rune mark emerged between Huang Xiaolong’s eyebrows. When this rune mark appeared, everyone in the hall felt a terrifying pressure that came from the core of their souls. This kind of pressure forced them to kneel on their knees. Even Elan, who had broken through to the Sovereign Realm, failed to resist this pressure.

“The rune mark of the Radiance World’s Lord!” Elan exclaimed sharply.

Hillier, An Si, and the others trembled even harder.

The rune mark of the Radiance World’s Lord! Doesn’t that mean...?

“Elan greets Your Majesty, Radiance World Lord!”

While still in immense shock, Elan suddenly bowed and respectfully saluted Huang Xiaolong.

“We greet Your Majesty, the World Lord!” Hillier, An Si, and the rest did not dare to hesitate. All of them hurriedly performed the salutation ceremony towards Huang Xiaolong.

In the main hall, several hundred figures were on their knees.

“Stand up.” Huang Xiaolong said as his gaze swept over the main hall.

“Thank you, Your Majesty!” Everyone stood up after thanking Huang Xiaolong.

However, due to the pressure caused by the radiant rune mark on Huang Xiaolong's forehead, none of them dared to look directly at Huang Xiaolong.

Chapter 1969: Seek Allegiance from Dun Ei

Seeing this, Huang Xiaolong considerably retrieved his radiant rune mark.

Only then did everyone in the main hall feel better compared to the suffocation they had experienced in the past few minutes.

"I believe everyone has already guessed that I am Huang Xiaolong."

Huang Xiaolong didn't waste time with nonsense and cut into the subject directly. "When I was in Hell, I obtained the Lord of Hell's inheritance, and became Hell's Nether King, the ruler of Hell's three worlds. By some fortuitous adventure, I also managed to obtain the Radiance Lord's complete inheritance, which has made me the Lord of Radiance World. I understand that part of you can't believe and accept I am saying., Or some of you are even unwilling to acknowledge and submit to me, the king of hell."

"If any of you are unwilling to serve me as the new Radiance World Lord, you can leave now. I will not force you." Huang Xiaolong's words reverberated in the main hall.

All the archbishops and bishops in the main hall kept silent.

In all honesty, since the news of Huang Xiaolong obtaining half of the Radiance Ancestor's inheritance had reached their ears, many of them had engaged in secret discussions. They had wondered if Huang Xiaolong were to really obtain the Radiance Ancestor's complete inheritance, would they be willing to serve the king of hell! After all, the Radiance World and Hell had always been at odds like fire and water.

Now, the ruler of hell wants to command them?

Many of them were indeed unwilling to accept it.

Huang Xiaolong's gaze swept over the faces of those in the hall, taking note of their expressions.

"I will say it one last time—those of you who are unwilling to submit to me, you can leave now. However, I hope you won't appear at Dun Ei's doorsteps after leaving here." Huang Xiaolong's voice turned a degree colder at this point, "After some days, I will be attacking the Radiance Divine City, and every single person seeking allegiance with Dun Ei after leaving the Radiance Knight Corp will be exterminated!"

Huang Xiaolong's murderous voice pounded like a hammer on everyone's heart.

Before this, a few of the archbishops and bishops had contemplated seeking allegiance with Dun Ei after leaving the Radiance Knight Corp. It was granted that it was easier to take shade under a big tree. Dun Ei held the Radiance Divine Seal. Thus, on the surface, he was the Radiance Lord.

As everyone fell into prolonged heavy silence, Hillier suddenly stepped forward and spoke, "Huang Xiaolong, you yourself said that anyone, who is unwilling to serve, you can leave." He couldn't be bothered with using any honorifics at this point.

Hillier's attitude stupefied everyone. Elan was the first to react and reprimanded Hillier, "Hillier, you're acting presumptuous! Do you want to betray the Radiance Knight Corp?!"

Huang Xiaolong raised his hand and stopped Elan. He said to Hillier, "That's right, I've said so. If you're unwilling to serve me, you can leave now."

Without another word, Hillier turned around and began walking towards the door.

An Si hesitated briefly, then cupped his fists at Huang Xiaolong and turned around to leave just like Hillier.

Subsequently, four more archbishops turned and left.

Seeing that Hillier, An Si, and four other archbishops had chosen to leave, the bishops under their command also followed them and left without a second thought.

All in all, more than sixty people in the hall left.

Huang Xiaolong looked at the remaining four hundred plus people and nodded as he said, "Very good. I have never badly treated the people who serve me."

Huang Xiaolong casually flicked his hand, and shiny pellets of divine pills and low-grade chaos spirit stones fell in front of each person in an orderly manner.

"These Brilliant Sun Divine Pills are your reward. Each bishop will receive one hundred pellets, and each archbishop will get five hundred pellets. Additionally, each person will receive one million low-grade chaos spirit stones!" Huang Xiaolong announced.

The archbishops and bishops were flabbergasted. Ecstasy rushed up to their hearts after hearing this. All of them quickly knelt in gratitude, "Many thanks for Your Majesty's rewards!"

These top-grade grandmist Brilliant Sun Divine Pills couldn't be bought with spirit stones.

At the same time, all of them were astounded as they looked at the high pile of low-grade chaos spirit stones. Even Elan was agape with surprise. Huang Xiaolong was giving one million low-grade chaos spirit stones per person. There were more than four hundred people receiving them—that was well over four hundred million chaos spirit stones in total!

Elan felt like fainting due to this ginormous amount.

Even if she were to count the low-grade chaos spirit stones inside the Radiance Knight Corp's treasury down to the last piece, she wouldn't be able to add up to four hundred million.

Huang Xiaolong turned towards Elan and said, "Recall all the archbishops and bishops stationed outside. The same rule applies—if they are unwilling to serve me, they can leave. There is no need for them to come back here."

"Yes, Your Majesty." Elan complied respectfully.

Huang Xiaolong nodded. Elan was completely trustworthy. It proved the Radiance Ancestor's trust in her when he had left the Radiance Knight Corp in her loyal and capable hands.

At this time, Archbishop Hillier, An Si, and the others packed up their things and left the Myriad Spirits City.

"Brother Hillier, what is your plan?" An Si asked.

Hillier seriously answered, "Go to the Radiance Divine City!"

"What? The Radiance Divine City!"

An Si was truly shocked, "You really plan to...?"

Hillier confirmed, "Yes, in truth, I have been in touch with the Brightness Emperor Lan Zhi for a long time now. He said that Lord Dun Ei is delighted to have me on his side." He paused for a second, then added, "Moreover, Lord Dun Ei has promised the position of Right Radiance Envoy once the Radiance Knight Corp is defeated and he has unified the Radiance World. He would put me in charge of a hundred thousand world surfaces!"

An Si and the other four archbishops and bishops exchanged a look of astonishment.

"If Brother An Si is willing to come with me, Lord Dun Ei would be delighted as well. He surely won't treat you badly!" Hillier tempted.

An Si was hesitant. "Brother Hillier, are you really certain Lord Dun Ei can unify the Radiance World?"

Hillier chuckled in response, "I will tell Brother An Si a secret. Lord Dun Ei has successfully rallied the support from several of the Reverence Moon Academy's Deputy Deans' support!"

"For real!?" An Si and the others all showed shocked expressions.

As archbishops and bishops of the Radiance Knight Corp, they naturally understood what the Reverence Moon Academy represented.

“Moreover, Lord Dun Ei has reached an agreement with the Nine Yin Giant Corpse Tribe’s Old Ancestor Shi Ming, and Patriarch Shi Wushuang. Not only that, but he also got support from the Devil World’s Chiyou Archdevil.”

Hillier chuckled smugly as he went on, “What’s a mere Huang Xiaolong? As long as Lord Dun Ei’s preparations are sufficient, he can deter the Radiance Knight Corp and unify the Radiance World with various forces’ unified support!”

An Si and the others were hit by several bouts of shock by the information Hillier revealed.

Several of the Reverence Moon Academy’s Deputy Deans!

Shi Ming and Chiyou!

This...!

“What do you think?” Hillier tempted again. “We just need to go to Lord Dun Ei’s side, and after Lord Dun Ei wrestles the power from the Radiance Knight Corp and unifies the Radiance World, all of us will become meritorious heroes! Our names will resound through future generations’ minds!”

An Si and other archbishops exchanged a glance.

“Fine, we will head to the Radiance Divine City with Brother Hillier!” An Si gritted his teeth and decided.

Hillier smiled from ear to ear at An Si’s agreement. “Good, let’s hurry to the Radiance Divine City now, brothers. You will know in the future that you made a wise decision today!”

Hillier took out a flying ship and everyone boarded it. The flying ship headed straight towards the Radiance Divine City.

The next day, Elan came and reported to Huang Xiaolong, “Your Majesty, Hillier, An Si, and the rest flew to the Radiance Divine City after leaving. It seems like they are planning to seek allegiance with Dun Ei. Should we cut them off halfway and deal with them once and for all?”

Huang Xiaolong shook his head nonchalantly. “It’s alright, let them go. It’s sufficient to leak the word that I have gotten the Radiance Ancestor’s complete inheritance. Additionally, prepare an identity for me at the Reverence Moon Academy. I will make a trip to the academy soon.”

#### Chapter 1970: Reverence Moon Old Man

Huang Xiaolong naturally had his reasons for ordering Elan to leak the news that he had obtained the Radiance Ancestor’s complete inheritance.

It was unnecessary to keep this matter under wraps now that he had obtained the complete inheritance and was already acknowledged by the Radiance World’s origin energy. He wanted to let everyone in the Radiance World, especially the church forces, know that he was now the rightful Radiance World Lord.

Huang Xiaolong anticipated that once the news spread, quite a few of those super church forces, who had been maintaining a neutral stance, would probably seek allegiance under him.

Even if most of them chose to remain neutral, those that leaned towards Dun Ei’s side would think twice.

Elan understood Huang Xiaolong’s intention for ordering her to leak the word that he had obtained the complete inheritance. But when she heard that Huang Xiaolong planned to go to the Reverence Moon Academy, she was genuinely shocked. “Your Majesty, yo-you want to go to the Reverence Moon Academy?”

Watching Elan’s expression, Huang Xiaolong smiled and said, “Don’t worry, I’m going to the Reverence Moon Academy to look for something. I will leave once I find it.”

Elan silently heaved a sigh of relief. "I thought Your Majesty is heading there because of the Son of Light's battle stage challenge."

The Reverence Moon Academy was naturally located at the Reverence Moon Divine City. The Son of Light had put up his battle stage at the Reverence Moon Divine City to challenge various forces' younger generation's geniuses, stirring up a storm through the big worlds. Elan knew this. Hence, when she heard Huang Xiaolong was planning to go to the Reverence Moon Academy, she thought his target was the Son of Light.

Recently, this was the most discussed topic in the Radiance World. People were saying that Huang Xiaolong was a coward, and he had no guts to show up in the Reverence Moon City to accept the challenge. Moreover, they also said that Huang Xiaolong wouldn't last more than five moves from the Son of Light even if he had the guts to show up.

Huang Xiaolong's lips curved into a smile as he asked, "That Son of Light is a student of the Reverence Moon Academy?"

Elan nodded, "Yes, he is a student of the Reverence Moon Academy's Imperial Courtyard. Furthermore, he is the most talented student of the academy since its founding. Thus, he is extremely valued by the several Deputy Deans of the academy. People say that even the current Reverence Moon Academy's Dean only has good things to say about him."

She was hesitant before continuing, "Therefore, Your Majesty, when you're at the Reverence Moon Academy, it's best if you don't run into a conflict with the Son of Light."

Huang Xiaolong flashed her a bright grin and said, "Don't worry! I am good-tempered."

Elan secretly rolled her eyes, hearing that. Good-tempered? That's why you slaughtered several hundred Emperor Realm experts at the Nethersea?! So good-tempered that you destroyed the entire Fiend God Emperor Palace? And in the Devil World's Famish Devil Ancient Battlefield, you even killed the Black Killer Sect's Chief Cui Huajie and several hundred experts!

"It'll be fine as long as he doesn't provoke me. I won't kill him. At the very least, I won't kill him before I attack the Radiance Divine City."

Huang Xiaolong paused for a second, then added as his gaze turned cold, "But if he takes the initiative to provoke me, you can't blame me."

A helpless wry smile rose to Elan's face, then she spoke solemnly, "The Son of Light, his talent is not lower than the last Radiance Ancestor. Some people say that he is even more talented than the Radiance Ancestor was. The Son of Light setting up this battle stage challenge is likely to be Dun Ei's idea. He wants to borrow the Son of Light's hand to lure Your Majesty out. If Your Majesty accepts the battle stage challenge, the Son of Light can openly and righteously kill you."

Huang Xiaolong responded with a soft smile, "Looks like Dun Ei has high confidence in the Son of Light. Do you also feel the same, that I am no match against the Son of Light?"

Elan did not know how to answer that. She carefully chose her words, "Although the Son of Light is a monstrous genius, he's still incomparable to Your Majesty. However, he has been cultivating for almost thirty thousand years, whereas Your Majesty hasn't even been cultivating for a thousand years."

Huang Xiaolong understood what Elan was trying to say, "So, do you think that I am not the Son of Light's opponent, currently?"

"A few years back, before the Son of Light broke through to Fourth Order Emperor Realm, he had a record of killing Fifth Order Emperor Realm radiance beasts. That was only the strength he had exposed on the surface." Elan stressed.

Seeing Elan was still doubtful, Huang Xiaolong merely smiled and did not continue with the topic any longer. He changed the subject, "I've heard it has been many years since the Reverence Moon Old Man has appeared in front of everyone."

Elan nodded, "Ever since the Radiance Ancestor went missing, Senior Reverence Moon stopped appearing in public. But, Senior Reverence Moon should still be at the Reverence Moon Academy." As Elan spoke about Senior Reverence Moon, there was reverence and awe in her eyes.

Subsequently, Huang Xiaolong learned about the Radiance Knight Corp's situation from Elan. Elan left two hours later.

Huang Xiaolong fell into contemplation as he watched Elan walk out of sight.

His purpose for going to the Reverence Moon Academy was indeed to take something. After he had obtained the Radiance Ancestor's full inheritance, he had also gotten some of the Radiance Ancestor's broken memories. In the past, the Radiance Ancestor had left something at the Reverence Moon Academy.

The thing the Radiance Ancestor had left behind was an amazing treasure. Otherwise, Huang Xiaolong wouldn't have bothered to make the trip personally.

With the item the Radiance Ancestor left behind, the Radiance Knight Corp's overall battle power would double!

This was the main reason why he had decided to collect the item the Radiance Ancestor had left at the Reverence Moon Academy before proceeding to attack the Radiance Divine City.

In fact, before coming to the Radiance World, Huang Xiaolong had learned some things about the Radiance World from his Master, the King of Grandmist.

On the surface, the Radiance World was governed together by Elan of the Radiance Knight Corp and the Radiance Divine City's Dun Ei. However, this was not the truth. Other than the Radiance Knight Corp and Radiance Divine City, there were several tens of super church forces that did not fall under these two parties' governance.

Several tens of super church forces formed a powerful force that could fight against the Radiance Knight Corp and Radiance Divine City at the same time.

However, other than the Radiance Knight Corp, Radiance Divine City, and the several tens of super church forces, there was another super special existence—the Reverence Moon Academy!

Before coming to the Radiance World, his Master King of Grandmist had cautioned him many times to be careful of the Reverence Moon Academy!

More precisely, he had cautioned him to be careful of the Reverence Moon Old Man!

There was a myth that the Radiance Knight Corp was created by the Radiance Ancestor and Reverence Moon Old Man.

After the Ancient Heavenly Emperor had joined hands with the Buddha World to wage war against the Radiance World, the Radiance Ancestor had disappeared. Subsequent suppression from the Divine World and Buddha World on the Radiance World had forced the Radiance World out of six great worlds' ranks. Then again, despite the Divine World and Buddha World's latter suppression, they had failed to destroy or conquer the Radiance World.

This was made possible by one person! And this person was none other than the Reverence Moon Old Man!

At the mention of Reverence Moon Old Man, his Master King of Grandmist's expression was solemn like Huang Xiaolong had never seen before. His Master had only one comment, unfathomable!

As far as everyone knew, the Reverence Moon Old Man's strength was no weaker compared to the Radiance Ancestor.

Because of the Reverence Moon Old Man and the Reverence Moon Academy's existence, the Radiance World had continued to exist until today. In the past, when the Nine Yin Giant Corpse Tribe had attacked the Divine World, he had kept away from the Radiance World. The reason for this was the Reverence Moon Old Man.

Thus, when speaking of the Reverence Moon Old Man, even the Radiance Knight Corp's Commander Elan, who had broken through to the Sovereign Realm, was apprehensive and respectful.

"Reverence Moon Old Man..." Huang Xiaolong spoke the name, his fingers lightly tapped on the arm of his seat.

.....

One month went by quickly.

During this month, other than consuming Brilliant Sun Divine Pills as he cultivated inside the Myriad Spirits Divine Manor, Huang Xiaolong researched array formations and alchemy.

In recent years, Huang Xiaolong researched array formations and alchemy whenever he had free time.

Some of the archbishops and bishops stationed in other world surfaces returned to the Myriad Spirits Divine Manor to pay their respects to Huang Xiaolong. However, some people like Hillier, An Si, and the others opted to leave the Radiance Knight Corp and sought allegiance with Dun Ei at the Radiance Divine City.
