Chapter 3221: World of Departed Souls

After they were beaten out of hiding by the old dragon, the two of them were terrified.

“Your Majesty, please save us!” The two of them rushed over to the True Dragon Celestial Empire’s side, and from what they thought, only Huang Dinghai would be able to save their lives after they angered the old dragon.

Staring uneasily in the direction of the members of the Blazing Dragon Celestial Empire, Huang Dinghai stuttered, “Senior Blazing Dragon, they...” Before he could finish, a terrifying pressure descended from the heavens and smashed the two of them into meat paste!

The Yin Yang Buddha and the Silver Headed Ghost didn’t even have time to scream before their bodies were destroyed.

Huang Dinghai’s eyebrows twitched in shock as he gulped in fear.

“Little Dinghai, what were you saying?” The old dragon’s voice emerged from somewhere in the Blazing Dragon Celestial Empire.

Huang Dinghai’s expression sank.

The old dragon definitely did it on purpose!

He clearly knew that the two of them were experts of the True Dragon Celestial Empire, and he exterminated their souls before Huang Dinghai could plead for mercy!

It was clear the old dragon was slapping them across the face!

“Little Dinghai, I heard everything you said just now. Are you implying that I have to obtain your permission before I can appoint the Son of Creation of my world?”

Everyone turned to look at Huang Dinghai.

A smile crept up the faces of Di Cangtian and the other experts of the Blazing Dragon Celestial Empire.

Stuttering in fear, Huang Dinghai explained, "Junior... Junior didn't mean that! I only mentioned that all three celestial empires should come to an agreement. After all, this concerns our world!"

"Do you think I'm old and senile?"

Huang Shengdao was about to speak, but Huang Dinghai stopped him in time. If they angered the old dragon, there was no way of knowing if he would exterminate them all with a single swipe.

Huang Shengdao was strong, but he wasn't even as strong as Huang Dinghai! None of them there could stand up to the old dragon!

"Take better care of your members during my appointment ceremony tomorrow. Otherwise, you can't blame me for taking drastic action against your men!" Killing intent overflowed when the old dragon gave his final warning.

There was no mistaking it. If the members of the True Dragon Celestial Empire, or anyone for that matter, dared to cause trouble, the old dragon would kill them without a second thought!

Silence fell on the lands and Huang Dinghai's expression was as bad as it could be.

No one would think that the old dragon would threaten him in front of so many people. No matter what, he was the Celestial Emperor of the True Dragon Celestial Empire!

Eventually, the dust settled and Di Cangtian brought Huang Xiaolong back into the Purple Lightning Manor. After strolling about for quite some time, Huang Xiaolong and Yuan Tianyi returned to the celestial palace.

Seeing as Huang Xiaolong had returned, everyone left.

Huang Dinghai found no reason to remain as he left the area with the members of the True Dragon Celestial Empire.

When Huang Shengdao left, he invited Fu Luosen to his palace for a quick chat. After a short moment of hesitation, Fu Luosen agreed.

Zeng Ying forced herself to look away, and a strange feeling welled up in her heart.

“Princess, who would have thought that the Purple Lightning Young Master is the Son of Creation of our Blazing Dragon World?!” One of the female attendants behind Zeng Ying sighed.

She realized a pretty serious problem. If Huang Xiaolong was the Son of Creation of the Blazing Dragon World, wouldn’t Zeng Ying be required to bow in his presence?

Clearly, Zeng Ying thought of the same problem. Complicated lights flashed in her eyes.

...

Huang Shengdao and Fu Luosen returned to Huang Shengdao’s temporary manor, and Fu Luosen didn’t plan on beating about the bush. “Brother Shengdao, since Huang Xiaolong is now the Son of Creation of the Blazing Dragon World, he should be able to control the world origin. His cultivation speed would soar once again, and it will be too difficult for us if we wish to kill him!”

Huang Shengdao frowned. That was exactly what he was afraid of.

However, everything was set in stone, and even with his strength, he wouldn’t be able to do a thing about it!

“Seems like that old b*stard was the one who saved Huang Xiaolong that year...” Huang Shengdao growled. “He’s definitely behind Huang Xiaolong’s sudden growth in the past three thousand years!”

Fu Luosen snarled in jealousy, “The little brat is too f*cking lucky! If we fail to get rid of him, he’s going to be a hidden threat to your True Dragon Celestial Empire! If he enters the God of Creation Realm...”

His meaning couldn’t be more clear.

Huang Shengdao glanced at Fu Luosen from the corner of his eye. “Even if he enters the God of Creation Realm, he won’t be able to raise any waves.”

“In fact, it would be great if he could enter the God of Creation Realm!” Huang Shengdao sneered.

?! Fu Luosen stared at Huang Shengdao curiously as he couldn’t understand the meaning behind his words.

The night passed quickly, and the appointment ceremony started at the break of dawn.

The Blazing Dragon Sacred Land was filled with people, and it was a rare sight to see so many people present.

As the world leaders of the various holy worlds came up to congratulate Huang Xiaolong, the ceremony officially kicked off to an amazing start. The princes and princesses of the various celestial empires, along with the patriarchs of the ancient races gathered in the main hall of the celestial palace.

According to the customs of the Blazing Dragon Celestial Empire, Huang Xiaolong bowed and officially took the God of Creation as his master. In front of everyone present, the old dragon announced Huang Xiaolong’s position as the Son of Creation of the Blazing Dragon World.

After that was done, Di Cangtian and the other officials of the Blazing Dragon Celestial Empire paid their respects to Huang Xiaolong.

...

A month passed in festivities, and the appointment ceremony came to an end.

The experts started to take their leave, and the old dragon brought Huang Xiaolong back to his cultivation space. Pointing at the giant mountain of precious herbs and spiritual veins before him, he chuckled happily, "These are the presents given by the experts during your appointment ceremony. I took it upon myself to give half of it to the celestial empire, and you can have the other half. You won't blame me for giving away your items, right?"

Huang Xiaolong shook his head and chuckled in amusement, "These are useless to me. You can do whatever you want with them."

"Well, not all of them are useless. The Flower of Time can be said to be exceptionally useful for you right now. That's why I kept all of them for you." The old dragon nodded seriously.

Among the gifts presented by the various powers, there were quite a number of them. Even though a single faction might not be in possession of a lot of them, the accumulated number across all the factions could be said to be a shocking number!

There were over two hundred and eighty of them!

One had to know that the most Huang Xiaolong managed to obtain was sixty eight of them!

"Now, I'll teach you my Blazing Dragon Grand Art. When you learn how to control the world origin, you can enter seclusion to refine the Flowers of Time."

Huang Xiaolong bowed in acknowledgement.

"In a million years, the World of Departed Souls and the Soul Burying Silver River will open. I hope that you will be able to reach the grand perfection level within these million years!" The old dragon muttered.

"World of Departed Souls and the Soul Burying Silver River?" Huang Xiaolong was stunned.

“That’s right. The World of Departed Souls is created during the formation of the universe. Like the Blazing Dragon World, Excessive Darkness World, and Pangu World, it’s one of the great worlds. There are countless treasures located within, but there’s a natural restriction that prevents anyone from entering the World of Departed Souls. It will only open every one hundred million years, and it will remain open for several dozen years. The time it will remain open can be said to be a heaven-sent opportunity!”

“Only experts under the God of Creation Realm would be able to enter, and I hope you can treasure your chance to enter.”

Huang Xiaolong asked all of a sudden, “Master, is the World of Departed Souls ownerless?”

The old dragon stared at Huang Xiaolong and his jaws dropped in fright. Who would have thought that his disciple would think of something so terrifying the moment he heard of the World of Departed Souls?! Roaring with laughter, the old dragon mocked, “Yes it is! However, don’t bother setting your sights on the World of Departed Souls. No one has been able to control it in the past, and no one will ever be able to obtain the origin of the world!”

Chapter 3222: Four Origin Divine Fires

“Master, do you know the reason why no one will ever be able to?”

“That’s because no one has the ability to refine the origin of the World of Departed Souls. Even someone who reached the peak of grand perfection level and has one foot in the God of Creation Realm will fail to do so! Even if they had several hundreds of millions of years, they would be unable to refine the world origin!”

“Did you forget that the restrictions will only remain open for several dozen years?!”

However, the old dragon seemed to have thought of something. “Unless...” He trailed off and he shook his head silently.

“Unless what?!” Huang Xiaolong asked eagerly.

“Unless one manages to obtain the four Origin Divine Fires in the universe.” The old dragon continued, “The divine fires went missing a long time ago, and it won’t be easy if anyone wishes to obtain them.”

“Four Origin Divine Fires?” Huang Xiaolong frowned.

“That’s right! The four Origin Divine Fires are born during the creation of the universe, and they seem to contain extraordinary power. With them, you will be able to refine anything in the universe! With the assistance of all four Origin Divine Fires, refining the world origin would be a lot easier!”

Huang Xiaolong gasped in shock, “The four Origin Divine Fires contain extraordinary power?” Could the fires in his body be the ones his master was talking about? If that was the case, why didn’t he notice their splendor in the past?

“That’s right! The four Origin Divine Fires are the strongest fire produced by the universe!”

“Master, have you seen them before in your life?” Huang Xiaolong asked.

Shaking his head, the old dragon laughed, “How is that even possible? However, I know about them even without seeing it. The four Origin Divine Fires are called the White Tiger Divine Fire, Vermillion Bird Divine Fire, Black Tortoise Divine Fire, and the Azure Dragon Divine Fire.”

Huang Xiaolong nearly jumped in joy when he heard what the old man said.

That would mean that the four fires burning in his body right now were most likely the four Origin Divine Fires!

However, why did they seem so damn weak?

Moreover, the four of them didn’t seem controllable. How would he be able to refine the world origin if he couldn’t even use them?

Huang Xiaolong continued to ask about the four Origin Divine Flame, and the old dragon told him everything he knew. Even though the old dragon found it funny that Huang Xiaolong was so concerned about the four Origin Divine Flame, he didn't think too much about it. After all, he was the same when he first heard about them.

"Whatever the case, I hope that you will be able to locate Pangu's axe in the future." The old dragon turned serious all of a sudden.

"Pangu's Axe?!" Huang Xiaolong frowned.

"That's right. Even though you have the Huang Long Armor Set left behind by your father, their strength can only be considered mid-tier at best among all the creation artifacts. It's far too lacking when compared to Huang Sheng's Dragon Blade. However, the Pangu Axe is different. It's crafted using a piece of origin metal from the birth of the world. In terms of attacking prowess, it's ranked at the top of the creation artifacts in the universe!"

Rank number one!

Huang Xiaolong was shocked.

He didn't realize that the Pangu Axe in the legends he heard of on Earth to be the number one creation artifact in the entire universe!

The old dragon continued, "Right now, you're not even close to the God of Creation Realm. Huang Sheng wouldn't dirty his hands by coming for you. However, things will definitely get messy when you enter the God of Creation Realm. Like your father, he will definitely want to devour you and your bloodline. Even with three different types of cosmos energy, you won't be Huang Sheng's opponent when you just enter the God of Creation Realm."

"Of course, everything will change if you obtain the Pangu Axe. When you enter the God of Creation Realm in the future, you will possess three different types of grand cosmos energy. With the assistance of the Pangu Axe, you might be able to survive getting hunted down by Huang Sheng."

Huang Xiaolong growled, "Master, do you mean that the Pangu Axe is no longer with Pangu himself?"

“That’s right. When Pangu headed for the edge of the universe in the past, he left behind his axe. He inscribed his Pangu World Creation Art on it. Whoever obtains the axe will be able to inherit his mantle and control the Pangu World!”

“That’s also why I hope you can obtain the axe.”

Huang Xiaolong felt a storm raging in his heart.

He didn’t expect for there to be such a huge secret contained in the Pangu Axe.

Huang Xiaolong would be lying to himself if he said that he wasn’t tempted by the strongest creation artifact in the universe.

“However, the universe is large and no one knows the location of the Pangu Axe.” Huang Xiaolong sighed.

“No sh*t! However, I, your master, knows where the Pangu Axe might be located.” the old dragon snickered happily.

“What?!” A trace of excitement flashed in Huang Xiaolong’s eyes.

“When he left for the edge of the universe, he left it back in the Pangu World!”

No matter how excited Huang Xiaolong was, he could only shake his head helplessly. “Even if I know it’s in the Pangu World, it would be extremely hard to find!”

Like the Blazing Dragon World, the Pangu World was extremely vast. Locating the Pangu Axe in the Pangu World would be like looking for a grain of sand in the ocean. However, the ocean was probably a quadrillion times bigger than any ocean he had stepped foot in before.

A smile formed on the old dragon's face when he realized what Huang Xiaolong was thinking of. "In the past, your father was born in the Pangu World. He had been looking for it since a very long time ago, and he probably has some idea on where it could be."

Huang Xiaolong felt his heart leaping in his chest.

However, his father was currently in Huang Sheng's hand, and he wouldn't be able to meet the man anyway! How was he supposed to learn of the location of the Pangu Axe?

"Your father is trapped in a mysterious space. The old dragon spoke up all of a sudden. "I am able to use some sort of secret art for you to speak to your father once. However, now is not the time. You are still too weak, and if you enter the space with your current strength, Huang Sheng will definitely find out!"

"Master, what are you suggesting?"

"When you reach the grand perfection level, we'll talk." The old dragon sighed. "There's a universe treasure in the World of Departed Souls, and it's called the Soul Burying Orb. It is able to hide the presence of anyone, and with it, you will be able to hide from Huang Sheng for a few minutes when you reach the grand perfection level."

Soul Burying Orb!

Nodding solemnly, Huang Xiaolong made up his mind to look for the orb.

With the four Origin Divine Fires burning bright in him, Huang Xiaolong knew that looking for the orb would be a cakewalk if he managed to refine the world origin.

Several days later, the old dragon started to formally teach Huang Xiaolong the Blazing Dragon Grand Art.

As a grand art created by a God of Creation, it contained profound mysteries of the world. Even with Huang Xiaolong's talent, he would need several hundred years to understand the basics! Only then would he be able to connect with the world origin of the Blazing Dragon World.

Seeing as Huang Xiaolong was starting to comprehend the grand art, the old dragon left him to his own devices. He sent Huang Xiaolong into secluded cultivation after reminding him to refine all the Flowers of Time he obtained.

Chapter 3223: Thirteen Elements at Perfection Level

After the old dragon left, Huang Xiaolong started to cultivate diligently. The first thing he did was to refine all the Flowers of Time.

Since he received the assistance of the old dragon's grand cosmos energy, his comprehension ability grew by leaps and bounds. He could refine the herbs at a much faster rate, and it didn't take long for him to reach the major completion stage in the power of time.

That was also where he got stuck. After entering the major completion stage, Huang Xiaolong realized that there was an invisible barrier stopping him from entering perfection level.

Knowing that there was nothing he could do but to slowly comprehend the power of time, Huang Xiaolong decided to play with the four Origin Divine Fires in his body.

No matter how hard he tried, the four fires refused to obey his every command. He couldn't use their power no matter how hard he tried, and he gnashed his teeth in anger.

A hundred thousand years passed in the blink of an eye, and Huang Xiaolong failed to reach perfection level in the power of time. However, the barrier that was stopping him was no longer as strong as it once was!

If Huang Xiaolong were to compare the barrier he felt a hundred thousand years ago, it would be a ten meter thick wall. Now, the thickness was reduced to a mere two meters! He could feel the power of time slowly approaching the perfection level.

The old dragon visited Huang Xiaolong on the one hundred thousand year mark.

When he noticed Huang Xiaolong's speed of cultivation, he couldn't help but gasp in shock.

"With your current speed, you will definitely take less than two hundred thousand years to reach the perfection level in the power of time. From there, reaching the grand perfection level is a matter of time."

"Two hundred thousand years?!" Huang Xiaolong frowned.

The old dragon couldn't help but smack Huang Xiaolong on the head when he heard the dissatisfaction, "Are you trying to be annoying? Even Huang Sheng took several tens of millions of years to reach perfection level in all thirteen elements! Even if two hundred thousand years pass, you probably wouldn't have cultivated for a million years!"

Huang Xiaolong couldn't help but reveal a sheepish smile.

"The difficulty of comprehending the last element is astounding. When you break through the barrier, there will no longer be anything stopping you from growing stronger. Do you know how many people in the universe are stuck at the barrier between the twelfth and the thirteenth element?!"

"Think about that little lass Zeng Ying! There's Huang Ji and the Evil Wind Patriarch who are currently still stuck with twelve elements at the perfection level!"

Everyone the old dragon talked about were experts whose fame could shake the universe.

"Master, has Zeng Ying already comprehended her twelfth element to the perfection level?" Huang Xiaolong asked.

With a deep gaze, the old dragon looked at Huang Xiaolong before chuckling slightly, "That's right. The little lass only managed to comprehend the power of time to the major completion stage. She might be talented, but it won't be easy for her to reach the perfection level. Everything will depend on her fate."

"What? Are you interested in the little lass?" The old dragon continued, "Do you want me to help you ask for her hand in marriage? I can go talk to Zeng Ling right now. With your talent and my status, Zeng

Ling will definitely agree! Moreover, you interacted with the little lass for quite a period of time. Weren't there some rumors going about where she protected you from You Ming? She said you're her friend, right? Hehehe, her impression of you isn't too bad..."

Huang Xiaolong quickly shook his head in denial when he realized how far off topic the old dragon was getting. "No no no! We're just ordinary friends! Also, I already have several wives!"

Huang Xiaolong couldn't help but think of Shi Xiaofei, Li Lu, Yao Chi, and the others.

Since the World of Departed Souls would open nine hundred thousand years later, Huang Xiaolong planned to visit them before heading over.

The old dragon was stunned for a second, but he eventually left.

Returning to his cultivation, another hundred thousand years passed.

One fine day...

Thirteen rays of light emerged from Huang Xiaolong's body as it enveloped the space around him.

As the rays of light fused with each other, a beautiful scene was painted.

Huang Xiaolong's power of time had finally reached perfection level!

When he broke through the final barrier, a figure appeared in the space above him. The old dragon stared at the energy surging through Huang Xiaolong's body and he gasped in shock. He thought that Huang Xiaolong would be able to enter the final level after two hundred thousand years, but the brat proved him wrong!

He only took half the time to complete the power of time!

“Too talented... This little guy is too damn talented.” The old dragon sighed to himself.

As the oldest existence in the universe, the Blazing Dragon had seen the rise of countless geniuses in his mind. Almost everyone he noticed had amazing talent, but if he were to compare them to Huang Xiaolong, he would be comparing a firefly to a moon.

Of course, there was one part that confused the old dragon. Huang Xiaolong was Huang Long’s son, but it seemed as though his talent was even better than his father’s!

Could it be some sort of variation bloodline?

Otherwise, how could he be more talented than Huang Long?!

After speaking to Huang Xiaolong about the grand dao, the old dragon told him some points to take note of before leaving.

According to the old dragon’s plan. Huang Xiaolong should cultivate both the Soaring Dragon Art and the Blazing Dragon Grand Art at the same time.

Other people might be unable to cultivate two secret arts at the same time, but Huang Xiaolong was different. He had three small worlds, and it was possible for him to do so.

After some experimentation, the old dragon made Huang Xiaolong circulate the Soaring Dragon Art with one of the small worlds in his body. He would use the Blazing Dragon Grand Art with the second small world, and the last world was saved for the Pangu World Creation Art!”

With the power of three great arts, he would definitely be able to enter the God of Creation Realm in a hundred million years!

That was also the reason why the old dragon was so confident when he took Huang Xiaolong in as his disciple.

With the three small worlds in his body, Huang Xiaolong possessed a talent that neither him, nor Huang Long, or even Pangu had!

According to the old dragon's teaching, Huang Xiaolong would use the two grand arts at the same time.

Even though he was talented, using the two of them at the same time posed a little challenge. After several years of trying, Huang Xiaolong finally began to get the hang of it. After several dozen years, Huang Xiaolong could use the two secret arts easily.

Huang Xiaolong discovered that when he used both secret arts at the same time, the speed at which he could devour universe origin energy increased by more than two times!

When an expert achieve perfection level in thirteen elements, they would be able to devour the universe origin energy in order to push themselves to the grand perfection level.

When they finally reached the grand perfection level, the small worlds they created would absorb universe origin energy to produce grand cosmos energy!

That was also the source of Fu Luosen and Huang Shengdao's strength!

However, the two of them were unable to fully wield the power of grand cosmos energy. Otherwise, Huang Xiaolong wouldn't be able to fight against the two of them even after his body was refined with the old dragon's grand cosmos energy.

Chapter 3224: Grand Perfection Level

Every single small world had its limits. It couldn't produce grand cosmos energy infinitely, and if they were to measure it in terms of numbers, an expert who hadn't reached the God of Creation Realm would be able to use 1.2999999 billion units of grand cosmos energy.

A single unit was all it took to bring them to the God of Creation Realm.

As long as they reached 1.3 billion units of energy, they would undergo a complete transformation to become a true God of Creation!

For cultivators at the level of Fu Luosen and Huang Shengdao, they would probably possess several million units of grand cosmos energy.

In the following days, Huang Xiaolong started to use both secret arts at the same time as he continued to cultivate.

He didn't forget to look into the four Origin Divine Fires in his body and year after year passed.

The power of the thirteen elements he comprehended became stronger and stronger, but a piece of news rocked the Blazing Dragon World when he was stuck in seclusion.

"Huang Shengdao, the Son of Creation of the True Dragon Celestial Empire, obtained the Dao Emperor's Sword! He managed to obtain the Dao Emperor's Treasury and inheritance!"

The news caused the entire universe to shake.

The Dao Emperor might not rank among the ten strongest Gods of Creation, but he was nevertheless one of them. The Dao Emperor's Sword was ranked firmly in the mid tier of the creation artifacts in the universe.

As the old dragon was afraid the news would affect Huang Xiaolong's cultivation, he didn't bring the matter up.

Year after year, Huang Xiaolong strengthened himself by devouring the universe origin energy around him.

As the universe origin energy poured into the space and into Huang Xiaolong's body, the world origin of the Blazing Dragon World didn't do a thing to stop it! Every single bit of the universe origin energy was devoured by Huang Xiaolong!

If Fu Luosen or Huang Shengdao was trying to do the same, the Blazing Dragon World Origin would definitely absorb the universe origin energy while it tried to enter. By the time it entered their bodies, only a tenth of it left would remain.

As for anyone else with bloodlines a little lacking compared to the two of them, they would be lucky if they could absorb a tenth of the universe origin energy left in the space around them.

Due to the Blazing Dragon World being the oldest world in the universe, the effects of devouring universe origin energy was much better than the other worlds.

For example, even if Huang Shengdao received the inheritance of the Dao Emperor, his benefits of cultivating in the Dao Emperor World wouldn't even come close to Huang Xiaolong's gains. At the very best, he would cultivate half as quickly.

There was also a need to mention the fact that Huang Xiaolong's bloodline was much better than Huang Shengdao. With two small worlds spinning inside him to utilize two secret arts at once, Huang Xiaolong's speed of cultivation was unmatched!

In the blink of an eye, eight hundred thousand years passed.

There was only a thousand years left till the opening of the World of Departed Souls, and Huang Xiaolong eventually emerged from his cultivation.

When the old dragon visited Huang Xiaolong, his eyes widened in shock as his jaws nearly dropped to the ground. "You... You... You reached the grand perfection level!"

Even though reaching the grand perfection level was a matter of time, Huang Xiaolong's speed refreshed the old dragon's world view.

In the past, the old dragon took more than thirty million years in order to reach the grand perfection level when he comprehended all thirteen elements to the perfection level!

Huang Xiaolong couldn't help but laugh happily when he saw the old dragon's reaction. "It was a little quicker than expected because of the two creation level secret arts."

In fact, Huang Xiaolong reached the grand perfection level three hundred thousand years ago!

When the old dragon heard what Huang Xiaolong said, an inexplicable urge to beat him up emerged in his heart.

"Brat, do you hear what you're saying?! I took over thirty million years to do what you just did! Are you implying that I'm stupid fool?!"

As the oldest God of Creation in the universe, the Blazing Dragon had exceptional talent. As such, his speed of cultivation couldn't be considered too slow. Even geniuses like Fu Luosen and Huang Shengdao took more than forty million years to achieve the same feat.

"How many units of grand cosmos energy do you have right now?" The old dragon finally calmed himself down and he asked. "Have you broken through the million unit mark?"

In the past, he took nearly ten million years to gain a million units of grand cosmos energy. He refused to believe that Huang Xiaolong could achieve so much in such a short amount of time.

Hesitating for a moment, Huang Xiaolong looked at the old dragon with a weird gaze. "Do you want me to be honest?"

"No sh*t!"

Could it be?!

"Several days ago, I reached more than thirty million units of grand cosmos energy." Huang Xiaolong realized that there was no point in lying to his master.

"WHAT?!"

“Thirty million?!” The old dragon nearly face-planted into the ground.

“You...”

He stared at Huang Xiaolong like he was looking at a monster.

“How the f*ck did you reach thirty million units of grand cosmos energy?!” The old dragon yelled in disbelief.

“Both the first and second worlds in my body accumulated around sixteen million units.” If he were to add them up, there would be more than thirty million units of grand cosmos energy!

What the f....

The old dragon stared at him quietly.

“It’s a shame. If I had the Pangu World Creation Art, I would have reached over forty eight million units.” Huang Xiaolong sighed.

The urge to beat Huang Xiaolong’s face in grew ever so strong in the old dragon’s heart.

Of course, Huang Xiaolong didn’t mean it any other way. If he had the Pangu World Creation Art, he would definitely be much stronger than he was!

As such, the desire to obtain the Pangu Axe solidified in his heart.

Soon after, the old dragon personally checked out the grand cosmos energy Huang Xiaolong had. He was shocked once again when he realized that the kid was speaking the truth.

At the same time, he thought of a terrifying possibility. Any cultivator at the perfection stage would only be able to wield 1.2999999 billion units of grand cosmos energy. With Huang Xiaolong's three small worlds, he would be able to use more than 3.9 billion units!

Wouldn't that make him stronger than an ordinary God of Creation?!

Holy sh*t!

What the f...

Soon after, Huang Xiaolong asked about Huang Shengdao and he obtained the bad news. "Huang Shengdao obtained the Dao Emperor's Sword. In the past million years, he also improved by quite a lot."

Huang Xiaolong was stunned.

"I was afraid that his abrupt rise would affect you when the World of Departed Souls opened. Seems like I have nothing else to worry about now." The old dragon chuckled.

Chapter 3225: Opening of the World of Departed Souls

Even if Huang Shengdao had a ton of Dao Emperor Pill to supplement his cultivation, he wouldn't be able to surpass Huang Xiaolong's strength!

A million years ago, both Huang Shengdao and Fu Luosen only had several hundred thousand to a million units of grand cosmos energy. According to the speed of his progression, he would probably possess two to three million at best!

Compared to Huang Xiaolong's thirty million, the gap between the two wasn't merely large!

A strange feeling formed in the old dragon's heart. In fact, he started to pity the two of them. He wondered what would happen if they ran into Huang Xiaolong during their trip to the World of Departed Souls.

Shaking his head, he couldn't bear to think about what would happen.

Finally, Huang Xiaolong cleared up some questions about cultivation with the old dragon before telling him about his intentions to visit the members of the Huang Family.

Nodding slightly, the old dragon chuckled, "Do you need me to go with you?"

With his eyes widening in shock, Huang Xiaolong laughed, "If you have nothing else to do, sure."

"Alright! In a few days, we shall set off!"

Setting the date of departure to be four days later, the old dragon left Huang Xiaolong to his own devices.

When he was sure the old dragon was gone, Huang Xiaolong started to observe the four Origin Divine Fires in his body.

The divine fires resided in his heart, lung, liver, and kidney, and they seemed to form a system of their own.

The Vermillion Bird Divine Fire was located in his heart, the White Tiger Divine Fire was located in his lungs. The Azure Dragon Divine Fire was burning brightly in his liver while the Black Tortoise Divine Fire glimmered in his kidneys.

The four Origin Divine Fires were terrifying as they continued to devour universe origin energy regardless of what Huang Xiaolong was doing.

Every time they flickered, universe origin energy would pour into Huang Xiaolong's body.

Ever since Huang Xiaolong reached perfection level in all thirteen elements, the four Origin Divine Fires seemed to have awakened in him.

They were also the reason he managed to reach the grand perfection level and form so many units of grand cosmos energy!

Now, he could control the four Origin Divine Fires however he liked!

With the assistance of the four Origin Divine Fires, Huang Xiaolong was confident of taking anything on!

In the past, the old dragon was confident that he could reach the grand perfection level in the God of Creation Realm in the next billion years. Now, Huang Xiaolong was sure he wouldn't even take a hundred million years to do so.

He could tell that his cultivation speed was terrifying beyond belief. If he managed to obtain the Pangu Axe and receive the Pangu World Creation Art, his strength would take another leap forward!

Four days later...

Huang Xiaolong met up with the old dragon as they returned to the Heavenly Sword Holy World.

When Huang Xiaolong left for the Blazing Dragon World from the Heavenly Sword Holy World, he took over four years of time! Now, it would take him less than ten days to get back!

Moreover, the ten days included the time they took to stroll about everywhere they pleased.

By the time they returned to the Star Gathering City, there was visible joy on Huang Xiaolong's face.

"Big Brother!" When he appeared in the Huang Family Manor, the first person who discovered him was his younger brother, Huang Xiaohai!

Huang Xiaohai was shocked as he leaped at Huang Xiaolong.

Snickering slightly, Huang Xiaolong clapped his shoulders.

When the others heard Huang Xiaohai's yell. They swarmed over in an instant. Huang Peng, Su Yan, Huang Min, Shi Xiaofei, Li Lu, Yao Chi, Bei Xiaomei, Fang Xuanxuan, Peng Xiao, Lin Xiaoying, Fei Yanzi, Feng Yue, Yin Yue, the little cow, the Grandmist Old Man, and the others charged out from the manor.

"Xiaolong!"

"Big Brother!"

They yelled in joy.

When the old dragon saw the number of ladies that poured out of the manor, he shook his head and chuckled under his breath. It seemed as though his disciple was someone who got pretty lucky in terms of his love life...

After chatting a little with the members of the Huang Family, Huang Xiaolong introduced the old dragon to them. "This is my master, and he's the Blazing Dragon."

Initially, none of them cared much. However, Cang Xun, the leader of the ten overlords, yelled in shock. "Blazing Dragon?! The God of Creation, Lord Blazing Dragon?!"

God of Creation!

The hearts of everyone present skipped a beat as they turned to look at Huang Xiaolong for confirmation.

Nodding slightly, Huang Xiaolong chuckled, "That's right. My master is the God of Creation of the Blazing Dragon World."

Falling to their knees instantly, everyone greeted the old dragon. Huang Xiaolong knew that the image of the Blazing Dragon in their hearts was too great. After all, he was the oldest existence in the universe!

Seeing how they were kneeling before him, the old dragon helped all of them up. "Xiaolong is my dear disciple. There is no need for formalities between us."

"This..." Huang Peng countered in haste.

The old dragon shot a glare at Huang Xiaolong and Huang Xiaolong instantly understood the old dragon's meaning. He said in response, "Father, all of you can just listen to what he says."

Eventually, they decided to listen to Huang Xiaolong.

Naturally, the return of Huang Xiaolong along with his master, the God of Creation, was something worthy of celebration!

That very night, the Huang Family held a banquet to welcome the two of them.

During the banquet, Huang Peng gave up his seat to the old dragon. Realizing that there was no stopping them, the old dragon accepted and he enjoyed the festivities with the entire Huang Family.

He hadn't been able to enjoy himself in a long time, and his hearty laughter filled the hall.

In the days that followed, the old dragon taught Huang Xiaolong while giving several pointers to the members of the Huang Family.

In the million years that Huang Xiaolong was gone, all the members of the Huang Family managed to enter the Primal Ancestor Realm. Even the little cow, the Grandmist Old Man, and the others.

Naturally, all of them were able to break through with the help of Huang Xiaolong's Huang Long Bloodline. He assisted all of them in the past, and their path to the Primal Ancestor Realm was smooth sailing.

Seeing as everyone had already entered the Primal Ancestor Realm, Huang Xiaolong felt a sense of assurance in his heart. Even though a Primal Ancestor was nothing in the grand scheme of things, the Huang Family would possess a fighting chance when matched up against weaker enemies. Of course, the stronger they were, the better.

The reason behind Huang Xiaolong's return was exactly that. He planned to train them a little more, and he wanted to use his grand cosmos energy to temper their bodies like what the old dragon had done for him.

Realizing what his disciple planned to do, the old dragon cautioned, "Xiaolong, I know that you have their interests at heart. However, this will severely affect your cultivation level."

It was the truth.

If Huang Xiaolong used a million units of grand cosmos energy to refine their bodies, it would take him a lot of time to return to his peak.

"Master, I know what I'm doing." Huang Xiaolong muttered.

To Huang Xiaolong, a million units was nothing special. He would definitely be able to recover before the opening of the World of Departed Souls.

Nodding slightly, the old dragon decided to trust that his disciple knew what he was doing.

As time flowed on, over nine hundred years passed in the blink of an eye.

Bidding farewell to the members of the Huang Family, he left for the World of Departed Souls with the old dragon.

As the Soul Burying Silver River was pretty close to the Blazing Dragon World, the two of them weren't in a rush. They took their time to head over, and when there were only several days left until the opening of the World of Departed Souls, they arrived.

Chapter 3226: Looking For The Land of Origin

By the time the two of them arrived, countless experts lined the space outside the Soul Burying Silver River.

As the opening of the river was something that affected the entire universe, the experts and old monsters of the various celestial empires had been waiting the whole time!

It might be dangerous to venture into the World of Departed Souls, but no one wanted to miss the chance!

The arrival of the old dragon shocked everyone present. They quickly formed a path for Huang Xiaolong as they got to their knees to greet the old dragon.

Among those present was Huang Shengdao and Fu Luosen who hesitated for a second before bringing their subordinates over to greet the old dragon.

When everyone was on their knees, Huang Xiaolong quickly noticed the two of them and a sneer formed on his lips. Sweeping his gaze around, he also noticed Zeng Ying, You Ming, the Extreme East Old Man, and several other people.

“Dispense with the formalities.” The old dragon spoke, and everyone eventually got to their feet.

When they all left, the old dragon remained beside Huang Xiaolong as they waited for the opening of the World of Departed Souls.

The Soul Burying Silver River stood in the vast space of the universe, and one wouldn’t be able to see its source or its end. No one knew how wide it was, and a silver colored liquid rolled about on the surface of the river. The riverbed contained a precious spiritual object called the Silver Sand and one could use it to refine creation artifacts, or they could be used to refine creation level pills. One could even use it to construct their immortal mansion!

It was precisely because of the silver sand that experts would swarm over to the Soul Burying Silver River to dig out handfuls of the item even when the World of Departed Souls wasn't open!

Other than the Silver Sand, there were countless precious treasures contained in the river.

However, the difficulty of entering the Soul Burying Silver River to dig for sand was astounding.

In order to dig out some sand, one has to reach the bottom of the river. However, the river itself was filled with countless Silver River Beasts.

The Silver River Beasts were one of the great huge beasts in the universe. They had naturally hard skin, and their defenses were shockingly powerful! Even experts at the world master level might not be able to break through their skin to harm them!

There were even several beasts that had reached the peak of the grand perfection level. Even if people like Fu Luosen ran into them, they could only dream of running away.

Whenever the peaceful World of Departed Souls was about to open, many experts would swarm into the river in order to dig for some sand or obtain several treasures. However, miserable shrieks could be heard from time to time as golden blood dyed the river a weird color. After some time, the river would regain its normal calm.

Several days later...

A pillar of light emerged from the center of the river as waves countless miles high rose on the surface.

Everyone turned to stare at the phenomenon with a serious expression as that would be the sign of the appearance of the World of Departed Spirits.

Huang Xiaolong felt his senses being pulled taut.

“There’s no need to hurry.” The old dragon chuckled. “It will probably take another hour before it fully emerges.”

Huang Xiaolong nodded his head before heaving a sigh to calm himself down.

As the waves became stronger and stronger, they turned into a silver wall measuring several tens of millions feet tall!

What shocked everyone was the fact that the water turned into a smooth surface as the figures of several terrifying Silver River Beasts appeared within.

Retreating in shock, the weaker experts present gasped in shock.

After one entire hour, the screen of water finally fell. Next, a massive world was revealed to everyone present.

The world was fused with the Soul Burying Silver River, and no one knew how wide it was!

“World of Departed Souls!” Someone screamed.

That was the World of Departed Souls that appeared every one hundred million years.

Along with his yell, the restrictions around the surface of the world disappeared.

As soon as it did, experts from all over swarmed into the World of Departed Souls, afraid they would be a little late to the party.

“Go on.” The old dragon urged. “Remember to keep track of time.”

The World of Departed Souls would only remain open for several dozen years. When that happened, the restrictions would slowly recover. When it did, Huang Xiaolong wouldn't be able to get out until it opened again.

"I will." Huang Xiaolong nodded before entering the World of Departed Souls.

As he charged into the atmosphere of the World of Departed Souls, he felt a shockingly powerful suction force pulling him in. The space and time around him started to destroy and he appeared above a mountain range.

Everyone who entered the World of Departed Souls would be teleported to somewhere random.

Everything would be left up to chance.

Like the Soul Burying Silver River, the World of Departed Souls was full of Silver River Beasts. There were several regions where they had taken control over, and anyone lucky enough to be sent into their territory would definitely end up as beast food.

Huang Xiaolong was pretty lucky as the mountain range he was above wasn't on the boundaries of the World of Departed Souls. Neither were there tons of Silver River Beasts roaming about.

After taking in his surroundings, Huang Xiaolong shot off into the skies.

The main goal this time was to refine the world itself, and to obtain the Soul Burying Orb. Everything else was secondary, and in order to refine the world, he would have to look for the Land of Origin in the World of Departed Souls.

Every single world had its own Land of Origin, and refining the World of Departed Souls would be much easier once he arrived there! With the help of the four Origin Divine Fires, Huang Xiaolong was confident that he could refine the world origin before the restrictions were restored!

Once he did, every single treasure there would belong to him!

Moreover, he would be able to feel everything that happened in the World of Departed Souls once he was done with the refinement. Fu Luosen, Huang Shengdao, the Extreme East Old Man, You Ming, and Lei Bao! None of them would be able to escape!

Huang Xiaolong started to circulate the Soaring Dragon Art and the Blazing Dragon Grand Art. As universe origin energy poured into his body, Huang Xiaolong could faintly feel the direction he had to go towards. The denser the universe origin energy, the closer he was getting to the Land of Origin.

When Huang Xiaolong rushed through the World of Departed Souls, Huang Shengdao swung about a creation artifact in search of some sort of treasure.

“This time, I have to locate the Soul Burying Orb!” Light flickered in his eyes.

Even though he obtained the Dao Emperor’s Sword and treasury, he didn’t obtain the inheritance of the Dao Emperor! Everything going on outside was a rumor!

He realized that he needed the Soul Burying Orb to open the final restriction in the Dao Emperor Treasury, and he was hell bent on finding it!

Chapter 3227: The Restrictions Were Restored?

This time, he brought along the Dragon Soul Circlet along with him in order to locate the Soul Burying Orb. The Dragon Soul Circlet was a pseudo creation artifact that could feel the presence of other treasures in a certain radius. Huang Shengdao was pretty confident he could locate the orb with the item he brought.

“As long as I locate the Soul Burying Orb and open the final restriction, I will be able to enter the God of Creation Realm in ten billion years!” Huang Shengdao muttered to himself.

“When Your Highness enters the God of Creation Realm, you will be able to kill Huang Xiaolong with a tiny squeeze of your fingers!”

“That’s right! When Your Highness enters the God of Creation Realm, our True Dragon Celestial Empire will be a celestial empire with two Gods of Creation! When the Old Ancestor emerges from seclusion, he will sweep through the universe with Your Highness! The Blazing Dragon will have to lower his head to us in the future!”

One of the experts behind Huang Shengdao snickered. It seemed as though Huang Shengdao had a special way of locating the experts of the True Dragon Celestial Empire.

“Huang Xiaolong is nothing but a walking disaster.” Killing intent raged in Huang Shengdao’s eyes. “If I manage to find him now, it would be for the best if I can get rid of him. No one knows how strong he will be in ten billion years...”

After all, Huang Xiaolong’s talent was too terrifying.

“However, the old freak is standing right outside. If we kill Huang Xiaolong in the World of Departed Souls, he might...” Someone exclaimed in terror.

Huang Shengdao sneered. “Even the Blazing Dragon won’t be able to know what happens in the World of Departed Souls. Who will ever know that we are the ones behind his death? He can’t kill everyone in his rage...”

“Should we pass down the order to hunt him down right now?” Someone else asked.

“Contact Fu Luosen and the other Sons of Creation. I refuse to believe that he will be able to fight off all five of us at the same time!”

Huang Shengdao’s voice rang through the void.

Two years passed quickly...

“The Son of Creation from the Grand Myriad Celestial Empire managed to find a creation level spirit stone!”

“The celestial emperor of the Extreme Bliss Celestial Empire found a Golden Striped Elephant egg! It was supposed to be located at the edges of the universe, but its egg appeared in the World of Departed Souls!”

...

Every time a treasure was found, the entire world would be thrown into an uproar.

“His Highness Huang Shengdao, found a universe source spiritual vein!”

“What?! Universe source spiritual vein?! He’s too lucky!”

The news of Huang Shengdao’s find caused the experts in the World of Departed Souls to break into another uproar.

A universe source spiritual vein was something that was extremely rarely seen. Since the start of time, less than ten veins have been discovered!

Now, Huang Shengdao managed to obtain one of them!

Huang Xiaolong was stunned when he heard the news.

The universe source spiritual vein was formed from condensed universe origin energy. One could easily increase the amount of grand cosmos energy in their bodies by devouring it, and they could even use it to temper their dao bodies! It could easily improve someone’s cultivation speed by a thousand times!

Of course, there were other uses of the universe source spiritual vein. Refining pills and artifacts were some of its other uses.

Whatever the case, Huang Xiaolong wasn’t envious of Huang Shengdao’s discovery at all.

Even if Huang Shengdao obtained the universe source spiritual vein, his cultivation speed wouldn't be able to catch up to Huang Xiaolong!

"I should be able to arrive soon..." Huang Xiaolong stared at the void before him.

In the past two years, Huang Xiaolong didn't stop for a single second as he headed straight for the Land of Origin. No one knew how far he had traveled.

A vague premonition formed in Huang Xiaolong's mind. He felt that in at most half a year, he would be able to locate the Land of Origin!

Along his way, he discovered countless treasures that were at the creation level. However, Huang Xiaolong didn't bother collecting them at all. After all, there would be layers upon layers of restrictions protecting them. Breaking the restrictions would cost him precious time.

Huang Xiaolong's goal was simple. All he wanted was to refine the world origin of the World of Departed Souls!

Half a year later...

Huang Xiaolong entered one of the holy worlds contained in the World of Departed Souls.

"I'm finally here!" A trace of excitement formed in Huang Xiaolong's heart when he looked at the space before him.

Locating the Land of Origin already won him half the battle.

Without any hesitation, Huang Xiaolong circulated the grand cosmos energy in his body and started to seal up the space around the Land of Origin before summoning the four Origin Divine Fires.

As the four divine fires spirits emerged from his body, the entire holy world was filled with rays of resplendent light.

The Azure Dragon, White Tiger, Vermillion Bird, and the Black Tortoise went over to sit in the four corners of the world as they opened their mouths to release balls of origin divine fire. The four godly fires started to fill the holy world they were in.

Rushing to the center of the holy world, Huang Xiaolong sat down as he concentrated on controlling the fires.

If he were to compare the World of Departed Souls to a peak-grade creation artifact, the holy worlds it contained would be like giant formations contained within it.

The Land of Origin where Huang Xiaolong sealed off was the heart of all the formations! As long as he managed to refine it, refining the world origin of the World of Departed Souls would grow a lot easier.

Under Huang Xiaolong's constant circulation, the four Origin Divine Fires started to wrap around every single structure they came across!

When Huang Xiaolong was refining the Land of Origin, Huang Shengdao and several experts of the True Dragon Celestial Empire ran across a giant silver tree and visible joy sprouted on their faces.

"Your Highness, this... This is the Soul Burying Silver Tree! It's the tree of legends!" One of the marshals yelled in joy.

Soul Burying Silver Tree!

It was the number one divine tree in the World of Departed Souls!

Huang Shengdao failed to contain the joy in his heart and he roared with laughter, "My luck is too damn good! Hahaha! First, I obtained the universe source spiritual vein. Now, the Soul Burying Silver Tree is mine for the taking! The heavens are definitely looking out for me!"

The experts of the True Dragon Celestial Empire were equally as excited.

“Quick, seal off the entire area and stand guard outside! I will refine the Soul Burying Silver Tree right now!” Suppressing the excitement in his heart, Huang Shengdao knew what he had to do.

As such, he started to refine the giant silver tree.

Even though the members of the True Dragon Celestial Empire sealed off the surrounding area, the news of the tree soon shook the experts located in the World of Departed Souls.

Swarming over, the number of experts who arrived increased by the second.

Even though they were afraid of the True Dragon Celestial Empire, no one could resist the temptation of obtaining the Soul Burying Silver Tree! Eventually, they started to move against Huang Shengdao’s subordinates.

Killing intent soared through the skies as the killing began.

Several dozen years passed, and one fine day, the space around the World of Departed Souls started to shake.

As the shaking got ever more intense, the experts scouring the lands couldn’t help but stare at the skies in shock.

“What’s going on?! Are the restrictions around the world starting to recover?” Someone yelled in shock.

“There’s no way! It has only been forty years since the World of Departed Souls opened! Ordinarily, the world will stay open for sixty years!”

Chapter 3228: I’ll Kill You

When everyone was still stuck in a state of shock, the world trembled once again.

This time, the shaking nearly threw them off their feet.

Frowns formed on the faces of everyone present.

“What’s going on?! Is a treasure about to appear?” One of the marshals of the True Dragon Celestial Empire yelled as he swept his gaze across the lands.

Huang Shengdao felt a weird feeling forming in his heart and he muttered, “Doesn’t seem like it...”

If that wasn’t the case...

When the members of the True Dragon Celestial Empire were still thinking of the possibilities, the world returned to normal.

Staring at each other in shock, no one knew what was going on.

Releasing the dragon qi around his body, Huang Shengdao tried to discover any abnormalities in the surroundings. When he failed to do so, he used the Dragon Spirit Circlet to look for the source of disturbance. However, that failed too.

Eventually, he decided against looking for the source.

“Whatever. There is no need to bother about the incident. There should only be a little more than ten years left to the closing of the World of Departed Souls. We need to make full use of our time to locate the Soul Burying Orb!” Huang Shengdao yelled. “The most important thing right now is to find the orb!”

...

In the void above the Land of Origin, Huang Xiaolong sat cross legged as gold light covered his body. He was like a giant golden rock that remained suspended in the air as universe origin energy rolled around him. It formed a tiny stream as it poured into his body endlessly.

The spirits of the four Origin Divine Fires danced around his body.

Huang Xiaolong slowly opened his eyes to reveal a satisfied expression when he noticed the stream of universe origin energy pouring into him.

After so many years of refinement, he finally refined the Land of Origin!

The universe origin energy that was pouring into him was the energy accumulated by the World of Departed Souls. Like a giant tree in the universe that sucked up an endless amount of universe origin energy, the World of Departed Souls was releasing all the energy into Huang Xiaolong.

A great world had many uses for universe origin energy, and they would usually perfect the space contained inside it before sending the rest to remain in the spaces contained in the greater holy worlds.

As the World of Departed Souls had existed for an endless amount of time, the amount of universe origin energy it absorbed was insane! Even if Huang Xiaolong only absorbed a tiny bit of it, the amount would be astounding! A tiny fraction of the universe origin energy contained in the World of Departed souls probably numbered in the billions of units.

Moreover, the universe origin energy that was absorbed by the World of Departed Souls went through a round of tempering. It was extremely pure, and it could be compared to the universe source spiritual vein obtained by Huang Shengdao. In fact, it was a little better in terms of quality! As for the quantity, one would be comparing a firefly to the moon if they wanted to compare the spiritual vein to the universe origin energy contained in the world.

In reality, the universe source spiritual vein in Huang Shengdao's hand was created by the accumulation of universe origin energy by the greater world!

A universe source spiritual vein could also appear in the Blazing Dragon World, but there were experts capable of refining the universe origin energy there. Due to the constant refinement by the old dragon, the amount of universe origin energy left in the space wasn't dense enough to form a spiritual vein. Otherwise, Huang Xiaolong's accumulation wouldn't stop when he reached thirty-two million units of grand cosmos energy.

When he realized that the universe origin energy contained in the World of Departed Souls was boundless, excitement formed in his heart.

With the accumulated universe origin energy in the World of Departed Souls, Huang Xiaolong knew that he would be able to quickly bring the amount of grand cosmos energy in his body up to more than a billion!

Like the various celestial emperors, his strength would reach a whole new level! The amount of grand cosmos energy in the bodies of the various celestial emperors would hover around the one billion mark.

A terrifying possibility flashed through Huang Xiaolong's mind. With the help of the World of Departed Souls, he could catch up to Huang Dingai, Zeng Le, and Di Cangtian!

He could reach the peak of the grand perfection level!

Suppressing the happiness in his heart, Huang Xiaolong knew that he could also control the World of Departed Souls now that he had refined the Land of Origin. It was time for him to locate the Soul Burying Orb!

With a single thought, Huang Xiaolong's will entered the World of Departed Souls. It started to spread at a terrifying speed through every single region.

In one of the holy worlds, Huang Shengdao stared at a faint purple orb hovering before him.

Looking from a distance, the orb seemed like a miniature version of the World of Departed Souls.

"Soul Burying Orb!"

"I finally found it!"

Huang Shengdao no longer controlled his emotions as he yelled in joy.

After refining the orb, he would be able to open the last restriction in the Dao Emperor's Treasury. He could finally receive the inheritance and gain control over the Dao Emperor World!

"Congratulations, Your Highness!"

The experts of the True Dragon Celestial Empire exclaimed in excitement.

Roaring with laughter, Huang Shengdao boasted. "I'll reward everyone here heavily after we leave the World of Departed Souls! Hahaha!"

A round of appreciation swept through the members present.

Flying towards the purple orb, Huang Shengdao reached out his hands in anticipation.

Just as he was about to touch the orb, he turned into a streak of purple light that shot off into the distance. The speed was something even Huang Shengdao failed to catch, and no one could react in time.

A stunned expression formed on Huang Shengdao's face as he looked at the spot where the orb used to be.

With his expression sinking, Huang Shengdao roared in rage, "Who did that?! Get out here right now!" After he yelled, he sent a punch through the void. His punch tore through god knew how many regions before it stopped.

However, it was useless. No matter how loudly he screamed, the orb was nowhere to be seen.

"Get out here right now!" Huang Shengdao roared. "If I ever discover who you are, I'll kill your entire family and exterminate your faction!"

Huang Shengdao's voice caused the void around him to tremble.

“Exterminate my faction?” A voice descended from the skies. “There’s no need for you to launch an investigation. I’ll kill you right here and now.”

Huang Shengdao couldn’t be more familiar with the voice!

They felt like a bomb went off in their heads and Huang Shengdao’s pupils shrunk.

“Huang Xiaolong!”

The moment the words left his lips, a figure appeared before their very eyes.

It was none other than the man himself, and Huang Shengdao seethed in anger when he saw Huang Xiaolong. “Huang Xiaolong, we were planning to hunt you down anyway. You must be stupid to show yourself. Since you’re asking to die, you can remain here forever!”

After he spoke, the Dragon Spear and the Dao Emperor’s Sword appeared in his hands.

“Die!”

With both weapons shooting towards Huang Xiaolong, Huang Shengdao used the grand cosmos energy contained in his body to the limit. Two terrifying rays of light emerged.

Huang Xiaolong was shocked by Huang Shengdao’s sudden outburst. He discovered that the other party had already reached four million units of grand cosmos energy, and he was at least twice as strong as he was in the past! It was no wonder he dared to move against Huang Xiaolong without his best friend, Fu Luosen!

Chapter 3229: Extreme Bliss Celestial Emperor!

Huang Shengdao roared with laughter when he saw that Huang Xiaolong merely raised a single finger in response to his attack. “Huang Xiaolong, if you manage to hold off my attack, I’ll...”

A look of terror started to spread across his face when he realized that something was very wrong.
“Grand cosmos energy!”

Grand cosmos energy was contained in Huang Xiaolong’s finger!

That would mean that Huang Xiaolong not only reached perfection level in all thirteen elements, he even reached the grand perfection level! That was the only reason he would possess grand cosmos energy!

Huang Shengdao couldn’t believe his eyes!

In the past, he took over thirty million years to reach the grand perfection level!

In a mere million years, Huang Xiaolong, who only reached the perfection level in twelve elements, reached the grand perfection level!

A ray of light from Huang Xiaolong’s finger slammed into the spear light and sword light produced by his weapons by the time he was done thinking. Staring at Huang Xiaolong with his eyes wide, the two rays of light were torn apart.

Huang Shengdao felt a supreme wave of energy slamming into his chest!

Bang!

Like a shooting star, Huang Shengdao was sent flying. Under the shocked gazes of the members of the True Dragon Celestial Empire, he smashed through countless mountain ranges before flying out of the sacred land.

The two weapons landed on one of the random mountain peaks in the distance.

Everyone from the True Dragon Celestial Empire felt their bodies tightening up in fear.

Crawling to his feet, Huang Shengdao glared at Huang Xiaolong with blood staining the corners of his lips. "You... How the f*ck did you grow so strong?!"

A casual point from Huang Xiaolong revealed that he used at least six million units of grand cosmos energy.

That was a lot more than Huang Shengdao at his peak state!

A million years ago, Huang Xiaolong hadn't even started to produce grand cosmos energy!

How in the world did the punk train?! Huang Shengdao had no idea what was going on.

In the past few years, Huang Shengdao only managed to increase his strength due to the assistance of the treasures he obtained in the Mysterious Magician's Treasury. His power level could be said to be ascending with the speed of a rocket, and he thought that he would be able to suppress Huang Xiaolong with a single hand! However, reality gave him a slap in the face when they finally met.

After he sent Huang Shengdao flying, Huang Xiaolong didn't bother following up. Instead, he started to walk towards the man slowly. "What unfulfilled wishes do you have left? I'll help you finish them."

With his expression sinking, a sinister smile slowly formed on Huang Shengdao's face. "Unfulfilled wishes? Hehe, Huang Xiaolong, you're dreaming! Do you really think that you have won?!"

He shattered a transmission signal in his hands after he was done speaking.

When Huang Xiaolong saw what happened, his heart trembled slightly. However, he didn't bother stopping Huang Shengdao.

After shattering the transmission signal, Huang Shengdao sneered, "Huang Xiaolong, thirty years ago, the experts of five celestial empires formed an alliance! The experts of the Excessive Darkness, Grand Myriad, Extreme Bliss, and Buddhist Yang Celestial Empire will appear soon! No matter how strong you are, you won't survive against the onslaught of our celestial empires!"

The moment the words left Huang Shengdao's lips, experts started to appear in the air around them.

Fu Luosen and the experts of the Excessive Darkness Celestial Empire were the first to arrive.

"Huang Xiaolong!" Fu Luosen screamed in joy.

Like Huang Shengdao, Fu Luosen had been looking for Huang Xiaolong the moment they entered the World of Departed Souls.

However, he nearly jumped in fright when he saw the state Huang Shengdao was in. He saw a gaping hole in the man's chest as blood streamed down his body. The armor around Huang Shengdao's body was shattered beyond belief, and his hair was disheveled. It was as though he fell into a ditch after suffering a terrifying blow to the chest.

"Brother Huang Shengdao, this..."

"Huang Xiaolong! He did it!" Huang Shengdao gasped in pain.

"What?!" Fu Luosen turned to stare at Huang Xiaolong. "You... You..."

How could Huang Xiaolong possibly injure Huang Shengdao? Not to mention the fact that Huang Shengdao was on the brink of death. One had to know that Huang Shengdao's strength took a leap forward after he obtained the Dao Emperor's Treasury and Dao Emperor's sword! Fu Luosen estimated that Huang Shengdao should have already reached four million units of grand cosmos energy.

"Did he enter the grand perfection level?!" Fu Luosen asked in disbelief.

"He reached six million units of grand cosmos energy when we exchanged blows previously!"

Fu Luosen sucked in a cold breath as the members of the Excessive Darkness Celestial Empire stared at Huang Xiaolong in shock.

The experts of the other three celestial empires arrived quickly, and they were equally as shocked when they realized how strong Huang Xiaolong was.

Even though they had surrounded Huang Xiaolong, no one wanted to make the first move. After all, the threat of the old dragon and Huang Xiaolong's actual strength were real deterrents.

If it was before Huang Xiaolong reached the grand perfection level, they would have attacked him without the slightest misgiving. However, with six million units of grand cosmos energy, he was a force to be reckoned with.

Huang Xiaolong swept his gaze across those present and sneered, "This is a grudge I have with the Excessive Darkness Celestial Empire and the True Dragon Celestial Empire. If all of you leave now, I'll take it as though I didn't see you here. Otherwise..."

The Extreme Bliss Celestial Emperor frowned. "Or else what?"

"Otherwise, I'll kill everyone here!"

The experts of the three celestial empires felt rage burning in their hearts the moment the words left his lips.

"Preposterous!" The Extreme Bliss Celestial Emperor sneered, "You're a mere junior with six million units of grand cosmos energy! Do you really think you can take us all on at once?! I alone am enough to kill you! The only reason I help back was because of your master, you dumb*ss!"

It was clear that the Extreme Bliss Celestial Emperor was enraged by Huang Xiaolong's threats.

As soon as he spoke, he released his aura completely. The power of eight hundred million units of grand cosmos energy was displayed to the world.

The energy fluctuations alone were enough to cause the space around them to crumble.

The mountain ranges in the distance shattered into tiny little pieces from the revelation of the Extreme Bliss Celestial Emperor's power.

With eight hundred million units of grand cosmos energy, the Extreme Bliss Celestial Emperor would be able to crush an entire holy world if he so willed it. Even if he wasn't as strong as Huang Dinghai or the other super celestial emperors, the Extreme Bliss Celestial Emperor was strong.

Fu Luosen and the others sucked in another cold breath in terror.

Locking down the space around Huang Xiaolong, the Extreme Bliss Celestial Emperor snorted, "Huang Xiaolong, I'll give you a chance to kill yourself based on the fact that you're the Blazing Dragon's disciple. If you force me to make my move, you'll die a horrible death!"

Fu Luosen followed up with a laughter filled with mockery. "Huang Xiaolong, did you not hear what His Majesty said? Kill yourself right now! If I were you, I'd blow myself up right this instant!"

His laughter rang through the air, but it was rudely interrupted by a chuckle from Huang Xiaolong.

"Is that really the case?" The shackle around the space formed by the Extreme Bliss Celestial Emperor started to crack as another terrifying aura descended on the lands.

Chapter 3230: Massacring Five Celestial Empires' Experts

"What?!" Huang Shengdao and the others felt the world spinning around them when they felt the aura coming from the Extreme Bliss Celestial Emperor crumbling.

How could someone with six million units of grand cosmos energy stand up to an expert with eight hundred million units?!

That was like an ant challenging an entire mountain range!

The Extreme Bliss Celestial Emperor's expression changed and a terrifying thought flashed through his mind. "Huang Xiaolong did you...?!" Before he could complete his sentence, pillars of light emerged from Huang Xiaolong's body and filled the entire region around them.

"Run!" The Extreme Bliss Celestial Emperor screamed and he grabbed the experts of the Extreme Bliss Celestial Empire. The experts of the other four celestial empires were a step too slow, and they were swept up by the explosion that ensued. All of them were sent flying, and there were also some who blew up on the spot.

Miserable cries filled the air.

When Huang Shengdao and Fu Luosen stared at Huang Xiaolong in confusion, the Extreme Bliss Celestial Emperor yelled, "How are you able to control the World of Departed Souls?!"

Huang Xiaolong definitely used the power of the World of Departed Souls just a second ago.

It was also the reason Huang Xiaolong could withstand his aura. Otherwise, Huang Xiaolong wouldn't be able to do it with the short amount of training he had.

Huang Shengdao and Fu Luosen felt the blood draining from their faces when they heard what the Extreme Bliss Celestial Emperor said.

"There's no way! There's no way he can control the World of Departed Souls!" One of the marshals standing behind Huang Shengdao yelled.

Even an existence at the level of the Extreme Bliss Celestial Emperor couldn't refine the World of Departed Souls if they were given several hundred million years. How could Huang Xiaolong, someone who only had six million units of grand cosmos energy, refine the World of Departed Souls?!

That was an absolutely absurd thought!

Huang Xiaolong raised his finger and a giant pillar of light descended from the heavens. A marshal who was on the brink of death was crushed into pieces.

The faces of everyone changed once again.

If Huang Xiaolong hadn't refined the World of Departed Souls, he wouldn't have been able to summon the pillar of light!

"How?! How did you refine the World of Departed Souls?!" The Extreme Bliss Celestial Emperor frowned in shock. As a Celestial Emperor, he knew what controlling an entire world meant.

An unprecedented sense of crisis filled his soul.

"When I exterminate your dao physique, I'll tell you." Huang Xiaolong sneered.

The experts of the five celestial empires glared at Huang Xiaolong with equal parts anger and terror.

"Huang Xiaolong, this is a grudge between you and the Excessive Darkness Celestial Empire and the True Dragon Celestial Empire! It has nothing to do with us!" The Son of Creation of the Grand Myriad Celestial Empire exclaimed, "We'll leave right this instant!"

The faces of Huang Shengdao and Fu Luosen turned ugly instantly.

"I gave you a chance to leave, however, all of you refused to take it." Huang Xiaolong's gaze turned cold. "Now, all of you will have to die!"

There was no way he would allow anyone to learn that he had refined the World of Departed Souls. As such, he would silence everyone who had learned his secret!

"Let's go!" The Extreme Bliss Celestial Emperor planned to rip the space around him in order to snake his escape.

"I sealed off the space a hundred million miles around me. Do you think you can escape?" Huang Xiaolong snorted. "Unless you're a God of Creation, you'll have to leave your life here today!"

Huang Xiaolong wasn't trying to scare them. With the power he wielded in the World of Departed Souls, only God of Creation Realm experts would be able to stand against him!

"Kill Huang Xiaolong and we will definitely be able to leave! Don't tell me the experts of our five celestial empires will lose to a mere brat!" Huang Shengdao's yell tore through the air.

"Lay down the Excessive Darkness Grand Formation!"

"Kill him!"

Fu Luosen raged.

In an instant, the experts of the Excessive Darkness Celestial Empire started their desperate attempt to kill Huang Xiaolong. Releasing everything they had, they started to lay down the Excessive Darkness Grand Formation.

As the grand formation created by one of the strongest celestial empires, the Excessive Darkness Grand Formation was one of the top ten formations in the universe.

The Extreme Bliss Celestial Emperor and the others realized that there was no other way and they quickly passed down the order to kill Huang Xiaolong.

In an instant, the experts of all five factions turned their swords against Huang Xiaolong. The heavens trembled and the earth crumbled. Time seemed to flow in reverse.

Golden blood rained down on the lands and the stench of blood filled the air.

When the massacre went down, a group of experts from the Extreme Heaven Celestial Empire was coincidentally making their way over.

An expert from the Extreme Heaven Celestial Empire stopped all of a sudden.

“Elder Lu, what’s wrong?” Zeng Ying asked.

The elder stared into the distance as he muttered softly, “The space in front of us has been sealed off by a certain expert. We have to make a detour.”

The eldest prince of the Extreme Heaven Celestial Empire, Zeng Tianchong, sneered in response, “Bullsh*t! It’s just a space seal. There’s no need for us to go around it. I’ll shatter the seal right now!”

As soon as he spoke, he raised his arm and smashed the giant hammer in his hands on the seal.

Bang!

A resounding blast rang through the skies as he was sent flying.

Vomiting mouthfuls of golden blood, he stared at the space seal in shock.

“What?!” The experts of the Excessive Heaven Celestial Empire stared at the space seal before looking at Zeng Tianchong. Zeng Tianchong was the strongest prince in the royal family of the Excessive Heaven Celestial Empire, and he comprehended thirteen elements with eleven of them at the perfection level. He was only weaker than Zeng Ying, but even someone at his level was heavily injured by the backlash!

Wiping the blood from his lips, Zeng Tianchong yelled, “All of you, work together to break the barrier right now!”

Elder Lu’s expression changed, but he was too slow to stop them. The experts serving under Zeng Tianchong had already unleashed their attacks on the space seal.

Boom!

Explosions rang through the air as a horrifying wave of energy emerged from inside the space seal.

Everyone who struck the space seal was flung away as the armor on their bodies shattered into tiny little pieces. Blood rained down on the land outside the space seal.

Zeng Tianchong gasped in shock.

“Hurry up and leave!” Elder Lu exclaimed hastily, and he brought Zeng Ying and the others away from the space seal.

They only stopped after they got a pretty distance away from the seal.

“Elder Lu, who in world made the space seal?!” Zeng Ying asked.

Shaking his head slowly, Elder Lu sighed, “I have no idea. However, the person is definitely at the grand perfection level!”

“Grand perfection level?!” The experts of the Excessive Heaven Celestial Empire gasped in shock.

“Could it be Huang Shengdao?!” A complicated look could be seen on Zeng Ying’s face. Ever since Huang Shengdao obtained the Dao Emperor Sword and experienced a huge increase in strength, he was known as the number one cultivator in the younger generation. Everyone would feel a sense of fear when they spoke of his name, including Zeng Ying.

Elder Lu shook his head. “I have no idea.” In fact, he could vaguely feel that the person who sealed off the space was stronger than Huang Shengdao! He was someone who had only entered perfection level in all thirteen elements, and he didn’t know too much about the power wielded by an expert with grand cosmos energy.

When the experts of the Extreme Heaven Celestial Empire left, there were a ton of experts who ran into the space seal. Like Zeng Tianchong, many of them tried to shatter it, but they were sent packing without the slightest bit of suspense.

Several days passed in an instant.
