

## **Conqueror 3441**

### Chapter 3441: Refining the Vortex World

“Master, relax...” Huang Xiaolong spoke to the Blazing Dragon.

After reminding Huang Xiaolong about some other things, the old dragon didn’t stay for long. He quickly returned to the Blazing Dragon World.

When the old dragon left, Huang Xiaolong headed towards the Universe Vortex.

The Universe Vortex was extremely far away from the Blazing Dragon World, and even with Huang Xiaolong’s speed, it took him dozens of years before arriving

The Universe Vortex was basically endless, and when it spun about in space, space and time would be brought along with the flow. A frightening buzz roared in space and everyone in a billion-mile radius would be able to hear it.

After examining the terrifying power coming from within the Universe Vortex, Huang Xiaolong’s expression turned solemn.

The destructive power far surpassed the strength of a God of Creation who possessed 1.3 billion units of grand cosmos energy. Ordinary Gods of Creation would never be able to venture into the Universe Vortex.

It was no wonder the old dragon reminded him time and time again to be careful.

He was in no rush to enter the Universe Vortex. Instead, he examined it carefully. He discovered that the rotation of the Universe Vortex would slow down from time to time, and even though each interval was only several minutes long, it was more than enough for Huang Xiaolong to charge his way into the region.

A mysterious force would emerge from the center of the vortex when the rotation slowed, and Huang Xiaolong noticed that the energy was similar to that of the World of Departed Souls.

Even though he discovered the pattern of the Universe Vortex, Huang Xiaolong still chose to remain outside for some time. The restrictions around the Vortex World were too damn strong! Even if he charged into the Universe Vortex, he wouldn't be able to enter the Vortex World. He could only wait for the restrictions around the Vortex World to disappear before making his way into it.

The World of Departed Souls would release its restrictions every one hundred million years, and the same had to be true for the Vortex World!

Huang Xiaolong laid down countless restrictions around the Universe Vortex and the space around him before sitting down in the middle of space. He released the four Universe Origin Fires and started to cultivate.

With the Universe Origin Fires spinning around him, universe source qi flooded down from the void. It entered Huang Xiaolong's body endlessly.

The wait lasted a hundred thousand years, and when Huang Xiaolong opened his eyes, he realized that the restrictions around the Vortex World showed no signs of weakening.

When that went down, the old dragon received news that Huang Sheng was planning to establish a great world of his own.

More than thirty worlds trembled at the news.

It was indeed something that could shake up the entire universe!

Huang Sheng had established his True Dragon Celestial Empire in the Blazing Dragon World countless years ago, and now that he wished to establish a great world of his own, he would have to restart from scratch!

Of course, there were benefits to creating his own world. The True Dragon Celestial Empire would be able to advance without any obstructions there, and Huang Sheng would be the only ruler of his world! He would no longer be restricted by the laws of the Blazing Dragon World!

When Huang Xiaolong received the message from the old dragon, his heart sank.

That wasn't good news for him...

"Five hundred million years..."

According to the old dragon, Huang Sheng was probably planning to establish his great world after devouring Huang Long! As such, he would only have five hundred million years left!

In order to save his father, he would have to enter the large completion stage of the God of Creation Realm! That was the only way for him to possess more than 10 billion units of grand cosmos energy to challenge Huang Sheng!

In the past, Huang Xiaolong was confident that he would be able to surpass Huang Sheng with the time he had. The previous estimate was a billion years, and Huang Xiaolong was absolutely certain he could do it! Now, he had half the time.

Huang Xiaolong looked at the Universe Vortex spinning in front of him.

Like a hundred thousand years ago, the restrictions remained as strong as ever.

If he charged in with all his might...

A light flashed in his eyes. Huang Xiaolong had 3 billion units of grand cosmos energy, and he had a powerful physique. With the Huang Long Armor Set, Pangu Axe, and the Dao Emperor Sword. He might really have a chance of charging his way in.

However, there was also a possibility that he would suffer serious injuries from the backlash should he fail. The three worlds in his body might be seriously injured, and even if he did smash his way in, he might have to take some time to recuperate. It would definitely affect the time he took to refine the world.

Should I do it?

Huang Xiaolong started to hesitate.

Just like that, ten thousand years passed in the blink of an eye. When Huang Xiaolong was planning to barge his way in no matter the cost, the Universe Vortex stopped spinning in an instant. The restrictions around the Vortex World disappeared as though it was never there to begin with.

Staring at the Vortex World with his eyes wide open, joy filled Huang Xiaolong's heart.

Pushing his speed to the limit, he appeared before the Vortex World in the blink of an eye.

The moment he appeared, the entrance to the world appeared. Huang Xiaolong didn't hesitate to fly straight into it.

Sigh...

Huang Xiaolong heaved a sigh of relief when he finally entered the Vortex World.

The importance of the Vortex World to Huang Xiaolong was something he couldn't describe.

Suppressing the joy in his heart, Huang Xiaolong circulated the Pangu World Creation Art and started to suck in the universe source qi endlessly. He flew towards the direction where the qi was the most concentrated, and it was exactly what he did in the World of Departed Souls! As long as he found the land of origin, he would be able to refine the Vortex World.

When that happened, he would be able to absorb the source of the world.

The Vortex World was larger than Huang Xiaolong ever imagined. It might be even larger than the World of Departed Souls! He only managed to locate the origin holy world after several years.

Looking at the origin, Huang Xiaolong felt the terrifying pulsations of universe source qi, and he sucked in a cold breath.

As it didn't hurt to be careful, Huang Xiaolong laid down countless restrictions around the origin holy world before he started the refinement process. The four Universe Origin Fires appeared and a sea of flames surrounded Huang Xiaolong.

Thirty years passed quickly, and Huang Xiaolong finally managed to refine the Vortex World.

The entire process was much smoother than he imagined.

Since he controlled the world, the only thing left to do was to absorb the universe spiritual qi it accumulated for countless years.

Chapter 3442: God of Creation, Xuan Hai

Sitting in the heart of the world's origin land, the four Universe Origin Fires revolved around Huang Xiaolong. The third world in his body started to emit rays of brilliant light as he circulated the Pangu World Creation Art.

The universe source qi fell from the void like a heavenly river.

Time slowly passed, and in the blink of an eye, a million years had gone.

The grand cosmos energy in Huang Xiaolong's third world rose endlessly.

It didn't take long before it broke through the 500 million mark barrier!

600 million...

700 million...

...

Rays of light covered Huang Xiaolong's body.

The light illuminated the Origin Holy World as the sea of flames produced by the four Universe Origin Fires fluctuated wildly. They looked to be extremely happy as Huang Xiaolong became even stronger.

After 6 million years...

The third world finally broke through the 1.0 billionth mark.

If Huang Xiaolong went all out, he would be able to summon the power of 3.6 billion units of grand cosmos energy! Ordinary God of Creation Realm experts would only possess 3 billion units of grand cosmos energy when they entered the grand completion stage!

Even so, Huang Xiaolong didn't stop there. He continued to grow stronger. After 800 thousand years, he reached the 1.1 billionth mark.

One million years later, Huang Xiaolong finally stopped cultivating.

"What a shame..." Huang Xiaolong muttered to himself.

His third world failed to break past the 1.2 billionth mark, and he was stuck at the final step!

No matter how reluctant he was to accept the result, that was the truth! Huang Xiaolong had no other way as he had already sucked the universe origin qi clean.

Getting to his feet, Huang Xiaolong released his dao souls to cover the entire world.

He was overjoyed to discover two universe-level spiritual veins.

They might not be a lot, but they were more than enough to push Huang Xiaolong through to the 1.2 billionth mark!

After obtaining the two spiritual veins, Huang Xiaolong refined them instantly.

He only left the Vortex World after several hundreds of thousands of years.

Since he broke through the 1.2 billionth mark, he was a small step away from finally reaching the 1.3 billion mark.

A light flashed in his eyes. If he refined Huang Dinghai of the True Dragon Celestial Empire, he would definitely be able to break through.

He turned into a streak of light as he returned to the Blazing Dragon World.

Along the way, he met Zeng Yin once again.

There were many experts of the Extreme Heaven Celestial Empire with her as they hunted down two massive universe beasts.

The only thing that shocked Huang Xiaolong was the ability of the beasts to last such a long time.

Their defenses were extremely sturdy, and not even the sixth princess could leave a mark on their skin!

On closer inspection, Huang Xiaolong discovered that the two beasts were using secret arts related to the Pangu World!

From how they acted, it seemed to be a combination of both the Pangu World Creation Art and the Nine Revolution Mysterious Art!

One had to know that both secret arts were created by Pangu!

Huang Xiaolong felt his heartbeat accelerate. Could they be related to Pangu?!

All these years, the old dragon had been searching for Pangu's whereabouts. However, he failed to obtain any information at all! If the beasts were related to Pangu, they might know where he went!

Since that was the case, Huang Xiaolong no longer hesitated. He chose to make his move to save them from the members of the Extreme Heaven Celestial Empire.

A flash of light fell from the void just as they were about to catch up to the beasts. As the light blinded them temporarily, Huang Xiaolong brought the beasts away before they could react. By the time they opened their eyes, the beasts were already gone.

"What?! Hurry up and search!"

Zeng Yin's expression fell.

The beasts were special, and they might have some relationship with Pangu. She had been tracking them for several years now.

...

After searching for half a day, the experts of the Extreme Heaven Celestial Empire gathered back together, empty-handed.

"Your Highness, the two of them might have already been saved by someone," one of the experts reported.

Unwilling to accept the fact, Zeng Yin sent them out to search once again.

When that was happening, Huang Xiaolong stood in the skies above one of the random planets in the area. He looked at the beasts who were covered in a golden light. He didn't waste time as he looked through their memories directly.

?!

Huang Xiaolong was right. They definitely had something to do with Pangu!

When Pangu was touring the universe, he met the two beasts, and they followed him for tens of thousands of years!

According to their memories, Pangu was heading towards the Xuan Hai World.

"Xuan Hai World?!" Huang Xiaolong frowned.

There were more than thirty worlds in the universe, and the Xuan Hai World was one of them that didn't amount to much! It was probably ranked in the middle of all the great worlds, and the God of Creation who made the world, Xuan Hai, was equally as low-key. He might be a God of Creation, but he wasn't someone who created huge waves.

A weird light shone in Huang Xiaolong's eyes.

Half a day later, Huang Xiaolong charged straight towards the Xuan Hai World. Since they weren't too far away, he was tempted by the chance of finding Pangu! He planned to take a look at the Xuan Hai world as he felt that Pangu's disappearance wasn't natural at all!

Xuan Hai might know something about Pangu's disappearance!

In fact, he might be responsible for it!

Several months later, Huang Xiaolong arrived in the Xuan Hai World.

He quickly found the celestial emperor of the Xuan Hai Celestial Empire, Xuan Fang!

Xuan Fang looked at Huang Xiaolong with suspicion. "Are you looking for our old ancestor?"

In any case, Huang Xiaolong had long since changed his appearance. Xuan Fang would never discover his true appearance.

"That's right!" Huang Xiaolong muttered as he released his aura. Even so, he only displayed 1.5 billion units of grand cosmos energy.

"God... God of Creation!" Xuan Fang's expression changed when he felt the aura coming off Huang Xiaolong. He got to his feet and bowed respectfully.

"Is your old ancestor present?" Huang Xiaolong asked.

"Yes." Xuan Fang replied respectfully. "Lord Creation, please wait for a moment while I make a report to the old ancestor."

Huang Xiaolong nodded slightly.

Xuan Fang returned as quickly as he left the hall. He invited Huang Xiaolong over to meet with Xuan Hai. After crossing god knows how many different separate spaces, they finally arrived above a giant sea.

When Huang Xiaolong arrived, the entire sea started to tremble as it gathered to form a figure of an expert.

Huang Xiaolong wasn't surprised at all. After all, Xuan Hai's original body was formed from a drop of water! It was an extremely special drop of water born in the universe.

Looking at Huang Xiaolong, Xuan Hai tried to guess the kid's identity.

## Chapter 3443: Defeating a God of Creation

“It’s my honor to host fellow cultivator!” Xuan Hai suppressed the shock in his heart and cupped his fists towards Huang Xiaolong. “How can I help you?”

“Did Pangu come to your Xuan Hai World in the past?” Huang Xiaolong asked all of a sudden.

Feeling his heart skip a beat, a frown formed on Xuan Hai’s face.

Even though Xuan Hai tried to hide his emotions, Huang Xiaolong still managed to catch something from his reaction.

It seemed as though Pangu had not only ventured into the Xuan Hai World in the past, but Xuan Hai had definitely seen the man.

“Are you here just to ask about this?” Xuan Hai muttered, “Pangu did appear in my Xuan Hai World, but he stayed for half a day before he left.”

“Do you know where he went?” Huang Xiaolong said while focusing on Xuan Hai’s reaction.

“I do not.” Xuan Hai shook his head. “We don’t even know each other that well. Why would he tell me where he plans to go?”

“Is that so?” Huang Xiaolong stared at him with a smirk on his face.

“What do you mean by that?!” Xuan Hai frowned and growled.

“Pangu has been missing for many years, and I suspect that it has something to do with you!” Huang Xiaolong chuckled.

There was no point in beating about the bush any longer.

A trace of panic flashed through Xuan Hai's eyes. Even though he tried to suppress it, Huang Xiaolong noticed it all the same.

It was too bad Xuan Hai didn't give Huang Xiaolong a chance to react as he released his aura completely. He turned into streams of light that shot towards Huang Xiaolong.

Every single strand of light had the ability to destroy a holy world.

Not even Huang Dinghai would be able to resist touching a beam of light.

Huang Xiaolong finally turned serious. That was the first time he was fighting a God of Creation.

Moreover, Xuan Hai wasn't an ordinary God of Creation. He had already entered the major completion stage. At the very least, he had 3 billion units of grand cosmos energy.

Huang Xiaolong didn't dare to be careless. He circulated all three creation arts at the same time. Grand cosmos energy poured out of his body.

The moment he did, the space around them started to tremble.

Unleashing his full strength of 3.8 billion units of grand cosmos energy, Huang Xiaolong's revelation caused Xuan Hai's expression to change. He didn't expect Huang Xiaolong to be so damn strong!

3.8 billion units of grand cosmos energy exceeded the scope at which he could fight back.

He might be at the grand completion stage, but he barely crossed the 3.2 billion units mark.

Boom!

Huang Xiaolong sent two punches that slammed straight into the beam of light coming from Xuan Hai. They were shattered instantly.

The separate space they were in started to crumble. Chaotic streams filled the space they were once in, and they swallowed everything around them.

Xuan Hai was forced to retreat, and he tumbled through the air.

As for Xuan Fang, he was killed by the shockwaves of the clash. Not even his dao soul was left.

Huang Xiaolong might not have entered the God of Creation Realm, but his strength was comparable to a God of Creation at the major completion stage! There was no way someone like Xuan Fang would be able to resist the impact of the exchange.

“Who the hell are you?!” Xuan Hai glared at Huang Xiaolong.

Huang Xiaolong might possess 3.8 billion units of grand cosmos energy, but Xuan Hai could feel that he wasn’t a God of Creation!

How in the world can someone possess 3.8 billion units of grand cosmos energy and not be in the God of Creation Realm?!

He had no idea what was going on.

Even after touring the universe, he had never seen anyone who could rival a God of Creation before entering said realm!

Not even the most terrifying of geniuses in all the lands had the ability to do so.

“My identity isn’t important,” Huang Xiaolong muttered. “Speak. Where did Pangu go?”

Suppressing the shock in his heart, Xuan Hai growled, “You might have 3.8 billion units of grand cosmos energy, but you forget that you’re in my Xuan Hai World! Moreover, you’re no God of Creation!”

The difference between experts who had broken into the God of Creation Realm and those who hadn’t was large! After all, God of Creation Realm experts could wield universe source energy!

Universe source energy was something even stronger than grand cosmos energy.

That was the reason behind a God of Creation’s strength! A God of Creation who ascended would be able to beat an existence who had 1.2999 billion units of grand cosmos energy even though there was barely any difference!

“You might be right that I’m not a God of Creation, but don’t forget, I have 3.8 billion units of grand cosmos energy! You only have 3.2 billion!” Huang Xiaolong responded calmly.

The difference between them was more than 600 million units of grand cosmos energy.

If the difference between them wasn’t so large, Huang Xiaolong might accept the fact that he wasn’t an opponent for the other party.

Xuan Hai sneered as a spike appeared in his hand. The spike was several meters long, and it was completely white in color. It emitted a bone-chilling light. “That is true, but I think you forgot the importance of creation artifacts!”

The spike in his hand stabbed at Huang Xiaolong after he spoke.

Xuan Hai used everything he had in the strike! He even used the universe source energy of his Xuan Hai World!

Rip!

A terrifying white tear split the heavens in two.

Just as the tip of the spike was about to stab into Huang Xiaolong's body, a sword appeared in Huang Xiaolong's hand to deflect it. In his other hand, a giant axe appeared, and he hacked at Xuan Hai. Without any time to react, Xuan Hai could only twist the spike in his hand to block the axe.

Bang!

As Xuan Hai held on to the spike in his hand, he was sent smashing into the ground below.

Explosions rang out again and again.

After crashing through countless continents, he finally stopped.

The battle between the two Gods of Creation at the major completion stage was terrifying and the holy world contained in the great world trembled. Experts of various creeds started to flee for their lives as they felt the shockwaves of the battle.

"What?!" Xuan Hai spat out a mouthful of blood as he crawled to his feet. "Pangu Axe!"

He thought that Huang Xiaolong was relying on his grand cosmos energy alone, and he didn't expect the man to possess the Dao Emperor Sword along with the number-one ranked creation artifact, the Pangu Axe!

Buzz...

Turning into a streak of light, Xuan Hai disappeared from the face of the world.

Huang Xiaolong summoned the Huang Long Cape and disappeared at the same time Xuan Hai did as he gave chase immediately.

Chapter 3444: Two Universes

As a God of Creation, Xuan Hai could use universe origin energy to supplement himself. His speed was extremely quick. He disappeared from the Xuan Hai World in the blink of an eye.

However, Huang Xiaolong was just as quick with his 3.8 billion units of grand cosmos energy and the Huang Long Cape.

Huang Xiaolong followed closely behind Xuan Hai.

Noticing that Huang Xiaolong wasn't falling behind, Xuan Hai took a closer look at Huang Xiaolong. When he noticed the Huang Long Cape billowing behind Huang Xiaolong, he gasped, "That... That's the Huang Long Armor Set! Are you Huang Xiaolong?!"

He recognized Huang Xiaolong the instant he saw the cape.

All these years, Huang Xiaolong had been hailed as the strongest genius in the universe! Many experts were paying attention to him. Xuan Hai definitely knew who he was too.

So that was the case...

After learning Huang Xiaolong's identity, fear filled his heart.

He finally knew why Huang Xiaolong could possess 3.8 billion units of grand cosmos energy before entering the God of Creation Realm.

However, he still found it unbelievable. After all, Huang Xiaolong hadn't even reached the peak of the Dao Venerable Realm 20 million years ago! Now, he managed to accumulate 3.8 billion units of grand cosmos energy.

Suppressing the fright in his heart, he continued to flee.

I need to escape as soon as possible!

Huang Xiaolong didn't let up as he followed closely behind.

Very quickly, half a year passed.

The two of them played a game of cat and mouse for half a year straight, and god knows how many worlds they crossed while they were at it.

Seeing as Huang Xiaolong wasn't letting up, humiliation and rage-filled Xuan Hai's heart. He was embarrassed by the fact that he was being hunted down by an existence he could kill with a slight stomp several million years ago!

If anyone else were to see him in his sorry state, what would they think?!

"Huang Xiaolong, are you really planning on chasing me down?!" Xuan Hai roared with rage.

"Where did Pangu go?" Huang Xiaolong asked once again.

"What has he got to do with you?! What the f\*ck is your problem?" Xuan Hai raged.

"What do you think?" Huang Xiaolong chuckled.

With the Pangu Axe and his cultivation of the Pangu World Creation Art, Huang Xiaolong could be said to be Pangu's inheritor.

Also, Huang Xiaolong would only be able to enter the God of Creation Realm thanks to the Pangu World Creation Art. As such, he was pretty thankful to the man.

Of course, Huang Xiaolong couldn't deny that having Pangu's assistance when dealing with Huang Sheng would make things much easier.

Huang Sheng wouldn't be afraid of the old dragon, but what would happen when they added Pangu to the mix? Even someone like Huang Sheng would have to think twice. At the very least, he wouldn't dare to do anything if he failed to ascend past the God of Creation Realm.

Killing intent shot out of Xuan Hai's eyes. "Huang Xiaolong, you better not piss me off. I might not be able to kill you, but I'll hunt down everyone you care about! I'll make them live a life worse than death!"

"My master is the Blazing Dragon. You can go and look for me all you want."

Blazing Dragon?! Xuan Hai felt the world turning dark around him.

Torturing the Blazing Dragon?! Is that even possible for someone at his level?! It was clear that Huang Xiaolong was messing with him.

Just like that, the two of them soared through the air. After countless years of chasing, they lost track of how far they had gotten.

Xuan Hai might not be Huang Xiaolong's opponent, but he was still a God of Creation. He was slightly faster than Huang Xiaolong, and the only reason Huang Xiaolong was able to keep up was because of the Huang Long Cape.

Huang Xiaolong frowned when he looked at the fleeing Xuan Hai. Keeping up the chase wasn't an option. He had to think of something else.

When Huang Xiaolong was thinking of a way to force Xuan Hai to stop, Xuan Hai charged straight into one of the giant star fields in the sky. No one knew why, but Huang Xiaolong felt his heart thumping when he stared at the star field in his sights.

After a short moment of hesitation, Huang Xiaolong charged in behind Xuan Hai.

The moment he did, he realized that everything around him was gray and lifeless. The entire region seemed to be the birthplace of chaos and nothingness.

Huang Xiaolong released his dao souls, but he realized that something was obstructing him from feeling anything around him.

A light flashed in Huang Xiaolong's eyes. However, he chose to continue the hunt. As he continued onwards, he felt the space around him turning more and more solid. The mysterious qi in the air caused him quite a lot of discomfort, despite his strength.

Xuan Hai's aura started to fluctuate in the distance.

Gritting his teeth, Huang Xiaolong continued the chase.

After one entire month...

He was surprised to discover that the area they were in didn't seem to have an end.

His speed was nothing short of terrifying. It would take less than a day for him to cross a holy world. Now, he traveled for one entire month without seeing the end of the space before him!

Was he trapped in an illusory space?

No... He was sure that everything he was looking at was real.

After several days, Huang Xiaolong felt a terrifying wave of devouring energy surrounding him and he failed to react before he was thrown into a dark abyss. His body fell from the skies without control, and panic started to fill his heart.

What in the world was going on?

Trying to soar back up into the skies, Huang Xiaolong discovered that he couldn't move a single muscle in the dark abyss!

After an entire day of falling, Huang Xiaolong felt his body grow lighter. He dropped out of the abyss as a blinding light filled his vision. He couldn't help but close one eye before trying to stabilize himself.

Looking around, Huang Xiaolong could see that he was still in space! However, he discovered some slight differences. He was no longer in the universe he knew!

He couldn't quite put his finger on it, but he was sure that he was no longer in the universe he knew!

An absurd thought formed in his mind. Could there actually be a second universe?!

If there really was a second universe, why didn't his master, the Blazing Dragon, know anything about it?

Also, Huang Xiaolong wondered if Xuan Hai led him over there on purpose.

Could Xuan Hai have long since learned about the existence of a second universe?!

Huang Xiaolong thought about Pangu's disappearance and his mind soon drifted to other Gods of Creation.

His heart sank when he realized the endless possibilities.

He only heaved a sigh of relief when he felt the three worlds in his body operating normally.

Looking all around him, Huang Xiaolong took a single step and traveled in a random direction. He didn't see anything after several days, and it seemed as though he was stuck in a desolate region in space! After tens of days, Huang Xiaolong finally discovered the presence of a massive flying ship.

Chapter 3445: You're So Sure of My Strength?

A burst of joy filled Huang Xiaolong's heart when he saw the flying ship.

He started moving towards it, but before he could get close, a group of guards left the ship to stop him. "Hold it right there. Explain your purpose for approaching us!"

Huang Xiaolong glanced at the guards.

All of them weren't weak, and some of them were at the peak of the late-Ninth Esteem Dao Venerable Realm. The strongest of them all had already started to comprehend the elements.

If they were back in the Huang Long World, experts at their level would be considered top-tier experts! For those who could comprehend the elements, they would stand at the apex of the power chain there!

Huang Xiaolong looked at them and said calmly, "I'm here to ask you a few questions."

Just as the guard was about to chase Huang Xiaolong away, a voice echoed through the skies. "Do not disrespect him!"

A figure soon emerged from the flying ship.

Two giant figures followed closely behind, and it was clear that they were her guards. One of them was an expert who reached the large completion stage in the power of the absolute flame.

"Young Lady!" The guard who approached Huang Xiaolong bowed respectfully when he saw her.

After emerging from her flying ship, the young lady smiled at Huang Xiaolong and said, "If you're alright with it, please take a break on my ship."

Huang Xiaolong didn't refuse her goodwill as he boarded the ship in a single step.

"Please." The young lady was polite as she invited him into the main hall of the ship.

The main hall was extremely well decorated, but every single material used was at the grand dao level. Those were extremely rare in ordinary holy worlds, but they were nothing to someone at Huang Xiaolong's level.

After entering the main hall, Huang Xiaolong was incited to take a seat. "I am Li Wei of the Myriad Stars Palace. I wonder what questions you have."

"Which great world is your faction a part of?" Huang Xiaolong got straight to the point.

Great world?

Li Wei and the guards behind her looked at Huang Xiaolong in shock.

"My Myriad Stars Palace is a creed in the Black Flame Holy World of the Shi Li World." She might have found it weird, but she replied nonetheless.

"Young Lady!" One of the guards tried to interrupt her.

"It's alright. He has no ill intentions." She knew what they were concerned about.

"Shi Li World?" Huang Xiaolong frowned.

There were more than thirty great worlds in addition to the Blazing Dragon World, but none of them was called the Shi Li World. Could he have left the universe he was familiar with?

Was Xuan Hai a God of Creation from this universe?!

Li Wei noticed the confused expression on Huang Xiaolong's face, and she asked, "Do you not know about the Shi Li World?"

Huang Xiaolong nodded slowly. "That's right. I came from somewhere extremely far away and I'm not familiar with the area."

Li Wei and her guards stared at him in shock.

"So that's the case..." Li Wei nodded in acknowledgment.

It was the guards behind her who became a little suspicious. It was clear that they didn't believe him at all! Indeed, Huang Xiaolong's story was a little too far-fetched.

Soon after, Huang Xiaolong asked Li Wei other questions. He asked about the number of great worlds in the universe, the number of Gods of Creation, and the number of holy worlds in the Shi Li World.

She didn't know much as the God of Creation Realm was too far for her at the moment.

As for the number of holy worlds in the Shi Li World, she had no idea how to answer his question either. The only thing she could recall was her father saying that there were more than fifty great worlds in the universe.

Fifty great worlds?

Light sparkled in Huang Xiaolong's eyes. It seemed as though the number of God of Creation Realm experts were more than he thought.

"Sir... Li Wei has something to ask of you." After chatting with Huang Xiaolong for more than an hour, she couldn't help but change the topic.

Huang Xiaolong raised an eyebrow in surprise.

"I know that it might be a little too sudden, but this is too important to me," Li Wei said with an embarrassed expression hanging on her face.

"It's alright. Please, speak your mind," Huang Xiaolong chuckled.

"The reason we left the Shi Li World was to look for a type of spiritual herb called the Dragon Heart Grass. It's located in the Dragon Cave, and it's up ahead," Li Wei explained. "My father was seriously injured, and he needs the Dragon Heart Grass in order to recover. However, there's a group of dragonian beasts living in the cave. It's extremely dangerous, and we're not confident of grabbing the herb."

Huang Xiaolong understood what she was asking of him immediately.

"Are you so confident that I'll be able to deal with them?" An amused look appeared on his face.

Li Wei's beauty might not be enough to topple a city, but she was a pretty lass nonetheless. There was a different vibe about her.

Li Wei's face started to heat up after noticing Huang Xiaolong's gaze on her, and she squeaked, "I might not know of your origins, but I believe that you're definitely an expert. Even if everyone on my ship joined forces, they wouldn't be your match."

She was right.

The guards behind her stared at Huang Xiaolong in disbelief, and it was clear that they doubted her words.

Huang Xiaolong fell silent for some time, and Li Wei started to panic the longer the silence lasted.

"Alright."

Huang Xiaolong nodded his head.

He had no idea how to return to the universe he knew, and he had no choice but to remain there for some time.

After hearing his agreement, Li Wei jumped in joy. “Many thanks to fellow cultivator! Please rest assured that we will give you a million dao coins as compensation regardless of the success of our mission.”

A million dao coins was a massive fortune to most creeds!

The corners of Huang Xiaolong’s lips curled upwards. One had to know that in order to buy a batch of Flower of Time back in the Blazing Dragon World, he used billions of dao coins.

“Since we’re fated to meet, there’s no need for the formalities.” Huang Xiaolong shook his head and refused to accept her payment.

Soon, he asked some questions about the Dragon Cave.

When he learned that the Dragon Cave was a tiny natural world, he was shocked.

Li Wei’s flying ship was quick, and it took three days for them to arrive. After chatting with Li Wei for three days, Huang Xiaolong gained a basic understanding of the new universe.

“Sir, that’s the Dragon Cave.” Li Wei pointed at a giant hole in space as a serious expression formed on her face.

The Dragon Cave was considered a forbidden region, and if not for the fact that she needed the Dragon Heart Grass, she would never venture to a location like that.

“Alright, let’s head in.” A relaxed expression could be seen on Huang Xiaolong’s face as he declared.

Li Wei nodded slightly and she got her men to activate a formation on the flying ship before charging into the Dragon Cave.

Huang Xiaolong laughed when he saw the anxious expression on her face. He could feel that there were several strong auras in the Dragon Cave, but they were merely ants in front of him. As long as he willed it, he could wipe them all out with a swing of his arm.

Not too long after they entered, they were attacked by a group of dragonian beasts. The guards protecting the ship managed to hold them off and the group managed to continue their journey.

Initially, Li Wei's group was able to stop the dragonian beasts as they weren't too strong. The deeper they got, the stronger the beasts became.

Chapter 3446: Subduing the Dragonian Beasts

Seeing as they were about to be wiped out, Huang Xiaolong finally moved. He didn't do too much, and he casually reached out to toss whatever beast surrounded the flying ship into the Sun Moon Furnace.

No matter how many came, Huang Xiaolong dealt with them with a single move!

When Li Wei saw how Huang Xiaolong finished one of them off with a single move, she was shocked. The shock she felt grew with the number of beasts Huang Xiaolong made disappear.

One had to know that the dragonian beasts were comparable to experts who had comprehended three elements to the perfection level! There were even some who were comparable to experts who comprehended four elements to the perfection level!

She could tell that Huang Xiaolong was strong when they first met, but she didn't expect him to be that strong.

The dragonian beasts were like toys in his eyes!

The guards behind her were equally as shocked. However, they were stronger than Li Wei, and they could tell that Huang Xiaolong's method of dealing with the beasts was incredible! Whenever he grabbed their neck, he would seal off all their strength!

That was the terrifying part of his attack.

Capturing them wasn't the scary part, but the truly terrifying part was subduing them by sealing off their strength!

How strong did he have to be in order to accomplish that? They had no idea, but they knew that one definitely had to be countless times stronger than the other party before they could do that. With the strength of the dragonian beasts, not even the palace master would be able to do that!

Two days later...

Huang Xiaolong looked at the silver-colored dragonian beast that was attacking them, and he threw it into the Sun Moon Furnace all the same.

"That's the 38th one!" Li Wei felt her throat going dry.

In two short days, Huang Xiaolong had already captured thirty-eight dragonian beasts!

They came in all shapes and sizes, and a single one of them would be priceless in the market. If he sold them all, how much money would he get?!"

A weird expression formed on Li Wei's face.

"Sir, according to our reports, the Dragon Heart Grass is up ahead," Li Wei said carefully as she stood behind Huang Xiaolong. She no longer dared to speak to Huang Xiaolong like she did in the past. Even though she was respectful when she spoke to him several days ago, the reverence she had for him made her even more polite.

Huang Xiaolong nodded slightly.

"How many dragonian beasts are there?" Huang Xiaolong asked all of a sudden, shocking Li Wei and her guards.

“We... We’re not sure about that,” Li Wei muttered. “However, the natural dragon qi in the Dragon Cave makes it the best cultivation spot for the dragonian beasts. There shouldn’t be less than a thousand of them residing in the cave.”

A thousand...

That was her roughest estimate.

Of course, that was the lowest estimate.

Huang Xiaolong nodded his head. If there really were a thousand dragonian beasts, he would look extremely cool if he made them follow behind him. As Huang Xiaolong had the Huang Long Bloodline, his true form was that of a Golden Dragon anyway. He found the dragonian beasts somewhat to his liking.

“Is the Dragon Cave owned by anyone?” Huang Xiaolong couldn’t help but ask.

Li Wei looked at her guards, and they replied respectfully, “We heard the owner of the Dragon Cave possessed unfathomable strength. Several people said that they met the owner of the Dragon Cave, but no one knows if they’re telling the truth.”

“Oh? Unfathomable strength?” Huang Xiaolong raised an eyebrow in surprise.

“Yes. Not even we know how strong he is. I heard that the world master of the Heavenly Flame Holy World exchanged blows with him in the past, but no one knows the outcome of the battle. The world master is an expert who comprehended all thirteen elements to the perfection level!”

A sense of worship filled the two of them when they spoke about the world master of the Heavenly Flame Holy World.

To them, he was an existence akin to the gods!

Even though they were in the Shi Li World, the world master of the Heavenly Flame Holy World was considered an expert who stood at the peak of the power pyramid!

Huang Xiaolong couldn't help but turn a little curious.

An hour passed in the blink of an eye as they continued onwards.

"Dragon Heart Grass!" Li Wei saw a stalk of golden herb on the mountain range up ahead, and she yelled in shock.

When Huang Xiaolong turned to look at the herb, he discovered an alluring golden stalk of the herb swaying in the wind.

After exclaiming with joy, Li Wei leaped into the air with her guards and arrived before the herb. Just as she was about to grab the stalk, a giant claw descended from the void.

By the time her guards saw the claw, they knew that it was too late to react. They might not know how strong the other party was, but they knew that it was the strongest dragonian beast they met since entering the Dragon Cave.

If the claw were to land, they would definitely die a horrible death.

As they made their preparations to say farewell to the world, the claw stopped in mid-air. It was as though it struck an invisible wall.

The two of them sucked in a cold breath in shock.

"Relax and collect your herb." A calm voice rang in their minds.

It was none other than Huang Xiaolong.

Snapping back to reality, they didn't dare to delay any further. Retrieving the Dragon Heart Grass, they returned to the ship. When they stepped onto the flying ship, they heaved a sigh of relief as they never felt so close to death before.

Roar!

Seeing as its treasure had been taken away, the dragonian beast raised its head and released a heaven-shaking roar that caused the earth below to shake.

It revealed its true form immediately, and the experts on the flying ship gasped in fright. It was as large as a mountain!

"How dare you!" With a shake of its body, the beast swiped its claws at the flying ship that was the size of an ant compared to itself.

Huang Xiaolong didn't even bother looking at the beast that was comparable to a Dao Ancestor who comprehended seven elements. With a flick of his wrist, he sent it flying into the mountain range below.

Boom!

The massive beast shattered countless peaks along the way as the heavens trembled under the horrifying pressure.

Li Wei and the others stared at Huang Xiaolong with their mouths agape.

"Let's go." Huang Xiaolong crossed his arms behind his back and declared.

Snapping back to reality, Li Wei nodded like a wooden chicken before ordering them to proceed onwards.

In order to create the medicine, they needed two stalks of Dragon Heart Grass. They needed to locate one more.

Before they left, Huang Xiaolong casually looked at a spot in the void in the distance.

Sometime after Huang Xiaolong's group left, a group of experts emerged from the void.

Chapter 3447: Chaos Essence Dragon Phoenix Egg

If Li Wei saw them, she would definitely recognize the armor they were wearing.

When they emerged, they looked in the direction of the flying ship and one of the young men in the group said, "He's pretty strong... How many elements do you think he has comprehended? Eight? Nine? Ten?"

The person standing in the middle of the group, an absolute beauty, muttered, "He should have comprehended ten elements..."

"How... How is that possible?"

"That's impossible! We didn't hear of anyone matching his description in the Shi Li World!"

Those standing around her frowned.

Ordinarily, one would be extremely famous in the Shi Li World if one comprehended ten elements.

"He might not be from our world..." The beauty muttered.

"Who cares if he is! Even if he comprehended ten elements, it doesn't matter! We're on the Fourth Princess' order to find the Chaos Essence Dragon Phoenix Egg! If he dares to ruin our plan, I'll chop him up with my axe!" a tough-looking man in the group who had a beaded face, growled.

Those standing around chuckled, but the lady sighed in disappointment, "Stop acting so barbaric all the time!"

The bearded man could only smirk in amusement.

A moment later, all six of them left.

In the following days, Huang Xiaolong captured several more dragonian beasts. They might be strong, but they were nothing compared to the beast that was protecting the Dragon Heart Grass.

They couldn't find the remaining stalk no matter how much they looked.

Of course, herbs at that level would be rarely seen no matter how optimum the environment was for its growth. However, Li Wei started to panic.

"Relax. As long as there are any Dragon Heart Grass left, we will definitely be able to find it," Huang Xiaolong muttered.

"Yes..." Li Wei replied hastily.

As they continued onwards, Huang Xiaolong sucked in a breath of dragon qi as it became denser in the air around him. "The dragon qi here is really pure..."

One could only imagine how high-quality it was if Huang Xiaolong showed his appreciation for it.

Li Wei giggled, "You're right! In the depths of the Dragon Cave where the cave master resides, it's said that the dragon qi in the air is so thick that crystals can be condensed from it! There have been experts who found many dragon spiritual stones there. One of them that was the size of a palm sold for a hundred million dao coins!"

"Oh? Is that so?" Huang Xiaolong chuckled. "Then we should really take a stroll in the depths of the Dragon Cave. Let's see if we can find a few of those."

The dao coins in the universe he was in were different from those in the Blazing Dragon World. As such, Huang Xiaolong's wealth was useless there! Of course, he had tons of treasures in the Sun Moon Furnace. He could easily sell away a few of them for an astronomical amount!

Li Wei giggled. "You're messing with me! With your strength, why will you be short of dao coins?"

She realized that her compensation amount was like a joke in Huang Xiaolong's eyes.

Several more days passed.

Other than meeting a dozen or so dragonian beasts, Huang Xiaolong managed to obtain several dragon-attributed spiritual herbs.

Huang Xiaolong managed to obtain a huge portion of them after killing experts who were also there on adventure. There were many dao artifacts among them, but other than the high-grade ones, he gave everything to Li Wei's group.

The respect and awe they had for Huang Xiaolong grew by the day.

"Dragon Heart Grass!" Li Wei pointed towards one of the mountain peaks ahead and yelled with joy.

Turning to look at the mountain peak ahead, Huang Xiaolong saw the golden herb emitting dazzling radiance.

Li Wei wasn't the only one who was surprised. Her guards were equally as stunned.

They finally found the other stalk!

The guards behind Li Wei became a lot more obedient this time. They didn't rush out like before.

Indeed, Huang Xiaolong flicked his finger and a giant dragonian beast appeared. The beast had wings and a row of spikes growing out of its back. The aura it emitted was terrifying, and it was definitely stronger than the beast from before.

“Sword Dragon!”

Li Wei and the others gasped in unison.

A Sword Dragon was one of the strongest types of dragonian beasts! It was faster and stronger than the beasts of the same level.

Huang Xiaolong grabbed at the void, sealing the sword dragon off immediately. He tossed it into the Sun Moon Furnace like before. Even though it was comparable to an expert who had comprehended nine elements, it was nothing more than a newborn chick compared to Huang Xiaolong.

If he had to compare the beast to someone, it would definitely be stronger than Yuan Tianyi who hunted him down in the past.

Seeing as Li Wei and the others were still stuck in a daze, Huang Xiaolong could only remind them to pick the herb.

After retrieving the herb, Huang Xiaolong got them to go even deeper.

A month passed in a flash, and in the month that they had been in the Dragon Cave, Huang Xiaolong managed to collect more than five hundred dragonian beasts. As they neared the depths of the cave, those he caught were comparable to experts who had comprehended 10 elements.

He collected herbs and dao artifacts along the way, and he even found several top-grade spiritual veins that were of the dragon attribute! Just those themselves were worth trillions!

However, that was nothing but chump change to Huang Xiaolong.

There wasn't a need to mention a trillion dao coins when quadrillions were the units Huang Xiaolong used to classify pocket change.

Li Wei and the others felt like they were in a dream when they saw the number of treasures he collected.

"Huh?" Huang Xiaolong saw a massive secret region appearing in the distance all of a sudden.

There were two massive eggs in it, and the color on the shells were exactly the same. Dragon qi swirled around the eggs, but that wasn't all. There was a trace of phoenix qi and chaos essence qi around the eggs.

"That... Those are Chaos Essence Dragon Phoenix Eggs!" Li Wei yelled.

"Oh?" That was the first time Huang Xiaolong heard of those.

Li Wei explained, "The eggs are laid after a Chaos Essence True Dragon mates with a Chaos Essence Phoenix. The moment the eggs hatch, the baby would possess extreme talent!"

Huang Xiaolong nodded his head slowly.

He knew about the dragon and the phoenix.

If that was really the case, the eggs would definitely be a treasure that surpassed the worth of everything he obtained in the Dragon Cave thus far!

Six figures flew over when Huang Xiaolong decided to retrieve the eggs.

Chapter 3448: Northern Court Heavenly Empire

"Haha! The eggs are really here! There are even two of them!"

“The Fourth Princess will definitely be overjoyed by our discovery this time!”

Amidst their laughter, they passed the flying ship while ignoring Huang Xiaolong’s group completely.

When Li Wei and the others saw the insignia on their robes, their faces changed instantly.

“Northern Court Celestial Empire!”

By the time their yells filled the air, the six of them had already arrived before the eggs. Right before they accomplished their mission of obtaining the eggs, a shockwave sent all six of them tumbling through the air.

Setting with rage, all of them turned to stare at Huang Xiaolong.

“What do you mean by this?!” They snapped in unison while glaring at Huang Xiaolong.

“What do I mean?” Huang Xiaolong looked at them with an expression of mockery on his face. “Do I have to remind you that I’m the one who found the treasure?”

The six of them stared at him in shock.

They hadn’t thought of that before.

After all, every expert in the area would clear out the moment they noticed members of the Northern Court Celestial Empire. No one would be crazy enough to fight with them over something.

“Are you sure you wish to fight with my Northern Court Celestial Empire for these eggs?” the beauty among them snarled. Even though she was threatening Huang Xiaolong, her voice was pretty soothing to the ears.

“Sorry, I haven’t heard of your celestial empire.” Huang Xiaolong crossed his arms behind his back and smiled. “You better get this straight though... Are you sure you wish to offend me in order to obtain the treasure?”

Huang Xiaolong couldn’t care less if he had the eggs or not. However, their actions irritated him. First, they ignored the entire group when approaching the eggs, and now, they were threatening him!

Those annoying flies really irritated him...

The faces of the six experts from the Northern Court Celestial Empire turned somber.

Li Wei and the others felt panic rising in their hearts.

“Sir, those people are from the Northern Court Celestial Empire! Shouldn’t we...” Li Wei tried to dissuade Huang Xiaolong from going any further.

That was the Northern Court Celestial Empire!

There were only two of those in the Shi Li World!

World Masters of holy worlds were abundant in the Shi Li World, and the Myriad Stars Palace was but a creed-level power. If the Northern Court Celestial Empire wanted to wipe them out, it was but a word away!

Huang Xiaolong stopped Li Wei before she could complete her sentence.

The rugged bearded man waved the axe in his hand, and he roared at Huang Xiaolong, “Brat, do you really think you’re special after comprehending ten elements to the perfection level? Hahaha, our Fourth Princess requested us to bring back the eggs. If you know what’s good for you, scram! Otherwise...”

Before he could finish his sentence, Huang Xiaolong flicked his finger and a ray of light stuck the axe the man was so proud of. Crashing through countless mountain ranges, his axe crumbled into a million pieces.

The other five stared at him with their eyes wide open and a seed of fear was planted in their hearts.

The man who was sent flying had comprehended nine elements to the perfection level, but he couldn't even stand up against a single strike!

That wasn't all. They were surprised by the shattered axe! That was a high-grade dao artifact they were talking about! Moreover, the bearded man had nurtured it for countless years with his blood essence.

"Don't you think you went too far?!" The beauty in the group snapped with a frosty expression. "You won't be able to gain anything from this!"

"Too far?" Huang Xiaolong remained extremely calm. "I already showed mercy by not killing him. In fact, you guys should be thanking me for my benevolence."

Their expressions changed once again.

"She should be someone from our Shi Li World..." The lady looked at Li Wei and the flying ship they were on. "You might not be afraid of us, but what about them? Their entire faction might be exterminated because of your actions."

Her threat couldn't get any clearer.

Indeed... Fear appeared in the eyes of those from the Myriad Stars Palace.

A smile formed on Huang Xiaolong's face. "So we're resorting to threats now? Do you believe that I'll strip you naked right now and seal off your true qi? I'll leave you here as a gift for the beasts or anyone who passes by!"

Panic set in immediately as she took several steps back. Even though she didn't believe that Huang Xiaolong would do as he said, she wasn't willing to take the chance. If he followed through with his threat, wouldn't that mean...

"I am the marshal of the Northern Court Celestial Empire, Lu Ting! How dare you?!" she roared angrily before releasing her aura. She was an expert who had comprehended ten elements to the perfection level!

Raising an eyebrow in amusement, Huang Xiaolong continued, "Oh? Marshal of the empire? This makes me even more inclined to try it out."

"You!" The sword in her hands started to buzz as her face turned green with anger.

"Marshal, we'll join hands to take him down!" One of her subordinates stepped forward while glaring at Huang Xiaolong.

Lu Ting's expression sank, but she managed to suppress her fury. "We'll meet again."

After she spoke, she brought the other five away. In the blink of an eye, they disappeared into the vast space above.

Before the bearded man left, he sent one last glare towards Huang Xiaolong.

Watching them leave, a chuckle left Huang Xiaolong's lips before he turned to look at the eggs. Even though the eggs wouldn't be hatching any time soon, Huang Xiaolong could feel the shocking amount of life force growing within. Even if he refined the eggs, he might be able to gain some benefits.

"Sir, about the Northern Court Celestial Empire..." Li Wei squeaked.

"There's no need to worry." Huang Xiaolong laughed as he kept the eggs in the Sun and Moon Furnace. "Tell me more about them."

“Yes.” Li Wei quickly told him everything she knew. However, the Northern Court Celestial Empire and the Myriad Stars Palace were existences on two different scales! She could only paint him a general outline.

There were two celestial empires in the Shi Li World. One of them was the Shi Li Celestial Empire, and the other was the Northern Court Celestial Empire. The Fourth Princess of the Northern Court Celestial Empire was extremely favored by the celestial emperor, and she was an expert who comprehended the twelve elements! Her reputation in the celestial empire was like a sun in the sky, and she was ranked among the top ten experts of the younger generation!

Li Wei felt her heart pounding with fear after she explained the situation to Huang Xiaolong.

“There’s nothing to worry about. If she moves against your Myriad Stars Palace, I’ll deal with it.”

Thanking Huang Xiaolong profusely, Li Wei had no choice but to believe him.

Traveling for another month, they closed in on the deepest part of the Dragon Cave.

“Sir... Shouldn’t we start heading out?” Li Wei hesitated slightly before asking Huang Xiaolong.

Dragon qi filled the space before them and everyone could feel a horrifying pressure coming from the deepest part of the Dragon Cave.

After thinking about it, Huang Xiaolong muttered, “Wait for me here. I’ll be back in three days.” Laying down a formation to protect their flying ship, Huang Xiaolong flew deeper into the Dragon Cave alone.

Chapter 3449: Expert with Six Ancient Bloodlines

Two days later, Huang Xiaolong arrived at the deepest part of the Dragon Cave.

He took so long as he went around capturing more dragonian beasts.

Of the dozens that he caught, all of them were comparable to experts who had comprehended twelve elements to the perfection level. There were even two that were comparable to experts who had comprehended all thirteen elements to the perfection level. As for the strongest among them, he had already formed grand cosmos energy.

In fact, the strongest of the beasts had accumulated 100 million units of grand cosmos energy!

No matter which celestial empire Huang Xiaolong threw the beast into, it would be considered a peerless expert!

Just as he approached, a heaven-shaking roar caused the space around them to tremble.

Huang Xiaolong was slightly taken aback.

With his abilities, he could see two experts fighting in the depths of space before him. Both of them were extremely close to entering the God of Creation Realm!

Either one of them could beat Huang Dinghai up into a pulp. In fact, they were even stronger than Huang Jia who was devoured by Huang Xiaolong.

That meant that they were stronger than experts who had 1.2 billion units of grand cosmos energy!

Huang Xiaolong released his dao souls before proceeding towards the battlefield.

Dragon qi was rampaging around the depths of the Dragon Cave and it was more than enough to tear an expert who had comprehended thirteen elements to perfection level to shreds. Of course, that couldn't stop Huang Xiaolong. He strolled in like it was nothing.

It didn't take long for him to arrive.

He could see that one of the parties involved in the fight was a twin-headed dragon! It had one white head and one black head, and Huang Xiaolong was surprised to discover the existence of a beast like that!

That was the first beast of its kind...

Huang Xiaolong was sure that it was the only one in the universe!

The twin-headed dragon released a dragon breath that was a combination of powers. The power of reincarnation, life and death, and yin and yang was contained in the blast.

The dragon's opponent was a giant. From the looks of it, they were both existences who were created along with the universe. There was a deep blue glow in his eyes, and it held six different pseudo-creation artifacts in its six arms! There was a blade, a sword, a halberd, an axe, a spear, and a hammer! When he swung all six of them, it was as though the world itself was descending on his opponent!

Moreover, the giant looked like he had six different ancient bloodlines!

Huang Xiaolong had seen geniuses with three ancient bloodlines, but that was the first one he had seen with six of them! The giant had shattered the laws of the universe! It was somewhat like his creation of three worlds... It was a miracle that wasn't meant to happen! Of course, creating three worlds was of a much higher level than possessing six ancient bloodlines.

"Gu Yuan, the universe-level spiritual vein belongs to my Dragon Cave! Don't even think about it!" the dragon roared with all his might.

The giant snorted in contempt, "Long Yi, if I can't get it, neither can you!"

Huang Xiaolong smiled when he heard their conversation. It seemed as though there was an actual treasure in the Dragon Cave!

The things he lacked the most were universe-level spiritual veins and creation pills! As long as he had enough of it, he was sure that he could accumulate 1.2999 billion units of grand cosmos energy in his third world!

Huang Xiaolong grinned, and the fluctuations revealed his location to the two who were locked in a bitter battle.

“Who?!”

Roaring with rage, they released their aura completely. A horrifying shockwave traveled towards Huang Xiaolong and cracks started appearing in the void around them.

They were existences who were infinitely close to the God of Creation Realm. No matter how casually they released their attacks, it was something that would crush a dao venerable who had comprehended thirteen elements.

Revealing himself, Huang Xiaolong stood his ground as he looked at the two of them.

Huh?!

They stared at him in fright.

“I wonder who fellow cultivator is...” Gu Yuan asked while staring straight at Huang Xiaolong. Long Yi shifted his focus to Huang Xiaolong as the two of them realized the threat the newcomer posed.

Huang Xiaolong didn’t care about their reaction, and he chuckled, “I’m Huang Xiaolong.”

“Huang Xiaolong?” Frowns formed on their faces. They hadn’t heard of him before, but from the strength he displayed, he shouldn’t be some nameless junior.

“I didn’t think that the Dragon Cave would hold a universe-level spiritual vein.”

Killing intent surged through their hearts when they heard what Huang Xiaolong said.

“Hehe...” The twin-headed dragon sneered, “Brat, are you sure you’re strong enough to set your sights on the spiritual vein?” It licked its lips and continued, “The bloodline in your body isn’t any weaker than Gu Yuan. If I devour your blood essence, I’ll probably be able to enter the God of Creation Realm!”

Gu Yuan and Long Yi had already reached the peak of the Dao Venerable Realm. They were a mere step away from breaking through, and they were looking for all sorts of methods to enter the God of Creation Realm. They wouldn’t pass up any chance of advancing!

Gu Yuan stared at Huang Xiaolong with an equally greedy look in his eyes.

Chuckling with amusement, Huang Xiaolong explained, “You’re right. My bloodline is one of a kind, and if you devour my bloodline, you’ll definitely be able to enter the God of Creation Realm. However, are you sure you’re my match?”

Gu Yuan and Long Yi stared at Huang Xiaolong in shock.

How is he so confident in himself?!

“I, Gu Yuan, have traveled through countless worlds. I’m the strongest existence under the God of Creation Realm! I refuse to believe that you’re better than me!”

It was no wonder he was so confident in himself. He had six ancient peerless bloodlines, and he was definitely unbeatable by experts who weren’t Gods of Creation. If not for the dragon essence and dragon qi in the Dragon Cave, Long Yi wouldn’t be his match either!

Chapter 3450: 2.5 Billion?

Huang Xiaolong wasn’t enraged when he heard the challenge. Instead, he laughed, “Alright, who’s coming up first? Why don’t you work together?”

Gu Yuan and Long Yi frowned while staring at Huang Xiaolong.

A trace of rage filled Long Yi's heart. He glared at Huang Xiaolong and growled, "We don't have to work together to kill someone like you!" He appeared before Huang Xiaolong with a shake of his body. "I, alone, am enough to kill you!"

His claws came crashing down towards Huang Xiaolong's head after the words left his lips.

The power of nearly 2.1 billion units of grand cosmos energy descended from the void as it shattered the space around them.

The cave started to rumble violently.

As the master of the Dragon Cave, Long Yi's rage could shake the entire space.

Seeing as Long Yi had already made his move, Gu Yuan chose to watch from the side. He wanted to watch how strong the arrogant kid was.

Huang Xiaolong remained calm as he looked at the giant claws falling from the skies. Revolving the Soaring Dragon Art, his first world started to rotate in his body. His fists flew out to welcome Long Yi's attack.

A heaven-shaking explosion rang through the skies and Long Yi was sent flying into the mountain range below. He only stopped after landing countless miles away.

Gu Yuan stared at Huang Xiaolong in shock. He didn't expect Huang Xiaolong to be so strong!

"1.2999 billion units of grand cosmos energy!" Gu Yuan gasped.

Both Long Yi and himself were at that level. The number of people who could challenge them was close to none, and the only person Gu Yuan would admit as his opponent was Long Yi! Today, he found another one!

From the looks of it, Huang Xiaolong seemed to be a lot stronger than Long Yi!

As the cave master of the Dragon Cave, Long Yi was a god-like existence! He was also the only Black and White Dragon in the universe, and his combat abilities were unparalleled! Even so, he was on the losing end when matched up against Huang Xiaolong.

When Long Yi got to his feet, he felt his entire body hurting as his claws trembled in pain.

He felt as though his claws slammed into an unbreakable creation artifact when they met Huang Xiaolong's fists earlier.

Long Yi's surprise was on another level compared to Gu Yuan. He didn't expect anyone's fleshy body to be terrifying to such an extent. Even with his one-of-a-kind physique that was regarded as unparalleled under the heavens, the youngster standing before him was several times stronger!

Long Yi widened his eyes as he stared at Huang Xiaolong. A trace of caution flashed through them.

Of course, he was merely cautious. He could feel that Huang Xiaolong wasn't a God of Creation. As such, he didn't think that Huang Xiaolong would be able to do anything to him.

Gu Yuan broke the silence, "Your strength has surpassed my expectations. You're definitely stronger than both of us, but it won't be easy for you to obtain the spiritual vein! If we join hands, we'll be more than capable of defeating you!"

"Is that so? What makes you think that I used my full strength earlier?" Huang Xiaolong chuckled.

Indeed. He only used the power of his first world.

If he used all three worlds, more than 3 billion units of grand cosmos energy would be released! Long Yi would have turned into mush!

No matter how special Long Yi's existence was, it was useless against pure strength.

Gu Yuan and Long Yi frowned instantly. How could he be holding back? The strength he revealed was terrifying enough, and there was no way he was still hiding his power.

Earlier, he revealed 1.2999 billion units of grand cosmos energy. Unless he was a God of Creation, there was no way to be stronger... Or so they thought.

“Since you’re so sure, we shall work together.” Gu Yuan nodded at Long Yi, “What do you say?”

“Alright.” Long Yi agreed without a shred of hesitation.

No longer holding back, they released their aura completely. Long Yi’s body emitted brilliant rays of light that lit up the Dragon Cave. It was the first time Huang Xiaolong experienced the true power of a unique existence like Long Yi.

However, Gu Yuan’s revelation was more shocking to Huang Xiaolong. All six ancient bloodlines in Gu Yuan’s body were activated, and six heavenly rivers appeared above his head. It was as though he had turned into a true god capable of controlling the universe.

They snorted once before charging towards Huang Xiaolong in unison. All six pseudo-creation artifacts in Gu Yuan’s hand slashed at Huang Xiaolong while Long Yi utilized the dragon qi in the depths of the Dragon Cave.

A thousand black and white dragons were created from the dragon qi.

The combination of a soul-sucking darkness and a sea of endless white would bring despair to anyone who looked at them. They were also capable of attacking the soul.

Huang Xiaolong remained impassive as he looked at the two of them. With the Blazing Dragon Grand Art and the Soaring Dragon Art, two worlds started to spin in his body. A golden dragon appeared behind him and the might of a creation-level beast tore through the void.

Gu Yuan and Long Yu stared at the dragon behind Huang Xiaolong, and they screamed in terror.

“Golden Dragon of Creation!”

Huang Xiaolong didn't bother listening to their cries as he made his move. Of course, he didn't use the Huang Long Armor Set or the Pangu Axe. He simply charged at them with his fleshy body.

Bang!

When he slammed into them, they felt as though they crashed straight into a massive holy world. The impact could only be imagined as they felt the bones in their body cracking.

Shooting through the space, the two of them felt their bodies breaking down. Not even their dao souls were spared.

They spat out mouthfuls of blood when they finally landed on the ground, and they disregarded their injuries as they stared at Huang Xiaolong in fear.

“You... How can you possess 2.5 billion units of grand cosmos energy?!” Gu Yuan's heart was filled with terror as he asked.

If they knew that he was hiding the strength of his third world, they would probably feel a lot less amazed with his revelation. It was too bad they didn't!

“2.5 billion?” Huang Xiaolong chuckled. Slowly circulating the Pangu World Creation Art, Huang Xiaolong decided to show off a little.
