Chapter 3461: Yin Yang Source Vein!

“Third Young Master, is there really a universe-level spiritual vein in the Ice Palace?” a white-browed expert asked.

Gao Boyang looked at the man before muttering, “That's what we heard. No one knows if that's actually true. However, many world masters are here to try their luck.”

His father, the world master of the Floating Light World, was also there for the rumored universe-level spiritual vein.

“There are rumors that there are more than a single universe-level spiritual vein in the Ice Palace...” Gao Boyang muttered.

Everyone stared at him in shock.

“Third Young Master, what do you mean?”

“It's said that the universe-level spiritual veins in there were formed at the same time. They seem to be related to each other, and if you find one, you'll be able to find the other,” Gao Boyang explained.

Twins?!

“There should be a universe-level spiritual vein in the Dragon Cave too!”

“How is that possible!”

Gao Boyang continued, “Well, there might be one, but no one has been able to locate it. Only people with ungodly luck will be able to find treasures like a universe-level spiritual vein.”

Of course, he had no idea that Huang Xiaolong had not only obtained the universe-level spiritual vein, but had also refined it.

...

Half a day later...

Huang Xiaolong and the others saw a giant ice valley in the ground below.

“Your Highness, it looks like we came to the right place!” Long Yi grinned.

Huang Xiaolong chuckled in response.

They had just learned about the presence of the Yin-Yang universe-level spiritual vein.

Gu Yuan muttered, “I heard that Lord Shi Li will be here too...” His expression turned solemn.

That was a God of Creation! The strongest expert in the Shi Li World! He was a God of Creation who had reached the large completion stage! Moreover, he wasn’t any ordinary expert. He had entered the large completion stage a long time ago...

“How strong do you think Shi Li is?” Huang Xiaolong asked all of a sudden.

The three of them fell silent in an instant.

There wasn’t a good way to estimate Shi Li’s strength!

“Probably... Probably 4 billion units of grand cosmos energy or more...” Gu Yuan eventually replied.

4 billion!

That was only Gu Yuan's initial estimate! Even if Shi Li didn't possess so much grand cosmos energy, he wouldn't be too much weaker. No one could be sure that Shi Li didn't run into some sort of fortuitous encounter in recent years. If he did, his strength would far surpass that level.

"4 billion..." Huang Xiaolong muttered to himself.

At that moment, he was closing in on 3.9 billion units of grand cosmos energy. He was willing to take the risk to battle Shi Li with the help of the Pangu Axe!

After devouring the Dragon Marrow he obtained in the Dragon Cave, the Pangu Axe could be said to have recovered quite a bit of its strength!

However, if he could obtain the Heart of Ice and the Ice Marrow, the Pangu Axe would definitely grow even stronger!

"Alright! We'll head into the Ice Palace!" Huang Xiaolong tore through the air and soared straight for the Ice Palace.

Gu Yuan, Long Yi, and Yang Han followed closely behind.

The Ice Palace was located deep in the Ice River and even with their speed, they would need three months to arrive.

When Huang Xiaolong and the others were rushing over, a huge group of experts from the Northern Court Celestial Empire had already gathered outside the Ice Palace.

With Bei Yanrui in the lead, the various grand marshals of the empire stood behind him. There were countless generals behind them, and their party consisted of more than ten thousand people! Of course, everyone who could appear in the Ice River was an expert who had comprehended the elements.

The Ice Palace stood tall in the middle of the land, and it was millions of miles long!

Mysterious runes swirled around the walls of the palace and weird mirages could be seen from time to time.

There were rumors that said that if one could understand the mysteries behind the runes, they would be able to enter the one-thousandth space!

Even so, the Ice Palace had stood tall for countless years. No one had ever been able to understand the visions or runes.

There was no need to mention comprehending the mysteries behind the runes. Not many people could understand one-ten-thousandth of it.

Those who could uncover the mysteries behind a portion of the runes would be considered monstrous geniuses in the Shi Li World! Anyone who could comprehend one-tenth of the mysteries would be geniuses among geniuses.

The experts who traveled to the Ice Palace stared at the experts of the Northern Court Celestial Empire in fright. Even though there were slightly more than ten thousand people in their entourage, they were more than enough to suppress countless holy worlds.

“Why did so many experts from the Northern Court Celestial Empire come?! It’s too exaggerated, even if they are here to welcome Lord Bei Ting! Did they deploy the entirety of their strength or something?” the world master of the Giant Sentry Holy World muttered.

The Giant Sentry Holy Word was pretty famous in the Shi Li World. The world master had comprehended eleven elements to perfection level, and he could rank in the top hundred experts in the Shi Li World!

“Don’t you know? Something happened in the Northern Court Celestial Empire. Something big!” the world master of the Purple Smoke Holy World whispered. “I heard that the other party is also here in the Ice River World, and that’s the reason behind their mobilization.”

“What in the world is going on?! I emerged from seclusion not too long ago, and something so big happened?! Who’s crazy enough to challenge the Northern Court Celestial Empire?” Ju Bin, the Giant Sentry World Master gasped.

“I have no idea. The empire is extremely strict in keeping the matter under wraps. After all, it’s probably humiliating for them to reveal what happened. From what I’ve heard, Lord Yang Han seems to have fallen into the enemy’s hands. The celestial empire sent many experts over to save him, but none of them succeeded!” Wang Shang, the Purple Smoke World Master said softly.

Ju Bin exclaimed in fright, “What?! Is Lord Yang Han currently held in captivity?!”

Yang Han was the imperial teacher in the Northern Court Celestial Empire. He was the fourth princess’ master, and everyone knew that he had accumulated 1 billion units of grand cosmos energy.

Wang Shang shook his head. “No. He wasn’t held captive. I heard that Lord Yang Han submitted to the other party after he was captured.”

Ju Bin opened his mouth slightly, but no words came out of it. Yang Han actually betrayed the celestial empire!

“Who... Who’s the other party?!” Ju Bin whimpered.

“We have no idea. We only know that the other party has the surname, Huang.”

Ju Bin felt his body trembling violently. “Huang... Huang... Is he related to the Huang Family in the Mu Yang World?!”

“Nope...” A complicated expression appeared on Wang Shang’s face. “He shouldn’t be related to Huang Muyuang, but he might be coming to the Ice Palace.”

?! Ju Bin turned to look at the experts standing all around him.

Guessing Ju Bin's thoughts, Wang Shang continued, "You're right. Everyone isn't here to enter the Ice Palace. They wish to see the guy who challenged the Northern Court Celestial Empire."

One month later...

The news of Lord Shi Li's arrival shook the Ice River World.

Soon after, the news of Bei Ting's emergence from the Ice Palace spread through the lands.

Chapter 3462: Bei Ting

Huang Xiaolong, Gu Yuan, Long Yi, and Yang Han soon received the news.

There was also another piece of news that shook the Ice River World. The members of the Northern Court Celestial Empire weren't leaving! Bei Ting ordered Huang Xiaolong to bring Yang Han to the Ice Palace to meet him!

Huang Xiaolong chuckled in amusement. "Looks like we're going to have to meet Bei Ting for sure." Even without the announcement from Bei Ting, he was headed for the Ice Palace.

Gu Yuan laughed. "The Ice River World is going crazy the moment he made the announcement. Everyone said that they hadn't seen Bei Ting take action for a long time."

Indeed. Any matter that would require a God of Creation to appear personally would be a huge matter.

The reason behind everyone pouring into the Ice River World was to see Bei Ting in action. It seemed as though their wishes were about to come true.

Long Yi smiled. "Actually, I haven't seen a God of Creation make their move in a long time." A look of anticipation could be seen on his face.

"When we arrive at the Ice Palace, you and Gu Yuan can crush the experts of the Northern Court Celestial Empire. Bei Ting will definitely show off his strength by stopping you," Huang Xiaolong joked.

Long Yi jumped in fright. “What?! The two of us won’t be enough to fight Bei Ting! If we broke through to the God of Creation Realm, we might be able to put up a fight. Whatever the case, we’re too weak right now!”

Long Yi and Gu Yuan might possess terrifying physiques and bloodlines, but they knew that they were no match for an actual God of Creation. They would barely be able to resist the attacks of a God of Creation who had barely broken through, but Bei Ting was a seasoned expert! He had nearly 3 billion units of grand cosmos energy!

Gu Yuan forced a laugh, “Your Highness, you can’t let us embarrass ourselves later...”

Huang Xiaolong roared with laughter.

How could he be unaware that the two of them wouldn’t even be able to match up to Bei Ting’s little pinky?

One more month passed.

The Ice Palace was finally within reach.

It was located on endless ice plains, and Huang Xiaolong could see the faint blue glow around the structure even though they were still quite a fair distance away.

Gu Yuan, Long Yi, and Yang Han had complicated expressions on their faces. No matter who it was, they wouldn’t be able to hide their anxiety when they saw the Ice Palace.

“It’s said that the Ice Palace is an extremely powerful creation artifact, to begin with. If anyone can enter the thousandth space within, they would be able to control the artifact.” Gu Yuan sighed.

Long Yi shook his head silently. “Those are just rumors. The Ice Palace fused with the Ice River a long time ago. No one will be able to take it away. Even if anyone arrives at the one-thousandth space within

the palace, they can't control it. Regardless, the fact that there are countless treasures in there cannot be denied. The Yin-Yang universe-level spiritual vein should be located there too."

Huang Xiaolong nodded slightly.

One-thousandth space?

Others might not be able to enter, but Huang Xiaolong felt that he had a chance.

After all, he had the four Universe Origin Fires!

They continued to make their way to the Ice Palace, but they were stopped by a group of experts.

They were members of the Floating Light World Master Manor!

"Father, that's him!" Gao Boyang pointed at Huang Xiaolong.

World Master Gao Chong stared at Huang Xiaolong silently.

"Did you kill four experts from my Floating Light World?" Killing intent flashed in Gao Chong's eyes.

"Nope."

Gao Chong frowned at his response.

One of the experts from the Floating Light World sneered, 'Brat, are you finally willing to lower your head now that the world master is here? Where did your arrogance go?!"

Everyone from the Floating Light World Master Manor roared with laughter.

However, Yang Han stepped forward all of a sudden and declared, "I was the one who killed them."

Staring suspiciously at Yang Han, Gao Chong felt that the person standing before him was somewhat familiar even though he had his head lowered.

"You?! You're just a slave! Do you really think that my father will let you off because you take the blame for your master?" Gao Boyang sneered with contempt.

However, Yang Han raised his head to stare straight at Gao Chong in the next instant.

His action was like a giant sledgehammer that smashed into Gao Chong's chest. Everyone stared at him with incredulous looks on their faces.

As the world master of the Floating Light World, he recognized Yang Han, the imperial teacher in the Northern Court Celestial Empire. In the past, he even received some pointers from the man!

"Lord... Lord Yang Han!" Gao Chong stuttered.

He thought of the news that was spreading through the Ice River like wildfire, and he stared at Huang Xiaolong with fear in his eyes.

Gao Boyang wanted to order Huang Xiaolong and the others to get to their knees, but his mind went blank when he heard what his father said.

Lord Yang Han?!

He failed to make the connection, but the white-browed expert behind him roared in fright, "That... Imperial Teacher, Lord Yang Han!"

The experts of the Floating Light World couldn't believe their eyes.

Seeing as they recognized him, Yang Han growled at Gao Chong and the rest, "Kneel!"

Gao Chong and the others were at a loss for what to do, but Yang Han turned to kneel before Huang Xiaolong. "Your Highness, please spare his life."

Huang Xiaolong flicked his finger, sending Gao Chong flying god knows how many miles away. He slammed straight into the entrance of the Ice Palace.

The ground trembled and the blast rang through the air.

Those standing around the Ice Palace turned to look at the figure who crashed into the Ice Palace, and they gasped in shock, "That... That's Lord Gao Chong! The world master of the Floating Light World!"

Their gazes soon turned to Huang Xiaolong.

"The Huang B*stard," Lu Ting, who was standing behind Celestial Emperor Bei Yanrui, yelled.

Bei Xue, Bei Yanrui, and the experts of the Northern Court Celestial Empire frowned.

Bei Ting's gaze rested on Huang Xiaolong's figure instantly.

In front of everyone, Huang Xiaolong started walking towards the Ice Palace.

A tremendous pressure descended from the void as he made his way over, and Bei Ting's eyes slowly widened in shock. Huang Xiaolong's strength had surpassed his expectations!

Chapter 3463: Surpassed That Level

Before Huang Xiaolong arrived, many world masters said that they would take Huang Xiaolong down on the Northern Court Celestial Empire's behalf. However, none of them dared to make a peep when the demon king was actually walking towards them.

“Young man, you’re pretty strong,” Bei Ting muttered. “As long as you’re willing to admit your mistakes and serve my Northern Court Celestial Empire, I’ll forgive you.”

Everyone stared at Bei Ting in shock, including Bei Yanrui!

“After you enter the Northern Court Celestial Empire, I’ll allow you to follow by my side. You can ask me any questions on cultivation.” Bei Ting continued, “You can ask me anything, including the way to enter the God of Creation Realm.”

The world masters present sucked in a cold breath. They stared at Huang Xiaolong enviously. Every single one there wished to enter the God of Creation Realm, but it was just too difficult! If they had the assistance of a God of Creation, breaking through would be much easier!

Moreover, Bei Ting was an expert who had reached the peak of the small completion stage in the God of Creation Realm!

Not even the celestial emperor, Bei Yanrui, was allowed to follow at Bei Ting’s side! Much less Huang Xiaolong, a complete outsider!

A trace of envy formed in Bei Yanrui’s heart.

When everyone thought that Huang Xiaolong would thank Bei Ting profusely, he muttered softly, “I never had the habit of submitting to anyone else.”

Everyone stared at him with their eyes wide open.

Did he just reject Lord Bei Ting?!

“I don’t need your help to break through to the God of Creation Realm.” Huang Xiaolong shook his head and sighed.

What a joke! Huang Xiaolong's master was the Blazing Dragon, a God of Creation at the grand completion stage! The old dragon was an existence with 9 billion units of grand cosmos energy, and his father, Huang Long, was a God of Creation who had 8 billion units of grand cosmos energy!

Why the hell would he need a God of Creation who hadn't broken through to the large completion stage to guide him? Bei Ting wasn't even as strong as him to begin with!

Bei Ting couldn't even compare to Xuan Hai who was beaten up so badly that he had to run away from Huang Xiaolong with all his might!

A frown formed on Bei Ting's face when he heard the rejection. He didn't expect anyone to reject the teachings of a God of Creation! There would be people dying to take his place!

Staring at Huang Xiaolong, Bei Ting's tone grew colder. "Are you sure? If you follow my teachings, your chances of entering the God of Creation Realm will grow by leaps and bounds!"

"Do you really think that you can break into the God of Creation Realm anytime you wish? You might never be able to break through without my help!"

A flash of cold light crossed his eyes, and he continued, "If you refuse my offer, do you really think that I'll let you leave after you killed so many experts of my empire? According to the rules I set, I'll execute you on the spot!"

Execute him?!

Killing intent filled the skies as soon as he made the declaration!

Everyone felt their hearts turning cold.

However, Huang Xiaolong chuckled nonchalantly, "Excuse me? We'll see if you're capable of that."

Bei Ting's expression sank to the freezing point.

“Old Ancestor, please allow me to do battle!” Bei Yanrui stood out all of a sudden to make his request.

?!

Everyone turned to stare at him in shock.

Snorting coldly, Bei Ting agreed, “Alright.”

Since Huang Xiaolong wasn’t a God of Creation, he felt that Bei Yanrui wouldn’t lose too badly no matter how strong he was.

He really wanted to see the depths of Huang Xiaolong’s strength.

Slowly walking over to Huang Xiaolong, a pair of long swords appeared in Bei Yanrui’s hands. A powerful aura filled the space around him the moment they appeared.

“Twin Dragon Swords!”

Various experts yelled in unison.

The Twin Dragon Swords weren’t at the level of a creation artifact, but they were both pseudo-creation artifacts. When they were used together, their might could rival a creation artifact!

When everyone thought that Huang Xiaolong would fight Bei Yanrui, Gu Yuan stepped out from behind Huang Xiaolong and bowed. “Your Highness, please allow me.”

“No. There’s no need.” Huang Xiaolong shook his head.

Even though Gu Yuan was more than capable of suppressing Bei Yanrui, Huang Xiaolong didn't wish to waste his time with them.

Huang Xiaolong took a step forward and gestured for Bei Yanrui to start.

"Bring out your weapons!" Bei Yanrui tutted. The Twin Dragon Swords in his hands rang incessantly as the dragon qi around his body started to fluctuate wildly. It was clear that he was dying to fight!

"There's no need for that either," Huang Xiaolong muttered.

Everyone looked at him like they were looking at a madman.

"How can he be so arrogant?" Jing Wenxiu, the world master of the Black Jade Holy World, growled.

Jing Wenxiu was the strongest world master in the Shi Li World! His strength was comparable to Bei Yanrui, and he was extremely discontent with Huang Xiaolong's attitude.

"When Bei Yanrui's swords tear through his skin, that kid's expression will be a sight to behold..." Someone else sneered. Everyone there was more than happy to watch Huang Xiaolong embarrass himself.

Bei Yanrui moved instantly. Sword qi filled the air and two giant dragons appeared behind Bei Yanrui. If anyone was struck by the dragons, they would be skewered by countless strands of sword qi!

Seeing as the two dragons were about to turn Huang Xiaolong into a human kebab, he stretched a single hand out to grab the dragons by the neck. The sword qi that filled the air disappeared instantly.

Bei Yanrui's figure appeared in front of everyone.

Jing Wenxiu's eyes widened when he saw how easily Huang Xiaolong dealt with Bei Yanrui! He used his bare hands to counter the attack of an expert who was second to only God of Creation Realm experts!

When everyone was stuck in a daze, Huang Xiaolong's palm landed on Bei Yanrui's chest.

Bang!

A dull thud rang through the air as Bei Yanrui's armor was shattered completely. Huang Xiaolong's energy shot through Bei Yanrui's back, and the celestial emperor was sent flying. He was stopped by the Ice Palace, and the wall shook violently upon impact.

The Twin Dragon Swords stabbed straight into the ground below.

"Your Majesty!"

"Celestial Emperor!"

The experts of the Northern Court Celestial Empire roared and their expression changed instantly. All of them flew towards Bei Yanrui to render their assistance.

Spitting out mouthfuls of blood, Bei Yanrui ignored them all as he stared at Huang Xiaolong in trepidation.

The palm strike that landed on him surpassed anything a Dao Venerable could do! Huang Xiaolong had long since surpassed their level!

Chapter 3464: Warming Up

Bei Yanrui wasn't the only one who was stuck in a state of shock. The world's masters and everyone at their level were equally surprised. Bei Xue and Lu Ting finally understood how Yang Han fell into Huang Xiaolong's hands.

Not even their celestial emperor could take a single strike from the man, much less Yang Han!

However, they didn't know that Yang Han was taken down by Long Yi. Who knew what their reaction would be if they learned the truth?

Huang Xiaolong ignored Bei Yanrui, and he started to walk towards Bei Ting.

Close to 3 billion? It was perfect for him to warm up.

When he fought with Xuan Hai in the past, Huang Xiaolong was unable to go all out. After all, Xuan Hai only knew how to run!

Bei Ting slowly tensed his muscles when he saw Huang Xiaolong walking over. A trace of shock and excitement rose in his heart.

That was the excitement when a hunter had found his prey.

“Who would have thought that anyone would be able to reach such a terrifying level of strength before entering the God of Creation Realm!” Bei Ting stared at Huang Xiaolong with a heated gaze. “You’re definitely the strongest individual under the God of Creation Realm! Your strength should have far surpassed the Ice King!”

“The Ice King would only be able to take you on if he had a clone of himself with the same level of strength... No wonder you’re so confident!”

Bei Ting chuckled.

“Now, I’m curious about your bloodline. How can you be so strong?!”

He started walking towards Huang Xiaolong, and he wasn’t afraid that the youngster would be able to escape. After all, he was a God of Creation and the other party was not!

The various world masters jumped in fright when they heard Bei Ting’s evaluation of Huang Xiaolong.

The Ice King, Old Man Gu Yuan, and Dragon Cave Master Long Yi were the three strongest existences under the God of Creation Realm! It was said that if they joined hands, they would be able to suppress a God of Creation who had just broken through!

How strong was that?!

They could defeat a God of Creation even before breaking through!

However, Bei Ting said that two Ice Kings would barely be able to fight Huang Xiaolong! How could they not be surprised?!

Two Ice Kings?! A sneer formed on Gu Yuan and Long Yi's lips. Even twenty Ice Kings would be stomped to death if they were to go up against the monster called Huang Xiaolong!

When Huang Xiaolong and Bei Ting were standing several hundred feet from each other, they stopped.

"Brat, hurry up and show me what you got. Even if you can fight two Ice Kings, you're not my opponent!" Bei Ting shook his head and sighed. "Alright. I'll cut you a deal. I'll capture you and inspect all the secrets of your bloodline. As long as you agree to take control of the Northern Court Celestial Empire, I'll make you the Celestial Emperor!"

Everyone stared at Bei Ting in stunned silence.

Bei Ting was actually offering Huang Xiaolong the position of the Northern Court Celestial Emperor!

?!

In the next moment, everyone turned to look at Bei Yanrui who was vomiting blood in the crater he formed in the ground.

His expression changed slightly, but he soon returned to his usual appearance. No one could tell what he was thinking.

“There’s no need for that. You can make your move now.” Huang Xiaolong sighed.

What the f...

Everyone thought they had misheard.

Did Huang Xiaolong ask Bei Ting, a God of Creation, to make the first move?!

A strange look could be seen on Bei Ting’s face. “What did you just say?”

“Forget it. I’ll do it.” Huang Xiaolong shook his head in resignation. Circulating the Soaring Dragon Art, Blazing Dragon Grand Art, and Pangu World Creation Art, the power of all three worlds was released.

Boom!

Along with the activation of his full strength, the Ice River World trembled uncontrollably. The billions of creatures in the region fell to their knees in terror.

As fear filled the hearts of the experts around the Ice Palace, Huang Xiaolong made his move.

He appeared before Bei Ting in an instant as his fist shot out. Rays of light blinded everyone around him and Bei Ting finally realized that something was wrong.

Huang Xiaolong’s grand cosmos energy seemed to be even stronger than his! With no time to think, a massive shield appeared in his hand. Countless dragon runes surrounded the shield, and it seemed to contain a myriad of godly dragons. They slowly rose into the skies to form a giant screen to defend Bei Ting.

Bang!

Huang Xiaolong's fist landed on the massive screen of light, and Bei Ting felt his entire arm going numb. Soon, he felt the bones in his arm shattering into pieces.

A searing pain shot up his arm.

He was unable to hold on to his Dragon Shield, it was sent flying into the air.

He was forced to retreat under the frightening power contained in Huang Xiaolong's punch. He left deep footprints in the ground below, and he crashed into the wall of the Ice Palace behind. It trembled from the impact.

After Huang Xiaolong's fist landed on the Dragon Shield, the leftover power swept through the surroundings. There were countless experts standing around who couldn't defend themselves in time, and they were sent tumbling through the air.

Those who were a little weaker saw their divine armor shattering into tiny pieces. Even experts like Jing Wenxiu spat out mouthfuls of blood. Dao Venerables who had only comprehended three to four elements to the grand completion stage exploded into a bloody mist instantly.

That was merely the remnant energy from the exchange! Of course, it wasn't something they could resist.

Those who wanted to see Huang Xiaolong getting his *ss beaten crawled to their feet pitifully, and a strange look formed on their faces.

What in the world did we just see?!

Lord Bei Ting, a God of Creation, was sent crashing into the Ice Palace!

The amount of grand cosmos energy he had closed in on the 3 billion mark, but he couldn't stop the other party even after bringing out his creation artifact!

What the f*ck?!

When they turned to look at the Dragon Shield that was lying a fair distance away, not a trace of its former splendor could be seen. Did the dragon runes shatter completely?!

Bei Yanrui, Bei Xue, Lu Ting, and the experts of the Northern Court Celestial Empire stared at their old ancestor silently. The world started to crumble around them.

Huang Xiaolong ignored all of them and made his way over to Bei Ting. He shook his head inwardly. Bei Ting was far too weak compared to Xuan Hai!

Even though Xuan Hai only had 200 million units of grand cosmos energy more than him, it was a number that separated them from the large completion stage!

It seemed as though Bei Ting wasn't enough for Huang Xiaolong to warm his muscles.

"You... How is this possible?! How did you create three small worlds?!" Bei Ting jumped to his feet and roared in fright. It seemed as though he had seen the most terrifying of monsters in all the land.

Chapter 3465: Ice Palace?

Bei Ting wasn't the only one in disbelief. Everyone else couldn't believe what they were seeing either.

How did someone create three small worlds?!

There were more than fifty great worlds in the Meng Tian Universe, and there were trillions of creeds. Not a single person managed to create a second small world, much less a third!

This...

"Do you really wish to know?" Huang Xiaolong had noticed the burning gaze in Bei Ting's eyes a long time ago.

Huang Xiaolong sneered to himself. Even at this time, Bei Ting was still thinking about obtaining Huang Xiaolong's secret!

A sneer formed on his face.

Standing with his back straight, Bei Ting looked at Huang Xiaolong and grinned, "Of course, I would! If I manage to get my hands on such heaven-defying power... Hehehe..."

If he managed to create two more worlds, wouldn't he possess nearly 9 billion units of grand cosmos energy at his current level?!

He would close in on 9 billion units of grand cosmos energy before entering the large completion stage! He would be comparable to God of Creation Realm experts at the grand completion stage!

A third eye appeared on his forehead after he spoke!

It was a dragon's eye that was filled with draconic runes!

It was an innate ability he was born with, and he called it the Mysterious Dragon Eye! It possessed extraordinary might!

A blinding ray of light shot out from his third eye, and they were like mini dragons that filled the space around him.

The beams of light seemed to tear through the fabric of time and space and everyone present started to see weird mirages.

All the evil thoughts they had in the past raced through their minds.

As they tried their hardest to suppress their unease, they realized that it was useless!

Not even Gu Yuan and Long Yi could control themselves.

Huang Xiaolong stopped walking as a dazed look appeared on his face.

Excitement filled Bei Ting's heart. Huang Xiaolong might possess more grand cosmos energy than him, but his Mysterious Dragon Eye contained the power only a God of Creation would possess! It had never failed him in the past, and he was confident that he could control Huang Xiaolong now!

"What is your name?" Bei Ting asked.

"Huang Xiaolong."

Heaving a sigh of relief, Bei Ting felt as though Huang Xiaolong had finally fallen under his spell. Even so, he wanted to ask several more questions to confirm his guess.

Huang Xiaolong replied obediently as the smile on Bei Ting's face grew wider.

Thinking that it was time to search through Huang Xiaolong's memories and thoughts to find the secret behind the creation of his three small worlds, he waved his hand to form a dragon imprint that shot towards Huang Xiaolong. As long as it entered Huang Xiaolong's body, he would seal off the kid's strength!

When that happened, Huang Xiaolong would be unable to resist his soul search!

It entered Huang Xiaolong's body with ease, and happy laughter escaped Bei Ting's lips.

As his laughter filled the skies, an axe appeared above his head and chopped downwards.

The axe contained the power to shatter worlds, and not even Bei Ting could imagine the power contained within.

When it came slashing downwards, Bei Ting yelped in fright before summoning all the strength he had to defend himself.

Like a bubble, his defensive aura popped, and he raised his hands in a desperate attempt to stop the Pangu Axe.

Slicing straight through his body, Bei Ting felt his body turning stiff, and he lowered his head to stare at the bloody line running through him. A searing pain shot through his body, and it affected his dao soul.

Never in his life had he ever felt so much pain! Especially after he broke through the God of Creation Realm, life had been great!

“You... How can you be unaffected by my Mysterious Dragon Eye?!” Bei Ting roared as his body twitched uncontrollably from the pain he felt.

“I was... Too bad you missed the chance,” Huang Xiaolong muttered.

Initially, Huang Xiaolong was stuck under the effect of the Mysterious Dragon Eye. However, Huang Xiaolong used the power of his three dao souls to shatter the influence the Mysterious Dragon Eye had on him.

The moment he stopped the connection, the power of 3.8 billion units of grand cosmos energy broke the seal that went into his body.

Bei Ting chuckled in resignation, “Who would have thought that I would fall at the hands of an ant...” After he spoke, light surrounded his body, and he disappeared from everyone’s sight.

Huang Xiaolong slashed the Pangu Axe into the void and a miserable cry rang through the air.

However, the sound quickly disappeared and a frown formed on Huang Xiaolong’s face. It seemed as though Bei Ting managed to escape.

As a God of Creation, Bei Ting would definitely be able to outrun Huang Xiaolong as Xuan Hai did.

With his expression changing slightly, Huang Xiaolong decided against giving chase. Even if he could catch up with Bei Ting, he would have a hard time killing the other guy. Even an ordinary God of Creation at the large completion stage would find it hard to kill Bei Ting!

It seemed as though he had to break through to the God of Creation Realm as soon as possible! If he was a God of Creation, Bei Ting would never have been able to escape!

When the members of the Northern Court Celestial Empire saw their old ancestor fleeing for his life, their expressions turned ashen.

Huang Xiaolong looked at everyone around the Ice Palace and they fell to their knees in fright.

His gaze eventually landed on Bei Yanrui, Bei Xue, and Lu Ting.

Bei Yanrui lowered his head as he kneeled on the ground, and he didn't dare to look Huang Xiaolong in the eye. Bei Xue and the others were the same.

None of them dared to breathe loudly.

"All of you can leave," Huang Xiaolong muttered when they were thinking about all the ways he might get back at them.

Staring at him in shock, the members of the Northern Court Celestial Empire didn't believe their ears.

"I'll give you one minute. Anyone who remains here after a minute will be dealt with."

Not wasting a single second, all of them fled immediately. It took a single breath of time for the entire space to clear out! The only people left were Gu Yuan, Long Yi, and Yang Han.

Huang Xiaolong wasn't in a rush to enter the Ice Palace. He stood above the palace as he observed the mysterious runes around the Ice Palace.

Chapter 3466: Alarming Countless Parties

The runes surrounding the Ice Palace were extremely profound! One would need an extremely long amount of time to comprehend a single one, not to mention the countless runes on the walls! Even staring at the walls would exhaust one's mental energy!

Not even Gu Yuan and Long Yi could stare at the Ice Palace for long! They would need to take a break ever so often.

There was no need to mention Yang Han. He couldn't last a single day!

As Huang Xiaolong stared at the mysterious runes swirling around the Ice Palace, he felt a strange feeling forming in his heart. The runes were like mischievous children who were playing around! He also noticed that the four Universe Origin Fires started to flutter in his body the more he looked at the runes!

It was as though the four Universe Origin Fires had met their long-lost friend!

Huang Xiaolong was taken aback.

Could the fires have seen the Ice Palace somewhere before?

Huang Xiaolong was right. The Universe Origin Fires had indeed come across the runes around the Ice Palace.

The part that shocked Huang Xiaolong was that the runes were turning into streaks of light as they entered his body under the guidance of the fires!

The number of runes around the Ice Palace decreased at an alarming rate!

There were a total of a trillion runes around the palace, and they charged into Huang Xiaolong's body like an endless tide.

In a single minute, he absorbed a hundred million of them!

According to his speed, he would be able to absorb the runes around the palace in less than three days!

Gu Yuan, Long Yi, and Yang Hai thought that Huang Xiaolong was comprehending the runes initially, but they were shocked to see the runes entering Huang Xiaolong's body.

Was that even possible?!

They had seen Gods of Creation comprehending their first rune in a second, but that was the first time they had seen anyone absorbing the runes directly!

The runes around the Ice Palace weren't something anyone could absorb as they wished!

"Is His Highness alright?" Long Yi gasped.

"Probably... He should be fine." Gu Yuan frowned. He had no idea what was going on either.

When Huang Xiaolong was absorbing the runes around the Ice Palace, the news of Bei Ting's escape and his defeat to a Dao Venerable shook the world.

Very quickly, the great worlds around the Shi Li world received the news.

Not many people could believe what had happened, and everyone thought that those were baseless rumors. Only when Jing Wenxiu and the others returned and confirmed the news did the universe go wild.

“The young man who defeated Bei Ting is called Huang Xiaolong! It’s said that he managed to create three small worlds, and he accumulated close to 3.9 billion units of grand cosmos energy!”

“Three small worlds?! It’s a miracle that he managed to do it! He should be the first person in the history of the universe to do something like that!”

“I heard that many God of Creation Realm experts are rushing over to the Ice River! Even Lord Meng Tian emerged from seclusion to head over!”

“Three small worlds... Hehehe, everyone hopes to get their hands on his secret! If Lord Meng Tian obtains the secret to creating three small worlds, he will immediately close in on 30 billion units of grand cosmos energy! Even if he hasn’t entered the Universe God Realm, no one will be his opponent!”

“That’s right. It’s too difficult to enter the Universe God Realm. If one manages to create three worlds, they would be even more terrifying than a Universe God! Lord Meng Tian has already given the order. Anyone who captures Huang Xiaolong will be given a set of creation artifacts!”

A set!

He isn’t going to merely give away a single piece!

One could only imagine how terrifying the secret of creating three worlds was. Even a God of Creation at the level of Meng Tian was willing to give away a set of creation artifacts to obtain the secret.

In the Ice River, a middle-aged man stood on a rainbow-colored piece of ice as large as a continent.

The Ice River might be filled with ice, but there weren’t many that had a rainbow glow, much less one that was the size of a continent!

If there was any expert present, they would realize that the elusive Ice Jade Spirit was hidden in the core of the ice continent!

Even though the Ice Jade Spirit was less precious than the Heart of Ice and the Ice Marrow, it was still an extremely precious treasure located in the Ice River.

The middle-aged man raised his hand and a terrifying aura filled the space around him. Not even the strongest of ice beasts dared to approach.

He was the strongest person in the Shi Li World, God of Creation, Shi Li!

“Three small worlds...”

“Nearly 3.9 billion units of grand cosmos energy!”

A trace of surprise and desire flashed through his eyes.

“Huang Xiaolong, you are mine!”

“When I create three worlds, not even Meng Tian will be my opponent!”

Shi Li roared with laughter before turning into a streak of light that disappeared from the ice continent. He charged towards the Ice Palace at the quickest speed possible as he gave up on the Ice Jade Spirit.

With his speed, he would be able to arrive in less than two days!

There was no doubt that he would be the first to arrive at the scene!

The more he thought about the possibility of creating three worlds, the faster he traveled. He pushed himself to the limit in order to arrive a little bit faster.

When that was going down, Huang Xiaolong was absorbing the runes along the Ice Palace.

As they poured into Huang Xiaolong's body, they looked like a pillar of light that shot straight into Huang Xiaolong's forehead.

Gu Yuan, Long Yi, and Yang Han stopped the ice beasts that were trying to approach.

About an hour after it started, the number of ice beasts increased by a huge amount.

Due to their overwhelming strength, Gu Yuan and the others managed to fend off all the ice beasts.

"Looks like the old ice b*stard is trying to mess with us." Gu Yuan growled as he looked at the incoming beasts.

He was obviously referring to the Ice King as the beasts were only attacking due to his command.

"Is he tired of living or something? How dare he plot against His Highness..." Long Yi roared with rage. "After His Highness is done, I'll personally beat his face in!"

"We can save that for later... The number of beasts is growing by the second. Moreover, I heard that many other God of Creation Realm experts are rushing here as we speak." A troubled expression formed on Gu Yuan's face.

"We should be afraid of Shi Li... Isn't he already in the Ice River?" Long Yi muttered.

Chapter 3467: Entering the Ice Palace

When they heard Shi Li's name, the faces of Gu Yuan and Yang Han sank. No matter how fast the other experts were rushing over, they would take some time. Shi Li was already in the Ice River, to begin with! How long would it take for him to come?

The moment he arrived, the three of them would be squished with a mere thought by the man!

The second day passed in a flash.

As the corpses of ice beasts around the three piled up high into the mountains, the Ice King was nowhere to be seen. The only creatures who came to ambush Gu Yuan and the others from time to time were the great generals under the Ice King!

Gu Yuan and the others were completely enraged by the Ice King's actions. Killing intent swept through the area and the bloodlust in them had completely awakened due to the two days of the massacre.

All of a sudden, the three of them stopped. They stared into the distance with a look of fear on their faces.

"This..." Long Yi whimpered.

"It's Shi Li! He's here!" Gu Yuan felt his throat going dry as his heart palpitated with fear.

A terrifying pressure that belonged to a God of Creation filled the skies.

Even though he was billions of miles away, the three of them were suffocated by the endless pressure.

It was too damn strong.

Shi Li, who was a God of Creation at the large completion stage, was on a whole new level compared to Bei Ting!

Staring at Huang Xiaolong, they saw that he was still absorbing the runes without a care in the world.

"What do we do now?" Gu Yuan, one of the oldest existences among the three, started to panic. No matter how many years he had lived through, the possibility of a God of Creation bearing down on them was too hard to bear!

Every single possibility that could happen flashed through their minds.

When the three of them were still panicking, the pressure disappeared. A figure appeared in the air above them, and they were shocked to discover that Shi Li had already arrived.

Gu Yuan and Long Yi returned to their true forms in order to be at their peak state in the event Shi Li attacked them the moment he appeared. When Shi Li noticed the two of them, he stared at them in stunned silence. “Old Man Gu Yuan? Cave Master Long Yi?!”

Gu Yuan had existed for a nearly endless amount of time. His seniority outranked many God of Creation Realm experts!

“Looks like it’s the two of you...” Shi Li frowned after some time. “Since I recognize you, I’ll give you a chance to run.”

Gu Yuan’s expression turned solemn, and he shook his head resolutely. “No. Our lives belong to His Highness!”

Indeed...

Narrowing his eyes, Shi Li groaned, “Since that’s the case, all three of you can go to hell!”

He struck the void before him and a terrifying power crashed down towards the three. They felt as though every single bone in their body was breaking and their organs were about to explode. Even their dao souls were squeezed to the point of popping.

When the three of them were about to be popped, a ray of inky blue light emerged from inside the Ice Palace. It shot towards Shi Li at a shocking speed.

Gasping with shock, Shi Li no longer bothered with the three of them as he raised his hand to counter the inky blue light.

Boom!

The Ice River trembled when the light collided with Shi Li. Retreating slightly, Shi Li's gaze landed on Huang Xiaolong. "It's you!"

From the looks of it, Huang Xiaolong managed to control the grand formation inside the Ice Palace to send out the attack.

The Ice Palace was rumored to be a creation-level artifact, but no one could make the verification.

In fact, the Ice Palace was a divine artifact created during the formation of the universe. It wasn't any weaker than the Pangu Axe at its peak state, and after Huang Xiaolong absorbed a huge part of the runes around the Ice Palace, he could control a huge portion of the grand formation. Shi Li's guess was right. Huang Xiaolong used the power of the grand formation against him.

When Shi Li was still stuck in a state of shock, Gu Yuan and the others ran over to Huang Xiaolong as the joy of staying alive overwhelmed them.

Huang Xiaolong continued to absorb the runes along the Ice Palace as though nothing happened.

"Humph, you're just messing about." With a snort, an axe appeared in Shi Li's hand. The axe was completely white in color, and a weird light danced upon it. That was Shi Li's creation artifact, the Ice Axe!

Raising the axe, the Ice River seemed to lose its color. Rays of blinding light were emitted from the body of the axe.

Gu Yuan, Long Yi, and Yang Han could feel the power contained in it. It had surpassed anything they knew about the frost attribute, and it contained energy countless times stronger than anything they could muster.

It was energy only controllable by the Gods of Creation!

Under their terrified gaze, the axe came crashing down towards them.

The instant it did, the Ice River trembled violently.

A tear ripped through the space, leaving behind a scene Gu Yuan and the others would not forget as long as they lived.

However, Huang Xiaolong's growl rocked the Ice River while the axe was falling towards them. "Scram!"

A giant axe emerged from his body and it smashed against the Ice Axe above.

Bang!

Shi Li saw his axe exploding into countless fragments when it came into contact with the giant axe.

?!

The Pangu Axe didn't slow down as it slashed into Shi Li's body. A giant wound was sliced open in his chest.

If not for the fact that Shi Li used everything he had to defend himself, he would have been sliced in half!

The Pangu Axe returned to hover above Huang Xiaolong's head.

With fear in his eyes, Shi Li didn't dare to remain behind with his creation artifact destroyed. He grabbed the shards of the axe and disappeared into the void.

Gu Yuan and the others looked at each other, dumbfounded. The situation changed too quickly!

After Shi Li escaped, the ice beasts that used to swarm them started to leave. Not a single one remained behind and the space around the Ice Palace became empty.

Huang Xiaolong kept the Pangu Axe, and he continued to absorb the runes quietly.

When Gu Yuan and the others finally snapped back to reality, they went back to guarding the area around Huang Xiaolong. Even though Shi Li had escaped, they didn't dare to let their guard down.

The final day passed and Huang Xiaolong managed to absorb the final rune along the Ice Palace. Opening his eyes, a faint smile formed on his face. He didn't expect to receive such great benefits before coming. Initially, he was thinking about how he should comprehend the runes around the Ice Palace. He didn't think that the Universe Origin Fires would assist him so perfectly!

Now, the runes were imprinted on his dao soul and the mysteries they contained filled his mind.

"Let's enter," Huang Xiaolong said before bringing them into the Ice Palace.

The Ice Palace's gate was shut tightly and if one wanted to enter the first space contained in it, they would have to waste a lot of time and effort. However, Huang Xiaolong entered it without any difficulty, and he continued without stopping. In the blink of an eye, they crossed hundreds of spaces in the Ice Palace.

Chapter 3468: Trapped

Even though there were great treasures in every space within the Ice Palace, the precious treasures were hidden in the deeper spaces. Huang Xiaolong ignored the early spaces completely.

They weren't useful to him in his current realm. He was looking for specific items such as the Yin Yang universe-level spiritual veins, Ice Marrow, and the Heart of Ice. Any herbs at the creation level came after that.

Gu Yuan and the others were overwhelmed by the speed at which they were flying through the Ice Palace.

Huang Xiaolong only stopped when he arrived at the nine hundredth space.

That was where the precious treasures were.

Moreover, there seemed to be a lot of experts at the God of Creation Realm hunting him down. Now that he was so deep in the Ice Palace, they wouldn't be able to catch him even if they wanted to.

Not even Meng Tian could charge deep into the Ice Palace so quickly! He would need hundreds of years to arrive where Huang Xiaolong was currently, if not longer!

Huang Xiaolong released his dao souls after he stopped, and he started to look through every inch of the space he could.

After absorbing the runes around the Ice Palace, Huang Xiaolong could control the grand formation within. He could feel everything more clearly with the help of the grand formation, and it was easy for him to notice everything in the space he was in! Unlike other people who were like blind mice in the Ice Palace, Huang Xiaolong was basically using cheats!

However, every single space was massive. They were comparable to a giant holy world, and even with the help of the grand formation, Huang Xiaolong needed several days to look through the space he was in.

As Huang Xiaolong looked through the spaces in the Ice Palace, the news of Shi Li being forced to retreat by Huang Xiaolong started to spread through the universe. It shocked many experts who were on their way over to capture Huang Xiaolong.

At the same time, many experts felt like a bucket of cold water was thrown at them.

Everyone knew that Shi Li was a God of Creation at the large completion stage, and he had close to 4 billion units of grand cosmos energy. He was among the top thirty experts in the Meng Tian Universe!

Since someone like Shi Li was seriously injured by Huang Xiaolong, those weaker than him started to reconsider their options.

Not long after Shi Li's escape started to spread, the news of Huang Xiaolong gaining control over the Ice Palace caused despair to fill the hearts of many experts who had hoped to capture him.

With the ability of the Ice Palace, who would be able to capture him if he hid himself inside?

Of course, there were still many people who were rushing over to the Ice River after learning the news.

That was because the secret of creating three worlds was too tempting! No one could stop themselves from thinking about it.

A figure appeared outside the Ice Palace one fine day, and the ice qi around the Ice Palace froze completely.

The figure was extremely massive, and it looked like a giant hill as he stood there. His eyes were jade green, and he had a long braid hanging down his shoulders. He was Hu Ze, another God of Creation.

He was a God of Creation who was the second closest to the Ice River compared to Shi Li, and he was also at the large completion stage. He was slightly stronger with 4.1 billion units of grand cosmos energy.

He was the next to arrive!

Hu Ze frowned when he looked at the Ice palace standing before him. The runes around the structure had disappeared. It seemed as though the rumors were true! Huang Xiaolong had absorbed all the runes around it!

A light flashed in his eyes as he contemplated if he should enter the Ice Palace.

Eventually choosing against it, he waited outside the Ice Palace.

A month quickly passed, and the number of Gods of Creation outside the palace increased to six!

There were two of them at the large completion stage, one of them was at the peak of the small completion stage, and another was at the small completion stage. The two remaining experts had just entered the God of Creation Realm.

All of them chose to wait outside the Ice Palace.

No one could blame them for their decision. Even if they entered the Ice Palace, they were basically screwed even if they ran into Huang Xiaolong.

In the Ice Palace, Huang Xiaolong entered the 901st space.

“That’s a piece of Ice Jade Spirit!”

“Nine Colored Ice Lotus! It even has thirteen petals!”

...

Gu Yuan and the others grabbed treasure after treasure as they followed behind Huang Xiaolong.

The Ice Jade Spirit they found was countless times better than the one Shi Li abandoned to look for Huang Xiaolong.

The Nine Colored Ice Lotus was in no way worse than the Ice Jade Spirit.

Those treasures were extremely useful to Gu Yuan and the others.

As they were of limited use to him, Huang Xiaolong gave all of them to the three. He was only interested in treasures of a higher grade!

Half a month later, Huang Xiaolong and the others swept the 901st space clean and went towards the 902nd. Through the grand formation, Huang Xiaolong saw the number of experts outside the Ice Palace, and a sneer formed on his lips.

All of them couldn't see what was going on inside, but Huang Xiaolong could see the situation outside clearly. Meng Tian, the strongest expert in the Meng Tian Universe hadn't arrived. Despite that, Bei Ting, who was nearly chopped in half by Huang Xiaolong, came back.

He wasn't alone. He came back with two other experts.

Huang Xiaolong felt a sense of familiarity from one of them. It seemed as though the individual had the Huang Long Bloodline too!

Huang MUYANG?!

There was no doubt about it. After all, Huang MUYANG was a God of Creation at the large completion stage.

From the looks of it, Bei Ting formed an alliance with Huang MUYANG. Could he have entered Meng Tian's camp? After all, Huang MUYANG was Meng Tian's general.

Snorting lightly, Huang Xiaolong continued to look through the 902nd space. A shocking aura filled the space outside the Ice Palace, and the aura surpassed even Huang Xiaolong's master, the Blazing Dragon!

"We greet Lord Meng Tian!"

The person who arrived was the God of Creation Meng Tian, the strongest expert in the Meng Tian Universe!

He was at the peak of the grand completion stage of the God of Creation Realm!

"Is he still in there?" Meng Tian asked Huang MUYANG after he arrived.

“Yes, Lord Meng Tian,” Huang Muiyang replied respectfully. “He hasn’t emerged. Please rest assured that we have already sealed off the Ice River World. We placed restrictions everywhere, and we’ll know the moment he reappears!”

Meng Tian shook his head and sighed. “What if he remains in there for a hundred million years? Are we going to waste our time waiting for him?”

“This...” Huang Muiyang frowned.

Chapter 3469: 1000 Spaces!

Meng Tian stared at the Ice Palace and a weird light flashed in his eyes. He seemed to be able to peer through the countless spaces within the Ice Palace.

“I’ll go in there to force him out,” Meng Tian stated.

There were more than fifty great worlds in the Meng Tian Universe, and there were seventy-two Gods of Creation.

However, there were only twenty-three of them who were in Meng Tian’s faction.

As such, the reaction of those outside was varied.

Meng Tian swept his gaze across everyone present and he didn’t say a second word before entering the Ice Palace.

Not too long after he did, a God of Creation who was covered in golden flames did the same. He was the second strongest expert in the Meng Tian Universe, Zhao Jinkun!

Zhao Jinkun’s strength was comparable to the Blazing Dragon, and like the Blazing Dragon Universe, one mountain could only house a single tiger. Zhao Jinkun and Meng Tian were on bad terms with each other. If they were able to kill each other, they wouldn’t hesitate to do so. The number of experts under

Zhao Jinkun was more than Meng Tian's alliance, and there were twenty-eight of them. As such, Zhao Jinkun had the ability to challenge the strongest existence in the Meng Tian Universe.

After the two of them entered, no one else moved. Everyone guarded the perimeter of the Ice Palace.

After entering the first space within, a ray of light emerged from Meng Tian's eyes. It covered everything around him, and he could feel the slightest movement clearly.

That was the creation art he cultivated! He could fuse with any space he was in. The moment he used that technique, he would be able to discover Huang Xiaolong as long as they were in the same space!

Wasn't Huang Xiaolong planning on hiding in the Ice Palace? He would look through every single spot to dig him out!

He refused to believe that he couldn't locate Huang Xiaolong.

Now, the area outside the Ice Palace was sealed off. Huang Xiaolong would not be able to escape, and he could only hide in the Ice Palace. As long as Meng Tian looked through every single space, he would eventually capture Huang Xiaolong!

The moment Meng Tian and Zhao Jinkun entered the Ice Palace, Huang Xiaolong detected their presence.

A strange expression formed on the trio's faces when they saw that Huang Xiaolong had stopped. Eventually, Huang Xiaolong whispered, "Meng Tian is here."

"Meng Tian!"

The faces of the three changed instantly.

That was an existence akin to god in the Meng Tian Universe.

“Zhao Jinkun came with him.”

?!

“Your Highness, did they join hands?” Long Yi whimpered.

“Nope.”

Heaving a sigh of relief, the three of them shook their heads slowly. If Meng Tian were to join hands with Zhao Jinkun, there wasn't a single way out for Huang Xiaolong.

Soon after, they entered the 903rd space.

Huang Xiaolong didn't care too much about the two of them. Even though he wasn't their opponent, they would never be able to find him in the Ice Palace!

That was because they couldn't enter the 1000th space!

A month later, the four of them arrived in the 904th space.

It took them a single month to scour through a single space.

Eight years later...

Huang Xiaolong's group stood before the entrance to the 1000th space.

Gu Yuan, Long Yi, and Yang Han could feel the excitement bubbling in their hearts. No one had been able to enter the 1000th space, but now, they were going to enter with Huang Xiaolong!

Huang Xiaolong was equally as excited.

Not long after, they entered the final space in the Ice Palace.

The instant they did, they were blinded by a golden light that filled the area.

When they finally opened their eyes, Huang Xiaolong discovered that the world before them was covered in gold. Not a single trace of impurity remained.

Even the spiritual qi in the air was golden in color!

“This... Could this be the legendary Golden Ice Spiritual Liquid?!” Gu Yuan gasped.

Golden Ice!

There were countless types of ice in the Ice River, and there were those that had existed for countless years. The only exception was Golden Ice!

Golden Ice was the strangest and oldest type of ice created in the universe. It contained the power of a universe in its infant stage!

Golden Ice Spiritual Liquid was formed after the concentration of the spiritual qi emitted from the Golden Ice reached a certain degree!

A single drop was as effective as a creation pill!

Looking at the giant bubbles of golden liquid before them, no one knew how much there was!

Long Yi and the others rubbed their eyes in disbelief.

Huang Xiaolong sucked in a cold breath, and he suppressed the joy in his heart. He didn't think that there would be Golden Ice Spiritual Liquid in the 1000th space! Even without the universe-level spiritual veins, he would be able to reach the limit of a Dao Venerable!

Huang Xiaolong slowly calmed himself down and started to search for the other treasures.

"Heart of Ice!"

Not too long after he started his exploration, he discovered a treasure that was pulsating like a heart!

A smile blossomed on Huang Xiaolong's face as he slowly grabbed the Heart of Ice.

He finally obtained the first piece in the 1000th space!

Huang Xiaolong managed to obtain a single one from the 900th space.

As such, there were nearly a hundred of them in the Sun Moon Furnace.

Huang Xiaolong didn't believe that there would only be a single Heart of Ice in the 1000th space, and he continued to look.

Soon after, he found a second piece. Not too far away from that, he discovered a ball of Ice Marrow!

One month passed, and Huang Xiaolong realized that the 1000th space was too large! It was dozens of times larger than any space before it!

After one month, they hadn't explored even a tenth of the space they were in.

"There are so many treasures here!" Long Yi gasped. Since they entered, Huang Xiaolong obtained nearly a hundred Hearts of Ice and several dozen clusters of Ice Marrow.

Huang Xiaolong chuckled. “No one has ever been in here before. It’s not surprising that there are many treasures here.”

One year finally passed, and Huang Xiaolong arrived at the edge of the 1000th space.

Chapter 3470: Breaking Through

There were two giant golden river-like objects floating before him, and they emitted dense waves of spiritual qi!

The two spiritual veins caused mirages to appear all over space, and Huang Xiaolong and the rest saw a bunch of Ice Marrows, Hearts of Ice, and many other treasures revolving around the spiritual veins!

Long Yi couldn’t help but yell in fright, “What... What the f*ck!”

Gu Yuan and Yang Han didn’t know what to say. The number of treasures there dazzled them! In fact, they had no idea how many were floating about! A thousand? Ten thousand? Hundreds of thousands?!

Huang Xiaolong was equally as shocked.

Along the way, he managed to obtain hundreds of sets of Ice Marrows, and close to a thousand Hearts of Ice! He was more than satisfied with his finds, but now, they lost all their splendor and appeal before the godly amount of treasures!

Huang Xiaolong took several deep breaths before he finally calmed himself down.

A moment later, he appeared in the skies above the two spiritual veins. Their purity and size far surpassed anything Huang Xiaolong had seen before!

“We’ll enter seclusion together!” Huang Xiaolong declared.

Gu Yuan, Long Yi, and Yang Han were dumbfounded.

“Your Highness, we’ll just guard the area while you enter seclusion...” Gu Yuan shook his head in response.

“I know what you’re worried about. Relax. Meng Tian and Zhao Jinkun will never be able to enter this space. There’s no need to care about them. You can cultivate at ease here. This might be your only chance to enter the God of Creation Realm, and if you miss it, you might never be able to in the future!”

Gu Yuan and Long Yi would be lying if they said that they weren't tempted.

“Alright. It’s decided. All of us will enter seclusion here. Yang Han, you too,” Huang Xiaolong muttered.

The serious look on his face made it impossible for any of the three to reject his decision.

After considering that the energy fluctuations might disturb Huang Xiaolong’s cultivation, Gu Yuan and Long Yi each left to a secluded corner to break through.

After they chose their location, they laid down countless formations to reduce the energy waves to a minimum.

Yang Han also chose a corner for himself.

After seeing that the three of them had settled down, Huang Xiaolong sat above the two spiritual veins and closed his eyes. Calming his heart down, he circulated the Pangu World Creation Art. Swallowing the spiritual energy from the two universe-level spiritual veins, Huang Xiaolong released the four Universe Origin Fires to protect himself. They were also helpful in absorbing the universe source qi around him.

The universe source energy contained in the two spiritual veins poured into his body unceasingly, and they were quickly converted to grand cosmos energy.

When Huang Xiaolong was devouring the spiritual veins, the Pangu Axe hovered in the air above him to swallow the Ice Marrow and Hearts of Ice to restore itself.

The spirit of the Pangu Axe swallowed the treasures happily.

As the axe started to recover, divine dragons started to appear around its edge.

The divine dragons increased in number slowly, and there were eventually billions of them.

The aura around Huang Xiaolong grew stronger and stronger as time passed, and the amount of grand cosmos energy contained in his third world approached the 1.29999 billion mark.

Several thousand years passed just like that.

...

The space of the 932nd space trembled as huge blasts rang through the skies. Energy fluctuations rocked the entire space as Meng Tian bombarded his surroundings with everything he had.

He had been trapped for nearly a hundred years in the 932nd space, and he couldn't find a way forward!

Exasperated, he could only smash everything around him in an attempt to break the grand formation supporting the Ice Palace.

No matter how hard he tried, the grand formation didn't budge in the slightest.

Eventually, Meng Tian chose to give up.

He stared into the void with a gloomy expression, and he growled, "Huang Xiaolong, I refuse to believe that I can't find the exit to this space!"

After he spoke, an awl appeared in his hand. It was the creation artifact he had spent all his time nurturing, and it was extremely close to becoming a top-grade creation artifact.

Several years later...

Meng Tian finally entered the 932nd space.

...

Several hundred thousand years passed, and Huang Xiaolong finally opened his eyes.

He finally managed to devour the two universe-level spiritual veins after such a long time, and his third world reached the limit of 1.2999 billion units of grand cosmos energy.

According to Huang Xiaolong's estimation, he would need four universe-level spiritual veins in order to do so. However, reality proved him wrong.

Boiling with excitement, the only thing left to do now was to break into the God of Creation Realm!

All he needed to do was to take the final step!

However, he knew that it wouldn't be easy for him to do so. Like Gu Yuan and Long Yi, they had been trapped at their current levels for countless years.

The Blazing Dragon had once told him that the more anxious he was to enter the God of Creation Realm, the harder it would be.

His thoughts were interrupted by a massive blast that came from a distance away. Energy waves swept through the space, but it was contained by the restrictions laid down all around. The entire space trembled slightly.

Releasing his dao souls, a smile formed on Huang Xiaolong's face. "Gu Yuan finally broke through."

The fluctuations came from Gu Yuan who was cultivating in a corner of the 1000th space.

Soon after, the next disturbance came. Long Yi entered the God of Creation Realm!

Seeing as Long Yi had also broken through, the smile on Huang Xiaolong's face became even wider.

Even though the two of them were extremely close to entering the God of Creation Realm in the past, they were still Dao Venerables. Now, they could use the power of the universe and they would be able to stay alive even if Meng Tian came.

After ensuring that the two of them were fine, Huang Xiaolong checked up on Meng Tian and Zhao Jinkun. He jumped in fright when he saw that the furthest someone had gone was the 984th space.

Zhao Jinkun was a little slower than Meng Tian, but he had already entered the 980th space.

They were extremely close to each other!
