Chapter 3761: The magic mirror hall was born

Huang Xiaolong did not feel the cold eyes of the source side. Just like that, he stood with his hands on his back and left the back completely exposed to the source.

All the creation gods looked at Huang Xiaolong, his face complex, shocking, incredible, unbelievable, doubtful, all kinds.

The source side had a double fist and a killing, but in the end, he still put the fists down.

He finally did not shoot.

When everyone looked different, there were several figures flying in the Golden Canyon. It was the eight Buddhas who had been bombarded by Huang Xiaolong into the Golden Canyon. They saw eight people bursting with armor, and almost every part of the body was bleeding.

Everyone saw it and took a sigh of relief.

This is the Eight Emperors of the Terran!

And there are close to 2,999 million fighting power of the Buddha saints!

The Buddha and the Eight Emperors all stared at Huang Xiaolong with horror and anger, but this time, no one of the eight people dared to shoot Huang Xiaolong.

"You are not the source of the universe!" In the wrath of the Buddha's saint, he suddenly began to speak.

"What, not the people we sourced from the universe!"

Before, everyone did not think about this problem.

Huang Xiaolong is light: "Yes, I am not the source of the universe."

This is nothing to hide.

Huang Xiaolong was expected to use the boat before the universe.

The source universe, there is only one universe to the treasure, but not the boat of the universe, so it is not surprising that the Buddha saints and others guess that they are not the source of the universe.

"You really are not the people we sourced from the universe!" The sage of the sage is angered: "All the masters of the source universe listen well, let us take the shot and expel this little dragon!"

Take a shot together and drive out Huang Xiaolong!

Everyone looks at each other.

But no one is taking steps.

The sage of the sage, a glance at the crowd, turned his gaze to the Lord of the Ghost, but the Lord of Ghosts did not seem to see the eyes of the sage, and his eyes stared straight at somewhere in the Golden Canyon, as if there were some golden fog there. Different.

The sacred priests cast their gaze on the source, and the source was dark and clear, but in the end there was no sound.

The sage of the sage is seen and his face is stunned.

Huang Xiaolong's eyes swept over and looked at the sage of the sage. "You are here again. I don't mind if I'm going to explode before the Mirror Hall is born."

The sage of the sage of the sage, an angry face, anger, iron blue, but eventually became awkward, no longer embarrassed.

The eight sages of the Buddha sage returned to their original positions, feeling the strange eyes of the strong around them, only to feel the whole body hot.

Huang Xiaolong looked at the golden mist rising in the center of the Golden Canyon. He said indifferently: "Black King, the old man, since the two came, why bother to hide and shrink."

Although the Black King and the old man were hiding in a good way, when Huang Xiaolong used the boat of the universe to bomb the Eight Saints of the Buddha into the Golden Canyon, the two people still had a slight fluctuation.

The words of Huang Xiaolong are different from the source, the master of the ghost, the master of the Buddha and the emperor.

What Black Pluto? Making old people?

Can let Huang Xiaolong mention the opening reminder, certainly not the ordinary generation, but they have not heard that they have the source of the universe to break the 20 billion fighting master who is called the black meditation king and the old man.

Huang Xiaolong's words, the black prince and the old man of the creation did not show up. When Huang Xiaolong saw it, he left it, and he was not afraid of the black king and the old man's conspiracy.

Soon, half an hour passed.

Suddenly, within the Golden Canyon, the golden mist rolled over, and a ray of light shone from the Golden Canyon.

"It is the temple of the Mirror, the Temple of the Mirror is going to be born!"

This is the sign that the Temple of the Mirror is to be born.

The source side, the ghost of the Lord, the Buddha and the Emperor and others also have bright eyes, burning and tightly staring at the center of the Golden Canyon.

Under the burning eyes of the source and others, the huge magic mirror hall slowly rises without hesitation. When the magic mirror hall rises, the air waves sweep, and some low-powered creation gods are swept by this air wave. In the middle, they have flew out.

Huang Xiaolong stood still, letting the air wave sweep, and the body robes hunting.

In the end, the Mirror Hall was fully raised to the sky.

The Mirror Hall has millions of miles and a variety of patterns on it. There are various kinds of patterns. However, these patterns are mysterious and mysterious. Like those lines, they are not real and can't be seen. Out of mysterious.

As soon as Huang Xiaolong stepped, he came to the front door of the Mirror Hall.

At this time, the door of the Mirror Hall was closed and had not been opened yet.

Huang Xiaolong raised his palm and printed a palm. He saw the light of the closed door of the Mirror Hall, followed by a roaring sound, and the door slowly opened.

When Huang Xiaolong's figure flashed, he entered the magic mirror hall.

The Temple of the Mirror is divided into the outer hall and the inner temple. However, the outer hall and the inner temple have numerous heavy spaces, and the ban is heavy. When Huang Xiaolong wants to go to the inner temple, he must pass through the outer hall and heavy space and prohibit the system.

Generally speaking, only the supreme and powerful who have the power of 2.7 billion can wear the heavy space and prohibition of the outer hall. Even if it is the gold sage, the existence of the West Hu knives is at most Can reach the end of the outer hall.

After Huang Xiaolong entered the Mirror Hall, there was no pause. He immediately called out the boat of the universe and drove the boat of the universe to the inner temple. Now he must rush to the inner temple before the black king, the source, the old man and so on.

He has fully realized the thirteen universe mystery and laws of the nameless mirror, plus the fragments of the magic mirror. He only has to go to the inner hall a few days earlier than the black king, the source, and the old man. He has confidence. Successfully collect the source universe mirror!

Therefore, Huang Xiaolong is fully urging the boat of the universe. On the way, it directly breaks through the heavy space and prohibition of the outer hall, and does not stop for a moment.

Just as Huang Xiaolong rushed to the inner hall, dozens of figures were also coming to the inner hall. Among them, a black light, a golden light is the fastest, almost no more than Huang Xiaolong.

The golden light is the source. The source looks at the black light and is on the same side with himself. I can't help but be surprised. Who is this? In addition to Huang Xiaolong, there are still people who are not weaker than him!

After the source and the two, it is a clear color, this clear light speed is also very fast, faster than the ghost of the Lord.

The Lord of Ghosts, the Buddha and the Emperor looked at the black light and the clear light, and was shocked and shocked.

Along the way, Huang Xiaolong saw a lot of rare babies, there is a kind of elixir comparable to the white deer of white deer, and there is the best source of the universe. However, Huang Xiaolong turned a blind eye and continued to do so. After a few years, Huang Xiaolong Came to the inner temple of the Mirror Hall.

Then, Huang Xiaolong came to the center of the inner temple of the Mirror Hall.

A month later, Huang Xiaolong saw a huge altar. Above the altar was a mirror with a pentagonal shape. The mirror slowly turned, emitting a faint glow, almost the same as Huang Xiaolong's nameless mirror, but than Huang Xiaolong. The nameless mirror is going to be a big circle.

Huang Xiaolong took a deep breath and tried to suppress his heart.
