

Constellation 481

Chapter 481: -recovery (4)

...

Therefore, he was unwilling to accept this!

At its peak, at its peak, these ants dared to invade heaven battling city?

This city had once stood tall in the sky!

This city once had a peerless expert who came through the air, tore the sky apart, and nominated it to battle the heavens!

The heavens could fight!

They had once wielded their swords to slash the heavens. They had once ruled this era and guarded this era ...

His memories seemed to have come back to him at this moment.

The hollow eyes of the armor seemed to reveal a bright light.

The greatsword that he was brandishing seemed to have slowed down.

At this moment, the captain seemed to have finally seen the enemy clearly.

An ant!

A group of weaklings had actually destroyed the heaven battling Army, which he had once been so proud of ... Even if he was just an insignificant guard in the heaven battling Army.

However, this also made him extremely sad and angry!

He looked down, and at this moment, everyone was slightly stunned.

This ... Look!

These soldiers didn't have any eyes ... They were like puppets. After killing them and opening their armors, there was only a pile of bones that had turned to ashes.

But this person ... At this moment, they actually felt a kind of anger, contempt, and sadness in his eyes.

He ... Was alive?

This was impossible!

Who could live for countless years?

According to the records of the star dynasty, the ancient civilization was not born in the recent 1700 years. There was still history 1700 years ago, before the star origin calendar, but it was not the history of the ancient civilization.

That was another part of history that had been destroyed. Even if their ruins were discovered, they weren't actually called archaeological ruins. They were just ancient buildings.

The archaeological ruins far exceeded the 3000 years time limit.

Even if it was only 3000 years ... No one could live for 3000 years and not die!

"You guys ... Want to enter the city?"

BOOM!

Everyone was shocked. At this moment, the silver-armored warrior actually spoke. Even though his voice was filled with a strange accent and his language was different from theirs, his words seemed to come from the spiritual level. It wasn't really speaking, so they could understand it.

This ... Was unbelievable!

The silver-tier powerhouse took a step in the air and returned to the top of the city wall. As the crowd's faces changed in shock, he looked down. Even Zi Yue was scared and quickly retreated.

At that moment, the silver-tier warrior was looking down on all living beings. Even though he knew that when he recovered everything ... It meant that everything he had would be gone, he was still very happy.

Even if ... This group of trash harassed him and killed his subordinates.

"Has the venerable sovereign returned?"

He looked down and saw that everyone was at a loss.

"It seems like ... He didn't come back ... That's right, Zhan Tian has abandoned him ..."

"The human Emperor...Has not returned?"

It was still silent.

He felt even more sorrowful."The human King ... Can not fail!"

That was impossible!

He was an invincible King, an Overlord of the endless world, an Emperor who had killed all under the heavens!

"This world ... Is it still the same world?"

He muttered to himself as he looked up at the starry sky.

The next moment, he looked down at the crowd again. Seeing everyone's shocked faces, he seemed to laugh silently."So weak ... So weak! Has the energy recovered?"

"However ... This path has no future!"

He seemed to be mocking and talking about something insignificant, while the people below were shocked.

The path of energy?

Superpowers?

He looked again and seemed to see something. He saw Liu Long, Li Hao, Liu Yan, and some martial masters ...

“So ... Heaven and earth ... Is still the same heaven and earth ...”

He looked up at the starry sky again with some unwillingness and anger.””That invincible existence will not abandon us! The heaven-battling Army will also kill their way to the heavens and return triumphantly with the heads of their enemies!”

“You bunch of weaklings, invading heaven battling city ... Since you’re all humans ...”

At this moment, the room suddenly fell silent.

The human race!

What a nostalgic time ... What was the world like now?

He had wanted to take advantage of this moment to kill this group of people. He could do it ... With the defense system still in place!

But the next moment, he saw the empty city ... Heaven battling city ... Was gone!

The city that I wanted to protect ... Disappeared!

Was a city still considered a city when there was no one around?

Suddenly, she laughed and then cried as if she was crying.

He was wearing armor and holding a long sword. He looked up into the sky. There was nothing there, but he seemed to see something. He saw enemies, enemies that could not be killed.

“All of you ... Take care! The human race ... The human race ...”

He looked up at the starry sky again and again. He looked at the remaining black-armored warriors with boundless sorrow and endless curtain.

This ... Was no longer his era!

This, no longer belonged to him.

According to his past habits, only when he killed all the enemies would he be considered a heaven-battling Army. However, when he saw that there were some martial cultivators in the crowd ... His heart suddenly softened.

Even if her heart was long gone.

The human race!

Although the path of energy was detestable, wasn’t that ... Still a human?

‘This world, this era, is no longer mine.

Killing the humans of today ... Was a waste.

Didn't we also explore the ancient ruins in the past?

"Where is the heaven-battling Army?"

A roar reverberated throughout the ancient city!

At this moment, figures suddenly appeared in the outer city, including two bronze statues. At this moment, the heaven-battling Army seemed to have aroused their spirituality.

Outside the city, the black hou that had lost everything and whose bones had turned into ashes ... Seemed to be trembling.

Chapter 482: -recovery (5)

...

The heaven battling Army is here!

"Everyone, our era ... Is over!"

The silver-tier elite roared in pain and sorrow,""The human King has not returned, the venerable sovereigns have not returned, this world ... Still has a strong enemy! Are you willing to fight the firmament with me again?"

"I'm willing to fight!"

At this moment, the entire city was shaking!

The black hou that had not died appeared one after another.

It was as if they had returned to the past!

At this moment, Li Hao and the others were dumbfounded.

'What ... What's going on?

The city ... Was alive!

"Fight!"

"Fight!"

"Fight!"

Roars that seemed to come from ancient times rang out in the city.

The silver-tier warrior could already feel that his soul was being extinguished, and his spirit was being obliterated ... The power of time, the traces of time, was rapidly bringing him to death at this moment.

"If you see the human King or venerable sovereigns ... Tell them that we are still fighting!"

A shout resounded through the hearts of the people.

The next moment, the silver-tier powerhouse pointed his sword at the sky and roared, ""For the human race, I will fight again!"

"Kill!"

"Kill!"

The armored figures seemed to come alive at this moment. They raised their long swords and charged toward the sky, even though ... There was nothing there!

The silver, the black Phoenix, and the bronze were all broken ...

Li Hao and the others couldn't understand this.

He really couldn't understand!

First, the silver chiliarch seemed to have been resurrected, and then ... He did not attack Ziyue and the others. He did not kill them or anyone else. Instead, he raised his sword and charged into the empty sky.

They ... Who were they fighting?

Where was their enemy?

What were they doing at the last moment?

Fear, fear, shock ...

All kinds of emotions enveloped everyone, including Li Hao.

He thought of the 'human King' and the 'venerable sovereigns'. Who were these existences?

Was the back he saw the human King or the venerable sovereign?

Was the ancestor of his family, the swordsman who had cut me with his sword, one of these people?

Who was he waving his sword at?

Who was he fighting for?

The human race?

Human ... Human?

Could it be ... That there are other races?

For example ... An existence like the Black Panther, was he considered a demon?

The enemy was the demon race?

At this moment, countless thoughts appeared in Li Hao's mind. He stared blankly at the silver-tier warrior who swung his sword to cut down the heavens. At this moment, Li Hao was shocked and confused.

In the air, the figures continued to move upwards!

They stepped into the air, leaped, and leaped!

He held the sword and waved it!

Killing intent filled the air!

If these Warriors were all like this from the beginning ... There would probably be less than ten people who could still stand here!

Powerful!

At this moment, they seemed to feel the power of these soldiers. Even the black-armored soldiers seemed to have once been powerhouses. They even ... Gave Li Hao the feeling that these black-armored soldiers might have once been martial masters. If they did not have over 100 ... They might have been at the Qian dynasty!

Douqian Martial Master?

Ordinary soldiers?

Li Hao couldn't be more shocked. No, would he be stronger?

In the endless years, had they already declined to the point where they were beyond recognition? were these people even stronger back then?

He remembered the disdainful, disdainful, and contemptuous eyes of the silver-tier powerhouse.

It was as if he was looking at an ant!

Even the three suns were the same.

In his eyes, perhaps the three suns were just ants.

And this was only a chiliarch from back then!

In the air, the silver-tier elite let out his final roar.

"Kill the enemy, let's celebrate the human race!"

Kill!

Accompanied by boundless killing intent, the black banners were instantly shattered, and the sword Qi soared into the sky.

His killing intent shook the heavens and earth!

BOOM!

With a loud noise, the silver-tier warrior rushed into the endless darkness and disappeared without a trace. At the last moment ... Li Hao actually saw it. He saw the silver-tier armor completely shatter!

He was dead!

Perhaps, they had died countless years ago.

But at this moment, he was completely dead.

He was dumbstruck.

Everyone was stunned. Hu dingfang, the military commander, was shocked, shocked, and only shocked!

“What ... What kind of Army is this ...”

He could not imagine it!

He couldn't imagine what kind of Army this was.

After countless years, he would swing his sword at the sky, at unknown enemy, and explode everything just to slash out that sword!

As the Commander-in-Chief, he was all too clear.

Such an Army ... Was undefeatable.

He was invincible!

To be able to maintain morale after tens of millions of years, was this ... Still something that could be possessed by the human world?

Everyone in front of the inner city gate fell silent.

Even now, when the entire Army was annihilated ... They did not seem to be too happy.

All of the experts had a serious and doubtful expression.

“He ... What realm is he at?” the reincarnation King asked after a long while.

He didn't know!

At the last moment, the power that the silver-tier powerhouse had exploded with might ... Might be even stronger than some of the rising lights!

Was this ... Possible?

“Sunguang?”

Hong Yitang swallowed his saliva. “Probably ... Probably!”

If that was the case ... What about the captain of ten thousand men?

What about the previous regimental commander?

What about the commander from back then?

During the ancient civilization, how strong were the powerhouses?

This scene was something that no one could have imagined. And this was the explosive power left behind by the chiliarch, who had a trace of consciousness left. Was his opponent really at the sunguang level?

Chapter 483: -recovery (6)

...

Why couldn't he be stronger?

At this moment, everyone remembered the name of an ancient Army, the heaven battling Army!

It was an Army that would still swing its sword to cut down the heavens even after countless years.

Li Hao looked at the sky in a daze. He looked at the sword, the sword of the silver-tier expert, and the sword of the black-armored warrior ...

He couldn't see the ancestor's sword clearly, and it felt very far away.

But at this moment, he seemed to understand the swords of these people.

There seemed to be a force!

Pressing forward with indomitable will!

This was how a sword should be used.

The sword that could cut the heavens and cut him was still far away from Li Hao, and the sword in front of him was perhaps ... What he should be pursuing.

Li Hao even felt that the black Phoenix's attack was stronger than his.

That was a sword that truly killed!

A murderous aura, a bloody aura.

Was a swordsman who did not kill still a swordsman?

Li Hao was still dazedly comprehending and recalling those scenes ... The next moment, someone said, "He ... Is gone. That sword is also gone ... How ... How can we enter the city?"

Although they were shocked, everyone still came back to their senses.

Those people had all disappeared.

That was just an ancient person!

He wasn't even an ancient person, but a person from the prehistoric civilization, a person outside of history.

Moreover, they were not living people.

Now, what they were thinking about was that the sword that might have been the key seemed to have disappeared. It had been destroyed in the void along with the other party's sword.

Then how do we open the city gate?

Also, those who have passed the second passageway ... Can they directly fly over?

And those who didn't ... Wouldn't have the chance!

At this moment, Zi Yue's eyes were filled with excitement.

The stronger the team was, the more excited she was.

This meant that there was a treasure in the city, and it was an extremely powerful treasure.

After all, how could an ancient city that could support such an Army not have any treasures?

And she could fly!

Hong Yitang could also fly, but was he her match?

As she was thinking, a few people came around her in an instant.

Hu dingfang, the king of Samsara, Ding Chen!

Near Hong Yitang, Hao lianchuan and Kong Qi also silently followed.

He couldn't be bothered to think about the silver-ranked expert.

At this moment, they also realized that the city gate could not be opened.

Since that was the case ... He definitely couldn't let these flying fellows enter the city first.

Otherwise, if there were any traps in the city and they activated them, wouldn't they annihilate the others?

No one knew!

"Don't! My wife, my daughter is here. Why would I leave?" Hong Yitang complained.

Why were these guys staring at him?

As for Zi Yue, her expression was cold as she looked around. The Samsara King and Hu dingfang were both very strong, not any weaker than her. As for Ding Chen, he was able to lead a team to fly, so he was obviously not weak.

The three of them stared at her.

Obviously, if she dared to fly over ... She would face a thunderous attack from the three of them!

In the blink of an eye, the situation had changed.

The night watchmen and the powerhouses who did not pass through the second passageway surrounded the powerhouses who had passed through the second passageway!

No one can enter!

Many of those who had entered the second passageway were still alive.

Most of them were gathered at the red moon, which had sent the most people in.

There were also Yama and a few others ... But their leader, the reincarnation King, did not go in. They did not have to worry too much. The only thing they had to worry about was Hong Yue.

As for the remaining members of the red moon, they were also secretly complaining!

There weren't many of them. The night patrolmen were the ones who made up the majority of the group here, but none of them had entered the second passage.

Zi Yue took a deep breath and said in a deep voice, "There's no need to do this ... It's risky for us to enter the second passage! If you're unwilling ... You can go in as well!"

The reincarnation King replied calmly, "yes!" However, if you leave the city with us and go through the second passage together ..."

"Bullshit!"

"Huanhuan, Who Do You Think You Are?" Zi Yue coldly shouted. On what basis?"

She had almost died the last time.

This time, she actually wanted to go again. Was she crazy?

Rather than that, she might as well take a gamble. Perhaps she could escape directly, fly over the high wall, and enter the ancient city directly.

The reincarnation King frowned, "then you can stay ... It's not impossible!" However, you can not enter the city alone!"

"What do you want?" Zi Yue asked coldly.

The reincarnation King was in no hurry to speak. He looked at Hong Yitang, "how tall is that tower in the inner city?"

"About ... A hundred meters? It's about the same height as the city wall. "

Everyone fell into deep thought. This meant that they had to make a trip to obtain the treasure. Otherwise, if they couldn't fly, how could they just watch as someone who could fly obtained the treasure?

"Is there a flight restriction in the inner city?"

No one could answer this question.

If there wasn't, that would be for the best, but if there was ... They could only take the second passageway.

"Why don't we let people in first and open the city gate ..." Dingchen also said at this moment.

Who was going in?

Zi Yue and the others could forget about it. If they wanted to go in, they could only let some weak people in ... At least, there wouldn't be a scene of them swallowing treasures. After all, no matter how many treasures there were in the inner city, it would be difficult to take them away or keep them without a certain level of strength.

.....

These people were making a lot of noise at the moment.

Li Hao, on the other hand, ignored them.

He did not participate in the siege.

At this moment, he was also looking up at the starry sky.

The words of the silver-tier elite were still echoing in his mind.

The scene of them charging into the sky and brandishing their swords was still replaying in his mind.

This time, Li Hao had suffered a huge blow!

That's right, in his limited life, he had never felt this way before ... Boundless faith and strong confidence. Even in a desperate situation, they were still firm in their faith. They firmly believed that they would win!

They firmly believed that their King, their venerable sovereigns, would come back and kill them instead of abandoning them!

They believed that the enemy could be defeated. Even if it was insignificant, that sword strike ... Was a demonstration to the enemy that the human race should not be humiliated!

"Blood Blade technique ..."

At this moment, he muttered.

At this moment, he seemed to understand why there was the blood Blade technique in the ancient civilization, and why there was such a secret technique that allowed one to perish together.

This was because these powerhouses did not care about life and death when they swung their swords to slash the sky. They only cared about whether they could kill their enemies.

"What kind of person, what kind of object, and what kind of goal ... Can make you so determined?"

He didn't even bother to kill these intruders.

Even if these intruders had invaded their home, they didn't seem to care much. At first, they were angry because someone had invaded. Later, when the silver-tier warrior looked at them again, Li Hao felt that his gaze was a little different when he saw them.

Gratified?

Happy?

Or something else?

He couldn't make a judgment, but he knew that the man had let go of his killing intent. He didn't dare to say that the attack before his death could kill all of them, but Li Hao felt that it shouldn't be difficult to kill a few three suns.

Because...We're humans too?

The concept of race?

This was the first time that Li Hao had felt such a strange emotion. As it turned out, even humans could be praised, pitied, and even comforted.

But the whole world was filled with people!

Killing was the mainstream.

If people didn't kill, who would they kill?

"The path of energy, the path of martial arts ..."

Li Hao was in a daze at this moment.

Faith!

He knew that he was lacking something compared to the older martial masters and the soldiers of the heaven-cleaving sword.

Faith!

They all have it, but what about me?

Who is my sword fighting for?

Why did my sword kill?

To survive?

These thoughts made his heart surge. He felt that he ... Might be walking on the path of a true Martial Master, the martial Dao!

And before that ... He actually didn't understand.

He really didn't understand!

There was no treasure or benefit to the scene today. He was more excited than when he saw the sword that was slashed out.

What treasures in the inner city, what defensive origin god weapon ...

They were all external objects!

A Martial Master was strong in himself.

Martial arts were invincible!

Of course, at the last moment, Li Hao wavered a little. Those treasures ... Could also be given to him.

Chapter 484: the city gate opens (1)

...

Li Hao was thinking about life.

The noise from the side continued.

He turned his head and glanced at the three suns. They were still struggling over who should go in first and whether to go through the second passage.

Just then, Hao lianchuan said, "Now that things have come to this, let's go to the second passage, but I won't force it. I suggest that we forget about the others and just let Huan Huan, Hu dingfang, and dingchen make a trip!"

Why these three people?

Night patrolman, Yama, Fei Tian, one person per family would be enough. Swords gate and red Moon already had Zi Yue and Hong Yitang.

To put it bluntly ... The three of them were dead. At least the night patrolman and the flying heavens still had the three suns.

At that time, he would not completely lose control.

Hu dingfang did not say anything. He was naturally more suitable to take the passageway.

He was a Martial Master and was more powerful. He didn't have an original God weapon with him. He knew that the fiery phoenix spear was with Hao lianchuan. Hao lianchuan had died inside, so the fiery phoenix spear might have been lost and couldn't be found.

The king of Samsara wanted to seize the treasure, so he had to leave. Anyway, whether he died or not, he would be able to eat his whole family. The remaining three Yama riyaos were on their own.

Hao lianchuan then turned to Hong Yitang. "Swordmaster Hong, you're not as strong as Ziyue. I'm afraid it won't be easy to fight her. Why don't you, your wife, me, and that fairy realm expert work together to keep Ziyue under control? we'll wait for the others to come out ..."

Hong Yitang nodded and had no objections.

Going in alone with Ziyue to snatch the treasure ... It was too dangerous.

It was fine to fish in troubled waters, but it was too risky to let him fight this woman alone.

At this point, the few of them thought about it and did not have much opinion.

Even the reincarnation King was very confident.

Yaocheng died inside, but didn't Zi Yue and Hong Yitang come out?

Although Zi Yue was injured, her Thunder God's armor had been damaged before this. Compared to Zi Yue, he had a greater advantage.

Hao lianchuan looked at the night patrollers and the other powerhouses."All of you ... I suggest that you choose to leave at midnight!"

"I think it will be very dangerous for you to stay here!"

Then, without waiting for the others to say anything, he looked at the night patrolman and said,"Old Zhou, take a group of people with you and bring hei Teng back. As for those who are willing to stay, I won't force them. After all, I can't take away your opportunities! Perhaps after entering the city, there would be some opportunities? I won't stop those who are willing to go through the second passage, but everyone has to be responsible for their own lives!"

He didn't kill them all. As supers, everyone would dream of reaching the sky in one step, obtaining the ultimate treasure, and becoming an unrivaled powerhouse.

The night patrolmen were no exception!

If they were willing to stay, then they had to be prepared to die.

There was a slight commotion in the crowd.

Stay?

Or should he leave?

At this moment, Li Hao looked at Liu Yan and Liu Long. Liu Long frowned slightly and glanced at Li Hao. Li Hao said softly,"I won't go out. It'll be troublesome if I go out now ... I'll wait for general Hu and Minister Hao to go out, then I'll go out together. At least there will be two more three suns."

If he went out now, there would be many people waiting for him outside.

Besides ... He didn't want to go out.

Although he had some thoughts about treasures, it wasn't deep. He wanted to wait for everyone to enter the city and then look at the two words at the city gate to study them.

In Li Hao's opinion, it was better than any other treasure.

Therefore, he had even thought of an excuse.

When Hao lianchuan and the others looked in his direction, Li Hao said,"Minister ... Do as you please. The rest of you don't have to worry about me. I won't take the second passageway, nor will I enter the city ... I'll wait for you here. Is that okay?"

Everyone was stunned.

If Li Hao didn't leave or enter the city ... What was he going to do?

The next moment, Hao lianchuan seemed to have understood something. He explained,"The Marquis is outside. No one will dare to touch you!"

Li Hao laughed. "I'm not familiar with hou bu, but I'm more familiar with Hao bu. If there's anyone among the night patrols that I can rely on ... It's Hao bu!"

He then looked at Hu dingfang and said softly, "general Hu is full of righteousness. His strength is extraordinary. I ... Can only be more at ease with the two of you here!"

Hearing this, Hao lianchuan and Hu dingfang were a little tempted.

Although he felt that Li Hao might not be telling the truth, hearing it ... Was very much to his liking!

"Then I'll stay here and protect Li Hao," Liu Long said.

"Liu Yan, you can leave with Zhou and the others!" He turned to Liu Yan.

Liu Yan's goal this time had already been accomplished. Li Dahu had already been killed.

She was not strong enough and it would be too dangerous for her to stay.

Liu Yan didn't say anything. She didn't try to be pretentious and insist on staying behind to live and die together, as that would only drag them down. She quickly nodded her head and looked at the two of them before saying softly, "Then I'll go out first!"

On the side, Wang Ming came up and chuckled. "Li Hao, I'll also stay behind to protect you! By the way, do you think I should take the second passage?"

He was also thinking.

He was very young and had entered the glorious sun State, but this time, he did not play much of a role.

Now, he was also a little unwilling.

However, entering the city ... To be honest, it was indeed too dangerous.

If they didn't use the second passage and couldn't fly, they wouldn't even be able to escape.

Li Hao glanced at him. "Whatever you want ... But it's very dangerous. Think about it."

Wang Ming started to feel conflicted, and didn't say anything for a while.

The other parties were also discussing in low voices.

Chapter 485: the city gates open (2)

...

A group of people would definitely be sent out.

Bring hei Teng out!

This time, they had seized quite a lot of black armor. Although the heaven battling Army's last outburst had caused the remaining black-armored warriors to self-destruct, they had still not been able to escape.

However, the armors that had been seized before ... Actually had no remaining consciousness.

The black armor Army had been dead for countless years.

By the time they left, it had been two days since they had entered. By night time, which was exactly two days, people from all over the world would have come to Silver Moon. At least, there would be someone to pick them up after they left.

Very quickly, the various parties came to a decision.

The remaining 20 or so people on the night watchmen's side did not all leave. Some of them chose to stay.

There were two sunlit realm cultivators who hadn't left ... Including Wang Ming, there were three.

Minister Zhou, who was at the peak of the metal element, and Zhao Huan, who was at the mid-stage of the earth element, didn't leave, and Wang Ming didn't either.

Minister Zhou, who was at the peak of the metal element, could even resist the three suns at a critical moment.

Zhao Huan, who was in the middle stage of the earth element, was probably trying to avoid the appearance of another existence like the heaven battling Army. He could isolate himself from the threat on the ground in time and even tried to escape through the earth.

Apart from Wang Ming, the other two people who stayed behind had their uses, and they might have discussed this with Hao lianchuan.

As for the level of Dark Moon ... Li Hao didn't even need to look at her to know that Zhang Ting had not left.

It would be strange if she didn't stay for such a big matter!

As a spy and a spy from the central continent, this ancient ruins had already exceeded her imagination. Even if she didn't stay to observe, she would still need to know who took the treasure and what was taken. All these needed to be reported to her superiors.

In addition to her, a portion of Yue Ming also chose to stay ... Everyone had heard that danger was accompanied by opportunity.

Of course, they didn't know that there was another sentence.

Opportunity ... Also required great power!

Hao lianchuan did not try to stop them. Cutting off other people's opportunities and killing their parents were all the same enmity. As long as these people did not care about their lives, he would not stop them.

To everyone's surprise, except for Hong Yitang, the whole swords gate had retreated!

Even his three yang wife!

Li Hao turned his head and realized something.

The swords gate ... Had no superior organization.

If the three suns didn't go out, then the others who brought hei Teng out ... Would really be a big fat piece of meat!

If his wife went out, at the very least, she could choose to side with one of the three suns, Silver Moon, or the central continent. They still had some status.

One had to admit that Hong Yitang was quite bold.

When they were about to enter the city, he let his wife take the lead and leave first.

Even if he were to die Here, swords gate would not fall so easily.

If he did it right, even if he could not keep hei Teng, he could sell him to the three major organizations or the night patrolmen, and he would be able to obtain a considerable amount of mystical energy. The prerequisite was that they could keep him.

On Red moon's side, all the players under the sunlight had left. The sunlight, on the other hand, did not leave. However, there were not many of them, only four.

On the Yama's side, only one person left. He was in charge of bringing hei Teng away. The remaining two did not leave either.

On the fairy's side, there were 13 fairy powerhouses left. Six of them had left this time, and the remaining seven were actually all sunlight ... They were really not weak. Clearly, the fairy still had some ambition.

The two three suns were not the strongest, but with the addition of these seven sunlit ... They still had the power to fight!

The discussion ended.

As for the night watchers, two of the three suns, three of the sunlit realm, five of the Dark Moon realm, including Zhang Ting, and Li Hao's group were left behind. There were a total of 12 of them, which was the largest number.

Fei Tian was second, leaving behind 9.

Hong Yue, Yan Luo, and swords gate, there were nine of them in total, and only Hong Yitang from swords gate remained.

At this moment, it was certain that only these 30 people would stay. The rest would leave.

Hao lianchuan glanced at Yue Ming, who had stayed behind ...

To be honest, these people were staying because they were either really greedy or ... They were spies and didn't want to leave before the situation was unclear.

The three major organizations only dared to let sunlight stay behind.

As for the night watchmen, there were actually five moon nether spies left behind. Not to mention Zhang Ting, Hao lianchuan actually knew that one of the other four was a spy. He did not know which side he was on, but he could be from the official system.

It might be from the state Administration!

So, he didn't care if they stayed.

The path he had chosen, he had to walk it himself.

Don't blame others if you die!

The swords gate, even the three suns had retreated, obviously they knew that the upcoming battle would be very dangerous. Anyone with eyes knew that once the treasure appeared, the battle between the three suns would be inevitable. If they dared to stay, then they would have to die.

He wasn't worried about the others, but he was worried about Li Hao.

Li Hao ... Was still too weak.

This guy said that it would be dangerous to go out, but Hao lianchuan felt that with hou Xiaochen around, even if there was danger, it wouldn't be too great. Staying here ... Was even more dangerous!

.....

Hao lianchuan walked toward Li Hao and frowned when no one was looking."It's best if you go out ... Minister hou can protect you. Don't worry, if Minister hou can't even solve some small problems, Silver Moon would have long been unstable!"

"I don't trust him. I'm not familiar with him. I only trust Hao bu!"

Li Hao was determined and said, I'm not entering the city! If the three suns really come out, I'm a Martial Master. If I hide, the three suns won't waste time looking for me ... Unless Hao bu and general Hu are both dead, I'm actually very safe!"

Chapter 486: the city gates open (3)

...

It made sense when he thought about it this way.

'This kid's words are a little harsh. You're the one who's dead!'

Hao lianchuan stopped trying to persuade him and glanced at Liu Long. Liu Long was a Martial Master douqian. As long as he did not participate in the battle of the three suns, he could still protect himself in the sunlight. Moreover, the others were likely to enter the city. If he did not enter ... It would not be too dangerous.

He nodded and did not say anything else.

Soon, everyone began to evacuate.

Hao lianchuan also had a mission. He, Hong Yitang, and Kong Qi were responsible for keeping an eye on Zi Yue and not giving her a chance to enter the city alone. Hu dingfang and the others were preparing to take the second passage.

.....

They retreated, but Li Hao didn't.

Even Liu Long followed ... He had no choice but to leave.

Liu Long walked through the second passage. If he didn't take it, everyone would be worried that he would enter the city alone. Li Hao didn't care. In any case, this guy didn't take the second passage. Even if he had the chance, he wouldn't be able to fly in.

Other than Li Hao, a few other superpowers who had never entered the second gateway chose to stay.

That included Wang Ming!

At this moment, Wang Ming was hesitating, a little unwilling and a little depressed."Li Hao, do you think I should go and try? However, Hao bu said that it's best if I don't go in. I've just advanced and my power is unstable. If I go in, the death rate is 99%."

"For your own good!"

Li Hao agreed. He had a general understanding of the mechanism of the second passage. The stronger one's superpower was, the more information would be leaked, and the more dangerous it would be!

The experts could resist.

But Wang Ming had just advanced, his superpower was unstable, and he wasn't that strong ... It would be strange if he didn't die.

That Yaocheng must have been injured and lost too much of his power. In addition to that, his strength was damaged, so he died.

Then, Li Hao looked at Zhang Ting and said with a smile,""Sister Zhang, why did you stay?"

Zhang Ting smiled kindly and said,""I won't enter the city either. I'm staying because my water energy isn't good at fighting. It's good at healing. At critical moments, it can heal life-threatening injuries ... After all, if I want to leave, I can't do it tonight. I can only wait until tomorrow night. If I delay too long, some injuries will die ..."

"So, I'll be waiting with you outside the city," she said softly.

"Healing?"

Wang Ming's interest was piqued."Sister Zhang, I was wondering why you would stay. So it's because of this ... Sister Zhang is really generous!" Sister Zhang, I've suffered a small injury before. Would you like to treat it for me?"

It was actually not a bad choice to have a doctor stay.

Just as she said, once there was a life-threatening injury, and the remains could not be opened, there was still a long time before the door opened at night. At this time, there was a doctor to ensure that he would not die immediately.

Therefore, it was reasonable for her to stay.

“Sister Zhang,” Li Hao laughed, “don’t we Nightwalker have healers at the radiant sun tier?”

“No, I didn’t,”

Zhang Ting shook her head, “healers are actually very special and rare!” There are wood, light, and water types that are good at this. In fact, the wood type’s life type variant is the most suitable for healing, but it’s a pity that there aren’t many in the central continent, let alone Silver Moon.”

“Previously, there were a few light-type healers on Light Island. Most of Silver moon’s light-type healers have been absorbed by them ... Therefore, all the large organizations now mainly have Water-type healers!”

“However, water can also attack, so most people still choose the attack system and not the healing system.”

Li Hao nodded. “The life system ... So there’s such a system. I’ve learned something new!”

Then, he added, “sister Zhang, you have to be careful. You don’t have much attack power. It’s better for you to stay near us. My boss is very powerful. He’s a warrior master!”

Li Hao chuckled. “Martial Master douqian is very powerful. With him around, as long as we don’t enter the city to steal the treasures, no one will find trouble with us.”

Master douqian!

At the side, Liu Long was silent.

Zhang Ting’s eyes were also a little strange, but she quickly nodded, “Congratulations, chief Liu. I didn’t expect that you would still be able to step into the thousand warrior stage in the end. Back in the day, I’ve heard of your great name in the White moon City. You ruled the entire city by yourself ...”

That was Liu Long’s famous saying. Back then, the White moon City had asked him to go on night patrol, but he refused and insisted on returning to the Silver City. He had made a bold statement that he could rule the entire city alone.

He wanted to guard the Silver City alone!

At that time, he was only a Martial Master who had broken through 100.

And now, he had stepped into the thousand warrior realm ... Thinking about it now, Liu Long shook his head and didn’t say anything.

One man holding down a city ... That was just a statement of anger!

Today, superpowers were getting stronger and stronger. Especially this time, the three suns could be seen everywhere, so how could he have the confidence to rule a city alone?

He didn't mind that Li Hao had exposed his identity as a Martial Master douqian.

This kid ... Was black-hearted!

He was a warrior of the thousand world, so of course everyone's attention would be on him. Who would care about a sickly Martial Master who was over a hundred? Li Hao's face was extremely pale.

He might have really been injured before, but now ... Liu Long suspected otherwise.

Zhang Ting ... He knew this.

Water element mid-stage three yang!

Li Hao had been staring at her for a long time. Previously, Li Hao seemed to have given up, but now ... This woman didn't leave, and even approached him. If Li Hao didn't have any thoughts about her, he, Liu Long, would twist his head off! 1

Li Hao continued, "sister Zhang, Did you know?" Old Wang has entered the sunlight ..."

"Of course!" Zhang Ting laughed. "Everyone knows him. He's the youngest sunshine powerhouse in Silver Moon!"

Wang Ming laughed heartily, then pretended to be reserved. "Don't say that. I'm already 20 years old. Actually, I'm not young anymore. In the central region, 20-year-old people have already entered the three suns!"

Chapter 487: the city gates open (4)

...

After saying that, he couldn't help but laugh.

These words were really comfortable to hear.

At this moment, he suddenly felt that this unfamiliar sister Zhang had a really nice way of speaking. It was a pity that she was a little old, and some people were old. Otherwise, they could chat more.

As they chatted and laughed, there were people watching them from the side.

He was a sunshine powerhouse from Yama.

The man had some scars on his face. He suddenly looked at Liu Long and said with cold eyes, "Liu Long, you've stepped into the tide changing realm?"

Liu Long looked over, but he didn't recognize her and didn't want to talk to her.

That person was still looking at him and said coldly, "So ... You killed Tiger soul, right? At that time, all of you disappeared and entered the city, and Tiger soul also entered the city at the same time. The clothes he left behind have fist marks on them ... We were wondering if someone from swords gate had made a move ... But now, it seems like you killed Tiger soul to avenge that B * tch Liu Yan!"

Liu Long shot him a glance and coldly said, "So what if I am?"

At this point, he was too lazy to deny it.

This person might be related to the Tiger soul.

The scar-faced riyao laughed coldly, "It's you! You should know that after Tiger soul joined Yama, he has been following me. I raised him with my own hands ..."

Liu Long coldly looked at him.

This person was very strong!

He estimated that it was probably the late stage of the sun glory realm, or even the peak stage ... But was he, Liu Long, afraid?

On the side, Wang Ming didn't wait for Liu Long to speak before he cut in and scolded, "What's wrong with that? Do I need your permission to kill a wanted criminal? This time, only a few of the Yama are left. Be careful that your Samsara King won't be able to come out after entering. You're looking for trouble, right? do you believe that you won't be able to leave alive?"

At this moment, he was not afraid of anything.

Of the three great organizations, the Yama was in a terrible state this time.

The Samsara King, didn't he have the three suns to block it?

Only two from sunlight remained.

If a fight really broke out, the people left behind by the night patrollers would not be afraid of them.

If he were to fight him alone, he would naturally be inferior to his opponent. However, wasn't Liu Long a Qian warrior?

They couldn't beat this guy even if they joined hands?

The Yama expert laughed coldly but did not say anything else.

Liu Long!

Tiger soul was indeed killed by him, this bastard!

Tiger soul was an expert of the heavy earth element and had entered the glorious sun realm. Once he grew up, his combat strength would be very terrifying. Unfortunately, he had died in the outer city at the first opportunity. It was an extremely unfortunate thing.

On the side, Li Hao only listened in silence and didn't interrupt.

He would sometimes look at the city gate, or at the end of the street to see if those people had returned from the second passage.

Hu dingfang would enter the passage this time ... And so would Minister Zhou of the metal department.

He didn't know if it would be safe.

Li Hao coughed and bled again. On the side, Zhang Ting saw this and said, "Li Hao, are you alright? why don't I help you take a look ..."

"No need!"

Li Hao shook his head and smiled. "Sister Zhang, a Martial master's body ... Can't be casually seen by others. Teacher said that it's easy to reveal some secret techniques ... I'm sorry!"

"It's fine, I'm just worried that you're too heavily injured ..."

"It's okay!"

Li Hao took out the last blood God and smiled. "This is a Supreme healing treasure. I'll probably be fine after taking this Scion of the blood God."

After saying that, he swallowed the last blood God's clone at the radiant sun realm.

The power of the red shadow moved around in his body.

Soon, his five internal organs and body were all absorbing this energy.

Today, Li Hao had taken three sunslayer Blood God's pellets in a row. He had just stepped into the Qian warrior realm, and his unstable inner strength was now completely full.

Zhang Ting saw that his face was ruddy. After waiting for a while, she saw Li Hao open his eyes and couldn't help but say, "Are the effects of the blood God's illusions really that good?"

Li Hao nodded and said, "it's very good!" When combined with the breathing technique of five birds, it's simply a treasure ... Unfortunately, I can't teach it to outsiders. Otherwise, I'd be willing to teach anyone who wants to learn it ... Unfortunately, my teacher doesn't allow it!"

He sighed and shook his head. "This is the only bad thing about the martial arts world. You're too selfish. Many precious secret techniques have been lost!"

Zhang Ting's heart was burning with excitement.

The breathing technique of five birds!

Unfortunately, only two people knew how to do this, Li Hao and Yuan Shuo.

As for Chen Yu Hua ... That last disciple of his back then, most people wouldn't even consider him. That person had disappeared for many years and had been expelled from the sect a few years ago. Actually, Zhang Ting vaguely knew that he had entered the Tiger soul Army and was difficult to touch in the military.

Now that Yuan Shuo was so powerful ... Li Hao was actually the best Breakthrough point for him to obtain the breathing technique of five birds.

As everyone was talking, a sound came from the distance.

In a short while, everyone returned.

When Li Hao saw Hu dingfang, he heaved a sigh of relief. It wasn't that they had a good relationship, but that something had happened to him ... It would be really dangerous for him to stay. As long as he was alive, the night patrolmen would have some confidence.

Hu dingfang's expression was normal, and he didn't see anything.

However, when Li Hao took a closer look ... Hu dingfang's ball of light had become much weaker, and so had the Samsara King. Not only that, but the origin god weapon in his body seemed to have been damaged.

As for Ding Chen, he was at the middle stage of the three yang realm and wasn't injured too badly. His injuries weren't that bad, just like Hong Yitang's, and he also had an origin divine weapon in his body!

However, in comparison, it was about the same as Zhang Ting's spear. It was not very powerful and was far inferior to the Phoenix spear.

It seemed that Fei Tian had also brought an origin divine weapon this time.

No one could see it more clearly than Li Hao. Almost no one present could hide it from him. 1

Chapter 488: the city gate opens (5)

...

He could clearly see who was injured and whose strength was damaged.

The three three three suns that went in all came out alive.

As for riyao, it seemed like only Minister Zhou went in. This one ... Seemed fine.

The peak of the sun glory realm was neither too strong nor too weak. He had been in this realm for many years and had good control of his superpowers. This kind of person was the safest. Most of the people who came out of the second passage were not injured. Most of them were stuck at the peak of this realm.

Zhao Huan, who was in the middle stage of the earth element, did not enter the second passage.

.....

The crowd gathered again.

30 people, not a single person missing.

However, these people were not in a hurry to enter the city. Instead, they began to wait.

What was he waiting for?

He was waiting for the door to the ruins to open so that the group of people from before could leave.

There was another reason for him to wait ... He was waiting for the door to the ruins to open. The next time it opened would be tomorrow night, which would give him a full day. That way, even if someone accidentally took the treasure ... There would be time for others to besiege and steal it!

Otherwise, it would be very easy for someone to escape if the door to the ruins was only an instant away from opening.

These three suns had all calculated it clearly.

At this moment, there was still some time before the door to the ruins opened.

At this time, since they had nothing to do, Hao lianchuan took the initiative to say, "Everyone, do you have any thoughts or clues about the venerable sovereigns and human Kings that the heaven-battling Army mentioned?"

No one answered him.

Hao lianchuan was not angry. He smiled and said, "the information of the three major organizations is different. The night patrollers also have some information. Since we've met, why don't we exchange what we need? it's all from the ancient civilization era. Wouldn't it be better to know more?"

He took the initiative to say, "actually, night watchman, I do have some understanding of it. According to some ancient records that we've obtained, during the ancient civilization era, there seemed to be a level of human King. I don't know if it's a title or a position ... Human King, as the name implies, is the king of the human race! There might not be only one human King, but it might be passed down from generation to generation. For example, the Heavenly Star King of the current dynasty ... Can actually also be called a human King ..."

As soon as these words came out, the Lord of Samsara sneered, "Heavenly astral King? The human King?"

He said sarcastically, "a royal family that has lost even the power of the dynasty can be called the human King? Do you even know what a human King is? According to the ancient records, the land of the human King was the king's land! Be it the starry sky, the ocean, or even the universe, the ancient books might have exaggerated a little, but according to some scattered records from back then, the territories that the human King saw, whether they were his or not, would soon be his! In this aspect, is it something the current heavenly astral King can compare to?"

He was disdainful!

On the other side, Ziyue also said indifferently, "Forget about the Heavenly Star King, let alone the current one who founded the Heavenly Star dynasty hundreds of years ago ... He can barely be called a human King!"

Only the person who started the dynasty had some qualifications.

As for this generation's heavenly astral King, it was only in name. The power was in the hands of the nine divisions, so who would take the royal family seriously?

Hu dingfang glanced at them and did not say anything.

Logically speaking, he should be angry.

After all, he was a general of the star dynasty's military.

But ... It was meaningless.

The Silvermoon province and the border provinces, to be honest, did not have much respect for the imperial family or the nine divisions. Silvermoon was self-sufficient, and the dynasty did not provide much help.

At critical moments, they would even transfer some resources and military power to support the central region. Even a soldier like Hu dingfang didn't like those guys in the central region.

The discussion about the human King quickly shifted to the star dynasty. These people were more interested in this.

As for the ancient civilization, it had been countless years. Who would still care about it?

Moreover, they had too little information at the moment, and they were not willing to share some things publicly.

The few of them soon began to argue about the situation in the star dynasty.

Li Hao had no interest in hearing this.

These guys were all wily old foxes. The words they said were not very useful, and they were all ambiguous.

At this moment, he once again looked at the two big words on the city gate ... This was actually a kind of willpower training.

His eyes were different from the bloodshot eyes he had seen before. Now ... Li Hao could actually bear it.

It was still that faintly discernible back!

Li Hao didn't dare to look at his back for too long ... In fact, he was more interested in the saber ... The saber at his waist. Even though the saber was not unsheathed, Li Hao could vaguely see the saber intent.

A saber intent that could kill all enemies!

With a single slash, the heavens and earth were shattered!

Even if this person had not drawn his blade.

The last time he saw a sword, one sword cut off Changsheng, so he comprehended sword force.

At this moment, Li Hao was looking again ... Not to comprehend Saber Force, but to strengthen his sword force!

Whether it was a saber or a sword, they were all weapons of slaughter.

In essence, it was the same.

However, that sword cut between us, determined, life or death, and blood must be seen when the sword was drawn.

However, this saber ... Was even more domineering!

Under my blade, hundreds of soldiers will submit!

When the blade was out, all life would worship it!

It was just that feeling ... Li Hao didn't know if he was right, but he was still willing to think about it.

Perhaps, if he was closer to it, closer to the word, he would have a more intuitive feeling.

The sword momentum also had some slight changes.

The current Li Hao had yet to set his mind on these things. Every time he saw more things, he would gain something of his own. He was absorbing everything he saw like crazy and absorbing the essence within. Perhaps he could forge his own path.

Chapter 489: -the city gate opens

...

After watching for a while, Li Hao closed his eyes and thought about the sword of the silver-tier warrior.

This was more intuitive!

He had seen it with his own eyes!

As for the others, they were too far away and too powerful. They far exceeded what he could comprehend at his level. He had only comprehended a superficial understanding.

Only that sword ... Li Hao was deeply touched!

The sword of anatta!

To live towards death!

He ignored all the words and noise around him. These people were not martial masters, so they didn't understand. Even if it was just a sword strike from the silver-level expert, it was enough to make people enjoy it for the rest of their lives.

Wasn't it stronger than any origin divine weapon?

The captain didn't use a weapon, or rather, he didn't use a sword, so he probably didn't have much insight. Li Hao happened to be half a swordsman, so he kept thinking about this.

In his body, his inner strength had transformed into a sword.

The sword momentum entangled!

At this moment, the sword momentum and inner strength seemed to have integrated into one. The locked terrain in the five internal organs also began to stir.

At this moment, Li Hao really wanted to draw his sword and fight!

He wanted to try this sword!

What sword?

The silver-tier warrior's sword that slashed towards the sky!

Unfortunately, there were too many people around, so he suppressed this impulse.

.....

In the distance.

Hong Yitang suddenly glanced at Li Hao in surprise. He even felt that he might have ... Sensed it wrong?

Li Hao had his earth overturning sword next to him.

He had used it for many years, and it could be considered a success. He even had a weak sense when he was close.

Just now, he suddenly felt that his earth overturning sword was restless and had the feeling of taking the initiative to attack.

That faint sword intent ... As someone who had once comprehended force, which was also sword force, to him, it was exceptionally different.

He took another look at Li Hao.

Hong Yitang felt a little strange. He had given the sword to Li Hao for many reasons. First, Li Hao's teacher was Yuan Shuo, the number one Martial Master. Hong Yitang had no way back, but his daughter was a Martial Master. This was an investment or a show of goodwill.

They were both members of the Silver Moon martial arts world, so perhaps ... Her daughter could also step into the spirit accumulation realm?

Second, Li Hao had killed sun moxian with his sword, so he had a chance of becoming a warrior of Qian combat. He was a warrior of Qian combat and the disciple of yunshen. He had high hopes for Li Hao, provided that Li Hao didn't die early.

Thirdly, swords gate was still in Silver Moon province. Don't forget, Silver Moon was still under the government's control, and Hao lianchuan, hou Xiaochen, Hu dingfang and the others were the true rulers of Silver Moon!

As for Li Hao ... He seemed to have a good relationship with Hao lianchuan. He actually vaguely knew something about Hu dingfang and could barely be considered half an apprentice ... Even if Yuan Shuo would never admit it!

In Silver Moon, it was necessary to maintain a good relationship with Li Hao.

For various reasons, he had given her his sword.

But now, he was a little confused. Li Hao ... This sword intent ... Was it from him?

That vague, fleeting feeling, filled with overbearing, murderous, and resolute sword intent ... Could it have come from this young Martial Master with little experience?

He was looking at Li Hao when Li Hao suddenly looked back at him.

Slightly stunned, Li Hao saw that the other party was looking at him and smiled. His smile was kind and friendly!

Hong Yitang, on the other hand, moved slightly.

He also smiled and did not say anything.

.....

Time slowly passed.

After an unknown period of time, someone's voice was suddenly heard. It was somewhat boiling and somewhat sharp.

Li Hao didn't know what was going on, but judging from the others' reactions ... They probably sent a signal before they asked those people to go out. Those people ... Had gone out!

The next moment, the three suns stood up.

"You guys go in first and try to open the gate," Hao lianchuan said. "It'll be best if you can open it, but if you can't ... We'll wait for you outside!"

The few of them did not say anything.

At this time, it didn't matter whether they opened the city gate or not. It would be best if they could. Otherwise, if Hao lianchuan and the others waited outside and a fight broke out inside, wouldn't they be the ones to benefit?

In the next moment, Hu dingfang, Zi Yue, the reincarnation King, Ding Chen, and Hong Yitang all rose into the air and flew into the city.

Outside, Hao lianchuan and Kong Qi were waiting in silence.

Everyone looked at the huge city gate with some anticipation. Could it be opened?

If he could ... Even if he didn't enter the second passage, he would still have a chance to search the city. Maybe there were some treasures left behind?

After an unknown period of time, a rumbling sound was suddenly heard from the huge city gate.

At this moment, the tightly shut city gate began to move to the sides.

It opened!

At that moment, Hao lianchuan and the others were also overjoyed!

It was finally open!

Boom! Boom! Boom!

The city gate of Heaven battling city, which had been sealed for countless years, was finally opened at this moment.

.....

At the same time.

The inner city.

As the city gate was opened, the turtle above the tower-shaped building ... Seemed to have opened its eyes.

The heaven battling city's Gate ... Was opened!

In the past, every time the city gates of war heaven opened, it would be filled with a hubbub of voices. Now ... With the passage of time, things had changed when the city gates were opened again.

.....

Next to the tower-shaped building, there was another building. It was not too tall, but it took up a lot of space.

At this moment, in this building, on a huge throne, there was a person ... Or rather, armor.

Golden armor!

The armor didn't move at all, but it was holding something in its hand. Upon closer inspection ... It seemed to be a turtle shell, and the turtle shell was exuding a faint glow. It seemed to be the core of the entire ancient city.

It had always protected and protected the ancient city, allowing heaven battling city to exist for tens of millions of years.

The energy on the turtle shell was like the moonlight and the starry sky. It was exceptionally beautiful.

As the city gate opened, the tortoiseshell trembled for a moment, but it soon calmed down.

It was as if he was trying to distinguish something, but also as if he was expecting something.

The Golden armor stood still, and there was only silence.

.....

Outside the city.

At this moment, there was only joy and joy!

The ancient city had opened!

The moment the huge city gate opened, many figures rushed in quickly, including Hao lianchuan. At this moment, he could not stay calm. The night watchmen had thought of countless ways, but they could not open the city.

And today, it was finally open!

"Li Hao, you guys be careful ..."

After saying this, he ran away. Even though he knew that Zhang Ting was here, he didn't care. Zhang Ting wouldn't expose herself. She was just an observer, provided that Li Hao didn't provoke her.

Probably ... Not?

After all, her Black Phoenix and silver Phoenix were gone. Why would Li Hao provoke her? 1

Chapter 490: three heroes killing three suns (1)

...

The group of people rushed into the city.

His target was the tower in the center of the city.

Before the huge city gate was fully opened, these people were already impatient. The experts who could fly directly broke through the air and left.

In the blink of an eye, there were only seven or eight people left outside the city out of the 30.

Wang Ming also wanted to charge ...

But when he saw that Li Hao and Liu Long didn't move ... He became anxious!

"You guys really don't want to go?"

He was so anxious!

The city was full of treasures!

Even if he didn't go to the tower, who knew if he could enter the other ancient houses?

Perhaps there was a treasure vault that was directly opened?

There might even be an Armory!

Yes, the armors in the Armory didn't appear out of thin air, right?

Even if it was just a black banner, it was still a treasure.

If there was a replaced bronze Gu, silver Gu ... If there was a gold Gu, wouldn't he be rich?

They had no intention of snatching the origin divine weapon from the big shots!

However, even picking up a few benefits was enough for them to be free.

"It's dangerous in the city,"

Li Hao stood at the city gate and said softly, "We'll just wait here, what's the rush?"

Nearby, Yama's riyao actually didn't go in either, but looked at them in silence ... Seeing that Liu Long, Wang Ming, and the others didn't leave, he frowned slightly.

He had originally thought that he wouldn't be polite to Liu Long after Wang Ming went in ...

But now it seemed ... Forget it!

He didn't want to waste time here. He snorted and quickly rushed inside.

I'll go look for the treasure first, and settle the score with them later.

On the night patrolman's side, the other dark moons were also getting restless. That's right, they wouldn't go to snatch the treasures but just go to the city to take a look. That should work, right?

Wouldn't it be strange if he chose to stay and not enter the city?

A moment later, they greeted Wang Ming and the others, then entered the ancient city one after another.

In the blink of an eye, only Liu Long and the others were left.

"Sister Zhang, aren't you going in to take a look?" Li Hao looked at Zhang Ting.

Zhang Ting shook her head. "I'm mainly in charge of the treatment, and it's only Yueming. It'll be very troublesome if I encounter other people in there. Besides, I'm not in the second passage, and I can't fly ..."

She didn't plan to enter. She just wanted to watch from here.

Of course, if both sides were injured from the fight inside, and a third Sun came out ... Then don't blame her!

Waiting for an opportunity was also a good choice.

Li Hao sighed.

Zhang Ting felt that something was wrong and asked, "What's wrong?"

Li Hao shook his head.

Nothing much!

It's just that ... The others have left, so why are you still here?

To be honest, his sword energy had been exhausted. He was not interested in taking the risk to attack a three-sun.

It was too dangerous!

But ... If you don't leave, do you think I'll have the time to observe the two words 'Zhan Tian'?

He had already urged the other party to leave ... So why was he still not leaving?

The middle stage of the three yang realm is very strong ... But if you pretend to be a pig now, you might really become a pig!

Li Hao looked at the inner city. There were less than 30 people scattered across the huge inner city. In fact, they had disappeared without a trace in the blink of an eye. This city wasn't too small. Back then, it had a population of at least a million.

Although he could see the tall tower in the center of the city, he could see that it was at least twenty miles away.

Even three suns would need some time to get there.

Li Hao watched in silence.

Wang Ming said anxiously, "you're really not going?" Li Hao, the city is so big. If you're afraid, let's find a more remote place. It'll be a pity if we miss it!"

Didn't he choose to stay for the sake of benefits?

He was dying of anxiety!

Li Hao frowned. "I told you. I'm only staying here to wait for the Minister and the others to come out. What's the hurry?" If you're in a hurry, go in by yourself!"

"But ..."

"Aren't we a team?" he asked helplessly. If you don't go ... Can I leave? Besides, that Yama guy just now has his eyes on us. If I leave and he suddenly comes back, can chief Liu deal with him alone?"

This guy finally found his conscience. He sighed and said, "Forget it ... It's ... It's such a pity!"

If these two weren't going, he wouldn't go either.

Otherwise, when Yama's sunlight returned, Liu Long might not be able to deal with it.

The three suns weren't interested. The others were looking for treasure, but that guy seemed to hold a grudge.

"Treasures might not only be found in the city!"

Li Hao suddenly said.

They quickly looked at Li Hao.

Li Hao raised his head and looked at the sky instead of the sky above the city gate. He said softly, "I think ... These two words are very unusual. Do you think it's a treasure?"

Everyone looked at the two words "Zhan Tian," but they couldn't make out anything.

Zhang Ting, too, looked at it carefully, but she couldn't see anything.

They actually didn't know how to read.

He couldn't tell anything from the feeling, just that it was very natural and smooth. As for treasures ... He didn't feel anything.

"We can't fly up to see ... Forget it, let's just wait!"

Wang Ming was extremely regretful.

Li Hao laughed. "Not necessarily. I don't think this place has any flight restrictions for martial masters!" Or rather, the air restrictions here might only be to prevent energy fluctuations ... Otherwise, could the

people of the ancient civilization be ordinary people? Just because I jump a little higher, I'll be attacked?"

"If there were martial masters in the ancient civilization, would they die if they flew a little higher during their normal practice?"

"No flight restriction ... I think it's targeted at people who are overflowing with energy."

"If there's a tall building in the city, could it be that if it's more than 5 meters tall, those people would have already passed through the second passage?"

"....."

Wang Ming frowned slightly and glanced at Li Hao."You want to go up and take a look?"
